

Coordinated Care Procurement

This RFQ represents an evolution for the Division’s CCO program. The Division seeks vendors who will build on the foundation established over the past decade to improve health outcomes and quality of life for Members, which will in turn lead to lower costs for the state.

Coordinated care procurement includes new requirements and provisions

- ✓ In addition to a Medical Director, CCOs must employ a Perinatal Health Director and a Behavioral Health Director — all of whom are Miss.-licensed physicians
- ✓ Procurement will provide joint administrative CCO services for both MississippiCAN and the Children’s Health Insurance Program (CHIP)
- ✓ Care management partnerships — CCOs will be required to grow and invest in partnerships across different channels to have a robust referral network
- ✓ Care management requirements widely expanded to require closed-loop referrals, warm handoffs, standardized assignment of risk levels

INNOVATIONS

- Value-Based Purchasing
- Patient-Centered Medical Home

- Social Determinants of Health

- Value-Adds
- Performance Improvement Projects

- Health Literacy Campaigns
- Telehealth
- Use of Technology
- Potential Partnerships

HARNESSING THE FULL POTENTIAL OF COORDINATED CARE

With a 10-year foundation, this new procurement will lead MississippiCAN into a new era

QUALITY

- Emphasizes quality-based improvements, including approaches to performance improvement projects, value-adds, value-based purchasing, health literacy campaigns, and care management.

COLLABORATIVE INNOVATION

- Requires CCOs to propose delivery methods for quality-based initiatives. Winning vendors will be expected to collaborate with the Division to create uniform systems while providing consistency and ease of administrative burden for both providers and members.

ACCESS

- CCOs will be expected to address all barriers to access, whether those are geographic or based on Social Determinants of Health.

COMMITMENT

- Demands a true commitment to improvement of life for Mississippians, both through delivery of care, and a testament of their willingness to invest in communities through partnerships with other organizations throughout the state as well as investment in human capital.
