PUBLIC NOTICE

Under the provisions of Section 447.205, Title 42, Code of Federal Regulations, public notice is hereby given to the submission of a Medicaid State Plan Amendment (SPA). Effective July 1, 2015, the Mississippi Division of Medicaid, in the Office of the Governor, will implement the Outpatient Prospective Payment System (OPPS) Phase II, our Transmittal # 15-011.

1. This proposed SPA to the OPPS contains the following changes effective July 1, 2015:
   a. Implementation of discounting of claims with more than one (1) significant procedure subject to discounting. The line item with the highest allowed amount on the claim for certain significant procedures will pay at one hundred percent (100%) with all other significant procedures paying at fifty percent (50%).
   b. Computation of a Mississippi Medicaid fee when a procedure’s Ambulatory Payment Classification (APC), including its bundled services, is determined to be insufficient for the Mississippi Medicaid population causing a potential access issue.

2. The estimated annual aggregate cost savings for the Division of Medicaid are expected to be $435,520 in state dollars and $1,248,096 in federal dollars for state fiscal year (SFY) 2016.

3. 42 C.F.R. § 447.201 requires the Division of Medicaid to submit a SPA describing the policy and methods used in setting payment rates for each types of service included in the Mississippi State Plan.

4. A copy of the proposed SPA will be available in each county health department office and in the Department of Human Services office in Issaquena County for review.

5. Written comments will be received by the Division of Medicaid, Office of the Governor, Office of Policy, Walter Sillers Building, Suite 1000, 550 High Street, Jackson, Mississippi 39201, or Margaret.Wilson@medicaid.ms.gov for thirty (30) days from the date of publication of this notice. Comments will be available for public review at the above address and on the Division of Medicaid’s website at www.medicaid.ms.gov.

6. A public hearing on this SPA will be held Thursday, June 18, 2015, at 2:00 p.m. at the Mississippi War Memorial, 120 South State Street, Jackson, MS 39201.

Hospital Outpatient Services

A. Except as otherwise specified, outpatient hospital services for all hospitals except Indian Health Services will be reimbursed under a prospective payment methodology as follows:

1. Medicaid Outpatient Prospective Payment System (OPPS), Ambulatory Payment Classification (APC) Groups

   Outpatient hospital services will be reimbursed on a predetermined fee-for-service basis. The parameters published annually in the Code of Federal Regulations (CFR) (national APC weights, status indicators, APC group assignments and Medicare fees) and MS Medicaid OPPS status indicators, will be used by the Division of Medicaid (DOM) in calculating these predetermined rates and will be updated July 1 of each year.

   a. The Medicaid OPPS fees, including Clinical Diagnostic Laboratory OPPS fees, are calculated using 100% of the applicable APC relative weight or the payment rate for codes listed in the most current final Medicare outpatient Addendum B or C effective as of April 1st of each year as published by the Centers for Medicare and Medicaid Services (CMS). Codes with no applicable relative weight or payment rate in Addendum B or C are paid via a DOM published fee schedule based on 90% of the Medicare physician fee schedule or the Medicare Clinical Laboratory fee schedule of the current year. No retroactive adjustments will be made. The MS Medicaid OPPS fee schedule is set and updated each year as of July 1st and is effective for services provided on or after that date. All fees are published on the agency’s website at http://www.medicaid.ms.gov/FeeScheduleLists.aspx.

   b. The Medicaid conversion factor used by DOM is the current Jackson, MS Medicare conversion factor. This conversion factor is used for all APC groups and for all hospitals. Each APC rate equals the Medicare Addendum B specific relative weight at 100% multiplied by the Medicaid conversion factor, with the exception of observation fee which is paid using a MS Medicaid fee. Except as otherwise noted in the plan, MS Medicaid
OPPS fee schedule rates are the same for both governmental and private providers of hospital outpatient services. The MS Medicaid OPPS fee schedule is set and updated each year as of July 1 and is effective for services provided on or after that date.

c. Subject to documentation of medical necessity, in addition to any Medicaid covered service received during observation in an outpatient hospital setting, DOM will pay an hourly fee for each hour of observation exceeding seven (7) hours, up to a maximum of twenty-three (23) hours (i.e., the maximum payment will be sixteen (16) hours times the hourly fee). The hourly fee for observation is calculated based on the average relative weights for APC 8002 and APC 8003 multiplied by the current Jackson, MS Medicare conversion factor divided by the sixteen (16) maximum payable hours. Documentation requirements for medical necessity regarding observation services can be found in the MS Administrative Code Title 23 Medicaid, Part 202 Hospital Services, Chapter 2 Outpatient Hospital, Rule 2.4: Outpatient (23-Hour) Observation Services as of April 1, 2012, located at www.medicaid.ms.gov/AdminCode.aspx. The MS Medicaid OPPS fee schedule is set and updated each year as of July 1 and is effective for services provided on or after that date. All fees are published on the agency’s website at http://www.medicaid.ms.gov/FeeScheduleLists.aspx.

d. The total claim allowed amount will be the lower of the provider’s allowed billed charges or the calculated Medicaid OPPS allowed amount.

e. A MS Medicaid OPPS status indicator is assigned to each procedure code determining payment under Medicaid OPPS. The full list of MS Medicaid OPPS status indicators and definitions is found on Attachment 4.19-B, page 2a.6.

f. Claims with more than one (1) significant procedure are discounted and assigned a MS Medicaid OPPS status indicator “T” or “MT”. The line item with the highest allowed
amount on the claim for certain significant procedures identified on the MS OPPS fee schedule will be assigned the MS Medicaid OPPS status indicator “T” or “MT” and is paid at one hundred percent (100%). All other significant procedures identified on the MS OPPS fee schedule will be assigned the MS Medicaid OPPS status indicator of “T” or “MT” and is paid at fifty percent (50%).

Medicare has set guidelines for procedures it has determined should be performed in an inpatient setting only. The DOM follows Medicare guidelines for procedures defined as “inpatient only”.

2. Outpatient Payment Methodology Paid Under Medicaid OPPS

Except in cases where the service is non-covered by DOM, outpatient services will be reimbursed as follows:

a. For each outpatient service or procedure, the fee is 100% of the current Ambulatory Payment Classification (APC) rate multiplied by the units (when applicable).

b. Where no APC relative weight has been assigned, outpatient services will be paid at 100% of any applicable Medicare payment rate in the most current final Medicare outpatient Addendum B or C as of April 1st of each year as published by the CMS multiplied by the units (when applicable).

c. If there is no APC relative weight or Medicare payment rate established in the most current final Medicare outpatient Addendum B or C as of April 1st of each year as published by the CMS, payment will be made using the current applicable MS Medicaid fee multiplied by the units (when applicable).

d. If there is no APC relative weight, Medicare payment rate, or MS Medicaid fee for a procedure, service, or device, a manual review of the claim will be made to determine an appropriate payment based on the resources used, cost of related equipment and supplies, complexity of the service and physician and staff time. The payment will be limited to the
cost of a comparable service or the provider submitted invoice.

e. When it is determined, based on documentation that an APC rate, including all its bundled services, is insufficient for the Mississippi Medicaid population or could result in a potential access issue, a MS Medicaid fee will be computed.

3. Five Percent (5%) Reduction

Notwithstanding any other provision of this section, the Division of Medicaid, as required by State law, shall reduce the rate of reimbursement to providers for any service by five percent (5%) of the allowed amount for that service. The published fee does not include the five percent (5%) reduction. This provision is not applicable to Indian Health Services.

B. Miscellaneous

The topics listed below from Attachment 4.19-A will apply to hospital outpatient services:

1. Principles and Procedures (except the reimbursement period for hospital outpatient services runs from July 1 through June 30).

2. Availability of Hospital Records

3. Records of Related Organizations

4. Appeals and Sanctions.
