Notwithstanding any other provisions of the Mississippi Medicaid State Plan, the financial eligibility methodologies described in State Plan Amendment 13-0021-MM3 will apply to all MAGI-based eligibility groups covered under Mississippi's Medicaid State Plan. The MAGI financial methodologies set forth in 42 CFR § 435.603 apply to everyone except those individuals described at 42 CFR § 435.603(j) for whom MAGI-based methods do not apply. This State Plan Amendment supersedes the current financial eligibility provisions of the Medicaid State Plan only with respect to the MAGI-based eligibility groups.

MAGI-based Income Methodologies

S10

1902(e)(14)
42 CFR 435.603

- The state will apply Modified Adjusted Gross Income (MAGI)-based methodologies as described below, and consistent with 42 CFR 435.603.

In the case of determining ongoing eligibility for beneficiaries determined eligible for Medicaid on or before December 31, 2013, MAGI-based income methodologies will not be applied until March 31, 2014, or the next regularly-scheduled renewal of eligibility, whichever is later, if application of such methods results in a determination of ineligibility prior to such date.

In determining family size for the eligibility determination of a pregnant woman, she is counted as herself plus each of the children she is expected to deliver.

In determining family size for the eligibility determination of the other individuals in a household that includes a pregnant woman:

- The pregnant woman is counted just as herself.
- The pregnant woman is counted as herself, plus one.
- The pregnant woman is counted as herself, plus the number of children she is expected to deliver.

Financial eligibility is determined consistent with the following provisions:

When determining eligibility for new applicants, financial eligibility is based on current monthly income and family size.

When determining eligibility for current beneficiaries, financial eligibility is based on:

- Current monthly household income and family size
- Projected annual household income and family size for the remaining months of the current calendar year

In determining current monthly or projected annual household income, the state will use reasonable methods to:

- Include a prorated portion of a reasonably predictable increase in future income and/or family size.
- Account for a reasonably predictable decrease in future income and/or family size.

Except as provided at 42 CFR 435.603(d)(2) through (d)(4), household income is the sum of the MAGI-based income of every individual included in the individual's household.

In determining eligibility for Medicaid, an amount equivalent to 5 percentage points of the FPL for the applicable family size will be deducted from household income in accordance with 42 CFR 435.603(d).

Household income includes actually available cash support, exceeding nominal amounts, provided by the person claiming an individual described at §435.603(f)(2)(i) as a tax dependent.

Presumptive Eligibility by Hospitals **S21**

42 CFR 435.1110

One or more qualified hospitals are determining presumptive eligibility under 42 CFR 435.1110, and the state is providing Medicaid coverage for individuals determined presumptively eligible under this provision.

Yes No

The state attests that presumptive eligibility by hospitals is administered in accordance with the following provisions:

A qualified hospital is a hospital that:

Participates as a provider under the Medicaid state plan or a Medicaid 1115 Demonstration, notifies the Medicaid agency of its election to make presumptive eligibility determinations and agrees to make presumptive eligibility determinations consistent with state policies and procedures.

Has not been disqualified by the Medicaid agency for failure to make presumptive eligibility determinations in accordance with applicable state policies and procedures or for failure to meet any standards that may have been established by the Medicaid agency.

Assists individuals in completing and submitting the full application and understanding any documentation requirements.

Yes No

The eligibility groups or populations for which hospitals determine eligibility presumptively are:

Pregnant Women

Infants and Children under Age 19

Parents and Other Caretaker Relatives

Adult Group, if covered by the state

Individuals above 133% FPL under Age 65, if covered by the state

Individuals Eligible for Family Planning Services, if covered by the state

Former Foster Care Children

Certain Individuals Needing Treatment for Breast or Cervical Cancer, if covered by the state

Other Family/Adult groups:

Eligibility groups for individuals age 65 and over

Eligibility groups for individuals who are blind

Eligibility groups for individuals with disabilities

Other Medicaid state plan eligibility groups

Demonstration populations covered under section 1115

The state establishes standards for qualified hospitals making presumptive eligibility determinations.

Medicaid Eligibility

Yes No

Select one or both:

- The state has standards that relate to the proportion of individuals determined presumptively eligible who submit a regular application, as described at 42 CFR 435.907, before the end of the presumptive eligibility period.

Description of standards:

All hospitals newly electing HPE will be granted a 6-month implementation period during which time no performance standards will be imposed. This 6-month period begins after assigned hospital staff are trained and certified and begins submission of HPE decisions. During the implementation period, data will be collected by DOM regarding the number of HPE approvals that have a full Medicaid application submitted before the end of the HPE period of eligibility. This data will be provided to the HPE hospitals on a monthly basis or more frequently if needed. DOM will monitor this data and provide feedback directly to the hospital staff certified to make HPE determinations in order to align the hospitals with the expectations for the 2nd 6-month period when a standard of 90% will be applied as follows: at least 90% of all HPE approvals submitted to DOM result in a full Medicaid application submitted to DOM before the end of the HPE period of eligibility. The number of full applications that are not submitted timely and the number of HPE approvals that are placed on file that do not result in a full application cannot exceed 10% of the total number of HPE approvals submitted to DOM during a month. Exceptions will be granted on a case by case basis, e.g., a HPE applicant dies or an inpatient HPE applicant leaves the hospital on a week-end before the full application can be submitted. Although submission of a full Medicaid application is not a condition of eligibility for HPE, it is a performance standard established by the state to measure the extent to which individuals covered during a HPE period are encouraged and assisted by the hospital to submit a full application.

During the 2nd 6-month period, data collection and direct contact with the hospital will continue on a monthly or as-needed basis. No hospital will be disqualified during the 1st 12 months of implementation of HPE. If the data collected during the first year of implementation suggests that a 90% accuracy rate for timely submissions of full Medicaid applications for HPE approvals is not an achievable standard for a particular hospital, discussions will be held with hospital staff regarding corrective actions needed, any training needed and any possible alternate standard that could be applied if the 90% standard could not be met due to circumstances beyond the hospital's control.

Effective with the 2nd year of participation in HPE, the performance standards shown above for submission of full Medicaid applications prior to the end of the HPE period increases and remain at 95%. The possibility of an alternate standard assigned for a pre-determined amount of time will be discussed as a correction action measure if at any time a hospital falls below the 95% standard due to circumstances beyond their control. Feedback and direct contact with hospital staff will continue on an as-needed basis and data will be shared monthly regarding adherence to the performance standards.

- The state has standards that relate to the proportion of individuals who are determined eligible for Medicaid based on the submission of an application before the end of the presumptive eligibility period.

All hospitals newly electing HPE will be granted a 6-month implementation period during which time no performance standards will be imposed. This 6-month period begins after assigned hospital staff are trained and certified and begins submission of HPE decisions. During the implementation period, data will be collected by DOM regarding: at least 90% of HPE approvals are determined to be Medicaid eligible based on submission of the full Medicaid application. A full application that does not confirm Medicaid eligibility for the HPE period of eligibility cannot exceed 10% of the total number of HPE approvals processed during a month. An applicant's failure to complete the full application process with DOM will not count against the hospital.

Medicaid Eligibility

Description of standards:

During the 2nd 6-month period, data collection and direct contact with the hospital will continue on a monthly or as-needed basis. No hospital will be disqualified during the 1st 12 months of implementation of HPE. If the data collected during the first year of implementation suggests that a 90% accuracy rate for HPE approvals is not an achievable standard for a particular hospital, discussions will be held with hospital staff regarding corrective actions needed, any training needed and any possible alternate standard that could be applied if the 90% standard could not be met due to circumstances beyond the hospital's control.

Effective with the 2nd year of participation in HPE, the performance standards for the accuracy of the HPE decisions will increase and remain at 95%. The possibility of an alternate standard assigned for a pre-determined amount of time will be discussed as a corrective action measure if at any time a hospital falls below the 95% standard due to circumstances beyond their control. Feedback and direct contact with hospital staff will continue on an as-needed basis and data will be shared monthly regarding adherence to the performance standards.

The presumptive period begins on the date the determination is made.

The end date of the presumptive period is the earlier of:

The date the eligibility determination for regular Medicaid is made, if an application for Medicaid is filed by the last day of the month following the month in which the determination of presumptive eligibility is made; or

The last day of the month following the month in which the determination of presumptive eligibility is made, if no application for Medicaid is filed by that date.

Periods of presumptive eligibility are limited as follows:

No more than one period within a calendar year.

No more than one period within two calendar years.

No more than one period within a twelve-month period, starting with the effective date of the initial presumptive eligibility period.

Other reasonable limitation:

The state requires that a written application be signed by the applicant, parent or representative, as appropriate.

Yes No

The state uses a single application form for Medicaid and presumptive eligibility, approved by CMS.

The state uses a separate application form for presumptive eligibility, approved by CMS. A copy of the application form is included.

Medicaid Eligibility

The presumptive eligibility determination is based on the following factors:

The individual's categorical or non-financial eligibility for the group for which the individual's presumptive eligibility is being determined (e.g., based on age, pregnancy status, status as a parent/caretaker relative, disability, or other requirements specified in the Medicaid state plan or a Medicaid 1115 demonstration for that group)

Household income must not exceed the applicable income standard for the group for which the individual's presumptive eligibility is being determined, if an income standard is applicable for this group.

State residency

Citizenship, status as a national, or satisfactory immigration status

The state assures that it has communicated the requirements for qualified hospitals, and has provided adequate training to the hospitals. A copy of the training materials has been included.

The interstate agreement contains a procedure for providing Medicaid to individuals pending resolution of their residency status and criteria for resolving disputed residency of individuals who (select all that apply):

- Are IV-E eligible
- Are in the state only for the purpose of attending school
- Are out of the state only for the purpose of attending school
- Retain addresses in both states
- Other type of individual

	Name of Type	Description	
+	non-IVE adoption assistance children	The interstate agreements in place with the MS Department of Human Services allows non-IVE adoption assistance children to be considered as part of the ICAMA compact provided the state of origin has a reciprocity clause in the interstate agreement; otherwise, non-IVE adoption assistance children are not automatically considered residents.	X

The state has a policy related to individuals in the state only to attend school.

Medicaid Eligibility

Yes No

Provide a description of the policy:

An individual who is a full-time student in the State of Mississippi will not be considered a resident of Mississippi if all of the following conditions exist:

- neither of the individual's parents reside in the State of Mississippi;
- the individual is claimed as a tax dependent by someone who resides in a state other than Mississippi; and
- the individual is applying for coverage on his or her own behalf.

Otherwise meet the criteria of resident, but who may be temporarily absent from the state.

The state has a definition of temporary absence, including treatment of individuals who attend school in another state.

Yes No

Provide a description of the definition:

The temporary absence of a MS Medicaid recipient from the state does not affect his/her residency in MS, provided the absent recipient does not establish residency elsewhere and the absence is temporary, such as but not limited to attending school or job training in another state or receiving medical treatment in another state.
