Re: Clarification to IFB #20200103

Section 4.4.2 Minimum Qualifications to be Deemed Responsible, Item 6, does not require a submitted proposal from the bidder describing how it will be able to provide each required component and deliverable as detailed in the Scope of Services. This requirement can be satisfied by an attestation that the bidder has the resources, experience and staff necessary to provide each required component and deliverable as detailed in the Scope of Services.
