

EVV Management Made Easy

FEI's CareVisit mobile app supports verification and documentation of service delivery in alignment with members' approved plans of care. It allows caregivers to review visit schedules and services, confirm service delivery, and document member safety concerns.

CareVisit Mobile App Key Features

- ✓ Review scheduled visit times and locations for members
- ✓ Confirm provider, member, location, and visit start and end times
- ✓ Access member Care Plan with task detail
- ✓ Verify visit location through GPS triangulation
- ✓ Clock-in and clock-out
- ✓ Document services provided
- ✓ Report member safety concerns
- ✓ Capture member and caregiver signatures
- ✓ Support secure communications and messaging
- ✓ Service delivery data upload at visit conclusion

Key Benefits

- Facilitates real-time service management and documentation
- Provides review of caregiver's daily and weekly schedules
- Enables visit verification and documentation of unplanned visits
- Reinforces compliance with member care plan, but provides flexibility for unplanned needs
- Includes robust device and data security
- Enables proactive staff alerts for member health and safety concerns
- Reduces opportunities for fraud, waste, and abuse through GPS geofencing technology
- Ensures caregiver understanding of services and tasks to be provided
- Performs robust pre-adjudication to ensure only valid claims are sent to payers
