No reduction in payment for the Other Provider Preventable Condition that include at a minimum the Never Events will be imposed on a provider when the surgery or procedure defined as a Never Event for a particular patient existed prior to the initiation of treatment for the patient by that provider.

Reductions in provider payment may be limited to the extent that the following apply:

- A. For dates of services beginning on or after June 1, 2012, through June 30, 2014, paid claims identified quarterly in the Mississippi Medicaid Information System (MMIS) with a diagnosis code for any of the three Never Events will be reviewed to ensure the State can reasonably isolate for non-payment the portion of the payment directly related to the treatment for, and related to, the Other Provider Preventable Condition that include at a minimum the Never Events.
- B. For dates of services beginning on or after July 1, 2014, once quarterly, claims identified in MMIS with a diagnosis code for any of the three Never Events will be denied, reviewed and adjusted to ensure no-payment is made for treatment directly related Other Provider Preventable Condition that include, at a minimum, the Never Events.
