

August 12, 2022

The Mississippi Ambulance Alliance (MAA) and the Mississippi Division of Medicaid (DOM) have been working together to meet deadlines and get the Transforming Reimbursement for Emergency Ambulance Transportation (TREAT) program up and running!

The next steps require your participation.

Please join us for an educational event to discuss the “next steps” moving forward. We encourage you to invite your staff who will be involved in completing the financial forms for submission to DOM. Note - your correct payment depends on this information as does your company’s success with the program.

DOM and MAA will be hosting virtual meetings the week of August 22, 2022.

The meetings will be held very soon and in order to ensure your participation, we have set up three opportunities for you and your staff to attend. You will only need to attend one session. This meeting will be an opportunity to review the forms and ask questions about the program.

We have a quick turnaround on this information, so it is of the utmost importance to attend and understand how to complete the forms accurately. You will be receiving an email invite with the meeting dates and times. Please share the invite with all in your company who need to attend.

Sincerely,

MAA Board of Directors
MS Division of Medicaid
