

THE MISSISSIPPI MEDICAID EARLY AND PERIODIC SCREENING, DIAGNOSIS, AND TREATMENT (EPSDT) REQUIREMENT CHECKLIST

Provider Enrollment Requirements Prior to Screening

Screenings provided by physicians, physician assistants or nurse practitioners, the following must be met:

- The servicing provider must have an active Medicaid provider ID number
- The servicing provider must complete and sign an EPSDT Provider Agreement
- The billing provider must have an active Medicaid provider ID number, if billing for the servicing provider
- An on-site clinic review must be performed by a Mississippi Division of Medicaid (DOM) EPSDT Nurse
***Once the on-site clinic review is completed and approved, you will receive an approval letter to begin performing EPSDT screenings.*

Screenings provided by school district nurses, the following must be met:

- The school/school district must have an active Medicaid provider ID number
- The nurse must be a registered nurse with a current license to practice in the state of Mississippi
- The nurse must be employed through the Mississippi Department of Education (MDE)
- The nurse must meet the certification requirements and the established protocols mandated by the MDE and Mississippi Board of Nursing
- The nurse must have the knowledge and clinical skills needed to perform health assessments
- An on-site clinic review must be performed by a Mississippi DOM EPSDT Nurse
***Once the on-site clinic review is completed and approved, you will receive an approval letter to begin performing EPSDT screenings.*
