Date Rule Proposed: July 11, 2008

Name of proposed rule being terminated:

SPA2008-011 Reimbursement to laboratory and radiology providers

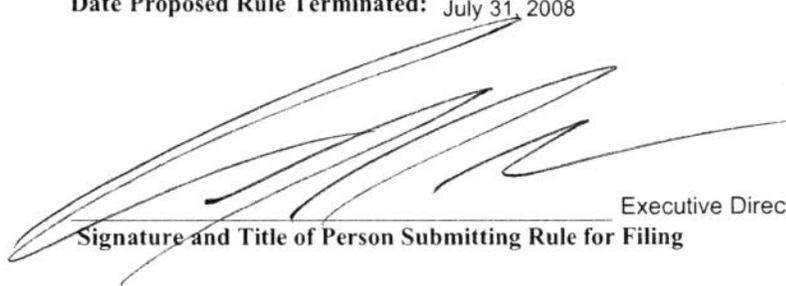

Explanation of the purpose of the proposed rule and the reason(s) for proposing the rule:

Pursuant to Miss Code Ann. § 43-13-117 (1972 as amended), if current or projected expenditures of the Division are reasonably anticipated to exceed the amount of funds appropriated to the Division for any fiscal year, the Governor shall discontinue any or all of the payment of the types of care and services provided under this section that are deemed to be optional services and when necessary, shall institute any other cost containment measures on any program or programs authorized under the article to the extent allowed under the federal laws governing that program. Therefore, this State Plan Amendment reflects necessary cost containment measures to assure Medicaid operates within expected revenues as described. This State Plan Amendment will affect laboratory and radiology providers.

Reason(s) for terminating the proposed rule:

After additional deliberations, the agency has determined that the proposed rule should be withdrawn in consideration of other options.

Date Proposed Rule Terminated: July 31, 2008

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES-OTHER TYPES OF CARE

Independent Laboratory and X-Ray Services

Payment is made from a statewide uniform fee schedule based on 70 percent of the Medicare fee schedule with adjustments as authorized by the state Legislature.

Independent laboratory and x-ray services for EPSDT recipients, if medically necessary, which exceed the limitations and scope for Medicaid recipients, as covered in this Plan, are reimbursed according to the methodology in the above paragraph.

The Division of Medicaid, as required by state law, shall reduce the rate of reimbursement to providers for any service by ten percent (10%) of the allowed amount for that service.

**Economic Impact Statement
For
Laboratory and Radiology Providers**

The Executive Director of Medicaid is required by law to recommend expenditure containments when expenditures are expected to exceed funds available for any fiscal year. Medicaid is facing a \$90,000,000 shortfall in state revenues for FY2009; therefore, certain cost containment measures have been identified as necessary to balance Medicaid's budget. These measures include reducing certain non-institutional providers an additional 5% reduction in reimbursement in addition to the 5% reduction as outlined in Miss. Code Ann. § 43-13-117 (1972 as amended).

It is estimated that it will cost the Division of Medicaid approximately \$5,000 to enforce the increased reduction in payments to providers. This includes system changes and staff time.

An estimate of the total economic impact for laboratory and radiology providers, including small business providers, is noted in the chart below. The total economic impact for providers in State FY 2009 is equal to the sum of federal and state savings noted in the chart below. The Division of Medicaid estimated the impact utilizing the actual and estimated expenditures for the same services for FY2008..

FFY2008 Federal Savings	FFY2008 State Share Savings	FFY2009 Federal Savings	FFY2009 State Share Savings
\$ 106,112.54	\$ 32,978.48	\$632,919.79	\$201,626.35

The Division of Medicaid is facing a \$90,000,000 shortfall in state revenues for FY2009. If this cost containment measure is not enacted, there will not be sufficient revenues to reimburse providers for the entire year.

State law limits cost containment measures that may be taken and precludes the Governor from changing eligibility or benefits; therefore, the only option is to reduce expenditures is to reduce payment.
