

TRAUMATIC BRAIN INJURY/SPINAL CORD INJURY WAIVER: Home and Community Based Services

Traumatic Brain Injury/Spinal Cord Injury Waiver Basics

The Traumatic Brain Injury/Spinal Cord Injury (TBI/SCI) Waiver is a statewide program, administered by the Division of Medicaid and operated by the Mississippi Department of Rehabilitation Services (MDRS).

It is designed to offer assistance and services in a home or community-based setting if you qualify for Medicaid. The program allows you to remain in a home or community-based setting as an alternative to nursing facility care or other institutional care.

Who is Eligible?

To qualify for the Traumatic Brain Injury/Spinal Cord Injury Waiver, you must meet the following eligibility criteria:

- There are no age restrictions.
- You must have a diagnosis of traumatic brain or spinal cord injury and be medically stable.

Traumatic brain injury is defined as an insult to the skull, brain, or its covering resulting from external trauma, which produces an altered state of consciousness or anatomic, motor, sensory, or cognitive/behavioral deficits.

Spinal cord injury is defined as a traumatic injury to the spinal cord or cauda equina with evidence of motor deficit, sensory deficit, and/or bowel and bladder dysfunction. The lesions must have significant involvement with two of the above three.

BACKGROUND

The Mississippi Division of Medicaid is a state agency that has approximately 1,000 employees located throughout one central office, 30 regional offices and over 90 outstations.

Who is Eligible? continued...

- You must require nursing facility level of care if assistance is not provided.
- Your nursing facility level of care must be certified by a physician and recertified every 12 months at a minimum.
- You must be determined clinically eligible through the use of a comprehensive Long Term Services and Supports (LTSS) assessment tool.

You must qualify for full Medicaid benefits in one of the following categories of eligibility (COE):

- Supplemental security income (SSI)
- Parent/caretaker group and low income families
- Disabled child living at home
- Working disabled
- Children under age 19 under 100 percent of poverty
- Disabled adult child
- Protected foster care adolescents
- Child Welfare Services foster children and adoption assistance children
- IV-E foster children and adoption assistance children
- An aged, blind, or disabled person who meets all factors of eligibility if your income is under 300 percent of the SSI limit for an individual. If income exceeds the 300 percent limit, you must pay the amount that is over the limit each month to the Division of Medicaid under an income trust, provided you are otherwise eligible.

WHAT IS MEDICAID?

Medicaid provides health coverage for eligible, low income populations in Mississippi. Eligible members do not directly receive money from Medicaid for health benefits. Medicaid is separate from Medicare.

Covered Services

Upon approval of home and community based-services, the following services are offered through this waiver:

- √ **Case Management** is a required service and you are assigned to a case manager. The case manager is responsible for assessing your health, welfare, and social needs; developing a plan of services and supports to address your assessed needs; and managing and coordinating services on the plan of services and supports.
- √ **Transition Assistance Services** are provided if you currently reside in a nursing facility and wish to transition from the nursing facility to the Traumatic Brain Injury/Spinal Cord Injury Waiver. This is a one-time assistance of initial expenses required for setting up a household.
- √ **Personal Care Attendant (PCA) services** provide assistance with eating, bathing, dressing, personal hygiene, and activities of daily living in your home or community. When specified in the plan of services and supports, this service can include light housekeeping duties. You may select your own PCA. All PCA's must meet basic competencies that include both educational and functional requirements.
- √ **Specialized Medical Equipment and Supplies** include devices, controls or appliances specified in the plan of services and supports, which enable you to increase your abilities to perform activities of daily living, or to perceive, control, or communicate with the environment in which you live.
- √ **Environmental Accessibility Adaptations** are physical adaptations to the home, required by your plan of services and supports, which are necessary to ensure your health, welfare, and safety, or which enable you to function with greater independence in the home, and without which you would require institutionalization.

√ **Respite Services** are services provided if you are unable to care for yourself. Respite care is provided on a short term basis because of the absence of or need for relief of those persons normally providing the care. Currently this waiver offers these types of respite:

- In-home Companion respite,
- In-home Nursing respite and,
- Institutional Respite.
