Compliance Validation Narrative with Provider Input

6/29/2020

1B) Setting removed privacy fence around yard.

1D/E/F) This setting operates independently from other homes/day program owned by provider in the immediate area. It should also be noted that 1D was marked in error during the original assessment, as there are no IID/ICF settings near this property.

1N) Setting individually assesses people to determine if they need staff supervision to access the yard. Staff members trained on person-centered policies and individual rights.

1P) Staff members work with individuals to determine activities and activities are chosen based off of individuals interests, abilities, and goals.

2C) Setting completed remediation plan to educate and train staff members to work with individuals and their families to review non-disability specific setting options before deciding to live on site.

2G) Staff members completed training with provider to ensure that individuals are supported to tour the setting and meet with potential housemates before deciding to live on site.

3B) Setting completed remediation and displayed new furniture and a clean home.

3F) The setting maintains all confidential information and conducts health/ medical conversations in private. Staff were trained on the requirements to keep individual schedules and other personal information secure.

3H) The setting completed a remediation plan to update their individual right's policies to include information and support to individuals on dignity of risk / self-determination. Individuals are supported to seek out privacy as desired to complete personal activities.

3K) Provider stated that each person was individually approached and assessed to determine if they would prefer to have a key to the home and to their bedrooms. Each individual decided they would like a key to the home and bedroom. Individual files were updated to include this information. Provider displayed new keyed locks for each bedroom.

3O) Staff displayed that all employee postings had been removed from the common areas of the home.

4A) Setting removed privacy fence around yard.

4C) Staff members work with individuals to determine activities and activities are chosen based off of individuals interests, abilities, and goals.

4E/8C/11P) Staff members were trained on person-centered policies and allowing individuals to eat in the location of their choosing.

4I/J) Staff members were trained to focus on individuals' rights and preferences. Individuals are supported to remain in the setting with an additional staff member if they do not want to participate in group activities or leave the setting.

7A/B/11Y/Z/12B) Provider stated that each person was individually approached and assessed to determine if they would prefer to have a key to the home and to their bedrooms. Each individual decided they would like a key to the home and bedroom. Individual files were updated to include this information. Provider displayed new keyed locks for each bedroom.

9C) The setting completed a remediation plan to update the individual right's policy to include dignity of risk and self-determination when it comes to making choices about their relationships with others. Individuals were educated and informed on their rights to meet with visitors privately as they choose. The setting also trained staff on these practices and removed other blanket restrictions such as no visitors of the opposite sex in the individual's room. Staff were educated on these procedures.

11T) Staff members were trained to encourage and support individuals to invite the people of their choosing to their planning meetings.

Evidence Submitted to DMH for Review: individual rights and person centered policies and procedures, training records, picture of yard without a privacy fence, picture of walls without postings in common areas, pictures of up to date furniture in the home, pictures of the inside of the home that appeared to be well kept and pictures of bedroom doors that lock.
