Notice of Proposed Rule Adoption

Office of the Governor
Division of Medicaid**

**Economic Impact Statement
For
Durable Medical Equipment and Supply Providers**

The Executive Director of Medicaid is required by law to recommend expenditure containments when expenditures are expected to exceed funds available for any fiscal year. Medicaid is facing a \$90,000,000 shortfall in state revenues for FY2009; therefore, certain cost containment measures have been identified as necessary to balance Medicaid's budget. These measures include reducing certain non-institutional providers an additional 5% reduction in reimbursement in addition to the 5% reduction as outlined in Miss. Code Ann. § 43-13-117 (1972 as amended).

It is estimated that it will cost the Division of Medicaid approximately \$5,000 to enforce the increased reduction in payments to providers. This includes system changes and staff time.

An estimate of the total economic impact for durable medical equipment and supply providers, including small business providers, is noted in the chart below. The total economic impact for providers in State FY 2009 is equal to the sum of federal and state savings noted in the chart below. The Division of Medicaid estimated the impact utilizing the actual and estimated expenditures for the same services for FY2008.

FFY2008 Federal Savings	FFY2008 State Share Savings	FFY2009 Federal Savings	FFY2009 State Share Savings
\$ 128,114.28	\$ 39,816.35	\$ 764,151.57	\$ 243,432.25

The Division of Medicaid is facing a \$90,000,000 shortfall in state revenues for FY2009. If this cost containment measure is not enacted, there will not be sufficient revenues to reimburse providers for the entire year.

State law limits cost containment measures that may be taken and precludes the Governor from changing eligibility or benefits; therefore, the only option is to reduce expenditures is to reduce payment.
