## Preface

This Companion Guide to the Health Care Claims (837s) adopted under Health Insurance Portability and Accountability Act (HIPAA) clarifies and specifies the data content when exchanging electronically with the State of Mississippi, Division of Medicaid (DOM). Transmissions based on this Companion Guide, used in tandem with the **ASC X12N 837 005010X222 and the associated addendum 005010X222A1 Implementation Guides**, are compliant with both ASC X12 syntax and those guides. This Companion Guide is intended to convey information that is within the framework of the ASC X12N Implementation Guides adopted for use under HIPAA. The Companion Guide is not intended to convey information that in any way exceeds the requirements or usages of data expressed in the Implementation Guides.

# 1. Introduction

The Health Insurance Portability and Accountability Act (HIPAA) of 1996 carries provisions for administrative simplification. This requires the Secretary of the Department of Health and Human Services (DHHS) to adopt standards to support the electronic exchange of administrative and financial health care transactions, primarily between health care providers and plans. HIPAA directs the Secretary to adopt transaction standards enabling the electronic exchange of health information and to adopt specifications for implementing each standard. HIPAA intends to:

- Create better access to health insurance
- Limit fraud and abuse
- Reduce administrative costs

The HIPAA regulations at 45 CFR 162.915 require that covered entities not enter into trading partner agreements that would do any of the following:

- Change the definition, data condition, or use of a data element or segment in a standard
- Add any data elements or segments to the maximum defined data set
- Use any code or data elements that are marked “not used” in the standard’s implementation specification or are not in the standard’s implementation specifications
- Change the meaning or intent of the standards implementation specifications

## 1.1. Scope

The Companion Guide is to be used with and supplement the requirements in the HIPAA Accredited Standards Committee (ASC) X12 Implementation Guides. Implementation Guides define the national data standards, electronic format, and values for each data element within an electronic transaction. The purpose of the Companion Guide is to provide trading partners with a guide to communicate Mississippi Division of Medicaid (MS DOM) specific information required to successfully exchange transactions.

The Companion Guide is intended for the business and technical users, within or on behalf of trading partners, responsible for the testing and setup of electronic claim status request and response transactions to MS DOM.

## 1.2. Overview

The Companion Guide provides guidance for establishing a relationship with MS DOM for the business purpose of doing Health Care Claims (837s).

## 1.3. References

This section specifies additional on-line sources of helpful information related to electronic data interchange (EDI) and X12 transactions.

- Workgroup for Electronic Data Interchange (WEDI) – <http://www.wedi.org>
- United States Department of Health and Human Services (DHHS) – <http://aspe.hhs.gov/>
- Centers for Medicare and Medicaid Services (CMS) – <http://www.cms.gov/>
- Designated Standard Maintenance Organizations (DSMO) – <http://www.hipaa-dsmo.org/>
- National Council of Prescription Drug Programs (NCPDP) – <http://www.ncdp.org/>
- National Uniform Billing Committee (NUBC) – <http://www.nubc.org/>

- Washington Publishing Company (WPC) at <http://wpc-edi.com/>
- Accredited Standards Committee (ASC X12) – <http://www.x12.org/>
- Affordable Care Act (ACA) Section 1104 information is at the CMS website. For information on ACA Administrative Simplification information follow this link: <https://www.cms.gov/regulations-and-guidance/HIPAA-Administrative-Simplification/affordable-care-act/operatingrulesforHIPAATransactions.html>

## 1.4. Additional Information

It is assumed that the trading partner has purchased and is familiar with the ASC X12 Type 3 Technical Report (TR3) being referenced in this Companion Guide. TR3s can be purchased from the ASC X12 store at <http://store.x12.org/store/>.

## 2. Getting Started

### 2.1. Working with Mississippi DOM

The Electronic Data Interchange (EDI) Department is available to assist trading partners when questions arise. See [Section 5](#) for details.

### 2.2. Trading Partner Registration

Trading Partner registration is completed through the secure provider portal. All required fields must be completed, and an electronic signature must be included.

### 2.3. Certification and Testing Overview

All covered entities who submit electronic transactions are required to certify. This includes Clearing houses, Software Vendors, Provider Groups, and Coordinated Care Organizations (CCOs). Such agencies certify users who submit transactions through them on their behalf. Users who submit transactions directly must be certified. Users who submit transactions through CCOs should receive certification requirement information from the CCO.

## 3. Testing with the Payer

This section contains a detailed description of the testing phase. Testing is required for the Health Care Claims (837). Before exchanging production transactions with MS DOM, each trading partner must complete production authorization testing. Trading partner testing includes HIPAA compliance testing as well as validating the use of conditional, optional, and mutually defined components of the transaction.

To obtain approval for Production from Mississippi DOM, trading partners are recommended to submit five unique requests, but not to exceed 25 successful and unique submissions and receive the associated 999 (accepted) acknowledgement in response and validate adjudication by downloading and reviewing 835 Electronic Remittance Advice (ERA) in order to obtain approval from Mississippi DOM to promote to Production.

Trading Partner Authorization Testing is detailed in the Trading Partner Profile Testing Packet for ASC X12 transactions available on the MS DOM Training Portal ([https://medicaid.ms.gov/TBD Link "Coming soon"](https://medicaid.ms.gov/TBD Link 'Coming soon')) — click on the MOVEit Portal at [https://fts-npr.msxix.net/TBD Link "Coming soon"](https://fts-npr.msxix.net/TBD Link 'Coming soon') page.

Questions may be directed to the EDI Helpdesk at *1 TBD Toll free number "Coming soon"* or via the "Contact Us" link at the top of the Portal home page at: [https://portal-mod.msxix.net/ms/provider/Home/TBD Link "Coming soon"](https://portal-mod.msxix.net/ms/provider/Home/TBD Link 'Coming soon').

## 4. Connectivity with the Payer/Communications

Users must register and access the provider portal in order to upload EDI files.

To register/logon to the provider portal, visit:

*Mississippi Division of Medicaid Portal for Providers > Home (TBD Link “Coming soon”).*

### 4.1. Passwords

Passwords are provided during initial enrollment and can be reset by contacting Provider Relations – Electronic Claims Submission (ECS) Department at *1 TBD Toll free number “Coming soon”*. These passwords may not be shared.

*<https://medicaid.ms.gov/EDI-Support/TBD Link “Coming soon”>.*

## 5. Contact Information

In an effort to assist the community with their electronic data exchange needs, MS DOM has the following options available for either contacting a help desk or referencing a website for further assistance:

- For general information to go Mississippi DOM Website: *<https://medicaid.ms.gov/TBD Link “Coming soon”>*
- For EDI Services (technical, enrollment, or setup questions):
  - E-mail: *[Mississippi.TBD@gainwelltechnologies.com](mailto:Mississippi.TBD@gainwelltechnologies.com)*
  - Telephone: *1 TBD Toll free number “Coming soon”*
  - Hours are Monday through Friday from 08:00 AM to 05:00 PM CST.

## 6. Payer Specific Business Rules and Limitations

Payer specific business rule information regarding MS DOM can be found at the “For Our Providers” webpage on the MS DOM website, *Mississippi Division of Medicaid Portal for Providers > Home (TBD Link “Coming soon”).*

## 7. Acknowledgements and/or Reports

The acknowledgement process will create the TA1 and 999 acknowledgement responses for the inbound transactions.

## 8. Trading Partner Agreements

An Electronic Data Interchange (EDI) Trading Partner is defined as any MS DOM customer (provider, billing service, software vendor, employer group, financial institution, etc.) that transmits to or receives electronic data from MS DOM.

Payers have EDI Trading Partner Agreements (TPAs) that accompany the standard Implementation Guide to ensure the integrity of the electronic transaction process. The Trading Partner Agreement is related to the electronic exchange of information, whether the agreement is an entity or a part of a larger agreement, between each party to the agreement.

## 9. Transaction-Specific Information

This section describes how ASC X12N Implementation Guides (IGs) adopted under HIPAA are detailed in a table. The tables contain a row for each segment that has additional information MS DOM provides that can:

1. Limit the repeat of loops, or segments
2. Limit the length of a simple data element
3. Specify a sub-set of the IGs internal code listings
4. Clarify the use of loops, segments, composite, and simple data elements
5. Any other information tied directly to a loop, segment, composite, or simple data element pertinent to trading electronically with MS DOM

In addition to the row for each segment, one or more additional rows are used to describe MS DOM usage for composite and simple data elements, and any other necessary information. Notes and comments should be placed at the deepest level of detail. For example, a note about a code value should be placed on a row specifically for that code value, not in a general note about the segment.

All MS DOM members are considered “subscribers”, so they all have individual loops. See the Implementation Guide for additional information. Dependent loops for eligibility transactions will not be processed.

### 9.1. Naming Your Files

When uploading batch files, the submitter must name their files using the following format for processing and tracking purposes:

1. FFS – Use “FFS” tag to identify the batch file as Fee-for-Service.
2. <SubmitterId> – Use the trading partner ID (submitter ID) assigned. This is to be used by all providers, vendors, and clearinghouses submitting batch transactions.
3. <filename> – Assign a file name - preferably something meaningful to receiver such as “270 fee for service”.
4. <datetime>. – Use the date/time value format of yyymmddhhmm to uniquely identified the file and avoid duplicate files.
5. <filetypeext> – Use the file type extension to identify the file type (e.g. .txt)

Coordinated Care Organization (CCO) is assigned preferably meaningful to a receiver such as ‘encounter’ followed by unique ID. This is to be used by CCOs submitting encounter claims.

Example:

```
CCO_<SubmitterId>_<filename>_<transaction type>_<datetime>.<ext>
CCO_XXXXXXXXX_ENCOUNTER_x_201611101308.837
<transaction type>
    1 – P – Professional
    2 – I – Institutional
    3 – D - Dental
<datetime>
<ext>
    837
```

## 10. Conventions

Most of the companion guide is in table format (see example below). Only loops, elements, or segments with clarifications or comments are listed. For further information, please see the TR3 for each transaction.

**Table 1. Conventions Sample**

| Loop ID      | Segment/<br>Element<br>Reference | Loop Name                                    | Codes              | Notes/Comments   |
|--------------|----------------------------------|--|--------------------|--|
|              | <b>837P</b>                      | <b>Health Care Claim Professional</b>        |                    |  |
|              | <b>BHT</b>                       | <b>Beginning of Hierarchical Transaction</b> |                    |  |
|              | BHT02                            | Transaction Set Purpose Code                 | 00, 18             | 00 – Original<br>18 - Reissue<br><br>For CCO's, use 00 - Original.                         |
|              | BHT06                            | Transaction Type Code                        | CH, RP             | CH – Chargeable (Fee for Service)<br>RP - Reporting (Encounters)                           |
| <b>1000A</b> | <b>NM1</b>                       | <b>Submitter Name</b>                        |                    |  |
|              | NM101                            | Entity Identifier Code                       | 41                 | 41 – Submitter   |
|              | NM102                            | Entity Type Qualifier                        |                    | <b>Refer to TR3</b>  |
|              | NM103                            | Submitter Last Name or Organization Name     |                    | Submitter name should be "ADVANTAGE/MEDICARE-PART-C" for Medicare Advantage/ Part-C Claims |
|              | NM109                            | Submitter Identifier                         | Trading Partner ID | Value is Trading Partner ID that was provided during the EDI enrollment process.           |

**Table 2. Conventions Fields**

| Column Name               | Description   |
|---------------------------|---|
| Loop ID                   | Loop, header, or trailer.   |
| Segment/Element Reference | Segment or Element ID.  |
| Loop Name                 | Name of Loop, header, or trailer.   |
| Codes                     | Code values.  |
| Note/Comments             | Comments or clarifications for Mississippi DOM. Values, data length, and repeats are also listed here. Clarifications in field length only indicate what Mississippi DOM uses or returns to process the transaction. MS DOM still accepts the minimum and maximum field lengths required by the Technical Report Type 3 (TR3) for each element. |

## 10.1. Transaction 837, Health Claim: Professional

**Table 3. Health Care Claim Professional (837P)**

| Loop ID | Reference   | Name   | Codes              | Notes/Comments  |
|---------|-------------|--|--------------------|---|
|         | <b>837P</b> | <b>Health Care Claim Professional</b>          |                    |   |
|         | <b>ISA</b>  | <b>Interchange Control Header</b>              |                    |   |
| ISA01   |             | Authorization Information Qualifier            | 00                 | 00 - No Authorization Information Present   |
| ISA03   |             | Security Information Qualifier                 | 00                 | 00 - No Authorization Information Present   |
| ISA05   |             | Interchange ID Qualifier                       | ZZ                 | ZZ – Mutually Defined   |
| ISA06   |             | Interchange Sender ID                          | Trading Partner ID | The Gainwell Technologies Electronic Transaction Identification Number (ETIN) assigned to the submitter is expected in this data element. This is the same as your 8-digit Mississippi DOM Trading Partner ID |
| ISA07   |             | Interchange ID Qualifier                       | ZZ                 | ZZ – Mutually Defined   |
| ISA08   |             | Interchange Receiver ID                        | 77032              |   |
| ISA11   |             | Repetition Separator                           | ^                  | Caret   |
| ISA12   |             | Interchange Control Version Number             | 00501              |   |
| ISA15   |             | Interchange Usage Indicator                    |                    | <b>Refer to TR3</b>   |
| ISA16   |             | Component Element Separator                    | :                  | Colon   |
|         | <b>GS</b>   | <b>Functional Group Header</b>                 |                    |   |
| GS01    |             | Functional Identifier Code                     |                    | <b>Refer to TR3</b>   |
| GS02    |             | Application Sender's Code                      | Trading Partner ID | Value should equal ISA06.   |
| GS03    |             | Application Receiver's Code                    | 77032              | Value should equal ISA08.   |
| GS07    |             | Responsible Agency Code                        | X                  |   |
