## 305.03.10 Estate Recovery

Annuities purchased on or after February 8, 2006, will be subject to Estate Recovery. Refer cases with an annuity naming the Division of Medicaid as the primary beneficiary to Estate Recovery upon the death of the recipient. If DOM is named as the secondary beneficiary for an annuity, refer the case to Estate Recovery only if the primary beneficiary is also deceased. For example, if the Community Spouse was the primary beneficiary at the last review but the CS died prior to the IS, this would then make DOM the primary. If there is a surviving beneficiary of an annuity, such as a CS or disabled child named as the primary beneficiary, there is no need to refer the annuity to Estate Recovery at the time of the recipient's death.

Effective Month: January 2017
