Application for a §1915(c) Home and Community-Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a State to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waiver’s target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the State, service delivery system structure, State goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

Request for a Renewal to a §1915(c) Home and Community-Based Services Waiver

1. Major Changes

Describe any significant changes to the approved waiver that are being made in this renewal application:
Appendix B-3.c

Reserved waiver capacity is being increased to prioritize access to waiver services for individuals transitioning from state operated Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID), private ICF/IIDs and nursing facilities. Historical data and the estimated number of enrollees for next fiscal year were used to calculate the number of individuals anticipated to transition. Additionally, reserved waiver capacity slots are being requested for emergency/crisis admissions. Slots are also being requested to ensure persons with intellectual and developmental disabilities are adequately served in places of service other than nursing facilities.

Appendix C-3

Language from the CMS Home and Community-Based Services Setting Final Rule is incorporated into Supervised Living, and Shared Supported Living to ensure compliance.

Job Discovery - The number of hours for Job Discovery will be changed from twenty (20) hours over three (3) months to thirty (30) hours over three (3) months. This will ensure discovery tasks are accomplished in a person centered manner.

Supervised Living - Behavior Support Homes has been renamed Behavioral Supervised Living and Medical Homes has been renamed Medical Supervised Living.

Appendix F-1

Language describing the State Fair Hearing process is added. Performance Measures Mississippi is not participating in the National Core Indicators project for 2017-2018; therefore, Performance Measures using the NCI as a data source has been removed. Some Performance Measures are revised while others are added or deleted.
C. Type of Request: renewal

Requested Approval Period: (For new waivers requesting five year approval periods, the waiver must serve individuals who are dually eligible for Medicaid and Medicare.)

- 3 years
- 5 years

Original Base Waiver Number: MS.0282
Waiver Number: MS.0282.R05.00
Draft ID: MS.009.05.00

D. Type of Waiver (select only one):

- Regular Waiver

E. Proposed Effective Date: (mm/dd/yy)

- 07/01/18

Approved Effective Date: 07/01/18

1. Request Information (2 of 3)

F. Level(s) of Care. This waiver is requested in order to provide home and community-based waiver services to individuals who, but for the provision of such services, would require the following level(s) of care, the costs of which would be reimbursed under the approved Medicaid State plan (check each that applies):

- [ ] Hospital

  Select applicable level of care

  - Hospital as defined in 42 CFR §440.10
    If applicable, specify whether the State additionally limits the waiver to subcategories of the hospital level of care:

- [ ] Inpatient psychiatric facility for individuals age 21 and under as provided in 42 CFR §440.160

- [ ] Nursing Facility

  Select applicable level of care

  - Nursing Facility as defined in 42 CFR §440.10
    If applicable, specify whether the State additionally limits the waiver to subcategories of the nursing facility level of care:

  - Institution for Mental Disease for persons with mental illnesses aged 65 and older as provided in 42 CFR §440.140

  - Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) (as defined in 42 CFR §440.150)

G. Concurrent Operation with Other Programs. This waiver operates concurrently with another program (or programs) approved under the following authorities

Select one:

- [ ] Not applicable

- [ ] Applicable

  Check the applicable authority or authorities:

  - Services furnished under the provisions of §1915(a)(1)(a) of the Act and described in Appendix I

  - Waiver(s) authorized under §1915(b) of the Act

  Specify the §1915(b) waiver program and indicate whether a §1915(b) waiver application has been submitted or previously approved:
Specify the §1915(b) authorities under which this program operates (check each that applies):

- §1915(b)(1) (mandated enrollment to managed care)
- §1915(b)(2) (central broker)
- §1915(b)(3) (employ cost savings to furnish additional services)
- §1915(b)(4) (selective contracting/limit number of providers)

A program operated under §1932(a) of the Act.
Specify the nature of the State Plan benefit and indicate whether the State Plan Amendment has been submitted or previously approved:

- A program authorized under §1915(i) of the Act.
- A program authorized under §1915(j) of the Act.
- A program authorized under §1115 of the Act.

Specify the program:

H. Dual Eligibility for Medicaid and Medicare.

Check if applicable:

- This waiver provides services for individuals who are eligible for both Medicare and Medicaid.

2. Brief Waiver Description

Brief Waiver Description. In one page or less, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.

The ID/DD Waiver provides services to people who would otherwise require care in an intermediate care facility for individuals with intellectual disabilities (ICF/IID). Services are available statewide with no age limitations. The waiver provides services to people who live in a variety of community settings including their own home, the family home, or another community setting with services and supports appropriate for their needs.

The program proposes to provide the following services:

Behavior Support
Behavioral Supervised Living
Community Respite
Crisis Intervention
Crisis Support
Day Services-Adult
Home and Community Supports
Host Homes
In-Home Nursing Respite
In-Home Respite
Job Discovery
Medical Supervised Living
Occupational, Physical and Speech Therapies
Prevocational Services
Shared Supported Living
Specialized Medical Supplies
Supervised Living
Support Coordination
Supported Employment
Supported Living
Transition Assistance

GOALS AND OBJECTIVES: To provide access to meaningful and necessary home and community based services and
supports; to provide services in a culturally competent, person-centered manner; to provide services and supports that facilitate a person living as independently as possible in his/her community.

ORGANIZATIONAL STRUCTURE – The Mississippi Division of Medicaid (DOM) is the single State Medicaid Agency having administrative responsibility for the ID/DD Waiver. The Mississippi Department of Mental Health (DMH), Bureau of Intellectual and Developmental Disabilities (BIDD) is responsible for the daily operation of the ID/DD Waiver.

The state does not utilize Self-Directed Services. The agency model will be used.

3. Components of the Waiver Request

The waiver application consists of the following components. Note: Item 3-E must be completed.

A. Waiver Administration and Operation. Appendix A specifies the administrative and operational structure of this waiver.

B. Participant Access and Eligibility. Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the State expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.

C. Participant Services. Appendix C specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.

D. Participant-Centered Service Planning and Delivery. Appendix D specifies the procedures and methods that the State uses to develop, implement and monitor the participant-centered service plan (of care).

E. Participant-Direction of Services. When the State provides for participant direction of services, Appendix E specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (Select one):

- Yes. This waiver provides participant direction opportunities. Appendix E is required.
- No. This waiver does not provide participant direction opportunities. Appendix E is not required.

F. Participant Rights. Appendix F specifies how the State informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.

G. Participant Safeguards. Appendix G describes the safeguards that the State has established to assure the health and welfare of waiver participants in specified areas.

H. Quality Improvement Strategy. Appendix H contains the Quality Improvement Strategy for this waiver.

I. Financial Accountability. Appendix I describes the methods by which the State makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.

J. Cost-Neutrality Demonstration. Appendix J contains the State’s demonstration that the waiver is cost-neutral.

4. Waiver(s) Requested

A. Comparability. The State requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in Appendix C that are not otherwise available under the approved Medicaid State plan to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in Appendix B.

B. Income and Resources for the Medically Needy. Indicate whether the State requests a waiver of §1902(a)(10)(C)(i)(III) of the Act in order to use institutional income and resource rules for the medically needy (select one):

- Not Applicable
- No
- Yes

C. Statewideness. Indicate whether the State requests a waiver of the statewideness requirements in §1902(a)(1) of the Act (select one):
If yes, specify the waiver of statewideness that is requested (check each that applies):

☐ Geographic Limitation. A waiver of statewideness is requested in order to furnish services under this waiver only to individuals who reside in the following geographic areas or political subdivisions of the State.
*Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:*

☐ Limited Implementation of Participant-Direction. A waiver of statewideness is requested in order to make participant-direction of services as specified in Appendix E available only to individuals who reside in the following geographic areas or political subdivisions of the State. Participants who reside in these areas may elect to direct their services as provided by the State or receive comparable services through the service delivery methods that are in effect elsewhere in the State.
*Specify the areas of the State affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:*

5. Assurances

In accordance with 42 CFR §441.302, the State provides the following assurances to CMS:

A. Health & Welfare: The State assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:

1. As specified in Appendix C, adequate standards for all types of providers that provide services under this waiver;
2. Assurance that the standards of any State licensure or certification requirements specified in Appendix C are met for services or for individuals furnishing services that are provided under the waiver. The State assures that these requirements are met on the date that the services are furnished; and,
3. Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable State standards for board and care facilities as specified in Appendix C.

B. Financial Accountability. The State assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in Appendix I.

C. Evaluation of Need: The State assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in Appendix B.

D. Choice of Alternatives: The State assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in Appendix B, the individual (or, legal representative, if applicable) is:

1. Informed of any feasible alternatives under the waiver; and,
2. Given the choice of either institutional or home and community-based waiver services. Appendix B specifies the procedures that the State employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.

E. Average Per Capita Expenditures: The State assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid State plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in Appendix J.
**F. Actual Total Expenditures:** The State assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the State's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.

**G. Institutionalization Absent Waiver:** The State assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.

**H. Reporting:** The State assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid State plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.

**I. Habilitation Services.** The State assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.

**J. Services for Individuals with Chronic Mental Illness.** The State assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the State has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the State has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

**6. Additional Requirements**

*Note: Item 6-I must be completed.*

**A. Service Plan.** In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in Appendix D. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including State plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.

**B. Inpatients.** In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are inpatients of a hospital, nursing facility or ICF/IID.

**C. Room and Board.** In accordance with 42 CFR §44.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the State that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in Appendix I.

**D. Access to Services.** The State does not limit or restrict participant access to waiver services except as provided in Appendix C.

**E. Free Choice of Provider.** In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the State has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.

**F. FFP Limitation.** In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.
G. **Fair Hearing**: The State provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals:
   (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. **Appendix F** specifies the State's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.

H. **Quality Improvement**: The State operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the State assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The State further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the State will implement the Quality Improvement Strategy specified in **Appendix H**.

I. **Public Input.** Describe how the State secures public input into the development of the waiver:
A public hearing was held on May 22, 2018, where various stakeholders were able to offer additional recommendations. See summary below.

**Summary of Public Comments & Responses for the ID/DD Waiver**

Comments were received with concerns for Supervised Living regarding persons receiving a monthly or quarterly accounting of their income and expenses so they will be aware of their resources which is necessary to build capacity and increase control/responsibility of their own finances.

Response: A requirement for documentation of a quarterly accounting has been added to Supervised Living.

Another mechanism through which public input is obtained is from telephone correspondence with applicants/participants, and/or their representatives, regarding inquiries, complaints, or appeals.

The State notifies the Mississippi Band of Choctaw Indians (MBCI) Health Administration via written notice regarding the waiver renewal greater than 60 days prior to submission of the waiver in order to provide an opportunity for their input. Copies of the draft are provided to the Mississippi Band of Choctaw Indians prior to waiver submission to CMS. For the July 1, 2018 waiver renewal the MBCI was notified on May 8, 2018. The tribe approved for an expedited submission. The State accepts any input from the provider community, advocacy groups, Medicaid beneficiaries and waiver participants at any given time.

In addition, the Department of Mental Health, Bureau of Intellectual and Developmental Disabilities (BIDD), convened an IDD Employment Workgroup comprised of people from private for-profits and non-profits, Community Mental Health Centers (CMHCs), IDD Regional Programs, the Division of Medicaid, the Department of Rehabilitation Services, the Institute for Disability Studies and Mississippi Association of People Supporting Employment First (MS APSE).

The providers have varying levels of involvement with employment for people with disabilities – mainly as it relates to Prevocational Activities. Some of the providers only provide community-based Prevocational Services while others use a combination of site and community based activities.

The primary focus of the group was to develop methods of shifting from the use of traditional Prevocational Services provided in sheltered settings. Some of the providers still use sheltered settings while others do not. All providers in the group provide Day Services-Adult.

The Workgroup met 3 times between March, 2017 and February, 2018 and worked to develop a service that would break down silos and allow people to participate in activities that meet their individual needs, not ones that belong to one service or another. Research about the services provided by other states was conducted, providers were contacted and tours took place.

As a result of the work, a new service definition was developed – Meaningful Opportunities Supports. This service is designed to provide activities and supports that enable a person to enrich his or her life and enjoy a full range of meaningful activities from developing opportunities to seek employment to daily activities, at both a site and in the community, that optimize, not regiment personal choice, initiative and independence in making life decisions. At this time the State has decided not to add Meaningful Opportunities Supports to the waiver renewal.
J. Notice to Tribal Governments. The State assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.

7. Contact Person(s)

A. The Medicaid agency representative with whom CMS should communicate regarding the waiver is:

Last Name: Leiker
First Name: Mark
Title: Office Director, Office of Mental Health
Agency: Mississippi Division of Medicaid
Address: 550 High Street, Suite 1000
City: Jackson
State: Mississippi
Zip: 39201
Phone: (601) 359-6114 Ext: TTY
Fax: (601) 359-6294
E-mail: Mark.Leiker@medicaid.ms.gov

B. If applicable, the State operating agency representative with whom CMS should communicate regarding the waiver is:

Last Name: Lacoste
First Name: Ashley
Title:
8. Authorizing Signature

This document, together with Appendices A through J, constitutes the State's request for a waiver under §1915(c) of the Social Security Act. The State assures that all materials referenced in this waiver application (including standards, licensure and certification requirements) are readily available in print or electronic form upon request to CMS through the Medicaid agency or, if applicable, from the operating agency specified in Appendix A. Any proposed changes to the waiver will be submitted by the Medicaid agency to CMS in the form of waiver amendments. Upon approval by CMS, the waiver application serves as the State's authority to provide home and community-based waiver services to the specified target groups. The State attests that it will abide by all provisions of the approved waiver and will continuously operate the waiver in accordance with the assurances specified in Section 5 and the additional requirements specified in Section 6 of the request.

Signature: Margaret Wilson

State Medicaid Director or Designee

Submission Date: Sep 4, 2018

Note: The Signature and Submission Date fields will be automatically completed when the State Medicaid Director submits the application.

**Attachment #1: Transition Plan**

Check the box next to any of the following changes from the current approved waiver. Check all boxes that apply.

- Replacing an approved waiver with this waiver.
- Combining waivers.
- Splitting one waiver into two waivers.
- Eliminating a service.
- Adding or decreasing an individual cost limit pertaining to eligibility.
- Adding or decreasing limits to a service or a set of services, as specified in Appendix C.
- Reducing the unduplicated count of participants (Factor C).
- Adding new, or decreasing, a limitation on the number of participants served at any point in time.
- Making any changes that could result in some participants losing eligibility or being transferred to another waiver under 1915(c) or another Medicaid authority.
- Making any changes that could result in reduced services to participants.

Specify the transition plan for the waiver:

<table>
<thead>
<tr>
<th>Attachment #2: Home and Community-Based Settings Waiver Transition Plan</th>
</tr>
</thead>
</table>

Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301(c)(6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required.

Note that Appendix C-5 HCB Settings describes settings that do not require transition; the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here.

Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state's HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter "Completed" in this field, and include in Section C-5 the information on all HCB settings in the waiver.

https://wms-mmdl.cms.gov/WMS/faces/protected/35/print/PrintSelector.jsp
The Centers for Medicare and Medicaid Services (CMS) granted the State initial approval of its Statewide Transition Plan (STP) on May 25, 2017, to bring settings into compliance with the federal home and community based services (HCBS) regulations found at 42 C.F.R. §§441.30(c)(4)(5) and Section 441.710(a)(1)(2). Initial approval was granted because the State had completed its systemic assessment; included the outcomes of this assessment in the STP; clearly outlined remediation strategies to rectify issues that the systemic assessment uncovered, such as legislative/regulatory changes and changes to vendor agreements and provider applications; and is actively working on those remediation strategies. The STP can be found at https://medicaid.ms.gov/wp-content/uploads/2017/05/MS-STP-Summary-and-Timeline-approved-5.25.17.pdf.

The State ensures that the setting transition plan included with this waiver amendment will be subject to any provisions or requirements included in the State’s approved Statewide Transition Plan. The State will implement any required changes upon approval of the Statewide Transition Plan and will make conforming changes to its waiver when it submits the next amendment or renewal.

In order to receive final approval of Mississippi’s STP, the State will need to complete the following remaining steps and submit an updated STP with this information included:

• Complete comprehensive site-specific assessments of all home and community-based settings, implement necessary strategies for validating the assessment results, and include the outcomes of these activities within the STP;
• Draft remediation strategies and a corresponding timeline that will resolve issues that the site-specific settings assessment process and subsequent validation strategies identified by the end of the home and community-based settings rule transition period (March 17, 2022);
• Outline a detailed plan for identifying settings that are presumed to have institutional characteristics, including qualities that isolate HCBS beneficiaries, as well as the proposed process for evaluating these settings and preparing for submission to CMS for review under Heightened Scrutiny;
• Develop a process for communicating with beneficiaries that are currently receiving services in settings that the state has determined cannot or will not come into compliance with the home and community-based settings criteria by March 17, 2022; and
• Establish ongoing monitoring and quality assurance processes that will ensure all settings providing HCBS continue to remain fully compliant with the rule in the future.

Mississippi’s Intellectual Disabilities/Developmental Disabilities Waiver 1915(c) program uses a person directed, person focused planning process in determining the type and level of supports to incorporate each participant/beneficiary’s unique desires and wishes in the services they receive. The goal is to provide supports for persons/beneficiaries to receive services in settings that meet the requirements of the final rule. Persons/beneficiaries are able to choose non-disability specific settings to receive services.

1915(c) Intellectually Disabled/Developmentally Disabled (ID/DD) Waiver:
ID/DD Waiver services provided in non-residential settings which must meet the requirements of the HCBS settings include:

• Day Services-Adult- this service assists the participant with acquisition, retention, or improvement in self help, socialization, and adaptive skills. This service is provided in a Department of Mental Health certified, non-residential setting.
• Community Respite- this service provides periodic support and relief to the participant’s primary caregiver and promotes the health and socialization of the participant through scheduled activities. This service is provided in a Department of Mental Health certified, non-residential setting.
• Prevocational Services- this service is time-limited and intended to develop and teach a participant general skills that contribute to paid employment in an integrated community setting. This service is provided in a Department of Mental Health certified, non-residential setting.

ID/DD Waiver services provided in the participant’s private home or primary caregiver's home which is fully integrated with opportunities for full access to the greater community include:

• Home and Community Supports,
• Occupational Therapy,
• Physical Therapy,
• Speech Therapy,
• Crisis Intervention,
• In-Home Nursing Respite,
• In-Home Respite,
• Supported Living,
• Transition Assistance,
• Support Coordination,
• Specialized Medical Supplies,
• Behavior Support Services,
• Crisis Support,
• Job Discovery, and
• Supported Employment

Additional Needed Information (Optional)

Provide additional needed information for the waiver (optional):

Appendix A: Waiver Administration and Operation

1. State Line of Authority for Waiver Operation. Specify the state line of authority for the operation of the waiver (select one):

  ○ The waiver is operated by the State Medicaid agency.

  Specify the Medicaid agency division/unit that has line authority for the operation of the waiver program (select one):

  ○ The Medical Assistance Unit.

  Specify the unit name:

  (Do not complete item A-2)

  ○ Another division/unit within the State Medicaid agency that is separate from the Medical Assistance Unit.

  Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency.

  (Complete item A-2-a).

  ○ The waiver is operated by a separate agency of the State that is not a division/unit of the Medicaid agency.

  Specify the division/unit name:
  The Mississippi Department of Mental Health

  In accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this policy is available through the Medicaid agency to CMS upon request. (Complete item A-2-b).

Appendix A: Waiver Administration and Operation

2. Oversight of Performance.

  a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency. When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that
division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities:

As indicated in section 1 of this appendix, the waiver is not operated by another division/unit within the State Medicaid agency. Thus this section does not need to be completed.

b. Medicaid Agency Oversight of Operating Agency Performance. When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:

The State retains authority and responsibility for the program operations and oversight through a multiple level approach. The State monitors DMH's operation of the program through an interagency agreement renewed every three (3) years and updated as needed. This agreement may be extended for a subsequent period of two (2) one-year extensions upon mutual agreement between the parties. The State also ensures oversight through frequent contact with DMH including meetings, conference calls, and correspondence. Operational changes proposed by DMH require State approval. A monthly quality improvement meeting between the State and DMH leadership also ensures program operation and oversight are functional.

The State performs the following administrative functions: (1) promulgation of program policies; (2) notification and clarification of policy revisions to the Department of Mental Health (DMH)/Bureau of Intellectual and Developmental Disabilities (BIDD) and waiver providers; (3) monitoring the interagency agreement with DMH; and (4) analyzing utilization of services.

The State performs ongoing monitoring of DMH to assess its operating performance and to assess for compliance with approved 1915 (c) waiver requirements, policies, and specifications in the Interagency Agreement.

The State and DMH participate jointly in annual training events with ID/DD Waiver providers, and provide additional training as needed. DMH reviews a representative sample from each Support Coordination entity of requests for re-certification of participants. 100% of initial enrollments and requests for changes are reviewed by BIDD staff. DOM will review a sample of BIDD actions on all requests. DOM and BIDD staff meet monthly and as needed to review issues surrounding the ID/DD Waiver and to discuss methods of improving service delivery and waiver operations. BIDD will track and periodically report its performance in conducting operational functions to DOM.

Appendix A: Waiver Administration and Operation

3. **Use of Contracted Entities.** Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (select one):

- Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).
  
  Specify the types of contracted entities and briefly describe the functions that they perform. Complete Items A-5 and A-6.:

- No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).

Appendix A: Waiver Administration and Operation

4. **Role of Local/Regional Non-State Entities.** Indicate whether local or regional non-state entities perform waiver operational and administrative functions and, if so, specify the type of entity (Select One):

- Not applicable
- Applicable - Local/regional non-state agencies perform waiver operational and administrative functions. Check each that applies:
Local/Regional non-state public agencies perform waiver operational and administrative functions at the local or regional level. There is an interagency agreement or memorandum of understanding between the State and these agencies that sets forth responsibilities and performance requirements for these agencies that is available through the Medicaid agency.

Specify the nature of these agencies and complete items A-5 and A-6:

Local/Regional non-governmental non-state entities conduct waiver operational and administrative functions at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The contract(s) under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Specify the nature of these entities and complete items A-5 and A-6:

Appendix A: Waiver Administration and Operation

5. Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities. Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:

Appendix A: Waiver Administration and Operation

6. Assessment Methods and Frequency. Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:

Appendix A: Waiver Administration and Operation

7. Distribution of Waiver Operational and Administrative Functions. In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (check each that applies):

### Appendix A: Waiver Administration and Operation

**Quality Improvement: Administrative Authority of the Single State Medicaid Agency**

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

#### a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

#### i. Performance Measures

*For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application.*

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

*Where possible, include numerator/denominator.*

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

#### Performance Measure:

**AA.a.i. (I) Number and percent of initial waiver enrollments that comport with Reserved Capacity policies**

**N:** Number of enrollments that comport with Reserved Capacity policies

**D:** Total number of enrollments using Reserved Capacity

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

The State monitors the Quality Improvement Strategy (QIS) of the waiver on an ongoing basis through Onsite Compliance Reviews. Review of During the Onsite Compliance Review, if individual problems are discovered, the provider must submit a corrective action plan to DOM for all items cited in the Onsite Compliance Review. A written report of findings is provided to the provider and to the Department of Mental Health.

In addition, providers who intentionally violate the provider agreements may be reported to Program Integrity and their provider number suspended or terminated. DOM may also recoup money paid erroneously to providers if found to violate the provider agreement.

ii. Remediation Data Aggregation

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Administrative Authority that are currently non-operational.

☐ No

☐ Yes

Please provide a detailed strategy for assuring Administrative Authority, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-1: Specification of the Waiver Target Group(s)

a. Target Group(s). Under the waiver of Section 1902(a)(10)(B) of the Act, the State limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:
<table>
<thead>

b. **Additional Criteria.** The State further specifies its target group(s) as follows:

None

c. **Transition of Individuals Affected by Maximum Age Limitation.** When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit *(select one)*:

- Not applicable. There is no maximum age limit
- The following transition planning procedures are employed for participants who will reach the waiver's maximum age limit.

Specify:

---

**Appendix B: Participant Access and Eligibility**

**B-2: Individual Cost Limit (1 of 2)**

a. **Individual Cost Limit.** The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual *(select one)*. Please note that a State may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:

- **No Cost Limit.** The State does not apply an individual cost limit. *Do not complete Item B-2-b or item B-2-c.*
- **Cost Limit in Excess of Institutional Costs.** The State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the State. *Complete Items B-2-b and B-2-c.*

The limit specified by the State is *(select one)*

- A level higher than 100% of the institutional average.
Specify the percentage:

- Other
  Specify:

- Institutional Cost Limit. Pursuant to 42 CFR 441.301(a)(3), the State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. Complete Items B-2-b and B-2-c.

- Cost Limit Lower Than Institutional Costs. The State refuses entrance to the waiver to any otherwise qualified individual when the State reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the State that is less than the cost of a level of care specified for the waiver.

  Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. Complete Items B-2-b and B-2-c.

The cost limit specified by the State is (select one):

- The following dollar amount:
  Specify dollar amount:

  The dollar amount (select one)
  - Is adjusted each year that the waiver is in effect by applying the following formula:
    Specify the formula:

  - May be adjusted during the period the waiver is in effect. The State will submit a waiver amendment to CMS to adjust the dollar amount.

- The following percentage that is less than 100% of the institutional average:
  Specify percent:

- Other:
  Specify:

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (2 of 2)

Answers provided in Appendix B-2-a indicate that you do not need to complete this section.
b. **Method of Implementation of the Individual Cost Limit.** When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

c. **Participant Safeguards.** When the State specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the State has established the following safeguards to avoid an adverse impact on the participant (check each that applies):

- [ ] The participant is referred to another waiver that can accommodate the individual's needs.
- [ ] Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

- [ ] Other safeguard(s)

Specify:

Appendix B: Participant Access and Eligibility

**B-3: Number of Individuals Served (1 of 4)**

a. **Unduplicated Number of Participants.** The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The State will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Unduplicated Number of Participants</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>3150</td>
</tr>
<tr>
<td>Year 2</td>
<td>3400</td>
</tr>
<tr>
<td>Year 3</td>
<td>3650</td>
</tr>
<tr>
<td>Year 4</td>
<td>3900</td>
</tr>
<tr>
<td>Year 5</td>
<td>4150</td>
</tr>
</tbody>
</table>

b. **Limitation on the Number of Participants Served at Any Point in Time.** Consistent with the unduplicated number of participants specified in Item B-3-a, the State may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the State limits the number of participants in this way: (select one):

- [ ] The State does not limit the number of participants that it serves at any point in time during a waiver year.
- [ ] The State limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Limitation on the Number of Participants Served</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

c. **Reserved Waiver Capacity.** The State may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State *(select one)*:

- ☐ Not applicable. The state does not reserve capacity.
- ☐ The State reserves capacity for the following purpose(s).

Purpose(s) the State reserves capacity for:

<table>
<thead>
<tr>
<th>Purposes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Deinstitutionalization</td>
</tr>
<tr>
<td>PASRR - Diversion of people with IDD from NF placement</td>
</tr>
<tr>
<td>Crisis</td>
</tr>
</tbody>
</table>

Describe how the amount of reserved capacity was determined:

Analysis of historical data from the number of deinstitutionalizations during the past five (5) years.

The capacity that the State reserves in each waiver year is specified in the following table:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Capacity Reserved</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>150</td>
</tr>
<tr>
<td>Year 2</td>

<td>Year 4</td>
<td>150</td>
</tr>
<tr>
<td>Year 5</td>
<td></td>
</tr>
</tbody>
</table>
Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (provide a title or short description to use for lookup):

PASRR - Diversion of people with IDD from NF placement

Purpose (describe):

Through the Pre-Admission Screening and Resident Review (PASRR) process, people with IDD are identified. The purpose of this Reserved Capacity is to prevent unnecessary institutionalization in nursing facilities for people who have IDD.

Describe how the amount of reserved capacity was determined:

The amount of Reserved Capacity was determined based on historical data of people identified annually through the PASRR process.

The capacity that the State reserves in each waiver year is specified in the following table:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Capacity Reserved</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>5</td>
</tr>
<tr>

</tr>
<tr>
<td>Year 3</td>
<td>5</td>
</tr>
<tr>
<td>Year 4</td>
<td>5</td>
</tr>
<tr>
<td>Year 5</td>
<td>5</td>
</tr>
</tbody>
</table>
Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (3 of 4)

d. **Scheduled Phase-In or Phase-Out.** Within a waiver year, the State may make the number of participants who are served subject to a phase-in or phase-out schedule *(select one)*:

- The waiver is not subject to a phase-in or a phase-out schedule.
- The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.

e. **Allocation of Waiver Capacity.**

*Select one:*

- Waiver capacity is allocated/managed on a statewide basis.
- Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

f. **Selection of Entrants to the Waiver.** Specify the policies that apply to the selection of individuals for entrance to the waiver:

Individuals are enrolled in the waiver based on the date of the evaluation that determined them eligible for the waiver. Enrollment also occurs via the reserved capacity.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served - Attachment #1 (4 of 4)

Answers provided in Appendix B-3-d indicate that you do not need to complete this section.

Appendix B: Participant Access and Eligibility

B-4: Eligibility Groups Served in the Waiver

a. 1. **State Classification.** The State is a *(select one):*
   
   - §1634 State
   - SSI Criteria State
   - 209(b) State

2. **Miller Trust State.**
   Indicate whether the State is a Miller Trust State *(select one):*
   
   - No
b. Medicaid Eligibility Groups Served in the Waiver. Individuals who receive services under this waiver are eligible under the following eligibility groups contained in the State plan. The State applies all applicable federal financial participation limits under the plan. Check all that apply:

<table>
<thead>
<tr>
<th>Eligibility Groups Served in the Waiver (excluding the special home and community-based waiver group under 42 CFR §435.217)</th>
</tr>
</thead>
<tbody>

Special home and community-based waiver group under 42 CFR §435.217 Note: When the special home and community-based waiver group under 42 CFR §435.217 is included, Appendix B-5 must be completed

☐ No. The State does not furnish waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217. Appendix B-5 is not submitted.

☒ Yes. The State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217.

Select one and complete Appendix B-5.
All individuals in the special home and community-based waiver group under 42 CFR §435.217

Only the following groups of individuals in the special home and community-based waiver group under 42 CFR §435.217

Check each that applies:

☑ A special income level equal to:

Select one:

☐ 300% of the SSI Federal Benefit Rate (FBR)
☐ A percentage of FBR, which is lower than 300% (42 CFR §435.236)

Specify percentage: __________________

☐ A dollar amount which is lower than 300%.

Specify dollar amount: __________________

☐ Aged, blind and disabled individuals who meet requirements that are more restrictive than the SSI program (42 CFR §435.121)
☐ Medically needy without spenddown in States which also provide Medicaid to recipients of SSI (42 CFR §435.320, §435.322 and §435.324)
☐ Medically needy without spend down in 209(b) States (42 CFR §435.330)
☐ Aged and disabled individuals who have income at:

Select one:

☐ 100% of FPL
☐ % of FPL, which is lower than 100%.

Specify percentage amount: __________________

☐ Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the State plan that may receive services under this waiver)

Specify: __________________

Appendix B: Participant Access and Eligibility
B-5: Post-Eligibility Treatment of Income (1 of 7)

In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group.

a. Use of Spousal Impoverishment Rules. Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:

Note: For the five-year period beginning January 1, 2014, the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR §435.217 group effective at any point during this time period.

☑ Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the State uses spousal post-eligibility rules under §1924 of the Act.

Complete Items B-5-e (if the selection for B-4-a-i is SSI State or §1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time periods before January 1, 2014 or after December 31, 2018.
Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018 (select one).

Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group.

In the case of a participant with a community spouse, the State elects to (select one):

- Use spousal post-eligibility rules under §1924 of the Act. (Complete Item B-5-b (SSI State) and Item B-5-d)
- Use regular post-eligibility rules under 42 CFR §435.726 (SSI State) or under §435.735 (209b State) (Complete Item B-5-b (SSI State). Do not complete Item B-5-d)
- Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The State uses regular post-eligibility rules for individuals with a community spouse. (Complete Item B-5-b (SSI State). Do not complete Item B-5-d)

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (2 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

b. Regular Post-Eligibility Treatment of Income: SSI State.

The State uses the post-eligibility rules at 42 CFR 435.726. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following allowances and expenses from the waiver participant's income:

i. Allowance for the needs of the waiver participant (select one):

- The following standard included under the State plan
  
  Select one:

  - SSI standard
  - Optional State supplement standard
  - Medically needy income standard
  - The special income level for institutionalized persons

  (select one):

  - 300% of the SSI Federal Benefit Rate (FBR)
  - A percentage of the FBR, which is less than 300%
    
    Specify the percentage:

  - A dollar amount which is less than 300%.
    
    Specify dollar amount:

  - A percentage of the Federal poverty level
    
    Specify percentage:

  - Other standard included under the State Plan
    
    Specify:

  - The following dollar amount
The following formula is used to determine the needs allowance:

Specify:

The maintenance needs allowance is equal to the individual's total income as determined under the post eligibility process which includes income that is placed in a Miller's Trust.

- Other

Specify:

ii. Allowance for the spouse only (select one):

- Not Applicable (see instructions)
- SSI standard
- Optional State supplement standard
- Medically needy income standard
- The following dollar amount:

Specify dollar amount: ______ If this amount changes, this item will be revised.

- The amount is determined using the following formula:

Specify:

iii. Allowance for the family (select one):

- Not Applicable (see instructions)
- AFDC need standard
- Medically needy income standard
- The following dollar amount:

Specify dollar amount: ______ The amount specified cannot exceed the higher of the need standard for a family of the same size used to determine eligibility under the State's approved AFDC plan or the medically needy income standard established under 42 CFR §435.811 for a family of the same size. If this amount changes, this item will be revised.

- The amount is determined using the following formula:

Specify:

- Other

Specify:

iv. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 §CFR 435.726:

a. Health insurance premiums, deductibles and co-insurance charges
b. Necessary medical or remedial care expenses recognized under State law but not covered under the State's Medicaid plan, subject to reasonable limits that the State may establish on the amounts of these expenses.

Select one:

- ☐ Not Applicable (see instructions) Note: If the State protects the maximum amount for the waiver participant, not applicable must be selected.
- ☐ The State does not establish reasonable limits.
- ☐ The State establishes the following reasonable limits

Specify:

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (3 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

c. Regular Post-Eligibility Treatment of Income: 209(B) State.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (4 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (5 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

The State uses the post-eligibility rules at 42 CFR §435.726 for individuals who do not have a spouse or have a spouse who is not a community spouse as specified in §1924 of the Act. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following allowances and expenses from the waiver participant's income:

i. Allowance for the needs of the waiver participant (select one):

- ☐ The following standard included under the State plan

Select one:
SSI standard
Optional State supplement standard
Medically needy income standard
The special income level for institutionalized persons

(select one):

- 300% of the SSI Federal Benefit Rate (FBR)
- A percentage of the FBR, which is less than 300%
  Specify the percentage:
- A dollar amount which is less than 300%.
  Specify dollar amount:
- A percentage of the Federal poverty level
  Specify percentage:
- Other standard included under the State Plan
  Specify:

The following dollar amount
Specify dollar amount:
If this amount changes, this item will be revised.

The following formula is used to determine the needs allowance:
Specify:

The maintenance needs allowance is equal to the person's total income as determined under the post eligibility process which includes income that is placed in a Miller Trust.

Other
Specify:

ii. Allowance for the spouse only (select one):

- Not Applicable
- The state provides an allowance for a spouse who does not meet the definition of a community spouse in §1924 of the Act. Describe the circumstances under which this allowance is provided:
  Specify:

Specify the amount of the allowance (select one):

- SSI standard
- Optional State supplement standard
- Medically needy income standard
- The following dollar amount:
Specify dollar amount: [ ] If this amount changes, this item will be revised.

- The amount is determined using the following formula:

Specify:

iii. Allowance for the family (select one):

- Not Applicable (see instructions)
- AFDC need standard
- Medically needy income standard
- The following dollar amount:

Specify dollar amount: [ ] The amount specified cannot exceed the higher of the need standard for a family of the same size used to determine eligibility under the State's approved AFDC plan or the medically needy income standard established under 42 CFR §435.811 for a family of the same size. If this amount changes, this item will be revised.

- The amount is determined using the following formula:

Specify:

- Other

Specify:

iv. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 §CFR 435.726:

a. Health insurance premiums, deductibles and co-insurance charges
b. Necessary medical or remedial care expenses recognized under State law but not covered under the State's Medicaid plan, subject to reasonable limits that the State may establish on the amounts of these expenses.

Select one:

- Not Applicable (see instructions) Note: If the State protects the maximum amount for the waiver participant, not applicable must be selected.
- The State does not establish reasonable limits.
- The State establishes the following reasonable limits

Specify:

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (6 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

i. Allowance for the personal needs of the waiver participant

(select one):

- SSI standard
- Optional State supplement standard
- Medically needy income standard
- The special income level for institutionalized persons
- A percentage of the Federal poverty level

Specify percentage:

The following dollar amount:

Specify dollar amount:

If this amount changes, this item will be revised

The following formula is used to determine the needs allowance:

Specify formula:

The personal needs allowance is equal to the person's total income as determined in the post eligibility process which includes income that is placed in a Miller Trust.

Other

Specify:

ii. If the allowance for the personal needs of a waiver participant with a community spouse is different from the amount used for the individual's maintenance allowance under 42 CFR §435.726 or 42 CFR §435.735, explain why this amount is reasonable to meet the individual's maintenance needs in the community.

Select one:

- Allowance is the same
- Allowance is different.

Explanation of difference:

iii. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR §435.726:
a. Health insurance premiums, deductibles and co-insurance charges
b. Necessary medical or remedial care expenses recognized under State law but not covered under the State's Medicaid plan, subject to reasonable limits that the State may establish on the amounts of these expenses.

Select one:

- **Not Applicable (see instructions)** Note: If the State protects the maximum amount for the waiver participant, not applicable must be selected.
- **The State does not establish reasonable limits.**
- **The State uses the same reasonable limits as are used for regular (non-spousal) post-eligibility.**

**Appendix B: Participant Access and Eligibility**

**B-6: Evaluation/Reevaluation of Level of Care**

As specified in 42 CFR §441.302(c), the State provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

**a. Reasonable Indication of Need for Services.** In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the State's policies concerning the reasonable indication of the need for services:

   **i. Minimum number of services.**

   The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is: 1

   **ii. Frequency of services.** The State requires (select one):
   - The provision of waiver services at least monthly
   - Monthly monitoring of the individual when services are furnished on a less than monthly basis

   *If the State also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:*

**b. Responsibility for Performing Evaluations and Reevaluations.** Level of care evaluations and reevaluations are performed (select one):

   - Directly by the Medicaid agency
   - By the operating agency specified in Appendix A
   - By an entity under contract with the Medicaid agency.

   Specify the entity:

   **Other**

   Specify:

**c. Qualifications of Individuals Performing Initial Evaluation:** Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:
The educational/professional qualifications for evaluators for initial level of care are the same for waiver applicants and applicants for ICF/IID services. Initial evaluations are conducted in an interdisciplinary team format. Team members include at least a psychologist and social worker. Other disciplines participate as indicated by a person's individual need. All team members are appropriately licensed and certified under state law by their respective disciplines. There are 5 Diagnostic and Evaluation Teams (D&E Teams) that conduct evaluations and are located at each of DMH’s five (5) IDD Regional Programs.

Initial ICAPs for LOC will be conducted by the independent contractor. A robust quality assurance system is in place which trains assessors according to parameters developed by one of the authors of the ICAP and that also requires a 100% review of clinical notes and scoring for assessors by quality consultants before submission of the ICAP data to the scoring system.

d. **Level of Care Criteria.** Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the State's level of care instrument/tool. Specify the level of care instrument/tool that is employed. Specify all state laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

To complete an initial LOC evaluation, the Diagnostic and Evaluation Team administers a battery of assessment instruments to each individual. The instruments chosen include standardized measures of intellectual and adaptive functioning such as the Wechsler Child and Adult Intelligence Scales, Vineland Adaptive Behavior Scales, and other standardized instruments deemed appropriate for each individual. As a part of the evaluation process, the ICAP is completed. The following criteria are used to establish level of care:

All definitions for intellectual disability will be based on the definitions in the most current Diagnostic and Statistical Manual of Mental Disorders (DSM).

To qualify for the Waiver, an individual must have one of the following:

An intellectual disability characterized by significant limitations in both intellectual functioning and adaptive behavior. The individual’s IQ score is approximately 70 or below and the disability originates before age 18.

Or

Persons with closely related conditions who have a severe, chronic disability that meets ALL of the following conditions:

1. It is attributable to:
   - a. Cerebral palsy or epilepsy; or
   - b. Any other condition, other than mental illness, found to be closely related to intellectual disabilities because this condition results in impairment of general intellectual functioning or adaptive behavior similar to that of individuals with intellectual disabilities and requires treatment or services similar to those required for these persons; or
   - c. Autism as defined by the most current DSM.

2. It is manifested before the person reaches age 22; and
3. It is likely to continue indefinitely; and
4. It results in substantial functional limitations in three or more of the following areas of major life activity:
   - b. Understanding and use of language.
   - c. Learning.
   - d. Mobility.
   - e. Self-direction.
   - f. Capacity for independent living.
   - g. Economic self-sufficiency.

People must have a Broad Independence Standard Score on the ICAP of 69 or below to meet the recertification criteria for the ID/DD Waiver. People having Broad Independence Standard Score of 70 or above will be flagged in the LTSS System and referred to the appropriate Diagnostic and Evaluation Team for a clinical review of all records to determine if he/she continues to meet ICF/IID LOC. If a person whose Broad Independence Standard Score is 70 or above, and, in the professional opinion of the psychologist, continues to meet ICF/IID LOC, he/she will remain enrolled. If the psychologist determines the person does not continue to meet ICF/IID LOC, the person will be discharged and referred.
to other appropriate services such as the IDD Community Support Program (1915i), Targeted Case Management or Community Support Services through a Community Mental Health Center. The person will be afforded all rights to appeal the decision.

e. **Level of Care Instrument(s).** Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (select one):

- The same instrument is used in determining the level of care for the waiver and for institutional care under the State Plan.
- A different instrument is used to determine the level of care for the waiver than for institutional care under the State plan.

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

f. **Process for Level of Care Evaluation/Reevaluation:** Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

The specific battery of assessment instruments chosen for initial evaluations includes standardized measures of intellectual and adaptive functioning such as the Wechsler Child and Adult Intelligence Scales, Vineland Adaptive Behavior Scales, and other standardized instruments which measure intellectual and adaptive functioning and are deemed appropriate for each individual. Medical, social and other records necessary to have a current and valid reflection of the individual are also reviewed. As a part of the evaluation process, the ICAP is completed. The ICAP contains all but three (3) of the required elements for the Core Standardized Assessment. Those items not contained (transferring, mobility in bed, and bathing), are asked separately in order to provide information related to a person's need for support in these areas but scoring is not impacted.

For reevaluation of LOC, the ICAP is administered at least annually by each person's Support Coordinator or by an independent contractor. All initial ICAPs for LOC are administered by an independent contractor. The independent contractor re-administers the ICAP on a three (3) year rotating basis. In years the independent contractor does not administer the ICAP for LOC, the person's Support Coordinator administers the ICAP. If there is a request for another ICAP because someone's condition has changed, that is administered by the independent contractor to ensure an unbiased evaluation of the person's LOC requirements.

If there is an increase of a person's score that changes his/her Support Level for his/her Individual Support budget by one (1) or more levels, a review by the Diagnostic and Evaluation Team/independent contractor may take place to determine the reason for the increase.

People must have Broad Independence Standard Score of <70 to meet the recertification criteria for the ID/DD Waiver. People having Broad Independence Standard Score of 70 or above will be flagged in the LTSS System and referred to the appropriate Diagnostic and Evaluation Team for a clinical review of all records to determine if he/she continues to meet ICF/IID LOC. If a person whose Broad Independence Standard Score is 70 or above, in the professional opinion of the psychologist, continues to meet ICF/IID LOC, he/she will remain enrolled. If the psychologist determines the person does not continue to meet ICF/IID LOC, the person will be discharged and referred to other appropriate services such as the IDD Community Support Program (1915i), Targeted Case Management or Community Support Services through a Community Mental Health Center. The person will be afforded all rights to appeal the decision.

g. **Reevaluation Schedule.** Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (select one):

- Every three months
- Every six months
- Every twelve months
- Other schedule

Specify the other schedule:
h. Qualifications of Individuals Who Perform Reevaluations. Specify the qualifications of individuals who perform reevaluations (select one):

- The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.
- The qualifications are different.

Specify the qualifications:

Reevaluations of level of care are conducted by ID/DD Waiver Support Coordinators or an independent contractor. Each Support Coordinator is a state employee who meets the Mississippi State Personnel Board's minimum qualifications for their positions. Generally, these positions are occupied by individuals who hold at least a Bachelor's degree in a human services field related to working with people with intellectual disabilities/developmental disabilities and at least one year of experience in said field. Each of these Support Coordinators is supervised by a Master's level staff person who has at least two years of management experience and whose degree is in a field related to working with people with intellectual disabilities/developmental disabilities.

The independent contractor uses staff who meet the same minimum qualifications as those for Support Coordinators. Additionally, the contractor has a robust quality assurance system which trains the contractor's assessors according to parameters developed by one of the authors of the ICAP and that also requires a 100% review of clinical notes and scoring for assessors by quality consultants before submission of the ICAP data to the LTSS scoring system.

i. Procedures to Ensure Timely Reevaluations. Per 42 CFR §441.303(c)(4), specify the procedures that the State employs to ensure timely reevaluations of level of care (specify):

ID/DD Waiver Support Coordinators are responsible for conducting annual reevaluations of each person to determine if they continue to require ICF/IID level of care. Reports are generated by LTSS that show the length of time before someone's certification expires. These reports are run monthly by Support Coordinators and Support Coordination Directors to determine when the recertification process for each person should begin. Recertification information must be submitted to LTSS before the end of someone’s certification period in order to ensure ongoing eligibility for services.

j. Maintenance of Evaluation/Reevaluation Records. Per 42 CFR §441.303(c)(3), the State assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

A person's comprehensive record is maintained by the Support Coordinator in LTSS. BIDD and the State have access to all information required for initial and recertification through LTSS.

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

a. Methods for Discovery: Level of Care Assurance/Sub-assurances

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:

a. Sub-assurance: An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the
method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
LOC. a.i.a (1) Number and percent of new enrollees who had a level of care evaluation indicating need for ICF/IID level of care prior to receipt of services
N: Number of new enrollees who received LOC prior to the receipt of services
D: Number of new enrollees

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible. N/A

b. Methods for Remediation/Fixing Individual Problems

i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.
If BIDD, during the review of a request for initial enrollment, determines LOC criteria was not applied as specified in the waiver, the appropriate D&E Team is notified. BIDD informs the D&E Team of the issue(s) identified and they are required to conduct another review of the evaluation. BIDD determines, based on all available information, whether the criteria for determining LOC was appropriately applied.

If the determination by the D&E Team is that the person is not eligible due to LOC criteria, the person/legal representative is informed of his/her right to appeal the decision to the Director of BIDD or directly to the State. If BIDD and/or the State finds the person does meet LOC criteria, he/she is approved to be enrolled.

If the determination by BIDD is that the D&E Team approved someone for initial eligibility who does not meet LOC criteria, the D&E Team is notified and BIDD sends the person/legal guardian notification that the person does not meet LOC criteria and the person/legal representative is informed of his/her right to appeal the decision to the Director of BIDD or directly to the State.

ii. Remediation Data Aggregation

Continuous and Ongoing

C. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Level of Care that are currently non-operational.

☐ No

☐ Yes

Please provide a detailed strategy for assuring Level of Care, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

Freedom of Choice. As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

i. informed of any feasible alternatives under the waiver; and

ii. given the choice of either institutional or home and community-based services.

a. Procedures. Specify the State's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
When a person is admitted to the ID/DD Waiver, the person/legal representative indicates his/her choice of institutional or home and community based services on the appropriate form and signs and dates the form. The forms are maintained in LTSS. During record reviews, DMH staff verifies there is documentation the person was offered a choice and chose home and community based services.

b. **Maintenance of Forms.** Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

These forms are maintained in LTSS.

---

**Appendix B: Participant Access and Eligibility**

**B-8: Access to Services by Limited English Proficiency Persons**

**Access to Services by Limited English Proficient Persons.** Specify the methods that the State uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

For those presenting for an assessment, each of the DMH's five (5) IDD Regional Programs have a list of available interpreters.

For calls regarding information about the program or eligibility, the State subscribes to a language line service which provides interpretation services for incoming calls. The interpretation service provides access within minutes to staff who interpret from English into as many as 140 languages.

The State has established a Limited English Proficiency (LEP) Policy. All essential staff have received training on the use of the Language Line Service. All necessary steps have been taken to ensure staff understand the established LEP policy and are capable of carrying it out.

---

*Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:*

- ✔ Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**

Day Services-Adult is the provision of regularly scheduled, individualized activities in a non-residential setting, separate from the person's private residence or other residential living arrangements. Group and individual participation in activities that include daily living and other skills that enhance community participation and meaningful days for each person are provided. Personal choice of activities as well as food, community participation, etc. is required and must be documented and maintained in each person’s record.

The site setting must be located in the community so as to provide access to the community at large including shopping, eating, parks, etc. to the same degree of access as someone not receiving ID/DD Waiver services. The setting must be physically accessible to persons.

Day Services-Adult must be physically accessible to the person and must:
(a) Be integrated in and supports full access of persons receiving Medicaid HCBS to the greater community, to the same degree of access as individuals not receiving Medicaid HCBS.
(b) Be selected by the person from among setting options including non-disability specific settings. The setting options are identified and documented in the person-centered service plan and are based on the person's needs, preferences,
(c) Ensure a person's rights of privacy, dignity and respect, and freedom from coercion and restraint.
(d) Optimize, but not regiment, person initiative, autonomy, and independence in making life choices, including but not limited to, daily activities, physical environment, and with whom to interact.
(e) Facilitate individual choice regarding services and supports, and who provides them.
(f) Allow persons to have visitors of their choosing at any time they are receiving Day Services-Adult services.
Providers must provide choices of food and drinks to persons at any time during the day in addition to the following:
(a) A mid-morning snack,
(b) A noon meal, and
(c) An afternoon snack.

Community activities occur at times and in places of a person’s choosing and address at least one (1) of the following: 1. Activities which address daily living skills 2. Activities which address leisure/social/other community activities and events.

Services must optimize, not regiment individual initiative, autonomy and independence in making informed life choices including what he/she does during the day and with whom they interact.

Day Services-Adult must have a community component that is individualized and based upon the choices of each person. Community participation activities must be offered to the same degree of access as someone not receiving ID/DD Waiver services.

Community integration opportunities must be offered at least weekly for each person and address at least one (1) of the following:
1. Activities which address daily living skills
2. Activities which address leisure/social/other community activities and events.

People who may require one-on-one assistance must be offered the opportunity to participate in all activities, including those offered on site and in the community.

Transportation must be provided to and from the program and for community participation activities.

Day Services-Adult includes assistance for people who cannot manage their personal toileting and hygiene needs during the day.

People receiving Day Services-Adult may also receive Prevocational, Supported Employment, or Job Discovery services but not at the same time of the day.

People must be at least 18 years of age and have documentation in their record to indicate they have received a diploma, or certificate of completion, or a letter from the school district indicating they are no longer attending school if they are under the age of 22.

Day Services-Adult settings do not include the following:
1) A nursing facility,
2) An institution for people with mental illness,
3) An intermediate care facility for individuals with intellectual disabilities (ICF/IID),
4) A hospital, or
5) Any other locations that have qualities of an institutional setting, as determined by the State, including but not limited to, any setting:
(a) Located in a building that is also a publicly or privately operated facility that provides inpatient institutional treatment,
(b) Located in a building on the grounds of or immediately adjacent to a publicly or privately operated facility that provides inpatient institutional treatment, or
(c) Any other setting that has the effect of isolating persons receiving Medicaid Home and Community-Based Services (HCBS).

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
Providers may bill for a maximum of 138 hours per month for an individual in a month which has 23 working days, a provider may bill a maximum of 132 hours per month for an individual in a month which has 22 working days.

Providers may only bill for the actual amount of service provided.

C-1/C-3: Provider Specifications for Service

- **Service Type:** Statutory Service
- **Service Name:** Day Services - Adult

Provider Category:
- [ ] Agency

Provider Type:
- [ ] Day Services - Adult Agency

Provider Qualifications

- **License (specify):**
- **Certificate (specify):** DMH Certification
- **Other Standard (specify):**

The provider is required to allow at least one staff person, invited by the person, who works with him/her on a daily basis and who knows him/her best to attend the person’s PSS meeting. Supervisory staff who do not have at least daily contact with a person do not meet the staff attendance requirement, but may attend, if invited by the person, in order to assist in writing the Activity Support Plan with the person.

Verification of Provider Qualifications

- **Entity Responsible for Verification:** DMH
- **Frequency of Verification:** Initially and at least every 3 years thereafter.

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

- **Service Type:** Statutory Service
- **Service:** Respite
- **Alternate Service Title (if any):** In-Home Respite

HCBS Taxonomy:
Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**
In-Home Respite provides temporary, periodic relief to those persons normally providing care for the eligible individual. In-Home Respite staff provides all the necessary care the usual caregiver would provide during the same time period.

In-Home Respite is only available to individuals living in a family home and is not permitted for individuals living independently, either with or without a roommate.

In-Home Respite is not available for people who receive Supported Living, Supervised Living, Shared Supported Living, Host Home services, or who live in any other type of staffed residence.

In-Home Respite is not available to individuals who are in the hospital, an ICF/IID, nursing home, or other type of rehabilitation facility that is billing Medicaid, Medicare, and/or private insurance. This includes inpatient psychiatric facilities.

In-Home Respite cannot be provided in the provider’s residence.

Staff may accompany individuals on short community outings (1-2 hours) but this cannot comprise the entirety of the service. Activities are to be based upon the outcomes identified in the PSS and implemented through the Activity Support Plan. Allowable activities include:
1. Assistance with personal care needs such as bathing, dressing, toileting, grooming;
2. Assistance with eating and meal preparation for the person receiving services in adherence with any diet prescribed by an M.D., Nurse Practitioner, or Licensed Dietitian/Nutritionist
3. Assistance with transferring and/or mobility
4. Leisure activities

Staff cannot accompany individuals to medical appointments.

Individuals cannot be left unattended at any time during the provision of In-Home Respite Services.

Each individual must have an Activity Support Plan that is developed by the provider with the person present. Information from the PSS is to be included in the Activity Support Plan and must address the outcomes on his/her approved Plan of Services and Supports.

In-Home Respite staff members who did not participate in the development of the person’s Plan of Services and Supports, but who interact with him/her on daily or weekly basis, must be trained regarding the person’s PSS and
Activity Support Plan prior to beginning work with the person. This training must be documented in the person's record and include signatures of both staff providing the training and staff receiving the training.

*Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:*
- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**
Prevocational Services provide meaningful activities of learning and work experiences, including volunteer work, where the person can develop general, non-job task specific strengths and skills that contribute to paid employment in integrated community settings.

Prevocational services must be physically accessible to the person and must:
- Be integrated in and supports full access of persons receiving Medicaid HCBS to the greater community, to the same degree of access as individuals not receiving Medicaid HCBS.
- Be selected by the person from among setting options including non-disability specific settings. The setting options are identified and documented in the person-centered service plan and are based on the person's needs, preferences,
- Ensure a person's rights of privacy, dignity and respect, and freedom from coercion and restraint.
- Optimize, but not regiment, person initiative, autonomy, and independence in making life choices, including but not limited to, daily activities, physical environment, and with whom to interact.
- Facilitate individual choice regarding services and supports, and who provides them.
- Allow persons to have visitors of their choosing at any time they are receiving Prevocational services.

Choices of food and drinks must be offered to persons who did not bring their own at any time during the day which includes, at a minimum:
- A mid-morning snack,
- A noon meal, and
- An afternoon snack.

Prevocational Services are expected to be provided over a defined period of time with specific outcomes to be
achieved as determined by the person and his/her team.

There must be a written plan. The plan must include job exploration, work assessment, and work training. The plan must also include a statement of needed services and the duration of work activities.

People receiving Prevocational Services must have employment related outcomes in their Plan of Services and Supports; the general habilitation activities must be designed to support such employment outcomes.

Services develop and teach general skills that are associated with building skills necessary to perform work optimally in competitive, integrated employment. Teaching job specific skills is not the intent of Prevocational Services. Examples of allowable include, but are not limited to:

1. Ability to communicate effectively with supervisors, coworkers and customers
2. Generally accepted community workplace conduct and dress
3. Ability to follow directions; ability to attend to tasks
4. Workplace problem solving skills and strategies
5. General workplace safety and mobility training
6. Attention span
7. Ability to manipulate large and small objects
8. Interpersonal relations
9. Ability to get around in the community as well as the Prevocational site

Participation in Prevocational Services is not a prerequisite for Supported Employment. A person receiving Prevocational Services may pursue employment opportunities at any time to enter the general work force.

Prevocational Services may be furnished in a variety of locations in the community and are not limited to fixed program locations.

Community job exploration activities must be offered to each person based on choices/requests of the persons and be provided individually or in groups of up to three (3) people. Documentation of the choices offered and the chosen activities must be documented in each person’s record. People who require one-on-one assistance must be included in community job exploration activities. Community participation activities must be offered to the same degree of access as someone not receiving services.

Transportation must be provided to and from the program and for community integration/job exploration.

Any person receiving Prevocational Services who is performing productive work as a trial work experience that benefits the organization or that would have to be performed by someone else if not performed by the person receiving services must be paid commensurate with members of the general work force doing similar work per wage and hour regulations of the U.S. Department of Labor. Services must be time limited with a written plan. The plan must include job exploration, work assessment, and work training. The plan must also include a statement of needed services and the duration of work activities.

At least annually, providers will conduct an orientation informing people receiving services about Supported Employment and other competitive employment opportunities in the community. This documentation must be maintained on site. Representative(s) from the Mississippi Department of Rehabilitation Services must be invited to participate in the orientation.

Personal care assistance from staff must be a component of Prevocational Services. A person cannot be denied Prevocational Services because he/she requires assistance from staff with toileting and/or personal hygiene.

Mobile crews and entrepreneurial models that do not meet the definition of Supported Employment and that are provided in groups of up to three (3) people can be included in Prevocational Services away from the program site and be documented as part of the Plan of Services and Supports.

Persons receiving Prevocational Services may also receive Day Services-Adult, Job Discovery and/or Supported Employment, but not at the same time of day.

A person must be at least 18 years of age and have documentation in his/her record to indicate he/she has a diploma, certificate of completion or letter from the school district stating the person is no longer enrolled in school if under the age of 22.
Services must optimize, not regiment personal initiative, autonomy and independence in making informed life choices, including but not limited to daily activities, physical environment and with whom they interact.

Persons receiving Prevocational Services may also receive Day Services-Adult, Job Discovery, and/or Supported Employment, but not at the same time of day.

Prevocational settings do not include the following:
1) A nursing facility,
2) An institution for people with mental illness,
3) An intermediate care facility for individuals with intellectual disabilities (ICF/IID),
4) A hospital or,
5) Any other locations that have qualities of an institutional setting, as determined by the State, including but not limited to, any setting:
(a) Located in a building that is also a publicly or privately operated facility that provides inpatient institutional treatment,
(b) including Located in a buildings on the grounds of or immediately adjacent to a public institution the publicly or privately operated facility, or
(c) Any other setting that has the effect of isolating persons receiving Medicaid Home and Community-Based Services (HCBS).

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Students aging out of school services must be referred to the Mississippi Department of Rehabilitation Services and exhaust those Supported Employment benefits before being able to enroll in Prevocational Services.

Providers may bill for a maximum of 138 hours per month for an individual who attends each working day in a month which has 23 working days. Providers may bill a maximum of 132 hours per month for an individual who attends each working day in a month which has 22 working days. Providers may only bill for the actual amount of service provided.

Service Delivery Method (check each that applies):

- Participant-directed as specified in Appendix E
- Provider managed

Specify whether the service may be provided by (check each that applies):

- Legally Responsible Person
- Relative
- Legal Guardian

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**
Supervised Living Services are for people ages 18 and older and provide personally tailored supports which assist with the acquisition, retention, or improvement in skills related to living in the community.
1. Learning and instruction are coupled with the elements of support, supervision and engaging participation to reflect the natural flow of learning, practice of skills, and other activities as they occur during the course of a person’s day.
2. Providers must document the development of methods, procedures and activities to provide meaningful days and independent living choices.
3. Activities are to be designed to promote independence yet provide necessary support and assistance.
4. Providers must ensure each person’s rights of privacy, dignity and respect and freedom from coercion.
5. Services must optimize, but not regiment, a person’s initiative, autonomy and independence in making life choices, including, but not limited to daily activities, physical environment, and with whom to interact.

Supervised Living services provide assistance, as appropriate, to meet person needs for support. Services include at least the following:

1. Direct personal care assistance activities such as:
   a. Grooming
   b. Eating
   c. Bathing
   d. Dressing
   e. Personal care needs

2. Instrumental activities of daily living which include:
   a. Assistance with planning and preparing meals
   b. Cleaning
   c. Transporting persons to and from community activities, other places of the person’s choice work, and other sites as documented in the ASP and PSS.
   d. Assistance with mobility both at home and in the community
   e. Supervision of the person’s safety and security
   f. Banking
   g. Shopping
   h. Budgeting
   i. Facilitation of the person’s participation in community activities
   j. Use of natural supports and typical community services available to everyone
   k. Social activities
   l. Participation in leisure activities
   m. Development of socially valued behaviors
   n. Assistance with scheduling and attending appointments

3. Methods for assisting persons arranging and accessing routine and emergency medical care and monitoring their health and/or physical condition. Documentation of the following must be maintained in each person’s record:
   a. Assistance with making doctor/dentist/optical appointments;
   b. Transporting and accompanying persons to such appointments; and
   c. Conversations with the medical professional, if the person gives consent.

The amount of staff supervision someone receives is based on tiered levels of support based on a person’s Support Level determined by the Inventory for Client and Agency Planning (ICAP).

There must be at least one staff person in the same dwelling as people receiving services at all times (24/7) that is able to respond immediately to the requests/needs for assistance from the persons in the dwelling. Staff must be awake at all times.

Supervised Living sites certified after 7/1/16 can have no more than 4 people residing in the home.

Persons must have control over their personal resources. Providers cannot restrict access to personal resources. Providers must offer informed choice of the consequences/risks of unrestricted access to personal resources. There
must be documentation in each person’s record regarding all income received and expenses incurred. Documentation is required that a quarterly accounting was provided and reviewed with the person.

People have freedom and support to control their own schedules and activities.

1. Persons cannot be made to attend a day program if they choose to stay home, would prefer to come home after a job or doctor’s appointment in the middle of the day, if they are ill, or otherwise choose to remain at home.
2. Staff must be available to support person choice.

Meals must be provided at least 3 times per day and snacks must be provided throughout the day. Documentation of meal planning must be available for review.

1. Persons must have access to food at any time, unless prohibited by his/her person plan.
2. Persons must have choices of the food they eat.
3. Persons must have choices about when and with whom they eat.

In living arrangements in which the residents pay rent and/or room and board to the provider, there must be a written financial agreement which addresses, at a minimum, the following:

1. Procedures for setting and collecting fees and/or room and board
2. A detailed description of the basic charges agreed upon
3. The time period covered by each charge (must be reviewed at least annually or at any time charges change)
4. The service(s) for which special charge(s) are made
5. The written financial agreement must be explained to and reviewed with the person/legal representative prior to or at the time of admission and at least annually thereafter or whenever fees are changed.
6. A requirement that the person’s record contain a copy of the written financial agreement which is signed and dated by the person/legal representative indicating the contents of the agreement were explained to them and they are in agreement with the contents. A signed copy must also be given to the person/legal guardian or representative.
7. The written financial agreement must include language specifying the conditions, if any, under which an person might be evicted from the living setting that ensures that the provider will arrange or collaborate with Support Coordination to arrange an appropriate replacement living option to prevent the person from becoming homeless as a result of discharge/termination from the Supervised Living provider.
8. Persons receiving ID/DD Waiver services must be afforded the rights outlined in the Landlord/Tenant laws of the State of Mississippi (MS Code Ann. 1972 §89-7-1 to 125 and §89-8-1 to 89-8-1 to 89).

There must be a Supervised Living Program Supervisor for a maximum of 4 Supervised Living homes.

1. The Supervised Living Program Supervisor is responsible for providing weekly supervision and monitoring at all 4 homes.
2. Unannounced visits on all shifts, on a rotating basis must take place monthly.
3. All supervision activities must be documented and available for DMH review. Supervision activities include but are not limited to: review of daily Service Notes to determine if outcomes identified on a person’s PSS are being met; review of food availability; review of persons’ finances and budgeting; review of each person’s satisfaction with services, staff, environment, etc.

Nursing services are a component part of Supervised Living. They must be provided as-needed, based on each person’s need for nursing services. Examples of activities may include: Monitoring vital signs; monitoring blood sugar; setting up medication sets for self-administration; administration of medication; weight monitoring; periodic assessment, accompanying people on medical visits, etc.

Behavior Support may be provided in the Supervised Living home to provide direct services as well as modify the
environment and train staff in implementation of the Behavior Support Plan.

Crisis Intervention services may be provided in the Supervised Living home to intervene in and mitigate an identified crisis situation. Crisis Intervention staff may remain in the home with the person until the crisis is resolved. This could be in 24-hour increments (daily) or less than 24-hour increments (episodic), depending on each person’s need for support.

Procedures must be in place for person(s) to access any other needed medical and other services to facilitate health and well-being.

There must be visiting hours that are mutually agreed upon by all people living in the residence. Visiting hours cannot be restricted unless mutually agreed upon by all people living in the home.

Persons have choices about housemates and with whom they share a room.

Persons must have keys to their home if they so choose.

To protect privacy and dignity, bedrooms must have lockable entrances with each person having a key to his/her bedroom, if they choose, with only appropriate staff having keys.

Persons may share bedrooms based on their choices. Individual rooms are preferred, but No more than two persons may share a bedroom.

Persons have the freedom to furnish and decorate their own rooms in compliance with any lease restrictions that may be in place regarding wall color, wall hangings, bedding, etc.

The setting is integrated in and supports full access to the community to the same extent as people not receiving Supervised Living services.

Supervised Living settings do not include the following:

1. A nursing facility
2. An institution for people with mental illness
3. An intermediate care facility for persons with intellectual disabilities (ICF/IDD);
4. A hospital
5. Other locations that have qualities of an institutional setting, as determined by the Division of Medicaid and Department of Mental Health
6. Any setting that is located in a building that is also a publicly or privately operated facility that provides inpatient institutional treatment
7. A building on the grounds of, or immediately adjacent to, a public institution
8. Any other setting that has the effect of isolating persons receiving ID/DD Waiver services from the broader community of persons not receiving ID/DD Waiver services.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
Support Coordination activities include:

- Coordinating and facilitating the development of the Plan of Services and Supports through the person-centered planning process.
- Revising/updating each individual’s Plan of Services and Supports at least annually or when changes in the individual’s circumstances occur or when requests are made by the individual/legal guardian.
- Informing individuals/legal guardians about all ID/DD Waiver and non-waiver services from which the person could benefit.
- Informing individuals/legal guardians about certified providers for the services on his/her approved Plan of Services and Supports initially, annually, if he/she becomes dissatisfied with the current provider, when a new provider/site is certified in that person’s area, or if a provider’s certification status changes.
- Assisting the individual/legal guardian with meeting/interviewing agency representatives and/or arranging tours of service sites until the individual chooses a provider.
- Support Coordinators are responsible for entering required information in the State’s LTSS System.
- Notifying each individual of:
  - Initial enrollment
  - Approval/denial of requests for additional services
  - Approval/denial of requests for increases in services
  - Approval for requests for recertification for services
  - Approval for requests for readmission
  - Reduction in service(s)
  - Termination of service(s)
- Informing and providing the individual/legal representative with the procedures for appealing the denial, reduction, or termination of ID/DD Waiver services.
- Educating individuals, legal guardians and families on individual’s rights and the procedures for reporting instances of abuse, neglect and exploitation.
- Performing all necessary functions for the individual’s annual recertification of ICF/IID level of care
- At least monthly monitoring and assessment of the individual’s Plan of Services and Supports that must include:
  - Information about the individual’s health and welfare, including any changes in health status, needs for support, preferences, progress and accomplishments, and or changes in desired outcomes;
Information about the individual’s satisfaction with current service(s) and provider(s) (ID/DD Waiver and others);

Information addressing the need for any new services (ID/DD Waiver and others) based upon expressed needs or concerns or changing circumstances and actions taken to address the need(s);

Information addressing whether the amount/frequency of service(s) listed on the approved Plan of Services and Supports remains appropriate;

Ensuring all services an individual receives, regardless of funding source, are coordinated to maximize the benefit and outcome for the individual;

Follow-up activities regarding issues/needs identified during monthly or quarterly contacts or those reported by providers;

Determination of the need to update the Plan of Services and Supports;

Information about new service providers/service sites in the person’s area

Review of service utilization via a report generated by the State.

Addressing issues related to an individual’s Plan of Services and Supports with his/her provider(s);

Conducting face-to-face visits with each individual and legal guardian at least once every three (3) months, rotating service settings and talking to staff. For people who receive only day services, at least one (1) visit per year must take place in the person’s home;

The following items must be addressed during quarterly visits:

Information about the individual’s health and welfare, including any changes in health status, needs for support, preferences, progress and accomplishments, and or changes in desired outcomes.

Information about the individual’s satisfaction with current service(s) and provider(s) (ID/DD Waiver and others) Information addressing the need for any new services (ID/DD Waiver and others) based upon expressed needs or concerns or changing circumstances and actions taken to address the need(s) Information addressing whether the amount/frequency of service(s) listed on the approved Plan of Services and Supports remains appropriate Review of Activity Support Plans developed by agencies which provide ID/DD Waiver services to the individual Ensuring all services an individual receives, regardless of funding source, are coordinated to maximize the benefit and outcome for the individual Follow-up activities regarding issues/needs identified during monthly or quarterly contacts or those reported by providers.

Determination of the need to update the Plan of Services and Supports

Information about new service providers/service sites in the person’s area

Review of service utilization via a report generated by the State

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:
- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**
Supported Employment is ongoing support for people who, because of their support needs, will need intensive, ongoing services to obtain or maintain a job in competitive, integrated employment or self-employment.

Employment must be in an integrated work setting in the general workforce where an individual is compensated at or above the minimum wage but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities.

Providers must work to reduce the number of hours of staff involvement as the employee becomes more productive and less dependent on paid supports. This is decided on a personalized basis based on the job. The amount of support is decided with the person and all staff involved as well as the employer, the Department of Rehabilitation Services and the person’s team.

Supported Employment Services are provided in a work site where individuals without disabilities are employed; therefore, payment is made only for adaptations, supervision, and training required by individuals receiving waiver services as a result of their disabilities, but does not include payment for the supervisory activities rendered as a normal part of the business setting.

Other workplace supports may include services not specifically related to job skills training that enable the individual to be successful in integrating into the job setting (i.e. appropriate attire, social skills, etc).

Each individual must have an Activity Support Plan that is developed by the provider with the person present. Information from the PSS and Employment Profile (which takes place during the first thirty (30) days of services) is to be included in the Activity Support Plan and must address the outcomes on his/her approved Plan of Services and Supports.

Providers must be able to provide all activities that constitute Supported Employment:

1. Job Seeking – Activities that assist an individual in determining the best type of job for him/her and then locating a job in the community that meets those stated desires. Job Seeking is limited to ninety (90) hours per certification year. Additional hours may be approved by BIDD on an individual basis with appropriate documentation. Job seeking includes:
   a. Completion of IDD Employment Profile
   b. Person Centered Career Planning, conducted by Supported Employment provider staff, which is a discussion of specific strategies that will be helpful to assist job seekers with disabilities to plan for job searches
   c. Job Development
      (1) Determining the type of environment in which the person is at his/her best
      (2) Determining in what environments has the person experienced success
      (3) Determining what work and social skills does the person bring to the environment
(4) Assessing what environments are their skills viewed as an asset
(5) Determining what types of work environments should be avoided
d. Employer research
e. Employer needs assessment
(1) Tour the employment site to capture the requirements of the job
(2) Observe current employees
(3) Assess the culture and the potential for natural supports
(4) Determine unmet needs
f. Negotiation with prospective employers
(1) Job developer acts as a representative for the job seeker

2. Job Coaching – Activities that assist an individual to learn and maintain a job in the community. For the ID/DD Waiver, the amount of Job Coaching a person receives is dependent upon individual need, team recommendations, and employer evaluation. Job coaching includes:
   a. Meeting and getting to know co-workers and supervisors
   b. Learning company policies, dress codes, orientation procedures, and company culture
c. Job and task analysis
   (1) Core work tasks
   (2) Episodic work tasks
   (3) Job related tasks
   (4) Physical needs
   (5) Sensory and communication needs
   (6) Academic needs
   (7) Technology needs
d. Systematic instruction
   (1) Identification and instructional analysis of the goal
   (2) Analysis of entry behavior and learner characteristics
   (3) Performance Objectives
   (4) Instructional strategy
e. Identification of natural supports
   (1) Personal associations and relationships typically developed in the community that enhance the quality and security of life
   (2) Focus on natural cues
   (3) Establish circles of support
f. Ongoing support and monitoring

If an individual moves from one job to another or advances within the current employment site, it is the Supported Employment provider’s responsibility to update the profile/resume created during the job search

Transportation will be provided between the individual's place of residence for job seeking and job coaching as well as between the site of the individual’s job or between day program sites as a component part of Supported Employment. Transportation cannot comprise the entirety of the service. If local or other transportation is available, the individual may choose to use it but the provider is ultimately responsible for ensuring the availability of transportation.

Supported Employment may also include services and supports that assist the individual in achieving self-employment through the operation of a business, either home-based or community-based. Such assistance may include:

Assisting the individual to identify potential business opportunities

Assistance in the development of a business plan, including potential sources of business financing and other assistance in developing and starting a business (e.g. internet and telephone service, website development, advertising, incorporation, taxes, etc.)

Identification of the supports that are necessary for the individual to operate the business

Ongoing assistance, counseling and guidance once the business has been launched

Up to fifty-two (52) hours per month of at home assistance by a job coach, including business plan development and assistance with tasks related to producing the product
Up to thirty-five (35) hours per month for assistance in the community by a job coach.

Payment is not made for any expenses associated with starting up or operating a business. Referrals for assistance in obtaining supplies and equipment for someone desiring to achieve self-employment should be made to the Mississippi Department of Rehabilitation Services. There must be documentation of the referral in the person’s record.

Assistance with toileting and hygiene may be a component part of Supported Employment, but may not comprise the entirety of the service.

Individuals cannot receive Supported Employment during the Job Discovery process.

Supported Employment does not include facility based or other types of services furnished in a specialized facility that are not part of the general workforce. Supported Employment cannot take place in a facility based program.

Supported Employment does not include volunteer work or unpaid internships.

Providers are prohibited from making incentive payments to an employer to encourage or subsidize the employer’s participation in the Supported Employment Program and/or passing payments through to users of Supported Employment Services.

An individual must be at least 18 years of age to participate in Supported Employment and have documentation in their Support Coordination record to indicate they have received either a diploma or certificate of completion or are not otherwise receiving school services. Additionally, the Support Coordination record must contain documentation that, upon initial referral, the Mississippi Department of Rehabilitation Services (MDRS) could not serve the person or the person chose not to receive those services.

Individuals receiving Supported Employment cannot be left alone at any time.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
A person may receive a maximum amount of Job Seeking of 90 hours per certification year. Additional hours may be approved if needed to find another job.

For self employment, the following limits apply: Up to fifty-two (52) hours per month of at home assistance by a job coach, including business plan development and assistance with tasks related to producing the product and up to thirty-five (35) hours per month for assistance in the community by a job coach.

People cannot receive Supported Employment and Job Discovery at the same time.

Supported Employment does not include facility based or other types of services furnished in a specialized facility that are not part of the general workforce.

Federal financial participation is not claimed for incentive payments, subsidies, or unrelated vocational training expenses such as the following: 1) incentive payments made to an employer to encourage or subsidize the employer’s participation in the Supported Employment program; or 2) payments that are passed through to users of Supported Employment Services.

The service is not otherwise available under a program funded under the Section 110 Rehabilitation Act of 1973 or the IDEA (20 U.S.C. 1401 et seq). Support Coordination Records for people receiving ID/DD Waiver Supported Employment Services will document that the Mississippi Department of Rehabilitation Services (MDRS) was unable to serve the person or the person declined services from MDRS.

Category 3:  Sub-Category 3:

Category 4:  Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
A. Supported Living is provided to individuals who reside in their own residences (either owned or leased) for the purposes of increasing and enhancing independent living in the community. Supported living is for individuals who need less than 24-hour staff support per day. Staff must be on call 24/7 in order to respond to emergencies via phone call or return to the living site, depending on the type of emergency. Supported Living services are provided in a homelike setting where people have access to the community at large to the same extent as people who do not have IDD.

B. Supported Living Services are for individuals age 18 and above who have intellectual/developmental disabilities and are provided in residences in the community with four (4) or fewer individuals.

C. Supported Living provides assistance with the following, depending on each individual’s support needs:

1. Grooming
2. Eating
3. Bathing
4. Dressing
5. Other personal needs.

D. Supported Living provides assistance with instrumental activities of daily living which include assistance with:

1. Planning and preparing meals, including assistance in adhering to any diet prescribed by an M.D., Nurse Practitioner or Licensed Dietician/Nutritionist
2. Cleaning
3. Transportation
4. Assistance with mobility both at home and in the community
5. Supervision of the individual’s safety and security
6. Banking
7. Shopping
8. Budgeting
9. Facilitation of the individual’s participation in community activities
10. Use of natural supports and typical community services available to everyone
11. Social activities
12. Participation in leisure activities
13. Development of socially valued behaviors
14. Assistance with scheduling and attending appointments
E. Providers must develop methods, procedures and activities to facilitate meaningful days and independent living choices about activities/services/staff for the individual(s) receiving Supported Living services. Procedures must be in place for individual(s) to access typical community services, available to all people, including natural supports.

F. Procedures must be in place for individual(s) to access needed medical and other services to facilitate health and well-being.

G. For individuals with IDD staff ratios are dependent upon the level of support required by the individual. The amount of service cannot exceed eight (8) hours per twenty-four (24) hour period.

H. If chosen by the person, Supported Living staff must assist the person in participation in community activities. Supported Living services for community participation activities may be shared by up to three (3) individuals who may or may not live together and who have a common direct service provider agency. In these cases, individuals may share Supported Living staff when agreed to by the individuals and when the health and welfare can be assured for each individual.

I. Individuals in Supported Living cannot also receive: Supervised Living, Host Home services, In-Home Nursing Respite, In-Home Respite, Home and Community Supports, Shared Supported Living or Community Respite.

J. Supported Living cannot be provided to someone who is an inpatient of a hospital, ICF/IID, nursing facility, inpatient psychiatric facility or any type of rehabilitation facility when the inpatient facility is billing Medicaid, Medicare or private insurance.

K. Nursing services are a component part of ID/DD Waiver Supported Living. They must be provided as-needed, based on each individual’s need for nursing services. Examples of activities may include: Monitoring vital signs; monitoring blood sugar; administration of medication; setting up medication sets for self-administration; administration of medication; weight monitoring; periodic assessment; accompanying people on medical visits, etc.

L. Supported Living staff who did not participate in the development of the individual’s Plan of Services and Supports but who interact with him/her on daily or weekly basis, must be trained regarding the individual’s Plan of Services and Activity Support Plan prior to beginning work with the individual. This training must be documented in a person’s record and be signed by both the staff providing and receiving the training.

M. Each individual must have an Activity Support Plan that is developed by the provider with the person present. Information from the Plan of Services and Supports is to be included in the Activity Support Plan and must address the outcomes on his/her approved Plan of Services and Supports.

N. Behavior Support may be provided during the provision of Supported Living to provide direct services as well as modify the environment and train staff in implementation of the Behavior Support Plan.

O. Crisis Intervention services may be provided in the home of someone receiving Supported Living services to intervene in and mitigate an identified crisis situation. Crisis Intervention staff may remain in the home with the person until the crisis is resolved. This could be in 24-hour increments (daily) or less than 24-hour increments (episodic), depending on each person’s need for support.
P. Supported Living services are provided in home-like settings where people have access to the community at large, to the extent they desire, as documented in the Plan of Services and Supports and Activity Support Plan.

Q. Supported Living settings do not include the following:

1) A nursing facility
2) An institution for people with mental illness
3) An intermediate care facility for individuals with intellectual disabilities (ICF/IDD)
4) A hospital
5) Any other locations that have qualities of an institutional setting, as determined by the State
6) Any setting that is located in a building that is also a publicly or privately operated facility that provides inpatient institutional treatment,
7) A building on the grounds of, or immediately adjacent to, a public institution, or
8) Any setting that has the effect of isolating persons receiving Medicaid HCBS from the broader community of individuals not receiving Medicaid HCBS.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
The maximum amount of Supported Living that someone may receive is 8 hours per twenty-four (24) hour period.

People in Supported Living cannot also receive: Supervised Living, Shared Supported Living, Host Home services, In-Home Nursing Respite, In-Home Respite, Home and Community Supports, or Community Respite.

Individuals must be at least 18 years of age to receive Supported Living.

Supported Living cannot be provided to someone who is an inpatient of a hospital, ICF/IID, nursing facility, or any type of rehabilitation facility when the inpatient facility is billing Medicaid, Medicare or private insurance.

**Service Definition (Scope):**
Therapy services are Physical Therapy (PT), Occupational Therapy (OT), and Speech/Language Therapy (ST) that are in excess of therapy services covered in the State Plan, either in amount, duration or scope are included as waiver services. All medically necessary Therapy services for children under age 21 are covered in the State Plan pursuant to the EPSDT benefit.

Therapy services will be provided under the State Plan until the individual reaches his/her maximum health care goal or is no longer eligible for prior approval from the DOM Quality Improvement Organization (QIO) based on medical necessity criteria established for State Plan services.

Therapy services through the ID/DD Waiver begin at the termination of State Plan therapy services.

These services are only available through the waiver when not available through the IDEA (20 U.S.C 1401 et seq.) or through Expanded EPSDT.

Therapy services provided through the ID/DD Waiver begin at the termination of State Plan therapy services.

These services are only available under the waiver when not available through the Individuals with Disabilities Education Act (20 U.S.C. 1401 et seq.) or through Expanded EPSDT.

Therapy services must be approved on the individuals approved Plan of Care (POC).

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**
Maximum of 3 hours per week of physical therapy. Maximum of 3 hours per week of speech therapy. Maximum of 2 hours per week of occupational therapy.

Appendix C: Participant Services

C-1/C-3: Provider Specifications for Service

Service Type: Extended State Plan Service
Service Name: Therapy Services

Provider Qualifications

License (specify):
Physical Therapists, Occupational Therapists, and Speech-Language Pathologist (Speech Therapist) must be licensed by the State in their respective discipline.

Certificate (specify):

Other Standard (specify):

Verification of Provider Qualifications

Entity Responsible for Verification:
The DOM fiscal agent requires therapy providers be licensed by the State in their respective discipline for initial provider enrollment.

Frequency of Verification:
Will be verified by the DOM fiscal agent when enrolled and when original license expires. The expiration date of the license is maintained in the MMIS. The provider must submit a current license at time of expiration. If current license is not submitted, the provider file is closed.

Appendix C: Participant Services

C-1/C-3: Provider Specifications for Service

Service Type: Extended State Plan Service
Service Name: Therapy Services

Provider Qualifications

License (specify):
Individuals providing therapy services must be licensed by the State in their respective discipline.

Certificate (specify):

Other Standard (specify):
Verification of Provider Qualifications

Entity Responsible for Verification:
Agencies who are Medicaid enrolled providers and who contract with individuals or group or employ individuals to provide therapy services must ensure compliance with all state licensures, regulations and/or guidelines for each respective discipline. DOM fiscal agent requires certification for initial provider enrollment.

Frequency of Verification:
Will be verified by DOM fiscal agent when enrolled and when original certification expires.

Appendix C: Participant Services
C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:
As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Behavior Support Services

HCBS Taxonomy:

Category 1: Other Mental Health and Behavioral Services

Sub-Category 1:
0040 behavior support

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Category 4:

Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
Behavior Support provides systematic behavior assessment, Behavior Support Plan development, consultation, restructuring of the environment and training for individuals whose maladaptive behaviors are significantly disrupting their progress in learning, self-direction or community participation and/or are threatening to require movement to a more restrictive setting or removal from current services. This service also includes consultation and training provided to families and staff working with the individual. The desired outcome of the service is long-term behavior change.
If at any time an individual’s needs exceed the scope of the services provided through Behavior Support, the individual will be referred to other appropriate services to meet his/her needs.

This service is not restricted by the age of the individual; however, it may not replace educationally related services provided to individuals when the service is available under EPSDT, IDEA or other sources such as an IFSP through First Steps or is otherwise available. All other sources must be exhausted before waiver services can be approved. This does not preclude a Behavior Consultant from observing an individual in his/her school setting, but direct intervention cannot be reimbursed when it takes place in a school setting.

Behavior Support must be provided on a one (1) staff to one (1) individual ratio.

Behavior Support Services consists of:

1. An on-site visit as part of a Functional Behavior Assessment to observe the individual to determine if the development of a Behavior Support Plan is warranted.
2. Informal training of staff and other caregivers regarding basic positive behavior support techniques that could be employed if it is determined that a Behavior Support Plan is not warranted based on the presenting behavior(s).
3. A Functional Behavior Assessment if consultation indicates a need based on the professional judgement of the Behavior Consultant.

Functional Behavioral Assessments are limited to every two (2) years, if needed, unless the individual changes providers or the Behavior Support Plan documents substantial changes to:

1. The individual’s circumstances (living arrangements, school, caretakers)
2. The individual’s skill development
3. Performance of previously established skills
4. Frequency, intensity or types of challenging behaviors

A medical evaluation for physical and/or medication issues must be conducted prior to completion of the Functional Behavior Assessment and before a Behavior Support Plan can be implemented.

Behavior Support Plans can only be developed by the person who conducted the Functional Behavior Assessment.

All providers must allow for implementation of the Behavior Support Plan in the service setting regardless of if another provider employs the Behavior Support staff. All appropriate staff must receive training from the Behavior Consultant and/or Behavior Intervention Specialist from the Behavior Support provider agency.

Behavior Support can be provided simultaneously with other waiver services if the purpose is to:

1. Conduct a Functional Behavior Assessment;
2. Provide direct intervention;
3. Modifying the environment; or
4. Provide training to staff/parents on implementing and maintaining the Behavior Support Plan.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Behavior Support may not replace educationally-related services provided to when the service is available under IDEA or is covered under an Individualized Family Service Plan (IFSP) through First Steps. All other sources such as EPSDT must be exhausted before waiver services can be approved. Behavior Support can be provided simultaneously with other waiver services if the purpose is to: 1) conduct a Functional Behavior Assessment; 2) provide direct intervention; 3) modify the environment; or 4) provide training to staff/parents on implementing and maintaining the Behavior Support Plan.

Direct Behavior Support services cannot be provided in a school setting. The consultant may observe a person in the school setting to assess behaviors in that area, but not provide any direct services.

Service Type: Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Community Respite

HCBS Taxonomy:

Category 1:  Sub-Category 1:
Caregiver Support

Category 2:  
Sub-Category 2:  

Category 3:  
Sub-Category 3:  

Category 4:  
Sub-Category 4:  

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
Community Respite is provided in a DMH certified community setting that is not a private residence and is designed to provide caregivers an avenue of receiving respite while the individual is in a setting other than his/her home.

Community Respite is designed to provide caregivers a break from constant care giving and provide the individual with a place to go which has scheduled activities to address individual preferences/requirements.

Community Respite service settings must be physically accessible to the person and must:
1) Be integrated in and supports full access of persons receiving Medicaid HCBS to the greater community.
2) Be selected by the person.
3) Ensure a person's rights of privacy, dignity and respect, and freedom from coercion and restraint.
4) Optimize, but not regiment, a person's initiative, autonomy, and independence in making life choices, including but not limited to, daily activities, physical environment, and with whom to interact.
5) Facilitate individual choice regarding services and supports, and who provides them.

The Community Respite provider must assist the individual with toileting and other hygiene needs.

Individuals must be offered and provided choices about snacks and drinks. There must be meals available if Community Respite is provided during a normal mealtime such as breakfast, lunch or dinner. Providers must adhere to diets prescribed by an M.D., Nurse Practitioner or Licensed Dietician/Nutritionist.

For every eight (8) individuals served, there must be at least two (2) staff actively engaged in program activities. One of these staff may be the on-site supervisor.

Individuals receiving Community Respite cannot be left unattended at any time.

All supplies and equipment must be age appropriate, in good repair, clean and adequate enough in number to meet all needs and allow participation in activities as desired.

The program must provide equipment (e.g., adaptive seating, adaptive feeding supplies, safety equipment, etc.) which allows individuals to participate fully in all program activities and events.

Individuals must be assisted in using communication and mobility devices when indicated in the individualized Plan of Services and Supports.

Staff must provide individuals with assistance with eating/drinking as needed and as indicated in each individual’s Plan of Services and Supports.

Adults and children cannot be served together in the same area of the building. There must be a clear separation of...
space and staff.

Each individual must have an Activity Support Plan that is developed with the person and is based on his/her Plan of Services and Supports.

Community Support cannot be provided overnight.

Community Respite settings do not include the following:
1) A nursing facility;
2) An institution for people with mental illness;
3) An intermediate care facility for individuals with intellectual disabilities (ICF/IID);
4) A hospital; or
5) Any other locations that have qualities of an institutional setting, as determined by the State. 6) Any setting that is located in a building that is also a publicly or privately operated facility that provides inpatient institutional treatment, or in a building on the grounds of, or immediately adjacent to, a publicly or privately operated facility that provides inpatient institutional treatment, or any other setting that has the effect of isolating persons receiving Medicaid HCBS from the broader community of individuals not receiving Medicaid HCBS.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Community Respite is not used in place of regularly scheduled day activities such as Supported Employment, Day Services-Adult, Prevocational Services or services provided through the school system.

Individuals who receive Host Home services, Supervised Living, Shared Supported Living or Supported Living or who live in any type of staffed residence cannot receive Community Respite.

Community Respite cannot be provided overnight.

Service Title:
Crisis Intervention

HCBS Taxonomy:

Category 1: Sub-Category 1:
10 Other Mental Health and Behavioral Services 0030 crisis intervention

Category 2: Sub-Category 2:

Category 3: Sub-Category 3:

Category 4: Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
Crisis Intervention provides immediate therapeutic intervention, available to an individual on a 24-hour basis, to address personal, social, and/or behavioral problems which otherwise are likely to threaten the health and safety of the individual or others and/or may result in the individual's removal from his/her current living arrangement and/or day program. The outcome of Crisis Intervention is to phase out the support as the person becomes more able to maintain him/herself in a manner which allows him/her to participate in daily routines and be able to return to
his/her home living and/or day setting.

Crisis Intervention Services are used in situations in which the need is immediate and exceeds the scope of Behavior Support Services.

This service is provided on a 1:1 staff to individual ratio.

There are three models and primary service locations: 1) Crisis Intervention in the individual’s home 2) Crisis Intervention provided in an alternate community living setting or 3) Crisis Intervention provided in the individual’s usual day setting.

Individual’s home- The provider will provide or coordinate support services with the individual’s community living and day services provider(s). These services will, to the greatest extent possible, allow the individual to continue to follow his/her daily routine in the service setting, with accommodations consistent with the Crisis Intervention Plan and the individual’s current behaviors. The Crisis Intervention Plan indicates any adaptations/changes needed in the environments in which the individual typically spends his/her days.

Alternate residential setting- In the event an individual needs to receive Crisis Intervention services in a setting away from his/her primary residence, the provider must have pre-arranged for such a setting to be available. This may be an apartment, motel or a bedroom at a different DMH certified residence. The Crisis Intervention staff, to the greatest extent possible, maintains the individual’s daily routine and follows the Crisis Intervention Plan to transition the individual back to his/her primary residence. The Crisis Intervention Plan indicates any adaptations/changes needed in the environments in which the individual typically spends his/her days.

Individual’s usual day setting- Crisis Intervention staff will deliver services in such a way as to maintain the individual’s normal routine to the maximum extent possible, including direct support during Day Services-Adult, Prevocational Services, or Supported Employment.

The provider must develop policies and procedures for locating someone to an alternate residential setting(s). This includes the type of location, whether individuals will be alone or with others, and plans for transporting individuals. The policies and procedures must include a primary and secondary means for providing an alternate residential setting(s). These settings must be equipped with all items necessary to create a home like environment for the individual.

The provider must have an on-call system that operates 24 hours a day, seven (7) days per week to ensure there is sufficient staff available to respond to crises.

Providers of Crisis Intervention shall consist of a team which must include:

1. Licensed Psychologist
2. Program Director
3. QIDP
4. Direct service staff

Crisis Intervention Services may be indicated on an individual’s Plan of Services and Supports prior to a crisis event when there is a reasonable expectation, based on past occurrences or immediate situational circumstances in which the individual is at risk of causing physical harm to him/herself, causing physical harm to others, damaging property, eloping, or being unable to control him/herself in a manner that allows participation in usual activities of daily life. The provider will be chosen at the time the service is approved on the Plan of Services and Supports; therefore, if a crisis arises, the provider can be dispatched immediately.

Upon receiving information that someone is in need of Crisis Intervention, the provider immediately sends trained staff to the individual to assess the situation and provide direct intensive support when an individual is physically aggressive or there is concern that the individual may take actions that threaten the health and safety of self and others.

As soon as is feasible, the individual must be evaluated by medical personnel to determine if there are any physical/medication factors affecting his/her behavior.

When the immediate crisis is stabilized, appropriately qualified staff:
Continue analyzing the psychological, social and ecological components of the extreme dysfunctional behavior or other factors contributing to the crisis

Assess which components are the most effective targets of intervention for the short-term amelioration of the crisis

Develop and write a Crisis Intervention Plan

Consult and, in some cases, negotiate with those connected to the crisis in order to implement planned interventions, and follow-up to ensure positive outcomes from interventions or to make adjustments to interventions

Continue providing intensive direct supervision/support

Assist the individual with self-care when the primary caregiver is unable to do so because of the nature of the individual’s crisis situation

Directly counsel or develop alternative positive experiences for individuals while planning for the phase out of Crisis Intervention services and return of the individual to his/her living arrangement, if applicable

Train staff and other caregivers who normally support the individual in order to remediate the current crisis as well as to support the individual long term once the crisis has stabilized in order to prevent a reoccurrence.

Crisis Intervention staff may remain with the person, either in the alternate setting or their usual day/residential setting 24/7 until the crisis is resolved; Crisis Intervention is authorized for up to 24 hours per day in seven (7) day segments with the goal being a phase out of services in a manner which ensures the health and welfare of the individual and those around him/her. Additional seven (7) day segments can be authorized by BIDD, depending on individual need and situational circumstances.

Episodic Crisis Intervention is provided in short term (less than 24 hours) segments and is intended to address crises such as elopement, immediate harm to self or others, damage to property, etc. that can be managed through less intensive measures than daily Crisis Intervention. The maximum amount that can be approved is 168 hours per certification year. Additional hours can be authorized by BIDD, depending on individual need and situational circumstances.

If an individual requires a higher level of supervision/support than can be safely provided through Crisis Intervention services, he/she will be appropriately referred to other more intensive services.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Crisis Intervention is authorized for up to 24 hours per day in 7 day segments with the goal of being a phased out service. Episodic services can be authorized for up to 168 hours per certification year.

Service Type:
Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Crisis Support

HCBS Taxonomy:

Category 1:  Sub-Category 1:
10 Other Mental Health and Behavioral Services  [ ] 030 crisis intervention

Category 2:  Sub-Category 2:

Category 3:  Sub-Category 3:

Category 4:  Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
Service is not included in the approved waiver.

Service Definition (Scope):
Crisis Support is provided in an ICF/IID and is used when an individual's behavior or family/primary caregiver situation becomes such that there is a need for immediate specialized services.

1. Behavior Issues
   a. Individuals who have exhibited high risk behavior, placing themselves and others in danger of being harmed
   b. Directly causes serious injury of such intensity as to be life threatening or demonstrates the propensity to cause serious injury to self, others, or animals
   c. Sexually offensive behaviors
   d. Less intrusive methods have been tried and failed
   e. Criminal behavior
   f. Serious and repeated property destruction

2. Family/Other Issues
   1. The primary caregiver becomes unexpectedly incapacitated and the person’s support needs cannot adequately be met by other ID/DD Waiver services
   2. The primary caregiver passes away and the person’s support needs cannot adequately be met by other ID/DD Waiver services
   3. The person is in need of short term services in order to recover from a medical condition that can be treated in an ICF/IID rather than nursing facility
   4. The primary caregiver is in need of relief that cannot be met by other ID/DD Waiver services

Individuals cannot be admitted to an ICF/IID without prior approval from BIDD.

Crisis Support is time limited in nature. Crisis Support is provided for a maximum of thirty (30) days. Additional days must be authorized by BIDD. Crisis Support is designed to provide the following:

1. Behavior and emotional support necessary to allow him/her to return to his/her living and/or day setting; and/or
2. As a means of serving someone in an out-of-home setting if a family crisis occurs and the person’s support needs cannot be met by other ID/DD Waiver Services.

Individuals receiving Crisis Support may transition back to their regular day and living arrangements as long as Crisis Support staff accompanies them.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
There is a maximum of 30 days per stay. Additional days must be prior authorized by BIDD.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
Service is included in approved waiver. The service specifications have been modified.

Service is not included in the approved waiver.

Service Definition (Scope):
A. Home and Community Supports (HCS) is for individuals who live in the family home and provides assistance with activities of daily living (ADLs) and instrumental activities of daily living (IADLs) such as bathing, toileting, transferring and mobility, meal preparation, but not the cost of the meals themselves and in adherence to any diet prescribed by an M.D., Nurse Practitioner or Licensed Dietician/Nutritionist, assistance with eating and incidental household cleaning and laundry which are essential to the health, safety, and welfare of the individual. Other activities can include assistance with keeping appointments, use of natural supports and other typical community services available to all people, social activities and participation in leisure activities.

B. Home and Community Supports may be shared by up to three (3) individuals who have a common direct service provider agency. Individuals may share HCS staff when agreed to by the participants and the health and welfare can be assured for each participant. Each person is allowed a choice of provider for all services on his/her PSS. If a person would like to share Home and Community Supports with someone else, each person will be educated on their choices of providers by their Support Coordinator and each will select a provider. If the same provider is selected by the person, then the services can be provided by the same provider.

C. Home and Community Supports cannot be provided in a school setting or be used in lieu of school services or other available day services.

D. HCS is not available for individuals who receive Supported Living, Shared Supported Living, Supervised Living, Host Home services, or who live in any other type of staffed residence.

E. HCS is not available to individuals who are in the hospital, an ICF/IID, nursing home or a psychiatric inpatient facility.

F. HCS providers are responsible for supervision and monitoring of the individual at all times during service provision whether in the individual’s home, during transportation (if provided), and during community outings.

G. HCS staff is not permitted to provide medical treatment as defined in the Mississippi Nursing Practice Act and Rules and Regulations.

H. HCS staff cannot accompany a minor on a medical visit without a parent/legal representative present.

I. HCS cannot be provided in a provider’s residence.

J. HCS staff may assist individuals with shopping needs and money management, but may not disburse funds on the part an individual without written authorization from the legal guardian, if applicable.

K. Each individual must have an Activity Support Plan, developed with the person that must address the outcomes on his /her approved Plan of Services and Supports.

L. Providers must provide transportation to community activities as requested by the person and as documented in the Plan of Services and Supports and Activity Support Plan.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
HCS is not available for people who receive Supported Living, Supervised Living, Shared Supported Living, or Host Home services, or who live in any other type of staffed residence. HCS is not available to people who are in the hospital, an ICF/IID, nursing home or a psychiatric inpatient facility.

*Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:*

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**

A. Host Homes are private homes where no more than one individual who is at least five (5) years of age lives with a family and receives personal care and other supportive services. If the person requesting this service is under five (5) years of age, admission must be prior approved by the BIDD Director. There may be only one (1) person in the home receiving Host Home services.

B. Host Home Families are a stand-alone family living arrangement in which the principal caregiver in the Host Home assumes the direct responsibility for the participant’s physical, social, and emotional well-being and growth in a family environment.

C. Host Home services include assistance with personal care, leisure activities, social development, family inclusion, community inclusion, and access to medical services. Natural supports are encouraged and supported. Supports are to be consistent with the participant’s support level, goals, and interests.

D. Host Homes are administered and managed by provider agencies that are responsible for all aspects of Host Home Services. Host Home agencies must:

1. Recruit and oversee all Host Homes
2. Complete an evaluation of each prospective Host Home family and setting. The evaluation method and forms must be prior approved by BIDD;
3. Conduct background checks for all Host Home family members over the age of 18;
4. Provide training to Host Home providers that is in compliance with Chapter 12;
5. Ensure each Host Home family member has had a medical examination within twelve (12) months of anyone moving into the Host Home and at least annually thereafter which indicates that they are free from communicable disease(s);
6. Maintain current financial (income and expenses) and personal property records for each individual served in a Host Home;
7. Conduct at least monthly home visits to each Host Home;
8. Ensure availability, quality and continuity of Host Homes;
9. Take into account each person’s compatibility with the Host Home family member(s) including age, support needs, and privacy needs;
10. Ensure each individual receiving Host Home services has his/her own bedroom;
11. Have 24-hour responsibility for all Host Homes which includes back-up staffing for scheduled and unscheduled absences of the Host Home family.
12. Have plans for when a Host Home family becomes unable to provide the services to someone on an immediate basis. The agency must ensure the availability of back-up plans to support the person until another suitable living arrangement can be secured.

E. Relief staffing may be provided in the individual’s Host Home by another certified Host Home family or by staff of the Host Home agency or in another approved Host Home family’s home.

F. Host Home Family components:
1. The principal caregiver in the Host Home must attend and participate in the meeting to develop the individual’s Plan of Services and Supports (PSS).
2. The Host Home Family must follow all aspects of the individual’s PSS and any support/activity plan (Behavior Support Plan, nutrition plan, etc.) the individual might have.
3. The Host Home Family must take and assist the individual in attending appointments (i.e., medical, therapy, etc.).
4. The Host Home family must provide transportation as would a natural family.
5. The principal caregiver must maintain all documentation required in the DMH Record Guide and Operational Standards.
6. The principal caregiver must meet all staff training requirements as outlined in the DMH Operational Standards.
7. The principal caregiver must attend the person’s Plan of Services and Supports meeting

G. The Host Home agency is responsible for ensuring the individual has basic furnishings in his/her bedroom if those furnishings are not available from another resource such as Transition Assistance through the ID/DD Waiver. Basic furnishings include: bed frame, mattress, box springs if needed, chest of drawers, nightstand, two (2) sets of bed linens, two (2) sets of towels and appropriate lighting.

H. Individuals receiving Host Home services are not eligible for Home and Community Supports, Shared Supported Living, Supported Living, Supervised Living, In-Home Nursing Respite, In-Home Respite or Community Respite.

I. Individuals are not to be left alone for any length of time or with someone under the age of 18 at any time.

J. Individuals receiving Host Home services must have access to the community to the same degree as people not receiving ID/DD Waiver services. This includes access to leisure and other community participation activities.

K. Meals must be provided at least three (3) times per day and snacks and drinks must be provided throughout the day. Providers must adhere to any diets prescribed by a M.D., Nurse Practitioner or Licensed Dietician/Nutritionist.

1. Individuals must have access to food at any time, unless prohibited by his/her individual plan.
2. Individuals must have choices of the food they eat.
3. Individuals must have choices about when and with whom they eat.

L. Individuals must have control over their personal resources. Host Home families cannot restrict access to personal resources as a means of coercion. Host Home families must offer informed choices regarding the consequences/risks of unrestricted access to personal funds.

M. Each individual must have an Activity Support Plan that is developed by the provider with the person present. Information for the PSS is to be included in the Activity Support Plan and must address the outcomes on his/her approved Plan of Services and Supports.

N. Methods for assisting individuals arranging and accessing routine and emergency medical care and monitoring their health and/or physical condition. Documentation of the following must be maintained in each person’s record:

(a) Assistance with making doctor/dentist/optical appointments;
(b) Transporting and accompanying individuals to such appointments; and
(c) Conversations with the medical professional, if the individual gives consent.

O. Family members of any degree cannot provide Host Home services to a person.

P. Behavior Support may be provided in the Host Home to provide direct services as well as modify the environment and train staff in implementation of the Behavior Support Plan.

Q. Crisis Intervention services may be provided in the Host Home to intervene in and mitigate an identified crisis situation. Crisis intervention staff may remain in the home with the person until the crisis is resolved. This could be in 24-hour increments (daily) or
less than 24-hour increments (episodic), depending on each person’s need for support.

R. Individuals receiving Host Home cannot also receive: Shared Supported Living, Host Home services, Home and Community Supports, In-Home Respite, In-Home Nursing Respite, Supported Living or Community Respite.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
The maximum number of waiver participants who may live in a Host Home is 1. To receive services, a person must be at least 5 years of age. If under the age of 5, prior approval from the BIDD Director is required.

Payment does not include room and board or maintenance, upkeep or improvement of the Host Home Family’s residence. Environmental adaptations are not available to person receiving Host Home services since the person's place of residence is owned or leased by the Host Home Family. The Host Home agency is responsible for ensuring the person has basic furnishings in his/her bedroom if those furnishings are not available from another source such Transition Assistance through the waiver.

People receiving Host Home services are not eligible for Home and Community Supports, Supported Living, Shared Supported Living, Supervised Living, In-Home Nursing Respite, In-Home Respite or Community Respite.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
A. In-Home Nursing Respite provides temporary, periodic relief to those persons normally providing care for the eligible individual. In-Home Nursing Respite staff provides all the necessary care the usual caregiver would provide during the same time period.

B. In-Home Nursing Respite is only available to individuals living in a family home and is not permitted for individuals living independently, either with or without a roommate.

C. In-Home Nursing Respite is not available for people who receive Supported Living, Supervised Living, Shared Supported Living, Host Home services, or who live in any other type of staffed residence.

D. In-Home Nursing Respite is not available to individuals who are in the hospital, an ICF/IID, nursing home, or inpatient psychiatric facility.
E. In-Home Nursing Respite cannot be provided in the provider’s residence.

F. Staff may accompany individuals on short community outings (1-2 hours) but this cannot comprise the entirety of the service.

   Activities are to be based upon the outcomes identified in the PSS and implemented through the Activity Support Plan. Allowable activities include:
   1. Assistance with personal care needs such as bathing, dressing, toileting, grooming;
   2. Assistance with eating and meal preparation for the person receiving services in adherence with any diet prescribed by an M.D., Nurse Practitioner, or Licensed Dietician/Nutritionist
   3. Assistance with transferring and/or mobility
   4. Leisure activities

G. Staff cannot accompany individuals to medical appointments.

H. Individuals cannot be left unattended at any time during the provision of In-Home Nursing Respite Services.

I. Each individual must have an Activity Support Plan that is developed by the provider with the person present. Information from the PSS is to be included in the Activity Support Plan and must address the outcomes on his/her approved Plan of Services and Supports.

J. In-Home Nursing Respite staff members who did not participate in the development of the person’s initial Plan of Services and Supports, but who interact with him/her on daily or weekly basis, must be trained regarding the person’s PSS and Activity Support Plan prior to beginning work with the person. This training must be documented in the person’s record. Signatures of both staff providing training and staff receiving training must be in the person’s record.

K. In-Home Nursing Respite is provided by a registered or licensed practical nurse. He/she must provide nursing services in accordance with the Mississippi Nursing Practice Act and other applicable laws and regulations.

L. In-Home Nursing Respite is provided for persons who require skilled nursing services, as prescribed by a physician, in the absence of the primary caregiver. The need for administration of medications alone is not a justification for receiving In-Home Nursing Respite services.

M. Individuals must have a statement from their physician/nurse practitioner stating:
   1. The treatment(s) and/or procedure(s) the individual needs in order to justify the need for a nurse in the absence of the primary caregiver;
   2. The amount of time needed to administer the treatment(s)and/or procedure(s); and
   3. How long the treatment(s) and/or procedure(s) are expected to continue

N. Private Duty Nursing services through EPSDT must be exhausted before waiver services are utilized.

O. In-Home Nursing Respite cannot be provided by family members.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Job Discovery
HCBS Taxonomy:

Category 1: Supported Employment

Sub-Category 1: 03 Supported Employment

Sub-Category 2:

Sub-Category 3:

Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
Job Discovery includes, but is not limited to, the following types of person-centered services:

1. Face-to-face interviews that include a review of current and previous supports and services
2. Assisting the individual with volunteerism, self-determination and self-advocacy
3. Identifying support needs
4. Developing a plan for achieving integrated employment
5. Job exploration
6. Job shadowing
7. Internships
8. Employment (informational) seeking skills; current labor market
9. Interviewing skills
10. Job and task analysis activities
11. Job negotiation
12. Employment preparation (i.e. resume development, work procedures, soft skills)
13. Environmental and work culture assessments

Job Discovery must include:

1. Contact with the Community Work Incentives Coordinators at the MS Department of Rehabilitation Services to determine the impact of income on benefits.
2. Facilitation of a meeting held prior to discovery with the individual and family/friends as appropriate, which describes the job discovery process and its ultimate outcome of securing a community job for the job seeker.
3. Referral to MS Department of Rehabilitation Services to begin the eligibility process for Supported Employment.
4. Visit(s) to the individual’s home (if invited; if not, another location) for the purposes of gaining information about routines, hobbies, family supports, activities and other areas related to a person’s living situation.
5. Observation of the neighborhood/areas/local community near the individual’s home to determine nearby employment, services, transportation, sidewalks and other safety concerns.
6. Interviews with two (2) to three (3) persons, both paid and not paid to deliver services, who know the individual
well and are generally active in his/her life.

7. Observations of the individual as he/she participates in typical life activities outside of their home. At least one (1) observation is required.

8. Participation with the individual as he/she participates in typical life activities outside the home. At least two (2) activities are required.

9. Participation in a familiar activity in which the individual is at his/her best and most competent. At least one (1) activity is required.

10. Participation in a new activity in which the individual is interested in participating but has never had the opportunity to do so. At least one (1) activity is required.

12. Development of discovery notes, Discovery Logs, and photos along with collecting other information that will be useful in development of the individual’s Discovery Profile.

Job Discovery is intended to be time-limited; it cannot exceed thirty (30) hours of service over a three (3) month period.

The Development of the Discovery Profile results in a person centered, strength based profile and the development of an Employment/Career Plan.

Individuals who are currently employed or who are receiving Supported Employment Services cannot receive Job Discovery services.

Persons eligible for Job Discovery include:

1. Someone who is an adult (age 18) and has never worked.
2. Someone who has previously had two (2) or more unsuccessful (e.g., were fired for behaviors, inability to perform, etc.) employment placements.
3. Someone with multiple disabilities who cannot represent him/herself and has previously or never been successful in obtaining community employment.
4. Someone who has had a significant change in life situation/support needs that directly affects his/her ability to find and maintain a job.

Individuals receiving Job Discovery cannot be left alone at any time.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**
Job Discovery should not exceed 30 hours of service over a three (3) month period. Additional monthly increments/hours must be justified and prior authorized by the BIDD.

People who are currently employed may not receive Job Discovery.

A person must be at least 18 years of age to participate in Job Discovery.

An person cannot receive Pre-Vocational and/or Day Services-Adult at the same time of day as Job Discovery.

Service Type:
Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Shared Supported Living

HCBS Taxonomy:

Category 1: Sub-Category 1:
02 Round-the-Clock Services 02033 in-home round-the-clock services, other

Category 2: Sub-Category 2:
Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**

Shared Supported Living services are for individuals age 18 and older and are provided in compact geographical areas (e.g. an apartment complex) in residences either owned or leased by themselves or a provider. Staff supervision is provided at the program site and in the community but does not include direct staff supervision at all times.

Shared Supported Living services provide assistance, as appropriate, to meet individual needs for support. Services must include, but are not limited to the following:

1. Direct personal care assistance activities such as:
   a. Grooming
   b. Eating
   c. Bathing
   d. Dressing
   e. Personal care needs

2. Instrumental activities of daily living which include:
   a. Assistance with planning and preparing meals, in accordance with any diet(s) prescribed by an M.D., Nurse Practitioner or Licensed Dietician/Nutritionist
   b. Cleaning
   c. Transportation
   d. Assistance with mobility both at home and in the community
   e. Supervision of the individual’s safety and security
   f. Banking
   g. Shopping
   h. Budgeting
   i. Facilitation of the individual’s participation in community activities
   j. Use of natural supports and typical community services available to everyone
   k. Social activities
   l. Participation in leisure activities
   m. Development of socially valued behaviors
   n. Assistance with scheduling and attending appointments

3. Methods for assisting individuals arranging and accessing routine and emergency medical care and monitoring their health and/or physical condition. Documentation of the following must be maintained in each person’s record:
   a. Assistance with making doctor/dentist/optical appointments;
   b. Transporting and accompanying individuals to such appointments; and
   c. Conversations with the medical professional, if the individual gives consent.

4. Transporting individuals to and from community activities, other places of the individual’s choice, work, and other sites as documented in the Activity Support Plan and PSS.
5. Shared Supported Living staff members who did not participate in the development of the person’s initial Plan of Services and Supports, but who interact with him/her on daily or weekly basis, must be trained regarding the person’s PSS and Activity Support Plan prior to beginning work with the person. This training must be documented.

6. Each individual must have an Activity Support Plan that is developed by the provider with the person present. Information from the PSS and Initial Discovery (which takes place during the first thirty (30) days of services) is to be included in the Activity Support Plan and must address the outcomes on his/her approved Plan of Services and Supports.

C. The amount direct staff supervision someone receives is based on tiered levels of support based on his/her Support Level on the Inventory for Client and Agency Planning (ICAP).

D. There must be awake staff twenty-four (24) hours per day, seven (7) days per week when individuals are present in any of the living units. Staff must be able to respond to requests/needs for assistance from individuals receiving services within five (5) minutes at all times individuals are present at the program site.

E. No more than four (4) people may live in a Shared Supported Living dwelling.

F. Individuals must have control over their personal resources. Providers cannot restrict access to personal resources. Providers must offer informed choice of the consequences/risks of unrestricted access to personal resources.

G. Individuals have freedom and support to control their own schedules and activities.

1. Individuals cannot be made to attend a day program if they choose to stay home, would prefer to come home after a job or doctor’s appointment in the middle of the day, if they are ill, or otherwise choose to remain at home.
2. Staff must be available to support individual choice.

H. Meals must be provided at least three (3) times per day and snacks must be provided throughout the day. Providers must assist people in adhering to any diet prescribed by an M.D., Nurse Practitioner or Licensed Dietician/Nutritionist.

1. Individuals must have access to food at any time, unless prohibited by his/her individual plan.
2. Individuals must have choices of the food they eat.
3. Individuals must have choices about when and with whom they eat

J. In living arrangements in which the residents pay rent and/or room and board to the provider, there must be an agreement that the rights outlined in the Landlord/Tenant laws of the State of Mississippi (MS Code Ann. 1972 §89-7-1 to 125 and §89-8-1 to 89-8-1 to 89) will be followed.

K. Shared Supported Living must provide services for community participation activities, based upon individual choices, to the same degree of access as people who do not receive ID/DD Waiver services. Activities may take place in groups of up to four (4) people who may or may not live together.

L. Behavior Support may be provided in the Shared Supported Living home to provide direct services as well as modify the environment and train staff in implementation of the Behavior Support Plan.

M. Crisis Intervention services may be provided in the Shared Supported Living home to intervene in and mitigate an identified crisis situation. Crisis Intervention staff may remain in the home with the person until the crisis is resolved. This could be in 24-hour increments (daily) or less than 24-hour increments (episodic), depending on each person’s need for support.

N. Shared Supported Living sites must be a “home-like” environment.

O. Individuals have choices about housemates and with whom they share a room. There must be documentation in each person’s record of the person/people they chose to be their roommate.

P. Individuals must have keys to their living unit if they so choose.
Q. To protect privacy and dignity, bedrooms must have lockable entrances with each person having a key to his/her bedroom, if they choose, with only appropriate staff having keys.

R. Individuals may share bedrooms based on their choices. Individual rooms are preferred, but no more than two individuals may share a bedroom.

W. Individuals have the freedom to furnish and decorate their own rooms in compliance with any lease restrictions that may be in place regarding wall color, wall hangings, etc.

X. The setting is integrated in and supports full access to the community to the same extent as people not receiving Shared Supported Living services.

Y. There must be visiting hours that are mutually agreed upon by all people living in the residence. Visiting hours cannot be restricted unless mutually agreed upon by all people living in the dwelling.

Z. Providers must provide furnishings used in common areas (den, dining, and bathrooms) if an individual does not have these items; or

AA. Shared Supported Living settings do not include the following:

1. A nursing facility
2. An institution for people with mental illness
3. An intermediate care facility for individuals with intellectual disabilities (ICF/IDD);
4. A hospital
5. Other locations that have qualities of an institutional setting, as determined by the State.
6. Any setting that is located in a building that is also a publicly or privately operated facility that provides inpatient institutional treatment
7. A building on the grounds of, or immediately adjacent to, a public institution
8. Any other setting that has the effect of isolating persons receiving ID/DD Waiver services from the broader community of individuals not receiving ID/DD Waiver services.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
Individuals in Shared Supported Living cannot also receive: Supervised Living, Host Home services, In-Home Nursing Respite, In-Home Respite, Home and Community Supports, Supported Living or Community Respite.

Service Type:
Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Transition Assistance

HCBS Taxonomy:

Category 1:  Sub-Category 1:
17 Other Services ◐/010 goods and services ◐

Category 2:  Sub-Category 2:

Category 3:  Sub-Category 3:

Category 4:  Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.
Service Definition (Scope):
Transition Assistance is a one (1) time set up expense for people who transition from institutions (ICF/IID or Title XIX nursing home) to the ID/DD Waiver. They may move to a less restrictive community living arrangement such as a house or apartment, with ID/DD Waiver supports or home with their family or a Host Home family and receive ID/DD Waiver supports.

To be eligible for transition assistance the following is necessary:

The person must be a current ICF/IID or nursing facility resident who has been in a long term care service segment for a minimum of 90 days with the Division of Medicaid reimbursing for at least one (1) of said days.
The person cannot have another source to fund or attain the items or support.
The person must be transitioning from a setting where these items were provided for him/her and upon leaving the setting they will no longer be provided.
The person must be moving to a residence where these items are not normally furnished.

Items bought using these funds are for personal use and are to be property of the person if he/she moves from a residence owned or leased by a provider.

There is a one-time, life time maximum of $800 per person.

Examples of expenses that may be covered as Transition Assistance are:

Transporting furniture and personal possessions to the new living arrangement
Essential furnishing expenses required to occupy and use a community domicile
Linens and towels
Cleaning supplies
Security deposits that are required to obtain a lease on an apartment or home that does not constitute paying for housing rent
Utility set-up fees or deposits for utility or service access (e.g. telephone, water, electricity, heating, trash removal)
Initial stocking of the pantry with basic food items for the person receiving services
Health and safety assurances such as pest eradication, allergen control or one-time cleaning prior to moving

Essential furnishings include items for a person to establish his or her basic living arrangements such as a bed, table, chairs, window blinds, eating utensils, and food preparation items.

Transition Assistance services shall not include monthly rental or mortgage expenses, regular utility charges, and/or household appliances or recreational electronics such as DVD players, game systems, or computers.

At the Person Centered Planning meeting, the person and/or legal guardian, and the rest of the team agree upon the basic types of items to be purchased.

The provider makes purchases and arranges to store the item(s) until the person is ready to move into his/her new home.

After the person moves, the provider submits a claim to the State for the dollar amount of the items, up to the approved maximum reimbursement rate. If the total amount of purchases exceeds the approved maximum reimbursement rate, the provider will only be paid up to that amount.

The provider must maintain receipts for all items purchased in the person’s record and send copies to the ID/DD Waiver Support Coordinator.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
An individual’s whose ICF/IID or NF stay is acute or is for rehabilitative purposes is not eligible for this service.

C-1: Summary of Services Covered (2 of 2)

b. Provision of Case Management Services to Waiver Participants. Indicate how case management is furnished to waiver participants (select one):
   - Not applicable - Case management is not furnished as a distinct activity to waiver participants.
   - Applicable - Case management is furnished as a distinct activity to waiver participants.

   Check each that applies:
   - As a waiver service defined in Appendix C-3. Do not complete item C-1-c.
   - As a Medicaid State plan service under §1915(i) of the Act (HCBS as a State Plan Option). Complete item C-1-c.
   - As a Medicaid State plan service under §1915(g)(1) of the Act (Targeted Case Management). Complete item C-1-c.
   - As an administrative activity. Complete item C-1-c.

   c. Delivery of Case Management Services. Specify the entity or entities that conduct case management functions on behalf of waiver participants:

Appendix C: Participant Services

C-2: General Service Specifications (1 of 3)

a. Criminal History and/or Background Investigations. Specify the State's policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (select one):
No. Criminal history and/or background investigations are not required.

Yes. Criminal history and/or background investigations are required.

Specify: (a) the types of positions (e.g., personal assistants, attendants) for which such investigations must be conducted; (b) the scope of such investigations (e.g., state, national); and, (c) the process for ensuring that mandatory investigations have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid or the operating agency (if applicable):

All providers of ID/DD Waiver services must adhere to state and federal regulations regarding national criminal background checks, including fingerprinting for all direct care employees. Any person who has been convicted of a felony or certain misdemeanors in this state or any other jurisdiction is not eligible to be employed to provide direct care to persons enrolled in the waiver.

All providers are certified for a three (3) year period. During the three (3) year period, DMH staff conducts on-site monitoring visits to ensure compliance with DMH Operational Standards. Part of the on-site monitoring process includes reviewing personnel records of staff providing direct care services. One of the elements reviewed is whether the national criminal history/background investigation was conducted and returned indicating no criminal activity before the staff person began providing services. If, during the personnel record review, it is found that a criminal history/background check was not conducted for a particular staff member or member(s), the staff member(s) are prohibited from providing any services and the provider is required to develop a Plan of Compliance. In order for the staff member(s) to return to service delivery, the provider must provide evidence to DMH that a criminal history/background investigation has been conducted and returned no results as defined in Sections 43-15-6, 43-20-5, and 43-20-8 of the Mississippi Code of 1972, Annotated.

The maximum length of time for the submission of a Plan of Compliance is 30 days, which may be altered by DMH given the nature and severity of the concern. Plans must address each problem, how each problem was remediated and the provider agency’s plan for continued compliance with the DMH Operational Standards along with timelines for each remedial activity. DMH reviews and approves or disapproves all Plans of Compliance. In order to ensure remedial activities have been completed, DMH requires the submission of evidence of corrective action and/or follows up with an on-site visit to ensure compliance. Should a Plan of Compliance not be acceptable or implemented as approved, DMH may exercise its authority to suspend or terminate a provider agency’s DMH certification.

b. Abuse Registry Screening. Specify whether the State requires the screening of individuals who provide waiver services through a State-maintained abuse registry (select one):

No. The State does not conduct abuse registry screening.

Yes. The State maintains an abuse registry and requires the screening of individuals through this registry.

Specify: (a) the entity (entities) responsible for maintaining the abuse registry; (b) the types of positions for which abuse registry screenings must be conducted; and, (c) the process for ensuring that mandatory screenings have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

All providers are responsible for verifying that all employees and volunteers are not on the Mississippi Nurse Aide Abuse Registry which is housed at the Mississippi State Department of Health within the Division of Licensure and Certification.

The State's Office of Provider Enrollment performs mandatory screenings on owner’s and operators of provider agencies, prior to enrollment and as required by federal regulations. Additionally, the State checks the Nurse Abuse Registry during On-Site Compliance Reviews for direct care workers serving participants of the ID/DD Waiver.

Appendix C: Participant Services

C-2: General Service Specifications (2 of 3)

c. Services in Facilities Subject to §1616(e) of the Social Security Act. Select one:
No. Home and community-based services under this waiver are not provided in facilities subject to §1616(e) of the Act.

Yes. Home and community-based services are provided in facilities subject to §1616(e) of the Act. The standards that apply to each type of facility where waiver services are provided are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Appendix C: Participant Services

C-2: General Service Specifications (3 of 3)

**d. Provision of Personal Care or Similar Services by Legally Responsible Individuals.** A legally responsible individual is any person who has a duty under State law to care for another person and typically includes: (a) the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child or (b) a spouse of a waiver participant. Except at the option of the State and under extraordinary circumstances specified by the State, payment may not be made to a legally responsible individual for the provision of personal care or similar services that the legally responsible individual would ordinarily perform or be responsible to perform on behalf of a waiver participant. Select one:

- **No.** The State does not make payment to legally responsible individuals for furnishing personal care or similar services.
- **Yes.** The State makes payment to legally responsible individuals for furnishing personal care or similar services when they are qualified to provide the services.

Specify: (a) the legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) State policies that specify the circumstances when payment may be authorized for the provision of extraordinary care by a legally responsible individual and how the State ensures that the provision of services by a legally responsible individual is in the best interest of the participant; and, (c) the controls that are employed to ensure that payments are made only for services rendered. Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the State policies specified here.

- Self-directed
- Agency-operated

**e. Other State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians.** Specify State policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above the policies addressed in Item C-2-d. Select one:

- The State does not make payment to relatives/legal guardians for furnishing waiver services.
- The State makes payment to relatives/legal guardians under specific circumstances and only when the relative/guardian is qualified to furnish services.

Specify the specific circumstances under which payment is made, the types of relatives/legal guardians to whom payment may be made, and the services for which payment may be made. Specify the controls that are employed to ensure that payments are made only for services rendered. Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.

- Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardian is qualified to provide services as specified in Appendix C-1/C-3.

Specify the controls that are employed to ensure that payments are made only for services rendered.

Relatives/legal guardians may be paid for In-home Respite and Home and Community Supports.
Providers employing a family member to serve as HCS staff, regardless of relationship or qualifications, must maintain the following documentation in each staffs’ personnel record.

Proof of address for the family member seeking to provide services is required. Proof of address is considered to be a copy of a lease, rental agreement, or utility bill that includes that person’s name. If required documentation cannot be obtained, the family member seeking to provide services must provide a signed and notarized affidavit that includes his/her current address, evidencing the fact that he/she does not live in the same home as the person receiving services.

Evidence the individual’s ID/DD Waiver Support Coordinator has been notified the agency is seeking approval of a family member to provide HCS.

Family members employed as staff to provide HCS must meet the qualifications and training requirements as all other staff employed to provide the service.

Providers must conduct drop-in, unannounced quality assurance visits during the time the approved family member is providing services. These visits must occur at least two (2) times per year. Documentation of these visits must be maintained in the staff’s personnel record. Documentation must include:

1. Observation of the family member’s interactions with the person receiving services
2. Review of Plan of Services and Supports and Service Notes to determine if outcomes are being met
3. Review of utilization to determine if contents of Service Notes support the amount of service provided

Other policy.

Specify:

f. Open Enrollment of Providers. Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR §431.51:

DMH’s website has information regarding requirements and procedures for becoming a DMH certified provider. Additionally, bi-annual provider orientation sessions are conducted to inform potential providers of the process, requirements and timeframes for becoming a DMH certified provider. The State also participates in the New Provider Orientation to provide information regarding the processes and timelines for becoming a Medicaid provider. The DMH Operational Standards contain the processes and procedures for becoming a DMH certified provider.

Appendix C: Participant Services

Quality Improvement: Qualified Providers

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

a. Methods for Discovery: Qualified Providers

The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.

i. Sub-Assurances:

a. Sub-Assurance: The State verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.
For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
QP a.i.a. (1) Number and percent of new waiver providers who meet required DMH Operational Standards prior to service delivery
N: Number of provider agencies approved for initial DMH Certification
D: Number of provider agencies seeking initial DMH certification

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible. N/A

b. Methods for Remediation/Fixing Individual Problems
i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

DMH certified provider agencies are certified on a three (3) year cycle. During that time, providers are reviewed to determine compliance with DMH Operational Standards. If deficiencies are found, DMH provider agencies must submit a Plan of Compliance within thirty (30) days or sooner, following identification of issues, if indicated by DMH. Plans of Compliance must address each identified deficiency, how each was remediated and the provider agency’s plan for continued compliance with the DMH Operational Standards along with timelines for each remedial activity. DMH reviews and approves or disapproves all Plans of Compliance. In order to ensure remedial activities have been completed, DMH requires the submission of evidence of corrective action and/or follows up with an on-site visit to ensure compliance. Should a Plan of Compliance not be acceptable or implemented as approved, DMH may exercise its authority to suspend or terminate a provider agency’s DMH certification.

In addition to the possibility of suspension or termination of certification based on an unacceptable Plan of Compliance, DMH certified providers can also have their certification status affected for egregious acts such as endangerment of the health and welfare of an individual being served, unethical conduct, or failure to comply with fiscal requirements.

DMH notifies the State when provider agency certifications are suspended or terminated. DMH certification is a requirement of receiving/retaining a Medicaid provider number. Therefore, the State will then suspend or terminate the agencies provider number until the provider agency is recertified by DMH. Termination of an agency provider number will require the provider to reapply to the State to reinstate their provider number and provide documentation of recertification by DMH.

In addition, The Department of Mental Health’s Division of Certification Site Review Team, when monitoring providers who provide services other than ID/DD Waiver, reviews personnel records specifically of ID/DD Waiver staff to determine compliance with qualifications and training. Upon each certification visit, the provider must present a list of all personnel by service area. The DMH Division of Certification reviews a random sample of personnel records from each ID/DD Waiver service. All findings are documented on the Written Report of Findings form for each ID/DD Waiver service area.

ii. Remediation Data Aggregation
Remediation-related Data Aggregation and Analysis (including trend identification)

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Qualified Providers that are currently non-operational.

- **No**
- **Yes**

Please provide a detailed strategy for assuring Qualified Providers, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix C: Participant Services

C-3: Waiver Services Specifications

Section C-3 'Service Specifications' is incorporated into Section C-1 'Waiver Services.'

Appendix C: Participant Services

C-4: Additional Limits on Amount of Waiver Services

a. **Additional Limits on Amount of Waiver Services.** Indicate whether the waiver employs any of the following additional limits on the amount of waiver services (select one).

- **Not applicable** - The State does not impose a limit on the amount of waiver services except as provided in Appendix C-3.
- **Applicable** - The State imposes additional limits on the amount of waiver services.

When a limit is employed, specify: (a) the waiver services to which the limit applies; (b) the basis of the limit, including its basis in historical expenditure/utilization patterns and, as applicable, the processes and methodologies that are used to determine the amount of the limit to which a participant's services are subject; (c) how the limit will be adjusted over the course of the waiver period; (d) provisions for adjusting or making exceptions to the limit based on participant health and welfare needs or other factors specified by the state; (e) the safeguards that are in effect when the amount of the limit is insufficient to meet a participant's needs; (f) how participants are notified of the amount of the limit. (check each that applies)

- **Limit(s) on Set(s) of Services.** There is a limit on the maximum dollar amount of waiver services that is authorized for one or more sets of services offered under the waiver. 
  
  *Furnish the information specified above.*

- **Prospective Individual Budget Amount.** There is a limit on the maximum dollar amount of waiver services authorized for each specific participant.
  
  *Furnish the information specified above.*

- **Budget Limits by Level of Support.** Based on an assessment process and/or other factors, participants are assigned to funding levels that are limits on the maximum dollar amount of waiver services.
Furnish the information specified above.

People on and applying for the ID/DD Waiver will be assigned an aggregate budget limit for certain services based on their level of support needs, age, and living situation.

The State will use the Inventory for Client and Agency Planning (ICAP), which measures “the service intensity required by an individual, considering both adaptive and maladaptive behavior.” Assessments for resource allocation are conducted by an independent contractor hired by the State on a 3 year rotating cycle.

Based on statistical analyses conducted as part of the national norming of the ICAP, the instrument produces a Service Score to reflect the level of care, supervision, and training that a person needs. The Service Scores range from 0 to 100, with lower scores indicating more significant needs. The Service Scores are then combined into nine service levels. The State, in turn, has further collapsed the ICAP service levels into five levels of support, with Level 1 including people with the relatively fewest support needs (ICAP Service Scores of 90 or greater), and Level 5 including people with the greatest support needs (ICAP Service Scores below 30).

The State also considers age and living situation when grouping people together. Four living situations have been defined: adults receiving full-time residential support (Supervised Living, Shared Supported Living, and Host Home), adults living at home with family, youth living at home with family, and adults living independently (Supported Living). Adults are defined as individuals who are 21 years of age or older.

Based on five levels of need and four age/living situation categories, there are 18 defined groups (note that there are not groups established for people living independently and assigned to Levels 4 and 5; instances in which a person with significant needs wishes to live independently will be reviewed on a case-by-case basis). There is a budget limit for each of these 18 groups. The budget limit is the same for each person in a given group.

The budget limits apply to the following ‘core budget’ services: Home and Community Supports, Supported Living, Shared Supported Living, Supervised Living, Host Homes, Job Discovery, Supported Employment, Day Services – Adult, Prevocational, and In-Home Respite. Any other required service is authorized in addition to a person’s budget limit.

The budget limits are calculated based on ‘model service packages’ that are assumptions regarding the types and amounts of supports that people in each group require to be safe and successful in their communities. These service assumptions are then costed out using the Waiver fee schedule to calculate the budget limits. People with more significant needs are assumed to require more supports (often at higher provider payment rates) and, thus, receive higher budget limits.

The service-level assumptions in the model service packages are not themselves limits. People are required to remain within their budget limits, but have the flexibility to choose to access more hours of a given service than assumed in the model service packages (although they would need to use fewer hours than assumed for another service in order to accommodate the higher spending for the given service).

The assumptions included in the model service packages were developed based on several factors. First, the State considered detailed utilization data for people in each group. This data included the number and percent of people in each group who used a given service, the range of service usage, and similar information. Then, policy goals were considered. For example, each model service package includes an assumption that people will use Individual Supported Employment, although few people are currently utilizing this service (in practice, people may choose not to use Supported Employment and instead use more hours of Day Services or some other service). Finally, the State will conduct a validation study in which a sample of actual case files will be reviewed, as well as the individual budget to which each member would be assigned, to determine whether the budget would be sufficient to meet the needs of that person.

The budget limits do not vary based on geography. A person in a given group (level of need, age, living situation) will receive the same budget limit regardless of where in the State they reside.

The model service packages and resulting budget limits will be available for public inspection on the Department of Mental Health’s website. The model service packages will detail the specific assumptions regarding services and rates, allowing the budget limit to be revisited as necessary. For example, if provider rates are increased, the model service packages will be re-priced to calculate new budget limits.
Provisions for adjusting or making exceptions to the limit based on a person’s health and welfare needs include an exceptional needs review process. BIDD staff review requests for exceptional needs that could cause a person to exceed their budget limit yet have no change in ICAP score. To assist in identifying these people, the state has added two (2) Supplemental Questions to the assessment process that address exceptional medical and behavioral needs. Definitions for exceptional medical and behavioral needs have been established. ICAP assessors employed by the independent contractor ask these questions of the respondents to the ICAP. Additionally a person’s PSS team can submit requests through the Support Coordinator to the state to request a review of the assigned allocation. The team must provide supporting documentation for the request that might lead to an adjustment in the allocation limit. Reviews are conducted by BIDD and Medicaid according to criteria established for the review of exceptional needs. Requests for exceptional needs can be on a short term or long term basis. Each year, before the person’s PSS meeting, he/she and the PSS team are notified of the individual budget allocation. Therefore, decisions can be made at the PSS meeting regarding the services and supports that best meet the person’s needs to ensure they remain at home and in the community.

The State ensures that services will be provided in an amount necessary to meet each person's support needs. This includes instances when a person's service support needs exceed their projected Support Budget because exceptional needs are identified. People will be afforded the opportunity to appeal to BIDD and/or the State in the event they are denied requested waiver services as a result of the dollar limit.

The State will monitor utilization and requests for exceptions as the budget limits are implemented to determine whether changes may be necessary. For example, if a significant number of exception requests are received from a specific cohort – such as high-needs individuals in Supervised Living placements – or if a large majority of members within a cohort are using a very high proportion of their individual budgets, the State may make targeted adjustments to the corresponding budget limit.

The budget limits are calculated based on ‘model service packages’ and the waiver fee schedule. If the fee schedule is adjusted during the waiver period, the budget limits will be recalculated so that members maintain the same level of access to services. For example, if rates are increased, the model service package will be re-priced at these higher rates so that the resulting budget will cover the same quantity of services.

The State does not expect to adjust the model service packages themselves during the waiver period. However, the State will monitor utilization and requests for exceptions as the budget limits are implemented to determine whether changes may be necessary.

Other Type of Limit. The State employs another type of limit.

Describe the limit and furnish the information specified above.

Appendix C: Participant Services

C-5: Home and Community-Based Settings

Explain how residential and non-residential settings in this waiver comply with federal HCB Settings requirements at 42 CFR 441.301(c)(4)-(5) and associated CMS guidance. Include:

1. Description of the settings and how they meet federal HCB Settings requirements, at the time of submission and in the future.

2. Description of the means by which the state Medicaid agency ascertains that all waiver settings meet federal HCB Setting requirements, at the time of this submission and ongoing.

Note instructions at Module 1, Attachment #2, HCB Settings Waiver Transition Plan for description of settings that do not meet requirements at the time of submission. Do not duplicate that information here.

Please see Attachment #2.

Appendix D: Participant-Centered Planning and Service Delivery
Service Plan Development (1 of 8)

State Participant-Centered Service Plan Title:
Plan of Services and Supports

a. **Responsibility for Service Plan Development.** Per 42 CFR §441.301(b)(2), specify who is responsible for the development of the service plan and the qualifications of these individuals (select each that applies):

- [ ] Registered nurse, licensed to practice in the State
- [ ] Licensed practical or vocational nurse, acting within the scope of practice under State law
- [x] Licensed physician (M.D. or D.O)
- [ ] Case Manager (qualifications specified in Appendix C-1/C-3)
- [ ] Case Manager (qualifications not specified in Appendix C-1/C-3).

Specify qualifications:

Currently, each Support Coordinator is a state employee who meets the Mississippi State Personnel Board’s qualifications for their positions. These positions are occupied by individuals who hold at least a bachelor’s degree in a human services field related to working with individuals with intellectual disabilities and/or developmental disabilities and at least one year of experience in said field.

The State will implement a process to ensure open enrollment for all willing and qualified providers for Support Coordination services. Case Management agencies must have a statewide network of Support Coordinators. The State will transition from the current case management system to the one outlined above by October 31, 2019.

Qualified providers of case management services must meet the requirements set by the State and DMH to become a provider. Support Coordination must be certified through the Department of Mental Health. Agencies certified to provide Support Coordination cannot provide any other ID/DD Waiver Service and must be able to provide statewide coverage for all people in the ID/DD Waiver from the first day of operation.

The State is developing a plan to enroll potential providers and will submit this plan for CMS approval as soon as possible.

Staff qualifications for Support Coordinators are outlined in Appendix B-6.h, Qualifications of Individuals who Perform Re-Evaluations. Support Coordinators employed by the Department of Mental Health are state employees or contractual staff who meet the State Personnel Board qualifications for their positions. Regardless of position type, they must have at least a Bachelor’s Degree in in a human services field related to working with people who have intellectual and/or developmental disabilities with at least one (1) year of experience in said field. They must be supervised by a Master’s level staff who has at least two (2) years of management experience and whose degree is in a field related to working with people who have intellectual/developmental disabilities.

Support Coordinators who work for other agencies will not be required to be state employees, but must meet the same qualifications and training requirements as state employed Support Coordinators and supervisors, as defined in the DMH Operational Standards and Record Guide.

Interested providers should contact the Department of Mental Health and complete the process for certification as other ID/DD waiver providers. Once certification is received, the provider would then apply to the Division of Medicaid to become a Medicaid waiver provider.

- [ ] Social Worker

  Specify qualifications:

- [ ] Other

  Specify the individuals and their qualifications:

Appendix D: Participant-Centered Planning and Service Delivery
b. **Service Plan Development Safeguards.** *Select one:*

- Entities and/or individuals that have responsibility for service plan development may not provide other direct waiver services to the participant.

- Entities and/or individuals that have responsibility for service plan development may provide other direct waiver services to the participant.

The State has established the following safeguards to ensure that service plan development is conducted in the best interests of the participant. *Specify:*

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (3 of 8)

c. **Supporting the Participant in Service Plan Development.** Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the service plan development process and (b) the participant's authority to determine who is included in the process.

Each person is meaningfully and actively engaged in the development and maintenance of the PSS in several ways. The person, either alone or with assistance from a chosen representative, chooses the individuals he/she would like to have attend the development/review of the PSS. It is held at a time and place convenient for the person. The person, through the person centered planning process, determines the outcomes he/she would like to happen as a result of receiving ID/DD Waiver services and supports. Additionally, he/she requests the types and amounts of service(s) he/she would like to receive within his/her Individual Support Budget, as well as the provider(s) he/she would like to have render the services.

Throughout the person’s certification year, the Support Coordinator has at least monthly (or more frequently if needed) contact with the person. Providers are contacted on a quarterly basis. During these contacts, the Support Coordinator is able to gather information from the person regarding any adjustments that are needed to the PSS or to the Activity Support Plan which guides the daily provision of services at the provider level. The Support Coordinator communicates this information, when needed, to the provider and revises the PSS accordingly.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (4 of 8)

d. **Service Plan Development Process.** In four pages or less, describe the process that is used to develop the participant-centered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b) the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and monitor the plan; and, (g) how and when the plan is updated, including when the participant’s needs change. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

(a) The development of the Plan of Services and Supports is driven by the person centered planning process. The person/legal representative (if applicable), the Support Coordinator, provider staff and others of the person’s choosing participate in the development of the PSS. The PSS must or when changes in support needs arise or when requested by the person. Copies of the PSS must be provided to the person/legal guardian and all providers listed in the PSS except DME suppliers.

(b) Before initial enrollment in the ID/DD Waiver, people must be evaluated by one of the state’s five (5) Diagnostic and
Evaluation Teams (D&E Teams) for eligibility for level of care. The Inventory for Client and Agency Planning (ICAP) is also administered as part of the initial assessment. After the assessment for enrollment, the person centered planning meeting that leads to the development of the PSS is also considered to be part of the assessment. The State of MS participated in the Balancing Incentive Program. As part of that, the state chose the ICAP as the Core Standardized Assessment to be used to assess functional needs. A person’s support needs are continually being assessed through monthly and quarterly contacts by the Support Coordinator with him/her and/or the legal representative, if applicable and with his/her providers. Adjustments to the PSS and/or Activity Support Plans are made when the person/legal guardian requests such or as support needs change.

(c) The person is informed about all certified providers before he/she is initially certified and at least annually thereafter, when new providers are certified, or if the person becomes dissatisfied with his/her provider. The Support Coordinator is knowledgeable about all available ID/DD Waiver services and certified providers.

(d) In Supervised, Shared Supported Living, and Supported Living and Host Homes, providers are required to document each visit a person makes to a health care professional. This documentation includes the reason for the visit and the healthcare provider’s instructions, including monitoring for any potential for any unwanted side effects of any prescribed medication(s). This documentation is reviewed by all staff and the review is documented via their signature and credentials on the form.

Support Coordinators are also required to inquire about each person’s healthcare needs and any changes in such during monthly and quarterly contacts. Additionally, the Division of Medicaid provides a Monthly Utilization Report to Support Coordinators that lists all Medicaid services a person receives each month. The report has a lag time of two (2) months. This is one (1) tool the Support Coordinator can use to determine if the person has been to the doctor, been hospitalized, or changed medications.

Healthcare needs are also addressed with providers. Providers are contacted as part of quarterly contact documentation to ascertain how their services are assisting the person in meeting stated outcomes. One of the questions is to review any changes in a person’s health status.

(e) The coordination of waiver and other services is a constant activity for Support Coordinators. Through at least monthly contacts, the Support Coordinator is able to determine which services are being utilized, what new services may be needed, and what services may need to be reviewed to determine if the provider is supporting stated outcomes in the PSS. Through at least quarterly face-to-face contacts in the person’s service setting(s) Support Coordinators are able to observe the person, talk with him/her and talk with provider staff to ensure all services he/she receives are adequate and appropriate to support outcomes in the PSS.

Any needed back-up arrangements are discussed during the development of the PSS. Types of back-up arrangements include:

- emergency contact information for staff; provider arrangements for a different staff person if the regularly schedule one cannot be present;
natural supports, including neighbors, families and friends; use of generators or evacuation procedures in case of power outages if the person requires electricity powered medical devices; other personally tailored arrangements depending on his/her support needs.

(f) The Support Coordinator is responsible for ensuring all services are implemented as approved on the person’s PSS. This is accomplished through monitoring service provision during monthly phone contacts, on-site and face-to-face visits, and Monthly Utilization Reports from Medicaid.

(g) The PSS is reviewed monthly and updated at least annually. A change in the PSS can be requested by the person/legal guardian at any time. The Support Coordinator is responsible for coordinating any requests for changes and submitting the required information for such to BIDD for approval/denial/modification. All changes in the amount(s)/type(s) of services must be prior approved by BIDD.

There must be documentation to support the need for a change if it is a change in the amount of service(s) or addition of a service(s).

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (5 of 8)

e. Risk Assessment and Mitigation. Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.

Support Coordinators must, in conjunction with the person and his/her service providers, complete the Risk Assessment Tool annually at the PSS meeting. The tool identifies risks and mitigation strategies. The Risk Assessment Tool is completed by the Support Coordinator with input from the person, others important to the person and all providers. The information gathered is included in the PSS.

Any needed back up arrangements are discussed during the development of the Plan of Services and Supports. Types of back up arrangements include: emergency contact information for staff; provider arrangements for an additional staff person if the regularly scheduled one cannot be present; natural supports including families, neighbors and friends; use of generators in case of power outages if the person requires electricity powered medical devices; other individually tailored arrangements, depending on each person’s identified risks.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (6 of 8)

f. Informed Choice of Providers. Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the waiver services in the service plan.

Support Coordinators provide people with a list of certified providers for the service(s) they are requesting on their Plan of Services and Supports. The Support Coordinator will assist the person in arranging tours of service sites if he/she so chooses or in interviewing/meeting with agency representatives until the person chooses a provider. If at any time a person becomes dissatisfied with his/her provider, he/she can contact the Support Coordinator and choose a new provider from the list of certified providers. Additionally, the DMH maintains a comprehensive statewide database of certified providers which is searchable by county and can be found on the DMH website.
Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (7 of 8)

g. Process for Making Service Plan Subject to the Approval of the Medicaid Agency. Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR §441.301(b)(1)(i):

All documentation for initial certification, recertification or changes in amount or addition of a service(s), is submitted electronically in LTSS. Both the Bureau of Intellectual and Developmental Disabilities and the State have access to these documents at any time.

BIDD staff reviews a representative sample of requests for recertification. 100% of Initial and Change Request PSSs are reviewed by BIDD staff. Documentation of BIDD’s action is maintained in LTSS. The State has immediate access to all BIDD actions and can review documentation used to make decisions at any time.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (8 of 8)

h. Service Plan Review and Update. The service plan is subject to at least annual periodic review and update to assess the appropriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the review and update of the service plan:

- Every three months or more frequently when necessary
- Every six months or more frequently when necessary
- Every twelve months or more frequently when necessary
- Other schedule

Specify the other schedule:

i. Maintenance of Service Plan Forms. Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §92.42. Service plans are maintained by the following (check each that applies):

- Medicaid agency
- Operating agency
- Case manager
- Other

Specify:

All Plans of Services and Supports are entered electronically in LTSS. The State and BIDD staff have access to Plans of Services and Supports at any time. Support Coordination Directors can access PSSs for everyone assigned to their catchment area. Support Coordinators can access PSSs of people assigned to their caseload.

Appendix D: Participant-Centered Planning and Service Delivery

D-2: Service Plan Implementation and Monitoring

a. Service Plan Implementation and Monitoring. Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan and participant health and welfare; (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.

Support Coordinators monitor implementation of the Plan of Services and Supports as well as individual health and welfare on a monthly basis. Support Coordinators also speak with individuals/legal representatives at least one (1) time per month or more frequently as determined by the Plan of Services and Supports and/or see the person during a face-to-face contact. Detailed documentation of all required monthly contacts is maintained in the Services and Supports Monitoring (SSM) module in LTSS. Service Notes are used to document any contacts with, for or about the person that occur in between required contacts and are also documented in LTSS. During monthly contacts, the Support Coordinator talks with the person to:
a. Determine if needed supports and services in the Plan of Services and Supports have been provided

b. Determine if preferences and desired outcomes are being met and implemented

c. Review the person's progress and accomplishments

d. Review the person's satisfaction with services and providers

e. Identify any changes to the person's support needs, preferences, desired outcomes, or health status

f. Identify the need to change the amount or type of supports and services needed or to access new waiver or non-waiver services

g. Identify the need to update the Plan of Services and Supports

Throughout the month, Support Coordinators conduct any identified follow-up activities that may be needed, based on information gathered during monthly contacts. Follow-up activities are documented in the Support Coordination Service Notes as well as the next monthly or quarterly entry in the Services and Supports module in LTSS.

Support Coordinators are also required to have face-to-face visits with each person at least once every three months, rotating service settings and talking to staff. If a person does not receive any in-home services, the Support Coordinator makes at least one (1) home visit per year to ensure they see the person in all settings.

The effectiveness of back up plans is monitored by the Support Coordinator. Monitoring methods include talking with the person at least one (1) time per month to determine if back-up plans have been needed and if so, how were they utilized, did the plan work appropriately, and what changes, if any, need to be made to the back-up plan.

Access to health care services is monitored by Supervised, Supported Living, Shared Supported Living and Host Home service providers as well as Support Coordinators. In Supervised, Supported and Shared Supported Living services and in Host Homes, providers are required to document each visit a person makes to a health care provider. This documentation includes the reason for the visit and the physician’s instructions, including monitoring for any potential unwanted side effects of the prescribed medication(s). This documentation is reviewed by all staff and the review is documented via their signature and credentials on the form. Additionally, for Supervised Living, Shared Supported Living, Supported Living and Host Homes, the provider must assist the person in accessing all needed medical services, both routine and emergency.

Staff from the DMH monitors provider records to determine if people have and are accessing health care services. Support Coordinators are also required to inquire about each person's health care needs and changes in such during monthly and quarterly contacts. Additionally, the State provides a monthly utilization report to Support Coordinators that lists all services a person receives each month. This is one tool the Support Coordinator can use to determine if the person has been to the doctor, been hospitalized, or changed medications.

People are afforded a choice of providers when the Plan of Services and Supports is initially developed, annually at the Plan of Services and Supports meeting, when new providers are certified or at any time a person becomes unhappy with a current provider(s). Support Coordinators are responsible for informing people about all certified providers for the services listed on the Plan of Services and Supports and for routinely assessing a person's satisfaction with services and providers (at least one (1) monthly phone contact and quarterly face-to-face visits). The DMH also maintains and electronic database on its website that allows individuals to search for providers by county.

b. Monitoring Safeguards. Select one:

- Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may not provide other direct waiver services to the participant.

- Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may provide other direct waiver services to the participant.

The State has established the following safeguards to ensure that monitoring is conducted in the best interests of the participant. Specify:

By 12/1/18, providers of Support Coordination that also provide ID/DD Waiver services will transition all ID/DD Waiver services they provide to other DMH certified providers, as approved in the Corrective Action Plan for the ID/DD Waiver Amendment approved 5/1/17.
Quality improvement at the individual level is focused on monitoring and improving care support outcomes for the individual. The person’s Support Coordinator is primarily responsible for quality improvement at the individual level. Individual level discovery takes place through the monthly and quarterly contacts that a Support Coordinator makes with the individual/legal guardian and his/her providers. When a Support Coordinator discovers an issue related to the person’s Plan of Services and Supports, he/she is responsible for addressing the issue with the person’s provider and developing remedial actions to address the issue.

In addition to individual level discovery and remediation that occurs as a responsibility of Support Coordinators, DMH is also responsible for discovery related to individual level remediation. Through BIDD’s monitoring process, conducted through LTSS, which includes individual record review, issues are identified in individual records. The Support Coordination Director and his/her Supervisor are notified about the issues identified that require remediation by the person’s Support Coordinator. These issues include, but are not limited to: follow up regarding accessing community resources; identification of additional support needs; etc.

Individual level discovery and remediation also occurs through DMH’s serious incident reporting/tracking processes and grievance process. Data from the results of provider monitoring, serious incidents, and grievances is available on an individual, provider or system level basis dependent upon the format needed for remediation and quality improvement.

DMH submits annual reports to the State summarizing issues identified during reviews of Plan of Services and Supports.

Appendix D: Participant-Centered Planning and Service Delivery

Quality Improvement: Service Plan

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

a. Methods for Discovery: Service Plan Assurance/Sub-assurances

The state demonstrates it has designed and implemented an effective system for reviewing the adequacy of service plans for waiver participants.

i. Sub-Assurances:

   a. Sub-assurance: Service plans address all participants’ assessed needs (including health and safety risk factors) and personal goals, either by the provision of waiver services or through other means.

   Performance Measures

   For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

   For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

   Performance Measure:
   SP a.i.a (1) Number and percent of waiver participants who have assessed needs addressed in the Plan of Services and Supports through waiver, non-waiver, or natural supports

   N: Number of waiver participants who have assessed needs addressed in the Plan of Services and Supports through waiver, non-waiver or natural supports
   D: Number of waiver participants reviewed

b. Sub-assurance: The State monitors service plan development in accordance with its policies and procedures.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

c. Sub-assurance: Service plans are updated/revised at least annually or when warranted by changes in the waiver participant’s needs.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. **d. Sub-assurance:** Services are delivered in accordance with the service plan, including the type, scope, amount, duration and frequency specified in the service plan.

**Performance Measures**

*For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.*
For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
SP a.i.d(1) Number and percent of services and supports reviewed that were provided in the type, scope, amount, duration and frequency as defined in the PSS N:
Number and percent of services and supports reviewed that were provided in the type, scope, amount, duration and frequency as defined in the PSS D: Number of Plans of Services and Supports reviewed

b. Methods for Remediation/Fixing Individual Problems

i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

The Support Coordination Monitoring Tool is utilized by BIDD Staff to review individual records. It addresses the performance measures and other Plan of Services and Supports requirements related to service planning.

BIDD staff compiles all information related to non-compliance and issues a Written Report of Findings to the Support Coordination provider when non-compliance issues arise.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

The Support Coordination Monitoring Tool is utilized by BIDD Staff to review individual records. It addresses the performance measures and other Plan of Services and Supports requirements related to service planning. BIDD staff compiles all information related to non-compliance and issues a Written Report of Findings to the Support Coordination provider when non-compliance issues arise.
The Support Coordination provider has thirty (30) days to submit a Plan of Compliance addressing remediation of non-compliance issues. The corrective actions to remediate the problems and plans for continued compliance must be submitted in the Plan of Compliance. BIDD reviews and approves or disapproves all Plans of Compliance for Support Coordination providers. BIDD can provide technical assistance to a Support Coordination provider to assist them in developing an acceptable Plan of Compliance.

In order to ensure remedial activities have been completed within approved timelines, DMH requires the submission of evidence of corrective action.

ii. Remediation Data Aggregation

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Service Plans that are currently non-operational.

☐ No

☐ Yes

Please provide a detailed strategy for assuring Service Plans, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix E: Participant Direction of Services

Applicability (from Application Section 3, Components of the Waiver Request):

☐ Yes. This waiver provides participant direction opportunities. Complete the remainder of the Appendix.

☐ No. This waiver does not provide participant direction opportunities. Do not complete the remainder of the Appendix.

CMS urges states to afford all waiver participants the opportunity to direct their services. Participant direction of services includes the participant exercising decision-making authority over workers who provide services, a participant-managed budget or both. CMS will confer the Independence Plus designation when the waiver evidences a strong commitment to participant direction.

Indicate whether Independence Plus designation is requested (select one):

☐ Yes. The State requests that this waiver be considered for Independence Plus designation.
No. Independence Plus designation is not requested.

Appendix F: Participant Rights

Appendix F-1: Opportunity to Request a Fair Hearing

The State provides an opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E to individuals: (a) who are not given the choice of home and community-based services as an alternative to the institutional care specified in Item 1-F of the
request; (b) are denied the service(s) of their choice or the provider(s) of their choice; or, (c) whose services are denied, suspended, reduced or terminated. The State provides notice of action as required in 42 CFR §431.210.

**Procedures for Offering Opportunity to Request a Fair Hearing.** Describe how the individual (or his/her legal representative) is informed of the opportunity to request a fair hearing under 42 CFR Part 431, Subpart E. Specify the notice(s) that are used to offer individuals the opportunity to request a Fair Hearing. State laws, regulations, policies and notices referenced in the description are available to CMS upon request through the operating or Medicaid agency.

If, upon initial evaluation it is determined that a person does not meet LOC requirements, the person/legal guardian is sent a notice from the Diagnostic and Evaluation (D&E) Team within ten (10) days of the finding of ineligibility for ICF/IID Level of Care and, therefore, the Intellectual Disabilities/Developmental Disabilities (ID/DD) Waiver. This notice outlines the procedures for appealing this decision to the Department of Mental Health (DMH) and/or the State, supporting documentation required for the appeal and to whom to send the information.

The procedures for appealing the denial of LOC eligibility to DMH are as follows:

1. The person applying for services will be notified in writing within ten (10) days of the denial of eligibility for LOC and, thus, his/her ineligibility for ID/DD Waiver services. A copy for the procedures for appealing the decision is included in the notification.

2. The person/legal representative has thirty (30) days from the date of the “Notice of Ineligibility for ICF/IID Level of Care” to submit an appeal to the Director of the Bureau of Intellectual Disabilities/Developmental Disabilities (BIDD). The appeal must be in writing. If the person/legal representative so desires, he/she may submit additional justification with the appeal, other than the reports from D&E Team, to support his/her request. The “Notice of Ineligibility for ICF/IID Level of Care” must be included in the appeal.

3. The Director of BIDD must respond in writing within thirty (30) days of receipt of the appeal by BIDD. If sufficient justification was not submitted with the appeal, the BIDD Director may request additional information before making a decision, thus extending the thirty (30) day time line.

4. If the Director of BIDD disagrees with the denial of eligibility for ICF/IID LOC, he/she will notify the D&E Team in writing and send a copy of the decision to the person/legal representative. At that point, the date of the evaluation is the date of the person’s eligibility for the ID/DD Waiver.

5. If the Director of BIDD agrees with the determination of ineligibility for ICF/IID LOC, the person has the right to appeal the decision to the Executive Director of the Department of Mental Health. The request for further consideration must be received by the Executive Director by the date indicated in the letter.

6. The Executive Director of the DMH will respond in writing, within thirty (30) days. If the Executive Director feels additional information is required to make a decision, a request for such will be sent to the person/legal guardian, thus extending the thirty (30) day time line.

7. If the Executive Director disagrees with the BIDD Director’s decision regarding the person’s eligibility for ICF/IID LOC, he/she will notify the person, in writing, and send a copy to the appropriate D&E Team.

8. If the Executive Director agrees with the BIDD Director’s decision that the person does not meet LOC, the person has the right to appeal the decision to the Executive Director of the State Division of Medicaid. The request for a State Fair Hearing must be received, along with the supporting documentation, within thirty (30) days of receiving notification from the Executive Director of the Department of Mental Health.

9. Once a request for a State Fair Hearing is received, a hearing officer is assigned. The person/legal representative must be given advance notice of the hearing date and time. The hearing will be held by telephone. The hearing must be recorded.

10. The hearing officer will make a recommendation to the Executive Director of the State Division of Medicaid, based on review of documentation submitted by DMH and presented at the hearing. The Executive Director will make the final determination of the case, and the person/legal representative will receive written notification of the decision. The final administrative action, whether state or local, must be
made within ninety (90) days of the date of the initial request for a hearing. DMH/BIDD will be notified by the State regarding the determination of eligibility/ineligibility for ICF/IID LOC and, this, ID/DD Waiver services.

11. The State will issue a determination within ninety (90) days of the date of the initial request for a hearing. Although regulations allow ninety (90) days, the State will make every effort to hold hearings promptly, and render decisions in a shorter timeframe. The State has the final authority over the State Fair Hearing decision, and will inform the person and DMH in writing of the final decision. Once the State has issued their decision the person cannot appeal the matter to DMH or to the State Medicaid Agency.

12. At any point during the appeal process, a State Fair Hearing may be requested and can bypass the appeal process through the DMH.

13. State Fair Hearing procedures are based on the Mississippi Division of Medicaid Administrative Code, Title 23, Part 100 Chapters 4-5, and Part 300, Chapter 1.

14. If the person/legal guarding determines the need for further redress, he/she may seek relief in a court of appropriate jurisdiction.

The procedures for appealing the Denial, Reduction or Termination of ID/DD Waiver services are:

If a person requests a service on his/her initial Plan of Services and Supports, an increase in the amount of previously approved service(s), or an additional service(s) and the request is not approved by BIDD staff, or if BIDD staff determines a service on a person’s Plan of Services and Supports is no longer appropriate and terminates the service, he/she can appeal to the Director of the BIDD or appeal directly to the Executive Director of the State Division of Medicaid.

If it is determined a person is no longer eligible for ICF/IID Level of Care, or if his/her needs exceed the scope of services the ID/DD Waiver can provide, he/she can be discharged from the ID/DD Waiver. This decision can be appealed to the Director of the BIDD or directly to the Executive Director of the State Division of Medicaid, bypassing the BIDD Director and DMH Executive Director. During the appeals process, contested services that were already in place must remain in place, unless the decision is for immediate termination due to possible adverse circumstances for the individual.

The same timelines as listed above for appealing ICF/IID LOC are used in this process.

All records that pertain to adverse actions, the opportunity to request a fair hearing, appeal documentation and final determinations are filed in LTSS by the appropriate party.

For individuals who are denied choice of provider:

A. The Department of Mental Health requires written policies and procedures for implementation of a process through which individuals’ grievances can be reported and addressed at the local program/center level. These policies and procedures, minimally, must ensure the following:
   1. That individuals receiving services from the provider have access to a fair and impartial process for reporting and resolving grievances;
   2. That individuals are informed and provided a copy of the local procedure for filing a grievance with the provider and of the procedure and timelines for resolution of grievances;
   3. That individuals receiving services and/or parent(s)/legal representative(s) are informed of the procedures for reporting/filing a grievance with the DMH, including the availability of the toll free telephone number;
   4. That individuals receiving services and/or parent(s)/legal representative(s) are informed of the procedures for reporting suspicions of abuse or neglect in accordance with state reporting laws to include but not limited to the Vulnerable Persons Act and Child Abuse or Neglect Reporting requirements.
   5. That the program will post in a prominent public area the Office of Consumer Support (OCS) informational poster containing procedures for filing a grievance with DMH. The information provided by OCS must be posted at each site/service location.

B. The policies and procedures for resolution of grievances at the provider level, minimally, must include:

   1. Definition of grievances: a written or verbal statement made by an individual receiving services alleging a violation of rights or policy;
2. Statement that grievances can be expressed without retribution;
3. The opportunity to appeal to the executive officer of the provider agency, as well as the governing board of the provider agency;
4. Timelines for resolution of grievances; and,
5. The toll-free number for filing a grievance with the DMH Office of Consumer Support.

C. There must be written documentation in the record that each individual and/or parent guardian is informed of and given a copy of the procedures for reporting/filing a grievance described above, at intake and annually thereafter if he/she continues to receive services from the provider.

D. The policies and procedures must also include a statement that the DMH Certified Provider will comply with timelines issued by DMH Office of Consumer Support in resolving grievances initially filed with the DMH.

In accordance with Section 43-13-116 of the Mississippi Code of 1972, as amended and 42 CFR 431.200 et. seq., the Division of Medicaid provides beneficiaries the opportunity to request a fair hearing in order to appeal decisions of denial, termination, suspension or reduction of Medicaid covered services. If the beneficiary wishes to appeal, they and/or their legal representative must request a hearing in writing within thirty (30) days of the notice of adverse action.

Appendix F: Participant-Rights

Appendix F-2: Additional Dispute Resolution Process

a. Availability of Additional Dispute Resolution Process. Indicate whether the State operates another dispute resolution process that offers participants the opportunity to appeal decisions that adversely affect their services while preserving their right to a Fair Hearing. Select one:
   ○ No. This Appendix does not apply
   ○ Yes. The State operates an additional dispute resolution process

b. Description of Additional Dispute Resolution Process. Describe the additional dispute resolution process, including: (a) the State agency that operates the process; (b) the nature of the process (i.e., procedures and timeframes), including the types of disputes addressed through the process; and, (c) how the right to a Medicaid Fair Hearing is preserved when a participant elects to make use of the process: State laws, regulations, and policies referenced in the description are available to CMS upon request through the operating or Medicaid agency.

Appendix F: Participant-Rights

Appendix F-3: State Grievance/Complaint System

a. Operation of Grievance/Complaint System. Select one:
   ○ No. This Appendix does not apply
   ○ Yes. The State operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver

b. Operational Responsibility. Specify the State agency that is responsible for the operation of the grievance/complaint system:

   People receiving supports, family members, caregivers, or other interested parties have multiple avenues for filing a grievance. Grievances are received by phone, written format, or email. Upon receipt of a grievance, a Consumer Advocate within the DMH Office of Consumer Support (OCS) categorizes the grievance based on an established level system.

b. Description of System. Describe the grievance/complaint system, including: (a) the types of grievances/complaints that participants may register; (b) the process and timelines for addressing grievances/complaints; and, (c) the mechanisms that are used to resolve grievances/complaints. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
People receiving supports, family members, caregivers, or other interested parties have multiple avenues for filing a grievance. Grievances are received by phone, written format, or email. Upon receipt of a grievance, a Consumer Advocate within the DMH Office of Consumer Support (OCS) categorizes the grievance based on an established level system. When a person elects to file a grievance, they are informed that doing so is not a re-requisite or substitute for a Fair Hearing.

Level I grievances are areas of concern related to a person’s issues including, but not limited to: inappropriate services or level of service, provider non-compliance with issues related to the Plan of Services and Supports, Support Coordination, etc. Level I grievances are typically resolved with an explanation of policy, regulation or standard. Level I grievances may also include a referral to other services and/or supports.

Level II grievances are areas of concern of a more serious nature such as a possible serious incident, violation of rights, denial of services, insufficient care to ensure a person’s health and welfare, etc. Level II grievances require DMH inquiry to support or disprove an area of concern. DMH inquiry includes requests for information related to the grievance and can also include an on-site visit to obtain information and/or interview staff.

Level III grievances are areas of concern of the most serious nature, such as suspected abuse/neglect/exploitation, egregious violation of rights including seclusion/restraint, violations of Final Rule requirements regarding modifications to HCBS settings, etc., mistreatment of a person and/or denial of services. Level III grievances require DMH inquiry to support or disprove a grievance. DMH inquiry includes requests for information related to the grievance and can also include an on-site visit to obtain information and/or interview staff.

All grievances must be resolved within 30 days of OCS receipt. The person filing the grievance is provided formal notification from the Director of OCS of the resolution and activities performed in order to reach the resolution of the grievance.

The grievance process includes an opportunity for the person to request reconsideration should he/she not be satisfied with the resolution. The person filing the grievance can request reconsideration from the Deputy Director of the DMH. The individual will be formally notified in writing of the decision related to the reconsideration. Should the person originally filing the grievance not be satisfied with the reconsideration decision, he/she can appeal to the Executive Director of the DMH. The Executive Director will formally notify the person of his/her decision. All decisions of the DMH Executive Director are final.

The mechanisms used to resolve grievance/complaints include, but are not limited to: individual interviews, staff interviews, record review, phone inquiry, and on-site investigation.

State Fair Hearing procedures and processes will comply with the requirements as established in the Mississippi Division of Medicaid Administrative Code, Title 23, Part 100, Chapters 4-5, and Part 300, Chapter 1. Participants are advised that at no time will the informal dispute resolution process conflict with their right to a Fair Hearing in accordance with Fair Hearing procedures and processes.

Appendix G: Participant Safeguards

Appendix G-1: Response to Critical Events or Incidents

a. Critical Event or Incident Reporting and Management Process. Indicate whether the State operates Critical Event or Incident Reporting and Management Process that enables the State to collect information on sentinel events occurring in the waiver program. Select one:

- Yes. The State operates a Critical Event or Incident Reporting and Management Process (complete Items b through e)
- No. This Appendix does not apply (do not complete Items b through e)

If the State does not operate a Critical Event or Incident Reporting and Management Process, describe the process that the State uses to elicit information on the health and welfare of individuals served through the program.

b. State Critical Event or Incident Reporting Requirements. Specify the types of critical events or incidents (including alleged abuse, neglect and exploitation) that the State requires to be reported for review and follow-up action by an
appropriate authority, the individuals and/or entities that are required to report such events and incidents and the timelines for reporting. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

DMH's Office Incident Management (OIM), as lead agency responsible for incident reporting requirements, maintenance of DMH’s Incident Management Information System and investigation of reported incidents. All DMH certified providers (inclusive Support Coordination) are required to report serious incidents to DMH’s Office of Incident Management. Incidents may be reported via telephone with subsequent written documentation received via email or fax. In addition to reporting to DMH, incidents of suspected abuse/neglect/exploitation must be reported to the MS Department of Human Services and/or the Office of the Attorney General, dependent upon the type of event.

The State also operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver (See appendix F-3). These two systems, working together, allow for self-reporting by certified providers and for reporting by people receiving supports, family members, caregivers, or other parties.

The procedures for self-reporting by certified providers and the process for reporting possible serious incidents discovered through the Grievance/Complaint procedure are described below.

Serious incidents to be reported within twenty-four (24) hours include, but are not limited to:

1. Suicide attempts on provider property or at a provider-sponsored event;
2. Unexplained or unanticipated absence from any DMH certified program for any length of time;
3. Incidents involving injury of a person receiving services while on provider property or at a provider-sponsored event, or being transported by a DMH certified provider;
4. Emergency hospitalization or treatment while receiving services;
5. Medication errors;
6. Accidents which require hospitalization that may be related to abuse/neglect/exploitation, or in which the cause is unknown or unusual;
7. Disasters such as fires, floods, tornadoes, hurricanes, snow/ice events, etc.
8. Use of seclusion or restraint that is not part of a person's Plan of Services and Supports, Crisis Intervention Plan, or Behavior Support Plan.

Serious incidents to be reported verbally within eight (8) hours, to be followed by the written Serious Incident Report within twenty-four (24) hours, include:

1. Death of an individual on provider property, participating in a provider-sponsored event, or during the provision of any service
2. Unexplained absences from any of the previously mentioned programs or Alzheimer’s Day Services programs;
3. Suspicions of abuse/neglect/exploitation of a person receiving services while on provider property, at a program sponsored event, or while being transported by a DMH certified provider.

Upon receipt of a Serious Incident, whether it comes in as a self-report from a certified provider or as a grievance/complaint, the incident is categorized based on an established level system.

Level I incidents are areas of concern related to a person’s issues including, but not limited to: inappropriate services or level of service, provider non-compliance with issues related to the Plan of Services and Supports, Support Coordination, etc. Level I grievances are typically resolved with an explanation of policy, regulation or standard. Level I grievances may also include a referral to other services and/or supports. Level I self-reported incidents are reviewed to ensure that all appropriate actions have been taken including identification of possible contributing factors, that implementation of follow up actions to mitigate or prevent the event from occurring again have been put in place, that all mandatory reporting required by law has been completed, and any applicable disciplinary actions have been administered.

Level II incidents are areas of concern of a more serious nature such as violation of rights, denial of services, insufficient
care to ensure a person’s health and welfare, etc. Level II grievances require DMH inquiry to support or disprove an area of concern. For both Level II self-reported incidents and grievances DMH inquiry includes requests for information related to the event and can also include an on-site visit to obtain information and/or interview staff.

Level III incidents are areas of concern of the most serious nature, such as suspected abuse/neglect/exploitation, egregious violation of rights including seclusion/restraint, violations of Final Rule requirements regarding modifications to HCBS settings, etc., mistreatment of a person and/or denial of services. Level III grievances require DMH inquiry to support or disprove the grievance. For both Level III self-reported incidents and grievances DMH inquiry includes requests for information related to the grievance and can also include an on-site visit to obtain information and/or interview staff.

An inquiry into self-reported incidents is conducted within thirty (30) days. DMH inquiry includes requests for information related to the event and can also include an on-site visit to obtain information and/or interview staff. DMH Operational Standards require certified providers to participate with this process. Based on the submission of requested information or the conclusion of an on-site visit, should corrective action be required, DMH issues a report of findings based on the incident. That report of findings must be addressed by the provider within thirty (30) days. All grievances which indicate a serious incident may have taken place must be resolved within 30 days of receipt. The person filing the grievance is provided notification from the Director of the Office of Consumer Support of the activities performed in order to reach the resolution of the grievance that may indicate a serious incident took place.

The DMH Office of Incident Management is responsible for analyzing data to identify trends and patterns. Both self-reported incidents and those reported through the grievance/complaint system are analyzed by type of incident, level of incident, person involved, staff involved, date of incident, date of reporting, possible contributing factors and any follow up actions to mitigate or prevent the event from occurring again. Trends and patterns are reported to BIDD and the Division of Certification for review during on-site visits, or before, if warranted.

The DMH OCS is responsible for analyzing data to identify trends and patterns. Serious Incidents are analyzed by type of incident, level of incident, person involved, staff involved, time of incident, time of reporting and cause of incident. Trends and patterns are reported to BIDD and the Division of Certification for review during on-site visits, or before, if warranted.

c. **Participant Training and Education.** Describe how training and/or information is provided to participants (and/or families or legal representatives, as appropriate) concerning protections from abuse, neglect, and exploitation, including how participants (and/or families or legal representatives, as appropriate) can notify appropriate authorities or entities when the participant may have experienced abuse, neglect or exploitation.

Upon admission and at least annually thereafter, every service provider is required to provide people receiving services and/or their legal guardians, both orally and in writing, the DMH’s and program’s procedures for protecting people receiving services from abuse, exploitation, and neglect. Each person/legal guardian is provided a written copy of his/her rights. Program staff reviews the rights with each person/legal guardian and the person/legal guardian signs the form indicating the rights have been presented to them both orally and in writing, in a way which is understandable to them. Contained in the rights is information about how the individual/legal representative can report any suspected violation of rights and/or grievances, to the DMH Office of Consumer Support and the State's Protection and Advocacy agency, Disability Rights Mississippi. The toll free numbers are posted in prominent places throughout each day program site.

d. **Responsibility for Review of and Response to Critical Events or Incidents.** Specify the entity (or entities) that receives reports of critical events or incidents specified in item G-1-a, the methods that are employed to evaluate such reports, and the processes and time-frames for responding to critical events or incidents, including conducting investigations.

DMH’s Office of Incident Management, as the lead agency responsible for incident reporting requirements, maintenance of DMH’s Incident Management Information System, and investigations of reported incidents, is responsible for the notification of investigation results to parties as designated by state law (Attorney General’s office, Department of Human Services, Child Protective Services, Local Authorities, etc.). Notification is made to the participant’s family or legal representative, the waiver provider, applicable licensing and regulatory authorities, and the State within 30 days of the end of the investigation by DMH.

Incidents may be reported via telephone with subsequent written documentation received via email or fax. In addition to reporting to DMH, incidents of suspected abuse/neglect/exploitation must be reported to the MS Department of Human Services and/or the Office of the Attorney General, dependent upon the type of event.
Serious incidents to be reported within twenty-four (24) hours include, but are not limited to:

1. Suicide attempts on provider property or at a provider-sponsored event;
2. Unexplained or unanticipated absence from any DMH certified program for any length of time;
3. Incidents involving injury of a person receiving services while on provider property or at a provider-sponsored event, or being transported by a DMH certified provider;
4. Emergency hospitalization or treatment while receiving services;
5. Medication errors;
6. Accidents which require hospitalization that may be related to abuse/neglect/exploitation, or in which the cause is unknown or unusual;
7. Disasters such as fires, floods, tornadoes, hurricanes, snow/ice events, etc.
8. Use of seclusion or restraint that is not part of a person's Plan of Services and Supports, Crisis Intervention Plan, or Behavior Support Plan.

Serious incidents to be reported verbally within eight (8) hours, to be followed by the written Serious Incident Report within twenty-four (24) hours, include:

1. Death of an individual on provider property, participating in a provider-sponsored event, or during the provision of any service
2. Unexplained absences from any of the previously mentioned programs or Alzheimer's Day Services programs;
3. Suspicions of abuse/neglect/exploitation of a person receiving services while on provider property, at a program sponsored event,

Upon receipt of a Serious Incident, whether it comes in as a self-report from a certified program or as a grievance/complaint, the incident is categorized based on an established level system.

Level I incidents are areas of concern related to a person's issues including, but not limited to: inappropriate services or level of service, provider non-compliance with issues related to the Plan of Services and Supports, Support Coordination, etc. Level I grievances are typically resolved with an explanation of policy, regulation or standard. Level I grievances may also include a referral to other services and/or supports. Level I self-reported incidents are reviewed to ensure that all appropriate actions have been taken including identification of possible contributing factors, that implementation of follow up actions to mitigate or prevent the event from occurring again have been put in place, that all mandatory reporting required by law has been completed, and any applicable disciplinary actions have been administered.

Level II incidents are areas of concern of a more serious nature such as violation of rights, denial of services, insufficient care to ensure a person's health and welfare, etc. Level II grievances require DMH inquiry to support or disprove an area of concern. For both Level II self-reported incidents and grievances DMH inquiry includes requests for information related to the event and can also include an on-site visit to obtain information and/or interview staff.

Level III incidents are areas of concern of the most serious nature, such as suspected abuse/neglect/exploitation, egregious violation of rights including seclusion/restraint, violations of Final Rule requirements regarding modifications to HCBS settings, etc., mistreatment of a person and/or denial of services. Level III grievances require DMH inquiry to support or disprove the grievance. For both Level III self-reported incidents and grievances DMH inquiry includes requests for information related to the grievance and can also include an on-site visit to obtain information and/or interview staff.

An inquiry into self-reported incidents or those reported through the grievance/complaint system is conducted within thirty (30) days. DMH inquiry includes requests for information related to the event and can also include an on-site visit to obtain information and/or interview staff. DMH Operational Standards require certified providers to participate with this process. Based on the submission of requested information or the conclusion of an on-site visit, should corrective action be required, DMH issues a report of findings based on the incident. That report of findings must be addressed by the provider within thirty (30) days. All grievances must be resolved within 30 days of receipt. The person filing the grievance is provided notification from the Director of the Office of Consumer Support of the activities performed in order to reach the resolution of the grievance.
e. **Responsibility for Oversight of Critical Incidents and Events.** Identify the State agency (or agencies) responsible for overseeing the reporting of and response to critical incidents or events that affect waiver participants, how this oversight is conducted, and how frequently.

DMH is responsible for overseeing the reporting and follow up to serious incidents that affect people enrolled in the waiver. Oversight is conducted on an ongoing basis through the process outlined in b-d above. As the operating agency for the waiver, DMH provides the State quarterly summary reports regarding serious incidents related to people enrolled. The State will review the report summary and analyze on an individual basis to determine if the appropriate plan of action was taken. This information will be used to develop quality improvement measures to address any issues identified.

All DMH Certified Providers are required to report critical incidents as outlined in Chapter 15 of the DMH Operational Standards. Providers should report any incident they feel is important, even if it is not mentioned in the standards. Incidents must be reported in writing within 24 hours of the incident. Death of an individual must be reported verbally to the DMH Office of Consumer Support Incident Management within eight (8) hours to be followed by a written report within 24 hours. Providers may report these incidents via email, fax, or in a few cases traditional hard copy mail, although fax or email is preferred.

The DMH Director of Incident Management and the Director of the Bureau of Intellectual and Developmental Disabilities Bureau Chief for the ID/DD waiver review all incidents as they are received. If additional information is needed, a request to the provider is made via phone or email, or in some cases an onsite investigation is scheduled. In cases of abuse, neglect and/or exploitation, DMH reports to the Attorney General and Department of Health. Following investigative finding, these are given to DMH’s division of Certification who will issue an official request for any plans of compliance (POCs) needed. Any other action that is necessary, such as suspension of a certification also comes from the Division of Certification.

All data from the report is entered into an Access Database and the electronic files are attached to the entry for each incident. Data elements include a narrative summary and disposition of the incident, date of incident, provider, place of the incident, service(s) being provided, person(s) involved, event category, status, triage level, disposition, agencies reported to, and any additional comments. This data can be searched or filtered by any one of the elements or by any combination of the elements and can be compared to previous time periods to identify trends. Reports are run quarterly, or as needed, based on any desired combination of data elements. Identified trends are then communicated to the providers and DMH works with providers to develop improvement strategies to prevent future occurrences of the same type of incident(s).

### Appendix G: Participant Safeguards

**Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (1 of 3)**

**a. Use of Restraints.** *(Select one): For waiver actions submitted before March 2014, responses in Appendix G-2-a will display information for both restraints and seclusion. For most waiver actions submitted after March 2014, responses regarding seclusion appear in Appendix G-2-c.)*

- **The State does not permit or prohibits the use of restraints**

  Specify the State agency (or agencies) responsible for detecting the unauthorized use of restraints and how this oversight is conducted and its frequency:

  State does not permit the use of restraints in the ID/DD waiver. DMH is responsible for detecting unauthorized use of restraints. The unauthorized use of restraints is detected through Serious Incident Reporting, the Complaints/Grievances Process, and on-site visits. The Department of Mental Health conducts on-site visits to all providers annually. Providers are required to report the unauthorized use of restraints as a Serious Incident. If restraints were used in an unauthorized manner, the provider is required submit a Plan of Compliance to verify what processes and training are in place to ensure no future occurrences.

- **The use of restraints is permitted during the course of the delivery of waiver services.** Complete Items G-2-a-i and G-2-a-ii.

  **i. Safeguards Concerning the Use of Restraints.** Specify the safeguards that the State has established concerning the use of each type of restraint (i.e., personal restraints, drugs used as restraints, mechanical...
restraints). State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

  Specify the State agency (or agencies) responsible for detecting the unauthorized use of restrictive interventions and how this oversight is conducted and its frequency:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
</table>

- **The use of restrictive interventions is permitted during the course of the delivery of waiver services** Complete Items G-2-b-i and G-2-b-ii.

**i. Safeguards Concerning the Use of Restrictive Interventions.** Specify the safeguards that the State has in effect concerning the use of interventions that restrict participant movement, participant access to other individuals, locations or activities, restrict participant rights or employ aversive methods (not including restraints or seclusion) to modify behavior. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency.

Mechanical restraints, time out and seclusion are not allowed in community-based programs. Physical restraints are used within the guidelines established in the Mandt System®. All staff that may use physical restraints will be trained in the Mandt System®. The Mandt System® offers graded alternatives from least restrictive to most restrictive (philosophy and attitude, non-verbal communication, verbal communication, walking with/accompanying, supporting, avoiding, redirecting, releasing, physical touching. De-escalation strategies such as health relationships, non-use of uniforms, use of non-scented shampoos, deodorants, etc. for all staff, minimizing the number of people interacting with the individual served, especially if they are escalating, having only one staff working with them and another close by, keep movements slow with hands open and relaxed, being aware of any trauma in the individual’s past and avoiding situations which may elicit responses to those memories, active listening, and other techniques as indicated by individual need and as described in the Mandt System®.

Providers are prohibited from the use of chemical restraints. A chemical restraint is a medication used to control behavior or to restrict the individual’s freedom of movement and is not standard treatment of the individual’s medical or psychiatric condition.

Providers must ensure that all staff who may utilize physical restraint/escort successfully complete training and hold Mandt certification.

Providers utilizing physical restraint(s)/escort must establish, implement, and comply with written policies and procedures specifying appropriate use of physical restraint/escort. The policy/procedure must include, at a minimum:

1. Clear definition(s) of physical restraint(s)/escort and the appropriate conditions and documentation
associated with their use. The definitions must state, at a minimum:

(a) A physical restraint is personal restriction that immobilizes or reduces the ability of an individual to move his or her arms, legs, or head freely. Such term does not include a physical escort.

(b) A physical escort is the temporary holding of the hand, wrist, arm, shoulder, or back for the purpose of inducing an individual who is acting out to walk to a safe location.

In emergency situations physical restraint(s)/escort may be utilized only when it is determined crucial to protect the individual from injuring himself/herself or others. An emergency is defined as a situation where the individual’s behavior is violent or aggressive and where the behavior presents an immediate and serious danger to the safety of the individual being served, other individuals served by the program, or staff.

Physical restraints/escort are implemented in the least restrictive manner possible. Physical restraints/escort are in accordance with safe, appropriate restraining techniques as taught in the Mandt System®. Physical restraints/escort are ended at the earliest possible time (i.e. when the person’s behavior has de-escalated and that individual is no longer in danger of harming him/herself or others). Physical restraints/escort is not used as a form or punishment, coercion or staff convenience. Supine and prone restraints are prohibited.

Through DMH Operational Standards, safeguards are in place concerning the use of restrictive interventions. Safeguards include protection of the rights of individuals and protocols for the development of Behavior Support/Crisis Intervention Plans that do not incorporate aversive methods. A Behavior Support/Crisis Intervention Plan must be developed by the individual’s team providing Behavior Support or Crisis Intervention Services. Behavior Support or Crisis Intervention services when these techniques are implemented more than three (3) times within a thirty (30) day period with the same individual. The Behavior Support/Crisis Intervention Plan must address the behaviors warranting the continued utilization of physical restraint(s)/escort procedure in emergency situations. The Behavior Support/Crisis Intervention Plan must be developed with the signature of the program’s director.

For all staff working with individuals receiving services in all day programs and in all residential community living programs, training and certification in a nationally recognized and DMH approved technique for managing aggressive or risk-to-self behaviors to include verbal and physical de-escalation is required.

First use of non-aversive methods;

a. De-escalation techniques, touch (ask permission to touch, touch only when necessary, know how to touch, know where to touch, relax and slowly touch), assisting, (stance and balance, body mechanics, body positioning) and re-direction.

b. Methods to detect unauthorized use of restrictive interventions;
The unapproved use of restrictive interventions is monitored through the reporting of serious incidents and grievances and the DMH on-site monitoring process. Additionally, Support Coordinators speak with each individual/legal representative at least two times per month and have quarterly face-to-face contact in which the unauthorized use of restrictive interventions can be detected and reported.

c. Required documentation for each use of restrictive interventions; and a Behavior Management Log is maintained in the individual’s case record. The log must include:
   i. Name of the individual for whom the physical restraint/escort intervention was implemented
   ii. Time that the physical restraint(s)/escort intervention began
   iii. Behavior warranting utilization of physical restraint/escort intervention
   iv. Type of physical restraint/escort utilized during the intervention
   v. Documentation that less restrictive alternative methods of managing behavior which have been determined to be ineffective in the management of the individual’s behavior
   vi. Documentation of visual observation by staff of individual while he/she is in a physical restraint/escort, including description of behavior at that time
   vii. Time the physical restraint/escort intervention ended
   viii. Signature of staff implementing physical restraint/escort intervention and staff observing individual for whom physical restraint/escort intervention was implemented
   ix. Documentation of supervisory or senior staff member’s assessment of the restrained/escorted individual’s mental and physical well being during and after the physical restraint/escort utilization, including the time the assessment was
conducted
x. Documentation of the use of physical restraint/escort
d. Required education and training of personnel involved in authorization and
administration of restrictive interventions.

Staff must be certified in the Mandt System® before providing Behavior Support Intervention or Crisis
Intervention Services. Staff with at least a Master’s degree in a field related to individuals with intellectual
and developmental disabilities and experience providing behavior services oversee the administration of any
restrictive interventions.

ii. State Oversight Responsibility. Specify the State agency (or agencies) responsible for monitoring and
overseeing the use of restrictive interventions and how this oversight is conducted and its frequency:

BIDD, Office of Incident Management and Division of Certification staff are responsible for analyzing data
to identify trends and patterns and support improvement strategies.

At the state level, data are collected directly from the standardized data elements that are contained in
DMH’s serious incident reporting form. Each data element is recorded into the serious incident tracking
database by DMH’s Office of Incident Management and a scanned copy of the reported incident is attached
in that database to create a historical record. Serious incidents are reviewed to ensure that the cause of the
reported incident has been identified or is being determined. Serious incident data is reviewed before on-
site visits. At the provider level, each provider is required to have a Quality Management Committee that
reviews and analyzes their reported serious incidents. During on-site monitoring, BIDD and Division of
Certification staff review this process to ensure analysis is taking place and strategies to prevent re-
occurrence are being put in place.

All reported serious incidents are reviewed and categorized upon receipt. Reported Serious Incidents
categorized as a Level III are reported upon receipt to the Deputy Director of the DMH and the Director of
the Bureau of Intellectual/Developmental Disabilities by the Incident Review Coordinator and an inquiry is
initiated. Data analysis is conducted on an ongoing basis by the Incident Review Coordinator. Additionally,
DMH oversight activities related to providers also occur on an ongoing basis and provider monitoring
occurs throughout the year.

DMH will use individual interviews with people receiving services as well as with staff at individual
program sites. Documentation reviews take place during on-site provider visits to determine the presence of
information indicating the use of restrictive interventions. This type of information is often discovered at
PSS meetings. If it is discovered during a PSS meeting, or any other contact with the person, the Support
Coordinator is responsible for reporting this to the Office of Incident Management. If unauthorized use,
overuse, or inappropriate/ineffective use of restricted interventions is found, an investigation will be
conducted and appropriate citations issues to the provider who violated the policies.

Providers will at least be required to re-train staff in positive behavior support and de-escalation methods.
Other consequences, such as de-certification, can occur depending on the circumstances.

The State will provide oversight through the On-Site Compliance Review process and review of quarterly
reports submitted by DMH. The State will gather information concerning potentially harmful practices and
will use the information to develop quality improvement measures to address the issue.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (3 of 3)

c. Use of Seclusion. (Select one): (This section will be blank for waivers submitted before Appendix G-2-c was added to
WMS in March 2014, and responses for seclusion will display in Appendix G-2-a combined with information on
restraints.)

- The State does not permit or prohibits the use of seclusion

Specify the State agency (or agencies) responsible for detecting the unauthorized use of seclusion and how this
oversight is conducted and its frequency:
Providers are prohibited from the use of seclusion in ID/DD Waiver programs. The DMH, through on-site monitoring and Serious Incident Reporting, tracks whether seclusion is used.

- **The use of seclusion is permitted during the course of the delivery of waiver services.** Complete Items G-2-c-i and G-2-c-ii.

  i. **Safeguards Concerning the Use of Seclusion.** Specify the safeguards that the State has established concerning the use of each type of seclusion. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

  ii. **State Oversight Responsibility.** Specify the State agency (or agencies) responsible for overseeing the use of seclusion and ensuring that State safeguards concerning their use are followed and how such oversight is conducted and its frequency:

**Appendix G: Participant Safeguards**

**Appendix G-3: Medication Management and Administration (1 of 2)**

This Appendix must be completed when waiver services are furnished to participants who are served in licensed or unlicensed living arrangements where a provider has round-the-clock responsibility for the health and welfare of residents. The Appendix does not need to be completed when waiver participants are served exclusively in their own personal residences or in the home of a family member.

a. **Applicability.** Select one:

- **No. This Appendix is not applicable (do not complete the remaining items)**
- **Yes. This Appendix applies (complete the remaining items)**

b. **Medication Management and Follow-Up**

i. **Responsibility.** Specify the entity (or entities) that have ongoing responsibility for monitoring participant medication regimens, the methods for conducting monitoring, and the frequency of monitoring.

   The State is responsible for oversight of medication management and conducts annual on-site compliance reviews to monitor medication administration. The medical responsibility for people enrolled in Supervised Living is vested in a licensed physician. Each Supervised Living, Supported Living, and Shared Supported Living provider must employ appropriately trained or professionally qualified staff to administer medications if a person requiring medication cannot administer to him or herself. All waiver service providers employing staff who administer medications to people receiving services have daily and ongoing responsibility for medication monitoring to ensure that medications are correctly administered and that medication administration is appropriately documented in accordance with State requirements. Providers must have written policies and procedures for medication administration and implementation of such policies is evaluated during annual on-site compliance reviews.

First line responsibility for monitoring a person's medication regimen resides with the medical professionals who prescribe the medication(s). Second line monitoring is provided by the staff in the Supervised Living, Supported Living or Shared Supported Living setting. Staff monitoring focuses on areas identified by the physician and/or pharmacist which may be of concern. If a person is using a behavior modifying medication (psychotropic medication), the State program nurse will determine whether (1) there is documentation of voluntary, informed consent for the use of the medication; and (2) the person or his/her family member or guardian/conservator was provided information about the risks and benefits of the medication. Staff observations regarding the behavior which the medication has been prescribed to reduce are reported to the provider. Each waiver provider must have policies and procedures that identify the frequency of monitoring. People receiving services have a choice of physicians and pharmacies, but are encouraged to be consistent in their use of these professionals in order to ensure continuity of care and to prevent the possibility of a physician unknowingly prescribing a medication which may be contraindicated with another medication prescribed.
Additionally, the State makes available a provider portal called Provider Access so that prescribing physicians and other providers can view the medical and pharmacy histories of Medicaid beneficiaries.

After each doctor’s visit, and with the individual’s consent, Supervised Living, Supported Living, Shared Supported Living an Host Home staff document the reason for the visit, the physician’s instructions, including monitoring for any potential unwanted side effects of prescribed medication(s). Documentation regarding visits to physicians is reviewed by all staff and the review is documented via their initials on the form.

All treatment shall be provided by, or provided under the direction or supervision, of professionally qualified staff. Medication is reviewed by appropriately qualified staff. Appropriately qualified staff includes physicians, physician assistants, and advanced registered nurse practitioners acting with the scope of their professional licensure.

The State specifies the treating physician shall perform any physiological testing or other evaluation(s) necessary to monitor the person for adverse reactions, or other health related issues which might arise in conjunction with taking medication, including prescribed psychotropic medications.

ii. Methods of State Oversight and Follow-Up. Describe: (a) the method(s) that the State uses to ensure that participant medications are managed appropriately, including: (a) the identification of potentially harmful practices (e.g., the concurrent use of contraindicated medications); (b) the method(s) for following up on potentially harmful practices; and, (c) the State agency (or agencies) that is responsible for follow-up and oversight.

The State specifies the treating physician shall perform any physiological testing or other evaluation(s) necessary to monitor the individual for adverse reactions or other health related issues which might arise in conjunction with taking medication, including prescribed psychotropic medications.

The State is responsible for oversight of medication management and employs a licensed nurse who makes annual reviews of Supervised Living, Supported Living and Shared Supported Living providers to ensure they are following required procedures regarding the medication regimen of people who require such. During annual on-site compliance reviews, the State reviews the person's Medication Administration Record (MAR) to identify potentially harmful practices and to ensure compliance with documentation requirements. During annual on-site compliance reviews, the program nurse reviews a sample of service recipient Medication Administration Records to identify potentially harmful practices and to ensure compliance with medication administration documentation requirements. Medication error reports are also reviewed. Provider medication management policies and practices are reviewed to ensure that:

- The Medication Administration Record correctly lists all medications taken by each person;
- The Medication Administration Record is updated, signed, and maintained in compliance with the State medication administration documentation requirements;
- All medications are administered in accordance with physician’s orders;
- Medications are administered by appropriately trained staff;
- Medications are kept separated for each person and are stored safely, securely, and under appropriate environmental conditions.

Providers are required to complete a reportable incident form for medication errors. If the medication error caused, or is likely to cause, harm, the provider must submit a copy of the Reportable Incident Form to the State. The State's program nurse receives and reviews the reportable incident forms for completeness and determination of the nature of the incident and monitors for medication error trends utilizing data from the Incident and Investigations database. Personal Records are reviewed to ensure that staff who administers medications are appropriately licensed. When the on-site compliance review team identifies potentially harmful medication administration/management practices, the team notifies the provider during the review, and then reviews such issues during the exit conference at the end of the review. In addition, the provider is notified in writing of any problems identified during the review. Any ID/ DD Waiver provider receiving a rating of Review, Probation or Suspension must submit a Corrective Action Plan (CAP). The CAP must be received by the State no later than ten (10) working days following the ID/ DD Waiver provider’s receipt of its status ruling.

Provider agencies are responsible for identifying medication error trends and reporting those trends to the State. The provider must submit a CAP to the State for review by the State's program nurse within ten (10) working
days of identification of a medication error trend. The State's program nurse will review the CAP and either approve or disapprove. Disapproval of the CAP will require the provider to revise their CAP and resubmit within ten (10) days of receipt of notification of disapproval. An approved CAP should be implemented immediately or within thirty days (30) of approval. The State will gather information concerning potentially harmful practices and will use the information to develop quality improvement measures to address the issue.

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (2 of 2)

c. Medication Administration by Waiver Providers

i. Provider Administration of Medications. Select one:

- Not applicable. (do not complete the remaining items)

Waiver providers are responsible for the administration of medications to waiver participants who cannot self-administer and/or have responsibility to oversee participant self-administration of medications. (complete the remaining items)

ii. State Policy. Summarize the State policies that apply to the administration of medications by waiver providers or waiver provider responsibilities when participants self-administer medications, including (if applicable) policies concerning medication administration by non-medical waiver provider personnel. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

DMH requires that the administration of all prescription drugs must be directed and supervised by a licensed physician or licensed nurse in accordance with the MS Nursing Practice Law. Practices for the self-administration of medication by people receiving services are developed in consultation with the medical staff of the provider or the person's treating medical provider(s). Non-medical waiver providers cannot administer or oversee the administration of medications.

iii. Medication Error Reporting. Select one of the following:

- Providers that are responsible for medication administration are required to both record and report medication errors to a State agency (or agencies).

  Complete the following three items:

  (a) Specify State agency (or agencies) to which errors are reported:

  DMH Office of Incident Management, the State, and appropriate licensure boards

  (b) Specify the types of medication errors that providers are required to record:

  Physician error, Pharmacy error, unavailable medications, meds given at the wrong time, incorrect dosages, missed dosages, incorrect route, meds given to wrong person

  (c) Specify the types of medication errors that providers must report to the State:

  Medications given to wrong person, overdoses, missing medications

- Providers responsible for medication administration are required to record medication errors but make information about medication errors available only when requested by the State.

Specify the types of medication errors that providers are required to record:

iv. State Oversight Responsibility. Specify the State agency (or agencies) responsible for monitoring the performance of waiver providers in the administration of medications to waiver participants and how monitoring is performed and its frequency.
The State identifies trends and patterns through annual data analysis. Additional data is acquired during annual On-Site Compliance Reviews (OSCRs) conducted by the State through review of medical records, physician orders, Medication Administration Records (MARs), medication error reports, and reportable incident forms. The program nurse will review medication storage, documentation in medication records, and staff qualifications. A sample of nursing staff must demonstrate competence by correctly answering oral interview questions regarding medications and the administration procedures. The program nurse will also observe the facility nurse as he/she administers medication to at least one person. When the OSCR team identifies potentially harmful medication administration/management practices, the team notifies the provider during the OSCR, and then discusses these issues during the exit conference at the end of the OSCR. In addition, the provider is notified in writing of any problems identified during the OSCR. Any ID/DD Waiver provider receiving a citation for administration of medications must submit a Corrective Action Plan (CAP). The CAP must be received by the State no later than ten (10) working days following the ID/DD Waiver provider’s receipt of its status ruling. The CAP must detail how the provider will develop and revise strategies to improve services including time frame for implementing these strategies.

Appendix G: Participant Safeguards

Quality Improvement: Health and Welfare

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

The state demonstrates it has designed and implemented an effective system for assuring waiver participant health and welfare. (For waiver actions submitted before June 1, 2014, this assurance read "The State, on an ongoing basis, identifies, addresses, and seeks to prevent the occurrence of abuse, neglect and exploitation.")

i. Sub-Assurances:

a. Sub-assurance: The state demonstrates on an ongoing basis that it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexplained death. (Performance measures in this sub-assurance include all Appendix G performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
HW a.i.a(1) Number and percent of participants whose records document informing about Individual Rights which include the right to be free from abuse, neglect and exploitation N: Number and percent of people whose records document receipt of Individual Rights, which include the right to be free from abuse, neglect and exploitation D: Number of records reviewed

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems
   i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.
   Individual problems related to the health and welfare of people enrolled in the waiver are discovered through several mechanisms – Support Coordinators identify concerns through ongoing contact, DMH review of records, serious incidents, and grievances. The method of addressing the problems is dependent upon the discovery mechanism. As individual problems are identified by Support Coordinators, Support Coordinators work with the person/legal guardian and/or provider to modify the Plan of Services and Supports to ensure health and welfare concerns are addressed in a timely manner. Individual problems identified through DMH review of records, serious incidents and/or grievances, are subject to the DMH process of requiring a provider to develop plans that must be approved by DMH. The maximum length of time for the submission of a corrective action plan is 30 days, which may be altered by DMH given the nature and severity of the concern. Plans must address each problem, how each problem was remediated and the provider agency’s plan for continued compliance with the DMH Operational Standards along with timelines for each remedial activity. DMH’s Review Committee reviews and approves or disapproves all Plans. In order to ensure remedial activities have been completed, DMH requires the submission of evidence of corrective action and/or follows up with an on-site visit to ensure compliance. DMH does provide technical assistance provider agencies to assist them with developing an acceptable Plan. Should a Plan not be acceptable or implemented as approved, DMH may exercise its authority to suspend or terminate a provider agency’s DMH certification.

ii. Remediation Data Aggregation
   Remediation-related Data Aggregation and Analysis (including trend identification)

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Health and Welfare that are currently non-operational.

☐ No
☐ Yes

Please provide a detailed strategy for assuring Health and Welfare, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix H: Quality Improvement Strategy (1 of 2)

Under §1915(c) of the Social Security Act and 42 CFR §441.302, the approval of an HCBS waiver requires that CMS determine that the State has made satisfactory assurances concerning the protection of participant health and welfare, financial accountability and other elements of waiver operations. Renewal of an existing waiver is contingent upon review by CMS and a finding by CMS that the assurances have been met. By completing the HCBS waiver application, the State specifies how it has designed the waiver’s critical processes, structures and operational features in order to meet these assurances.

- Quality Improvement is a critical operational feature that an organization employs to continually determine whether it operates in accordance with the approved design of its program, meets statutory and regulatory assurances and requirements, achieves desired outcomes, and identifies opportunities for improvement.

CMS recognizes that a state’s waiver Quality Improvement Strategy may vary depending on the nature of the waiver target population, the services offered, and the waiver’s relationship to other public programs, and will extend beyond regulatory requirements. However, for the purpose of this application, the State is expected to have, at the minimum, systems in place to measure and improve its own performance in meeting six specific waiver assurances and requirements.

It may be more efficient and effective for a Quality Improvement Strategy to span multiple waivers and other long-term care services. CMS recognizes the value of this approach and will ask the state to identify other waiver programs and long-term care services that are addressed in the Quality Improvement Strategy.

Quality Improvement Strategy: Minimum Components

The Quality Improvement Strategy that will be in effect during the period of the approved waiver is described throughout the waiver in the appendices corresponding to the statutory assurances and sub-assurances. Other documents cited must be available to CMS upon request through the Medicaid agency or the operating agency (if appropriate).

In the QIS discovery and remediation sections throughout the application (located in Appendices A, B, C, D, G, and I), a state spells out:

- The evidence based discovery activities that will be conducted for each of the six major waiver assurances;
- The remediation activities followed to correct individual problems identified in the implementation of each of the assurances;

In Appendix H of the application, a State describes (1) the system improvement activities followed in response to aggregated, analyzed discovery and remediation information collected on each of the assurances; (2) the correspondent roles/responsibilities of those conducting assessing and prioritizing improving system corrections and improvements; and (3) the processes the state will follow to continuously assess the effectiveness of the OIS and revise it as necessary and appropriate.

If the State's Quality Improvement Strategy is not fully developed at the time the waiver application is submitted, the state may provide a work plan to fully develop its Quality Improvement Strategy, including the specific tasks the State plans to undertake during the period the waiver is in effect, the major milestones associated with these tasks, and the entity (or entities) responsible for the completion of these tasks.

When the Quality Improvement Strategy spans more than one waiver and/or other types of long-term care services under the Medicaid State plan, specify the control numbers for the other waiver programs and/or identify the other long-term services that are addressed in the Quality Improvement Strategy. In instances when the QIS spans more than one waiver, the State must be able to stratify information that is related to each approved waiver program. Unless the State has requested and received approval from CMS for the consolidation of multiple waivers for the purpose of reporting, then the State must stratify information that is related to each approved waiver program, i.e., employ a representative sample for each waiver.
Appendix H: Quality Improvement Strategy (2 of 2)

H-1: Systems Improvement

a. System Improvements

i. Describe the process(es) for trending, prioritizing, and implementing system improvements (i.e., design changes) prompted as a result of an analysis of discovery and remediation information.

Mississippi has systems in place to measure and improve performance in meeting the six specific waiver assurances. Continuous quality improvement is based on the processes of discovery and remediation and the aggregated data produced by those activities. Quality improvement takes place on individual, provider and system-wide levels.

Quality improvement at the individual level is focused on monitoring and improving supports and outcomes for the person. The person’s Support Coordinator is primarily responsible for quality improvement at the individual level. Individual level discovery takes place through the monthly and quarterly contacts that a Support Coordinator makes with the person, legal guardian (if applicable) and his/her providers. When a Support Coordinator discovers an issue related to the person’s Plan of Services and Supports, he/she is responsible for addressing the problem with the provider and developing remedial actions to address the issue. If a provider is not responsive to individual level remediation, a Support Coordinator is responsible for reporting the issue to BIDD.

In addition to individual level discovery and remediation that occurs as a responsibility of Support Coordinators, DMH is also responsible for discovery related to Support Coordination activities. Through BIDD’s record review system (LTSS), issues with Support Coordination are identified for remediation. These issues include, but are not limited to, follow up regarding accessing community resources, identification of additional needs, etc. Individual level discovery and remediation also occurs through DMH’s serious incident reporting/tracking processes and grievance process. Data from the results of monitoring Support Coordinators, serious incidents, and grievances is available on an individual, provider or system level basis dependent upon the format needed for remediation and quality improvement.

Quality improvement at the provider level is focused on monitoring and improving services delivered by providers. DMH’s Division of Certification is responsible for coordinating the development of provider standards and monitoring. All providers are certified for a three year period. During that three year period, on-site monitoring takes place to ensure compliance with DMH Operational Standards. As issues are identified through on-site monitoring, providers are required to submit Plans of Compliance for DMH approval. Additionally, all providers are required to have Quality Management Committees that are responsible for analysis of serious incidents, analysis of data at the individual level and oversight for the development and implementation of DMH required Plans of Compliance. Provider level data is collected through on-site monitoring, reporting of serious incidents, and reporting of grievances.

Quality improvement at the systemic level is designed to improve the overall system’s delivery of services and supports. System level discovery incorporates data from multiple sources to develop a comprehensive view of service provision. Data from the discovery processes at the individual and provider levels is utilized for system level quality improvement activities.

As part of its administrative oversight, the State conducts On-Site Compliance Reviews (OSCRs). The OSCR examines adherence to the six sub-assurances of the waiver. The State issues a report of findings that identifies issues found during the OSCR. Providers are required to submit a Corrective Action Plan with timelines for completion of remedial activities.

#### b. System Design Changes

i. Describe the process for monitoring and analyzing the effectiveness of system design changes. Include a description of the various roles and responsibilities involved in the processes for monitoring & assessing system design changes. If applicable, include the State's targeted standards for systems improvement.

Mississippi has systems in place to measure and improve performance in meeting the six specific waiver assurances. Continuous quality improvement is based on the processes of discovery and remediation and the aggregated data produced by those activities. Quality improvement takes place on the individual, provider and system wide levels.

Quality improvement at the individual level is focused on monitoring and improving supports and outcomes for the person. The person’s Support Coordinator is primarily responsible for quality improvement at the individual level. Individual level discovery takes place through the monthly and quarterly contacts that a Support Coordinator makes with the person and his/her providers. When a Support Coordinator discovers an issue related to the person’s Plan of Services and Supports, he/she is responsible for addressing the issue with the person’s provider and working together to ensure activities of the provider are sufficient to meet each person’s outcomes. If a Support Coordinator feels a provider is not meeting a person’s outcomes, after talking with them at least two (2) times, he/she can report the situation to BIDD staff who can then talk with the provider to achieve resolution.

In addition to individual level discovery and remediation that occurs as a responsibility of Support Coordinators, DMH is also responsible for discovery related to individual level remediation. BIDD’s monitoring of individual Support Coordination records in LTSS allows individual issues to be identified and remediated. These issues include, but are not limited to, follow up regarding accessing community resources, identification of additional needs, etc. Individual level discovery and remediation also occurs through DMH’s Serious Incident reporting/tracking processes and grievance process. Data from the results of provider monitoring, serious incidents, and grievances is available on an individual, provider or system level basis dependent upon the format needed for remediation and quality improvement.

Quality improvement at the provider level is focused on monitoring and improving services delivered by providers. DMH’s Division of Certification is responsible for coordinating the development of provider standards and monitoring. All providers are certified for a three year period. During that three year period, on-site monitoring takes place to ensure compliance with DMH Operational Standards and Record Guide.

As providers seek DMH certification for additional services and/or service sites, DMH also conducts on-site monitoring to ensure compliance with DMH Operational Standards and Record Guide before service provision.

As issues are identified through on-site monitoring, providers are required to submit Plans of Compliance for DMH approval. Additionally, all providers are required to have Quality Management Committees that are responsible for written analysis of serious incidents, analysis of individual level data, and oversight for the development and implementation of DMH required Plans of Compliance.

Provider level data is collected through the discovery processes of on-site/record monitoring, reporting of serious incidents, and reporting of grievances.

Quality improvement at the systemic level is designed to improve the overall system’s delivery of supports and services. System level discovery incorporates data from multiple sources to develop a comprehensive view of service provision. Data from the discovery processes at the individual and provider levels is utilized for system level quality improvement activities.
As part of the administrative oversight, the State conducts On-Site Compliance Reviews (OSCR). The OSCR examines adherence to the six sub-assurances of the waiver. The State issues a report of findings that identifies issues found during the OSCR. Through regular meetings between DMH and the State, the two agencies share decision making concerning corrective action.

ii. Describe the process to periodically evaluate, as appropriate, the Quality Improvement Strategy.

The quality improvement strategy is continuously evaluated to ensure the strategy is accomplishing the intended goal of improving outcomes for people receiving waiver services.

Appendix I: Financial Accountability

I-1: Financial Integrity and Accountability

**Financial Integrity.** Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The State maintains responsibility for ensuring financial audits of ID/DD Waiver providers are conducted. The State operates two audit units to assure provider integrity and proper payment for services rendered. The Office of Program Integrity investigates any suspicion of fraud or abuse reported or identified through the surveillance and utilization reporting (SURS) program. The Office of Financial and Performance Review conducts on-site annual post payment audits on 100% of waiver providers each State Fiscal Year (July 1- June 30) to ensure that staff providing claimed services are qualified, that services were provided to eligible individuals, and that those services were provided in accordance with the frequencies, amounts, and duration on the approved Plan of Services and Supports. Claims are sampled as required by the waiver application. A 95% confidence level random sample is selected from the universe of claims paid for the period utilizing a sample calculator such as Rat Stat. The universe is randomized with a random number generator and the appropriate number of claims is sampled. If anomalies are noted in the sample, such as claims with overlapping dates of service, additional claims may be selected for review.

With the implementation of the Long Term Services and Supports (LTSS) system audits may be completed through both on-site and desk review. Payments are also monitored through monthly reports by the State's Office of Mental Health Programs. In addition, these waiver services like all services are subject to investigation by Program Integrity. Generally, providers who fall outside the expected parameters for payments are subject to review. It is also possible to set up filters specifically for the waiver programs to identify areas of misuse.

MMIS edits are in place to ensure that ID/DD waiver claims are submitted only by enrolled Medicaid providers with active provider numbers. Additional systems edits are in place to ensure that claims are paid only for beneficiaries with required lock-in spans documenting eligibility. The state has implemented electronic visit verification for the ID/DD waiver for Home and Community Supports, In-Home Nursing Respite, and In-Home Respite service which will check provider claims against the participant’s eligibility, approved Plan of Services and Supports and credentials prior to the submission of claims to ensure that providers are eligible and qualified to provide services, that those services were prior approved by the Department of Mental Health, Bureau of Intellectual and Developmental Disabilities, and that the participant is an eligible Medicaid recipient.

The operating agency is required to ensure that all ID/DD waiver providers meet the qualifications as defined in the waiver application. Post-payment audits are conducted by the Office of Financial and Performance Review to ensure that staff providing claimed services were qualified, that services were provided to eligible individuals, and that those services were provided in accordance with the frequencies, amounts, and duration on the approved Plan of Services and Supports.

Claims for Federal Financial Participation in the costs of waiver services are based on state payment for waiver services that have been rendered to individuals enrolled in the waiver, authorized in the Plan of Services and Supports, and properly billed by certified waiver providers in accordance with the approved waiver. Any inappropriate billings will be removed from the state’s claim for Federal Financial Participation. If the inappropriately billed claims are recouped, the amount will be deducted from the Federal Financial Participation request during the next weekly payment cycle. If a check is sent to DOM by the provider, DOM will offset the Federal Participation request by the proper amount during the next weekly payment cycle. In addition, if the inappropriate billing is identified by Program Integrity efforts, the recovery will be
reported on CMS-64 report on the 64.9C1 schedule.

Providers are not required to secure an independent audit of their financial statements.

The Mississippi Office of the State Auditor is responsible for annual audits in compliance with the provisions of the Single Audit Act. Additionally, every three (3) years an additional audit is completed by the Joint Legislative Committee on Performance Evaluation and Expenditure Review (PEER).

Appendix I: Financial Accountability

Quality Improvement: Financial Accountability

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

a. Methods for Discovery: Financial Accountability Assurance:

*The State must demonstrate that it has designed and implemented an adequate system for ensuring financial accountability of the waiver program.* (For waiver actions submitted before June 1, 2014, this assurance read “State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver.”)

i. Sub-Assurances:

a. Sub-assurance: The State provides evidence that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver and only for services rendered.

(Performance measures in this sub-assurance include all Appendix I performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

FA a.i.a (1) Number and percent of providers submitting accurate claims for services authorized by the waiver N: Number and percent of accurate claims submitted by providers for services authorized in the waiver D: Number of claims paid

Data Source (Select one):

Other

If 'Other' is selected, specify:

c. Timelines
   When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Financial Accountability that are currently non-operational.
   ☑ No
   ☐ Yes
   Please provide a detailed strategy for assuring Financial Accountability, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix I: Financial Accountability
I-2: Rates, Billing and Claims (1 of 3)

a. Rate Determination Methods. In two pages or less, describe the methods that are employed to establish provider payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).

Both DMH and the State are responsible for rate setting and oversight.

The rate models were the same as the ones revised in October 2015 that were submitted in the ID/DD Waiver Amendment with an effective date of 5/1/17. Providers have indicated to DMH that the rates have improved their ability to provide more assistance to people receiving services, thus allowing them additional staff to adequately meet the Final Rule requirements for community access and choice.

Burns & Associates reviewed the rate models in the fall of 2017 and calculated what the rate would be using up-to-date information from published data sources for wages, benefits, and mileage costs and making minor methodological refinements. Burns & Associates found that, for nearly every service, the updated calculations were within plus-or-minus three percent of the current rate. Based upon these results, no changes were made to the October 2015 rates.

DMH engaged Burns & Associates, Inc., a national consultant experienced in developing provider reimbursement rates to establish independent rate models that are intended to reflect the costs that providers face in delivering a given service. Specific assumptions are made for each of the category of costs outlined below. These assumptions, however, are not prescriptive and providers have the flexibility within the total rate to design programs that meet people's needs consistent with service requirements and each person's individual support plan.

Both DMH and the State participated in the rate study conducted in 2014. The Memorandum of Understanding between the State and DMH states that rate adjustments can be made as agreed upon by DMH and the State.

The rate-setting process for each service included:

• Conducting a series of focus groups with providers for each category of services (for example, there was a series of groups for residential habilitation providers, for case management providers, etc.)
• Inviting all providers to complete a survey related to their service design and costs
• Identification of benchmark data, including Bureau of Labor Statistics cross-industry wage and benefit data as well as rates for comparable services in other CMS Region 4 states
• Development of rate models that include the specific assumptions related to the cost of delivering each service, including direct care worker wages, benefits, and ‘productivity’ (i.e., billable time); staffing ratios; mileage; facility expenses; and agency program support and administration
• Incorporating Inventory for Client and Agency Planning assessment data to create ‘tiered’ rates for residential and day habilitation services to recognize the need for more intensive staffing for individuals with more significant needs
• Emailing proposed rate models and supporting documentation, inviting the parties to submit comments, preparing written responses to all comments received, and revising the rates based on these comments

Rate models were developed for all waiver services with a few exceptions. Rates for Crisis Support and Nursing Respite were maintained at previous levels, based on an earlier rate study. Therapy services and medical supplies rates are aligned with the rates paid for those services in other Medicaid programs. Transition services are reimbursed based on actual costs.

The rates are the same for all providers. There are no variations based on provider type.

On February 5-6, 2014, the process for the proposed rate determination method was presented to providers of all services as well as advocacy organizations. Interested parties were given one month to submit comments to a dedicated email account. Department of Mental Health considered these comments and compiled a comprehensive document detailing responses. Comments were considered and appropriately incorporated in the rate methodology. The rates revised in 2017 will be available for public comment during the required 30-day comment period for the renewal.
To make waiver participants aware of reimbursement rates, waiver payment rates are available on the State’s website. Current rates are available at https://medicaid.ms.gov/providers/fee-schedules-and-rates/. The rates in the proposed waiver amendment were sent to all county Health Department offices, all IDD advocacy organizations, and all waiver providers. Additionally, when Support Budgets are implemented, participants will be made aware of rates by virtue of calculation of their Support Budget.

b. Flow of Billings. Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the State's claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

Provider billing flows directly from providers to the State's MMIS.

**Appendix I: Financial Accountability**

**I-2: Rates, Billing and Claims (2 of 3)**

c. Certifying Public Expenditures (*select one*):

- No. State or local government agencies do not certify expenditures for waiver services.
- Yes. State or local government agencies directly expend funds for part or all of the cost of waiver services and certify their State government expenditures (CPE) in lieu of billing that amount to Medicaid.

*Select at least one:*

- Certified Public Expenditures (CPE) of State Public Agencies.
  
  Specify: (a) the State government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). *(Indicate source of revenue for CPEs in Item I-4-a.)*

- Certified Public Expenditures (CPE) of Local Government Agencies.
  
  Specify: (a) the local government agencies that incur certified public expenditures for waiver services; (b) how it is assured that the CPE is based on total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). *(Indicate source of revenue for CPEs in Item I-4-b.)*

**Appendix I: Financial Accountability**

**I-2: Rates, Billing and Claims (3 of 3)**

d. Billing Validation Process. Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant's approved service plan; and, (c) the services were provided:

There are systems edits in the MMIS to prevent claims from paying when individuals are not eligible for Medicaid on the date of service. DMH staff will validate claims paid reports to verify services provided were included in the participant's Plan of Services and Supports, until such time that edits can be put in place for prior authorization to prevent claims from paying for services not included on the Plan of Services and Supports. DMH will review the Monthly Utilization Report with individuals/families to verify the services were provided according to the claims listed in the Utilization Report.
e. **Billing and Claims Record Maintenance Requirement.** Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR §92.42.

### Appendix I: Financial Accountability

#### I-3: Payment (1 of 7)

**a. Method of payments -- MMIS (select one):**

- **Payments for all waiver services are made through an approved Medicaid Management Information System (MMIS).**
- **Payments for some, but not all, waiver services are made through an approved MMIS.**

Specify: (a) the waiver services that are not paid through an approved MMIS; (b) the process for making such payments and the entity that processes payments; (c) and how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- **Payments for waiver services are not made through an approved MMIS.**

Specify: (a) the process by which payments are made and the entity that processes payments; (b) how and through which system(s) the payments are processed; (c) how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- **Payments for waiver services are made by a managed care entity or entities. The managed care entity is paid a monthly capitated payment per eligible enrollee through an approved MMIS.**

Describe how payments are made to the managed care entity or entities:

#### I-3: Payment (2 of 7)

**b. Direct payment.** In addition to providing that the Medicaid agency makes payments directly to providers of waiver services, payments for waiver services are made utilizing one or more of the following arrangements (select at least one):

- **The Medicaid agency makes payments directly and does not use a fiscal agent (comprehensive or limited) or a managed care entity or entities.**
- **The Medicaid agency pays providers through the same fiscal agent used for the rest of the Medicaid program.**
- **The Medicaid agency pays providers of some or all waiver services through the use of a limited fiscal agent.**

Specify the limited fiscal agent, the waiver services for which the limited fiscal agent performs in paying waiver claims, and the methods by which the Medicaid agency oversees the operations of the limited fiscal agent:

- **Providers are paid by a managed care entity or entities for services that are included in the State's contract with the entity.**
Specify how providers are paid for the services (if any) not included in the State's contract with managed care entities.

Appendix I: Financial Accountability

I-3: Payment (3 of 7)

c. **Supplemental or Enhanced Payments.** Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to States for expenditures for services under an approved State plan/waiver. Specify whether supplemental or enhanced payments are made. Select one:

- No. The State does not make supplemental or enhanced payments for waiver services.
- Yes. The State makes supplemental or enhanced payments for waiver services.

Describe: (a) the nature of the supplemental or enhanced payments that are made and the waiver services for which these payments are made; (b) the types of providers to which such payments are made; (c) the source of the non-Federal share of the supplemental or enhanced payment; and, (d) whether providers eligible to receive the supplemental or enhanced payment retain 100% of the total computable expenditure claimed by the State to CMS. Upon request, the State will furnish CMS with detailed information about the total amount of supplemental or enhanced payments to each provider type in the waiver.

Appendix I: Financial Accountability

I-3: Payment (4 of 7)

d. **Payments to State or Local Government Providers.** Specify whether State or local government providers receive payment for the provision of waiver services.

- No. State or local government providers do not receive payment for waiver services. Do not complete Item 1-3-e.
- Yes. State or local government providers receive payment for waiver services. Complete Item 1-3-e.

Specify the types of State or local government providers that receive payment for waiver services and the services that the State or local government providers furnish:

The IDD Regional Programs can provide waiver services through Nov 30, 2018. At that time, four (4) of the five (5) Regional Programs will no longer be approved to provide any waiver service except for Support Coordination. However one (1) Regional Program, Boswell Regional Center, will continue to provide waiver services. On July 1, 2017, all of the Support Coordination provided by Boswell Regional was transferred to Ellisville State School. Therefore, Boswell Regional Center no longer provide Support Coordination.

Community Mental Health Centers, enrolled as waiver providers, can provide any of the approved waiver services except for Support Coordination and specialized medical supplies (catheters, disposable briefs and under pads).

Appendix I: Financial Accountability

I-3: Payment (5 of 7)

e. **Amount of Payment to State or Local Government Providers.**

Specify whether any State or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed its reasonable costs of providing waiver services and, if so, whether and how the
State recoups the excess and returns the Federal share of the excess to CMS on the quarterly expenditure report. Select one:

- The amount paid to State or local government providers is the same as the amount paid to private providers of the same service.
- The amount paid to State or local government providers differs from the amount paid to private providers of the same service. No public provider receives payments that in the aggregate exceed its reasonable costs of providing waiver services.
- The amount paid to State or local government providers differs from the amount paid to private providers of the same service. When a State or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the State recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.

Describe the recoupment process:

Appendix I: Financial Accountability
I-3: Payment (6 of 7)

f. Provider Retention of Payments. Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by states for services under the approved waiver. Select one:

- Providers receive and retain 100 percent of the amount claimed to CMS for waiver services.
- Providers are paid by a managed care entity (or entities) that is paid a monthly capitated payment.

Specify whether the monthly capitated payment to managed care entities is reduced or returned in part to the State.

Appendix I: Financial Accountability
I-3: Payment (7 of 7)

g. Additional Payment Arrangements

i. Voluntary Reassignment of Payments to a Governmental Agency. Select one:

- No. The State does not provide that providers may voluntarily reassign their right to direct payments to a governmental agency.
- Yes. Providers may voluntarily reassign their right to direct payments to a governmental agency as provided in 42 CFR §447.10(e).

Specify the governmental agency (or agencies) to which reassignment may be made.

ii. Organized Health Care Delivery System. Select one:

- No. The State does not employ Organized Health Care Delivery System (OHCDS) arrangements under the provisions of 42 CFR §447.10.
Yes. The waiver provides for the use of Organized Health Care Delivery System arrangements under the provisions of 42 CFR §447.10.

Specify the following: (a) the entities that are designated as an OHCDS and how these entities qualify for designation as an OHCDS; (b) the procedures for direct provider enrollment when a provider does not voluntarily agree to contract with a designated OHCDS; (c) the method(s) for assuring that participants have free choice of qualified providers when an OHCDS arrangement is employed, including the selection of providers not affiliated with the OHCDS; (d) the method(s) for assuring that providers that furnish services under contract with an OHCDS meet applicable provider qualifications under the waiver; (e) how it is assured that OHCDS contracts with providers meet applicable requirements; and, (f) how financial accountability is assured when an OHCDS arrangement is used.

iii. Contracts with MCOs, PIHPs or PAHPs. Select one:

- The State does not contract with MCOs, PIHPs or PAHPs for the provision of waiver services.
- The State contracts with a Managed Care Organization(s) (MCOs) and/or prepaid inpatient health plan(s) (PIHP) or prepaid ambulatory health plan(s) (PAHP) under the provisions of §1915(a)(1) of the Act for the delivery of waiver and other services. Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the State Medicaid agency.

Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

- This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.

- This waiver is a part of a concurrent 1115/1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The 1115 waiver specifies the types of health plans that are used and how payments to these plans are made.

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (1 of 3)

a. State Level Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the State source or sources of the non-federal share of computable waiver costs. Select at least one:

- Appropriation of State Tax Revenues to the State Medicaid agency
- Appropriation of State Tax Revenues to a State Agency other than the Medicaid Agency.

If the source of the non-federal share is appropriations to another state agency (or agencies), specify: (a) the State entity or agency receiving appropriated funds and (b) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if the funds are directly expended by State agencies as CPEs, as indicated in Item I-2-c:

The Department of Mental Health receives an appropriation from State Tax Revenues, specifically on a line item for the non-federal matching funds required to operate the ID/DD Waiver program. The State bills the Department of Mental Health for the non-federal share of matching funds in advance of claims payments based on estimates.
from historical paid claims data. The Department of Mental Health remits these amounts to the State in the form of an intergovernmental transfer.

Other State Level Source(s) of Funds.

Specify: (a) the source and nature of funds; (b) the entity or agency that receives the funds; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by State agencies as CPEs, as indicated in Item I-2-c:

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (2 of 3)

b. Local Government or Other Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the source or sources of the non-federal share of computable waiver costs that are not from state sources. Select One:

- Not Applicable. There are no local government level sources of funds utilized as the non-federal share.
- Applicable
  Check each that applies:
  □ Appropriation of Local Government Revenues.

Specify: (a) the local government entity or entities that have the authority to levy taxes or other revenues; (b) the source(s) of revenue; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement (indicate any intervening entities in the transfer process), and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

□ Other Local Government Level Source(s) of Funds.

Specify: (a) the source of funds; (b) the local government entity or agency receiving funds; and, (c) the mechanism that is used to transfer the funds to the State Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (3 of 3)

c. Information Concerning Certain Sources of Funds. Indicate whether any of the funds listed in Items I-4-a or I-4-b that make up the non-federal share of computable waiver costs come from the following sources: (a) health care-related taxes or fees; (b) provider-related donations; and/or, (c) federal funds. Select one:

- None of the specified sources of funds contribute to the non-federal share of computable waiver costs
- The following source(s) are used
  Check each that applies:
  □ Health care-related taxes or fees
  □ Provider-related donations
  □ Federal funds

For each source of funds indicated above, describe the source of the funds in detail:
Appendix I: Financial Accountability

I-5: Exclusion of Medicaid Payment for Room and Board

a. Services Furnished in Residential Settings. Select one:

- No services under this waiver are furnished in residential settings other than the private residence of the individual.
- As specified in Appendix C, the State furnishes waiver services in residential settings other than the personal home of the individual.

b. Method for Excluding the Cost of Room and Board Furnished in Residential Settings. The following describes the methodology that the State uses to exclude Medicaid payment for room and board in residential settings:

The rate is set for the cost of supervision/support provided in order to maintain the individual in the residential setting, including transportation cost. The costs for room and board are not included in the calculations used to set rates of the services provided in a residential setting.

Appendix I: Financial Accountability

I-6: Payment for Rent and Food Expenses of an Unrelated Live-In Caregiver

Reimbursement for the Rent and Food Expenses of an Unrelated Live-In Personal Caregiver. Select one:

- No. The State does not reimburse for the rent and food expenses of an unrelated live-in personal caregiver who resides in the same household as the participant.
- Yes. Per 42 CFR §441.310(a)(2)(ii), the State will claim FFP for the additional costs of rent and food that can be reasonably attributed to an unrelated live-in personal caregiver who resides in the same household as the waiver participant. The State describes its coverage of live-in caregiver in Appendix C-3 and the costs attributable to rent and food for the live-in caregiver are reflected separately in the computation of factor D (cost of waiver services) in Appendix J. FFP for rent and food for a live-in caregiver will not be claimed when the participant lives in the caregiver's home or in a residence that is owned or leased by the provider of Medicaid services.

The following is an explanation of: (a) the method used to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver and (b) the method used to reimburse these costs:

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (1 of 5)

a. Co-Payment Requirements. Specify whether the State imposes a co-payment or similar charge upon waiver participants for waiver services. These charges are calculated per service and have the effect of reducing the total computable claim for federal financial participation. Select one:

- No. The State does not impose a co-payment or similar charge upon participants for waiver services.
- Yes. The State imposes a co-payment or similar charge upon participants for one or more waiver services.

   i. Co-Pay Arrangement.

   Specify the types of co-pay arrangements that are imposed on waiver participants (check each that applies):
### Charges Associated with the Provision of Waiver Services

(if any are checked, complete Items I-7-a-ii through I-7-a-iv):

- [ ] Nominal deductible
- [ ] Coinsurance
- [ ] Co-Payment
- [ ] Other charge

**Specify:**

---

### Appendix I: Financial Accountability

#### I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (2 of 5)

**a. Co-Payment Requirements.**

**ii. Participants Subject to Co-pay Charges for Waiver Services.**

#### I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (3 of 5)

**a. Co-Payment Requirements.**

**iii. Amount of Co-Pay Charges for Waiver Services.**

*Answers provided in Appendix I-7-a indicate that you do not need to complete this section.*

#### Appendix I: Financial Accountability

#### I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (4 of 5)

**a. Co-Payment Requirements.**

**iv. Cumulative Maximum Charges.**

*Answers provided in Appendix I-7-a indicate that you do not need to complete this section.*

#### Appendix I: Financial Accountability

#### I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (5 of 5)

**b. Other State Requirement for Cost Sharing.** Specify whether the State imposes a premium, enrollment fee or similar cost sharing on waiver participants. *Select one:*

- [ ] No. The State does not impose a premium, enrollment fee, or similar cost-sharing arrangement on waiver participants.
- [ ] Yes. The State imposes a premium, enrollment fee or similar cost-sharing arrangement.

Describe in detail the cost sharing arrangement, including: (a) the type of cost sharing (e.g., premium, enrollment fee); (b) the amount of charge and how the amount of the charge is related to total gross family income; (c) the groups of participants subject to cost-sharing and the groups who are excluded; and, (d) the mechanisms for the collection of cost-sharing and reporting the amount collected on the CMS 64:
Appendix J: Cost Neutrality Demonstration

J-1: Composite Overview and Demonstration of Cost-Neutrality Formula

Composite Overview. Complete the fields in Cols. 3, 5 and 6 in the following table for each waiver year. The fields in Cols. 4, 7 and 8 are auto-calculated based on entries in Cols 3, 5, and 6. The fields in Col. 2 are auto-calculated using the Factor D data from the J-2-d Estimate of Factor D tables. Col. 2 fields will be populated ONLY when the Estimate of Factor D tables in J-2-d have been completed.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (2 of 9)

b. Average Length of Stay. Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.

Based on the CMS 372 Report data for the most recent year from 7/1/2015 to 6/30/2016, the average length of stay for this waiver is 333 days. Based on this information, it is estimated that average length of stay for waiver participants during the course of the waiver renewal period is approximately 11 months.
c. Derivation of Estimates for Each Factor. Provide a narrative description for the derivation of the estimates of the following factors.

i. Factor D Derivation. The estimates of Factor D for each waiver year are located in Item J-2-d. The basis for these estimates is as follows:

The estimates of Factor D for each year are derived by projecting the average number of users for each service, the average number of units per beneficiary and the rate set for each service. The number of users and average units per user are projected using the 372 report for the state fiscal year 2018.

ii. Factor D’ Derivation. The estimates of Factor D’ for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor D’ equals the average per capita annual costs for all other Medicaid services (ancillary including drug costs) to HCBS IDDD Waiver beneficiary (excluding HCBS IDDD Waiver services cost). These estimates are based on actual costs from claims data in our MMIS system for SYF 2018 projected out with a 2.6% growth factor over the duration of the waiver renewal. The Factor D’ assumptions are from the cost of all State Plan services while the participant was on the HCBS DD Waiver excluding drug cost. The 2.6% growth factor is based on the Consumer Price Index (CPI) as reported by the U.S. Bureau of Labor Statistics.

iii. Factor G Derivation. The estimates of Factor G for each waiver year are included in Item J-1. The basis of these estimates is as follows:

The estimates of Factor G for each waiver year are derived using the average per diem rate for ICF/IID for SFY 2018. Future years are derived by projecting growth using 2.6% with a five year average increase in rates for the ICF/IID provider type in Mississippi. Expenditure growth was estimated based on utilizing an average 2.6% CPI for each additional waiver year.

iv. Factor G’ Derivation. The estimates of Factor G’ for each waiver year are included in Item J-1. The basis of these estimates is as follows:

The Factor G’ estimates for State Plan services utilization for inpatient intermediate care facility, sub-acute and hospital level of care are derived from experience as reported in MS claims data for SYF 2018. The calculations are projected out with a growth factor of 2.6% over the horizon of the renewal of the waiver. The assumptions used for obtaining the aggregate Factor G’ are the cost of all state plan services furnished during the beneficiary institutional stay in an ICF/IID facility. The Medicare Part D drug costs are not included in the Factor G’ estimates. The 2.6% growth factor is based on the Consumer Price Index (CPI) as reported by the U.S. Bureau of Labor Statistics.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (4 of 9)

Component management for waiver services. If the service(s) below includes two or more discrete services that are reimbursed separately, or is a bundled service, each component of the service must be listed. Select “manage components” to add these components.
### Appendix J: Cost Neutrality Demonstration

#### J-2: Derivation of Estimates (5 of 9)

### Appendix J: Cost Neutrality Demonstration

#### J-2: Derivation of Estimates (6 of 9)

d. **Estimate of Factor D.**

i. **Non-Concurrent Waiver.** Complete the following table for each waiver year. Enter data into the Unit, # Users, Avg. Units Per User, and Avg. Cost/Unit fields for all the Waiver Service/Component items. Select Save and Calculate to automatically calculate and populate the Component Costs and Total Costs fields. All fields in this table must be completed in order to populate the Factor D fields in the J-1 Composite Overview table.

### Appendix J: Cost Neutrality Demonstration

#### J-2: Derivation of Estimates (9 of 9)

d. **Estimate of Factor D.**

i. **Non-Concurrent Waiver.** Complete the following table for each waiver year. Enter data into the Unit, # Users, Avg. Units Per User, and Avg. Cost/Unit fields for all the Waiver Service/Component items. Select Save and Calculate to automatically calculate and populate the Component Costs and Total Costs fields. All fields in this table must be completed in order to populate the Factor D fields in the J-1 Composite Overview table.
