B. Payment for transplant services is made under the Mississippi APR-DRG payment methodology including a policy adjustor. (Refer to Appendix A.) If access to quality services is unavailable under the Mississippi APR-DRG payment methodology, a case rate may be set.

1. A case rate is set at forty percent (40%) of the sum of average billed charges for transplant services as published in the *Milliman U.S. Organ and Tissue Transplant Cost Estimates and Discussion* in effect as of July 1, 2019. The transplant case rates are published on the agency’s website at https://medicaid.ms.gov/providers/fee-schedules-and-rates/.

2. The *Milliman* categories comprising the sum of average billed charges include outpatient services received thirty (30) days pre-transplant, procurement, hospital transplant inpatient admission, physician services during transplant and one-hundred eighty (180) days post (transplant) discharge. Outpatient immune-suppressants and other prescriptions are not included in the case rate.
5. Contracts for transplant services negotiated prior to October 1, 2012, are honored through the term of the contract.

6. For transplant services not available in Mississippi and not listed in the *Milliman U.S. Organ and Tissue Transplant Cost Estimates and Discussion* in effect as of July 1, 2019, the Division of Medicaid will make payment using the Mississippi APR-DRG payment methodology. If Mississippi APR-DRG payment impacts access to care, the Division will reimburse what the domicile state pays for the service.

C. For specialized services not available in Mississippi, the Division of Medicaid will make payment based on Mississippi APR-DRG payment methodology. If Mississippi APR-DRG payment affects access to care, the Division will reimburse what the domicile state pays for the service or a comparable payment other states reimburse under APR-DRG.
