- MSCAN/CHIP Procurement Protest $250,000
- Non-Emergent Transportation ($138,994)

Additional Direct State Funds Requested $0.00
FY 2023 Direct State Funds Request $899,915,751
The average annual Medicaid enrollment for the past seven state fiscal years excluding the Children’s Health Insurance Program (CHIP). Modified Adjusted Gross Income eligibility guidelines, required by the Affordable Care Act, took effect Jan. 1, 2014. Total enrollment subsequently peaked at 746,151 in March of 2015.
The figures above reflect the Medicaid enrollment count for each month over the past 12 months; they do not include Children’s Health Insurance Program (CHIP) beneficiaries. In order to receive FFCRA support, states were required to not take any adverse action on those who were eligible for benefits at the beginning of the COVID-19 public health emergency. Adverse actions include termination of eligibility or reduction in benefits. States were only allowed to take adverse action in cases of death, beneficiary moving out of state or the request for closure by the beneficiary.
Good customer service, fiscal prudence, and high integrity are fundamentals. These are required to accomplish any higher-level objectives.
