Independent Accountant's Report

We have examined the accompanying Adjusted Medical Loss Ratio Rebate Calculation of UnitedHealthcare Community Plan of Mississippi (UHC) related to the Mississippi Children's Health Insurance Program for the period of July 1, 2017 through June 30, 2018. UHC's management is responsible for presenting the Medical Loss Ratio Rebate Calculation in accordance with the criteria set forth in the contract between the Division of Medicaid and UHC, Exhibit D: Medical Loss Ratio (MLR) Requirements, and Centers for Medicare & Medicaid Services (CMS) federal guidance 42 CFR 438.8. Our responsibility is to express an opinion on the Medical Loss Ratio Rebate Calculation based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Adjusted Medical Loss Ratio Rebate Calculation is in accordance with the criteria, in all material respects. An examination involves performing procedures to obtain evidence about the Medical Loss Ratio Rebate Calculation. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risk of material misstatement of the Medical Loss Ratio Calculation, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

The Other Non-Claims Costs amount reported on the Adjusted Medical Loss Ratio Rebate Calculation has not been subjected to the procedures applied in the examination, and accordingly, we express no opinion on it.

The accompanying Adjusted Medical Loss Ratio were prepared for the purpose of complying with the criteria, and is not intended to be a complete presentation in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the above referenced accompanying Adjusted Medical Loss Ratio Rebate Calculation of UHC is presented in accordance with the above referenced criteria, in all material respects, and the Adjusted MLR Percentage Achieved exceeds the CMS minimum requirement of eighty-five percent (85%) for the period of July 1, 2017 through June 30, 2018.

This report is intended solely for the information and use of the Mississippi Division of Medicaid, Milliman, and UHC and is not intended to be and should not be used by anyone other than these specified parties.

| 16 | MLR percentage achieved | 99.2% | 0.0% | 99.2% |
| 17 | MLR percentage requirement for rebate calculation | 85.0% | | 85.0% |
| 18 | Percentage below 85% Requirement | 0.0% | | 0.0% |
| 19 | Dollar Amount of Rebate Requirement | \$ - | \$ - | \$ - |

*Minor footing variance due to rounding. Reported amounts have been rounded to match the as-filed report.

**The "Other Non-Claims Costs" line reported on the Medical Loss Ratio Rebate Calculation Report has not been subjected to the procedures applied in the examination, and accordingly, we express no opinion on it. However, any adjustments identified during the course of the examination procedures directly affecting the "Other Non-Claims Costs" line, will be properly reflected within the adjustment totals.

Schedule of Adjustments and Comments for the State Fiscal Year Ending June 30, 2018

During our examination we noted certain matters involving costs, that in our determination did not meet the definitions of allowable medical expenses and other operational matters that are presented for your consideration.

Adjustment #1 - To remove non-allowable cost included in HCQI

The health plan reported Health Care Quality Initiative/Health Information Technology (HCQI/HIT) expenses as a percent allocation based on project codes and utilized actual cost for its designated cost segments for the reporting period. Additionally, the health completed an MLR questionnaire to verify that the amounts reported on the as-filed MLR were accurate and in compliance with the reporting instructions. During this review, UHC self-identified an account associated with their Rally Connect service product that was included as Medicaid HCQI expense in error. The proposed adjustment removes this account from the Medicaid MLR calculation. The HCQI/HIT reporting requirements are addressed in the Exhibit D: Medical Loss Ratio (MLR) Requirements, the Medicaid Managed Care Final Rule 42 CFR § 438.89(e)(3), 45 CFR § 158.150, and 45 CFR § 158.151.

This is a newly identified finding for this examination and as such, we recommend that UHC revises its processes for reporting costs on the MLR Rebate Calculation Report to only include allowable expenses related to activities that improve health care quality in HCQI/HIT.

Proposed Adjustment:

| Line # | Line Description | Amount |
|---------------|--|---------------|
| 11 | HCQI and HIT administrative expenses from Income Statement | \$ (43,075) |

Health Plan Responses

Re: MLR Audit Report - MS CHIP

We have reviewed the audit report for the Mississippi MLR audit on the MS CHIP plan as of June 30, 2018. Our response to the recommended adjustment noted on the report is addressed below. If you require additional information, please let us know.

Adjustment #1 – To remove non-allowable cost included in HCQI

This is a newly identified finding for this examination and as such, we recommend that UHC revises its processes for reporting costs on the MLR Rebate Calculation Report to only include allowable expenses related to activities that improve health care quality in HCQI/HIT.

UHC Response:

The Company agrees to the proposed adjustment to remove the HCQI expenses related to the Rally Connect service product. The Company has also revised its processes to prevent future errors.

Thank you for allowing us the opportunity to address the audit findings. If we can be of any further assistance to you, please do not hesitate to contact us.
