200.04.02 INFREQUENT AND IRREGULAR INCOME EXCLUSION

For this exclusion to apply, the earned or unearned income must be received infrequently or irregularly. This provision does not apply to unearned income that is subject to other exclusions, i.e., infrequent or irregular child support, subject to the one-third child support exclusion.

- **Infrequent Income** – Effective September 8, 2006, income is considered to be received infrequently if an individual receives it only once during a calendar quarter from a single source **and** the individual did not receive that type of income in the month immediately preceding that month or in the month immediately subsequent to that month, regardless of whether these payments occur in different calendar quarters.
- **Irregular Income** – Income is considered to be received irregularly if an individual cannot reasonably expect to receive it.

Exclude the following amount which is received either infrequently or irregularly:

- The **first** \$30 per calendar quarter of earned income; and
- The **first** \$60 per calendar quarter of unearned income.

The exclusion can apply to both earned and unearned income in the same month, provided the total does not exceed the limits stated above. Thus, it is possible to exclude as much as \$90 in a quarter under this provision when applicable.

NOTES:

- A single source of earned income is defined as an employer, trade or a business.
- A single source of unearned income is defined as an individual, a household, an organization or an investment.
- The exclusion is applicable to income received infrequently or irregularly by an eligible, individual, eligible or ineligible spouse, ineligible parent(s) and ineligible children.
- The dollar amount of the exclusion does not increase, even if both an eligible individual and spouse (eligible or ineligible) have infrequent or irregular income.
- Effective September 8, 2006, if an individual begins receiving a recurring payment (like a Social Security check) in the third month of a quarter, the payment does not meet the definition of infrequent because it will be received in the following month, even though the following month is in another quarter. The same would be true if the recurring payment ended in the first month of a quarter, but had been received in the prior month in another quarter.

INFREQUENT AND IRREGULAR INCOME EXCLUSION (Continued)

Example: Mr. Jones receives \$500 rent in October each year for land he rents to a local farmer. The money meets the definition of infrequent in that it is received only once during a calendar quarter from a single source and Mr. Jones did not receive rental income in the month immediately preceding or immediately subsequent to October; therefore, the first \$60 is excluded, and \$440 is counted as unearned income in the month received.

Medicaid Income Computation

In post-eligibility budgeting to determine Medicaid Income, recurring infrequent income, such as the annual land rental payment in the example above, is averaged over the period the income is intended to cover if the client is income-eligible in the month the payment is received without averaging. Refer to the Institutionalization chapter for more information.

200.04.03 PLAN FOR ACHIEVING SELF-SUPPORT (PASS) INCOME EXCLUSION

The Social Security Act permits the exclusion of income and resources of a person who is blind or disabled if the person needs such income to fulfill a Plan for Achieving Self-Support under an approved plan. This exclusion applies to a blind or disabled individual under age 65, or age 65 or older if the individual was receiving SSI, disability or blind payments, for the month before he became age 65.

The income of a blind or disabled recipient, whether earned or unearned, may be excluded under an approved PASS when the income is set aside for a planned expenditure determined necessary to achieve the individual's occupational objective. To be eligible for this income exclusion for Medicaid, the individual plan must be submitted to state office for approval. The plan submitted must:

- Include the objective and time period for achieving it;
- Include the amount of money involved; and
- Be currently in use by the individual.

NOTE: With the implementation of the Working Disabled Program with higher income and resource limits, PASS income and resource exclusions are rare.
