### 304.04 EXCEPTIONS TO TREATMENT OF TRUSTS

The rules concerning treatment of trusts do not apply to any of the following types of trusts, i.e., the trusts discussed below are treated differently in determining eligibility for Medicaid. Funds entering and leaving these trusts are generally treated according to SSI rules or more liberal rules under Section 1902(r) (2) of the Act, as appropriate.

As noted in each exception below, one common feature of all of these excepted trusts is a requirement that the trust provide that, upon the death of the individual, any funds remaining in the trust go to the Division of Medicaid, up to the amount paid in Medicaid benefits on the individual's behalf.

#### 304.04.01 SPECIAL NEEDS TRUST (SNT)

A trust containing the assets of an individual under age 65 who is disabled (as defined by the SSI program) and which is established **for the sole benefit of** the disabled individual by a parent, grandparent, legal guardian of the individual, or a court is often referred to as a Special Needs Trust. In addition to the assets of the individual, the trust may also contain the assets of individuals other than the disabled individual.

To qualify for an exception to the rules governing trusts in this section, the Special Needs Trust must contain a provision stating that, upon the death of the individual, or upon termination of the trust for any other reason, the MS Division of Medicaid receives all amounts remaining in the trust, up to an amount equal to the total amount of medical assistance paid on behalf of the individual.

When a Special Needs Trust is established for a disabled individual under age 65, the exception for the trust discussed above continues even after the individual becomes age 65. However, such a trust cannot be added to or otherwise augmented after the individual reaches age 65. Any such addition or augmentation after age 65 involves assets that were not the assets of an individual under 65 and therefore, those assets are not subject to the exemption discussed in this section.

To qualify for this exception to the rules governing trusts, the trust must be established for a disabled individual, as defined under the SSI Program. When the individual in question is receiving either Title II or SSI benefits as a disabled individual, accept the disability determination made for those programs. If the individual is not receiving those benefits, make a determination concerning the individual's disability.

### Special Needs Trust (SNT) (Continued)

Establishment of a trust as described above does not constitute a transfer of assets for less than fair market value if the transfer is made into a trust established solely for the benefit of a disabled individual under age 65. However, if the trust is not solely for the benefit of the disabled person or if the disabled person is over age 65 transfer penalties may apply.

#### **304.04.02 POOLED TRUSTS**

A pooled trust is a trust containing the assets of a disabled individual as defined by the SSI Program in Section 1614(a)(3) of the Act, that meets the following conditions:

- The trust is established and managed by a non-profit entity that has been granted that status by the Internal Revenue Service (IRS);
- A separate account is maintained for each beneficiary of the trust but for purposes of investment and management of funds the trust pools the funds in these accounts;
- Accounts in the trust are established solely for the benefit of disabled individuals by the individual, by the parent, grandparent, legal guardian of the individual, or by a court; and,
- To the extent that any amounts remaining in the beneficiary's account upon the death of the beneficiary are not retained by the trust, the trust pays to the Division of Medicaid the amount remaining in the account up to the amount equal to the total amount of medical assistance paid on behalf of the beneficiary. To meet this requirement, the trust must include a provision specifically providing for such payment.

To qualify as an excepted trust, the trust account must be established for a disabled individual, as defined in Section 1614(a)(3) of the Act. When the individual in question is receiving either Title II or SSI benefits as a disabled individual, accept the disability determination made for those programs. If the individual is not receiving those benefits, make a determination concerning the individual's disability. If disability is not established using SSI criteria, the pooled trust exception cannot apply.

If a pooled trust does not meet the conditions specified above, a transfer of assets may apply.

### **304.04.03 SPECIAL NEEDS TRUST (SNT) AND POOLED TRUSTS GUIDELINES AND RESTRICTIONS**

The MS Division of Medicaid has established guidelines and restrictions regarding payments and distributions from a Special Needs Trust or Pooled Trust that must be followed in order for either type of trust to meet or continue to meet the conditions for exception. A document entitled “Special Needs Trust and Pooled Trusts Guidelines & Restrictions” is located in the Appendix. This document must be given to each applicant or recipient who qualifies for Medicaid on the basis of a SNT or Pooled Trust. The document must be signed by the trustee and a copy provided to the trustee. File the original in the case record.

### **304.04.04 INCOME TRUSTS**

The purpose of an Income Trust is to allow an institutionalized individual with excess income who has exhausted all available resources to become eligible for Medicaid. This type of trust established for the benefit of the individual is limited to institutionalized clients, not those in a hospital setting. A recipient participating in the Home and Community Based Waiver program (HCBS) may also utilize an Income Trust for eligibility purposes. An Income Trust document is required. The Income Trust must meet the following requirements:

- The trust is composed only of the pension(s), Social Security, and other income of the individual, including accumulated interest in the trust; and,
- Upon the death of the individual, the Division of Medicaid receives all amounts remaining in the trust, up to an amount equal to the total medical assistance paid on behalf of the individual. To qualify for this exception, the trust must include a provision to this effect.

The Income Trust provision is designed to assist individuals who have too much income to qualify for Medicaid institutional care, but not enough income to pay private pay for the long term care needed. It is intended for individuals with excess recurring monthly income that causes ineligibility. The Income Trust is a binding document that directs how income received each month will be obligated. As a result, an Income Trust will not be allowed on a temporary or intermittent basis with the following exception: an Income Trust for monthly excess income that will be reduced at a future date will be allowed during the period of time the monthly income exceeds the Medicaid institutional limit.

---

### Income Trusts (Continued)

For example, a nursing home applicant with excess income that includes a VA pension will be allowed an Income Trust until such time as the VA reduces the pension payment to \$90, thereby eliminating the need for an Income Trust. Income received once or twice per year or on a quarterly basis does not qualify for the use of an Income Trust. This type of irregular and infrequent income should be converted to monthly income before allowing an Income Trust to be established.

### Income Included in an Income Trust

To qualify for this exception, the Income Trust must be composed only of income to the individual, from whatever source. The trust may contain accumulated income, i.e., income that has not been paid out of the trust. However, no resources, as defined by SSI, may be used to establish or augment the trust. Inclusion of resources voids this exception.

All individuals with an income Trust who receive a 13<sup>th</sup> check from State Retirement will be required to have the 13<sup>th</sup> check averaged over the 12-month period. The representative for the recipient can have this change made by contacting the State Retirement office.

### Income Not Included in an Income Trust

An individual's total income must go into the Income Trust each month. The only exception is for the types of VA payments that are not considered income, i.e., VA Reduced Pension benefits, VA Aid & Attendance payments and VA Pension payments attributed to Unreimbursed Medical Expenses.

### Income Trusts (Continued)

#### Funding the Income Trust Account

All of a nursing home recipient's income, less deductions authorized by Medicaid, will be paid to the nursing home. In most cases no funds will be retained in the Income Trust account.

The recipient's cost of care, referred to as Medicaid Income, will be determined by the total gross income and the daily rate that Medicaid pays the nursing facility where the recipient resides. However, if the Medicaid rate for the facility is less than the recipient's income, the recipient's excess income will fund an income trust account.

**Example:** The recipient's countable income is \$3,800 per month. The Medicaid daily rate for the facility where the recipient resides is \$3,500 per month. The excess income of \$300 per month must fund an Income Trust account. This example applies if income for only one month exceeds the Medicaid daily rate or if the income for all the months exceeds the Medicaid daily rate.

However, when the Medicaid rate for the facility is more than the recipient's countable income, all of the recipient's income is payable to the facility and the Income Trust account will not be funded.

**Example:** The recipient's countable income is \$2,500 per month. The Medicaid daily rate for the facility where the recipient resides is \$4,500 per month. The recipient will pay the facility \$2,500, and the Income Trust account will not be needed. However, a trust document is still required.

### Income Trusts (Continued)

#### Home and Community Based Waiver (HCBS)

For individuals in the Home and Community Based Waiver (HCBS), the difference between an individual's total income and an amount that is \$1 less than the current institutional income limit should fund the Income Trust account. Bank charges associated with maintaining trust accounts are limited to \$10 per month.

#### Other Income Trust Issues

- Trusts that are not properly funded into an Income Trust account do not meet the criteria for a trust exception.
- When an Income Trust is no longer needed due to the client's death, ineligibility or some other change, the Division of Medicaid receives all amounts remaining in the trust account, up to an amount equal to the total medical assistance paid on behalf of the individual. To qualify for this exception, the trust must include a provision to this effect.
- Model Income Trust agreements for both LTC and HCBS are located in the Appendix and can be copied for execution by the recipient and trustee. The only changes to this legally binding document that the Division of Medicaid will accept will be to add language regarding a successor trustee or co-trustee. Changes must be approved by the Legal Bureau prior to execution.
- Income Trust cases have the same rules of timeliness as all other ABD cases. Unless establishing disability is involved, Income Trust cases are subject to the 45-day time limit. Work with someone who is making an effort to do what is required, but do not hold a case pending for them to establish the trust.  
**NOTE:** The recipient cannot be the trustee.
- The Income Trust case cannot be approved any earlier than the effective date of the trust. If the recipient later decides that coverage in a retro period is needed, the document must be amended. If there is not an effective date, then the trust begins the month it is signed and dated.
- It is possible to have an Income Trust during a transfer period. The nursing home will be paid private pay by the client and all the income will be used to pay private pay. This allows the client to be Medicaid-eligible and the penalty period can begin.
