on the Medicare final settlement amended cost report. The RHC's original PPS base rate and the rates for each subsequent fiscal year will be recalculated per the payment methodology outlined above. Claims payments will be adjusted retroactive to the effective date of the original rate. The amended PPS base rate will be no less than the original base rate.

3. The Division of Medicaid reimburses an RHC an additional fee for the administration of a physician administered drug (PAD) which is covered and reimbursed under the pharmacy benefit. The RHC may not bill for an encounter visit unless a separately identifiable service is performed. The administration fee will be paid at the existing fee-for-service rate on the MS Medicaid Physician Fee Schedule at [www.medicaid.ms.gov/providers/fee-schedules-and-rates/#](http://www.medicaid.ms.gov/providers/fee-schedules-and-rates/#).

**D. Fee-For-Service**

1. RHCs acting in the role of a telehealth originating site provider with no other separately identifiable service being provided will only be paid the telehealth originating site fee per completed transmission and will not receive reimbursement for an encounter. This service will be paid at the existing fee-for-service rate on the MS Medicaid Physician Fee Schedule at [www.medicaid.ms.gov/providers/fee-schedules-and-rates/#](http://www.medicaid.ms.gov/providers/fee-schedules-and-rates/#).
2. RHCs administering physician administered drugs covered and reimbursed through the pharmacy benefit with no other separately identifiable service being provided will only be paid the administration fee and will not receive reimbursement for an encounter. This service will be paid at the existing fee-for-service rate on the MS Medicaid Physician Fee Schedule at <https://medicaid.ms.gov/providers/fee-schedules-and-rates/#>.

**E. Change of Ownership**

When an RHC undergoes a change of ownership, the PPS rate of the new owner will be equal to the PPS rate of the old owner. There will be no change to the RHC's PPS rate as a result of a change of ownership.

**F. Change in Scope of Services**

A change in the scope of services is defined as a change in the type, intensity, duration and/or amount of services. A change in the scope of services occurs if: (1) the clinic RHC has added or has dropped any services that meets the definition of an RHC service as provided in section 1905(a)(2)(B) and (C), and (2) the service is included as a covered Medicaid service under the Mississippi Medicaid state plan. A change in intensity could be a change in the amount of health care services provided by the RHC in an average encounter.

A change in the scope of services does not mean the addition or reduction of staff members to or

from an existing service. An increase or decrease in the number of encounters does not generally constitute a change in the scope of services. A change in the cost of a service is not considered in and of itself a change in the scope of services.

An RHC must notify the Division of Medicaid in writing of any change in the scope of services by the end of the calendar year in which the change occurred, including decreases in scope of services. The Division of Medicaid will adjust an RHC's PPS rate if the following criteria are met: (1) The RHC can demonstrate that there is a valid and documented change in the scope of services, and (2) The change in scope of services results in at least a five percent (5%) increase or decrease in the RHC's PPS rate for the calendar year in which the change in scope of service took place.

An RHC must submit a request for an adjustment to its PPS rate no later than one hundred eighty (180) days after the settlement date of the RHC's Medicare final settlement cost report for the RHC's first full fiscal year of operation with the change in scope of services. The request must include the first final settlement cost report that includes twelve (12) months of costs for the new service. The adjustment will be granted only if the cost related to the change in scope of services results in at least a five percent (5%) increase or decrease in the RHC's PPS rate for the calendar year in which the change in scope of services took place. The cost related to a change in scope of services will be subject to reasonable cost criteria identified in accordance with 45 C.F.R. Part 75 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for HHS Awards and 42 C.F.R. Part 413 Principles of Reasonable Cost Reimbursement.

It is the responsibility of the RHC to notify the Division of Medicaid of any change in the scope of services and provide proper and valid documentation to support the rate change. Such required documentation must include, at a minimum, a detailed working trial balance demonstrating the increase or decrease in the RHC's PPS rate as a result of the change in scope of services. The Division of Medicaid will require the RHC to provide such documentation in a format acceptable to the Division of Medicaid, including providing such documentation upon the Division of Medicaid's pre-approved forms. The Division of Medicaid will also request additional information as it sees fit in order to sufficiently determine whether any change in scope of services has occurred. The instructions and forms for submitting a request due to a change in scope of services can be found at <http://www.medicaid.ms.gov/resources/forms/>.

Adjustments to the PPS rate for the increase or decrease in scope of services are reflected in the PPS rate for services provided in the calendar year following the calendar year in which the change in scope of services took place. The revised PPS rate generally cannot exceed the cost per visit from the most recent audited cost report.

**G. Change in Ownership Status**

The RHC's PPS rate will not be adjusted solely for a change in ownership status between

freestanding and provider-based.

**H. Allowable Costs**

Allowable costs are those costs that result from providing covered services. They are reasonable in amount and are necessary for the efficient delivery of those services. Allowable costs include the direct cost center component (i.e., salaries and supplies) of providing the covered services and an allocated portion of overhead (i.e., administration and facility).
