Combined Earned and Unearned Income

Part 1: Joe is 20, single, not blind, and a full-time college student. He doesn't provide more than half of his own support. His parents claim him as a dependent. He received \$200 taxable interest income and earned \$247.50 per month/\$2,750 annually from a part-time job. His gross income of \$2,950 (\$200 interest plus \$2,750 in wages) is not more than \$3,100, the amount on line 5 of "Required to File" worksheet. Joe is not required to file. His income does **not** count in the Medicaid budget. See **Computation 1** below.

Part 2: Same situation as above except Joe had \$600 taxable interest income. His gross income of \$3,350 (\$600 interest plus \$2,750 wages) is more than \$3,100, which is the total of his wages plus \$350 and the amount entered on line 5 of the "Required to File" worksheet. Joe is required to file. His income counts in the Medicaid budget. See **Computation 2** below.

Computation 1			Computation 2		
1.	Earned Income + \$350 = (\$2,750 + \$350)	\$3,100	1.	Earned Income + \$350 = (\$2,750 + \$350)	\$3,100
2.	Minimum Amount	\$1,100	2.	Minimum Amount	\$1,100
3.	Enter Larger of Lines 1 & 2	\$3,100	3.	Enter Larger of Lines 1 & 2	\$3,100
4.	Maximum Amount	\$12,550	4.	Maximum Amount	\$12,550
5.	Enter Smaller of Lines 3 & 4	\$3,100	5.	Enter Smaller of Lines 3 & 4	\$3,100
6.	Dependent's Gross Income (\$2,750 + \$200)	\$2,950	6.	Dependent's Gross Income (\$2,750 + \$600)	\$3,350
Joe is <u>not required to file</u> because \$2,950 is less than \$3,100 (Line 6 is less than Line 5). His income does not count in the Medicaid budget for his parents' and/or siblings' eligibility.
