JESSE O. ADCOCK, CHAIRMAN GEORGE S. SMITH JIMMIE U. CRANE SEN. JOHN G. CORLEW REP. CHARLES M. DEATON REP. DON W. RICHARDSON SEN. THEODORE SMITH

Honorable Cliff Finch Governor of Mississippi and Members of the Mississippi State Legislature

Ladies and Gentlemen:

We submit herewith the Tenth Annual Report of the Mississippi Medicaid Commission, covering the Fiscal Year ended June 30, 1979. It is being submitted in accordance with requirements of Section 43-13-127 of the Mississippi Code of 1972, as amended. In it we have attempted to provide a broad range of factual information about Mississippi's Medicaid Program in an effort to keep you and the general public fully informed.

We wish to acknowledge the vital roles played by the State Department of Public Welfare, the State Board of Health, the Mississippi Foundation for Medical Care, and the Medicaid fiscal agent, Blue Cross and Blue Shield of Mississippi, Inc., in the ongoing administration of the Medicaid Program. We also wish to acknowledge the health professionals in our State who provide the necessary health services and who offer technical assistance to the Medicaid Commission through its advisory committees.

On behalf of approximately 293,000 Mississippians who are helped through the Medicaid Program, we wish to thank the Governor and the members of the Legislature for continuing to make these services available.

Respectfully submitted.

INTRODUCTION

Medicaid is a program of medical assistance for the needy administered by the states using state appropriated funds and Federal matching funds within the provisions of Title XIX of the Social Security Act as amended. In Mississippi, the Medicaid Program began on January 1, 1970. The program is administered in Mississippi by the Medicaid Commission by authority of Section 43-13-101 et. seq. of the Mississippi Code of 1972. Section 43-13-105 of the Code designated the State Department of Public Welfare as the certifying agency for determining eligibility for Medicaid.

The medical care provided by the state program varies widely from state to state. A few states limit coverage to those services required by the Social Security Act while several states cover all permissible services. During Fiscal Year 1979, Mississippi provided coverage for seven optional services in addition to the nine mandatory services. Services provided in Mississippi were:

Mandatory Services:

Inpatient Hospital Service
Outpatient Hospital Service
Other Laboratory and X-Ray Services
Skilled Nursing Home Services
Physicians Services
Early and Periodic Screening, Diagnosis and Treatment Services (for age 20 and under)
Home Health Services
Family Planning Services
Rural Health Clinic Services

Optional Services covered

Prescribed Drugs
Dental Services (Emergency extractions for adults)
Intermediate Care Facility Services
Eyeglasses (necessitated by eye surgery)
Tuberculosis and Mental Institution Services (for age 65 and over)
Christian Science Sanatoria Care and Services
Emergency Ambulance Services

MEDICAID ELIGIBLE PERSONS

In the text of this report, the term eligible refers to a person who has been certified by the Department of Public Welfare as having met the necessary requirements to receive Medicaid benefits under one of the following approved categories:

Aged (65 and over)

Blind

Disabled

Aid to families with Dependent Children (AFDC) Children within the families (AFDC Children)

Caretaker relative for the children (AFDC Adults)

Child Welfare Service Foster Care Children (CWS Foster Care)

In each instance, the individual must meet the requirements of financial need and relatedness to the category for which he applies. 'Relatedness' also includes the following statutory extensions of coverage:

Unborn children over four (4) months of age

Children 18 to 21 years of age who meet all AFDC requirements except age (the caretaker relatives are included in coverage)

Children who meet eligibility requirements for AFDC except for the "living with" factor and are placed in a private foster home with payment made from AFDC funds.

Persons who are patients in a medical facility and who, if they left such facility, would qualify for assistance (money) payments under Aged, Blind, Disabled, or AFDC Programs.

Persons meeting all requirements for eligibility except the income limits may become eligible for Medicaid in certain situations through a "spend-down" procedure whereby the excess income is either spent or obligated for medical services.

Mississippi statutes assign the responsibility of determining eligibility for the Medicaid Program to the Mississippi State Department of Public Welfare. Prior to January 1, 1974, this was largely a by-product of the Welfare Department's regular work in processing applications for public assistance grants, and there was little additional cost to the state, since Medicaid eligibility was automatic for those persons found eligible for a money payment. This is still true with respect to the AFDC category and the CWS Foster Care category. However, on January 1, 1974, a Federal program of financial assistance to the Aged, Blind, and Disabled from the State Department of Public Welfare to the Federal government. However, Public Law 92-603 which amended Title XVI of the Social Security Act gave states the option of continuing to determine Medicaid eligibility for these categories or to provide Medicaid assistance to those receiving SSI. Mississippi chose to continue eligibility determination by the State Department of Public Welfare. The cost for eligibility determination in these adult categories is now reflected in the Medicaid budget.

With 6,258 applications for medical assistance pending at the beginning of Fiscal Year 1979, an additional 65,709 applications were received at the County Welfare offices throughout the year. Of these, 34,334 were approved and 30,615 were denied or disposed of for other reasons. At the end of the year, 7,018 applications were still pending. Eligibility certification is represented by a Medicaid Identification Card, valid for one month only. The Department of Public Welfare mails a new card monthly to each eligible person except to the Foster Care children. Cards for the latter are issued semi-annually. Information contained on the Medicaid card includes the individual's name, unique identification number and current period of eligibility. It must be shown to the provider each time a medical service is requested.

As of June 30, 1979, 293,171 persons in Mississippi were eligible for Medicaid benefits. The length of eligibility periods for these persons covered all possibilities - from one day to the entire year. Table 1 gives the eligibility count with the corresponding percents for the program categories. In Table 1, the monthly number of eligibles is shown by program category.

ELIGIBLES BY COUNTY OF RESIDENCE

The population estimates for July, 1977 (as computed by the Bureau of the Census, U. S. Department of Commerce) and the number of persons eligible for Medicaid on June 30, 1979, are listed by counties in Table 3. The 1977 census figures are the latest available. Holmes County had the highest percent of Medicaid eligibles with 35.3 percent, and Jackson County had the lowest percent, 3.1.

MEDICAID RECIPIENTS

During Fiscal Year 1979, 296,461 different persons benefited from one of more of the medical services covered by the Medicaid Program. This was a increase of 10,836 persons or 3.8 percent from Fiscal 1978. The monthly average number of recipients shows a 6.2 percent increase over Fiscal 1978. The distribution among the program categories remained relatively the same for the unduplicated totals. However, the monthly averages show a increase of 2.9 percent for the Aged and a increase of 10.6 percent for the AFDC Children.

UTILIZATION RATE

In Fiscal Year 1979, the average monthly utilization rate rose slightly from the 46.8 percent rate of Fiscal Year 1978 to 49.8 percent. This was an increase of 3 percentage points. The lowest utilization was in July, 1978.

Table 6 gives the monthly utilization rates and the average monthly rates. Using the monthly number of eligibles and the monthly number of recipients, Table 7 shows the wide range of utilization among the program categories in Fiscal Year 1979.

PROGRAM ADMINISTRATION

FEDERAL/STATE FINANCIAL RESPONSIBILITIES

The Mississippi Medicaid Program is administered by the Medicaid Commission using funds appropriated by the State and Federal matching funds. Federal matching rates vary considerably depending upon their use in providing medical services for eligibles or in meting administrative costs of the program. The variation in matching rates is illustrated in Chart 1.

During Fiscal Year 1979, the total administrative expense was \$10, 268,048, with the Federal government paying \$5,383,873 or 52.43 percent. This total included all state agency cost, all cost of processing and paying claims by the Medicaid Fiscal Agent, Blue Cross and Blue Shield of Mississippi. Inc., and all the Department of Public Welfare's cost in eligibility determination for the adult categories.

During Fiscal Year 1979, the FMAP (Federal Medical Assistance Percentage) for most medical services in Mississippi was 78.09 percent. A state's FMAP is a calculated percentage based on the state's per capita income. This percentage is redetermined every two years.

Exceptions to the 78.09 percent FMAP for medical services were: Family Planning Services at 90 percent Federal Money; Buy-In, Part B, for non-money payment individuals at 100 percent state money and the service-related inspection of nursing homes at 100 percent Federal money.

In accordance with the Social Security Act and Mississippi Medicaid Law, payment for services under Medicaid is always secondary to other third party liability. At the time of a recipient's admission to a hospital and at each of his visits to a doctor's office or other service provider, a determination is made as to whether the recipient has third party coverage. Since Medicaid liability is always secondary, any third party payments up to the amount expended by Medicaid are required to be refunded to the Medicaid program. A total of \$1,139,203 was collected in third party payments and was used to reduce the cost of medical services from \$199,868,640 to \$198,729,437.

The total Medicaid expenditures represent the cost of program administration and the cost for health care services. This \$208,997,485 total is comprised of \$160,397,485 Federal money and \$48,600,000 State money.

Total Expenditures of Medicaid Program

SOURCE OF FUNDS BY TYPE OF EXPENSE AND PERCENTAGE DISTRIBUTION OF STATE AND FEDERAL FUNDS

PROGRAM INTEGRITY

The Mississippi Medicaid Commission is responsible for conducting on-site investigations of providers and for monitoring both provider and recipient utilization in the Medicaid Program. The Medicaid Commission is required, under both state and Federal laws, to conduct periodic checks of provider records in order to verify actual receipt of services for which payment has been made and to investigate any cases suggestive of program abuse or misuse. Verification of receipt of services is also accomplished through recipient contact.

The existence of the Program Integrity Division continues to serve as an invaluable deterrent to potential fraud and abuse of benefits in the Medicaid Program. Activities in this area continue to expand and keep pace with the growth of the program.

With the assistance of a computerized surveillance and utilization reporting system, the Commission is able to maintain practice and service profiles on all providers of service and on recipients who participate in or receive services through the Medicaid Program. These profiles provide indicators of possible fradulent activities or abuse of Program benefits and are an important source of information upon which the Program Integrity Division bases its investigations. Examples of the types of profile information used are: frequency of physicians visits for a given recipient, ratio of laboratory procedures to medical visits for a physician, the average length of stay of recipients for a hospital, and extractions per recipient for a dentist. Exceptional reporting techniques are used to identify the unusual or exceptional profiles.

Reports of any investigations which reveal a significant irregularity are made to the Commission at its monthly meeting. During Fiscal Year 1979, the Program Integrity Division conducted onsite investigations of 270 providers of Medicaid services. This resulted in 114 educational contacts, 4 providers being terminated from the Medicaid Program, 2 providers being convicted in State and Federal Court, and monetary recoveries being made from other providers.

CLAIMS PAYMENTS

For Fiscal Year 1979, 6,632,601 claims were received by the Medicaid Claims office. This represents an increase of 698,417 claims or 11.8 percent from Fiscal Year 1978. Table 8 lists the number of claims received by month for each type of service covered under the Medicaid Program for Fiscal Year 1979.

Based on recent Federal and State audits of the Medicaid Program, "clean" claims (those properly filed) are being paid within 10 - 15 days from date of receipt at the Medicaid Claims office. There are, of course, exceptions to this where eligibility questions exist or where additional information may be needed, but these represent a very small percentage of the total.

The Commission's contract with Blue Cross and Blue Shield provides for reimbursement of administrative expenses based upon actual audited reasonable cost. Cost reimbursement principles used for this purpose are those established under the Medicare Program.

The fiscal agent contract was for a two-year period ending on June 30, 1978 and was extended for six (6) months until December 31, 1978. Monthly advances of administrative funds were made to Blue Cross and Blue Shield based upon a reasonable projection of administrative costs over the annual period. The monthly advances were subject to adjustment based upon actual cost experience.

Request for bid proposals to serve as fiscal agent were advertised during the year. Through the competitive bidding process Blue Cross and Blue Shield of Mississippi, Inc. won the bid and will continue as fiscal agent for a three (3) year period beginning January 1, 1979.

Blue Cross and Blue Shield is a non-profit medical and hospital service corporation organized under the laws of the State of Mississippi. The company serves, in addition to Medicaid, as the Federal government's intermediary for Part A of Medicare and also serves as one of the contractors for the Federal Employees Insurance Program. In addition, the company insures many other persons through its private business.

EXPENDITURES EXPENDITURES BY TYPE OF SERVICE

Total medical expenditures for Fiscal Year 1979 amounted to \$198,729,437. This was an increase of \$26,780,360 over Fiscal 1978, and represented a lower rate of increase, 15.57 percent, than the 28.3 percent in the previous fiscal year.

The medical service which accounted for the largest expenditures were Skilled Nursing Home Services with \$48,576,135, and Inpatient Hospital Services with \$48,559,613. Combined, these two services accounted for slightly less than one-half of each Medicaid service dollar spent. Drugs remained third in total funds expended with \$27,710,287.

Chart 2 compares the percentage distribution of expenditures for the major medical services during Fiscal 1978 and 1979. Drugs shows a increase in the percentage distribution in the chart. In actual dollars spent, however, Drugs increased \$3,985,723. Other relevant factors were the changes in drugs covered and the restrictions on prescription refill.

Table 9 shows the actual amount spent in each medical service with the percent increase or (decrease), and Table 10 gives the average spent per recipient in each service. In Table 10, the total expenditures for Buy-In, Part B Medicare has been separated into (a) the amount paid for the average number of monthly premiums, i.e., recipients, and (b) the amount paid for the 21,023 persons accreted to the Buy-In billing list during the year. Whereas the monthly premium cost is 8.20 per month, the average back charges for Fiscal Year 1979 accretions amounted to 74.54. Section 1843 of Title XVIII, the Social Security Act, allows for back premium payments when necessary for the individuals' correct coverage period.

EXPENDITURES BY PROGRAM CATEGORY OF ELIGIBILITY

About half of the total expenditures for medical services in Fiscal Year 1979 was spent for the Aged Category. While only 27.6 percent were in the Aged Category, the expenditures for these persons amounted to 49.9 percent of the total. Over \$52 million were paid for nursing care and drugs, approximately \$8 million for Buy-In, Part B premiums, and another \$6 million for physician's services for the Medicaid elderly persons. All programs categories increased in both total expenditures and the average cost per recipient person during Fiscal Year 1979.

A comparison of the expenditures of each program category is presented graphically in Chart 3. In Table 11, these amounts are shown with the average cost per recipient. Table 12 lists the medical services expenditures which exceeded one million dollars in the year. EPSDT benefits are only provided for individuals through age 20; and Buy-In, Part B premiums are paid only for those eligible persons age 65 or who otherwise qualify for care.

PAYMENTS MADE TO PROVIDERS BY COUNTY

The total paid to providers of medical services is shown for each county in Table 13. The recipients served by the providers during Fiscal Year 1979 were not necessarily residents of that county, but the providers were. The County data given consists of the total number of providers within each county to whom payments for medical services were made; the total number of Medicaid persons served by those providers; and the total payments made to those providers.

PAYMENTS FOR RECIPIENTS BY COUNTY OF RESIDENCE

Table 14 gives the recipients count and the amount expended on their behalf. Recipients are listed by the county of residence and are unduplicated only within each county, not within the State. Medicaid recipients who resided in more than one county during the year are therefore included more than one time in the table.

SERVICES PHYSICIANS' SERVICES

During Fiscal Year 1979, a total of 2,983 physicians participated in the Medicaid Program. This included 2,167 Mississippi physicians and 816 out-of-state physicians. Medical services rendered or ordered by all participating physicians for Medicaid recipients included:

451,015 laboratory procedures 202,147 injections 100,379 radiology procedures 45,759 surgical procedures

Approximately 243,228 individuals were recipients of Physicians' Service. Of the total number of recipients who utilized one or more of the services, 82 percent were for Physician Services. See Table 16.

During Fiscal 1979, \$21,387,102 were expended for Physicians' Services in addition to the \$8,737,702 paid for Part B Premiums under Medicare. Distribution by program categories shows the Aged Category with 25.3 percent of the total expenditures. A large part of the \$5,410,937 in this group was for deductible and coinsurance payments under Part B of Medicare. The children in the Aid to Families with Dependent Children who received physicians' care accounted for 29.6 of the total money paid. This actually represents an increase of 3.8 percentage points from Fiscal 1978. In Table 17, expenditures are shown for the program categories.

When the persons over 64 years of age who are caretaker relatives and covered under the Aid to Families with Dependent Children (AFDC) Category are added to those in the Aged Category, the expenditures for this age group represent 28.2 percent of the total. However, the largest amount expended, by age groups, was for the recipients ages 6-20.

There were slightly more than one million physicians' visits during Fiscal Year 1979. The average number of visits per recipient ranged from a low of 3.2 to a high of 9.1. In Table 19, the average number and the total number of visits for each program category are given. In Table 20, physician visits are shown by the place of visit.

NURSING HOME SERVICES

Medicaid nursing home patients are classified as needing skilled care, intermediate care or special care for the mentally retarded. Nursing homes are certified to render one or more of the above levels of care and are designated as Skilled Nursing Homes, Dual Nursing Homes, Intermediate Nursing Homes and Intermediate Nursing Homes for the Mentally Retarded. A Dual Nursing Home cares for both skilled and intermediate patients and complies with Federal Regulations governing both levels of care.

During Fiscal Year 1979, Skilled and Dual nursing homes rendered 2,468,513 days of care to 9,550 Medicaid patients. The total Medicaid cost of the care was \$48,576,135 which averages out to \$19.68 per day for patients in skilled and or dual homes.

The maximum class rates for skilled and dual homes during Fiscal Year 1979 were as follows:

('hanges in Per Diem Rates for Nursing Homes

(Maximum Class Rates)

Dates	SNF-HB	SNF-FS	Dual	ICF	ICF-MR	Percentile
1-1-79/6-30-79	\$33.91	\$26.19	\$25.01	\$21.75*	\$37.65	80th
7-1-79/6-30-80	\$33.78	\$25.51	\$25.00	\$21.45	\$35.35	60th

^{*}Reduced to \$21.53 per Federal disallowance.

The difference between the average Medicaid payment (19.68) and the above rates is due to the application of Medicaid Income to the nursing home bill. Basically, Medicaid Income consists of all of a patient's income above \$41.50 and their income must be applied to the nursing home bill. The Medicaid payment is reduced by the amount of Medicaid Income.

Intermediate nursing homes rendered 881,188 days of care to 3,858 Medicaid patients. The total Medicaid cost of the care was \$16,741,819 which averages out to \$19.00 per day for patients in intermediate care nursing homes.

The reasons for the difference between the average Medicaid payment (\$19.00) and the above rates are the same as for the skilled and dual homes.

Intermediate nursing homes for the mentally retarded rendered 266,805 days of care to 876 Medicaid patients. The total cost to the Medicaid program was \$8,145,677 which averages out to \$30.53 per day for patients in intermediate care nursing homes for the mentally retarded.

Over all the Nursing Home Program provided 3,616,506 days of care to 14,284 Medicaid patients at a cost of \$73,463,631 to the Medicaid program. Payment were made to a total of 123 Skilled and Dual Homes, 95 Intermediate Homes and 8 Intermediate Homes for the Mentally Retarded.

INPATIENT HOSPITAL SERVICES

During Fiscal Year 1979, there were 55,477 hospital discharges with 324,133 days of inpatient hospital care covered by Medicaid. The average length of stay was 5.8 days, a decrease of 0.2 from the previous year. For the relatively small number of persons covered in the Aged category who do not qualify for Part A of Medicare, Medicaid pays for their hospital services. Elderly recipients had the longest average length of stay for each period of hospitalization. Table 23 shows the number of recipients of Inpatient Hospital Services benefits with the number of discharges and days of care during Fiscal Year 1979. Those persons who have hospital coverage under Part A of Medicare are not included in the table. Medicaid paid their hospital deductible charges which amounted to \$4.395.626 during the fiscal year.

A total of 180 hospitals participated in the Medicaid Program including 123 Mississippi hospitals and 57 out-of-state hospitals.

OUTPATIENT HOSPITAL SERVICES

A total of 173,532 outpatient hospital visits was provided to 105,014 recipients during Fiscal Year 1979. The average of 1.7 visits per out-patient recipient shows a slightly increase from the previous average number in Fiscal 1978, however, expenditures for Outpatient Hospital Services rose from \$5,143,553 in Fiscal 1978 to \$6,029,468 in Fiscal 1979, representing a 17.22 percent increase.

Outpatient visits were made to 175 different hospitals, 121 in-state and 54 out-of-state during the fiscal year.

DENTAL SERVICES

Limited dental care was provided to 52,165 persons during Fiscal Year 1979 with expenditures amounting to \$4,420,171. A total of 156,401 procedures (primarily extractions) was provided at an average cost of \$28.69 per procedure. This represents an increase over last year's cost per procedure due to the inclusion of the denture program.

A total of 473 in-state dentists and 16 out-of-state dentists participated in the program during the fiscal year.

FAMILY PLANNING SERVICES

Expenditures for Family Planning Services amounted to \$1,508,005 in Fiscal Year 1979 with the Federal government paying 90 percent and Mississippi paying 10 percent of the total. Payments were made to private physicians, pharmacies, and family planning clinics located throughout the state. A total of 27,683 different persons received Family Planning Services during the year, 17,689 persons receiving medical care and 19,076 persons receiving family planning drugs.

EARLY AND PERIODIC SCREENING, DIAGNOSIS AND TREATMENT SERVICES

The Early and Periodic Screening, Diagnosis and Treatment Services (EPSDT) furnishes a unique opportunity for providing health care to the Medical eligible children of Mississippi. This program requires the screening of children 21 years of age and under for physical, mental and developmental defects and provides for the necessary health care to correct or ameliorate those defects. Treatment for visual, hearing and dental problems is also provided. Thus, EPSDT introduces eligible children into the health care system and makes services available before health problems become chronic and expensive to treat.

Good health is not the only factor for the development of a productive adult who is independent of public assistance. However, poverty and untreated health defects often lead to dependency and the perpetuation of the welfare cycle. A DHEW estimate of an individual cost of \$200,000 for a life-time welfare recipient makes the importance of the EPSDT program significant.

During Fiscal Year 1979, a total of 83,447 children received screening services. Among those screened, 71,734 children, or 85.9 percent, were found to have at least one abnormal condition. Referrals for follow-up care are as follows:

70,402 Dental 11,892 Vision 982 Hearing 43,067 Other Problems

Such significant figures pointedly illustrate the merits of Early and Periodic Screening, Diagnosis and Treatment Services for the children of Mississippi.

APPENDIX

Section 43-13-127 of the Mississippi Code 1972 requires a listing of hospitals and nursing homes to whom payments in excess of \$25,000 were made, and all other providers to whom payments in excess of \$10,000 were made. The following is a list of the providers receiving in excess of the specified amounts for Fiscal Year 1979.
