2.3-TC

Tribal Consultation Requirements- (Sections 1902(a)(73) and 2107(e)(1)(C)); (ARRA #2, CHIPRA #3, issued May 28, 2009) Section 1902(a)(73) of the Social Security Act (the Act) requires a State in which one or more Indian Health Programs or Urban Indian Organizations furnish health care services to establish a process for the State Medicaid agency to seek advice on a regular, ongoing basis from designees of Indian health programs, whether operated by the Indian Health Service (IHS), Tribes or Tribal organizations under the Indian Self-Determination and Education Assistance Act (ISDEAA), or Urban Indian Organizations under the Indian Health Care Improvement Act (IHCIA). Section 2107(e)(1)(C) of the Act was also amended to apply these requirements to the Children's Health Insurance Program (CHIP). Consultation is required concerning Medicaid and CHIP matters having a direct impact on Indian health programs and Urban Indian organizations.

Describe the process the State uses to seek advice on a regular, ongoing basis from federally-recognized tribes, Indian Health Programs and Urban Indian Organizations on matters related to Medicaid and CHIP programs and for consultation on State Plan Amendments, waiver proposals, waiver extensions, waiver amendments, waiver renewals and proposals for demonstration projects prior to submission to CMS. Include information about the frequency, inclusiveness and process for seeking such advice.

The Mississippi Division of Medicaid consults with the tribe by notifying the Mississippi Band of Choctaw Indians (MBCI) designees, in writing, with a description of the proposed changes and direct impact, at least thirty (30) days prior to each submission by the State of any CHIP SPA that is likely to have a direct effect on Indians, Indian Health programs, or Urban Indian Organizations (I/T/U) by email. MCBI designees are the Choctaw Health Center's Deputy Director and the Director of Financial Services. Direct impact is defined as any CHIP program changes that are more restrictive for eligibility determinations, changes that reduce payment rates or payment methodologies to Indian Health Programs, Tribal Organizations, or Urban Indian Organization providers, reductions in covered services, changes in consultation policies, and CHIP proposals that may impact I/T/U providers. If no response is received from the tribe within thirty (30) days, the Mississippi Division of Medicaid will proceed with the submission to the Centers for Medicare and Medicaid Services (CMS).

If the Mississippi Division of Medicaid is not able to consult with the Tribe thirty (30) days prior to a submission, a copy of the proposed submission along with the reason for the urgency will be forwarded to the tribe designee. The Tribe may waive this notification time-frame requirement in writing via e-mail. If requested, a conference call with the MBCI designee and/or other tribal representatives will be held to review the submission and its impact on the tribe. The Mississippi Division of Medicaid will then confirm the discussion via email and request a response from the designee to ensure agreement on the submission. This documentation will be provided as part of the submission information to CMS.

The Choctaw Health Center's Deputy Director and the Director of Financial Services were notified by e-mail on July 7, 2020, of the proposed MS SPA 20-0015 - CHIP submission. Draft SPA pages were also submitted on July 7, 2020 with the notification letter. The Tribe had no comments and accepted an expedited submittal.

While not required, the Mississippi Division of Medicaid conducts quarterly meetings with the MBCI to discuss proposed Medicaid and CHIP program changes and other topics as permitted by schedules. MS SPA 20-0015 Behavioral Health was discussed at the June 17, 2020 quarterly meeting.
