Mississippi Division of Medicaid
Walter Sillers Building
550 High Street, Suite 1000
Jackson, MS 39201

RE: RFQ # 20211210; RFx # 3150003991 - MississippiCAN and CHIP

Dear Procurement Officer:

UnitedHealthcare of Mississippi, Inc. is pleased to submit a proposal in response to RFQ # 20211210; RFx # 3150003991. As required by Section 4 of the RFQ, this proposal includes the following sections:

1. Transmittal Letter (Marked)
2. Technical Factors (Unmarked)
3. Management Factors (Marked)

UnitedHealthcare's mission is to help people live healthier lives. We provide managed care services to 7,690,000 Medicaid, CHIP and Dual Special Needs Plan (D-SNP) members in 31 states plus the District of Columbia. In Mississippi, we work closely with the Division of Medicaid to provide services to 162,000 members under the Mississippi Coordinated Access Network (MississippiCAN) program and 28,000 members under the Mississippi Children's Health Insurance Program (CHIP). We look forward to continuing our partnership with the Division of Medicaid.

In accordance with Section 4.1 of the RFQ, UnitedHealthcare of Mississippi, Inc. has provided the responses to the following questions:

1. A statement indicating that the Offeror is a corporation or other legal entity;

The bidding entity, UnitedHealthcare of Mississippi, Inc., is a corporation operating under the brand UnitedHealthcare Community Plan of Mississippi (UnitedHealthcare).

2. A statement confirming that the Offeror is registered to do business and in "Good Standing" with the State of Mississippi and providing their corporate charter number to work in Mississippi, if applicable;

The bidding entity, UnitedHealthcare of Mississippi, Inc. is registered to do business and is in "Good Standing" with the State of Mississippi. Our corporate charter number is CN22129230. Please refer to **Att. 4.1-1 Certificate of Good Standing - Mississippi.**

3. A statement confirming that the Offeror has been licensed by the Mississippi Insurance Department (MID) accompanied by a copy of the license; or evidence that an application for license in Mississippi has been submitted to the Mississippi DOI at the time of qualification submission. (Note: If selected, the Offeror shall be required to provide evidence that a license has been obtained before offering or providing services to Members);

The bidding entity, UnitedHealthcare of Mississippi, Inc. is licensed by the Mississippi Department of Insurance. Our license number is 9500034. Please refer to **Att. 4.1-2 Mississippi Certificate of Authority**.

4. A statement identifying the Offeror's Federal tax identification number;

The bidding entity, UnitedHealthcare of Mississippi, Inc.'s Federal Tax ID number is 63-1036817.

5. A statement confirming that the Offeror has not been sanctioned by a state or federal government within the last ten (10) years;

In the normal course of business, UnitedHealthcare is regularly audited and reviewed by our state and federal regulators. Any deficiency requiring corrective action is handled in a thorough and timely manner. We work collaboratively with our regulators on each and every matter, achieving resolution, issuing a formal response and closing out the matter accordingly. The bidding entity, UnitedHealthcare of Mississippi, Inc., has been sanctioned by a state or federal government within the last 10 years, as listed in **Att. 4.1-3 UnitedHealthcare of Mississippi, Inc. Sanctions Listing.**

6. A statement confirming that the Offeror is not suspended or debarred under federal law and regulations or any other state's laws or regulations;

The bidding entity, UnitedHealthcare of Mississippi, Inc. is not presently suspended or debarred under federal law and regulations or any other state's laws or regulations.

7. A statement confirming that the Offeror has experience in contractual services providing the type of services described in this RFQ. All experience provided will be considered;

UnitedHealthcare has experience in contractual services providing the type of services described in RFQ # 20211210; RFx # 3150003991.

8. A statement that, if the Offeror is awarded the Contract, the Contractor agrees that any lost or reduced Federal matching money resulting from unacceptable performance of a Contractor task or responsibility, as defined in this RFQ, shall be accompanied by reductions in State payments to the Contractor;

If awarded the Contract, UnitedHealthcare of Mississippi, Inc. agrees that any lost or reduced federal matching money resulting from unacceptable performance of a UnitedHealthcare of Mississippi, Inc. task or responsibility, as defined in the RFQ, shall be accompanied by reductions in State payments to UnitedHealthcare of Mississippi, Inc.

9. A statement identifying any prior project where the Offeror was terminated prior to the end of the Contract period;

The bidding entity, UnitedHealthcare of Mississippi, Inc. has not been terminated prior to the end of the Contract period for any reason.

10. A statement that no attempt has been made or will be made by the Offeror to induce any other person or firm to submit or not to submit a qualification;

The bidding entity, UnitedHealthcare of Mississippi, Inc. has made no attempt, nor will it make any attempt, to induce any other person or firm to submit or not submit a qualification.

11. A statement that the Offeror has not violated, is not violating, and promises that it will not violate the prohibition against gratuities set which is guided by the previous provisions of the Mississippi Public Procurement Review Board Office of Personal Service Contract Review Rules and Regulations, a copy of which is available at 501 North West Street, Suite 701E, Jackson, Mississippi 39201 for inspection, or downloadable at http://www.DFA.ms.gov.

UnitedHealthcare of Mississippi, Inc. has not violated, is not violating, and promises that it will not violate the prohibition against gratuities set forth in the previous provisions of the Mississippi Public Procurement Review Board Office of Personal Service Contract Review Rules and Regulations.

12. A statement of Affirmative Action, that the Offeror does not discriminate in its employment practices with regard to race, color, religion, age (except as provided by law), sex, marital status, political affiliation, national origin, disability or genetic information;

UnitedHealthcare does not discriminate in its employment practices with regard to race, color, religion, age (except as provided by law), sex, marital status, political affiliation, national origin, disability or genetic information. Please refer to **Att. 4.1-4 2022 EEO Affirmative Action Statement of Policy.**

13. A statement that the Offeror agrees to the language of the Division's BAA and DUA without expectation of negotiation;

UnitedHealthcare agrees to the language in the Division's BAA and DUA without expectation of negotiation.

14. A statement identifying by number and date all amendments to this RFQ issued by the Division which have been received by the Offeror. If no amendments have been received, a statement to that effect should be included;

As of the date of this Transmittal Letter, UnitedHealthcare has received Amendments 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 and 12 from the Division of Medicaid related to RFQ # 20211210; RFx # 3150003991. Amendments 1, 2 and 3 were all issued on Jan. 21, 2022. Amendments 4, 5, 6, 7 and 8 were issued on Feb. 8, 2022. Amendments 9, 10 and 11 were issued on Feb. 10, 2022. Amendment 12 was issued on Feb. 16, 2022.

15. A statement that the Offeror has read, understands and agrees to all provisions of this RFQ without reservation and without expectation of negotiation;

UnitedHealthcare of Mississippi, Inc., has read, understands and agrees to all provisions of the RFQ without reservation and without expectation of negotiation.

16. Certification that the Offeror's qualification will be firm and binding for three hundred sixty-five (365) days from the qualification due date;

UnitedHealthcare of Mississippi, Inc., certifies that this qualification is firm and binding for three hundred sixty-five (365) days from the qualification due date.

17. A statement naming any outside firms responsible for writing the qualification;

UnitedHealthcare has complete responsibility for developing the strategy, methods, proposed offerings, intellectual property and writing of the RFQ. As part of our staffing model, we use some temporary labor from Optimetra, Inc., Writing Assistance, Inc. and the Menges Group, who are accountable to UnitedHealthcare leadership.

18. If the use of Subcontractor(s) is proposed, a statement from each Subcontractor must be appended to the Transmittal Letter signed by an individual authorized to legally bind the Subcontractor and stating the general scope of work to be performed by the Subcontractor(s);

Please refer to **Att. 4.1-5 Subcontractor Statements**, which includes a statement from each subcontractor we use, along with an overview of the general scope of work to be performed by the subcontractor.

19. All qualifications submitted by corporations must contain certifications by the secretary, or other appropriate corporate official other than the corporate official signing the corporate qualification, that the corporate official signing the corporate qualification has the full authority to obligate and bind the corporation to the terms, conditions, and provisions of the qualification;

Please refer to **Att. 4.1-6 Assistant Secretary Certificate** for the certification by Heather A. Lang, Assistant Secretary of UnitedHealthcare of Mississippi, Inc., that the corporate official signing the corporate proposal has the full authority to obligate and bind the corporation to the terms, conditions and provisions of the proposal.

20. All qualifications submitted must include a statement that the Offeror presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of services under this Contract, and it shall not employ, in the performance of this Contract, any person having such interest;

UnitedHealthcare of Mississippi, Inc. presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of services under the Contract, and it shall not employ, in the performance of the Contract, any person having such interest.

21. A statement that no public disclosure or news release pertaining to this procurement shall be made without prior written approval of the Division; and

UnitedHealthcare of Mississippi, Inc. will make no public disclosure or news release pertaining to this procurement without prior written approval of the Division.

22. A statement that the Offeror's redacted electronic, single-document qualification referenced in 1.4.2, Release of Public Information, does not contain trade secrets or other proprietary information.

UnitedHealthcare of Mississippi, Inc. confirms that our redacted electronic, single-document qualification does not contain trade secrets or other proprietary information.

23. A statement that the Offeror has executed and included with the Transmittal Letter the following Certifications, located in Appendix D:

a. Certifications and Assurances Regarding Contingent Fees and Gratuities;

b. DHHS Certification Regarding Drug-Free Workplace Requirements: Grantees Other than Individuals (This document must be executed by the Offeror as well as any expected Subcontractors and submitted with the Offeror's qualification); and

c. DHHS Certification Regarding Debarment, Suspension, and Other Responsibility Matters

UnitedHealthcare of Mississippi, Inc. confirms that we have executed and included with the Transmittal Letter, **Appendix D-1 Certifications and Assurances Regarding Contingent Fees and Gratuities**, **Appendix D-2 DHHS Certification Regarding Drug-Free Workplace Requirements** and **Appendix D-3 DHHS Certification Regarding Debarment, Suspension, and Other Responsibility Matters.**

24. Additionally, if the qualification deviates from the detailed specifications and requirements of the RFQ, the transmittal letter shall identify and explain these deviations. The Division reserves the right to reject any qualification containing such deviations or to require modifications before acceptance.

United Healthcare of Mississippi, Inc. has not deviated from the detailed specifications and requirements of the RFQ.

UnitedHealthcare of Mississippi, Inc. looks forward to a continued partnership with the Mississippi Division of Medicaid in its endeavor to focus on quality improvement, collaborative innovation, access to care, and a true commitment to improvement of life for Mississippians. We have the experience and expertise to support and implement the Division's goals for the MississippiCAN and CHIP and its members.

Att. 4.1-1 Certificate of Good Standing

Michael Watson
SECRETARY OF STATE

Office of the Secretary of State
Jackson, Mississippi

Certificate of Good Standing

I, MICHAEL WATSON, Secretary of State of the State of Mississippi, and as such, the legal custodian of the records as required by the laws of Mississippi, to be filed in my office, do hereby certify:

That on the 6th day of August, 1990, the State of Mississippi issued a Charter/ Certificate of Authority to:

UNITEDHEALTHCARE OF MISSISSIPPI, INC.

That the state of incorporation is Mississippi.

That the period of duration is perpetual.

That according to the records of this office, Articles of Dissolution or a Certificate of Withdrawal have not been filed.

That according to the records of this office, a current Annual Report has been delivered to the Office of the Secretary of State.

I further certify that all fees, taxes and penalties owed to this state, as reflected in the records of the Secretary of State, have been paid and that the corporation is in existence or has authority to transact business in Mississippi.

That insofar as the records of this office are concerned, the said UnitedHealthcare of Mississippi, Inc. is in good standing at this time.

Given under my hand and seal of office
the 20th day of January, 2022

Michael Watson

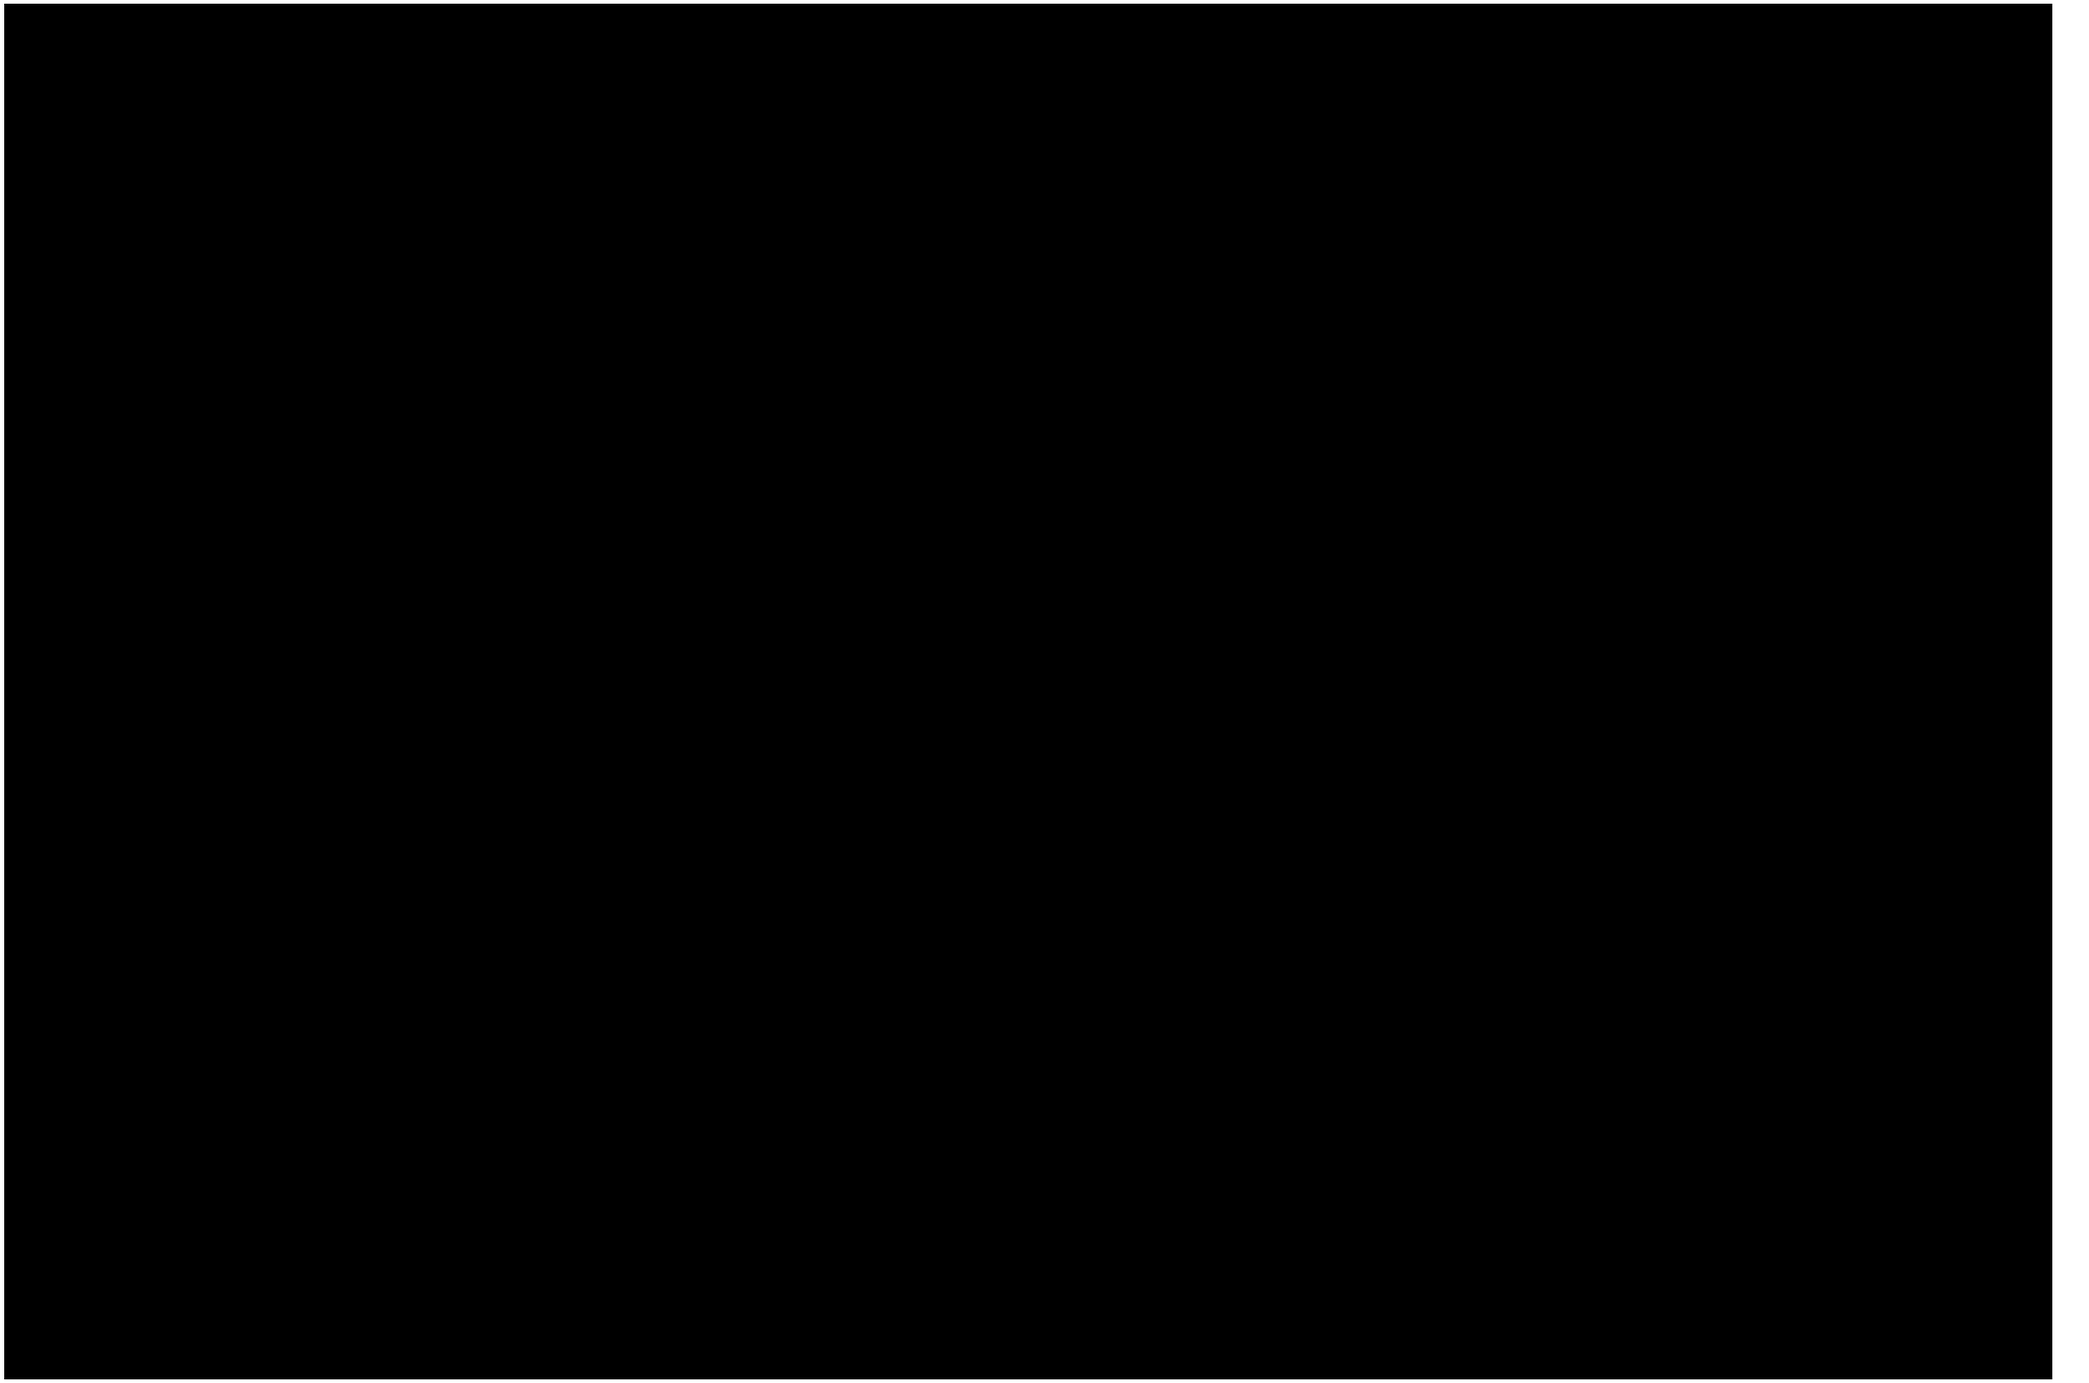
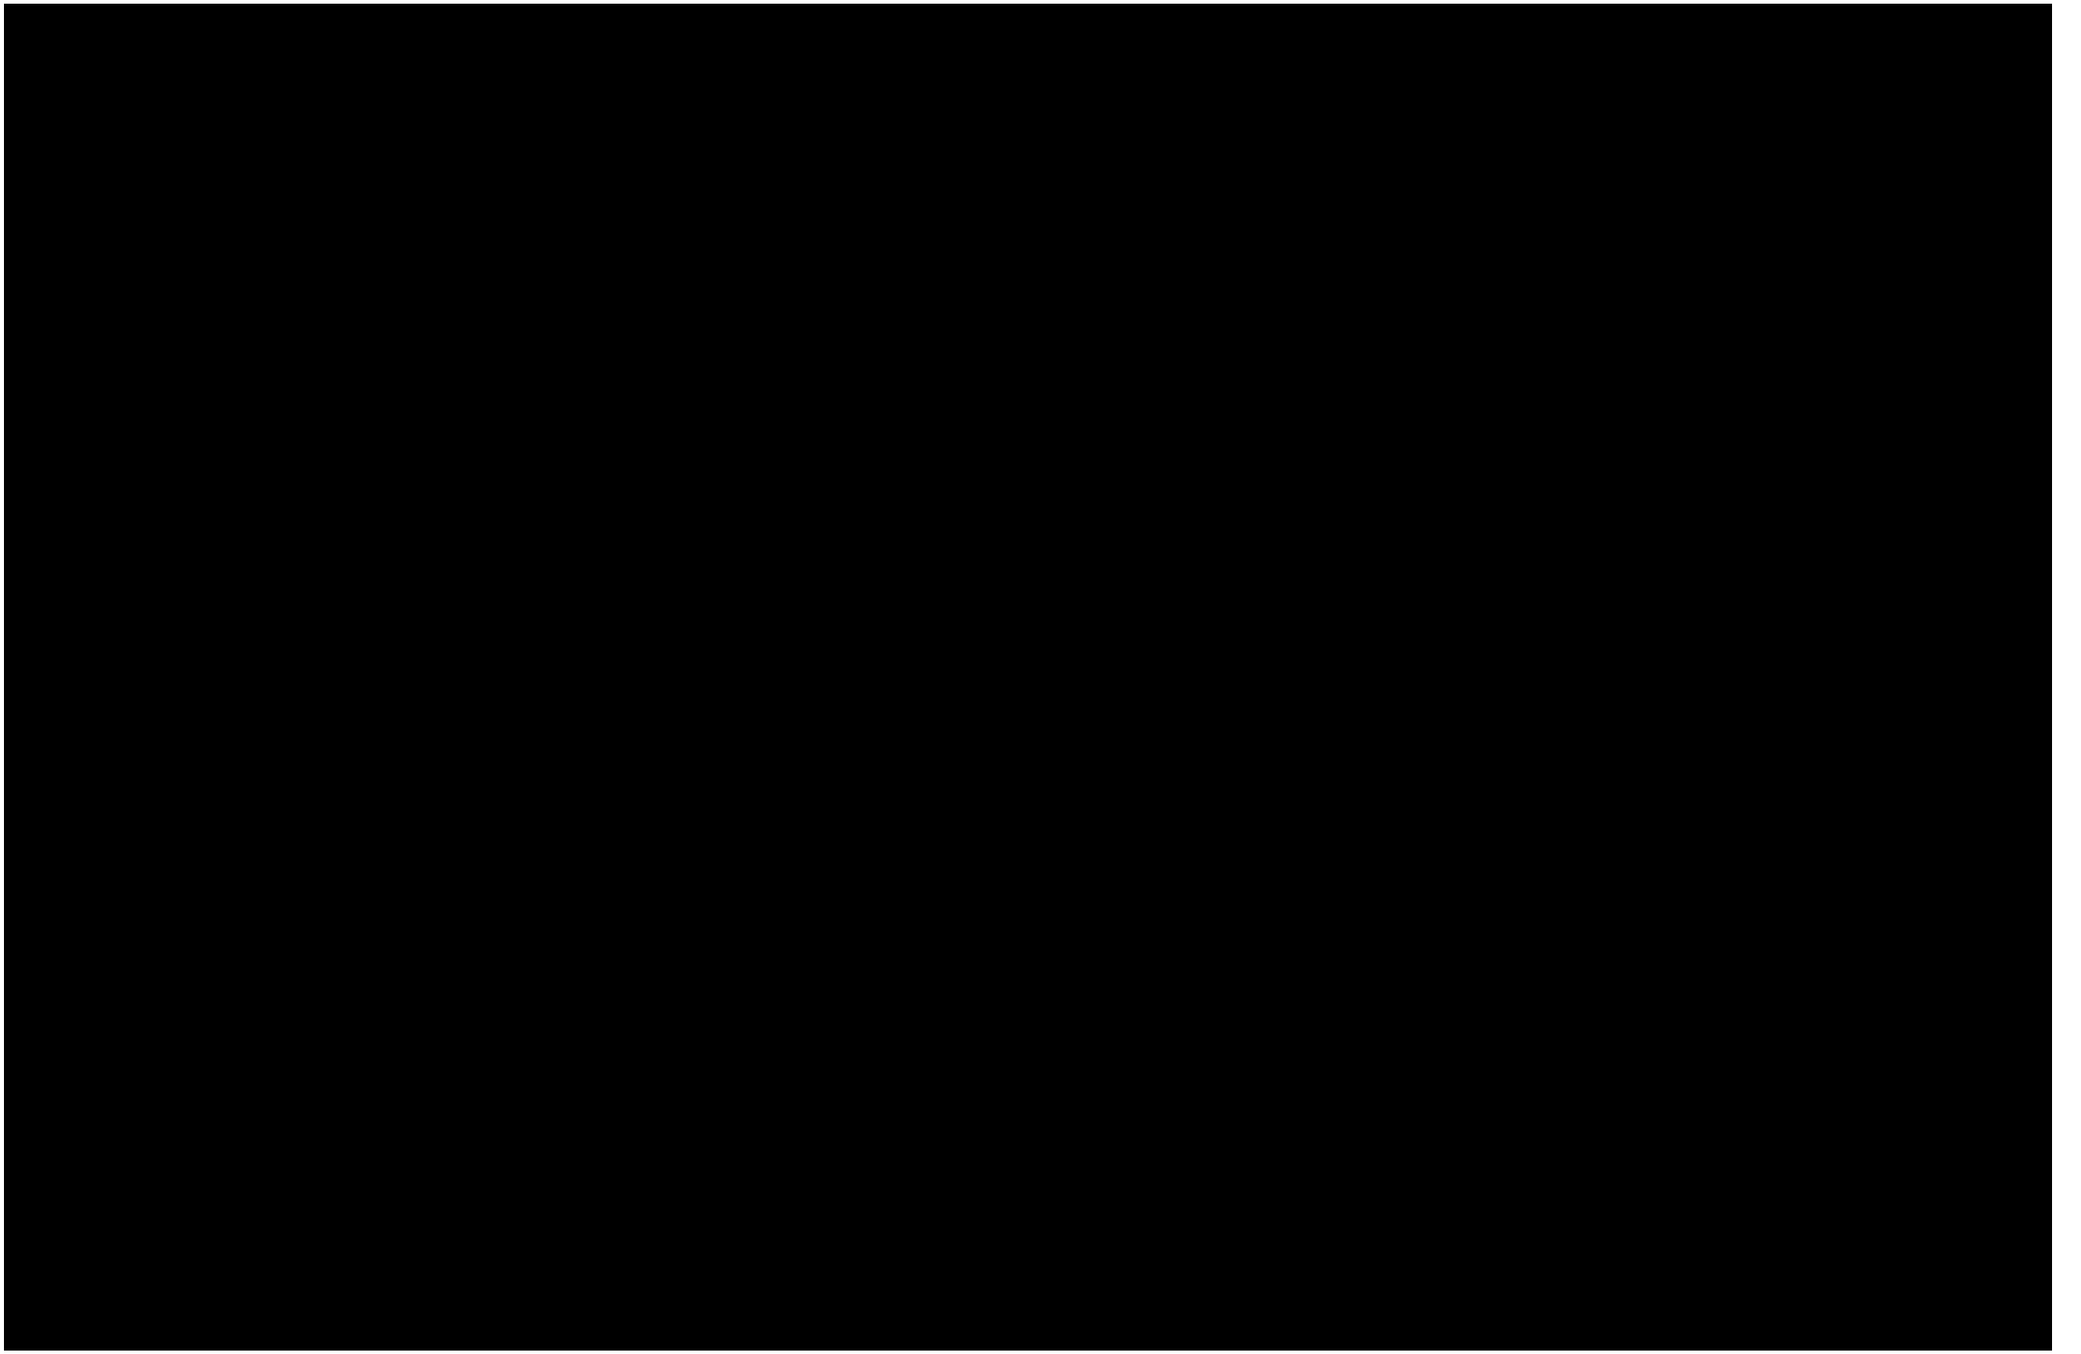
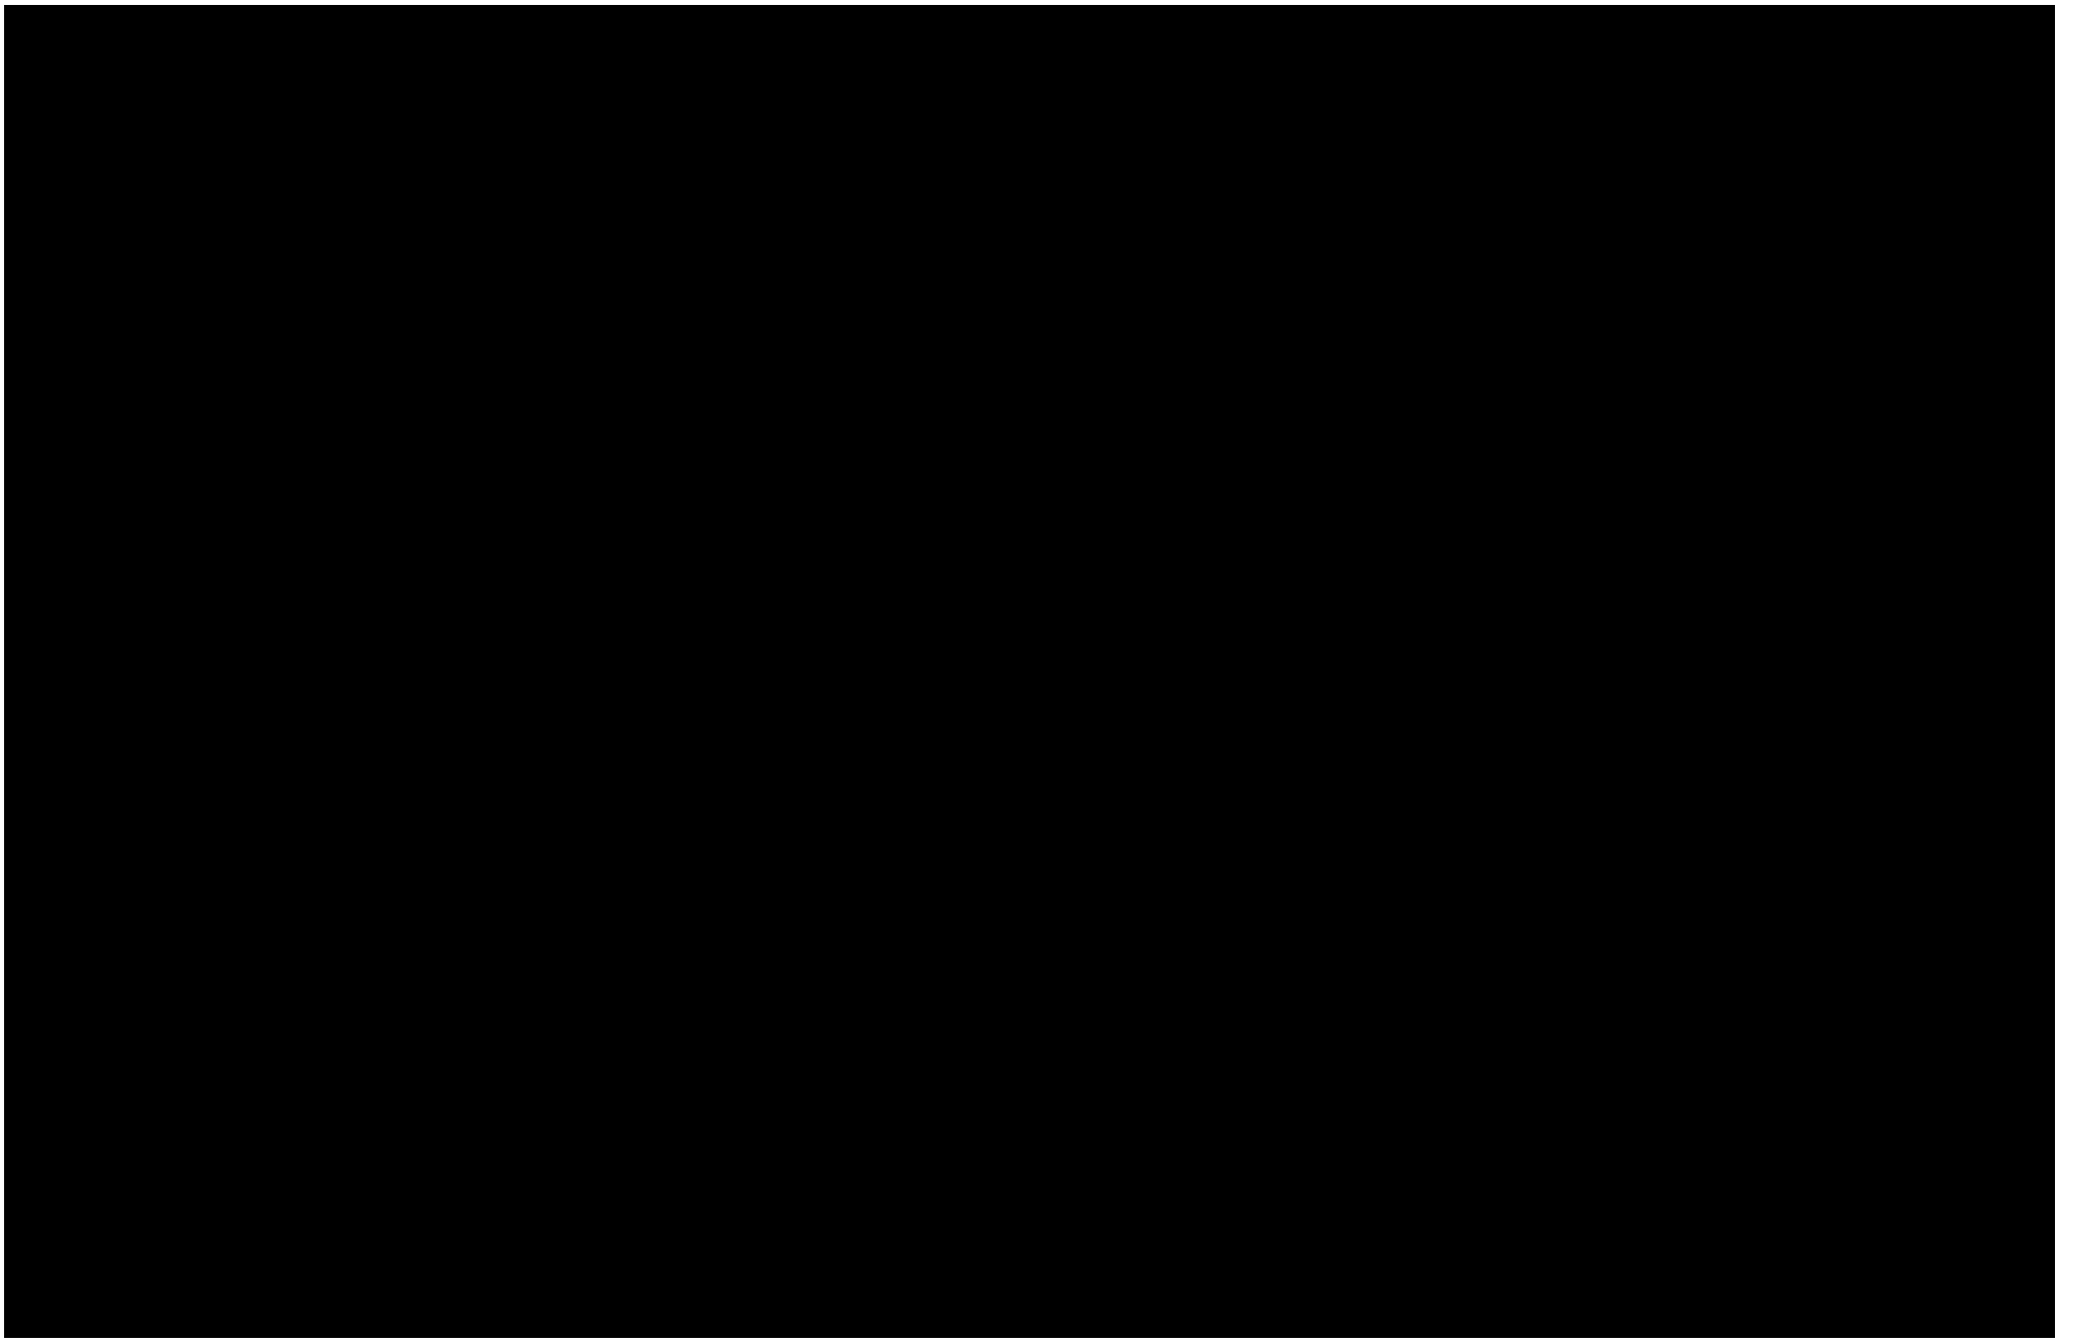
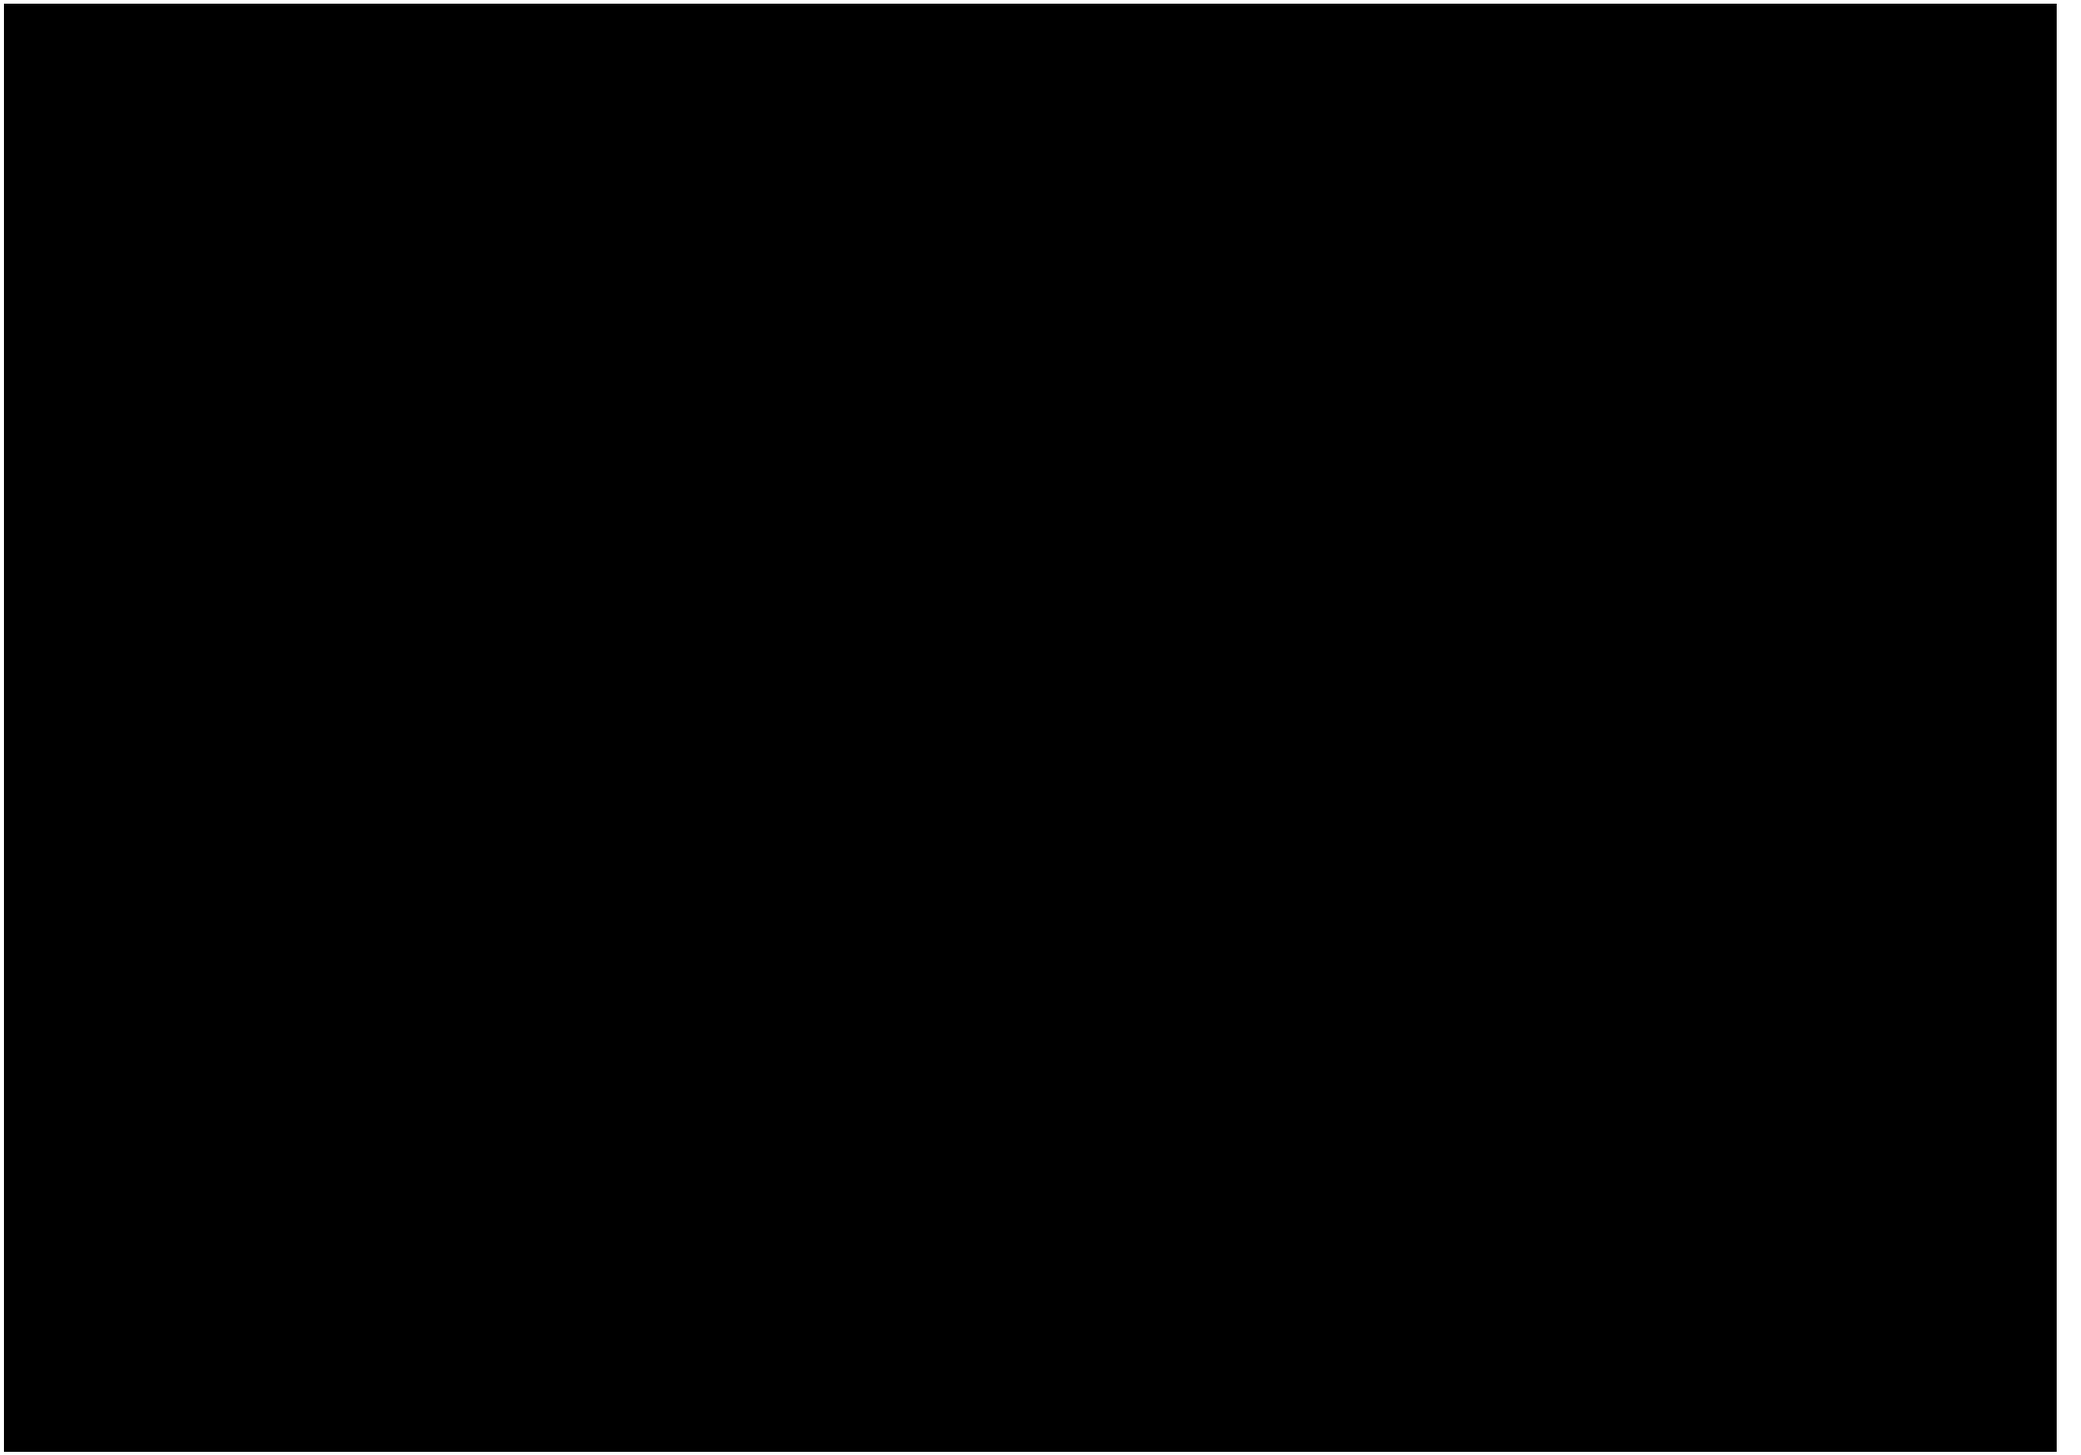
Att. 4.1-3 UnitedHealthcare of Mississippi, Inc. Sanctions Listing









Att. 4.1-4 Equal Employment Opportunity (EEO) Affirmative Action 2022 Statement of Policy

STATEMENT OF POLICY

UnitedHealth Group has a commitment to Equal Employment Opportunity (EEO) and to a work environment free of harassment. The policy of UnitedHealth Group is that people will be employed and promoted on the basis of their individual qualifications for the job and it is therefore the company's policy to prohibit discrimination and harassment against any applicant, employee, vendor, contractor, customer, or client on the basis of race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, pregnancy, veteran status, genetic information, citizenship status, or any other basis prohibited by federal, state or local laws.

UnitedHealth Group will provide:

1. freedom from abusive, intimidating or offensive behavior on the part of supervisors or other employees. In this regard it should be understood that harassment of any sort will not be tolerated, and that term includes derogatory ethnic, racial or sexist remarks;
2. freedom from sexual harassment. This refers to behavior which is not welcome, which is personally offensive, and which interferes with the work effectiveness of its victims and their co-workers. A separate communication on this subject further amplifies the Policy and is distributed to all employees;
3. freedom from any form of discrimination or intimidating or abusive behavior on the part of any supervisor or other employee as a result of a person's sexual orientation or gender identity;
4. benefits and services as outlined in Company publications; and

UnitedHealth Group is also a federal contractor subject to Executive Order 11246, Section 4212 of the Vietnam Era Veterans' Readjustment Assistance Act of 1974, as amended ("Section 4212") and Section 503 of the Rehabilitation Act of 1973, as amended ("Section 503"). As such, UnitedHealth Group is committed to taking positive steps to implement the employment-related aspects of the company's equal opportunity policy. Accordingly, it is UnitedHealth Group's policy to take affirmative action to employ, advance in employment, and otherwise treat qualified minorities, women, protected veterans, and individuals with disabilities without regard to their race/ethnicity, sex/sexual orientation/gender identity, veteran status, or physical or mental disability. Under this policy, UnitedHealth Group will provide reasonable accommodation to the known physical or mental limitations of an otherwise qualified employee or applicant for employment, unless the accommodation would impose undue hardship on the operation of the company's business.

The company's affirmative action policy also prohibits employees and applicants from being subjected to harassment, intimidation, threats, coercion, or discrimination because they have engaged in or may engage in (1) filing a complaint; (2) assisting or participating in an investigation, compliance review, hearing, or any other activity related to the administration of Section 503, Section 4212, or any other Federal, state or local law requiring equal opportunity for disabled

persons or covered veterans; (3) opposing any act or practice made unlawful by Section 503 or Section 4212 and their implementing regulations, or any other Federal, state or local law requiring equal opportunity for disabled persons or covered veterans; or (4) exercising any other right protected by Section 503 or Section 4212 or their implementing regulations.

The non-confidential portions of the affirmative action program for individuals with disabilities and protected veterans shall be available for inspection upon request by any employee or applicant for employment by contacting HR direct.

Anyone with a question about UnitedHealth Group's Equal Employment Opportunity Policy should contact HRdirect at 1-800-561-0861. All concerns will be handled in confidence.

If you would like to review the Affirmative Action Plan, or need an accommodation, you may contact HR direct at 1-800-561-0861 between the hours of 7:00am and 7:00pm central time, Monday through Friday, or write HR direct Employee Relations at MN008-W210, 9900 Bren Road E., Minnetonka, MN 55343.

A person's race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, pregnancy, veteran status, genetic information, or citizenship status must not affect our estimation of their character if we are to achieve the objectives of our business, our society, and our country. These moral and economic reasons for supporting the Company policy of nondiscrimination are to be of primary concern to all employees.

Joy Fitzgerald, Chief Diversity Equity and Inclusion Officer

Att. 4.1-6 Assistant Secretary Certificate

ASSISTANT SECRETARY'S CERTIFICATE

I, Heather A. Lang, the undersigned, hereby certify as follows:

1. That I am a duly elected Assistant Secretary of UnitedHealthcare of Mississippi, Inc., a Mississippi corporation (the "Corporation").

2. That effective July 23, 2007, the Board of Directors of the Corporation, by unanimous Written Consent, adopted the UnitedHealth Group Delegation of Binding Authority Policy and associated guidelines, schedules and supplemental materials (the "Policy") and that a true, correct, and complete copy of those resolutions are attached as Exhibit A to this Certificate, which resolutions have not been amended, repealed, or rescinded and remain in full force and effect.

3. That the Board of Directors of the Corporation has, and at the time of the adoption of the resolutions had, full power and lawful authority to adopt the resolutions and to confer the powers thereby granted to the titles therein named, who have full power and lawful authority to exercise the same.

4. That pursuant to the duly adopted Policy, J. Michael Parnell, holding positions as President and Chief Executive Officer of the Corporation, has been delegated authority to act on behalf of the Corporation in connection with certain agreements including Requests for Qualification ("RFQ") and Requests for Proposal ("RFP") contracts in the State of Mississippi.

5. That Mr. Parnell has authority to sign documents on behalf of the Corporation in connection with the State of Mississippi Division of Medicaid Coordinated Care RFQ.

IN WITNESS WHEREOF, I have hereunto set my hand this 1 day of February 2022.

Heather A. Lang
Assistant Secretary
UnitedHealthcare of Mississippi, Inc.

THIS CORPORATION HAS
NO CORPORATE SEAL

EXHIBIT A

Adoption of UnitedHealth Group Delegation of Binding Authority Policy

WHEREAS, UnitedHealth Group Incorporated, a Minnesota corporation and the ultimate parent of the Corporation ("United"), has established the UnitedHealth Group Delegation of Binding Authority Policy and associated guidelines, schedules, and supplemental materials (collectively, the "Policy") to ensure that actions taken by United's direct and indirect subsidiaries are approved by individuals with an adequate level of seniority and with the involvement of appropriate subject matter experts.

WHEREAS, a copy of the Policy has been provided to the Board of Directors of the Corporation and the Policy, as it may be amended and supplemented from time to time, will be available to the Corporation and its officers, directors, and employees through United's intranet or upon request to United.

WHEREAS, the Corporation desires to adopt the Policy and authorize certain persons to act on behalf of the Corporation.

NOW, THEREFORE, BE IT RESOLVED, that the Policy, as it currently exists and as it may be amended and supplemented from time to time, is hereby adopted by the Corporation.

RESOLVED FURTHER, that, once all necessary approvals have been obtained pursuant to the Policy, the following categories of persons are hereby authorized to act on behalf of the Corporation, including, without limitation, executing contracts in the name of the Corporation:

(1) Any officer of the Corporation.

(2) Any person who, alone or as part of a group of persons, is authorized to approve a particular type of transaction under the Policy (including any "Transaction Authorizer" or "Transaction Approver" as those terms are used in the Policy) is authorized to act on behalf of the Corporation with respect to such type of transaction.

(3) Any person who, in accordance with the Policy, has been properly sub-delegated authority to approve a particular type of transaction under the Policy, is authorized to act on behalf of the Corporation with respect to such type of transaction.

RESOLVED FURTHER, that the Secretary, any Assistant Secretary or any other officer of the Corporation is authorized to certify to the adoption of these resolutions and the authority of persons authorized hereby to act on behalf of the Corporation.

RESOLVED FURTHER, that each of the Corporation's officers is authorized to take any and all actions which they or any of them deem necessary or appropriate in order to effectuate the intent and purposes of the foregoing resolutions, including the execution and delivery of such other documents, instruments, or certificates as they or any of them deem necessary or appropriate.

Certifications and Assurances Regarding Contingency Fees and Gratuities

Instructions: Mark the applicable word for each certification provided below. Failure to mark the applicable word or words and/or to sign the qualification form may result in the qualification being rejected as nonresponsive. Modifications or additions to any portion of this qualification document may be cause for rejection of the qualification.

Certifications:
I/We make the following certifications and assurances as a required element of the qualification to which it is attached, of the understanding that the truthfulness of the facts affirmed here and the continued compliance with these requirements are conditions precedent to the award or continuation of the related contract(s) by circling the applicable word or words in each paragraph below:

1. Representation Regarding Contingent Fees

The Offeror represents that it [ ] **has [X] has not** retained a person to solicit or secure a state contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except as disclosed in Contractor's qualification.

2. Representation Regarding Gratuities

The Offeror represents that it [ ] **has [X] has not** violated, is not violating, and promises that it will not violate the prohibition against gratuities set forth in Section 6-204 (Gratuities) of the Mississippi Public Procurement Review Board Rules and Regulations.

3. Prospective Contractor's Representation Regarding Contingent Fees

The prospective Contractor (Offeror) represents as a part of such Contractor's qualification that such Contractor [ ] **has [X] has not** retained any person or agency on a percentage, commission, or other contingent arrangement to secure this contract.

Appendix D-2 DHHS Certification Regarding Drug-Free Workplace Requirements

DHHS Certification Regarding Drug-Free Workplace Requirements: Grantees Other than Individuals

Instructions for Certification: By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

1) This certification is required by regulations implementing the Drug-Free Act of 1988, 45 C.F.R. Part 76, Subpart F. The regulations, published in the May 25, 1990, Federal Register, require certification by grantees that they will maintain a drug-free workplace. The certification set out below is a material representation of fact upon which reliance will be placed when the Department of Health and Human Services (HHS) determines to award the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, HHS, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

2) Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

3) Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

4) If the workplace identified to the Division changes during the performance of the grant, the grantee shall inform the Division of the change(s), if it previously identified the workplaces in question (see above).

5) Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

    a. "Controlled substance" means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 C.F.R. § 1308.11 through § 1308.15);

    b. "Conviction" means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

    c. “Criminal drug statute" means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

    d. "Employee" means the employee of a grantee directly engaged in the performance of work under a grant, including (i) all direct charge employees; (ii) all indirect charge

employees unless their impact or involvement is insignificant to the performance of the grant; and (iii) temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

The grantee certifies that it will or will continue to provide a drug-free workplace by:

A. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

B. Establishing an ongoing drug-free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace;

(2) the grantee's policy of maintaining a drug-free workplace;

(3) any available drug counseling, rehabilitation, and employee assistance programs; and

(4) the penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

C. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

D. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will:

(1) Abide by the terms of the statement; and

(2) notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

E. Notifying the Division in writing, within ten calendar days after receiving notice under paragraph D(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

F. Taking one of the following actions, within 30 calendar days of receiving notice under paragraph D(2), with respect to any employee who is so convicted:

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

G. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs A, B, C, D, E, and F.

The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant (use attachments if needed. If attachments are needed, use the table provided below):

DHHS Certification Regarding Drug-Free Workplace Requirements: Grantees Other than Individuals

Instructions for Certification: By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

1) This certification is required by regulations implementing the Drug-Free Act of 1988, 45 C.F.R. Part 76, Subpart F. The regulations, published in the May 25, 1990, Federal Register, require certification by grantees that they will maintain a drug-free workplace. The certification set out below is a material representation of fact upon which reliance will be placed when the Department of Health and Human Services (HHS) determines to award the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, HHS, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

2) Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

3) Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performsers in concert halls or radio studios).

4) If the workplace identified to the Division changes during the performance of the grant, the grantee shall inform the Division of the change(s), if it previously identified the workplaces in question (see above).

5) Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

    a. "Controlled substance" means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 C.F.R. § 1308.11 through § 1308.15);

    b. "Conviction" means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

    c. “Criminal drug statute" means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

    d. "Employee" means the employee of a grantee directly engaged in the performance of work under a grant, including (i) all direct charge employees; (ii) all indirect charge

employees unless their impact or involvement is insignificant to the performance of the grant; and (iii) temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

The grantee certifies that it will or will continue to provide a drug-free workplace by:

A. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

B. Establishing an ongoing drug-free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace;

(2) the grantee's policy of maintaining a drug-free workplace;

(3) any available drug counseling, rehabilitation, and employee assistance programs; and

(4) the penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

C. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

D. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will:

(1) Abide by the terms of the statement; and

(2) notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

E. Notifying the Division in writing, within ten calendar days after receiving notice under paragraph D(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

F. Taking one of the following actions, within 30 calendar days of receiving notice under paragraph D(2), with respect to any employee who is so convicted:

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

G. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs A, B, C, D, E, and F.

DHHS Certification Regarding Drug-Free Workplace Requirements: Grantees Other than Individuals

Instructions for Certification: By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

1) This certification is required by regulations implementing the Drug-Free Act of 1988, 45 C.F.R. Part 76, Subpart F. The regulations, published in the May 25, 1990, Federal Register, require certification by grantees that they will maintain a drug-free workplace. The certification set out below is a material representation of fact upon which reliance will be placed when the Department of Health and Human Services (HHS) determines to award the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, HHS, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

2) Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

3) Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performsers in concert halls or radio studios).

4) If the workplace identified to the Division changes during the performance of the grant, the grantee shall inform the Division of the change(s), if it previously identified the workplaces in question (see above).

5) Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

    a. "Controlled substance" means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 C.F.R. § 1308.11 through § 1308.15);

    b. "Conviction" means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

    c. “Criminal drug statute" means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

    d. "Employee" means the employee of a grantee directly engaged in the performance of work under a grant, including (i) all direct charge employees; (ii) all indirect charge

employees unless their impact or involvement is insignificant to the performance of the grant; and (iii) temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

The grantee certifies that it will or will continue to provide a drug-free workplace by:

A. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

B. Establishing an ongoing drug-free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace;

(2) the grantee's policy of maintaining a drug-free workplace;

(3) any available drug counseling, rehabilitation, and employee assistance programs; and

(4) the penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

C. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

D. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will:

(1) Abide by the terms of the statement; and

(2) notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

E. Notifying the Division in writing, within ten calendar days after receiving notice under paragraph D(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

F. Taking one of the following actions, within 30 calendar days of receiving notice under paragraph D(2), with respect to any employee who is so convicted:

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

G. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs A, B, C, D, E, and F.

The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant (use attachments if needed. If attachments are needed, use the table provided below):

DHHS Certification Regarding Drug-Free Workplace Requirements: Grantees Other than Individuals

Instructions for Certification: By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

1) This certification is required by regulations implementing the Drug-Free Act of 1988, 45 C.F.R. Part 76, Subpart F. The regulations, published in the May 25, 1990, Federal Register, require certification by grantees that they will maintain a drug-free workplace. The certification set out below is a material representation of fact upon which reliance will be placed when the Department of Health and Human Services (HHS) determines to award the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, HHS, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

2) Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

3) Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

4) If the workplace identified to the Division changes during the performance of the grant, the grantee shall inform the Division of the change(s), if it previously identified the workplaces in question (see above).

5) Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

    a. "Controlled substance" means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 C.F.R. § 1308.11 through § 1308.15);

    b. "Conviction" means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

    c. “Criminal drug statute" means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

    d. "Employee" means the employee of a grantee directly engaged in the performance of work under a grant, including (i) all direct charge employees; (ii) all indirect charge

employees unless their impact or involvement is insignificant to the performance of the grant; and (iii) temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

The grantee certifies that it will or will continue to provide a drug-free workplace by:

A. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

B. Establishing an ongoing drug-free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace;

(2) the grantee's policy of maintaining a drug-free workplace;

(3) any available drug counseling, rehabilitation, and employee assistance programs; and

(4) the penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

C. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

D. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will:

(1) Abide by the terms of the statement; and

(2) notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

E. Notifying the Division in writing, within ten calendar days after receiving notice under paragraph D(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

F. Taking one of the following actions, within 30 calendar days of receiving notice under paragraph D(2), with respect to any employee who is so convicted:

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

G. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs A, B, C, D, E, and F.

The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant (use attachments if needed. If attachments are needed, use the table provided below):

DHHS Certification Regarding Drug-Free Workplace Requirements: Grantees Other than Individuals

Instructions for Certification: By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

1) This certification is required by regulations implementing the Drug-Free Act of 1988, 45 C.F.R. Part 76, Subpart F. The regulations, published in the May 25, 1990, Federal Register, require certification by grantees that they will maintain a drug-free workplace. The certification set out below is a material representation of fact upon which reliance will be placed when the Department of Health and Human Services (HHS) determines to award the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, HHS, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

2) Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

3) Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

4) If the workplace identified to the Division changes during the performance of the grant, the grantee shall inform the Division of the change(s), if it previously identified the workplaces in question (see above).

5) Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

    a. "Controlled substance" means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 C.F.R. § 1308.11 through § 1308.15);

    b. "Conviction" means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

    c. “Criminal drug statute" means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

    d. "Employee" means the employee of a grantee directly engaged in the performance of work under a grant, including (i) all direct charge employees; (ii) all indirect charge

employees unless their impact or involvement is insignificant to the performance of the grant; and (iii) temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

The grantee certifies that it will or will continue to provide a drug-free workplace by:

A. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

B. Establishing an ongoing drug-free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace;

(2) the grantee's policy of maintaining a drug-free workplace;

(3) any available drug counseling, rehabilitation, and employee assistance programs; and

(4) the penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

C. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

D. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will:

(1) Abide by the terms of the statement; and

(2) notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

E. Notifying the Division in writing, within ten calendar days after receiving notice under paragraph D(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

F. Taking one of the following actions, within 30 calendar days of receiving notice under paragraph D(2), with respect to any employee who is so convicted:

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) requiring such employ to par icipate sa isfactorily in a drug abuse assis ance or rehabilita ion program approved for such purposes by a Fed ra , State, or local health, law enforcement, or other appropriate agency;

G. Making a good faith ffort to continue o main ain a drug-free workplac hrough implementation of paragraphs A, B, C, D, E, and F.

DHHS Certification Regarding Drug-Free Workplace Requirements: Grantees Other than Individuals

Instructions for Certification: By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

1) This certification is required by regulations implementing the Drug-Free Act of 1988, 45 C.F.R. Part 76, Subpart F. The regulations, published in the May 25, 1990, Federal Register, require certification by grantees that they will maintain a drug-free workplace. The certification set out below is a material representation of fact upon which reliance will be placed when the Department of Health and Human Services (HHS) determines to award the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, HHS, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

2) Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

3) Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

4) If the workplace identified to the Division changes during the performance of the grant, the grantee shall inform the Division of the change(s), if it previously identified the workplaces in question (see above).

5) Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

    a. "Controlled substance" means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 C.F.R. § 1308.11 through § 1308.15);

    b. "Conviction" means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

    c. “Criminal drug statute" means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

    d. "Employee" means the employee of a grantee directly engaged in the performance of work under a grant, including (i) all direct charge employees; (ii) all indirect charge

employees unless their impact or involvement is insignificant to the performance of the grant; and (iii) temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

The grantee certifies that it will or will continue to provide a drug-free workplace by:

A. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

B. Establishing an ongoing drug-free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace;

(2) the grantee's policy of maintaining a drug-free workplace;

(3) any available drug counseling, rehabilitation, and employee assistance programs; and

(4) the penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

C. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

D. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will:

(1) Abide by the terms of the statement; and

(2) notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

E. Notifying the Division in writing, within ten calendar days after receiving notice under paragraph D(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

F. Taking one of the following actions, within 30 calendar days of receiving notice under paragraph D(2), with respect to any employee who is so convicted:

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

G. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs A, B, C, D, E, and F.

DHHS Certification Regarding Drug-Free Workplace Requirements: Grantees Other than Individuals

Instructions for Certification: By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

1) This certification is required by regulations implementing the Drug-Free Act of 1988, 45 C.F.R. Part 76, Subpart F. The regulations, published in the May 25, 1990, Federal Register, require certification by grantees that they will maintain a drug-free workplace. The certification set out below is a material representation of fact upon which reliance will be placed when the Department of Health and Human Services (HHS) determines to award the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, HHS, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

2) Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

3) Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

4) If the workplace identified to the Division changes during the performance of the grant, the grantee shall inform the Division of the change(s), if it previously identified the workplaces in question (see above).

5) Definitions of terms in the Nonprocurement Suspension and Debarment common rule and DrugFree Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

    a. "Controlled substance" means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 C.F.R. § 1308.11 through § 1308.15);

    b. "Conviction" means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

    c. "Criminal drug statute" means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

    d. "Employee" means the employee of a grantee directly engaged in the performance of work under a grant, including (i) all direct charge employees; (ii) all indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and (iii) temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition

does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

The grantee certifies that it will or will continue to provide a drug-free workplace by:

A. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition; B. Establishing an ongoing drug-free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace;

(2) the grantee's policy of maintaining a drug-free workplace;

(3) any available drug counseling, rehabilitation, and employee assistance programs; and

(4) the penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

C. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

D. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will:

(1) Abide by the terms of the statement; and

(2) notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

E. Notifying the Division in writing, within ten calendar days after receiving notice under paragraph D(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

F. Taking one of the following actions, within 30 calendar days of receiving notice under paragraph D(2), with respect to any employee who is so convicted:

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

G. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs A, B, C, D, E, and F.

The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant (use attachments if needed. If attachments are needed, use the table provided below):

Place of Performance				
Name of Location: UnitedHealthcare of Mississippi				
Line 1 (Street Name and Number): 795 Woodlands Parkway				
Address Line 2 (Suite, Room, etc.): Suite 301

DHHS Certification Regarding Drug-Free Workplace Requirements: Grantees Other than Individuals

Instructions for Certification: By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

1) This certification is required by regulations implementing the Drug-Free Act of 1988, 45 C.F.R. Part 76, Subpart F. The regulations, published in the May 25, 1990, Federal Register, require certification by grantees that they will maintain a drug-free workplace. The certification set out below is a material representation of fact upon which reliance will be placed when the Department of Health and Human Services (HHS) determines to award the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, HHS, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

2) Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

3) Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

4) If the workplace identified to the Division changes during the performance of the grant, the grantee shall inform the Division of the change(s), if it previously identified the workplaces in question (see above).

5) Definitions of terms in the Nonprocurement Suspension and Debarment common rule and DrugFree Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

    a. "Controlled substance" means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 C.F.R. § 1308.11 through § 1308.15);

    b. "Conviction" means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

    c. "Criminal drug statute" means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

    d. "Employee" means the employee of a grantee directly engaged in the performance of work under a grant, including (i) all direct charge employees; (ii) all indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and (iii) temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition

does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

The grantee certifies that it will or will continue to provide a drug-free workplace by:

A. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition; B. Establishing an ongoing drug-free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace;

(2) the grantee's policy of maintaining a drug-free workplace;

(3) any available drug counseling, rehabilitation, and employee assistance programs; and

(4) the penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

C. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

D. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will:

(1) Abide by the terms of the statement; and

(2) notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

E. Notifying the Division in writing, within ten calendar days after receiving notice under paragraph D(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

F. Taking one of the following actions, within 30 calendar days of receiving notice under paragraph D(2), with respect to any employee who is so convicted:

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

G. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs A, B, C, D, E, and F.

Appendix D-3 DHHS Certification Regarding Debarment, Suspension, and Other Responsibility Matters

DHHS Certification Regarding Debarment, Suspension, and Other Responsibility Matters

Primary Covered Transactions
45 CFR Part 76,

1. The prospective primary participant certifies to the best of its knowledge and belief that it and its principals:

    a. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any Federal department or agency;
    b. Have not within a three-year period preceding this qualification been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
    c. Are not presently indicted for or otherwise criminally or civilly charged by a government entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and
    d. Have not within a three-year period preceding this qualification had one or more public transactions (Federal, State or local) terminated for cause or default.

2. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this qualification.

Amendments 1 – 12

Amendment #1 to RFQ 20211210: Section 5 – Enterprise Security Policy – Issued January 21, 2022

This Amendment must be signed and submitted as a part of any proposal to be considered for this procurement. The following section of RFP #20211210 is amended to correct Section 5: Authority, References, and Disclaimers in reference to accessing the State of Mississippi's Enterprise Security Policy to read as follows, with removed text stricken through and replacement text added in **RED**:

~~The Enterprise Security Policy is available to third parties on a need-to-know basis and requires the execution of a non-disclosure agreement with the Department of Informatiosn Technology Services (ITS) prior to accessing the policy. The Offeror or Contractor may request individual sections of the Enterprise Security Policy or request the entire document by contacting the Office of Procurement.~~

~~Instructions to acquire a copy of the Enterprise Security Policy can be found at the following link: http://www.its.ms.gov/Services/Pages/ENTERPRISE-SECURITY-POLICY.aspx~~

The Enterprise Security Policy can be found at the following link:

Amendment #2 to RFQ 20211210: RFQ Mandatory Pre-Qualification Question and Answer Document – Issued January 21, 2022

Question #	RFQ Section #	RFQ Page #	Question	DOM Response
1	N/A	N/A	In the mandatory Pre-Qualification Conference, the Division stated that "No branding may be included in any part of the proposal." Can the Division please clarify what is considered branding (logos, colors, etc.) and confirm that this requirement applies across the entire proposal including both the Technical (unmarked) and Management (marked) components?	"Branding" includes company colors, logos, or other symbols or designs adopted by an organization to identify itself, its products, or its corporate parents or siblings. Branding must not appear in the Offeror's Technical (unmarked) proposal. Branding may appear in the Offeror's Management (marked) proposal. However, the Offeror must still use black, Times New Roman 12 pt. font for responses, and black, Times New Roman font no smaller than 9 pt. for any tables, graphics, charts, figures, footnotes, and headers/footers.
2	N/A	N/A	The Clarification of Formatting Requirements slide at the Mandatory Pre-Qualification Conference indicated that "no branding may be included in any part of the proposal." Can the Division please confirm if this is meant to include the marked section of the proposal or if this is only referring to the unmarked submission? If this requirement is inclusive of the marked section, can the Division please expand on what is included under "branding?"	"Branding" includes company colors, logos, or other symbols or designs adopted by an organization to identify itself, its products, or its corporate parents or siblings. Branding must not appear in the Offeror's Technical (unmarked) proposal. Branding may appear in the Offeror's Management (marked) proposal. However, the Offeror must still use black, Times New Roman 12 pt. font for responses, and black, Times New Roman font no smaller than 9 pt. for any tables, graphics, charts, figures, footnotes, and headers/footers.

Amendment #3 to RFQ 20211210: RFQ Appendices D, E, F, G, and H in Word Format – Issued January 21, 2022

Provided herein are Microsoft Word versions of the following Appendices included with RFQ 20211210:

- APPENDIX D: Certifications
- APPENDIX E: Innovation and Commitment
- APPENDIX F: Corporate Background and Experience
- APPENDIX G: Ownership and Financial Disclosure Information
- APPENDIX H: Organization and Staffing

Additionally, the following typographical errors were corrected in the following documents included in this Amendment:

Appendix E

Text in 4.2.3.6: Health Literacy Campaigns has been altered in the following manner, with removed text stricken through and replacement text added in **RED**:

Use the Health Literacy Campaign: Summary Chart on the following page for each ~~PIP~~ Campaign the Offeror is including in its response to this section. The Offeror must include four (4) Health Literacy Campaigns in its response.

Appendix F

Text in the header for 4.3.1.2: Corporate Experience has been altered in the following manner, with removed text stricken through and replacement text added in **RED**:

4.3.1.~~1~~2:Corporate Experience

Appendix H

The form included 4.3.3.5 Subcontractors entitled **Prior Experiences with Subcontractor** has been updated to remove one of the fields requesting Geographic and population coverage requirements. Duplication of this field was an error.

Amendment #4 to RFQ 20211210: RFQ Questions and Answers

RFQ #: 20211210 / RFx#3150003991

Date: February 7, 2022

RFQ Name: Mississippi Division of Medicaid Coordinated Care

This document contains all questions submitted by potential offerors by the RFQ Questions Deadline of January 7, 2022. The document is split into two parts:

1. RFQ-Specific Questions and Answers (Blue Table, 120 Questions)
2. Appendix A: Draft Contract-Specific Questions and Answers (Green Table, 56 Questions)

Three additional amendments will be referenced throughout this document that will be published the same day as this Amendment 4 (February 7, 2022):

- Amendment 5: RFQ Corrections and Clarifications
- Amendment 6: Appendix A: Draft Contract Corrections and Clarifications
- Amendment 7: Updates to Certain RFQ forms from Appendix F and H in Word Format
- Amendment 8: Additional MSCAN and CHIP Rate Information in Excel Format

The body of the attestation for APPENDIX H: Organization and Staffing, 4.3.3.3 Administrative Requirements is amended as indicated in red below:

4.3.3.3 Administrative Requirements (Marked) – ~~510~~ points

Offeror attests to the following:

1. The Offeror will have an Administrative Office within fifteen (15) miles of the Mississippi Division of Medicaid's Central Office at the Walter Sillers Building, Jackson, Mississippi 39201-1399, as required by the RFQ.

2. ~~The Offeror will Describe how and where administrative records and data will be maintained and the process and time frame for retrieving records requested by the Division or other State or external review representatives.~~

Page 133 is amended as indicated in red, below:
4.3.3.5 Subcontractors – 20 points

The Offeror must provide a narrative explanation no longer than three (3) pages giving an overview of its overall philosophy for subcontractor hiring and management.

Use the first provided form entitled "Subcontractor" to describe the any subcontractor the Offeror plans to use if chosen as a winning Contractor through this RFQ.

If the Offeror has worked with the subcontractor in the past three (3) years on a managed care contract, use the second form, "Prior Experience with Subcontractor" to give details about that experience.

Page 134 is amended as explained, below:
The first form in APPENDIX H: Organization and Staffing, 4.3.3.5 Subcontractors was amended to include an option for "Affiliate under the same common ownership" as a response to the question, "This entity is a:".

Amendment #9 to RFQ 20211210: Clarification of Amendment 4 Responses

RFQ #: 20211210 / RFx#3150003991

Date: February 10, 2022

RFQ Name: Mississippi Division of Medicaid Coordinated Care

The Division has received requests to clarify certain answers given by the Division in Amendment 4: RFQ Questions and Answers. The Division is not obligated to grant this request. However, in order to ensure that the Division receives the best possible qualifications, the Division has decided to grant this request, with the following requirements:

1. Questions submitted must be about specific answers given in **Amendment 4 ONLY**. No questions outside of that scope will be accepted. The Division has sole discretion as to whether a question submitted complies with this requirement.
2. The Division is not obligated to provide an answer to a question submitted if, in the Division's judgment, there is an answer that has already been given that addresses the submitted question. The Division may respond to such a question with the previously stated answer.
3. All questions must be submitted using Appendix J, Question and Answer template. Potential Offerors should use the "Section" Column to reference the specific question the Potential Offeror is referencing in Amendment 4 and use the "Page" column to reference the page of that question.
4. Potential Offerors must submit questions under this Amendment via Email to MSCAN_CHIP@medicaid.ms.gov by no later than **Monday, February 14, 2022, 12:00 pm Central Time Zone**. Submissions made after this time will not be accepted. The Offeror bears all risk of delivery.
5. The Division will publish answers no later than Wednesday, February 16, 2022, 5:00 pm Central Time Zone.
6. Other than in response to this Amendment, Offerors may not submit any further questions, other than those necessary to ensure that the Offeror has access to the SharePoint submission site. As stated previously, those questions should be submitted to both Christopher.Shontell@medicaid.ms.gov and MSCAN_CHIP@medicaid.ms.gov. Those questions are handled on an ad hoc basis, and technical assistance given is not considered an amendment to this process.

Amendment #10 to RFQ 20211210: Summary of Pre-Qualification Conference Held on Friday, January 14, 2022

RFQ #: 20211210 / RFx#3150003991

Date: February 11, 2022

RFQ Name: Mississippi Division of Medicaid Coordinated Care

The Division held a Pre-Qualification Conference on Friday, January 14, 2022. This meeting has been transcribed so that Offerors have a record to reference. Statements made in the meeting have been further clarified by Amendment 2. No part of Amendment 10 supersedes any amendment made after the date of the Pre-Qualification conference. The only additional requirement is included in 1, below.

This document contains the follow:

1. **Attendance Sheet – The Offeror's representative must sign this sheet, certifying that the Offeror attended the pre-qualification conference on Friday, January 14, 2022. This must be submitted with the Receipt of Amendment 10 Acknowledgement when the Offeror submits its qualification.**
2. Transcript of Pre-Qualification Conference
3. Slide Deck presented at the Conference

ATTENDANCE SHEET

RFQ 20211210: Coordinated Care Procurement
Pre-Qualification Conference
January 14, 2022, at 1:00 P.M.

On January 14, 2022, at 1:00 p.m., the Mississippi Division of Medicaid held a Pre-Qualification Conference via Microsoft Teams. Potential Offerors were required by RFQ 20211210: Section 1.2.2.2, Mandatory Pre-Qualification Conference, to attend the conference. At least one representative had to be present for the entirety of the conference. Attendance was taken at the beginning of the conference for each attendee, and then again at the end of the conference for one representative for each Potential Offeror.

Amendment #12 to RFQ 20211210: Responses Regarding Amendment 9

RFQ #: 20211210 / RFx#3150003991

Date: February 16, 2022

RFQ Name: Mississippi Division of Medicaid Coordinated Care

This document contains all questions submitted by Potential Offerors in response to Amendment #9: Clarification of Amendment 4 Responses, issued on February 10, 2022.

As stated in Amendment #9, Potential Offerors may not submit any further questions, other than those necessary to ensure that the Offeror has access to the SharePoint submission site. Those questions should be submitted to both Christopher.Shontell@medicaid.ms.gov and MSCAN_CHIP@medicaid.ms.gov. Those questions are handled on an ad hoc basis, and technical assistance given is not considered an amendment to this process

As additionally stated in Amendment #9, the Division has sole discretion as to whether a question submitted complies with the requirements stated in Amendment #9. The Division is not obligated to provide an answer to a question submitted if, in the Division's judgment, there is an answer that has already been given through Amendment #4 that addresses the submitted question. The Division may respond to such a question with the previously stated answer.

4.2.1 Executive Summary (Unmarked): Pass/Fail

The Executive Summary shall condense and highlight the contents of the qualification in such a way as to provide a broad ...

The Executive Summary should be no more than ten (10) single-spaced typed pages in length. Staff organizational structure and key ...

As a mission-driven organization with several decades of experience, we are excited about the opportunity to serve Mississippians. Our bold, local strategy will connect people and communities to innovative programs and deliver the highest quality care to our members to improve health outcomes, elevate the quality of life and increase value for the state.

For over 45 years, our organization has been providing managed care services to millions of Medicaid and Children's Health Insurance Program (CHIP) members in more than 30 states. This success is best reflected by our ability to quickly adapt to local needs in states with populations similar in size and demography of the Mississippi Medicaid and CHIP populations.

We understand that each state has its own challenges, opportunities, and priorities so we customize our approach and solutions to address the needs of local communities and offer our industry-leading resources. We understand Mississippi Division of Medicaid's four central matters: Quality, Collaborative Innovation, Access and Commitment and have developed five core areas of focus, described below, to align our efforts to prioritize the health and wellbeing of every member and community.

Based on America's Health Rankings, Mississippi lags all other states in health, social and economic factors. Mississippians experience poor maternal and infant outcomes and a high prevalence of obesity and chronic diseases such as diabetes, heart disease and kidney disease. Relative to other states, Mississippi reports higher rates of frequent mental stress and drug-related deaths. These health challenges coupled with factors like low health literacy, a severe health care workforce shortage and more food deserts than anywhere in the country, creates a unique opportunity to improve the health of Mississippians for which we are well equipped.

Throughout this offer, we aim to demonstrate that we are fully committed to partnering with all stakeholders who prioritize the health of Mississippians. Our actions and partnerships are aimed at delivering innovative, culturally competent services that advance health, health equity and contain costs. We look forward to fulfilling the Mississippi Division of Medicaid's aims.

1. Proposed work plan;

The Division has placed both quality and collaborative innovation at the center of this procurement. We will collaborate with the Division and the other chosen coordinated care organizations (CCOs) to deliver a seamless implementation Our proposed approach and work plan reflect the Division's current and enhanced program requirements. Our experience partnering with more than 25 Medicaid agencies has allowed us to develop work plans that assure we remain on schedule and can accommodate program changes that may arise.

Under the direction of our chief executive officer, a dedicated team of experienced leaders will organize and manage the full implementation, from preparation to go-live, to steady state. Our experienced chief operating officer (COO) will serve as the implementation leader and, alongside the compliance officer, will ensure full

operation status outlined by the model contract. The COO will use our proposed detailed work plan to monitor all aspects of the project and identify potential risks before issues or problems occur.

We apply Project Management Body of Knowledge (PMBOK) – driven project management principles to all implementations within a stage gate framework. Stage gate reviews monitor dependent requirements, confirm status details and identify potential risks and issues. The stage gate framework goal is to prepare for flawless implementation through the use of proactive measures and associated mitigation plans for each phase.

PMBOK - Stage Gate Overview

- **Stage Gate 1 – Requirements Assignment:** The project startup phase begins at the RFQ release. At this first stage gate, we complete a detailed walk-through of contractual requirements and RFQ commitments and communicate with all operational teams that will support the RFQ and contract requirements.
- **Stage Gate 2 – Network Readiness:** We review network potential at several stage gates, but we use this focused full network review to confirm we can meet the contractual obligation in time for go-live. We finalize all provider communication strategies at this time.
- **Stage Gate 3 – Requirement Readiness:** We conduct a detailed review of progress and use this stage to adjust any go-live contingency plans and risk mitigation and have proactive discussion of member transition planning.
- **Stage Gate 4 – Pre-Go-Live Readiness:** At 60 days before go-live, the implementation team assesses operational readiness across all functions. We review detailed go-live monitoring plans, with contingency planning to accommodate potential risk.
- **Stage Gate 5 – Go-Live Readiness:** At 30 days before go-live, the implementation and business alignment teams assess any changes in operational readiness across all functional areas and identify temporary manual workarounds that may be needed.

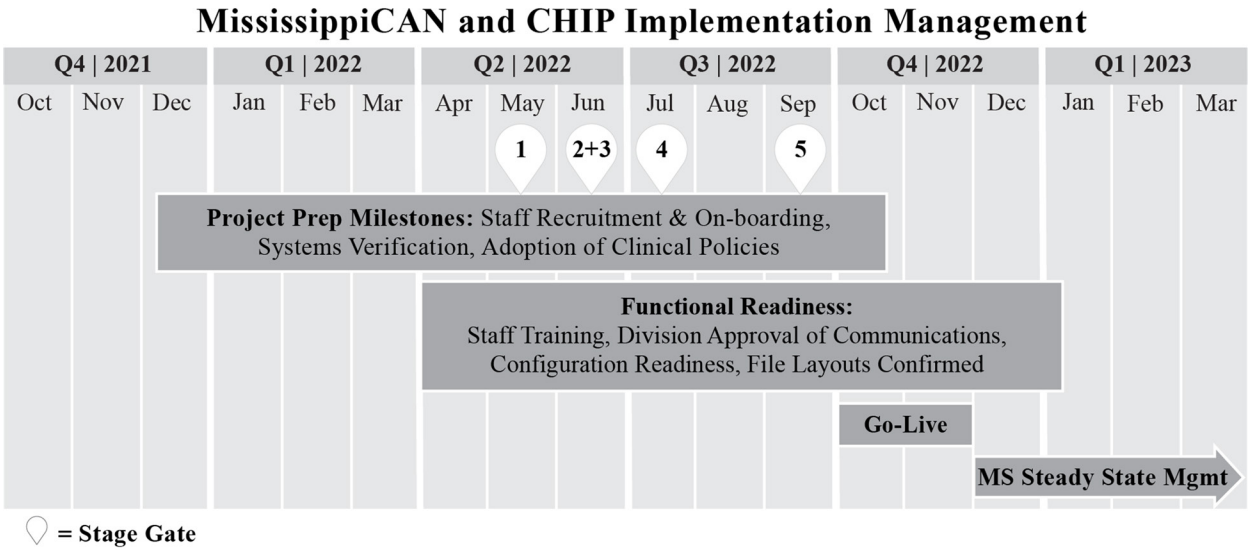

Figure 1. Illustrative Work Plan and Schedule Summary. Throughout implementation our process will go through various stages. This assumes a contract award in September and an aggressive go-live date of October 1st.

Quickly following a successful implementation, our entire team will begin demonstrating our commitments to Mississippi through steady-state and collaborative forward planning. During this shift, we will create an environment aimed to transform the traditional health care approach of episodically healing illness and instead focus on engaging and enhancing the health of populations and meeting individual member's needs, whether those needs are medical, behavioral, housing, transportation, social, or health literacy, and more.

We are prepared to provide a full work plan and schedule for immediate review as requested by the Division.

Steady State: Our Five Core Areas of Focus

To support the Division of Medicaid in achieving its goals, we take a person-centered approach that integrates all aspects of health and wellness. This approach goes beyond integrating physical and behavioral health care. It maximizes wellness, incorporates the community, identifies and addresses social determinants of health (SDOH), and drives toward achieving health equity. All of which collectively improves health and health outcomes in a more meaningful way. Our integrated approach centers on five areas of focus:

- **Advancing Population Health Outcomes:** Our population health approach addresses health disparities, access to care, and enhances member experiences so all members have maximized opportunities to reach their healthiest potential. We deploy sustainable programs and initiatives to remove obstacles to care so that value-driven, equitable health care is provided for all. We employ predictive systems and algorithms that identify racial, ethnic and geographic disparities, emerging trends, and even areas of environmental risks. By focusing on population health, we are able to scale programs and care delivery models that can best impact Mississippians in all areas of the state. This includes employing technology to enhance member and provider experience across the full care continuum, promoting medical homes and community organizations, providing clinical and health equity-based incentives, and including impactful value-added benefits -- all of which prioritize the overall health and wellness of the individual and community.

Advancing Population Health Outcomes

- **Driving Innovation and Value:** Innovation is paramount in our company and we deploy our solutions to impact overall healthcare delivery and local communities where we serve members. We will drive cost effective, value-based payment methods in Mississippi by increasing provider reimbursement to those committed to higher quality of care. Our tools span the spectrum of technology readiness and sophistication. Where providers and members may not be ready for advanced technological tools, we gain an understanding of their preferences, adapt to meet their needs, and work directly with them to advance their readiness.

Driving Innovation and Value

- **Increasing Access to High Quality Care:** Merely providing access to traditional health care services falls short of our core purpose, so we will build a network of traditional and non-traditional providers and health-focused stakeholders to help us develop unique solutions to improve quality and equitable delivery of health care. These stakeholders will be both established and emerging partners who are committed to providing high-quality services in Mississippi. Our network will be well equipped to advance our focus on value-driven care. We acknowledge that access to high-quality medical care does not always translate into attaining wellness. Therefore, we directly engage our members to make certain we meet their basic needs, such as stable housing, food, and transportation. We have long supported innovations like telehealth to provide access in health professional shortage areas, medically underserved areas or rural regions and will work with the Division to deploy a sophisticated telehealth strategy to offer both virtual visits and physician-to-physician specialty consults. These efforts have resulted in proven results such as in other states similar to Mississippi, our telehealth strategy demonstrated a resolution of 77% of health issues without having to refer to in-person care and we decreased ER visits by 46%.

Increasing Access to High Quality Care

- **Nurturing Local Partnerships:** Roughly sixty five percent of Mississippians who receive Medicaid and CHIP benefits live in rural areas where health care resources range from few to non-existent. For that reason, we will collaborate with, and actively support, community and faith-based organizations, local businesses, community centers and other local resources. We will do this by providing needed funding, volunteering, and providing donations of necessities to improve community health. Through these partnerships we collaboratively work to address the complex roots of inequities, which elevates individual and community health and creates sustainable action. To support local needs, **we have already committed $5.9 million of future investments**

Nurturing Local Partnerships

in Mississippi communities, including $1 million this year to address food insecurity, which is negatively impacting Mississippians of all ages and backgrounds.

- **Achieving Operational Excellence:** Simplifying the health care system is good for everyone and will result in improved satisfaction, better outcomes, and lower cost for members, providers, and Mississippi. We will continue to make significant investments to accelerate operational excellence, including an array of solutions ranging from employing our advanced risk stratification techniques to identify and actively engage members, to improving data sharing and detecting waste in the health care system. We deploy sophisticated systems to support providers and members to improve outcomes and lower the total cost of care. Our ultimate outcome is an experience that exceeds the expectations of our members, providers and state partners.

Achieving Operational Excellence

2. Staff organizational structure;

Our organizational structure celebrates Mississippi's people, ideas and experiences. Our leadership team will be comprised of Mississippians who have experience in health care and supporting underserved populations. We will employ a local and inclusive workforce that reflects the diverse backgrounds of the people we have the privilege to serve, and we will foster a culture where all team members are appreciated, valued and able to reach

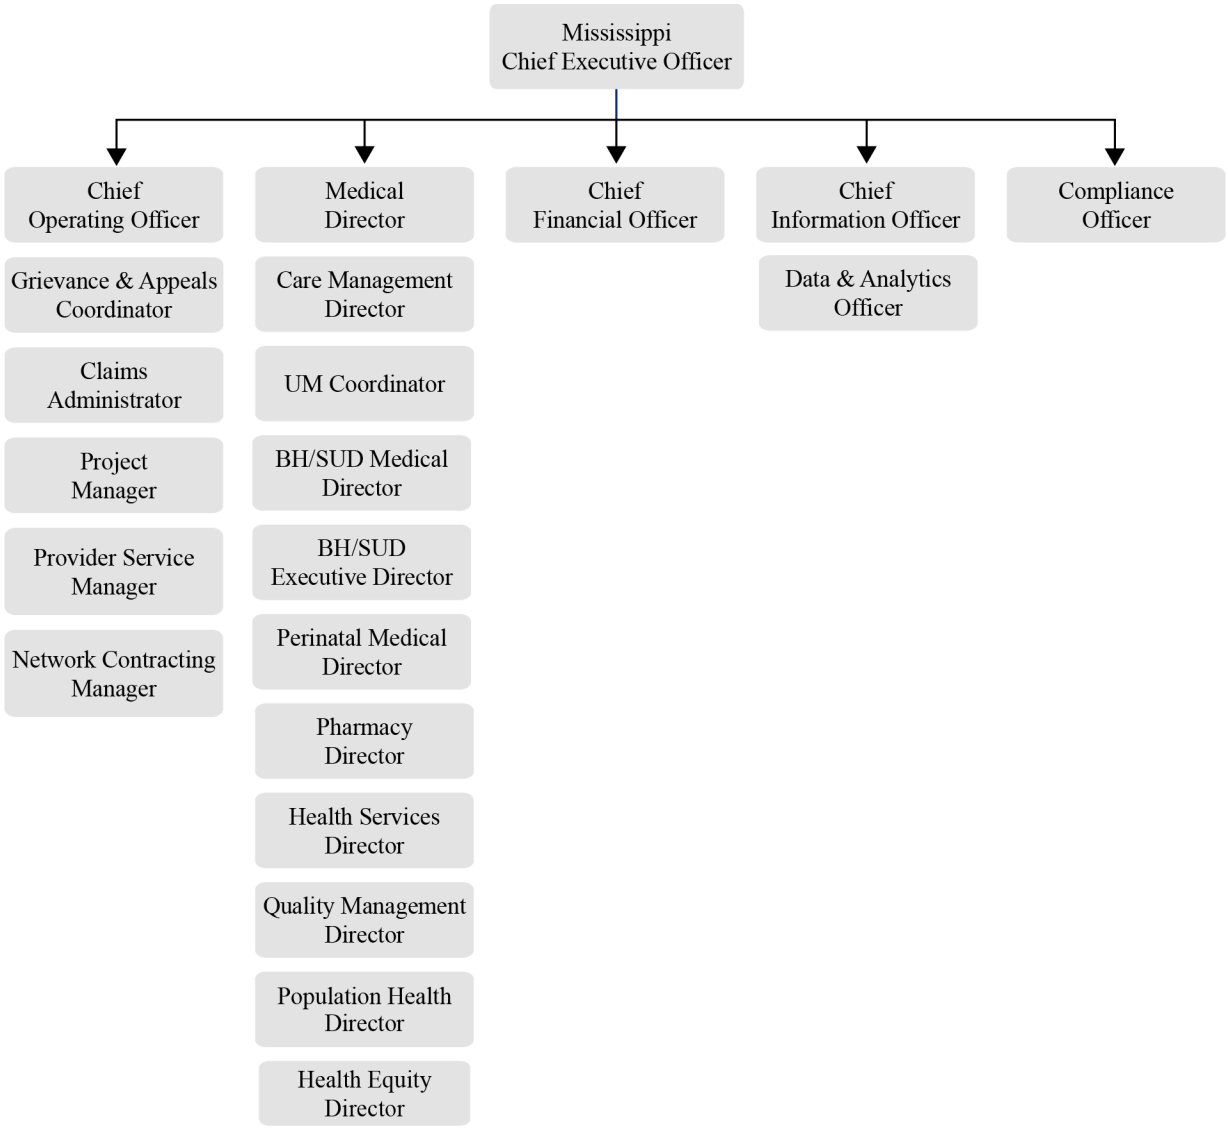

Figure 2. Mississippi organizational structure.

their fullest potential. Our organizational culture is designed to empower employees at all levels to think boldly, ask questions and take initiative to create unique solutions. Everything we accomplish is possible only because our team works in collaboration with committed partners — people who share our passion, purpose and vision to improve health outcomes and quality of life for Mississippians.

3. Key personnel; and,

Distinguishing our proposal will be a team of Mississippians who are passionate about improving health in their home state. Their knowledge of the state, relationships with providers and stakeholders, and passion for Mississippi will serve as the purpose for their service.

We Know Mississippi

Our proposed frontline staff and leadership team are long-term residents of Mississippi who have a wealth of experience in coordinated care operations and personal knowledge of the local health care needs of Mississippians. This experience includes a deep understanding of challenges faced in rural communities and underserved urban areas. Further, we recruit our workforce based on their familiarity with underserved populations, community-based resources and knowledge of health equity challenges in Mississippi.

Key Staff Positions

- **Chief Executive Officer (CEO):** The CEO directs the strategic development, growth and operations of the health plan. The CEO is accountable for ensuring our efforts align to the Division's four core matters: Quality, Collaborative Innovation, Access and Commitment and our resources are directed to improving the health of our members and their communities. Qualifications include seven or more years of successful senior leadership experience, 10 or more years of health care experience and five or more years of related managed care experience.
- **Chief Operating Officer (COO):** The COO is the primary point of contact for all health plan operational issues and is responsible for management and administration of multiple functions and general business operations, health services and the medical management team. The COO will be instrumental in collaborating with other CCOs to identify opportunities to streamline administrative efforts to improve the experience for members and providers. Qualifications include proven ability to execute short- and long-term growth and profitability targets, at least eight years of people management experience and three or more years of experience in strategic planning and development.
- **Chief Financial Officer (CFO):** The CFO oversees all aspects of strategic financial planning, analysis and operations. The CFO will assist the CEO in identifying and making investments to bolster the ability of communities to address health and social needs. Qualifications include at least 10 years of finance experience, ability to effectively support, train and perform transactional-based finance and accounting transactions and advanced strategic focus combined with operational, analytical and project management skills.
- **Chief Medical Officer (CMO):** The CMO, functioning as the contractually required medical director, is responsible for all clinical decisions and provides clinical oversight, expertise, leadership and direction for the administration of the MississippiCAN program and CHIP. The CMO will oversee our efforts to effectively address the health challenges across the state and partner with other CCOs, providers, and other stakeholders to support collaborative innovation. Qualifications include Mississippi medical license; advanced knowledge of managed care industry and Medicaid; background in primary care medicine that includes pediatrics, extensive knowledge of wellness and EPSDT; and demonstrated ability to work with peers and other health care providers to resolve disease management, quality management, utilization management and complex care issues.
- **Perinatal Health Director:** The perinatal health director provides strategic leadership and is accountable for all clinical programs for perinatal and infant health. The perinatal health director will be responsible for

working with clinical and community partners to develop unique solutions to improve maternal outcomes across Mississippi. Qualifications include five or more years' experience providing direct care or care coordination to at-risk pregnant individuals receiving Medicaid services; significant experience working with community-based partners to increase pregnancy compliance programs; and experience engaging individuals who need specialty services to support them through difficult pregnancies, birth experiences and parental support after birth. This physician will have an unrestricted Mississippi medical license.

- **Behavioral Health Director:** The behavioral health director manages development and implementation of affordable, evidence-based treatments, and action planning. An in-depth knowledge of current BH/SUD treatment modalities is required. The behavioral health director will build solutions and partnerships to expand access to services and to integrate behavioral health as an integral component to achieving improved outcomes for members and communities. Qualifications include at least five years' experience providing and supervising treatment service for mental illness and substance use disorders and an unrestricted Mississippi medical license.
- **Chief Information Officer (CIO):** The CIO is responsible for overseeing and maintaining information systems that enable data validation, correct claims payment and timely and accurate reporting. This position is a key contact for IT efforts and will work with the appropriate delivery areas for IT projects for MississippiCAN and CHIP. The CIO will assist the entire leadership team in developing tools to improve the administrative experience for members, providers, and the Division. Qualifications include 10 or more years of professional IT experience, seven or more years of professional IT management experience in a large enterprise environment and five or more years of experience leading teams or managing workloads for IT team members.
- **Compliance Officer:** The compliance officer monitors changes to contracts, laws and regulations to ensure compliance and establishes and implements standard policies, procedures, processes and best practices across the company to promote compliance. The compliance officer will ensure operating discipline and performance to enable us to exceed the State's expectations. Qualifications include three or more years' experience in direct management of a health plan compliance program, experience leading government program audits and compliance initiatives and experience developing relationships with regulatory agencies.
- **Project Manager:** The project manager oversees the implementation of the contract requirements during all phases of the project. The project manager will ensure seamless implementation and collaboration with the State. Qualifications include three or more years of business project management experience, three or more years of experience in a deadline-driven environment and knowledge of Medicaid programs, particularly with Medicaid managed care programs, with relevant experience navigating similar complex projects.

Additional Key Administrative Positions Include:

- Provider Service Manager
- Network Contracting Manager
- Member Services and Marketing Director
- Quality Management Director
- Care Management Director
- Utilization Management Coordinator
- Population Health Director
- Health Equity Director
- Grievance and Appeals Coordinator
- Claims Administrator
- Data and Analytics Manager
- Clinical Pharmacist

4. A brief discussion of the Offeror's understanding of the Mississippi environment and MississippiCAN and CHIP requirements.

Current Environment

Mississippi battles some of the most prevalent indicators of poverty, disability and chronic illness in the nation. The state is challenged with low health literacy, limited access to care, a small health care workforce, and a shortage of resources to address basic needs. At the same time, Mississippi has been a leader in telehealth

adoption and programs that have improved childhood vaccination rates, reduced alcoholism and cigarette smoking.

We are committed to creating the conditions for people to thrive. We are aligned with the Division's aim to improve health outcomes and quality of life, and we will enable change by creating an environment that shifts from reactive episodic treatment to proactive care that provides members with solutions that address social needs and provides them tools to be proactively engaged in health promotion, avoidance of chronic disease and overall wellness. Our processes are designed to meet the needs of members of all ages and adjust to accommodate unique nuances within the MississippiCAN program and CHIP.

MississippiCAN and CHIP Requirements

We have thoroughly reviewed and understand the requirements of the Division as outlined in Appendix A: Sample Contract. We will structure our program to build on the Division's foundation to improve health outcomes and quality of life for members. Our five core areas of focus -- advancing population health outcomes, increasing access to high quality care, driving innovation and value, nurturing local relationships, and achieving operational excellence -- will improve the health of MississippiCAN and CHIP members and will create programs that are both sustainable and impactful. To inform our proposal, work plan, and approach, we used the four matters central to the Division's procurement aims.

Quality

The Division is emphasizing numerous quality-based improvements, including approaches to care management, SDOH and health literacy campaigns. To go beyond traditional physical-behavioral health needs, we will incorporate SDOH, environmental influences, health literacy and other individual and population health aspects in our fully integrated care delivery approach. We will be fully accredited by the National Committee for Quality Assurance (NCQA), with additional NCQA distinctions in Multicultural Health Care, and Health Equity. We will be a leader in raising quality standards as measured by HEDIS®, Medicaid's overall Quality Improvement Strategy, and the Division's Potentially Preventable Hospital Return initiative.

Each member will be assigned a personal contact who is a member of their care management team as the basis of our integrated care management approach. We will use customizable algorithms, which complement the risk levels outlined in the model contract, to risk-stratify individual members for targeted intervention strategies. These algorithms use data gathered at intake, ongoing touchpoints, claims activity, provider health interfaces, geographical variations and weather events. This information creates an intensity level for each member that allows us to create a clinically relevant individual medical treatment plan and achievable goals. We empower members to achieve their health goals and we provide additional assistance as needed in supporting them to lead a healthy life.

Our approach includes a continuum of engagement, including face-to-face and technology-based methods. This may include engaging a provider on behalf of a member, advocating for public assistance or simply inviting a member to a community event that will be beneficial. All approaches are designed to meet each member where they are geographically and on their wellness journey.

Collaborative Innovation

We are eager to collaborate with the Division and other CCOs to create uniform systems that will leverage plans' experience, knowledge and creativity while providing consistency and ease of administrative burden for providers, members, and the Division. We are a leader in data analytics and technology and have a proven ability to bring multiple stakeholders together to impact change. Nationally, we are leading payment reform and practice transformation.

We are constantly developing and evolving our alternative payment models (APMs). These APMs include no-risk quality incentives, similar to those permissible in Mississippi, bundled payments and sophisticated full-risk capitated models. We have learned our value-based programs (VBPs) need to be true partnerships with providers, state Medicaid agencies and other health plans, with joint goals and objectives that are achievable based on each provider's readiness. Having a suite of models allows us to meet providers at their current capabilities with the right payment structure to enhance quality and improve value of care. This approach supports providers to take on more responsibility and risk in managing the populations they serve with the ultimate benefit of improving member health at lower costs. We will align our VBP with Mississippi Medicaid's quality improvement strategy and the potentially preventable hospital return initiative. When legislation allows, we are ready to partner with the Division and providers who are willing to enter into risk based VBP arrangements, which further enhance provider earning potential while promoting higher clinical accountability.

Access

The Division seeks CCOs who will address all barriers to access, whether those are geographic or as a result of social barriers. We will create a paradigmatic shift from reactive episodic treatment to proactive care that overcomes barriers. This will be accomplished by providing members and providers with advanced technologies, solutions that address social needs, a comprehensive network of high-quality PCMH-committed providers, and strong relationships with community-based organizations. By addressing barriers to care, we will foster relationships among members, providers and their communities, which change how care is delivered.

We will retain and reward providers who have care models that help achieve better outcomes for Mississippians. We will provide a robust provider network that exceeds the access standards outlined in the model contract. We are confident that our provider access will exceed NCQA accreditation standards and the standards set forth in Appendix A, Draft Contract. Beyond mere accessibility, we will focus our network and partnerships on quality and efficiency, driven by a value-based approach that aligns with our person-centered model.

Commitment

The Division expects a true commitment and willingness to invest in communities through partnerships with other organizations and an investment in human capital. We have already committed over $5.9 million to communities and residents of Mississippi. We intentionally look to local community-based organizations, including faith-based organizations, food pantries, community centers, housing and employment organizations, employers and other community organizations to support our population health approach. This strengthens the overall well-being of our members and their communities. Our experience has shown that these partnerships and investments better reach our members and reduce care avoidance. Examples of our partnerships in states like Mississippi include:

- **Condition Focused:** Based on available data and supported by our observation of the state, we know that a significant cost driver and health challenge facing Mississippi is maternal and infant health. For this reason, we have already made significant financial investments in Mississippi with a significant portion of our investments focused on reducing teen pregnancy, supporting pregnant individuals and care for the sick and well babies of Mississippi. We are committing to expand the use of Long-Acting Removable Contraceptives (LARCs) by providing benefit and use training to rural non-OBGYN providers. In addition to maternal and neonatal health costs, diabetes and diabetes-related diseases continue to influence the overall health status of Mississippi. In response, nearly all our VBP models will include measures to improve diabetic care.
- **Food Insecurity:** Mississippi is more impacted by food insecurity than any other state in the nation. With more food deserts per capita than any other state, we will make food security a priority. We have a reputation for developing relationships with community partners who directly affect and interact with

members. Mississippi-based organizations, in partnership with us, will provide students in grades K-12 and their families facing food insecurity with regular access to nutritious food. Due to capacity, location and demographic composition, we propose that school districts be sites of our ongoing food pantries in collaboration with other organizations. When we directly fund and connect these organizations, these types of interventions solve immediate needs and address some of the complex roots of inequities by empowering families and engaging communities.

- **Local Presence:** We are committed to a strong local presence, including a projected over 200 full-time employees based in Mississippi, living in various communities across the state. We will partner with local community-based organizations that represent and serve the MississippiCAN and CHIP populations. To further enhance this community-based approach, we will have local field-based care providers who will perform home visits to members.

Conclusion

We are committed to creating lasting change in Mississippi. Our proposal goes into greater detail about what we will do for the Division and our members. We are confident that we will effectively improve the health status of our members, seamlessly administer both MississippiCAN and CHIP programs, and work collaboratively with all stakeholders, including the Division of Medicaid, other state agencies, contractors, and Mississippi's group of providers and community-based organizations. We sincerely appreciate your consideration and time in reviewing this submission.

[END OF RESPONSE]

4.2.2 Methodology/Work Statement

4.2.2.1 Member Services and Benefits (Unmarked)

A. Delivery of Covered Services

1. Children

a. The Division has a special interest in ensuring timely and robust developmental screening and early ...

i. MississippiCAN Services: Describe the Offeror's proposed approach to ensure children receive timely ...

Healthy children are of paramount importance in the MississippiCAN program and CHIP. In 2020, 28% of Mississippi's children, including 46% of Black children lived in poverty, and nearly 40% of children ages 10 – 17 across the state were noted to be obese.[1] We know the impact poverty, inequitable access to health care and limited options for basic needs have on child development and growth into successful adulthood. We will partner with the Division of Medicaid to make sure children enrolled in our health plan receive timely and comprehensive services.

Our pediatric care model centers on delivering whole-person care. We will prioritize primary and preventive care services and address acute and chronic physical and behavioral health needs through the highest quality of care. We will focus on enabling care that will bolster health equity and remove barriers created by social determinants of health (SDOH). We will look beyond the provision of care rendered by traditional providers, engaging community stakeholders to ensure health care and basic needs are met through culturally competent and age-appropriate methods.

We will follow the most current edition of Bright Futures as published by the American Academy of Pediatrics (AAP), and we use their published periodicity schedule for all phases (infancy to late adolescence) of pediatric preventive care. This includes routine preventive dental services and scheduled vision and hearing screenings. Our disease prevention efforts will center on proper timing of vaccinations as outlined in the Recommended Childhood Immunization Schedule set forth by the Advisory Committee on Immunization Practices (ACIP).

1. An overview of related policies, procedures, and processes

Our Early and Periodic Screening, Diagnostic and Treatment and Child Wellness Team

Under the direction of our Early and Periodic Screening, Diagnostic and Treatment (EPSDT)/child wellness manager, our EPSDT coordinators will use our claims and care management systems to track members eligible for services; initiate outreach, including reminders and follow-ups; make referrals; run performance data reports; and evaluate program effectiveness. Our EPSDT/child wellness manager will work with the care management team to refer members identified with special health care needs for follow-up and supportive services.

Our EPSDT team will use policies and procedures to make sure our EPSDT program complies with RFQ Attachment A – Draft Contract Sections 4.1.3, 6.2.6, 8.20 and 16.2.2.

Our EPSDT Policies

Our EPSDT policies will provide a guiding framework and direction on how we will manage preventive and comprehensive services for children to ensure the early identification, diagnosis and treatment of conditions before they become more complex. The clinical policies will incorporate the latest evidence-based guidelines and are based on American Academy of Pediatrics, Bright Futures, and will align with the Division's Administrative

In a state of similar size and population, we achieved a 99% compliance rate for wellness screenings in children less than 1 year old.

[1] Mississippi State Department of Human Services Office of Rural Health and Primary Care 2021 Annual Report.

Code. The administrative policies will outline billing and reimbursement procedures and how our staff will support providers on enrolling as an EPSDT provider, maximizing services, adhering to periodicity schedules, and how referrals can be made for children. The policies will provide guidance on the utilization management for services provided under the EPSDT guidelines for children under age 21. These policies will ensure we meet all requirements outlined in the model contract. We will make our clinical and administrative policies, procedures and evidence-based clinical practice guidelines available to providers on our provider website.

Our EPSDT Procedures and Processes

Our EPSDT procedures and processes are aimed at ensuring children enrolled in MississippiCAN receive services to help them reach their full potential and lead healthy lives. These include tracking member utilization, intervening when there are missed services, and helping EPSDT providers support their practices. We will monitor member utilization and contact parents or guardians of children who are due or past due for wellness screenings by phone, mail and in-person care management visits and other methods based on member communication preferences. For providers participating in EPSDT, we will promote clinical practice guidelines and apply billing guidelines and claims logic to support proper reimbursement and enhanced payments for EPSDT providers who render these services. We will update our provider quality scorecard, which provides insight into children in need of EPSDT such as immunizations services twice monthly and make it available through the provider portal and on demand, allowing providers to access their scorecard any time. Our EPSDT/child wellness manager will monitor EPSDT compliance rates monthly, update our comprehensive plan and present findings during quarterly Provider Advisory Committee meetings, allowing network provider input on our EPSDT strategy.

2. An overview of how the Offeror will encourage Members to obtain services

We will encourage members to obtain services through several means with a clear commitment to honor member choice for how they prefer outreach and contact. We will design targeted member and provider incentives to encourage the completion of wellness screenings and work with community partners to provide education about the importance of child wellness exams.

Our member outreach program will include direct mail campaigns, automated and live reminder calls, text messages and email based on member preferences for communication.

In a state similar to Mississippi, we mailed over 7,000 flyers each quarter. A large volume rural clinic saw a 9% increase in well-child visits in 2021. Many additional clinics showed a 5% – 6% improvement in 2021 over 2020 rates.

Routine and Special Mailings

Using a monthly report of members who are past due for preventive services, our EPSDT team will send reminder mailings to members' homes. We will prepare special mailings for clinics, practices or community-based organizations (CBOs) who wish to reach out to members for health and wellness events.

We will send educational reminders such as flyers and postcards that clearly show the due or past due screening needed, how to arrange transportation, how to contact their PCP and a description of the member incentive that can be earned.

Automated/Live Reminder Calls

We will make three attempts to reach members through live voice calls annually to encourage completion of annual child wellness exams. If, after the child's birthday, we have not received a claim indicating the child completed the screening, we will mail a reminder card and add the member to the next month's list for another call.

Using Incentives to Encourage Preventive Care Participation

Member incentives are effective ways to provide education on the importance of child wellness exams and allow members to earn rewards for completing exams and immunizations. We will offer a free Prepaid $25 Mastercard Gift Card for children who complete their annual wellness exam and teens who complete all required adolescent immunizations. In a state similar to Mississippi, we delivered nearly 3,000 gift cards for members ages 5 – 18 for completion of wellness exams over the last three years, **which corresponded with a 10% improvement rate in overall EPSDT performance.**

Technology

We will employ cellphone texting options, a secure member portal and a mobile app that will encourage parents and our teen and adolescent population to better engage in their health. These three modalities can provide custom reminders based on the services needed at a particular time. The portal and app will help locate providers and our care managers to help schedule appointments.

Using Provider Partnerships to Improve Wellness Participation

Our quality management provider education program will offer resources for providers to quickly identify assigned members with care gaps, view best practices to improving quality performance and find collaborative opportunities to improve wellness screenings and immunizations for children.

- Each month, we will partner with providers to host on-site screening events at clinic locations throughout the state. We will schedule these events during weekdays, after-hours or on weekends to provide working parents and their kids an opportunity to participate. We will contact members with open care opportunities to schedule event appointments.
- Accountable care organizations (ACOs) and patient-centered medical homes (PCMHs) have a strong reputation of providing high-quality clinical services. We will identify such practices in Mississippi that focus on pediatric care. We will incentivize and partner with them to bring their mobile health services to community events to close EPSDT care gaps. A partnership with a clinic in a similar state has contributed to a **6% improvement in screening rates for children between the ages of 5 and 18 since 2019.**

Nurturing Community Relationships to Improve Wellness Participation

Our member engagement strategy will include engaging key community stakeholders to strengthen our member preventive care goals. Initiatives we plan to deploy in Mississippi include:

Nurturing Local Partnerships

- **School District Partnerships:** Many children who play sports use the sports physical as a substitute for a well visit with their PCP. Our EPSDT team and quality nurses will partner with schools and local EPSDT certified providers to perform wellness screenings for high school sport teams through our mobile care partnership.
  - We will establish relationships with schools to sponsor wellness events where students will receive information on dental care, wellness and nutrition. We will collaborate with our mobile providers so members can receive wellness exams at the event.
  - We will partner with elementary, middle and high schools for poster and essay contests. In similar states, these contests have engaged students through participative education and have helped them understand the importance of completing wellness exams. **In a state similar in size to Mississippi, 3,290 students participated in such events from 2018 to 2021.** We will use these strategies and anticipate greater results after emerging from the COVID-19 pandemic.
- **Community-Based Organizations:** In a similar state, the EPSDT team partnered with a Boys & Girls Club after-school program to host a holiday health fair where a local pediatric clinic was on-site to complete

wellness visits in their mobile unit. Such opportunities have been identified in Mississippi and will be a key strategy to encourage member engagement.

3. How the Offeror anticipates the approach will improve health outcomes

We anticipate early and consistent preventive care and screening will improve health outcomes by mitigating communicable diseases, identifying the risks of serious illness early, facilitating early interventions, supporting health literacy and addressing health disparities. **In states of similar size and population makeup, our EPSDT programs showed improvements of 10.47% in well-child visits in the first 15 months of life and a 4.14% adolescent rate, respectively, from 2018 to 2019.**

Human papilloma virus (HPV) has increased in prevalence and is a known predictor of cervical cancer. Mississippi has the highest age-adjusted cervical cancer mortality rate in the United States at 3.5 per 100,000. In a state similar to Mississippi, we partnered with the American Cancer Society and other coordinated care organizations (CCOs) for a project to improve HPV vaccination rates for children over age 9. The interventions helped child wellness teams plan and implement quality improvement projects that contributed to a **6.81% improvement of the Immunizations for Adolescents (IMA) measure and 6.08% improvement of the HPV vaccination rate**.

4. The Offeror's process for reminders, follow-ups, and outreach to Members

Using our care management system and as shown in the following figure, we will deploy our process for reminders, follow-ups and member outreach that will include a cadence of direct mail, automated and live voice calls, email and text messages for members who have opted to receive text messages. Our written notifications will adhere to state language and literacy requirements.

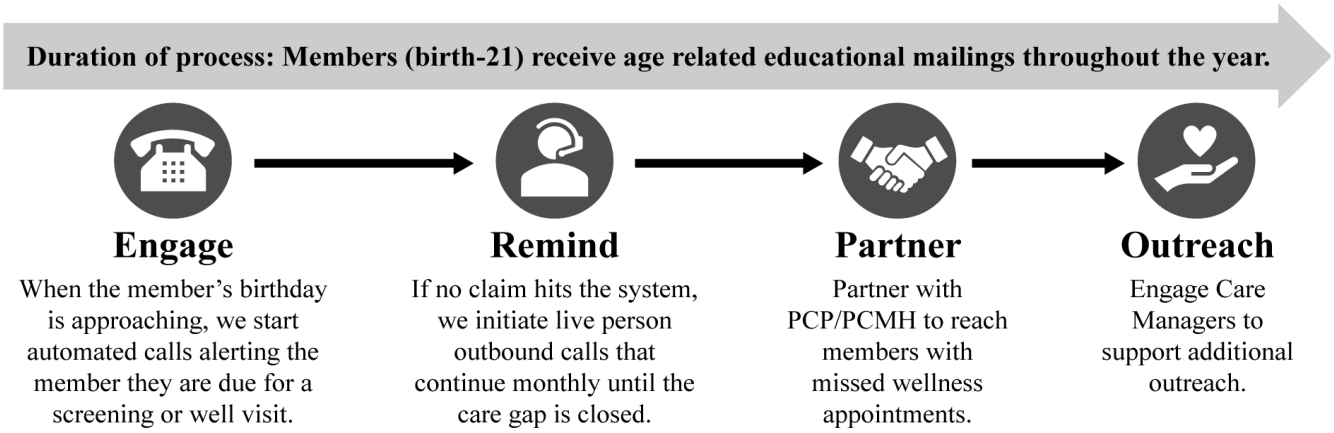

Figure 1. Process for Reminders, Follow-ups and Outreach.

Routine and Special Mailings: Using the monthly report of members who are past due for preventive services, our EPSDT team will schedule reminder mailings. We will prepare special mailings for clinics or practices who wish to reach out to their members.

We will send educational reminders such as flyers and postcards that clearly show the due or past due screening needed, how to arrange transportation or find their PCP and a description of any relevant member incentive.

Live Voice Calls: We will make three attempts to reach members through live voice calls annually to encourage completion of the annual child wellness exam. If, after the child's birthday, we have not received a claim indicating the child completed the screening, we will mail a reminder card and add the member to the next month's list for another call. We will use those opportunities when members call us to remind them of recommended care needs and gaps.

Texting Campaigns: We will deploy a member outreach program that will add email and texting options for reminders. The goal of this program is to improve engagement by reaching members through their preferred contact methods.

Home Visits: We will develop and implement a protocol for home visits for members who do not respond to reminders or outreach by seeking needed care.

Foster Care Children: We will work with the Mississippi Department of Child Protection Services (MDCPS) county office to secure appointments and arrange transportation, if needed, for foster care members who are due or past due for EPSDT screenings or follow-up care.

5. How the Offeror plans to communicate to the Member that Cost sharing in any form is not allowable on ...

Our policies and procedures will ensure we comply with federal and state regulations regarding member cost sharing restrictions in accordance with 42 C.F.R. § 457.520. Ensuring members know there is no financial barrier to care is critical to improving birth outcomes in Mississippi. We will notify our members that cost-sharing is prohibited in this population through our welcome letter, member ID card, member handbook and a member welcome guide. Our member services team will be trained to relay this information telephonically if called upon. Our **perinatal member outreach** team will contact every identified pregnant member to perform a **comprehensive risk assessment**, answer benefit questions, inform the member there is no cost sharing for pregnancy-related services and **assist in scheduling prenatal appointments**.

6. Any innovative methods that Offeror will use to augment its approach

To drive improvements in quality and member outcomes, we recommend including the following innovative alternative payment models (APMs) in the final Mississippi Medicaid value-based purchasing work plan.

Primary Care Provider Member Engagement Bonus: We propose using a member engagement bonus for PCPs. In this program, PCPs will be rewarded for completing annual screenings and immunization series for hard-to-reach members.

Pediatric Patient-Centered Medical Home Accountable Care Organization: Based on Mississippi Medicaid enrollment data, over 70% of members enrolled in managed care are children; we propose to deploy a Pediatric Accountable Care program exclusively for NCQA-recognized PCMH providers. Our Pediatric PCMH ACO will provide a total cost of care incentive for practices with greater than 80% pediatric populations. This model will drive overall improvements in the quality and efficiency of care for our pediatric members, including appropriate, efficient utilization of high-cost, high-intensity clinical settings; reduced hospital readmissions; and reduced hospital admissions for chronic disease complications.

ii. CHIP Services: Describe the Offeror’s proposed approach to ensure CHIP Members receive timely ...

Our well-child program will include provisions for CHIP members and will be developed in conjunction with the MississippiCAN EPSDT program. We will include the same culturally competent staff for CHIP who are trained in delivering age-appropriate care. We will recognize and adhere to the program differences; however, our goal for both programs will remain the same — supporting healthy children living to their fullest potential. Our approach will emphasize preventive care to promote health, detect disease and provide resources to prevent injury and future health problems.

1. An overview of related policies, procedures, and processes

Our CHIP-covered services and child wellness policies will provide a guiding framework and direction on how we will ensure our members receive timely and appropriate wellness services, including, but not limited to, well-child visits and immunizations, following all statutory, regulatory and contractual requirements. The policies will provide guidance for our staff and providers on follow-up activities, interventions, communication

and referrals to be made on behalf of children, performance data reporting and program evaluation. These policies will ensure we meet all requirements outlined in the model contract.

The policies will outline detailed processes and procedures for tracking, identifying and engaging families of children who should receive preventive care services, reminding them about follow-up visits and working with the families to follow their treatment plans. We will monitor member utilization and contact parents or guardians of children who are due or past due for wellness screenings by phone, mail and in-person care management visits and other methods based on member communication preferences. We will update our provider quality scorecard, which provides insight into children in need of preventive care services such as immunizations, twice monthly and make it available through the provider portal and on demand, allowing providers to access their scorecard any time. Our EPSDT/child wellness manager will monitor compliance rates monthly, update our comprehensive plan and present findings during quarterly Provider Advisory Committee meetings, allowing network provider input on our child wellness strategy.

Our clinical policies and procedures will comply with the CHIP State Health Plan using the periodicity schedules of the American Academy of Pediatrics Bright Futures Guidelines for periodic health screenings and the ACIP recommendations for immunizations. Providers will be able to access our CHIP-covered services and child wellness policies along with pediatric evidence-based clinical practice guidelines via the provider website.

2. An overview of how the Offeror will encourage Members to obtain services

Our Child Wellness Team

Our child wellness team will support all efforts of the CHIP. Led by our child wellness manager who will oversee all program activities, we will maintain a unified approach, and pediatric program activities will be implemented concurrently for children enrolled in either the MississippiCAN program or CHIP.

CHIP Member Outreach Activities

The outreach program for CHIP members will include strong partnerships with providers, schools, churches and community organizations. We will empower members to participate fully in their health care by providing the tools and support they need to obtain services. We will educate members about how to use technology supports, including the secure member portal and our mobile app. Within 30 days of enrollment, we will connect with members to complete the initial Health Risk Screening and educate them on their covered services and benefits. Our approach includes:

Enrollment Information: We will emphasize the benefits and importance of preventive services and wellness in our welcome packet and member guide.

Automated/Live Reminder Calls: All members will receive calls annually to encourage completion of the annual child wellness exam. If, after the child's birthday, we have not received a claim indicating the child completed the screening, we will mail a reminder card to the member.

Member Incentives: Incentives are exciting ways for members to earn rewards for completing wellness exams. We will send a $25 Mastercard Reward card for completing wellness exams and for select adolescent vaccinations.

Routine Mailings: Our team will use a monthly report to identify members who are due for wellness visits and sends direct mail pieces describing the screening or vaccination that is due. We will complete special mailings for individual clinics who want to contact their patients or plan to hold health events.

Well-Child Clinic Days: We will establish clinic day partnerships with providers, such as pediatricians and federally qualified health centers (FQHCs), to hold monthly clinic days at several sites across the state. We will contact members to schedule well-child appointments on weekdays, after-hours and on weekends.

Mobile Care Partnership: We will identify and partner with a clinic that brings a mobile health unit to community events to allow members to close care gaps during the event. In a state similar to Mississippi, our Q4 2021 mobile unit collaboration, phone calls, reward incentives and member mailings contributed to the completion of **4,059 wellness exams for members ages 10 – 14 on CMS-416, an increase of 24% over Q3 2021**.

School District Partnerships: Our child wellness team will partner with schools to complete wellness exams for high school sports teams through our mobile care partnership. We will establish relationships with schools to sponsor wellness events where students will receive information on dental care, wellness and nutrition. Members can complete wellness exams via the mobile care unit. We will work with school-based clinics to make sure members are receiving wellness exams.

3. How the Offeror anticipates the approach will improve health outcomes

Our approach emphasizes preventive care to promote health, detect disease and provide resources to prevent injury and future health problems. Our programs have achieved success in several states whose demography are similar to Mississippi. Before the pandemic, our collaborative approach demonstrated improvement in the well-child visits for children ages 3 to 6 with a **7.52 percentage point increase from 2018 to 2019. We saw a 4.86 percentage point increase in the completion of adolescent well-child visits.**

Our pilot with the American Cancer Society to improve HPV vaccination rates in a state similar to Mississippi has improved immunizations by 6.81%. We are tracking the impact on health outcomes and believe the increase in immunizations will result in a decrease in cervical cancer among adult females over time.

4. The Offeror's process for reminders, follow-ups, and outreach to Members

We will provide the following outreach, reminder and follow-up activities for new members:

- Our outreach will start with welcoming each member to our health plan and informing them of their wellness benefits, including recommended wellness exams following the Bright Futures periodicity schedule. Our CHIP member education outreach will include annual reminder calls to encourage completion of a wellness exam, required immunizations, annual dental visit and a flu shot. The automated call will be triggered during the month of the member's birthday and will be repeated each month until the member completes the exam. As an enhancement for members who opt in, we will use text and email reminders considering members' preferences for outreach.
- Our child wellness team will monitor member compliance with the Bright Futures periodicity schedule. When members continue to have open care gaps, the well-child team will execute live call reminder campaigns. We will develop a protocol for home visits for members who do not adhere to reminders and follow-up outreach.
- Service navigators will engage members who have gaps in care quarterly and work with the member toward resolution such as scheduling an appointment or providing education, engaging the behavioral health crisis support line or recording grievances and appeals. In a state similar to Mississippi, in 2021 our service navigators assisted members by engaging in over **1,400 discussions about gaps in care.** In the same time frame, **200 health care appointments were directly scheduled while interacting with this team.**

5. How the Offeror plans to communicate to the Member that Cost sharing in any form is not allowable on ...

Our approach to ensuring pregnant CHIP members are aware that there is no cost sharing for pregnancy-related assistance will be consistent with our approach for MississippiCAN pregnant members. Ensuring members know there is no financial barrier to perinatal care is critical to improving birth outcomes in Mississippi. We will communicate to our member population broadly through our welcome letter, member ID card, member handbook and member welcome guide. This information will clearly inform members there is no cost for preventive and pregnancy-related assistance. Our perinatal member outreach team will contact every identified

pregnant member to perform a comprehensive risk assessment, answer benefit questions, inform the member there is no cost sharing for pregnancy-related services and help schedule prenatal appointments.

6. Any innovative methods that Offeror will use to augment its approach

Our innovative methods to augment care delivery in the CHIP population are not separate and distinct from what we are proposing for the MississippiCAN population. Administering the two programs concurrently will better support overall outcomes in Mississippi, alleviate provider burdens associated with multiple processes and allow members to seamlessly move between CHIP and MississippiCAN if eligibility changes. In fact, our pediatric value-based purchasing (VBP) programs we have implemented in states similar to Mississippi include all provision of services, and the models we plan to propose to the Division will be applicable to both MississippiCAN and CHIP.

Health Equity Incentive: In addition to the PCP member engagement bonus and pediatric PCMH ACO innovations described in our response to question six in the MississippiCAN section above, we will address disparities in member health outcomes through the Health Equity Incentive we are proposing for PCPs and PCMHs. We will stratify key HEDIS measures by member characteristics (e.g., race/ethnicity) to identify disparities within a provider's patient panel. Providers can earn higher incentives for improving care for all and for reducing an identified gap often experienced by historically marginalized groups.

Non-Emergency Transportation: Our value-added non-emergency transportation services for CHIP members will mirror the current benefit in place for MississippiCAN members. This benefit will include unlimited rides to and from covered services, gas mileage reimbursement, meals and lodging and commercial flights for health care services.

b. How will the Offeror address racial, ethnic, and geographic disparities in delivery of services to and ...

There is a disproportionate burden of disease borne by racial and ethnic minority populations and the rural and urban poor. Health disparities not only affect the groups facing inequities but limit overall improvements in quality care and the health status for the broader population, resulting in costs that could have been avoided. Our strategy to address these disparities will require community, caregiver and child engagement.

Engaging and Listening to Community Voices

Our planned Community Partnership Advisory Committee will meet quarterly and focus on issues such as member and caregiver satisfaction, service delivery, community engagement, quality of covered services or provider access issues. This grassroots forum will represent a broad cross section of our CHIP families composed of the racial, ethnic and linguistic groups that make up 5% or more of our membership. Through this interactive forum, we will empower members to actively participate in care delivery and program development.

Analyzing and Understanding Barriers

In our care delivery models, we will track every pediatric HEDIS measure by age race, ethnicity and county to identify disparities so we can design appropriate interventions and track their progress. We will employ geospatial mapping capabilities that overlay social determinant data with member addresses. The resulting map will allow us to observe population clusters with drilldown capabilities to the member location. This capability will provide insight on how to overcome disparities that may be associated with environmental factors such as pollution, flood zones and natural disasters.

Collaborating with Providers

We will collaborate with our pediatric providers to monitor and reduce disparities by implementing our Health Equity Program (HEP) incentives. Like other alternative payment models, the HEP will identify members attributed to provider panels with open care opportunities. The HEP provider scorecard will display compliance

rates of attributed members sorted by race and ethnicity to easier identify disparities between populations for measures included in the program.

2. Behavioral Health Services

a. Describe the Offeror's direct experience in service delivery and payment and/or capacity to manage service ...

Our Experience and Capacity

We will bring more than four decades of experience offering programs and claims payment for Medicaid behavioral health and substance use disorder services. Foundational to our programs are evidence-based practices, member-centered integration of care, our internal research and analytics and the collective experience of our clinical leadership. The impact is measurable and notable. For example, between 2015 and 2019 in a state similar to Mississippi, by connecting our high-risk members to peer support services in their communities, **we achieved a 50.6% reduction in inpatient and ER spend.**

To support the behavioral health and substance use disorder needs of *pediatric and adolescent members* in Mississippi, upon implementation, we will have contracts in place with a comprehensive network of providers who can provide all the services indicated in the RFQ and model contract. These providers will deliver a continuum of pediatric behavioral health and substance use disorder treatment services, from community-based to acute inpatient. We have already identified numerous in-state willing providers for our MississippiCAN and CHIP telehealth network, and we will continue to expand this list. In partnership with the state, local providers and advocates, we will bring our expertise, experience and resources to offer a full range of high-quality services throughout Mississippi, as we have done in states across the country.

Best Practice Model of Care: We follow a member-centered model of care delivered in the least restrictive, most clinically appropriate setting, designed to allow children and adolescents with behavioral health/substance use disorder conditions to thrive in supportive environments. We stress the importance of family support and evaluate social determinants of health (SDOH) to identify natural supports and factors beyond health care, which are barriers to well-being. Through interviews with the member and their family and using screening tools such as those listed below, we will assess for behavioral health and substance use disorder needs and for related issues and supports such as Adverse Childhood Experiences, need for developmental services, risk for out-of-home placement and engagement in community and school-based program services. This screening will identify comorbid physical health conditions such as diabetes, asthma and obesity.

Screening Tools

- Child Stress Disorders Checklist-Screening Form (CSDCSF)
- Children with Special Health Care Needs (CSHCN)
- Pediatric Symptom Checklist 17 (PSC-17)
- Pediatric ACEs and Related Life-events Screener (PEARLS)
- Car; Relax; Alone; Forget; Friends; Trouble (CRAFFT)

Our care managers will be in regular contact with our members and their families to assist in accessing services and identifying solutions. As needed, our care team will bring a member case to our weekly interdisciplinary team of care managers, psychiatrists and psychologists to evaluate options. We will have a separate process for members in a psychiatric residential treatment facility (PRTF), with weekly rounds to assist members with transition back to the home and community.

Direct Payment Experience

Nationally, in 2021, **we paid 99.69% of clean Medicaid behavioral health/substance use disorder claims within 30 days, most of which are electronically adjudicated for immediate payment**. We will accept claims through both electronic and paper options. We will offer user-friendly billing training to providers,

including online self-service options. We will track claims trends to identify any abnormalities or claims filing issues, and our in-state provider relations team will be available for assistance when needed. We will employ many payment approaches, ranging from fee-for-service to increasingly sophisticated VBP, including incentives, bundled payments, combined physical-behavioral health models and shared savings models. We will structure our provider agreements to promote positive outcomes for the members with minimal provider administrative burden.

Compliance with the SUPPORT Act

We will support and comply with federal regulations in the SUPPORT Act and the Mental Health Parity Addiction Equity Act. This will include compliance through our medication management programs, augmenting point-of-sale utilization management that will be provided by the state's Pharmacy Benefit Administrator. Our Antipsychotic Monitoring in Pediatrics Program, through which we monitor and manage proper use of antipsychotic medications in children and adolescents, including children in foster care, will be one component of our approach.

Our Antipsychotic Monitoring in Pediatrics Program consists of retrospective drug utilization review through claims extracts and coordination of care intervention by a pharmacist. In 2020, in a similar state to Mississippi, this effort resulted in a net reduction of antipsychotic medications for 168 children.

b. Describe the Offeror's direct experience in service delivery and payment and/or capacity to manage service ...

Our Experience and Capacity

To support the behavioral health/substance use disorder needs of *adult members* in Mississippi, we will establish a comprehensive network of providers, including behavioral health providers, substance use disorder providers, virtual visit and telemental health providers and medication-assisted treatment (MAT) providers, to meet the behavioral health needs of Mississippi members. Our network will include providers serving specialty populations, such as older adults and pregnant members, and will be fully capable of providing services to adults with behavioral health/substance use disorder conditions from diagnosis to outpatient services and inpatient services, and post-discharge through recovery and stability.

We have more than four decades of experience offering programs and claims payment for behavioral health/substance use disorder services to adults.

Best Practice Model of Care: For adults with behavioral health/substance use disorder conditions, we will follow a recovery and resiliency-focused, member-centered model of care, delivered in the least restrictive, most clinically appropriate setting. Our integrated care management will help adults with behavioral health/substance use disorder conditions recover and lead stable, productive lives. For early intervention and to increase access to care, our initial Health Risk Screening will integrate mental health/substance use disorder screening and condition-specific screenings. Additional screening tools may include the following:

- Patient Health Questionnaire (PHQ-9)
- Generalized Anxiety Disorder (GAD-7)
- Drug Abuse Screen Test (DAST-10)
- Maryland Assessment of Recovery Scale (MARS-12)
- Adverse Childhood Experiences (ACEs)

In addition, our advanced analytics will identify primary behavioral health/substance use disorder conditions and comorbid conditions such as hypertension, diabetes, obesity and cardiovascular disease. We will assess and address unmet social determinants such as homelessness, unemployment and lack of transportation and other needs. Through our screening and assessment specific to adults, we will:

- **Identify** the need for additional assessments/interventions such as MAT, any background of trauma or signs of abuse, physical health conditions and opportunity to link to medical care
- **Assess** history of treatment, including ER utilization; medication adherence; need for peer or other supports; and presence of or interest in executing a psychiatric advance health care directive
- **Close** gaps in access to care, affordable medications or community supports

Our regional interdisciplinary treatment team (ITT) will formulate care plans specific to each member's needs and circumstances to afford each member their best chance of success. In 2021, in a state similar to Mississippi, our care management program produced the following outcomes:

- Seventy percent of members in care management had a behavioral health outpatient visit within 90 days of engagement.
- Only 7% of members in care management had an inpatient admission within 90 days of engagement, compared to 15% for those not enrolled in care management.
- Forty-seven percent of members in care management adhered to their behavioral health medications in the 90 days following care management engagement compared to 35% of members not enrolled in care management.

Direct Payment Experience for Behavioral Health and Substance Use Disorders

Our claims processing experience covers adults in employer-sponsored plans and Medicare and Medicaid plans, and in 2021 **we paid 99.69% of clean Medicaid behavioral health/substance use disorder claims within 30 days.** Through VBP incentives in our provider agreements, we will shift the focus from general service provision to quality and efficacy for our members.

Compliance with the SUPPORT Act

In compliance with the SUPPORT Act and through our Abused Medications Program, we will provide education and clinical engagement with opioid prescribers regarding optimal prescribing guidelines geared toward adult members. Our nationwide program results from 2017 to 2021 show that MAT prescribing increased 42%, and the number of members with concurrent use of opioids and benzodiazepines dropped by 71%, showing the efficacy of program outreach in remediating risky prescribing patterns.

c. Describe the Offeror's approach to delivery and payment for behavioral health/substance use disorder ...

We will provide evidence-based treatment through a personalized plan for each member, and we will pay providers quickly using payment strategies that help providers improve their care delivery and promote positive outcomes for members.

Approach to Service Delivery

We will use proactive risk stratification to identify members for care management services. Regionally-based care teams will facilitate the delivery of member-centered and fully integrated services for members with complex needs. We will consider and incorporate the presence of racial, ethnic and geographic disparities, such as transportation, housing, service availability and disease prevalence, into a member's journey to recovery and design a treatment plan for each member and solutions tailored to the needs of each population. In addition, we will offer programs for special populations such as pregnant members with substance use disorder, identifying substance use early in pregnancy and connecting members to a specialized care manager for enhanced support.

Integrated Care Management: Each member enrolled in care management will be provided a locally based integrated care team and a care manager who is best suited to address the member's needs and to resolve gaps in care. The care team may include a variety of providers, support coordinators and CBOs involved in the member's care. Our care managers will serve members who live in their region, sharing their regional experience and expertise on available local resources.

Recovery and Resiliency: Our care management model is member-centric and incorporates recovery and resiliency principles into every facet of care. It will promote integrated care within the community, providing education, support and advocacy in meeting the member's needs.

Peer Support: We will use a peer support model to promote recovery through living testimony and reinforce resilience and self-management. For Mississippi, we will employ in-state peer support specialists and a recovery and resiliency manager who will oversee our peer support model. From 2015 to 2019, in a state similar to Mississippi, we connected our high-risk members to peer support services in their communities and achieved a 50.6% reduction in inpatient and ER spend.

Provider Outreach: We will listen to and support providers with solutions that ease their administrative processes, including offering VBP initiatives and practice transformation support so they can deliver efficient, effective, high-quality care to our members. Our network management approach will include continuous monitoring and feedback from frontline staff to understand and address our members' access challenges and clinical and cultural needs. We will employ an in-state, field-based provider relations team with behavioral health experience to support providers.

Approach to Payment

We will support all standard billing and claims processes, including payments at encounter rates when indicated. To reward quality and efficiency, we will have progressive VBP models, and we will incorporate these in many of our provider agreements, including with providers in rural counties. Based on provider readiness, our approach may include incentives, bundled payments and shared savings. We will continually seek to expand VBP in our network to all eligible providers, and we regularly help providers prepare for new, more rewarding VBP models. Recognizing the exceptional toll that opioid use disorder places on our members and their families, in a similar state, we are piloting a VBP program to increase the use of MAT and engagement and retention in treatment.

d. Describe any innovative methods that Offeror will use to augment its approach.

Behavioral health/substance use disorder innovations we will implement, subject to approval by the Division, in caring for MississippiCAN and CHIP members include:

Respite Care: To support families of children with serious emotional disturbance (SED), we will establish a respite program offering both direct care and training for respite caregivers. This value-added benefit will serve up to 200 of our member families per year across the state through respite providers certified by the Department of Mental Health. In addition, we will contract with an in-state children's behavioral health organization to help craft the program details, train families on the use of respite and train additional individuals in the provision of respite care to children with SED.

School-Based Access to Care: In another state, we purchased and delivered iPads to a rural school district where 85% of the students are enrolled in Medicaid. We then partnered with a local provider group to make staff available during school hours for virtual appointments to increase access to care. We did not limit the use of the iPads to only our members. We will now bring this initiative to scale by partnering with the Mississippi Department of Education and spending up to $200,000 deploying iPads to needy districts to assist school staff in connecting students with physical and behavioral health services and social services.

Addressing Medication Concerns: Through one initiative, we will provide medications at discharge to reduce medication errors and readmissions rates while removing barriers to medication access. Another program will monitor and optimize the medication regimen of high-cost members to reduce utilization of inpatient and ER services and improve member outcomes. Through advanced analytics, we identify and support members at risk for nonadherence to antidepressant, antipsychotic, mood stabilizer or MAT.

Behavioral Health Self-Care and Peer Support App: Members aged 13 and over can use our self-help app, an evidence-based mobile care solution, to access on-demand help for stress, anxiety, depression and common behavioral health conditions. While relatively new to Medicaid, in our employer-sponsored contracts this app serves over 4 million users and **60% of active users report significant clinical improvement within 30 days.**

Intensive In-Home Assessment and Treatment: We will bring our intensive in-home assessment and treatment program experience in providing short-term, intensive, individualized and family-based services to children and youth between the ages of 6 and 17 who are at imminent risk of being removed from their home due to the child's high-risk behaviors. A multidisciplinary team will provide in-home, evidence-based, trauma-informed treatment to help families heal from trauma, leading to improved behaviors. These positive outcomes will contribute to increased placement stability, school success, a reduction in psychiatric hospitalization, enhanced family relationships and reduced foster care placement.

Bright Heart Health: In response to the substance/opioid use disorder epidemic and the need for treatment access across Mississippi, we will use the specialty provider Bright Heart Health to offer statewide MAT telehealth services to supplement services provided by Mississippi providers.

Medication-Assisted Treatment/Emergency Room Collaborative: This new initiative, designed in partnership with ASAM, will train ER physicians on initiating MAT in the ER. We will connect ER physicians and MAT providers so members can continue their treatment seamlessly. Our care manager, and a peer support specialist when applicable, will support the member in their journey.

Crisis System Redesign: In other states, we have worked with members, providers, hospital systems and other local constituents and stakeholders to transform the region's crisis system into a community-based, recovery-oriented response system integrating peer supports and a no-force approach to care. We are happy to share our experience and expertise in this regard with the Division, including the creation of a Recovery Response Center, which has resulted in 91% consumer satisfaction rate in other states.

Flexible Support Funding: We will make flexible support funds available for use at care managers' discretion to reduce lengths of stay and increase community stability. Up to $250 per person can fund nonstandard needs in the community for members in residential or inpatient settings and ready for discharge, and children receiving wraparound services. Examples include, but are not limited to, utility deposits, room furnishings and youth activity expenses.

Collaboration and Support: Enhanced by our experience in many states across the country, we have the knowledge and skills to bring innovative solutions to address many of the identified needs in Mississippi, such as timely appointments post-discharge, crisis services to prevent hospitalization, care management connects that begin before discharge, flexible funding to address gaps and an empowerment manager (SDOH/housing navigator) to assist with accessing affordable accessible housing, ease of medication access and intensive in-home services. We stand ready to partner with the Division and other state partners to put innovations in place to move Mississippi forward.

e. How will the Offeror address racial, ethnic, and geographic disparities in delivery of and outcomes ...

Foundational to our company's operating philosophy are our policies on equal opportunity, equity, diversity and inclusion, which we apply both internally and externally. Our three-tiered approach encompasses breaking down barriers to care and building health equity for *members*, the *health systems* in which we operate and the *communities* in which our members live. According to a 2018 study by the CDC, Black Americans are more likely than white Americans to report persistent symptoms of emotional distress, but only a third receive the mental health care they need. We know that roughly half of Mississippians live in rural or poor areas, where there are higher levels of unemployment, poverty, health disparities and lower levels of educational attainment and access to care. Many of these communities present with higher rates of behavioral health needs and substance use disorders. Our strategy to address these disparities in the states we serve is a multipronged solution:

Figure 2. Health Equity Venn Diagram. Interconnectivity of health equity issues.

- Continue to recruit locally based talent with direct experience supporting our members
  - Including a health equity leader within the clincal team to oversee, monitor and implement positive change
- Engage with the community and listen to the concerns expressed
  - Moving the voices and input of marginalized communities to a level equal with others by asking them about preferences and engaging with them in their preferred way
- Analyze and understand the barriers to achieving health equity
  - Stratifying data by race, ethnicity, language, gender and geography to identify disparities
- Design innovative solutions and deploy them in the community
  - Implementing solutions that address the structural drivers and root causes of disparities based on input obtained directly from members
- Evaluate the impact of solutions and improve them
  - Assessing and tracking the success of solutions by analyzing member- and population-based outcome trends

Addressing Mississippi disparities will include:

- Moving toward value-based care and risk sharing that promotes health equity by rewarding providers for seeing that all their clients can access high-quality behavioral health care
- Offering training in Mental Health First Aid through trusted CBOs in vulnerable communities. Mental Health First Aid is a skills-based course that trains participants to identify signs of a mental health or substance use crisis and assist others to obtain help
- Verifying all our staff are trained in cultural sensitivity and that culturally and linguistically appropriate services are integrated into each program
- Engaging communities of color in community events by hosting them in local neighborhoods, outreaching through local CBOs and providing engaging programs

In each region, we will partner with community mental health centers (CMHCs), FQHCs and private providers, and we will use regionally based care teams with knowledge of each region's characteristics and challenges to

reduce disparities in access and quality. This will include offering an extensive telehealth provider network for behavioral health, substance use disorder and MAT providers to increase access to care in areas with health provider shortages. Further, we created a Disparities Dashboard that stratifies race, ethnicity, language and disability status by HEDIS® measures, identifying areas for targeted strategies to address risk factors. We will use this tool to work with CBOs, provider partners, the Division and the other CCOs to help overcome disparities.

3. Perinatal and Neonatal

a. Describe the Offeror's direct experience in service delivery and payment and/or capacity to manage service …

Our Direct Experience in Perinatal and Neonatal Services Delivery and Payment

Our organization has more than four decades of Medicaid/public sector experience delivering and paying for perinatal and neonatal services. We support more than 120,000 pregnant Medicaid members and their newborns annually across more than 25 states that often include rural and urban geographies and population demographics similar to Mississippi. With our breadth of experience engaging members, collaborating with providers and cultivating local partnerships, we are well equipped to partner with the state to address Mississippi's maternal and infant health challenges, including preterm birth rates and related disparities. We will implement evidence-based and innovative initiatives to support member access to prenatal, perinatal and postpartum care, improve outcomes and reduce disparities. We will back our programs with member and community insights, robust analytics and the collective experience of our clinical leadership and providers.

Experience Highlights

- Over $14 million invested to innovate and improve maternal and infant outcomes across the United States
- Improved care utilization in a similar state — timely prenatal care up from 86% to 91%, postpartum visits up from 53% to 73%
- Reduced geographic disparities in postpartum care by 40% for pregnant members living in a rural county in a similar state through community health worker outreach

b. Describe the Offeror's approach to delivery and payment for perinatal and neonatal services.

Approach to Delivery of Perinatal and Neonatal Services

Pregnancy and birth are life-course events that present unmatched opportunity for women and babies to receive and engage in interventions that will set the course for the rest of their lives. When opportunities are managed with positive birth and maternal outcomes in mind, we can most effectively invest in the future of Mississippi. The perinatal period allows for behavioral modification, such as tobacco cessation, addressing alcohol and drug use, healthy eating and proper health care. The period following birth creates an opportunity to establish health habits such as proper nutrition, social development and vaccinations. Our approach to the delivery and payment of perinatal and neonatal services is to reduce disparities and improve perinatal outcomes, such as preterm birth, severe maternal morbidity, low birth weight and C-section rates. To promote the long-term health and well-being of moms and babies, we will quickly identify and engage members in care and offer a comprehensive range of supports, including care management, substance use disorder (SUD)/behavioral health services and community resources.

Member Engagement and Education Enables Connection to Care Delivery

We will identify pregnant members as early as possible through our pregnancy-specific identification and risk-stratification tool. We will compile a weekly file of newly identified pregnant members using data from member eligibility files, claims data, provider referrals, obstetrical risk assessment forms (OBRAFs) and Health Risk Screenings. We will offer financial incentives to increase provider submission of OBRAFs to create enhanced opportunities for engagement through earlier identification. Our perinatal member outreach team will contact every identified

Members participating in our Pregnancy Rewards Program attend 14% more physician visits and have a 5.7% lower rate of ER utilization than nonparticipants.

pregnant member to perform a comprehensive risk assessment, answer benefit questions and assist in scheduling prenatal appointments. The team will identify any barriers the member may have, such as transportation or childcare needs, make sure members are aware of their benefits and the importance of prenatal care and connect the member to appropriate resources. All Mississippi members will have access to our mobile-friendly Pregnancy Rewards Program, which offers rewards such as gift cards for completing important doctor visits such as prenatal, postpartum and well-child through an infant's first 15 months of life.

We will send educational information to members weekly on topics such as symptoms to watch for, baby's development, what to expect during pregnancy, SIDS prevention and breastfeeding. We will send appointment reminders and links to relevant resources and events.

Perinatal and Neonatal Care Management Coordinates Care and Improves Outcomes

Advancing Population Health Outcomes

We will enroll all pregnant members in Mississippi in our perinatal care management program, staffed by our local care managers. We will identify and engage members as early as possible to ensure they receive the services necessary to promote a healthy pregnancy and birth. Our risk stratification tool incorporates medical, behavioral and social risk factors to stratify members into three risk tiers for optimal clinical impact. All pregnant members will be stratified as high risk. We will use the results of the Health Risk Screening, which incorporates medical, behavioral and social risk factors, to tailor interventions for pregnant members. Acknowledging significant racial inequities, such as that Black infants are twice as likely to die as white infants, in maternal and infant health outcomes seen in Mississippi, we will design care management interventions to reduce such inequities. For example, a perinatal care manager will perform enhanced outreach to pregnant members of color who need additional support. The perinatal care manager will help address member barriers to care and connect them to culturally responsive and respectful perinatal and neonatal services. Aligned with the model contract, our perinatal care managers will refer high-risk pregnant individuals to the Mississippi Department of Health's PHRM/ISS program. For those choosing to participate in PHRM/ISS, our perinatal care management teams will maintain surveillance and coordinate with PHRM/ISS to ensure members receive needed supports. We recognize that periodontal health during pregnancy correlates with perinatal and postnatal outcomes, so we will offer an enhanced dental benefit to support this population. Members will be eligible for enhanced dental services, including coverage for routine preventive exams, minor restorative and periodontal services, and our dental care management program. For families who experience the Neonatal Intensive Care Unit (NICU), our NICU care management program staff will support the family while the baby is in the NICU and help them prepare for the care delivery transition, coordinating at-home services and equipment, ensuring there is a feeding plan (breast milk or formula) and arranging for community services needed.

Access to Substance Use Disorder and Behavioral Health Services

We know pregnant members face challenges in accessing SUD services, including provider shortages, practice policies limiting treatment of pregnant members, transportation, scheduling barriers and co-occurring behavioral health disorders. We will offer a free, anonymous 24-Hour SUD Helpline staffed by behavioral health clinicians. Our perinatal care managers will receive SUD training to support these members in navigating the complexity of concurrent SUD perinatal management. We will refer pregnant and postpartum members struggling with SUD or behavioral health conditions to a licensed behavioral health clinician care manager who will perform behavioral health assessments, review medications and connect members to resources such as CMHCs, MAT providers and other local programs such as Catholic Charities' Born Free/New Beginnings program. Born Free/New Beginnings is a residential program for pregnant and parenting members with chemical dependency. We will offer telehealth OUD/SUD/MAT support for members with access barriers, including pregnant and postpartum members.

Value-Added Benefits Will Support Improved Perinatal and Neonatal Outcomes

We will address the social determinants of health (SDOH) needs of our perinatal members through value-added benefits and community-based partnerships. We will offer value-added benefits, such as home-delivered meals, to deliver nutritious, prepared meals to members experiencing food insecurity. Recognizing transportation can create significant barriers to care and other needs, we will offer an enhanced transportation benefit for pregnant members, which provides rides to community resources such as WIC offices, food banks and social services appointments. We know baby supplies and resources can be costly but are critical to getting families off to a strong start. In addition to value-added benefits for car seats, we will partner to expand the reach of community organizations who provide baby supplies, parenting resources and other SDOH supports to members and families, such as the Diaper Bank of the Delta, Mississippi SIDS and Infant Safety, and Baby and Me Tobacco Free.

In five states similar to Mississippi, we provided more than $1 million in maternal health grants to support the capacity of more than 25 community organizations servings members and families.

Nurturing Local Partnerships

Approach to Payment for Perinatal and Neonatal Services

Our approach to payment will include the use of alternative payment models (APMs), evidence-based clinical policies and strong utilization management (UM) to drive quality care and enable appropriate care.

Alternative Payment Models and Clinical Policies

Alternative payment models can drive greater provider accountability for care. Our Obstetrical (OB) Quality Gap Closure Incentive will reward obstetrical providers with bonus payments for closing HEDIS measures around timeliness of prenatal and postpartum care. We will propose our Maternity Retrospective Shared Savings program that rewards obstetric providers for achieving quality measures, increasing care coordination and reducing costs. We will provide practices with clinical transformation support tools to improve their outcomes, contributing to increased shared savings opportunities. We will use clinical policies to encourage adherence to evidence-based care. For example, our C-section policy removes financial incentives for early, elective or unnecessary interventions.

Payment Models Drive Results

Our OB Quality Gap Closure Incentive has resulted in a 39% year-over-year increase in prenatal and postpartum rates for targeted providers.

In three states where the Maternity Retrospective Shared Savings program is implemented, initial year one results show providers demonstrating a 4% reduction in C-section rates, accompanied by a 5% savings reduction.

Utilization Management Enables Appropriate Payment for Appropriate Level of Care

We will deploy two UM programs to ensure appropriate care and payment for perinatal and neonatal services. Our NICU UM program will be staffed by board-certified neonatologists and experienced NICU registered nurses who will collaborate with providers to determine appropriate levels of care and facilitate safe and timely discharge to home or lower levels of care. Our Perinatal UM program will include board-certified OB/GYNs and experienced maternity registered nurses who will ensure the appropriate application of evidence-based care for members in inpatient or specialized outpatient care during the perinatal period.

c. Describe any innovative methods that Offeror will use to augment its approach.

Innovative Delivery and Payment Approaches: Building on Core Approach

Driving Innovation and Value

Due to the high prevalence of preterm births in Mississippi, we will invest over **$2 million** in Mississippi to deploy evidence-informed and innovative efforts aimed to reduce preterm rates, severe maternal morbidity and avoidable C-sections.

Evidence-Based Home Visiting in Delta Region: We will invest over $1 million in a multiyear partnership with a national maternal health organization to test an evidence-based home visiting program administered in

collaboration with Historically Black Colleges and Universities. The program will target Black pregnant members in seven underserved counties in the Mississippi Delta affected by disparities in perinatal health such as race, income, education and rural location. Registered nurses, licensed social workers and CHWs who live in and reflect the ethnicities of the local community will perform outreach and program management for pregnant members and their babies from prenatal to two years postpartum.

Remote Patient Monitoring: Chronic conditions, such as diabetes and high blood pressure, place pregnant and postpartum individuals and their neonates at greater risk for poor outcomes. Remote patient monitoring (RPM) for these conditions is an innovative way to modernize maternity care and support management of these conditions, especially where there are access challenges. We will invest $550,000 in RPM for pregnant members with high-risk conditions, such as diabetes and high blood pressure, in at least six provider practices, including FQHCs. Recognizing that chronic conditions disproportionately impact women of color, we will commit to a program offering group sessions with education and social support for Black women and enroll them in high-risk RPM. Led by a physician or nurse practitioner, a CHW and a public health specialist, the sessions will offer education, enhanced understanding of RPM and a space for mom-to-mom social support.

Expanding Access to Group Prenatal Care: Group care programs are an innovative care delivery model shown to reduce preterm birth rates and disparities among Black individuals by combining elements of traditional prenatal care with cohort-based education and social support. We will expand this model in the state to improve outcomes. We will partner with a national prenatal care organization and commit $100,000 to support members in high-need areas.

Increasing Doula Care Options: We will invest $130,000 to launch doula pilots in collaboration with local doula organizations in the Jackson/Metro area and Delta region. Understanding that Mississippi sees some of the worst perinatal outcomes and racial inequities in the nation, and that doula support is an evidence-based intervention shown to improve outcomes, including C-section and preterm birth rates, enhanced experience and reduced disparities in perinatal care, we will offer doulas as an enhanced benefit for all Mississippi high-risk pregnant members.

Doula Benefit for All
We will offer doulas for all perinatal Mississippi members to improve outcomes such as preterm birth, reduce c-section rate and uplift the voices of Black members in their pregnancy journeys.

Addressing the Health Care Workforce Shortage: There is a physician workforce shortage in Mississippi, and OB/GYNs are no exception. With a significant number of Mississippi women receiving care by non-OB/GYN providers, there is often a knowledge deficit of effective contraceptive methods such as long-acting reversible contraceptives (LARCs). A recent study reported that only 29% of family practice physicians and 22% of general nurse practitioners claimed having sufficient experience with LARC insertion. To address this, we will partner with local OB/GYNs and fund up to $200,000 for LARC and contraceptive training workshops for all provider types.

Hospital Quality Improvement and Strategic Provider Partnerships: We will deploy quality improvement interventions that place the patient at the center of the decision-making process, ensure respectful care practices and create a culture of health equity. In 2021, we provided nearly $3 million to a national partner to reduce disparities in maternal outcomes in six states by collaborating with hospitals to improve race/ethnicity data collection to better track birth inequities. In a state of similar demographic makeup, we provided $50,000 for a provider's Mobile Women's Health Program staffed by a nurse practitioner, case manager and interpreter with a goal of expanding access to perinatal care. We commit to bringing this innovation to Mississippi.

Increasing Access to High Quality Care

Improving Care Delivery through Advanced Payment Innovation: To drive improvements in quality and member outcomes, we recommend the Division consider including the following innovative APMs in the final Mississippi Medicaid value-based purchasing work plan. Building on our OB Quality Gap Closure Incentive

previously noted, we propose layering on our health equity incentive, which tiers the incentives with higher payments for improving outcomes among those with the greatest racial disparities. Our obstetrical risk assessment form (OBRAF) incentive rewards providers for timely submission of OBRAF to encourage earlier identification of pregnant members, as we know early engagement is crucial to improving outcomes. If approved, we will offer this incentive to all providers in the state.

d. How will the Offeror address racial, ethnic, and geographic disparities in delivery of and outcomes ...

We recognize the persistent and stark disparities in perinatal birth outcomes in Mississippi. We will work to design and deploy interventions targeting racial, ethnic and geographic disparities. We will apply an equity lens to our approach by engaging and listening to the communities these disparities impact, training staff and providers on disparities and using data to monitor disparities and evaluate outcomes.

Design and Deploy Interventions to Target Disparities: Reducing disparities is central to "what" initiatives we support, "how" we design those initiatives and "where" we deploy them. For instance, our proposed Mississippi investments to expand group prenatal care and doula support are informed by evidence demonstrating positive impact on racial disparities. Our remote patient monitoring investments will address the racial disparities associated with hypertension and diabetes among Black women and geographic disparities experienced by women living in rural communities with limited care access. Our OB-Quality Gap Closure Incentive will increase provider accountability to driving equitable outcomes, and our Home Visiting effort will focus on seven primarily Black communities in the rural Mississippi Delta.

Proven Results for Black Members
As a result of efforts to address disparities in one of our states, the percentage of Black members accessing postpartum care visits increased from 37% to 83%, and timely prenatal care increased from 51% to 84%.

Shape Healthy Equitable Reproductive Outcomes: Through an established evidence-based program, we can transform pregnancy outcomes for Black women and improve overall health and well-being. We will do this by engaging pregnant members exactly where they are, by coupling prenatal education and inspiration with virtual group meetings and individual check-ins for higher risk members. All sessions will be led by culturally sensitive individuals chosen to create a safe, trusted, peer-to-peer and peer-to-professional community. The program will include unlimited access to virtual evidence-based information, maternal-specific remote patient monitoring equipment, mom-to-mom social media and virtual pregnancy celebrations, access to partnered providers and more. This program is benchmarked to achieve 95% healthy pregnancies. At the end of the program, we hope to see healthy women who are equipped to start effective family planning and healthy babies who will transition into our well-baby and well-child programs.

Engage and Listen to Members and Community Voices: To inform our strategies and investments, we will prioritize relationships with our members and community partners and apply insights directly from those we serve. For example, to better understand the perinatal disparities experienced by communities of color in Mississippi, we will conduct enhanced outreach to our members of color based on need. The perinatal care managers will conduct telephonic and face-to-face outreach activities to elevate our members' voices and create opportunities for our perinatal care managers to address barriers to care and connect members to respectful perinatal and neonatal services. Our investment in doula care will further supports member empowerment.

Train Providers and Staff on Disparities: We will offer specifically designed trainings for all providers and their staff to address the impact disparities have on pregnancy and birth. The health equity training was developed in partnership with national partners, including the Centers for Disease Control and Prevention, and a Historically Black College or University medical school.

Use Data to Monitor Disparities and Evaluate Outcomes: Our Mississippi perinatal team and Mississippi quality director will continuously monitor outcomes of all initiatives by race, ethnicity and geography to understand the disparities in the state and make sure resources are focused where they can have greatest impact.

4. Chronic Conditions

We recognize the unique challenges of Mississippi provider shortages that exacerbate health care access issues, systemic inequities that drive significant health disparities and severe socioeconomic pressures that contribute to a high chronic disease burden. Fifteen percent of Mississippians report having diabetes, 70% of Mississippians report being overweight and 82% of Mississippians report taking medication for high blood pressure. We understand that burden of disease in Mississippi is overwhelmingly tied to chronic conditions such as diabetes, hypertension and cardiovascular diseases. Our approach to improving the health of our members with chronic conditions includes a combination of population-based efforts, member-specific outreach, provider-enabled engagement and comprehensive care management supported by our NCQA-accredited quality management program.

a. Describe how the Offeror will implement innovative programs to improve the health and well-being of ...

How We Will Implement Innovative Diabetes Programs

Dedicated to a Healthier Mississippi

Mississippi has a diabetes epidemic.[2] Approximately 308,000 people in Mississippi, or 13.6% of the adult population, have been diagnosed with diabetes. Another 35.6% are pre-diabetic, and this does not include the additional 75,000 Mississippians who have diabetes and may not know it. While the impact on member health is evident, there is also a significant financial impact. Direct medical expenses for diagnosed diabetes in Mississippi are estimated at $3.4 billion each year, and another $990 million is spent on indirect costs from lost productivity due to diabetes.

Foundational to our approach to implementing innovative programs is knowing where and for which members these programs are most needed. We will use our Hotspotting tool, risk stratification and care management systems to evaluate conditions in our communities so we can develop tools, create initiatives and programs and deploy resources where they will be most effective.

Hotspotting: Our Hotspotting tool will allow our teams to segment the population using over 50 filters such as risk factors, geography and demographic data, including ethnicity, diagnosis, type of utilization, cost of care, SDOH needs and mental health or substance use. Hotspotting will provide population summaries and a detailed member-level list to help guide any clinical outreach or intervention. The data can be applied to quickly target interventions for specific subpopulations and is ideal for informing our population health strategy and mitigating health disparities or leveraging local community resources.

Member Identification and Risk Stratification: Our risk stratification engine will use initial Health Risk Screening (HRS), claims data, our SDOH registry, ongoing HRSs, care management referrals and information we gather from members and providers during staff interactions to identify members at risk for or diagnosed with pre-diabetes and diabetes.

Some of the innovative programs we will implement to combat the obesity and diabetes epidemic in Mississippi include:

Healthy Nutrition Programs

Poor nutrition and resulting obesity can lead to pre-diabetes, diabetes and many other chronic conditions. Poorer communities are often food deserts and locations where inexpensive high calorie-high sodium foods are available and promoted more heavily. We commit to launching effective programs to help bring nutritious food and food education to Mississippi through programs like these:

[2] American Diabetes Association

- **Nutrition Education Program:** This program will provide communities with nutrition education, food budgeting and meal preparation programming; engage families through events; and provide referrals for community nutrition resources and ingredients for healthy dishes. In a state of similar size and demographic makeup, more than 8,000 youth and family members have participated in our sponsored nutrition programming. In partnership with a community-based entity, we reached more than 65,000 youth and families with healthy living programs.
- **Home-Delivered Meals:** We will invest **$1 million per year** to bring high-quality, nutritionally tailored meals with menus designed by dietitians and professional chefs, tailored to health conditions. This program will provide members the power to choose what they want to eat. These meals will be nutritionally balanced, diabetes-friendly, renal-friendly and heart-friendly. We will partner with a community care package and meal service program that offers vegetarian options, pureed meals for those with difficulty swallowing (dysphagia) and meals for cancer support (higher in protein and calories to help prevent weight loss).

Social Determinants of Health – Fitness Program

We will offer a complete fitness solution where eligible members can customize their fitness routine with unlimited access to a large network of fitness locations nationwide, plus a digital library of more than 20,000 on-demand and livestreaming classes, including cardio, strength, yoga and a workout builder to create personalized workouts that walk members through each exercise. This program will support an individual's interests, goals and needs to help them live their healthiest life — all with the convenience of a single membership. We are committing to **over $600,000 per year** to bring this program to our members. Offering a digital fitness program will help to address the disparities in access to safe and adequate exercise facilities in a mostly rural state where transportation and poverty can limit even the most motivated person to take control of their fitness. Promotion of fitness combined with health nutrition is the foundation of managing both diabetes and obesity and improving cardiovascular health.

Advancing Population Health Outcomes

Virtual Patient Monitoring – Diabetes: Our virtual diabetes management program is an interactive remote patient monitoring (RPM) program we will use to monitor blood glucose, food intake and insulin use along with weight and blood pressure through Bluetooth connection to an app. Program participants will receive a free advanced blood glucose meter with unlimited lancets and test strips delivered to the member's home. The program includes 24 hours a day, seven days a week live coaching and real-time nurse monitoring. Nurses will respond to alerts if a member's glucose is out of range, or the member has not tested as scheduled. Virtual diabetes management includes alerts to the member's PCP and personal caregivers. An artificial intelligence (AI) coach will deliver messages tailored to the member's behavior and help the member make correlations between behavior and actions, enabling member condition self-management.

Driving Innovation and Value

Local Monitoring and Management: This RPM partnership will include close communications with the medical staff at a local medical center to cross-refer patients and provide strong care management supports for these members. Remote patient monitoring beyond the defined benefits of MississippiCAN and CHIP will be expanded to allow for more intensive services aimed at better diabetes control and overall health. This will allow members who would typically need to travel far distances to the nearest provider for care to stay in close contact with the clinical staff needed to help manage their care.

b. Describe the Offeror's direct experience in service delivery and payment and/or capacity to manage service ...

Our service delivery and payment programs for chronic health conditions cover more than 4 million members in more than 25 sates. We support families and children with high prevalence and debilitating chronic illnesses, such as cardiovascular disease, asthma, diabetes, HIV/AIDS and high-risk pregnancies. Our approach to payment for services rendered for chronic diseases leverages a suite of alternative payment models (APMs) to

support provider enablement, clinical intervention pathway tools, such as our behavioral health tools for providers and comorbidities job aid for PCPs and other providers, and traditional billing and claims support, including encouraging electronic transactions. We will use evidence-based clinical policies and strong utilization management (UM) practices to drive quality care and ensure appropriate payments for appropriate care. We will employ field-based and office-based clinicians to manage members and work with providers.

In addition to traditional reimbursement for services, our VBP will include incentive opportunities to address chronic conditions. All proposed VBPs for Mississippi will include efforts to improve HbA1c. Central to our hospital VBP, and aligned with the Division's efforts to reduce readmissions, we propose including hospital VBP that includes measures for COPD, asthma and cardiovascular disease.

c. Describe the Offeror's approach to delivery and payment for chronic health conditions services generally.

Our Approach to Care Delivery for Chronic Health Conditions

We strongly encourage the PCMH model and want all members to benefit from engagement with a medical home. Our member and provider resources will be designed to support co-management of chronic diseases with PCMH and non-PCMH PCPs, and we will purposefully seek specialists for our network based on quality. We will work with PCPs to make sure they are equipped to care for members with chronic diseases, and we will assist with navigating specialty care when needed. Our network of hospitals, primary care, specialty care, hospital, dental, dialysis, vision and behavioral health, urgent care, pharmacy and key subspecialty providers will provide members access to medically necessary covered services.

Member and Provider Education and Outreach

We will support our members and providers in the management of chronic conditions through our communication strategies. We will provide information about chronic illness management to all members through our population-based wellness awareness campaigns. We will use health fairs, clinic days, member workshops and home visits to meet members in their communities, encourage preventive care and help those living with diabetes, sickle cell, cardiovascular disease, chronic lung diseases and asthma on the road to self-management. When members are diagnosed with a chronic condition, we will send reminders and make live and automated calls reminding them of services that are due or past due. We will provide disease-specific education and outreach and support providers in their efforts to engage members in self-management through provider enablement tools.

Population-Based Wellness Awareness Efforts	**Member-Specific Outreach**	**Provider-Enablement and Partnership**
Each communication channel provides regular content focused on timely wellness: ▪ Member materials and handbooks ▪ Quarterly member newsletters ▪ Community health events ▪ Community health initiatives with community-based partners	Triggered by data in our care management platform and quality reporting systems that note gaps in care, members receive individualized outreach through: ▪ Mailings, emails and member portal communications ▪ Automated and live telephone outreach ▪ Care manager or service navigator outbound call ▪ Face-to-face engagement with CHW/care manager, peer support or other care team member ▪ Member incentives programs	The following tools are targeted to encourage gaps in care closure: ▪ Sharing HEDIS analytics for patient panel ▪ Provider scorecard ▪ Provider portal with member gaps in care noted ▪ PCMH and CMHC case consults for medium- and high-risk members ▪ Quality incentive programs

Care Management

As part of our evidence-based approach, we have coalesced extensive research to create condition-specific care pathways that guide our care managers' intervention approaches. As described in response to question a. above, we will use HRS information and data through our predictive modeling engine to identify and risk stratify members with chronic conditions. Conditions such as chronic obstructive pulmonary disease (COPD),

congestive heart failure (CHF), diabetes and SUD, for example, will have defined interventions and engagement strategies grounded in the most current evidence and aligned with a readiness to change model. By connecting members who have unmanaged or chronic health conditions with targeted, condition-specific tools and services, we will help them self-manage their conditions to prevent future exacerbations.

Our Approach to Payment for Chronic Health Conditions

Driving Innovation and Value

To improve quality and member outcomes, we recommend the Division consider the following innovative APMs in the final Mississippi Medicaid value-based purchasing work plan.

Our Quality Gap Closure Incentive Program focuses on closing gaps in care and improving quality outcomes. This model includes key HEDIS® and CMS Core Set metrics aligned with state quality objectives, such as asthma, diabetes care, cancer screening, well-child visits, prenatal and postpartum care, readmission reductions and preventable ER use. We will design flexible provider incentives to meet the ongoing and changing priorities of the Division and our members. Participating providers will receive standard reimbursement and opportunities to earn additional incentive payments for closing gaps in care. This program will be deployed widely to PCMHs, and PCPs including FQHCs, RHCs, and pediatricians.

PCP Member Engagement Bonus: We propose using a member engagement bonus for PCPs. In this program, PCPs will be rewarded for improving access to preventive care by engaging hard to reach members, getting them in for an annual visit and addressing care opportunities, including annual screenings and/or immunizations.

We will address disparities in member health outcomes through **our proposed Health Equity Incentive** for PCPs/PCMHs. While all our APMs address health equity by identifying members with care opportunities, we know improving health equity and reducing disparities in outcomes requires focused intentional strategies. This program aims to address disparities for key HEDIS measures important to the Division. In this program providers can earn higher incentives for bringing members in for care and decreasing disparities.

Shared Savings for Improved Quality and Savings in Chronic Conditions

To help improve the management of diabetes, we propose using our **Diabetes Shared Savings** program, which builds on standard reimbursement and offers shared savings opportunities dependent upon clinical outcomes and total cost of care. This approach will give the provider who is accountable for diabetes management the opportunity to be rewarded for quality and savings. We hope to pilot our Diabetes Retrospective Shared Savings program in Mississippi as willing providers are identified. In addition to our Diabetes Retrospective Shared Savings program, we have other chronic condition retrospective shared savings programs that could impact care in Mississippi. These programs focus on critical, high-cost conditions and procedures such as asthma, COPD, cardiac and gastroenterology procedures and opioid use disorder (OUD).

In our diabetes shared savings program, we saw a 2.5% improvement in the management of diabetes from providers participating in this program from 2017 to 2020.

d. Describe any innovative methods that Offeror will use to augment its approach.

Our community-based initiatives to close gaps in care and reduce health disparities initiative has already committed **more than $8 million** to communities on projects such as partnering with an urban Public Housing Agency and local providers to address childhood asthma in public assisted housing. This initiative is the evolution of efforts we have executed in five other communities with community, family, and individual needs similar to those faced by Mississippians.

Cardiovascular Disease and Hypertension Task Force: Our medical director and clinical leaders will meet regularly to review member data and trends to identify opportunities for improved outcomes. This approach was developed in a state of similar size in response to the link between chronic diseases and disparate COVID-19

infections, hospitalizations and mortality rates. In the similar state, we adopted an evidence-based "Tuck-in" program, in partnership with willing providers, and used a telephonic care management model that could be followed with field-based interventions. Members were selected based on diagnosis and received 1:1 weekly outreach from a care manager to assess vital signs, medication adherence, diet and physical activity. The care manager ensured members were connected to services, supports and supplemental resources. In the similar state, our local field-based nurses worked directly with the members' PCMHs to assist with any needed medical interventions related to their cardiovascular disease. **We launched the program in 2021 with three willing provider groups, and over the course of a year, there was an observed 42% reduction in ER utilization and 72% reduction in hospitalizations.**

Unlimited PCP and PCMH Visits: We believe continued access to care is essential for the health of all Mississippians, including supporting continued care for those with chronic and providing preventive services to prevent further development of chronic conditions in the future. **We commit to investing over $700,000 annually** to support unlimited primary care visits to manage medically necessary conditions.

Targeted Text Messaging: Our national clinical quality texting project focuses on the members**'** preference for how they want to communicate. The goals of the program are to improve member outreach, engagement, and satisfaction while better empowering them to manage their health. Live now in 17 states, the texting campaign is an opt-in program for members who receive targeted text messages for diabetes management and three other categories, including well child, pregnancy and overall women's health.

Community Partnerships: We will work with local partners and build upon our national relationships to support communities across Mississippi. We will partner closely with the Mississippi chapter of the American Diabetic Association to increase testing for HbA1C and support education activities through community-based events. Similarly, large health-focused local organizations can be especially effective in helping providers and members co-manage chronic diseases. The Community Health Center Association of Mississippi is especially critical to this approach, and we will partner with them to build upon their strong history of enhancing the quality of care for members with diabetes across the state.

Value-Based Purchasing with Pharmacies: Members with chronic diseases have trusted relationships with their pharmacies and visit them more frequently than they visit their medical providers, which provides an opportunity to engage members more often. We plan to partner with Pharmacy Quality Solutions (PQS) to implement an outcome-based performance program in collaboration with Mississippi pharmacy providers, incentivizing pharmacists who provide enhanced pharmacy services, such as medication adherence counseling for members who are/are at risk for noncompliance and management of hypertension, which includes the measurement of blood pressure values. A recognized leader in managing performance information for pharmacy-related quality measures, PQS is already engaged with 92% of pharmacies in Mississippi, and this VBP will represent one of the first programs in the country where a health plan has established a value-based arrangement with community pharmacies to controlling blood pressure.

Mitigating Environmental Triggers for Asthma: In 2017, the overall asthma prevalence among Mississippi's children ages 0 – 17 was 11.4%, disproportionally affecting more Black children than white. Environmental triggers are the most common reason for exacerbations. Dust mite and cockroach infestations have been identified as a driver of exacerbations of asthma in children. Children who are exposed to these pest allergens have three times as many asthma hospitalizations per year compared with other children with asthma. We will offer pest control treatment to MississippiCAN and CHIP members who have been identified to have a pest problem by care management screening, home visits, assessment tools, provider referral or self-referral.

Medication Management at Hospitals: We will deploy a clinical medication management program that builds on the medication reconciliation process performed by hospitals. A hospitalization for a chronic disease is unfortunate, but it provides an opportunity to re-evaluate a member's care plan. We have medication

management programs that are built on partnerships with hospitals. We commit to embedding clinical pharmacists in willing hospitals to better manage members' medications and make sure all necessary prescriptions are filled and the replaced ones are properly discarded.

e. How will the Offeror address racial, ethnic, and geographic disparities in delivery of and outcomes ...

For those who face obstacles to health due to characteristics such race, ethnicity and geography, the consequence is a disproportionate burden of disease borne by our most vulnerable populations. Addressing health disparities in the delivery and outcomes of our members with chronic conditions cannot happen in a vacuum. It is more than a health problem; it is a community problem and, as such, requires the involvement of the entire community.

Analyzing and Understanding Barriers

We will stratify performance measure data quarterly by race/ethnicity, language, gender and geography to monitor and analyze disparities across all teams.

Designing and Deploying with Community Partners

We understand and are tackling the complex structural drivers and root causes of disparities and we will actively and collaboratively design innovative solutions and deploy them in the community.

The prevalence of asthma in Mississippi is among the highest in the country and disproportionately impacts Black children. We will combat this issue by **investing $50,000 annually** in partnership with an organization that is dedicated to addressing the social determinants of health and advancing racial and health equity through the creation of healthy, safe and energy efficient homes. A key strategy in addressing asthma is improving air quality by removing pests, mold, tobacco smoke, volatile organic compounds (VOCs) and other asthma triggers. The mission of our local partner is to eradicate unhealthy housing and inequities for children, seniors and families to ensure better health, economic and social outcomes for low-income communities of color.

Evaluate our Impact and Evolve

We will evaluate the impact of our solutions for our members by reviewing population-level outcomes for targeted communities. For example, we will implement a provider targeted incentive, the Health Equity Incentive program that will aim to address disparities seen between populations for key HEDIS chronic condition management measures important to MississippiCAN and CHIP members. In this program providers can earn higher incentives for bringing members in for care and decreasing the disparity seen between the two populations. The outcomes of this program will be monitored in a Quality Provider Scorecard that will be updated twice a month. The scorecard is available to providers on demand via the Provider portal and will track progress of improving quality scores by race and ethnicity.

5. Foster Children

a. Describe the Offeror's experience or capacity to manage the care of foster children, and your ability to ...

Over the past five years, we have served 95,000 unique children and young adults in nearly 20 states who have experienced similar trauma, vulnerabilities and health care needs as those in foster care in Mississippi. Our trauma-informed care model uses the philosophy that trauma presents on a spectrum; therefore, working with people who have experienced trauma emphasizes the need to infuse trauma-informed principles into our everyday work. Those principles include **safety; trustworthiness and transparency; peer support; collaboration; empowerment, voice and choice; and cultural and gender issues.** The dedicated staff who will serve our children in foster care will have child welfare experience and will receive ongoing training in trauma-informed care and related topics. Secondary trauma needs to be at the forefront of policy, prevention, training and care. We have developed extensive training on the importance of secondary trauma, specifically what it is and how to prevent it. We will require annual training for all member facing staff and we will offer trauma-informed care training for all providers serving foster children.

Care Management Tiers and Assignment for Children in Foster Care

We recognize the complex needs of children in foster care, especially those in temporary placements. We will initially stratify every child new to the foster care system or new to our foster care program as high risk. All children will be assigned to a specialized foster care team, comprised of care managers and service navigators. All children in foster care will be assigned a designated care manager as their primary point of contact. We will match children in adoption assistance with a service navigator who will be their primary point of contact, unless we identify them as medium or high risk, at which time we will match them with a care manager. The navigator can route any child to a care manager if an urgent or immediate need is identified for engagement and crisis management.

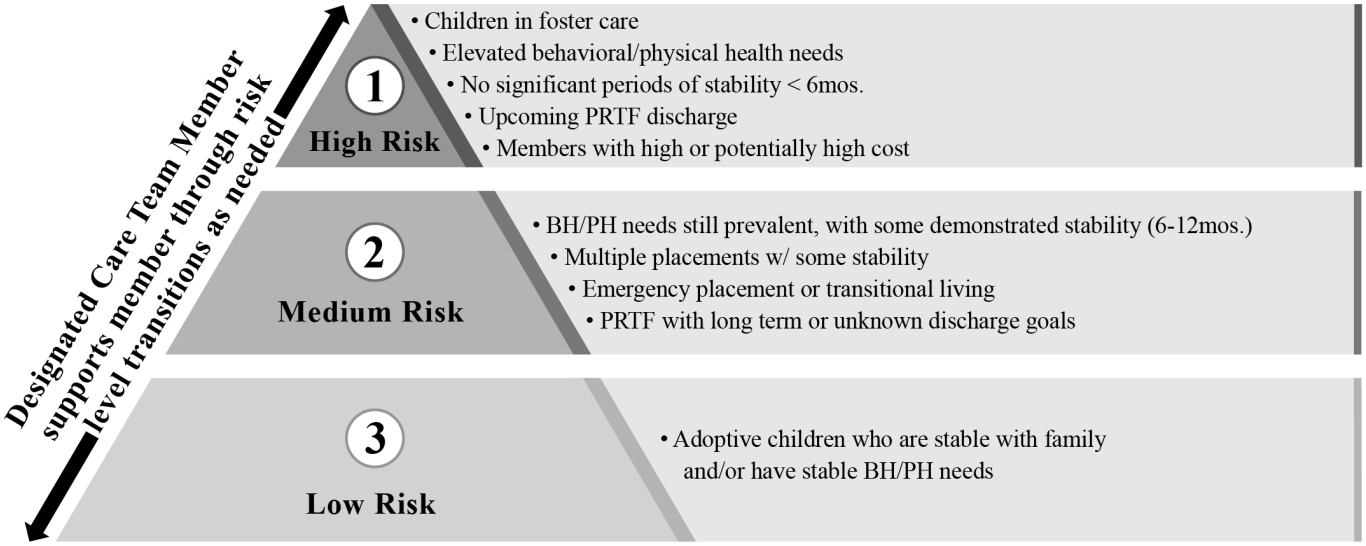

Figure 3. We will tailor interventions based on the child's identified needs.

The care management team will complete assessments on every child; they will use the Health Risk Screening (HRS) to determine immediate needs and the **National Child Traumatic Stress Network Child and Adolescent Needs and Strengths (NCTSN CANS) assessment to** determine ongoing needs of the child. The NCTSN CANS assessment, completed at least annually, will be used in conjunction with the type of placement and symptom stability to further determine a child's ongoing risk level and intervention needs. Care managers will further use the CANS to identify additional medical, behavioral and SDOH needs (i.e., recreational and school needs) to quickly engage the outpatient and community services that best fit their needs before escalation and to enhance resilience. Our specialized foster care team will monitor additional data, such as claims, pharmacy and authorizations, to identify any emerging needs the children may have that require additional interventions.

Our care management staff, care managers and service navigators, will have child welfare experience and specialize in resolving issues related to the system of care. We will train all care management staff in trauma-informed care and Mississippi-specifics of the foster care system. They will help families navigate through and explain the program and benefits of the plan and care management services. Care managers will either be an RN or a licensed behavioral health clinician with expertise in trauma-informed care and integrated physical and behavioral health backgrounds.

Our care team will be located throughout Mississippi in the communities where our foster children live. We will assign children to care team members who understand the child's community and available resources. The assigned care team members will remain constant for the child throughout their enrollment in the foster care program. Our model is sensitive to the need of maintaining strong attachments and continuity of care for our children. We will work with the Mississippi Department of Child Protection Services (MDCPS) and use our

heat mapping technology to identify areas in Mississippi with the highest foster care population, realizing the geographic needs will naturally shift to help determine where we will hire staff.

Comprehensive Care Management and Population Health Approach

The table details our foster care interventions above those required in Section 7.5 of Appendix A, Draft Contract. The following interventions are at a minimum and may vary based on the child's needs.

Risk Level	Interventions	
High	Assigned to a licensed care manager Biannual NTCSN CANS Pregnancy support and management Inclusive of all lower-level tier interventions	Assigned to interdisciplinary treatment team (ITT) Contact at least every 30 days: ▪ Face to face or virtual every 90 days ▪ Telephonic other months
Medium	Assigned to a licensed care manager Annual NCTSN CANS Inclusive of all lower-level tier interventions	Contact every 30 days: ▪ Face to face or virtual every six months ▪ Telephonic other months
Low	Assigned to a navigator Referrals to providers and community-based organizations (includes education and monitoring) Completion of Health Risk Screening Initial NCTSN CANS Assessment Trauma-informed education	Foster/adoptive peer mentoring (upon request) Coordination with MDCPS Transitional living education Tracking and escalation of wellness checks Behavioral and medical education monitoring Contact every six months – telephonic

Care Management Programs for Children in Foster Care

We offer the following specific care management programs rooted in evidence-based practices and targeted for children in foster care.

- **Early and Periodic Screening, Diagnosis and Treatment (EPSDT):** Our comprehensive approach to ensuring access to EPSDT services includes provider education and support; child, family and MDCPS child protection worker outreach and ongoing monitoring of performance. We will provide education early and frequently throughout involvement in our program, including wellness reminders that are aligned with recommendations of the American Academy of Pediatrics (AAP) periodicity schedule for escalated well-child exams for children and youth in foster care. These escalated well-child exams will include physical, developmental, behavioral, trauma screenings and anticipatory guidance for foster and adoptive parents. We will track where every child is regarding each of the indicated preventive care items.

  In a state with a similar population to MississippiCAN, over 92% of our foster care children and youth completed their EPSDT 30 day comprehensive exams in 2020.
- **Behavioral Health Support:** Care managers will support referral of children identified through screenings to community trauma informed clinicians to meet their behavioral health needs, including issues around trauma and attachment occurring during or before being placed in foster care.
- **Adolescent Behavioral Health Support:** We will provide children in foster care a mobile app to help them with behavioral health needs. The app will have features such as daily mood tracking, coping tools, day-by-day guidance built on clinical techniques, guided journeys, weekly check-ins to track progress and a comprehensive toolkit to help them manage stress and find focus.
- **Independent Living Transitions Program:** We will provide an educational platform for transitional age foster youth to learn life skills. This tool will allow social workers to work with youth to customize goals to mirror transitional living plan. It will help children in foster care learn transitional life skills related to employment, health, housing, education and transportation.

- **Psychotropic Program:** Our care management team will work with our pharmacist to conduct a retrospective review of the child's pharmacy claims for potential instances of inappropriate utilization of psychotropic medications. Children will be identified based on utilization of four or more psychotropic medications, two or more psychotropic medications in the same class, or the prescribed use of psychotropic medication "as needed." Our pharmacist will review any child under age three prescribed stimulants, under age four prescribed antidepressants and under age five prescribed antipsychotics. A monthly interdisciplinary meeting will be held consisting of care managers, our chief medical officer, the behavioral health director, and clinical pharmacist, with care manager outreach to providers post-review as needed.
- **Early Intervention Program for Ages 0 to 6:** Our care team will provide referrals to help meet the developmental needs of children by assessing for developmental delays in one or more areas of development, atypical development, or a diagnosed physical or mental condition with a high probability of resulting in a developmental delay. We will provide referrals to First Steps for all children with elevated blood lead levels or who experience developmental delays to Early Head Start and Head Start.

Addressing Immediate Care Coordination for Children Taken into Care: Our process and system will allow MDCPS workers or foster caregivers to contact us on behalf of a child in foster care 24 hours a day, seven days a week through our nurse line. The service navigator team will have extended hours (7am to 8pm CST Monday – Friday) to meet the needs of coordinating care for children in foster care.

b. Describe how you would work collaboratively with the State of Mississippi through the MS Department of ...

We have experience in numerous states working collaboratively with state agencies to make sure kids get the care they need when they need it. When evaluating medical necessity, we will consider the unique circumstances of foster children within the bounds of what is allowable for appropriate continuation of treatment. For instance, if a youth is receiving treatment from a psychiatric residential treatment facility (PRTF) and unable to participate in family therapy due to safety concerns or lack of an available parent, we will either forgo the family therapy requirement or allow the MDCPS social worker or designee to participate. We will provide alternate means of participation such as telehealth so the home county worker can participate if needed. If a foster child changes eligibility groups, we will work with MDCPS on continuity of care. We will coordinate with MDCPS, physical health and behavioral health providers to share the most up-to-date medical records for members in foster care in a variety of ways, including developing working relationships with MDCPS workers and sharing data through our data sharing technology suite, as depicted in the flowchart.

Our systems support electronic data interchange (EDI) that allows for easy integration with state and federal information technology systems and data sources. Securely maintaining and sharing medical records of children is essential to the continuity of their care across varied delivery systems, care settings and placement changes. To that end, we have developed platforms to share data in a secure and user-friendly manner. Our system will require minimal customization and will be configured as needed for Mississippi-specific rules.

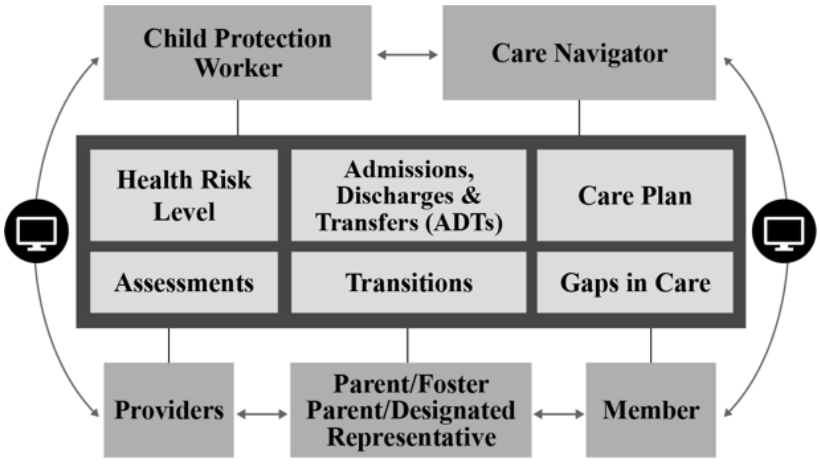

Figure 4. Secure Sharing: We enable collaboration among the child's navigator, MDCPS worker and appropriate state agencies using our secure, cloud-based data sharing technology suite.

Experience and Approach to Partnering with State Agencies

In a state with a similar program to MississippiCAN, we co-locate staff within county agencies. To promote the sharing of real-time information about children in foster care, we will work with MDCPS to co-locate our staff in high-density counties and MDCPS offices, as space and staffing allows. We anticipate the outcomes of having our staff placed in these locations will include creating strong relationships with the agencies; collaboratively completing timely assessments with the agencies; triaging emergent issues efficiently; and providing resources related to claims, network and billing issues.

Our care management team in another state with a foster care population similar to that in the MississippiCAN program piloted a program for children and young adults at high risk for placement disruption. The pilot, done in collaboration with the child welfare division, focused on developing processes to quickly identify children entering care. The immediate notification from child welfare includes detailed information, allowing our care managers to quickly complete the NCTSN CANS assessment and treatment plan and share this with the child welfare case manager. This level of coordination, collaboration and ongoing feedback loop has continued for the children in the pilot. All children were stable at last outreach. We are committed to working with MDCPS to consider this collaboration and a similar program in Mississippi.

Improved Coordination of Care
Within the pilot, 93% of the children were reunified, adoptive or in stable foster care placement. It improved the communication of the child's needs and improved the correct matching of services.

c. Describe your capacity to provide MDCPS access to all data and documentation (withstanding proprietary ...

Providing Health Record Access to MDCPS and Providers

Our care management platform is our electronic health record and will allow the child's integrated care team to develop a treatment plan that meets their needs, goals and desired outcomes; monitor the child's progress; and identify acute events so the care team can coordinate interventions. **The secure care management platform will be accessible to providers and MDCPS workers.** The platform will facilitate the delivery of integrated and coordinated services and supports across systems. The care management platform will include:

- The treatment plan, including care preferences, prioritized goals and interventions needed to achieve them
- Strengths, needs and cultural discovery assessment results, recognizing individualized social, behavioral, medical and functional needs and circumstances
- The child's use of physical and behavioral health and SDOH services
- The names and contact information of the individuals on the child's ITT
- The care team's prioritized health concerns, issues, intervention strategies and self-sufficiency goals
- The child's claims data, pharmacy claims, condition list, medications, service dates, history, immunizations, provider visits, diagnoses, issues, case conference notes and lab results

We can provide reports, such as the 30-day initial comprehensive EPSDT exams, annual well-child visits, visits with specialty providers, services from peer mentors and others at the request of the state.

Providing Health Record Access to Foster and Adoptive Parents

With appropriate permissions from MDCPS, foster parents will be able to access the member's health record. Adoptive parents will access their child's member's health records through the member portal. The member's health record will provide an integrated dashboard of the child's health records, with a detailed view of claims, prescriptions, problems, opportunities and gaps in care, immunizations and more.

Access to Raw Claims Data

In addition to MDCPS workers having access to the member health dashboard, we will share claims data with MDCPS to document the progress of each child's case. We will work with MDCPS on the best way to share this

information. We will coordinate with external partners, such as the Division, to validate data exchanges are complete and valid. Firewalls and physical separation of processing systems will secure access to prevent unwanted entry.

d. Describe any innovative methods that Offeror will use to augment its approach.

Having systems and services in place to address children's specific needs can help improve their overall health and well-being. In addition, these systems and services can increase their chances of reunification, secure a sustainable placement in a loving and supportive family, or achieve a successful transition to adulthood. Following are several examples of innovative approaches we will introduce to children in foster care in Mississippi.

On the Forefront of Training for Staff, Providers and Families in Mississippi

Recognizing the importance of equipping those directly responsible for the care of children in foster care with the appropriate knowledge on how to care for this population, we will offer the following innovative trainings:

- **Staff Training:** Trauma-informed care including secondary trauma and NCTSN CANS administration
- **Caregiver, Transitional Age and Former Foster Youth Training:** Individualized training based on need on transitional living, aspects of trauma-informed care and self- and co-regulation
- **Partnership with National Foster Parent Association:** Training for caregivers, adoptive parents and child protection workers on the needs and development of foster and adoptive children and families.
- **Online Provider Education:** Free accredited education offering continuing medical and professional education units to providers on a variety of subjects related to foster care, physical and behavioral health.

Co-location of Staff

As mentioned, we will co-locate staff within MDCPS offices as an effective and innovative approach to increasing communication and collaboration with individuals supporting our foster children.

Peer Mentors and Targeted Programming

Understanding the importance of supporting transitional age and older youth and the Division's goal of increasing collaboration, in other states with a similar population, we will hire peer mentors to support both caregivers and transitional age and older youth. These specialized peer mentors are former foster youth and current or former foster parents who work with older youth on developing life skills and coping skills. They will use real-life experiences and an Independent Living Transitions Program designed specifically for youth in foster care, which provides education and activities related to transitioning into adulthood to help youth develop life, self-advocacy and coping skills in the area of health care, education, transportation, job skills, housing, money management and other needed areas. **From 2018 through July 2021, in a state with a similar population to Mississippi, 933 transitional age, older and former foster youth have received some type of life skill or foster/adopt peer mentor services from our care management team.**

e. How will the Offeror address racial, ethnic, and geographic disparities in delivery of and outcomes ...

We are committed to addressing health inequity in all aspects of our business and metrics of success. This means bringing intentionality to our work and using additional methods to find root causes of disparities faced by our members. Nationally, 76.1% of children enter foster care due to neglect, which is often unintentional and related to poverty, since poor housing conditions or food insecurity can increase substantiated and unsubstantiated reports for low-income families. Whether engaging in or not engaging in social services because of poverty, the scrutiny involved with lack of resources, often leads to interaction with the child protection system. Poverty increases parental stress, which can trigger family crises including substance use, mental health issues, including depression, intimate partner violence, all of which increase the likelihood of child abuse and neglect. Our health equity approach will include engaging and listening to community voices,

analyzing and understanding barriers (e.g., poverty, LGBTQ+), designing solutions with community partners (e.g., peer mentors) and evaluating effects of our solutions. We will apply an equity lens to our programs and services for children in foster care through:

Educating Providers and Social Service Agencies: We will work toward educating providers and social service agencies about implicit and explicit bias, trauma and trauma-informed care and social determinants of health. We have relationships with the National Foster Parent Association and the National Child Traumatic Stress Network to provide trainings and resource materials to providers, agencies and family members about bias, the effects of trauma, including generational trauma and relevant resources. Our educational platform will offer educational courses on the intersectionality of health disparities and populations who are more at risk.

Using Peer Mentors: Our peer mentors, using their experience with the child welfare system, will help address health disparities by helping families access external and internal resources to feel more confident and successful when engaging with the child protection, social services and health care systems.

Investing in Solutions: Many children in foster care do not have bags or luggage they can carry from placement to placement. To help reduce stigma of not having a way to carry their things, we will provide 17-inch unbranded backpacks in assorted colors to children and young adults in foster care age 3 to 17. Each backpack includes a blanket, socks and assorted toiletries. In addition, we will provide an interactive mobile and web-enabled game to help children in foster care learn about six key areas that have historically prevented transition age youth from achieving stable, independent lives. These areas include money, housing, work, education, health and transportation. Recognizing many young adults in foster care have fragmented documentation, the mobile and web application will allow them to have a repository of their most important documents (e.g., birth certificate, driver's license, individual education plan, insurance card, health record) in a secure, easily accessible location.

6. Dental Services

a. Describe the Offeror's direct experience in service delivery and payment and/or capacity to manage service ...

We have more than three decades of experience managing employer-sponsored, government and individual dental programs across the United States, serving more than 20 million members nationwide through a network of more than 405,000 dentist access points. We are currently managing state Medicaid dental programs in more than 15 states and have extensive experience administering programs similar to MississippiCAN and CHIP. Dental care will be fully integrated into our database so that we can effectively include dental services in our person-centered care approach.

We will process dental claims through a highly modular administration system that incorporates benefit/product design, enrollment, provider authorization determinations, claims and reporting. This system will support mandated HIPAA-compliant health care transaction sets to facilitate automated EDI data exchanges and is a thoroughly vetted, integrated platform specifically designed to manage Medicaid dental claims based on each state's mandated dental benefit designs, frequency limitations, benefit exclusions and annual plan maximums. The system is HITRUST CSF certified and accredited by the Utilization Review Accreditation Commission (URAC) for health utilization management and claims processing administration with claims review and appeals. Able to process both paper and electronically submitted claims, the system will accommodate and process all dental claim types and submission modalities regardless of the submitting provider's technology and supports claims management; critical upstream functions, such as enrollment management; and critical downstream functions, such as claims processing accuracy, financial accuracy, coding accuracy, service utilization tracking and encounter data generation.

b. Describe any innovative methods that Offeror will use to augment its approach.

We will offer a comprehensive oral health strategy with unique clinical care programs that will meet the state's request for dental value-adds for preventive care during pregnancy and postpartum, which provides enhanced dental services including coverage for additional exams, minor restorative, and periodontal services. In addition, we will enhance our CHIP coverage by including additional diagnostic and periodontal services. We will focus on appropriate utilization consistent with dental industry standards of care, positive provider relationships, growing and maintaining our Mississippi Medicaid network, and conducting community outreach to promote good oral health habits.

Network Management: Staffing will include Mississippi field-based provider relations support to serve as point of communication for dental providers. Our provider relations representatives will offer training, program support, problem solving, and spot network recruitment to ensure we are 100% compliant with Mississippi access requirements and will actively engage with the Mississippi Dental Association, and its pediatric subgroup. Our Mississippi dental network will include safety net providers, including all FQHCs, Department of Health Consultants, Rural Health Clinics, the UMMC School of Dentistry, and MHS Mobile Dental.

Dental Care Management (DCM): Through our DCM program we will assess and identify the member's risk level through a dental health risk assessment (HRA) and provide DCM services for high risk or special needs members. Our dental care manager will work with members identified as high risk for oral health needs, including pregnancy (perinatal and post-partum) and children who qualify based on social determinants of health (SDOH) with at-risk conditions, including cancer, diabetes, asthma, HIV/AIDS, autoimmune diseases, and children with physical, intellectual, or other disabilities. DCM services will include: monitor and assess adherence to goals; complete a comprehensive review and assess each member's health conditions, oral health habits, and the member's physical, behavioral, cultural, and preferred language needs; coordinate member care with their dental home provider; create and monitor a member dental treatment plan; facilitate the care process by removing access barriers and helping locate resources; engage and educate members or their parents/guardians on the importance of practicing good oral health habits and following their treatment plan.

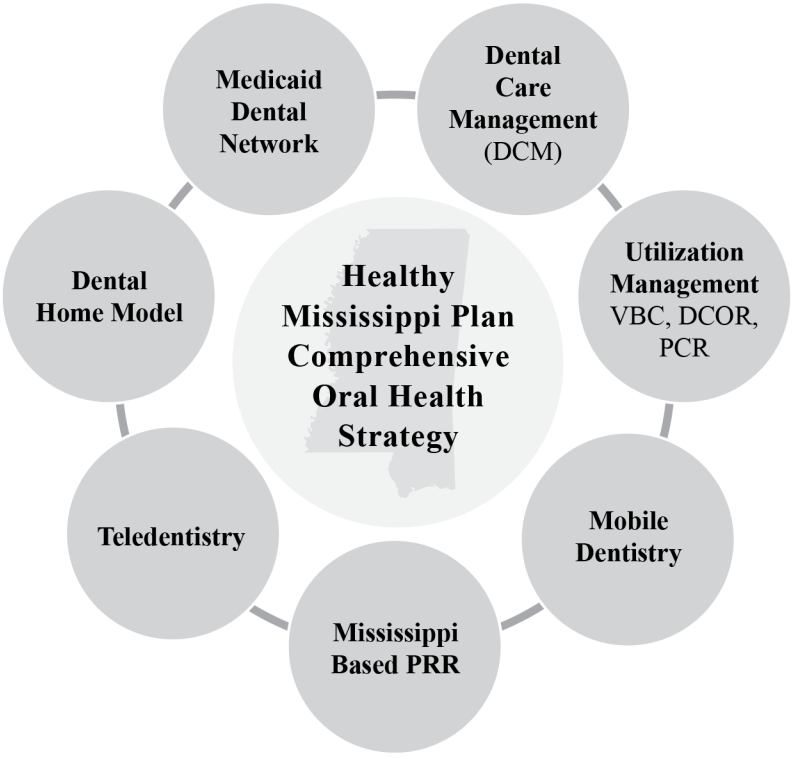

Figure 5. Mississippi Comprehensive Oral Health Strategy

Value-Based Purchasing: We will use our broad experience and infrastructure to engage dental providers in VBP. Our VBP model will provide flexibility and scalability for providers while shifting the focus of the dental delivery system toward preventive care, improved care coordination, and reduction of adverse health outcomes and disparities. Selecting the right performance metrics for a VBP arrangement is critical to driving innovation, action, and alignment of provider performance with state public health priorities. We will offer a new VBP dental compensation model in Mississippi through which providers will be eligible for incentive compensation based on their office utilization for periodic oral evaluations, annual dental visits, sealants for children with elevated caries risk, prophylaxis, and topical fluoride varnish applications for children at elevated caries risk

performance. We will target high volume dental providers for this model and, as appropriate, evolve quality metrics to achieve alignment, streamline administration, and maximize impact among providers.

Dental Home Model: Our first dental home program for children was successfully launched in 2015 in a state similar to Mississippi and was expanded in 2019 to include members age 21+. This program assigns all eligible Medicaid and CHIP members to a dental home to ensure access to oral health care. This dental home coordinates with the member's medical home to support the overall health of the member.

Our Dental Home Model demonstrated proven results in achieving and exceeding state requirements for an ADV metric of 55.5%. We achieved consistent ADV metrics ranging from 62.1% to 63.0% from 2016 through 2019, which is significantly higher than the NCQA national average of 55%.

We will implement our Dental Home Model program to promote network access, Annual Dental Visit (ADV) utilization, continuity of care, and ER diversion, with members assigned to a contracted provider for their dental care. Our approach to dental home assignment will be to align the member with their current dental provider, when possible. The assignment logic will be based on recent dental claims utilization; when claims history is unavailable, we will use geographic assignment based on the member's home ZIP code. Members will have the choice to change their dental home provider assignment at any time.

Teledentistry: We will implement a comprehensive teledentistry solution to provide eligible members with access to at-home phone and video consultations. In addition to covering teledentistry services offered by network dental providers, we will partner with our experienced teledentistry provider to offer 24 hours a day, seven days a week access to virtual visits with licensed dentists, providing guidance on an array of oral health issues and guidance to an appropriate setting for in-person care with their dental home provider or other available network provider. Embedded as a covered benefit or service, our solution can reduce unnecessary ER visits and offer diagnostic services that will reduce overall costs by providing early detection and treatment recommendations.

Utilization Management (UM): We will offer the following UM tools to ensure appropriate utilization and treatment patterns in Mississippi:

- **Dental Care Opportunity Report (DCOR):** A customized provider reporting tool that will reflect practice-level performance data and identifies member engagement and educational opportunities related to key dental quality outcome measures. We will provide the DCOR to our high-volume Mississippi dental providers to help close gaps in care.
- **Peer Comparison Report (PCR):** Will identify providers with aberrant utilization patterns, flagging them when a category or code utilization is twice the network average or more. Will generates real-time profiles for providers identified as outliers and compare their utilization to peers with the same geography and specialty; clinical review will be conducted by our staff dentists to confirm outlier trends.
- **Fraud, Waste and Abuse (FWA) monitoring:** Will ensure members receive cost-effective, quality care by analyzing data patterns and trends of network dental providers. Any suspected fraud or abuse will be referred for investigation. If an error is identified we will counsel providers on program requirements. If the practice continues, we will initiate an investigation and take steps to terminate the provider from the network. In the case of verified fraud, waste or abuse, we will begin recovery efforts for claims paid.
- **Community Education/Outreach and Fluoride Varnish:** Our Community Education and Outreach program is designed to improve overall access, increase member utilization and better manage dental disease. Education materials will address a variety of topics, including oral health for infants, toddlers and children; maternal oral health; early childhood caries; fluoride varnish; and the importance of establishing a dental home. Specific to fluoride varnish, we will reach members and providers through community outreach, mailings, our provider portal and provider emails. We will send a letter to members who receive a

fluoride varnish from their pediatrician or PCP to recommend follow-up with a participating dental provider who can help establish a dental home.

c. How will the Offeror address racial, ethnic, and geographic disparities in delivery of and outcomes ...

We are committed to identifying, addressing, and mitigating health disparities and structural inequities impacting the MississippiCAN and CHIP membership, the health care system, and broader society. We understand and value the diverse needs of the population we serve and work to develop culturally competent services that address these disparities and promote health equity. We will offer our Mississippi providers cultural competency training to reinforce the importance of cultural sensitivity when treating members. Our employees will participate in cultural competency training, and we will host ongoing training sessions and educational opportunities on the importance of inclusion and diversity in the workforce. We will require dental providers to document all languages spoken in their office(s), and we share this information with members via our online provider directory.

We **exceed** NCQA quality compass guidelines of the 50th percentile in states of similar size and geographic makeup. More than 70.9% of our members aged 2 to 20 completed an annual dental visit in 2021.

7. Vision Services

a. Describe the Offeror's direct experience in service delivery and payment and/or capacity to manage service ...

We are committed to providing a high-quality, accessible, and equitable network of eye care professionals including ophthalmologists, optometrists, and opticians that offers member access and choice.

With over 20 years of vision care experience, we specialize in administering vision benefits for government-sponsored programs, including benefit management for more than 8 million Medicaid members nationwide. Our Mississippi vision network will include private practices and large retail locations, providing convenient access to care, including weekend and evening hours.

In a Medicaid vision program of similar size and scope to MississippiCAN and CHIP, we have consistently achieved 100% network access, 100% compliance in meeting our required claims turnaround times, and 100% accuracy for claims adjudication.

We actively support our vision members throughout the U.S. with a robust network of highly trained eye care professionals who are dedicated to improving health through the delivery of quality vision care. We will bring this same quality and dedication to MississippiCAN and CHIP and will meet or exceed the network access requirements outlined in the model.

Provider Recruitment and Retention

We understand the importance of fully supporting our vision providers and have a structured program that matches each provider to an assigned network recruiter to answer questions and assist with credentialing and contracting. Our provider phone representatives will assist with questions received via email and call center, and provider relations representatives will help answer complex provider questions and resolve issues. Our provider portal will offer educational and training opportunities, and information on eligibility, benefits, claims, compliance, eyewear, and health and safety.

We will receive vision claims through our provider portal, clearinghouses, or paper, after which claims are adjudicated on our vision platform. We will process all claims according to state guidelines and requirements, and services are paid based on individual provider agreements.

Our commitment to Mississippi members will include providing high quality professional vision services and eyeglasses that are dispensed by local professionals through our frame kits. Our kits will include a large selection of fashionable frame styles, colors, and sizes. Each of our Mississippi network providers will receive a sample selection of frame styles to show members; in addition, providers can visit our website to order from many additional frame options. These kits will offer our members over 2,000 frame/color/size combinations from which to choose, each with a one-year guarantee.

b. Describe any innovative methods that Offeror will use to augment its approach.

Driving Innovation and Value

Our focus is on clinical excellence, and we invest in programs designed to advance vision health in the communities we serve. As an example, we are conducting an innovative Medicaid pilot program that uses an artificial intelligence device to conduct retinal screenings in a primary care setting, with no requirement to have an eye care professional on-site. We will make this pilot program available to our MississippiCAN and CHIP members at select locations. With the high prevalence of diabetes in Mississippi, this will help identify diabetic retinopathy before it becomes disabling.

We will offer an annual eye care benefit for Mississippi adult members that includes an annual eye exam and choice of prescription eyeglasses from our frame kit. Annual eye exams improve vision health and can help uncover many medical issues, including high blood pressure, high cholesterol, and diabetes. Dilated retinal exams (DREs) are a vital component of annual eye exams for adult members with diabetes, aiding in the early identification of diabetic retinopathy and subsequent treatment to prevent vision loss. We will relay all diagnoses from the comprehensive eye exam to the member's PCP, notifying them that the member has seen an eye care provider, outlining services rendered and diagnoses found, and giving the eye care provider's contact information. This will allow the PCP to identify additional opportunities for member education, counseling, specialty referrals, and medication changes.

c. How will the Offeror address racial, ethnic, and geographic disparities in delivery of and outcomes ...

Our approach to addressing racial, ethnic, and geographic disparities in vision services will center on member engagement for prevention and rapid interventions, provider incentives and toolkits for screening and treatment and coordination amongst providers.

Mississippi has a high prevalence of eye diseases that are secondary to chronic conditions that disproportionally impact our Black and rural populations. Most notably, these include diabetic retinopathy (DR), retinopathy of prematurity (ROP), and sickle cell retinopathy & maculopathy. We will have robust chronic disease programs that include aggressive management of diabetes and sickle cell disease, emphasizing vision care. As part of these programs, we will engage members to remind them to seek vision services as a core element of addressing their overall health. We will address vision health by supporting PCMHs and PCPs with tools to address eye health and by incorporating financial incentives in our APM and VBP programs. Most notably, this can be demonstrated by how we have operated in a state of similar size where we purchased eye screening booths and placed these in PCMHs. These booths allow technically-trained paraprofessionals to perform the technical component of the screening and the information is transmitted for a professional interpretation. In one year, this enabled us to perform over 8,000 screenings in the offices of two PCMHs, often catching early signs of chronic eye disease and we will provide this innovation in Mississippi.

In addition to addressing disparities through our core clinical model, we will address them from both the member and provider perspective by:

- Supporting providers with convenient access to educational information and training about diversity and disparities, such as Advancing Health Equity and Caring for Diverse Populations.
- Hosting an ongoing series of training sessions and educational opportunities specific to inclusion and diversity for our company employees.
- Quickly acting upon any provider or member feedback indicating that a network vision provider is not following the nondiscriminatory language set forth in their provider agreement.
- Asking our vision providers to self-report all languages spoken by their staff and sharing this information with members via our online provider locating feature; this feature will allow members to identify providers with wheelchair accessible offices.

- Ensuring all members have access to high quality prescription eyeglass options throughout the state via our frame kits, providing a consistent offering of over 2,000 high quality frame styles to all Mississippi members. Where vision professionals maintain a laboratory, we allow them to craft and dispense their own product if the member chooses that option.

8. Additional Items

a. State whether the Offeror will required any cost-sharing or copayments from MississippiCAN and/or CHIP ...

We will not require cost-sharing or copayments from MississippiCAN members. Cost-sharing will be required of certain CHIP members according to the guidelines outlined in the model contract.

i. If yes, please describe what these cost-sharing/copayment requirements will be.

We will administer CHIP cost-sharing requirements according to the guidelines provided by the state.

b. Describe practices and policies the Offeror would plan to use to ensure that rural MississippiCAN ...

We recognize the importance of identifying and addressing the social, behavioral, medical and functional needs of our members to improve their health outcomes and reduce health disparities. Key to addressing all health needs is adequate transportation. The transportation vendor we will use is familiar with the rurality of Mississippi and has drivers who can accommodate long-distance trips. They have experience facilitating member reimbursement when members use their own vehicle for non-emergency transportation (NET).

Transportation Vendor Experience

Our transportation vendor reports that nationwide, approximately 20% of their total trip volume consists of rural or remote rural locations with limited transportation resources and they are capable of supporting those areas. The vendor provides NET services in extremely rural areas across the country. Because they have operated in sparsely populated settings since their inception, they know providers may drive considerable distances for one trip. We use the following methods to deliver safe and prompt transportation to rural members and can bring this experience to Mississippi:

- **Innovative Provider Rate Structures:** We have been successful establishing mileage bands and out-of-service area rates that incentivize transportation providers to fulfill trips in rural areas.
- **Sole Source Providers:** We work with medical facilities with fleets to set up sole source arrangements where they transport members to and from appointments or programs at their facility.
- **Non-Professional Community Drivers:** To provide cost-effective service, our transportation vendor successfully integrates volunteers into our NET programs, specifically in areas where public transportation and traditional transportation providers are unavailable.
- **Gas Mileage Reimbursement:** If a member has access to a personal vehicle, wishes to drive or arranges transportation with a relative or friend using a personal vehicle, we assign gas mileage reimbursement. We make reimbursement convenient for members through reloadable debit cards.

Value-Added Benefits for Non-Emergency Transportation

In addition to standard NET services provided to MississippiCAN members, we will offer value-added benefits to CHIP members and expand benefits available to MississippiCAN pregnant members as outlined below.

- **Pregnant Members:** As a value-added benefit for MississippiCAN members, we will offer NET to help pregnant members access critical care and community resources. This benefit will improve access to care, particularly in rural areas where transportation needs affect members' ability to pursue a healthier lifestyle.
- **CHIP Members:** This benefit will be comprised of unlimited rides to and from Medicaid covered services, gas mileage reimbursement, meals and lodging and commercial flights.

Rural Vendor Advisory Council

We will establish a Rural Vendor Advisory Council, with the goal of understanding how we can better collaborate with rural-based transportation providers to deliver higher quality service in rural communities. Comprised of vendors from throughout the country and transportation vendor logistics staff, the Council will meet quarterly to discuss challenges specific to providers in rural communities and identify new processes and technology solutions to solve for those challenges. So far, these challenges include issues like locating rural addresses, GPS taking drivers to incorrect locations, inability to navigate backroads due to flooding, and ineffective communication between transportation providers and members. We look forward to working with our Council members to improve the service we deliver in rural communities nationwide.

Member Alert Reports

The Member Care Alert will notify our care management team when critical care members cancel transportation or do not show for transportation to their critical care appointment. As a result of the early notification, care managers will immediately intervene to ensure members are attending critical care appointments. This early intervention can potentially avoid future high cost of care. These reports can reduce ER visits, surgeries, and annual spending, and close gaps in care to improve overall quality scores.

Alternative Approach

Our care managers will be aware of the challenges our members living in rural areas face when accessing care. We will ensure our care managers are fully trained in remote care capabilities to assist members with accessing virtual care options, including scheduling virtual appointments when transportation services are unavailable.

c. Describe any additional proposed innovations for delivery of Member services or benefits that the Offeror ...

Geographic Analytic System

We have developed a platform for creating, interacting and sharing real-time maps and location data within a secure environment. We will use this technology to access advanced mapping and spatial analysis tools to create heat maps and overlay various data points to get a full picture of what affects our members most. We will use this technology for public health emergencies and emergency preparedness to understand which members will be affected the most by disease spread and natural disasters. This will allow us to direct resources to accommodate local needs more precisely. For instance, should members be displaced by a natural disaster, we can help them find the closest, most appropriate community resource. In addition, should a care manager be displaced, we can divert resources to make sure those members under the care manager’s care are taken care of.

Sickle Cell Disease Partnership in the Delta

We will work with the University of Mississippi Medical Center (UMMC) to fund a medical home centrally located for members in the Mississippi Delta who have sickle cell disease through the Delta Family Medicine Residency Program. Through this program, family medicine residents will learn, from a UMMC hematologist, how to provide culturally competent care for members with sickle cell disease. This initiative will support the need for more physicians and to provide better access to high-quality care for a highly prevalent chronic disease in Mississippi.

Member Services Model

First and foremost, our member services model offers members a person – someone whose name they know and whose phone number they have – who is there when they need it most and who serves as a trusted advisor through the complexities of health care. Service navigators will assist with health system navigation unique to the member’s circumstances. They will partner with care managers, clinicians and providers to support coordination of care and resolve concerns. They will assist with issues related to covered services, eligibility, written materials, alternative formats, provider selection, making appointments, rights and responsibilities, grievances and appeals, referrals and authorizations, community services, transportation and more. In addition,

Spiritual Support staff will be available to provide clinical spiritual care and chaplaincy services and inform members about our spiritual care program, acknowledging this important component of overall well-being. The program will use telephonic outreach and focuses on members and their family who are in spiritual distress with the goal of reducing unnecessary hospitalizations and ER visits by addressing their spiritual needs.

Doulas

Doulas are shown to improve outcomes for pregnant Black members by elevating their voices in their care journey and providing trusted educational, emotional, and social support. We will **invest $130,000 to launch doula pilots** in collaboration with local doula organizations in the Jackson/Metro area and Delta region. Doula support is an evidence-based intervention shown to improve outcomes including cesarean section and preterm birth rates, enhanced experience, and reduced disparities in perinatal care.

In-Home Health and Wellness Service

We will provide annual in-home health and wellness services to members, including in rural areas with limited access to health care. During the 45-60-minute visit, an advanced practice clinician (APC) will review the member's health history and medications, perform health screenings, and develop member-specific treatment plan and goals. They will evaluate members' home and social environment for potential risks and other social and behavioral needs. Our APCs will help close gaps, such as for transportation or food services. Information gathered during visits will be shared with PCPs and used to connect members to appropriate follow-up care. While COVID-19 presented challenges for in-home visits, we quickly set up telehealth to continue much-needed care, going from zero virtual visits before the pandemic to nearly 120,000 in 2020.

d. Describe any additional practices the Offeror will use to address racial, ethnic, and geographic disparities ...

Foundational to our company's operating philosophy are our policies on equal opportunity, equity, and inclusion, which we apply to our employees and those we serve. Our three-tiered approach encompasses breaking down barriers to care and building health equity for members we serve, the health systems in which we operate, and the communities in which our members live. Roughly half of Mississippians live in rural areas, with higher levels of unemployment, poverty, racial disparities, lower levels of educational attainment and access to care. We will use a multipronged approach to address these disparities, including:

Public Health Emergency Response: Recognizing the impact that COVID-19 has had on the community and health system in the last few years, we will implement a campaign alongside community-based organizations in Mississippi to support communities that are vulnerable and at a higher risk of contracting COVID-19. The Black population has been disproportionately impacted by vaccine hesitancy**,** and we will commit to targeted outreach that includes member education and funding providers to administer vaccines and testing in the community. In another state with similar characteristics we used our experience in supporting the public health emergency to deploy a mobile unit that provided screening and treatment for various needs after severe storms. In addition to health needs, our team supports the community by offering assistance with utilities, housing, food and even legal advice.

Data Analytics: Our ability to collect, analyze and integrate person-specific data, including race and ethnicity, has helped us identify and measure utilization metrics to target health disparities and gaps in care. These important insights strengthen the use of telehealth among our high-needs and under-resourced populations. We will use insights obtained during the pandemic to inform our long-term strategy, guiding partnerships, investments, and solutions to address individual barriers.

Disparities Dashboard: Our Disparities Dashboard is a newly created dashboard, that stratifies race, ethnicity, language, and disability status by HEDIS measure allowing identification of focus areas and development of targeted strategies to address nonmedical risk factors. We will use this tool to further understand the barriers to

care for these measures and work with CBOs, provider partners, MississippiCAN and CHIP, and the other CCOs to address known disparities.

For example, we will implement our **Health Equity Incentive**. While all our alternative payment models will address health equity by identifying members with care opportunities, we know improving health equity and reducing disparities in outcomes requires focused intentional strategies. We will stratify key HEDIS measures important to MississippiCAN and CHIP members, by member characteristics (e.g., race/ethnicity) to identify disparities within the provider's patient panel. Providers will earn higher incentives for improving care for all and for reducing an identified gap often experienced by historically marginalized groups.

HEDIS®: We will use HEDIS as a source key measurement that reflects performance of quality of care from a clinical perspective and allows us to identify and resolve disparities in health care. We will integrate data into operational areas as appropriate. Internal workgroups and quality committees will analyze the results to review trends, identify opportunities and develop an action plan.

B. Member Services Call Center

1. Describe the Offeror's Member services call center operations, including:

Our member services call center, staffed by Mississippians, will enhance the member and family experience in Mississippi using a person-centered approach, and by delivering accurate, timely first call resolution to member inquiries and concerns. We will deliver quality and seamless support for members in compliance with the requirements in Section 5.1 of Appendix A, Draft Contract.

Convenient and Simple
Members can request a callback during regular call center hours through our secure member website. The member simply clicks the icon titled, "We'll Call You," selects a topic that describes their inquiry and enters their phone number. This connection provides a convenient and simple way to receive assistance.

Primary Point of Contact. We will assign a single service navigator to the member and their family who will remain as the single point of contact for future interactions. When the member or their family calls our member services call center, they will be automatically routed to their assigned service navigator for ongoing assistance with medical, behavioral health, dental, community-based supports and transportation. This will provide consistent support through their knowledge and understanding of the member's history and circumstances. While typical member services consist of multiple transfers, our service navigation approach will reduce the time spent by having a single point of contact — the service navigator — support for the duration of their issue. Our service navigators quickly become someone whose name our members know and whose phone number they have — who is there when they need it most and who serves as a trusted advisor through the complexities of health care. Service navigation is at its core a personal experience. We believe that by removing the confusion of the health care system and addressing basic needs of our members, we will free our members to focus on their health, which can contribute to improved health outcomes and cost of care. In addition, service navigators will be trained and well versed in the member handbook, offerings on the member portal and mobile application and will help guide the member to these resources.

Member-Focused Member Services Model. Our service navigation model is an innovative best practice service model, especially for members and their families that truly need high-touch, single point of contact interactions. Our goal with service navigation is to improve the health plan experience of our members through a person-centered design. We want to reduce the amount of effort members and families exert within the health care system, build a relationship with the whole family, ease their anxiety through social and community supports and drive member satisfaction and better health outcomes. Service navigators will assist with health system navigation unique to the member's circumstances and partner with care managers, clinicians and providers to support coordination of care and resolve concerns. They will assist with issues related to covered services (including medical, behavioral health, vision and dental), eligibility, written materials, alternative

formats, provider selection, making appointments, rights and responsibilities, grievances and appeals, referrals and authorizations, community services, transportation and more.

a. Confirming that the location of the proposed operations will be within the State of Mississippi ...

Yes, we confirm that the location of the proposed operations will be in Mississippi. Our call center will comply with hours listed in Section 5.1.3.2 of Appendix A, Draft Contract.

b. Specific standards for rates of response (e.g., live answer, incomplete calls, speed of answer, average ...

We will work diligently to meet and exceed performance service levels to make sure MississippiCAN and CHIP members receive efficient handling of their issues and concerns. Our experience and work management tools will facilitate accurate estimations of expected call volume and appropriate staffing. To support continued appropriate staffing, our local Mississippi workforce management team will use a series of applications, including scheduling software, to aid in monitoring our call response rate daily, and generate specialized reports to identify peak call times while measuring service navigator productivity. We will report compliance metrics to the Division upon request and in compliance with contract requirements. In states with a similar population to MississippiCAN and CHIP programs, we consistently exceed similar performance standards and have demonstrated performance metrics for 2021 as shown in the table. We will adhere to the performance standards as outlined in Appendix A, Draft Contract.

Year	Live Answer	Average Hold Time	Speed of Answer	Average Length of Call	Abandoned (Incomplete Calls)	Service Level
Standard	N/A	Less than 120 seconds	30 seconds	N/A	< 4%	80% answered in 30 seconds (CHIP metric is 90%)
2021	46,326	90	8.30	482 seconds	0.4%	96.30%
2020	48,453	45	14.49	440 seconds	1.1%	90.20%

On a regular basis, quality analysts will perform call-monitoring activities to make sure service navigators are providing members with accurate information and adhering to established policies and procedures. We will capture and measure call data via our call distribution system, and will record all inbound member services calls to assist in random sample monitoring. In addition to the formal monitoring the quality analysts will perform, supervisors will replay recorded calls at least one day a week, allowing timely quality reviews and recorded feedback to be provided to our staff. Our member services manager will list selected recorded calls every two weeks with local supervisors and review performance metrics daily to monitor quality and compliance. We will randomly select and record calls and monitor no less than 3% of calls for compliance with customer care guidelines, reporting these findings to the Division through a quarterly report in compliance with Section 5.1.6.7 of Appendix A, Draft Contract. We will make the recording available to the Division upon request within five business days and maintain recordings for at least six months.

c. Accommodations for non-English speaking, hearing impaired, and visually impaired callers, including ...

Our approach to providing health care is person-centric and considers the member's needs including language, hearing or visual requirements. We will provide our members with resources and support to promote communication and foster an inclusive environment, including staff fluent in Spanish (the second most common language spoken by members in Mississippi) and free interpretive services in more than 240 languages. Service navigators, nurse line RNs and crisis line behavioral health clinicians will be trained in handling calls that require an interpreter. We will monitor the languages most requested through our interpretive services line (e.g., number of callers and languages requested) to assess additional needs (e.g., translated member materials).

We will use the 711 National Telecommunications Relay Service (TRS) TTY line to facilitate communication with our hearing-impaired members. Service navigators and our care management teams will receive training on handling calls from TRS operators. We will offer to read important communications to visually impaired members and provide member materials in large print, Braille and voice recorded audio formats upon request.

d. The process to ensure that Member calls pertaining to immediate medical needs are properly handled;

The service navigators will be comprehensively trained to recognize and respond effectively when a member calls with an urgent need, situation or health crisis and may warm transfer members to behavioral health clinicians who are available 24 hours a day, seven days a week to assist. If the call is a life-threatening emergency, our staff will be trained to contact 911 and remain engaged to support the response. Local crisis services may be engaged to assess, triage and follow up with members during and after a crisis. We will provide members with access to our nurse line, available 24 hours a day, seven days a week, staffed with RNs available to address member questions and triage immediate health concerns. Trained and experienced RNs on staff will triage callers with life-threatening emergencies to 911 and warm transfer callers to a licensed behavioral health clinician when the RN presumes the member is experiencing a non-life-threatening emergency or urgent behavioral health crisis. Staff will remain engaged until confirmation of appropriate emergency assistance.

Our member services center will have an option for pharmacy services, where members will be directed to dedicated pharmacy team to assist with escalated issues. Our pharmacy team has national experience working within a carved-out pharmacy benefit collaborating with states' pharmacy benefits administrators (PBA) to ensure our members have timely access to pharmacy services. For example, through collaboration with another state Medicaid agency and their PBA, we were able to make enhancements to our processes, ensuring our call centers can coordinate with external entities including the state's PBA, providing a warm transfer for members or providers who are mis-directed. This ability provides a quick and seamless process to resolve pharmacy services related calls. In addition, some states with pharmacy carveouts permit our staff to access claims platforms so that we may assist members by viewing pharmacy transactions.

If a member assigned to a care manager calls with an urgent need during regular business hours, they will be warm transferred to their care manager or another available member of their care team. The service navigators will contact subject matter experts for assistance with complex issues as needed. This interdisciplinary team approach will provide urgent assistance to members who need additional support to resolve an issue. Service navigators will have access to contact lists for common types of urgent issues, such as respiratory durable medical equipment providers to help identify the member's oxygen provider. Another resource contact list will describe urgent situations and who to contact for assistance (e.g., phone numbers of care managers).

e. Training program for call center employees including cultural competency and Care Management;

Our local staff within our call center will be experienced with the MississippiCAN and CHIP programs and will receive ongoing training, at least quarterly, to confirm they effectively respond to a broad range of inquiries with sensitivity to members with disabilities, language differences, need for assistive technology and various cultural backgrounds. We will submit quarterly reports to the Division that detail the trainings, topics covered and the staff who complete the training.

Education for our local service navigators will begin with 11 weeks of rigorous training on subjects including, but not limited to, Medicaid, the MississippiCAN and CHIP programs, benefits and eligibility, searching for providers, handling urgent calls and our core customer care philosophy. Service navigators will receive training on referrals, escalations and warm transfers to care management for clinical staff assistance for members with complex needs. They will receive training on the enhanced capabilities of our member services model, including the Community Services Referral Module, to refer members to food banks, job placement and other local resources; Prevention and Wellness Module to resolve barriers from closing gaps in care; and Provider

Processes Module that trains the service navigator to offer to schedule appointments. We will assess all service navigators on their training to ensure comprehension and retention.

We will provide service navigators with ongoing training inclusive of the very latest in Medicaid changes and requirements that include "Late Breaking News" articles, Provider Bulletins, State Plan Amendments, Administrative Code Filings, the Division's Provider Reference Guide and MississippiCAN and CHIP program updates. We will deliver ongoing multimodal training, including ad hoc training sessions led by supervisors, team meetings, one-on-one coaching and web-based training. Other ongoing trainings will include general refresher courses on important topics such as member experience, ethics and confidentiality; quality analyst monitoring and formal feedback; supervisor monitoring of calls followed by one-on-one coaching; and weekly newsletters to all service navigators that include reminders regarding policy and procedures.

Our service navigators will be local residents who understand the cultural elements of Mississippi. We will provide ongoing cultural competency training on the cultural, linguistic characteristics and special health care needs of the members they serve. Training will focus on awareness-building activities, including:

- Communication protocols for members with limited English proficiency
- Cultural awareness and understanding of health disparities among different cultural groups
- Cultural beliefs related to health, illness, medical care and end-of-life issues
- The need to treat each person with dignity and respect
- Barriers facing individuals with special health care needs
- Overcoming barriers to communicating with individuals with disabilities
- Cultural sensitivity training via role-play and teaching modules
- Social determinants of health and effect on member care needs

We will provide ongoing training for handling urgent calls. Service navigators will be trained to recognize the symptoms of a medical crisis (such as slurred speech, shallow breathing) and symptoms of a behavioral health or substance use disorder (SUD) crisis.

The service navigators will be comprehensively trained to recognize when a member calls with an urgent need, situation or behavioral health crisis. Trained and experienced RNs on staff will triage callers with life-threatening emergencies to 911 and warm transfer callers to a licensed behavioral health clinician when the RN presumes the member is experiencing a non-life-threatening emergency or urgent behavioral health crisis. All service navigators will complete training on long-term services and support, including the role of care managers and will review supporting standard operating procedures and job aids for Mississippi.

Forming Bonds with Our Members

Our member, Pat, who we serve in a similar state, was overwhelmed with the benefits available to her and needed help addressing her medical and behavioral health needs. Pat's service navigator, Nikki, was ready to support Pat with dedicated assistance. As a service navigator, Nikki is empowered to reach out and proactively assist members by coordinating resources, addressing claims issues, providing social support and assisting with other needs. Nikki explained to Pat options to remove barriers to needed medical, behavioral, dental, pharmacy, and community services. Pat and Nikki's bond grew throughout the COVID-19 pandemic. Nikki helped Pat schedule her COVID-19 vaccines and a bone scan. The scan identified that Pat had osteoporosis and Nikki supported Pat in scheduling follow-up care. Nikki even helped Pat get a cellphone for the first time.

f. How the Offeror will address service interruption through fail-over to an alternative site, redundant ...

We have a comprehensive business continuity plan to support communications if service interruption occurs and will comply with requirements in Section 5.1.6 of Appendix A, Draft Contract. We will engage our business continuity plan in times of unexpectedly high call volume, such as natural disasters. Our plan will restore critical business processes and resume normal business operations in a prioritized manner. For any

downtime event, all our call centers across the country are prepared with procedures to communicate with members, track and record calls, and respond to requests during and after the event.

If local operations are compromised, the first-line backup for our member services center will be a team from a state north of Mississippi. We will provide staff with the equipment and secure connections they need to perform job duties from home. Thus, if coming into the office is not possible, service navigators can login securely from home and serve members with the same service levels as they would from the office. Our work force management team will create and manage staffing plans based on call volume forecasts, allowing call queues to be adequately staffed throughout the day. These will be tenured advocates who have been trained in Mississippi-specific content.

Workforce Management Overview
▪ Monitors call volumes, talk times, staffing, speed of answer ▪ Real time monitoring of call queues to ensure service level goals are met and adjust quickly to unanticipated volume increases ▪ Alerts operations to unanticipated spikes in call volume ▪ Plans and schedules staff accordingly to account for anticipated known high volume days
Call Management Technology
▪ IEX Scheduler: Creates navigator schedules based on call volume forecast, occupancy goals, service level metrics and average handle time projections ▪ All operations are proactively monitored by the Network Operations Center (NOC) 24 hours a day, seven days a week for business continuity planning. The NOC monitors weather for additional pre-planning.
Contingency Playbook
▪ Tenured contingency staff – virtual staff working from home spanning multiple states ▪ Backup teams are available in times of higher-than-expected call volumes and during emergencies ▪ Training curriculums are available to deploy in the situation that call volumes need to be rerouted ▪ Skill-based routing and call forecasting allow us to easily overflow calls with the same level of service

g. For behavioral health/substance use disorder, how the Offeror will provide crisis intervention and other ...

We will streamline the members experience of accessing medical and behavioral health services by providing one phone number by which they can reach the member services team or the behavioral health crisis line. Members will have direct access to our behavioral health crisis line and our member services team will accept these calls and quickly connect the member to the resources they need. For callers who may be in a non-life-threatening behavioral health/SUD crisis, the service navigator will warm transfer the call to our independently licensed, master's level behavioral health crisis staff trained in de-escalation techniques, who will be available 24 hours a day, seven days a week. For life-threatening emergencies (such as any call involving an in-progress act of violence toward another, suicide attempt, or the caller or service navigator feels there is an imminent danger to self or others), they will triage the call to 911 while our staff remains on the line. Service navigators will never place a caller on hold if the service navigator believes the caller is experiencing a life-threatening crisis. Should a caller search for a mental health or substance-use treatment provider or facility, or ask questions about behavioral health benefits, our service navigators will ask a screening question if they perceive the member to be in crisis, including behavioral emergencies. If a caller responds "Yes" to the risk question, the service navigator will warm transfer the call to a behavioral health clinician. If the responses do not indicate a crisis and there are no outstanding concerns, the service navigator will answer the member's inquiry. We will employ an integrated care model liaison with behavioral health experience who will be a dedicated call center resource in our Mississippi call center, providing training to service navigators to address behavioral health calls, including screening for a possible behavioral health crisis. Service navigators will receive training to react swiftly and calmly in the presence of a caller who is experiencing an emergency or crisis and to assist and triage callers appropriately.

Our toll-free member services staff will respond to routine, urgent and emergent issues for physical, behavioral, pharmacy and social support inquiries and conduct triage for crisis behavioral health services during normal business hours. For after-hours assistance, MississippiCAN and CHIP members will connect with a nurse line 24 hours a day, seven days a week, where licensed RNs will address their questions and triage immediate health concerns, whether routine or nonroutine. Trained and experienced nurse line RNs will triage callers with life-threatening emergencies to 911 and warm transfer callers to a licensed behavioral health clinician for immediate assistance when sensing that a member has a non-life-threatening behavioral health emergency or urgent need. Our care management staff will follow up on all crisis contacts by members to assist with crisis prevention (e.g., development of a crisis plan) and coordination with the provider(s) who provided treatment services during the crisis episode, such as crisis respite or psychiatric inpatient providers.

2. Describe the Offeror's proposed automatic call distribution (ACD) system and its capabilities and capacities.

To manage call volume, we will use a combination of analysis and technology, making sure our call metrics remain stable and meet performance requirements. Our Network Operations Center (NOC) will support all call centers with real-time operational monitoring and reviews results and trends to verify adequate capacity for routing calls to trained staff.

Proposed Automatic Call Distribution System

We will use an automatic call distribution (ACD) system organized by skill (call type, program type). The system monitors volume, performance metric targets and service navigator availability and status.

Capabilities and Capacities

After assessing the potential membership of the MississippiCAN and CHIP programs, we are confident our call center will have more than sufficient capacity to meet the demands of the call volume demands from MississippiCAN and CHIP programs. Our workforce management staff and call center operations leadership will review performance results real time, hourly and daily. They will meet every morning with call center management to review the previous day's results. Workforce management will report monthly results on business segment scorecards, use load-balancing analytics to equalize workload and employ variable staffing techniques to accommodate anticipated volume.

We will use the ACD system to enable the service navigator to address member calls and use teleconferencing. The ACD will capture and measure call data, allowing us to produce weekly, monthly or ad hoc reports for the Division. We will provide the following information to the Division in a monthly report:

- Number of incoming calls
- Number of calls answered
- Average time to answer a call
- Average abandonment time
- Identity of the call center staff member taking the call and authorizing the request
- Number of abandoned calls during the wait in queue for interaction with call center staff
- Average talk time
- Highest abandonment calls time
- The top three drivers of the month, such as:
  - Address change
  - Benefits
  - PCP Inquiry
  - Provider Inquiry
  - Transportation
  - Coordination of Benefits Information
  - Member Record - Eligibility

Call routing/interactive voice response (IVR). Our call center technologies will manage the flow of all incoming calls to provide timely responses to member inquiries. Intelligent routing and IVR systems will provide skill-based and priority call routing to link members with the appropriate service navigator. The system

will be available 24 hours a day, seven days a week; if a member calls for nonurgent needs, outside of staffed hours, they will be prompted to leave a message and these will be returned within one business day by our member services team. Our IVR system will request that the caller enters or speaks their unique identifier such as member ID, to populate the service navigator's desktop system and provide member-specific information at the service navigator's fingertips. Each service navigator will be accountable for resolving the issue that prompted the member's call and anticipating future issues. We will equip service navigators to solve issues across all benefits, including medical, pharmacy, behavioral health, provider research and appointment scheduling.

Operational readiness: To confirm operational readiness before implementation, we will test our systems, validate scripts, make test calls and confirm appropriate staffing ratios, conduct mock readiness reviews and other preparedness that leads to positive caller experiences. We will confirm that each service navigator is fully trained and has access to all of the necessary systems.

Operational monitoring: Our call center technologies will manage the flow of all incoming calls to provide timely responses to member inquiries. The member services model is our standard for delivering integrated, outcome-based services, using intelligent routing and natural language technology.

C. Member Handbook

1. Describe how the Offeror's Member Handbook will inform Members about the process for accessing ...

Our member handbook and all supporting materials will be written at no higher than a third-grade reading level and conform to all standards outlined in the Americans with Disabilities Act (ADA) to meet the needs of our members with visual/hearing impairments and physical/mental disabilities. Ongoing, we will update our member handbook, upon feedback received from member focus groups and organize the content according to actual member preferences. The member handbook will continually evolve as we enhance features and content. Our member handbook will contain all required information in Section 5.4.2 of Appendix A, Model Contract and will include information on obtaining local behavioral health/substance use disorder services, as well as all other clinical services offered by us, or in partnership by the Division.

An interdisciplinary team comprised of our member services director, quality director, ESPDT coordinator, health services director, health equity director, compliance officer, population health director, network strategy director and representatives from pharmacy, behavioral health, dental and vision benefits will review the member handbook as needed and more formally annually. They will review for ease of use and updated content. We will obtain Division approval before distribution and posting it on our website. We will comply with all of the Division's requirements in the model contract to make sure we continue delivering a complete and easily understood member handbook to our MississippiCAN and CHIP members.

Member Handbook Information on Accessing Services

Our MississippiCAN and CHIP member handbook will contain information on accessing physical health and behavioral health/substance use disorder (behavioral health/SUD) services, including, but not limited to:

Member Welcome Guide: To deliver a high-level overview of how to begin using their health plan and access services, we will provide a welcome guide section that reinforces the member's need to make an appointment with their PCP. This guide will offer basic information to help members learn how to access care, including behavioral health care and SUD treatment, and the benefits and services covered under their health plan.

Benefits at a Glance: Our MississippiCAN and CHIP member handbooks will provide the member with an overview of the health care benefits and services available to them in a section titled, "Benefits at a Glance." Information will be provided for:

- Primary care services
- Medicines
- Nurse line
- Vision care
- Well-child visits
- Hospital services
- Dental
- Maternity and pregnancy care
- Large provider network
- Laboratory services
- Substance Use Disorder
- Behavioral health
- Family planning
- Specialist services

Member Support Section: Our "Member Support" section will help members learn how to obtain assistance. Providing this information will enable members to contact us for help with accessing services, questions about benefits or other needs. It will provide contact information for member services for help accessing medical, behavioral health/SUD services. This section will provide steps to register for secure access to our member website, details on our care management program, how to obtain transportation services, how to obtain translated printed member materials and interpreter services, what to do during emergencies and a list of important numbers, including the Division, our nurse line and more.

Health Plan Highlights: The "Health Plan Highlights" section of the member handbook will include a sub-section to prepare members for doctors' appointments. It will include information on the primary care medical home (PCMH) and the PCP's role and accessing care through network providers and out-of-network providers. This section will emphasize the importance of annual checkups and include a list of important screenings for women, men and children. It will inform members what to do if they need care while they are out of town. It will notify members how to obtain transportation if needed, so they can attend their appointments. This section of the member handbook will address how our members can access behavioral health /SUD services, and provide information on outpatient services, crisis intervention and access to inpatient services.

Hospitals and Emergencies: The section titled "Hospitals and Emergencies" will advise the member on how to seek emergency care, explains inpatient and outpatient hospital services and the benefits available. This section will provide examples of emergencies and non-emergencies, information about urgent care and how to access services at urgent care clinics. Prior authorization will be covered in this section and it will inform members that certain services require approval, and how these services are authorized.

MississippiCAN and CHIP Benefits: The "MississippiCAN and CHIP Benefits" section will provide a comprehensive list of covered services, any limitations and whether prior authorization is required to help members understand all available services and how they can be accessed. For ease of use, this section will be set up as a table with an alphabetized list of benefits, including physical and behavioral health, any limitation and any need for prior authorization. The differences between MississippiCAN and CHIP will be separated and noted. We will not combine member handbooks for the MississippiCAN and CHIP programs; we will offer separate manuals to provide members with information most applicable to their care.

2. Describe how the Offeror's Member Handbook will inform Members about the Offeror's Care ...

The sections of the member handbook discussed in our response above to 4.2.2.1.C.1 will inform members about our care management system. Specifically, the following sections will speak directly to our care management system.

The "Member Support" and "Disease and Care Management" sections in the member handbook will explain the functions of the care management program, how members can refer into a program and how to access other health, education and social services programs. The "Disease and Care Management" section will outline the care management team and how they will work with the member.

The “MississippiCAN and CHIP Benefits” section will provide a comprehensive list of covered services; any limitations and prior authorization requirements and disease and care management. There will be additional, standalone sections on wellness; maternity; disease and care management; and behavioral health programs that will provide details on these offerings, list the member services number for more information and explain how to self-refer into one of our programs.

Our field-based care management team, community health workers, outreach staff and transformation consultants will have copies of the member handbook with them. As they speak with members, they will highlight the parts of the handbook that are of most relevance to that member. The print versions will be sent to members upon request and will be delivered to local community organizations and state Medicaid offices.

D. Website and Mobile Application

1. Describe how the Offeror will ensure that Members are well-informed about the existence and functions of ...

We will promote our secure member portal and mobile application in our member materials, including the welcome letter, member handbook and member welcome guide. Our public website will link members to our secure member portal, where members will find more information on the mobile application and links to download the app. Further, we will train our service navigators to promote the member portal and train our member-facing staff (e.g., service navigator, care manager, nurse line) to talk with members about the tools available online to help them learn about their benefits, conduct provider searches, view covered services, medications and more. We will provide site demonstrations, educational materials, email notices, online help and customer care to educate and assist members. In addition, we will provide information on our member portal and mobile app to community partners so they can direct members to these resources as appropriate.

2. Describe any functions beyond those required in Appendix A, Draft Contract, that the Offeror will make ...

Our member website design will meet the unique needs and challenges of our members, including appropriate reading levels, vital plan information in English and Spanish, and translations into multiple languages, including Vietnamese, Chinese, Tagalog and Somali. This site will support our Hispanic and Latino community by providing navigation in Spanish and facilitating access to interactive programs and educational materials. Our Accessibility Program will meet the requirements of Section 508 of the Rehabilitation Act in Section 1557 of the Affordable Care Act. We will enhance website accessibility for individuals with disabilities as technology standards evolve and customize content on our website to align with Mississippi-specific requirements.

Our members will have access to multiple resources on the member portal. These resources will include assessments (e.g., alcohol and tobacco); financial resources; searchable provider database and links to expert resources. It will contain 62 libraries focused on relevant behavioral health topics, such as resilience, addiction, recovery and stress. It is our standard practice to regularly review and update the member website to maintain consistency and accuracy of information, and to verify compliance with state requirements. We will make regular enhancements to the member website to better serve our members. For example, we will add the Health Risk Screening to the secure portal for members to easily access and complete them. Another enhancement will be our “we’ll call you” feature, which will allow members to receive a call back from member services. When requesting the call, the member will select a topic for the inquiry and enter their phone number. The member will then receive a call for assistance. Our digital marketing team will use a change log tracking system to document all website changes and updates.

E. Member Education and Communication

1. Describe what methods the Offeror will use to inform Members of the functions of the Member services ...

We will inform members about and encourage use of our member services call center during the welcome call and in our member materials, member handbook and member welcome guide, which we will provide to members within 14 days of receiving notice of the member’s enrollment. Our public website, secure member

portal and mobile application will have information on the member services call center. We will train our member-facing staff to talk with members about how the member services call center can help them learn about their benefits, conduct provider searches, schedule appointments, connect them with medical and behavioral health resources and more. We will provide collateral materials, emails, online help, customer care and technical support to educate and assist users.

2. Describe what methods the Offeror will use to inform Member of the functions of Care Management ...

We will inform members of the functions of care management during the welcome call, our member handbook and member welcome guide. Our public website, secure member portal and mobile application will have information on care management functions, educational resources and information on how to self-refer. We will train our member-facing staff (e.g., service navigators, care managers, community engagement team) to help members learn about care management, maternity and wellness programs such as quitting tobacco or diabetes management. Service navigators at our call center will encourage the use of care management and handle member calls to self-refer to care management. When care managers contact members for the first time, the care manager will explain the purpose and importance of care management. In addition, providers will have many opportunities to learn about our care management functions, through interactions with provider-facing staff, workshops and events. They can they pass along this information to members who may benefit from care management.

3. Describe how the Offeror will develop and maintain a comprehensive, evidence-based health education ...

We will maintain a comprehensive health education program to serve our MississippiCAN and CHIP members in compliance with all requirements in Section 5.2 of Appendix A, Draft Contract. We will tailor our well-established health education program to the needs of MississippiCAN and CHIP members, employing sustainable best practices and tools. Our evidence-based program focuses on disease prevention, healthy lifestyles and health care decision-making skills. Our care teams will use HEDIS outcome indicators, national preventive care guidelines, state population health goals, evidence-based practices and contractual requirements to develop our health education program. Integrating evidence-based practices into our health education program enhances the member's experience and will improve long-term health care outcomes to effectively reduce morbidity and mortality related rates in Mississippi. We will emphasize the use of evidence-based health education and clinical guidelines based on clinical literature and expert medical experience to help members make choices about the best health care activities that empower them to manage their condition.

a. An overview of the program, including accountabilities and proposed activities;

Our comprehensive education program will integrate health education and tools that help our members achieve and maintain a healthy lifestyle. These resources will help members improve their health knowledge and their overall health status. Our program framework will be structured to educate members in all ranges of the health care continuum, including prevention (e.g., receiving immunizations), getting healthy (e.g., exercise, tobacco cessation) or living with chronic diseases (e.g., learning about asthma and applying the knowledge toward self-management).

Accountabilities

Accountable ownership for our MississippiCAN and CHIP education program will fall under the direction of our medical director, who will develop and refine our health education program with support from national and local health education staff, health equity director, care managers, clinical teams, community health workers, quality teams, the Division, other CCOs and key community stakeholders. This interdisciplinary team will use evidence-based, disease-specific programming, clinical priorities, national recommendations and national and local resources. Our national health educator will be accountable for making sure each evidence-based component is applicable to our MississippiCAN and CHIP population. Locally, our medical director will handle education program monitoring and work with our utilization management (UM) coordinator to oversee the

health education program. Our medical director and accountable partners will use clinical analytics reports, compiled from business intelligence and HEDIS metrics, to analyze the effectiveness of the health education program and recommend changes.

Health Education Activities

Our ongoing health education activities will include programs that are appropriate to the member population and can effect behavioral change for improved health outcomes. Our educational activities will align with our programmatic focus of prevention, getting healthy and living with chronic illness. We will use community-based partnerships to identify additional relevant health education activities. We will partner with these organizations to plan and deliver services that address these health education needs. We will combine low, medium and high-touch opportunities for members to engage in the modality of their choice (e.g., telephonic, email, text or in person). Each activity will provide a unique opportunity for us to maximize promotion of health education and personally inform members how to close their individual care gaps. Our educational activities will focus on the following topics and include:

Prevention	Getting Healthy	Living with Chronic Illness
▪ Immunization outreach ▪ Telephonic outreach-gaps in care ▪ EPSDT outreach ▪ Women's health ▪ Checkup reminder mailings ▪ Flu immunization campaign ▪ Question, Persuade, Refer ▪ Mental Health First Aid	▪ Community Health Fairs ▪ Clinic Days ▪ Head Start to Health ▪ Member workshops ▪ Seeking Safety ▪ Community Baby Showers ▪ Mindfulness Exercises ▪ Weight Loss	▪ Diabetic education ▪ Sickle cell program ▪ Disease management ▪ Care management ▪ Member newsletter ▪ Behavioral Health Self-Care and Peer Support App ▪ Medication adherence program

b. The Offeror's rationale for selecting areas of focus;

Our primary rationale for selecting areas of focus in our comprehensive health education program is to address the health conditions prevalent in Mississippi and contractually required by the Division, including asthma, prediabetes, diabetes, hypertension, obesity, attention deficit disorder, congestive heart disease, behavioral health, substance use disorder, sickle cell and organ transplants. To confirm that our areas of focus are relevant to our members, we will use internal qualitative and quantitative data from a variety of sources. This will include our internal resources such as our databases, member risk assessments and claims analysis. We will use our member and provider advisory councils and goals and objectives set by the Division of Medicaid.

Through additional local and national statistical data, we have already identified areas that represent health care challenges and offer significant quality improvement opportunities for Mississippians. We will target opportunities for improvement in areas of clinical care that reflect the demographic characteristics, prevalence of disease and the potential consequences of the disease for members. Our areas of focus will be selected through an internal assessment of disparities in delivery of health services and in health outcomes that are related to remediable cultural barriers and community limitations.

c. How the Offeror will ensure that materials are at a third (3rd) grade reading level;

We will write all MississippiCAN and CHIP member materials at or below a third-grade reading level and will obtain Division approval prior to use. All of our teams will collaborate to create consistent and retainable materials for our members. We will use an evidence-based Flesch-Kincaid tool to assure that our member documents are at a 3rd grade reading level. This resource will make compliance with state reading level requirements simple with detailed descriptions, guidance and examples for alternative grammar. Our system

will enforce clarity of our member materials to ensure that members understand our information. In addition, it will monitor several different criteria and make suggestions in "real-time" and help with:

- Writing style (capitalization, punctuation)
- Word replacement suggestions
- Spelling and grammar
- Clarity
- Voice and tone
- Inclusivity and sensitivity (gender, age, disability)

d. The language alternatives available to non-English speakers/readers; and,

We support the use of Culturally and Linguistically Appropriate Services (CLAS) standards and will comply with the requirements outlined in Section 5.2 of Appendix A, Draft Contract. Our customized materials will be approved by the Division, available in English and Spanish and can be made available, upon approval of the Division, in other languages as required. Our standard will be to make written materials, including health education materials, available in alternative languages when approximately 5% or more of the total population speaks the alternative language. Before printing and use, we will submit all member materials to the Division for review and approval, and we will follow state and federal regulations, and MississippiCAN and CHIP contract requirements. For non-English speakers, we will provide free interpretive services that offer access to more than 240 languages. Our member website will be available in 11 languages.

e. How Members who are visually and/or hearing impaired will be accommodated.

Our member website and PDFs of member educational materials, including our member handbook will comply with the Web Content Accessibility Guidelines. This will make our digital content accessible for people with disabilities and a diverse range of hearing, movement, sight, and cognitive ability. We will create written member materials in a minimum 12-point font (except ID cards). We are sensitive to the needs of individuals with disabilities and special health care needs. We will make alternative formats available for members who have developmental, visual, hearing, speech or physical disabilities. We will make translations into large print, Braille and digital audio formats upon request.

4. Describe how the Offeror will employ creative solutions to encourage participation in Member outreach ...

To increase participation in our education and incentive activities, we will provide information to providers, community partners and our Community Partnership Advisory Committee (CPAC) to be shared with our members. We will use in person outreach, written, telephonic, email, text, digital platforms and incentive programs to deliver education to our members. We will partner with local organizations who have standing events so that we can take advantage of a group of our members.

In-Person Outreach

Since many Medicaid members rely on community- and faith-based organizations to meet a variety of needs, we find these organizations provide a valuable perspective on both potential members' needs and on effective outreach methods. We will proactively work with organizations that serve Medicaid populations to conduct specialized events, such as health fairs, where we provide education and information about healthy lifestyles, in addition to our care management and wellness programs.

Health Literacy Campaigns

As a best practice, we will deliver health literacy campaigns through multiple channels, such as mailers, outbound calls, emails, social media and information provided by member facing staff so that we can learn which touchpoints resonate with our target audience's needs and habits. Our health literacy campaigns will include information for such health and disease states such as maternity health, behavioral health, well-child visits, immunizations and social needs.

Printed and Telephonic Resources

We will use printed and telephonic outreach to encourage participation in health education and help close gaps in care. We will use a layering approach from low to high touchpoints to make sure we are engaging with members in the way in which they are most apt to respond. For instance, we will send disease management education to members with chronic conditions such as asthma and diabetes, and preventive care mailings to all members. We will distribute educational brochures at community and outreach events, schools and provider offices. For those members who do not live in a region near an upcoming community wellness event and are not up to date with their recommended preventive screenings, we will use live outreach calls to reach them. We will use a manual pre-event phone call to encourage participation to community events and send out an event mailer to increase attendance at community events.

Virtual Meetings

We will work with community partners such as sheriff's offices, community-based organizations and churches to provide education to our members. These virtual meetings will occur biweekly and provide information on benefits; enrollments and engagements; health education, COVID-19 resources and more.

Omnichannel Gap in Care Reminders

Our omnichannel clinical outreach program will aim to improve member engagement by sending important health screening reminders to members in a channel of their choice. The program will use a combination of IVR, text and email follow-up to remind members to get needed care.

Incentive Programs

We will use innovative incentive programs that comply with state and federal guidelines, to educate our members about preventive care and to close gaps in care. These programs will offer rewards to members for completing important screenings, tests and immunizations that improve health outcomes.

5. Describe the Offeror's proposed process for maintaining both online and print Provider Directories that ...

We will comply with all requirements of Appendix A, Draft Contract, Section 5.5. We will maintain an online searchable provider directory that gives members the ability to search by specialty, facility type, geographic location, provider name, provider gender, language spoken, hospital/group affiliation and whether the provider accepts new patients. We will accept photographs of participating providers. We will maintain a PDF version of the directory on the member website that can be formatted for print production and distribute it to members, potential members, network providers, our staff members and others upon request. We will make hardcopy directories available in State Medicaid Regional Offices, our office, libraries and other areas as directed by the Division.

Provider Data Requirements

Our provider directory will include demographic and practice information for all types of providers in our network, including, but not limited to, PCPs, hospitals, specialists, FQHCs, rural health clinics, ancillary providers, behavioral health and SUD providers, and pharmacies. This will include all the necessary information to populate our provider directory, including facility names, individual practitioner names, practice locations, hours of operation, telephone numbers, fax numbers, email addresses, board certifications, handicap accessibility, patient age ranges accepted and languages spoken. We have the ability to note high-performing providers who may excel in clinical outcomes and be designated as a patient centered medical home. Finally, we will encourage providers to supply current professional photographs so that they can be included in our directory. We will extract and publish all required provider directory elements from the database to maintain compliance with Division requirements.

Production Process for Accurate and Up-to-Date Provider Directories

We will update our online provider directory five times a week and we will update printed directories monthly, based on federal guidance. We will extract data for all participating providers, including subcontracted vendor data, into a defined file layout for both paper and online directory production. We will print our provider directory on demand to make sure it is a current paper directory.

Maintaining Provider Directory Network Information

We will conduct our provider directory reviews and make necessary edits at least monthly. Our proactive provider directory maintenance approach will include the following designated teams and resources:

- **Provider Verification Outreach (PVO) Team:** Our PVO team will contact network providers to update information, with PVO activity initiated by specific triggers (e.g., analytics pointing to potential discrepant data, regulatory requirements, referrals from call centers).
- **Field-Based Representatives:** Our field-based representatives, including provider advocates and field-based registered nurse consultants, will routinely meet with providers to share and discuss our processes and maintain ongoing collaborative relationships.
- **Network Account Management Team:** This outward-facing team will handle the contracting process and work directly with providers to establish, maintain and correct provider data elements.
- **Routine Reviews:** An ongoing provider demographic review and validation effort will be performed in collaboration with the network account management team. We will prioritize and target physician practice groups and other provider types based on member impact and date of last update.

We will extend autonomy and responsibility to the providers to review and update their information. This will include a requirement to notify us of any changes to their participation status and demographic information that may affect member access. Providers can initiate updates to their demographics through the provider portal or our provider services center.

Identifying PCPs and Specialists Who Are Not Accepting New Patients

We will permit providers to close and re-open their panel at their discretion with no interruption in provider relations advocate support and care management support for clinical needs. We will allow providers to set limits on their panel size. Our care managers and provider relations advocates will maintain communication with these providers and alert us if their panel status preference changes. We will provide physician availability information through our member portal, provider directory, care managers and service navigators. The provider directory will show which providers are accepting new patients, and those who are not.

6. Describe the Offeror’s proposed policies, procedures, and processes regarding the Member’s rights ...

We will strongly support our membership in exercising their legal rights, which we demonstrate by incorporating the principles of dignity of risk and self-determination in our policies, procedures and trainings. We will have policies and procedures for MississippiCAN and CHIP, such as the Notification of Rights document, which will cover purpose, definitions and policy and process for members to access and receive their Rights and Responsibilities. We will comply with all requirements in Section 5.10 of Appendix A, Model Contract and maintain policies and procedures in compliance with state, regulatory and federal regulations.

To raise awareness among our membership, we will include information on rights and responsibilities in our member handbook, member newsletter, the member website and other direct communications. We will provide information to individuals with disabilities during their planning meetings to confirm that they can make informed choices about their lives. To protect the rights of individuals with intellectual or developmental disabilities, we will participate in Human Rights Committee meetings if requested by the individual or family and execute on specific actions determined within the meetings. We will communicate members’ rights to

practitioners via our provider manual, the provider portal and in our provider contracts. Designated staff, including our compliance officer, will monitor compliance with MississippiCAN and CHIP program requirements regarding member rights. In compliance with MississippiCAN and CHIP program requirements, our Member Rights policy will guarantee the following rights to members:

- Receive information in a manner that is easily understood in accordance with 42 C.F.R. § 438.10
- Be treated with respect and with due consideration for their dignity and privacy
- Receive information on available treatment options and alternatives presented in a manner appropriate to the member's condition and ability to understand
- Participate in decisions regarding their health care, including the right to refuse treatment
- Be free from any form of restraint or seclusion used as a means of coercion, discipline, convenience or retaliation, as specified in other federal regulations on the use of restraints and seclusion
- Request and receive a copy of their medical records and request that they be amended or corrected, as specified in 45 C.F.R. §§ 164.524 and 164.526
- Free exercise of rights and the exercise of those rights do not adversely affect the way we and providers treat the member
- Be furnished health care services in accordance with 42 C.F.R. § 438.206 through 438.210

Beyond the MississippiCAN and CHIP member rights requirements, we will include the rights to:

- Receive culturally sensitive assistance, and receive courteous and prompt treatment
- Receive information about the benefit program and which services are covered
- Know the qualifications of our health care providers

We will maintain and follow policies and procedures to confirm that members' rights are communicated clearly and are respected in every aspect of our services, and member concerns regarding violations of these rights are addressed and resolved appropriately through our grievance and appeals process.

7. Describe the Offeror's proposed policies, procedures, and processes to ensure Marketing requirements are ...

We understand the importance and sensitivity regarding permissible marketing activities and prohibited practices. We will comply with all requirements outlined by the Division in Section 5.9 of Appendix A, Draft Contract. We will comply with requirements specified by 42 C.F.R. § 438.104 and not directly market to individual Medicaid members or potential members.

Our Policies, Procedures and Processes to Meet Marketing Requirements

We will follow multiple written internal policies and procedures (P&Ps) that specifically address compliance with MississippiCAN and CHIP program contractual requirements related to marketing materials and activities. Our P&Ps will enforce compliance with Division approval of all membership materials and community events and confirm material distribution to members who are enrolled with us.

We will follow Mississippi-specific P&Ps to make sure all marketing plans, schedules and informational materials for community outreach, networking and outreach programs are compliant, submitted to the Division for review according to contract requirements and receive Division approval before use. We will submit new and revised marketing and informational materials no fewer than 30 days before distribution to facilitate approval. We will report on marketing activities to the Division weekly, quarterly and annually according to requirements. In addition, we will provide an annual marketing work plan to the Division and quarterly updates.

Compliance with Prohibited Marketing Activity Requirements

We will use a marketing complaint log to make sure any issues are addressed. We will support all marketing team members through leadership oversight and comprehensive training on marketing activities.

Leadership Oversight

We will fully comply with the requirements in Section 5.9 of Appendix A, Draft Contract as we partner with the Division. Our member services manager will oversee all marketing materials, outreach activities and events to confirm efficacy and maintain compliance with state and federal marketing guidelines. Our member services manager's role is to verify that members have the tools they need to understand the MississippiCAN and CHIP programs and how to access care. Our member services manager will oversee all required training, including education for all our affiliates that includes state guidelines, restrictions, approval process and timelines. This training will include a presentation of our written P&Ps and an agreement form to be signed as an attestation of understanding. As needed, our member services manager will consult with our compliance officer to review questionable marketing activities and determine the appropriate course of action (e.g., corrective action).

Required Staff Training

Our marketing and compliance teams will develop a system of cross-functional checks and balances, working collaboratively to comply with marketing policies and procedures governing submission and approval of marketing materials and compliance to marketing policies and procedures. Annually, our marketing and outreach staff will receive compliance training related to the program’s marketing guidelines and federal regulations regarding Medicaid marketing. We will include this training in our onboarding process and require all new employees to complete the program. Staff will attest to their understanding and attendance.

Member Marketing Materials

We will produce printed marketing materials, including brochures, in our efforts to raise awareness of the MississippiCAN and CHIP programs and extend the reach of health care services to individuals living in all areas of Mississippi. Division-approved written materials will provide members with information about benefits, our provider network and contact information where members and potential members can obtain the information to make informed decisions. All our member materials, if appropriate, will include the updated Non-Discriminatory 1557 Notice. Printed materials will contain website information for individuals who wish to view our online provider directory and obtain more information about benefits. Member materials developed for the MississippiCAN and CHIP programs will be:

- Created with sensitivity to culture and literacy level, with member materials written at or below a third grade reading level
- Available in prevalent languages spoken in the service area, including English and Spanish
- Available in large print and other alternative formats upon request
- Compliant with all applicable laws and regulations regarding marketing by health insurance issuers and approved by the Division within required time frames before distribution.

Potential members, families and caregivers can access our public website to learn about the MississippiCAN and CHIP program. This website will provide information about health plans available by ZIP code, specific health plan benefits, pharmacy and drug lists, the member handbook, and a listing of network providers — the same information included in other marketing channels/brochures and posters. The website will provide contact information for assistance with Medicaid questions and enrollment and will undergo yearly usability testing.

We will have P&Ps in place to confirm accuracy of materials in content and translation, in language and alternate formats, and that our materials do not defraud, mislead or confuse potential members. All public communications will be subject to corporate communication policies and procedures, to include auditing of the

material and content. Subject matter experts will conduct formal interdepartmental reviews of marketing materials before dissemination and provide ongoing monitoring to confirm accurate representation.

Sample Materials

Our sample materials follow this section and include our educational materials sent to members after enrollment. We have included our PrevCare Child Email, which is preventive information for children and our new member insert as marketing material examples in **Att. 4.2.2.1-1 PrevCare Child Email** and **Att. 4.2.2.1-2 New Member Insert**.

8. Describe the Offeror's proposed approach to inform Members about covered health services including:

We will use multiple methods to provide members with the knowledge and resources they need to understand their covered health services and access health care and community resources. Our approach will use staff interactions, easily understood member materials, person-centered planning processes, technology and innovative programs. These will include quarterly newsletters, welcome calls, care management, community events in partnership with local organizations, digital technologies and an enrollment packet. We will comply with the Division's requirements in Section 5 of Appendix A, Draft Contract and deliver innovative capabilities to meet our members where they are in relation to understanding their health care services.

Using Staff Interactions to Inform Members about Covered Health Services

Our service navigators will make welcome calls to new members to provide education about covered health services. The welcome call will educate members about the MississippiCAN program and CHIP and provide them with an opportunity to ask questions. Service navigators will use Division-approved tools and scripting to provide validated health plan information and answer any immediate questions and concerns.

Members can contact our member services call center for answers about covered health services. As part of our standard training activities, our service navigators will know how to communicate benefits and coverage. We will train these staff members because they are usually first contact for members and we understand that new members are often unsure of their benefits and how to use them.

Our community health workers (CHWs) and care managers will support member education, using their knowledge of the community and its resources to locate and engage members, establish relationships, identify and access local community resources, connect members to a PCP, escalate members to a behavioral health clinician and provide education. Our CHWs will work with community committees, providers and organizations to become an integral part of the community. The service navigators and CHWs will provide information regarding covered health services at various community events and activities across Mississippi. **In a state of similar size, our CHWs average more than 6,000 interactions of this kind each year**.

Using Member Materials to Inform Members about Covered Health Services

We will use easy-to-understand member materials to advance member knowledge of benefits, improvement of health, pharmacy services and more. Education will begin with new member onboarding materials, including the member ID card, welcome card carrier letter and welcome packet, which will provide information and contact numbers for member assistance. Accompanying the member ID card will be our welcome letter, which will provide step-by-step instructions for how to register on our secure member portal, where members can find covered health service information. Our member handbook will deliver education that includes a description of covered services and appropriate utilization; use of emergency services, facilities and transportation; PCP roles and responsibilities; how to prepare for a doctor's visit; access information and more.

Using Technology to Inform Members about Covered Health Services

On our secure member portal members will have access to customized MississippiCAN and CHIP benefit information, extensive health and wellness information, provider searches and more. We will offer up-to-date information on benefits and coverage to help members make informed choices. Our member portal will serve

all demographic groups, simplify the user experience, be personalized (e.g., focused on specific member interests and behaviors) and help members navigate the health care system and close gaps in care. Site design will be user-intuitive and include demonstration videos. We will enhance website accessibility for individuals with disabilities as technology standards and industry requirements continue to evolve.

9. Describe the timely process by which media release, public announcement or public disclosure of any ...

When we are notified of a service change requiring mass communication, we will: 1) determine the most effective method to convey the message to the public, providers or members, including, but not limited to, direct member or provider outreach, website announcement or media release, depending on the nature of the change; 2) craft the language in accordance with the organizational and state requirements, depending on the audience, with support from the organization's marketing and communications teams; and 3) route the communication and anticipated go-live to the Division for an expedited review. Our internal processes can be completed in a matter of days, but distribution will hinge on the Division's capacity to review and approve the outreach. No announcements will be made without going through the Division's established review process.

F. Member Satisfaction

1. Describe the Offeror's proposed approach to assess Member satisfaction including tools the Offeror plans ...

Member feedback is vital to the success of our programs. We will take every opportunity to gain insight to how members receive information and services to ensure we continuously improve our interactions. We will measure our members' satisfaction by complying with all Division requirements for assessing member satisfaction, including the tools we use for assessments, the frequency of assessments and the parties responsible for assessments. We will use the following assessment tools to provide our members with opportunities to communicate feedback.

Consistently High NPS Scores
In a state with a similar population to MississippiCAN and CHIP, we averaged a Net Promoter Score (NPS) of over 73 in 2021. A score of 73 shows a high degree of satisfaction; according to Forbes, any score above 50 is considered excellent.

Assessment Tools	Frequency of Assessment and Responsible Parties
CAHPS®	An independent, third-party company will conduct the CAHPS® survey annually, measuring our members' experiences, such as their satisfaction with customer care and their ability to understand our materials. The CAHPS® results are a key indicator of our members' experiences and satisfaction with their PCP, specialty care practitioners and other health care components, such as transportation and written member materials. We will create a local task force to address areas for improvement. This task force, which will consist of the member services manager, chief operating officer, network strategy director, quality management director, health services director and other key personnel, will review our scores, address any deficiencies and create an improvement action plan to remediate items that may result in improved scores. We will implement the action plan throughout the year and monitor its impact quarterly. In compliance with Section 8.6 of Appendix A, Draft Contract, we will file with the Division the survey results and action plans at least 90 calendar days following receipt of the findings from our certified survey vendor.
The KMIs and NPS:	The Key Member Indicator (KMI) program is a monthly tracking survey conducted among members, families and caregivers by a live telephone representative. KMIs will enable us to measure key performance metrics and identify drivers of satisfaction to inform decisions and improvements. Analysis of the data will help us determine the percentage of people highly likely to recommend us and unlikely to recommend us (NPS). We will track this data against demographic data (e.g., age, sexual orientation) to help identify trends in health inequities.
Member Services Post Call Survey	We will offer members the option of a post call survey after a member calls our member services department to assess our members' experiences, evaluate the performance of member services staff and identify opportunities for training. Member services quality staff will monitor call survey results on an ongoing basis, checking for trends and opportunities for improvement, and provide feedback and training. If a member indicates they are dissatisfied with their experience, a supervisor will follow up to confirm resolution.

Assessment Tools	Frequency of Assessment and Responsible Parties
Member Website Survey	Members can click "Feedback" on our website to provide input on their website experiences, allowing us to have a continuous feedback mechanism for site enhancements. We will review survey data quarterly to initiate improvement opportunities. We will use site analytics to identify opportunities for improvement. For example, our analytics identified the member benefits site as one of the most frequently visited. We made significant improvements to the site to make it easier to use, such as allowing members to search for benefits by key word.
Grievance Tracking:	We will complete an annual qualitative analysis, including identification of barriers, opportunities, interventions and effectiveness of interventions implemented.
Community Partnership Advisory Council	Our CPAC will allow members to voice their input in a collaborative environment. The CPAC objectives include assessing member satisfaction and maintaining responsiveness to our members' ongoing and emerging needs. This feedback is part of continuous member satisfaction tracking and will be used, in conjunction with other measurements, to facilitate improvements.

G. Member Appeals

1. Describe the Offeror's proposed Member Grievance and Appeal process specifically addressing:

We avoid grievances and appeals (G&A) by delivering high-quality, responsive and culturally competent services and communications to our members. However, we have multiple ways in which we will encourage and facilitate members to file grievances/appeals when they are dissatisfied. We have experience implementing a reliable member grievance, appeal and state fair hearing program that verifies the appropriate and timely processing and resolution of member G&A when a member does not agree with a decision we have made.

Our member G&A program will use Mississippi-specific policies and procedures that comply with 42 C.F.R., Part 438, Subpart F, all applicable federal and state laws, regulations and policies and the requirements in Appendix A, Draft Contract, Section 5.11. Our Mississippi-based G&A coordinator, knowledgeable of the G&A requirements for Mississippi, will be supported by an on-site appeals supervisor and appeals representative. Our G&A coordinator will be responsible for tracking and trending member grievances to monitor for needed operational actions, understands our systems and interacts with our G&A clinical team. Our national G&A market engagement lead will be responsible for reports that assist with tracking, identifying trends and root causes that contribute to member G&A. These reports will be reviewed monthly for recommendations and interventions.

a. Compliance with State requirements as described on the Division's Website and, Section 5.11, Member ...

Our G&A policies will comply with Section 5.11, Member G&A Process of Appendix A, Draft Contract. In each of the Medicaid programs we serve, we have developed systems, processes and an organizational structure (e.g., collaboration between G&A, compliance and quality management) that allow us to track our handling and resolution of member and provider G&A. This allows us to confirm compliance with contract requirements and provide high-quality services to our members and providers. Our Mississippi program will incorporate these established systems, processes and organizational structure to evaluate G&A data and act on issues we identify. We actively employ lessons learned from other states and will apply these lessons to work in Mississippi.

Process Summary	State similar to MississippiCAN and CHIP (2021)
Grievances submitted per 1,000 members	0.21
Appeals submitted per 1,000 members	0.23
Member grievance acknowledgement letter compliance rate	100%
Member grievance resolution compliance rate	99.88%
Member appeal acknowledgement letter compliance rate	99.84%

Process Summary	State similar to MississippiCAN and CHIP (2021)
Member appeal resolution compliance rate	99.25%
Average standard member appeal turnaround time	21.7 days

b. Process for expedited review;

Expedited review will occur when the time frames for a standard resolution may seriously jeopardize a member's life, health or ability to attain, maintain or regain maximum function. Our expedited review and resolution of appeals process will comply with the contract requirements, including resolving the request within 72 hours of receipt, unless this time frame is extended pursuant to 42 C.F.R. 438.408(c). Our expedited appeal review process will include the following steps:

Exceeding Expedited Review TAT
In 2021, in a state with a similar population to MississippiCAN and CHIP, the average expedited member turnaround time was 1.9 days.

- A member, the member's authorized representative or provider acting on the member's behalf, requests an expedited appeal review verbally or in writing
- We forward the expedited appeal request to a medical director to determine if the request meets the criteria for expedited review
- If it does not meet the criteria for expedited review:
  - We make every effort to contact the member and provide prompt verbal notice of our decision.
  - We follow up with a written notice of denial of expedited resolution within two days that explains that we will transfer the appeal to our standard appeal process.
- If our medical director determines the expedited review request does meet the criteria:
  - The expedited appeal is queued to our resolution analyst (RA) for investigation and resolution. The RA adjudicates the appeal following our expedited appeal resolution processes and procedures.
  - We provide verbal notice of our decision within 72 hours and issue a written Notice of Disposition. The Notice of Disposition contains the results of the resolution process, including the legal citations or authorities supporting the determination along with the date it was completed.

c. Involvement of Members and their families in the Grievance and Appeal process;

We will encourage members and their families who have questions or concerns to call our member services center if they need assistance completing forms or other procedural steps. Our service navigators can serve members in their choice of primary language. Our service navigators will assist the member and their family with G&A processes, including preparing and submitting a written grievance or appeal. In addition, care managers, community health workers (CHWs) and our quality team will help members write and file G&A, provide each member a reasonable opportunity to present evidence and allegations of fact or law, inform the member of the limited time available in cases involving expedited resolution and continue monitoring the member's issue through to resolution. This commitment will create an environment where members view us as a resource and affords us the opportunity to resolve member issues with as little dissatisfaction as possible.

d. How Grievances are tracked and trended and how the Offeror uses data to make program improvements;

Each grievance is an opportunity to improve the care and services we provide not only to the members who file them, but to all members. Grievances represent a means of understanding trends that allow us to make continual improvements to the way we provide care and services, thereby reducing the number of G&A filed. We will conduct quality investigations and analyses related to G&A monthly to identify trends that necessitate further evaluation and education. We will analyze grievances to identify opportunities to improve member satisfaction

and to remedy potential service gaps. We will complete quantitative analyses providing a narrative discussion of results compared year over year, including any relevant results from specific subcategories, or any relevant issues negatively affecting reliability or validity of data. We can drill down to provide additional detail to help explain trends. We will complete qualitative analysis, including identification of barriers, opportunities, interventions and effectiveness of interventions implemented. Our quantitative analyses will track top drivers month over month and year over year for grievances by various fields such as specific member, specific provider, type of care, type of grievance and regional factors compared. We will interpret this information to update the G&A process, determine if new implementations are yielding expected results and identify issues that have global reach.

For example, in a state with a similar population to MississippiCAN and CHIP, we trended a significant increase in provider appeals related to two claims codes beginning in 2018. We noticed an increase in the state's overturn rate of our appeals related to these claims codes. We conducted a root cause analysis and determined that our claims processing system was incorrectly denying these claims. Through a redesign of the auto pay list, a restructuring of the appeal versus claims review process and improving the process to review appeals, we reduced the appeal volume for issues related to these claims codes by 94% from approximately 2,000 per month to 115 per month.

In addition to our monthly G&A analysis meeting, the Quality Management Committee and our quality, provider and utilization management subcommittees will review the analyses of G&A data each quarter to:

- Establish goals and performance thresholds and compare results to previous measurements
- Conduct root cause analysis and barrier assessments to provide insight into issues that may have contributed to the causes and performance gaps in achieving established goals
- Develop and implement corrective action plans, considering member dissatisfaction and any disruption to the access of appropriate health services
- Incorporate the data analyses in decision-making activities to refine our operational process
- Benefit from national subject matter experts to review the analyses, identify contributing factors and drive policy and procedure changes and interventions to address systemic issues, barriers or other opportunities to improve processes, outcomes and member satisfaction
- Conduct a post-implementation review of our G&A tracking system if any operational changes are put in place to confirm it lowers the number of G&A filed

e. How Grievances are addressed prior to the filing of a Member appeal; and

Our grievance processing procedures and policies will comply with Section 42 C.F.R. 438.402. Grievance cases will be routed to a RA for investigation and resolution. Individuals who participate in rendering grievance decisions will not be involved in any previous level of the review or decision-making process. These individuals will have the requisite clinical expertise to address a member's condition or disease, particularly when the grievance focuses on denial based on a lack of medical necessity, denials of expedited resolution of an appeal, or grievances related to specific clinical issues. Unless the grievance involves a denial based on lack of medical necessity or involves clinical issues, the RA will research and resolve the grievance. The RA may enlist the help of other internal departments if subject matter expertise is needed. The RA may contact the member or the member's treating provider to obtain information to resolve the grievance. We will send a written Notice of Disposition that includes the actions we took to investigate and resolve the grievance.

f. Process to review decisions overturned in external reviews and State Fair Hearings and the Offeror's ...

We will address overturned external reviews and fair hearings via our quality subcommittees, where we will perform an analysis to identify any barriers, opportunities to overcome barriers and to recommend interventions to prevent reoccurrences. [END OF RESPONSE]

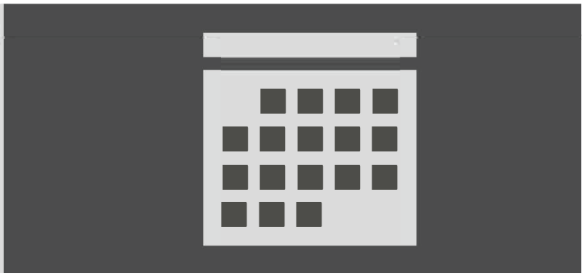
It may be time to schedule your child's checkup



We care about your family's health

We are committed to helping you and your family stay healthy. That is why we encourage regular checkups. Even if you and your family members don't feel sick.

All kids ages 3 and older should see their primary care provider (PCP) once a year. These annual wellness visits are a way to help make sure your child stays healthy.

Learn more

Stay up-to-date on shots.

Talk with your child's PCP about what shots they need and when they are needed. Once your child completes their childhood shot schedule, their PCP may recommend the COVID-19 vaccine if they are between ages 12-18.

Questions? We're here to help.

Call Member Services at the number on the back of your member ID card. We can help you find a doctor. We can help make an appointment for you. We can help you if you need help getting a ride to the doctor.

4.2.2.2 Provider Network and Services (Unmarked)

A. Provider Network

1. Explain the Offeror's plan to develop a comprehensive Provider Network to ensure it meets the Division's ...

We will provide access to a robust, diverse, fully credentialed and contracted statewide provider network for all covered benefits that meets the requirements outlined in RFQ Appendix A, Draft Contract, Section 6.2. Provider Network Requirements.

a. The Offeror's recruitment strategy, including processes for identifying network gaps, developing ...

Our Provider Recruitment Strategy

Increasing Access to High Quality Care

Under the direction of the health plan's network director, the network management contracting team will complete initial and ongoing assessments and pursue recruitment and network enhancement activities. Our provider recruitment and retention strategy is anchored on serving the needs of our members by developing a strong network foundation of geographically distributed, value-driven medical homes and the specialists, hospitals and ancillary providers to support them. We will include a large core set of PCPs, all Mississippi hospitals and willing behavioral health providers. We will have an open network while making sure all providers are aligned on our value-driven approach. We will retain providers by establishing productive relationships aimed at supporting their needs and improving clinical and financial outcomes. Upon securing partnerships, we will quickly offer, execute and load contracts of all credentialed providers.

Our medical home foundation will center on a comprehensive statewide panel of culturally responsive PCPs. These providers will include FQHCs and RHCs and over 6,000 other primary PCPs, including nurse practitioners. We will work diligently with these PCPs to establish and meet goals such as NCQA-PCMH certification, ACO shared savings, HEDIS®-based incentives and elimination of unnecessary hospital visits. To support these PCPs, we will have and maintain a comprehensive network of value-driven, in-state specialists and ancillary providers to serve the physical and behavioral health needs of our shared members. This will include a keen focus on those who are equipped and competent to care for children and the chronically ill.

We are aware of the medical workforce shortage in Mississippi, and the disproportionate impact on behavioral health providers. We will aggressively engage and contract with providers in Mississippi to provide the full array of behavioral health services to meet the needs of our members. We will contract qualified providers from inpatient, residential and community-based services. To have services that meet the needs of members in the community, we will contract with community mental health centers (CMHCs), private mental health centers and independently licensed clinicians. We will target providers who provide a full array of services, such as day treatment, crisis services, intensive in-home services, intensive outpatient services and other services that promote community integration.

Supporting the dental benefits defined in the MississippiCAN program and CHIP, we will have a geographically distributed network of high-quality dentists, orthodontists, oral surgeons and periodontists. A central focus of our recruitment strategy will be securing providers who are committed to preventive oral care in the adult and pediatric populations — essentially serving as a "dental home." We will support these dental homes with a dental care management staff aimed at helping overall oral health, contributing to our person-centered care model.

Securing and retaining providers to MississippiCAN and CHIP-covered vision benefits is important. Our vision and eyecare network will be geographically distributed across the state, and we will engage providers to serve all optometric and ophthalmologic needs. We will not require professionals to have a dispensary. Rather, we will contract with providers to perform professional services only and providers who have frame and lens

crafting capabilities. By contracting with smaller providers who may not have lens and frame-crafting capability, we believe we can have a broader reach. In these cases, we will supply providers with a frame kit that offers hundreds of stylish options.

Finally, our strategy includes securing ancillary providers to best support the needs of our adult and pediatric members. This includes aggressive recruitment of physical and occupational therapists, speech-language pathologists, chiropractors and durable medical equipment companies.

Reducing barriers to care is a major factor in ensuring members receive needed services. To reduce barriers and achieve access, we must address the cultural and geographic needs of all members. To meet the expectations of our Native American population, we will make sure we properly engage with Mississippi's only Indian Health Services center and support them in their clinical and administrative needs. We will support all school-based providers, including the school-based nurses and make certain these providers are properly equipped to provide and bill for EPSDT and child-wellness services, since schools provide an unmatched opportunity to meet the needs of our pediatric population.

Identifying Network Gaps

We will use data-driven cloud reporting tools and formal and informal feedback from members and providers to make sure we exceed the standards identified in Appendix A, Draft Contract. The cloud reporting tools will allow us to assess our provider network adequacy and identify gaps in compliance with the model contract. Our member surveys and interactions will provide insight into whether we are delivering on our members' expectations, while our provider satisfaction surveys will assess their approval of our specialty and referral options. In addition to assessing access standards, we will ensure appointments are available with the providers in our network. To assess this, we will employ telephonic appointment availability surveys and periodic site visits. We will use the results of these assessments to further refine our network strategy to make sure our network accommodates members' needs and preferences.

- **Early Identification and Intervention:** We will research network geographic and quality gaps, identify key providers for further network contracting efforts and identify other solutions such as virtual visits and telehealth when local providers are unavailable. Our **network management system proactively notifies us 90 days before a provider contract expires or recredentialing is due.** We send outreach emails and make outbound telephone calls reminding providers of the upcoming deadlines. In cases of high-need providers, we will perform site visits to remind providers. These actions allow us to engage and assist providers before there is risk of network disruption. Our interdisciplinary team of care managers, network managers, subcontractors, and provider services and representative teams will hold monthly roundtable meetings to identify potential network gaps and opportunities for improvement. Our health plan's network director will lead this forum, and actionable items will be escalated to the chief operations officer and chief executive officer.
- **Ongoing Review:** Our network development, care management and compliance teams will perform ongoing reviews of our provider network to confirm continued compliance with the state's access standards, and to make sure we are meeting the needs of our members. Monthly, we will formally monitor the provider network to identify any changes that occurred or are needed. During weekly interdisciplinary rounds, we will discuss any unmet needs of our members. If a network deficiency is identified, we will initiate a single case agreement to secure services and follow that with a recruitment outreach to bring the provider into our network.
- **Community Engagement:** We will develop a **Provider Advisory Committee** of local community physicians and nurse practitioners from across the state, which will meet quarterly and will be involved in providing ongoing feedback into the performance of our network. This multidisciplinary group, bound by confidentiality, will be representative of our network and will advise on its quality and size. This group will have insight into sanctioned providers that may present risk to the integrity of the network. Finally, our local

member advisory group will be asked to provide ongoing input on access and availability of providers. This group will be composed of consumers representing a cross section of our MississippiCAN and CHIP members and families.

- **Provider and Member Feedback:** We will use formal satisfaction surveys and complaints, grievances and appeals data to identify network gaps reported by members or providers. We will survey both our members and providers annually to assess their perception of our provider network and availability. To conduct the surveys, we use statistically-validated tools that measure satisfaction and include items specific to the availability and quality of our primary and specialty care providers. Results from these surveys will lead to formal action planning around network development and contracting strategies. Informal feedback from members and providers will be ongoing through our field-based and call center staff members. Both our provider and member call centers are equipped with technology that actively monitors calls and detects key words. These allow our call center managers to track and trend key topics such as "finding a provider." If there is a trend in calls that leads us to believe we need to further assess our network, then we will undertake these actions quickly. Our field-based representatives are constantly seeking feedback on the perception of our members and providers and they will pass any feedback gathered in the field to our network director to take immediate action.

Developing Recruitment Work Plans

We have established network work plans that consider member demographics, population distribution, barriers, and cultural and linguistic preferences. The county-by-county work plan for MississippiCAN and CHIP will include a timetable that identifies the individual(s) accountable for each task; target dates for start and finishing tasks and the status of each activity. The workplan will include a process to identify alternative solutions for any access gaps that are identified. The network management team will meet weekly to confirm recruitment and retention plans are on track. We describe our tools and approach below.

Tools

- **Network Analysis:** Using our network analysis tool that searches for and identifies available providers by geographic area, we will identify providers to target for recruitment, allowing us to strategically recruit providers by type, specialty and geography. This analysis will begin with a comprehensive database of all providers available. That database will be compared against the list of providers currently registered with Mississippi Medicaid. If we identify providers who are not in network but accept Medicaid, we will invite these providers to participate with us in MississippiCAN and CHIP.
- **GeoAccess Analysis:** We will run GeoAccess analyses quarterly, and on demand, to identify gaps in the targeted provider network, statewide by provider type. The GeoAccess report overlays members' residences with the location of providers giving us a validated method to ensure we are addressing geographic barriers to care. The basis of member and provider data is at the ZIP code and county levels and we can apply radius requirements that are outlined in the Model Contract and NCQA standards. This tool will allow us to predict impact if a provider does not renew a contract with us.
- **Practitioner Database:** In addition to our direct network analysis tools, we will indirectly assess our network by identifying if a physician is in our network but does not have privileges at a facility within our network. We will use physician privilege data to ensure that providers have all of the tools they need to properly care for our members. If we identify a "Physician Without Privileges," we will use this information to address any gap in our hospital and facility network and take immediate action.
- **Satisfaction Surveys:** As previously noted, we use statistically validated surveys as part of our recruitment strategy. We will administer these tools at least annually as required in the model contract, aimed at assessing member and provider perception of our network access and availability. We will use information gathered from these annual satisfaction surveys to develop formal work plans to strengthen our network.

Approach

We will document our approach based on the information collected using the tools described above. Our approach will include:

- **Rural Approach**: Recognizing that Mississippi has a large rural geographic area, using the tools and strategies mentioned above, we will target the available providers within those rural service areas. To best serve the needs of our members, we will include adjoining counties and states. Securing all available providers in these areas is critical, so we will place a high priority on our rural focus. To support rural providers, we plan to leverage physician-to-physician telemedicine consult capabilities. This will bring specialty care into the PCP office to maximize the clinical value of the encounter. In rural areas, we aim to deploy member-facing telemedicine while not disrupting the provider-patient relationship. We will do this by deploying technology and assisting local providers in adopting such technology and commit to data sharing with the medical home. Critical to our rural strategy is leveraging trade organizations that represent key provider types. Examples include health care trade associations that represent FQHCs, RHCs, CMHCs, etc. These organizations can serve as "aggregators" to assist us with delivering value-based agreements that are more attractive to providers.
- **Urban Approach:** We will target providers in urban areas to meet access and availability standards that promote member choice. Urban areas allow us to contract with many providers and quickly align on value-driven care. Using the same tools mentioned above, we will aim to contract all Medicaid enrolled professionals and facilities. Once we have verified that we have a compliant network that exceeds contract standards and the requests of our members, we will quickly move toward a retention strategy that is centered on value-based care that incentivizes providers who support our integrated total-person approach.
- **Cultural Sensitivity:** We will integrate an awareness of diversity, cultural sensitivity, and health equity into our provider recruitment efforts. This includes statewide assessments to determine specific needs that to be met. To improve the likelihood that members will actively participate in their care, we aim to have a network of providers who demographically align with our membership, including a priority to secure Mississippi's only Indian Health Services center. In areas where Mississippi does not have a culturally diverse group of providers, we will have provider resources aimed at instilling cultural competency and promoting health literacy among their patients. When a language barrier exists, we will facilitate access to real-time interpreter services, including oral translation in over 240 language, American Sign Language and relay services, for both members and providers.

Processing and Executing Provider Contracts

Our contracting processes are largely electronic, which promotes speed and accuracy of loading providers. Prior to initiating a contract, we will verify that a provider is qualified to perform the services being requested for our network. This is done through a credentialing process and we are equipped to accept industry-recognized credentialing processes, such as those performed by a formal committee following the Council for Affordable Quality Healthcare (CAQH), or a local centralized credentialing verification organization (CVO) process as suggested by the Division below.

Following successful credentialing, and verification that a provider is enrolled with Mississippi Medicaid, a member of our local network management contracting team will contact the provider and invite their participation in our network. We will email contracts to the provider for review and e-signature. After the contract is e-signed and countersigned, the provider information team will load the provider's information into the claims system. This signifies they are ready to see members and claims can be processed. The process from provider signature to load will surpass contract standards of occurring within 21 calendar days as required in Appendix A, Draft Contract. When a contract has not been received within seven calendar days, we will send a system-generated reminder email to the provider. If the provider does not respond or has a question, we will contact the provider telephonically to reassess their participation intent or to answer any questions.

b. The Offeror's strategy for retaining specialists and how the Offeror will provide access to specialists if not ...

Our strategy is to create a supportive provider experience, focusing on **service, simplicity, and collaboration.**

Service

Nurturing Local Partnerships

We will have a team of clinical and nonclinical support services across the state that regularly engage providers. Specialty nurses, such as our field-based RN consultants, practice care managers and behavioral health consultants, will engage with providers to share clinical data, performance metrics, and align joint initiatives. Our care managers will engage PCP and specialty providers to help coordinate care. We will assign provider relations representatives to contracted providers based on geography and provider type. These representatives will be equipped to address administrative and financial needs of providers. To optimally serve the specific needs of providers, we will maintain staff who have expertise in certain provider types. To best support our medical homes, we will have provider representatives familiar with FQHCs and RHCs. Similarly, hospital-focused representatives will be used to support acute care facilities and representatives familiar with dentistry, durable medical equipment (DME), and BH/SUD will be deployed in the field. Our large medical homes will have dedicated one-to-one clinical representatives to support care transformation efforts and VBP initiatives. As evidenced in states similar to Mississippi, this level of support leads to increased provider satisfaction, which increases retention.

Simplicity

Providers will have access to our provider portal, 24 hours a day, seven days a week to conduct business anytime it is convenient for them. Through a single secure portal, providers will be able to access solutions aimed at streamlining and simplifying clinical and administrative interactions. Their professional or support staff will be able to complete administrative interactions, with quick solutions to manage prior authorizations (PAs), make demographic changes, eligibility and benefit verification, appeals, claims management and reconsiderations. Clinical tools will include on-demand trainings, evidence-based criteria for medications and procedures, and care gaps. These clinical tools will assist providers in maintaining an accurate and real-time roster of their patient panel and identifying missed preventive services — both of which improve earning potential for providers enrolled in our incentive arrangements.

Collaboration

Timely communication, provider-friendly tools and education are essential to helping providers learn about MississippiCAN and CHIP and how we can comanage these populations. We will listen to and collaborate with providers to identify and work together on ways to streamline our processes. Providers will have access to their field-based provider relations representatives, virtual trainings, and our provider portal We will have a full suite of alternate payment models and clinical support models to allow providers to earn more for improving patient outcomes and reducing health disparities. We will commit to hosting in-person open forums for providers, and actively participate in professional organizations' conferences and events. We will work alongside the Division and the other CCOs to engage with providers to promote collaboration and advancement of MississippiCAN and CHIP. In a state similar to Mississippi, our **child wellness team presents to newly contracted pediatricians on the importance of, and resources for, EPSDT and child wellness.** This is especially important to achieving early partnerships so we will commit to doing this for MississippiCAN and CHIP participating providers serving children.

Member Access to Out-of-Network Specialists

We commit to providing a comprehensive network designed to serve the full MississippiCAN and CHIP membership. Occasionally, a specific provider type may not be available timely in a rural or remote area, or if a need is so specific that a provider type does not exist in the State. In these rare instances we will use our care managers, in collaboration with our medical director and the referring provider, to evaluate options to best suit

the member. Whether working with local out-of-network providers or providers outside the member's geographic area, we will ensure timely access to care by:

- **Short-Term Intervention:** If a contracted provider is unavailable to meet member access and availability needs, we may enter into a single case agreement (SCA) with the out-of-network provider to ensure the member is able to receive needed care. We will confirm the provider is enrolled with Mississippi Medicaid and facilitate a care plan between the out-of-network provider and the member's PCMH or referring provider. If the provider is not enrolled with Mississippi Medicaid, we will work with the Division and the provider to assist with enrollment activities. The SCA will be quickly executed to meet the member's needs. We will ask the out-of-network provider to create a care plan that can be followed closer to home and employ telehealth for follow up care when possible.
- **Long-Term Intervention:** Continuity of care is important clinically and emotionally for members. We will support the continuation of existing relationships with out-of-network providers when it is in the member's best interest. For example, if a new member previously received oncology services from an out-of-network provider, we would continue to authorize services and reimburse the provider. In addition, we believe that certain services such as maternal-child health represent patient-provider bonds that should be protected for the health and safety of the mom and child.
- **Urgent and Emergency Services:** We will not require prior authorization for any emergency services, regardless of a provider's network status. Members have the right to access care at any hospital, trauma center or licensed emergency facility of their choice and should not expect any barriers.
- **Telehealth:** The medical home is the foundation for care delivery. If our care manager, medical director, or referring provider is unable to secure an SCA or contract we will explore the opportunities offered by telehealth. We will maintain active relationships with telehealth providers across the country and ensure they are enrolled with Mississippi Medicaid. We will work with the member and PCP to ensure that the option meets the needs of the member.

Monitoring Quality of Out-of-Network Providers

Our Mississippi-based medical director will review all requests for the use of out-of-network services for clinical determination. Prior to the medical director's review, members or physicians on behalf of members, may request a referral with an out-of-network provider if:

- The member is diagnosed with a condition or disease that requires specialized medical or behavioral health care; and
- We do not have a participating specialist with the professional training and expertise to treat the condition or disease; or
- We cannot provide reasonable access to a specialist with the professional training and expertise to treat the condition or disease without unreasonable delay or travel.

A decision by our medical director to deny access to the out-of-network provider will meet the qualifications of an adverse determination, which is appealable.

All approved out-of-network encounters will be reviewed after services are performed. This review will include clinical outcomes and member and provider satisfaction.

c. If Subcontractors will be used for certain service areas (e.g., dental, behavioral health/substance use ...

Nearly all of our proposed subcontracted services will be performed by wholly owned affiliates. This allows us to coordinate our network recruitment and retention efforts to best support our person-centered care model and to provide advanced data sharing capabilities and care coordination that links multiple provider types. For

example, in states where we administer dental benefits alongside medical services, we are able to incentivize pediatric providers who promote fluoride varnish through dental referrals or within their own offices.

Our network analysis tool and GeoAccess system are fed by data reported by our subcontractors so analyzing network gaps and implementing access enhancement strategies will be seamless for all provider types.

When we delegate functions to subcontractors, we maintain complete accountability for performance and systematically oversee all delegated relationships through our Mississippi leadership team. All vendors and subcontractors will be held to the same standards outlined in the model contract and they will provide monthly reports to the health plan chief operating officer and compliance officer. This includes all provider access and availability standards and the overall expectation that we will exceed the needs of our members and referring PCPs.

To ensure appropriate monitoring and oversight, at least quarterly, our subcontractors will be required to meet with us to review their development activities and performance metrics at Delegated Vendor Joint Operating Committees (DVJOC). Here they will share their performance indicators and discuss any deficiencies and action plans that are in place, including changes in the network. Our manager of delegated and subcontracted entities will lead the DVJOC meeting composed of clinical and operational health plan staff to ensure accountability from all delegated services, drive operational performance, and ensure we consistently meet or exceed network adequacy standards. If we observe any gaps in the network or access deficiencies, we will report the findings to the Division and place the subcontractor on a corrective action plan.

d. Proposed method to assess and ensure the network standards outlined in Appendix A, Draft Contract, are ...

Our Mississippi provider network will meet network standards as detailed in Appendix A, Draft Contract, and NCQA standards. To ensure all medically necessary covered services are accessible and available, our network strategy team will monitor network performance, address opportunities for improvement, and communicate follow-up actions to the Quality Management Committee.

Using GeoAccess to Ensure Network Adequacy

Our proposed method to assess our network and ensure standards are met includes GeoAccess, which maps the travel time and distance between the member's residence and the primary care providers' service location(s). Next, we will do the same for our network of hospitals, specialty care providers, dental providers, dialysis centers, vision services, behavioral health locations and urgent care centers, and compare access and availability performance to state requirements and our expectations. Our proposed method will display the GeoAccess data as follows:

- Pictorially using maps with member distribution overlayed by provider types. Each provider type will be displayed separately so that we can assess each provider type independent of the others. This will allow a quick overview to ensure our members have options close to home.
- Lists by counties that separate each provider type and how many members have access to each provider type. This method will allow us to analyze each county and see what percent of the county's residents do not have access to a certain provider type. This is especially helpful when we need to see which specialists will need to be targeted within a certain county.
- Flexibility to look at pediatric providers independent of adult-focused providers. This will support the need to be able to monitor access to care for our CHIP and MississippiCAN children.
- Ability to look at providers who have closed panels or are no longer accepting new patients. Our systems have indicators that will allow us to visualize our provider distribution and see which ones are still accepting new patients. This will allow us to be absolutely certain of our network's full potential.

Using Our Provider Data to Ensure Network Adequacy

Upon credentialing and contracting, we will verify where our physicians have admitting privileges. We will store this data in our provider database so we can ensure that we have all needed facilities (hospitals, surgical centers, inpatient residential, etc.) to support providers and members. If we identify that a provider holds privileges at a hospital that is out-of-network, we will use this information to identify a potential gap.

Using Appointment Availability to Ensure Network Adequacy

Merely having providers is not always sufficient to meet the needs of members. To ensure that care is available when it is needed, we propose routine and random appointment availability calls to providers to check appointment availability.

Ultimate accountability of provider access and availability will be overseen through our Service Quality Improvement Subcommittee, which will report to our board of directors. The network strategy team will monitor network performance and the network director will formally report all activity to the subcommittee and to the Division. The team will share the adequacy of our provider network with our provider and member advisory groups, which will serve to align performance and perception. Access and availability activities will include:

- Reviewing network performance against access standards
- Monitoring, evaluating and implementing improvement plans for network access and availability
- Monitoring network provider linguistic competencies as compared to languages spoken by members, and providing access to interpretive services
- Monitoring member and provider calls and feedback to identify potential network concerns
- Reviewing member and provider satisfaction survey results
- Conducting member surveys on appointment availability, after-hours availability and open scheduling
- Receiving, evaluating and acting upon feedback from Member and Provider Advisory Committees
- Obtaining feedback from clinical and quality operations staff
- Implementing any necessary action plans

e. The Offeror’s process for continuous network improvement, including the approach for monitoring and ...

Our Approach to Continuous Network Improvement

We will consistently look for ways to improve our network. Continuous network improvement relies on a multifaceted process that includes:

- Analyzing data to identify network improvement areas
- Performing state assessments to determine clinical demands and current provider performance
- Using provider services and support to help us retain contracted providers
- Incentivizing providers above-and-beyond traditional reimbursement methods
- Developing strategies to increase access
- Planning for growth via proactive provider contracting and credentialing
- Incorporating community and stakeholder feedback
- Engaging high-impact provider types that can satisfy multiple needs
- Using innovative strategies and technologies to achieve network improvement

The ongoing use of the previously mentioned tools and assessments will be critical to carrying out our network strategy. To further refine our network, we will collaborate with the other CCOs in an effort to closely align our

approaches with providers. This will allow for seamless transitions when members choose to move into another CCO. We will use our field-based teams and advisory groups to help us identify new providers more quickly.

Finally, to help combat the barriers that geography places, we will partner with providers who can meet the members where they are. This includes maximizing the scope of clinical pharmacists. Most members visit their pharmacy more frequently than any other provider type. Many of these pharmacies employ pharmacists trained in vaccines and venipuncture, so engaging these providers to augment the services will support medical homes. In addition, we will actively search for providers who can provide enhanced telehealth and mobile units and we will develop creative partnerships with emergency medical responders — all of whom are capable of providing services in the home.

Monitoring and Evaluating Appointment Availability

Network providers will be contractually obligated to comply with the appointment standards detailed in RFQ Appendix A, Draft Contract Section 6.2.2. We will inform providers of our appointment standards through new provider orientation, ongoing training, and educational materials, including our quarterly newsletter and our provider manual, which are available online. We will conduct routine phone surveys and annual audits, which will include a random sampling of PCPs, behavioral health providers, and key specialty types to solicit information about appointment availability. We will compare the appointment availability results against the Division's requirements and our accessibility and availability standards. Our quality management team will engage and monitor nonadherent providers and take action to improve the provider's performance including corrective action plans. Participation in our VBP and incentive programs will require providers to allow unhindered access to their practice.

Enabling Member Access to Care

As described in our response to Question b, above, specific provider types may be unavailable in specific areas, such as rural or remote areas. Our care managers will work with members to identify providers who can meet the member's needs.

Expanding Access Through Telehealth

Driving Innovation and Value

Our virtual visits program will allow members to initiate a telehealth visit from home through video conferencing or smartphone application with a qualified provider. Our virtual visits program will enable direct access to care through web, mobile web or the mobile app and will be available 24 hours a day, seven days a week throughout the contract term. **On average, our virtual visits program has shown that it can resolve 77% of health issues** without having to refer the individual to in-person care. In two states similar to Mississippi, since the program's inception in 2019, **ER visits decreased by 46% and 38% for individuals engaged in our virtual visits program.**

Telehealth OUD/SUD/MAT Support: We recognize the need for OUD/SUD/MAT services exceeds the capacity of providers in Mississippi, as coverage for these services is fairly new and substance abuse continues to rise. Our telehealth OUD/SUD/MAT support program is a virtual opioid use disorder (OUD) and substance use disorder (SUD) clinic that offers telehealth services. This offering helps close the gap in a manner that is convenient for our members to access. We will offer our telehealth OUD/SUD/MAT support program to MississippiCAN and CHIP members.

Behavioral Health Virtual Visits and Telemental Health: We will incorporate behavioral health virtual visits into our standard offering for members and providers as an alternative method to seek and provide care.

We will offer our behavioral health self-care and peer support app, a self-help digital application that uses clinically validated techniques, such as cognitive behavioral therapy (CBT) and mindfulness to reduce the effects of toxic stress, depression and anxiety.

f. How the Offeror will ensure appointment access standards are met when Members cannot access care ...

Our care managers will provide hands-on assistance and a closed-loop referral process in arranging both network and out-of-network care as member needs dictate. Care managers will tailor assistance to meet member needs and schedule these appointments in compliance with our appointment standards. Out-of-network providers operating under an SCA will be required to provide care in compliance with our policies, including appointment access standards. To ensure appointment access standards are met, we will require providers who engage in ACO arrangements to have extended hours and to contract with urgent care centers for care on weekends and holidays.

g. Describe the role of the Contractor's Provider Representatives, how the Offeror will recruit and maintain ...

We will have a fully staffed provider relations team, including 30 full-time, Mississippi-based provider relations representatives across the state. Depending on their functions, our provider services representatives will have strong clinical or administrative backgrounds so that they will be knowledgeable of provider needs. Providers will be served according to their specialty type and geographic location. This will include provider relations representatives hired across the state of Mississippi who have working knowledge of MississippiCAN and CHIP and the provider type they will be serving. Our provider relations team will contribute to the design and implementation of all MississippiCAN and CHIP education programs and will be expected to build and nurturing positive relationships with Mississippi's network of health care professionals. The provider relations role will be a trusted advisor to providers, and they will approach each provider engagement as an opportunity to positively impact care delivery.

Our Provider Relations Representatives Role

The provider relations representatives will be accountable for the full range of provider relations and service interactions with clinicians, hospitals, specialists, FQHC, RHC, PCMH and practice managers. They will work on end-to-end provider claim and call quality, provide feedback and guidance, assist in efforts to enhance ease of use of physician portal and future services enhancements and assist network contracting and development teams by identifying gaps in network composition and services. Our provider relations representatives will take a hands-on approach to identify issues early, communicate proactively and foster strong, positive provider relationships.

Our Efforts to Recruit and Retain Provider Relations Representatives

We will conduct rigorous workforce planning activities that ensure contract compliance is consistently maintained. We will use community-based resources to ensure a diverse staff that reflects the communities we serve. Our provider relations representative recruitment efforts will include representation from all areas of Mississippi.

We recognize that our most competitive advantage will be retaining a tenured staff of the best and brightest employees, who represent the Mississippi communities we serve. We will retain experienced and qualified key personnel by rewarding and recognizing performance in a challenging environment and providing clear direction to achieve success. Our practices, policies and procedures will guide employees as they evolve in their role. By offering resources to help employees develop, we will preserve and attract the highest-quality employees. In a state similar to Mississippi, **80% of our provider relations representatives have a tenure of five years and rate their job satisfaction as "high."**

Ensuring Provider Representatives are Current in Medicaid Policy

We will provide initial and ongoing MississippiCAN and CHIP training to our provider relations representatives including training on the laws, regulations and codes governing these programs. We will train provider relations representatives to understand common provider concerns, and our systems will support providers through modules that are self-taught, instructor-led classroom training and field shadowing. Initial training will include over 60 curriculum modules and last approximately two months before assignment to a provider territory.

Throughout the two-month training process, provider relations representatives will shadow a senior representative at on-site provider visits and meetings. Representatives will attend a week-long intense training class with other new-hires from around the region where they will be immersed in coaching and instruction that prepares them for their role in providing the highest level of service so that their providers, in turn, can provide the highest-level of care for our members. Representatives will engage in ongoing training throughout the year to keep them abreast of the most recent topics and changes in the industry.

In order to make sure representatives remain current on the latest changes such as State Plan Amendments and program changes, we will distribute MississippiCAN and CHIP materials through an internal SharePoint site that includes timely and specific updates on new or revised policies. This will include the latest member and provider information, all of which will be shared throughout the year and formally socialized by our provider services manager and supervisors. These resources will be available to both field-based and telephonic representatives to ensure that providers are receiving consistent and accurate information at all points of contact.

2. Describe how the Offeror will develop and maintain collaborative relationships with low, medium, and ...

Relationships are important and are the foundation of our work with providers and members. We have established relationships with low, medium, and high intensity residential treatment facilities and those who offer medically monitored inpatient treatment services nationally. We will support those facilities through our clinical relationships and our provider relations staff. Our clinicians will work directly with facilities to provide utilization management, care coordination and discharge planning support. Our care managers will collaborate with facilities to assist with discharge planning and make recommendations regarding services available in the community and supports for members as they transition from a higher level of care to the community. When new services, such as opioid treatment programs, have been approved by the state in similar states, we have expanded our service array to include new provider types to provide those services. We will do the same in Mississippi.

In addition to our provider relations outreach, our care management and utilization management teams will be in frequent communication with providers through their work on behalf of our members. Through these relationships, collaborations will emerge to include things such as daily case management calls with facilities, care management staff placement within facilities to assist members with discharge and provider trainings responsive to providers' identified needs. Much of our American Society of Addiction Medicine (ASAM) engagement will occur through our teams — helping providers identify the correct level of care, clarify the goals of treatment, identify any specific activities of daily living needs and move toward treatment success. We will use these decisions from ASAM guidelines to guide and support providers and members in making decisions that lead to better outcomes and potentially reduce utilization that is not therapeutically beneficial.

In other states, we provide educational materials and updates regarding ASAM, including information regarding the guidelines, frequently asked questions and other key information to support these providers in service delivery. Most recently, in 2021, we provided education to providers regarding expanded coverage of ASAM level 3.5 in states that support that level of care. We provided information on how this expanded coverage would impact provider contracting and invited additional providers to apply for network participation.

Developing and Maintaining Collaborative Relationships

To promote strong relationships with these facilities and other Mississippi providers, we will have designated Mississippi behavioral health provider and care management staff who have experience at the behavioral health/substance use disorder service delivery level in Mississippi. This team will work closely with Mississippi providers to:

- Bridge coordination between the physical and behavioral health/substance use disorder providers
- Support the delivery of high-quality, cost-effective health care services for members

- Resolve any operational issues
- Coordinate meetings with our clinical team and providers to provide feedback regarding performance
- Share and disseminate best practices, such as our clinical practice guidelines, available through our provider manual, covering both physical and behavioral health/substance use disorder conditions
- Promote mutual values and goals such as increasing Mississippians' access to behavioral health/substance use disorder care through program development and telemental health services
- Connect PCPs and/or PCMHs with behavioral health professionals to assure members are screened and appropriately referred
- Promote value-based purchasing with qualified providers
- Participate in external, state-supported interdisciplinary teams to problem solve difficult cases with members and facilitate a smooth transition between levels of care

3. Describe the Offeror's process for working with Providers and the Credentialing Verification Organization ...

Our Approach to Working with Providers and Centralized Verification Organizations

We understand the Division is in the process of implementing a centralized Credentialing Verification Organization (CVO), and our company has experience implementing such an approach. As Mississippi works through the transition to its new model, we will be actively engaged and share our experiences in other states with the Division, other CCOs, and the chosen CVO. In addition to supporting the Division, we will begin working with our provider network to assist them in this transition and explain how this process will precede our contracting activity. Once the CVO is live and the uniform credentialing process is implemented, we will integrate the CVO activities into our processes. This will include connecting technology and systems for file transfers and updating websites with links to the CVO. Below are two examples of states (State A and State B) in which we have worked with CVOs under a Medicaid arrangement:

State	Date Started	Experience
A	2012	We participated in the development and deployment of a statewide credentialing CVO alliance. The alignment of credentialing cycles across all CCOs reduced duplication of efforts and provided for administrative simplification. The state's plan included a uniform initial credentialing requirement, use of CAQH for collection of all credentialing applications, a single CVO to perform credentialing and sharing of results among the participating plans.
B	2018	Our credentialing team implemented processes in conjunction with the state to implement the CVO for the credentialing and recredentialing for state Medicaid providers. Given our experience working with the chosen vendor, we experienced a seamless implementation of this new CVO process.

State Credentialing Verification Organization Lessons Learned

Through our experience co-implementing CVO processes, we have found that it is critical to have active participation and input into data exchange file layouts for data and file exchanges between the CVO and CCOs. We learned to anticipate provider challenges with credentialing during the transition to the CVO and prepare our staff for intervention and issue resolution.

In addition, some providers are accustomed to serving under delegated credentialing arrangements with CCOs. We have experience serving to facilitate discussions between those providers and CVOs. In some situations, the CVO and the state may choose to continue allowing these arrangements, while in other instances the delegated relationship will be dissolved in favor of the single CVO as overseen by the state. In both scenarios, we have seen better outcomes if those expectations are established early and can be communicated by all parties including our staff.

Educating and Assisting Providers in Completing Credentialing and Recredentialing

We will collaborate with the Division, CVO, and providers to execute on developing training materials, strong processes, and procedures along with sharing best practices and lessons learned. We will update all training materials and reference tools and our provider relations representatives will provide on-site and telephonic support to ensure providers are up to date on new processes and changes to existing processes. We will develop self-paced training on the portal allowing providers and their staff the ability to take trainings or refresher courses to accommodate their schedule as needed. This training will have an attestation at the end indicating the provider has successfully completed the course. In addition, we will have topic-related town halls, education sessions and instructor-led trainings. This approach will extend to vendor relationships. We will maintain policies and procedures designed to support the CVO credentialing and recredentialing process.

The goal of credentialing is to make sure providers meet quality-driven standards. We will maintain a comprehensive network quality strategy that monitors outcomes and practices to make sure members are safely cared for. When providers fall short of our expectation, we will work with the Division and CVO to report quality concerns so that credentialed status can be reviewed as necessary.

4. Describe the Offeror's approach for timely contracting of Providers upon receipt of information from the ...

Timely Contracting After Receipt of Credentialing Information

We will ensure timely contracting of providers upon receipt of information from the CVO. We understand and will comply with all requirements in RFQ Appendix A, Draft Contract related to required contracting events through strong connectivity, effective processes and electronic delivery systems, as outlined by our approach in the figure.

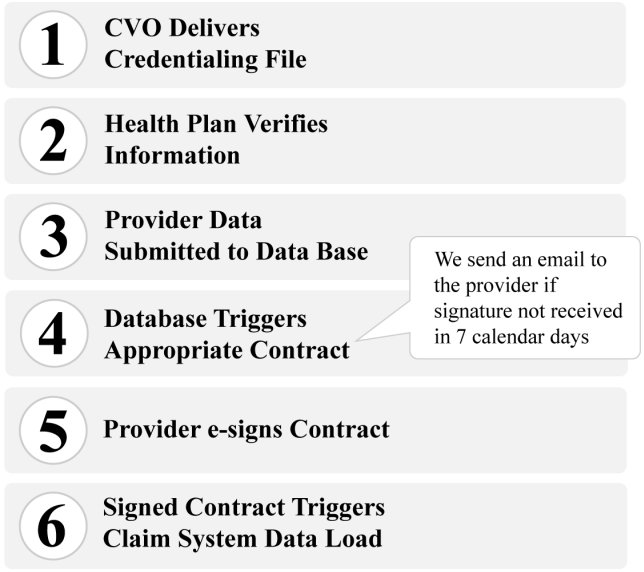

Figure 1: Post CVO Credentialing Provider Contracting Approach

Once we receive the file of providers approved through the CVO, we will ensure all required data is present to submit to our contract database triggering the contract to be sent to the provider. Upon receipt of the contract, the provider will e-sign and the contract will automatically be returned to the health plan for counter signature. Once the contract is fully executed by both parties the provider will be loaded into the claim platform and the process is complete. We will perform the process outlined above within 21 calendar days as required per Appendix A, Draft Contract. When a contract has not been received within seven calendar days; a reminder email will be generated to the provider. **In a state similar to Mississippi, we are currently loading 100% of newly credentialed providers into the claims payment system within 21 days from credentialing approval date.**

5. Submit templates of the Offeror's standard Provider contracts.

Please see **Att**. **4.2.2.2-1 Standard Provider Contract Templates.**

6. Describe the Offeror's proposed policies and procedures for addressing the loss of a large Provider group ...

We will establish policies and procedures to ensure regulatory compliance with Sections 6.4 Provider Terminations. Our systems will actively monitor contract effective dates and alert us to upcoming expirations. This is a safeguard to prevent providers from going out-of-network, and a tool our network management team uses to engage providers well before they are at risk of losing network status. If we and a provider are unable to resecure network status, we will offer the provider an emergency contract extension. If this is unsuccessful and

we experience a facility or large network provider termination, we will make extensive efforts to prioritize a return-to-network plan while minimizing member disruption.

Our Proposed Policies and Procedures

If we lose a large provider group or health system, our first responsibility is to provide our members with access to, and choices of providers and services through intensive care management and established referral activities. We understand and will comply with all requirements in Appendix A, Draft Contract, Section 6.4 Provider Terminations to include member and provider notification requirements, submission of termination work plans, care management, continuity of care and reporting requirements. Our detailed Policy and Procedure *Potential and Actual Provider Terminations* ensures all members continue to receive care and regulatory requirements are met.

The ability to recognize and promptly respond to potential and actual gaps in service occurs through coordination among provider services, care management and our provider network. Our policies and procedures will govern provider terminations activities in compliance with RFQ Appendix A, Draft Contract Section 6.4, including all subsections and ensure required member and provider notifications are timely and member transitions are smoothly completed with no disruption in member care. These policies and procedures include:

- Constant monitoring of potential network disruptions
- Making sure members receive adequate and timely notification and care during periods of actual or impending temporary network disruption
- Implementing post-disruption processes, which include, but are not limited to, ongoing member care coordination, enhanced communication among stakeholders and focused efforts on new agreements as the network normalizes

a. System used to identify and notify Members affected by Provider loss;

We will use member assignment data and claims data to identify and notify members affected by the potential termination at least 30 days prior to the effective date of the provider's termination date (if adequate notification was received) or within 15 days after receipt of the termination.

Step 1	**Receipt of Provider Termination**	▪ Provider notification of a termination is received ▪ Provider demographic data is updated in the system ▪ Gap analysis report is generated
Step 2	**Identify Affected Members**	▪ Identify members who received care or are assigned to the provider through utilizing provider demographic and claim data ▪ Confirm care management team is current on the term status and impacted members ▪ Develop continuity of care plan and potential transition of care plans ▪ Notify Call centers of the termination w/detail talking points
Step 3	**Generate Member Letters within Required Time Frames**	▪ Notifying member of the date their current PCP will be out of network ▪ Notifying the member on the process of how to choose a new PCP ▪ How a member can continue using services during a transition period

In accordance with RFQ Appendix A, Draft Contract, we agree to notify the Division in writing of a provider termination at least 60 calendar days prior to the effective date of the termination. If the provider initiates a termination, and we receive less than 60 days' notice, or if there is a significant safety concern that dictates quick action, we will notify the Division within two business days after receiving notice from the provider or initiating the termination.

The member assignment data and claims data are both integrated into our provider database, which will generate a report that identifies the members who will be affected by the termination. This will support our care management and member enrollment platforms to assist us in accurate and timely member outreach.

b. Automated systems and membership supports used to assist affected Members with Provider transitions;

Assisting Members Affected by Provider Loss

Our member assignment and claims data systems feed into our provider database, which will allow us to auto generate and mail a letter to each affected member (in English or in Spanish by member preference) thirty (30) calendar days prior to the effective date of the termination, or fifteen (15) calendar days after receipt or issuance of the termination notice. The letter includes:

- The name of the terminating provider
- The termination effective date
- Information about how to choose a new provider or locate an alternative hospital. The letter will offer other options
- If the provider is a PCP, the letter provides instructions for the member to call our member services center for assistance in selecting a new PCP
- And information about how a member can continue using services during a transition period
- Alternate providers that the member can consider
- Rights to continue seeing a provider if continuity of care is needed

If the member does not select an available PCP within 30 calendar days of the notice, our auto-assignment process will select an open-panel PCP based on known factors as current provider relationships, language needs (to the extent they are known), age and sex, enrollment of family members (e.g., siblings) and area of residence. Our policies and procedures will include a documented process for ensuring that the PCP is willing to accept assignment of a member before we assign the member to the PCP.

Our director of network management will inform service navigators of any large group termination and are available and willing to assist members who want to select a different PCP. We will mail members a new membership card, which notes the new PCP. If the member is in care management, or requires care coordination, we will use the following process:

Notification to Care Manager: Our automated system will generate a notification immediately to the care team to allow sufficient time to coordinate services for the member through another provider.

Review of Transition Options: Our care manager will assist the member with selection of an alternate provider, which will support the member's right to choose.

Continuity of Care (COC): The care manager will verify that services offered by the previous provider are not terminated until arrangements to start services are complete with the new provider. If we determine a member should continue care with the terminating provider; the SCA process will be initiated ensuring the member has continuity of care.

Transition Assistance: When a new provider starts services, after termination of another, the care manager will contact the member or representative on the first day of services to verify the member has started receiving services. During this outreach, the care manager will verify whether all additional required assistance was provided such as translator or disability assistance. If this does not occur, the care manager will intervene to ensure COC.

c. Systems and policies used to maintain continuity of care of Members experiencing Provider transition; and,

Systems and Policies We Will Use to Maintain Continuity of Care

Upon termination, our care management team in coordination with our network management team will immediately assess provider availability within the community. The preferred strategy will be to refer the member to another qualified, contracted provider near the member. If a contracted provider is unavailable, we will take the following steps: refer to a non-contracted provider with whom we attempt to initiate an SCA; recruit a new provider; or transport the member to a provider outside of the member's community. For members in active treatment, we will make certain their care is not disrupted during this transition. Our comprehensive COC policies will reinforce our position that members' needs come first.

Our transition of care and continuity of care policy will allow current members a transition period when a treating provider leaves our network. During this transition interval, the member will be eligible for in-network benefits and covered services rendered by an out-of-network provider for continued treatment through the current period of active treatment or for up to 90 calendar days, whichever is less.

d. Approach to cover membership needs with existing network resources following terminations.

Members will be assigned to a new provider to avoid disruption in care or services. We will analyze the GeoAccess and network analysis reports for the remaining providers to confirm we are meeting members' access to care needs and, when necessary, we will follow the "any willing provider" standard to identify available providers for network participation. At all times, we will provide transportation to and from providers who are no longer in our network.

Our Approach to Using Existing Network Providers to Ensure Continuity of Care

We will implement a short-term intervention such as continuing services with the current provider until the treatment period ends to avoid disruption in the member's care. We may refer the member to a nonparticipating provider, recruit a new provider or arrange for the member to see a provider outside the member's immediate community, if needed, with appropriate transportation support. Members who live near bordering states may be able to receive care across state lines. Using our existing networks along with our technical and operational support to include leveraging telemedicine and mobile health solutions, we will be able to meet the health care needs of our members.

7. Describe any Provider incentive programs the Offeror plans to implement to improve access and ...

Our Approach to Provider Incentive Programs

Driving improvements in access and the quality of care is our priority. One way to do this will be by incentivizing providers to facilitate practice transformation and enable them to provide the right care, at the right time in the right place. Under the current restrictions of Mississippi's Medicaid Technical Bill, incentives we propose to use to improve access and the quality of care include quality pay for performance and shared savings programs. Our planned incentives target PCPs, including FQHCs, RHCs and patient-centered medical homes (PCMHs), and specialists. We will offer incentive programs to behavioral health providers, dentists, pharmacists, hospitals and specialty care providers.

We will match providers with incentives aligned with their capabilities, organizational culture, populations served, and help them progress along the Health Care Payment Learning and Action Network (HCP-LAN) alternative payment model (APM) risk continuum while promoting and enabling success. Our incentive programs will all come with support from our staff and will align quality measures with HEDIS and Division quality and outcomes priorities. We will propose the following incentive programs to drive improvements in both access (getting members in for care) and quality of care (closing care opportunities). We are confident that all selected CCOs could implement any of our incentive programs through a program-wide aligned approach, and we recommend the Division allow each CCO some flexibility to deploy their unique and innovative

incentive models. At the same time, we recognize the importance of creating administrative simplification and ease for providers working across multiple vendors and welcome the opportunity to work with the Division and the other CCOs to implement the strongest possible program**.**

Incentive Program	Program Description	Targeted Providers	Expected Outcomes
Quality Gap Closure Incentive Program	This program will focus on closing gaps in care and improving quality outcomes critical to the Division and MississippiCAN and CHIP members. This model will include key HEDIS® and CMS Core Set metrics aligned with state quality objectives, such as asthma, diabetes care, cancer screening, and well-child visits. Participating providers will receive standard reimbursement and opportunities to earn incentives for closing gaps in care. This program will serve as an aligned step into other APM models. *In a similar-sized state in 2020, providers in this program closed over 68,000 gaps in care and earned over $500,000.00.*	PCPs, including FQHCs, RHCs, PCMHs, Pediatricians	Improve HEDIS measures such as comprehensive diabetes care HbA1c test (CDC), Breast Cancer Screening (BCS), Well-Child Visits (W30), and other priority measures monitored by the state.
Health Equity Incentive Program	All our VBP programs will address health equity by identifying members with care opportunities and our Health Equity Incentive Program will aim to address disparities seen between populations for key HEDIS metrics important to MississippiCAN and CHIP members, tiering incentives to reward providers for bringing members in for needed care. For example, we know that for the breast cancer screening HEDIS measure there is a larger disparity between Black and white members, especially in Harrison and Forrest. To help address this disparity, we propose using this measure in our HEP program and creating higher incentives to reward providers for bringing members in for needed care and decreasing the disparity seen between the two populations.	PCPs, including FQHCs, RHCs, PCHMs, Pediatricians	Improvements in health equity between populations by decreasing disparities seen in key HEDIS quality measures between populations of people, such as comprehensive diabetes care HbA1c test (CDC).
Pediatric Patient Centered Medical Home ACO	This incentive model will be exclusively for NCQA Patient-Centered Medical Homes (PCMHs) with greater than 80% pediatric populations. This model will focus on driving improvements in access as practices in this model must have open panels and extended hours. For providers to earn incentives in this program, at least two quality performance goals must be met to receive a per-member-per-month (PMPM) bonus, paid annually. Providers in this program may be eligible for additional PMPM funding if additional quality performance and efficiency measures are met.	PCMHs with greater than 80% pediatric members	Improvements in HEDIS quality measures such as well-child visits (W30) and immunizations for adolescents (IMA). Improvements in access to care as providers need to have extended office hours.
Shared Savings	This model will recognize that most member care is directed by PCPs, including PCMHs, which have the greatest opportunity for affecting the overall health and total cost of care for MississippiCAN/CHIP members. In this program, participating providers will be eligible to share in savings they achieve against total cost of care or clinical efficiency metrics. Practices must maintain open panels for new patients and offer extended evening and/or weekend hours for expanded accessibility. *We have implemented over 191 shared savings programs in 17 states for Medicaid managed care programs. Nationally, providers in these*	PCMHs, Medical Groups, PCPs with greater than 1,000 assigned members.	Improvements in HEDIS quality measures such diabetes (HbA1c) testing and well-child exam for the first 30 months of life (W30). Improvements in access to care as providers must offer extended office hours. Reductions in unnecessary emergency room visits.

Incentive Program	Program Description	Targeted Providers	Expected Outcomes
	agreements show 9% lower admission rates and 2% fewer ER visits compared to members whose providers are not in shared savings.		Reductions in unnecessary inpatient hospital stays.
Integrated Shared Savings	Similar to our Shared Savings described above, our Integrated Shared Savings model will support providers who have an integrated medical and behavioral clinical model within their practice. Providers will be eligible to share in savings they achieve against a blended total cost of care (TCOC) metric that includes both medical and behavioral health utilization. Practices must meet a quality gate of physical and behavioral health measures aligned with the Division's quality and performance measures to share in savings.	PCMHs, Medical Groups, PCPs with greater than 1000 assigned members who have behavioral health providers co-located.	Improvements in HEDIS quality measures such diabetes (HbA1c) testing and follow up after hospitalization Improvements in access to care as providers must offer extended office hours. Reductions in unnecessary emergency room visits. Reductions in unnecessary inpatient hospital stays.
Obstetrics Provider Quality Gap Closure Program	This program will reward qualifying OB practices through annual bonus payments for achieving or exceeding target scores related to certain HEDIS prenatal and postpartum measures and improving birth outcomes. *Using this incentive in a similar state, targeted providers' prenatal and postpartum visit rates increased 39% year-over-year.*	OBs	Improvements in prenatal and postpartum (PPC) HEDIS quality measures.
Behavioral Health Community-Based Provider Shared Savings	To improve outcomes for members with mental health conditions, our program will focus on reducing unnecessary hospital costs through the provision of high-quality outpatient care. Since members cannot be assigned to an outpatient behavioral health provider, we developed an attribution model whereby members who have two or more outpatient visits with the same provider are attributed to them during the measurement period. Providers must meet quality metrics such as follow-up after hospital discharge and medication adherence. This model can be deployed using a flexible, aggregated approach enabling lower volume providers who would not otherwise qualify for an incentive program to participate without requiring clinical integration.	Behavioral Health Community-Based Providers	Improvement in seven and 30-day follow-up after hospital discharge (FUH 7/30) HEDIS quality measures. Improvement in medication adherence. Reduction in unnecessary inpatient behavioral health hospital stays.
Behavioral Health Facility Shared Savings	This program will focus on lowering behavioral health episode cost of care while driving improvements in quality outcomes such as follow-up after hospital discharge and readmission rates. A Provider Enablement Consultant (PEC) will be assigned to each provider who participates in a behavioral health value-based program. The PEC will deliver data, analytics, and clinical insights to providers to help them enhance their person-centered care. Most importantly, provider enablement will monitor, measure and drive population- and member-centric outcome improvements.	Behavioral Health Facility (Inpatient, Partial Inpatient, Residential)	Improvement in seven-day follow-up after hospital discharge HEDIS quality measures (FUH 7). Clinically appropriate reduction in readmissions rates for behavioral health facility services.
Pharmacist Incentive	To take advantage of the accessibility of pharmacists within the community to complement and bolster the role of the physician, we will partner with Mississippi independent pharmacists to recognize and reimburse	Independent Pharmacists	Improvements in HEDIS quality measures such as Statin Therapy for Patients

Incentive Program	Program Description	Targeted Providers	Expected Outcomes
	pharmacists for their clinical value beyond medication dispensing. Focusing on HEDIS measures, including Comprehensive Diabetes Care and Statin Therapy for Patients with Diabetes, Mississippi pharmacists will contribute to our team-based and multipronged approach to target hard to reach members in rural areas of the state. In a state with a similar size and member population, pharmacists were able to close 13% of identified gaps in care for members identified as hard to reach or non-responsive to traditional methods of outreach.		with Diabetes – Statin Therapy (SPD).
Dentist Incentive	Upon contract start, we will offer a new VBP incentive program for dental providers through which providers will be eligible for incentive compensation based on their office utilization for periodic oral evaluations, annual dental visits, sealants for children with elevated caries risk, prophylaxis, and topical fluoride varnish applications for children at elevated caries risk performance.	High-volume dental providers, including FQHCs and large dental practices	Increased preventive and diagnostic procedures performed, which will contribute to improved HEDIS Annual Dental Visit (ADV) metrics

8. Explain the Offeror's proposed process to maintain the Offeror's Provider file with information about each ...

Our Proposed Process for Maintaining the Provider File

Achieving Operational Excellence

We will collect data at several points throughout our interactions with Mississippi providers, from their initial application to join the network, to ongoing communications and outreach. We collect data and information about providers through national registries and databases. We will use our comprehensive set of established processes to continually review and update our provider data. We will collect and display captured information, including cultural competency trainings, languages spoken, facility and equipment accommodations and panel status, including whether providers are accepting new patients, in our provider directory to make sure members in MississippiCAN and CHIP can locate providers who meet their needs and preferences. These processes are adaptable and, through collaboration with the state, we can augment them to reflect Mississippi and population-specific needs.

The daily provider file will be used to ensure we are maintaining files of providers who are enrolled with the state, and we are recognizing only eligible providers and maintaining consistent and current provider payment data. We will initiate cessation of payment immediately to any providers who are sanctioned by the Division. If we detect a sanction before being alerted, we will notify the Division and seek advice on our next steps.

a. Issue IRS 1099 forms,

All provider files submitted for loading into the claim processing system will be required to have a valid W-9 tax form on file at the time of loading. If a W-9 is not on file the provider will be required to submit before their data can be loaded into the claim processing system. The W-9 forms will be stored in our system as part of the provider file. This process will be applicable to network and out-of-network providers and will facilitate our issuance of IRS 1099 forms as required.

b. Meet all federal and Division reporting requirements, and

Provider information will be collected through multiple avenues and will be stored and accessible for all reporting requirements. The data will be readily available to meet business, state, or federal reporting requirements. We will produce provider files as necessary in support of our encounter process, state partners, auditors, and as outlined in state and federal regulatory requirements. In addition, all provider data will be collected in support of the Federal Managed Care rule around our directories.

We will monitor data quality by using an internal error report to identify provider records not in the appropriate format. Our provider file information will then be reconciled with the Division's provider file to ensure data accuracy and alignment with the Division. Our provider data systems are flexible enough to accommodate changes as we receive feedback.

c. Cross-reference to state and federal identification numbers to identify and report excluded Providers.

We will routinely cross refence to state and federal exclusion reports as part of our approach to support our data and data integrity. We will comply with all federal and state requirements to make certain all providers are screened for excluded persons. We will communicate this obligation to any subcontractors. Further, we will search the following sources upon enrollment, re-enrollment and at least monthly thereafter to capture exclusions and reinstatements: HHS-Office of Inspector General's (OIG)'s List of Excluded Individual and Entities (LEIE), General Services Administration (GSA) Excluded Parties List Service (EPLS), the CMS Medicare Exclusion Databank (MED), the State Board of Examiners and the System for Award Management (SAM). The process will include routine checks of the following databases: Social Security Administration's Death Master File, the National Plan and Provider Enumeration System (NPPES), National Practitioner Data Bank (NPDB) and Health Integrity and Protection Databank (HIPDB).

B. Provider Services Call Center

1. Describe the Offeror's Provider services call center operations including:

Our toll-free Mississippi-based provider services call center will operate in compliance with the requirements of the RFQ, including those in Appendix A, Draft Contract Section 6.9.

1. Describe the Offeror's Provider services call center operations including:

Overview of Our Provider Services Call Center Operations

Operating under the direction of our provider services director, our provider services center will be staffed by provider phone representatives who will be extensively trained on the MississippiCAN and CHIP contract requirements. Our provider phone representatives will help on covered services, fee schedules, enrollment, member eligibility verification, procedures for prior authorization and referrals, claims payment, disputes, grievances, benefit exclusions and limitations, coordination of benefits, coordination of out-of-network services, referrals to the fraud and abuse hotline, provider demographic updates and PCP assignments. We will facilitate the transfer of member medical records among providers and provide PCPs a monthly list of members under their care, (including identification of new and deleted members) and a guide detailing the use of the list. Throughout the upcoming contract term, our provider phone representatives will receive intensive training on the details of MississippiCAN and CHIP and will have access to each provider's file, credentialing status and claims/payment data.

Our provider services center will have an option for pharmacy services, where providers will be directed to dedicated pharmacy team to assist with escalated issues. Our pharmacy team will have national experience working with a carved-out pharmacy benefit, collaborating with the state's pharmacy benefit administrator (PBA) to make sure our members have timely access to pharmacy services. Upon designation of the state's PBA, we will enact processes so that our call center can coordinate with internal and external entities, including the state's PBA, to provide a warm transfer for providers. This ability will provide a quick and seamless process to resolve pharmacy services-related calls, or to help with any misdirected calls.

a. Hours of operation;

Our provider phone representatives will live answer provider calls Monday through Friday from 7:30 a.m. to 5:30 p.m. Central Time, or as directed by contract changes. Providers can leave a message at our provider services center at any time outside these staffed hours and calls will be returned the next business day. We will use intelligent call routing that recognizes a provider's phone number or TIN and preferred language to connect

the caller quickly and accurately with an appropriate Mississippi provider phone representative. The system will offer a menu of automated and live options, allowing providers to speak with a representative at any point during the call.

b. Describe how the Offeror will ensure call center employees will have cultural competency.

Standardized cultural competency training will be required of all employees, including our call center employees. Our local leadership team will be accountable for creating and maintaining our cultural competency plan that supports cultural humility in delivering high-quality service to support a positive provider experience and member outcomes.

Our cultural competency training will bring awareness and sensitivity to individuals that come from varied economic, social, religious or ethnic backgrounds. We will apply voice-activated behavioral analytics to record and analyze 100% of provider calls, enabling us to identify opportunities unique to each representative and provide one-on-one coaching.

c. Specific standards for rates of response (e.g., live answer, incomplete calls, speed of answer, ...

To ensure compliance with call performance standards, our management team will monitor activity in real-time and generate specialized reports to identify peak call times and quantify individual provider phone representative productivity. To confirm the accuracy of our responses, we will use a call-monitoring system to perform evaluations, make and play recordings, and perform live monitoring. Supervisors will access the call monitoring system to review their team's quality evaluation details and scores. We will record at least 99% of calls and randomly select provider phone representatives for monthly quality reviews. We will routinely monitor no less than 3% of calls for compliance with customer care guidelines and will have procedures to increase if indicated. Our provider phone representative call system will detect changes in voice tone, volume, inflection, and the use of key words to alert the on-call supervisor for quick intervention and redirection as necessary to ensure a satisfactory outcome.

We will provide the Division with call recordings upon request and file reports as required in the Appendix A, Draft Contract. We will retain the recorded calls for seven years. Our provider services management will meet weekly to address metrics, staffing, training needs, and to document updates or operational issues. The management team will measure wait times, the number of calls holding in queue, average speed of answer, reasons for calls, and offers a transfer to a satisfaction survey after the call.

d. Training program for call center employees including local and statewide cultural competency; and,

Our commitment to comprehensive staffing and training initiatives will be key factors in our success in meeting Mississippi requirements for responsiveness and quality control.

Provider Phone Representatives Training

We will facilitate initial and ongoing training to foster high provider satisfaction as our provider services call center provider phone representatives. Provider phone representatives will receive extensive MississippiCAN- and CHIP-specific training to handle a broad range of complex topics. We will conduct on-site trainings for our provider services call center team and their backup counterpart teams. Claims supervisors, call center supervisors and provider relations representatives will participate in monthly and ad hoc calls to discuss updates, issues, concerns and network changes that may affect how we respond and resolve provider inquiries.

In concert with our standard new employee training and onboarding activities, initial provider phone representative training will include segments that align with our member services call center training, plus a six-week provider services session covering benefits, eligibility, claims and two weeks of on-the-job training. Our methods will include facilitated lectures, role-playing/simulation, question-and-answer sessions and computer-

based training. Seasoned staff will receive ongoing monitoring and training. Training topics and educational information will cover all aspects of MississippiCAN and CHIP, including:

Provider Phone Representative Training	Onboarding to Mississippi Plan	Functional Onboarding	Annual Compliance Training
Course Title	▪ MississippiCAN and CHIP Contract Training ▪ Company Required Courses ▪ Fraud, Waste and Abuse ▪ Privacy and Security ▪ Cultural Competency ▪ Code of Conduct	▪ Intro to Medicaid and Medicaid Calls ▪ Call Handling ▪ Handling Complex Provider Inquiries ▪ Introduction to MississippiCAN and CHIP ▪ Net Promoter System ▪ Pharmacy and Prior Authorization Systems	▪ Privacy and Security: Safe and Secure with Me ▪ Annual Compliance Training (includes Fraud, Waste and Abuse and Code of Conduct)

Before placement in the provider services call center occurs, provider phone representatives must demonstrate their ability to respond to provider inquiries, including complaints, grievances and appeals, and claims questions during their training period. Provider services staff will receive annual refresher and ad hoc training. Once provider phone representatives work independently, we will continue to monitor their performance and provide feedback for continuous quality improvement.

Cultural Competency Training

Our cultural competency training will bring awareness and sensitivity to individuals that come from varied economic, social, religious, or ethnic backgrounds. In the training, we will present an overview of several major cultural groups and explore the cultural dimensions of each group to increase staff understanding and appreciation of differences and similarities. Before placement in the provider phone queue, provider phone representatives must demonstrate their ability to respond to provider inquiries and complete all required training sessions with a passing score. Ongoing training will address the cultural competency and special health care management needs of our MississippiCAN and CHIP population, including use of our members' first language; cultural awareness and understanding of health disparities among cultural groups; treating each person with dignity and respect; communication protocols for members with limited English proficiency; and characteristics of and barriers facing individuals with special health care needs.

e. A description of any plans to use electronic communication to respond to Provider inquiries.

We will give providers live attention from Mississippi-based call center representatives. We will handle basic inquiries, such as eligibility and claim status using interactive voice response (IVR), but the providers will always have the option of securing a live representative.

During calls to the provider services call center, our provider phone representatives will provide technical support to help providers find information on our website or portal. However, most of our electronic correspondence with providers will be through our field-based provider relations representatives. Our provider relations representatives will communicate with providers via phone and secure email and text.

2. Describe how the Offeror will assess the quality and efficiency of the Call Center.

First Call Resolution

Our technology will enable us to track first call resolution measures and monitor provider call quality. The technology will offer 99% call recording and screen capture capabilities, enables quick identification of provider dissatisfaction, and facilitates root cause analysis of any repeat phone call. Call recording capability

will allow resolution specialists to receive immediate feedback on how they can improve their communication and resolution skills.

Internal Monitoring to Ensure Performance Standard Compliance

Our network team and local health plan staff will continuously examine our provider service components to certify compliance with Mississippi requirements, and all state and federal requirements. Examples of compliance monitoring we will perform include:

- **Provider services call center:** To confirm compliance with call performance standards, such as requirements for average answer speed, average length of call and blocked calls, we will use the following:
  - The provider services center management team will monitor our call response rate using scheduling software, generates specialized reports to identify peak call times and quantifies individual resolution specialist productivity. The management team will measure the longest wait time for any caller by monitoring the number of calls holding in queue and makes adjustments as needed.
  - To confirm the accuracy of our responses, we will use a call monitoring system to perform evaluations, make and play recordings and perform live monitoring. Supervisors will access the call monitoring system to review their team's quality evaluation details and scores.
  - We will record at least 99% of calls and randomly select provider phone representatives for monthly quality reviews. We will monitor no less than 3% of calls for compliance with customer care guidelines.
  - We will monitor calls daily and have supervisors provide immediate coaching and feedback.

We will track and trend the results of the call monitoring for all staff to highlight areas of improvement. The director of operations within the provider services center will review the trended results and adjusts the training curriculum as necessary. After training, provider services center managers will continually monitor performance. A coach will be responsible for monitoring, scoring, tracking and trending provider calls. The coach will provide immediate feedback to individual staff to improve the quality of their calls, acknowledge positive behavior and provide feedback for building their communication skills.

Measuring and Monitoring Response Accuracy and Caller Satisfaction

The following describes the methods we will use to measure provider phone representative performance.

- **Phone Technique:** Use a professional greeting with the provider, apply hold courtesy skills, apply call control skills, follow redirection procedures, and use a professional closing at call end.
- **Building Trust:** Identify provider's inquiry or issue, demonstrate full attention, deliver response with confidence, communicate clearly and connect with the provider.
- **Accuracy and Completeness:** Provide accurate, complete information to the provider.
- **First-Call Resolution:** Verify that call documentation matches the call content, route or close documentation correctly, make outbound call if necessary, to resolve issue and send out requested information.
- **Call Calibration Meetings:** Call center management meets monthly with our Mississippi leadership teams and health plans to listen to recorded calls and provide input regarding call conduct.
- **Post-Call Surveys:** We will invite each caller to participate in a brief post-call satisfaction survey. We will ask providers opting to complete the survey to provide ratings on three questions and provide informal feedback about the provider phone representative service. As appropriate, we will report out individual issues and concerns, and use aggregated survey information gathered during these surveys to trend provider services center satisfaction and to formulate topics for ongoing provider phone representative training.

C. Provider Education and Communication

1. Describe how the Offeror will educate network PCPs/PCMHs about Care Management services, how to ...

Educating Providers About Care Management Services

Our provider relations representatives will develop and deploy provider education materials to help providers know how to engage with our care management (CM) team including local field-based care managers. Our joint clinical meetings with providers will include a liaison from our care management leadership who will offer their contact information to facilitate referrals.

We will educate providers about our care management programs and services during new provider orientation and providers will continue to have access to online self-paced training modules, training materials and regularly scheduled in person education sessions. Educational opportunities will include:

- Our provider manual
- Face-to-face visits from our field-based staff
- Dedicated training sessions
- Monthly provider education sessions
- Town Halls and in person Provider Events
- Joint Operating Committees with our larger health systems
- Provider bulletins and newsletters
- Provider Advisory Committee

Educating Providers about How to Connect with Care Management

Our provider relations representatives will educate providers about how to connect with care management by phone, email, virtually, on-site and in partnership with our health care professional associations providing program materials. Our nurse consultants will be actively engaged with our care management teams and the PCP/PCMH through on site visits and scheduling workdays in the practice.

Practice-Based Care Managers

In a state of similar size and demographic makeup, we embed RN nurse consultants inside high-volume primary care medical homes across the state. The feedback we have received from members/families, PCPs, specialists, hospital care managers and our provider advisory committee affirms this is the right approach to help our high risk and complex members have improved health and utilization.

Measuring Provider Care Management Engagement

The best measure of provider care management engagement is quantifiable data that shows improvements in care or missed opportunities. Our standardized reports at the group and practitioner levels will show when care is being delivered and when impactful care is being neglected. We will use these opportunity reports to measure provider effectiveness and drill down to the member-level to see who needs more intense engagement. Where opportunities are missed, we will use the reports to demonstrate care management opportunities.

We will create a care management partnership and referral report detailing partner state, local and community and community-based organizations for both input on care management strategies and referring members for services.

For our CM referral partners, we will implement a partnership agreement that details 1) data sharing and data protection; 2) implementing health promotion and disease prevention initiatives; 3) coordinating service delivery with the member's PCMH or PCP, as appropriate; 4) tracking member outcomes and measuring success; and 5) making and tracking of closed-loop referrals.

Our Approach to Addressing Provider Care Management Underutilization

Provider relations representatives will connect with individual providers or groups who have been identified as underutilizing the care management program. We will determine the appropriate intervention by addressing current issues and trends, reenforcing the benefits of care management to the provider and the member.

2. Describe how the Offeror will educate network PCPs/PCMHs regarding how and when to refer a member ...

All provider agreements will require providers to perform a comprehensive mental health assessment and coordinate with other treating providers. We will reinforce this approach through ongoing training, communications, and resources to support initiatives that either the Division or we identify. We will work closely with the PCPs, PCMHs and BH/SUD providers co-managing members through joint clinical meetings, care coordination, relevant reporting, jointly developed care plans and active information sharing.

Educating Network PCPs Regarding Behavioral Health Referrals

We will promote our person-centered care approach to all providers and provide education specific to behavioral health (BH) and substance use disorder (SUD) screenings and referrals. We will reinforce this concept through various education opportunities, including:

New Provider Orientation

Within 30 calendar days of joining our network, PCPs and behavioral health professionals will participate in an orientation introducing themselves to our comprehensive supports, including our network of providers, subspecialty areas, our local-based network staff, provider services center, provider manual and provider portal. During orientation, we will explain the importance of screening, collaborating, and referring members to appropriate services — including behavioral health and substance use disorder. We will emphasize the importance of collaborating with other providers to make sure members receive quality care coordination.

Behavioral Health Tools for Health Care Professionals

Our tools will be available on our website to assist providers in understanding how to identify behavioral health conditions and how to refer members for more specialized treatment. Providers will have direct access to behavioral health clinical practice guidelines and evidence-based screening tools (e.g., Patient Health Questionnaire-9, a validated screening tool for depression) and information on how to contact our behavioral health staff for assistance in referring members. We will provide information on Screening, Brief Intervention and Referral to Treatment (SBIRT), an evidence-based Substance Abuse and Mental Health Services Administration (SAMHSA) practice adopted by Mississippi to identify substance use disorders (SUD) early. The SBIRT allows PCPs to identify and treat SUD in their practices with brief, evidence-based interventions.

Intellectual and Developmental Disability Tools

We will offer a series of training modules that provide practitioners with valuable content on providing care to people with intellectual and developmental disabilities. Hosted on our education site, these free courses provide CME credits and are easily accessible to PCPs, psychiatrists, primary care and psychiatric nurse practitioners, medical office staff, residents and students. Our goal is to increase the number of providers who have a willingness to, and express confidence in, treating individuals with intellectual and developmental disabilities.

3. Describe how the Offeror will develop the Provider Manual, including brief descriptions of major sections.

Our Approach to Developing our Provider Manual

We will have one provider manual for both the MississippiCAN and Mississippi CHIP providers, clearly outlining the programmatic differences. Our provider manual will be developed with the dual purpose of a useful tool to assist in answering everyday questions and setting expectations and requirements. The manual will guide the user’s clinical and operational needs and will be made available in print and online.

We will incorporate all required elements described in Appendix A – Draft Contract Section 6.9.2 Provider Manual. We will start with our standard handbook templates used in other Medicaid programs and apply key contractual requirements, state regulations and other materials that providers need to know and use in their day-to-day operations. We will submit our provider manual to the Division for approval 90 calendar days prior to implementation, upon change, and at least annually.

MississippiCAN and Mississippi CHIP Provider Manual Major Sections

Introduction to MississippiCAN and CHIP	Description of the Care Management System and protocols	Description of the role of a PCP and covered services, including excluded services, copayments and benefit limitations
Description of the role of a PCMH	Emergency room utilization	Member access to specialists, including standing referrals and specialists as PCPs
Contact information, including relevant telephone number(s), email address(es) and websites	Contact follow-up responsibilities for missed appointments	Translation and verbal interpretation services for members
Information about filing provider disputes	Prior authorization review and reconsideration, Grievance, Appeal and State Administrative Hearing information	Prior authorization clinical and technical criteria guidelines
Billing instructions, including claims submission time frame requirements and manual or invoice pricing requirements	Provider performance expectations	Information about EPSDT screening requirements and EPSDT services
Provider responsibility to follow up with members not in compliance with the EPSDT screening requirements and EPSDT services	A definition of "medically necessary" consistent with the language in this contract	Information about member privacy and confidentiality requirements
Information about the process for communicating with the contractor on limitations on panel size	Information about the process for contacting the contractor regarding assignment of a member to an alternate PCP/PCMH	Non-exclusivity requirements
Description of provider web portal and the process for accessing it	Credentialing and recredentialing and the use of the CVO	Instructions on working with carved-out services and contact information for those vendors

4. Describe how the Offeror will develop Provider trainings and workshops, including brief descriptions ...

Provider training and communication are part of our detailed network implementation action plan, which we consider necessary to facilitate a complete and tailored network before go-live.

How We Develop Provider Trainings and Workshops

We will train providers as required in Appendix A, CCO Contract Section 6.9.3 on new processes and updates communicated by the Division of Medicaid. We will train and develop providers by identifying trending claim issues, new policies and procedures and feedback from the provider community and by partnering with our local associations. Engaging internal and external partners, our trainings will address current initiatives, processes and resources most relevant to the needs of providers.

Six Possible Provider Training Topics

These training sessions will include:

- Offering initial education on our administrative processes and requirements (e.g., claims, operations, available data and quality reporting)

- Training on providing cultural competency, health equity, implicit bias and other topics critical to serving the MississippiCAN and CHIP population
- Working with centralized functions: CVO credentialing and recredentialing, pharmacy benefit administration
- EPSDT, well-baby and well-child services (training materials on the portal, specific trainings and educational sessions)
- Training on care management services and how to engage and optimize care management
- Educating on key resources available (e.g., provider manual, provider portal, network bulletins, newsletters, our provider services center, claims escalation and issue resolution)

5. Describe how the Offeror will provide education to Providers concerning cultural competency, ...

A disproportionate burden of disease is borne by racial and ethnic minority populations and the rural and urban poor. Mississippi's Delta Region, among the poorest in the state, experiences nearly double the rate of low-birth-weight births than other parts of the state. Across the state, cardiovascular disease kills Black males disproportionately, and diabetes is more likely in undereducated adults ages 65 – 74.[1] With a physician workforce shortage in Mississippi, members residing in such underserved areas will most likely need access to specialty providers, located in urban areas, who may not routinely encounter such disparate patient needs. Thus, we will assist providers in overcoming barriers to providing culturally competent, equitable and unbiased care.

Training Providers in Cultural Humility and Implicit Bias

We will employ a health equity director, who, in collaboration with other clinical and senior leaders, will develop our cultural humility and implicit bias provider training curriculum complete with Mississippi-specific modules to support providers as they relate to the men, women and children we serve.

We will include this training in providers' onboarding education and offer ongoing training through our provider portal, provider forums, newsletters and provider manual. Our website will offer easy access to state-specific, self-paced and instructor-led education and training on cultural diversity and disability competency, and their effect on health and other topics related to cultural competency such as obtaining interpretive services and accommodating the special needs of members. Upon completion of each module, the provider will be required to attest to the successful completion of the training and details about how the provider will incorporate this strategy into their day-to-day operations. Providers will have access to free continuing medical education credits (CMEs) and continuing education units (CEUs) through our training website. To participate in our value-based purchasing, we will require providers to complete cultural competency training. We will reinforce the importance of cultural sensitivity through select sponsorships and educational opportunities.

6. Describe the Offeror's proposed approach to assess Provider satisfaction, including tools the Offeror plans ...

We will use both formal and informal tools and processes to proactively identify and assess provider satisfaction. Our annual provider survey, quarterly Provider Advisory Committee meetings and Joint Operating Committee meetings will provide formal and regular opportunities to engage providers. Providers may offer satisfaction feedback to their provider relations or phone representatives. This approach will allow our teams to identify opportunities to update provider education materials or improve a current process.

Provider Satisfaction Approach, Tools and Frequency

Assessing provider satisfaction via the following methods helps us improve the quality of our provider services. Here are examples of tools we will use:

[1] Mississippi State Department of Human Services Office of Rural Health and Primary Care 2021 Annual Report.

Tool – Frequency	Responsible Parties	Description
Provider Satisfaction Survey – Annually	**Director Network Management**	Part of our core strategy is to engage an independent research company to assess provider satisfaction using statistically validated questions. They will send an annual provider satisfaction survey to a statistically valid sample of our PCPs and specialists. Areas assessed include UM processes, authorizations, credentialing, claims processing, reimbursement, service support and more. In accordance with the provider satisfaction survey requirements in Appendix A, CCO Contract, we agree to continue to file our survey results with the Division at least 90 calendar days following survey completion.
Physician Practice Manager Survey – Quarterly	**Director Network Management**	National survey triggered by a claims project event as part of a closed-loop process to share results with providers and provide additional opportunity for provider feedback and resolution. If a provider expresses dissatisfaction with the process or other issue, the provider relations representative will reach out to the provider to identify the root cause and resolve and close the issue to the provider's satisfaction.
Net Promoter Score (NPS) – Monthly	**Director Network Management**	Many leading organizations embrace the NPS concept that willingness to recommend a company is an outcome of putting the customer first. We use NPS to track provider satisfaction to better understand how to create a differentiated, provider-friendly experience. Our provider NPS process is based on monthly feedback on experiences that measure key CAHPS-like metrics. We will monitor our impact, identify drivers of satisfaction and use informed decision making and improvement planning.
Provider Services Center Survey – Daily	**Provider Phone Representative**	We will offer each caller to our provider services center the opportunity to participate in a brief post call survey conducted by an analyst who was not part of the provider's call. We will ask four questions that provide feedback about the service provided during their call. These findings will be reported monthly to the director of provider services who will intervene immediately if an issue is identified. These four questions have been shown to highly correlate with Net Promoter Score (NPS), which is a nationally recognized measure of satisfaction. We will use these results to trend satisfaction and formulate topics for ongoing provider phone representative training.
Informal Opportunities for Provider Feedback – Daily	**Provider Relations Representative**	We will engage providers to obtain feedback through focus groups, visits and calls from our executive leaders, provider service and education events, provider services center, monthly provider webinar town halls, ongoing communication with local professional groups and our provider portal's question-and-answer capability. In addition, we will establish Joint Operating Committees with key providers to collaborate with them to develop solutions that affect health care operations.

7. Describe the Offeror's proposed approach to educating Providers concerning EPSDT services and ...

Our Approach to Provider EPSDT, Well-Baby and Well-Child Services Education

Our proposed policies and procedures comply with the Division's adherence to the recommendations of American Academy of Pediatrics Bright Futures Guidelines for periodic health screenings and Advisory Committee on Immunization Practices for recommended immunizations.

Our child wellness team and provider relations representatives will educate new pediatric providers on EPSDT processes through orientation within 30 days of provider enrollment. Providers can continue to learn about EPSDT, well-child and well-baby covered services in our provider manual and online learning modules, newsletters and our reports that show member care opportunities. Our child wellness manager will present an overview of the EPSDT and child wellness programs during scheduled provider training events with topics including program requirements (screening instruments and schedules), best practices for identifying and referring children with developmental delays, collaboration opportunities, requirements for reimbursement and value-based purchasing arrangements.

8. Describe the Offeror's proposed approach to educating Providers regarding the needs of Members ...

a. Perinatal;

b. Behavioral Health;

c. Substance Use Disorder;

d. Chronic Conditions; and

e. Foster Children.

Educating Provider and Members with Specified Conditions and Circumstances

Our field-based registered nurse consultants will provide training for providers through on-site visits and Joint Operating Committees (JOCs) to address the identified conditions and circumstances. We will provide on-demand resources and reporting specific to the providers' patients.

Perinatal

We will offer the following tools and services to help providers manage pregnant members in their care:

- Data through provider portals, registries or other methods to help the practitioner identify potential new and ongoing risk factors, open gaps in care based on evidence-based guidelines and other data and information to help manage care
- Health education and other member engagement materials and interactive tools to offer patients education on important topics such as breastfeeding and safe sleeping practices
- Education regarding the perinatal care management program, including information about eligibility criteria, how a provider may enroll a member and how we will work with all practitioners who treat pregnant members. This information will be available through several communication channels:
  - Provider administrative guide
  - Provider newsletters
  - Provider websites
  - Provider town halls
  - ACO Joint Operating Committees
- Publicly available clinical guidelines, reimbursement policies and authorization criteria based on latest American College of Obstetricians and Gynecologists (ACOG)
- In-person events for PCP training on LARC insertion

Behavioral Health and Substance Use Disorder

All new providers will have an orientation training within 30 days of joining the network. This orientation will include our approach to person-centered care and the importance of identifying members' behavioral health disorder needs and how to manage or refer members to behavioral health professionals. In addition, providers will be provided information on how to register for live educational trainings held monthly by the provider relations representative and how to navigate our organization to successfully treat our members with behavioral health needs and collaborate with other health professionals. We will offer educational materials for providers regarding the needs of members with behavioral health and substance use disorders; this information will be available at the educational trainings and on the provider portal.

Our behavioral health toolkit and addiction recovery toolkit will provide helpful links to important information for PCPs about behavioral health conditions and treatment such as depression screening and attention deficit hyperactivity disorder (ADHD) and will be accessible on our provider portal. These toolkits promote the use of behavioral health screening tools such as the PHQ-9 depression and the AUDIT-C alcohol screeners and help providers link members to treatment, including clinical practice guidelines for prevalent behavioral health and

childhood disorders. Our portal will offer trainings and behavioral health educational materials for providers and members, including information on evidence-based practices and suicide prevention and awareness.

Chronic Conditions

Our field-based registered nurse consultants will engage and educate providers about the specific needs of members with chronic conditions. These nurses will orient providers to our disease-specific online resources. They will use HEDIS measures to drive maximum wellness in the chronically ill. When providers are willing to engage in VBP arrangements, our nurses will track and exchange real-time data acquired through our **Chronic Condition Retrospective Shared Savings programs.** Our field-based nurses will educate providers on best practices for conditions or procedures, including critical, high-cost conditions such as asthma, COPD, joint replacement, opioid use disorder (OUD), cardiac and gastroenterology procedures.

Children in Foster Care

Recognizing the importance of equipping those directly responsible for the care of children in foster care with the appropriate knowledge on how to care for this population, we will offer innovative trainings targeted to providers and supports surrounding the child.

Our care management team in Mississippi will be required to participate in extensive training in trauma, brain development and secondary trauma, including trauma-focused cognitive-behavioral therapy, cognitive-processing therapy, child-parent relationship therapy and the neuro-sequential model of therapeutics.

The care management team will provide individualized training to caregivers and older and former foster youth based on needs identified through the member assessment. Available trainings will include concepts related to transitions, nurturing environments, trauma triggers, self-regulation for children, co-regulation for caregivers and trauma signs and symptoms.

We will partner with the National Foster Parent Association and the National Child Traumatic Stress Network to provide trainings and resources to providers, agencies and family members about bias, the effects of trauma, including generational trauma, and relevant resources, which are available nationally to all caregivers and stakeholders, not only our members.

We will offer free education to credentialed providers, such as physicians, pharmacists and nurses, on a variety of topics, including education about implementing a trauma-informed approach and psychotropic medications.

D. Collaboration with Providers

Mississippi is the only state with every county in the Centers for Disease Control and Prevention's (CDC's) "Diabetes Belt."[2] In 2020, more than 14% of Mississippi adults were told by their health care provider that they had diabetes.[3] Asthma is common among all age groups in Mississippi, with one in every 10 children under age 10 and one in every 14 adults aged 18 and over with asthma.[4] Statistics such as these, combined with a provider workforce shortage, underscore the need for CCOs to work collaboratively with all health-oriented stakeholders.

1. Describe how the Offeror will collaborate with PCPs/PCMHs regarding the care of Members with chronic ...

The PCP and PCMH are the gateway to comprehensive health care and serves as the medical home for our members. We will offer our PCP and PCMH partners clear, timely and comprehensive data at the member and

[2] msdpp.org

[3] America's Health Rankings 2021 Annual Report

[4] Mississippi State Department of Health

population level. We will monitor trends and gaps in care to inform improved policy, training and practice- and clinic-level supports.

Collaborating with PCPs for Members with Chronic Illnesses

Our member risk stratification engine will use health screening and comprehensive assessments, claims data and information received from members and their families to identify members with chronic illnesses, including obesity, diabetes and asthma. We will communicate with PCPs about their members with chronic illnesses in person, by phone and electronically through our provider portal, our EMR tool, through partnerships in value-based purchasing arrangements and regular reports.

Our field-based registered nurse consultants and provider relations representatives will work with PCPs to improve quality outcomes through care gap closure. Dedicated practice care managers will work collaboratively to transform practices from reactive to proactive. They will share information from the provider quality scorecard and our care management platform. We will assign provider relations representatives to all network providers based on geography and provider types. We will provide communication and education for providers on how to use our available resources to monitor follow-up care for the member and communicate with our team of available subject matter experts for support. We will provide this information through the following touchpoints:

- **Provider portal:** Our provider portal will offer online tools and resources to help providers streamline their work. When the provider checks member eligibility through the provider portal, we will automatically display HEDIS, EPSDT and immunization gaps for that member. The portal will give providers actionable information to identify members who may be due or past due for treatments or screenings. Monthly, providers will be able to access detailed Patient Profile reports, which will include information on health risk, chronic conditions, inpatient and ER visits, pharmacy claims details and total cost of care.
- **Care management system:** Our secure web-based care management system will automatically integrate claims and clinical data to identify the provider's members with gaps in care or those who require follow-up care. PCPs and medical homes will have access to the same information and tools as the care manager, such as gaps-in-care alerts; admission, discharge and transfer (ADT) alerts; and the ability to view and update the member's treatment plan. Through this system, the PCP and medical home can view and update a member's treatment plan; view actionable information; monitor the member's progress toward achieving their goals; and validate improved health outcomes.
- **EMR tool:** This tool will **deliver providers integrated access to real-time data** by integrating real-time patient medical records, including clinical, pharmacy, labs, prior authorization and cost transparency, with existing electronic medical records (EMRs) to provide real-time insights on care needs. The tool will simplify data access while increasing understanding of what a patient needs at the time of care, assisting providers in determining care and treatment. The tool will enable providers to gain insights on patient needs in the following ways:
  - Eliminate blind spots in care by identifying potential care opportunities
  - Quickly check prior authorization for a patient's medical plan
  - Reduce pre-visit prep time by identifying member needs and gaps in care
  - Stay current on member plan benefit changes, providers in the patient's network and any expected cost sharing for CHIP members

Retrospective Shared Savings Program: Chronic diseases are among the most common health problems in Mississippi. To help improve the management of diabetes, we propose using our Diabetes Retrospective Shared Savings (APM 3a) program, which builds on standard reimbursement and offers shared savings opportunities based on cost of care across a defined set of services related to conditions or procedures critical to Mississippi. This approach will provide the primary accountable provider (PAP) for diabetes the opportunity to be rewarded

for quality and savings tied to benchmarks for the cost per episode. We propose to pilot our Diabetes Retrospective Shared Savings program in Mississippi as willing providers are identified. We have additional chronic condition retrospective shared savings programs, including asthma, CHF and opioid use disorder (OUD), which we may recommend for deployment in Mississippi as appropriate.

2. Describe how the Offeror will collaborate with PCPs/PCMHs to reduce pre-term births and ...

Provider Collaboration to Improve Perinatal Care and Maternal and Infant Outcomes

Collaborating with PCPs, PCMHs and obstetrical providers is core to our approach to improve perinatal care quality and outcomes in Mississippi. We will call on our resources and impactful partners across the state to address this critical need in Mississippi. **We will invest over $2 million** in Mississippi to deploy innovative models in partnership with PCPs and PCMHs, OB/GYNs and other community perinatal providers to improve perinatal care and reduce preterm rates, severe maternal morbidity and avoidable C-sections through the following mechanisms.

Invest in Providers to Launch Innovative Perinatal Care Delivery Models and Expand Access

We recognize a diverse set of providers' needs and will partner with providers (rural, urban, large and small) to better understand those needs and offer collaborative support. We will leverage financial and technology resources to support their ability to improve perinatal care and improve preterm birth. Examples include:

Supporting Remote Patient Monitoring (RPM) Pilot for High-Risk Pregnancies: We will invest over $500,000 to test the effect of RPM in at least six provider practices in high-need areas. Remote patient monitoring will modernize maternity care and support management of high-risk conditions, such as hypertension and diabetes, especially where there are access challenges.

- **Enabling Evidence-Based Group Prenatal Care:** We will partner with a national prenatal care organization that provides group-based care and invest **over $100,000** to support group care model adoption at up to three provider practices in high-need areas. Group care programs, such as Centering Pregnancy, are an innovative delivery model shown to reduce preterm birth rates and disparities among Black mothers by combining elements of traditional prenatal care with cohort-based education and social support.
- **Addressing the Needs of the Health Care Workforce:** There is a physician workforce shortage in Mississippi, and OB/GYNs are no exception. With a significant number of Mississippi women receiving care by non-OB/GYN providers, there is often a knowledge deficit of effective contraceptive methods such as long-acting reversible contraceptives (LARCs). A recent study by the Center for Mississippi Health Policy reported that only 29% of family practice physicians and 22% of general nurse practitioners claimed having sufficient experience with LARC insertion. To address this, we will partner with local OB/GYNs and fund up to $200,000 in LARC and contraceptive training workshops for all provider types. This will equip other providers with the knowledge and skills to use LARCs in their practice.

Increasing Access to High Quality Care

Hospital Quality Improvement (QI): We recently provided nearly $3 million to a national partner to reduce disparities in maternal outcomes in six states by collaborating with hospitals to improve race and ethnicity data collection to better track birth inequities and implement quality improvement interventions to place the patient at the center of decision making, enable respectful care practices and create a culture of health equity to improve birth outcomes. Mississippi is one of the states targeted for the effort.

Mobile Clinics to Enable Perinatal Care Access: In a state of similar geographic and demographic makeup to Mississippi, we provided $50,000 for a provider's Mobile Women's Health Program staffed by a nurse practitioner, case manager and interpreter with the goal of expanding access to perinatal care. We commit to partnering with local providers to support similar innovation specific to state need.

Leverage Advanced Payment Models to Improve Quality of Perinatal Care

We will offer advanced payment models (APMs) to standardize and drive quality of care and support equitable outcomes in perinatal care. Our programs include the following:

- **Our Maternity Retrospective Shared Savings Program** will offer shared savings if providers can achieve predetermined health outcome quality metrics. We recently updated this maternity program to drive greater provider accountability by including health outcome monitoring metrics such as preterm birth rate and severe maternal morbidity (SMM). We will provide clinical transformation tools and other supports to help providers improve their practices to realize shared savings, optimize care and deliver results.

In three states where the **Maternity Retrospective Shared Savings** program is implemented, initial year one results show providers demonstrating a **4% reduction** in C-section rates, accompanied by a **5% savings reduction**.

- **Our Obstetrical (OB) Quality Gap Closure Incentive** will reward qualifying OB/GYN practices through annual bonus payments for achieving or exceeding target scores related to HEDIS prenatal and postpartum measures. To improve health equity and address disparities seen in prenatal and postpartum measures between populations, we will tier incentives, so providers earn higher incentives by decreasing disparities. Our OB Quality Gap Closure Incentive has resulted in a **39% year-over-year increase in prenatal and postpartum rates for targeted providers.**
- **Obstetrical Risk Assessment Form (OBRAF) Incentive:** Early identification and engagement is crucial to improving neonatal outcomes such as preterm birth. We will offer a financial incentive to providers for each OBRAF received, rewarding them for timely submission. We will use this information to support earlier engagement of pregnant members and make sure they have resources needed to support positive outcomes.

Provide Resources Including Referrals to Care Management, Social Determinants of Health and Provider Training

- **Provider Referrals to Perinatal Care Management (PCM):** We will educate providers on our PCM program so they can refer high-risk members as needed to get this enhanced support. Through our PCM program, local care managers will engage and empower members to participate in regular prenatal and postpartum care, and our perinatal care managers will coordinate services and collaborate with the member's entire care team, including OB/GYNs, PCPs, PCMHs, behavioral health providers and social service providers to make sure members get the comprehensive care they need.
- **Educate Providers on Community and Social Support Services for Pregnant Members and Families:** Given unmet social and safety needs contribute to poor perinatal outcomes, we will offer value-added benefits to address needs such as food insecurity and transportation. We will educate providers on the availability of these benefits and how to refer members. For example, we will offer prepared, home-delivered meals to members experiencing food insecurity and an enhanced transportation benefit that provides up to 20 rides to community resources such as WIC offices and food banks.
- **Provider Training on Birth Equity to Improve Racial Inequities:** We will develop and offer a range of trainings for all providers, including PCPs, PCMHs and obstetrical providers. For example, we developed the Addressing Health Equity Training and partnered with the Centers for Disease Control and Prevention (CDC), a Historically Black College or University (HBCU) medical school and a prominent national organization to develop Addressing Maternal Mortality training. Through these trainings, providers learn about racial inequities in birth outcomes, such as preterm birth, the role of bias in perinatal and neonatal health outcomes and how to improve outcomes.

3. Describe any other conditions for which the Offeror anticipates collaboration with providers to develop ...

We will target conditions identified as priorities by the state in the Quality Strategy, including depression, respiratory illness, diabetes and asthma. We will focus on the clinical conditions outlined in the Division's Potentially Preventable Hospital Returns (PPHR) program. With these areas of focus, we will drive collaborations among providers, other CCOs and the Division and structure our incentive programs so that efforts will be recognized.

Annually, we will identify conditions or measures to target in the QI work plan. For each of our overarching goals, we will monitor relevant nationally recognized metrics based on established clinical practice guidelines, such as measures from HEDIS®, CMS, CAHPS® and AHRQ, to measure areas such as preventive health, chronic disease management and acute care. Bimonthly reporting will enable us to trend progress over time, tracking against established performance targets. Any other conditions that drive overall health and cost will be identified as impactful and will be incorporated into our performance improvement processes. An emerging trend across the southeast, including Mississippi, is the prevalence of attention deficit hyperactivity disorder (ADHD) coupled with the highest rate of amphetamine use. In addition to the items noted above, we will address this observation through provider and member engagement.

E. Provider Payment

1. Describe the Offeror's proposed process for ensuring that non-participating Providers who provide ...

Our process for ensuring nonparticipating providers who provide emergency services to members will be paid promptly is simple and straightforward. When a claim is recognized as an ER or emergency services claim, it will be paid at 100% of Mississippi Medicaid rates regardless of whether the rendering provider has a contract with us or not. We will adhere to the same standards when processing claims from nonparticipating emergency providers as for our contracted providers. We are committed to meeting or exceeding all requirements in Appendix A, Draft Contract.

Recognition and payment of the claim as an emergency services claim will be determined through deliberate configuration of our claims system to allow payment for non-network emergency providers without an authorization. Specifically, we will have system edits in place to recognize certain codes used to represent emergency services, including facility, ambulance and professional claims.

These claim code indicators will reliably indicate when a claim has been received for emergency services and confirm that, during adjudication of the claim, no consideration is given to the network status of the provider who rendered the services and no prior authorization was required. Thus, any non-network medical provider who delivers emergency services, necessary for diagnosis, treatment or stabilization for the specific condition, will receive prompt and complete reimbursement for all covered services that are submitted on a correctly coded claim for payment.

In states similar to Mississippi, we consistently exceed claims processing standards, including claims from nonparticipating providers. Nonparticipating provider claims will undergo our normal processing channels with no reduction in processing times, just as quickly as participating provider claims. Consistently, 99.99% of electronic and paper claims from nonparticipating providers will be processed within 25 days of receipt, and there will be no difference for emergency services.

2. Discuss the Offeror's willingness to pay claims with dates of services on and after the date of credentialing ...

Our goal is to always process claims in a timely manner for all provider types both in network and out. We will pay all providers for all services rendered as contractually obligated and not dependent on a load that may be delayed.

The first step to becoming a participating provider in our network will be to successfully complete credentialing. The credentialing process will validate that a provider is clinically competent to render services to members. Within seven days of being deemed competent through credentialing, the provider will be offered a contract. This contract will be the legally binding document that will signify both we and the provider agree to jointly serve members in accordance with the MississippiCAN program and CHIP. We will align with the effective date of this agreement with what is reflected in the contract executed by both parties. If a load is delayed and services are rendered before a load, we will retroactively reimburse services to the effective date of the contract. This approach will ensure all parties are clear on the effective date of participation, expectations of both parties to comply with contractual requirements, regulatory standards and reimbursement rates.

Achieving Operational Excellence

As required, we will load the provider into our claim and demographic system within 21 calendar days of credentialing approval. Currently, in similar states, **we are completing this task 100% of the time**.

Provider participation will not affect reimbursement for emergency services, or the claim being paid promptly. Nonparticipating providers will be eligible for reimbursement for non-emergent services with appropriate authorizations.

Our Approach to Credentialed Provider Payments

We are committed to processing providers' claims in a timely and accurate manner, allowing them to focus on the clinical care of MississippiCAN and CHIP members. We will have an advanced infrastructure for prompt and efficient claims processing and payment procedures that will allow us to consistently meet or exceed federal and state prompt payment requirements while maintaining the highest levels of accuracy and quality in claims processing.

Our claims team will maximize automation and will use various management tools, reports, audits and quality improvement processes to identify issues and develop controls to resolve them for prompt and accurate claims processing and payment. These functionalities will include the auto-adjudication of claims, which reduces payment time and increases claims payment accuracy.

3. To the extent that any subcontractor(s) will be processing and/or paying claims, include a systems diagram ...

Our Subcontractor Claims Payment Processes

Our core claims processing system supports standard CMS-1500 (HCFA) and UB-04 claims. These are standard claims for most provider types, including medical, behavioral/SUD, durable medical equipment, hospitals, infusion centers, ambulatory surgery centers, FQHCs, RHCs and Indian Health Services. Although wholly owned entities and not subcontractors, our dental and vision claims will be processed within their respective systems. Dental providers will use a platform that supports ADA claims, while vision providers will use a platform more conducive to optometric services. The diagram demonstrates how those claims will ultimately flow back into a centralized database where we can track utilization and total cost of care.

Our systems diagrams for our dental subcontractor, our transportation subcontractor and our vision subcontractor are provided below.

F. Provider Grievances and Appeals

1. Describe the Offeror's proposed Provider Grievance and Appeal process specifically addressing:

To deliver a quality customer service experience, we will have dedicated teams, an efficient tracking and monitoring system and well-managed processes for resolving provider grievances and appeals. Our skilled grievances and appeals (G&A) staff will include both national and health plan employees who will deliver oversight of our grievances and appeals system to confirm all components adhere to contract, state and federal requirements.

Our health plan team will include our grievances and appeals coordinator, who, along with our regulatory adherence, compliance team and state-specific subject matter experts, will monitor the effectiveness of our grievances and appeals system and verify provider issues are resolved promptly and according to requirements.

a. Compliance with State requirements as described in Section 6.10, Provider Grievance, Appeal, and State ...

Our process to ensure compliance with the model contract requirements for grievances, appeals and administrative hearings will be reflected in our policies and procedures. We will promptly submit these policies to the Division and, upon approval, will provide them to subcontractors and providers for shared accountability. We will share these policies with providers on our web portal and in the provider manual exactly as presented in Table 6.3 of the Model Contract, and we will inform providers that the Division may act on their behalf. We fully acknowledge that the Division retains the right to render the final decision in the course of any disagreement expressed by a provider.

Figure 2. G&A Performance Nationally

We commit to resolving provider grievances and appeals within required time frames, including expedited appeals, or as quickly as a member's condition requires. We will educate providers on the grievances and appeals processes and how they can easily file by way of our easy-to-use online provider portal. We will execute the resolution of provider grievances and appeals in full compliance with RFQ Appendix A, Draft Contract Section 6.10 provider grievance, appeal, and State administrative hearing process.

b. Process for elevating Provider Grievances; and,

Each grievance is an opportunity to improve the services we provide. Provider grievances represent a means of understanding trends, which allows us to make continual improvements, thereby reducing the number of grievances and appeals filed overall.

Grievance cases will be routed to a resolution analyst (RA) via our G&A tracking system for investigation and resolution. Resolution analysts will have excellent communication skills, sound deductive reasoning skills and extensive knowledge of federal and state laws, regulations and policies. They will use these skills to investigate all pertinent facts efficiently and accurately and provide prompt resolution of the provider's grievance. If the grievance is regarding a provider's claim, the RA will make every effort to resolve the issue, and if a claim adjustment is needed, the issue will be routed to our claim adjustment team for adjudication.

The RA may work collaboratively with cross-departmental team members, such as claims and provider relations, to investigate and resolve the issue. If an issue is identified that may be interrupting how the provider is able to conduct their services, or if the issue may impact a larger provider population, the matter will be escalated to the appropriate area for investigation and remediation. In addition, we will have a dedicated claims

reconsideration elevation team that will address claims issues and grievances that were not resolved during the reconsideration process. There will be a 48-hour response time for this elevated claim review. Upon completion of this process, the RA will issue a written Notice of Resolution within 30 calendar days.

Expedited grievances often require a faster review because the time frames for a standard resolution may seriously jeopardize a member's life, health or ability to attain, maintain or regain maximum function. Our expedited review and resolution of appeals process will comply with Section 6.10, Appendix A, Draft Contract, of the RFQ, including resolving the request within 72 hours of receipt, unless this time frame is extended pursuant to 42 C.F.R. 438.408(c).

c. Process for identifying, tracking, and trending Grievances, using data to make program improvements, and ...

With state Medicaid programs across the country, we comply with federal regulations for the grievances and appeals system, including the state agency's state administrative hearings and independent external reviews system. Data collection and transparency is critical to managing ongoing performance and identifying and resolving issues. We have an organizational governance structure that oversees the entire grievances and appeals process and verifies compliance with federal and state laws and regulations.

Identifying, Tracking and Trending Grievances

Our G&A tracking system will allow us to administer and process grievances and appeals. This system will enable our grievances and appeals team to:

- Manage and track resolution on submitted grievances and appeals against policy-mandated time frames for provider contact and grievance or appeal resolution
- Generate reports related to the outcomes of grievances and appeals using state-required data elements
- Provide data downstream for reporting
- Tie to our fulfillment processes for delivery materials to members and providers

Case files include information such as:

- The date the grievance or appeal was received
- The date we acknowledged receipt of the grievance or appeal
- Member name and identification number (if applicable for provider grievances)
- A general description of the reason for the grievance or appeal
- Grievances and appeals staff member assigned for disposition
- The grievance or appeal review dates and review activities
- Referrals to other functional areas (e.g., clinical) to resolve the grievance or appeal
- Date of resolution, description of resolution and member notification date

In addition, our grievances and appeals staff will use our tracking system to:

- Generate member and provider communications, such as acknowledgement letters, additional information requests, assignment of representative waivers and resolution letters
- Identify open, outstanding or urgent grievances and appeals requiring expedited resolution
- Query and review member and provider grievance and appeal history
- Track staff compliance with resolution time frames
- Share data and reports with our quality management department to:
  - Assess provider satisfaction
  - Identify opportunities for improving the provider experience

- Identify and resolve any potential quality-of-care issues
- Develop customized reporting and inquiry capabilities on multiple data elements

Using our tracking system's reporting capabilities, we will provide records of grievances and appeals as required by the state agency. We will follow the state's published guidelines for submission format, method and frequency required.

Sharing Data with the Division

We will follow Mississippi's published guidelines for data submission format, method and frequency required. Our tracking system will provide standard management reports to track our resolution time frames and provide ad hoc query functionality. The tracking system will provide us significant flexibility to add or remove data fields, as specified by Mississippi, and to provide reporting capabilities based on multiple data elements, filters or sorting options. Our tracking system reporting capabilities will include:

- Adding or removing data elements for reporting to the state agency
- Tracking grievances and appeals by type, status or other elements, as requested
- Identifying resolution of all cases with open, closed or outstanding grievances or appeals
- Tracking staffing resolution time frames for grievances and appeals
- Tracking referrals to other entities
- Tracking all provider state administrative hearing requests and outcomes, as the state agency reports
- Customizing reporting and inquiry capabilities on multiple data elements
- Identifying and trending recurring issues that result in grievances and appeals

Using Data to Make Program Improvements

Reviewing and understanding grievances and appeals data helps us identify underlying barriers to care and systemic issues. Therefore, we will use grievances and appeals data to identify opportunities to address disparities and improve the way we provide care and services. Our quality management team will use the tracking system's data to collect, review, analyze and trend grievances and appeals data to confirm our compliance, assess provider satisfaction and identify opportunities for improving the provider experience, identify issues with other aspects of our operations (e.g., claims processing) that may be causing an unwanted trend and identify opportunities for improvement in our service delivery and operations.

Our operations team will review grievance and appeal outcome reports monthly to identify and address any concerns or emerging trends. This trending will highlight providers with the highest number of appeals, top appeal drivers and appeals per thousand members, along with other data points. Dedicated staff will research the data to identify root cause and develop action plans to remedy the issue. For example, we will use the information to follow up with individual providers as needed, remediate system issues and address barriers to care or pain points for members or providers.

[END OF RESPONSE]

SECTION 4.2.2.2-1: SAMPLE PROVIDER CONTRACT TEMPLATES

Note: With the exception of the redaction of the fee schedule that appears on page 267 of the Vision Vendor Provider Services Agreement, redactions that appear within the sample provider contracts are intended to remove potentially identifying information, not intended as a confidentiality redaction.

Behavioral Health
Facility Participating Provider Agreement

Redacted
FACILITY PARTICIPATING PROVIDER AGREEMENT

THIS AGREEMENT is between Redacted ("Redacted") and the undersigned facility provider (hereinafter referred to as the "Provider"). This Agreement will become effective upon the date set forth in Redacted executed Acceptance Letter (the "Effective Date"). This Agreement sets forth the terms and conditions under which Provider shall participate in one or more networks developed by Redacted as a Participating Provider of Covered Services to Members.

ARTICLE 1
Definitions

Any capitalized term herein shall have the meaning as set forth in this Agreement. Any undefined term herein shall have the meaning as defined in the Provider Manual, the Protocols, or as may be defined by applicable state or federal laws or regulations, as applicable.

Affiliate: Each and every entity or business concern with which Redacted, directly or indirectly, in whole or in part, either: (i) owns or controls; (ii) is owned or controlled by; or (iii) is under common ownership or control.

Benefit Plan: The specific plan of benefits for health care coverage, including MHSA Services, for a particular Member that is provided, sponsored or administered by Redacted directly or through its Affiliate, or through a network rental arrangement Redacted may have with a third-party, and contains the terms and conditions of a Member's coverage for MHSA Services, including applicable Member Expenses, exclusions and limitations, and all other provisions applicable to the coverage of such MHSA Services such as services rendered outside specified networks.

CMHC: A Community Mental Health Center.

CMHC Provider: An employee of a CMHC who provides mental health and/or substance abuse services, but is not a CMHC Supervising Provider.

CMHC Supervising Provider: A psychiatrist, psychologist, social worker, family or other therapist duly licensed and qualified in the state in which MHSA Services are provided to Members who practices as an employee of CMHC and has been approved as a CMHC Supervising Provider in writing by Redacted.

Covered Services: MHSA Services that meet the terms and conditions for coverage pursuant to the Member's Benefit Plan, including such conditions as Medically Necessary and proper authorization, and in accordance with the Provider Manual, Protocols, and applicable laws and regulations.

Customary Charge: The fee for MHSA Services charged by Provider that does not exceed the fee Provider would ordinarily charge any other person regardless of whether the person is a Member.

Emergency Services: Unless otherwise defined by applicable state law, a serious health condition that arises suddenly and requires immediate care and treatment, generally received within twenty-four (24) hours of onset, to stabilize or avoid jeopardy to the life or health of a Member or, by actions of the Member, to the life or health of another. Emergency Services shall be available twenty-four (24) hours per day, seven
(7) days per week.

Facility-based Provider: A health care professional, who is employed by or under contract or supervision to render MHSA Services to Members. Facility-based Providers include, but are not limited to, emergency room physicians, pathologists, radiologists, anesthesiologists, certified registered nurse anesthetists ("CRNAs"), and internists.

Facility Participating Provider: A health care professional, facility, CMHC Supervising Provider, or other organization that has a written Facility Participating Provider Agreement in effect with Redacted, directly or through another entity, to provide MHSA Service to Members.

Medicaid: A Medical Assistance Program providing health coverage benefits for low income persons pursuant to applicable state and federal laws and regulations.

Medically Necessary: Except as otherwise required by applicable state or federal law or regulations, for purposes of this Agreement, Medically Necessary means the term as it may be described in the Member's Benefit Plan for MHSA Services and which meets Payor's defined criteria for coverage as Covered Services. It may also, when applicable, have the meaning defined within the Protocols. Generally, however, Medically Necessary means treatment that is commonly recognized in the industry as consistent treatment that must be: (a) solely to treat the condition of the Member; (b) for the illness or injury of a diagnosis that is commonly recognized as a disease or injury; (c) reasonably expected to directly result in the restoration of health or function; (d) not experimental or investigational but is consistent with established and accepted national medical practice guidelines regarding type, frequency and duration of treatment; (e) without alternative treatment that is less intensive or invasive for the efficient treatment of the Member's condition; (f) not based on convenience for the Member; and (g) not otherwise excluded from the definition of Covered Services based upon the terms and conditions of the Member's Benefit Plan.

Medicare: Federally sponsored program providing health coverage benefits to individuals of qualifying age, disability, or disease.

Member: An individual who is eligible for, properly enrolled in, and covered under a Benefit Plan.

Member Expenses: Any amount of Customary Charges that are the Member's responsibility to pay Provider in accordance with the terms of the Member's Benefit Plan, including co-payments, co-insurance and deductible amounts.

Mental Health and Substance Abuse Services ("MHSA Services"): Health care services, treatment or supplies that are used to treat a mental health or substance

abuse illness, condition or disease and which may be eligible for coverage under the Member's Benefit Plan.

Payment Policies: Guidelines adopted by Redacted, from time to time, for calculating payment of claims under Benefit Plans.

Payor: The entity or person that has the financial responsibility for funding payment of Covered Services on behalf of a Member, and that is authorized to access MHSA Services in accordance with this Agreement.

Protocols: The programs, policies, protocols, processes, procedures, and requirements as such may change or be modified from time to time, and that are adopted by Redacted or Payor, and which Provider agrees to follow as a condition of Redacted accepting Provider as a Participating Provider, including, but not limited to, authorization procedures, credentialing and re-credentialing processes and plans, utilization management and care management processes, billing procedures, Payment Policies, providing or arranging for Emergency Services, quality improvement, peer review, on-site review, Member grievance and appeals processes, and any other policies, procedures, processes, activities or standards, wherever located as may apply to Provider's rights, obligations or responsibilities as a Provider of MHSA Services, whether in this Agreement, Provider Manual, or any other document as made accessible or available to Provider from time to time.

Provider Manual: A document or manual, however known or named, such as the Network Manual, containing the administrative policies, procedures and Protocols applicable to Benefit Plans provided, sponsored or administered by Redacted or a Payor including, but not limited to, policies and procedures for credentialing, claims, quality improvement, and utilization management to which Provider is obligated.

ARTICLE 2
Duties of Provider

2.1 Provision of MHSA Services. Provider hereby acknowledges and agrees to cooperate and comply with all of the terms and conditions of the Provider Manual, Protocols, and this Agreement, and to dutifully perform as a Participating Provider for the provision of MHSA Services to Members within the Redacted network(s) as designated by Redacted or Payor. At the request of a Payor, Provider or Facility-based Provider may not be authorized to provide MHSA Services for some or all of Payor's Members. Provider shall otherwise accept Members as new patients on the same basis as Provider is accepting non-Members as new patients without regard to race, religion, gender, color, national origin, age or physical or mental health status, or on any other basis deemed unlawful under federal, state or local law. At all times, Provider shall require any employed or subcontracted health care professionals and facilities to comply with the terms and conditions of this Agreement, all Protocols of Redacted and Payor, the Provider Manual, as well as the requirements of all applicable laws and regulations.

2.2 Benefit Plan & Eligibility. MHSA Services provided by Provider to a Member pursuant to this Agreement are subject to all the terms and conditions of the Member's Benefit Plan including eligibility of the Member on the date MHSA Services are provided to the Member. Provider shall make reasonable effort to verify Member's eligibility at time of service by following appropriate procedures, including without limitation, and at a minimum, the terms and conditions of this Agreement, Protocols, the Provider Manual, and review of the Member's Benefit Plan identification card. Provider however recognizes that the Member eligibility information may be inaccurate at the time Provider obtains verification and that the Member, or the MHSA Services provided to the Member, may later be determined to be ineligible for coverage and, except as otherwise required by law, not eligible for payment under this Agreement. Under such circumstances, Provider may then, except as otherwise stated herein, directly bill the Member or other responsible party for such MHSA Services.

2.3 Provider Manual & Protocols. Provider shall be bound by, accept, strictly comply with, and cooperate with, the requirements set forth in the Provider Manual, credentialing plan, and all Protocols, as amended or modified from time to time by Redacted and/or Payor, all of which are hereby incorporated herein by reference as if set forth fully herein, including without limitation quality improvement activities. Provider acknowledges and agrees that the Provider Manual and/or Protocols may contain service and contract requirements of certain Payors to which Provider shall strictly comply. Provider's failure to comply with the Provider Manual, Protocols and any other standards, procedures or policies may result in loss of, or reduction of paymentor reimbursement to Provider, termination of this Agreement or the imposition of other corrective action by Redacted.

2.4 Authorization Requirements. Subject to all applicable terms and conditions, including without limitation Section 2.2 above, and in accordance with the Provider Manual, Protocols, and requirements of the Member's Benefit Plan regarding authorization, Provider must request authorization for MHSA Services from Redacted either telephonically or by another approved and accepted method recognized by Redacted before providing any MHSA Services to a Member as a Covered Service. Authorizations shall subsequently be confirmed by Redacted in writing. Except as otherwise permitted herein, only Emergency Services will be eligible for retroactive authorization at the sole discretion of Redacted or as required by applicable law. Any authorization resulting from wrongful, fraudulent or negligent actions of Provider or a breach of this Agreement shall be null and void as of the time given. The terms of this section shall prevail over any inconsistent term or condition in the Member's Benefit Plan or other document related to obtaining priorauthorization.

2.5 Provider's Standard of Care. Nothing in this Agreement, the Provider Manual, the Benefit Plan, or the Protocols, including without limitation, Redacted utilization management and quality assurance and improvement standards and procedures, shall dictate MHSA Services provided by Provider or otherwise diminish Provider's obligation to freely communicate with and/or provide MHSA Services to Members in accordance with the applicable standard of care.

2.6 Continuity of Care; Referral to Other Health Professionals. Provider shall furnish Covered Services in a manner providing continuity of care and ready referral of Members to other Participating Providers at times as may be appropriate and consistent with the standards of care in the community. If a Member requires additional services or evaluation, including Emergency Services, Provider agrees to refer Member to his/her primary care physician or another Participating Provider in accordance with the terms and conditions of Member's Benefit Plan. A Member requiring Emergency Services shall also be referred to the "9-1-1" emergency response system.

2.7 Member Access to Care. Provider shall ensure that Members have timely and reasonable access to MHSA Services and shall at all times be reasonably available to Members as is appropriate. If Provider is unavailable when Members call, instructions must be provided for the Member referring the Member to another Participating Provider or to his/her Benefit Plan. Provider shall arrange for an answering machine or service that shall provide the office hours and emergency information and be capable of receiving messages 24 hours a day.

2.8 Employees and Contractors of Provider. Provider will be responsible for and shall ensure that all of its employees and contractors are bound by, and meet the terms and conditions of, this Agreement, the Provider Manual and Protocols, at the time of providing Covered Services to Members. Failure of such employees or contractors to meet such terms and conditions, including without limitation, credentialing requirements, Redacted may restrict them from providing Covered Services to Members.

2.9 Credentialing. Provider shall provide Redacted with the criteria utilized by Provider to select and credential employed or subcontracted health care professionals and facilities including, but not limited to, Facility-based Providers. Redacted shall have the right to audit such criteria upon reasonable advance written notice to Provider.

2.10 Payment of Services. All payments obligated by Payor shall be paid to Provider and Provider will be solely responsible for payments to its employees, contractors and Facility-based Providers who may have provided MHSA Services. Provider agrees to defend, indemnify and hold Redacted harmless for any claims, damages, actions, or judgments arising from any employee or contractor of Provider related to the provision of MHSA Services to Members.

2.11 Arrangements for Post-Discharge Follow-up Care. Prior to discharging a Member, Provider shall coordinate post-discharge follow-up care with Redacted and assure that the Member has a follow-up plan including a scheduled appointment with the appropriate providers as deemed necessary.

ARTICLE 3
Payment Provisions

3.1 Payment for Covered Services. In accordance with the terms and conditions hereof, Payor shall pay Provider for Covered Services provided to a Member by Provider. Payment shall be the lesser of: (a) Provider's Customary Charge, less any

applicable Member Expenses; or (b) the fee pursuant to the Standard Payment Appendix(ces) attached hereto, if any.

Subject to the terms and conditions herein, the obligation for payment for Covered Services provided to a Member, less any applicable Member Expenses, is solely that of Payor. Additionally, Redacted may arrange for claims processing services. When Redacted is the Payor, Redacted shall make obligated claim payments to Provider within 45 days (and shall use best efforts to encourage a third- party Payor to make payments within 45 days), or as otherwise required by law, of the date Payor receives all information necessary to process and pay a clean claim, except for claims for which there is coordination of benefits, Member Expense adjustments, disputes about coverage, systems failure or other such causes.

In the event a Member's Benefit Plan provides for a Member Expense whether stated as a flat fee or a percentage, the amount of the Member Expense shall be calculated in accordance with the Member's Benefit Plan or as determined by the Payor. The amount calculated pursuant to the preceding sentence shall be deducted from the amount Provider is to be paid for the Covered Services pursuant to this Agreement.

3.2 Submission of Claims. Provider shall submit claims for MHSA Services to Redacted in a manner and format prescribed by Redacted, whether in Protocols or otherwise, and which may be in an electronic format. All information necessary to process the claims must be received by Redacted no more than 90 days from the date of discharge and 90 days from the date all outpatient MHSA Services are rendered. Provider agrees that claims received after this time period may be rejected for payment, at Redacted and/or Payor's sole discretion.

Unless otherwise directed by Redacted, Provider shall submit claims using current CMS (HCFA) 1500 or UB04 forms, whichever is appropriate, with applicable coding including, but not limited to, ICD9, CPT, Revenue and HCPCS coding. Provider shall include in a claim the Member number, Customary Charges for the MHSA Services rendered to a Member during a single instance of service, Provider's Federal Tax I.D. number and/or other identifiers requested by Redacted.

Payor shall have the right to make, and Provider shall have the right to request, corrective adjustments to a previous payment; provided however, that Payor shall have no obligation to pay additional amounts after 12 months from the date the initial claim was paid.

3.3 Payment in Full. Provider shall accept as payment in full for Covered Services rendered to Members such amounts as are paid by Payor pursuant to this Agreement and shall not bill Members for non-covered charges, other than Member Expenses, which result from Payor's reimbursement methodologies. In no event shall Provider bill a Member for the difference between Customary Charges and the amount Provider has agreed to accept as full reimbursement under this Agreement. Provider may collect Member Expenses from the Member. If Payor denies payment for services rendered by Provider on grounds that the services are not Medically Necessary, Provider shall not

collect payment from the Member for the services unless the Member has knowledge of the determination of lack of Medical Necessity and has subsequently agreed in writing to be responsible for such charges and MHSA Services. Further, if any payment to Provider is denied, in part or full, due to Provider's failure to strictly comply with any term or condition in this Agreement, the Provider Manual, the Protocols, including without limitation, obtaining prior authorization, untimely filing of a claim, inaccurate or incorrect submission of or claim processing, or the insolvency of Payor pursuant to applicable law, it is agreed that Provider shall not, except for applicable Member Expenses, bill the Member or otherwise, directly or indirectly, seek or collect payment from the Member for any of the denied amounts. Any violation hereof by Provider shall be deemed a material breach. This provision shall apply regardless of whether any waiver or other document of any kind purporting to allow Provider to collect payment from the Member exists. These provisions shall survive the termination hereof and shall be construed to be for the benefit of the Member.

Provider acknowledges that the amounts paid to Provider under this Agreement includes payment for services provided by Provider to Members who are enrolled as Medicare beneficiaries.

3.4 Coordination of Benefits. Provider shall be paid in accordance with Payor's coordination of benefits rules.

3.5 Financial Responsibility. In the event of a default (meaning a systematic failure by Payor to fund undisputed claim payments for Covered Services) by a Payor, except when due to the insolvency of Payor, Redacted shall notify Provider in writing of such default following Redacted determination thereof. Any services which have been rendered by Provider prior to or after such notification, and which have not been paid for by Payor, shall be considered ineligible for reimbursement under this Agreement, and Provider may seek payment directly from the Payor and Member for such services.

3.6 Member Protection Provision. This provision supersedes and replaces the Financial Responsibility section (section 3.5 above) only in those cases where Redacted, or its Affiliate, is the Payor, or when required by another specific Payor, or when required pursuant to applicable laws, statutes and regulations.

In no event, including, but not limited to, non-payment by Payor for MHSA Services rendered to Members by Provider, insolvency of Payor, or breach by Redacted of any term or condition of this Agreement, shall Provider bill, charge, collect a deposit from, seek compensation, remuneration or reimbursement from, or have any recourse against any Member or persons acting on behalf of the Member for MHSA Services eligible for reimbursement under this Agreement; provided, however, that Provider may collect from the Member, any Member Expenses or charges for services that are not covered as benefits under the Member's Benefit Plan.

The provisions of this Article shall apply to all Member protection provisions in this Agreement and shall: (a) apply to all MHSA Services rendered while this Agreement is in force; (b) survive the termination of this Agreement regardless of the

cause of termination; (c) be construed to be for the benefit of the Members; and (d) except as otherwise stated in section 3.3, supersede any oral or written agreement, existing or subsequently entered into, between Provider and a Member or person acting on a Member's behalf, that requires the Member to pay for such MHSA Services.

3.7 Contracted Rate for Members. Provider agrees to continue to provide MHSA Services to Members who have exhausted his/her covered benefits under the Benefit Plan and agrees not to collect or charge more than the contracted rate for those MHSA Services. Provider may bill the Member directly for those MHSA Services for which there is no longer any coverage under the Benefit Plan, in accordance herewith.

ARTICLE 4
Laws, Regulations, and Licenses, and Liabilities of Parties

4.1 Laws, Regulations and Licenses. Provider shall maintain in good standing all federal, state and local licenses, certifications and permits -- without sanction, revocations, suspension, censure, probation or material restriction -- which are required to provide health care services according to the laws of the jurisdiction in which MHSA Services are provided, and shall comply with all applicable statutes and regulations. Provider shall also require that all health care professionals employed by or under contract with Provider to render MHSA Services to Members, including covering Providers, comply with this provision.

4.2 Responsibility for Damages. Any and all damages, claims, liabilities or judgments, attorney fees, which may arise as a result of Provider's or its employee's or contractor's negligence or intentional wrongdoing shall be the sole responsibility of Provider.

4.3 Provider Liability Insurance. Provider offering acute care services shall procure and maintain, at Provider's sole expense, (a) medical malpractice insurance in the amounts of $5,000,000 per occurrence and in aggregate, and (b) comprehensive general and/or umbrella liability insurance in the amount of $5,000,000 per occurrence and in aggregate. Whereas Provider offering non-acute care services shall procure and maintain, at Provider's sole expense, (c) medical malpractice insurance in the amounts of $1,000,000 per occurrence and $3,000,000 in aggregate, and (d) comprehensive general and/or umbrella liability insurance in the amount of $1,000,000 per occurrence and $3,000,000 in aggregate. Provider shall also require that all health care professionals employed by or under contract with Provider to render MHSA Services to Members procure and maintain, unless they are covered under Provider's insurance policies, a comprehensive general and/or umbrella liability insurance in the amount of $1,000,000 per occurrence and in aggregate and medical malpractice or professional liability insurance and comprehensive coverage in the amount of $1,000,000 per occurrence and $3,000,000 in aggregate if a Medical Doctor, and $1,000,000 per occurrence and in aggregate if not a Medical Doctor.

Provider's and other health care professionals' medical malpractice insurance shall be on either an "occurrence" or "claims made" basis provided that for a "claims

made" policy, such policy must be written with an extended period reporting option under such terms and conditions as may be reasonably required by Redacted. Prior to the Effective Date of this Agreement and at each policy renewal thereafter, Provider shall submit to Redacted in writing evidence of insurance coverage.

4.4 Self-Insurance Option. In lieu of compliance with section 4.3 above, Provider may with the prior written approval of Redacted, self-insure for medical malpractice liability, as well as comprehensive general liability. Provider shall maintain a separate reserve for its self-insurance. Upon reasonable request by Redacted, Provider shall provide a statement, verified by an independent auditor or actuary, that the reserve maintained by Provider for its self-insurance is sufficient and adequate. In addition to maintaining its self-insurance, Provider shall assure that all health care professionals employed by or under contract with Provider to render MHSA Services to Members procure and maintain adequate medical malpractice insurance unless they are covered by Provider's self-insurance. Failure to maintain adequate self- insurance shall trigger the requirement to obtain and maintain Insurance under section 4.3.

ARTICLE 5
Notices

5.1 Notices. Provider shall notify Redacted within ten (10) days of knowledge of any of the following:

(a) changes in liability insurance carriers, termination of, renewal of or any other material changes in Provider's liability insurance, including reduction of limits, erosion of aggregate, changes in retention or non-payment of premium, or any material adverse change in Provider's financial status which affects its self-insurance;

(b) action which may result in or the actual suspension, sanction, revocation, condition, limitation, qualification or other material restriction on Provider's or any of Facility-based Provider's licenses, certifications or permits by any government or accrediting or regulatory agency under which Provider or Facility-based Provider is accredited or regulated by or authorized to provide health care services;

(c) a change in Provider's name, address, ownership or Federal Tax I.D. number;

(d) indictment, arrest or conviction for a felony or for any criminal charge related to the practice of Provider's profession;

(e) claims or legal actions for professional negligence or bankruptcy;

(f) provider's termination, for cause, from any other provider network offered by any plan, including, without limitation, any health care service plan, health maintenance organization, any health insurer, any preferred provider organization, any employer or any trust fund;

(g) any occurrence or condition that might materially impair the ability of Provider or Facility-based Provider to perform its duties under this Agreement;

(h) any condition or circumstance that may pose a direct threat to the safety of Provider, Providers' staff, Facility-based Provider or Members; or

(i) action taken by Provider to suspend, revoke or allow the voluntary relinquishment of the medical staff membership or clinical privileges of any Facility-based Provider or Facility Participating Provider, unless the action will last 30 days or less.

Unless otherwise specified in this Agreement, each and every notice and communication to the other party shall be in writing. All written notices or communication shall be deemed to have been given when delivered in person; or, on the date mailed, if delivered by first-class mail, proper postage prepaid and properly addressed to the appropriate party at the address set forth at the signature portion of this Agreement or to another address of which sending party has been notified, including without limitation, to Redacted Network Manager at the applicable address for notice as identified in the Provider Manual or Protocols. The parties shall, by written notice, provide and update each other with the most current address and names of all parties or designees that should receive certain notices or communication.

ARTICLE 6
Records

6.1 Confidentiality of Records. Redacted and Provider shall maintain the confidentiality of all Member information and records in accordance with all applicable state and federal laws, statutes and regulations, including without limitation, the Health Insurance Portability and Accountability Act.

6.2 Maintenance of and Redacted Access to Records. Provider shall maintain adequate medical, treatment, financial and administrative records related to MHSA Services provided by Provider under this Agreement for a period and in a manner consistent with the standards of the community and in accordance with the Provider Manual, Protocols and all applicable state and federal laws, statutes and regulations.

In order to perform its utilization management and quality improvement activities, Redacted shall have access to such information and records, including claim records, within 14 days from the date the request is made, except that in the case of an audit by Redacted, such access shall be given at the time of the audit. If requested by Redacted, Provider shall provide copies of such records free of charge. During the term of this Agreement Redacted shall have access to and the right to audit information and records to the extent permitted by the Provider Manual, or as otherwise required by state or federal laws, statutes or regulations or regulatory authority. Said rights shall continue following the termination hereof for the longer of three years or for such period as may be permitted by applicable state or federal law, regulatory authority, or Protocols.

It is Provider's responsibility to obtain any Member's consent in order to provide Redacted with requested information and records or copies of records and to allow Redacted to release such information or records to Payors as necessary for the administration of the Benefit Plan or compliance with any state or federal laws, statutes and regulations applicable to the Payors.

Provider acknowledges that in receiving, storing, processing or otherwise dealing with information from Redacted or Payor about Members, it is fully bound by the provisions of the federal regulations governing Confidentiality of Alcohol and Drug Abuse Patient Records, 42 CFR Part 2; and Provider agrees that it will resist in judicial proceedings any effort to obtain access to information pertaining to patients otherwise than as expressly provided for in the federal confidentiality regulations, 42 CFR Part 2.

This section shall not be construed to grant Redacted access to Provider's records that are created for purposes of assessing Provider's financial performance or for Provider's peer review activities, except to the extent the federal and/or state government and any of their authorized representatives have access to such records pursuant to Section 6.3.

6.3 Government and Accrediting Agency Access to Records. It is agreed that the federal, state and local government, or accrediting agencies including, but not limited to, the National Committee for Quality Assurance (the "NCQA"), and any of their authorized representatives, shall have access to, and Redacted and Provider are authorized to release, in accordance with applicable statutes and regulations, all information and records or copies of such, within the possession of Redacted or Provider, which are pertinent to and involve transactions related to this Agreement if such access is necessary to comply with accreditation standards, statutes or regulations applicable to Redacted, Payor or Provider. Such access shall be available and provided during the term of this Agreement and for three years following the termination hereof, or such longer period as may be identified in the Provider Manual or Protocols or as required by applicable state or federal laws, statutes or regulations.

ARTICLE 7
Resolution of Disputes

7.1 Resolution of Disputes. It is agreed that prior to any other remedy available to the parties, Redacted, Payor and/or Provider shall provide written notice of any disputes or claims arising out of their business relationship (the “Dispute”) to the other party within thirty (30) days of the final decision date, action, omission or cause from which the Dispute arose, whichever is later (the “Dispute Date”). If the Dispute pertains to a matter which is generally administered by certain Redacted procedures, such as a credentialing or quality improvement plan, the procedures set forth in that plan must be fully exhausted by Provider before Provider may invoke his or her rights as described herein. After receipt of the written notice of the Dispute, the parties agree to work together in good faith to resolve the Dispute. If the parties are unable to resolve the Dispute within thirty (30) days following receipt of the notice of the Dispute, and if either Redacted, Provider or Payor desires to pursue formal resolution of the Dispute, then said party shall issue a notice of arbitration to the other parties. It is agreed that the parties knowingly and voluntarily waive any right to a Dispute if arbitration is not initiated within one year after the Dispute Date.

Any arbitration proceeding under this Agreement shall be submitted to binding arbitration in accordance with the rules of the American Arbitration Association (AAA) and shall be conducted in a location agreed to by the parties or as selected by the AAA if the parties cannot agree on a location. The arbitrators may construe or interpret but shall not vary or ignore the terms of this

Agreement, shall have no authority to award any punitive or exemplary damages, and shall be bound by controlling law. The parties acknowledge that because this Agreement affects interstate commerce the Federal Arbitration Act applies.

ARTICLE 8
Term and Termination

8.1 Term. This Agreement shall begin on the Effective Date and it shall remain in effect for one year, and shall automatically renew for successive 1-year terms until it is terminated in accordance with the provisions herein.

8.2 Termination. This Agreement may be terminated as follows:

(a) by mutual agreement of Redacted and Provider;
(b) by Provider at the end of any term, as defined in Section 8.1, upon 120 days prior written notice to Redacted;
(c) by Redacted upon 120 days prior written notice to Provider;
(d) by either party, in the event of a material breach of this Agreement by the other party, upon 30 days prior written notice to the other party. The written notice shall specify the precise nature of the breach. In the event the breaching party cures the breach to the reasonable satisfaction of the non- breaching party, within 30 days after the non-breaching party's written notice, this Agreement shall not terminate;
(e) by Redacted immediately upon written notice to Provider, due to Provider's loss, suspension, restriction, probation, voluntary relinquishment, or any other adverse action taken against any of Provider's licenses or certifications, or loss of insurance or failure to maintain financial reserves sufficient to provide the level of self-insurance required under this Agreement;
(f) by Provider upon 60 days prior written notice to Redacted due to a unilateral amendment made to this Agreement pursuant to section 9.1;
(g) by Redacted in accordance with its credentialing plan;
(h) by Redacted immediately if Redacted determines, in its sole discretion, that the health, safety or welfare of Members may be jeopardized by the continuation of this Agreement; or
(i) by Redacted in accordance with the Provider Manual or Protocols.

During periods of notice of termination, Redacted reserves the right to transfer Members to another Participating Provider, and Provider agrees to cooperate and assist with such transfers.

If Provider is terminated through the Redacted credentialing or recredentialing process, this Agreement shall be deemed terminated as of the date Provider has been terminated pursuant to a final action resulting from that process.

8.3 Information to Members. Provider acknowledges and agrees that Redacted has the right to inform Members of Provider's termination and/or the notice of termination to Provider, and agrees to cooperate with Redacted in matters concerning the termination/transition, and agrees to hold Redacted harmless for exercising its rights hereunder. Provider also agrees to clearly inform Members of Provider's impending non-participation status upon the earlier of Member's next appointment or prior to the effective termination date.

8.4 Continuation of Services After Termination. At the option of Redacted, Provider shall continue to provide MHSA Services authorized by Redacted to Members who are receiving such services from Provider as of the effective date of termination of this Agreement, until Member can be satisfactorily transferred to another Participating Provider. Payor shall continue to pay Provider for such services at Provider's contracted rate.

ARTICLE 9
Miscellaneous

9.1 Amendment. Redacted may amend this Agreement by sending notice of the amendment to Provider at least 30 days prior to its effective date. The Provider's signature is not required. It is agreed that this Agreement shall be automatically amended to comply with any and all applicable state or federal laws, regulations, statutes or the requirements of applicable regulatory authorities as of the effective date thereof, and which shall be deemed to be incorporated herein by reference as of its effective date. Likewise, if a Payor that is a governmental entity requires that certain provisions of this Agreement be removed, replaced, amended or that additional provisions be incorporated, such provisions shall be deemed to be removed, replaced, amended or additional provisions incorporated into this Agreement as of the effective date of such Payor requirement for all MHSA Services provided which are subject to such Payor requirements without the signature of Provider being required. Renegotiation of the rates in this Agreement, shall be upon the mutual consent of the parties.

9.2 Assignment. Redacted may assign all or any of its rights and responsibilities under this Agreement to any of its Affiliates. Provider may assign any of his or her rights and responsibilities under this Agreement to any person or entity only upon the prior written consent of Redacted, which consent shall not be unreasonably withheld.

9.3 Administrative Responsibilities. Redacted may delegate certain administrative responsibilities under this Agreement to another entity, including, but not limited to, its Affiliate or to Payor or its designee. In addition, certain Payor responsibilities may actually be performed by its designee.

9.4 Relationship Between Redacted and Provider. The relationship between Redacted and Provider is solely that of independent contractors and nothing in this Agreement or otherwise shall be construed or deemed to create any other relationship, including one of employment, agency, joint venture or partnership.

9.5 Name, Symbol and Service Mark. During the term of this Agreement, Provider, Redacted and Payor shall have the right to use each other's name solely to make public reference to Provider as a Participating Provider. Provider, Redacted and Payor shall not otherwise use each other's name, symbol or service mark or that of their Affiliates without the prior written approval from the appropriate party.

9.6 Confidentiality. Neither party shall disclose to third parties any confidential or proprietary business information which it receives from the other party, including, but not limited to, financial statements, business plans, Protocols and programs; except that (a) Provider may disclose information to a Member relating to the Member's treatment plan and the payment methodology, but not specific rates; (b) Redacted may disclose certain terms to Payors or designees that need the information to process claims or administer a Benefit Plan, and may file the form of this Agreement with any federal or state regulatory entity as may be required by applicable law; and (c) Redacted shall be permitted to disclose, in its sole discretion, any other data or information that may be requested by applicable state and federal law, state regulations or governing agencies that pertain to this Agreement or that may relate to the enforcement of any right granted or term or condition of this Agreement.

9.7 Communication. Redacted encourages Provider to discuss with Members treatment options and their associated risks and benefits, regardless of whether the treatment is covered under the Member's Benefit Plan. Nothing in this Agreement is intended to interfere with Provider's relationship with Members as patients of Provider, or with Redacted ability to administer its quality improvement, utilization management and credentialing programs.

9.8 Effects of New Statutes and Regulations and Changes of Conditions. The parties agree to re-negotiate this Agreement if either party would be materially adversely affected by continued performance as a result of a change in laws or regulations, a requirement that one party comply with an existing law or regulation contrary to the other party's prior reasonable understanding, or a change in Redacted arrangements with Payors. The party affected must promptly notify the other party of the change or required compliance and its desire to re-negotiate this Agreement. If a new agreement is not executed within 30 days of receipt of the re-negotiation notice, the party adversely affected shall have the right to terminate this Agreement upon 45 days prior written notice to the other party. Any such notice of termination must be given within 10 days following the expiration of the 30-day re- negotiation period.

9.9 Appendices. Additional and/or alternative provisions, if any, related to certain MHSA Services rendered by Provider to Members covered by certain Benefit Plans, rates, and fees are set for in the Appendices, Attachments and Addendum.

9.10 Entire Agreement. On the Effective Date, this Agreement supersedes and replaces any existing Provider Agreements between the parties related to the provision of MHSA Services, including any agreements between Provider and Affiliates of Redacted for MHSA Services. This Agreement, together with any and all documents referenced herein, attachments, addenda, appendices, as may be amended or modified from time

to time, whether contemporaneous or subsequently made pursuant to Section 9.1, are hereby incorporated herein by reference, and constitutes the entire agreement between the parties in regard to its subject matter (herein collectively referred to as this "Agreement").

9.11 Strict Compliance. The waiver of strict compliance or performance of any of the terms or conditions of this Agreement, the Provider Manual or the Protocols or of any breach thereof shall not be held or deemed to be a waiver of any subsequent failure to comply strictly with or perform the same or any other term or condition thereof or any breach thereof.

9.12 Severability. Should any provision of this Agreement violate the law or be held invalid or unenforceable as written by a court of competent jurisdiction, then said provision along with the remainder of this Agreement shall nonetheless be enforceable to the extent allowable under applicable law by first modifying said provision to the extent permitted so as to comply with applicable law; otherwise said provision shall be deemed void to the extent of such prohibition without invalidating the remainder of this Agreement.

9.13 Rules of Construction. In the event of any conflict between the terms of this Agreement and the terms of any other agreement or any other controlling document or any applicable state or federal laws, statutes and regulations relating to the subject matter hereof, the terms, except as otherwise expressly stated herein, shall first be read together to the extent possible; otherwise the terms that afford the greater protections to first Redacted and second to the Benefit Plan shall prevail over the conflicting term, to the extent permitted by and in accordance with and subject to applicable law, statutes or regulations. The remainder of the Agreement shall otherwise remain without invalidating or deleting the remainder of the conflicting provision or the Agreement.

9.14 Governing Law. This Agreement shall be governed by and construed in accordance with applicable state and federal laws, statutes and regulations, including without limitation, ERISA.

9.15 Medicaid Members. If a Medicaid Appendix is attached to this Agreement Provider agrees to provide MHSA Services to Members enrolled in a Benefit Plan for Medicaid recipients and to comply with any additional requirements set forth in the Medicaid Appendix.

9.16 Medicare Members. If a Medicare Appendix is attached to this Agreement, Provider agrees to provide MHSA Services under this Agreement, to Members who are enrolled in a Benefit Plan for Medicare beneficiaries and to cooperate and comply with the provisions set forth in the attached Medicare Advantage Addendum. Provider also understands that Redacted agreements with Participating Providers are subject to review and approval by the Centers for Medicare and Medicaid Services (“CMS”).

9.17 Survival. Upon any termination or expiration of this Agreement, the provisions herein which contemplates performance or observance subsequent to termination or

expiration, including without limitation, sections 2.9, 2.10, 2.11, 3.1, 3.2, 3.3, 3.6, 8.3, 8.4, 9.6 and Articles 6 and 7, shall survive and remain of full force and effect between the parties.

THIS AGREEMENT CONTAINS A BINDING ARBITRATION PROVISION THAT MAY BE ENFORCED BY THE PARTIES.

Upon the acceptance and execution hereof by both parties hereto, the Effective Date of this Agreement is: _____

Behavioral Health
Group Participating Provider Agreement

Redacted
GROUP PARTICIPATING PROVIDER AGREEMENT

THIS AGREEMENT is between Redacted ("Redacted") and the undersigned group provider (hereinafter referred to as the "Provider"). This Agreement will become effective upon the date set forth on the signature page of this Agreement or the date of first credentialed Group-based Provider whichever is later (the "Effective Date"). This Agreement sets forth the terms and conditions under which Provider shall participate in one or more networks developed by Redacted as a Participating Provider of Covered Services to Members.

ARTICLE 1
Definitions

Any capitalized term herein shall have the meaning as set forth in this Agreement. Any undefined term herein shall have the meaning as defined in the Provider Manual, the Protocols, or as may be defined by applicable state or federal laws or regulations, as applicable.

Affiliate: Each and every entity or business concern with which Redacted, directly or indirectly, in whole or in part, either: (i) owns or controls; (ii) is owned or controlled by; or (iii) is under common ownership or control.

Benefit Plan: The specific plan of benefits for health care coverage, including MHSA Services, for a particular Member that is provided, sponsored or administered by Redacted directly or through its Affiliate, or through a network rental arrangement Redacted may have with a third party, and contains the terms and conditions of a Member's coverage for MHSA Services, including applicable Member Expenses, exclusions and limitations, and all other provisions applicable to the coverage of such MHSA Services such as services rendered outside specified networks.

CMHC: A Community Mental Health Center.

CMHC Provider: An employee of a CMHC who provides mental health and/or substance abuse services, but is not a CMHC Supervising Provider.

CMHC Supervising Provider: A psychiatrist, psychologist, social worker, family or other therapist duly licensed and qualified in the state in which MHSA Services are provided to Members who practices as an employee of CMHC and has been approved as a CMHC Supervising Provider in writing by Redacted.

Covered Services: MHSA Services that meet the terms and conditions for coverage pursuant to the Member's Benefit Plan, including such conditions as Medically Necessary and proper authorization, and in accordance with the Provider Manual, Protocols, and applicable laws and regulations.

Customary Charge: The fee for MHSA Services charged by Provider that does not exceed the fee Provider would ordinarily charge any other person regardless of whether the person is a Member.

Emergency Services: Unless otherwise defined by applicable state law, a serious health condition that arises suddenly and requires immediate care and treatment, generally received within twenty-four (24) hours of onset, to stabilize or avoid jeopardy to the life or health of a Member or, by actions of the Member, to the life or health of another. Emergency Services shall be available twenty-four (24) hours per day, seven
(7) days per week.

Fee Maximums: The maximum amount Provider may receive as payment for provision of Covered Services to a Member, including Member Expenses, that are applicable to Provider pursuant to the Benefit Plan, as determined from time to time by Redacted will advise Provider of the then-current Fee Maximums to Provider upon request.

Group-based Provider: A health care professional, CMHC Supervising Provider, psychiatrist, psychologist, therapist or other behavioral health professional who is employed by or under contract or supervision to render MHSA Services to Members.

Group Participating Provider: An entity, organization, group, partnership or affiliation however categorized, consisting of health care professionals, facilities, CMHC Supervising Providers, psychiatrists, psychologists, therapists or other behavioral health professionals that is duly licensed or certified to provided MHSA Services within the state such MHSA Services are provided, and who has a written Group Participating Provider Agreement in effect with Redacted, directly or through another entity, to provide MHSA Services to Members.

Medicaid: A Medical Assistance Program providing health coverage benefits for low income persons pursuant to applicable state and federal laws and regulations.

Medically Necessary: Except as otherwise required by applicable state or federal law or regulations, for purposes of this Agreement, Medically Necessary means the term as it may be described in the Member's Benefit Plan for MHSA Services and which meets Payor's defined criteria for coverage as Covered Services. It may also, when applicable, have the meaning defined within the Protocols. Generally, however, Medically Necessary means treatment that is commonly recognized in the industry as consistent treatment that must be: (a) solely to treat the condition of the Member; (b) for the illness or injury of a diagnosis that is commonly recognized as a disease or injury; (c) reasonably expected to directly result in the restoration of health or function; (d) not experimental or investigational but is consistent with established and accepted national medical practice guidelines regarding type, frequency and duration of treatment; (e) without alternative treatment that is less intensive or invasive for the efficient treatment of the Member's condition; (f) not based on convenience for the Member; and (g) not otherwise excluded from the definition of Covered Services based upon the terms and conditions of the Member's Benefit Plan.

Medicare: Federally sponsored program providing health coverage benefits to individuals of qualifying age, disability, or disease.

Member: An individual who is eligible for, properly enrolled in, and covered under a Benefit Plan.

Member Expenses: Any amount of Customary Charges that are the Member's responsibility to pay Provider in accordance with the terms of the Member's Benefit Plan, including co-payments, co-insurance and deductible amounts.

Mental Health and Substance Abuse Services ("MHSA Services"): Health care services, treatment or supplies that are used to treat a mental health or substance abuse illness, condition or disease and which may be eligible for coverage under the Member's Benefit Plan.

Payment Policies: Guidelines adopted by Redacted, from time to time, for calculating payment of claims under Benefit Plans.

Payor: The entity or person that has the financial responsibility for funding payment of Covered Services on behalf of a Member, and that is authorized to access MHSA Services in accordance with this Agreement.

Protocols: The programs, policies, protocols, processes, procedures, and requirements as such may change or be modified from time to time, and that are adopted by Redacted or Payor, and which Provider agrees to follow as a condition of Redacted accepting Provider as a Participating Provider, including, but not limited to, authorization procedures, credentialing and re-credentialing processes and plans, utilization management and care management processes, billing procedures, Payment Policies, providing or arranging for Emergency Services, quality improvement, peer review, on-site review, Member grievance and appeals processes, and any other policies, procedures, processes, activities or standards, wherever located as may apply to Provider's rights, obligations or responsibilities as a Provider of MHSA Services, whether in this Agreement, Provider Manual, or any other document as made accessible or available to Provider from time to time.

Provider Manual: A document or manual, however known or named, such as the Network Manual, containing the administrative policies, procedures and Protocols applicable to Benefit Plans provided, sponsored or administered by Redacted or a Payor including, but not limited to, policies and procedures for credentialing, claims, quality improvement, and utilization management to which Provider is obligated.

ARTICLE 2
Duties of Provider

2.1 Provision of MHSA Services. Provider hereby acknowledges and agrees to cooperate and comply with all of the terms and conditions of the Provider Manual, Protocols, and this Agreement, and to dutifully perform as a Participating Provider for the provision of MHSA Services to Members within the Redacted network(s) as

by Redacted or Payor. At the request of a Payor, Provider or Group-based Provider may not be authorized to provide MHSA Services for some or all of Payor's Members. Provider shall otherwise accept Members as new patients on the same basis as Provider is accepting non-Members as new patients without regard to race, religion, gender, color, national origin, age or physical or mental health status, or on any other basis deemed unlawful under federal, state or local law. At all times, Provider shall require any employed or subcontracted health care professionals and facilities to comply with the terms and conditions of this Agreement, all Protocols of Redacted and Payor, the Provider Manual, as well as the requirements of all applicable laws and regulations.

2.2 Benefit Plan & Eligibility. MHSA Services provided by Provider to a Member pursuant to this Agreement are subject to all the terms and conditions of the Member's Benefit Plan including eligibility of the Member on the date MHSA Services are provided to the Member. Provider shall make reasonable effort to verify Member's eligibility at time of service by following appropriate procedures, including without limitation, and at a minimum, the terms and conditions of this Agreement, Protocols, the Provider Manual, and review of the Member's Benefit Plan identification card. Provider however recognizes that the Member eligibility information may be inaccurate at the time Provider obtains verification and that the Member, or the MHSA Services provided to the Member, may later be determined to be ineligible for coverage and, except as otherwise required by law, not eligible for payment under this Agreement. Under such circumstances, Provider may then, except as otherwise stated herein, directly bill the Member or other responsible party for such MHSA Services.

2.3 Provider Manual & Protocols. Provider shall be bound by, accept, strictly comply with, and cooperate with, the requirements set forth in the Provider Manual, credentialing plan, and all Protocols, as amended or modified from time to time by Redacted and/or Payor, all of which are hereby incorporated herein by reference as if set forth fully herein, including without limitation quality improvement activities. Provider acknowledges and agrees that the Provider Manual and/or Protocols may contain service and contract requirements of certain Payors to which Provider shall strictly comply. Provider's failure to comply with the Provider Manual, Protocols and any other standards, procedures or policies may result in loss of, or reduction of payment or reimbursement to Provider, termination of this Agreement or the imposition of other corrective action by Redacted.

2.4 Authorization Requirements. Subject to all applicable terms and conditions, including without limitation Section 2.2 above, and in accordance with the Provider Manual, Protocols, and requirements of the Member’s Benefit Plan regarding authorization, Provider must request authorization for MHSA Services from Redacted either telephonically or by another approved and accepted method recognized by Redacted before providing any MHSA Services to a Member as a Covered Service. Authorizations shall subsequently be confirmed by Redacted in writing. Except as otherwise permitted herein, only Emergency Services will be eligible for retroactive authorization at the sole discretion of Redacted or as required by applicable law. Any authorization resulting from wrongful, fraudulent or negligent actions of Provider or a breach of this Agreement shall be null and void as of the time given

2.5 Provider's Standard of Care. Nothing in this Agreement, the Provider Manual, the Benefit Plan, or the Protocols, including without limitation, Redacted utilization management and quality assurance and improvement standards and procedures, shall dictate MHSA Services provided by Provider or otherwise diminish Provider's obligation to freely communicate with and/or provide MHSA Services to Members in accordance with the applicable standard of care.

2.6 Continuity of Care; Referral to Other Health Professionals. Provider shall furnish Covered Services in a manner providing continuity of care and ready referral of Members to other Participating Providers at times as may be appropriate and consistent with the standards of care in the community. If a Member requires additional services or evaluation, including Emergency Services, Provider agrees to refer Member to his/her primary care physician or another Participating Provider in accordance with the terms and conditions of Member's Benefit Plan. A Member requiring Emergency Services shall also be referred to the "9-1-1" emergency response system.

2.7 Member Access to Care. Provider shall ensure that Members have timely and reasonable access to MHSA Services and shall at all times be reasonably available to Members as is appropriate. If Provider is unavailable when Members call, instructions must be provided for the Member referring the Member to another Participating Provider or to his/her Benefit Plan. Provider shall arrange for an answering machine or service that shall provide the office hours and emergency information and be capable of receiving messages 24 hours a day.

2.8 Employees and Contractors of Provider. Provider will be responsible for and shall ensure that all of its employees and contractors are bound by, and meet the terms and conditions of, this Agreement, the Provider Manual and Protocols, at the time of providing Covered Services to Members. Failure of such employees or contractors to meet such terms and conditions, including without limitation, credentialing requirements, Redacted may restrict them from providing Covered Services to Members.

2.9 Credentialing. Provider shall provide Redacted with the criteria utilized by Provider pursuant to its applicable or required criteria to select and credential employed or subcontracted health care professionals, including, but not limited to, Group-based Providers. Redacted shall have the right to audit such criteria upon reasonable advance written notice to Provider.

2.10 Payment of Services. All payments obligated by Payor shall be paid to Provider and Provider will be solely responsible for payments to its employees, contractors and Group-based Providers who may have provided MHSA Services. Provider agrees to defend, indemnify and hold Redacted harmless for any claims, damages, actions, or judgments arising from any employee or contractor of Provider related to the provision of MHSA Services to Members.

ARTICLE 3
Payment Provisions

3.1 Payment for Covered Services. In accordance with the terms and conditions hereof, Payor shall pay Provider for Covered Services provided to a Member by Provider. Payment shall be the lesser of: (a) Provider's Customary Charge, less any applicable Member Expenses; or (b) the Fee Maximum for such MHSA Services, less any applicable Member Expenses, and in accordance with the Standard Payment Appendix(ces) attached hereto, if any.

Subject to the terms and conditions herein, the obligation for payment for Covered Services provided to a Member, less any applicable Member Expenses, is solely that of Payor. Additionally, Redacted may arrange for claims processing services. When Redacted is the Payor, Redacted shall make obligated claim payments to Provider within 45 days (and shall use best efforts to encourage a third- party Payor to make payments within 45 days), or as otherwise required by law, of the date Payor receives all information necessary to process and pay a clean claim, except for claims for which there is coordination of benefits, Member Expense adjustments, disputes about coverage, systems failure or other such causes.

In the event a Member's Benefit Plan provides for a Member Expense whether stated as a flat fee or a percentage, the amount of the Member Expense shall be calculated in accordance with the Member's Benefit Plan or as determined by the Payor. The amount calculated pursuant to the preceding sentence shall be deducted from the amount Provider is to be paid for the Covered Services pursuant to this Agreement.

3.2 Submission of Claims. Provider shall submit claims for MHSA Services to Redacted in a manner and format prescribed by Redacted, whether in Protocols or otherwise, and which may be in an electronic format. All information necessary to process the claims must be received by Redacted no more than 90 days from the date the MHSA Services are rendered. Provider agrees that claims received after this time period may be rejected for payment, at Redacted and/or Payor’s sole discretion.

Unless otherwise directed by Redacted, Provider shall submit claims using current CMS (HCFA) 1500 or UB04 forms, whichever is appropriate, with applicable coding including, but not limited to, ICD9, CPT, Revenue and HCPCS coding. Provider shall include in a claim the Member number, Customary Charges for the MHSA Services rendered to a Member during a single instance of service, Provider's Federal Tax I.D. number and/or other identifiers requested by Redacted.

Payor shall have the right to make, and Provider shall have the right to request, corrective adjustments to a previous payment; provided however, that Payor shall have no obligation to pay additional amounts after 12 months from the date the initial claim was paid.

3.3 Payment in Full. Provider shall accept as payment in full for Covered Services rendered to Members such amounts as are paid by Payor pursuant to this Agreement

and shall not bill Members for non-covered charges, other than Member Expenses, which result from Payor's reimbursement methodologies. In no event shall Provider bill a Member for the difference between Customary Charges and the amount Provider has agreed to accept as full reimbursement under this Agreement. Provider may collect Member Expenses from the Member. If Payor denies payment for services rendered by Provider on grounds that the services are not Medically Necessary, Provider shall not collect payment from the Member for the services unless the Member has knowledge of the determination of lack of Medical Necessity and has subsequently agreed in writing to be responsible for such charges and MHSA Services. Further, if any payment to Provider is denied, in part or full, due to Provider's failure to strictly comply with any term or condition in this Agreement, the Provider Manual, the Protocols, including without limitation, obtaining prior authorization, untimely filing of a claim, inaccurate or incorrect submission of or claim processing, or the insolvency of Payor pursuant to applicable law, it is agreed that Provider shall not, except for applicable Member Expenses, bill the Member or otherwise, directly or indirectly, seek or collect payment from the Member for any of the denied amounts. Any violation hereof by Provider shall be deemed a material breach. This provision shall apply regardless of whether any waiver or other document of any kind purporting to allow Provider to collect payment from the Member exists. These provisions shall survive the termination hereof and shall be construed to be for the benefit of the Member.

3.4 Coordination of Benefits. Provider shall be paid in accordance with Payor's coordination of benefits rules.

3.5 Financial Responsibility. In the event of a default (meaning a systematic failure by Payor to fund undisputed claim payments for Covered Services) by a Payor, except when due to the insolvency of Payor, Redacted shall notify Provider in writing of such default following Redacted determination thereof. Any services which have been rendered by Provider prior to or after such notification, and which have not been paid for by Payor, shall be considered ineligible for reimbursement under this Agreement, and Provider may seek payment directly from the Payor and Member for such services.

3.6 Member Protection Provision. This provision supersedes and replaces the Financial Responsibility section (section 3.5 above) only in those cases where Redacted, or its Affiliate, is the Payor, or when required by another specific Payor, or when required pursuant to applicable laws, statutes and regulations.

In no event, including, but not limited to, non-payment by Payor for MHSA Services rendered to Members by Provider, insolvency of Payor, or breach by Redacted of any term or condition of this Agreement, shall Provider bill, charge, collect a deposit from, seek compensation, remuneration or reimbursement from, or have any recourse against any Member or persons acting on behalf of the Member for MHSA Services eligible for reimbursement under this Agreement; provided, however, that Provider may collect from the Member, any Member Expenses or charges for services that are not covered as benefits under the Member's Benefit Plan.

The provisions of this Article shall apply to all Member protection provisions in this Agreement and shall: (a) apply to all MHSA Services rendered while this Agreement is in force; (b) survive the termination of this Agreement regardless of the cause of termination; (c) be construed to be for the benefit of the Members; and (d) except as otherwise stated in section 3.3, supersede any oral or written agreement, existing or subsequently entered into, between Provider and a Member or person acting on a Member's behalf, that requires the Member to pay for such MHSA Services.

3.7 Contracted Rate for Members. Provider agrees to continue to provide MHSA Services to Members who have exhausted his/her Covered Services under the Benefit Plan and agrees not to collect or charge more than the contracted rate for those MHSA Services. Provider may bill the Member directly for those MHSA Services for which there is no longer any coverage under the Benefit Plan, in accordance herewith.

ARTICLE 4
Laws, Regulations, and Licenses, and Liabilities of Parties

4.1 Laws, Regulations and Licenses. Provider shall maintain in good standing all federal, state and local licenses, certifications and permits -- without sanction, revocations, suspension, censure, probation or material restriction -- which are required to provide health care services according to the laws of the jurisdiction in which MHSA Services are provided, and shall comply with all applicable statutes and regulations. Provider shall also require that all health care professionals employed by or under contract with Provider to render MHSA Services to Members, including covering Providers, comply with this provision.

4.2 Responsibility for Damages. Any and all damages, claims, liabilities or judgments, attorney fees, which may arise as a result of Provider's or its employee's or contractor's negligence or intentional wrongdoing shall be the sole responsibility of Provider.

4.3 Provider Liability Insurance. Provider shall procure and maintain, at Provider's sole expense, (a) medical malpractice or professional liability insurance in the amount of $1,000,000 per occurrence and $3,000,000 in aggregate if Provider is a Medical Doctor and $1,000,000 per occurrence and $1,000,000 in aggregate if Provider is not a Medical Doctor; and (b) comprehensive general and/or umbrella liability insurance in the amount of $1,000,000 per occurrence and $3,000,000 in aggregate. Provider shall also require that all health care professionals employed by or under contract with Provider to render MHSA Services to Members procure and maintain malpractice insurance, unless they are covered under Provider's insurance policies.

Provider's and other health care professionals' medical malpractice insurance shall be on either an "occurrence" or "claims made" basis provided that for a "claims made" policy, such policy must be written with an extended period reporting option under such terms and conditions as may be reasonably required by Redacted. Prior to the Effective Date of this Agreement and at each policy renewal thereafter, Provider shall submit to Redacted in writing evidence of insurance coverage.

ARTICLE 5
Notices

5.1 Notices. Provider shall notify Redacted within ten (10) days of knowledge of any of the following:

(a) changes in liability insurance carriers, termination of, renewal of or any other material changes in Provider's liability insurance, including reduction of limits, erosion of aggregate, changes in retention or non-payment of premium;

(b) action which may result in or the actual suspension, sanction, revocation, condition, limitation, qualification or other material restriction on Provider's licenses, certifications or permits by any government or applicable accrediting or regulatory agency under which Provider is accredited or regulated by or authorized to provide health care services, including without limitation, any action concerning Provider's credentialing criteria or the performance of its employees, contractors or its Group-based Providers; or any suspension, revocation, condition, limitation, qualification or other material restriction of Provider's staff privileges at any licensed hospital, nursing home or other facility at which Provider has staff privileges during the term of this Agreement;

(c) a change in Provider's name, address, ownership or Federal Tax I.D. number;

(d) indictment, arrest or conviction for a felony or for any criminal charge related to the practice of Provider's profession;

(e) claims or legal actions for professional negligence or bankruptcy;

(f) provider's termination, for cause, from any other provider network offered by any plan, including, without limitation, any health care service plan, health maintenance organization, any health insurer, any preferred provider organization, any employer or any trust fund;

(g) any occurrence or condition that might materially impair the ability of Provider or Group-based Provider to perform its duties under this Agreement; or

(h) any condition or circumstance that may pose a direct threat to the safety of Provider, Providers' staff, Group-based Provider or Members.

Unless otherwise specified in this Agreement, each and every notice and communication to the other party shall be in writing. All written notices or communication shall be deemed to have been given when delivered in person; or, on the date mailed, if delivered by first-class mail, proper postage prepaid and properly addressed to the appropriate party at the address set forth at the signature portion of this Agreement or to another address of which sending party has been notified, including without limitation, to Redacted Network Manager at the applicable address for notice as identified in the Provider Manual or Protocols. The parties shall, by written notice, provide and update each other with the most current address and names of all parties or designees that should receive certain notices or communication.

ARTICLE 6
Records

6.1 Confidentiality of Records. Redacted and Provider shall maintain the confidentiality of all Member information and records in accordance with all applicable state and federal laws, statutes and regulations, including without limitation, the Health Insurance Portability and Accountability Act.

6.2 Maintenance of and Redacted Access to Records. Provider shall maintain adequate medical, treatment, financial and administrative records related to MHSA Services provided by Provider under this Agreement for a period and in a manner consistent with the standards of the community and in accordance with the Provider Manual, Protocols and all applicable state and federal laws, statutes and regulations.

In order to perform its utilization management and quality improvement activities, Redacted shall have access to such information and records, including claim records, within 14 days from the date the request is made, except that in the case of an audit by Redacted, such access shall be given at the time of the audit. If requested by Redacted, Provider shall provide copies of such records free of charge. During the term of this Agreement Redacted shall have access to and the right to audit information and records to the extent permitted by the Provider Manual, or as otherwise required by state or federal laws, statutes or regulations or regulatory authority. Said rights shall continue following the termination hereof for the longer of three years or for such period as may be permitted by applicable state or federal law, regulatory authority, or Protocols.

It is Provider's responsibility to obtain any Member's consent in order to provide Redacted with requested information and records or copies of records and to allow Redacted to release such information or records to Payors as necessary for the administration of the Benefit Plan or compliance with any state or federal laws, statutes and regulations applicable to the Payors.

Provider acknowledges that in receiving, storing, processing or otherwise dealing with information from Redacted or Payor about Members, it is fully bound by the provisions of the federal regulations governing Confidentiality of Alcohol and Drug Abuse Patient Records, 42 CFR Part 2; and Provider agrees that it will resist in judicial proceedings any effort to obtain access to information pertaining to patients otherwise than as expressly provided for in the federal confidentiality regulations, 42 CFR Part 2.

This section shall not be construed to grant Redacted access to Provider's records that are created for purposes of assessing Provider's financial performance or for Provider's peer review activities, except to the extent the federal and/or state government and any of their authorized representatives have access to such records pursuant to Section 6.3.

6.3 Government and Accrediting Agency Access to Records. It is agreed that the federal, state and local government, or accrediting agencies including, but not limited to, the National Committee for Quality Assurance (the "NCQA"), and any of their

authorized representatives, shall have access to, and Redacted and Provider are authorized to release, in accordance with applicable statutes and regulations, all information and records or copies of such, within the possession of Redacted or Provider, which are pertinent to and involve transactions related to this Agreement if such access is necessary to comply with accreditation standards, statutes or regulations applicable to Redacted, Payor or Provider. Such access shall be available and provided during the term of this Agreement and for three years following the termination hereof, or such longer period as may be identified in the Provider Manual or Protocols or as required by applicable state or federal laws, statutes or regulations.

ARTICLE 7
Resolution of Disputes

7.1 Resolution of Disputes. It is agreed that prior to any other remedy available to the parties, Redacted, Payor and/or Provider shall provide written notice of any disputes or claims arising out of their business relationship (the "Dispute") to the other party within thirty (30) days of the final decision date, action, omission or cause from which the Dispute arose, whichever is later (the "Dispute Date"). If the Dispute pertains to a matter which is generally administered by certain Redacted procedures, such as a credentialing or quality improvement plan, the procedures set forth in that plan must be fully exhausted by Provider before Provider may invoke his or her rights as described herein. After receipt of the written notice of the Dispute, the parties agree to work together in good faith to resolve the Dispute. If the parties are unable to resolve the Dispute within thirty (30) days following receipt of the notice of the Dispute, and if either Redacted, Provider or Payor desires to pursue formal resolution of the Dispute, then said party shall issue a notice of arbitration to the other parties. It is agreed that the parties knowingly and voluntarily waive any right to a Dispute if arbitration is not initiated within one year after the Dispute Date.

Any arbitration proceeding under this Agreement shall be submitted to binding arbitration in accordance with the rules of the American Arbitration Association ("AAA"), and shall be conducted in a location agreed to by the parties or as selected by the AAA if the parties cannot agree on a location. The arbitrators may construe or interpret but shall not vary or ignore the terms of this Agreement, shall have no authority to award any punitive or exemplary damages, and shall be bound by controlling law. The parties acknowledge that because this Agreement affects interstate commerce the Federal Arbitration Act applies.

ARTICLE 8
Term and Termination

8.1 Term. This Agreement shall begin on the Effective Date and it shall remain in effect for one year, and shall automatically renew for successive 1-year terms until it is terminated in accordance with the provisions herein.

8.2 Termination. This Agreement may be terminated as follows:

(a) by mutual agreement of Redacted and Provider;
(b) by either party upon 90 days prior written notice to the other party;
(c) by either party, in the event of a material breach of this Agreement by the other party, upon 30 days prior written notice to the other party. The written notice shall specify the precise nature of the breach. In the event the breaching party cures the breach to the reasonable satisfaction of the non- breaching party, within 30 days after the non-breaching party's written notice, this Agreement shall not terminate;
(d) by Redacted immediately upon written notice to Provider, due to Provider's loss, suspension, restriction, probation, voluntary relinquishment, or any other adverse action taken against any of Provider's or Group-based Providers licenses or certifications, or loss of insurance required under this Agreement, or failure to materially perform its credentialing and/or supervision of its employees, contractors or Group-based Providers;
(e) by Provider upon 60 days prior written notice to Redacted due to a unilateral amendment made to this Agreement pursuant to section9.1;
(f) by Redacted in accordance with its credentialing plan;
(g) by Redacted immediately if Redacted determines, in its sole discretion, that the health, safety or welfare of Members may be jeopardized by the continuation of this Agreement; or
(h) by Redacted in accordance with the Provider Manual or Protocols.

During periods of notice of termination, Redacted reserves the right to transfer Members to another Participating Provider, and Provider agrees to cooperate and assist with such transfers.

If Provider is terminated through the Redacted credentialing or recredentialing process, this Agreement shall be deemed terminated as of the date Provider has been terminated pursuant to a final action resulting from that process.

8.3 Information to Members. Provider acknowledges and agrees that Redacted has the right to inform Members of Provider's termination and/or the notice of termination to Provider, and agrees to cooperate with Redacted in matters concerning the termination/transition, and agrees to hold Redacted harmless for exercising its rights hereunder. Provider also agrees to clearly inform Members of Provider's impending non-participation status upon the earlier of Member's next appointment or prior to the effective termination date.

8.4 Continuation of Services After Termination. At the option of Redacted, Provider shall continue to provide MHSA Services authorized by Redacted to Members who are receiving such services from Provider as of the effective date of termination of this Agreement, until Member can be satisfactorily transferred to another Participating Provider. Payor shall continue to pay Provider for such services at Provider's contracted rate.

8.5 Termination of Group-based Provider. A Group-based Provider's participation with Redacted may be individually terminated under the same conditions Provider's

participation may be terminated, as specified above. In addition, a Group-based Provider's participation with Redacted may be terminated by Redacted (a) immediately upon written notice to Provider due to Group-based Provider loss or suspension of licensure or certification; (b) failure to abide by established criteria as required by section 2.9; (c) loss of insurance as required under this Agreement; or (d) in accordance with Redacted credentialing process.

Furthermore, it is agreed that upon any such termination of a Group-based Provider pursuant to this section 8.5 that Redacted shall deliver notice to Provider of such a termination, that Group-based Provider shall not provide MHSA Services to any Member as of the termination date of the Group-based Provider, unless otherwise agreed to by Redacted in writing, and that this Agreement shall not be terminated, absent notice otherwise, upon the termination of any Group-based Provider.

ARTICLE 9
Miscellaneous

9.1 Amendment. Redacted may amend this Agreement by sending notice of the amendment to Provider at least 30 days prior to its effective date. The Provider's signature is not required. It is agreed that this Agreement shall be automatically amended to comply with any and all applicable state or federal laws, regulations, statutes or the requirements of applicable regulatory authorities as of the effective date thereof, and which shall be deemed to be incorporated herein by reference as of its effective date. Likewise, if a Payor that is a governmental entity requires that certain provisions of this Agreement be removed, replaced, amended or that additional provisions be incorporated, such provisions shall be deemed to be removed, replaced, amended or additional provisions incorporated into this Agreement as of the effective date of such Payor requirement for all MHSA Services provided which are subject to such Payor requirements without the signature of Provider being required.

9.2 Assignment. Redacted may assign all or any of its rights and responsibilities under this Agreement to any of its Affiliates. Provider may assign any of his or her rights and responsibilities under this Agreement to any person or entity only upon the prior written consent of Redacted, which consent shall not be unreasonably withheld.

9.3 Administrative Responsibilities. Redacted may delegate certain administrative responsibilities under this Agreement to another entity, including, but not limited to, its Affiliate or to Payor or its designee. In addition, certain Payor responsibilities may actually be performed by its designee.

9.4 Relationship Between Redacted and Provider. The relationship between Redacted and Provider is solely that of independent contractors and nothing in this Agreement or otherwise shall be construed or deemed to create any other relationship, including one of employment, agency, joint venture or partnership.

9.5 Name, Symbol and Service Mark. During the term of this Agreement, Provider, Redacted and Payor shall have the right to use each other's name solely to make public

reference to Provider as a Participating Provider. Provider, Redacted and Payor shall not otherwise use each other's name, symbol or service mark or that of their Affiliates without the prior written approval from the appropriate party.

9.6 Confidentiality. Neither party shall disclose to third parties any confidential or proprietary business information which it receives from the other party, including, but not limited to, financial statements, business plans, Protocols and programs; except that (a) Provider may disclose information to a Member relating to the Member's treatment plan and the payment methodology, but not specific rates; (b) Redacted may disclose certain terms to Payors or designees that need the information to process claims or administer a Benefit Plan, and may file the form of this Agreement with any federal or state regulatory entity as may be required by applicable law; and (c) Redacted shall be permitted to disclose, in its sole discretion, any other data or information that may be requested by applicable state and federal law, state regulations or governing agencies that pertain to this Agreement or that may relate to the enforcement of any right granted or term or condition of this Agreement.

9.7 Communication. Redacted encourages Provider to discuss with Members treatment options and their associated risks and benefits, regardless of whether the treatment is covered under the Member's Benefit Plan. Nothing in this Agreement is intended to interfere with Provider's relationship with Members as patients of Provider, or with Redacted ability to administer its quality improvement, utilization management and credentialing programs.

9.8 Effects of New Statutes and Regulations and Changes of Conditions. The parties agree to re-negotiate this Agreement if either party would be materially adversely affected by continued performance as a result of a change in laws or regulations, a requirement that one party comply with an existing law or regulation contrary to the other party's prior reasonable understanding, or a change in Redacted arrangements with Payors. The party affected must promptly notify the other party of the change or required compliance and its desire to re-negotiate this Agreement. If a new agreement is not executed within 30 days of receipt of the re-negotiation notice, the party adversely affected shall have the right to terminate this Agreement upon 45 days prior written notice to the other party. Any such notice of termination must be given within 10 days following the expiration of the 30-day re- negotiation period.

9.9 Appendices. Additional and/or alternative provisions, if any, related to certain MHSA Services rendered by Provider to Members covered by certain Benefit Plans, rates, and fees are set for in the Appendices, Attachments and Addendum.

9.10 Entire Agreement. On the Effective Date, this Agreement supersedes and replaces any existing Provider Agreements between the parties related to the provision of MHSA Services, including any agreements between Provider and Affiliates of Redacted for MHSA Services. This Agreement, together with any and all documents referenced herein, attachments, addenda, appendices, as may be amended or modified from time to time, whether contemporaneous or subsequently made pursuant to Section 9.1, are hereby incorporated herein by reference, and constitutes the entire agreement between

the parties in regard to its subject matter (herein collectively referred to as this "Agreement").

9.11 Strict Compliance. The waiver of strict compliance or performance of any of the terms or conditions of this Agreement, the Provider Manual or the Protocols or of any breach thereof shall not be held or deemed to be a waiver of any subsequent failure to comply strictly with or perform the same or any other term or condition thereof or any breach thereof.

9.12 Severability. Should any provision of this Agreement violate the law or be held invalid or unenforceable as written by a court of competent jurisdiction, then said provision along with the remainder of this Agreement shall nonetheless be enforceable to the extent allowable under applicable law by first modifying said provision to the extent permitted so as to comply with applicable law; otherwise said provision shall be deemed void to the extent of such prohibition without invalidating the remainder of this Agreement.

9.13 Rules of Construction. In the event of any conflict between the terms of this Agreement and the terms of any other agreement or any other controlling document or any applicable state or federal laws, statutes and regulations relating to the subject matter hereof, the terms, except as otherwise expressly stated herein, shall first be read together to the extent possible; otherwise the terms that afford the greater protections to first Redacted and second to the Benefit Plan shall prevail over the conflicting term, to the extent permitted by and in accordance with and subject to applicable law, statutes or regulations. The remainder of the Agreement shall otherwise remain without invalidating or deleting the remainder of the conflicting provision or the Agreement.

9.14 Governing Law. This Agreement shall be governed by and construed in accordance with applicable state and federal laws, statutes and regulations, including without limitation, ERISA.

9.15 Medicaid Members. If a Medicaid Appendix is attached to this Agreement Provider agrees to provide MHSA Services to Members enrolled in a Benefit Plan for Medicaid recipients and to comply with any additional requirements set forth in the Medicaid Appendix.

9.16 Medicare Members. If a Medicare Appendix is attached to this Agreement, Provider agrees to provide MHSA Services under this Agreement, to Members who are enrolled in a Benefit Plan for Medicare beneficiaries and to cooperate and comply with the provisions set forth in the attached Medicare Advantage Addendum. Provider also understands that Redacted agreements with Participating Providers are subject to review and approval by the Centers for Medicare and Medicaid Services (“CMS”).

9.17 Survival. Upon any termination or expiration of this Agreement, the provisions herein which contemplates performance or observance subsequent to termination or expiration, including without limitation, sections 2.9, 2.10, 3.1, 3.2, 3.3, 3.6, 8.3, 8.4, 9.6

and Articles 6 and 7, shall survive and remain of full force and effect between the parties.

THIS AGREEMENT CONTAINS A BINDING ARBITRATION PROVISION THAT MAY BE ENFORCED BY THE PARTIES.

Individual Participating Provider Agreement

Redacted
INDIVIDUAL PARTICIPATING PROVIDER AGREEMENT

THIS AGREEMENT is between Redacted ("Redacted") and the undersigned provider (hereinafter referred to as the "Provider"). This Agreement will become effective upon the date set forth in Redacted executed Acceptance Letter (the "Effective Date"). This Agreement sets forth the terms and conditions under which Provider shall participate in one or more networks developed by Redacted as a Participating Provider of Covered Services to Members.

ARTICLE 1
Definitions

Any capitalized term herein shall have the meaning as set forth in this Agreement. Any undefined term herein shall have the meaning as defined in the Provider Manual, the Protocols, or as may be defined by applicable state or federal laws or regulations, as applicable.

Affiliate: Each and every entity or business concern with which Redacted, directly or indirectly, in whole or in part, either: (i) owns or controls; (ii) is owned or controlled by; or (iii) is under common ownership or control.

Benefit Plan: The specific plan of benefits for health care coverage, including MHSA Services, for a particular Member that is provided, sponsored or administered by Redacted directly or through its Affiliate, or through a network rental arrangement Redacted may have with a third party, and contains the terms and conditions of a Member's coverage for MHSA Services, including applicable Member Expenses, exclusions and limitations, and all other provisions applicable to the coverage of such MHSA Services such as services rendered outside specified networks.

CMHC: A Community Mental Health Center.

CMHC Provider: An employee of a CMHC who provides mental health and/or substance abuse services, but is not a CMHC Supervising Provider.

CMHC Supervising Provider: A psychiatrist, psychologist, social worker, family or other therapist duly licensed and qualified in the state in which MHSA Services are provided to Members who practices as an employee of CMHC and has been approved as a CMHC Supervising Provider in writing by Redacted.

Covered Services: MHSA Services that meet the terms and conditions for coverage pursuant to the Member's Benefit Plan, including such conditions as Medically Necessary and proper authorization, and in accordance with the Provider Manual, Protocols, and applicable laws and regulations.

Customary Charge: The fee for MHSA Services charged by Provider that does not exceed the fee Provider would ordinarily charge any other person regardless of whether the person is a Member.

Emergency Services: Unless otherwise defined by applicable state law, a serious health condition that arises suddenly and requires immediate care and treatment, generally received within twenty-four (24) hours of onset, to stabilize or avoid jeopardy to the life or health of a Member or, by actions of the Member, to the life or health of another. Emergency Services shall be available twenty-four (24) hours per day, seven
(7) days per week.

Fee Maximums: The maximum amount Provider may receive as payment for provision of Covered Services to a Member, including Member Expenses, that are applicable to Provider pursuant to the Benefit Plan, as determined from time to time by Redacted will advise Provider of the then-current Fee Maximums to Provider upon request.

Medicaid: A Medical Assistance Program providing health coverage benefits for low income persons pursuant to applicable state and federal laws and regulations.

Medically Necessary: Except as otherwise required by applicable state or federal law or regulations, for purposes of this Agreement, Medically Necessary means the term as it may be described in the Member's Benefit Plan for MHSA Services and which meets Payor's defined criteria for coverage as Covered Services. It may also, when applicable, have the meaning defined within the Protocols. Generally, however, Medically Necessary means treatment that is commonly recognized in the industry as consistent treatment that must be: (a) solely to treat the condition of the Member; (b) for the illness or injury of a diagnosis that is commonly recognized as a disease or injury; (c) reasonably expected to directly result in the restoration of health or function; (d) not experimental or investigational but is consistent with established and accepted national medical practice guidelines regarding type, frequency and duration of treatment; (e) without alternative treatment that is less intensive or invasive for the efficient treatment of the Member's condition; (f) not based on convenience for the Member; and (g) not otherwise excluded from the definition of Covered Services based upon the terms and conditions of the Member's Benefit Plan.

Medicare: Federally sponsored program providing health coverage benefits to individuals of qualifying age, disability, or disease.

Member: An individual who is eligible for, properly enrolled in, and covered under a Benefit Plan.

Member Expenses: Any amount of Customary Charges that are the Member's responsibility to pay Provider in accordance with the terms of the Member's Benefit Plan, including co-payments, co-insurance and deductible amounts.

Mental Health and Substance Abuse Services ("MHSA Services"): Health care services, treatment or supplies that are used to treat a mental health or substance abuse illness, condition or disease and which may be eligible for coverage under the Member's Benefit Plan.

Participating Provider: A health care professional, facility, CMHC Supervising Provider, psychiatrist, psychologist or other behavioral health professional or

organization, that is duly licensed or certified to provide MHSA Services within the state such MHSA Services are provided, and who has a written Individual Participating Provider Agreement in effect with Redacted, directly or through another entity, to provide MHSA Services to Members.

Payment Policies: Guidelines adopted by Redacted, from time to time, for calculating payment of claims under Benefit Plans.

Payor: The entity or person that has the financial responsibility for funding payment of Covered Services on behalf of a Member, and that is authorized to access MHSA Services in accordance with this Agreement.

Protocols: The programs, policies, protocols, processes, procedures, and requirements as such may change or be modified from time to time, and that are adopted by Redacted or Payor, and which Provider agrees to follow as a condition of Redacted accepting Provider as a Participating Provider, including, but not limited to, authorization procedures, credentialing and re-credentialing processes and plans, utilization management and care management processes, billing procedures, Payment Policies, providing or arranging for Emergency Services, quality improvement, peer review, on-site review, Member grievance and appeals processes, and any other policies, procedures, processes, activities or standards, wherever located as may apply to Provider's rights, obligations or responsibilities as a Provider of MHSA Services, whether in this Agreement, Provider Manual, or any other document as made accessible or available to Provider from time to time.

Provider Manual: A document or manual, however known or named, such as the Network Manual, containing the administrative policies, procedures and Protocols applicable to Benefit Plans provided, sponsored or administered by Redacted or a Payor including, but not limited to, policies and procedures for credentialing, claims, quality improvement, and utilization management to which Provider is obligated.

ARTICLE 2
Duties of Provider

2.1 Provision of MHSA Services. Provider hereby acknowledges and agrees to cooperate and comply with all of the terms and conditions of the Provider Manual, Protocols, and this Agreement, and to dutifully perform as a Participating Provider for the provision of MHSA Services to Members within the Redacted network(s) as designated by Redacted or Payor. At the request of a Payor, Provider may not be authorized to provide MHSA Services for some or all of Payor's Members. Provider shall otherwise accept Members as new patients on the same basis as Provider is accepting non-Members as new patients without regard to race, religion, gender, color, national origin, age or physical or mental health status, or on any other basis deemed unlawful under federal, state or local law. At all times, Provider shall require any employed or subcontracted health care professionals and facilities to comply with the terms and conditions of this Agreement, all Protocols of Redacted and Payor, the Provider Manual, as well as the requirements of all applicable laws and regulations.

2.2 Benefit Plan & Eligibility. MHSA Services provided by Provider to a Member pursuant to this Agreement are subject to all the terms and conditions of the Member's Benefit Plan including eligibility of the Member on the date MHSA Services are provided to the Member. Provider shall make reasonable effort to verify Member's eligibility at time of service by following appropriate procedures, including without limitation, and at a minimum, the terms and conditions of this Agreement, Protocols, the Provider Manual, and review of the Member's Benefit Plan identification card. Provider however recognizes that the Member eligibility information may be inaccurate at the time Provider obtains verification and that the Member, or the MHSA Services provided to the Member, may later be determined to be ineligible for coverage and, except as otherwise required by law, not eligible for payment under this Agreement. Under such circumstances, Provider may then, except as otherwise stated herein, directly bill the Member or other responsible party for such MHSA Services.

2.3 Provider Manual & Protocols. Provider shall be bound by, accept, strictly comply with, and cooperate with, the requirements set forth in the Provider Manual, credentialing plan, and all Protocols, as amended or modified from time to time by Redacted and/or Payor, all of which are hereby incorporated herein by reference as if set forth fully herein, including without limitation quality improvement activities. Provider acknowledges and agrees that the Provider Manual and/or Protocols may contain service and contract requirements of certain Payors to which Provider shall strictly comply. Provider's failure to comply with the Provider Manual, Protocols and any other standards, procedures or policies may result in loss of, or reduction of payment or reimbursement to Provider, termination of this Agreement or the imposition of other corrective action by Redacted.

2.4 Authorization Requirements. Subject to all applicable terms and conditions, including without limitation Section 2.2 above, and in accordance with the Provider Manual, Protocols, and requirements of the Member's Benefit Plan regarding authorization, Provider must request authorization for MHSA Services from Redacted either telephonically or by another approved and accepted method recognized by Redacted before providing any MHSA Services to a Member as a Covered Service. Authorizations shall subsequently be confirmed by Redacted in writing. Except as otherwise permitted herein, only Emergency Services will be eligible for retroactive authorization at the sole discretion of Redacted or as required by applicable law. Any authorization resulting from wrongful, fraudulent or negligent actions of Provider or a breach of this Agreement shall be null and void as of the time given.

2.5 Provider's Standard of Care. Nothing in this Agreement, the Provider Manual, the Benefit Plan, or the Protocols, including without limitation, Redacted utilization management and quality assurance and improvement standards and procedures, shall dictate MHSA Services provided by Provider or otherwise diminish Provider's obligation to freely communicate with and/or provide MHSA Services to Members in accordance with the applicable standard of care.

Covered Services in a manner providing continuity of care and ready referral of

2.6 Continuity of Care; Referral to Other Health Professionals. Provider shall furnish

Members to other Participating Providers at times as may be appropriate and consistent with the standards of care in the community. If a Member requires additional services or evaluation, including Emergency Services, Provider agrees to refer Member to his/her primary care physician or another Participating Provider in accordance with the terms and conditions of Member's Benefit Plan. A Member requiring Emergency Services shall also be referred to the "9-1-1" emergency response system.

2.7 Member Access to Care. Provider shall ensure that Members have timely and reasonable access to MHSA Services and shall at all times be reasonably available to Members as is appropriate. If Provider is unavailable when Members call, instructions must be provided for the Member referring the Member to another Participating Provider or to his/her Benefit Plan. Provider shall arrange for an answering machine or service that shall provide the office hours and emergency information and be capable of receiving messages 24 hours a day.

2.8 Employees and Contractors of Provider. Provider will be responsible for and shall ensure that all of its employees and contractors are bound by, and meet the terms and conditions of, this Agreement, the Provider Manual and Protocols, at the time of providing Covered Services to Members. Failure of such employees or contractors to meet such terms and conditions, including without limitation, credentialing requirements, Redacted may restrict them from providing Covered Services to Members.

All payments obligated by Payor shall be paid to Provider and Provider will be solely responsible for payments to its employees and contractors who may have provided MHSA Services. Provider agrees to defend, indemnify and hold Redacted harmless for any claims, damages, actions, or judgments arising from any employee or contractor of Provider related to the provision of MHSA Services to Members.

ARTICLE 3
Payment Provisions

3.1 Payment for Covered Services. In accordance with the terms and conditions hereof, Payor shall pay Provider for Covered Services provided to a Member by Provider. Payment shall be the lesser of: (a) Provider's Customary Charge, less any applicable Member Expenses; or (b) the Fee Maximum for such MHSA Services, less any applicable Member Expenses.

Subject to the terms and conditions herein, the obligation for payment for Covered Services provided to a Member, less any applicable Member Expenses, is solely that of Payor. Additionally, Redacted may arrange for claims processing services. When Redacted is the Payor, Redacted shall make obligated claim payments to Provider within 45 days (and shall use best efforts to encourage a third- party Payor to make payments within 45 days), or as otherwise required by law, of the date Payor receives all information necessary to process and pay a clean claim, except for claims for which there is coordination of benefits, Member Expense adjustments, disputes about coverage, systems failure or other such causes.

In the event a Member's Benefit Plan provides for a Member Expense whether stated as a flat fee or a percentage, the amount of the Member Expense shall be calculated in accordance with the Member's Benefit Plan or as determined by the Payor. The amount calculated pursuant to the preceding sentence shall be deducted from the amount Provider is to be paid for the Covered Services pursuant to this Agreement.

3.2 Submission of Claims. Provider shall submit claims for MHSA Services to Redacted in a manner and format prescribed by Redacted, whether in Protocols or otherwise, and which may be in an electronic format. All information necessary to process the claims must be received by Redacted no more than 90 days from the date the MHSA Services are rendered. Provider agrees that claims received after this time period may be rejected for payment, at Redacted and/or Payor's sole discretion.

Unless otherwise directed by Redacted, Provider shall submit claims using current CMS (HCFA) 1500 or UB04 forms, whichever is appropriate, with applicable coding including, but not limited to, ICD9, CPT, Revenue and HCPCS coding. Provider shall include in a claim the Member number, Customary Charges for the MHSA Services rendered to a Member during a single instance of service, Provider's Federal Tax I.D. number and/or other identifiers requested by Redacted.

Payor shall have the right to make, and Provider shall have the right to request, corrective adjustments to a previous payment; provided however, that Payor shall have no obligation to pay additional amounts after 12 months from the date the initial claim was paid.

3.3 Payment in Full. Provider shall accept as payment in full for Covered Services rendered to Members such amounts as are paid by Payor pursuant to this Agreement and shall not bill Members for non-covered charges, other than Member Expenses, which result from Payor's reimbursement methodologies. In no event shall Provider bill a Member for the difference between Customary Charges and the amount Provider has agreed to accept as full reimbursement under this Agreement. Provider may collect Member Expenses from the Member. If Payor denies payment for services rendered by Provider on grounds that the services are not Medically Necessary, Provider shall not collect payment from the Member for the services unless the Member has knowledge of the determination of lack of Medical Necessity and has subsequently agreed in writing to be responsible for such charges and MHSA Services. Further, if any payment to Provider is denied, in part or full, due to Provider's failure to strictly comply with any term or condition in this Agreement, the Provider Manual, the Protocols, including without limitation, obtaining prior authorization, untimely filing of a claim, inaccurate or incorrect submission of or claim processing, or the insolvency of Payor pursuant to applicable law, it is agreed that Provider shall not, except for applicable Member Expenses, bill the Member or otherwise, directly or indirectly, seek or collect payment from the Member for any of the denied amounts. Any violation hereof by Provider shall be deemed a material breach. This provision shall apply regardless of whether any waiver or other document of any kind purporting to allow Provider to collect payment from the Member exists. These provisions shall survive the termination hereof and shall be construed to be for the benefit of the Member.

3.4 Coordination of Benefits. Provider shall be paid in accordance with Payor's coordination of benefits rules.

3.5 Financial Responsibility. In the event of a default (meaning a systematic failure by Payor to fund undisputed claim payments for Covered Services) by a Payor, except when due to the insolvency of Payor, Redacted shall notify Provider in writing of such default following Redacted determination thereof. Any services which have been rendered by Provider prior to or after such notification, and which have not been paid for by Payor, shall be considered ineligible for reimbursement under this Agreement, and Provider may seek payment directly from the Payor and Member for such services.

3.6 Member Protection Provision. This provision supersedes and replaces the Financial Responsibility section (section 3.5 above) only in those cases where Redacted, or its Affiliate, is the Payor, or when required by another specific Payor, or when required pursuant to applicable laws, statutes and regulations.

In no event, including, but not limited to, non-payment by Payor for MHSA Services rendered to Members by Provider, insolvency of Payor, or breach by Redacted of any term or condition of this Agreement, shall Provider bill, charge, collect a deposit from, seek compensation, remuneration or reimbursement from, or have any recourse against any Member or persons acting on behalf of the Member for MHSA Services eligible for reimbursement under this Agreement; provided, however, that Provider may collect from the Member, any Member Expenses or charges for services that are not covered as benefits under the Member's Benefit Plan.

The provisions of this Article shall apply to all Member protection provisions in this Agreement and shall: (a) apply to all MHSA Services rendered while this Agreement is in force; (b) survive the termination of this Agreement regardless of the cause of termination; (c) be construed to be for the benefit of the Members; and (d) except as otherwise stated in section 3.3, supersede any oral or written agreement, existing or subsequently entered into, between Provider and a Member or person acting on a Member's behalf, that requires the Member to pay for such MHSA Services.

3.7 Contracted Rate for Members. Provider agrees to continue to provide MHSA Services to Members who have exhausted his/her Covered Services under the Benefit Plan and agrees not to collect or charge more than the contracted rate for those MHSA Services. Provider may bill the Member directly for those MHSA Services for which there is no longer any coverage under the Benefit Plan, in accordance herewith.

ARTICLE 4
Laws, Regulations, and Licenses, and Liabilities of Parties

4.1 Laws, Regulations and Licenses. Provider shall maintain in good standing all federal, state and local licenses, certifications and permits -- without sanction, revocations, suspension, censure, probation or material restriction -- which are required to provide health care services according to the laws of the jurisdiction in which MHSA Services are provided, and shall comply with all applicable statutes and regulations.

Provider shall also require that all health care professionals employed by or under contract with Provider to render MHSA Services to Members, including covering Providers, comply with this provision.

4.2 Responsibility for Damages. Any and all damages, claims, liabilities or judgments, attorney fees, which may arise as a result of Provider's or its employee's or contractor's negligence or intentional wrongdoing shall be the sole responsibility of Provider.

4.3 Provider Liability Insurance. Provider shall procure and maintain, at Provider's sole expense, (a) medical malpractice or professional liability insurance in the amount of $1,000,000 per occurrence and $3,000,000 in aggregate if Provider is a Medical Doctor and $1,000,000 per occurrence and in aggregate if Provider is not a Medical Doctor; and (b) comprehensive general and/or umbrella liability insurance in the amount of $1,000,000 per occurrence and in aggregate. Provider shall also require that all health care professionals employed by or under contract with Provider to render MHSA Services to Members procure and maintain malpractice insurance, unless they are covered under Provider's insurance policies.

Provider's and other health care professionals' medical malpractice insurance shall be on either an "occurrence" or "claims made" basis provided that for a "claims made" policy, such policy must be written with an extended period reporting option under such terms and conditions as may be reasonably required by Redacted. Prior to the Effective Date of this Agreement and at each policy renewal thereafter, Provider shall submit to Redacted in writing evidence of insurance coverage.

ARTICLE 5
Notices

5.1 Notices. Provider shall notify Redacted within ten (10) days of knowledge of any of the following:

(a) changes in liability insurance carriers, termination of, renewal of or any other material changes in Provider's liability insurance, including reduction of limits, erosion of aggregate, changes in retention or non-payment of premium;

(b) action which may result in or the actual suspension, sanction, revocation, condition, limitation, qualification or other material restriction on Provider's licenses, certifications or permits by any government under which Provider is authorized to provide health care services; and, of any suspension, revocation, condition, limitation, qualification or other material restriction of Provider's staff privileges at any licensed hospital, nursing home or other facility at which Provider has staff privileges during the term of this Agreement;

(c) a change in Provider's name, address, ownership or Federal Tax I.D. number;

(d) indictment, arrest or conviction for a felony or for any criminal charge related to the practice of Provider's profession;

(e) claims or legal actions for professional negligence or bankruptcy;

(f) provider's termination, for cause, from any other provider network offered by any plan, including, without limitation, any health care service plan, health maintenance organization, any health insurer, any preferred provider organization, any employer or any trust fund;

(g) any occurrence or condition that might materially impair the ability of Provider to perform its duties under this Agreement; or

(h) any condition or circumstance that may pose a direct threat to the safety of Provider, Providers' staff, or Members.

Unless otherwise specified in this Agreement, each and every notice and communication to the other party shall be in writing. All written notices or communication shall be deemed to have been given when delivered in person; or, on the date mailed, if delivered by first-class mail, proper postage prepaid and properly addressed to the appropriate party at the address set forth at the signature portion of this Agreement or to another address of which sending party has been notified, including without limitation, to Redacted Network Manager at the applicable address for notice as identified in the Provider Manual or Protocols. The parties shall, by written notice, provide and update each other with the most current address and names of all parties or designees that should receive certain notices or communication.

ARTICLE 6
Records

6.1 Confidentiality of Records. Redacted and Provider shall maintain the confidentiality of all Member information and records in accordance with all applicable state and federal laws, statutes and regulations, including without limitation, the Health Insurance Portability and Accountability Act.

6.2 Maintenance of and Redacted Access to Records. Provider shall maintain adequate medical, treatment, financial and administrative records related to MHSA Services provided by Provider under this Agreement for a period and in a manner consistent with the standards of the community and in accordance with the Provider Manual, Protocols and all applicable state and federal laws, statutes and regulations.

In order to perform its utilization management and quality improvement activities, Redacted shall have access to such information and records, including claim records, within 14 days from the date the request is made, except that in the case of an audit by Redacted, such access shall be given at the time of the audit. If requested by Redacted, Provider shall provide copies of such records free of charge. During the term of this Agreement Redacted shall have access to and the right to audit information and records to the extent permitted by the Provider Manual, or as otherwise required by state or federal laws, statutes or regulations or regulatory authority. Said rights shall continue following the termination hereof for the longer of three years or for such period as may be permitted by applicable state or federal law, regulatory authority, or Protocols.

It is Provider's responsibility to obtain any Member's consent in order to provide Redacted with requested information and records or copies of records and to allow

release such information or records to Payors as necessary for the administration of the Benefit Plan or compliance with any state or federal laws, statutes and regulations applicable to the Payors.

Provider acknowledges that in receiving, storing, processing or otherwise dealing with information from Redacted or Payor about Members, it is fully bound by the provisions of the federal regulations governing Confidentiality of Alcohol and Drug Abuse Patient Records, 42 CFR Part 2; and Provider agrees that it will resist in judicial proceedings any effort to obtain access to information pertaining to patients otherwise than as expressly provided for in the federal confidentiality regulations, 42 CFR Part 2.

This section shall not be construed to grant Redacted access to Provider's records that are created for purposes of assessing Provider's financial performance or for Provider's peer review activities, except to the extent the federal and/or state government and any of their authorized representatives have access to such records pursuant to Section 6.3.

6.3 Government and Accrediting Agency Access to Records. It is agreed that the federal, state and local government, or accrediting agencies including, but not limited to, the National Committee for Quality Assurance (the "NCQA"), and any of their authorized representatives, shall have access to, and Redacted and Provider are authorized to release, in accordance with applicable statutes and regulations, all information and records or copies of such, within the possession of Redacted or Provider, which are pertinent to and involve transactions related to this Agreement if such access is necessary to comply with accreditation standards, statutes or regulations applicable to Redacted, Payor or Provider. Such access shall be available and provided during the term of this Agreement and for three years following the termination hereof, or such longer period as may be identified in the Provider Manual or Protocols or as required by applicable state or federal laws, statutes or regulations.

ARTICLE 7
Resolution of Disputes

7.1 Resolution of Disputes. It is agreed that prior to any other remedy available to the parties, Redacted, Payor and/or Provider shall provide written notice of any disputes or claims arising out of their business relationship (the "Dispute") to the other party within thirty (30) days of the final decision date, action, omission or cause from which the Dispute arose, whichever is later (the "Dispute Date"). If the Dispute pertains to a matter which is generally administered by certain Redacted procedures, such as a credentialing or quality improvement plan, the procedures set forth in that plan must be fully exhausted by Provider before Provider may invoke his or her rights as described herein. After receipt of the written notice of the Dispute, the parties agree to work together in good faith to resolve the Dispute. If the parties are unable to resolve the Dispute within thirty (30) days following receipt of the notice of the Dispute, and if either Redacted, Provider or Payor desires to pursue formal resolution of the Dispute, then said party shall issue a notice of arbitration to the other parties. It is agreed that the parties

knowingly and voluntarily waive any right to a Dispute if arbitration is not initiated within one year after the Dispute Date.

Any arbitration proceeding under this Agreement shall be submitted to binding arbitration in accordance with the rules of the American Arbitration Association ("AAA"), and shall be conducted in a location agreed to by the parties or as selected by the AAA if the parties cannot agree on a location. The arbitrators may construe or interpret but shall not vary or ignore the terms of this Agreement, shall have no authority to award any punitive or exemplary damages, and shall be bound by controlling law. The parties acknowledge that because this Agreement affects interstate commerce the Federal Arbitration Act applies.

ARTICLE 8
Term and Termination

8.1 Term. This Agreement shall begin on the Effective Date and it shall remain in effect for one year, and shall automatically renew for successive 1-year terms until it is terminated in accordance with the provisions herein.

8.2 Termination. This Agreement may be terminated as follows:

(a) by mutual agreement of Redacted and Provider;
(b) by either party upon 90 days prior written notice to the other party;
(c) by either party, in the event of a material breach of this Agreement by the other party, upon 30 days prior written notice to the other party. The written notice shall specify the precise nature of the breach. In the event the breaching party cures the breach to the reasonable satisfaction of the non- breaching party, within 30 days after the non-breaching party's written notice, this Agreement shall not terminate;
(d) by Redacted immediately upon written notice to Provider, due to Provider's loss, suspension, restriction, probation, voluntary relinquishment, or any other adverse action taken against any of Provider's licenses or certification, or loss of insurance required under this Agreement;
(e) by Provider upon 60 days prior written notice to Redacted due to a unilateral amendment made to this Agreement pursuant to section 9.1;
(f) by Redacted in accordance with its credentialing plan;
(g) by Redacted immediately if Redacted determines, in its sole discretion, that the health, safety or welfare of Members may be jeopardized by the continuation of this Agreement; or
(h) by Redacted in accordance with the Provider Manual or Protocols.

During periods of notice of termination, Redacted reserves the right to transfer Members to another Participating Provider, and Provider agrees to cooperate and assist with such transfers.

If Provider is terminated through the Redacted credentialing or recredentialing process, this Agreement shall be deemed terminated as of the date Provider has been terminated pursuant to a final action resulting from that process.

8.3 Information to Members. Provider acknowledges and agrees that Redacted has the right to inform Members of Provider's termination and/or the notice of termination to Provider, and agrees to cooperate with Redacted in matters concerning the termination/transition, and agrees to hold Redacted harmless for exercising its rights hereunder. Provider also agrees to clearly inform Members of Provider's impending non-participation status upon the earlier of Member's next appointment or prior to the effective termination date.

8.4 Continuation of Services After Termination. At the option of Redacted, Provider shall continue to provide MHSA Services authorized by Redacted to Members who are receiving such services from Provider as of the effective date of termination of this Agreement, until Member can be satisfactorily transferred to another Participating Provider. Payor shall continue to pay Provider for such services at Provider's contracted rate.

ARTICLE 9
Miscellaneous

9.1 Amendment. Redacted may amend this Agreement by sending notice of the amendment to Provider at least 30 days prior to its effective date. The Provider's signature is not required. It is agreed that this Agreement shall be automatically amended to comply with any and all applicable state or federal laws, regulations, statutes or the requirements of applicable regulatory authorities as of the effective date thereof, and which shall be deemed to be incorporated herein by reference as of its effective date. Likewise, if a Payor that is a governmental entity requires that certain provisions of this Agreement be removed, replaced, amended or that additional provisions be incorporated, such provisions shall be deemed to be removed, replaced, amended or additional provisions incorporated into this Agreement as of the effective date of such Payor requirement for all MHSA Services provided which are subject to such Payor requirements without the signature of Provider being required.

9.2 Assignment. Redacted may assign all or any of its rights and responsibilities under this Agreement to any of its Affiliates. Provider may assign any of his or her rights and responsibilities under this Agreement to any person or entity only upon the prior written consent of Redacted, which consent shall not be unreasonably withheld.

9.3 Administrative Responsibilities. Redacted may delegate certain administrative responsibilities under this Agreement to another entity, including, but not limited to, its Affiliate or to Payor or its designee. In addition, certain Payor responsibilities may actually be performed by its designee.
Provider is solely that of independent contractors and nothing in this Agreement or

9.4 Relationship Between Redacted and Provider. The relationship between Redacted and

otherwise shall be construed or deemed to create any other relationship, including one of employment, agency, joint venture or partnership.

9.5 Name, Symbol and Service Mark. During the term of this Agreement, Provider, Redacted and Payor shall have the right to use each other's name solely to make public reference to Provider as a Participating Provider. Provider, Redacted and Payor shall not otherwise use each other's name, symbol or service mark or that of their Affiliates without the prior written approval from the appropriate party.

9.6 Confidentiality. Neither party shall disclose to third parties any confidential or proprietary business information which it receives from the other party, including, but not limited to, financial statements, business plans, Protocols and programs; except that (a) Provider may disclose information to a Member relating to the Member's treatment plan and the payment methodology, but not specific rates; (b) Redacted may disclose certain terms to Payors or designees that need the information to process claims or administer a Benefit Plan, and may file the form of this Agreement with any federal or state regulatory entity as may be required by applicable law; and (c) Redacted shall be permitted to disclose, in its sole discretion, any other data or information that may be requested by applicable state and federal law, state regulations or governing agencies that pertain to this Agreement or that may relate to the enforcement of any right granted or term or condition of this Agreement.

9.7 Communication. Redacted encourages Provider to discuss with Members treatment options and their associated risks and benefits, regardless of whether the treatment is covered under the Member's Benefit Plan. Nothing in this Agreement is intended to interfere with Provider's relationship with Members as patients of Provider, or with Redacted ability to administer its quality improvement, utilization management and credentialing programs.

9.8 Effects of New Statutes and Regulations and Changes of Conditions. The parties agree to re-negotiate this Agreement if either party would be materially adversely affected by continued performance as a result of a change in laws or regulations, a requirement that one party comply with an existing law or regulation contrary to the other party's prior reasonable understanding, or a change in Redacted arrangements with Payors. The party affected must promptly notify the other party of the change or required compliance and its desire to re-negotiate this Agreement. If a new agreement is not executed within 30 days of receipt of the re-negotiation notice, the party adversely affected shall have the right to terminate this Agreement upon 45 days prior written notice to the other party. Any such notice of termination must be given within 10 days following the expiration of the 30-day re- negotiation period.

9.9 Appendices. Additional and/or alternative provisions, if any, related to certain MHSA Services rendered by Provider to Members covered by certain Benefit Plans are set for in the Appendices.

9.10 Entire Agreement. On the Effective Date, this Agreement supersedes and replaces any existing Provider Agreements between the parties related to the provision

of MHSA Services, including any agreements between Provider and Affiliates of Redacted for MHSA Services. This Agreement, together with any and all documents referenced herein, attachments, addenda, appendices, as may be amended or modified from time to time, whether contemporaneous or subsequently made pursuant to Section 9.1, are hereby incorporated herein by reference, and constitutes the entire agreement between the parties in regard to its subject matter (herein collectively referred to as this "Agreement").

9.11 Strict Compliance. The waiver of strict compliance or performance of any of the terms or conditions of this Agreement, the Provider Manual or the Protocols or of any breach thereof shall not be held or deemed to be a waiver of any subsequent failure to comply strictly with or perform the same or any other term or condition thereof or any breach thereof.

9.12 Severability. Should any provision of this Agreement violate the law or be held invalid or unenforceable as written by a court of competent jurisdiction, then said provision along with the remainder of this Agreement shall nonetheless be enforceable to the extent allowable under applicable law by first modifying said provision to the extent permitted so as to comply with applicable law; otherwise said provision shall be deemed void to the extent of such prohibition without invalidating the remainder of this Agreement.

9.13 Rules of Construction. In the event of any conflict between the terms of this Agreement and the terms of any other agreement or any other controlling document or any applicable state or federal laws, statutes and regulations relating to the subject matter hereof, the terms, except as otherwise expressly stated herein, shall first be read together to the extent possible; otherwise the terms that afford the greater protections to first Redacted and second to the Benefit Plan shall prevail over the conflicting term, to the extent permitted by, in accordance with and subject to applicable law, statutes or regulations. The remainder of the Agreement shall otherwise remain without invalidating or deleting the remainder of the conflicting provision or the Agreement.

9.14 Governing Law. This Agreement shall be governed by and construed in accordance with applicable state and federal laws, statutes and regulations, including without limitation, ERISA.

9.15 Medicaid Members. If a Medicaid Appendix is attached to this Agreement Provider agrees to provide MHSA Services to Members enrolled in a Benefit Plan for Medicaid recipients and to comply with any additional requirements set forth in the Medicaid Appendix.

9.16 Medicare Members. If a Medicare Appendix is attached to this Agreement, Provider agrees to provide MHSA Services under this Agreement, to Members who are enrolled in a Benefit Plan for Medicare beneficiaries and to cooperate and comply with the provisions set forth in the attached Medicare Advantage Addendum. Provider also understands that Redacted agreements with Participating Providers are subject to review and approval by the Centers for Medicare and Medicaid Services (“CMS”).

9.17 Survival. Upon any termination or expiration of this Agreement, the provisions herein which contemplates performance or observance subsequent to termination or expiration, including without limitation, sections 3.1, 3.2, 3.3, 3.6, 8.3, 8.4, 9.6 and Articles 6 and 7, shall survive and remain of full force and effect between the parties.

THIS AGREEMENT CONTAINS A BINDING ARBITRATION PROVISION THAT MAY BE ENFORCED BY THE PARTIES.

MississippiCHIP Regulatory Requirements Appendix

MississippiCHIP Regulatory
Requirements Appendix
Downstream Provider

THIS MISSISSIPPICHIP PROGRAM REGULATORY REQUIREMENTS APPENDIX (this "Appendix") supplements and is made part of the provider agreement (the "Agreement") between Redacted ("Subcontractor") and the party named in the Agreement ("Provider").

SECTION 1
APPLICABILITY

This Appendix applies with respect to the provision of direct or health care related services that Provider directly provides to Members through CCO's (as defined herein) products or benefit plans under the Mississippi Children's Health Insurance Program (the "MississippiCHIP Program") as governed by the State's designated regulatory agencies. Provider has agreed to provide Covered Services to Members who receive their coverage pursuant to a contract between the State and CCO (the "MississippiChip Program Contract" as defined herein). The MississippiChip Program Contract and applicable State and federal law require that the provisions contained in this Appendix be part of the Agreement. In the event of a conflict between this Appendix and other appendices or any provision of the Agreement, the provisions of this Appendix shall control except with regard to benefit plans outside the scope of this Appendix or unless otherwise required by law. In the event Subcontractor is required to amend or supplement this Appendix as required or requested by the State to comply with federal or State regulations, Subcontractor will unilaterally initiate such additions, deletions or modifications. All provider agreements must be in writing and must include all specific activities and report responsibilities delegated to the Provider by Subcontractor.

SECTION 2
DEFINITIONS

Unless otherwise defined in this Appendix, all capitalized terms shall be as defined in the Agreement. For purposes of this Appendix, the following terms shall have the meanings set forth below; provided, however, in the event any definition set forth in this Appendix or the Agreement is inconsistent with any definition under the MississippiCHIP Program Contract, the definition shall have the meaning set forth under the MississippiCHIP Program Contract.

2.1 Abuse: Any Practice that is inconsistent with sound fiscal, business, or medical practices, and results in an unnecessary cost to CHIP, Contractor, a Provider or in reimbursement for services that are not Medically Necessary or that fail to meet professionally recognized standards for healthcare.

2.2 Action: Subcontractor's or CCO's decision to deny or limit authorization or payment (in whole or in part) for health care services, including new authorizations and previously authorized services; the reduction, suspension, or termination of a previously authorized service; or CCO's or Subcontractor's failure to provide services in a timely manner; failure to resolve Complaints, Grievances, or Appeals within the specified time frames.

2.3 Agreement: An agreement between the Subcontractor or CCO and an individual, business, university, government entity, affiliate, or nonprofit organization to perform part or all of Subcontractor's or CCO's responsibilities under the MississippiCHIP Program Contract. Agreements must be approved in writing by DOM prior to the start date of the Agreement.

2.4 Appeal: A request for review by Subcontractor or CCO of an Action related to a Member or Provider. In the case of a Member, an Action may include determinations on the health care services a Member believes he or she is entitled to receive, including delay in providing, arranging for, or approving the health care services (such that a delay would adversely affect the health of the Member). In the case of a Provider, the Action may include, but is not limited to, delay or non- payment for covered services.

2.5 Auto Enrollment: The process by which Members who have not voluntarily selected a CHIP Contractor are assigned to a CHIP Contractor.

2.6 Behavioral Health Services: Mental health and/or drug and alcohol abuse treatment services that are provided by the county mental health/Intellectually Delayed/Developmentally Delayed programs, the single county authority administrators, or other appropriately licensed health care practitioners.

2.7 Benchmark Plan: The State School Employee's Health Insurance Plan.

2.8 Child: An individual who is under nineteen (19) years of age who is not eligible for Medicaid benefits and is not covered by other health insurance. Child is also referred to as Member.

2.9 CHIP: The Children's Health Insurance Program as defined in Title XXI of the Social Security Act.

2.10 Complaint: An expression of dissatisfaction received orally or in writing that is of a less serious or formal nature that is resolved within one (1) business day of receipt.

2.11 Coordinated Care Organization (CCO): An organization that meets the requirements for participation as a Contractor in CHIP and manages the purchase and provision of health care services under CHIP. For purposes of this Appendix, CCO refers to Redacted of Mississippi, Inc.

2.12 Co-Payment: The fixed amount certain CHIP Members pay for a covered health care service. The amount may vary based on healthcare service being provided.

2.13 Cost Sharing: In accordance with 42 C.F.R. §457.10, premium charges, enrollment fees, deductibles, coinsurance, Co-Payments, or other similar fees that the Member has responsibility for paying.

2.14 Covered Services: Health care services or products for which a Member is enrolled with CCO to receive coverage under the MississippiCHIP Program Contract.

2.15 Disenrollment: Action taken by DOM, or its Agent, to remove a Member's name from the monthly Member Listing Report following DOM's receipt and approval of a request for Disenrollment or a determination that the Member is no longer eligible for Enrollment in Contractor. **DOM:** The Division of Medicaid, Office of the Governor, State of Mississippi.

2.16 Fraud: Fraud is any type of intentional deception or misrepresentation made by an entity or person with the knowledge that the deception could result in some unauthorized benefit to the entity, him or herself, or some other person. The Fraud can be committed by many entities, including a vendor, a subcontractor, a provider, a State employee, or a Member among others.

2.17 Grievance: An expression of dissatisfaction about any matter or aspect of Subcontractor or CCO or its operation, other than an Action as defined herein.

2.18 Marketing: The activities that promote visibility and awareness for the MississippiCHIP Program and Subcontractor's or CCO's participation in the program. All activities are subject to prior review and approval by DOM.

2.19 Medical Record: A single complete record, which documents the entire treatment plan developed for, and medical services received by, the Member including inpatient, outpatient, referral services and emergency medical services whether provided by Contracted Providers or Non-Contracted Providers.

2.20 Member: An individual who meets all of the eligibility requirements for CHIP, enrolls in a CCO under CHIP, and receives health benefits coverage through CHIP.

2.21 MississippiCHIP Program: The Mississippi Medicaid child health program for select individuals under the age of nineteen (19) years of age who are not eligible for Medicaid benefits and are not covered by other health insurances.

2.22 MississippiCHIP Program Contract: The DOM contract with CCO, for the purpose of providing and paying for Covered Services to Members enrolled in the MississippiCHIP Program.

2.23 Primary Care Provider (PCP): Any physician or health care practitioner or group operating within the scope of his or her licensure who is responsible for supervising, prescribing and providing primary care and primary case management services in the MississippiCHIP Program, whose practice is limited to the general practice of medicine or who is an Internist, Pediatrician, Obstetrician, Gynecologist, Family Practitioner, General Practitioner, Certified Nurse Practitioners whose specialty is pediatrics, adult, family, certified nurse midwife, obstetrics/gynecology, or a physician assistant.

2.24 Prior Authorization: A determination to approve a Provider's request, pursuant to services covered in the MississippiCHIP Program, to provide a service or course of treatment of a specific duration and scope to a Member prior to the initiation or continuation of the service.

2.25 Provider Network: The Panel of health service Providers with which the Subcontractor or CCO contracts for the provision of covered services to Members and Non-Contracted Providers administering services to Member.

2.26 State: The State of Mississippi or its designated regulatory agencies.

2.27 State Child Health Plan: The State of Mississippi's plan submitted to HHS for the administration of CHIP.

2.28 Third Party Liability/Resource: Any resource available to a Member for the payment of medical expenses associated with the provision of covered services, including but not limited to, insurers and workers' compensation plan.

2.29 Well-Baby and Well-Child Care Services: Regular or preventive diagnostic and treatment services necessary to ensure the health of babies, children, and adolescents as defined by DOM in the State Child Health Plan. For the purposes of Cost Sharing, the term has the meaning assigned at 42 C.F.R. § 457.520.

SECTION 3
PROVIDER REQUIREMENTS

The MississippiCHIP Program, through contractual requirements and federal and State statutes and regulations, requires that providers who provide services to Members enrolled in the MississippiCHIP Program comply with certain requirements as set forth below and elsewhere in this Appendix.

3.1 Definitions Related to the Provision of Covered Services. Provider shall follow the applicable MississippiCHIP Program Contract's requirements for the provision of Covered Services. Provider's decisions affecting the delivery of acute or chronic care services to Members shall be made on an individualized basis and in accordance with the following definitions:

(a) Emergency Medical Condition: In accordance with Section 1932(b) of the Act and 42 CFR §457.10, a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in any of the following: (1) placing the health of the individual (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; (2) serious impairment to body functions; or (3) serious dysfunction of any body organ or part.

(b) Emergency Services: Healthcare services that are (1) furnished by a provider who is qualified to furnish those health services and (2) needed to evaluate or stabilize an Emergency Medical Condition.

(c) Medically Necessary Services: As set forth in the Social Security Act, Section 1905 (42 U.S.C. 1396d(a)), Medically Necessary Services are defined as services, supplies, or equipment provided by a licensed health care professional that are:

1. Appropriate and consistent with the diagnosis or treatment of the patient's condition, illness, or injury;

2. In accordance with the standards of good medical practice consistent with the individual patient's condition(s);
3. Not primarily for the personal comfort or convenience of the Member, family, or Provider;
4. The most appropriate services, supplies, equipment, or levels of care that can be safely and efficiently provided to the Member;
5. Furnished in a setting appropriate to the patient's medical need and condition and, when applied to the care of an inpatient, further mean that the Member's medical symptoms or conditions require that the services cannot be safely provided to the Member as an outpatient;
6. Not experimental or investigational or for research or education;
7. Provided by an appropriatelylicensed practitioner; and
8. Documented in the patient's record in a reasonable manner, including the relationship of the diagnosis to the service.

Medically Necessary Services may also be those services for children that are necessary to correct or ameliorate defects and physical and mental illnesses and conditions discovered during an interperiodic or Well-Baby and Well-Child Care Services, whether such services are covered or exceed the benefit limits in the Medicaid State Plan and Title 23 of Mississippi Administrative Code.

3.2 Accessibility Standards. Provider shall provide for timely access for Member appointments in accordance with the appointment availability requirements established under the MississippiCHIP Program Contract, as further described in the applicable provider manual.

Type	Appointment Scheduling Time Frames
PCP (well care visit)	Not to exceed thirty (30) calendar days
PCP (routine sick visit)	Not to exceed seven (7) calendar days
PCP (urgent care visit)	Not to exceed twenty-four (24) hours
Specialists	Not to exceed forty-five (45) calendar days
Dental Providers (routine visits)	Not to exceed forty-five (45) calendar days
Dental Providers (urgent Care)	Not to exceed forty-eight (48) hours
Behavioral Health Providers (routine visit)	Not to exceed fourteen (14) calendar days
Behavioral Health Providers (urgent visit)	Not to exceed twenty-four (24) hours
Behavioral Health Providers (post-discharge from an acute psychiatric hospital when the Contractor is aware of the Member's discharge)	Not to exceed seven (7) calendar days

Urgent Care Providers	Not to exceed twenty-four (24) hours
Emergency Providers	Immediately (twenty-four (24) hours a day, seven (7) days a week) and without Prior Authorization

3.3 Hours of Operation; Appointments. Provider shall offer hours of operation that are no less than the hours of operation offered to commercial beneficiaries.

3.4 PCP Responsibilities. If applicable, and Provider is a PCP, Provider shall comply with the following:

3.4.1 PCPs who serve Members under the age of nineteen (19) are responsible for conducting all Well-Baby and Well-Child Care services. Should the PCP be unable to conduct the necessary Well-Baby and Well-Child Care services screens, the PCP is responsible for arranging to have the necessary Well-Baby and Well-Child Care services screens conducted by another network provider and ensure that all relevant medical information, including the results of the Well-Baby and Well-Child Care services screens, are incorporated into the Member's PCP Medical Record.

3.4.2 PCPs who serve Members under the age of nineteen (19) report encounter data associated with Well-Baby and Well-Child Care services, using a format approved by DOM, to Contractor within one hundred and eighty (180) calendar days from the date of service.

3.4.3 PCPs are responsible for contacting new Members identified in the quarterly encounter lists sent by Contractor that indicate who has not had an encounter during the first six (6) months of Enrollment. Contractor must require the PCP to:

3.4.3.1 Contact Members identified in the quarterly Encounter lists as not complying with Well-Baby, Well-Child Care, and immunization schedules for Children;

3.4.3.2 Identify to Contractor any such Members who have not come into compliance with Well-Baby, Well-Child Care, and immunization schedules within one (1) month of such notification to the site by Contractor; and

3.4.3.3 Document the reasons for noncompliance, where possible, and to document its efforts to bring the Member's care into compliance with the standards.

3.4.4 PCP shall provide the full range of Well-Baby, Well-Child Care, well-adolescent care and childhood and adolescent immunization services recommended by the Advisory Committee on Immunization Practices (ACIP) for all Members under the age of nineteen (19) as defined in, and in accordance with, the State Child Health Plan, 42 C.F.R. §457.495 and the provisions of Mississippi CHIP Contract, including periodic examinations for vision, dental, and hearing and all Medically Necessary services. The following minimum elements must be included in the periodic health screening assessment of children:

a. Comprehensive health and development history (including assessment of both physical and mental development);

b. Measurements (including head circumference for infants);

c. Comprehensive unclothed physical examination;

d. Immunizations appropriate to age and health history;

e. Assessment of nutritional status;

f. Laboratory tests (including tuberculosis screening and Federally required blood lead screenings);

g. Vision Screening;

h. Hearing Screening;

i. Dental and Oral Health Assessment;

j. Development Assessment; and,

k. Health education and anticipatory guidance.

If a suspected problem is detected by a screening examination, the child must be evaluated as necessary for further diagnosis. This diagnosis is used to determine treatment needs.

3.4.5 Specialists as PCPs. Members with disabling conditions, chronic conditions, or with special health care needs may request that their PCP be a specialist. The designation of a specialist as a PCP must be pursuant to a treatment plan approved by Contractor; in consultation with the PCP to which the Member is currently assigned, the Member and, as appropriate, the specialist. When possible, the specialist must be a provider participating in Contractor's network. The specialist as a PCP must agree to provide or arrange for all primary care, including routine preventive care, and to provide those specialty medical services consistent with the Member's disabling condition, chronic illness, or special health care need in accordance with Contractor's standards and within the scope of the specialty training and clinical expertise. To accommodate the full spectrum of care, the specialist as a PCP must also have admitting privileges at a hospital in Contractor's network.

3.5 Provider Selection. To the extent applicable to Provider in performance under the Agreement, Provider shall comply with 42 CFR §438.214, as may be amended from time to time, which includes, but is not limited to the selection and retention of providers, credentialing and re-credentialing requirements and nondiscrimination. If Subcontractor or CCO delegates credentialing to Provider, Subcontractor or CCO will provide monitoring and oversight and Provider shall ensure that all licensed medical professionals are credentialed in accordance with Subcontractor's or CCO's and the MississippiCHIP Program Contract's credentialing requirements.

3.6 Records Retention. As required under State or federal law or the MississippiCHIP Program Contract, Provider shall maintain a record keeping system of current, detailed, and organized records for recording services, charges, dates and all other commonly accepted information elements sufficient to disclose the quality, quantity, appropriateness and timeliness of services rendered to Members. All financial records shall follow generally accepted accounting principles. Medical records and supporting management systems shall include all pertinent information related to the medical management of eachMember. Other records shall be maintained as necessary to clearly reflect all actions taken by Provider related to services provided under the MississippiCHIP Program Contract. Such records shall be maintained for a period of not less than five (5) years from the close of the Agreement, or such other period as required by law. If records are under review or audit or are the subject of litigation they must be retained for a minimum of five (5) years following resolution of such action. Prior approval for the disposal of records must be requested and approved by Subcontractor or CCO if the Agreement is continuous. Provider shall have written records retention policies and procedures and will make such policies and procedures available to Subcontractor, CCO or DOM upon request. DOM requires ready access to any and all documents and records of transactions pertaining to the provisions of services provided by Provider and those copies of requested documents/records will be provided to DOM or its designee free of charge.

3.7 Records Access. Provider acknowledges and agrees and shall require Provider to acknowledge and agree that DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel shall have complete access to all records pertaining to services provided to Members. Provider shall provide immediate access to facilities, records and supportive materials pertinent to the MississippiCHIP Program Contract for State or Federal fraud investigators.

3.8 Government Audit; Investigations. Provider acknowledges and agrees and shall require Provider to acknowledge and agree that the State or any of its duly authorized representatives, DOM, the U.S. Department of Health and Human Services, the Centers for Medicare & Medicaid Services, the Office of Inspector General, the General Accounting Office, or any other auditing agency or their authorized representatives, with prior approval by DOM, at any time during the term of the Agreement, shall, at all reasonable time and within regular business hours, with or without notice, have the right to inspect or otherwise evaluate the quality, appropriateness, and timeliness of services provided under the terms of the MississippiCHIP Program Contract and any other applicable federal and State law and regulation..

This shall include, but not be limited to, the right to enter onto Provider's premises, access to and the right to audit, inspect, monitor, and examine any pertinent books, documents, papers, medical records, financial records, surveys and computer databases and/or to otherwise evaluate the performance of Provider related to Provider's performance under the Agreement. Such monitoring activities may also include, without limitation, on-site inspections of all service locations and facilities; auditing and/or review of all records developed under the MississippiCHIP Program Contract or the Agreement; reviewing management systems and procedures developed under the MississippiCHIP Program Contract or the Agreement; and review of any other areas of materials relevant or pertaining to the MississippiCHIP Program Contract or the Agreement. All reviews and audits shall be performed in such a manner as will not unduly delay the work of Provider. There will be no restrictions on the right of the State or federal authorities to conduct inspections and audits as necessary.

The Provider must fully cooperate with any and all reviews and/or audits by state or federal agencies, such as the Department of Audit, Department of Health and Human Services, Centers for Medicare and Medicaid Services, Office of Inspector General, General Accounting Office, or any other auditing agency approved by DOM, by assuring that appropriate employees and involved parties are available for interviews relating to the reviews or audits.

All records shall be maintained and available for review by authorized federal and state agencies during the entire term of the MississippiCHIP Program Contract and for a period of five (5) years thereafter, unless an audit, litigation, or other legal action is in progress. When an audit or litigation is in progress or audit findings are unresolved, records shall be kept for a period of five (5) years or until all issues are finally resolved, whichever is later. The Provider must have written policies and procedures for storing this information. Records must be kept in an original paper state or preserved on micro media or electronic format.

3.9 Data; Reports. Provider shall and shall require that Provider cooperate with and release to Subcontractor or CCO any information necessary for Subcontractor or CCO to perform its obligations under the MississippiCHIP Program Contract to the extent applicable to Provider in performance of the Agreement, including the timely submission of reports and information required by Subcontractor or CCO. Such reports shall include well-baby/well-child reporting, as well as complete and accurate encounter and utilization management data in accordance with the requirements of Subcontractor, CCO and DOM.

3.10 Encounter Data. Provider shall agree to cooperate with Subcontractor or CCO to comply with Subcontractor's or CCO's obligation to prepare encounter data submissions, reports, and clinical information including, without limitation, and well-baby/well-child reporting and encounters, as applicable, and such other reporting regarding Covered Services as may be required under the MississippiCHIP Program Contract.

3.11 Claims Information. Provider shall promptly submit to Subcontractor or CCO the information needed to make payment and shall identify third party liability coverage, including Medicare and other insurance, and if applicable seek such third party liability payment before submitting claims to Subcontractor or CCO. Provider understands and agrees that each claim Provider submits to Subcontractor or CCO constitutes a certification that the claim is true and accurate to the best of Provider's knowledge and belief and that the Covered Services are 1) Medically Necessary and 2) have been provided to the Member prior to submitting the claim.

Provider must submit claims within six (6) months from the date of service. Claims filed within the appropriate time frame but denied may be resubmitted to Subcontractor or CCO within ninety (90) calendar days from the date of denial.

3.12 Third Party Resources. Provider shall report all Third Party Resources to Subcontractor or CCO identified through the provision of medical services.

3.13 Privacy; HIPAA. Provider shall comply with all applicable privacy rule and security rule provisions of the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), and associated implementing regulations, as may be amended from time to time, and shall safeguard information about

Members in accordance with applicable federal and State privacy laws and rules including 42 CFR §438.224 and 42 CFR Part 431, Subpart F, as may be amended from time to time. Provider agrees that confidential information, including but not limited to, medical and other pertinent information relative to Members, shall not be disclosed to any person or organization for any purpose without the expressed, written authority of DOM or as otherwise required by law and that all such disclosures shall fully comply with HIPAA privacy and security standards.

3.14 Cultural Competency. Provider shall participate in Subcontractor's, CCO's and DOM's efforts to promote the delivery of services in a culturally competent manner to all Members, including those with limited English proficiency and diverse cultural and ethnic backgrounds and shall provide interpreter services in a Member's primary language and for the hearing impaired for all appointments and emergency services. Provider shall provide information to Members regarding treatment options and alternatives, as well as information on complaints and appeals, in a manner appropriate to the Member's condition and ability to understand.

3.15 Approval of Marketing Materials. As required under State or federal law or the applicable MississippiCHIP Program Contract, any marketing materials developed and distributed by Provider as related to the performance of the Agreement must be submitted to CCO for submission to DOM for prior approval.

3.16 Independent Contractor Relationship. Provider expressly agrees that Provider is acting in an independent capacity in the performance of the Agreement and not as an officer, agent or employee of DOM, CMS or the State. Provider further expressly agrees that the Agreement shall not be construed as a partnership or joint venture between Provider and DOM, CMS or the State. Nothing in the Agreement shall be construed, nor shall it be deemed to create, any right or remedy in any third party.

3.17 Certification on Relationship to State, DOM and CMS. Provider certifies that no officer, director, employee, subcontractor or agent of Provider, or person with an ownership or control interest in Provider, is also employed by, or is a public official of, the State of Mississippi or any of its agencies, DOM or CMS.

3.18 Ownership and Control Information. If applicable, Provider shall cooperate with Subcontractor and/or CCO in obtaining and providing information to DOM related to ownership and control, significant business transactions, and persons convicted of a criminal offense in compliance with§1128 of the Social Security Act, 42 USC §1320a-7 and 42 CFR Part 455, as amended and shall provide information upon request. Provider shall submit information related to ownership and control of subcontractors or wholly owned supplier within thirty-five (35) calendar days of a request for such information.

By executing the Agreement, Provider certifies that neither Provider nor any of its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in any State or federal health care program or from participating in transactions by any State or federal department or agency. Subcontractor will terminate the Agreement upon becoming aware or receiving notice from DOM, whichever is earlier, that Provider is or has been excluded from participation in any State or federal health care program or by any State or federal agency.

3.19 Excluded Individuals and Entities. Provider certifies that neither it nor any of its employees, principals, nor any providers, subcontractors or consultants or persons with an ownership or controlling interest in the Provider (an owner including the Provider himself or herself), or an agent or managing employee of the Provider, with whom Provider contracts and who are providing items or services that are significant and material to Provider's obligations under the Agreement is:

(a) excluded from participation in federal health care programs under either Section 1128 or section 1128A of the Social Security Act; or

(b) debarred, suspended, proposed for debarment, declared ineligible, or otherwise voluntarily excluded from participating in procurement activities under the Federal Acquisition Regulation or from participating in non-procurement activities under regulations issued under Executive Order No. 12549 or under guidelines implementing Executive Order No. 12549; or an affiliate, as defined in the Federal Acquisition Regulation, of such a person.

Provider acknowledges and agrees and shall require that Provider acknowledge and agree that payment will not be made for any items or Covered Services provided by an excluded individual pursuant to 42 CFR §1001.1901(b) and is obligated to screen all employees, contractors, and subcontractors for exclusion as required under applicable State and Federal laws. Additionally, Provider acknowledges that pursuant to 42 CFR §1003.102(a)(2) civil monetary penalties may be imposed against Provider if he or she employs or enters into contracts with excluded individuals or entities to provide items or Covered Services to Member under the Agreement. Provider agrees not to employ or subcontract with individuals or entities whose owner, those with a controlling interest, or managing employees are on a State or Federal exclusion list to provide items or Covered Services under the Agreement. Provider shall immediately report to Subcontractor and/or CCO any exclusion information discovered. Provider can search the HHS-OIG website, at no cost, by the names of any individuals or entities. The database is called LEIE and can be accessed at http://www.oig.hhs.gov/fraud/exclusions.asp. The GSA EPLS/SAM database can be accessed at https://www.sam.gov. Applicable state exclusion databases can be accessed through the State's Medicaid website. Subcontractor will terminate the Agreement immediately upon becoming aware or receiving notice from DOM, whichever is earlier, that Provider's owners, agents, managing employees, or any provider is or has been excluded from federal health care programs or terminated from the Medicare or the Medicaid program in any state.

3.20 Licensure. Provider represents that it is currently licensed and/or certified under applicable State and federal statutes and regulations and by the appropriate State licensing body or standard-setting agency, as applicable. Provider represents that it does not have a Medicaid provider agreement with DOM that is terminated, suspended, denied, or not renewed as a result of any action of DOM, CMS, HHS, or the Medicaid Fraud Control Unit of the State's Attorney General. Provider shall maintain at all times throughout the term of the Agreement all necessary licenses, certifications, registrations and permits as are required to provide the health care services and/or other related activities delegated to Provider by Subcontractor and/or CCO under the Agreement. If at any time during the term of the Agreement, Provider is not properly licensed as described in this Section, Provider shall discontinue providing services to Members.

3.21 National Provider ID (NPI). If applicable, Provider shall and shall require that Providers obtain a National Provider Identification Number (NPI) and when filing claims with Provider, the NPI

number used is the same NPI number used when filing claims with DOM.

3.22 Funding. Provider recognizes that the obligation of DOM to proceed under its MississippiCHIP Program Contract with Subcontractor and/or CCO is conditioned upon the appropriation of funds by the Mississippi State Legislature and the receipt of State and/or Federal funds. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, either through the failure of the Federal government to provide or the State of Mississippi to appropriate funds, or the discontinuance, or material alteration of the program under which the funds were provided or if funds are not otherwise available to DOM, DOM has the right upon ten (10) working days written notice to Subcontractor and/or CCO to terminate the MississippiCHIP Program Contract.

3.23 Federal and State Funds Liability. Providers acknowledges and agrees that payments made to Provider for services provided under the Agreement are derived from federal and State funds and that any false claim or statement in documents or any concealment of material fact related to such services may be a cause for sanctions and prosecution under applicable federal and State laws. Provider shall be subject to all laws applicable to individuals and entities receiving State and federal funds and may be held civilly or criminally liable to Subcontractor, CCO and DOM in the event of nonperformance, misrepresentation, fraud, or abuse related to services provided pursuant to the MississippiCHIP Program Contract. Provider recognizes that payments made to the Provider are derived from federal and State funds, and are contingent upon and subject to availability and receipt of funds.

3.24 Insolvency. In the event Subcontractor and/or CCO becomes insolvent or unable to pay Provider, Provider shall not seek compensation for services rendered from DOM, its officers, Agents, or employees, or the Members or their eligible dependents.

3.25 Termination. In the event of termination of the Agreement, Provider shall promptly supply to Subcontractor or CCO all information necessary for the reimbursement of any outstanding MississippiCHIP Program claims.

3.26 Capitated Providers. If a Provider that is capitated terminates its agreement with Subcontractor or CCO, for any reason, Provider will provide services to Members assigned to Provider up to the end of the month in which the effective date of termination falls.

3.27 Fraud, Waste, and Abuse Prevention. Provider shall cooperate fully with the Subcontractor's and/or CCO's policies and procedures designed to protect program integrity and prevent and detect potential or suspected fraud, waste, and abuse in the administration and delivery of services under the MississippiCHIP Program Contract and shall cooperate and assist DOM and any other State or federal agency charged with the duty of preventing, identifying, investigating, sanctioning or prosecuting suspected fraud, waste, and abuse in state and/or federal health care programs. Provider, Subcontractor and CCO are responsible for reporting suspected fraud and abuse by participating and non-participating providers, as well as Members, when detected.

In accordance with Subcontractor's and/or CCO's policies and the Deficit Reduction Act of 2005 (DRA), Provider shall have written policies for its employees, contractors or agents that: (a) provide detailed information about the federal False Claims Act (established under sections 3729 through 3733 of title 31, United States Code); (b) cite administrative remedies for false claims and statements

(established under chapter 38 of title 31, United States Code) and whistleblower protections under federal and state laws; (c) reference state laws pertaining to civil or criminal penalties for false claims and statements; and (d) with respect to the role of such laws in preventing and detecting fraud, waste, and abuse in federal health care programs (as defined in section 1128B(f)), include as part of such written policies, detailed provisions regarding Provider's policies and procedures for detecting and preventing fraud, waste, and abuse. Provider agrees to train its staff on the aforesaid policies and procedures.

3.28 Quality Utilization Management. Pursuant to any applicable provider manuals and related protocols, or as elsewhere specified under the Agreement, Provider agrees to cooperate with Subcontractor's and CCO's quality improvement and utilization review and management activities. This shall include, but not be limited to, participation in any internal and external quality assurance, utilization review, peer review, and grievance procedures established by Subcontractor and CCO or as required under the MississippiCHIP Program Contract to ensure that Members have due process for their complaints, grievances, appeals, fair hearings or requests for external review of adverse decisions made by Subcontractor, CCO or Provider. Provider shall adhere to the quality assurance and utilization review standards of the MississippiCHIP Program and shall monitor quality and initiate corrective action to improve quality consistent with the generally accepted level of care.

3.29 Quality and Utilization Management Program. Provider shall cooperate with Subcontractor and CCO in meeting the Quality Management and Utilization Management Program standards outlined in the MississippiCHIP Program Contract.

3.30 Referrals. Provider shall make referrals for social, vocational, education or human services when a need for such service is identified.

3.31 Restrictions on Referrals. Provider shall not make inappropriate referrals for designated health services to health care entities with which Provider or a member of Provider's family has a financial relationship, pursuant to federal anti-kickback and physician self-referral laws that prohibit such referrals.

3.32 Complaints, Grievances and Appeals. Information on how Provider or Provider's authorized representative shall submit complaints and file grievances and appeals, and the resolution process, is contained in the Subcontractor or CCO MississippiCHIP Provider Manual.

3.33 Health Care Acquired/Preventable Conditions. Provider agrees that no payment shall be made for the provision of medical assistance for health care acquired conditions and other provider preventable conditions as may be identified by the State. As a condition of payment, Provider shall identify and report to Subcontractor and/or CCO any provider preventable conditions in accordance with 42 CFR Part 438, including but not limited to, 42 CFR § 438.6(f)(2)(i).

3.34 Compliance with Laws. Provider shall comply with all applicable federal and State laws and regulations and all provisions of the MississippiCHIP Program Contract that pertain to a Member's rights, including but not limited to the following, to the extent applicable to Provider in performance of the Agreement:

(a) Title VI of the Civil Rights Act of 1964; (b) Title XIX of the Social Security Act;

(c) Title IX of the Education Amendments of1972 (regarding education programs and activities); the Age Discrimination Act of 1975; the Rehabilitation Act of 1973; and The Genetic Information Non-Discrimination Act of 2008 (GINA), and their implementing regulations, as may be amended from time to time.

(d) 42 CFR Part 434 and 42 CFR § 438.6, as may be amended from time to time.

(e) All federal and State professional and facility licensing and accreditation requirements/standards that apply to the services Provider perform pursuant to the Agreement, including but not limited to:

(i) All applicable standards, orders or requirements issued under Section 306 of the Clean Air Act (42 USC 1857 (h)). Section 508 of the Clean Water Act (33 USC 1368), Executive Order 11738, and Environmental Protection Agency (EPA) regulations (40) CFR Part 15), which prohibit the use of facilities included on the EPA list of violating facilities. Any violations must be reported to DSHS, DHHS, and the EPA;

(ii) Any applicable mandatory standards and policies relating to energy efficiency that are contained in the State Energy Conservation Plan, including the Energy Policy & conservation Act (Pub. L. 94-165), and issued in compliance with the Federal Energy Policy & Conservation Act.

(f) All relevant federal and State statutes, regulations and orders related to equal opportunity in employment, including but not limited to compliance with E.O. 11246, "Equal Employment Opportunity," as amended by E.O. 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulations at 41 CFR Part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

(g) If the Agreement is for an amount in excess of $100,000, Provider shall comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, 42 U.S.C. 7401 et seq., and the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq. Any violations shall be reported to DHHS and the appropriate Regional Office of the Environmental Protection Agency.

(h) Those specified for laboratory services in the Clinical Laboratory Improvement Amendments (CLIA). All laboratory service sites must have a CLIA certificate of registration or waiver, and a CLIA identification number.

(i) The American with Disabilities Act (ADA). Provider shall make reasonable accommodation for Members with disabilities in accord with the ADA for all Covered Services and shall assure physical and communication barriers do not inhibit Members with disabilities from obtaining Covered Services;

(j) Section 1128B(d)(1) of the Balanced Budget Act of 1997; and,

(k) Any other requirements associated with the receipt of federal funds.

3.35 Non-Discrimination. Members must be provided Covered Services without regard to race, color, creed, sex, religion, age, national origin, ancestry, marital status, sexual orientation, language, health status, disease or pre-existing condition (including genetic information), anticipated need for health care or physical or mental handicap, except where medically indicated. Examples of prohibited practices include, but are not limited to, the following:

(a) Denying or not providing a Member any MississippiCHIP Covered Service. Health care and treatment necessary to preserve life must be provided to all Members who are not terminally ill or permanently unconscious, except where a competent Member objects to such care on his/her own behalf.

(b) Subjecting a Member to segregated, separate, or different treatment, including a different place or time from that provided to other Members or public or private patients, in any manner related to the receipt of any MississippiCHIP Covered Service, except where Medically Necessary.

(c) The assignment of times or places for the provision of services on the basis of the race, color, creed, religion, age, sex, national origin, ancestry, marital status, sexual orientation, income status, program membership, language, health status, disease or pre-existing condition, anticipated need for health care or physical or mental disability of the Members to be served.

3.36 Advance Directives. Provider shall comply with the advance directives requirements with 42 C.F.R §422.128 and with the Uniform Health-Care Decisions Act (Miss. Code Ann. § 41-41-201, *et. seq*.).

3.37 Physician Incentive Plans. In the event Provider participates in a physician incentive plan ("PIP") under the Agreement, Provider agrees that such PIPs must comply with 42 CFR § 417.479, 42 CFR § 438.6(h), 42 CFR § 422.208, and 42 CFR § 422.210, as may be amended from time to time. Subcontractor, CCO and Provider may not make a specific payment directly or indirectly under a PIP to a physician or physician group as an inducement to reduce or limit Medically Necessary services furnished to an individual Member. PIPs must not contain provisions that provide incentives, monetary or otherwise, for the withholding of services that meet the definition of Medical Necessity. Provider shall disclose annually to Subcontractor and/or CCO any PIP arrangement Provider may have with any physicians even if there is not substantial financial risk between Subcontractor and/or CCO and such physicians.

3.38 Lobbying. Provider agrees to comply with the following requirements related to lobbying:

(a) Prohibition on Use of Federal Funds for Lobbying: By signing the Agreement, Provider certifies to the best of Provider's knowledge and belief, pursuant to 31 U.S.C. § 1352 and 45 CFR Part 93, as may be amended from time to time, that no federally appropriated funds have been paid or will be paid to any person by or on Provider's behalf for the purpose of influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of

Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

(b) Disclosure Form to Report Lobbying: If any funds other than federally appropriated funds have been paid or will be paid to any person for the purpose of influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment or modification of any federal contract, grant, loan, or cooperative agreement and the value of the Agreement exceeds $100,000, Provider shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(c) Contractor shall abide by lobbying laws of the State of Mississippi.

3.39 Gratuities. Provider represents that it has not violated, is not violating, and promises that it will not violate the prohibitions against gratuities set forth in Section 6-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

3.40 Compliance with Mississippi Employment Protection Act (MEPA). Represents and warrants and shall require that Provider represent and warrant that it will ensure its compliance with the Mississippi Employment Protection Act, Section 71-11-1 et set of the Mississippi Code Annotated (Supp. 2008), and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. Provider agrees and shall require that Provider agree to maintain records of such compliance and, upon request of the State and approval of the Social Security Administration or Department of Homeland Security, where required, to provide a copy of each such verification to the State. Provider represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of the State of Mississippi. Provider acknowledges and agrees that any breach of these warranties may subject Provider to the following: (a) termination of the Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public, or (b) the loss of any license, permit, certification or other document granted to Provider by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year, or (c) both.

3.41 Insurance Requirements. As applicable, Provider shall and shall require that Provider secure and maintain during the term of the Agreement general liability insurance, professional liability insurance, and workers' compensation insurance for all employees connected with the provision of services under the Agreement. Such workers compensation insurance shall comply with Mississippi

Workers' Compensation Laws. Such comprehensive general liability insurance and professional liability insurance shall provide coverage in an amount established by Subcontractor and/or CCO pursuant to the Agreement or as required under the MississippiCHIP Program Contract.

3.42 Indemnification. To the extent applicable to Provider in performance under the Agreement, Provider shall indemnify, defend, protect, save and hold DOM and its employees and Members harmless from and against all injuries, deaths, losses, damages, claims, suits, demands, actions, recovery, liabilities, judgments, costs and expenses, including without limitation, court costs, investigative fees and expenses, and attorney fees, to the extent proximately caused by any negligent act or other intentional misconduct or omission of Provider, its agents, officers, employees or contractors arising from the Agreement. DOM may waive this requirement for public entities if Provider is a state agency or sub-unit as defined by the State or a public health entity with statutory immunity. This clause shall survive the termination of the Agreement for any reason, including breach due to insolvency.

3.43 Notice of Legal Action. Immediately upon obtaining knowledge or receiving notice of any legal action or notice listed below, Provider shall provide to Subcontractor and/or CCO written notice of such legal action or notice and, upon request by Subcontractor and/or CCO, a complete copy of all filings and other documents generated in connection with any such legal action:

(a) Any action, suit or counterclaim filed against Provider;

(b) Any regulatory action, or proposed action, respecting Provider's business or operations;

(c) Any notice received by Provider from the Department of Insurance or the State Health Officer;

(d) The filing of a petition in bankruptcy by or against Provider, or the insolvency of Provider;

(e) The conviction of any person who has an ownership or control interest in Provider, or who is an agent or managing employee of Provider, of a criminal offense related to that person's involvement in any program under Medicare, Medicaid, or Title XX of the Social Security Act; or

(f) A malpractice action against any Provider delivering service under an agreement.

3.44 Hold Harmless. Except for any applicable cost-sharing requirements under the MississippiCHIP Program Contract, Provider shall look solely to Subcontractor and/or CCO for payment of Covered Services provided to Members pursuant to the Agreement and the MississippiCHIP Program Contract and hold DOM, the State, the U.S. Department of Health and Human Services and Members harmless in the event that Subcontractor and/or CCO cannot or will not pay for such Covered Services. In accordance with 42 CFR § 447.15, as may be amended from time to time, the Member is not liable to Provider for any services for which Subcontractor and/or CCO is liable and as specified under the State's relevant health insurance or managed care statutes, rules or administrative agency guidance. Provider shall not require any copayment or cost sharing for Covered Services provided under the Agreement unless expressly permitted under the MississippiCHIP Program Contract. Provider shall also be prohibited from charging Members for missed appointments if such practice is prohibited

under the MississippiCHIP Program Contract or applicable law. Neither the State, DOM, nor Member shall be in any manner liable for the debts and obligations of Subcontractor and/or CCO and under no circumstances shall Subcontractor, CCO, or any providers used to deliver services covered under the terms of the MississippiCHIP Program Contract, charge Members for Covered Services.

3.45 Assignment/Delegation. Provider shall not assign or delegate the Agreement without the express written consent of Subcontractor, CCO or DOM. The transfer of five percent (5%) or more of the beneficial ownership in Provider at any time during the term of this Agreement shall be deemed an assignment under this Agreement.

3.46 Behavioral Health Providers. Behavioral Health Providers shall ensure that all Covered Persons receiving inpatient psychiatric services are scheduled for outpatient follow-up and/or continuing treatment prior to discharge from the inpatient psychiatric hospital if the Provider is aware of the Covered Person's inpatient hospitalization status. Behavioral Health Providers will be provided daily reports identifying Covered Persons known to be admitted to an inpatient facility.

SECTION 4
SUBCONTRACTOR AND CCO REQUIREMENTS

4.1 Communications with Members. Members are entitled to the full range of their Providers' opinions and counsel about the availability of Medically Necessary Services under the provisions of the MississippiCHIP Program Contract. Any contractual provisions, including gag clauses or rules, that restrict a Provider's ability to advise Members about Medically Necessary treatment options violate federal law and regulations. Subcontractor and CCO shall not prohibit or otherwise restrict Provider, when acting within the lawful scope of practice, from advising or advocating on behalf of a Member for the following:

(a) The Member's health status, medical care, or treatment options, including any alternative treatment that may be self-administered;

(b) Any information the Member needs in order to decide among all relevant treatment options;

(c) The risks, benefits, and consequences of treatment or non-treatment;

(d) The Member's right to participate in decisions regarding his or her health care, including the right to refuse treatment, and to express preferences about future treatment decisions; or

(e) Information regarding the nature of treatment options including those that may not reflect Subcontractor's or CCO's position or may not covered by Subcontractor or CCO.

Subcontractor and CCO shall not prohibit a Provider from advocating on behalf of a Member in any grievance system, utilization review process, or individual authorization process to obtain necessary health care services.

4.2 Prompt Payment. Subcontractor and/or CCO shall pay Provider pursuant to the MississippiCHIP Program Contract and applicable State and federal law and regulations, including but not limited to Miss. Code Ann. §83-9-5, 42 CFR §447.46, 42 CFR §447.45(d)(2), 42 CFR §447.45(d)(3), 42 CFR §447.45(d)(5) and 42 CFR §447.45(d)(6), as applicable and as may be amended from time to time. If a third party liability exists, payment of claims shall be determined in accordance with federal and/or State third party liability law and the terms of the MississippiCHIP Program Contract. Unless Subcontractor or CCO otherwise requests assistance from Provider, Subcontractor or CCO will be responsible for third party collections in accordance with the terms of the MississippiCHIP Program Contract.

4.3 No Incentives to Limit Medically Necessary Services. Neither Subcontractor nor CCO shall structure compensation provided to individuals or entities that conduct utilization management and concurrent review activities so as to provide incentives for the individual or entity to deny, limit, or discontinue Medically Necessary services to any Member.

4.4 Provider Discrimination Prohibition. Subcontractor and CCO shall not discriminate with respect to participation, reimbursement, or indemnification of a provider who is acting within the scope of the provider's license or certification under applicable State law, solely on the basis of such license or certification. Subcontractor and CCO shall not discriminate against Provider for serving high-risk Members or if Provider specializes in conditions requiring costly treatments. This provision shall not be construed as prohibiting Subcontractor or CCO from limiting a provider's participation to the extent necessary to meet the needs of Members. This provision also is not intended and shall not interfere with measures established by Subcontractor or CCO that are designed to maintain quality of care practice standards and control costs. Subcontractor and CCO shall not provide false or misleading information to any person or entity in an attempt to recruit Providers for Subcontractor's or CCO's network.

4.5 Termination, Revocation and Sanctions. In addition to its termination rights under the Agreement, Subcontractor and/or CCO shall have the right to revoke any functions or activities Subcontractor and/or CCO delegates to Provider under the Agreement or impose other sanctions consistent with the MississippiCHIP Program Contract if in Subcontractor's or CCO's reasonable judgment Provider's performance under the Agreement is inadequate. Subcontractor or CCO shall also have the right to suspend, deny, refuse to renew or terminate the subcontract in accordance with the terms of the MississippiCHIP Program Contract and applicable law and regulation. However, Subcontractor and CCO shall not exclude or terminate a Provider from participation in Subcontractor's or CCO's Provider Network due to the fact that the Provider has a practice that includes a substantial number of patients with expensive medical conditions, and shall not terminate a Provider for filing a Complaint, Grievance, or Appeal on a Member's behalf.

SECTION 5
OTHER REQUIREMENTS

5.1 Compliance with MississippiCHIP Program Contract. All tasks performed under the Agreement shall be performed in accordance with the requirements of the MississippiCHIP Program Contract, as applicable, as set forth in this Appendix, applicable provider manuals, and protocols, policies and procedures that Subcontractor or CCO has provided or delivered to Provider. The applicable provisions of the MississippiCHIP Program Contract are incorporated into the Agreement by

reference. Nothing in the Agreement or this Appendix relieves CCO of its responsibility under the MississippiCHIP Program Contract. If any provision of the Agreement is in conflict with provisions of the MississippiCHIP Program Contract, the terms of the MississippiCHIP Program Contract shall control and the terms of the Agreement in conflict with those of the MississippiCHIP Program Contract will be considered waived.

5.2 Monitoring. In accordance with 42CFR § 457.950, Subcontractor and/or CCO shall perform ongoing monitoring (announced or unannounced) of services rendered by Provider under the Agreement and shall perform periodic formal reviews of Provider according to a schedule established by the State, consistent with industry standards or State managed care organization laws and regulations or requirements under the MississippiCHIP Program Contract. As a result of such monitoring activities, and/or as a result of the inspecting, auditing and monitoring activities of DOM or other authorities pursuant to section 4.4 above, Subcontractor and/or CCO shall identify to Provider any deficiencies or areas for improvement mandated under the MississippiCHIP Program Contract and Provider and Subcontractor and/or CCO shall take appropriate corrective action within the relevant timeframe permitted, as applicable. Provider shall comply with any corrective action plan initiated by Subcontractor, CCO and/or required by the MississippiCHIP Program. In addition, Provider shall monitor and report the quality of services delivered under the Agreement and initiate a plan of correction where necessary to improve quality of care, in accordance with that level of care which is recognized as acceptable professional practice in the respective community in which Subcontractor, CCO and Provider practice and/or the performance standards established under the MississippiCHIP Program Contract.

5.3 Enrollment. The parties acknowledge and agree that DOM is responsible for enrollment, reenrollment and disenrollment of Members.

5.4 No Exclusivity. Nothing in the Agreement or this Appendix shall be construed as prohibiting or penalizing Provider for contracting with a managed care organization other than Subcontractor or CCO or as prohibiting or penalizing Subcontractor or CCO for contracting with other providers. The Subcontractor or CCO may not require Providers who agree to participate in the MississippiCHIP Program to contract with the Contractor's other lines of business.

5.5 Revoking Delegation. The parties agree that, prior to execution of the Agreement, Subcontractor and/or CCO evaluated Provider's ability to perform any duties delegated to Provider under the Agreement. Any delegated duties and reporting responsibilities shall be set forth in the Agreement or other written delegation agreement or addendum between the parties. In addition to its termination rights under the Agreement, Subcontractor and/or CCO shall have the right to revoke any functions, assignment authority, or activities Subcontractor and/or CCO delegates to Provider under the Agreement or impose other sanctions if in Subcontractor's and/or CCO's reasonable judgment Provider's performance under the Agreement is inadequate or untimely.

5.6 Rights of DOM. DOM shall have the right to invoke against Provider any remedy set forth in the MississippiCHIP Program Contract, including the right to require the termination of the Agreement, for each and every reason for which it may invoke such a remedy against Subcontractor or CCO or require termination of the MississippiCHIP Program Contract. Suspected Fraud and Abuse by Provider will be investigated by DOM.

Behavioral Health
Mississippi Medicaid Program
Regulatory Requirements Appendix

MISSISSIPPI MEDICAID PROGRAM

REGULATORY REQUIREMENTS APPENDIX

DOWNSTREAM PROVIDER

THIS MISSISSIPPI MEDICAID PROGRAM REGULATORY REQUIREMENTS APPENDIX (this "Appendix") supplements and is made part of the provider agreement (the "Agreement") between Redacted ("Subcontractor") and the provider named in the Agreement ("Provider").

SECTION 1
APPLICABILITY

This Appendix applies with respect to the provision of health care services that Provider provides directly to Covered Persons through Health Plan's (as defined herein) products or benefit plans including Mississippi Coordinated Access Network Program (the "MississippiCAN Program") as governed by the State's designated regulatory agencies. Provider has agreed to provide Covered Services to Covered Persons who receive their coverage pursuant to a contract between the State and Health Plan (the "State Contract" as defined herein). The State Contract and applicable State and federal law require that the provisions contained in this Appendix be part of the Agreement. In the event of a conflict between this Appendix and other appendices or any provision of the Agreement, the provisions of this Appendix shall control except with regard to benefit contracts outside the scope of this Appendix or unless otherwise required by law. In the event Subcontractor is required to amend or supplement this Appendix as required or requested by the State and requested by Health Plan, Provider agrees that Subcontractor shall be permitted to unilaterally initiate such additions, deletions or modifications. All provider agreements must be in writing and must include all specific activities and report responsibilities delegated to the Provider by Subcontractor.

SECTION 2
DEFINITIONS

Unless otherwise defined in this Appendix, all capitalized terms shall be as defined in the Agreement. For purposes of this Appendix, the following terms shall have the meanings set forth below; provided, however, in the event any definition set forth in this Appendix or the Agreement is inconsistent with any definitions under the MississippiCAN Program, the definitions shall have the meaning set forth under the MississippiCAN Program.

2.1 Action: Health Plan's decision to deny or limit authorization or payment (in whole or in part) for health care services, including new authorizations and previously authorized services; the reduction, suspension, or termination of a previously authorized service; or Health Plan's failure to provide services in a timely manner; failure to resolve Complaints, Grievances, or Appeals within the specified time frames.

2.2 Appeal: A request for review by Health Plan of an Action related to a Covered Person or Provider. In the case of a Covered Person, an Action may include determinations on the health care services a Covered Person believes he or she is entitled to receive, including delay in

providing, arranging for, or approving the health care services (such that a delay would adversely affect the health of the Covered Person). In the case of a Provider, the Action may include, but is not limited to, delay or non-payment for covered services.

2.3 Behavioral Health Services: Mental health and/or drug and alcohol abuse treatment services that are provided by the county intellectually delayed/developmentally delayed programs, the single county authority administrators, or other appropriately licensed health care practitioners.

2.4 CMS: Center for Medicare and Medicaid Services is an agency within the U.S. Department of Health & Human Services responsible for administration of several key federal health care programs.

2.5 Complaint: An expression of dissatisfaction received orally or in writing that is of a less serious or formal nature that is resolved within one (1) business day of receipt.

2.6 Covered Person: An individual who meets all of the eligibility requirements for Mississippi Medicaid and is currently enrolled with Health Plan for the provision of services under a MississippiCAN Program. A Covered Person may also be referred to as an Enrollee, Member or Customer under the Agreement.

2.7 Covered Services: Health care services or products for which a Covered Person is enrolled with Health Plan to receive coverage under the State Contract.

2.8 DOM: Division of Medicaid, Office of the Governor, State of Mississippi.

2.9 Early, Periodic, Screening, Diagnosis, and Treatment (EPSDT) Services: Defined by DOM to include:

a. Age appropriate, comprehensive health and development history that includes physician and mental health assessments along with counseling and anticipatory guidance and risk factor reduction interventions;
b. Calculation of Body Mass Index;
c. Growth measurements and head circumference;
d. Nutritional counseling;
e. Developmental surveillance and Developmental and autism Spectrum Disorders Screenings as appropriate;
f. Comprehensive unclothed exam;
g. Appropriate laboratory tests (including blood level assessment appropriate to age and risk);
h. Appropriate immunizations in accordance with Recommended Childhood and Adolescent Immunization Schedule adopted by DOM;
i. A vision assessment;
j. A hearing assessment;
k. A dental screening and/or referral to dental care;
l. Health education; and
m. Referrals for identified abnormalities.

2.10 Fraud and Abuse: Fraud is any type of intentional deception or misrepresentation made by an entity or person with the knowledge that the deception could result in some unauthorized benefit to the entity, him or herself, or some other person. The Fraud can be committed by many entities, including a vendor, a subcontractor, a provider, a State employee, or a Covered Person, among others. Abuse is any practice that is inconsistent with sound fiscal, business, or medical practices, and results in an unnecessary cost to the Medicaid program, a vendor, a subcontractor or Provider or in reimbursement for services that are not Medically Necessary or that fail to meet professionally recognized standards for health care.

2.11 Grievance: An expression of dissatisfaction about any matter or aspect of Health Plan or its operation, other than an Action as defined herein.

2.12 Health Plan: An appropriately licensed entity that has entered into a contract with Subcontractor, either directly or indirectly, under which Subcontractor provides certain administrative services for Health Plan pursuant to the State Contract. For purposes of this Appendix, Health Plan refers to Redacted of Mississippi, Inc.

2.13 Marketing: The activities that promote visibility and awareness for the MississippiCAN Program and Health Plan's participation in the program. All activities are subject to prior review and approval by DOM.

2.14 Medical Record: A single complete record, which documents the entire treatment plan developed for, and medical services received by, the Covered Person including inpatient, outpatient, referral services and emergency medical services whether provided by contracted Providers or non-contracted providers.

2.15 Mississippi Coordinated Access Network (MississippiCAN) Program: Mississippi Medicaid's coordinated care program for select Medicaid Beneficiaries.

2.16 Primary Care Provider (PCP): Any physician or health care practitioner or group operating within the scope of his or her licensure who is responsible for supervising, prescribing and providing primary care and primary case management services in the MississippiCAN Program, whose practice is limited to the general practice of medicine or who is an Internist, Pediatrician, Obstetrician, Gynecologist, Family Practitioner, General Practitioner, Certified Nurse Practitioners whose specialty is pediatrics, adult, family, certified nurse midwife, obstetrics/gynecology, or a physician assistant.

2.17 Prior Authorization: A determination to approve a Provider's request, pursuant to services covered in the MississippiCAN Program, to provide a service or course of treatment of a specific duration and scope to a Member prior to the initiation or continuation of the service.

2.18 Provider: A hospital, ancillary provider, physician group, individual physician or other healthcare provider who has entered into an Agreement.

2.19 Provider Network: The Panel of health service Providers with which Subcontractor and/or Health Plan contracts for the provision of covered services to Covered Persons and Non-Contracted Providers administering services to Covered Persons.

2.20 State: The State of Mississippi or its designated regulatory agencies.

2.21 State Contract: Health Plan's contract with the State for the purpose of providing and paying for Covered Services to Covered Persons enrolled in the MississippiCAN Program.

2.22 Third Party Resource: Any resource available to a Covered Person for the payment of medical expenses associated with the provision of covered services, other than those which are exempt under Title XIX of the Act, including but not limited to, insurers and workers' compensation plan.

SECTION 3
PROVIDER REQUIREMENTS

The MississippiCAN Program, through the State Contract and federal and State statutes and regulations, requires the Agreement to contain certain conditions that Health Plan, Subcontractor and Provider agree to undertake, which include the following:

3.1 Definitions Related to the Provision of Covered Services. Provider shall follow the applicable State Contract's requirements for the provision of Covered Services. Provider's decisions affecting the delivery of acute or chronic care services to Covered Persons shall be made on an individualized basis and in accordance with the following definitions:

(a) Emergency Medical Condition: A medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in any of the following: (1) placing the health of the individual (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; (2) serious impairment to body functions; or (3) serious dysfunction of any body organ or part.

(b) Emergency Services: Covered inpatient and outpatient services furnished by a provider who is qualified to furnish those health services and that are needed to evaluate or stabilize an Emergency Medical Condition.

(c) Medically Necessary Services: As set forth in the Social Security Act, Section 1905 (42 USC 1396d(a)), Medically Necessary Services are defined as services, supplies, or equipment provided by a licensed health care professional that are:

1. Appropriate and consistent with the diagnosis or treatment of the Covered Person's condition, illness, or injury;

2. In accordance with the standards of good medical practice consistent with the individual Covered Person's condition(s);

3. Not primarily for the personal comfort or convenience of the Member, family, or Provider;

4. The most appropriate services, supplies, equipment, or levels of care that can be safely and efficiently provided to the Covered Person;

5. Furnished in a setting appropriate to the Covered Person's medical need and condition and, when applied to the care of an inpatient, further mean that the Covered Person's medical symptoms or conditions require that the services cannot be safely provided to the Covered Person as an outpatient;

6. Not experimental or investigational or for research or education;

7. Provided by an appropriately licensed practitioner; and

8. Documented in the patient's record in a reasonable manner, including the relationship of the diagnosis to the service.

Medically Necessary Services may also be those services for children that are necessary to correct or ameliorate defects and physical and mental illnesses and conditions discovered during an interperiodic or periodic EPSDT screen, whether such services are covered or exceed the benefit limits in the Medicaid State Plan and Title 23 of Mississippi Administrative Code.

3.2 Provider Eligibility. Provider must be enrolled in the Mississippi Medicaid program and must use the same National Provider Identifier (NPI) number. Health Plan and Subcontractor will exclude from its network any provider who has been terminated or suspended from the Medicare or Medicaid program in any state.

3.3 Accessibility Standards. Provider shall provide for timely access for Covered Person appointments in accordance with the appointment availability requirements established under the State Contract, as further described in the applicable provider manual.

Type	Appointment Scheduling Time Frames
PCP (well care visit)	Not to exceed thirty (30) calendar days
PCP (routine sick visit)	Not to exceed seven (7) calendar days
PCP (urgent care visit)	Not to exceed twenty-four (24) hours
Specialists	Not to exceed forty-five (45) calendar days
Dental Providers (routine visits)	Not to exceed forty-five (45) calendar days
Dental Providers (urgent Care)	Not to exceed forty-eight (48) calendar days
Behavioral Health Providers (routine visit)	Not to exceed fourteen (14) calendar days
Behavioral Health Providers (urgent visit)	Not to exceed twenty-four (24) hours

Behavioral Health Providers (post-discharge from an acute psychiatric hospital when the Contractor is aware of the Member's discharge)	Not to exceed seven (7) calendar days
Urgent Care Providers	Not to exceed twenty-four (24) hours
Emergency Providers	Immediately (twenty-four (24) hours a day, seven (7) days a week) and without Prior Authorization

3.4 Hours of Operation; Appointments. Provider shall offer hours of operation that are no less than the hours of operation offered to commercial beneficiaries or comparable to Medicaid fee-for-service if Provider serves only Medicaid beneficiaries.

3.5 Hold Harmless. Except for any applicable cost-sharing requirements under the State Contract, Provider shall look solely to Subcontractor and Health Plan for payment of Covered Services provided to Covered Persons pursuant to the Agreement and the State Contract and hold the State, DOM, the U.S. Department of Health and Human Services and Covered Persons harmless in the event that Subcontractor and/or Health Plan cannot or will not pay for such Covered Services. In accordance with 42 CFR 447.15, as may be amended from time to time, the Covered Person is not liable to Provider for any services for which Subcontractor and/or Health Plan is liable and as specified under the State's relevant health insurance or managed care statutes, rules or administrative agency guidance. Provider shall not require any copayment or cost sharing for Covered Services provided under the Agreement unless expressly permitted under the State Contract. Provider shall also be prohibited from charging Covered Persons for missed appointments if such practice is prohibited under the State Contract or applicable law. Neither the State, DOM nor Covered Persons shall be in any manner liable for the debts and obligations of Subcontractor and/or Health Plan and under no circumstances shall Subcontractor, Health Plan, or any providers used to deliver services covered under the terms of the State Contract, charge Covered Persons for Covered Services.

Covered Person may be responsible for non-covered item(s) and/or service(s), only if the Provider ensures that written documentation in compliance with the Advance Beneficiary Notification (ABN) is received from the Covered Person that an item(s) or service(s) rendered is a non-covered item and/or service(s) and that the Covered Person will be financially responsible for the item(s) and/or service(s). If Subcontractor and/or Health Plan determines a Covered Person was charged for Covered Services inappropriately, such payment may be recovered, as applicable.

This provision shall survive any termination of the Agreement, including breach of the Agreement due to insolvency.

3.6 Indemnification. To the extent applicable to Provider in performance of the Agreement, Provider shall indemnify, defend protect, save and hold DOM and its employees and Covered Persons harmless from and against all injuries, deaths, losses, damages, claims, suits, liabilities, judgments, costs and expenses, including, without limitation, court costs, investigative fees and expenses and attorney fees, to the extent proximately caused by any negligent act or other intentional misconduct or omission of Provider, its agents, officers, employees or contractors

arising from the Agreement. DOM may waive this requirement for public entities if Provider is a state agency or sub-unit as defined by the State or a public health entity with statutory immunity. This clause shall survive the termination of the Agreement for any reason, including breach due to insolvency.

3.7 Provider Selection. To the extent applicable to Provider in performance of the Agreement, Provider shall comply with 42 CFR 438.214, as may be amended from time to time, which includes, but is not limited to the selection and retention of providers, credentialing and recredentialing requirements and nondiscrimination. If Subcontractor and/or Health Plan delegates credentialing to Provider, Subcontractor and Health Plan will provide monitoring and oversight and Provider shall ensure that all licensed medical professionals are credentialed in accordance with Health Plan's and the State Contract's credentialing requirements.

3.8 Restrictions on Referrals. Provider shall not make inappropriate referrals for designated health services to health care entities with which Provider or a member of Provider's family has a financial relationship, pursuant to federal anti-kickback and physician self-referral laws that prohibit such referrals.

3.9 Records Retention. As required under State or federal law or the State Contract, Provider shall maintain an adequate record keeping system for recording services, charges, dates and all other commonly accepted information elements sufficient to disclose the quality, quantity, appropriateness and timeliness of services rendered to Covered Persons. All financial records shall follow generally accepted accounting principles. Medical records and supporting management systems shall include all pertinent information related to the medical management of each Covered Person. Other records shall be maintained as necessary to clearly reflect all actions taken by Provider related to services provided under the State Contract. Such records shall be maintained for a period of not less than five (5) years from the close of the Agreement, or such other period as required by law. If records are under review or audit, they must be retained for a minimum of five (5) years following resolution of such action. Prior approval for the disposal of records must be requested and approved by Health Plan if the Agreement is continuous.

3.10 Records Access. Provider acknowledges and agrees that the State, DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel shall have complete access to all records pertaining to services provided to Covered Persons. Provider shall provide immediate access to facilities, records and supportive materials pertinent to the State Contract for State or Federal fraud investigators. Copies of requested documents shall be provided to the State, DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel or their designees free of charge.

3.11 Government Audit; Investigations. Provider acknowledges and agrees that the State and the U.S. Department of Health and Human Services, the Centers for Medicare & Medicaid Services, the Office of Inspector General, the General Accounting Office, or any other auditing agency or their authorized representatives, with prior approval by DOM, shall, at all reasonable time, with or without notice, or their authorized representatives shall have the right to inspect or otherwise evaluate the quality, appropriateness, and timeliness of services provided under the terms of the State Contract and any other applicable rules. There shall be no restrictions on the right of the State or federal government to conduct whatever inspections and audits are necessary

to assure quality, appropriateness or timeliness of services provided pursuant to the State Contract and the reasonableness of their costs.

3.12 Privacy; HIPAA. Provider shall comply with all applicable privacy rule and security rule provisions of the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), and associated implementing regulations, as may be amended from time to time, and shall safeguard information about Covered Persons in accordance with applicable federal and State privacy laws and rules including 42 CFR 438.224 and 42 CFR Part 431, Subpart F, as may be amended from time to time. Redacted agrees and shall require Provider to agree that confidential information, including but not limited to medical and other pertinent information relative to Covered Persons, shall not be disclosed to any person or organization for any purpose without the expressed, written authority of DOM or as otherwise required by law and that all such disclosures shall fully comply with HIPAA privacy and security standards.

3.13 Compliance with Law. Provider shall comply with all applicable federal and State laws and regulations, and all provisions of the State Contract, that pertain to a Covered Person's rights, including but not limited to the following to the extent applicable to Provider in performance of the Agreement:

(a) Title VI of the Civil Rights Act of 1964; Title XIX of the Social Security Act; Title IX of the Education Amendments of 1972 (regarding education programs and activities); the Age Discrimination Act of 1975; the Rehabilitation Act of 1973; The Genetic Information Non-Discrimination Act of 2008 (GINA); and the Americans with Disabilities Act, and their implementing regulations, as may be amended from time to time.

(b) 42 CFR 434 and 42 CFR 438.6, as may be amended from time to time.

(c) All relevant federal and State statutes, regulations and orders related to equal opportunity in employment, including but not limited to compliance with E.O. 11246, "Equal Employment Opportunity," as amended by E.O. 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

(d) All federal and State professional and facility licensing and accreditation requirements/standards that apply to the services Redacted and Provider perform pursuant to the Agreement, including but not limited to:

1. All applicable standards, orders or requirements issued under Section 306 of the Clean Air Act (42 USC 1857 (h)). Section 508 of the Clean Water Act (33 USC 1368), Executive Order 11738, and Environmental Protection Agency (EPA) regulations (40) CFR Part 15), which prohibit the use of facilities included on the EPA list of violating facilities. Any violations must be reported to DSHS, DHHS, and the EPA;

2. Any applicable mandatory standards and policies relating to energy

efficiency that are contained in the State Energy Conservation Plan, including the Energy Policy & conservation Act (Pub. L. 94-165), and issued in compliance with the Federal Energy Policy & Conservation Act.

3. Those specified for laboratory services in the Clinical Laboratory Improvement Amendments (CLIA). All laboratory service sites must have a CLIA certificate of registration or waiver, and a CLIA identification number.

4. Section 1128B(d)(1) of the Balanced Budget Act of 1997; and,

5. Any other requirements associated with the receipt of federal funds.

3.14 Physician Incentive Plans. In the event Provider participates in a physician incentive plan ("PIP") under the Agreement, Provider agrees that such PIPs must comply with 42 CFR 417.479, 42 CFR 438.6(h), 42 CFR 422.208, and 42 CFR 422.210, as may be amended from time to time. Subcontractor, Health Plan nor Provider may make a specific payment directly or indirectly under a PIP to a physician or physician group as an inducement to reduce or limit Medically Necessary services furnished to an individual Covered Person. PIPs must not contain provisions that provide incentives, monetary or otherwise, for the withholding of services that meet the definition of Medical Necessity.

3.15 Lobbying. Provider agrees to comply with the following requirements related to lobbying:

(a) Prohibition on Use of Federal Funds for Lobbying: By signing the Agreement, Provider certifies to the best of Provider's knowledge and belief, pursuant to 31 U.S.C. Section 1352 and 45 CFR Part 93, as may be amended from time to time, that no federally appropriated funds have been paid or will be paid to any person by or on Provider's behalf for the purpose of influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

(b) Disclosure Form to Report Lobbying: If any funds other than federally appropriated funds have been paid or will be paid to any person for the purpose of influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment or modification of any federal contract, grant, loan, or cooperative agreement and the value of the Agreement exceeds $100,000, Provider shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3.16 Excluded Individuals and Entities. Provider certifies that neither it nor any of its employees, principals, nor any providers, subcontractors or consultants or persons with an ownership or controlling interest in the Provider (an owner including the Provider himself or herself), or an agent or managing employee of the Provider, with whom Provider contracts and who are providing items or services that are significant and material to Provider's obligations under the Agreement is:

(a) excluded from participation in federal health care programs under either Section 1128 or section 1128A of the Social Security Act; or

(b) debarred, suspended or otherwise excluded from participating in procurement activities under the Federal Acquisition Regulation or from participating in nonprocurement activities under regulations issued under Executive Order no. 12549 or under guidelines implementing Executive Order No. 12549; or an affiliate, as defined in the Federal Acquisition Regulation, of such a person.

Provider acknowledges and agrees that payment will not be made for any items or Covered Services provided by an excluded individual pursuant to 42 CFR 1001.1901(b) and is obligated to screen all employees, contractors, and subcontractors for exclusion as required under applicable State and Federal laws. Additionally, Provider acknowledges that pursuant to 42 CFR 1003.102(a)(2) civil monetary penalties may be imposed against Provider if he or she employs or enters into contracts with excluded individuals or entities to provide items or Covered Services to Covered Persons under this Agreement. Provider agrees not to employ or subcontract with individuals or entities whose owner, those with a controlling interest, or managing employees are on a State or Federal exclusion list to provide items or Covered Services under this Agreement. Provider shall immediately report to Subcontractor and/or Health Plan any exclusion information discovered. Provider can search the HHS-OIG website, at no cost, by the names of any individuals or entities. The database is called LEIE and can be accessed at http://www.oig.hhs.gov/fraud/exclusions.asp. The GSA EPLS/SAM database can be accessed at https://www.sam.gov. Applicable state exclusion databases can be accessed through the State's Medicaid website. Subcontractor and Health Plan will terminate the Agreement immediately and exclude from its network any provider who has been excluded from federal health care programs or terminated from the Medicare or the Medicaid program in any state. Subcontractor and Health Plan may also terminate the Agreement if Provider's owners, agents, or managing employees are found to be excluded on a State or Federal exclusion list.

3.17 Disclosure. Provider shall cooperate with Subcontractor and Health Plan in disclosing information DOM may require related to ownership and control, significant business transactions, and persons convicted of crimes in accordance with 42 CFR Part 455 and shall provide information upon request. Provider shall submit information related to ownership and control of subcontractors or wholly owned suppliers within thirty-five (35) calendar days of a request for such information.

By executing this Agreement, Provider certifies that neither Provider nor any of its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in any State or federal health care program or from participating in

transactions by any State or federal department or agency. Subcontractor and/or Health Plan will terminate the Agreement upon becoming aware or receiving notice from DOM, whichever is earlier, that Provider is or has been excluded from participation in any State or federal health care program or by any State or federal agency.

3.18 Cultural Competency. Provider shall participate in Subcontractor and Health Plan's and the State's efforts to promote the delivery of services in a culturally competent manner to all Covered Persons, including those with limited English proficiency and diverse cultural and ethnic backgrounds and shall provide interpreter services in a Covered Person's primary language and for the hearing impaired for all appointments and emergency services. Provider shall provide information to Covered Persons regarding treatment options and alternatives, as well as information on complaints and appeals, in a manner appropriate to the Covered Person's condition and ability to understand.

3.19 Marketing. As required under State or federal law or the applicable State Contract, any marketing materials developed and distributed by Provider as related to the performance of the Agreement must be submitted to Health Plan for submission to DOM for prior approval.

3.20 Fraud, Waste and Abuse Prevention. Provider shall cooperate fully with Subcontractor and Health Plan's policies and procedures designed to protect program integrity and prevent and detect potential or suspected fraud, waste, and abuse in the administration and delivery of services under the State Contract and shall cooperate and assist DOM and any other State or federal agency charged with the duty of preventing, identifying, investigating, sanctioning or prosecuting suspected fraud, waste, and abuse in state and/or federal health care programs.

In accordance with Health Plan's policies and the Deficit Reduction Act of 2005 (DRA), Provider shall have written policies for its employees, contractors or agents that: (a) provide detailed information about the federal False Claims Act (established under sections 3729 through 3733 of title 31, United States Code); (b) cite administrative remedies for false claims and statements (established under chapter 38 of title 31, United States Code) and whistleblower protections under federal and state laws; (c) reference state laws pertaining to civil or criminal penalties for false claims and statements; and (d) with respect to the role of such laws in preventing and detecting fraud, waste, and abuse in federal health care programs (as defined in section 1128B(f)), include as part of such written policies, detailed provisions regarding Provider's policies and procedures for detecting and preventing fraud, waste, and abuse. Provider agrees to train its staff on the aforesaid policies and procedures.

3.21 Data; Reports. Provider shall cooperate with and release to Subcontractor and Health Plan any information necessary for Subcontractor and Health Plan to perform its obligations under the State Contract to the extent applicable to Provider in performance of the Agreement, including the timely submission of reports and information required by Subcontractor and Health Plan. Such reports shall include child health check-up reporting, if applicable, as well as complete and accurate encounter data in accordance with the requirements of Subcontractor and Health Plan and the State.

3.22 Encounter Data. Provider agrees to cooperate with Subcontractor and Health Plan to comply with Subcontractor and Health Plan's obligation to prepare encounter data submissions, reports, and clinical information including, without limitation, child and adolescent health check-up reporting, EPSDT encounters, and cancer screening encounters, as applicable, and such other reporting regarding Covered Services as may be required under the State Contract.

3.23 Claims Information. Provider shall promptly submit to Subcontractor or Health Plan the information needed to make payment and shall identify third party liability coverage, including Medicare and other insurance, and if applicable seek such third party liability payment before submitting claims to Subcontractor or Health Plan. Provider understands and agrees that each claim Provider submits to Subcontractor constitutes a certification that the claim is true and accurate to the best of Provider's knowledge and belief and that the Covered Services are 1) Medically Necessary and 2) have been provided to the Covered Person prior to submitting the claim.

Effective July 1, 2014, Provider must submit claims within six (6) months from the date of service. Claims filed within the appropriate time frame but denied may be resubmitted to the Contractor within ninety (90) calendar days from the date of denial

3.24 Reserved.

3.25 Licensure. Provider represents that it is currently licensed and/or certified under applicable State and federal statutes and regulations and by the appropriate State licensing body or standard-setting agency, as applicable. Provider represents that it is in compliance with all applicable State and federal statutory and regulatory requirements of the Medicaid program and that it is eligible to participate in the Medicaid program. Provider represents that it does not have a Medicaid provider agreement with DOM that is terminated, suspended, denied, or not renewed as a result of any action of DOM, CMS, HHS, or the Medicaid Fraud Control Unit of the State's Attorney General. Provider shall maintain at all times throughout the term of the Agreement all necessary licenses, certifications, registrations and permits as are required to provide the health care services and/or other related activities delegated to Provider by Redacted under the Agreement. If at any time during the term of the Agreement, Provider is not properly licensed as described in this Section, Provider shall discontinue providing services to Covered Persons.

3.26 Quality; Utilization Management. Pursuant to any applicable provider manuals and related protocols, or as elsewhere specified under the Agreement, Provider agrees to cooperate with Subcontractor and Health Plan's quality improvement and utilization review and management activities. This shall include, but not be limited to, participation in any internal and external quality assurance, utilization review, peer review, and grievance procedures established by Subcontractor and Health Plan or as required under the State Contract to ensure that Covered Persons have due process for their complaints, grievances, appeals, fair hearings or requests for external review of adverse decisions made by Redacted or Provider. Provider shall adhere to the quality assurance and utilization review standards of the MississippiCAN Program and shall monitor quality and initiate corrective action to improve quality consistent with the generally accepted level of care.

3.27 Non-Discrimination. Covered Persons must be provided Covered Services without regard to race, color, creed, sex, religion, age, national origin, ancestry, marital status, sexual orientation, language, health status, disease or pre-existing condition (including genetic information), anticipated need for health care or physical or mental handicap, except where medically indicated. Examples of prohibited practices include, but are not limited to, the following:

(a) Denying or not providing a Covered Person any Medicaid Covered Service. Health care and treatment necessary to preserve life must be provided to all Covered Persons who are not terminally ill or permanently unconscious, except where a competent Covered Person objects to such care on his/her own behalf.

(b) Subjecting a Covered Person to segregated, separate, or different treatment, including a different place or time from that provided to other Covered Persons or public or private patients, in any manner related to the receipt of any Medicaid Covered Service, except where Medically Necessary.

(c) The assignment of times or places for the provision of services on the basis of the race, color, creed, religion, age, sex, national origin, ancestry, marital status, sexual orientation, income status, program membership, language, health status, disease or pre-existing condition, anticipated need for health care or physical or mental disability of the Covered Persons to be served.

3.28 Advance Directives. Provider shall comply with the advance directives requirements set forth in the Uniform Health-Care Decisions Act, Section 41-41-215 of the Mississippi Code.

3.29 National Provider ID (NPI). Provider shall obtain a National Provider Identification Number (NPI) and when filing claims with Redacted, the NPI used is the same NPI used when filing claims with DOM.

3.30 Termination. In the event of termination of the Agreement, Provider shall promptly supply to Subcontractor and Health Plan all information necessary for the reimbursement of any outstanding Medicaid claims.

3.31 Complaints; Grievances and Appeals. Information on how Provider or Provider's authorized representative can submit complaints and file grievances and appeals, and the resolution process, is contained in the applicable provider manual.

3.32 Health Care Acquired/Preventable Conditions. Provider agrees that no payment shall be made for the provision of medical assistance for health care acquired conditions and other provider preventable conditions as may be identified by the State. As a condition of payment, Provider shall identify and report to Subcontractor any provider preventable conditions in accordance with 42 CFR Part 438, including but not limited to 438.6(f)(2)(i).

3.33 Quality and Utilization Management Program. Provider shall cooperate with Subcontractor and Health Plan in meeting the Quality Management and Utilization Management Program standards outlined in the State Contract.

3.34 Referrals. Provider shall make referrals for social, vocational, education or human services when a need for such service is identified.

3.35 Insolvency. In the event Subcontractor and/or Health Plan becomes insolvent or unable to pay Provider, Provider shall not seek compensation for services rendered from the State, DOM, or their officers, Agents, or employees, or the Covered Persons or their eligible dependents.

3.36 Third Party Resources. Provider will report all third party resources to Subcontractor and Health Plan identified through the provision of medical services.

3.37 Compliance with Mississippi Employment Protection Act (MEPA). Provider represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act, Section 71-11-1 et set of the Mississippi Code Annotated (Supp. 2008), and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. Provider agrees to maintain records of such compliance and, upon request of the State and approval of the Social Security Administration or Department of Homeland Security, where required, to provide a copy of each such verification to the State. Provider further represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of the State of Mississippi. Provider understands and agrees that any breach of these warranties may subject Provider to the following: (a) termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public, or (b) the loss of any license, permit, certification or other document granted to Provider by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year, or (c) both.

3.38 Capitated Providers. If Provider is capitated and terminates its agreement with Subcontractor, for any reason, Provider will provide services to Covered Persons assigned to Provider up to the end of the month in which the effective date of termination falls.

3.39 Certification on Relationship to State, DOM and CMS. Provider certifies that no officer, director, employee, subcontractor or agent of Provider, or person with an ownership or control interest in Provider, is also employed by, or is a public official of, the State of Mississippi or any of its agencies, DOM or CMS.

3.40 Funding. Provider recognizes that the obligation of DOM to proceed under its Contract with CCO is conditioned upon the appropriation of funds by the Mississippi State Legislature and the receipt of State and/or Federal funds. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, either through the failure of the

Federal government to provide or the State of Mississippi to appropriate funds, or the discontinuance, or material alteration of the program under which the funds were provided or if funds are not otherwise available to DOM, DOM has the right upon ten (10) working days written notice to CCO to terminate the Contract.

3.41 Gratuities. Provider represents that it has not violated, is not violating, and promises that it will not violate the prohibitions against gratuities set forth in Section 6-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

3.42 Assignment/Delegation. Provider shall not assign or delegate the Agreement without the express written consent of CCO or DOM. The transfer of five percent (5%) or more of the beneficial ownership in Provider at any time during the term of this Agreement shall be deemed an assignment under this Agreement.

3.43 Notice of Legal Action. Immediately upon obtaining knowledge or receiving notice of any legal action or notice listed below, Provider shall provide to CCO written notice of such legal action or notice and, upon request by CCO, a complete copy of all filings and other documents generated in connection with any such legal action:

(a) Any action, suit or counterclaim filed against Provider;

(b) Any regulatory action, or proposed action, respecting Provider's business or operations;

(c) Any notice received by Provider from the Department of Insurance or the State Health Officer;

(d) The filing of a petition in bankruptcy by or against Provider, or the insolvency of Provider;

(e) The conviction of any person who has an ownership or control interest in Provider, or who is an agent or managing employee of Provider, of a criminal offense related to that person's involvement in any program under Medicare, Medicaid, or Title XX of the Social Security Act; or

(f) A malpractice action against any Provider delivering service under an agreement.

3.44 Federal and State Funds Liability. Providers acknowledges and agrees that payments made to Provider for services provided under the Agreement are derived from federal and State funds and that any false claim or statement in documents or any concealment of material fact related to such services may be a cause for sanctions and prosecution under applicable federal and State laws. Provider shall be subject to all laws applicable to individuals and entities receiving State and federal funds and may be held civilly or criminally liable to both CCO and DOM in the event of nonperformance, misrepresentation, fraud, or abuse related to services provided pursuant to the State Contract. Provider recognizes that payments made to the Provider are derived from federal and State funds, and are contingent upon and subject to availability and receipt of funds.

3.45 Insurance Requirements. As applicable, Provider shall secure and maintain during the term of the Agreement insurance appropriate to the services to be performed under the Agreement. Provider shall require that its providers secure and maintain during the term of the Agreement general liability insurance, professional liability insurance, and workers' compensation insurance for all employees connected with the provision of services under the Agreement. Such workers compensation insurance shall comply with Mississippi Workers' Compensation Laws. Such comprehensive general liability insurance and professional liability insurance shall provide coverage in an amount established by CCO pursuant to the Agreement or as required under the State Contract.

SECTION 4
ADDITIONAL PROVIDER REQUIREMENTS FOR SPECIFIC ACTIVITIES

4.1 Behavioral Health Providers. Behavioral health Providers shall ensure that all Covered Persons receiving inpatient psychiatric services are scheduled for outpatient follow-up and/or continuing treatment prior to discharge from the inpatient psychiatric hospital if the Provider is aware of the Covered Person's inpatient hospitalization status. Behavioral health Providers will be provided daily reports identifying Covered Persons known to be admitted to an inpatient facility.

4.2 PCP Responsibilities. Providers acting as PCPs shall meet the following requirements:

(a) PCPs who serve Covered Persons under the age of twenty-one (21) are responsible for conducting all EPSDT screens for individuals on their Panel under the age of twenty-one (21). Should the PCP be unable to conduct the necessary EPSDT screens, the PCP is responsible for arranging to have the necessary EPSDT screens conducted by another network Provider and ensure that all relevant medical information, including the results of the EPSDT screens, are incorporated into the Covered Person's PCP Medical Record.

(b) PCPs who serve Members under the age of twenty-one (21) report encounter data associated with EPSDT screens, using a format approved by DOM, to the Contractor within ninety (90) calendar days from the date of service.

(c) PCPs are responsible for contacting new Members identified in the quarterly encounter lists sent by the Contractor that indicate who has not had an encounter during the first six (6) months of Enrollment. The PCP shall:

1. Contact Covered Persons identified in the quarterly Encounter lists as not complying with EPSDT periodicity and immunization schedules for children;

2. Identify to Subcontractor any such Covered Persons who have not come into compliance with the EPSDT periodicity and immunization schedules within one (1) month of such notification to the site by Subcontractor; and

3. Document the reasons for noncompliance, where possible, and to document its efforts to bring the Covered Person's care into compliance with the standards.

4.3 Specialists as PCPs. Covered Persons with disabling conditions, chronic illnesses, or child(ren) with special health care needs may request that their PCP be a specialist. The designation of a specialist as a PCP must be pursuant to a treatment plan approved by Subcontractor and Health Plan, in consultation with the PCP to which the Covered Person is currently assigned, the Covered Person and, as appropriate, the specialist.

The specialist as a PCP shall provide or arrange for all primary care, including routine preventive care, and to provide those specialty medical services consistent with the Covered Person's disabling condition, chronic illness, or special health care need in accordance with Subcontractor and Health Plan's standards and within the scope of the specialty training and clinical expertise.

The specialist as a PCP shall have admitting privileges at a hospital in Health Plan's network.

SECTION 5
HEALTH PLAN AND SUBCONTRACTOR REQUIREMENTS

5.1 Prompt Payment. Subcontractor or Health Plan shall pay Provider pursuant to the State Contract and applicable State and federal law and regulations, including but not limited to Mississippi Code Section 83-9-5, 42 CFR 447.46, 42 CFR 447.45(d)(2), 42 CFR 447.45(d)(3), 42 CFR 447.45(d)(5) and 42 CFR 447.45(d)(6), as applicable and as may be amended from time to time. If a third party liability exists, payment of claims shall be determined in accordance with federal and/or State third party liability law and the terms of the State Contract. Unless Subcontractor or Health Plan otherwise requests assistance from Provider, Subcontractor or Health Plan will be responsible for third party collections in accordance with the terms of the State Contract.

5.2 No Incentives to Limit Medically Necessary Services. Subcontractor and Health Plan shall not structure compensation provided to individuals or entities that conduct utilization management and concurrent review activities so as to provide incentives for the individual or entity to deny, limit, or discontinue Medically Necessary services to any Covered Person.

5.3 Provider Discrimination Prohibition. Subcontractor and Health Plan shall not discriminate with respect to participation, reimbursement, or indemnification of a provider who is acting within the scope of the provider's license or certification under applicable State law, solely on the basis of such license or certification. Subcontractor and Health Plan shall not discriminate against Provider for serving high-risk Covered Persons or if Provider specializes in conditions requiring costly treatments. This provision shall not be construed as prohibiting Subcontractor and/or Health Plan from limiting a provider's participation to the extent necessary to meet the needs of Covered Persons. This provision also is not intended and shall not interfere with measures established by Redacted that are designed to maintain quality of care practice standards and control costs.

5.4 Communications with Covered Persons. Covered Persons are entitled to the full range of their Providers' opinions and counsel about the availability of Medically Necessary Services under the provisions of the State Contract. Any contractual provisions, including gag clauses or rules, that restrict a Provider's ability to advise Covered Persons about Medically Necessary treatment options violate federal law and regulations.

Subcontractor and Health Plan shall not prohibit or otherwise restrict Provider, when acting within the lawful scope of practice, from advising or advocating on behalf of a Covered Person for the following:

(a) The Covered Person's health status, medical care, or treatment options, including any alternative treatment that may be self-administered;

(b) Any information the Covered Person needs in order to decide among all relevant treatment options;

(c) The risks, benefits, and consequences of treatment or non-treatment;

(d) The Covered Person's right to participate in decisions regarding his or her health care, including the right to refuse treatment, and to express preferences about future treatment decisions; or

(e) Information regarding the nature of treatment options including those that may not reflect Redacted's position or may not be covered by Redacted.

Subcontractor and Health Plan also shall not prohibit a Provider from advocating on behalf of a Covered Person in any grievance system, utilization review process, or individual authorization process to obtain necessary health care services.

5.5 Termination, Revocation and Sanctions. In addition to its termination rights under the Agreement, Subcontractor and Health Plan shall have the right to revoke any functions or activities Subcontractor and/or Health Plan delegates to Provider under the Agreement or impose other sanctions consistent with the State Contract if in Subcontractor and/or Health Plan's reasonable judgment Provider's performance under the Agreement is inadequate. Subcontractor and Health Plan shall also have the right to suspend, deny, refuse to renew or terminate Provider in accordance with the terms of the State Contract and applicable law and regulation. However, Subcontractor and Health Plan shall not exclude or terminate a Provider from participation in Subcontractor and/or Health Plan's Provider Network due to the fact that the Provider has a practice that includes a substantial number of patients with expensive medical conditions, and shall not terminate a Provider for filing a Complaint, Grievance, or Appeal on a Covered Person's behalf.

5.6 Rights of DOM. DOM shall have the right to invoke against Provider any remedy set forth in the State Contract, including the right to require the termination of the Agreement, for each and every reason for which it may invoke such a remedy against CCO or require termination of the State Contract. Suspected Fraud and Abuse by Provider will be investigated by DOM.

SECTION 6
OTHER REQUIREMENTS

6.1 Compliance with State Contract. All tasks performed under the Agreement shall be performed in accordance with the requirements of the applicable State Contract, as set forth in this Appendix, applicable provider manuals, and protocols, policies and procedures that Subcontractor and/or Health Plan have provided or delivered to Provider. The applicable provisions of the State Contract are incorporated into the Agreement by reference. Nothing in the Agreement relieves Health Plan of its responsibility under the State Contract. If any provision of the Agreement is in conflict with provisions of the State Contract, the terms of the State Contract shall control and the terms of the Agreement in conflict with those of the State Contract will be considered waived.

6.2 Monitoring. Subcontractor and/or Health Plan shall perform ongoing monitoring (announced or unannounced) of services rendered by Provider under the Agreement and shall perform periodic formal reviews of Provider according to a schedule established by the State, consistent with industry standards or State managed care organization laws and regulations or requirements under the State Contract. As a result of such monitoring activities, Subcontractor and/or Health Plan shall identify to Provider any deficiencies or areas for improvement mandated under the State Contract and Provider and Subcontractor and/or Health Plan shall take appropriate corrective action. Provider shall comply with any corrective action plan initiated by Subcontractor and/or Health Plan and/or required by the MississippiCAN Program. In addition, Provider shall monitor and report the quality of services delivered under the Agreement and initiate a plan of correction where necessary to improve quality of care, in accordance with that level of care which is recognized as acceptable professional practice in the respective community in which Subcontractor, Health Plan and Provider practice and/or the performance standards established under the State Contract.

6.3 Enrollment. The parties acknowledge and agree that DOM is responsible for enrollment, reenrollment and disenrollment of Covered Persons.

6.4 No Exclusivity. Nothing in the Agreement or this Appendix shall be construed as prohibiting or penalizing Provider for contracting with a managed care organization other than Subcontractor and/or Health Plan or as prohibiting or penalizing Subcontractor and Health Plan for contracting with other providers. Redacted may not require Providers who agree to participate in the MississippiCAN Program to contract with Redacted's other lines of business.

6.5 Delegation. The parties agree that, prior to execution of the Agreement, Subcontractor and/or Health Plan evaluated Provider’s ability to perform any duties delegated to Provider under the Agreement. Any delegated duties and reporting responsibilities shall be set forth in the Agreement or other written delegation agreement or addendum between the parties. Subcontractor and Health Plan shall have the right to revoke any functions or activities Subcontractor and/or Health Plan delegates to Provider under the Agreement if in Subcontractor and/or Health Plan’s reasonable judgment Provider’s performance under the Agreement is inadequate.

Dental Vendor
Provider Agreement

DENTAL VENDOR, INC.
DENTAL PROVIDER
AGREEMENT

THIS AGREEMENT (this "Agreement") is made and entered into as of _____, 20 ("Commencement Date"), by and between DENTAL VENDOR. its subsidiaries, and its affiliated companies (collectively "DENTAL VENDOR"), and _____ (the "Practice").

The parties hereby agree as follows:

ARTICLE 1.
DEFINITIONS

Whenever used in this Agreement, the following terms shall have the definitions contained in this Article:

1.1 CoveredServices are those dental services, supplies and benefits for which an Enrollee is entitled to receive coverage under a Dental Plan. Once an Enrollee reaches his/her maximum allowable amount or frequency of Covered Services under the Dental Plan, those additional services shall not be considered Covered Services, and Enrollee shall be responsible for payment to the Practice for all such services.

1.2 DentalPlan is any one of the various dental plans under which a Payor is obligated to provide coverage of Covered Services for an Enrollee. Such Dental Plans are as set forth in Exhibit F.

1.3 DentalPractitionerManual is the manual provided to each Practice, as such document is updated, amended and/or renamed from time to time.

1.4 Enrollee is any individual who is eligible and enrolled in a Dental Plan to receive coverage for Covered Services.

1.5 EnrolleeExpenses are any amounts that are the Enrollee's responsibility to pay the Practice in accordance with the Dental Plan, including copayments, coinsurance and deductibles.

1.6 FeeScheduleAmount is the maximum amount the Practice may receive as payment for Covered Services, including Enrollee Expenses, as set forth in Exhibit A, B, and/or D, as appropriate.

1.7 GovernmentAgency means any local, state or federal government agency or entity with regulatory or other authority over DENTAL VENDOR, Payor, the Practice, Dental Plans, or this Agreement

1.8 ParticipatingDentist is any person who (a) is licensed as a Doctor of Dental Surgery (D.D.S.) or Doctor of Dental Medicine (D.M.D.) in accordance with applicable State and Federal Law and practices as a dentist in accordance with State law or, if applicable, is board certified or board eligible in a specialty of dental care, and practices as a dentist in accordance with applicable State and Federal Law in such specialty, (b) has successfully completed DENTAL VENDOR's credentialing process; and (c) is an employee or contractor of the Practice.

1.9 Payor is the entity or person, which may be DENTAL VENDOR or another entity that has the financial responsibility for payment of Covered Services.

1.10 Protocols are programs, protocols, standard operating procedures, Plan guidelines, and administrative procedures adopted by DENTAL VENDOR or a Payor to be followed by the Practice in providing services and doing business under this Agreement. Protocols may include, but are not limited to, credentialing and recredentialing processes, utilization management, processes, quality improvement, peer review, Enrollee grievance, inspection of Practice records or other similar programs or procedures.

1.11 StateandFederalLaw means the laws and regulations of a State or of the United States, which are applicable to DENTAL VENDOR, a Payor, the Practice, Dental Plans, or this Agreement.

ARTICLE 2. NETWORK PARTICIPATION

2.1 DentalNetworks. The Practice and the Participating Dentists shall participate in those Dental Plan-specific panels of providers designated by DENTAL VENDOR ("Provider Panels"). This Agreement applies to those facilities of the Practice and to those Participating Dentists listed in Exhibit G to this Agreement. If the Practice begins providing services at any other location for any reason, the Practice will provide written notice to DENTAL VENDOR within 30 days, and such location will be added to this Agreement unless DENTAL VENDOR objects within a reasonable period of time. Nothing in this Agreement shall be deemed to require DENTAL VENDOR to perform any specific marketing activities on behalf of the Practice or utilize the Practice for any Enrollees in a particular Provider Panel.

ARTICLE 3. DUTIES OF PRACTICE

3.1 CoveredServices. The Practice agrees to provide Covered Services to Enrollees in accordance with the applicable Dental Plan, State and Federal Law, the requirements of any Government Agency, and the terms of this Agreement.

3.2 EligibilityVerification. The Practice is responsible for determining whether an individual is an Enrollee and, therefore, entitled to receive Covered Services. The Practice shall comply with DENTAL VENDOR's procedures for prior verification of Enrollee eligibility and agrees that failure to follow such procedures may result in forfeiture of payment for Covered Services. If the Practice provides services to an individual who is later determined not to be an Enrollee at the time the services were provided, those services are not eligible for payment under this Agreement, and the Practice may then directly bill the responsible party for such services, if permitted by applicable law. DENTAL VENDOR retains the right of final verification of eligibility, and, where permitted by applicable State and Federal law, this verification supersedes any previous verification of eligibility and/or claims payment review.

3.3 Nondiscrimination. The Practice will accept Enrollees as new patients and provide Covered Services in the same manner as such services are provided to other patients of the Practice and Participating Dentists, except as required pursuant to this Agreement. The Practice shall not discriminate against any Enrollee on the basis of source of payment or in any manner in regard to access to, and the provision of, Covered Services. The Practice shall not unlawfully discriminate against any Enrollee, employee or applicant for employment on the basis of race, religion, color, national origin, ancestry, disability, medical condition, marital status, age, sexual orientation or gender.

3.4 ProfessionalStandards. All Covered Services shall be provided by duly licensed, certified or otherwise authorized professional personnel in accordance with: (a) generally accepted and professionally recognized practices and standards of dental practice, (b) State and Federal Law, (c) the Principles of Ethics of the American Dental Association, (d) applicable state dental board or Board of Dentistry; (e) Dental Practitioner Manual; and (f) this Agreement. To the extent feasible and permitted by law, the Practice will utilize duly licensed dental hygienists as are available and appropriate for effective and efficient delivery of care.

3.5 Licensure. The Practice and each Participating Dentist shall maintain in good standing at all times during the term of this Agreement any and all licenses, certificates and/or approvals required by State and Federal Law to provide Covered Services to Enrollees. The Practice shall immediately notify DENTAL VENDOR of any changes to the licensure status of the Practice or any Participating Dentists.

3.6 AccessibilityandAvailability. The Practice shall ensure that Enrollees have timely and reasonable access to Covered Services and shall at all times be reasonably available to Enrollees.

3.7 DentalPractitionerManual. The Practice and Participating Dentists shall comply with the Dental Practitioner Manual, which is incorporated herein by reference. The Practice shall make the Dental Practitioner Manual available to all Participating Dentists. The Dental Practitioner Manual may be amended, revised, supplemented or replaced from time to time by DENTAL VENDOR. DENTAL VENDOR will provide written notice of any material changes to the Dental Practitioner Manual. A breach of the Dental Practitioner Manual by the Practice or Participating Dentist shall be considered a breach of this Agreement

3.8 Protocols. The Practice and each Participating Dentist shall cooperate and comply with all DENTAL VENDOR and Payor Protocols, including DENTAL VENDOR's credentialing and re-credentialing processes. The Protocols will be made available to the Practice and may be included in the Dental Practitioner Manual or other similar document. DENTAL VENDOR may change the Protocols from time to time and will provide written notice of any material changes to the Dental Practitioner Manual.

a. If DENTAL VENDOR is delegating the credentialing function to the Practice for its Participating Dentists, then the Practice shall execute a Delegated Credentialing Agreement attached hereto as Exhibit H. In addition, such Practice shall:

(a) develop, implement, and maintain, written policies and procedures for the review, selection, and evaluation of Participating Dentists, including, minimum professional requirements for health care providers, a review of

any suspensions or revocations of the Participating Dentist's license, and any liability claims made against the Participating Dentist; and a formal process for re-evaluating each Participating Dentist on an ongoing basis; and

(b) ensure that each Participating Dentist is properly licensed under applicable federal and state law and regulation.

3.9 ParticipatingDentists. The Practice shall ensure that Participating Dentists comply with all applicable requirements set forth in this Agreement. The Practice shall compensate Participating Dentists for the provision of Covered Services to Enrollees and shall ensure that Participating Dentists look solely to the Practice for compensation for Covered Services. No Participating Dentist may treat an Enrollee unless and until he/she has completed DENTAL VENDOR's credentialing process. Prior to execution of this Agreement, the Practice shall provide DENTAL VENDOR with a complete list of Participating Dentists, together with any provider-specific information required by DENTAL VENDOR. During the term of this Agreement, the Practice shall provide at least 30
days' prior written notice to DENTAL VENDOR of the addition or termination of any Participating Dentists. Any new Participating Dentist will complete and submit a credentialing application (unless he/she is already credentialed by DENTAL VENDOR).

3.10 SuspensionofParticipatingDentists. The Practice shall suspend any Participating Dentist from providing Covered Services to Enrollees in the following circumstances and shall concurrently notify DENTAL VENDOR of such action: (a) Participating Dentist ceases to meet the licensing/certification or credentialing requirements or other professional standards described in this Agreement; (b) the Practice reasonably determines that there are serious deficiencies in the professional competence, conduct or quality of care of Participating Dentist; (c) Participating Dentist makes material omissions, misrepresentations, or falsifications in his/her application, credential attestation, claims, referral requests, or other submissions to DENTAL VENDOR; or (d) Participating Dentist submits fraudulent billing or claims information to DENTAL VENDOR, Enrollees or Enrollee's secondary insurance carriers.

3.11 DentalRecords. The Practice shall maintain adequate medical, financial and administrative records related to Covered Services in a manner consistent with the standards in the community and in accordance with all applicable State and Federal Law. Any such records shall be maintained for a period of at least six years or such longer period as is required by applicable law. Upon request, the Practice shall provide to DENTAL VENDOR, at the Practice's expense, copies of such information and records. The Practice will obtain any Enrollee consent required to authorize the Practice to provide access to such information and records.

3.12 Insurance. The Practice shall maintain throughout the term of this Agreement and for a period of four years thereafter, insurance, at a minimum, of the types and in the amounts as follows: (a) professional liability insurance in the amount of $1,000,000 per occurrence and $3,000,000 annual aggregate unless the particular state in which the Practice is located has set a lower minimum requirement (in which case the lower minimum requirement

would apply), and (b) general liability insurance in the amount of $1,000,000 per occurrence, combined single limit, bodily injury and property damage. Professional liability insurance shall either be occurrence or claims made with an extended period reporting option. The Practice shall ensure that all Participating Dentists procure and maintain insurance in the amounts set forth above, unless they are covered under the Practice's insurance policies. Prior to the Commencement Date and upon each policy renewal thereafter, the Practice will submit a certificate of insurance to DENTAL VENDOR. The Practice shall provide DENTAL VENDOR 30 days' prior written notice of cancellation or material reduction in the insurance coverage specified in this Section.

3.13 ContinuityofCare. The Practice shall furnish Covered Services in a manner providing continuity of care and ready referral of patients to other care providers at times as may be appropriate and consistent with standards of care in the community and applicable State or Federal Law. If the Practice cannot provide Covered Services relating to endodontics, periodontics, oral surgery, orthodontics and pedodontics, the Practice shall refer Enrollees in need of such services to providers who are qualified to provide such services. If an Enrollee requires additional services or evaluation, the Practice will refer Enrollee to his/her primary care physician or to the emergency room.

3.14 Non-CoveredServices. Should the Practice provide services that are not Covered Services to Enrollees, then the Practice agrees to (a) disclose to Enrollee that such services are not Covered Services, (b) inform the Enrollee of the fees or additional amounts Enrollee will be required to pay, and (c) look solely to the Enrollee for payment for such non-Covered Services.

3.15 InspectionandAudit. The Practice and Participating Dentists shall provide access at reasonable times upon demand by DENTAL VENDOR and/or Governmental Agencies to periodically audit or inspect the facilities, offices, equipment, books, documents and records of the Practice and Participating Dentists relating to the performance of this Agreement and the Covered Services provided to Enrollees. The Practice and Participating Dentists shall comply with any requirements or directives issued by DENTAL VENDOR and Government Agencies as a result of such evaluation, inspection or audit of the Practice and Participating Dentists. The provisions of this Section shall survive termination of this Agreement.

3.16 AppealsandGrievances. The Practice and the Participating Dentists shall participate and cooperate with DENTAL VENDOR and/or Payor in appeals and grievance activities.

ARTICLE 4. DUTIES OF DENTAL VENDOR AND PAYORS

4.1 PaymentofClaims. As described further in Article 5 below, Payors will pay the Practice for rendering Covered Services to Enrollees.

4.2 Administration. DENTAL VENDOR shall perform certain administrative, accounting, enrollment, eligibility verification, credentialing, quality management, utilization management, and other functions necessary for the administration and

operation of the Dental Plans. Payor shall be solely responsible for interpreting the terms of and making final coverage determinations under each Dental Plan.

4.3 Compliance. DENTAL VENDOR will perform all its obligations hereunder in compliance with applicable State and Federal Law, and will maintain such licensure, registration and permits necessary to lawfully perform this Agreement.

ARTICLE 5. PROCESSING AND PAYMENT OF CLAIMS

5.1 ClaimSubmission. The Practice shall submit all claims for Covered Services to DENTAL VENDOR in accordance with the Protocols, the Dental Practitioner Agreement, and applicable State and Federal Law. If the Practice does not submit claims electronically, the Practice shall submit only the CMS-1500 form, Standard ADA Claim Form, or other form permitted by DENTAL VENDOR. All claims must be submitted no later than 90 calendar days from the date Covered Services were provided to the Enrollee, unless otherwise specified by applicable law.

5.2 PaymentforCoveredServices. Payor will pay complete, valid claims for Covered Services at the lower of (a) the billed charges or (b) the Fee Schedule Amount less any applicable Enrollee Expenses, within the applicable time frames allowed for such payment under State and Federal Law. Payment will not be made if the Practice does not comply with a Protocol or does not file a timely claim under Section 5.1 above. Notwithstanding anything to the contrary, DENTAL VENDOR reserves the right, upon review of a claim, to recommend an alternate benefit and pay the claim up to the Fee Schedule Amount for that alternate benefit in lieu of paying
the claim as submitted.

5.3 CollectionofEnrolleeExpenses. The Practice shall collect Enrollee Expenses as set forth in the Dental Practitioner Manual or the Protocols, and will not charge or attempt to collect from Enrollees any amount in excess of the permitted Enrollee Expenses, except for Additional Services or uncovered services.

5.4 Payment in Full. The Practice agrees to accept the payment under this Article 5 and any Enrollee Expenses as payment in full for Covered Services. The Practice will not seek to recover, and will not accept any payment from Enrollee, DENTAL VENDOR, Payor or anyone acting on their behalf, in excess of payment in full as provided in this paragraph. The Practice shall not bill Enrollees for charges not paid due to inappropriate or inaccurate billing, or the Practice's failure to comply with Protocols, the Dental Practitioner Manual and/or this Agreement.

5.5 PaymentCorrections. Payor shall have the right to make, and the Practice shall have the right to request, corrective adjustments to a previous payment, except the Practice may not seek correction of a payment more than 12 months after it was made. In the event of an overpayment by Payor or other amount owed by the Practice to Payor, Payor may correct such overpayments or amounts owed by adjusting future claim payment to the extent permitted by applicable State and Federal Law and/or billing the Practice for the amount of the overpayment or amounts owed.

5.6 CapitationPlans. Terms and conditions specific to Capitation Plans (as defined in Exhibit D) are set forth in Exhibit D, attached hereto and incorporated herein by reference. To the extent that the terms and conditions of Exhibit D conflict with the terms and conditions of this Agreement, Exhibit D shall control.

5.7 NoBillingofEnrollees. With the exception of Enrollee Expenses and appropriate charges for non-Covered Services, the Practice shall in no event, including, without limitation, non-payment by Payor, insolvency of DENTAL VENDOR or breach of this Agreement, bill, charge, collect a deposit from, or attempt to bill, charge, collect or receive any form of payment from any Enrollee for Covered Services. The Practice agrees that this provision supersedes any oral or written agreement to the contrary now existing or hereafter entered into between the Practice and Enrollee or persons acting on the Enrollee's behalf that requires the Enrollee to pay for Covered Services. The Practice's obligations under this Section shall survive the termination of this Agreement for any reason with respect to Covered Services provided during or after the term of this Agreement.

ARTICLE 6. TERM AND TERMINATION

6.1 Term. This Agreement shall take effect on the Commencement Date and continue for an initial term of one year. Thereafter, this Agreement shall automatically renew for successive one-year terms, until terminated pursuant to Section 6.2.

6.2 Termination. This Agreement or a Participating Dentist, as appropriate, may be terminated

(a) The Agreement may be terminated by mutual written agreement of the parties.

(b) The Agreement may be terminated by either party, upon 30 days detailed written notice of a material breach of this Agreement by the other party, except that such a termination will not take effect if the breach is cured within 30 days after receipt of such termination notice. A Participating Dentist may be terminated upon a material breach of this Agreement by the Participating Dentist that is not cured within 30 days after DENTAL VENDOR provided notice of the breach.

(c) This Agreement may be terminated by DENTAL VENDOR immediately upon written notice to the Practice due to the Practice's loss, relinquishment, suspension, restriction or other adverse action against its license; the Practice's failure to maintain the insurance required hereunder; or if DENTAL VENDOR determines in its sole discretion that the health or safety of any Enrollee(s) is endangered by the actions of the Practice or any Participating Dentist or as a result of continuation of this Agreement. A
Participating Dentist may be terminated upon the loss, suspension, revocation, condition, limitation, qualification or other material restriction on Participating Dentist's licenses, certifications and permits by any Government Agency, or upon the failure of Participating Dentist to maintain the insurance required hereunder.

(d) This Agreement may be terminated by either party, without cause, by providing the other party with at least 90 days' prior written notice.

(e) A Participating Dentist may be terminated if such Participating Dentist does not meet DENTAL VENDOR credentialing or re-credentialing criteria, or DENTAL VENDOR may, in its sole discretion, terminate the Agreement.

(f) A Participating Dentist may be terminated upon an indictment, arrest or conviction for a felony, or for any criminal charge related to the practice of Participating Dentist's profession, or DENTAL VENDOR may, in its sole discretion, terminate the Agreement.

(g) This Agreement may be terminated upon imposition of any sanction by any Government Agency against the Practice.

(h) DENTAL VENDOR may terminate this Agreement in the following circumstances: (a) The Practice ceases to meet the licensing/certification or credentialing requirements or other professional standards described in this Agreement; (b) DENTAL VENDOR reasonably determines that there are serious deficiencies in the professional competence, conduct or quality of care of the Practice; (c) the Practice makes material omissions, misrepresentations, or falsifications in its application, credentialing attestation, claims, referral requests, or other submissions to DENTAL VENDOR; or (d) the Practice submits fraudulent billing or claims information to DENTAL VENDOR, Enrollees or Enrollee's secondary insurance carriers.

6.3 OngoingServices. Upon expiration or termination of this Agreement for any reason, except termination under paragraph 6.2(c) above, the Practice shall complete any Covered Services for Enrollees started prior to the date of such termination under the terms hereof. The Practice shall not be obligated to continue providing Covered Services to any Enrollee longer than 30 days from the effective date of termination, or as proscribed by applicable State or Federal Law. The provisions of this Section shall survive termination of this Agreement.

6.4 TransferofDentalRecords. Following expiration or termination of this Agreement for any reason, at DENTAL VENDOR's request, the Practice shall copy all requested Enrollee dental files and forward such files to another provider selected by Enrollee or DENTAL VENDOR, as appropriate, provided such copying and forwarding is not otherwise objected to by such Enrollees. The cost of copying the Enrollee dental files shall be borne equally by the Practice and DENTAL VENDOR.

ARTICLE 7. DISPUTE RESOLUTION

DENTAL VENDOR and the Practice will work together in good faith to resolve any disputes about their business relationship, including, but not limited to, all questions of arbitrability, the validity, scope or termination of this Agreement or any term hereof. If the parties are unable to resolve any such dispute within 60 days following the date one party sent written notice of the dispute to the other party, and if either party wishes to pursue the dispute it shall submit it to binding arbitration in accordance with the Commercial Dispute Procedures of the American Arbitration Association, as they may be amended from time to time. In no event may arbitration be initiated (or the dispute pursued in any other forum) more than one year following the sending of written notice of the dispute.

Any arbitration proceeding under this Agreement shall be conducted in such location as the parties may mutually agree. The arbitrator(s) may construe or interpret but shall not vary or ignore the terms of this Agreement and shall be bound by controlling law. The arbitrator(s) shall have no authority to award any punitive, indirect, special or exemplary damages, except in connection with a statutory claim that explicitly provides for such relief. The parties expressly

intend that any dispute between the parties be resolved on an individual basis so that no other dispute with any third party(ies) may be consolidated or joined with the dispute between the parties. The parties agree that any arbitration ruling allowing class arbitration or requiring consolidated arbitration would be contrary to the intent of this Agreement and would require immediate judicial review of such ruling.

If the dispute pertains to a matter that is generally administered by certain DENTAL VENDOR Protocols, such as claims payment, credentialing or quality improvement plan, the applicable procedures must be fully exhausted by the Practice before the Practice may invoke the right to arbitration under this Article.

The decision of the arbitrator(s) on the points in dispute will be binding, and judgment on the award may be entered in any court having jurisdiction thereof. The parties acknowledge that because this Agreement affects interstate commerce, the Federal Arbitration Act applies. In the event that any court determines this arbitration procedure is not binding or otherwise allows any litigation of a dispute to go forward notwithstanding the terms of this Agreement, the parties hereby waive any and all rights to a trial by jury, and such litigation would proceed with the judge as the finder of fact.

This Article is intended to govern any dispute between DENTAL VENDOR and the Practice regardless of whether the dispute arose before or after execution of this Agreement and shall survive and govern any termination of this Agreement.

ARTICLE 8. GENERAL PROVISIONS

8.1 IndependentContractor. The sole relationship between the parties is an independent contractor relationship. This Agreement does not create a joint venture, partnership agency, employment or other relationship between the parties.

8.2 Indemnification. The Practice shall defend, indemnify and hold harmless, and shall cause each Participating Dentist to defend, indemnify and hold harmless DENTAL VENDOR and its directors, officers, employees, affiliates and agents against any claim, loss, damage, cost, expense or liability arising out of or related to the performance or nonperformance by the Practice or Participating Dentists or their respective employees or agents of any Covered Services and any other services to be performed or arranged by the Practice and Participating Dentists under this Agreement. DENTAL VENDOR shall defend, indemnify and hold harmless the Practice and its directors, officers, employees, affiliates and agents against any claim, loss, damage, cost, expense or liability arising out of or related to the performance or nonperformance by DENTAL VENDOR, its employees or agents of any services to be performed by DENTAL VENDOR under this Agreement.

8.3 Dentist-EnrolleeRelationship. Nothing contained in this Agreement is intended to interfere with the dentist- patient relationship between the Practice and the Enrollees or to discourage the Practice and Participating Dentists from discussing treatment options or providing other medical advice or treatment deemed appropriate by the Practice or Participating Dentists. The Practice and Participating Dentists shall have the sole responsibility for the dental care and treatment of Enrollees.

8.4 Notice. All notices required or permitted by this Agreement shall be in writing, electronic and may be delivered in person, sent by U.S. First-Class Mail, delivered by Federal Express or other overnight courier. The addresses specified on the signature page of this Agreement shall be the party's address for notice purposes, which the parties may change through written notice in compliance with this Section.

8.5 Assignment. This Agreement may not be assigned by either party without the written consent of the other party, except that DENTAL VENDOR may assign this Agreement and its rights, interests and benefits hereunder to: (a) any entity controlling, controlled by or under common control with DENTAL VENDOR; or (b) any purchaser of all or substantially all of DENTAL VENDOR's business, in each case without the Practice's prior written consent.

8.6 Delegation. DENTAL VENDOR may delegate certain administrative duties under this Agreement to one or more other entities. No such delegation will relieve DENTAL VENDOR of its obligations under this Agreement.

8.7 Amendment. DENTAL VENDOR may amend this Agreement by sending a copy of the amendment (via regular first-class U.S. Mail) to the Practice at least 30 days prior to its effective date, so long as there is no written objection submitted by the Practice. The signature of the Practice will not be required. DENTAL VENDOR may also amend this Agreement to maintain compliance with State and Federal Law or comply with the requirements of Government Agencies and shall give written notice to the Practice of such amendment and its effective date. Unless such Government Agencies direct otherwise, the signature of the Practice will not be required.

8.8 Confidentiality. Neither party will disclose to a Enrollee, other dental care providers, or other third parties any of the following information (except as required by a Government Agency): (a) any proprietary business information, not available to the general public, obtained by the party from the other party; or (b) the specific Fee Schedule Amounts, except for purposes of administration of benefits as authorized by DENTAL VENDOR.

Each party shall maintain the confidentiality of all Enrollee records in accordance with any applicable State and Federal Law, including, but not limited to those promulgated under the Health Insurance Portability and Accountability Act of 1996, the Gramm-Leach-Bliley Act, and any state laws implementing either, as applicable. The Practice shall maintain all protected health information or personally identifiable information obtained pursuant to this Agreement at a secure environment under its control, and shall take reasonable steps to safeguard this information and to prevent disclosure to third parties without the express written authorization of Enrollee (unless such disclosure is required to comply with State and Federal Law).

8.9 Use of Names During the term of this Agreement, the Practice and DENTAL VENDOR shall have the right to use each other's name solely to make public reference to the Practice as a member of DENTAL VENDOR's provider network. The Practice shall not otherwise use DENTAL VENDOR's name, product names, logos and service marks without prior written approval. Neither party shall slander or libel the other party, either during the term of the Agreement or thereafter, and this provision shall survive the termination of this Agreement.

8.10 Non-Solicitation. During the term of this Agreement and for one year thereafter, neither the Practice nor Participating Dentists shall directly or indirectly solicit Enrollees, subscribers or subscriber groups to disenroll from any Dental Plan or discontinue their relationship with DENTAL VENDOR. Notwithstanding Article 7, DENTAL VENDOR shall, in addition to any other available remedies, have the right to seek an injunction or other equitable relief against the Practice and/or Participating Dentists to enforce its rights under this Section.

8.11 Severability. The unenforceability or invalidity of any paragraph or subparagraph of any section or subsection of this Agreement shall not affect the enforceability and validity of the balance of this Agreement.

8.12 Captions. Captions in this Agreement are descriptive only and do not affect the intent or interpretation of the Agreement.

8.13 Waiver. The waiver by either party of a breach of any provision of this Agreement shall not operate as or be construed to be a waiver of any subsequent breach of the same or any other provision hereof.

8.14 No Third Party Beneficiaries. This Agreement shall not create any rights in any third parties who have not entered into this Agreement, nor shall this Agreement entitle any such third party to enforce any rights or obligations that may be possessed by such third party.

8.15 EntireAgreement. This Agreement, including all exhibits, which are incorporated herein by reference, is the entire agreement of the parties regarding the subject matter herein, and supersedes any prior written or oral agreements, promises, negotiations or representations of or between the parties.

8.16 Unique Relationship. The parties agree that the relationship established through this Agreement is unique and specific to them. Consequently, any disputes that may arise between the parties relative to this Agreement shall be resolved exclusively between them pursuant to Section 8, Resolution of Disputes, of this Agreement.

8.17 DataOwnership. The Practice acknowledges and agrees that all information contained in submitted claims is the property of DENTAL VENDOR.

8.18 MedicarePatients. If a Medicare Appendix is attached to this Agreement as Exhibit E, the Practice agrees to provide Covered Services under this Agreement, to Patients who are enrolled in a Dental Plan for Medicare beneficiaries and to cooperate and comply with the provisions set forth in the attached Medicare Advantage Addendum. The Practice also

understands that DENTAL VENDOR's agreement with the Practice is subject to review and approval by the Centers for Medicare and Medicaid Services.

8.19 MedicaidPatients. If a Medicaid Appendix is attached to this Agreement as Exhibit E-1, the Practice agrees to provide Covered Services to Patients enrolled in a Dental Plan for Medicaid recipients and to comply with any additional requirements set forth in the Medicaid Appendix.

8.20 Dissolution. Subject to Section 6.3 of this Agreement, in the event of the dissolution of the Plan, the Practice agrees to continue to treat Patients within the compensation limitations of this Agreement for the conditions under treatment at the time of dissolution. This obligation to continue treatment under the payment terms of this Agreement does not require that long-term, nonrestorative therapies be completed if such non- completion would not constitute abandonment of the Patient.

8.21 Removal of the Practice. The Practice is hereby informed that Payors, DENTAL VENDOR's clients and third parties, including a Payor, with whom DENTAL VENDOR is contracting have the right to request removal of the Practice from the Provider Panel servicing its Enrollees. The Practice shall have no legal entitlement to continue treating such Enrollees. Removal of the Practice by DENTAL VENDOR from participating on specified Provider Panels shall not constitute termination or breach of this Agreement.

8.22 Lease of Provider Network and Claims Re-Pricing. DENTAL VENDOR shall be permitted to lease or rent its provider network to third parties and affiliated entities and shall be permitted to enter into claims re-pricing agreements with third parties without the Practice's consent.

ARTICLE 9. GOVERNING LAW AND REGULATORY REQUIREMENTS

9.1 GoverningLaw. This Agreement shall be governed by and construed in accordance with the law of the state in which the Practice renders Covered Services.

9.2 RegulatoryAddenda. One or more regulatory addenda may be attached to this Agreement as Exhibit C, setting forth additional provisions to satisfy regulatory requirements under applicable law. These regulatory addenda and any attachments thereto, are expressly incorporated into this Agreement. In the event of any inconsistency between a regulatory addendum and any other part of this Agreement, including but not limited to attachments, amendments, and exhibits, the provisions of the regulatory addenda will control to the extent it is applicable.

ARTICLE 10. REPRESENTATIONS AND WARRANTIES

The Practice, by virtue of its execution and delivery of this Agreement, represents and warrants that, at all times during the terms of this Agreement, is a duly organized and validly existing legal entity in good standing under the laws of its jurisdiction of organization; it has the unqualified authority to bind, and does bind, itself and the Participating Dentists to all of the terms and conditions of this Agreement, including any Appendices, Attachments and Exhibits, as applicable; has obtained and holds all registrations, permits, licenses, and other approvals and consents, and has made all filings, that it is required to obtain from or make with all Government Agencies

under applicable State and Federal Law in order to conduct its business as presently conducted and to enter into and perform its obligations under this Agreement; and each submission of a claim by the Practice pursuant to this Agreement shall be deemed to constitute the representation and warranty by it to DENTAL VENDOR that (i) the representations and warranties of it set forth in this Article and elsewhere in this Agreement are true and correct as of the date the claim is submitted, (ii) it has complied with the requirements of this Agreement with respect to the Covered Services involved and the submission of the claim submitted claim, and (iii) the claim is a valid claim.

THIS AGREEMENT CONTAINS A BINDING ARBITRATION PROVISION THAT MAY BE ENFORCED BY THE PARTIES.

EXHIBIT D

CAPITATION PLAN ADDENDUM (IF APPLICABLE)

This Addendum and the relevant Attachments are only applicable to Capitation Plans, but not to preferred provider organization, indemnity or discount fee-for-service plans.

1 Definitions.

A. Capitation. The predetermined per Enrollee fee paid monthly by DENTAL VENDOR to the Practice as set forth in the Capitation Payment Schedule (Attachment 1) for providing Covered Services as prescribed in the Fee Schedules.

B. CapitationFeeSchedules. The listings of Covered Services which describe the services to be delivered to Enrollees of Capitation Plans designated by Payor (Attachment 2).

C. CapitationPlans. Those service contracts for which DENTAL VENDOR shall pay the Practice a Capitation amount in addition to any fees due to the Practice as listed on the appropriate Capitation Fee Schedule.

2 For Capitation Plans, services that do not require a payment from DENTAL VENDOR shall be reported on a Standard ADA Claim Form, utilizing appropriate coding as described in the Dental Practitioner Manual. All services for which a fee is due from DENTAL VENDOR shall be reported on a Standard ADA Form.
All forms shall be completed and submitted to DENTAL VENDOR no less frequently than once a month.

3 For Capitation Plans, DENTAL VENDOR shall pay the Practice a monthly Capitation amount based on the
number of Enrollees who have elected to be treated at the Practice's site as of the first day of that month. The Practice agrees not to charge or collect from any Enrollee any amount whatsoever for services listed as "no charge" on the attached fee schedules. The Practice is solely responsible for collecting from Enrollees the fees according to the attached fee schedules and in no event seek to collect such fees from DENTAL VENDOR unless the plan design specifically provides for DENTAL VENDOR payments. The Practice is responsible for collecting all fees for services not specifically listed on the appropriate Capitation Fee Schedules.

Dental Vendor
Mississippi Medicaid Program
Regulatory Requirements Appendix

MISSISSIPPI MEDICAID PROGRAM

REGULATORY REQUIREMENTS APPENDIX

DOWNSTREAM PROVIDER

THIS MISSISSIPPI MEDICAID PROGRAM REGULATORY REQUIREMENTS APPENDIX (this "Appendix") supplements and is made part of the provider agreement (the "Agreement") between Vendor, ("Subcontractor") and the provider named in the Agreement ("Provider").

SECTION 1
APPLICABILITY

This Appendix applies with respect to the provision of health care services that Provider provides directly to Covered Persons through Health Plan's (as defined herein) products or benefit plans including Mississippi Coordinated Access Network Program (the "MississippiCAN Program") as governed by the State's designated regulatory agencies. Provider has agreed to provide Covered Services to Covered Persons who receive their coverage pursuant to a contract between the State and Health Plan (the "State Contract" as defined herein). The State Contract and applicable State and federal law require that the provisions contained in this Appendix be part of the Agreement. In the event of a conflict between this Appendix and other appendices or any provision of the Agreement, the provisions of this Appendix shall control except with regard to benefit contracts outside the scope of this Appendix or unless otherwise required by law. In the event Subcontractor is required to amend or supplement this Appendix as required or requested by the State and requested by Health Plan, Provider agrees that Subcontractor shall be permitted to unilaterally initiate such additions, deletions or modifications.

SECTION 2
DEFINITIONS

Unless otherwise defined in this Appendix, all capitalized terms shall be as defined in the Agreement. For purposes of this Appendix, the following terms shall have the meanings set forth below; provided, however, in the event any definition set forth in this Appendix or the Agreement is inconsistent with any definitions under the MississippiCAN Program, the definitions shall have the meaning set forth under the MississippiCAN Program.

2.1 Action: Health Plan's decision to deny or limit authorization or payment (in whole or in part) for health care services, including new authorizations and previously authorized services; the reduction, suspension, or termination of a previously authorized service; or Health Plan's failure to provide services in a timely manner; failure to resolve Complaints, Grievances, or Appeals within the specified time frames.

2.2 Appeal: A request for review by Health Plan of an Action related to a Covered Person or Provider. In the case of a Covered Person, an Action may include determinations on the health care services a Covered Person believes he or she is entitled to receive, including delay in providing, arranging for, or approving the health care services (such that a delay would adversely

affect the health of the Covered Person). In the case of a Provider, the Action may include, but is not limited to, delay or non-payment for covered services.

2.3 Behavioral Health Services: Mental health and/or drug and alcohol abuse treatment services that are provided by the county mental health/mental retardation programs, the single county authority administrators, or other appropriately licensed health care practitioners.

2.4 Complaint: An expression of dissatisfaction received orally or in writing that is of a less serious or formal nature that is resolved within one (1) business day of receipt.

2.5 Covered Person: An individual who is currently enrolled with Health Plan for the provision of services under a MississippiCAN Program. A Covered Person may also be referred to as an Enrollee, Member or Customer under the Agreement.

2.6 Covered Services: Health care services or products for which a Covered Person is enrolled with Health Plan to receive coverage under the State Contract.

2.7 Division: Division of Medicaid, Office of the Governor, State of Mississippi.

2.8 Early, Periodic, Screening, Diagnosis, and Treatment (EPSDT) Services: Defined by the Division to include:

a. Age appropriate, comprehensive health and development history that includes physician and mental health assessments along with counseling and anticipatory guidance and risk factor reduction interventions;
b. Calculation of Body Mass Index;
c. Growth measurements and head circumference;
d. Nutritional counseling;
e. Developmental surveillance and Developmental and autism Spectrum Disorders Screenings as appropriate;
f. Comprehensive unclothed exam;
g. Appropriate laboratory tests (including blood level assessment appropriate to age and risk);
h. Appropriate immunizations in accordance with Recommended Childhood and Adolescent Immunization Schedule adopted by the Division;
i. A vision assessment;
j. A hearing assessment;
k. A dental screening and/or referral to dental care;
l. Health education; and
m. Referrals for identified abnormalities.

2.9 Fraud and Abuse: Fraud is any type of intentional deception or misrepresentation made by an entity or person with the knowledge that the deception could result in some unauthorized benefit to the entity, him or herself, or some other person. The Fraud can be committed by many entities, including a vendor, a subcontractor, a provider, a State employee, or a Covered Person, among others. Abuse is any practice that is inconsistent with sound fiscal, business, or medical practices, and results in an unnecessary cost to the Medicaid program, a vendor, a subcontractor

or Provider or in reimbursement for services that are not Medically Necessary or that fail to meet professionally recognized standards for health care.

2.10 Grievance: An expression of dissatisfaction about any matter or aspect of Health Plan or its operation, other than an Action as defined herein.

2.11 Health Plan: An appropriately licensed entity that has entered into a contract with Subcontractor, either directly or indirectly, under which Subcontractor provides certain administrative services for Health Plan pursuant to the State Contract. For purposes of this Appendix, Health Plan refers to Vendor of Mississippi, Inc.

2.12 Marketing: The activities that promote visibility and awareness for the MississippiCAN Program and Health Plan's participating in the program. All activities are subject to prior review and approval by the Division.

2.13 Medical Record: A single complete record, which documents the entire treatment plan developed for, and medical services received by, the Covered Person including inpatient, outpatient, referral services and emergency medical services whether provided by contracted Providers or non-contracted providers.

2.14 Mississippi Coordinated Access Network (MississippiCAN) Program: Mississippi Medicaid's coordinated care program.

2.15 Primary Care Provider (PCP): Any physician or health care practitioner or group operating within the scope of his or her licensure who is responsible for supervising, prescribing and providing primary care and primary case management services in the MississippiCAN Program, whose practice is limited to the general practice of medicine or who is an Internist, Pediatrician, Obstetrician, Gynecologist, Family Practitioner, General Practitioner, Certified Nurse Practitioners whose specialty is pediatrics, adult, family, certified nurse midwife, obstetrics/gynecology, or a physician assistant.

2.16 Prior Authorization: A determination to approve a Provider's request, pursuant to services covered in the MississippiCAN Program, to provide a service or course of treatment of a specific duration and scope to a Member prior to the initiation or continuation of the service.

2.17 Provider: A hospital, ancillary provider, physician group, individual physician or other healthcare provider who has entered into an Agreement.

2.18 Provider Network: The Panel of health service Providers with which Subcontractor and/or Health Plan contracts for the provision of covered services to Covered Persons and Non-Contracted Providers administering services to Covered Persons.

2.19 State: The State of Mississippi or its designated regulatory agencies.

2.20 State Contract: Health Plan's contract with the State for the purpose of providing and paying for Covered Services to Covered Persons enrolled in the MississippiCAN Program.

2.21 Third Party Resource: Any resource available to a Covered Person for the payment of medical expenses associated with the provision of covered services, other than those which are exempt under Title XIX of the Act, including but not limited to, insurers and workers' compensation plan.

SECTION 3
PROVIDER REQUIREMENTS

The MississippiCAN Program, through the State Contract and federal and State statutes and regulations, requires the Agreement to contain certain conditions that Health Plan, Subcontractor and Provider agree to undertake, which include the following:

3.1 Definitions Related to the Provision of Covered Services. Provider shall follow the applicable State Contract's requirements for the provision of Covered Services. Provider's decisions affecting the delivery of acute or chronic care services to Covered Persons shall be made on an individualized basis and in accordance with the following definitions:

(a) Emergency Medical Condition: A medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in any of the following: (1) placing the health of the individual (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; (2) serious impairment to body functions; or (3) serious dysfunction of any body organ or part.

(b) Emergency Services: Covered inpatient and outpatient services furnished by a provider qualified to furnish those health services and that are needed to evaluate or stabilize an Emergency Medical Condition.

(c) Medically Necessary Services: As set forth in the Social Security Act, Section 1905 (42 USC 1396d(a)), Medically Necessary Services are defined as services, supplies, or equipment provided by a licensed health care professional that are:

a. Appropriate and consistent with the diagnosis or treatment of the Covered Person's condition, illness, or injury;

b. In accordance with the standards of good medical practice consistent with the individual Covered Person's condition(s);

c. Not primarily for the personal comfort or convenience of the Member, family, or Provider;

d. The most appropriate services, supplies, equipment, or levels of care that can be safely and efficiently provided to the Covered Person;

e. Furnished in a setting appropriate to the Covered Person's medical need and condition and, when applied to the care of an inpatient, further mean that the Covered Person's medical symptoms or conditions require that the services cannot be safely provided to the Covered Person as an outpatient;

f. Not experimental or investigational or for research or education;

g. Provided by an appropriately licensed practitioner; and

h. Documented in the patient's record in a reasonable manner, including the relationship of the diagnosis to the service.

Medically Necessary Services may also be those services for children that are necessary to correct or ameliorate defects and physical and mental illnesses and conditions discovered during an interperiodic or periodic EPSDT screen, whether such services are covered or exceed the benefit limits in the Medicaid State Plan and Title 23 of Mississippi Administrative Code.

3.2 Medicaid Eligibility. Provider must be enrolled in the Mississippi Medicaid program and must use the same National Provider Identifier (NPI) number. Health Plan and Subcontractor will exclude from its network any provider who has been terminated or suspended from the Medicare or Medicaid program in any state.

3.3 Accessibility Standards. Provider shall provide for timely access for Covered Person appointments in accordance with the appointment availability requirements established under the State Contract, as further described in the applicable provider manual.

3.4 Hours of Operation; Appointments. Provider shall offer hours of operation that are no less than the hours of operation offered to commercial beneficiaries or comparable to Medicaid fee-for-service if Provider serves only Medicaid beneficiaries.

3.5 Hold Harmless. Except for any applicable cost-sharing requirements under the State Contract, Provider shall look solely to Subcontractor and Health Plan for payment of Covered Services provided to Covered Persons pursuant to the Agreement and the State Contract and hold the State, the Division, the U.S. Department of Health and Human Services and Covered Persons harmless in the event that Subcontractor and/or Health Plan cannot or will not pay for such Covered Services. In accordance with 42 CFR 447.15, as may be amended from time to time, the Covered Person is not liable to Provider for any services for which Subcontractor and/or Health Plan is liable and as specified under the State's relevant health insurance or managed care statutes, rules or administrative agency guidance. Provider shall not require any copayment or cost sharing for Covered Services provided under the Agreement unless expressly permitted under the State Contract. Provider shall also be prohibited from charging Covered Persons for missed appointments if such practice is prohibited under the State Contract or applicable law. Neither the State, the Division nor Covered Persons shall be in any manner liable for the debts and obligations of Subcontractor and/or Health Plan and under no circumstances shall Subcontractor, Health Plan, or any providers used to deliver services covered under the terms of the State Contract, charge Covered Persons for Covered Services.

Covered Person may be responsible for non-covered item(s) and/or service(s), only if the Provider ensures that written documentation in compliance with the Advance Beneficiary Notification (ABN) is received from the Covered Person that an item(s) or service(s) rendered is a non-covered item and/or service(s) and that the Covered Person will be financially responsible for the item(s) and/or service(s). If Subcontractor and/or Health Plan determines a Covered Person was charged for Covered Services inappropriately, such payment may be recovered, as applicable.

This provision shall survive any termination of the Agreement, including breach of the Agreement due to insolvency.

3.6 Indemnification. To the extent applicable to Provider in performance of the Agreement, Provider shall indemnify, defend and hold the Division and its employees harmless from and against all injuries, deaths, losses, damages, claims, suits, liabilities, judgments, costs and expenses, including court costs and attorney fees, to the extent proximately caused by any negligent act or other intentional misconduct or omission of Provider, its agents, officers, employees or contractors arising from the Agreement. The Division may waive this requirement for public entities if Provider is a state agency or sub-unit as defined by the State or a public health entity with statutory immunity. This clause shall survive the termination of the Agreement for any reason, including breach due to insolvency.

3.7 Provider Selection. To the extent applicable to Provider in performance of the Agreement, Provider shall comply with 42 CFR 438.214, as may be amended from time to time, which includes, but is not limited to the selection and retention of providers, credentialing and recredentialing requirements and nondiscrimination. If Subcontractor and/or Health Plan delegates credentialing to Provider, Subcontractor and Health Plan will provide monitoring and oversight and Provider shall ensure that all licensed medical professionals are credentialed in accordance with Health Plan's and the State Contract's credentialing requirements.

3.8 Restrictions on Referrals. Provider shall not make inappropriate referrals for designated health services to health care entities with which Provider or a member of Provider's family has a financial relationship, pursuant to federal anti-kickback and physician self-referral laws that prohibit such referrals.

3.9 Records Retention. As required under State or federal law or the State Contract, Provider shall maintain an adequate record keeping system for recording services, charges, dates and all other commonly accepted information elements for services rendered to Covered Persons. All financial records shall follow generally accepted accounting principles. Medical records and supporting management systems shall include all pertinent information related to the medical management of each Covered Person. Other records shall be maintained as necessary to clearly reflect all actions taken by Provider related to services provided under the State Contract. Such records shall be maintained for a period of not less than ten (10) years from the close of the Agreement, or such other period as required by law. If records are under review or audit, they must be retained for a minimum of ten (10) years following resolution of such action. Prior

approval for the disposal of records must be requested and approved by Health Plan if the Agreement is continuous.

3.10 Records Access. Provider acknowledges and agrees that the State, the Division, the U.S. Department of Health and Human Services and other authorized federal and state personnel shall have complete access to all records pertaining to services provided to Covered Persons. Provider shall provide immediate access to facilities, records and supportive materials pertinent to the State Contract for State or Federal fraud investigators. Copies of requested documents shall be provided to the State, the Division, the U.S. Department of Health and Human Services and other authorized federal and state personnel or their designees free of charge.

3.11 Government Audit; Investigations. Provider acknowledges and agrees that the State and the U.S. Department of Health and Human Services or their authorized representatives shall have the right to inspect or otherwise evaluate the quality, appropriateness, and timeliness of services provided under the terms of the State Contract and any other applicable rules. There shall be no restrictions on the right of the State or federal government to conduct whatever inspections and audits are necessary to assure quality, appropriateness or timeliness of services provided pursuant to the State Contract and the reasonableness of their costs.

3.12 Privacy; HIPAA. Provider shall comply with all applicable privacy rule and security rule provisions of the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), and associated implementing regulations, as may be amended from time to time, and shall safeguard information about Covered Persons in accordance with applicable federal and State privacy laws and rules including 42 CFR 438.224 and 42 CFR Part 431, Subpart F, as may be amended from time to time.

3.13 Compliance with Law. Provider shall comply with all applicable federal and State laws and regulations that pertain to a Covered Person's rights, including but not limited to the following to the extent applicable to Provider in performance of the Agreement:

(a) Title VI of the Civil Rights Act of 1964; title IX of the Education Amendments of 1972 (regarding education programs and activities); the Age Discrimination Act of 1975; the Rehabilitation Act of 1973; and Americans with Disabilities Act, and their implementing regulations, as may be amended from time to time.

(b) 42 CFR 434 and 42 CFR 438.6, as may be amended from time to time.

(c) All relevant federal and State statutes, regulations and orders related to equal opportunity in employment, including but not limited to compliance with E.O. 11246, "Equal Employment Opportunity," as amended by E.O. 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

(d) If the Agreement is for an amount in excess of $100,000, Provider shall comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act,

42 U.S.C. 7401 et seq., and the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq. Any violations shall be reported to DHHS and the appropriate Regional Office of the Environmental Protection Agency.

3.14 Physician Incentive Plans. In the event Provider participates in a physician incentive plan ("PIP") under the Agreement, Provider agrees that such PIPs must comply with 42 CFR 417.479, 42 CFR 438.6(h), 42 CFR 422.208, and 42 CFR 422.210, as may be amended from time to time. Subcontractor, Health Plan nor Provider may make a specific payment directly or indirectly under a PIP to a physician or physician group as an inducement to reduce or limit Medically Necessary services furnished to an individual Covered Person. PIPs must not contain provisions that provide incentives, monetary or otherwise, for the withholding of services that meet the definition of Medical Necessity.

3.15 Lobbying. Provider agrees to comply with the following requirements related to lobbying:

(a) Prohibition on Use of Federal Funds for Lobbying: By signing the Agreement, Provider certifies to the best of Provider's knowledge and belief, pursuant to 31 U.S.C. Section 1352 and 45 CFR Part 93, as may be amended from time to time, that no federally appropriated funds have been paid or will be paid to any person by or on Provider's behalf for the purpose of influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

(b) Disclosure Form to Report Lobbying: If any funds other than federally appropriated funds have been paid or will be paid to any person for the purpose of influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment or modification of any federal contract, grant, loan, or cooperative agreement and the value of the Agreement exceeds $100,000, Provider shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3.16 Excluded Individuals and Entities. By signing the Agreement, Provider certifies to the best of Provider's knowledge and belief that neither it nor any of its employees, principals, nor any providers, subcontractors or consultants or persons with an ownership or controlling interest in the Provider (an owner including the Provider himself or herself), or an agent or managing employee of the Provider, with whom Provider contracts and who are providing items or services that are significant and material to Provider's obligations under the Agreement is:

(a) excluded from participation in federal health care programs under either Section 1128 or section 1128A of the Social Security Act; or

(b) debarred, suspended or otherwise excluded from participating in procurement activities under the Federal Acquisition Regulation or from participating in nonprocurement activities under regulations issued under Executive Order no. 12549 or under guidelines implementing Executive Order No. 12549; or an affiliate, as defined in the Federal Acquisition Regulation, of such a person.

Provider acknowledges and agrees that payment will not be made for any items or Covered Services provided by an excluded individual pursuant to 42 CFR 1001.1901(b) and is obligated to screen all employees, contractors, and subcontractors for exclusion as required under applicable State and Federal laws. Additionally, Provider acknowledges that pursuant to 42 CFR 1003.102(a)(2) civil monetary penalties may be imposed against Provider if he or she employs or enters into contracts with excluded individuals or entities to provide items or Covered Services to Covered Persons under this Agreement. Provider agrees not to employ or subcontract with individuals or entities whose owner, those with a controlling interest, or managing employees are on a State or Federal exclusion list to provide items or Covered Services under this Agreement. Provider shall immediately report to Subcontractor and/or Health Plan any exclusion information discovered. Provider can search the HHS-OIG website, at no cost, by the names of any individuals or entities. The database is called LEIE and can be accessed at http://www.oig.hhs.gov/fraud/exclusions.asp. The GSA EPLS/SAM database can be accessed at https://www.sam.gov. Applicable state exclusion databases can be accessed through the State's Medicaid website. Subcontractor and Health Plan will terminate the Agreement immediately and exclude from its network any provider who has been excluded from federal health care programs or terminated from the Medicare or the Medicaid program in any state. Subcontractor and Health Plan may also terminate the Agreement if Provider's owners, agents, or managing employees are found to be excluded on a State or Federal exclusion list.

3.17 Disclosure. Provider shall cooperate with Subcontractor and Health Plan in disclosing information the Division may require related to ownership and control, significant business transactions, and persons convicted of crimes in accordance with 42 CFR Part 455 and shall provide information upon request. Provider shall submit information related to ownership and control of subcontractors or wholly owned suppliers within thirty-five (35) calendar days of a request for such information.

By executing this Agreement, Provider certifies that neither Provider nor any of its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in any State or federal health care program or from participating in transactions by any State or federal department or agency. Subcontractor and/or Health Plan will terminate the Agreement upon becoming aware or receiving notice from the Division, whichever is earlier, that Provider is or has been excluded from participation in any State or federal health care program or by any State or federal agency.

3.18 Cultural Competency. Provider shall participate in Subcontractor and Health Plan's and the State's efforts to promote the delivery of services in a culturally competent manner to all

Covered Persons, including those with limited English proficiency and diverse cultural and ethnic backgrounds and shall provide interpreter services in a Covered Person's primary language and for the hearing impaired for all appointments and emergency services. Provider shall provide information to Covered Persons regarding treatment options and alternatives, as well as information on complaints and appeals, in a manner appropriate to the Covered Person's condition and ability to understand.

3.19 Marketing. As required under State or federal law or the applicable State Contract, any marketing materials developed and distributed by Provider as related to the performance of the Agreement must be submitted to Health Plan to submit to the Division for prior approval.

3.20 Fraud, Waste and Abuse Prevention. Provider shall cooperate fully with Subcontractor and Health Plan's policies and procedures designed to protect program integrity and prevent and detect potential or suspected fraud, waste, and abuse in the administration and delivery of services under the State Contract and shall cooperate and assist the Division and any other State or federal agency charged with the duty of preventing, identifying, investigating, sanctioning or prosecuting suspected fraud, waste, and abuse in state and/or federal health care programs.

In accordance with Health Plan's policies and the Deficit Reduction Act of 2005 (DRA), Provider shall have written policies for its employees, contractors or agents that: (a) provide detailed information about the federal False Claims Act (established under sections 3729 through 3733 of title 31, United States Code); (b) cite administrative remedies for false claims and statements (established under chapter 38 of title 31, United States Code) and whistleblower protections under federal and state laws; (c) reference state laws pertaining to civil or criminal penalties for false claims and statements; and (d) with respect to the role of such laws in preventing and detecting fraud, waste, and abuse in federal health care programs (as defined in section 1128B(f)), include as part of such written policies, detailed provisions regarding Provider's policies and procedures for detecting and preventing fraud, waste, and abuse. Provider agrees to train its staff on the aforesaid policies and procedures.

3.21 Data; Reports. Provider shall cooperate with and release to Subcontractor and Health Plan any information necessary for Subcontractor and Health Plan to perform its obligations under the State Contract to the extent applicable to Provider in performance of the Agreement, including the timely submission of reports and information required by Subcontractor and Health Plan. Such reports shall include child health check-up reporting, if applicable, as well as complete and accurate encounter data in accordance with the requirements of Subcontractor and Health Plan and the State.

3.22 Encounter Data. Provider agrees to cooperate with Subcontractor and Health Plan to comply with Subcontractor and Health Plan's obligation to prepare encounter data submissions, reports, and clinical information including, without limitation, child and adolescent health check-up reporting, EPSDT encounters, and cancer screening encounters, as applicable, and such other reporting regarding Covered Services as may be required under the State Contract.

3.23 Claims Information. Provider shall promptly submit to Subcontractor or Health Plan the information needed to make payment and shall identify third party liability coverage, including Medicare and other insurance, and if applicable seek such third party liability payment before submitting claims to Subcontractor or Health Plan. Provider understands and agrees that each claim Provider submits to Subcontractor constitutes a certification that the claim is true and accurate to the best of Provider's knowledge and belief and that the Covered Services are 1) Medically Necessary and 2) have been provided to the Covered Person prior to submitting the claim.

Effective July 1, 2014, Provider must submit claims within six (6) months from the date of service. Claims filed within the appropriate time frame but denied may be resubmitted to the Contractor within ninety (90) calendar days from the date of denial

3.24 Insurance Requirements. As applicable, Provider shall secure and maintain during the term of the Agreement insurance appropriate to the services to be performed under the Agreement.

3.25 Licensure. Provider represents that it is currently licensed and/or certified under applicable State and federal statutes and regulations and by the appropriate State licensing body or standard-setting agency, as applicable. Provider represents that it is in compliance with all applicable State and federal statutory and regulatory requirements of the Medicaid program and that it is eligible to participate in the Medicaid program. Provider represents that it does not have a Medicaid provider agreement with the Division that is terminated, suspended, denied, or not renewed as a result of any action of the Division, CMS, HHS, or the Medicaid Fraud Control Unit of the State's Attorney General. Provider shall maintain at all times throughout the term of the Agreement all necessary licenses, certifications, registrations and permits as are required to provide the health care services and/or other related activities delegated to Provider by Vendor under the Agreement. If at any time during the term of the Agreement, Provider is not properly licensed as described in this Section, Provider shall discontinue providing services to Covered Persons.

3.26 Quality; Utilization Management. Pursuant to any applicable provider manuals and related protocols, or as elsewhere specified under the Agreement, Provider agrees to cooperate with Subcontractor and Health Plan's quality improvement and utilization review and management activities. This shall include, but not be limited to, participation in any internal and external quality assurance, utilization review, peer review, and grievance procedures established by Subcontractor and Health Plan or as required under the State Contract to ensure that Covered Persons have due process for their complaints, grievances, appeals, fair hearings or requests for external review of adverse decisions made by Vendor or Provider. Provider shall adhere to the quality assurance and utilization review standards of the MississippiCAN Program and shall monitor quality and initiate corrective action to improve quality consistent with the generally accepted level of care.

3.27 Non-Discrimination. Covered Persons must be provided Covered Services without regard to race, color, creed, sex, religion, age, national origin, ancestry, marital status, sexual orientation, language, health status, disease or pre-existing condition (including genetic

information), anticipated need for health care or physical or mental handicap, except where medically indicated. Examples of prohibited practices include, but are not limited to, the following:

(a) Denying or not providing a Covered Person any Medicaid Covered Service. Health care and treatment necessary to preserve life must be provided to all Covered Persons who are not terminally ill or permanently unconscious, except where a competent Covered Person objects to such care on his/her own behalf.

(b) Subjecting a Covered Person to segregated, separate, or different treatment, including a different place or time from that provided to other Covered Persons or public or private patients, in any manner related to the receipt of any Medicaid Covered Service, except where Medically Necessary.

(c) The assignment of times or places for the provision of services on the basis of the race, color, creed, religion, age, sex, national origin, ancestry, marital status, sexual orientation, income status, program membership, language, health status, disease or pre-existing condition, anticipated need for health care or physical or mental disability of the Covered Persons to be served.

3.28 Advance Directives. Provider shall comply with the advance directives requirements set forth in the Uniform Health-Care Decisions Act, Section 41-41-215 of the Mississippi Code.

3.29 National Provider ID (NPI). Provider shall obtain a National Provider Identification Number (NPI).

3.30 Termination. In the event of termination of the Agreement, Provider shall promptly supply to Subcontractor and Health Plan all information necessary for the reimbursement of any outstanding Medicaid claims.

3.31 Complaints; Grievances and Appeals. Information on how Provider or Provider's authorized representative can submit complaints and file grievances and appeals, and the resolution process, is contained in the applicable provider manual.

3.32 Health Care Acquired/Preventable Conditions. Provider agrees that no payment shall be made for the provision of medical assistance for health care acquired conditions and other provider preventable conditions as may be identified by the State. As a condition of payment, Provider shall identify and report to Subcontractor any provider preventable conditions in accordance with 42 CFR Part 438, including but not limited to 438.6(f)(2)(i).

3.33 Quality and Utilization Management Program. Provider shall cooperate with Subcontractor and Health Plan in meeting the Quality Management and Utilization Management Program standards outlined in the State Contract.

3.34 Referrals. Provider shall make referrals for social, vocational, education or human services when a need for such service is identified.

3.35 Insolvency. In the event Subcontractor and/or Health Plan becomes insolvent or unable to pay Provider, Provider shall not seek compensation for services rendered from the State, the Division, or their officers, Agents, or employees, or the Covered Persons or their eligible dependents.

3.36 Third Party Resources. Provider will report all third party resources to Subcontractor and Health Plan identified through the provision of medical services.

3.37 Compliance with Mississippi Employment Protection Act (MEPA). Provider represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act, Section 71-11-1 et set of the Mississippi Code Annotated (Supp. 2008), and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. Provider agrees to maintain records of such compliance and, upon request of the State and approval of the Social Security Administration or Department of Homeland Security, where required, to provide a copy of each such verification to the State. Provider further represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of the State of Mississippi. Provider understands and agrees that any breach of these warranties may subject Provider to the following: (a) termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public, or (b) the loss of any license, permit, certification or other document granted to Provider by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year, or (c) both.

3.38 Capitated Providers. If Provider is capitated and terminates its agreement with Subcontractor, for any reason, Provider will provide services to Covered Persons assigned to Provider up to the end of the month in which the effective date of termination falls.

SECTION 4
ADDITIONAL PROVIDER REQUIREMENTS FOR SPECIFIC ACTIVITIES

4.1 Behavioral Health Providers. Behavioral health Providers shall ensure that all Covered Persons receiving inpatient psychiatric services are scheduled for outpatient follow-up and/or continuing treatment prior to discharge from the inpatient psychiatric hospital if the Provider is aware of the Covered Person's inpatient hospitalization status. Behavioral health Providers will be provided daily reports identifying Covered Persons known to be admitted to an inpatient facility.

4.2 PCP Responsibilities. Providers acting as PCPs shall meet the following requirements:

(a) PCPs who serve Covered Persons under the age of twenty-one (21) are responsible for conducting all EPSDT screens for individuals on their Panel under the age

of twenty-one (21). Should the PCP be unable to conduct the necessary EPSDT screens, the PCP is responsible for arranging to have the necessary EPSDT screens conducted by another network Provider and ensure that all relevant medical information, including the results of the EPSDT screens, are incorporated into the Covered Person's PCP Medical Record.

(b) PCPs who serve Members under the age of twenty-one (21) report encounter data associated with EPSDT screens, using a format approved by the Division, to the Contractor within ninety (90) calendar days from the date of service.

(c) PCPs are responsible for contacting new Members identified in the quarterly encounter lists sent by the Contractor that indicate who has not had an encounter during the first six (6) months of Enrollment. The PCP shall:

1. Contact Covered Persons identified in the quarterly Encounter lists as not complying with EPSDT periodicity and immunization schedules for children;

2. Identify to Subcontractor any such Covered Persons who have not come into compliance with the EPSDT periodicity and immunization schedules within one (1) month of such notification to the site by Subcontractor; and

3. Document the reasons for noncompliance, where possible, and to document its efforts to bring the Covered Person's care into compliance with the standards.

4.3 Specialists as PCPs. Covered Persons with disabling conditions, chronic illnesses, or child(ren) with special health care needs may request that their PCP be a specialist. The designation of a specialist as a PCP must be pursuant to a treatment plan approved by Subcontractor and Health Plan, in consultation with the PCP to which the Covered Person is currently assigned, the Covered Person and, as appropriate, the specialist.

The specialist as a PCP shall provide or arrange for all primary care, including routine preventive care, and to provide those specialty medical services consistent with the Covered Person's disabling condition, chronic illness, or special health care need in accordance with Subcontractor and Health Plan's standards and within the scope of the specialty training and clinical expertise.

The specialist as a PCP shall have admitting privileges at a hospital in Health Plan's network.

SECTION 5
HEALTH PLAN AND SUBCONTRACTOR REQUIREMENTS

5.1 Prompt Payment. Subcontractor or Health Plan shall pay Provider pursuant to the State Contract and applicable State and federal law and regulations, including but not limited to Mississippi Code Section 83-9-5, 42 CFR 447.46, 42 CFR 447.45(d)(2), 42 CFR 447.45(d)(3), 42 CFR 447.45(d)(5) and 42 CFR 447.45(d)(6), as applicable and as may be amended from time to time. If a third party liability exists, payment of claims shall be determined in accordance

with federal and/or State third party liability law and the terms of the State Contract. Unless Subcontractor or Health Plan otherwise requests assistance from Provider, Subcontractor or Health Plan will be responsible for third party collections in accordance with the terms of the State Contract.

5.2 No Incentives to Limit Medically Necessary Services. Subcontractor and Health Plan shall not structure compensation provided to individuals or entities that conduct utilization management and concurrent review activities so as to provide incentives for the individual or entity to deny, limit, or discontinue Medically Necessary services to any Covered Person.

5.3 Provider Discrimination Prohibition. Subcontractor and Health Plan shall not discriminate with respect to participation, reimbursement, or indemnification of a provider who is acting within the scope of the provider's license or certification under applicable State law, solely on the basis of such license or certification. Subcontractor and Health Plan shall not discriminate against Provider for serving high-risk Covered Persons or if Provider specializes in conditions requiring costly treatments. This provision shall not be construed as prohibiting Subcontractor and/or Health Plan from limiting a provider's participation to the extent necessary to meet the needs of Covered Persons. This provision also is not intended and shall not interfere with measures established by Vendor that are designed to maintain quality of care practice standards and control costs.

5.4 Communications with Covered Persons. Covered Persons are entitled to the full range of their Providers' opinions and counsel about the availability of Medically Necessary Services under the provisions of the State Contract. Any contractual provisions, including gag clauses or rules, that restrict a Provider's ability to advise Covered Persons about Medically Necessary treatment options violate federal law and regulations.

Subcontractor and Health Plan shall not prohibit or otherwise restrict Provider, when acting within the lawful scope of practice, from advising or advocating on behalf of a Covered Person for the following:

(a) The Covered Person's health status, medical care, or treatment options, including any alternative treatment that may be self-administered;

(b) Any information the Covered Person needs in order to decide among all relevant treatment options;

(c) The risks, benefits, and consequences of treatment or non-treatment; or

(d) The Covered Person's right to participate in decisions regarding his or her health care, including the right to refuse treatment, and to express preferences about future treatment decisions.

Subcontractor and Health Plan also shall not prohibit a Provider from advocating on behalf of a Covered Person in any grievance system, utilization review process, or individual authorization process to obtain necessary health care services.

5.5 Termination, Revocation and Sanctions. In addition to its termination rights under the Agreement, Subcontractor and Health Plan shall have the right to revoke any functions or activities Subcontractor and/or Health Plan delegates to Provider under the Agreement or impose other sanctions consistent with the State Contract if in Subcontractor and/or Health Plan's reasonable judgment Provider's performance under the Agreement is inadequate. Subcontractor and Health Plan shall also have the right to suspend, deny, refuse to renew or terminate Provider in accordance with the terms of the State Contract and applicable law and regulation. However, Subcontractor and Health Plan shall not exclude or terminate a Provider from participation in Subcontractor and/or Health Plan's Provider Network due to the fact that the Provider has a practice that includes a substantial number of patients with expensive medical conditions, and shall not terminate a Provider for filing a Complaint, Grievance, or Appeal on a Covered Person's behalf.

SECTION 6
OTHER REQUIREMENTS

6.1 Compliance with State Contract. All tasks performed under the Agreement shall be performed in accordance with the requirements of the applicable State Contract, as set forth in this Appendix, applicable provider manuals, and protocols, policies and procedures that Subcontractor and/or Health Plan have provided or delivered to Provider. The applicable provisions of the State Contract are incorporated into the Agreement by reference. Nothing in the Agreement relieves Health Plan of its responsibility under the State Contract. If any provision of the Agreement is in conflict with provisions of the State Contract, the terms of the State Contract shall control and the terms of the Agreement in conflict with those of the State Contract will be considered waived.

6.2 Monitoring. Subcontractor and/or Health Plan shall perform ongoing monitoring (announced or unannounced) of services rendered by Provider under the Agreement and shall perform periodic formal reviews of Provider according to a schedule established by the State, consistent with industry standards or State managed care organization laws and regulations or requirements under the State Contract. As a result of such monitoring activities, Subcontractor and/or Health Plan shall identify to Provider any deficiencies or areas for improvement mandated under the State Contract and Provider and Subcontractor and/or Health Plan shall take appropriate corrective action. Provider shall comply with any corrective action plan initiated by Subcontractor and/or Health Plan and/or required by the MississippiCAN Program. In addition, Provider shall monitor and report the quality of services delivered under the Agreement and initiate a plan of correction where necessary to improve quality of care, in accordance with that level of care which is recognized as acceptable professional practice in the respective community in which Subcontractor, Health Plan and Provider practice and/or the performance standards established under the State Contract.

6.3 Enrollment. The parties acknowledge and agree that the Division is responsible for enrollment, reenrollment and disenrollment of Covered Persons.

6.4 No Exclusivity. Nothing in the Agreement or this Appendix shall be construed as prohibiting or penalizing Provider for contracting with a managed care organization other than Subcontractor and/or Health Plan or as prohibiting or penalizing Subcontractor and Health Plan for contracting with other providers.

6.5 Delegation. The parties agree that, prior to execution of the Agreement, Subcontractor and/or Health Plan evaluated Provider's ability to perform any duties delegated to Provider under the Agreement. Any delegated duties and reporting responsibilities shall be set forth in the Agreement or other written delegation agreement or addendum between the parties. Subcontractor and Health Plan shall have the right to revoke any functions or activities Subcontractor and/or Health Plan delegates to Provider under the Agreement if in Subcontractor and/or Health Plan's reasonable judgment Provider's performance under the Agreement is inadequate.

Vision Vendor
Provider Services Agreement

PROVIDER SERVICES AGREEMENT

THIS PROVIDER SERVICES AGREEMENT (this "**Agreement**") is entered into by and between VISION VENDOR, INCORPORATED, a California corporation ("**Vision Vendor**") and the entity or individual identified as "Provider" on the signature page of this Agreement ("**Provider**") for the purposes of setting forth the terms and conditions under which Provider will participate as a provider of Eye Health Care Services for Vision Vendor.

RECITALS

A. Provider is duly registered, fully licensed, and in good standing, with no restriction against its licenses under the laws of the States in which Eye Health Care Services are provided under the terms of this Agreement (collectively, "**State(s)**"). By this Agreement, and subject to the terms and conditions which follow, Provider agrees to, and shall cause each of its contracting providers to agree to provide Eye Health Care Services in accordance with this Agreement on behalf of Vision Vendor, its affiliates, and its Plans. Provider conducts its practice at the office location(s) listed on the Provider Demographic Form.

B. Vision Vendor desires to engage Provider to provide Eye Health Care Services, and Provider hereby accepts such engagement, under the terms and conditions specified herein.

AGREEMENT

NOW, THEREFORE, in consideration of the foregoing recitals, which are incorporated herein by this reference, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto, intending to be legally bound, hereby agree as follows:

ARTICLE I
DEFINITIONS

In addition to the terms defined elsewhere in this Agreement, the following terms are defined as follows:

1.1 "**Allowable Fee**" means the amount payable to a Provider for Eye Health Care Services pursuant to **Exhibit A** of this Agreement.

1.2 "**Contracting Provider**" means each licensed health care provider that is employed by or otherwise under contract with Provider to provide Eye Health Care Services to Enrollees hereunder.

1.3 "**Copayment**" means a portion of the Allowable Fee for a given Eye Health Care Service which, under the terms of the applicable Plan, is required to be paid by the Enrollee directly to the Provider.

1.4 "**Deductible**" means the amount required, under the terms of the applicable Plan, to be paid by the Enrollee for Eye Health Care Services provided under this Agreement before the Enrollee is entitled to benefits under a Plan.

1.5 "**Effective Date**" means the date set forth on the signature page to this Agreement by Vision Vendor.

1.6 "**Enrollee**" means any individual entitled to receive Eye Health Care Services pursuant to a Plan.

1.7 "**Eye Health Care Services**" means the Medically Necessary services and materials that are covered benefits under the applicable Plan.

1.8 "**Emergency Medical Condition**" means a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, with an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in: (i) serious jeopardy to the health of the individual or, in the case of a pregnant woman, the health of the woman or her unborn child; (ii) serious impairment to bodily functions; or (iii) serious dysfunction of any bodily organ or part.

1.9 "**Intermediary**" is a person or entity authorized to negotiate and execute the Agreement on behalf of Provider or on behalf of a network through which Provider elects to participate.

1.10 "**Medically Necessary**" means those Eye Health Care Services provided by Provider or a Contracting Provider which an Enrollee requires, as determined by Provider or Vision Vendor in accordance with generally accepted medical practice standards in effect at the time of treatment and in conformity with the professional and technical standards adopted by Vision Vendor's UM/QA committee, and not solely for the convenience of the Enrollee, Provider or Contracting Provider.

1.11 "**Plan**" means a health maintenance organization, a preferred provider organization, a physician hospital organization, an insurance company, an employer, a self-funded health benefit plan, a third party administrator, or any other source of funding for Eye Health Care Services, whether Medicare, Medicare Advantage, a State's Medicaid or Medicaid managed care program, commercial, or otherwise, that enters or has entered into an agreement with Vision Vendor to obtain the services called for under this Agreement, whether such agreement is entered into now or in the future.

1.12 **"Provider Demographic Form"** means the form provided by Vision Vendor to be completed by Provider setting forth Provider's information including but not limited to the office locations, office hours, languages spoken, billing and mailing addresses, telephone and fax numbers and the list of Contracting Providers. The Provider Demographic Form shall be updated from time to time by Provider upon a change to the information provided by Provider.

1.13 "**Provider Policies**" means any Vision Vendor or Plan policies, procedures, reference guides, manuals and other governing documents referred to in this Agreement or required by any agreement with a Plan. Vision Vendor shall make available to Provider the Provider Policies in effect as of the date hereof. Additionally, Provider may obtain access to the most current Provider Policies via the portal or other electronic means.

1.14 "**UM/QA Program**" means the utilization management and quality assurance program administered by Vision Vendor's UM/QA committee and its governing board to assure that Eye Health Care Services are necessary and that they are being provided in a manner consistent with accepted standards of service and with applicable laws, regulations and standards.

ARTICLE II
PROVIDER DUTIES

Provider agrees that:

2.1 Provider shall accept (and shall cause each Contracting Provider to accept) as patients all Enrollees referred by Vision Vendor without discrimination. Provider shall provide Vision Vendor with a minimum of sixty (60) days' advance written notice of Provider's inability to accept new patients hereunder. Eye Health Care Services provided under this Agreement shall be of the same type and quality, and provided in the same manner, as said services provided to all other patients of Provider.

2.2 Provider shall provide Eye Health Care Services to Enrollees at a level of care and competence that equals or exceeds the generally accepted and professionally recognized standard of practice at the time of treatment in accordance with applicable law and rules and/or standards of professional conduct, and any controlling governmental licensing requirements. Provider shall cause every Contracting Provider to, at all times during the term of the Agreement, maintain a license to practice his or her profession in the applicable State(s). In the event of any suspension, restriction or revocation of any license required to be maintained by a Contracting Provider, Provider shall: (a) immediately cause such Contracting Provider to stop providing Eye Health Care Services under this Agreement; (b) immediately provide notice of such suspension, restriction, or revocation to Vision Vendor by both telephone and in writing; and (c) shall not resume performance under this Agreement unless and until his or her license is restored and he or she has received written notice of reinstatement from Vision Vendor.

2.3 Provider warrants and represents that it has not been convicted of crimes as specified in Section 1128 of the Social Security Act (42 U.S.C. 1320a-7), excluded from participation in the Medicare or Medicaid program, assessed a civil penalty under the provisions of Section 1128, entered into a contractual relationship with an entity convicted of a crime specified in Section 1128, or taken any other action that would prohibit it from participation in Medicare, Medicaid or any state health care programs. Provider agrees to notify Vision Vendor immediately in the event it or any Contracting Provider is or becomes disbarred, excluded, suspended, or is otherwise determined to be ineligible to participate in any federal or state health care program(s). Provider shall not employ or contract with, with or without compensation, any individual or entity that has been disbarred, excluded, suspended or otherwise determined to be ineligible to participate in federal health care programs. Provider shall screen their employees and contractors initially and on an ongoing monthly basis to determine whether any of them has been excluded from participation in Medicare, Medicaid, SCHIP, or any Federal health care programs (as defined in Section 1128B(f) of the Social Security Act) and not employ or contract with an individual or entity that has been excluded or debarred. Provider will conduct monthly checks to screen their employees and contractors for exclusion, using the Social Security Administration's Death Master File, the National Plan and Provider Enumeration System (NPPES), the List of Excluded Individuals/Entities (LEIE), the System for Award Management (SAM), and any other databases a State may prescribe.

2.4 Provider shall, and shall cause each Contracting Provider, to comply with each applicable Plan. Vision Vendor shall give Provider access via the portal or other electronic means to the Eye Health Care Services, compensation and any other additional or modified terms and conditions applicable to existing or new Plans offered through Vision Vendor ("**New Plan Information**"). Provider shall regularly access and provide New Plan Information to each

Contracting Provider. Provider agrees to comply with and be bound by such amendments or modifications.

2.5 Provider shall cause each Contracting Provider to provide Eye Health Care Services to Enrollees in accordance and compliance with the terms and conditions hereof and with the Provider Policies, as they may be amended from time to time unilaterally by Vision Vendor. Provider shall cause each Contracting Provider to provide services hereunder in accordance with all applicable CMS, Medicaid and other laws, regulations, guidelines, instructions and model contracts, including, without limitation, applicable statutes and regulations promulgated by the regulators of the applicable Federal or State(s) who supervise, regulate and license the provision of Eye Health Care Services by Provider or any Contracting Provider (such regulators are collectively referred to herein as the "**Regulator**"), applicable statutes, regulations and guidelines (from Plan, Vision Vendor, or otherwise) regarding privacy and confidentiality or Enrollees' health information and medical records, and any anti-fraud activities. It is expressly acknowledged and agreed to that Plans contracting with Vision Vendor may be subject to various state and federal law, regulation and policies, and contractual obligations, and any provision required to be incorporated herein by any such law, regulation, policy or contractual obligation and any amendments thereto shall be deemed automatically incorporated herein without any further action or notice by the parties hereto.

2.6 Provider shall maintain, and shall cause each Contracting Provider to maintain, written records of Eye Health Care Services (including but not limited to tests, services, products and procedures) provided to patients and Enrollees in accordance with Plan requirements and the applicable requirements of each Regulator and agency of the State(s), including, without limitation, licensing authorities and Provider shall make such written records of the tests and procedures available to Vision Vendor or a Plan from time to time upon request, subject to applicable patient record confidentiality requirements, as well as to such applicable authorities in accordance with this Agreement.

2.7 Provider shall cause its Contracting Providers to make available Eye Health Care Services to Enrollees during each Contracting Provider's customary service hours at each facility of Provider that are customarily open to patients (collectively, "**Office(s)**"). If a Contracting Provider offers services on weeknights or weekends, Provider shall cause such Contracting Provider to extend such hours to Enrollees to receive Eye Health Care Services, and shall accept referrals of Enrollees from other Offices (as applicable). If an Enrollee desires Eye Health Care Services after-hours when such Enrollee's customary Contracting Provider is unavailable, Provider shall refer the Enrollee to the nearest Contracting Provider who offers Eye Health Care Services during such hours. Provider shall monitor each Contracting Provider's Office hours to ensure that Enrollees have adequate access to Eye Health Care Services at convenient times. At all times during business hours, Provider shall cause its Contracting Provider(s) or another Vision Vendor-approved provider to be available to furnish Eye Health Care Services at the Office(s). Each Office(s) shall be listed on the Provider Demographic Form and shall be adequately equipped and staffed to provide complete Eye Health Care Services as agreed upon in this Agreement.

2.8 Provider shall, and shall cause each Contracting Provider, to comply with availability and accessibility standards as are promulgated by Vision Vendor from time to time, including, without limitation, waiting times and appointments. Provider agrees to submit to periodic audits of each Office to ensure compliance with Vision Vendor's standards. Provider acknowledges that Provider has access to Vision Vendor's availability and accessibility

standards prior to the execution of this Agreement. Vision Vendor shall give Provider access via the portal or other means to any amendments or modifications to such standards which may be adopted by Vision Vendor from time to time during the term hereof. Provider shall regularly access and provide such standards to each Contracting Provider. Provider agrees to comply with and be bound by such changes.

2.9 If a Contracting Provider determines that an Enrollee requires Eye Health Care Services that are beyond the scope of the Contracting Provider's scope of training and license, the Contracting Provider shall refer Enrollee to another Contracting Provider or other Vision Vendor-approved provider who is licensed and trained to provide such services, using a referral form provided by Vision Vendor. Provider shall cause each Contracting Provider to notify Enrollees whether or not such services are a covered benefit under the Plan.

2.10 In the event an Enrollee at an Office requires services to treat an Emergency Medical Condition or urgent care services beyond the scope of his/her Contracting Provider's training or licensure, or an Enrollee contacts Provider or a Contracting Provider requiring such emergency or urgent care services during business hours, the following shall apply: In no event shall Provider or any Contracting Provider provide services to any Enrollee beyond the scope of Provider's or such Contracting Provider's license. Provider shall cause each Contracting Provider to treat all Emergency Medical Conditions within the Contracting Provider's scope of training and license. In the event any Enrollee presents with any other type of Emergency Medical Condition, Provider shall contact the local ambulance or paramedic services. Provider shall ensure that Enrollees are informed of the appropriate agencies or resources to contact in the event of an Emergency Medical Condition or urgent care condition after hours.

2.11 Provider and each Contracting Provider acknowledges that it is a "Covered Entity" as that term is defined in the HIPAA Standards for Privacy of Individually Identifiable Health Information adopted by the United States Department of Health and Human Services on December 28, 2000, as amended (the "**Privacy Rule**"). Provider shall adequately protect the confidentiality of individually identifiable health information and shall comply with the Privacy Rule and all state and federal laws governing the confidentiality of Enrollee medical information.

2.12 Medicare Advantage Compliance. For Eye Health Care Services covered under a Medicare Advantage Plan, each Contracting Provider agrees to render such Eye Health Care Services to Enrollees in accordance with applicable Medicare Advantage regulations and Center for Medicare and Medicaid Services ("**CMS**") guidelines With respect to any Medicare Advantage Plan, applicable regulatory requirements shall survive the termination of the Agreement regardless of the reason for termination and shall supersede any contrary provision in this Agreement and any oral or written contrary agreement between Provider/Contracting Provider and an Enrollee (or his/her representative) if such other agreement is inconsistent with these requirements.

2.13 Record Audit and Inspection. Provider agrees to give the Department of Health and Human Services ("**HHS**"), the Comptroller General, State Medicaid officials or their respective designee(s) the right to inspect, evaluate, and audit any pertinent contracts, books, documents, papers, and records involving transactions related to the Agreement for a period of ten (10) years from the final date of a contract period or from the date of completion of any audit, whichever is later, or longer if required under applicable regulations. Provider shall make available its premises, physical facilities, equipment and records relating to Medicare Enrollees, and any additional relevant information that such departments may require.

2.14 Confidentiality and Accuracy of Enrollee Records. Each Contracting Provider shall safeguard the privacy of any and all protected health information that identifies Enrollees, and shall abide by all applicable federal and state laws regarding privacy, confidentiality and disclosure of medical records and other health and Enrollee information. Each Contracting Provider shall maintain medical records in an accurate and timely manner, and shall ensure that Enrollees have timely access to their medical records.

2.15 Reporting Requirements. Provider shall cooperate with Vision Vendor in its compliance with CMS or Medicaid reporting and data submission requirements.

2.16 Accountability. Vision Vendor shall only delegate activities or functions (if any) to Provider if such delegation is in writing and is not inconsistent with the Agreement or applicable regulations. Such delegation arrangement, if made, shall include any reporting requirements, a right of revocation, ongoing review and performance monitoring by Vision Vendor, approval and auditing of credentialing processes (if applicable), and compliance with all applicable laws, regulations and CMS or Medicaid instructions.

2.17 Suspension or Termination of Agreement. If Vision Vendor suspends or terminates the Agreement, Vision Vendor shall give prior written notice to Provider of the following: (i) the reasons for the action, including, if relevant, the standards and profiling data used to evaluate Provider and the numbers and mix of providers needed by Vision Vendor; and (ii) Provider's right to appeal the action and the process and timing for requesting a hearing. If Vision Vendor suspends or terminates the Agreement because of deficiencies in the quality of care, Vision Vendor will give written notice of such action to licensing or disciplinary bodies or to other appropriate authorities.

2.18 Subcontracts. If Provider subcontracts with another provider to deliver Eye Health Care Services to Enrollees, Provider shall receive prior written consent from Vision Vendor, shall ensure that its contract with such provider contains all of the regulatory provisions herein including those contained in any Medicare or Medicaid addenda to this Agreement, and Provider shall provide proof of the same to Vision Vendor upon request.

2.19 Fraud, Waste and Abuse Prevention. Provider shall promptly report any suspected fraud and abuse by to Vision Vendor. Provider shall also cooperate fully with Vision Vendor's policies and procedures designed to protect program integrity and prevent and detect potential or suspected fraud, waste, and abuse in the administration and delivery of services and shall cooperate and assist Vision Vendor, a plan, and any agency charged with the duty of preventing, identifying, investigating, sanctioning or prosecuting suspected fraud, waste, and abuse in state and/or federal health care program

2.20 Disclosure Forms. Provider shall cooperate with Vision Vendor and/or a Plan in disclosing information required related to ownership and control, significant business transactions, and persons convicted of crimes, including any required criminal background checks, in accordance with 42 CFR Part 455 and shall provide information upon request.

2.21 Required Training. Provider shall participate, and shall cause its Participating Providers to participate, in such trainings as are required by Medicare or Medicaid regulations or rules and communicated by Vision Vendor, including but not limited to limited English proficiency and cultural sensitivity.

2.22 Demographic Information and Surveys. Providers shall cooperate with Vision Vendor survey efforts, including but not limited to, querying Americans with Disabilities Act compliance and the validity of Provider demographic information, as required by State or Federal laws, regulations or rules. Provider will attest to the validity of such information as requested by Vision Vendor.

2.23 New Regulatory Provisions. If any applicable Medicare or Medicaid regulations are amended during the term of the Agreement, then those associated provision shall be deemed automatically amended to ensure compliance therewith.

ARTICLE III
UTILIZATION REVIEW AND QUALITY ASSURANCE

3.1 Provider shall, and shall cause each Contracting Provider to, actively participate in, support, and cooperate with any applicable utilization management and quality assurance ("**UM/QA**") programs designated and approved by Vision Vendor or the Plan. Vision Vendor may establish one or more committees comprised of Contracting Providers and other individuals licensed to practice optometry and/or ophthalmology for purposes of carrying out the UM/QA programs designated and approved by Vision Vendor under this Agreement. Vision Vendor shall give Provider access via the portal or other means to any applicable documentation of such programs and any amendments or modifications.

3.2 Provider shall (and shall cause each Contracting Provider to) cooperate with and abide by and adhere to rulings of the Vision Vendor committees, and further agrees that upon request, Provider will furnish case records of Vision Vendor patients for whom claims have been submitted, and that Vision Vendor may use any information so obtained for statistical, actuarial, scientific, peer review or other reasonable purposes, provided that the committee shall maintain the confidentiality of such information in accordance with applicable State and federal laws and regulations.

ARTICLE IV
COMPENSATION; BILLING AND PAYMENT

4.1 In exchange for Eye Health Care Services provided to and/or arranged and paid for on behalf of eligible Enrollees covered under the Plan(s), Vision Vendor agrees to pay Provider the Allowable Fees for services rendered to an Enrollee hereunder, less (i) any applicable Copayments and/or Deductibles, and (ii) any withheld amounts as may be determined by the Vision Vendor and included herein as an amendment to **Exhibit A** attached hereto; (iii) subject to **Exhibit B** hereof, any adjustments charged to the account of Provider for monies owing to Vision Vendor or an Enrollee (as determined by Vision Vendor) as a result of Provider being paid incorrectly or incorrectly billing Vision Vendor or an Enrollee and (iv) amounts set forth in an uncontested notice of overpayment of a claim. Provider specifically authorizes Vision Vendor to offset an uncontested notice of overpayment of a claim directly from Provider's current claims submission. Provider shall be entitled to collect from an Enrollee directly for all applicable Copayment or Deductible amounts. Provider shall report to Vision Vendor in writing all Copayments or Deductible amounts paid by Vision Vendor Enrollees directly to Provider and/or its Contracting Providers.

4.2 If an Enrollee requests services or items that are not covered by the Plan (i.e., optional optical procedures or higher priced frames), Provider shall (i) inform the Enrollee of

his/her responsibility to pay for such non-Eye Health Care Services, (ii) inform the Enrollee that neither Vision Vendor nor any Plan shall be responsible for payment for such services, and (iii) obtain a written consent from such Enrollee evidencing his/her obligation to pay for such services prior to rendering any such non-covered services. Provider and each Contracting Provider shall be entitled to require any Enrollee to pay for such non-Eye Health Care Services directly to Provider or the Contracting Provider, as applicable, subject in all cases to applicable provisions of **Exhibit A**. Provider shall not and shall not allow Contracting Providers to charge Enrollees for non-Eye Health Care Services in excess of rates normally charged to non-Vision Vendor patients. Provider and its Contracting Providers shall not bill Vision Vendor for non-Eye Health Care Services rendered to Enrollees.

4.3 Provider shall use all commercially reasonable efforts to submit claims to Vision Vendor for Eye Health Care Services rendered by Provider and/or its Contracting Providers within ninety (90) days after the rendering of such services or such timeframe as required by State guidelines. Any claims for Eye Health Care Services not submitted to Vision Vendor within ninety (90) days from the date of service, or such other timeframe as required by State guidelines, shall be deemed waived and Provider shall not (and shall cause the Contracting Providers not to) bill Vision Vendor, Enrollees or any third party for such services. However, if Vision Vendor denies a claim because it was filed beyond the claim filing deadline, upon Provider's submission of a provider dispute, as such procedure is set forth at **Exhibit B** attached hereto, and upon Provider's demonstration of good cause for the delay, Vision Vendor shall accept and adjudicate the claim. Provider shall bill Vision Vendor on electronic or other forms designated by Vision Vendor, which forms shall be substantially similar to a CMS-1500 claim form and shall be completed with all requested billing and patient information. Failure to provide all requested billing and patient information on the proper designated form may result in nonpayment or downward adjustment of amounts payable to Provider pursuant to a process set forth in the Provider Policies. Provider shall employ current HCPCS, ICD-9, or CPT-4 coding, as appropriate.

4.4 Provider retains the right to seek additional reimbursement from other third party payors pursuant to applicable coordination of benefits provisions or policies. If Vision Vendor is the primary payor, Vision Vendor will pay Provider as provided herein. If Vision Vendor is not the primary payor, Vision Vendor shall be responsible for the difference between Provider's usual and customary fees and the amount payable by the primary payor, not to exceed the applicable rates set forth in **Exhibit A** attached hereto, less any applicable Copayments and Deductibles.

4.5 Except as otherwise provided in Section 4.3, Provider and each Contracting Provider agrees to accept the Allowable Fee, less any applicable Copayments and Deductibles, as payment in full for Eye Health Care Services provided hereunder. In no event, including, without limitation (i) non-payment by Vision Vendor, the primary payor or an ~~intermediary,~~ (ii) insolvency of Vision Vendor, the primary payor or an ~~intermediary,~~ or (iii) a breach by Vision Vendor of the Agreement, shall such Contracting Provider bill, charge, collect a deposit from, seek compensation, remuneration or reimbursement from, or have any recourse against any Enrollee or person (other than Vision Vendor, the primary payor or ~~intermediary~~) acting on behalf of the Enrollee for Eye Health Care Services provided pursuant to the Agreement. Provider shall not (and shall cause its Contracting Providers not to) invoice or balance bill Enrollees for the difference between Provider's billed charges and the reimbursement paid by Vision Vendor for any Eye Health Care Services, and agrees not to bill or to assess any charge to

Enrollees regardless of whether or not payment is received from Vision Vendor. Provider acknowledges that attempting to charge for or collect from an Enrollee any such charge may result in termination of this Agreement or other appropriate action by Vision Vendor. Neither Provider nor any Contracting Provider or their respective agents, trustees or assignees may maintain any action at law against a Vision Vendor Enrollee for sums owed to Provider or any Contracting Provider by Vision Vendor, and Enrollees shall not be liable to Provider or any Contracting Provider for such sums.

ARTICLE V
ELIGIBILITY AND AUTHORIZATION VERIFICATION

5.1 Enrollee may be furnished with an identification card, and Provider shall cause each Contracting Provider to make a photocopy of such card. Provider shall also contact, and shall cause each Contracting Provider to contact, Vision Vendor's telephone verification service during regular business hours to verify (i) whether a person seeking services pursuant to this Agreement is eligible for Eye Health Care Services, (ii) that the services sought are Eye Health Care Services covered under the Enrollee's Plan, and (iii) the amount of applicable Copayments and Deductibles, if any. Provider may also access the portal to verify (i) whether a person seeking services pursuant to this Agreement is eligible for Eye Health Care Services. If Provider or any Contracting Provider obtains a copy of the identification card and obtains verification in the manner set forth in this Section 5.1, such verification shall be conclusive as to Vision Vendor for the date of such verification, unless and until Vision Vendor notifies Provider to the contrary in writing electronically or otherwise.

ARTICLE VI
TERM AND TERMINATION

6.1 Term. Unless sooner terminated in accordance with this Agreement, the initial term of this Agreement shall be one (1) year from and after the Effective Date. Upon the expiration of the initial and each subsequent term, this Agreement shall automatically renew for additional terms of one (1) year each, unless sooner terminated in accordance with this Agreement.

6.2 Termination.

6.2.1 Termination Without Cause. This Agreement may be terminated at any time by the mutual written agreement of Provider and Vision Vendor. This Agreement may be terminated without cause at any time, upon not less than ninety (90) days' prior written notice to the other party.

6.2.2 Termination for Cause. This Agreement may be terminated for cause only on the following grounds:

(a) In the event that either party substantially fails to perform any of its material obligations under this Agreement, the other party may give written notice to the non-performing party specifying the obligation(s) not performed and demanding performance within thirty (30) days. If at the end of the thirty (30) day period the non-performing party has not performed the specified obligation(s), the party giving notice

may terminate this Agreement immediately upon additional written notice to the non-performing party.

(b) Vision Vendor may terminate this Agreement (i) upon thirty (30) days' prior written notice in the event that Provider or any Contracting Provider fails to provide Vision Vendor with any information reasonably requested by Vision Vendor in the form so requested for the purposes of this Agreement, and during such thirty (30) day notice period Provider (or such Contracting Provider) does not cure such default; or (ii) immediately if Provider or any Contracting Provider provides Vision Vendor with any misleading or false information (including but not limited to information regarding claims, services provided, patients treated, premises where treatment was provided, status of licensure or ownership of practice or dispensing facility).

(c) Vision Vendor shall be entitled to suspend Provider and any Contracting Provider from participation under this Agreement immediately upon written notice in the event that, in the judgment of Vision Vendor, the health, safety, or welfare of patients will be jeopardized by Provider or such Contracting Provider continuing to provide services under this Agreement. The effect of suspension from participation under this Agreement shall be that, for the term of the suspension, the suspended Provider (or Contracting Provider, as applicable) shall not perform any Eye Health Care Services under this Agreement. All other provisions of this Agreement shall remain in full force and effect during the term of any such suspension, unless and until this Agreement is terminated according to its terms. Any such suspension shall continue until notice of reinstatement is issued in writing by Vision Vendor. Any suspension under this Section 6.2.2(c) that continues for an uninterrupted ninety (90) day period shall result in the automatic termination of this Agreement.

6.3 Effect of Expiration or Termination. Upon the expiration or earlier termination of this Agreement for any reason, Provider and each Contracting Provider shall continue to provide Eye Health Care Services to Enrollees who retain eligibility and who are under the care of Provider at the time of such expiration or termination until the services are completed, or until Vision Vendor makes reasonable and appropriate provision for the assumption of such services by another Vision Vendor-approved provider. Provider shall be entitled to compensation (less applicable Deductibles and Copayments, if any) pursuant to Section 4.1 for Eye Health Care Services provided pursuant to this Section 6.3.

ARTICLE VII
INSURANCE AND INDEMNIFICATION

7.1 Provider and each Contracting Provider shall maintain, throughout the term of this Agreement and for a period of not less than three (3) years thereafter, at Provider's own expense, professional and comprehensive general liability insurance coverage. Provider and each Contracting Provider shall maintain throughout the term of this Agreement and for a period of not less than three (3) years thereafter at Provider's expense minimum professional liability insurance coverage of at least One Million Dollars ($1,000,000) per occurrence, Three Million Dollars ($3,000,000) annual aggregate or such other amount that is specified in the Vision Vendor Provider Policies, and shall maintain minimum general liability insurance coverage in the amount of at least One Million Dollars ($1,000,000.00) combined single limit. Provider and each Contracting Provider shall maintain workers' compensation coverage to the extent and in the amounts required by applicable law. In the event of any reduction, lapse, discontinuation, or

other loss of any insurance coverage required to be maintained by Provider or any Contracting Provider, Provider: (a) shall immediately provide notice of such event to Vision Vendor both by telephone and in writing; (b) shall be subject to suspension from providing services under this Agreement in the sole discretion of Vision Vendor upon oral or written notice; and (c) in the event of such suspension, shall not resume performance under this Agreement unless and until such insurance coverage is restored and he or she has received written notice of reinstatement from Vision Vendor. Upon request, Provider shall provide Vision Vendor with certificates evidencing the insurance coverages required herein. Provider shall, at least thirty (30) days prior to the expiration of such policy or policies, furnish Vision Vendor with renewals or binders thereof.

7.2 Provider and each Contracting Provider agrees to indemnify, defend and hold harmless Vision Vendor from and against any and all claims, liability, cost or expense (including, without limitation, litigation costs and attorneys' fees) arising out of or resulting from any act or failure to act by Provider, to the extent the claim, liability, cost or expense is not otherwise covered by insurance.

ARTICLE VIII
RECORDKEEPING AND ACCESS TO RECORDS

8.1 Provider and/or each Contracting Provider shall maintain patient visit records and billing and payment records for all Enrollees treated by Provider and its Contracting Providers in accordance with prudent recordkeeping practices and as required by law.

8.2 Any request by Vision Vendor for supporting medical record Documentation shall be provided to Vision Vendor by Provider without cost to Vision Vendor.

8.3 Without limiting any of the foregoing, Provider and each Contracting Provider agrees to maintain such records (including patient care records) and provide such information to Vision Vendor or any Regulator, government agency, HHS, Plan, or any of their designees as may be required by law, regulation, or Vision Vendor's contractual obligations, and to permit the foregoing and their representatives at all reasonable times to have access upon demand to Provider's and each Contracting Provider's books, records and papers relating to Eye Health Care Services provided to Enrollees hereunder, to the cost thereof, to the payments received by Provider and/or its Contracting Providers from or on behalf of Enrollees, and, as otherwise may be necessary for compliance by Vision Vendor with, and/or to inspect all facilities maintained or utilized by Provider and its Contracting Providers in the performance of services hereunder. Provider and each Contracting Provider shall retain such books and records for at least ten (10) years from and after termination of this Agreement, whether by rescission or otherwise or longer as may be required by law.

ARTICLE IX
DISPUTES AND GRIEVANCES

9.1 Provider may submit information regarding disputes, on its own behalf or on behalf of Contracting Providers, to Vision Vendor at the address or telephone number designated on the signature page of this Agreement, which address or telephone number may be modified from time to time by written notice hereunder. Such disputes shall be resolved in accordance with Vision Vendor's provider dispute resolution mechanism. If the parties are unable to resolve the dispute in accordance with the provider dispute resolution mechanism, then any matters

remaining in controversy shall be subject to binding arbitration in accordance with Section 10.12 of this Agreement.

9.2 Vision Vendor shall notify Provider in writing of the grievance procedures established by Vision Vendor for redress of concerns of Enrollees regarding Provider and of Provider regarding Enrollees, including, without limitation, disputes as to services, materials, or payment for same. Vision Vendor shall provide forty-five (45) business days' notice to Provider of any changes to such grievance procedures, and Provider shall have the right to negotiate and agree to the change(s). If Provider decides not to agree, Provider has the right to terminate this Agreement prior to the implementation of the change. Otherwise, following forty-five (45) business days from receipt of the notice of any grievance procedure changes, Provider agrees to comply with and be bound by such grievance procedures. Further, Provider and each Contracting Provider shall participate in and abide by the decisions of Vision Vendor's or Plan's enrollee complaint and grievance systems and agree to be bound by any arbitration decision resulting from the disposition of any grievance involving an Enrollee to the same extent as would apply if Provider were a party to an arbitration agreement.

ARTICLE X
MISCELLANEOUS

10.1 Nondiscrimination. Provider shall not discriminate against any individual on the basis of race, color, sex, age, religion, national origin, disability, veteran's status, ancestry, marital status, sexual orientation, physical, sensory or mental handicap, socioeconomic status, or participation in publicly financed programs of health care in providing Eye Health Care Services under this Agreement.

10.2 Negation of Agency, Partnership, Joint Venture or Employment Relationship. In the performance of the work, duties and obligations of the parties to this Agreement, the parties shall be, and at all times are, independent contractors, and neither party shall consider itself or act as the agent of the other party. No relationship of employer and employee, or of partners or of joint venturers is created by this Agreement. No party shall have nor exercise any control or direction over the performance of services of any other party to this Agreement. Without limiting the foregoing, nothing contained herein shall be construed to interfere with the ordinary relationship that exists between provider and patient. Furthermore, no Provider or Contracting Provider shall be penalized for discussing Medically Necessary or appropriate patient care, for filing a grievance on behalf of a Member, or protesting a Plan decision, policy or practice which a Provider or Contracting Provider believes interferes with its ability to provide Medically Necessary and appropriate health care. Nothing contained in this Agreement shall create any rights or remedies in any third party including, but not limited to, any Enrollee.

10.3 Assignment; Binding Effect. Vision Vendor may at any time assign its rights and obligations under this Agreement to any entity that: (a) controls, is controlled by, or is under common control with, Vision Vendor; (b) purchases substantially all of the assets of Vision Vendor; or (c) is a Plan referred to in Section 1.10 of this Agreement, and Provider and each Contracting Provider hereby agrees to such assignment (the acceptance of any payment by Vision Vendor or its successor after such assignment also shall constitute evidence of consent by Provider to such assignment). No other assignment of the rights or obligations of either party under this Agreement shall be made without the express written consent of the other party, which consent shall not be unreasonably withheld. Any attempted assignment in violation of this

provision shall be void. Subject to the foregoing restrictions on assignment, this Agreement shall be binding upon the successors and assigns of the parties hereto.

10.4 Amendment. Except as otherwise provided herein, no amendment or modification of this Agreement shall be valid, binding or effective unless it is in writing and signed by Provider and Vision Vendor. Notwithstanding the foregoing, Vision Vendor shall, at any time and without any obligation to provide prior notice to, or obtain the consent of, Provider, have the right to unilaterally modify or amend this Agreement for the purpose of complying with applicable federal, state and local law. Vision Vendor shall notify Provider in writing of any such amendment(s) and such amendment(s) shall become effective as stated therein.

10.5 Notices. Any and all notices or other communications required or permitted by this Agreement shall be in writing and shall be delivered personally or by United States mail, first class, postage prepaid, addressed to the receiving party at the address for notices set forth on the signature page in the case of Vision Vendor or the Provider Demographic Form for Provider. Notice or access to Provider and, if applicable, each Contracting Provider, also may be by email, the portal, or other electronic means. Subject to the provisions of this Agreement, any such notices shall be effective on the later of delivery or the date indicated in the notice. Either party may change its notice address by giving written notice of the change to the other party.

10.6 Waiver of Breach; Entire Agreement. The waiver of any breach of this Agreement shall not be deemed to be a waiver of any other breach of either the same or any different provision. This Agreement, including without limitation, **Exhibits A, B, B-1,** and **B-2,** and the Provider Policies contain the entire agreement between the parties relating to the subject matter hereof and supersede any and all other agreements, negotiations, or representations, whether oral or written, between the parties with respect to the subject matter of this Agreement. In the event a Provider or Contracting Provider is directly or indirectly contracted with Vision Vendor under more than one agreement, Vision Vendor shall solely determine the governing agreement with respect to the provision of Eye Health Care Services to an Enrollee.

10.7 Governing Law. This Agreement shall be construed in accordance with and governed by the internal laws of the State of California without regard to its conflict of law provisions.

10.8 Headings. Headings contained in the Agreement are inserted only as a matter of convenience and in no way define, limit or extend the scope or intent of this Agreement or any provision thereof.

10.9 Severability. In the event any provision of this Agreement is rendered invalid or unenforceable by the enactment of any applicable statute, ordinance or regulation, or is made unenforceable by any court of competent jurisdiction, the remainder of this Agreement shall remain in full force and effect.

10.10 Nondisclosure. Without the other party's prior written consent, neither party shall disclose any term or condition hereunder to any third party, except as required by law, regulations or by applicable agencies, or as necessary to administer this Agreement.

10.11 Provider List; Marks. Vision Vendor has the right to list Provider and each Contracting Provider as a participating provider on Vision Vendor's participating provider lists. In addition to any other indemnification provided hereunder, Provider hereby releases Vision

Vendor, its officers, employees and agents from any and all liability for errors or omissions in preparation and dissemination of such provider lists. Provider and its Contracting Providers shall not at any time use any trademarks, service marks, trade names, or other marks or names of Vision Vendor, whether registered or common law marks (collectively, "**Marks**"), or prepare or distribute any forms, documents or materials of any kind using any Marks of Vision Vendor.

10.12 Arbitration. Any controversy or claim arising out of or relating to this Agreement, or the breach thereof, shall be settled by compulsory and binding arbitration in accordance with the Commercial Arbitration Rules of the American Arbitration Association, and judgment on the award rendered may be entered in any court having jurisdiction thereof. Such arbitration shall be held in the County of Los Angeles, California. If either party to this Agreement initiates arbitration or any other legal proceedings against the other party, the prevailing party shall be allowed such costs and reasonable attorneys' fees as the court may allow. If the parties are unable to agree on a single arbitrator, each party shall appoint an arbitrator and the two appointed arbitrators shall select a third arbitrator who shall conduct the arbitration. All fees and expenses of the arbitrator(s) and the arbitration shall be shared equally by the parties, subject to the terms of Section 10.15 hereof.

10.13 Counterparts. This Agreement may be executed in any number of counterpart copies, all of which shall constitute one and the same Agreement and each of which shall constitute an original, and shall become effective upon execution and delivery to both parties hereto. A facsimile or other digital copy of a signature shall be valid as an original.

10.14 Confidentiality; Non-Solicitation. Provider and each Contracting Provider acknowledges and agrees that the business relationship between Vision Vendor and its Enrollees and/or with subscriber groups, as applicable, and all lists of Enrollees accepted by Provider and the Contracting Provider(s) hereunder shall all be deemed valuable proprietary and confidential information of Vision Vendor. Accordingly, during the entire term of this Agreement and for a period of one (1) year after this Agreement expires or terminates for any reason, Provider and each Contracting Provider agrees that he/she/it shall not, without the prior written consent of Vision Vendor, directly or indirectly within the service area of Vision Vendor: (a) interfere with Vision Vendor's contract and/or property rights; (b) solicit such Enrollee to become enrolled with any other managed care organization; or (c) to disclose any proprietary information of Vision Vendor.

10.15 Fees. In the event of any litigation or other action involving a dispute or determination of rights or obligations under this Agreement, the prevailing party, as determined by the judge or arbitrator or arbitration panel, shall be entitled to court or arbitrator fees and reasonable attorneys' fees from the other party(ies) to the litigation or action.

10.16 Not Contingent on Referrals. The parties hereby acknowledge and agree that the terms and conditions hereunder neither require nor are in any way contingent upon the recommendation or referral by or to, or the provision of any item or service by or to, any party hereto or any patient. This Agreement shall not be construed to be an exclusive Agreement between Vision Vendor and Provider.

10.17 Location Change or Severance of Contracting Providers. Provider agrees to provide Vision Vendor with written notice at least one hundred (100) days in advance of any office location change of address or addition or severance of any Contracting Provider.

EXHIBIT A

ALLOWABLE FEES

Subject in all cases to the terms and conditions of the applicable Plan, the maximum amount Provider shall receive for rendering services to an Enrollee shall be the lesser of billed charges or the applicable fees set forth in this **Exhibit A**.

MEDICAID PRODUCTS:

Reimbursement will be at [redacted] of the then current applicable Medicaid fee schedule. The applicable Medicaid fee schedule is determined by the State of the Member's health plan. For any service code without a specific dollar amount in such fee schedule, Provider will be paid at [redacted] of billed charges up to a maximum of [redacted]

Notwithstanding the foregoing, the following fittings will be reimbursed as follows:

Description:	CPT:	Medicaid
Fitting of spectacles except for aphakia; monofocal	92340	[redacted]
Fitting of spectacles except for aphakia; bifocal	92341	
Fitting of spectacles except for aphakia; multifocal, other than bifocal	92342	
Fitting of spectacles prosthesis for aphakia; monofocal	92352	

EXHIBIT B

DISPUTE RESOLUTION MECHANISM

This Exhibit sets forth Provider's rights, responsibilities, and related procedures as they relate to claim settlement practices and claim disputes. This Exhibit is modified by, and incorporates, any State laws, regulations and policies relating to this subject matter to the extent required by law.

I. Dispute Resolution Process for Contracting Providers

A. Definition of Contracted Provider Dispute. A "contracted provider dispute" is a provider's written notice to Vision Vendor and/or the Enrollee's applicable health plan challenging, appealing or requesting reconsideration of a claim (or a bundled group of substantially similar multiple claims that are individually numbered) that has been denied, adjusted or contested or seeking resolution of a billing determination or other contract dispute (or bundled group of substantially similar multiple billing or other contractual disputes that are individually numbered) or disputing a request for reimbursement of an overpayment of a claim.

Each contracted provider dispute must contain, at a minimum the following information:

1. provider's name;
2. provider's identification number;
3. provider's contact information;
4. if the contracted provider dispute concerns a claim or a request for reimbursement of an overpayment of a claim from Vision Vendor to a provider the following must be provided: a clear identification of the disputed item, the date of service and a clear explanation of the basis upon which the provider believes the payment amount, request for additional information, request for reimbursement for the overpayment of a claim, contest, denial, adjustment or other action is incorrect; if the contracted provider dispute is not about a claim, a clear explanation of the issue and the provider's position on such issue; and
5. if the contracted provider dispute involves an Enrollee or group of Enrollees, the name and identification number(s) of the Enrollee or Enrollees, a clear explanation of the disputed item, including the date of service and provider's position on the dispute, and written authorization from the Enrollee or Enrollee for provider to represent said Enrollee or Enrollee.

B. Sending a Contracted Provider Dispute to Vision Vendor. Contracted provider disputes submitted to Vision Vendor must include the information listed above for each contracted provider dispute (*see* **Exhibit B-1** attached hereto). All contracted provider disputes must be sent to the attention of *Provider Dispute Resolution/Claims Department* as follows:

Via Mail: 6601 Center Drive West, Suite 200
Los Angeles, CA 90045

Via Physical Delivery: 6601 Center Drive West, Suite 200
Los Angeles, CA 90045

Via fax: (877) 627-2488

C. Time Period for Submission of Provider Disputes.

1. Contracted provider disputes must be received by Vision Vendor within three hundred sixty-five (365) days from the later of the date: (a) of Vision Vendor's action that led to the dispute (or the most recent action if there are multiple actions) that led to the dispute; or (b) that the provider's time for contesting or denying a claim (or most recent claim if there are multiple claims) has expired.

2. Contracted provider disputes that do not include all required information as set forth above in Section I.A. may be returned to the submitter for completion. An amended contracted provider dispute which includes the missing information may be submitted to Vision Vendor within thirty (30) business days of the provider's receipt of a returned contracted provider dispute.

D. Contact Vision Vendor Regarding Contracted Provider Disputes. All inquiries regarding the status of a contracted provider dispute or about filing a contracted provider dispute must be directed to Vision Vendor at (866) 376-6780.

E. Instructions for Filing Substantially Similar Contracted Provider Disputes. Substantially similar multiple claims, billing or contractual disputes, may be filed in batches as a single dispute, provided that such disputes are submitted in the following format (*see* **Exhibit B-2** attached hereto):

1. Sort provider disputes by similar issue.
2. Submit Provider Dispute Resolution Request (for use with multiple "LIKE" claims) form with each batch.
3. Number each batch cover sheet.
4. Provide a cover letter for the entire submission describing each provider dispute with references to the numbered batches.

F. Past Due Payments. If the contracted provider dispute or amended contracted provider dispute involves a claim and is determined in whole or in part in favor of the provider, Vision Vendor will pay any outstanding monies determined to be due, and all interest and penalties required by law or regulation.

II. Claim Overpayments

A. Notice of Overpayment of a Claim. If Vision Vendor determines that it has overpaid a claim, Vision Vendor will notify the provider in writing through a separate notice clearly identifying the claim, the name of the Enrollee, the date of service(s) and a clear explanation of the basis upon which Vision Vendor believes the amount paid on the claim was in excess of the amount due, including interest and penalties on the claim.

B. Contested Notice. If the provider contests Vision Vendor's notice of overpayment of a claim, the provider, within thirty (30) business days of the receipt of the notice of overpayment of a claim, must send written notice to Vision Vendor stating the basis upon which the provider believes that the claim was not overpaid. Vision Vendor will process the contested notice in accordance with Vision Vendor's contracted provider dispute resolution process described in Section II above.

C. No Contest. If the provider does not contest Vision Vendor's notice of overpayment of a claim, the provider must reimburse Vision Vendor within thirty (30) Business days of the provider's receipt of the notice of overpayment of a claim.

D. Offsets to Payments. Vision Vendor may only offset an uncontested notice of overpayment of a claim against provider's then current claim submission when: (i) the provider fails to reimburse Vision Vendor within the time frame set forth in Section II(C) and (ii) Vision Vendor's contract with the provider specifically authorizes Vision Vendor to offset an uncontested notice of overpayment of a claim from the provider's current claims submissions. In the event that an overpayment of a claim or claims is offset against the provider's then current claim or claims pursuant to this section, Vision Vendor will provide the provider with a detailed written explanation identifying the specific overpayment or payments that have been offset against the specific claim or claims.

MississippiCHIP Regulatory Requirements Appendix

Downstream Provider

THIS MISSISSIPPICHIP PROGRAM REGULATORY REQUIREMENTS APPENDIX (this "Appendix") supplements and is made part of the provider agreement (the "Agreement") between Vision Vendor ("Subcontractor") and the party named in the Agreement ("Provider").

SECTION 1
APPLICABILITY

This Appendix applies with respect to the provision of direct or health care related services that Provider directly provides to Members through CCO's (as defined herein) products or benefit plans under the Mississippi Children's Health Insurance Program (the "MississippiCHIP Program") as governed by the State's designated regulatory agencies. Provider has agreed to provide Covered Services to Members who receive their coverage pursuant to a contract between the State and CCO (the "MississippiChip Program Contract" as defined herein). The MississippiChip Program Contract and applicable State and federal law require that the provisions contained in this Appendix be part of the Agreement. In the event of a conflict between this Appendix and other appendices or any provision of the Agreement, the provisions of this Appendix shall control except with regard to benefit plans outside the scope of this Appendix or unless otherwise required by law. In the event Subcontractor is required to amend or supplement this Appendix as required or requested by the State to comply with federal or State regulations, Subcontractor will unilaterally initiate such additions, deletions or modifications. All provider agreements must be in writing and must include all specific activities and report responsibilities delegated to the Provider by Subcontractor.

SECTION 2
DEFINITIONS

Unless otherwise defined in this Appendix, all capitalized terms shall be as defined in the Agreement. For purposes of this Appendix, the following terms shall have the meanings set forth below; provided, however, in the event any definition set forth in this Appendix or the Agreement is inconsistent with any definition under the MississippiCHIP Program Contract, the definition shall have the meaning set forth under the MississippiCHIP Program Contract.

2.1 Abuse: Any Practice that is inconsistent with sound fiscal, business, or medical practices, and results in an unnecessary cost to CHIP, Contractor, a Provider or in reimbursement for services that are not Medically Necessary or that fail to meet professionally recognized standards for healthcare.

2.2 Action: Subcontractor's or CCO's decision to deny or limit authorization or payment (in whole or in part) for health care services, including new authorizations and previously authorized services; the reduction, suspension, or termination of a previously authorized service; or CCO's or Subcontractor's failure to provide services in a timely manner; failure to resolve Complaints, Grievances, or Appeals within the specified time frames.

2.3 Agreement: An agreement between the Subcontractor or CCO and an individual, business, university, government entity, affiliate, or nonprofit organization to perform part or all of

Subcontractor's or CCO's responsibilities under the MississippiCHIP Program Contract. Agreements must be approved in writing by DOM prior to the start date of the Agreement.

2.4 Appeal: A request for review by Subcontractor or CCO of an Action related to a Member or Provider. In the case of a Member, an Action may include determinations on the health care services a Member believes he or she is entitled to receive, including delay in providing, arranging for, or approving the health care services (such that a delay would adversely affect the health of the Member). In the case of a Provider, the Action may include, but is not limited to, delay or non- payment for covered services.

2.5 Auto Enrollment: The process by which Members who have not voluntarily selected a CHIP Contractor are assigned to a CHIP Contractor.

2.6 Behavioral Health Services: Mental health and/or drug and alcohol abuse treatment services that are provided by the county mental health/Intellectually Delayed/Developmentally Delayed programs, the single county authority administrators, or other appropriately licensed health care practitioners.

2.7 Benchmark Plan: The State School Employee's Health Insurance Plan.

2.8 Child: An individual who is under nineteen (19) years of age who is not eligible for Medicaid benefits and is not covered by other health insurance. Child is also referred to as Member.

2.9 CHIP: The Children's Health Insurance Program as defined in Title XXI of the Social Security Act.

2.10 Complaint: An expression of dissatisfaction received orally or in writing that is of a less serious or formal nature that is resolved within one (1) business day of receipt.

2.11 Coordinated Care Organization (CCO): An organization that meets the requirements for participation as a Contractor in CHIP and manages the purchase and provision of health care services under CHIP. For purposes of this Appendix, CCO refers to Vision Vendorcare of Mississippi, Inc.

2.12 Co-Payment: The fixed amount certain CHIP Members pay for a covered health care service. The amount may vary based on healthcare service being provided.

2.13 Cost Sharing: In accordance with 42 C.F.R. §457.10, premium charges, enrollment fees, deductibles, coinsurance, Co-Payments, or other similar fees that the Member has responsibility for paying.

2.14 Covered Services: Health care services or products for which a Member is enrolled with CCO to receive coverage under the MississippiCHIP Program Contract.

2.15 Disenrollment: Action taken by DOM, or its Agent, to remove a Member's name from the monthly Member Listing Report following DOM's receipt and approval of a request for Disenrollment or a determination that the Member is no longer eligible for Enrollment in Contractor.

2.16 DOM: The Division of Medicaid, Office of the Governor, State of Mississippi.

2.17 Fraud: Fraud is any type of intentional deception or misrepresentation made by an entity or person with the knowledge that the deception could result in some unauthorized benefit to the entity, him or herself, or some other person. The Fraud can be committed by many entities, including a vendor, a subcontractor, a provider, a State employee, or a Member among others.

2.18 Grievance: An expression of dissatisfaction about any matter or aspect of Subcontractor or CCO or its operation, other than an Action as defined herein.

2.19 Marketing: The activities that promote visibility and awareness for the MississippiCHIP Program and Subcontractor's or CCO's participation in the program. All activities are subject to prior review and approval by DOM.

2.20 Medical Record: A single complete record, which documents the entire treatment plan developed for, and medical services received by, the Member including inpatient, outpatient, referral services and emergency medical services whether provided by Contracted Providers or Non-Contracted Providers.

2.21 Member: An individual who meets all of the eligibility requirements for CHIP, enrolls in a CCO under CHIP, and receives health benefits coverage through CHIP.

2.22 MississippiCHIP Program: The Mississippi Medicaid child health program for select individuals under the age of nineteen (19) years of age who are not eligible for Medicaid benefits and are not covered by other health insurances.

2.23 MississippiCHIP Program Contract: The DOM contract with CCO, for the purpose of providing and paying for Covered Services to Members enrolled in the MississippiCHIP Program.

2.24 Primary Care Provider (PCP): Any physician or health care practitioner or group operating within the scope of his or her licensure who is responsible for supervising, prescribing and providing primary care and primary case management services in the MississippiCHIP Program, whose practice is limited to the general practice of medicine or who is an Internist, Pediatrician, Obstetrician, Gynecologist, Family Practitioner, General Practitioner, Certified Nurse Practitioners whose specialty is pediatrics, adult, family, certified nurse midwife, obstetrics/gynecology, or a physician assistant.

2.25 Prior Authorization: A determination to approve a Provider's request, pursuant to services covered in the MississippiCHIP Program, to provide a service or course of treatment of a specific duration and scope to a Member prior to the initiation or continuation of the service.

2.26 Provider Network: The Panel of health service Providers with which the Subcontractor or CCO contracts for the provision of covered services to Members and Non-Contracted Providers administering services to Member.

2.27 State: The State of Mississippi or its designated regulatory agencies.

2.28 State Child Health Plan: The State of Mississippi's plan submitted to HHS for the administration of CHIP.

2.29 Third Party Liability/Resource: Any resource available to a Member for the payment of medical expenses associated with the provision of covered services, including but not limited to, insurers and workers' compensation plan.

2.30 Well-Baby and Well-Child Care Services: Regular or preventive diagnostic and treatment services necessary to ensure the health of babies, children, and adolescents as defined by DOM in the State Child Health Plan. For the purposes of Cost Sharing, the term has the meaning assigned at 42 C.F.R. § 457.520.

SECTION 3
PROVIDER REQUIREMENTS

The MississippiCHIP Program, through contractual requirements and federal and State statutes and regulations, requires that providers who provide services to Members enrolled in the MississippiCHIP Program comply with certain requirements as set forth below and elsewhere in this Appendix.

3.1 Definitions Related to the Provision of Covered Services. Provider shall follow the applicable MississippiCHIP Program Contract's requirements for the provision of Covered Services. Provider's decisions affecting the delivery of acute or chronic care services to Members shall be made on an individualized basis and in accordance with the following definitions:

(a) Emergency Medical Condition: In accordance with Section 1932(b) of the Act and 42 CFR §457.10, a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in any of the following: (1) placing the health of the individual (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; (2) serious impairment to body functions; or (3) serious dysfunction of any body organ or part.

(b) Emergency Services: Healthcare services that are (1) furnished by a provider who is qualified to furnish those health services and (2) needed to evaluate or stabilize an Emergency Medical Condition.

(c) Medically Necessary Services: As set forth in the Social Security Act, Section 1905 (42 U.S.C. 1396d(a)), Medically Necessary Services are defined as services, supplies, or equipment provided by a licensed health care professional that are:

1. Appropriate and consistent with the diagnosis or treatment of the patient's condition, illness, or injury;

2. In accordance with the standards of good medical practice consistent with the individual patient's condition(s);
3. Not primarily for the personal comfort or convenience of the Member, family, or Provider;

4. The most appropriate services, supplies, equipment, or levels of care that can be safely and efficiently provided to the Member;

5. Furnished in a setting appropriate to the patient's medical need and condition and, when applied to the care of an inpatient, further mean that the Member's medical symptoms or conditions require that the services cannot be safely provided to the Member as an outpatient;

6. Not experimental or investigational or for research or education;

7. Provided by an appropriatelylicensed practitioner; and

8. Documented in the patient's record in a reasonable manner, including the relationship of the diagnosis to the service.

Medically Necessary Services may also be those services for children that are necessary to correct or ameliorate defects and physical and mental illnesses and conditions discovered during an interperiodic or Well-Baby and Well-Child Care Services, whether such services are covered or exceed the benefit limits in the Medicaid State Plan and Title 23 of Mississippi Administrative Code.

3.2 Accessibility Standards. Provider shall provide for timely access for Member appointments in accordance with the appointment availability requirements established under the MississippiCHIP Program Contract, as further described in the applicable provider manual.

Type	Appointment Scheduling Time Frames
PCP (well care visit)	Not to exceed thirty (30) calendar days
PCP (routine sick visit)	Not to exceed seven (7) calendar days
PCP (urgent care visit)	Not to exceed twenty-four (24) hours
Specialists	Not to exceed forty-five (45) calendar days
Dental Providers (routine visits)	Not to exceed forty-five (45) calendar days
Dental Providers (urgent Care)	Not to exceed forty-eight (48) hours
Behavioral Health Providers (routine visit)	Not to exceed fourteen (14) calendar days
Behavioral Health Providers (urgent visit)	Not to exceed twenty-four (24) hours
Behavioral Health Providers (post-discharge from an acute psychiatric hospital when the Contractor is aware of the Member's discharge)	Not to exceed seven (7) calendar days
Urgent Care Providers	Not to exceed twenty-four (24) hours
Emergency Providers	Immediately (twenty-four (24) hours a day, seven (7) days a week) and without Prior Authorization

3.3 Hours of Operation; Appointments. Provider shall offer hours of operation that are no less than the hours of operation offered to commercial beneficiaries.

3.4 PCP Responsibilities. If applicable, and Provider is a PCP, Provider shall comply with the following:

3.4.1 PCPs who serve Members under the age of nineteen (19) are responsible for conducting all Well-Baby and Well-Child Care services. Should the PCP be unable to conduct the necessary Well-Baby and Well-Child Care services screens, the PCP is responsible for arranging to have the necessary Well-Baby and Well-Child Care services screens conducted by another network provider and ensure that all relevant medical information, including the results of the Well-Baby and Well-Child Care services screens, are incorporated into the Member's PCP Medical Record.

3.4.2 PCPs who serve Members under the age of nineteen (19) report encounter data associated with Well-Baby and Well-Child Care services, using a format approved by DOM, to Contractor within one hundred and eighty (180) calendar days from the date of service.

3.4.3 PCPs are responsible for contacting new Members identified in the quarterly encounter lists sent by Contractor that indicate who has not had an encounter during the first six (6) months of Enrollment. Contractor must require the PCP to:

3.4.3.1 Contact Members identified in the quarterly Encounter lists as not complying with Well-Baby, Well-Child Care, and immunization schedules for Children;

3.4.3.2 Identify to Contractor any such Members who have not come into compliance with Well-Baby, Well-Child Care, and immunization schedules within one (1) month of such notification to the site by Contractor; and

3.4.3.3 Document the reasons for noncompliance, where possible, and to document its efforts to bring the Member's care into compliance with the standards.

3.4.4 PCP shall provide the full range of Well-Baby, Well-Child Care, well-adolescent care and childhood and adolescent immunization services recommended by the Advisory Committee on Immunization Practices (ACIP) for all Members under the age of nineteen (19) as defined in, and in accordance with, the State Child Health Plan, 42 C.F.R. §457.495 and the provisions of Mississippi CHIP Contract, including periodic examinations for vision, dental, and hearing and all Medically Necessary services. The following minimum elements must be included in the periodic health screening assessment of children:

a. Comprehensive health and development history (including assessment of both physical and mental development);

b. Measurements (including head circumference for infants);

c. Comprehensive unclothed physical examination;

d. Immunizations appropriate to age and health history;

e. Assessment of nutritional status;

f. Laboratory tests (including tuberculosis screening and Federally required blood lead screenings);

g. Vision Screening;

h. Hearing Screening;

i. Dental and Oral Health Assessment;

j. Development Assessment; and,

k. Health education and anticipatory guidance.

If a suspected problem is detected by a screening examination, the child must be evaluated as necessary for further diagnosis. This diagnosis is used to determine treatment needs.

3.4.5 Specialists as PCPs. Members with disabling conditions, chronic conditions, or with special health care needs may request that their PCP be a specialist. The designation of a specialist as a PCP must be pursuant to a treatment plan approved by Contractor; in consultation with the PCP to which the Member is currently assigned, the Member and, as appropriate, the specialist. When possible, the specialist must be a provider participating in Contractor's network. The specialist as a PCP must agree to provide or arrange for all primary care, including routine preventive care, and to provide those specialty medical services consistent with the Member's disabling condition, chronic illness, or special health care need in accordance with Contractor's standards and within the scope of the specialty training and clinical expertise. To accommodate the full spectrum of care, the specialist as a PCP must also have admitting privileges at a hospital in Contractor's network.

3.5 **Provider Selection.** To the extent applicable to Provider in performance under the Agreement, Provider shall comply with 42 CFR §438.214, as may be amended from time to time, which includes, but is not limited to the selection and retention of providers, credentialing and re-credentialing requirements and nondiscrimination. If Subcontractor or CCO delegates credentialing to Provider, Subcontractor or CCO will provide monitoring and oversight and Provider shall ensure that all licensed medical professionals are credentialed in accordance with Subcontractor's or CCO's and the MississippiCHIP Program Contract's credentialing requirements.

3.6 **Records Retention.** As required under State or federal law or the MississippiCHIP Program Contract, Provider shall maintain a record keeping system of current, detailed, and organized records for recording services, charges, dates and all other commonly accepted information elements sufficient to disclose the quality, quantity, appropriateness and timeliness of services rendered to Members. All financial records shall follow generally accepted accounting principles. Medical records and supporting management systems shall include all pertinent information related to the medical management of each Member. Other records shall be maintained as necessary to clearly reflect all actions taken by Provider related to services provided under the MississippiCHIP Program Contract. Such records shall be maintained for a period of not less than five (5) years from the close of the Agreement, or such other period as required by law. If records are under review or audit or are the subject of litigation they must be retained for a minimum of five (5) years following resolution of such action. Prior approval for the disposal of records must be requested and approved by Subcontractor or CCO if the Agreement is continuous. Provider shall have written records retention policies and procedures and will make such

policies and procedures available to Subcontractor, CCO or DOM upon request. DOM requires ready access to any and all documents and records of transactions pertaining to the provisions of services provided by Provider and those copies of requested documents/records will be provided to DOM or its designee free of charge.

3.7 **Records Access.** Provider acknowledges and agrees and shall require Provider to acknowledge and agree that DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel shall have complete access to all records pertaining to services provided to Members. Provider shall provide immediate access to facilities, records and supportive materials pertinent to the MississippiCHIP Program Contract for State or Federal fraud investigators.

3.8 **Government Audit; Investigations.** Provider acknowledges and agrees and shall require Provider to acknowledge and agree that the State or any of its duly authorized representatives, DOM, the U.S. Department of Health and Human Services, the Centers for Medicare & Medicaid Services, the Office of Inspector General, the General Accounting Office, or any other auditing agency or their authorized representatives, with prior approval by DOM, at any time during the term of the Agreement, shall, at all reasonable time and within regular business hours, with or without notice, have the right to inspect or otherwise evaluate the quality, appropriateness, and timeliness of services provided under the terms of the MississippiCHIP Program Contract and any other applicable federal and State law and regulation..

This shall include, but not be limited to, the right to enter onto Provider's premises, access to and the right to audit, inspect, monitor, and examine any pertinent books, documents, papers, medical records, financial records, surveys and computer databases and/or to otherwise evaluate the performance of Provider related to Provider's performance under the Agreement. Such monitoring activities may also include, without limitation, on-site inspections of all service locations and facilities; auditing and/or review of all records developed under the MississippiCHIP Program Contract or the Agreement; reviewing management systems and procedures developed under the MississippiCHIP Program Contract or the Agreement; and review of any other areas of materials relevant or pertaining to the MississippiCHIP Program Contract or the Agreement. All reviews and audits shall be performed in such a manner as will not unduly delay the work of Provider. There will be no restrictions on the right of the State or federal authorities to conduct inspections and audits as necessary.
The Provider must fully cooperate with any and all reviews and/or audits by state or federal agencies, such as the Department of Audit, Department of Health and Human Services, Centers for Medicare and Medicaid Services, Office of Inspector General, General Accounting Office, or any other auditing agency approved by DOM, by assuring that appropriate employees and involved parties are available for interviews relating to the reviews or audits.

All records shall be maintained and available for review by authorized federal and state agencies during the entire term of the MississippiCHIP Program Contract and for a period of five (5) years thereafter, unless an audit, litigation, or other legal action is in progress. When an audit or litigation is in progress or audit findings are unresolved, records shall be kept for a period of five (5) years or until all issues are finally resolved, whichever is later. The Provider must have written policies and procedures for storing this information. Records must be kept in an original paper state or preserved on micro media or electronic format.

3.9 **Data; Reports.** Provider shall and shall require that Provider cooperate with and release to

Subcontractor or CCO any information necessary for Subcontractor or CCO to perform its obligations under the MississippiCHIP Program Contract to the extent applicable to Provider in performance of the Agreement, including the timely submission of reports and information required by Subcontractor or CCO. Such reports shall include well-baby/well-child reporting, as well as complete and accurate encounter and utilization management data in accordance with the requirements of Subcontractor, CCO and DOM.

3.10 **Encounter Data.** Provider shall agree to cooperate with Subcontractor or CCO to comply with Subcontractor's or CCO's obligation to prepare encounter data submissions, reports, and clinical information including, without limitation, and well-baby/well-child reporting and encounters, as applicable, and such other reporting regarding Covered Services as may be required under the MississippiCHIP Program Contract.

3.11 **Claims Information.** Provider shall promptly submit to Subcontractor or CCO the information needed to make payment and shall identify third party liability coverage, including Medicare and other insurance, and if applicable seek such third party liability payment before submitting claims to Subcontractor or CCO. Provider understands and agrees that each claim Provider submits to Subcontractor or CCO constitutes a certification that the claim is true and accurate to the best of Provider's knowledge and belief and that the Covered Services are 1) Medically Necessary and 2) have been provided to the Member prior to submitting the claim.

Provider must submit claims within six (6) months from the date of service. Claims filed within the appropriate time frame but denied may be resubmitted to Subcontractor or CCO within ninety (90) calendar days from the date of denial.

3.12 **Third Party Resources.** Provider shall report all Third Party Resources to Subcontractor or CCO identified through the provision of medical services.

3.13 **Privacy; HIPAA.** Provider shall comply with all applicable privacy rule and security rule provisions of the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), and associated implementing regulations, as may be amended from time to time, and shall safeguard information about Members in accordance with applicable federal and State privacy laws and rules including 42 CFR §438.224 and 42 CFR Part 431, Subpart F, as may be amended from time to time. Provider agrees that confidential information, including but not limited to, medical and other pertinent information relative to Members, shall not be disclosed to any person or organization for any purpose without the expressed, written authority of DOM or as otherwise required by law and that all such disclosures shall fully comply with HIPAA privacy and security standards.

3.14 **Cultural Competency.** Provider shall participate in Subcontractor's, CCO's and DOM's efforts to promote the delivery of services in a culturally competent manner to all Members, including those with limited English proficiency and diverse cultural and ethnic backgrounds and shall provide interpreter services in a Member's primary language and for the hearing impaired for all appointments and emergency services. Provider shall provide information to Members regarding treatment options and alternatives, as well as information on complaints and appeals, in a manner appropriate to the Member's condition and ability to understand.

3.15 **Approval of Marketing Materials.** As required under State or federal law or the applicable

MississippiCHIP Program Contract, any marketing materials developed and distributed by Provider as related to the performance of the Agreement must be submitted to CCO for submission to DOM for prior approval.

3.16 **Independent Contractor Relationship.** Provider expressly agrees that Provider is acting in an independent capacity in the performance of the Agreement and not as an officer, agent or employee of DOM, CMS or the State. Provider further expressly agrees that the Agreement shall not be construed as a partnership or joint venture between Provider and DOM, CMS or the State. Nothing in the Agreement shall be construed, nor shall it be deemed to create, any right or remedy in any third party.

3.17 **Certification on Relationship to State, DOM and CMS**. Provider certifies that no officer, director, employee, subcontractor or agent of Provider, or person with an ownership or control interest in Provider, is also employed by, or is a public official of, the State of Mississippi or any of its agencies, DOM or CMS.

3.18 **Ownership and Control Information.** If applicable, Provider shall cooperate with Subcontractor and/or CCO in obtaining and providing information to DOM related to ownership and control, significant business transactions, and persons convicted of a criminal offense in compliance with§1128 of the Social Security Act, 42 USC §1320a-7 and 42 CFR Part 455, as amended and shall provide information upon request. Provider shall submit information related to ownership and control of subcontractors or wholly owned supplier within thirty-five (35) calendar days of a request for such information.

By executing the Agreement, Provider certifies that neither Provider nor any of its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in any State or federal health care program or from participating in transactions by any State or federal department or agency. Subcontractor will terminate the Agreement upon becoming aware or receiving notice from DOM, whichever is earlier, that Provider is or has been excluded from participation in any State or federal health care program or by any State or federal agency.

3.19 **Excluded Individuals and Entities.** Provider certifies that neither it nor any of its employees, principals, nor any providers, subcontractors or consultants or persons with an ownership or controlling interest in the Provider (an owner including the Provider himself or herself), or an agent or managing employee of the Provider, with whom Provider contracts and who are providing items or services that are significant and material to Provider's obligations under the Agreement is:

(a) excluded from participation in federal health care programs under either Section 1128 or section 1128A of the Social Security Act; or

(b) debarred, suspended, proposed for debarment, declared ineligible, or otherwise voluntarily excluded from participating in procurement activities under the Federal Acquisition Regulation or from participating in non-procurement activities under regulations issued under Executive Order No. 12549 or under guidelines implementing Executive Order No. 12549; or an affiliate, as defined in the Federal Acquisition Regulation, of such a person.

Provider acknowledges and agrees and shall require that Provider acknowledge and agree that payment will not be made for any items or Covered Services provided by an excluded individual pursuant to 42

CFR §1001.1901(b) and is obligated to screen all employees, contractors, and subcontractors for exclusion as required under applicable State and Federal laws. Additionally, Provider acknowledges that pursuant to 42 CFR §1003.102(a)(2) civil monetary penalties may be imposed against Provider if he or she employs or enters into contracts with excluded individuals or entities to provide items or Covered Services to Member under the Agreement. Provider agrees not to employ or subcontract with individuals or entities whose owner, those with a controlling interest, or managing employees are on a State or Federal exclusion list to provide items or Covered Services under the Agreement. Provider shall immediately report to Subcontractor and/or CCO any exclusion information discovered. Provider can search the HHS-OIG website, at no cost, by the names of any individuals or entities. The database is called LEIE and can be accessed at http://www.oig.hhs.gov/fraud/exclusions.asp. The GSA EPLS/SAM database can be accessed at https://www.sam.gov. Applicable state exclusion databases can be accessed through the State's Medicaid website. Subcontractor will terminate the Agreement immediately upon becoming aware or receiving notice from DOM, whichever is earlier, that Provider's owners, agents, managing employees, or any provider is or has been excluded from federal health care programs or terminated from the Medicare or the Medicaid program in any state.

3.20 **Licensure.** Provider represents that it is currently licensed and/or certified under applicable State and federal statutes and regulations and by the appropriate State licensing body or standard-setting agency, as applicable. Provider represents that it does not have a Medicaid provider agreement with DOM that is terminated, suspended, denied, or not renewed as a result of any action of DOM, CMS, HHS, or the Medicaid Fraud Control Unit of the State's Attorney General. Provider shall maintain at all times throughout the term of the Agreement all necessary licenses, certifications, registrations and permits as are required to provide the health care services and/or other related activities delegated to Provider by Subcontractor and/or CCO under the Agreement. If at any time during the term of the Agreement, Provider is not properly licensed as described in this Section, Provider shall discontinue providing services to Members.

3.21 **National Provider ID (NPI).** If applicable, Provider shall and shall require that Providers obtain a National Provider Identification Number (NPI) and when filing claims with Provider, the NPI number used is the same NPI number used when filing claims with DOM.

3.22 **Funding.** Provider recognizes that the obligation of DOM to proceed under its MississippiCHIP Program Contract with Subcontractor and/or CCO is conditioned upon the appropriation of funds by the Mississippi State Legislature and the receipt of State and/or Federal funds. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, either through the failure of the Federal government to provide or the State of Mississippi to appropriate funds, or the discontinuance, or material alteration of the program under which the funds were provided or if funds are not otherwise available to DOM, DOM has the right upon ten (10) working days written notice to Subcontractor and/or CCO to terminate the MississippiCHIP Program Contract.

3.23 **Federal and State Funds Liability.** Providers acknowledges and agrees that payments made to Provider for services provided under the Agreement are derived from federal and State funds and that any false claim or statement in documents or any concealment of material fact related to such services may be a cause for sanctions and prosecution under applicable federal and State laws. Provider shall be subject to all laws applicable to individuals and entities receiving State and federal funds and may be held civilly or criminally liable to Subcontractor, CCO and DOM in the event of nonperformance, misrepresentation, fraud, or abuse related to services provided pursuant to the MississippiCHIP Program

Contract. Provider recognizes that payments made to the Provider are derived from federal and State funds, and are contingent upon and subject to availability and receipt of funds.

3.24 **Insolvency**. In the event Subcontractor and/or CCO becomes insolvent or unable to pay Provider, Provider shall not seek compensation for services rendered from DOM, its officers, Agents, or employees, or the Members or their eligible dependents.

3.25 **Termination.** In the event of termination of the Agreement, Provider shall promptly supply to Subcontractor or CCO all information necessary for the reimbursement of any outstanding MississippiCHIP Program claims.

3.26 **Capitated Providers.** If a Provider that is capitated terminates its agreement with Subcontractor or CCO, for any reason, Provider will provide services to Members assigned to Provider up to the end of the month in which the effective date of termination falls.

3.27 **Fraud, Waste, and Abuse Prevention.** Provider shall cooperate fully with the Subcontractor's and/or CCO's policies and procedures designed to protect program integrity and prevent and detect potential or suspected fraud, waste, and abuse in the administration and delivery of services under the MississippiCHIP Program Contract and shall cooperate and assist DOM and any other State or federal agency charged with the duty of preventing, identifying, investigating, sanctioning or prosecuting suspected fraud, waste, and abuse in state and/or federal health care programs. Provider, Subcontractor and CCO are responsible for reporting suspected fraud and abuse by participating and non-participating providers, as well as Members, when detected.

In accordance with Subcontractor's and/or CCO's policies and the Deficit Reduction Act of 2005 (DRA), Provider shall have written policies for its employees, contractors or agents that: (a) provide detailed information about the federal False Claims Act (established under sections 3729 through 3733 of title 31, United States Code); (b) cite administrative remedies for false claims and statements (established under chapter 38 of title 31, United States Code) and whistleblower protections under federal and state laws; (c) reference state laws pertaining to civil or criminal penalties for false claims and statements; and (d) with respect to the role of such laws in preventing and detecting fraud, waste, and abuse in federal health care programs (as defined in section 1128B(f)), include as part of such written policies, detailed provisions regarding Provider's policies and procedures for detecting and preventing fraud, waste, and abuse. Provider agrees to train its staff on the aforesaid policies and procedures.

3.28 **Quality Utilization Management.** Pursuant to any applicable provider manuals and related protocols, or as elsewhere specified under the Agreement, Provider agrees to cooperate with Subcontractor's and CCO's quality improvement and utilization review and management activities. This shall include, but not be limited to, participation in any internal and external quality assurance, utilization review, peer review, and grievance procedures established by Subcontractor and CCO or as required under the MississippiCHIP Program Contract to ensure that Members have due process for their complaints, grievances, appeals, fair hearings or requests for external review of adverse decisions made by Subcontractor, CCO or Provider. Provider shall adhere to the quality assurance and utilization review standards of the MississippiCHIP Program and shall monitor quality and initiate corrective action to improve quality consistent with the generally accepted level of care.

3.29 **Quality and Utilization Management Program.** Provider shall cooperate with Subcontractor and CCO in meeting the Quality Management and Utilization Management Program standards outlined

in the MississippiCHIP Program Contract.

3.30 **Referrals.** Provider shall make referrals for social, vocational, education or human services when a need for such service is identified.

3.31 **Restrictions on Referrals.** Provider shall not make inappropriate referrals for designated health services to health care entities with which Provider or a member of Provider's family has a financial relationship, pursuant to federal anti-kickback and physician self-referral laws that prohibit such referrals.

3.32 **Complaints, Grievances and Appeals.** Information on how Provider or Provider's authorized representative shall submit complaints and file grievances and appeals, and the resolution process, is contained in the Subcontractor or CCO MississippiCHIP Provider Manual.

3.33 **Health Care Acquired/Preventable Conditions.** Provider agrees that no payment shall be made for the provision of medical assistance for health care acquired conditions and other provider preventable conditions as may be identified by the State. As a condition of payment, Provider shall identify and report to Subcontractor and/or CCO any provider preventable conditions in accordance with 42 CFR Part 438, including but not limited to, 42 CFR § 438.6(f)(2)(i).

3.34 **Compliance with Laws.** Provider shall comply with all applicable federal and State laws and regulations and all provisions of the MississippiCHIP Program Contract that pertain to a Member's rights, including but not limited to the following, to the extent applicable to Provider in performance of the Agreement:

(a) Title VI of the Civil Rights Act of 1964; (b) Title XIX of the Social Security Act;

(c) Title IX of the Education Amendments of1972 (regarding education programs and activities); the Age Discrimination Act of 1975; the Rehabilitation Act of 1973; and The Genetic Information Non-Discrimination Act of 2008 (GINA), and their implementing regulations, as may be amended from time to time.

(d) 42 CFR Part 434 and 42 CFR § 438.6, as may be amended from time to time.

(e) All federal and State professional and facility licensing and accreditation requirements/standards that apply to the services Provider perform pursuant to the Agreement, including but not limited to:

(i) All applicable standards, orders or requirements issued under Section 306 of the Clean Air Act (42 USC 1857 (h)). Section 508 of the Clean Water Act (33 USC 1368), Executive Order 11738, and Environmental Protection Agency (EPA) regulations (40) CFR Part 15), which prohibit the use of facilities included on the EPA list of violating facilities. Any violations must be reported to DSHS, DHHS, and the EPA;

(ii) Any applicable mandatory standards and policies relating to energy efficiency that are contained in the State Energy Conservation Plan, including the Energy Policy & conservation Act (Pub. L. 94-165), and issued in compliance with the Federal Energy Policy & Conservation Act.

(f) All relevant federal and State statutes, regulations and orders related to equal opportunity in employment, including but not limited to compliance with E.O. 11246, "Equal Employment Opportunity," as amended by E.O. 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulations at 41 CFR Part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

(g) If the Agreement is for an amount in excess of $100,000, Provider shall comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, 42 U.S.C. 7401 et seq., and the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq. Any violations shall be reported to DHHS and the appropriate Regional Office of the Environmental Protection Agency.

(h) Those specified for laboratory services in the Clinical Laboratory Improvement Amendments (CLIA). All laboratory service sites must have a CLIA certificate of registration or waiver, and a CLIA identification number.

(i) The American with Disabilities Act (ADA). Provider shall make reasonable accommodation for Members with disabilities in accord with the ADA for all Covered Services and shall assure physical and communication barriers do not inhibit Members with disabilities from obtaining Covered Services;

(j) Section 1128B(d)(1) of the Balanced Budget Act of 1997; and,

(k) Any other requirements associated with the receipt of federal funds.

3.35 **Non-Discrimination.** Members must be provided Covered Services without regard to race, color, creed, sex, religion, age, national origin, ancestry, marital status, sexual orientation, language, health status, disease or pre-existing condition (including genetic information), anticipated need for health care or physical or mental handicap, except where medically indicated. Examples of prohibited practices include, but are not limited to, the following:

(a) Denying or not providing a Member any MississippiCHIP Covered Service. Health care and treatment necessary to preserve life must be provided to all Members who are not terminally ill or permanently unconscious, except where a competent Member objects to such care on his/her own behalf.

(b) Subjecting a Member to segregated, separate, or different treatment, including a different place or time from that provided to other Members or public or private patients, in any manner related to the receipt of any MississippiCHIP Covered Service, except where Medically Necessary.

(c) The assignment of times or places for the provision of services on the basis of the race, color, creed, religion, age, sex, national origin, ancestry, marital status, sexual orientation, income status, program membership, language, health status, disease or pre-existing condition, anticipated need for health care or physical or mental disability of the Members to be served.

3.36 **Advance Directives.** Provider shall comply with the advance directives requirements with 42 C.F.R §422.128 and with the Uniform Health-Care Decisions Act (Miss. Code Ann. § 41-41-201, *et. seq*.).

3.37 **Physician Incentive Plans.** In the event Provider participates in a physician incentive plan ("PIP") under the Agreement, Provider agrees that such PIPs must comply with 42 CFR § 417.479, 42 CFR § 438.6(h), 42 CFR § 422.208, and 42 CFR § 422.210, as may be amended from time to time. Subcontractor, CCO and Provider may not make a specific payment directly or indirectly under a PIP to a physician or physician group as an inducement to reduce or limit Medically Necessary services furnished to an individual Member. PIPs must not contain provisions that provide incentives, monetary or otherwise, for the withholding of services that meet the definition of Medical Necessity. Provider shall disclose annually to Subcontractor and/or CCO any PIP arrangement Provider may have with any physicians even if there is not substantial financial risk between Subcontractor and/or CCO and such physicians.

3.38 **Lobbying.** Provider agrees to comply with the following requirements related to lobbying:

(a) Prohibition on Use of Federal Funds for Lobbying: By signing the Agreement, Provider certifies to the best of Provider's knowledge and belief, pursuant to 31 U.S.C. § 1352 and 45 CFR Part 93, as may be amended from time to time, that no federally appropriated funds have been paid or will be paid to any person by or on Provider's behalf for the purpose of influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

(b) Disclosure Form to Report Lobbying: If any funds other than federally appropriated funds have been paid or will be paid to any person for the purpose of influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment or modification of any federal contract, grant, loan, or cooperative agreement and the value of the Agreement exceeds $100,000, Provider shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(c) Contractor shall abide by lobbying laws of the State of Mississippi.

3.39 **Gratuities.** Provider represents that it has not violated, is not violating, and promises that it will not violate the prohibitions against gratuities set forth in Section 6-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

3.40 **Compliance with Mississippi Employment Protection Act (MEPA).** Represents and warrants and shall require that Provider represent and warrant that it will ensure its compliance with the

Mississippi Employment Protection Act, Section 71-11-1 et set of the Mississippi Code Annotated (Supp. 2008), and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. Provider agrees and shall require that Provider agree to maintain records of such compliance and, upon request of the State and approval of the Social Security Administration or Department of Homeland Security, where required, to provide a copy of each such verification to the State. Provider represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of the State of Mississippi. Provider acknowledges and agrees that any breach of these warranties may subject Provider to the following: (a) termination of the Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public, or (b) the loss of any license, permit, certification or other document granted to Provider by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year, or (c) both.

3.41 **Insurance Requirements.** As applicable, Provider shall and shall require that Provider secure and maintain during the term of the Agreement general liability insurance, professional liability insurance, and workers' compensation insurance for all employees connected with the provision of services under the Agreement. Such workers compensation insurance shall comply with Mississippi Workers' Compensation Laws. Such comprehensive general liability insurance and professional liability insurance shall provide coverage in an amount established by Subcontractor and/or CCO pursuant to the Agreement or as required under the MississippiCHIP Program Contract.

3.42 **Indemnification.** To the extent applicable to Provider in performance under the Agreement, Provider shall indemnify, defend, protect, save and hold DOM and its employees and Members harmless from and against all injuries, deaths, losses, damages, claims, suits, demands, actions, recovery, liabilities, judgments, costs and expenses, including without limitation, court costs, investigative fees and expenses, and attorney fees, to the extent proximately caused by any negligent act or other intentional misconduct or omission of Provider, its agents, officers, employees or contractors arising from the Agreement. DOM may waive this requirement for public entities if Provider is a state agency or sub-unit as defined by the State or a public health entity with statutory immunity. This clause shall survive the termination of the Agreement for any reason, including breach due to insolvency.

3.43 **Notice of Legal Action.** Immediately upon obtaining knowledge or receiving notice of any legal action or notice listed below, Provider shall provide to Subcontractor and/or CCO written notice of such legal action or notice and, upon request by Subcontractor and/or CCO, a complete copy of all filings and other documents generated in connection with any such legal action:

(a) Any action, suit or counterclaim filed against Provider;

(b) Any regulatory action, or proposed action, respecting Provider's business or operations;

(c) Any notice received by Provider from the Department of Insurance or the State Health Officer;

(d) The filing of a petition in bankruptcy by or against Provider, or the insolvency of Provider;

(e) The conviction of any person who has an ownership or control interest in Provider, or who is an agent or managing employee of Provider, of a criminal offense related to that person's involvement in any program under Medicare, Medicaid, or Title XX of the Social Security Act; or

(f) A malpractice action against any Provider delivering service under an agreement.

3.44 **Hold Harmless.** Except for any applicable cost-sharing requirements under the MississippiCHIP Program Contract, Provider shall look solely to Subcontractor and/or CCO for payment of Covered Services provided to Members pursuant to the Agreement and the MississippiCHIP Program Contract and hold DOM, the State, the U.S. Department of Health and Human Services and Members harmless in the event that Subcontractor and/or CCO cannot or will not pay for such Covered Services. In accordance with 42 CFR § 447.15, as may be amended from time to time, the Member is not liable to Provider for any services for which Subcontractor and/or CCO is liable and as specified under the State's relevant health insurance or managed care statutes, rules or administrative agency guidance. Provider shall not require any copayment or cost sharing for Covered Services provided under the Agreement unless expressly permitted under the MississippiCHIP Program Contract. Provider shall also be prohibited from charging Members for missed appointments if such practice is prohibited under the MississippiCHIP Program Contract or applicable law. Neither the State, DOM, nor Member shall be in any manner liable for the debts and obligations of Subcontractor and/or CCO and under no circumstances shall Subcontractor, CCO, or any providers used to deliver services covered under the terms of the MississippiCHIP Program Contract, charge Members for Covered Services.

3.45 **Assignment/Delegation.** Provider shall not assign or delegate the Agreement without the express written consent of Subcontractor, CCO or DOM. The transfer of five percent (5%) or more of the beneficial ownership in Provider at any time during the term of this Agreement shall be deemed an assignment under this Agreement.

3.46 **Behavioral Health Providers.** Behavioral Health Providers shall ensure that all Covered Persons receiving inpatient psychiatric services are scheduled for outpatient follow-up and/or continuing treatment prior to discharge from the inpatient psychiatric hospital if the Provider is aware of the Covered Person's inpatient hospitalization status. Behavioral Health Providers will be provided daily reports identifying Covered Persons known to be admitted to an inpatient facility.

SECTION 4
SUBCONTRACTOR AND CCO REQUIREMENTS

41 Communications with Members. Members are entitled to the full range of their Providers' opinions and counsel about the availability of Medically Necessary Services under the provisions of the MississippiCHIP Program Contract. Any contractual provisions, including gag clauses or rules, that restrict a Provider's ability to advise Members about Medically Necessary treatment options violate federal law and regulations. Subcontractor and CCO shall not prohibit or otherwise restrict Provider, when acting within the lawful scope of practice, from advising or advocating on behalf of a Member for

the following:

(a) The Member's health status, medical care, or treatment options, including any alternative treatment that may be self-administered;

(b) Any information the Member needs in order to decide among all relevant treatment options;

(c) The risks, benefits, and consequences of treatment or non-treatment;

(d) The Member's right to participate in decisions regarding his or her health care, including the right to refuse treatment, and to express preferences about future treatment decisions; or

(e) Information regarding the nature of treatment options including those that may not reflect Subcontractor's or CCO's position or may not covered by Subcontractor or CCO.

Subcontractor and CCO shall not prohibit a Provider from advocating on behalf of a Member in any grievance system, utilization review process, or individual authorization process to obtain necessary health care services.

4.2 Prompt Payment. Subcontractor and/or CCO shall pay Provider pursuant to the MississippiCHIP Program Contract and applicable State and federal law and regulations, including but not limited to Miss. Code Ann. §83-9-5, 42 CFR §447.46, 42 CFR §447.45(d)(2), 42 CFR §447.45(d)(3), 42 CFR §447.45(d)(5) and 42 CFR §447.45(d)(6), as applicable and as may be amended from time to time. If a third party liability exists, payment of claims shall be determined in accordance with federal and/or State third party liability law and the terms of the MississippiCHIP Program Contract. Unless Subcontractor or CCO otherwise requests assistance from Provider, Subcontractor or CCO will be responsible for third party collections in accordance with the terms of the MississippiCHIP Program Contract.

4.3 No Incentives to Limit Medically Necessary Services. Neither Subcontractor nor CCO shall structure compensation provided to individuals or entities that conduct utilization management and concurrent review activities so as to provide incentives for the individual or entity to deny, limit, or discontinue Medically Necessary services to any Member.

4.4 Provider Discrimination Prohibition. Subcontractor and CCO shall not discriminate with respect to participation, reimbursement, or indemnification of a provider who is acting within the scope of the provider's license or certification under applicable State law, solely on the basis of such license or certification. Subcontractor and CCO shall not discriminate against Provider for serving high-risk Members or if Provider specializes in conditions requiring costly treatments. This provision shall not be construed as prohibiting Subcontractor or CCO from limiting a provider's participation to the extent necessary to meet the needs of Members. This provision also is not intended and shall not interfere with measures established by Subcontractor or CCO that are designed to maintain quality of care practice standards and control costs. Subcontractor and CCO shall not provide false or misleading information to any person or entity in an attempt to recruit Providers for Subcontractor's or CCO's network.

4.5 Termination, Revocation and Sanctions. In addition to its termination rights under the Agreement, Subcontractor and/or CCO shall have the right to revoke any functions or activities Subcontractor and/or CCO delegates to Provider under the Agreement or impose other sanctions consistent with the MississippiCHIP Program Contract if in Subcontractor's or CCO's reasonable judgment Provider's performance under the Agreement is inadequate. Subcontractor or CCO shall also have the right to suspend, deny, refuse to renew or terminate the subcontract in accordance with the terms of the MississippiCHIP Program Contract and applicable law and regulation. However, Subcontractor and CCO shall not exclude or terminate a Provider from participation in Subcontractor's or CCO's Provider Network due to the fact that the Provider has a practice that includes a substantial number of patients with expensive medical conditions, and shall not terminate a Provider for filing a Complaint, Grievance, or Appeal on a Member's behalf.

SECTION 5
OTHER REQUIREMENTS

5.1 Compliance with MississippiCHIP Program Contract. All tasks performed under the Agreement shall be performed in accordance with the requirements of the MississippiCHIP Program Contract, as applicable, as set forth in this Appendix, applicable provider manuals, and protocols, policies and procedures that Subcontractor or CCO has provided or delivered to Provider. The applicable provisions of the MississippiCHIP Program Contract are incorporated into the Agreement by reference. Nothing in the Agreement or this Appendix relieves CCO of its responsibility under the MississippiCHIP Program Contract. If any provision of the Agreement is in conflict with provisions of the MississippiCHIP Program Contract, the terms of the MississippiCHIP Program Contract shall control and the terms of the Agreement in conflict with those of the MississippiCHIP Program Contract will be considered waived.

5.2 Monitoring. In accordance with 42CFR § 457.950, Subcontractor and/or CCO shall perform ongoing monitoring (announced or unannounced) of services rendered by Provider under the Agreement and shall perform periodic formal reviews of Provider according to a schedule established by the State, consistent with industry standards or State managed care organization laws and regulations or requirements under the MississippiCHIP Program Contract. As a result of such monitoring activities, and/or as a result of the inspecting, auditing and monitoring activities of DOM or other authorities pursuant to section 4.4 above, Subcontractor and/or CCO shall identify to Provider any deficiencies or areas for improvement mandated under the MississippiCHIP Program Contract and Provider and Subcontractor and/or CCO shall take appropriate corrective action within the relevant timeframe permitted, as applicable. Provider shall comply with any corrective action plan initiated by Subcontractor, CCO and/or required by the MississippiCHIP Program. In addition, Provider shall monitor and report the quality of services delivered under the Agreement and initiate a plan of correction where necessary to improve quality of care, in accordance with that level of care which is recognized as acceptable professional practice in the respective community in which Subcontractor, CCO and Provider practice and/or the performance standards established under the MississippiCHIP Program Contract.

5.3 Enrollment. The parties acknowledge and agree that DOM is responsible for enrollment, reenrollment and disenrollment of Members.

5.4 No Exclusivity. Nothing in the Agreement or this Appendix shall be construed as prohibiting

or penalizing Provider for contracting with a managed care organization other than Subcontractor or CCO or as prohibiting or penalizing Subcontractor or CCO for contracting with other providers. The Subcontractor or CCO may not require Providers who agree to participate in the MississippiCHIP Program to contract with the Contractor's other lines of business.

55 Revoking Delegation. The parties agree that, prior to execution of the Agreement, Subcontractor and/or CCO evaluated Provider's ability to perform any duties delegated to Provider under the Agreement. Any delegated duties and reporting responsibilities shall be set forth in the Agreement or other written delegation agreement or addendum between the parties. In addition to its termination rights under the Agreement, Subcontractor and/or CCO shall have the right to revoke any functions, assignment authority, or activities Subcontractor and/or CCO delegates to Provider under the Agreement or impose other sanctions if in Subcontractor's and/or CCO's reasonable judgment Provider's performance under the Agreement is inadequate or untimely.

56 Rights of DOM. DOM shall have the right to invoke against Provider any remedy set forth in the MississippiCHIP Program Contract, including the right to require the termination of the Agreement, for each and every reason for which it may invoke such a remedy against Subcontractor or CCO or require termination of the MississippiCHIP Program Contract. Suspected Fraud and Abuse by Provider will be investigated by DOM.

MISSISSIPPI MEDICAID PROGRAM

REGULATORY REQUIREMENTS APPENDIX

DOWNSTREAM PROVIDER

THIS MISSISSIPPI MEDICAID PROGRAM REGULATORY REQUIREMENTS APPENDIX (this "Appendix") supplements and is made part of the provider agreement (the "Agreement") between Vision Vendor, Inc. ("Subcontractor") and the provider named in the Agreement ("Provider").

SECTION 1
APPLICABILITY

This Appendix applies with respect to the provision of health care services that Provider provides directly to Covered Persons through Health Plan's (as defined herein) products or benefit plans including Mississippi Coordinated Access Network Program (the "MississippiCAN Program") as governed by the State's designated regulatory agencies. Provider has agreed to provide Covered Services to Covered Persons who receive their coverage pursuant to a contract between the State and Health Plan (the "State Contract" as defined herein). The State Contract and applicable State and federal law require that the provisions contained in this Appendix be part of the Agreement. In the event of a conflict between this Appendix and other appendices or any provision of the Agreement, the provisions of this Appendix shall control except with regard to benefit contracts outside the scope of this Appendix or unless otherwise required by law. In the event Subcontractor is required to amend or supplement this Appendix as required or requested by the State and requested by Health Plan, Provider agrees that Subcontractor shall be permitted to unilaterally initiate such additions, deletions or modifications. All provider agreements must be in writing and must include all specific activities and report responsibilities delegated to the Provider by Subcontractor.

SECTION 2
DEFINITIONS

Unless otherwise defined in this Appendix, all capitalized terms shall be as defined in the Agreement. For purposes of this Appendix, the following terms shall have the meanings set forth below; provided, however, in the event any definition set forth in this Appendix or the Agreement is inconsistent with any definitions under the MississippiCAN Program, the definitions shall have the meaning set forth under the MississippiCAN Program.

2.1 Action: Health Plan's decision to deny or limit authorization or payment (in whole or in part) for health care services, including new authorizations and previously authorized services; the reduction, suspension, or termination of a previously authorized service; or Health Plan's failure to provide services in a timely manner; failure to resolve Complaints, Grievances, or Appeals within the specified time frames.

2.2 Appeal: A request for review by Health Plan of an Action related to a Covered Person or Provider. In the case of a Covered Person, an Action may include determinations on the health care services a Covered Person believes he or she is entitled to receive, including delay in

providing, arranging for, or approving the health care services (such that a delay would adversely affect the health of the Covered Person). In the case of a Provider, the Action may include, but is not limited to, delay or non-payment for covered services.

23 Behavioral Health Services: Mental health and/or drug and alcohol abuse treatment services that are provided by the county intellectually delayed/developmentally delayed programs, the single county authority administrators, or other appropriately licensed health care practitioners.

24 CMS: Center for Medicare and Medicaid Services is an agency within the U.S. Department of Health & Human Services responsible for administration of several key federal health care programs.

25 Complaint: An expression of dissatisfaction received orally or in writing that is of a less serious or formal nature that is resolved within one (1) business day of receipt.

26 Covered Person: An individual who meets all of the eligibility requirements for Mississippi Medicaid and is currently enrolled with Health Plan for the provision of services under a MississippiCAN Program. A Covered Person may also be referred to as an Enrollee, Member or Customer under the Agreement.

27 Covered Services: Health care services or products for which a Covered Person is enrolled with Health Plan to receive coverage under the State Contract.

28 DOM: Division of Medicaid, Office of the Governor, State of Mississippi.

29 Early, Periodic, Screening, Diagnosis, and Treatment (EPSDT) Services: Defined by DOM to include:

a. Age appropriate, comprehensive health and development history that includes physician and mental health assessments along with counseling and anticipatory guidance and risk factor reduction interventions;
b. Calculation of Body Mass Index;
c. Growth measurements and head circumference;
d. Nutritional counseling;
e. Developmental surveillance and Developmental and autism Spectrum Disorders Screenings as appropriate;
f. Comprehensive unclothed exam;
g. Appropriate laboratory tests (including blood level assessment appropriate to age and risk);
h. Appropriate immunizations in accordance with Recommended Childhood and Adolescent Immunization Schedule adopted by DOM;
i. A vision assessment;
j. A hearing assessment;
k. A dental screening and/or referral to dental care;
l. Health education; and
m. Referrals for identified abnormalities.

2.10 Fraud and Abuse: Fraud is any type of intentional deception or misrepresentation made by an entity or person with the knowledge that the deception could result in some unauthorized benefit to the entity, him or herself, or some other person. The Fraud can be committed by many entities, including a vendor, a subcontractor, a provider, a State employee, or a Covered Person, among others. Abuse is any practice that is inconsistent with sound fiscal, business, or medical practices, and results in an unnecessary cost to the Medicaid program, a vendor, a subcontractor or Provider or in reimbursement for services that are not Medically Necessary or that fail to meet professionally recognized standards for health care.

2.11 Grievance: An expression of dissatisfaction about any matter or aspect of Health Plan or its operation, other than an Action as defined herein.

2.12 Health Plan: An appropriately licensed entity that has entered into a contract with Subcontractor, either directly or indirectly, under which Subcontractor provides certain administrative services for Health Plan pursuant to the State Contract. For purposes of this Appendix, Health Plan refers to Health Care Vendor.

2.13 Marketing: The activities that promote visibility and awareness for the MississippiCAN Program and Health Plan's participation in the program. All activities are subject to prior review and approval by DOM.

2.14 Medical Record: A single complete record, which documents the entire treatment plan developed for, and medical services received by, the Covered Person including inpatient, outpatient, referral services and emergency medical services whether provided by contracted Providers or non-contracted providers.

2.15 Mississippi Coordinated Access Network (MississippiCAN) Program: Mississippi Medicaid's coordinated care program for select Medicaid Beneficiaries.

2.16 Primary Care Provider (PCP): Any physician or health care practitioner or group operating within the scope of his or her licensure who is responsible for supervising, prescribing and providing primary care and primary case management services in the MississippiCAN Program, whose practice is limited to the general practice of medicine or who is an Internist, Pediatrician, Obstetrician, Gynecologist, Family Practitioner, General Practitioner, Certified Nurse Practitioners whose specialty is pediatrics, adult, family, certified nurse midwife, obstetrics/gynecology, or a physician assistant.

2.17 Prior Authorization: A determination to approve a Provider's request, pursuant to services covered in the MississippiCAN Program, to provide a service or course of treatment of a specific duration and scope to a Member prior to the initiation or continuation of the service.

2.18 Provider: A hospital, ancillary provider, physician group, individual physician or other healthcare provider who has entered into an Agreement.

2.19 Provider Network: The Panel of health service Providers with which Subcontractor and/or Health Plan contracts for the provision of covered services to Covered Persons and Non-Contracted Providers administering services to Covered Persons.

2.20 State: The State of Mississippi or its designated regulatory agencies.

2.21 State Contract: Health Plan's contract with the State for the purpose of providing and paying for Covered Services to Covered Persons enrolled in the MississippiCAN Program.

2.22 Third Party Resource: Any resource available to a Covered Person for the payment of medical expenses associated with the provision of covered services, other than those which are exempt under Title XIX of the Act, including but not limited to, insurers and workers' compensation plan.

SECTION 3
PROVIDER REQUIREMENTS

The MississippiCAN Program, through the State Contract and federal and State statutes and regulations, requires the Agreement to contain certain conditions that Health Plan, Subcontractor and Provider agree to undertake, which include the following:

3.1 Definitions Related to the Provision of Covered Services. Provider shall follow the applicable State Contract's requirements for the provision of Covered Services. Provider's decisions affecting the delivery of acute or chronic care services to Covered Persons shall be made on an individualized basis and in accordance with the following definitions:

(a) Emergency Medical Condition: A medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in any of the following: (1) placing the health of the individual (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; (2) serious impairment to body functions; or (3) serious dysfunction of any body organ or part.

(b) Emergency Services: Covered inpatient and outpatient services furnished by a provider who is qualified to furnish those health services and that are needed to evaluate or stabilize an Emergency Medical Condition.

(c) Medically Necessary Services: As set forth in the Social Security Act, Section 1905 (42 USC 1396d(a)), Medically Necessary Services are defined as services, supplies, or equipment provided by a licensed health care professional that are:

1. Appropriate and consistent with the diagnosis or treatment of the Covered Person's condition, illness, or injury;

2. In accordance with the standards of good medical practice consistent with the individual Covered Person's condition(s);

3. Not primarily for the personal comfort or convenience of the Member, family, or Provider;

4. The most appropriate services, supplies, equipment, or levels of care that can be safely and efficiently provided to the Covered Person;

5. Furnished in a setting appropriate to the Covered Person's medical need and condition and, when applied to the care of an inpatient, further mean that the Covered Person's medical symptoms or conditions require that the services cannot be safely provided to the Covered Person as an outpatient;

6. Not experimental or investigational or for research or education;

7. Provided by an appropriately licensed practitioner; and

8. Documented in the patient's record in a reasonable manner, including the relationship of the diagnosis to the service.

Medically Necessary Services may also be those services for children that are necessary to correct or ameliorate defects and physical and mental illnesses and conditions discovered during an interperiodic or periodic EPSDT screen, whether such services are covered or exceed the benefit limits in the Medicaid State Plan and Title 23 of Mississippi Administrative Code.

3.2 Provider Eligibility. Provider must be enrolled in the Mississippi Medicaid program and must use the same National Provider Identifier (NPI) number. Health Plan and Subcontractor will exclude from its network any provider who has been terminated or suspended from the Medicare or Medicaid program in any state.

3.3 Accessibility Standards. Provider shall provide for timely access for Covered Person appointments in accordance with the appointment availability requirements established under the State Contract, as further described in the applicable provider manual.

Type	Appointment Scheduling Time Frames
PCP (well care visit)	Not to exceed thirty (30) calendar days
PCP (routine sick visit)	Not to exceed seven (7) calendar days
PCP (urgent care visit)	Not to exceed twenty-four (24) hours
Specialists	Not to exceed forty-five (45) calendar days
Dental Providers (routine visits)	Not to exceed forty-five (45) calendar days
Dental Providers (urgent Care)	Not to exceed forty-eight (48) calendar d
Behavioral Health Providers (routine visit)	Not to exceed fourteen (14) calendar
Behavioral Health Providers (urgent visit)	Not to exceed twenty-four (24) hours

Behavioral Health Providers (post-discharge from an acute psychiatric hospital when the Contractor is aware of the Member's discharge)	Not to exceed seven (7) calendar days
Urgent Care Providers	Not to exceed twenty-four (24) hours
Emergency Providers	Immediately (twenty-four (24) hours a day, seven (7) days a week) and without Prior Authorization

3.4 Hours of Operation; Appointments. Provider shall offer hours of operation that are no less than the hours of operation offered to commercial beneficiaries or comparable to Medicaid fee-for-service if Provider serves only Medicaid beneficiaries.

3.5 Hold Harmless. Except for any applicable cost-sharing requirements under the State Contract, Provider shall look solely to Subcontractor and Health Plan for payment of Covered Services provided to Covered Persons pursuant to the Agreement and the State Contract and hold the State, DOM, the U.S. Department of Health and Human Services and Covered Persons harmless in the event that Subcontractor and/or Health Plan cannot or will not pay for such Covered Services. In accordance with 42 CFR 447.15, as may be amended from time to time, the Covered Person is not liable to Provider for any services for which Subcontractor and/or Health Plan is liable and as specified under the State's relevant health insurance or managed care statutes, rules or administrative agency guidance. Provider shall not require any copayment or cost sharing for Covered Services provided under the Agreement unless expressly permitted under the State Contract. Provider shall also be prohibited from charging Covered Persons for missed appointments if such practice is prohibited under the State Contract or applicable law. Neither the State, DOM nor Covered Persons shall be in any manner liable for the debts and obligations of Subcontractor and/or Health Plan and under no circumstances shall Subcontractor, Health Plan, or any providers used to deliver services covered under the terms of the State Contract, charge Covered Persons for Covered Services.

Covered Person may be responsible for non-covered item(s) and/or service(s), only if the Provider ensures that written documentation in compliance with the Advance Beneficiary Notification (ABN) is received from the Covered Person that an item(s) or service(s) rendered is a non-covered item and/or service(s) and that the Covered Person will be financially responsible for the item(s) and/or service(s). If Subcontractor and/or Health Plan determines a Covered Person was charged for Covered Services inappropriately, such payment may be recovered, as applicable.

This provision shall survive any termination of the Agreement, including breach of the Agreement due to insolvency.

3.6 Indemnification. To the extent applicable to Provider in performance of the Agreement, Provider shall indemnify, defend protect, save and hold DOM and its employees and Covered Persons harmless from and against all injuries, deaths, losses, damages, claims, suits, liabilities, judgments, costs and expenses, including, without limitation, court costs, investigative fees and expenses and attorney fees, to the extent proximately caused by any negligent act or other

intentional misconduct or omission of Provider, its agents, officers, employees or contractors arising from the Agreement. DOM may waive this requirement for public entities if Provider is a

state agency or sub-unit as defined by the State or a public health entity with statutory immunity. This clause shall survive the termination of the Agreement for any reason, including breach due to insolvency.

3.7 Provider Selection. To the extent applicable to Provider in performance of the Agreement, Provider shall comply with 42 CFR 438.214, as may be amended from time to time, which includes, but is not limited to the selection and retention of providers, credentialing and recredentialing requirements and nondiscrimination. If Subcontractor and/or Health Plan delegates credentialing to Provider, Subcontractor and Health Plan will provide monitoring and oversight and Provider shall ensure that all licensed medical professionals are credentialed in accordance with Health Plan's and the State Contract's credentialing requirements.

3.8 Restrictions on Referrals. Provider shall not make inappropriate referrals for designated health services to health care entities with which Provider or a member of Provider's family has a financial relationship, pursuant to federal anti-kickback and physician self-referral laws that prohibit such referrals.

3.9 Records Retention. As required under State or federal law or the State Contract, Provider shall maintain an adequate record keeping system for recording services, charges, dates and all other commonly accepted information elements sufficient to disclose the quality, quantity, appropriateness and timeliness of services rendered to Covered Persons. All financial records shall follow generally accepted accounting principles. Medical records and supporting management systems shall include all pertinent information related to the medical management of each Covered Person. Other records shall be maintained as necessary to clearly reflect all actions taken by Provider related to services provided under the State Contract. Such records shall be maintained for a period of not less than five (5) years from the close of the Agreement, or such other period as required by law. If records are under review or audit, they must be retained for a minimum of five (5) years following resolution of such action. Prior approval for the disposal of records must be requested and approved by Health Plan if the Agreement is continuous.

3.10 Records Access. Provider acknowledges and agrees that the State, DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel shall have complete access to all records pertaining to services provided to Covered Persons. Provider shall provide immediate access to facilities, records and supportive materials pertinent to the State Contract for State or Federal fraud investigators. Copies of requested documents shall be provided to the State, DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel or their designees free of charge.

3.11 Government Audit; Investigations. Provider acknowledges and agrees that the State and the U.S. Department of Health and Human Services, the Centers for Medicare & Medicaid Services, the Office of Inspector General, the General Accounting Office, or any other auditing agency or their authorized representatives, with prior approval by DOM, shall, at all reasonable time, with or without notice, or their authorized representatives shall have the right to inspect or otherwise evaluate the quality, appropriateness, and timeliness of services provided under the terms of the State Contract and any other applicable rules. There shall be no restrictions on the right of the State or federal government to conduct whatever inspections and audits are necessary

to assure quality, appropriateness or timeliness of services provided pursuant to the State Contract and the reasonableness of their costs.

3.12 Privacy; HIPAA. Provider shall comply with all applicable privacy rule and security rule provisions of the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), and associated implementing regulations, as may be amended from time to time, and shall safeguard information about Covered Persons in accordance with applicable federal and State privacy laws and rules including 42 CFR 438.224 and 42 CFR Part 431, Subpart F, as may be amended from time to time. Health Plan agrees and shall require Provider to agree that confidential information, including but not limited to medical and other pertinent information relative to Covered Persons, shall not be disclosed to any person or organization for any purpose without the expressed, written authority of DOM or as otherwise required by law and that all such disclosures shall fully comply with HIPAA privacy and security standards.

3.13 Compliance with Law. Provider shall comply with all applicable federal and State laws and regulations, and all provisions of the State Contract, that pertain to a Covered Person's rights, including but not limited to the following to the extent applicable to Provider in performance of the Agreement:

(a) Title VI of the Civil Rights Act of 1964; Title XIX of the Social Security Act; Title IX of the Education Amendments of 1972 (regarding education programs and activities); the Age Discrimination Act of 1975; the Rehabilitation Act of 1973; The Genetic Information Non-Discrimination Act of 2008 (GINA); and the Americans with Disabilities Act, and their implementing regulations, as may be amended from time to time.

(b) 42 CFR 434 and 42 CFR 438.6, as may be amended from time to time.

(c) All relevant federal and State statutes, regulations and orders related to equal opportunity in employment, including but not limited to compliance with E.O. 11246, "Equal Employment Opportunity," as amended by E.O. 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

(d) All federal and State professional and facility licensing and accreditation requirements/standards that apply to the services Health Plan and Provider perform pursuant to the Agreement, including but not limited to:

1. All applicable standards, orders or requirements issued under Section 306 of the Clean Air Act (42 USC 1857 (h)). Section 508 of the Clean Water Act (33 USC 1368), Executive Order 11738, and Environmental Protection Agency (EPA) regulations (40) CFR Part 15), which prohibit the use of facilities included on the EPA list of violating facilities. Any violations must be reported to DSHS, DHHS, and the EPA;

2. Any applicable mandatory standards and policies relating to energy

efficiency that are contained in the State Energy Conservation Plan, including the Energy Policy & conservation Act (Pub. L. 94-165), and issued in compliance with the Federal Energy Policy & Conservation Act.

3. Those specified for laboratory services in the Clinical Laboratory Improvement Amendments (CLIA). All laboratory service sites must have a CLIA certificate of registration or waiver, and a CLIA identification number.

4. Section 1128B(d)(1) of the Balanced Budget Act of 1997; and,

5. Any other requirements associated with the receipt of federal funds.

3.14 Physician Incentive Plans. In the event Provider participates in a physician incentive plan ("PIP") under the Agreement, Provider agrees that such PIPs must comply with 42 CFR 417.479, 42 CFR 438.6(h), 42 CFR 422.208, and 42 CFR 422.210, as may be amended from time to time. Subcontractor, Health Plan nor Provider may make a specific payment directly or indirectly under a PIP to a physician or physician group as an inducement to reduce or limit Medically Necessary services furnished to an individual Covered Person. PIPs must not contain provisions that provide incentives, monetary or otherwise, for the withholding of services that meet the definition of Medical Necessity.

3.15 Lobbying. Provider agrees to comply with the following requirements related to lobbying:

(a) Prohibition on Use of Federal Funds for Lobbying: By signing the Agreement, Provider certifies to the best of Provider's knowledge and belief, pursuant to 31 U.S.C. Section 1352 and 45 CFR Part 93, as may be amended from time to time, that no federally appropriated funds have been paid or will be paid to any person by or on Provider's behalf for the purpose of influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

(b) Disclosure Form to Report Lobbying: If any funds other than federally appropriated funds have been paid or will be paid to any person for the purpose of influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment or modification of any federal contract, grant, loan, or cooperative agreement and the value of the Agreement exceeds $100,000, Provider shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3.16 Excluded Individuals and Entities. Provider certifies that neither it nor any of its employees, principals, nor any providers, subcontractors or consultants or persons with an ownership or controlling interest in the Provider (an owner including the Provider himself or herself), or an agent or managing employee of the Provider, with whom Provider contracts and who are providing items or services that are significant and material to Provider's obligations under the Agreement is:

(a) excluded from participation in federal health care programs under either Section 1128 or section 1128A of the Social Security Act; or

(b) debarred, suspended or otherwise excluded from participating in procurement activities under the Federal Acquisition Regulation or from participating in nonprocurement activities under regulations issued under Executive Order no. 12549 or under guidelines implementing Executive Order No. 12549; or an affiliate, as defined in the Federal Acquisition Regulation, of such a person.

Provider acknowledges and agrees that payment will not be made for any items or Covered Services provided by an excluded individual pursuant to 42 CFR 1001.1901(b) and is obligated to screen all employees, contractors, and subcontractors for exclusion as required under applicable State and Federal laws. Additionally, Provider acknowledges that pursuant to 42 CFR 1003.102(a)(2) civil monetary penalties may be imposed against Provider if he or she employs or enters into contracts with excluded individuals or entities to provide items or Covered Services to Covered Persons under this Agreement. Provider agrees not to employ or subcontract with individuals or entities whose owner, those with a controlling interest, or managing employees are on a State or Federal exclusion list to provide items or Covered Services under this Agreement. Provider shall immediately report to Subcontractor and/or Health Plan any exclusion information discovered. Provider can search the HHS-OIG website, at no cost, by the names of any individuals or entities. The database is called LEIE and can be accessed at http://www.oig.hhs.gov/fraud/exclusions.asp. The GSA EPLS/SAM database can be accessed at https://www.sam.gov. Applicable state exclusion databases can be accessed through the State's Medicaid website. Subcontractor and Health Plan will terminate the Agreement immediately and exclude from its network any provider who has been excluded from federal health care programs or terminated from the Medicare or the Medicaid program in any state. Subcontractor and Health Plan may also terminate the Agreement if Provider's owners, agents, or managing employees are found to be excluded on a State or Federal exclusion list.

3.17 Disclosure. Provider shall cooperate with Subcontractor and Health Plan in disclosing information DOM may require related to ownership and control, significant business transactions, and persons convicted of crimes in accordance with 42 CFR Part 455 and shall provide information upon request. Provider shall submit information related to ownership and control of subcontractors or wholly owned suppliers within thirty-five (35) calendar days of a request for such information.

By executing this Agreement, Provider certifies that neither Provider nor any of its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in any State or federal health care program or from participating in

transactions by any State or federal department or agency. Subcontractor and/or Health Plan will terminate the Agreement upon becoming aware or receiving notice from DOM, whichever is earlier, that Provider is or has been excluded from participation in any State or federal health care program or by any State or federal agency.

3.18 Cultural Competency. Provider shall participate in Subcontractor and Health Plan's and the State's efforts to promote the delivery of services in a culturally competent manner to all Covered Persons, including those with limited English proficiency and diverse cultural and ethnic backgrounds and shall provide interpreter services in a Covered Person's primary language and for the hearing impaired for all appointments and emergency services. Provider shall provide information to Covered Persons regarding treatment options and alternatives, as well as information on complaints and appeals, in a manner appropriate to the Covered Person's condition and ability to understand.

3.19 Marketing. As required under State or federal law or the applicable State Contract, any marketing materials developed and distributed by Provider as related to the performance of the Agreement must be submitted to Health Plan for submission to DOM for prior approval.

3.20 Fraud, Waste and Abuse Prevention. Provider shall cooperate fully with Subcontractor and Health Plan's policies and procedures designed to protect program integrity and prevent and detect potential or suspected fraud, waste, and abuse in the administration and delivery of services under the State Contract and shall cooperate and assist DOM and any other State or federal agency charged with the duty of preventing, identifying, investigating, sanctioning or prosecuting suspected fraud, waste, and abuse in state and/or federal health care programs.

In accordance with Health Plan's policies and the Deficit Reduction Act of 2005 (DRA), Provider shall have written policies for its employees, contractors or agents that: (a) provide detailed information about the federal False Claims Act (established under sections 3729 through 3733 of title 31, United States Code); (b) cite administrative remedies for false claims and statements (established under chapter 38 of title 31, United States Code) and whistleblower protections under federal and state laws; (c) reference state laws pertaining to civil or criminal penalties for false claims and statements; and (d) with respect to the role of such laws in preventing and detecting fraud, waste, and abuse in federal health care programs (as defined in section 1128B(f)), include as part of such written policies, detailed provisions regarding Provider's policies and procedures for detecting and preventing fraud, waste, and abuse. Provider agrees to train its staff on the aforesaid policies and procedures.

3.21 Data; Reports. Provider shall cooperate with and release to Subcontractor and Health Plan any information necessary for Subcontractor and Health Plan to perform its obligations under the State Contract to the extent applicable to Provider in performance of the Agreement, including the timely submission of reports and information required by Subcontractor and Health Plan. Such reports shall include child health check-up reporting, if applicable, as well as complete and accurate encounter data in accordance with the requirements of Subcontractor and Health Plan and the State.

3.22 Encounter Data. Provider agrees to cooperate with Subcontractor and Health Plan to comply with Subcontractor and Health Plan's obligation to prepare encounter data submissions, reports, and clinical information including, without limitation, child and adolescent health check-up reporting, EPSDT encounters, and cancer screening encounters, as applicable, and such other reporting regarding Covered Services as may be required under the State Contract.

3.23 Claims Information. Provider shall promptly submit to Subcontractor or Health Plan the information needed to make payment and shall identify third party liability coverage, including Medicare and other insurance, and if applicable seek such third party liability payment before submitting claims to Subcontractor or Health Plan. Provider understands and agrees that each claim Provider submits to Subcontractor constitutes a certification that the claim is true and accurate to the best of Provider's knowledge and belief and that the Covered Services are 1) Medically Necessary and 2) have been provided to the Covered Person prior to submitting the claim.

Effective July 1, 2014, Provider must submit claims within six (6) months from the date of service. Claims filed within the appropriate time frame but denied may be resubmitted to the Contractor within ninety (90) calendar days from the date of denial

3.24 Reserved.

3.25 Licensure. Provider represents that it is currently licensed and/or certified under applicable State and federal statutes and regulations and by the appropriate State licensing body or standard-setting agency, as applicable. Provider represents that it is in compliance with all applicable State and federal statutory and regulatory requirements of the Medicaid program and that it is eligible to participate in the Medicaid program. Provider represents that it does not have a Medicaid provider agreement with DOM that is terminated, suspended, denied, or not renewed as a result of any action of DOM, CMS, HHS, or the Medicaid Fraud Control Unit of the State's Attorney General. Provider shall maintain at all times throughout the term of the Agreement all necessary licenses, certifications, registrations and permits as are required to provide the health care services and/or other related activities delegated to Provider by Health Plan under the Agreement. If at any time during the term of the Agreement, Provider is not properly licensed as described in this Section, Provider shall discontinue providing services to Covered Persons.

3.26 Quality; Utilization Management. Pursuant to any applicable provider manuals and related protocols, or as elsewhere specified under the Agreement, Provider agrees to cooperate with Subcontractor and Health Plan's quality improvement and utilization review and management activities. This shall include, but not be limited to, participation in any internal and external quality assurance, utilization review, peer review, and grievance procedures established by Subcontractor and Health Plan or as required under the State Contract to ensure that Covered Persons have due process for their complaints, grievances, appeals, fair hearings or requests for external review of adverse decisions made by Health Plan or Provider. Provider shall adhere to the quality assurance and utilization review standards of the MississippiCAN Program and shall monitor quality and initiate corrective action to improve quality consistent with the generally accepted level of care.

3.27 Non-Discrimination. Covered Persons must be provided Covered Services without regard to race, color, creed, sex, religion, age, national origin, ancestry, marital status, sexual orientation, language, health status, disease or pre-existing condition (including genetic information), anticipated need for health care or physical or mental handicap, except where medically indicated. Examples of prohibited practices include, but are not limited to, the following:

(a) Denying or not providing a Covered Person any Medicaid Covered Service. Health care and treatment necessary to preserve life must be provided to all Covered Persons who are not terminally ill or permanently unconscious, except where a competent Covered Person objects to such care on his/her own behalf.

(b) Subjecting a Covered Person to segregated, separate, or different treatment, including a different place or time from that provided to other Covered Persons or public or private patients, in any manner related to the receipt of any Medicaid Covered Service, except where Medically Necessary.

(c) The assignment of times or places for the provision of services on the basis of the race, color, creed, religion, age, sex, national origin, ancestry, marital status, sexual orientation, income status, program membership, language, health status, disease or pre-existing condition, anticipated need for health care or physical or mental disability of the Covered Persons to be served.

3.28 Advance Directives. Provider shall comply with the advance directives requirements set forth in the Uniform Health-Care Decisions Act, Section 41-41-215 of the Mississippi Code.

3.29 National Provider ID (NPI). Provider shall obtain a National Provider Identification Number (NPI) and when filing claims with Health Plan, the NPI used is the same NPI used when filing claims with DOM.

3.30 Termination. In the event of termination of the Agreement, Provider shall promptly supply to Subcontractor and Health Plan all information necessary for the reimbursement of any outstanding Medicaid claims.

3.31 Complaints; Grievances and Appeals. Information on how Provider or Provider's authorized representative can submit complaints and file grievances and appeals, and the resolution process, is contained in the applicable provider manual.

3.32 Health Care Acquired/Preventable Conditions. Provider agrees that no payment shall be made for the provision of medical assistance for health care acquired conditions and other provider preventable conditions as may be identified by the State. As a condition of payment, Provider shall identify and report to Subcontractor any provider preventable conditions in accordance with 42 CFR Part 438, including but not limited to 438.6(f)(2)(i).

3.33 Quality and Utilization Management Program. Provider shall cooperate with Subcontractor and Health Plan in meeting the Quality Management and Utilization Management Program standards outlined in the State Contract.

3.34 Referrals. Provider shall make referrals for social, vocational, education or human services when a need for such service is identified.

3.35 Insolvency. In the event Subcontractor and/or Health Plan becomes insolvent or unable to pay Provider, Provider shall not seek compensation for services rendered from the State, DOM, or their officers, Agents, or employees, or the Covered Persons or their eligible dependents.

3.36 Third Party Resources. Provider will report all third party resources to Subcontractor and Health Plan identified through the provision of medical services.

3.37 Compliance with Mississippi Employment Protection Act (MEPA). Provider represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act, Section 71-11-1 et set of the Mississippi Code Annotated (Supp. 2008), and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. Provider agrees to maintain records of such compliance and, upon request of the State and approval of the Social Security Administration or Department of Homeland Security, where required, to provide a copy of each such verification to the State. Provider further represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of the State of Mississippi. Provider understands and agrees that any breach of these warranties may subject Provider to the following: (a) termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public, or (b) the loss of any license, permit, certification or other document granted to Provider by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year, or (c) both.

3.38 Capitated Providers. If Provider is capitated and terminates its agreement with Subcontractor, for any reason, Provider will provide services to Covered Persons assigned to Provider up to the end of the month in which the effective date of termination falls.

3.39 Certification on Relationship to State, DOM and CMS. Provider certifies that no officer, director, employee, subcontractor or agent of Provider, or person with an ownership or control interest in Provider, is also employed by, or is a public official of, the State of Mississippi or any of its agencies, DOM or CMS.

3.40 Funding. Provider recognizes that the obligation of DOM to proceed under its Contract with CCO is conditioned upon the appropriation of funds by the Mississippi State Legislature and the receipt of State and/or Federal funds. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, either through the failure of the

Federal government to provide or the State of Mississippi to appropriate funds, or the discontinuance, or material alteration of the program under which the funds were provided or if funds are not otherwise available to DOM, DOM has the right upon ten (10) working days written notice to CCO to terminate the Contract.

3.41 Gratuities. Provider represents that it has not violated, is not violating, and promises that it will not violate the prohibitions against gratuities set forth in Section 6-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

3.42 Assignment/Delegation. Provider shall not assign or delegate the Agreement without the express written consent of CCO or DOM. The transfer of five percent (5%) or more of the beneficial ownership in Provider at any time during the term of this Agreement shall be deemed an assignment under this Agreement.

3.43 Notice of Legal Action. Immediately upon obtaining knowledge or receiving notice of any legal action or notice listed below, Provider shall provide to CCO written notice of such legal action or notice and, upon request by CCO, a complete copy of all filings and other documents generated in connection with any such legal action:

(a) Any action, suit or counterclaim filed against Provider;

(b) Any regulatory action, or proposed action, respecting Provider's business or operations;

(c) Any notice received by Provider from the Department of Insurance or the State Health Officer;

(d) The filing of a petition in bankruptcy by or against Provider, or the insolvency of Provider;

(e) The conviction of any person who has an ownership or control interest in Provider, or who is an agent or managing employee of Provider, of a criminal offense related to that person's involvement in any program under Medicare, Medicaid, or Title XX of the Social Security Act; or

(f) A malpractice action against any Provider delivering service under an agreement.

3.44 Federal and State Funds Liability. Providers acknowledges and agrees that payments made to Provider for services provided under the Agreement are derived from federal and State funds and that any false claim or statement in documents or any concealment of material fact related to such services may be a cause for sanctions and prosecution under applicable federal and State laws. Provider shall be subject to all laws applicable to individuals and entities receiving State and federal funds and may be held civilly or criminally liable to both CCO and DOM in the event of nonperformance, misrepresentation, fraud, or abuse related to services provided pursuant to the State Contract. Provider recognizes that payments made to the Provider are derived from federal and State funds, and are contingent upon and subject to availability and receipt of funds.

3.45 Insurance Requirements. As applicable, Provider shall secure and maintain during the term of the Agreement insurance appropriate to the services to be performed under the Agreement. Provider shall require that its providers secure and maintain during the term of the Agreement general liability insurance, professional liability insurance, and workers' compensation insurance for all employees connected with the provision of services under the Agreement. Such workers compensation insurance shall comply with Mississippi Workers' Compensation Laws. Such comprehensive general liability insurance and professional liability insurance shall provide coverage in an amount established by CCO pursuant to the Agreement or as required under the State Contract.

SECTION 4
ADDITIONAL PROVIDER REQUIREMENTS FOR SPECIFIC ACTIVITIES

4.1 Behavioral Health Providers. Behavioral health Providers shall ensure that all Covered Persons receiving inpatient psychiatric services are scheduled for outpatient follow-up and/or continuing treatment prior to discharge from the inpatient psychiatric hospital if the Provider is aware of the Covered Person's inpatient hospitalization status. Behavioral health Providers will be provided daily reports identifying Covered Persons known to be admitted to an inpatient facility.

4.2 PCP Responsibilities. Providers acting as PCPs shall meet the following requirements:

(a) PCPs who serve Covered Persons under the age of twenty-one (21) are responsible for conducting all EPSDT screens for individuals on their Panel under the age of twenty-one (21). Should the PCP be unable to conduct the necessary EPSDT screens, the PCP is responsible for arranging to have the necessary EPSDT screens conducted by another network Provider and ensure that all relevant medical information, including the results of the EPSDT screens, are incorporated into the Covered Person's PCP Medical Record.

(b) PCPs who serve Members under the age of twenty-one (21) report encounter data associated with EPSDT screens, using a format approved by DOM, to the Contractor within ninety (90) calendar days from the date of service.

(c) PCPs are responsible for contacting new Members identified in the quarterly encounter lists sent by the Contractor that indicate who has not had an encounter during the first six (6) months of Enrollment. The PCP shall:

1. Contact Covered Persons identified in the quarterly Encounter lists as not complying with EPSDT periodicity and immunization schedules for children;

2. Identify to Subcontractor any such Covered Persons who have not come into compliance with the EPSDT periodicity and immunization schedules within one (1) month of such notification to the site by Subcontractor; and

3. Document the reasons for noncompliance, where possible, and to document its efforts to bring the Covered Person's care into compliance with the standards.

4.3 Specialists as PCPs. Covered Persons with disabling conditions, chronic illnesses, or child(ren) with special health care needs may request that their PCP be a specialist. The designation of a specialist as a PCP must be pursuant to a treatment plan approved by Subcontractor and Health Plan, in consultation with the PCP to which the Covered Person is currently assigned, the Covered Person and, as appropriate, the specialist.

The specialist as a PCP shall provide or arrange for all primary care, including routine preventive care, and to provide those specialty medical services consistent with the Covered Person's disabling condition, chronic illness, or special health care need in accordance with Subcontractor and Health Plan's standards and within the scope of the specialty training and clinical expertise.

The specialist as a PCP shall have admitting privileges at a hospital in Health Plan's network.

SECTION 5
HEALTH PLAN AND SUBCONTRACTOR REQUIREMENTS

5.1 Prompt Payment. Subcontractor or Health Plan shall pay Provider pursuant to the State Contract and applicable State and federal law and regulations, including but not limited to Mississippi Code Section 83-9-5, 42 CFR 447.46, 42 CFR 447.45(d)(2), 42 CFR 447.45(d)(3), 42 CFR 447.45(d)(5) and 42 CFR 447.45(d)(6), as applicable and as may be amended from time to time. If a third party liability exists, payment of claims shall be determined in accordance with federal and/or State third party liability law and the terms of the State Contract. Unless Subcontractor or Health Plan otherwise requests assistance from Provider, Subcontractor or Health Plan will be responsible for third party collections in accordance with the terms of the State Contract.

5.2 No Incentives to Limit Medically Necessary Services. Subcontractor and Health Plan shall not structure compensation provided to individuals or entities that conduct utilization management and concurrent review activities so as to provide incentives for the individual or entity to deny, limit, or discontinue Medically Necessary services to any Covered Person.

5.3 Provider Discrimination Prohibition. Subcontractor and Health Plan shall not discriminate with respect to participation, reimbursement, or indemnification of a provider who is acting within the scope of the provider's license or certification under applicable State law, solely on the basis of such license or certification. Subcontractor and Health Plan shall not discriminate against Provider for serving high-risk Covered Persons or if Provider specializes in conditions requiring costly treatments. This provision shall not be construed as prohibiting Subcontractor and/or Health Plan from limiting a provider's participation to the extent necessary to meet the needs of Covered Persons. This provision also is not intended and shall not interfere with measures established by Health Plan that are designed to maintain quality of care practice standards and control costs.

54 Communications with Covered Persons. Covered Persons are entitled to the full range of their Providers' opinions and counsel about the availability of Medically Necessary Services under the provisions of the State Contract. Any contractual provisions, including gag clauses or rules, that restrict a Provider's ability to advise Covered Persons about Medically Necessary treatment options violate federal law and regulations.

Subcontractor and Health Plan shall not prohibit or otherwise restrict Provider, when acting within the lawful scope of practice, from advising or advocating on behalf of a Covered Person for the following:

(a) The Covered Person's health status, medical care, or treatment options, including any alternative treatment that may be self-administered;

(b) Any information the Covered Person needs in order to decide among all relevant treatment options;

(c) The risks, benefits, and consequences of treatment or non-treatment;

(d) The Covered Person's right to participate in decisions regarding his or her health care, including the right to refuse treatment, and to express preferences about future treatment decisions; or

(e) Information regarding the nature of treatment options including those that may not reflect Health Plan's position or may not be covered by Health Plan.

Subcontractor and Health Plan also shall not prohibit a Provider from advocating on behalf of a Covered Person in any grievance system, utilization review process, or individual authorization process to obtain necessary health care services.

55 Termination, Revocation and Sanctions. In addition to its termination rights under the Agreement, Subcontractor and Health Plan shall have the right to revoke any functions or activities Subcontractor and/or Health Plan delegates to Provider under the Agreement or impose other sanctions consistent with the State Contract if in Subcontractor and/or Health Plan's reasonable judgment Provider's performance under the Agreement is inadequate. Subcontractor and Health Plan shall also have the right to suspend, deny, refuse to renew or terminate Provider in accordance with the terms of the State Contract and applicable law and regulation. However, Subcontractor and Health Plan shall not exclude or terminate a Provider from participation in Subcontractor and/or Health Plan's Provider Network due to the fact that the Provider has a practice that includes a substantial number of patients with expensive medical conditions, and shall not terminate a Provider for filing a Complaint, Grievance, or Appeal on a Covered Person's behalf.

56 Rights of DOM. DOM shall have the right to invoke against Provider any remedy set forth in the State Contract, including the right to require the termination of the Agreement, for each and every reason for which it may invoke such a remedy against CCO or require termination of the State Contract. Suspected Fraud and Abuse by Provider will be investigated by DOM.

SECTION 6

OTHER REQUIREMENTS

6.1 Compliance with State Contract. All tasks performed under the Agreement shall be performed in accordance with the requirements of the applicable State Contract, as set forth in this Appendix, applicable provider manuals, and protocols, policies and procedures that Subcontractor and/or Health Plan have provided or delivered to Provider. The applicable provisions of the State Contract are incorporated into the Agreement by reference. Nothing in the Agreement relieves Health Plan of its responsibility under the State Contract. If any provision of the Agreement is in conflict with provisions of the State Contract, the terms of the State Contract shall control and the terms of the Agreement in conflict with those of the State Contract will be considered waived.

6.2 Monitoring. Subcontractor and/or Health Plan shall perform ongoing monitoring (announced or unannounced) of services rendered by Provider under the Agreement and shall perform periodic formal reviews of Provider according to a schedule established by the State, consistent with industry standards or State managed care organization laws and regulations or requirements under the State Contract. As a result of such monitoring activities, Subcontractor and/or Health Plan shall identify to Provider any deficiencies or areas for improvement mandated under the State Contract and Provider and Subcontractor and/or Health Plan shall take appropriate corrective action. Provider shall comply with any corrective action plan initiated by Subcontractor and/or Health Plan and/or required by the MississippiCAN Program. In addition, Provider shall monitor and report the quality of services delivered under the Agreement and initiate a plan of correction where necessary to improve quality of care, in accordance with that level of care which is recognized as acceptable professional practice in the respective community in which Subcontractor, Health Plan and Provider practice and/or the performance standards established under the State Contract.

6.3 Enrollment. The parties acknowledge and agree that DOM is responsible for enrollment, reenrollment and disenrollment of Covered Persons.

6.4 No Exclusivity. Nothing in the Agreement or this Appendix shall be construed as prohibiting or penalizing Provider for contracting with a managed care organization other than Subcontractor and/or Health Plan or as prohibiting or penalizing Subcontractor and Health Plan for contracting with other providers. Health Plan may not require Providers who agree to participate in the MississippiCAN Program to contract with Health Plan's other lines of business.

6.5 Delegation. The parties agree that, prior to execution of the Agreement, Subcontractor and/or Health Plan evaluated Provider's ability to perform any duties delegated to Provider under the Agreement. Any delegated duties and reporting responsibilities shall be set forth in the Agreement or other written delegation agreement or addendum between the parties. Subcontractor and Health Plan shall have the right to revoke any functions or activities Subcontractor and/or Health Plan delegates to Provider under the Agreement if in Subcontractor and/or Health Plan's reasonable judgment Provider's performance under the Agreement is inadequate.

Transportation Vendor
Provider Services Agreement

THIS AGREEMENT ("Agreement") is made and entered into by and between [redacted] (hereinafter referred to as [redacted]) and [redacted], (hereinafter referred to as "Transportation Provider" or "Provider"). [redacted] and Transportation Provider individually shall be referenced herein as a "Party" and collectively as the "Parties").

WHEREAS, [redacted] provides transportation brokerage services under contract ("Client contract") with governmental agencies and health care plans ("Clients") for the provision of non-emergency medical transportation ("NEMT" or "NET") benefits management, transportation provider network administration, and related services; and

WHEREAS, [redacted] wishes to enter into Agreements with qualified transportation companies and other business entities for the provision of high quality NEMT services ("Services"); and

WHEREAS, Transportation Provider wishes to enter into this Agreement for the provision of Services under the terms and conditions set forth herein;

NOW, THEREFORE, in consideration of the foregoing and of the mutual covenants, promises and undertakings herein set forth, the parties, intending to be legally bound, agree as follows:

1. DEFINITIONS

A. **Attendant** means a person that accompanies a Member and may be employed by the Transportation Provider, and/or may be a family member, caregiver or caseworker of the Member. Attendant requirements herein apply only to Attendants employed by the Transportation Provider.

B. **Beneficiary or Member** means any person enrolled in and entitled to NEMT services under a health benefit plan issued by [redacted]'s Client.

C. **Covered Service** means any medical transportation service that [redacted] is obligated to provide to a Member pursuant to a Client agreement.

D. **Criminal Background Check** shall mean a fingerprint-based national criminal record search conducted by a government agency or by a nationally recognized screening organization to include a social security number trace, a National Criminal Database search or the equivalent and a County Criminal Court Search or the equivalent based on the previous addresses as well as the names associated with the individual.

E. **Door-through-Door** level of service means that the driver must enter the residence or pick-up location and help the member to ensure safe assistance to and from the vehicle. Upon arrival at the destination the driver must deliver the Member inside of the facility or residence to an appropriate individual or facility representative.

F. **Door-to- Door** level of service means that the driver must go to the entrance of the Member's residence or pick-up location and announce arrival. Upon arrival at the destination, it is the driver's responsibility to bring the Member to the appropriate entrance of the designated facility or drop-off location.

G. **Drug Screen** means a urine based drug test that meets the requirements of the Federal Department of Health and Human Services, or the Department of Transportation, and screens at minimum for the use of marijuana, cocaine, amphetamines, opiates (codeine, morphine, and heroin) and Phencyclidine (PCP).

H. [redacted] **Transportation Provider Handbook** ("Handbook") is incorporated herein by reference and contains procedures, guidelines and processes established by [redacted], compliance to which is required of Transportation Providers in order to affect the intent of this Agreement. A copy of the Handbook is provided to Transportation Provider in electronic form and/or hard copy, and the receipt is herein acknowledged.

I. **Service Area** means the geographical area within the State of Mississippi where the Transportation Provider's transportation services will take place.

J. **Transportation Provider** means a transportation company or other business entity under agreement with [redacted] to provide transportation services.

K. **Trip** or **Trip Leg** means one-way transportation from point of pick-up to destination drop off.

L. **Turn-back** or **Reassignment** means a trip assignment that is refused by Transportation Provider and that is returned to MTM to be directed to a different Transportation Provider.

2. TRANSPORTATION PROVIDER REQUIREMENTS

A. Transportation Provider understands that selection of the Transportation Provider's transportation services by [redacted] will include but not be limited to factors such as quality, service availability, and competitive pricing of its services relative to other Transportation Providers doing business in the Service Area.

B. Transportation Provider is a legally recognized business entity duly incorporated or organized, validly existing, authorized to transact business, and in good standing under the laws of the State in which services are being rendered to [redacted]. A Certificate of Good Standing from the Secretary of State must be provided to [redacted] upon the signing of this Agreement.

C. Transportation Provider must immediately report to [redacted] any changes in Transportation Provider's contact information, company ownership or Federal Tax ID. A change of ownership or change in the FEIN number or the legal name of a Transportation Provider will require a new Agreement.

D. Transportation Provider agrees and understands that its dispatch/office must be available for immediate response during regular business hours. Moreover, a dispatcher, manager or owner must be available for immediate response on weekdays until 8 p.m. Central Standard Time.

E. The Immigration Reform & Control Act of 1986 prohibits employers from knowingly hiring illegal workers. Transportation Provider agrees that it shall only employ individuals who may legally work in the United States; either U.S. citizens or authorized aliens. Verification of U.S. employment eligibility must be provided to MTM upon request.

F. Transportation Provider warrants that neither it nor any of its owners or officers have ever been terminated or excluded from participation in any State Medicaid or Medicare program or have been determined to have committed Medicaid or Medicare fraud, or, are on any excluded parties list maintained by any Federal or State agency.

G. Transportation Provider warrants that no monies or gifts have been or will be paid or given directly or indirectly to any employee or agent of [redacted] as wages, compensation or gifts in exchange for favors in granting of transportation services to Transportation Providers.

H. Transportation Provider understands and agrees that it is the Transportation Provider's responsibility for itself and its drivers, to obtain and maintain in active status any and all licenses, permits, certificates, and registrations that are required by Federal, State or local laws, rules and regulations, as they currently exist and may hereafter be amended, including but not limited to any and all licenses, registrations, or certificates required to provide transportation for hire, and to operate as a Medicaid Provider in the assigned Service Area.

I. Transportation Provider must meet Federal guidelines for HIPAA compliance by keeping all Member protected health information (PHI) and personally identifiable information (PII) confidential, reporting to [redacted] any breaches of PHI or PII, and complying with the requirements set forth in the Business Associate Agreement, attached hereto as Appendix A and incorporated herein by reference. The Transportation Provider is deemed a Business Associate and must sign a Business Associate Agreement.

J. Transportation Provider agrees to comply with the Medicare Advantage and Medicaid Program Requirements, a copy of which is attached as Appendix C to this Agreement and incorporated herein by reference.

K. Transportation Provider must provide safe and reliable transportation services under this Agreement on an efficient and timely basis. Transportation Provider understands that this Agreement does not guarantee or ensure Transportation Provider any minimum number of trips, and that actual trip volume may vary within the sole discretion of [redacted].

L. Transportation Provider agrees to provide a sufficient staff of appropriately trained, licensed, and fully credentialed drivers meeting all applicable Federal, State, and local laws, rules and regulations to perform the Covered Service. It is in the Transportation Provider's best interest to employ drivers and/or office personnel who are also fluent in the languages prevalent in Transportation Provider's Service Area.

M. Transportation Provider shall provide drivers with visible, easily readable identification including a picture ID badge with driver's name and Transportation Provider's Company name, for security and identification purposes.

N. Transportation Provider shall only use drivers and vehicles to perform services under this Agreement that are approved and fully credentialed by [redacted]. [redacted] may not pay Transportation Provider for trips provided by Transportation Provider's unapproved drivers, and [redacted] may not pay Transportation Provider for trips using unapproved vehicles. The use of unapproved drivers and vehicles may be subject to liquidated damages as set forth in Schedule B attached hereto and incorporated herein by reference, and may result in termination of this Agreement.

O. Transportation Provider represents, by submission of a driver for credentialing approval by [redacted] that the driver has represented that he/she has no known physical or mental impairment that would hinder or prevent driver from performing the Services and safely transporting Members.

P. Transportation Provider for itself and its drivers agrees that [redacted] trip requests will have equal priority with Transportation Provider's day to day services, and that services available to Members have equal priority to services available to the general public. Transportation Provider agrees to have in place, a specific contingency or back-up plan to accommodate a trip which has been assigned to Transportation Provider whether or not the trip occurs.

Q. Transportation Provider understands that all trips, including recurring trips, may be assigned or reassigned by [redacted] in its sole discretion. Transportation Provider has no claim or right to transport any particular person or any claim or right to transport any person attending any particular health care services facility.

R. Transportation Provider shall give immediate notice to [redacted] of: (i) any criminal investigation, charge or proceeding against Transportation Provider or drivers; (ii) any conviction(s) of Transportation Provider or drivers for misdemeanor or felony crimes against a person, alcohol related driving offenses, and crimes involving moral turpitude and (iii) any civil claim asserted against Transportation Provider or drivers arising from services rendered by Transportation Provider under this Agreement.

S. Transportation Provider is required to keep records of all Services provided under this Agreement and shall provide [redacted] with all necessary requested data as may be required in order for [redacted] and Transportation Provider to comply with all Federal, State, local, NCQA, URAC, and Client standards. Transportation Provider agrees to maintain full and complete records reflecting all of its operations related to this Agreement for a period of ten (10) years or such longer period as maybe required by applicable laws, regulations or Client requirements.

T. Transportation Provider agrees to participate in [redacted]'s Quality and Compliance program which may include developing and cooperating with corrective action plans to ensure that the proper level and quality of service is provided. Transportation Provider must allow inspections, audits, monitoring, and duplication of records at no charge, of billing reports, trip/log sheets, vouchers and other records maintained by Transportation Provider for use by [redacted], [redacted]'s Client or City, County, State or Federal government officials during normal business hours. Such evaluations and inspections may be conducted unannounced. The failure of Transportation Provider to timely allow Transportation Provider audits or to respond to document requests by the requested date, could result in disciplinary measures up to and including removal from [redacted]'s Transportation Provider network, at [redacted]'s discretion. Any requested records will not be returned by [redacted]. Transportation Provider must maintain copies.

U. It is the Transportation Provider's responsibility to understand and comply with all applicable State, Federal and local laws and regulations as they currently exist and may hereafter be amended to provide services under this Agreement, including but not limited to: the False Claims Act (32 USC 3729, et. seq.), and the Anti-Kickback Statute (section 1128 (b)) of the Social Security Act; the Americans With Disabilities Act (ADA) of 1990; the Rehabilitation Act of 1973, Section 504; the requirements of 42 Code of Regulations, Part 431, Subpart F; Title VII of the Civil Rights Act of 1964; Medicaid and Medicare laws and regulations; and State and local traffic and distracted driving laws.

V. Transportation Provider must follow and ensure that its drivers follow the procedures and policies set forth in the Handbook.

W. Transportation Provider agrees to provide such trips as are assigned to Transportation Provider by [redacted] for a specified Service Area, and Transportation Provider agrees to and understands that liquidated damages as set forth in the attached Schedule B may be assessed by [redacted] for trips that are unable to be completed, or for Transportation Provider's noncompliance with this Agreement.

X. Transportation Provider understands that Transportation Provider misconduct will not be tolerated and could result in disciplinary measures including but not limited to reduction of trips, suspension, or removal from [redacted]'s Transportation Provider Network.

Y. Transportation Provider acknowledges that the [redacted] Transportation Provider Handbook will be reviewed

periodically by [redacted] and may be modified within its sole discretion with notification by [redacted] to Transportation Provider prior to implementation. Transportation Provider agrees to comply with all terms and provisions of the Handbook, to which the Transportation Provider has access.

Z. Transportation Provider agrees to cooperate with [redacted] and the [redacted] Client in the investigation process for complaints, grievances and suspected fraudulent activity. Transportation Provider understands and agrees that any complaints or grievances received by [redacted] with respect to the provision of Transportation Provider services will be forwarded to Transportation Provider for immediate attention and response. Any problem(s) related to the service shall be promptly resolved. Transportation Provider agrees to comply with [redacted]'s complaint resolution policies and provide [redacted] with the information necessary to help resolve grievances, complaints and inquiries with respect to Transportation Provider's services and other issues.

AA. Transportation Provider understands if there is suspicion of fraudulent driver or Transportation Provider activity, an investigation will be conducted by [redacted], with appropriate action taken, including notification to the Client and/or the appropriate governmental authorities. Investigations by applicable government authorities may result in civil fines and penalties, and the potential for criminal prosecution.

BB. Transportation Provider must not inquire as to the nature of a Member's illness or medical services received, except in the following instances: (i) Transportation Provider needs to know such information due to medical necessity relating to appropriate transportation and (ii) the Member becomes ill during the course of the trip and acquiring such information is considered pertinent to assuring the Member's safety and well-being. Transportation Provider must immediately report to [redacted] any known or suspected fraud or willful abuse of [redacted] services by a Member.

CC. Transportation Provider must report accidents, and injuries that occur during the transport of an [redacted] Member to [redacted]. Transportation Provider agrees to cooperate with [redacted] in the investigation of accidents and injuries.

DD. If a Member is delayed due to late pick-up or drop-off by Transportation Provider, and cannot be seen at appointment, the Transportation Provider may be assessed a vendor 'no-show' and the Transportation Provider will not be compensated for trip.

EE. Transportation Provider agrees to notify [redacted] immediately of any significant delays which cause the Member to be late for his/her medical appointment. In addition to [redacted] notification, Transportation Provider must make alternate plans for completing the trip in a timely manner if the medical appointment can still be attended.

FF. If the Transportation Provider determines a scheduled trip cannot be performed due to unsafe driving conditions during inclement weather, the Transportation Provider must immediately notify both the Member and [redacted] of the cancellation.

GG. Transportation Provider understands that, due to disability, age or mental condition, some Members require assistance and/or the use of an escort/attendant to assist the member during transport and at the place of treatment. Transportation Provider agrees to transport the Member and one (1) escort/attendant as requested. Multiple escorts require prior approval from [redacted].

HH. Transportation Provider must comply at a minimum with its assigned service level. Provider shall provide curb-to curb service as the standard service. Provider shall also provide levels of service including but not limited to door-to-door and door-through-door service with [redacted]'s prior approval, based on the medical necessity of the Member.

II. Transportation Provider must ensure that drivers do not charge for any general assistance into or out of the vehicle for any Member and/or passenger. General assistance includes but is not limited to opening doors, offering an arm to lean on, or holding a bag.

JJ. Transportation Provider agrees that [redacted] may use Provider's name, address, telephone number(s), and a description of Transportation Provider's services in [redacted]'s directory, advertising, and other material.

KK. Transportation Provider understands that no driver or attendant shall leave a Member unattended at any time. If a driver is transporting multiple passengers at the same time, Provider shall provide the assistance of an attendant at Provider's cost so that no Member is left unattended while the driver is assisting a Member exiting the vehicle.

3. DRIVER AND ATTENDANT REQUIREMENTS

A. Any driver or attendant failing to meet [redacted]'s qualifications, or any requirements imposed by State or local law, shall be prohibited from providing service under this Agreement. [redacted] and the Client reserve the right to disallow any driver or attendant from performing services under this Agreement.

B. All drivers for trips taken under this Agreement must possess a current, valid driver's license appropriate for the services rendered and for the type of vehicle the driver is operating and as required by the State and municipality in which driver provides transportation. A current, legible copy of each driver's license must be provided to [redacted] as part of the credentialing process.

C. Drivers and attendants must be at least 21 years of age, must be a U.S. citizen or legal resident alien, and must obey all Federal, State and local traffic laws.

D. Drivers and attendants must be able to read, write and communicate effectively in English.

E. Drivers and attendants must properly identify and announce his/her presence at the entrance of the building or with attending facility staff at the specified pick-up location, if a suitable curbside pick-up is not apparent.

F. Drivers must be physically able to assist Members entering and exiting vehicles, and must be capable of safely providing transportation services. Driver and Attendant represent, by submission of a credential to Transportation Provider for credentialing approval by [redacted], that driver &/or attendant, as applicable, have no known physical or mental impairment which would hinder or prevent him or her from performing services under this Agreement and safely transporting [redacted] Members.

G. Drivers and Attendants understand that in the event a driver or Member feels there is a need for emergency medical assistance, the driver or Attendant must immediately call 911.

H. Drivers must drive in a professional and safe manner, and must conduct themselves in an appropriate, courteous, helpful, and patient manner.

I. Drivers and Attendants must maintain acceptable standards of dress and personal grooming in order to present a neat, clean and professional appearance.

J. Drivers and Attendants must not enter the Member's home except under prior authorization from [redacted].

K. Drivers and Attendants must not smoke in the vehicle, or smoke in the presence of or while assisting any Member. The use of e-cigarettes, vapor smoking products, and the equivalent is also prohibited.

L. Drivers must not allow passengers to smoke or use e-cigarettes or vapor smoking products, or the equivalent in the vehicle. It is required that Transportation Provider post a "NO SMOKING" sign in all vehicles.

M. Drivers and attendants must not eat in the vehicle or while assisting or transporting [redacted] Members.

N. Drivers and attendants must not use alcohol or drugs or be under the influence of alcohol or drugs at any time while providing [redacted] transportation services. Any driver taking prescribed medication which may hinder his/her performance must report such use to his/her supervisor, and not transport [redacted] Members. A driver or attendant may use properly prescribed medication as long as his/her duties can still be performed in a safe manner and Transportation Provider has written medical documentation from his or her medical provider that the medication will not impact the ability of the driver.

O. Drivers and attendants must not allow personal friends or family members to ride in the vehicle while transporting [redacted] Members unless specifically authorized by [redacted].

P. Drivers must allow service animals in their vehicles as per the Americans with Disabilities Act.

Q. Drivers must not make personal stops, other than for restroom and Member/ Transportation Provider agreed-upon restaurant breaks, while transporting [redacted] Members unless specifically authorized by [redacted].

R. Drivers must require Members to use seatbelts properly and must refuse to continue travel if Members are non-compliant. Drivers must have seat belt extenders and be knowledgeable in their use for securing Members that require the extenders.

S. Drivers must ensure that all wheelchairs and mobility devices are properly secured to the vehicle and ensure that Members utilizing wheelchairs and scooters are properly secured before putting the vehicle in motion.

T. Drivers understand infants/children are to be in proper infant/child restraint seats as required by State and/or Federal law. In the event a proper seat is not available, or the use of the proper child restraint seat is refused, the driver must deny transportation.

U. Drivers must not place children in child restraint seats in the front seat of a vehicle.

V. Drivers and attendants must assure Members enter and exit the vehicle in an unobstructed and safe location. Where needed, drivers must provide assistance to Members entering and exiting a vehicle and ensure all doors are securely closed before vehicle is put in motion.

W. Drivers are required to safely secure folding wheelchairs and walking aids. Transportation Provider is responsible for all damages caused by drivers to Member's transported equipment and personal property.

X. Drivers and attendants must not touch any Member except as appropriate and necessary to assist the Member into or out of the vehicle or a seat; and to secure the seatbelt, or as necessary to render first aid or assistance for which the driver has been trained. Drivers and attendants must request permission from the Member prior to touching the Member.

Y. Drivers and attendants must not sexually harass, solicit sexual favors, or make sexually explicit comments to Members.

Z. Drivers and attendants must not solicit or accept favors, including but not limited to medications, goods, money, controlled substances, or alcohol from Members.

AA. Drivers and attendants shall not wear any type of headphones or earpieces, unless it is part of the Transportation Provider's two-way communication system.

BB. Drivers shall maintain the radio volume at a level acceptable to Members.

CC. Hand-held cellular devices may only be used in performance of services under this Agreement, and driver shall at all times comply with applicable laws regarding the use of cellular telephones by the driver of a moving vehicle.

DD. Drivers must not accept responsibility for any of Member's personal items.

EE. Drivers must not allow firearms or other weapons, unauthorized controlled substances, or highly combustible materials to be transported in the vehicle.

FF. Drivers must check their vehicle to ensure that at the end of each trip or trip route, all Members have vacated the vehicle.

4. VEHICLE REQUIREMENTS

A. Use of any vehicle prior to approval by [redacted] is prohibited and may result in nonpayment for the trip and subject the Transportation Provider to further disciplinary action including assessment of liquidated damages.

B. All vehicles in use for Services under this Agreement must meet all local, State and Federal requirements and comply with all vehicle requirements of MTM and its Client. Vehicles must display any applicable State or local motor vehicle registration and/or inspection sticker. Transportation Provider agrees that all vehicles that transport Members utilizing mobility devices will comply with current Federal ADA vehicle regulations, as defined by the U.S. Department of Transportation.

C. Vehicles may be taken out of service for use with [redacted] Members at the discretion of [redacted]. Transportation Provider agrees to remove from [redacted] service any vehicle to be found unsatisfactory in reference to conditions listed in this section, or which is questionable with regards to safety or roadworthiness, until repairs are completed.

D. No vehicle in use for services under this Agreement shall have:

i) Damaged or broken seats or seatbelts

ii) Protruding or sharp edges

iii) Dirt, oil, grease or litter in the vehicle

iv) Broken mirrors or windows (other than small chips/cracks)

v) Excessive grime, rust, chipped paint or major dents

E. Vehicles used for the transportation of members must have operational AVL/GPS capability which at minimum is capable of recalling the location of the vehicle for specific periods of time, and an internet connected device (ICD) which can be used to access [redacted]'s mobile applications for drivers.

F. The Transportation Provider shall provide and ensure each driver uses a two-way voice communication system linking all vehicles used in delivering the services under this Agreement with the Transportation Provider's place of business. Pagers are not an acceptable substitute.

5. CREDENTIALING, AND RE-CREDENTIALING

A. Transportation Provider agrees to develop and maintain a Driver Orientation and Training Program. All training and orientation documentation must be maintained by the Transportation Provider in the individual driver's file.

B. Driver training programs must include Fraud, Waste and Abuse ("FWA") and HIPAA. The Driver training program could include, but not be limited to:

i) Assisting Passengers with Disabilities

ii) Emergency Situation Training

iii) Wheelchair Securement

iv) CPR

v) First Aid

vi) Defensive Driving

C. Transportation Provider agrees to maintain records on each driver and attendant, including owner-drivers. The file contents shall be provided to [redacted] upon request and shall include but not be limited to the following current credentials:

i) Driver's License

ii) Criminal Background Check

iv) Motor Vehicle Driving Record Report

v) Drug & Alcohol Screening Results

vi) Health Record Attestation

vii) Driver Evaluations

viii) Training Certificates

ix) MS Sex Offender Registry Check

D. No driver or attendant may perform transportation services under this Agreement until fully credentialed and approved by [redacted]. [redacted] has entered into agreements with independent credentialing companies for nationwide access to credentials and screening services for drivers. [redacted] may make available these services to Transportation Providers. Transportation Provider agrees to sign or have signed all further documents as may reasonably be necessary to give effect to the credentialing and screening services for drivers.

E. Transportation Provider must not use any person as a driver or attendant whose name appears on the Office of the Inspector General (OIG) exclusion list; the Federal Excluded Party List System (EPLS), or similar government exclusion lists.

F. Transportation Provider must maintain a driver's health record, signed by the driver, that no physical or health limitation exists that prevents safe, competent operation of the motor vehicle or ability to assist any passenger in and out of the vehicle, or the performance of any other passenger assistance services, when a passenger requests such assistance.

G. If [redacted] or the Transportation Provider has reasonable suspicion that a driver or attendant is under the influence of alcohol or drugs, the Transportation Provider must immediately remove the driver or attendant from [redacted] service and submit him or her to an alcohol and/or drug screening at the Transportation Provider's expense.

H. Transportation Providers must maintain a Substance Free Workplace Policy to include but not be limited to pre-employment, random, and post-accident drug and alcohol screening for drivers and attendants pursuant to drug and alcohol testing regulations for safety sensitive positions. A copy of the policy must be provided to [redacted] upon request. Refusal to submit to testing within the designated time frame is considered a positive test result and will have disciplinary consequences. Drivers or attendants testing positive for drugs and/or alcohol will no longer be permitted to transport [redacted] Members.

I. Transportation Provider must not use any driver or attendant in the conduct of [redacted] services with any of the following convictions (misdemeanor or felony) or substantiated incidents including but not limited to:

i) Child abuse or neglect

ii) Domestic violence

iii) Crimes against children

iv) Crimes against the elderly, incapacitated or infirm

v) Crimes involving rape, sexual assault, or other sexual offenses

vi) Homicide

J. Transportation Provider must not use any person as a driver or attendant in the conduct of [redacted] services who has a felony criminal conviction of a felony offense within the preceding five (5) years or length of time designated by [redacted]'s Client.

K. [redacted] reserves the right to disapprove or suspend any driver or attendant for safety reasons; or where disqualification of a driver or attendant is requested by an [redacted] Client; or for other reasons of good cause within [redacted]'s sole discretion. Transportation Provider acknowledges that the offenses listed herein are not an exclusive listing, but that there are other offenses and pertinent circumstances which can result in the disapproval of a driver or attendant.

L. Transportation Provider must not allow drivers or attendants to perform [redacted] services who are currently on work release, probation, parole, or pending any felony or misdemeanor charge, or arrest, or drug or alcohol related traffic offense charge, which, if the charge were to result in a conviction, would disqualify the driver, Transportation Provider, or attendant under this Agreement. This same requirement applies equally to the Transportation Provider. Further, upon arrest of the Transportation Provider, [redacted] retains the option of suspending the Transportation Provider's services hereunder pending investigation of the arrest related charges.

M. Transportation Provider must not use any driver in the conduct of [redacted] services with the following:

i) Convicted of three (3) or more motor vehicle moving violations within the previous twenty-four (24) months.

ii) Involvement in two (2) or more at-fault accidents resulting in personal injury or property damage within the previous thirty-six (36) months. An "at fault" accident means any accident where the driver is cited with a violation, or negligently contributes to the accident or any single vehicle accident where the cause is not equipment related. A driver's involvement in an accident will be presumed at fault unless driver provides evidence or documentation to the contrary.

iii) A combination of one (1) unrelated motor vehicle moving violation and one (1) at-fault incident (accident) resulting in personal injury or property damage within the previous twenty-four (24) months.

iv) Revocation or suspension of the driver's vehicle operator's license within the previous three (3) years for accumulation of points or drug or alcohol related incident or moving traffic violations.

Copies of police reports are required to verify "no fault" accidents.

N. Further, any conviction, plea of guilty, finding of guilty or plea of "nolo contendere" (misdemeanor or felony), for any of the following driving offenses within the previous five (5) years shall disqualify a driver from performing [redacted] services:

i) DUI or DWI, or other alcohol related offense or under the influence of a controlled substance

ii) Other alcohol related or controlled substance related offense

O. The term "conviction" used herein shall also include any plea of guilty, finding of guilty, plea of "nolo contendere", or similar disposition, whether or not such disposition results in a sentence or conviction under applicable State or local laws.

P. A list of credentials can be found on Appendix B attached hereto. Changes to credentialing and re-credentialing requirements can be viewed online at the Transportation Provider's website.

6. COMPENSATION

A. [redacted] shall pay Transportation Provider for its services at the rates set forth in Schedule A. [redacted] pays properly submitted uncontested invoices within thirty (30) days after online electronic submission. Any claim submitted by Transportation Provider more than ninety (90) days (or such other length of time as required by [redacted]'s Client) after the date of service shall not be eligible for payment, and Transportation Provider thereby waives any right to payment thereafter.

B. No payment will be made for services performed by unapproved drivers or for services performed using unapproved vehicles.

C. Transportation Provider agrees that it will look solely to [redacted] for payment for services rendered. In no event, including but not limited to, non-payment by [redacted] or [redacted]'s Client, may Transportation Provider bill, charge, or otherwise seek compensation from a Member of [redacted]'s Client to whom Transportation Provider rendered services. This provision does not prohibit Transportation Provider from collecting a copayment or other fee where authorized by [redacted] or [redacted]'s Client.

D. The [redacted] appeals process gives Transportation Providers an opportunity to appeal any denied claims. Transportation Provider agrees that recovery of any overpayment or recoupment by [redacted] may be accomplished by offsets against future payments.

7. LIQUIDATED DAMAGES

A. Transportation Provider understands and agrees that liquidated damages may be assessed for noncompliance events, and that any liquidated damages specified are in lieu of actual damages for such occurrences. Transportation Provider agrees to cooperate fully with [redacted] to discuss and agree to appropriate corrective action plans, as necessary.

B. Transportation Provider agrees to pay [redacted] the sums set forth herein as liquidated damages and not as a penalty. Transportation Provider agrees and authorizes [redacted] to withhold, offset, recoup and deduct liquidated damages from any sums owing by [redacted] to Transportation Provider for services rendered. The assessment of liquidated damages shall not prohibit [redacted] from exercising any other right or remedy available to [redacted] at law or in equity. The failure at any time by [redacted] to assess liquidated damages shall not constitute a waiver of [redacted]'s right to assess liquidated damages in the future.

8. NON-DISCRIMINATION

Transportation Provider agrees not to differentiate or discriminate in the treatment of Members because of sex, marital status, family status, age, race, color, national origin, ancestry, religion, mental or physical disability, medical condition, height, weight, veteran status, sexual orientation, political affiliation, economic status, or any other basis prohibited by law, and Transportation Provider will render services to Members in the same manner and in accord with the same standards as offered to other persons.

9. INSURANCE

A. Transportation Provider, at its sole cost and expense, shall procure and maintain throughout the term of this Agreement, such policies of comprehensive general and automobile liability insurance, which policies shall include property damage, contractual liability, and completed operations/ products liability coverage, and other insurance, as may be required by [redacted]. Certificates of insurance evidencing existence of all insurance coverage specified herein shall be provided to [redacted] upon the signing of this Agreement and upon renewal of insurance.

B. The limits of all such insurance shall be in such form and coverage amounts as may be determined by [redacted], and which may be amended by [redacted] upon notice to Transportation Provider, and shall, at a minimum, be in compliance with [redacted]'s contractual requirements with its Client, and in compliance with all Federal, State and local insurance requirements for the jurisdiction in which transportation services are rendered. [redacted] reserves the right to require higher insurance coverage amounts than may be required by minimum Federal, State, or local laws and regulations.

C. Transportation Provider is required to maintain insurance at all times throughout the term of this Agreement. Failure to do so will result in immediate termination of the Agreement. The Transportation Provider's insurance coverage shall be primary insurance and non-contributory with respect to all other available sources. Minimum insurance limits are as follows:

i) Commercial General Liability

Policy shall include bodily injury, property damage, and broad form contractual liability coverage.

$1,000,000 per occurrence
$1,000,000 general aggregate

ii) Commercial Automobile Liability

Bodily Injury and Property Damage for any and all vehicles used in the performance of this Agreement.

$1,000,000 Combined Single Limit

a) Commercial General Liability and Commercial Automobile Liability policies shall be endorsed to include [redacted] as Additional Insured up to the greater of $1,000,000 or the Transportation Provider's policy full liability policy and umbrella limits.

b) Additional Insured endorsements shall be provided to [redacted] upon request. The Additional Insureds shall list:

[redacted]

c) Commercial General Liability and Commercial Automobile Liability policies shall be endorsed to provide specific notice of cancellation to [redacted].

d) The specific Notice of Cancellation endorsements shall be provided to [redacted] upon the signing of this Agreement and upon renewal of insurance.

iii) Workers Compensation

Statutory amounts for the State in which services are rendered

D. Commercial Automobile Liability policies that are scheduled auto policies must list each vehicle insured. Transportation provider must immediately notify [redacted] of all additions and deletions of insured vehicles.

E. "Broad Form" coverage shall include loading and unloading, and contractual liabilities. Waiver of subrogation shall apply and shall be in favor of [redacted]

F. If Transportation Provider does not maintain workers compensation insurance on its drivers, the Transportation Provider must (i) submit documentation from the appropriate governmental regulating authority supporting the Transportation Provider's exclusion or exemption from maintaining such insurance under State law, and (ii) ensure that the driver is contracted with the Provider in the name of the driver's company, and (iii) submit to [redacted] the first page and the signature page of the contract between the Transportation Provider's company and the driver's company. [redacted] reserves the right to require all Transportation Providers, including those otherwise exempt, to maintain workers compensation insurance.

G. Commercial auto liability policies that are scheduled auto policies must list each vehicle insured. Transportation provider must immediately notify [redacted] of all additions and deletions of insured vehicles.

H. In the event that policies shall be endorsed to include [redacted]'s Client as Additional Insured with notice of cancellation, and in the event waiver of subrogation shall apply and be in favor of [redacted]'s Client, [redacted] shall so inform Transportation Provider.

10. INDEMNIFICATION

A. TRANSPORTATION PROVIDER

Transportation Provider agrees to defend, indemnify, and hold harmless [redacted] and [redacted]'s Client from and against any claims, liabilities and expenses of any kind or nature whatsoever, arising or alleged to arise from performance or nonperformance of any service by Transportation Provider in connection with this Agreement, including but not limited to claims by personnel engaged by Transportation Provider; reasonable attorney's fees; and any noncompliance assessments, penalties, or liquidated damages and expenses incurred by or assessed against [redacted] and/or the Client relating to the actions or inactions of Transportation Provider.

B. [redacted] agrees to indemnify and hold harmless Transportation Provider against any claims, liabilities and expenses, including reasonable attorney's fees, arising from performance of any service by [redacted] in connection with this Agreement with respect to which Transportation Provider is not at fault.

11. DISCLOSURE OF OWNERSHIP AND CONTROL INTEREST

A. Transportation Provider understands that the following disclosures of ownership specifically apply to this Agreement, but do not exclude any other applicable Federal or State laws or requirements.

i) Transportation Provider warrants and represents that it, and its officers, directors, employees, agents and representatives, have not been convicted of crimes as specified in Section 1128 of the Social Security Act (42 U.S.C. 1320a-7); excluded from participation in the Medicare or Medicaid program, or any other Federal or State program; assessed a civil penalty under the provisions of Section 1128; entered into a contractual relationship with an entity convicted of a crime specified in Section 1128, or taken any other action that would prohibit it from participation in Medicare or Medicaid, or are otherwise excluded from participation in Federal or State programs.

ii) Transportation Provider warrants and represents that with respect to Transportation Provider or any of its employees, contractors, subcontractors, governing body members, or any major shareholders (5% or more) (i) there are no past or pending investigations, legal actions, or matters subject to arbitration , both Federal and State, for health care and/or prescription drug services; and (ii) that none have been criminally convicted nor has a civil judgment been entered against any of them for fraudulent activities nor are any of them sanctioned under any Federal or State program involving the provision of health care and/or prescription drug services.

B. Transportation Provider must immediately report to [redacted] any change in Transportation Provider's ownership, corporate officers, directors or controlling interest. Transportation Provider must notify [redacted] immediately if it or any of its owners, officers, directors, or managing personnel are barred from participation in any State or Federal program as a result of being sanctioned and placed on an excluded party list.

C. Transportation Provider shall complete and provide a disclosure of ownership, controlling interest and management upon request. Transportation Providers failing to meet the requirements of this section will be excluded from participation in [redacted]'s Transportation Provider network.

12. ASSIGNMENT

A. No portion of this Agreement shall be assigned, sublet, delegated, transferred or otherwise disposed of by Transportation Provider, except with the written consent of [redacted]. Transportation Provider may not subcontract any services herein to any person or business entity without the express written consent of [redacted].

B. This Agreement may be assigned by [redacted] to the participating [redacted] Client under contract to [redacted], or to any [redacted] affiliate or successor entity, after notice of any proposed assignment is made to Transportation Provider. Notwithstanding any such assignment, the rights, obligations and liabilities of Transportation Provider shall remain the same as set forth herein.

13. COMPLETE AGREEMENT

This Agreement including the attachments, addenda and amendments hereto, and the documents incorporated herein, constitute the entire understanding of the parties hereto with respect to the subject matter hereof, and supersedes any prior or contemporaneous agreements, oral or written, between [redacted] and the Transportation Provider.

14. TERM AND TERMINATION

A. This Agreement shall be for a term of three (3) years, and shall only be renewed or extended upon mutual written agreement of the parties. Termination shall have no effect upon the rights and obligations of the parties arising out of any services performed prior to the effective date of such termination. Further, in the event that a Member is provided services by Transportation Provider as of the date of termination of this Agreement, [redacted] will honor its contractual obligations to Members to pay for services rendered. This Agreement may also be terminated without cause for any reason upon a Party giving thirty (30) days written notice to the other party.

B. In the event Transportation Provider has been assigned trips and provides notice to [redacted] of termination, the Transportation Provider must accommodate and run those assigned trips within the thirty (30) day notice period. If Transportation Provider fails to complete said trips, the Transportation Provider may be subject to liquidated damages. Moreover, [redacted] is entitled to recoup or offset and deduct from any payment due Transportation Provider, the cost associated with re-scheduling those trips with another Transportation Provider.

C. Transportation Provider agrees that this Agreement does not guarantee or ensure Transportation Provider any minimum number of trips, and that actual trip volume may vary. Transportation Provider agrees to accept such trips as are assigned to Transportation Provider by [redacted]. If Transportation Provider is not assigned an adequate number of trips and wishes to terminate this Agreement, Transportation Provider must give [redacted] the aforesaid notice.

D. Notwithstanding any provision herein to the contrary, [redacted] shall have the right to immediately terminate this Agreement and the services of Transportation Provider in the event: (1) Transportation Provider fails to perform or otherwise breaches the terms of this Agreement; or (2) [redacted]'s Client suffers a loss of funding for the Contract between Client and MTM; or (3) [redacted]'s contract with its Client is terminated for any reason; or (4) Transportation Provider's conduct in any way affects the potential safety of any Member, in the sole discretion and determination of [redacted]; or (5) the filing of any Petition of Bankruptcy or insolvency, by or against the Transportation Provider; or (6) [redacted]'s Client has requested the termination of Transportation Provider; or (7) for other good cause. Transportation Provider shall have the right to immediately terminate this Agreement in the event [redacted] breaches the terms of this Agreement.

E. Transportation Provider agrees that [redacted] payment for all unpaid claims at time of termination will be withheld until [redacted] has received and audited service records and claims for correctness and accuracy. [redacted] reserves the right to offset any liquidated damages or other noncompliance assessments against sums due for unpaid claims, or to seek recoupment of sums previously paid in error to Transportation Provider.

15. NOTICE

A. Any notice provided for in this Agreement shall be in writing, addressed to the parties at the addresses set forth herein, and shall be delivered as follows with notice deemed given as indicated: (a) by personal delivery when delivered personally; (b) by registered or certified U.S. mail, return receipt requested and postage prepaid, in which case it shall be deemed served on the third mail delivery date after the date of mailing; or (c) nationally recognized courier service with all fees prepaid and shall be deemed delivered on the date of delivery, or the date of refusal.

B. Unless subsequently changed by written notice, notices shall be delivered or sent to the following addresses:

To:

[redacted]

To Transportation Provider at:

Attention:
Email:

16. INDEPENDENT CONTRACTOR RELATIONSHIP

It is mutually understood and agreed that in the performance of the duties and obligations of the parties to this Agreement, each party hereto is a separate and independent contractor. Neither party is the principal, agent, nor representative of the other; and neither shall have any direct control over the manner in which the other performs its services and functions. Each, [redacted] and Transportation Provider, is free to enter into Agreements with other entities or persons to provide the same or similar services.

17. EDUCATION AND TRAINING

It is the sole responsibility of Transportation Provider, as an independent contractor, to provide all necessary education and training of its drivers and other personnel to comply with all applicable laws and regulations, and the terms and conditions of this Agreement, and to provide safe and secure transportation of all transported passengers.

18. INTERPRETATION

This Agreement shall be interpreted and governed in accordance with the laws of the jurisdiction in which transportation services are rendered pursuant to this Agreement.

19. AFFIRMATIVE ACTION

[redacted] is an Equal Opportunity Employer, which maintains an Affirmative Action Program. The parties agree that they will comply with the nondiscrimination and affirmative action clauses contained in: Executive Order 11246, as amended, relative to equal opportunity for all persons without regard to race, color, religion, sex or national origin; the Vietnam Era Veterans Readjustment Act of 1974, as amended, relative to the employment of disabled veterans and veterans of the Vietnam Era; the Vocational Rehabilitation Act of 1973, as amended, relative to the employment of qualified handicapped individuals without discrimination based upon their physical or mental handicaps; the 1964 Civil Rights Act, as amended; the Age Discrimination Act of 1975 as amended; the Omnibus Reconciliation Act of 1981; the Americans with Disabilities

Act of 1990 and all other applicable Federal and State Laws which prohibit discrimination in the delivery of services on the basis of race, color, familial status, national origin, age, sex, sexual orientation, handicap/disability , religious beliefs or any other basis prohibited by law. Transportation Provider shall not discriminate or otherwise violate any Federal, State, or local anti-discrimination law or regulation in the performance of Transportation Provider's services to [redacted] under this Agreement.

20. AMENDMENT AND WAIVER

Transportation Provider acknowledges and agrees that this Agreement may be amended or modified in writing by mutual written agreement of the parties. In addition, [redacted] shall have the right to amend this Agreement without Transportation Provider's consent, to maintain consistency and/or compliance with any State or Federal law, policy, directive or government sponsored program requirement. [redacted] shall otherwise have the right to amend this Agreement upon written notice to Transportation Provider. If Transportation Provider does not deliver to [redacted] written notice of rejection of the amendment within thirty (30) days of the date of the notice of the amendment, the amendment shall be deemed accepted by and incorporated into this Agreement, and said amendment shall be binding upon the Transportation Provider.

21. CONFIDENTIALITY; NON-SOLICITATION; NON-COMPETE

A. Transportation Provider and [redacted] mutually acknowledge that in the course of performing this Agreement, Transportation Provider will become aware of information concerning [redacted]'s operations, business practices, customer practices, software systems, programs, pricing policies, customers, Members, and Clients. To the extent such information is generally unknown in the transportation industry or was unknown to Transportation Provider before Transportation Provider became aware of the information through [redacted], such information shall be deemed trade secrets and confidential, proprietary information of [redacted].

B. With respect to [redacted]'s trade secrets and confidential, proprietary information, including but not limited to all information obtained regarding Members, Transportation Provider agrees that Transportation Provider and its employees, agents, successors and assigns shall not disclose such information to any person or business entity without the written consent of [redacted] except for Transportation Provider's internal use as reasonably necessary to perform this Agreement. Transportation Provider also agrees that only those agents and employees of Transportation Provider who have a need to know any such information to perform their duties in connection with this Agreement will be provided with such information, and then only with those portions of such information as are reasonably necessary to the performance of their jobs. Further, Transportation Provider agrees to instruct such agents and employees not to disclose such information to any unauthorized persons or business entities.

C. Transportation Provider agrees that [redacted]'s non-emergency medical transportation services business and its network of contracted transportation providers, of which Transportation Provider is a member upon execution of this Agreement, are unique and valuable assets of [redacted] for which [redacted] rightfully seeks the protection of this Agreement. Therefore, Transportation Provider agrees not to discuss its compensation rates set forth herein with anyone outside of its organization, except for its accountants, attorneys and organization's representatives. Transportation Provider also agrees that becoming a Member of [redacted]'s transportation provider network through execution of this Agreement, is a valuable business asset of Transportation Provider.

D. Transportation Provider, for itself and its employees, agents, successors and assigns, further agrees that it will not: (a) use [redacted]'s trade secrets and confidential, proprietary information to develop, initiate or establish a business, or further the business of another person or business entity, which competes directly or indirectly with [redacted]; and (b) solicit or hire any employee of [redacted] during the period of employee's employment with [redacted], or for one (1) year following termination of employee's employment.

E. Transportation Provider agrees that a breach or threatened breach of the confidentiality provisions of this paragraph would cause immediate and irreparable harm to [redacted], and that actual damages would be difficult or impossible to ascertain, such that [redacted] shall be entitled to injunctive relief in addition to pursuing such other relief as [redacted] may be entitled to at law or in equity.

F. Transportation Provider will ensure that all information obtained regarding Members in connection with this Agreement, will be held in the strictest confidence and used only as required for the performance of Transportation Provider's obligations under this Agreement. The provisions of this Section shall survive termination of this Agreement.

22. ATTORNEY FEES AND COSTS

In the event that Transportation Provider fails to comply with each and every term of this Agreement or otherwise is in breach of any term of this Agreement; or in the event that Transportation Provider is required to defend, indemnify and hold harmless [redacted] with respect to any claim or liability arising out of the performance of any service by Transportation Provider in connection with this Agreement, Transportation Provider shall pay all of [redacted]'s costs and litigation expenses, including reasonable attorney's fees that may be incurred by MTM.

23. WAIVER OF JURY TRIAL

The parties hereto waive jury trial and consent to a Court trial as to all litigation arising out of the terms and conditions of this Agreement.

24. NO THIRD PARTY BENEFICIARY

Nothing in this Agreement is intended to, or shall be deemed or construed to create any rights or remedies in favor of any third party.

25. FORCE MAJEURE

Neither party shall be deemed to have breached this Agreement if its failure to perform all or any part thereof results from war, terrorism, flood, earthquake, strike, picketing, riot, fire, explosions, accidents, delays of carriers, governmental actions, or other acts of God, or circumstances beyond its control, or by reason of the judgment, ruling or order of any court or agency of competent jurisdiction occurring subsequent to the signing of this Agreement.

26. INCORPORATION OF ATTACHMENTS

This Agreement, the Transportation Provider Handbook, and the following attachments incorporated herein, constitute the entire agreement between the parties.

Appendix A – Business Associate Agreement
Appendix B – Credentials
Appendix C – Medicare Advantage and Medicaid Program Requirement Addendum
Schedule A – Transportation Provider Compensation (Rate Sheet)
Schedule B – Liquidated Damages

27. CONSTRUCTION; ACKNOWLEDGEMENT

All Parties have participated in the negotiation of this Agreement, and accordingly, the Parties agree that this Agreement shall be construed and interpreted without regard to any presumption or other rule requiring construction against the party causing this Agreement to be drafted. Transportation Provider warrants by signing this Agreement that he/she has read the document in its entirety, fully understands its content, and agrees to same. Transportation Provider further pledges to abide by all terms and conditions set forth herein, and acknowledges such by signature hereupon. Transportation Provider is responsible for seeking the advice of an attorney for clarification prior to signing.

28. COUNTERPARTS

This Agreement may be executed in multiple counterparts, including both counterparts that are executed on paper and counterparts that are electronic records and executed electronically, and each such executed counterpart (and any copy of an executed counterpart that is an electronic record) shall be deemed an original of this Agreement.

29. CONSENT TO ELECTRONIC RECORDS AND SIGNATURES

Electronic records and signatures may be used in connection with the execution of this Agreement. If executed on paper by original signature or executed electronically by one or more Parties to this Agreement, this Agreement or one or more of its signed counterparts is an electronic record and is just as legally valid and enforceable as if such parties had signed it on paper using a handwritten signature.

30. FURTHER ASSURANCES

Each party shall cooperate with the other and execute such instruments or documents and take such other actions as may reasonably be requested from time to time in order to carry out, evidence or confirm their rights or obligations or as may be reasonably necessary or helpful to give effect to this Agreement.

31. REPRESENTATIONS

The signers of this document represent that they are acting officially and properly on behalf of their respective business entities, and have been duly authorized, directed, and empowered to execute this

IN WITNESS WHEREOF, this Agreement is entered into and is effective as of this day of , 20 .

Medical Group Participation Agreement

Medical Group Participation Agreement

This Agreement is entered into by and between CCO, contracting on behalf of itself, HMO and the other entities that are CCO Affiliates (collectively referred to as "CCO") and _____ ("Medical Group").

This Agreement is effective on the later of _____, ___ or the first day of the first calendar month that begins at least 30 days after the date this Agreement has been executed by all parties (the "Effective Date").

Through contracts with physicians and other providers of health care services, CCO maintains one or more networks of providers that are available to Customers. Medical Group is a provider of health care services.

CCO wishes to make Medical Group's services available to Customers. Medical Group wishes to provide those services, under the terms and conditions set forth in this Agreement.

The parties therefore enter into this Agreement.

Article I
Definitions

The following capitalized terms in this Agreement have the meanings set forth below:

1.1 **Benefit Plan** means a certificate of coverage, summary plan description, or other document or agreement, whether delivered in paper or electronic format, under which a Payer is obligated to provide coverage of Covered Services for a Customer.

1.2 **Covered Service** is a health care service or product for which a Customer is entitled to receive coverage from a Payer, pursuant to the terms of the Customer's Benefit Plan with that Payer.

1.3 **Customary Charge** is the fee for health care services charged by Medical Group that does not exceed the fee Medical Group would ordinarily charge another person regardless of whether the person is a Customer.

1.4 **Customer** is a person eligible and enrolled to receive coverage from a Payer for Covered Services.

1.5 **Medical Group Physician** is a physician, as defined by the laws of the jurisdiction in which Covered Services are provided and duly licensed and qualified under those laws, who practices as a shareholder, partner, employee or Subcontractor of Medical Group.

1.6 **Medical Group Non-Physician Provider** is a healthcare professional other than a Medical Group Physician, who is duly authorized under the laws of the jurisdiction in which

Covered Services are provided, and who renders Covered Services as an employee or Subcontractor of Medical Group.

1.7 **Medical Group Professional** is a Medical Group Physician or a Medical Group Non-Physician Provider.

1.8 **Medical Group Records** are Medical Group's medical, financial and administrative records related to Covered Services rendered by Medical Group under this Agreement, including claims records.

1.9 **Payment Policies** are the guidelines adopted by CCO for calculating payment of claims to providers of health care services. The Payment Policies operate in conjunction with the specific reimbursement rates and terms set forth in this Agreement. The Payment Policies may change from time to time as described in section 6.1 of this Agreement.

1.10 **Payer** is an entity obligated to a Customer to provide reimbursement for Covered Services under the Customer's Benefit Plan and authorized by CCO to access Medical Group's services under this Agreement.

1.11 **Protocols** are the programs and administrative procedures adopted by CCO or a Payer to be followed by Medical Group in providing services and doing business with CCO and Payers under this Agreement. Protocols may include, among other things, credentialing and recredentialing processes, utilization management and care management processes, quality improvement, peer review, Customer grievance, or concurrent review. Protocols may change from time to time as described in section 5.4 of this Agreement.

1.12 **Subcontractor** is an individual or entity contracted or otherwise engaged by a party to this Agreement. For purposes of Medical Group Professionals, a Subcontractor is a Medical Group Professional only with respect to services rendered to patients of Medical Group and billed under Medical Group's Taxpayer Identification Number(s). Additionally, a Subcontractor is not a Medical Group Professional with regard to any services rendered in a physician's office or other non-facility location other than those locations listed in Appendix 1.

1.13 **CCO Affiliates** are those entities controlling, controlled by, or under common control with CCO.

Article II
Representations and Warranties

2.1 **Representations and warranties of Medical Group**. Medical Group, by virtue of its execution and delivery of this Agreement, represents and warrants as follows:

i) Medical Group is a duly organized and validly existing legal entity in good standing under the laws of its jurisdiction of organization.

ii) Medical Group has all requisite corporate power and authority to conduct its business as presently conducted, and to execute, deliver and perform its obligations under this Agreement. The execution, delivery and performance of this Agreement by Medical Group have been duly and validly authorized by all action necessary under its organizational documents and applicable corporate law. This Agreement has been duly and validly executed and delivered by Medical Group and (assuming the due authorization, execution and delivery of this Agreement by CCO) constitutes a valid and binding obligation of Medical Group, enforceable against Medical Group in accordance with its terms, except as enforceability may be limited by the availability of equitable remedies or defenses and by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting the enforcement of creditors' rights generally.

iii) The execution, delivery and performance of this Agreement by Medical Group do not and will not violate or conflict with (a) the organizational documents of Medical Group, (b) any material agreement or instrument to which Medical Group is a party or by which Medical Group or any material part of its property is bound, or (c) applicable law. Medical Group has the unqualified authority to bind, and does bind, itself and Medical Group Professionals to all of the terms and conditions of this Agreement, including any Appendices, Attachments and Exhibits, as applicable.

iv) Medical Group has obtained and holds all registrations, permits, licenses, and other approvals and consents, and has made all filings, that it is required to obtain from or make with all governmental entities under applicable law in order to conduct its business as presently conducted and to enter into and perform its obligations under this Agreement.

v) Medical Group has been given an opportunity to review the Protocols and Payment Policies. See the Additional Manuals Appendix for additional information regarding the Protocols and Payment Policies applicable to Customers enrolled in certain Benefit Plans.

vi) Each submission of a claim by Medical Group pursuant to this Agreement will be deemed to constitute the representation and warranty by Medical Group to CCO that (a) the representations and warranties of Medical Group set forth in this section 2.1 and elsewhere in this Agreement are true and correct as of the date the claim is submitted, (b) Medical Group has complied with the requirements of this Agreement with respect to the Covered Services involved and the submission of the claim, (c) the charge amount set forth on the claim is the Customary Charge and (d) the claim is a valid claim.

2.2 Representations and warranties of CCO. CCO, by virtue of its execution and delivery of this Agreement, represents and warrants as follows:

i) CCO is a duly organized and validly existing legal entity in good standing under the laws of its jurisdiction of organization.

ii) CCO has all requisite corporate power and authority to conduct its business as presently conducted, and to execute, deliver and perform its obligations under this Agreement. The execution, delivery and performance of this Agreement by CCO have been duly and validly authorized by all action necessary under its organizational documents and applicable corporate law. This Agreement has been duly and validly executed and delivered by CCO and (assuming the due authorization, execution and delivery of this Agreement by Medical Group) constitutes a valid and binding obligation of CCO, enforceable against CCO in accordance with its terms, except as enforceability may be limited by the availability of equitable remedies or defenses and by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting the enforcement of creditors' rights generally.

iii) The execution, delivery and performance of this Agreement by CCO do not and will not violate or conflict with (a) the organizational documents of CCO, (b) any material agreement or instrument to which CCO is a party or by which CCO or any material part of its property is bound, or (c) applicable law.

iv) CCO has obtained and holds all registrations, permits, licenses, and other approvals and consents, and has made all filings, that it is required to obtain from or make with all governmental entities under applicable law in order to conduct its business as presently conducted and to enter into and perform its obligations under this Agreement.

Article III
Applicability of this Agreement

3.1 Medical Group's services.

i) This Agreement applies to Covered Services provided at Medical Group's service locations set forth in Appendix 1. If a service location is not listed in Appendix 1, this section 3.1 and this Agreement should nevertheless be understood as applying to Medical Group's actual service locations that existed when this Agreement was executed, rather than to a billing address, post office box, or any other address set forth in Appendix 1.

In the event Medical Group intends to begin providing services at other service locations, or under other Tax Identification Number(s), Medical Group will provide 60[45] days' advance notice to CCO. Those additional service locations or Taxpayer Identification Numbers will become subject to this Agreement only upon written agreement of the parties. This subsection 3.1(i) applies to cases when Medical Group adds the location itself (such as through new construction) and when Medical Group acquires, merges with, or otherwise becomes affiliated with an existing provider that

was not already under contract with CCO or a CCO Affiliate to participate in a network of health care providers.

ii) Medical Group will provide 60[45] days' advance notice to CCO in the event Medical Group intends to acquire or be acquired by, merge with, or otherwise become affiliated with another provider of health care services that is already under contract with CCO or a CCO Affiliate to participate in a network of health care providers. If one of these events occurs, this Agreement and the other agreement will each remain in effect and will continue to apply as they did prior to the acquisition, merger or affiliation, unless otherwise agreed to in writing by all parties to such agreements.

Similarly, Medical Group will provide 60[45] days' advance notice to CCO if Medical Group intends to buy assets of, or lease space from, a medical group under contract directly with CCO or a CCO Affiliate to participate in a network of health care providers. If that occurs, and Medical Group provides services at that location, but does not assume the CCO contract held by the prior operator, Covered Services rendered at that location will be subject to the same rates and other key terms (including term and termination) as applied under the prior operator's contract.

iii) Medical Group will provide 60[45] days' advance notice to CCO in the event Medical Group intends to transfer all or some of its assets to another entity, with the result that all or some of the Covered Services subject to this Agreement will be rendered by the other entity rather than by Medical Group. In addition, Medical Group will request that CCO approve the assignment of this Agreement as it relates to those Covered Services, and if approved by CCO, Medical Group will ensure the other entity agrees to assume this Agreement. This subsection 3.1(iii) does not limit CCO's right under section 10.4 of this Agreement to elect whether to approve the assignment of this Agreement. This subsection 3.1(iii) applies to arrangements under which another provider intends to lease space from Medical Group, or intends to enter into a subcontract with Medical Group to perform services, after the Effective Date of this Agreement, so that Covered Services that were subject to this Agreement as of the Effective Date of this Agreement are rendered and billed instead by the other provider rather than by Medical Group after the lease or subcontract takes place.

3.2 Payers and Benefit Plans. CCO may allow Payers to access Medical Group's services under this Agreement for certain Benefit Plans, as described in Appendix 2. CCO may modify Appendix 2 without amendment to include or exclude Benefit Plans in Appendix 2 by providing 30 days prior written or electronic notice to Medical Group.

In addition to changes allowed above, CCO may make additional changes to Appendix 2 as described in section 3 of that appendix.

Section 9.3 of this Agreement will apply to Covered Services provided to Customers covered by Benefit Plans that are added to the list in Appendix 2 of Benefit Plans excluded from this Agreement as described above.

3.3 Patients who are not Customers. This Agreement does not apply to services rendered to patients who are not Customers at the time the services were rendered. Section 7.6 of this Agreement addresses circumstances in which claims for services rendered to those patients are inadvertently paid.

3.4 Health care. This Agreement and Benefit Plans do not dictate the health care provided by Medical Group Professionals, or govern Medical Group Professionals' determination of what care to provide patients, even if those patients are Customers. The decision regarding what care is to be provided remains with Medical Group Professionals and with Customers, and not with CCO or any Payer.

3.5 Communication with Customers. Nothing in this Agreement is intended to limit Medical Group's or Medical Group Professional's right or ability to communicate fully with a Customer regarding the Customer's health condition and treatment options. Medical Group and Medical Group Professionals are free to discuss all treatment options without regard to whether or not a given option is a Covered Service. Medical Group and Medical Group Professionals are free to discuss with a Customer any financial incentives Medical Group may have under this Agreement, including describing at a general level the payment methodologies contained in this Agreement.

Additional Language: use if Medical Group is a hospital-based group or is a multi-specialty group that includes hospital- based professionals.

[3.6 Services rendered by Facility-Based Medical Group Professionals.

i) **Definition and applicability.** For purposes of this section 3.6, "Facility-Based Medical Group Professional" means a Medical Group Professional who provides substantially all of his or her professional services in a facility setting (such as, hospital inpatient, hospital outpatient, or ambulatory surgical center). Facility-Based Medical Group Professionals include, but are not limited to, emergency room physicians, pathologists, radiologists, anesthesiologists (other than for pain management services), certified registered nurse anesthetists ("CRNAs"), hospitalists, and intensivists. All of the provisions of this Agreement, including those listed in this section 3.6, apply to services rendered by Medical Group Professionals who are not acting as Facility-Based Medical Group Professionals at the time the services are rendered.

ii) **Services provided by hospital.** The following provisions of this Agreement do not apply to services rendered by Medical Group Professionals, when acting as Facility-Based Medical Group Professionals, so long as the facility performs the requirement instead:

a) Section 5.6 with regard to the requirement that Medical Group purchase commercial general and/or umbrella liability insurance.

b) Section 5.8 with regard to the requirement that Medical Group obtains the Customer's consent to provide access to data.

c) Section 5.9 with regard to the requirement to maintain Medical Group Records.

d) Section 5.10 with regard to the requirement to collect and review certain quality data.

e) Section 7.5(ii) with regard to the requirement to obtain the Customer's written consent prior to providing services that are not Covered Services.

f) Section 7.6 with regard to the requirement to request the patient to present his or her Customer identification card.

iii) **Other provisions not applicable.** The following provisions of this Agreement do not apply to services rendered by Medical Group Professionals, when acting as Facility-Based Medical Group Professionals:

a) Section 5.4(i)(a) with regard to the requirement to direct Customers only to other participating providers.

b) Sections 5.4(i)(b)(1) and (2) with regard to the requirement to notify Customers' primary care physicians of referrals to other providers and the requirement to provide Covered Services pursuant to the terms and limitations of the referral notification issued by or on behalf of the Customer's primary care physician, but only if Facility-Based Medical Group Professionals do not have hospital admitting privileges.

c) Section 5.4(i)(b)(3) with regard to the requirement to notify Customers' primary care physicians of admissions.

d) Section 5.7(ii) with regard to the requirement to provide notice to CCO of any suspension, revocation, condition, limitation, qualification or other material restriction of a Medical Group Physician's staff privileges at any licensed hospital, nursing home or other facility at which a Medical Group Physician has staff privileges during the term of this Agreement, but only if Facility-Based Medical Group Professionals do not have hospital admitting privileges.]

Article IV
Participation of Medical Group Professionals in CCO's Network

4.1 Medical Group Professionals as participating providers. Except as described in section 4.2, all Medical Group Professionals must participate in CCO's network. Medical Group has the authority to bind, and will bind, all new Medical Group Professionals to the obligations of this Agreement**.** Medical Group will provide to CCO the information described in the Medical Group Professional Roster to this Agreement.

4.2 Medical Group Professionals who are not participating providers. The following Medical Group Professionals are not participating providers in CCO's network:

i) A Medical Group Professional who has been denied participation in CCO's credentialing program, whose credentialing application has not been submitted (to the extent CCO's credentialing program applies to the Medical Group Professional), or whose credentialing application remains pending; or

ii) A Medical Group Professional who has been terminated from participation in CCO's network under this Agreement or any other agreement with CCO through which the Medical Group Professional participated in CCO's network.

4.3 Credentialing. Medical Group and Medical Group Professionals will participate in and cooperate with CCO's credentialing program to the extent that program applies to Medical Group and Medical Group Professionals. To the extent Medical Group and Medical Group Professionals are subject to credentialing, Medical Group and Medical Group Professionals must be credentialed by CCO or its delegate prior to furnishing any Covered Services under this Agreement.

4.4 New Medical Group Professionals. Medical Group will notify CCO at least 30 days before a physician or other healthcare professional becomes a Medical Group Professional. In the event that the Medical Group's agreement with the new Medical Group Professional provides for a starting date that would make it impossible for Medical Group to provide 30 days advance notice to CCO, then Medical Group will give notice to CCO as soon as reasonably possible but no later than five business days after reaching agreement with the new Medical Group Professional. In either case, the new Medical Group Professional will submit a credentialing application to CCO or its delegate within 30 days of the new Medical Group Professional's agreement to join Medical Group, unless CCO's credentialing program does not apply to the new Medical Group Professional. In addition, Medical Group will provide to CCO the information described in the Medical Group Professional Roster to this Agreement with respect to the new Medical Group Professional.

4.5 Termination of a Medical Group Professional from CCO's network. CCO may terminate a Medical Group Professional's participation in CCO's network, without terminating this Agreement, immediately, upon becoming aware of any of the following:

i) the material breach of this Agreement by the Medical Group Professional that is not cured by Medical Group and/or the Medical Group Professional within 30 days after CCO provided notice to Medical Group of the breach;

ii) the suspension, revocation, condition, limitation, qualification or other material restriction on a Medical Group Professional's license, certification and/or permit by any government agency under which the Medical Group Professional is authorized to provide health care services;

iii) the suspension, revocation, condition, limitation, qualification or other material restriction of a Medical Group Physician's staff privileges at any licensed hospital,

nursing home or other facility at which the Medical Group Physician has staff privileges during the term of this Agreement;

iv) for any criminal charge related to the practice of Medical Group Professional's profession or for an indictment, arrest, or conviction for a felony;

v) a sanction imposed by any governmental agency or authority, including Medicare or Medicaid; or

vi) the failure to meet the requirements of CCO's credentialing program to the extent that those requirements apply to the Medical Group Professional.

CCO will notify Medical Group of the Medical Group Professional's termination according to the notice provision set forth in section 10.8 of this Agreement.

4.6 Covered Services by Medical Group Professionals who are not participating providers. Medical Group will staff its service locations so that Covered Services can appropriately be rendered to Customers by Medical Group Professionals who participate in CCO's network. A Medical Group Professional who does not participate in CCO's network, pursuant to section 4.2 of this Agreement, will not render Covered Services to a Customer.

In the event Covered Services are rendered by a Medical Group Professional who does not participate in CCO's network, neither Medical Group nor the Medical Group Professional will submit a claim or other request for payment to CCO or Payer, and will not seek or accept payment from the Customer.

Article V
Duties of Medical Group

5.1 Provide Covered Services. Medical Group will provide Covered Services to Customers.

5.2 Nondiscrimination. Medical Group will not discriminate against any patient, with regard to quality or accessibility of services, on the basis that the patient is a Customer. Medical Group will not require a Customer to pay a "membership fee" or other fee in order to access Medical Group for Covered Services (except for co-payments, coinsurance and/or deductibles provided for under Customer's Benefit Plan) and will not discriminate against any Customer based on the failure to pay such a fee.

5.3 Accessibility. Medical Group will be open during normal business hours and will provide or arrange for the provision of advice and assistance to Customers in emergency situations 24 hours a day, seven days a week.

5.4 Protocols.

i) **Cooperation with Protocols.** Medical Group will cooperate with and be bound by CCO's and Payers' Protocols. The Protocols include, but are not limited to, all of the following:

a) For non-emergency Covered Services, Medical Group will assist Customers to maximize their benefits by referring or directing Customers only to other providers that participate in CCO's network, except as otherwise authorized by CCO through CCO's process for approving out-of-network services at in-network benefit levels.

b) If the Customer's Benefit Plan requires the Customer to receive certain Covered Services from or upon referral by a primary care physician, Medical Group Professionals must adhere to the following additional protocols:

1) Notify Customer's primary care physician of referrals to other participating or non-participating providers.

2) Render Covered Services pursuant to the terms and limitations of the referral notification issued by or on behalf of the Customer's primary care physician.

3) Notify the Customer's primary care physician of all admissions.

c) Medical Group will provide notification for certain Covered Services, accept and return telephone calls from CCO staff, and respond to CCO requests for clinical information, as required by CCO or Payer as described in the Protocols.

ii) **Availability of Protocols.** The Protocols will be made available to Medical Group online or upon request. Some or all Protocols also may be disseminated in the form of an administrative manual or guide or in other communications. Currently, the Protocols may be found at Portal.com or as indicated in the Additional Manual Appendix, if applicable. CCO will notify Medical Group of any changes in the location of the Protocols.

iii) **Changes to Protocols.** CCO may change the Protocols from time to time. CCO will use reasonable commercial efforts to inform Medical Group at least 30 days in advance of any material changes to the Protocols. CCO may implement changes in the Protocols without Medical Group's consent if the change is applicable to all or substantially all medical groups of the same type and specialty offering similar services in CCO's network, and are located in the same state as Medical Group. Otherwise, changes to the Protocols proposed by CCO to be applicable to Medical Group are subject to the requirements regarding amendments in section 10.2 of this Agreement.

5.5 Licensure. Medical Group and Medical Group Professionals will maintain, without material restriction, such licensure, registration, and permits as are necessary to enable Medical Group and Medical Group Professionals to lawfully perform under this Agreement.

5.6 Liability insurance. Medical Group will ensure that Medical Group and all Medical Group Professionals are covered by liability insurance. Except to the extent coverage is a state mandated placement, the liability coverage must be placed with insurance carriers

that have an A.M. Best Rating of A-VII or better, and that are authorized or approved to write coverage in the state in which the Covered Services are provided. The liability insurance will be, at a minimum, of the types and in the amounts set forth below. Medical malpractice insurance will be either occurrence or claims made with an extended reporting period option for at least three years. Upon request, Medical Group will submit to CCO in writing evidence of insurance coverage.

Type of Insurance	Minimum Limits
Medical malpractice and/or professional liability insurance	If Medical Group insures each Medical Group Professional separately, $1,000,000 per occurrence/claim and $3,000,000 aggregate for each Medical Group Professional. OR If Medical Group insures all Medical Group Professionals in a single policy with shared limits: $3,000,000 per occurrence/claim and $5,000,000 aggregate.
Commercial general and/or umbrella liability insurance	$1,000,000 per occurrence/claim and $2,000,000 aggregate.

[Substitute Language: Use this table for groups that ARE at high risk.

Type of Insurance	Minimum Limits
Medical malpractice and/or professional liability insurance	If Medical Group insures each Medical Group Professional separately, $5,000,000 per occurrence/claim and aggregate for each Medical Group Professional. OR If Medical Group insures all Medical Group Professionals in a single policy with shared limits: $10,000,000 per occurrence/claim and aggregate.
Commercial general and/or umbrella liability insurance	$5,000,000 per occurrence/claim and aggregate.

]

In lieu of purchasing the insurance coverage required in this section, Medical Group may self-insure any of the required insurance. Medical Group will maintain a separate reserve for its self-insurance. If Medical Group uses the self-insurance option described in this paragraph, Medical Group will provide to CCO, prior to the Effective Date, a statement verified by an independent auditor or actuary that its reserve funding levels and process of funding appears adequate to meet the requirements of this section and fairly represents the financial condition of the fund. Medical Group will provide a similar statement during the term of this Agreement upon CCO's request, which will be made no more frequently than

annually. Medical Group will assure that its self-insurance fund will comply with applicable laws and regulations.

5.7 Notices by Medical Group. Medical Group will give notice to CCO within 10 days after any event that causes Medical Group to be out of compliance with section 5.5 or 5.6 of this Agreement. Medical Group will give notice to CCO at least 30 days prior to any change in Medical Group's name, ownership, control, National Provider ID (NPI) or Taxpayer Identification Number.

In addition, Medical Group will give written notice to CCO within 10 days after it learns of any of the following:

i) any suspension, revocation, condition, limitation, qualification or other material restriction on a Medical Group Professional's licenses, certifications and permits by any government agency under which a Medical Group Professional is authorized to provide health care services;

ii) any suspension, revocation, condition, limitation, qualification or other material restriction of a Medical Group Physician's staff privileges at any hospital, nursing home or other facility at which a Medical Group Physician has staff privileges during the term of this Agreement;

iii) an indictment, arrest or conviction of a Medical Group Professional for a felony, or for any criminal charge related to the practice of the Medical Group Professional's profession;

iv) the departure of any Medical Group Professional from Medical Group; or

v) any changes to the information contained in Appendix 1**.**

5.8 Customer consent to release of Medical Group Records. Medical Group will obtain any Customer consent required in order to authorize Medical Group to provide access to requested Medical Group Records as contemplated in section 5.9 of this Agreement, including copies of the Medical Group's medical records relating to the care provided to Customer.

5.9 Maintenance of and access to records.

i) **Maintenance.** Medical Group will maintain Medical Group Records for at least 10 years following the end of the calendar year during which the Covered Services are provided, unless a longer retention period is required by applicable law.

ii) **Access to Agencies**. Medical Group will provide access to Medical Group Records to agencies of the government, in accordance with applicable law, to the extent access is necessary to comply with the requirements of such agencies as applicable to Medical Group, CCO or Payers.

iii) **Access to CCO.** Medical Group will provide CCO or its designees access to Medical Group Records for purposes of CCO's health care operations and other administrative obligations, including without limitation, utilization management, quality assurance and improvement, claims payment, and review or audit of Medical Group's compliance with the provisions of this Agreement and appropriate billing practices.

Medical Group will provide access to Medical Group Records by providing CCO electronic medical records ("EMR") access and electronic file transfer. When the requested Medical Group Records are not available through EMR access and electronic file transfer, Medical Group will submit those Medical Group Records through other means reasonably acceptable to CCO, such as facsimile, compact disc, or mail, that is suitable to the purpose for which CCO requested the Medical Group Records.

Medical Group Records provided by EMR access will be available to CCO on a 24 hour/7 day a week basis. Medical Group Records provided by electronic file transfer will be available to CCO within 24 hours of CCO's request for those Medical Group Records or a shorter time as may be required for urgent requests for Medical Group Records. Medical Group Records provided by other means will be available in the time frame specified in the request for the Medical Group Records; provided, however, Medical Group will have up to 14 days to provide the Medical Group Records for requests not related to urgent requests. Urgent requests are those requests for Medical Group Records to address allegations of fraud or abuse, matters related to the health and safety of a Customer, or related to an expedited appeal or grievance.

Medical Group may meet the requirements of this section 5.9 directly or through a subcontractor.

iv) **Audits.** Pursuant to paragraph (iii) above, CCO may request Medical Group Records from Medical Group for purposes of performing an audit of Medical Group's compliance with this Agreement, Medical Group's billing practices, or CCO's health care operations, including without limitation claims payments. In addition, CCO may perform audits at Medical Group's locations upon 14 days' prior notice. Medical Group will cooperate with CCO on a timely basis in connection with any such audit including, among other things, in the scheduling of and participation in an interview to review audit findings, within 30 days after CCO's request.

v) When Medical Group has provided records through EMR access or file transfer, CCO will not request duplicative paper records from Medical Group.

vi) Medical Group will provide Medical Group Records free of charge**.**

5.10 Access to data. Medical Group represents that in conducting its operations, it collects and reviews certain quality data relating to care rendered by Medical Group that is reported in a manner which has been validated by a third party as having a clear, evidence-based link to quality or safety (e.g., AHRQ standards) or which has been created by employer coalitions as proxies for quality (e.g., Leapfrog standards)**.**

CCO recognizes that Medical Group has the sole discretion to select the metrics which it will track from time to time and that Medical Group's primary goal in tracking quality data is to advance the quality of patient care. If the information that Medical Group chooses to report on is available in the public domain in a format that includes all data elements required by CCO, CCO will obtain quality information directly from that source. If the Medical Group does not report metrics in the public domain, on a quarterly basis, Medical Group will share these metrics with CCO as tracked against a database of all patients (including patients who are not Customers). CCO may publish this data to entities to which CCO renders services or seeks to render services, and to Customers.

5.11 Compliance with law. Medical Group will comply with applicable regulatory requirements, including but not limited to those relating to confidentiality of Customer medical information.

5.12 Electronic connectivity. When made available by CCO, Medical Group will do business with CCO electronically, including using EMR access and connectivity. Medical Group will use the CCO service tool, found at portal.com and/or other electronic connectivity as available, to check eligibility status, claims status, and submit requests for claims adjustment for products supported by CCO's online resources and other electronic connectivity. Medical Group will use or other tools for additional functionalities (for example, notification of admission, prior authorization and any other available transaction or viewing) after CCO informs Medical Group that these functionalities have become available for the applicable Customer.

5.13 Employees and Subcontractors. Medical Group will ensure that its employees, affiliates and any individuals or entities subcontracted by Medical Group to render services in connection with this Agreement adhere to the requirements of this Agreement. The use of employees, affiliates or Subcontractors to render services in connection with this Agreement will not limit Medical Group's obligations and accountability under this Agreement with regard to those services.

5.14 Laboratory Services. Medical Group will be reimbursed for Covered Services that are laboratory services only if, (i) Medical Group is certified through the Clinical Laboratory Improvement Amendments (CLIA) to perform those services, or (ii) those services have "waived" status under CLIA and Medical Group is performing those services pursuant to a CLIA Certificate of Waiver. Medical Group must not bill Customers for any other laboratory services.

Article VI
Duties of CCO and Payers

6.1 Payment of claims. As described in further detail in Article VII of this Agreement, Payers will pay Medical Group for rendering Covered Services to Customers. CCO will make its Payment Policies available to Medical Group online and upon request. CCO may change

its Payment Policies from time to time, and will make information available describing the change.

6.2 Liability insurance. CCO will procure and maintain professional and general liability insurance and other insurance, as CCO reasonably determines may be necessary, to protect CCO and CCO's employees against claims, liabilities, damages or judgments that arise out of services provided by CCO or CCO's employees under this Agreement.

6.3 Licensure. CCO will maintain, without material restriction, such licensure, registration, and permits as are necessary to enable CCO to lawfully perform this Agreement.

6.4 Notice by CCO. CCO will give written notice to Medical Group within 10 days after any event that causes CCO to be out of compliance with section 6.2 or 6.3 of this Agreement, or of any change in CCO's name, ownership, control, or Taxpayer Identification Number. This section does not apply to changes of ownership or control that result in CCO being owned or controlled by an entity with which it was already affiliated prior to the change.

6.5 Compliance with law. CCO will comply with applicable regulatory requirements, including but not limited to those relating to confidentiality of Customer medical information and those relating to prompt payment of claims, to the extent those requirements are applicable.

6.6 Electronic connectivity. As described in section 5.12 of this Agreement, CCO will do business with Medical Group electronically. CCO will communicate enhancements in its electronic connectivity functionality as they become available.

6.7 Employees and Subcontractors. CCO will assure that its employees, affiliates and any individuals or entities subcontracted by CCO to render services in connection with this Agreement adhere to the requirements of this Agreement. The use of employees, affiliates or Subcontractors to render services in connection with this Agreement will not limit CCO's obligations and accountability under this Agreement with regard to those services.

Article VII
Submission, Processing, and Payment of Claims

7.1 Form and content of claims. Medical Group must submit claims for Covered Services as described in the Protocols, using current, correct, and applicable coding.

Medical Group will submit claims only for services performed by Medical Group or Medical Group staff. Pass-through billing is not payable under this Agreement.

7.2 Electronic filing of claims. Within six months after the Effective Date of this Agreement, Medical Group will use electronic submission for all of its claims under this Agreement that CCO is able to accept electronically.

7.3 **Time to file claims.** Unless a longer timeframe is required under applicable law, all information necessary to process a claim must be received by CCO no more than 90 days from the date Covered Services are rendered. If Payer is not the primary payer on a claim, and Medical Group is pursuing payment from the primary payer, the period in which Medical Group must submit the claim will begin on the date Medical Group receives the claim response from the primary payer.

7.4 **Payment of claims for Covered Services.** Payer will pay claims for Covered Services according to the least of the contract rates in the applicable Payment Appendix, the Medical Group's Customary Charge or as otherwise described in the Payment Appendix, and in accordance with Payment Policies.

Claims for Covered Services subject to coordination of benefits will be paid in accordance with the Customer's Benefit Plan and applicable law.

The obligation for payment under this Agreement is solely that of Payer and not that of CCO unless CCO is the Payer.

Ordinarily, fee amounts listed in the Payment Appendix(ices) are based upon primary fee sources. CCO reserves the right to use gap-fill fee sources where primary fee sources are not available.

CCO routinely updates its payment appendices: (1) to remain current with applicable coding practices; (2) in response to price changes for immunizations and injectable medications; and (3) to remain in compliance with HIPAA requirements. CCO will not attempt to communicate routine updates of this nature. Ordinarily, CCO's fee schedule is updated using similar methodologies for similar services.

CCO will give Medical Group at least 90 days written or electronic notice of non-routine fee schedule changes which will substantially alter the overall methodology or reimbursement level of the fee schedule. In the event such changes will reduce Medical Group's overall reimbursement under this Agreement, Medical Group may terminate this Agreement by giving 60 days written notice to CCO, provided that the notice is given by Medical Group within 30 days after the notice of the fee schedule change.

7.5 **Denial of claims for not following Protocols, for not filing timely, for services not covered under the Customer's Benefit Plan, or for lack of medical necessity.**

i) **Non-compliance with Protocol.** Compliance with Protocols and timely claim filing are conditions precedent to payment under this Agreement. Payment will be denied, in whole or in part if Medical Group does not comply with a Protocol or does not file a timely claim as required under section 7.3 of this Agreement. Medical Group may request reconsideration of the denial and the denial will be reversed if Medical Group can show one or more of the following:

a) the denial was incorrect because Medical Group complied with the Protocol.

b) at the time the Protocol required notification or prior authorization, Medical Group (i) did not know and was unable to reasonably determine that the patient was a Customer, (ii) Medical Group took reasonable steps to learn that the patient was a Customer, and (iii) Medical Group promptly submitted a claim after learning the patient was a Customer.

A claim is also subject to denial for other reasons permitted under the Agreement. Reversal of a claim denial under this subsection (i) does not preclude CCO from upholding a denial for one of these other reasons.

ii) **Non-Covered Services.** Services not covered under the applicable Benefit Plan are not subject to the rates or discounts of this Agreement. Medical Group may seek and collect payment from a Customer for such services (provided that Medical Group obtained the Customer's prior written consent).

iii) **Denials for lack of medical necessity through the prior authorization process.** If a service would otherwise be a Covered Service, but is not a Covered Service under the applicable Benefit Plan because it is determined through the prior authorization process to not meet the requirement of medical necessity, as defined in the Benefit Plan or applicable law (or not meet a similar concept in the Benefit Plan, such as not being consistent with nationally recognized scientific evidence as available, or not being consistent with prevailing medical standards and clinical guidelines), Medical Group may seek or collect payment from the Customer, if, prior to receiving the service, the Customer had knowledge of the determination of non-coverage and specifically agreed in writing to be responsible for payment of those charges.

7.6 Retroactive correction of information regarding whether patient is a Customer. Prior to rendering services, Medical Group will ask the patient to present his or her Customer identification card. In addition, Medical Group may contact CCO to obtain the most current information available to CCO on the patient's status as a Customer.

However, such information provided by CCO is subject to change retroactively, under any of the following circumstances:

i) if CCO has not yet received information that an individual is no longer a Customer;
ii) if the individual's Benefit Plan is terminated retroactively for any reason including, but not limited to, non-payment of premium;
iii) as a result of the Customer's final decision regarding continuation of coverage pursuant to state and federal laws; or
iv) if eligibility information CCO receives is later proven to be false.

If Medical Group provides health care services to an individual, and it is determined that the individual was not a Customer at the time the health care services were provided, those services are not payable under this Agreement, and any payments made with regard to those services may be recovered as overpayments under the process described in section

7.10 of this Agreement. Medical Group may then directly bill the individual, or other responsible party, for those services.

7.7 Payment under this Agreement is payment in full. Payment as provided under section 7.4 of this Agreement, together with any co-payment, deductible or coinsurance for which the Customer is responsible under the Benefit Plan, is payment in full for a Covered Service. Medical Group will not seek to recover, and will not accept any payment from Customer, CCO, Payer or anyone acting on their behalf, in excess of payment in full as provided in this section 7.7, regardless of whether that amount is less than Medical Group's billed charge or Customary Charge.

7.8 Customer hold harmless. Medical Group will not bill or collect payment from the Customer, or seek to impose a lien, for the difference between the amount paid under this Agreement and Medical Group's billed charge or Customary Charge, or for any amounts denied or not paid under this Agreement due to:

i) Medical Group's failure to comply with the Protocols,

ii) Medical Group's failure to file a timely claim,

iii) Payer's Payment Policies,

iv) inaccurate or incorrect claim processing,

v) insolvency or other failure by Payer to maintain its obligation to fund claims payments, if Payer is CCO, or is an entity required by applicable law to assure that its Customers not be billed in these circumstances, or

vi) a denial based on lack of medical necessity or consistency with nationally recognized scientific evidence as available, and prevailing medical standards and clinical guidelines, except as provided in section 7.5 of this Agreement.

This obligation to refrain from billing Customers applies even in those cases in which Medical Group believes that CCO or Payer has made an incorrect determination. In such cases, Medical Group may pursue remedies under this Agreement against CCO or Payer, as applicable, but must still hold the Customer harmless.

Medical Group may seek payment directly from the Payer or from Customers upon 15 days prior notice to CCO, after Medical Group seeks and receives confirmation from CCO that the Payer is in default (other than a default covered by the above clause (v) of this section 7.8). For purposes of this paragraph, a default is a systematic failure by a Payer to fund claims payments related to Customers covered through that Payer. A default does not occur in the case of a dispute as to whether certain claims should be paid or the amounts that should be paid for certain claims.

This section 7.8 and section 7.7 will survive the termination of this Agreement, with regard to Covered Services rendered prior to when the termination takes effect.

7.9 Consequences for failure to adhere to Customer protection requirements. If Medical Group collects payment from, brings a collection action against, or asserts a lien against a Customer for Covered Services rendered (other than for the applicable co-payment, deductible or coinsurance), contrary to section 7.7 or 7.8 of this Agreement, Medical Group will be in breach of this Agreement. This section 7.9 will apply regardless of whether the Customer or anyone purporting to act on the Customer's behalf has executed a waiver or other document of any kind purporting to allow Medical Group to collect such payment from the Customer.

In the event of such a breach, Payer may deduct, from any amounts otherwise due Medical Group, the amount wrongfully collected from Customers, and may also deduct an amount equal to any costs or expenses incurred by the Customer, CCO or Payer in defending the Customer and otherwise enforcing sections 7.7 through 7.9 of this Agreement. Any amounts deducted by Payer in accordance with this provision will be used to reimburse the Customer and to satisfy any costs incurred. The remedy contained in this paragraph does not preclude CCO from invoking any other remedy for breach that may be available under this Agreement.

7.10 Correction of claims payments. If Medical Group does not seek correction of a given claim payment or denial by giving notice to CCO within 12 months after the claim was initially processed, it will have waived any right to subsequently seek such correction under this section 7.10, or through dispute resolution under Article VIII of this Agreement or in any other forum.

Medical Group will repay overpayments within 30 days of written or electronic notice of the overpayment. Medical Group will promptly report any credit balance that it maintains with regard to any claim overpayment under this Agreement, and will return the overpayment to CCO within 30 days after posting it as a credit balance.

Recovery of overpayments may be accomplished by offsets against future payments.

7.11 Claims payment issues arising from departure of Medical Group Professionals from Medical Group. In the event a Medical Group Professional departs from Medical Group, and uncertainty arises as to whether Medical Group or some other entity is entitled to receive payment for certain services rendered by such former Medical Group Professional, the parties will cooperate with each other in good faith in an attempt to resolve the situation appropriately.

In the event that Medical Group's failure to give timely notice under section 5.7 (iv) of this Agreement resulted in claims payments being made incorrectly to Medical Group, Medical Group will promptly notify CCO and return such payments to CCO. In the event Medical Group fails to do so, CCO may hold Medical Group liable for any attorneys' fees, costs, or administrative expenses incurred by CCO as a result.

In the event that both Medical Group and some other entity assert a right to payment for the same service rendered by the former Medical Group Professional, CCO may refrain from paying either entity until the entity to which payment is owed is determined. Provided that CCO acts in good faith, Medical Group will waive any right to receive interest or penalties under any applicable law relating to the prompt payment of claims.

Article VIII
Dispute Resolution

The parties will work together in good faith to resolve any and all disputes between them ("Disputes") including, but not limited to the existence, validity, scope or termination of this Agreement or any term thereof, with the exception of any question regarding the arbitrability of the Dispute, and the availability of class arbitration or consolidated arbitration, which is expressly waived below. Disputes also include any dispute in which Medical Group is acting as the assignee of one or more Customer. In such cases, Medical Group agrees that the provisions of this Article VIII will apply, including without limitation the requirement for arbitration.

If the Dispute pertains to a matter which is generally administered by certain CCO procedures, such as a credentialing or quality improvement plan, the policies and procedures set forth in that plan must be fully exhausted by Medical Group before Medical Group may invoke any right to arbitration under this Article VIII.

For Disputes regarding payment of claims, a party must have timely initiated and completed the claim reconsideration and appeal process as set forth in the Administrative Guide in order to initiate the Dispute process.

If the parties are unable to resolve any such Dispute within 60 days following the date one party sent written notice of the Dispute to the other party, and if either party wishes to pursue the Dispute, it may do so only by submitting the Dispute to binding arbitration conducted by the American Arbitration Association ("AAA") in accordance with the AAA Healthcare Payor Provider Arbitration Rules, as they may be amended from time to time (see http://www.adr.org), except that, in any case involving a Dispute in which a party seeks an award of $1,000,000 or greater or seeks termination of this Agreement, a panel of three arbitrators will be used; a single arbitrator cannot award $1,000,000 or more or order that this Agreement is terminated. The arbitrator(s) will be selected from the AAA National Healthcare Roster (as described in the AAA Healthcare Payor Provider Arbitration Rules) or the AAA's National Roster of Arbitrators. Unless otherwise agreed to in writing by the parties, if the party wishing to pursue the Dispute does not initiate the arbitration within one year after the date on which written notice of the Dispute was given, or, for Disputes subject to the procedures or processes described in the previous paragraph, within one year after the completion of the applicable procedure or process, it will have waived its right to pursue the Dispute in any forum.

Any arbitration proceeding under this Agreement will be conducted in [name of county], [state]. The arbitrator(s) may construe or interpret but must not vary or ignore the terms of this Agreement and will be bound by controlling law. The arbitrator(s) have no authority to award punitive, exemplary, indirect or special damages, except in connection with a statutory claim that explicitly provides for that relief.

Except as may be required by law, neither a party (including without limitation, the parties' representatives, consultants and counsel of record in the arbitration), nor an arbitrator may disclose the existence, content, or results of any arbitration hereunder, or any Confidential Arbitration Information, without the prior written consent of all parties. "Confidential Arbitration Information" means any written submissions in an arbitration by either party, discovery exchanged, evidence submitted, transcriptions or other records of hearings in the matter and any orders and awards issued, and any reference to whether either party won, lost, prevailed, or did not prevail against the other party in any arbitration proceeding, as well as any settlement agreement related to an arbitration. However, judgment on the award may be entered under seal in any court having jurisdiction thereof, by either party.

The parties expressly intend that any arbitration be conducted on an individual basis, so that no third parties may be consolidated or joined or allowed to proceed with class arbitration. The parties agree that any arbitration ruling allowing class arbitration, or requiring consolidated arbitration involving any third party(ies), would be contrary to the terms of this Agreement and require immediate judicial review. Notwithstanding anything in this Agreement to the contrary, this paragraph may not be severed from Article VIII of the Agreement under any circumstances, including but not limited to unlawfulness, invalidity or unenforceability.

The decision of the arbitrator(s) on the points in dispute will be binding. The parties acknowledge that because this Agreement affects interstate commerce, the Federal Arbitration Act applies.

In the event any court determines that this arbitration procedure is not binding or otherwise allows litigation involving a Dispute to proceed, the parties hereby waive any and all right to trial by jury in, or with respect to, the litigation. The litigation would instead proceed with the judge as the finder of fact.

In the event a party wishes to terminate this Agreement based on an assertion of uncured material breach, and the other party disputes whether grounds for the termination exist, the matter will be resolved through arbitration under this Article VIII. While the arbitration remains pending, the termination for breach will not take effect.

This Article VIII will survive any termination of this Agreement.

Article IX
Term and Termination

9.1 Term. This Agreement will take effect on the Effective Date. This Agreement has an initial term of [three years] and renews automatically for renewal terms of one year, until terminated pursuant to section 9.2 of this Agreement.

9.2 Termination. This Agreement may be terminated under any of the following circumstances:

i) by mutual written agreement of the parties;

ii) by either party, upon at least 180 days' prior written notice, effective at the end of the initial term or effective at the end of any renewal term;

iii) by either party, upon 60 days' prior written notice, in the event of a material breach of this Agreement by the other party, which notice will include a specific description of the alleged breach; however, the termination will not take effect if the breach is cured within 60 days after notice of the termination or if the termination is deferred under Article VIII of this Agreement;

iv) by either party upon 10 days' prior written notice in the event the other party loses licensure or other governmental authorization necessary to perform this Agreement or fails to have insurance as required under section 5.6 or section 6.2 of this Agreement; or

v) by Medical Group, as described in section 7.4 of this Agreement, in the event of a non-routine fee schedule change.

9.3 Ongoing services to certain Customers after termination takes effect.

i) In the event a Customer is receiving any of the Covered Services listed below, as of the effective date of the termination of this Agreement, or the effective date that a Benefit Plan is added to the list in Appendix 2 of Benefit Plans excluded from this Agreement, Medical Group will continue to render those Covered Services to that Customer, and this Agreement will continue to apply to those Covered Services, after the termination/exclusion takes effect, for the length of time indicated below:

Covered Service	Continuity of Care Period
Inpatient Covered Services	30 days or until discharge, whichever comes first
Pregnancy, Third Trimester – Low Risk	Through postpartum follow up visit
Pregnancy, First, Second or Third Trimester – Moderate Risk and High Risk	Through postpartum follow up visit

Non-Surgical Cancer Treatment	30 days or a complete cycle of radiation or chemotherapy, whichever is greater
End Stage Kidney Disease and Dialysis	30 days
Symptomatic AIDS undergoing active treatment	30 days
Ongoing services to Medicare Advantage Customers	As described below
Any circumstance where Payer is required by applicable law to provide transition coverage of services rendered by Medical Group after Medical Group leaves the provider network accessed by Payer.	As required by applicable law

ii) **Medicare Advantage Customers.** This subsection only applies if Medical Group participates in networks for Medicare Advantage Benefit Plans under this Agreement.

a) Ninety days prior to the effective date of the termination or expiration of this Agreement, CCO may close Medical Group's practice to new Medicare Advantage Customers and CCO may remove Medical Group from any provider directory, online or in print, unless the parties agree otherwise.

b) To protect existing Medicare Advantage Customers who are patients of Medical Group from the disruption caused by the termination or expiration of this Agreement during the course of the Customer's Benefit Plan year, Medical Group will continue to provide Covered Services, and the terms of this Agreement will continue to apply, to Medicare Advantage Customers who have an existing relationship with Medical Group on the date the termination or expiration would be effective under the notice through the end of the calendar year. If the effective date of the termination or expiration would otherwise occur during the month of December, Medical Group will continue to provide Covered Services, and the terms of this Agreement will continue to apply, to such Medicare Advantage Customers through the end of the following calendar year. However, payment to Medical Group for such continued care, as described in this paragraph, will be the greater of the contract rate in place at the time the termination or expiration of the Agreement would have been effective, or 100% of CMS.

Section 9.3(ii)(b) does not apply if CCO has terminated this Agreement due to:
1) an uncured material breach,
2) Medical Group losing licensure or other governmental authorization necessary to perform this Agreement, or
3) Medical Group failing to have insurance as required under section 5.6 of this Agreement.

Article X
Miscellaneous Provisions

10.1 Entire Agreement. In order for this Agreement to be binding, it must be executed by all parties through written or electronic signature. This Agreement is the entire agreement between the parties with regard to its subject matter, and supersedes any prior written or unwritten agreements between the parties or their affiliates with regard to the same subject matter.

10.2 Amendment. CCO may amend this Agreement or any of the appendices on 90 days' written or electronic notice by sending Medical Group a copy of the amendment.

Additionally, CCO may amend this Agreement upon written notice to Medical Group in order to comply with applicable regulatory requirements, but only if that amendment is imposed on a similar basis to all or substantially all of the medical groups in CCO's network that would be similarly impacted by the regulation in question. CCO will provide at least 30 days' notice of any such regulatory amendment, unless a shorter notice period is necessary in order to comply with regulatory requirements.

Medical Group's signature is not required to make the amendment effective. However, if the amendment is not required by law or regulation and would impose a material adverse impact on Medical Group, then Medical Group may terminate this Agreement on 60 days' written notice to CCO by sending a termination notice within 30 days after receipt of the amendment.

10.3 Non-waiver. The waiver by either party of any breach of any provision of this Agreement will not operate as a waiver of any subsequent breach of the same or any other provision.

10.4 Assignment. This Agreement may not be assigned by either party without the written consent of the other party, except that this Agreement may be assigned by CCO to any CCO Affiliate.

Additionally, if CCO transfers to a third party all of its business described in a given line item in Appendix 2, section 1, or other line of business, CCO may assign this Agreement, only as it relates to that transferred business, to that third party. Such an assignment will not impact the relationship of the parties under this Agreement with regard to the remainder of CCO's business.

10.5 Relationship of the parties. The sole relationship between the parties to this Agreement is that of independent contractors. This Agreement does not create a joint venture, partnership, agency, employment or other relationship between the parties.

10.6 No third-party beneficiaries. CCO and Medical Group are the only entities with rights and remedies under this Agreement. Any claims, collection actions or disputes may not be assigned, transferred or sold by either party without the written consent of the other party.

10.7 Calendar days. Unless this Agreement specifically provides otherwise, all references in this Agreement to a period of days refers to calendar days.

10.8 Notice procedures. Any notice required to be given under this Agreement must be in writing, except in cases in which this Agreement specifically permits electronic notice, or as otherwise permitted or required in the Protocols. Acceptable forms of written notice include facsimile, first class mail, certified mail, or overnight delivery by a national, recognized delivery service. All notices of termination of this Agreement by either party must be sent by certified mail, return receipt requested, addressed to the appropriate party at the address set forth on the signature portion of this Agreement. Each party will provide the other with proper addresses, facsimile numbers and electronic mail addresses. All notices will be deemed received upon receipt by the party to which notice is given or on the 5th business day following mailing, whichever occurs first.

10.9 Confidentiality. Neither party may disclose to a Customer, other health care provider, or other third party any of the following information (except as required by an agency of the government):

i) any proprietary business information, not available to the general public, obtained by the party from the other party;

ii) the specific reimbursement amounts provided for under this Agreement, except for purposes of administration of benefits, including informing Customers, Benefit Plan sponsors and/or referring providers about the cost of a particular Covered Service or set of Covered Services; or

iii) any customer list of the other party regardless of how such customer list was generated.

This section 10.9 does not preclude the disclosure of information by CCO to a third party as part of the process by which the third party is evaluating administration of benefits or considering whether to purchase services from CCO.

At least 48 hours before either party issues a press release, advertisement, or other media statement about the business relationship between the parties, that party will give the other party a copy of the material the party intends to issue.

10.10 Governing law. This Agreement will be governed by and construed in accordance with the laws of the state in which Medical Group renders Covered Services, and any other applicable law.

10.11 Regulatory appendices. One or more regulatory appendices may be attached to this Agreement, setting forth additional provisions included in this Agreement in order to satisfy regulatory requirements under applicable law. These regulatory appendices, and any attachments to them, are expressly incorporated into this Agreement and are binding on the parties to this Agreement. In the event of any inconsistent or contrary language between a regulatory appendix and any other part of this Agreement, including but not

limited to appendices, amendments and exhibits, the regulatory appendix will control, to the extent it is applicable.

10.12 Severability. Except as otherwise set forth in this Agreement, any provision of this Agreement that is unlawful, invalid or unenforceable in any situation in any jurisdiction will not affect the validity or enforceability of the remaining provisions of this Agreement or the lawfulness, validity or enforceability of the offending provision in any other situation or jurisdiction.

10.13 Survival. Notwithstanding the termination of this Agreement, this Agreement will continue to apply to Covered Services rendered while this Agreement was in effect. Additionally, section 10.9 of this Agreement, (except for the last paragraph) will survive the termination of this Agreement.

10.14 Fines; Penalties. Medical Group will be responsible for any and all fines or penalties that may be assessed against CCO by any government agency that arise from Medical Group's failure to execute, deliver or perform its obligations under this Agreement.

THIS AGREEMENT CONTAINS A BINDING ARBITRATION PROVISION THAT MAY BE ENFORCED BY THE PARTIES.

Appendix 2
Benefit Plan Descriptions

Section 1. CCO may allow Payers to access Medical Group's services under this Agreement for the Benefit Plan types described in each line item below, unless otherwise specified in section 2 of this Appendix 2:

- [Mississippi Medicaid Benefit Plans.]
- [Mississippi CHIP Benefit Plans.]

Section 2. Notwithstanding the above section 1 of this Appendix 2, this Agreement will not apply to the Benefit Plan types described in the following line items:

- [Mississippi Medicaid Benefit Plans.]
- [Mississippi CHIP Benefit Plans.]
- Medicaid and CHIP Benefit Plans other than those separately addressed in this Appendix 2.

Note: Excluding certain Benefit Plans or programs from this Agreement does not preclude the parties or their affiliates from having or entering into a separate agreement providing for Medical Group's participation in a network for such Benefit Plans or programs.

Section 3. Definitions:

Note: CCO may adopt a different name for a particular Benefit Plan, and/or may modify information referenced in the definitions in this Appendix 2 regarding Customer identification cards. If that happens, section 1 or section 2 of this Appendix 2 will continue to apply to those Benefit Plans as it did previously, and CCO will provide Medical Group with the updated information. Additionally, CCO may revise the definitions in this Appendix 2 to reflect changes in the names or roles of CCO's business units, provided that doing so does not change Medical Group's participation status in Benefit Plans impacted by that change, and further provided that CCO provides Medical Group with the updated information.

MEDICAID, CHIP AND OTHER STATE PROGRAMS:

- **Medicaid Benefit Plans** means Benefit Plans that offer coverage to beneficiaries of a program that is authorized by Title XIX of the federal Social Security Act, and jointly financed by the federal and state governments and administered by the state.

- **Mississippi Medicaid Benefit Plans** means Medicaid Benefit Plans issued in Mississippi that have a reference to "CCO" on the valid identification card of any Customer eligible for and enrolled in that Benefit Plan.

- **Children's Health Insurance Program ("CHIP") Benefit Plans** means Benefit Plans under the program authorized by Title XXI of the federal Social Security Act that is jointly financed by the federal and state governments and administered by the state.

- **Mississippi CHIP Benefit Plans** means CHIP Benefit Plans issued in Mississippi that include a reference to "CCO" and "MSCHIP" on the face of the valid identification card of any Customer eligible for and enrolled in that Benefit Plan.

- **Other Governmental Benefit Plans** means Benefit Plans that are funded wholly or substantially by a state or district government or a subdivision of a state (such as a city or county), but do not include Benefit Plans for:

  i) employees of a state government or a subdivision of a state and their dependents;
  ii) students at a public university, college or school;
  iii) employer-based coverage of private sector employees, even if the employer receives a government subsidy to help fund the coverage;
  iv) Medicaid beneficiaries;
  v) Children's Health Insurance Program (CHIP) beneficiaries; and
  vi) Medicare and Medicaid Enrollees (MME).

Page Intentionally left blank.

Additional Manuals Appendix

For some of the Benefit Plans for which Medical Group may provide Covered Services under this Agreement, Medical Group is subject to additional requirements of one or more additional provider manuals ("Additional Manuals"). When this Agreement refers to Protocols or Payment Policies, it is also referring to the Additional Manuals. An Additional Manual may be a separate document or it may be a supplement to the CCO Care Provider Administrative Guide ("CCO Administrative Guide").

For Benefit Plans subject to an Additional Manual, the Additional Manual controls if it conflicts with any of the following: (1) a provision of this Agreement or of the CCO Administrative Guide; or (2) a CCO Protocol or Payment Policy. However, the Additional Manual does not control where it conflicts with applicable statutes or regulations.

The Additional Manuals will be made available to Medical Group on a designated website and upon request. The names of the Additional Manuals, the websites to view and download them, and the Benefit Plans to which they apply, are listed in Table 1 below. CCO may change the location of a website or the Customer identification card identifier used to identify Customers subject to a given Additional Manual; if CCO does so, CCO will inform Medical Group.

CCO may make changes to the Additional Manuals subject to this Appendix in accordance with the provisions of this Agreement relating to Protocol and Payment Policy changes.

Medical Group Professional Roster

IMPORTANT NOTE: Medical Group acknowledges its obligation to notify CCO of any change in Medical Group Professionals in accordance with Article IV and Section 5.7. Failure to do so may result in denial of claims or incorrect payment.

Medical Group represents that it has provided CCO with a Medical Group Professional Roster that includes all of the following data elements for each Medical Group Professional:

- Name of Professional (first name, middle initial, last name)
- Degree (MD, DO, NP, PA, other)
- Gender (M/F)
- Provider Specialty(ies) (primary, secondary, additional specialties)
- Operates as and willing to be listed/assigned as a Primary Care Professional “PCP” (Y/N)
- State License Number
- Medicaid ID Number
- NPI Number
- Foreign Language(s)
- Admitting Hospital(s)

If any data element is not applicable to a specific Medical Group Professional, Medical Group will indicate "not applicable" in the appropriate field. Acceptable formats include in writing, electronically in Excel, ANSI, or text (comma delineated) formats.

[Payment Appendix – Mississippi Medicaid

Applicability

This Payment Appendix applies to Covered Services rendered by Medical Group to Customers covered under the following types of Benefit Plans, as described in the Agreement:

- Mississippi Medicaid Benefit Plans.

Section 1
Payment for Covered Services

1.1 Payment. Medical Group's contract rates for Covered Services are the lesser of (i) Medical Group's Customary Charges or (ii) the following, in order of applicability:

a) [X]% of the Mississippi Medicaid conversion factor published by the applicable state agency for anesthesia services;

b) [Y]% of the Mississippi Medicaid fee schedule published by the applicable state agency;

c) In the event a fee source listed above in clause (a) or (b) does not publish a specific fee amount, then CCO will pay [Z]% of Medical Group's Customary Charges for Covered Services.

d) For certain CPT/HCPCS codes, CCO may pay an amount higher than the amount listed in this section 1.1, and in the future, CCO may reduce that higher amount paid for those CPT/HCPCS codes, but not less than the amount payable in clauses (a), (b) and (c) above.

The actual payment amount is also subject to matters described in this Agreement, such as Payment Policies.

Medical Group will submit claims using a CMS 1500, its successor form or its electronic equivalent. All claims submitted under this Payment Appendix must use CPT Codes, HCPCS Codes, ICD-10 Codes or its successor and other codes in compliance with HIPAA standard data set requirements. Claims submitted without HIPAA standard data set requirements may be denied.

If an applicable state or federal program is available to provide items or payment directly to Medical Group for specific Covered Services for Customers subject to this Payment Appendix that would otherwise be payable under this Payment Appendix, the applicable program will apply and not this Payment Appendix. (For example, the Vaccines For Children program currently provides vaccines free of charge, and therefore no amount will be payable under this Payment Appendix for vaccines within the Vaccines For Children program. However, the administration of such vaccine may be payable under this Payment Appendix, if payment is not provided to physicians under the Vaccines For Children program for vaccine administration.)

The contract rates established by this Payment Appendix are all-inclusive, including without limitation any applicable taxes, for all Covered Services provided to the Customer. Unless specifically indicated otherwise, amounts listed in this fee schedule represent global fees and may be subject to reductions based on appropriate modifiers (for example, professional and technical modifiers).

1.2 Routine Maintenance. CCO routinely updates the fee schedule in response to changes published by the state agency, such as fee amount changes. Provided that the state does not change its methodology, CCO will implement fee schedule changes in its systems within 45 days from the date the change is published in the Medicaid agency's official correspondence to CCO or is otherwise formally communicated by the Medicaid agency to CCO.

CCO will make the changes effective in its system on the effective date of the change by the primary fee source. However, claims already processed prior to the change being implemented by CCO will not be reprocessed unless otherwise required by law.

CCO also routinely updates the fee schedule in response to coding changes as described in this Agreement. When implementing coding updates, CCO will apply the same percentage(s) as set forth above in Section 1.1 and the then-current value of the published code to determine the contract rate. CCO will use reasonable commercial efforts to implement such changes within 90 days from the date of publication. However, claims already processed prior to the change being implemented by CCO will not be reprocessed unless otherwise required by law.

1.3 Medicaid Agency Payment Changes. If the Medicaid agency changes the manner in which it reimburses or changes the Medicaid primary fee source such that CCO is required to make significant programming or platform changes in order to implement the Medicaid agency changes, CCO will implement the new state methodologies effective on the date that is published in the Medicaid agency's official correspondence to CCO or as otherwise formally communicated by the Medicaid agency to CCO. Medical Group agrees that, in such case, it will accept the current payment as set forth in this Payment Appendix until such a time as CCO can implement the Medicaid agency change. At such time as CCO is able to implement the change, CCO will communicate the change via a copy of a new payment appendix. The changes will be incorporated into this Payment Appendix for all dates of service on or after those changes are effective in the Medicaid program. If CCO is unable, through commercially reasonable efforts, to incorporate the Medicaid agency payment changes in their entirety, CCO will so notify Medical Group within 90 days from the date the change is published in the Medicaid agency's official correspondence to CCO, or otherwise formally communicated by the Medicaid agency. The parties will then negotiate in good faith for a period of up to 60 days to amend the Agreement to replace this Payment Appendix with a new payment appendix and stated effective date for the new contract rates. If the parties have not reached an agreement upon such an amendment within the aforementioned 60 day period, either party may initiate Dispute Resolution according to this Agreement.

[Payment Appendix – Mississippi State Department of Health

This Payment Appendix applies to Covered Services rendered by Medical Group to Customers covered under the following type(s) of Benefit Plans as described in this Agreement.

- Mississippi Medicaid Benefit Plans.

Section 1
Definitions

Any capitalized terms used herein, but not otherwise defined, will have the meanings ascribed to them in the Agreement.

Medical Group: The Mississippi State Department of Health.

Medicaid Rate Letter: To the extent applicable, written notice from the Mississippi Medicaid Program to Medical Group regarding the Medicaid rate payable to Medical Group for Covered Services.

Per Visit: The flat rate payment made to Medical Group for all Covered Services rendered to a Customer, during a one calendar day period, for all service categories listed in the Fixed Fees Table. Unless otherwise specified in this Payment Appendix, the Per Visit, together with any co-payment, deductible or coinsurance for which the Customer is responsible under the Benefit Plan, will be considered payment in full for all Covered Services rendered to the Customer including, but not limited to, physician and other professional fees billed by Medical Group on a

claim, (including services rendered by non-physician personnel, regardless of whether those personnel are employed by Medical Group and regardless of whether those services are characterized as professional services), nursing care, diagnostic and therapeutic services, durable medical equipment, supplies (including, but not limited to anesthesia supplies), medications, Facility and ancillary services.

Fee Schedule: The Mississippi Medicaid fee schedule published by Mississippi Division of Medicaid (the "Mississippi Medicaid Program").

Section 2
Contracted Rate for Covered Services

2.1 Contract Rate. For Covered Services rendered by Medical Group to a Customer, CCO will pay Medical Group the lesser of (i) Medical Group's Customary Charges for Covered Services or (ii) the applicable contract rate determined in accordance with Section 2.2 of this Payment Appendix. Payment under this Payment Appendix will be less any applicable co-payments, deductibles and coinsurance and is subject to the requirements set forth in the Agreement, such as the Payment Policies.

2.2 Covered Services. For Covered Services rendered by Medical Group to a Customer, the contract rates will be the rates set forth in the Covered Service Table.

Covered Services Table

Service Category	Payment Method	Contract Rate
Department of Health Covered Services	Per Visit Rate	100% of the Medical Group specific Mississippi Per Visit rate for Department of Health Covered Services

For Department of Health Covered Services rendered by Medical Group to a Mississippi Medicaid Benefit Plan Customer that are not payable under Department of Health Covered Services Table, the contract rates will be 100% of the Mississippi Medicaid Fee Schedule rate.

If an applicable Mississippi or federal program is available to provide items or payment directly to Medical Group for specific Covered Services for Customers subject to this Payment Appendix that would otherwise be payable under this Payment Appendix, the applicable program will apply and not this Payment Appendix. (For example, the Vaccines For Children program currently provides vaccines free of charge, and therefore no amount will be payable under this Payment Appendix for vaccines within the Vaccines For Children program. However, the administration of such vaccine may be payable under this Payment Appendix if payment is not provided under the Vaccines For Children program for vaccine administration.)

2.3 Billing and Filing of Claims. Medical Group will submit a single claim for all Covered Services performed during one calendar day for a Customer. Medical Group will immediately notify CCO if Medical Group files more than one claim for services provided to a Customer on one calendar day. Medical Group will bill using a CMS 1500 or successor form or its electronic equivalent. All claims submitted under this Payment Appendix must use CPT Codes, HCPCS Codes, ICD-10 Codes or its successor and other codes in compliance with HIPAA standard data set requirements. Claims submitted without HIPAA standard data set requirements may be denied.

Section 3
Miscellaneous Provisions

3.1 Inclusive Rates. The contract rates established by this Payment Appendix for the service categories listed in this Payment Appendix are all-inclusive and represent the entire payment, including but not limited to any

applicable tax, for the provision to the Customer of all Covered Services that are in the given service category, including but not limited to those Covered Services that are generally provided as a part of the service in the given service category. No additional payments will be made for any Covered Services billed for separately by Medical Group.

Covered Services billed for separately by Medical Group that are not generally provided as a part of the service categories listed in this Payment Appendix are not subject to reimbursement under this Payment Appendix, but may be payable under another payment appendix to this Agreement or under another agreement.

3.2 Payment Code Updates. CCO will have the right to update any codes, such as Revenue Codes, ICD-10-CM Codes or successor version, HCPCS Codes and/or CPT Codes, from time to time according to changes in the industry, including among other things (a) the latest edition of the Current Procedural Terminology (CPT) manual which is revised by the American Medical Association, (b) the latest edition of the HCPCS manual which is revised by the Centers for Medicare and Medicaid Services (CMS), (c) the latest edition of the ICD-10-CM or successor version which is issued by the U.S. Department of Health and Human Services, and (d) the latest guidelines from the National Uniform Billing Committee. CCO will not generally notify Medical Group of these code updates.

3.3 Changes to Medicaid State Agency Services Rate and Reimbursement Methodology. With regard to all Covered Services that are reimbursed under this Payment Appendix and based on the Mississippi Medicaid Program (Medicaid State agency) rate (including a contract rate that is a fixed percentage of the Mississippi Medicaid Program rate) and reimbursement methodology, the contract rate and reimbursement methodology under this Payment Appendix will be adjusted consistent with changes made by the Mississippi Medicaid Program, as finalized and published, and as further described in this Sections 3.3, 3.3(i) and 3.3(ii). In the case of a contract rate that is a fixed percentage of the Mississippi Medicaid Program Rate, the new contract rate, after a change to the Mississippi Medicaid Program Rate, will be the same fixed percentage of the new Mississippi Medicaid Program Rate; the timetable for implementing the change is described in Section 3.3(i).

i) **Rate Changes**. With regard to Covered Services reimbursed under this Payment Appendix using a Per Visit Payment, the contract rate will be adjusted in accordance with this Section 3.3(i). If applicable, Medical Group agrees to provide CCO with a copy of the annual or any interim Medicaid Rate Letter applicable to Medical Group within 30 days of Medical Group's receipt of such Medicaid Rate Letter. The contract rate under this Payment Appendix using a Per Visit Payment Method will be updated within 90 days after Medical Group provides CCO with the Medicaid Rate Letter or within 90 days after the final publication date by the Mississippi Medicaid State agency, whichever date is earliest. CCO will make the contract rate effective on the effective date of the change stated by the Mississippi state agency. Changes include without limitation the addition or deletion of CPT/HCPCS codes that the Mississippi Medicaid Program covers at Medical Group. Claims for dates of service on or after the effective date of the Mississippi Medicaid Program Rate change that were adjudicated before CCO implemented the change will not be adjusted to the new contract rate unless required by law.

ii) **Mississippi Medicaid Program Payment Changes.** If the Medicaid agency changes the manner in which it reimburses or changes the Medicaid primary fee source such that CCO is required to make significant programming or platform changes in order to implement the Medicaid agency changes, CCO will implement the Medicaid agency changes, within 45 days, from the date the change is published in the Medicaid agency's official correspondence to CCO or is otherwise formally communicated by the Medicaid agency to CCO. Medical Group agrees that, in such case, it will accept the current payment as set forth in this Payment Appendix until such a time as CCO can implement the Medicaid agency change. At such time as CCO is able to implement the change, CCO will communicate the change and the effective date of the change via a copy of a new payment

appendix. The changes will be incorporated into this Appendix for all dates of service on or after those changes are effective in the Medicaid program.

If CCO is unable, through commercially reasonable efforts, to incorporate the Medicaid agency payment changes in their entirety, CCO will so notify Medical Group within 90 days from the date the change is published in the Medicaid agency's official correspondence to CCO, or otherwise formally communicated by the Medicaid agency. The parties will then negotiate in good faith for a period of up to 60 days to amend the Agreement to replace this Payment Appendix with a new payment appendix and Mississippi effective date for the new contract rates. If the parties have not reached an agreement upon such an amendment within the aforementioned 60 day period, either party may initiate Dispute Resolution according to this Agreement.

[Payment Appendix – Mississippi CHIP]

Mississippi CHIP Fee Information Document: [Fee Schedule ID]

This Payment Appendix applies to Covered Services rendered by Medical Group to Customers covered under the following types of Benefit Plans, as described in this Agreement:

- Mississippi CHIP Benefit Plans.

Mississippi Medicaid Program
Regulatory Requirements Appendix

MISSISSIPPI MEDICAID PROGRAM

REGULATORY REQUIREMENTS APPENDIX

PROVIDER

THIS MISSISSIPPI MEDICAID PROGRAM REGULATORY REQUIREMENTS APPENDIX (this "Appendix") supplements and is made part of the provider agreement (the "Agreement") between HMO ("HMO") or one of its Affiliates and the party named in the Agreement ("Provider").

SECTION 1
APPLICABILITY

The requirements of this Appendix apply to Medicaid benefit plans sponsored, issued or administered by HMO under the Mississippi Coordinated Access Network Program (the "MississippiCAN Program") governed by the State's designated regulatory agencies. In the event of a conflict between this Appendix and other appendices or any provision of the Agreement, the provisions of this Appendix shall control except with regard to benefit plans outside the scope of this Appendix or unless otherwise required by law. In the event HMO is required to amend or supplement this Appendix as required or requested by the State to comply with federal or State regulations, HMO will unilaterally initiate such additions, deletions or modifications. All provider agreements must be in writing and must include all specific activities and report responsibilities delegated to the Provider by HMO.

SECTION 2
DEFINITIONS

Unless otherwise defined in this Appendix, all capitalized terms shall be as defined in the Agreement. For purposes of this Appendix, the following terms shall have the meanings set forth below; provided, however, in the event any definition set forth in this Appendix or the Agreement is inconsistent with any definitions under the MississippiCAN Program, the definitions shall have the meaning set forth under the MississippiCAN Program.

2.1 Adverse Benefit Determination: The denial or limited authorization of a requested service, including determinations on the type or level of service, requirements for medical necessity, appropriateness, setting, or effectiveness of a covered benefit; the reduction, suspension, or termination of previously authorized services; the denial, in whole or in part, of payment for a service; HMO's failure to provide services in a timely manner; HMO's failure to resolve Complaints, Grievances, or Appeals within the specified time frames; for residents in a rural area with only one MCO, the denial of a Covered Person's request to exercise his or her right, under 42 C.F.R. §438.52(b)(2)(ii); the denial of a Covered Person's request to dispute a financial liability, including cost sharing, copayments, premiums, deductibles, coinsurance, and other enrollee financial liabilities; and determinations by skilled nursing facilities and nursing facilities to transfer or discharge residents and adverse determinations made by a State with regard to the preadmission screening and annual resident review requirements of Section 1919(e)(7) of the Act, if applicable.

2.2 **Affiliate:** Those entities controlling, controlled by, or under common control with HMO.

2.3 **Appeal:** A request for review by HMO of an Adverse Benefit Determination related to a Covered Person or Provider. In the case of a Covered Person, an Adverse Benefit Determination may include determinations on the health care services a Covered Person believes he or she is entitled to receive, including delay in providing, arranging for, or approving the health care services (such that a delay would adversely affect the health of the Covered Person). In the case of a Provider, the Adverse Benefit Determination may include, but is not limited to, delay or non-payment for covered services.

2.4 **Behavioral Health Services:** Mental health and/or substance and alcohol use disorder treatment services that are provided by the county mental health/intellectual disability/developmental disability programs, the single county authority administrators, or other appropriately licensed health care practitioners.

2.5 **CMS:** Center for Medicare and Medicaid Services is an agency within the U.S. Department of Health & Human Services responsible for administration of several key federal health care programs.

2.6 **Complaint:** An expression of dissatisfaction received orally or in writing that is of a less serious or formal nature that is resolved within one (1) business day of receipt.

2.7 **Covered Person:** An individual who meets all of the eligibility requirements for Mississippi Medicaid and is currently enrolled with HMO for the provision of services under a MississippiCAN Program. A Covered Person may also be referred to as an Enrollee, Member or Customer under the Agreement.

2.8 **Covered Services:** Health care services or products for which a Covered Person is enrolled with HMO to receive coverage under the State Contract, including all services required by the State Contract and State and federal law.

2.9 **DOM:** Division of Medicaid, Office of the Governor, State of Mississippi.

2.10 **Early, Periodic, Screening, Diagnosis, and Treatment (EPSDT) Services:** Defined by DOM to include:

i) Age appropriate, comprehensive health and development history that includes physician and mental health assessments along with counseling and anticipatory guidance and risk factor reduction interventions;
ii) Calculation of Body Mass Index;
iii) Growth measurements and head circumference;
iv) Nutritional counseling;
v) Developmental surveillance and Developmental and autism Spectrum Disorders Screenings as appropriate;
vi) Comprehensive unclothed exam;
vii) Appropriate laboratory tests (including blood level assessment appropriate to age and risk);

viii) Appropriate immunizations in accordance with Recommended Childhood and Adolescent Immunization Schedule adopted by DOM;
ix) A vision assessment;
x) A hearing assessment;
xi) A dental screening and/or referral to dental care;
xii) Health education; and
xiii) Referrals for identified abnormalities.

2.11 Fraud and Abuse: Fraud is any type of intentional deception or misrepresentation made by an entity or person with the knowledge that the deception could result in some unauthorized benefit to the entity, him or herself, or some other person. The Fraud can be committed by many entities, including a vendor, a subcontractor, a provider, a State employee, or a Covered Person, among others. Abuse is any practice that is inconsistent with sound fiscal, business, or medical practices, and results in an unnecessary cost to the Medicaid program, a vendor, a subcontractor or Provider or in reimbursement for services that are not Medically Necessary or that fail to meet professionally recognized standards for health care.

2.12 Grievance: An expression of dissatisfaction about any matter or aspect of HMO or its operation, other than an Adverse Benefit Determination as defined herein. Grievances may include, but are not limited to, the quality of care or services provided, and aspects of interpersonal relationships such as rudeness of a provider or employee, or failure to respect the Covered Person's rights regardless of whether remedial action is requested. Grievance includes a Covered Person's right to dispute an extension of time proposed by HMO to make an authorization decision.

2.13 Marketing: The activities that promote visibility and awareness for the MississippiCAN Program and HMO's participation in the program. All marketing activities are subject to prior review and approval by DOM and may not contain misleading information.

2.14 Medical Record: A single complete record, which documents the entire treatment plan developed for, and medical services received by, the Covered Person including inpatient, outpatient, referral services and emergency medical services whether provided by contracted Providers or non-contracted providers.

2.15 Mississippi Coordinated Access Network (MississippiCAN) Program: Mississippi Medicaid's coordinated care program for select Medicaid Beneficiaries.

2.16 Primary Care Provider (PCP): Any physician or health care practitioner or group operating within the scope of his or her licensure who is responsible for supervising, prescribing and providing primary care and primary case management services in the MississippiCAN Program, whose practice is limited to the general practice of medicine or who is an Internist, Pediatrician, Obstetrician, Gynecologist, Family Practitioner, General Practitioner, Certified Nurse Practitioners whose specialty is pediatrics, adult, family, certified nurse midwife, obstetrics/gynecology, or a physician assistant.

2.17 Prior Authorization: A determination to approve a Provider's request, pursuant to services covered in the MississippiCAN Program, to provide a service or course of

treatment of a specific duration and scope to a Member prior to the initiation or continuation of the service.

2.18 Provider Network: The Panel of health service Providers with which HMO contracts for the provision of covered services to Covered Persons and Non-Contracted Providers administering services to Covered Persons.

2.19 State: The State of Mississippi or its designated regulatory agencies.

2.20 State Contract: HMO's contract with the State for the purpose of providing and paying for Covered Services to Covered Persons enrolled in the MississippiCAN Program.

2.21 Third Party Resource: Any resource available to a Covered Person for the payment of medical expenses associated with the provision of covered services, other than those which are exempt under Title XIX of the Act, including but not limited to, insurers and workers' compensation plan.

2.22 Urgent Care: Urgent care services are utilized because the Members primary care physician is not available. An urgent condition isn't life threatening but may need prompt attention. Urgent care services are for an illness, injury or condition serious enough that a reasonable person would seek care right away, but not so severe it requires emergency room care. Urgent care centers can typically treat things including, but not limited to, sprains, strains, minor broken bones.

SECTION 3
PROVIDER REQUIREMENTS

The MississippiCAN Program, through the State Contract and federal and State statutes and regulations, requires the Agreement to contain certain conditions that HMO and Provider agree to undertake, which include the following:

3.1 Definitions Related to the Provision of Covered Services. Provider shall follow the applicable State Contract's requirements for the provision of Covered Services. Provider's decisions affecting the delivery of acute or chronic care services to Covered Persons shall be made on an individualized basis and in accordance with the following definitions:

i) Emergency Medical Condition: A medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in any of the following: (a) placing the health of the individual (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; (b) serious impairment to body functions; or (c) serious dysfunction of any body organ or part.

ii) Emergency Services: Covered inpatient and outpatient services, inclusive of dialysis services, furnished by a provider who is qualified to furnish those health

services and that are needed to evaluate or stabilize an Emergency Medical Condition in accordance with 42 CFR 438.114.

iii) Medically Necessary Services: As set forth in the Social Security Act, Section 1905 (42 USC 1396d(a)), Medically Necessary Services are defined as services, supplies, or equipment provided by a licensed health care professional that are:

a) Appropriate and consistent with the diagnosis or treatment of the Covered Person's condition, illness, or injury;

b) In accordance with the standards of good medical practice consistent with the individual Covered Person's condition(s);

c) Not primarily for the personal comfort or convenience of the Member, family, or Provider;

d) The most appropriate services, supplies, equipment, or levels of care that can be safely and efficiently provided to the Covered Person;

e) Furnished in a setting appropriate to the Covered Person's medical need and condition and, when applied to the care of an inpatient, further mean that the Covered Person's medical symptoms or conditions require that the services cannot be safely provided to the Covered Person as an outpatient;

f) Not experimental or investigational or for research or education;

g) Provided by an appropriately licensed practitioner; and

h) Documented in the patient's record in a reasonable manner, including the relationship of the diagnosis to the service.

Medically Necessary Services may also be those services for children that are necessary to correct or ameliorate defects and physical and mental illnesses and conditions discovered during an interperiodic or periodic EPSDT screen, whether such services are covered or exceed the benefit limits in the Medicaid State Plan and Title 23 of Mississippi Administrative Code.

iv) Urgent Care: Urgent care services are utilized because the Covered Person's primary care physician is not available. An urgent condition is not life threatening but may need prompt attention. Urgent care services are for an illness, injury or condition serious enough that a reasonable person would seek care right away, but not so severe it requires emergency room care.

3.2 Provider Eligibility. Provider must be enrolled in the Mississippi Medicaid program and must use the same National Provider Identifier (NPI) number to participate in HMO's Network. Upon notification from the State that Provider's enrollment has been denied or terminated, HMO must terminate Provider immediately and will notify affected Covered Persons that Provider is no longer participating in the network. HMO will exclude from its

network any provider who has been terminated or suspended from the Medicare or Medicaid program in any state.

3.3 Accessibility Standards. Provider shall provide for timely access for Covered Person appointments in accordance with the appointment availability requirements established under the State Contract, as further described in the applicable provider manual.

Type	Appointment Scheduling Time Frames
PCP (well care visit)	Not to exceed thirty (30) calendar days
PCP (routine sick visit)	Not to exceed seven (7) calendar days
PCP (urgent care visit)	Not to exceed twenty-four (24) hours
Specialists	Not to exceed forty-five (45) calendar days
Dental Providers (routine visits)	Not to exceed forty-five (45) calendar days
Dental Providers (urgent Care)	Not to exceed forty-eight (48) hours
Behavioral Health Providers (routine visit)	Not to exceed fourteen (14) calendar days
Behavioral Health Providers (urgent visit)	Not to exceed twenty-four (24) hours
Behavioral Health Providers (post-discharge from an acute psychiatric hospital when the Contractor is aware of the Member's discharge)	Not to exceed seven (7) calendar days
Urgent Care Providers	Not to exceed twenty-four (24) hours
Emergency Providers	Immediately (twenty-four (24) hours a day, seven (7) days a week) and without Prior Authorization

3.4 Hours of Operation; Appointments. Provider shall offer hours of operation that are no less than the hours of operation offered to commercial beneficiaries or comparable to Medicaid fee-for-service if Provider serves only Medicaid beneficiaries. As applicable, Provider will make Covered Services available 24 hours a day, 7 days a week when medically necessary.

3.5 Hold Harmless. Except for any applicable cost-sharing requirements under the State Contract, Provider shall look solely to HMO for payment of Covered Services provided to Covered Persons pursuant to the Agreement and the State Contract and hold the State, DOM, the U.S. Department of Health and Human Services and Covered Persons harmless in the event that HMO cannot or will not pay for such Covered Services. In accordance with 42 CFR 447.15, as may be amended from time to time, the Covered Person is not liable to Provider for any services for which HMO is liable and as specified under the State's relevant health insurance or managed care statutes, rules or administrative agency guidance. Provider shall not require any copayment or cost sharing for Covered Services provided under the Agreement unless expressly permitted under the State Contract.

Provider shall also be prohibited from charging Covered Persons for missed appointments if such practice is prohibited under the State Contract or applicable law. Neither the State, DOM nor Covered Persons shall be in any manner liable for the debts and obligations of HMO and under no circumstances shall HMO, or any providers used to deliver services covered under the terms of the State Contract, charge Covered Persons for Covered Services.

Covered Person may be responsible for non-covered item(s) and/or service(s), only if the Provider ensures that written documentation in compliance with the Advance Beneficiary Notification (ABN) is received from the Covered Person that an item(s) or service(s) rendered is a non-covered item and/or service(s) and that the Covered Person will be financially responsible for the item(s) and/or service(s). If HMO determines a Covered Person was charged for Covered Services inappropriately, such payment may be recovered, as applicable.

This provision shall survive any termination of the Agreement, including breach of the Agreement due to insolvency.

3.6 **Indemnification.** To the extent applicable to Provider in performance of the Agreement, Provider shall indemnify, defend, protect, save and hold DOM and its employees and Covered Persons harmless from and against all injuries, deaths, losses, damages, claims, suits, liabilities, judgments, costs and expenses, including, without limitation, court costs, investigative fees and expenses and attorney fees, to the extent proximately caused by any negligent act or other intentional misconduct or omission of Provider, its agents, officers, employees or contractors arising from the Agreement. DOM may waive this requirement for public entities if Provider is a state agency or sub-unit as defined by the State or a public health entity with statutory immunity. This clause shall survive the termination of the Agreement for any reason, including breach due to insolvency.

3.7 **Provider Selection.** To the extent applicable to Provider in performance of the Agreement, Provider shall comply with 42 CFR 438.214, as may be amended from time to time, which includes, but is not limited to the selection and retention of providers, credentialing and recredentialing requirements and nondiscrimination. If HMO delegates credentialing to Provider, HMO will provide monitoring and oversight and Provider shall ensure that all licensed medical professionals are credentialed in accordance with HMO's and the State Contract's credentialing requirements.

3.8 **Restrictions on Referrals.** Provider shall not make inappropriate referrals for designated health services to health care entities with which Provider or a member of Provider's family has a financial relationship, pursuant to federal anti-kickback and physician self-referral laws that prohibit such referrals.

3.9 **Records Retention.** As required under State or federal law or the State Contract, Provider shall maintain an adequate record keeping system for recording services, charges, dates and all other commonly accepted information elements sufficient to disclose the quality, quantity, appropriateness and timeliness of services rendered to Covered Persons. All financial records shall follow generally accepted accounting principles. Medical records and supporting management systems shall include all pertinent information related to the

medical management of each Covered Person. Other records shall be maintained as necessary to clearly reflect all actions taken by Provider related to services provided under the State Contract. Such records, including, as applicable, grievance and appeal records shall be maintained for a period of not less than ten (10) years from the close of the Agreement, or such other period as required by law. If records are under review or audit, they must be retained for a minimum of ten (10) years following resolution of such action. Prior approval for the disposal of records must be requested and approved by HMO if the Agreement is continuous.

3.10 Records Access. Provider agrees to cooperate with HMO to maintain and share a health record of all services provided to a Covered Person, as appropriate and in accordance with applicable laws, regulations and professional standards. Provider acknowledges and agrees that the State, DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel shall have complete access to all records pertaining to services provided to Covered Persons. Provider shall provide immediate access to facilities, records and supportive materials pertinent to the State Contract for State or Federal fraud investigators. Copies of requested documents shall be provided to the State, DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel or their designees free of charge.

3.11 Government Audit; Investigations. Provider acknowledges and agrees that the State and the U.S. Department of Health and Human Services, the Centers for Medicare & Medicaid Services, the Office of Inspector General, the General Accounting Office, or any other auditing agency and their designees or their authorized representatives, with prior approval by DOM, shall, at all reasonable time, with or without notice, have the right to inspect, audit or otherwise evaluate the quality, appropriateness, and timeliness of services provided under the terms of the State Contract and any other applicable rules, including the right to inspect and audit any records or documents of Provider and its subcontractors, and the right to inspect the premises, physical facilities, and equipment where Medicaid-related activities or work is conducted. The right to audit under this section exists for 10 years from the end date of the State Contract or from the date of completion of any audit, whichever is later. There shall be no restrictions on the right of the State or federal government to conduct whatever inspections and audits are necessary to assure quality, appropriateness or timeliness of services provided pursuant to the State Contract and the reasonableness of their costs.

3.12 Privacy; HIPAA. Provider shall comply with all applicable privacy rule and security rule provisions of the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), and associated implementing regulations, as may be amended from time to time, and shall safeguard information about Covered Persons in accordance with applicable federal and State privacy laws and rules including 42 CFR 438.224 and 42 CFR Part 431, Subpart F, as may be amended from time to time. HMO agrees and shall require Provider to agree that confidential information, including but not limited to medical and other pertinent information relative to Covered Persons, shall not be disclosed to any person or organization for any purpose without the expressed, written authority of DOM or as otherwise required by law and that all such disclosures shall fully comply with HIPAA privacy and security standards.

3.13 Compliance with Law. Provider shall comply with all applicable federal and State laws and regulations, and all provisions of the State Contract, that pertain to a Covered Person's rights, including but not limited to the following to the extent applicable to Provider in performance of the Agreement:

i) Title VI of the Civil Rights Act of 1964; Title XIX of the Social Security Act; Title IX of the Education Amendments of 1972 (regarding education programs and activities); the Age Discrimination Act of 1975; the Rehabilitation Act of 1973; The Genetic Information Non-Discrimination Act of 2008 (GINA); the Americans with Disabilities Act; section 1557 of the Patient Protection and Affordable Care Act, and their implementing regulations, as may be amended from time to time.

ii) All relevant federal and State statutes, regulations and orders related to equal opportunity in employment, including but not limited to compliance with E.O. 11246, "Equal Employment Opportunity," as amended by E.O. 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

iii) All federal and State professional and facility licensing and accreditation requirements/standards that apply to the services HMO and Provider perform pursuant to the Agreement, including but not limited to:

a) All applicable standards, orders or requirements issued under Section 306 of the Clean Air Act (42 USC 1857 (h)). Section 508 of the Clean Water Act (33 USC 1368), Executive Order 11738, and Environmental Protection Agency (EPA) regulations (40) CFR Part 15), which prohibit the use of facilities included on the EPA list of violating facilities. Any violations must be reported to DSHS, DHHS, and the EPA;

b) Any applicable mandatory standards and policies relating to energy efficiency that are contained in the State Energy Conservation Plan, including the Energy Policy & conservation Act (Pub. L. 94-165), and issued in compliance with the Federal Energy Policy & Conservation Act.

c) Those specified for laboratory services in the Clinical Laboratory Improvement Amendments (CLIA). All laboratory service sites must have a CLIA certificate of registration or waiver, and a CLIA identification number.

d) Section 1128B(d)(1) of the Balanced Budget Act of 1997; and,

e) Any other requirements associated with the receipt of federal funds.

iv) All Medicaid laws, regulations and program instructions to the extent applicable to Provider in Provider's performance of the Agreement. Provider understands that payment of a claim by HMO or the State is conditioned upon the claim and the underlying transaction complying with such laws, regulations, and program

instructions (including, but not limited to, federal requirements on fraud, waste and abuse, disclosure, debarment, termination and exclusion screening), and is conditioned on the Provider's compliance with all applicable conditions of participation in Medicaid. Provider understands and agrees that each claim the Provider submits to HMO constitutes a certification that the Provider has complied with all applicable Medicaid laws, regulations and program instructions in connection with such claims and the services provided therein. Provider's payment of a claim will be denied if Provider is terminated or excluded from participation in federal healthcare programs. Provider's payment of a claim may be temporarily suspended if the State or HMO provides notice that a credible allegation of fraud exists and there is a pending investigation. Provider's payment of a claim may also be temporarily suspended or adjusted if the Provider bills a claim with a code that does not match the service provided. HMO performs coding edit procedures based primarily on National Correct Coding Initiative (NCCI) policies and other nationally recognized and validated policies. Provider agrees that it will provide medical records to HMO upon its request in order to determine appropriateness of coding. Provider may dispute any temporarily suspended or adjusted payment consistent with the terms of the Agreement.

3.14 Physician Incentive Plans. In the event Provider participates in a physician incentive plan ("PIP") under the Agreement, Provider agrees that such PIPs must comply with 42 CFR 417.479, 42 CFR 438.3(i), 42 CFR 422.208, and 42 CFR 422.210, as may be amended from time to time. Neither HMO nor Provider may make a specific payment directly or indirectly under a PIP to a physician or physician group as an inducement to reduce or limit Medically Necessary services furnished to an individual Covered Person. PIPs must not contain provisions that provide incentives, monetary or otherwise, for the withholding of services that meet the definition of Medical Necessity.

3.15 Lobbying. Provider agrees to comply with the following requirements related to lobbying:

i) Prohibition on Use of Federal Funds for Lobbying: By signing the Agreement, Provider certifies to the best of Provider's knowledge and belief, pursuant to 31 U.S.C. Section 1352 and 45 CFR Part 93, as may be amended from time to time, that no federally appropriated funds have been paid or will be paid to any person by or on Provider's behalf for the purpose of influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

ii) Disclosure Form to Report Lobbying: If any funds other than federally appropriated funds have been paid or will be paid to any person for the purpose of influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the award of any federal contract, the making of any federal grant, the

making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment or modification of any federal contract, grant, loan, or cooperative agreement and the value of the Agreement exceeds $100,000, Provider shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3.16 Excluded Individuals and Entities. Provider certifies that neither it nor any of its employees, principals, nor any providers, subcontractors or consultants or persons with an ownership or controlling interest in the Provider (an owner including the Provider himself or herself), or an agent or managing employee of the Provider, with whom Provider contracts and who are providing items or services that are significant and material to Provider's obligations under the Agreement is:

i) excluded from participation in federal health care programs under either Section 1128 or section 1128A of the Social Security Act; or

ii) debarred, suspended or otherwise excluded from participating in procurement activities under the Federal Acquisition Regulation or from participating in nonprocurement activities under regulations issued under Executive Order no. 12549 or under guidelines implementing Executive Order No. 12549; or an affiliate, as defined in the Federal Acquisition Regulation, of such a person.

Provider acknowledges and agrees that payment will not be made for any items or Covered Services provided by an excluded individual pursuant to 42 CFR 1001.1901(b) and is obligated to screen all employees, contractors, and subcontractors for exclusion as required under applicable State and Federal laws. Additionally, Provider acknowledges that pursuant to 42 CFR 1003.102(a)(2) civil monetary penalties may be imposed against Provider if he or she employs or enters into contracts with excluded individuals or entities to provide items or Covered Services to Covered Persons under this Agreement. Provider agrees not to employ or subcontract with individuals or entities whose owner, those with a controlling interest, or managing employees are on a State or Federal exclusion list to provide items or Covered Services under this Agreement. Provider shall immediately report to HMO any exclusion information discovered. Provider can search the HHS-OIG website, at no cost, by the names of any individuals or entities. The database is called LEIE and can be accessed at http://www.oig.hhs.gov/fraud/exclusions.asp. The GSA EPLS/SAM database can be accessed at https://www.sam.gov. Federal and State exclusion databases must be reviewed monthly to ensure that no employee or contractor has been excluded. Applicable state exclusion databases can be accessed through the State's Medicaid website. HMO will terminate the Agreement immediately and exclude from its network any provider who has been excluded from federal health care programs or terminated from the Medicare or the Medicaid program in any state. HMO may also terminate the Agreement if Provider or Provider's owners, agents, or managing employees are found to be excluded on a State or Federal exclusion list.

3.17 Disclosure. Provider must be screened and enrolled in the State's Medicaid program and submit disclosures to the DOM related to ownership and control, significant business transactions, and persons convicted of crimes in accordance with 42 CFR Part 455 .Provider must submit information related to ownership and control of subcontractors or

wholly owned suppliers within thirty-five (35) calendar days of a request for such information in accordance with 42 CFR 455.105. Additionally, Provider must cooperate with DOM for submission of fingerprints upon a request from DOM or CMS in accordance with 42 CFR 455.434.

By executing this Agreement, Provider certifies that neither Provider nor any of its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in any State or federal health care program or from participating in transactions by any State or federal department or agency. HMO will terminate the Agreement upon becoming aware or receiving notice from DOM, whichever is earlier, that Provider is or has been excluded from participation in any State or federal health care program or by any State or federal agency.

3.18 Cultural Competency and Access. Provider shall participate in HMO's and the State's efforts to promote the delivery of services in a culturally competent manner to all Covered Persons, including those with limited English proficiency, physical or mental disabilities, diverse cultural and ethnic backgrounds and regardless of gender, sexual orientation or gender identity, and shall provide interpreter services in a Covered Person's primary language and for the hearing impaired for all appointments and emergency services. Provider shall provide information to Covered Persons regarding treatment options and alternatives, as well as information on complaints and appeals, in a manner appropriate to the Covered Person's condition and ability to understand. Provider shall provide physical access, reasonable accommodations, and accessible equipment for Covered Persons with physical or mental disabilities.

3.19 Marketing. As required under State or federal law or the applicable State Contract, any marketing materials developed and distributed by Provider as related to the performance of the Agreement must be submitted to HMO at least sixty (60) days prior to planned distribution for timely submission to DOM for prior approval. Provider agrees it will not proceed with the statement or communication until the required approval is obtained.

3.20 Fraud, Waste and Abuse Prevention. Provider shall cooperate fully with HMO's policies and procedures designed to protect program integrity and prevent and detect potential or suspected fraud, waste, and abuse in the administration and delivery of services under the State Contract and shall cooperate and assist DOM and any other State or federal agency charged with the duty of preventing, identifying, investigating, sanctioning or prosecuting suspected fraud, waste, and abuse in state and/or federal health care programs.

In accordance with HMO's policies and the Deficit Reduction Act of 2005 (DRA), Provider shall have written policies for its employees, contractors or agents that: (a) provide detailed information about the federal False Claims Act (established under sections 3729 through 3733 of title 31, United States Code), including if any entity makes or receives annual payments under the State Program of at least $5,000,000, such entity must establish certain minimum written policies and information communicated through an employee handbook relating to the Federal False Claims Act in accordance with 42 CFR 438.600; (b) cite administrative remedies for false claims and statements (established under chapter 38 of title 31, United States Code) and whistleblower protections under federal and state laws; (c) reference state laws pertaining to civil or criminal penalties for false claims

and statements; and (d) with respect to the role of such laws in preventing and detecting fraud, waste, and abuse in federal health care programs (as defined in section 1128B(f)), include as part of such written policies, detailed provisions regarding Provider's policies and procedures for detecting and preventing fraud, waste, and abuse. Provider agrees to train its staff on the aforesaid policies and procedures.

3.21 Data; Reports. Provider shall cooperate with and release to HMO any information necessary for HMO to perform its obligations under the State Contract to the extent applicable to Provider in performance of the Agreement, including the timely submission of reports and information required by HMO, in the format specified by HMO and the State. Such reports shall include child health check-up reporting, if applicable, as well as complete and accurate encounter data in accordance with the requirements of HMO and the State. Data must be provided at the frequency and level of detail specified by HMO or the State. By submitting data to HMO, Provider represents and attests to HMO and the State that the data is accurate, complete and truthful, and upon HMO's request Provider shall certify in writing, that the data is accurate, complete, and truthful, based on Provider's best knowledge, information and belief.

Provider shall be able to receive, maintain and utilize applicable data extracts from HMO or DOM and systematically update its database within five (5) calendar days of receipt of the files. Data extract files include but are not limited to the following, as applicable: 1. Daily Active Provider Extract; 2. Weekly Provider Affiliation Details Extract; 3. 834 Enrollment Files; 4. 835 Claims Payment Remittance Advice Transaction; 5. 277 Claims Acknowledgement; 6. NCPDP Formulary; 7. NCPDP Response File; 8. TPL Resource/Policy Information File, etc.; 9. Claims History Extracts; and 10. Prior Authorization Extracts.

3.22 Encounter Data. Provider agrees to cooperate with HMO to comply with HMO's obligation to prepare encounter data submissions, reports, and clinical information including, without limitation, child and adolescent health check-up reporting, EPSDT encounters, and cancer screening encounters, as applicable, and such other reporting regarding Covered Services as may be required under the State Contract. Encounter data must be accurate and include all services furnished to a Covered Person, including capitated provider's data and rendering provider information. Encounter data must be provided within the timeframes specified and in a form that meets HMO and State requirements. By submitting encounter data to HMO, Provider represents to HMO that the data is accurate, complete and truthful, and upon HMO's request Provider shall certify in writing, that the data is accurate, complete, and truthful, based on Provider's best knowledge, information and belief.

3.23 Claims Information. Provider shall promptly submit to HMO the information needed to make payment and shall identify third party liability coverage, including Medicare and other insurance, and if applicable seek such third party liability payment before submitting claims to HMO. Provider understands and agrees that each claim Provider submits to HMO constitutes a certification that the claim is true and accurate to the best of Provider's knowledge and belief and that the Covered Services are 1) Medically Necessary and 2) have been provided to the Covered Person prior to submitting the claim.

Effective July 1, 2014, Provider must submit claims within six (6) months from the date of service. Claims filed within the appropriate time frame but denied may be resubmitted to the Contractor within ninety (90) calendar days from the date of denial

3.24. Electronic Visit Verification. Provider shall cooperate with State requirements for electronic visit verification for personal care services and home health services, as applicable.

3.25 Licensure. Provider represents that it is currently licensed and/or certified under applicable State and federal statutes and regulations and by the appropriate State licensing body or standard-setting agency, as applicable. Provider represents that it is in compliance with all applicable State and federal statutory and regulatory requirements of the Medicaid program and that it is eligible to participate in the Medicaid program. Provider represents that it does not have a Medicaid provider agreement with DOM that is terminated, suspended, denied, or not renewed as a result of any action of DOM, CMS, HHS, or the Medicaid Fraud Control Unit of the State's Attorney General. Provider shall maintain at all times throughout the term of the Agreement all necessary licenses, certifications, registrations and permits as are required to provide the health care services and/or other related activities delegated to Provider by HMO under the Agreement. If at any time during the term of the Agreement, Provider is not properly licensed as described in this Section, Provider shall discontinue providing services to Covered Persons. As applicable, if Provider performs any laboratory tests on human specimens for the purpose of diagnosis and/or treatment, Provider agrees to acquire and maintain the appropriate CLIA certification or waiver for the type of laboratory testing performed. Provider further agrees to provide a copy of the certification if requested by HMO. A State authorized license or permit that meets the CLIA requirements may be substituted for the CLIA certificate pursuant to State law. Medicare and Medicaid programs require the applicable CLIA certification or waiver for the type of services performed as a condition of payment. Provider must include the appropriate CLIA certificate or waiver number on claims submitted for payment for laboratory services.

3.26 Quality; Utilization Management. Pursuant to any applicable provider manuals and related protocols, or as elsewhere specified under the Agreement, Provider agrees to cooperate with HMO's quality improvement and utilization review and management activities. This shall include, but not be limited to, participation in any internal and external quality assurance, utilization review, peer review, and grievance procedures established by HMO or as required under the State Contract to ensure that Covered Persons have due process for their complaints, grievances, appeals, fair hearings or requests for external review of adverse decisions made by HMO or Provider. Provider shall adhere to the quality assurance and utilization review standards of the MississippiCAN Program and shall monitor quality and initiate corrective action to improve quality consistent with the generally accepted level of care.

3.27 Non-Discrimination. Provider will not discriminate against, nor use any policy or practice that has the effect of discriminating against, Covered Persons on the basis of race, color, creed, sex, religion, age, national origin, ancestry, marital status, sexual orientation, gender identity, language, health status, disease or pre-existing condition (including genetic

information), anticipated need for health care or physical or mental handicap, except where medically indicated. Examples of prohibited practices include, but are not limited to, the following:

i) Denying or not providing a Covered Person any Medicaid Covered Service. Health care and treatment necessary to preserve life must be provided to all Covered Persons who are not terminally ill or permanently unconscious, except where a competent Covered Person objects to such care on his/her own behalf.

ii) Subjecting a Covered Person to segregated, separate, or different treatment, including a different place or time from that provided to other Covered Persons or public or private patients, in any manner related to the receipt of any Medicaid Covered Service, except where Medically Necessary.

iii) The assignment of times or places for the provision of services on the basis of the race, color, creed, religion, age, sex, national origin, ancestry, marital status, sexual orientation, gender identity, income status, program membership, language, health status, disease or pre-existing condition, anticipated need for health care or physical or mental disability of the Covered Persons to be served.

3.28 Advance Directives. Provider shall comply with the advance directives requirements set forth in the Uniform Health-Care Decisions Act, Section 41-41-215 of the Mississippi Code. When applicable, Provider shall comply with the advance directives requirements for hospitals, nursing facilities, providers of home and health care and personal care services, hospices, and HMOs as specified in 42 CFR Part 49, subpart I, 42 CFR § 417.436(d), 42 CFR § 422.128, and 42 CFR 438.3(i).

3.29 National Provider ID (NPI). Provider shall obtain a National Provider Identification Number (NPI) and when filing claims with HMO, the NPI used is the same NPI used when filing claims with DOM.

3.30 Termination. In the event of termination of the Agreement, Provider shall promptly supply to HMO all information necessary for the reimbursement of any outstanding Medicaid claims.

3.31 Complaints; Grievances and Appeals. Information on how Provider or Provider's authorized representative can submit complaints and file grievances and appeals, and the resolution process, is contained in the applicable provider manual.

3.32 Health Care Acquired/Preventable Conditions. Provider agrees that no payment shall be made for the provision of medical assistance for health care acquired conditions and other provider preventable conditions as may be identified by the State. As a condition of payment, Provider shall identify and report to HMO any provider preventable conditions in accordance with 42 CFR §§ 434.6(a)(12), 438 including but not limited to 438.3(g), and 447.26.

3.33 Quality and Utilization Management Program. Provider shall cooperate with HMO in meeting the Quality Management and Utilization Management Program standards outlined

in the State Contract including, without limitation, any external evaluations and assessments of HMO's performance authorized by DOM under the State Contract and conducted by DOM's contracted External Quality Review Organization (EQRO) or other designee.

3.34 Referrals. Provider shall make referrals for social, vocational, education or human services when a need for such service is identified.

3.35 Insolvency. In the event HMO becomes insolvent or unable to pay Provider, Provider shall not seek compensation for services rendered from the State, DOM, their officers, Agents, or employees, or the Covered Persons or their eligible dependents.

3.36 Third Party Resources. Provider will report all third party resources to HMO identified through the provision of medical services.

3.37 Compliance with Mississippi Employment Protection Act (MEPA). Provider represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act, Section 71-11-1 et set of the Mississippi Code Annotated (Supp. 2008), and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. Provider agrees to maintain records of such compliance and, upon request of the State and approval of the Social Security Administration or Department of Homeland Security, where required, to provide a copy of each such verification to the State. Provider further represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of the State of Mississippi. Provider understands and agrees that any breach of these warranties may subject Provider to the following: (a) termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public, or (b) the loss of any license, permit, certification or other document granted to Provider by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year, or (c) both.

3.38 Capitated Providers. If Provider is capitated and terminates its agreement with HMO, for any reason, Provider will provide services to Covered Persons assigned to Provider up to the end of the month in which the effective date of termination falls.

3.39 Certification on Relationship to State, DOM and CMS. Provider certifies that no officer, director, employee, subcontractor or agent of Provider, or person with an ownership or control interest in Provider, is also employed by, or is a public official of, the State of Mississippi or any of its agencies, DOM or CMS.

3.40 Funding. Provider recognizes that the obligation of DOM to proceed under its Contract with HMO is conditioned upon the appropriation of funds by the Mississippi State

Legislature and the receipt of State and/or Federal funds. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, either through the failure of the Federal government to provide or the State of Mississippi to appropriate funds, or the discontinuance, or material alteration of the program under which the funds were provided or if funds are not otherwise available to DOM, DOM has the right upon ten (10) working days written notice to HMO to terminate the Contract.

3.41 Gratuities. Provider represents that it has not violated, is not violating, and promises that it will not violate the prohibitions against gratuities set forth in Section 6-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

3.42 Assignment/Delegation. Provider shall not assign or delegate the Agreement without the express written consent of HMO or DOM. If Provider subcontracts or delegates any functions of the Agreement, in accordance with the terms of the Agreement and with the express written consent of HMO or DOM, the subcontract or delegation must be in writing and include all of the requirements of this Appendix, and applicable requirements of the State Contract, and applicable laws and regulations. The transfer of five percent (5%) or more of the beneficial ownership in Provider at any time during the term of this Agreement shall be deemed an assignment under this Agreement.

3.43 Notice of Legal Action. Immediately upon obtaining knowledge or receiving notice of any legal action or notice listed below, Provider shall provide to HMO written notice of such legal action or notice and, upon request by HMO, a complete copy of all filings and other documents generated in connection with any such legal action:

i. Any action, suit or counterclaim filed against Provider;

ii. Any regulatory action, or proposed action, respecting Provider's business or operations;

iii. Any notice received by Provider from the Department of Insurance or the State Health Officer;

iv. The filing of a petition in bankruptcy by or against Provider, or the insolvency of Provider;

v. The conviction of any person who has an ownership or control interest in Provider, or who is an agent or managing employee of Provider, of a criminal offense related to that person's involvement in any program under Medicare, Medicaid, or Title XX of the Social Security Act; or

vi. A malpractice action against any Provider delivering service under an agreement.

3.44 Federal and State Funds Liability. Providers acknowledges and agrees that payments made to Provider for services provided under the Agreement are derived from federal and State funds and that any false claim or statement in documents or any concealment of material fact related to such services may be a cause for sanctions and prosecution under applicable federal and State laws. Provider shall be subject to all laws applicable to

individuals and entities receiving State and federal funds and may be held civilly or criminally liable to both HMO and DOM in the event of nonperformance, misrepresentation, fraud, or abuse related to services provided pursuant to the State Contract. Provider recognizes that payments made to the Provider are derived from federal and State funds, and are contingent upon and subject to availability and receipt of funds.

3.45 Insurance Requirements. As applicable, Provider shall secure and maintain during the term of the Agreement insurance appropriate to the services to be performed under the Agreement. Provider shall require that its providers secure and maintain during the term of the Agreement general liability insurance, professional liability insurance, and workers' compensation insurance for all employees connected with the provision of services under the Agreement. Such workers compensation insurance shall comply with Mississippi Workers' Compensation Laws. Such comprehensive general liability insurance and professional liability insurance shall provide coverage in an amount established by HMO pursuant to the Agreement or as required under the State Contract.

3.46 Overpayment. Provider shall to report to HMO when it has received an overpayment and will return the overpayment to HMO within 60 calendar days after the date on which the overpayment was identified. Provider will notify HMO in writing of the reason for the overpayment.

SECTION 4
ADDITIONAL PROVIDER REQUIREMENTS FOR SPECIFIC ACTIVITIES

4.1 Behavioral Health Providers. Behavioral Health Providers shall ensure that all Covered Persons receiving inpatient psychiatric services are scheduled for outpatient follow-up and/or continuing treatment prior to discharge from the inpatient psychiatric hospital if the Provider is aware of the Covered Person's inpatient hospitalization status. Behavioral Health Providers will be provided daily reports identifying Covered Persons known to be admitted to an inpatient facility. Behavioral Health Services will be delivered in compliance with the requirements of 42 CFR 438 subpart K insofar as those requirements are applicable.

4.2 PCP Responsibilities. Providers acting as PCPs shall meet the following requirements:

i) PCPs who serve Covered Persons under the age of twenty-one (21) are responsible for conducting all EPSDT screens for individuals on their Panel under the age of twenty-one (21). Should the PCP be unable to conduct the necessary EPSDT screens, the PCP is responsible for arranging to have the necessary EPSDT screens conducted by another network Provider and ensure that all relevant medical information, including the results of the EPSDT screens, are incorporated into the Covered Person's PCP Medical Record.

ii) PCPs who serve Members under the age of twenty-one (21) report encounter data associated with EPSDT screens, using a format approved by DOM, to the Contractor within ninety (90) calendar days from the date of service.

iii) PCPs are responsible for contacting new Members identified in the quarterly encounter lists sent by the Contractor that indicate who has not had an encounter during the first six (6) months of Enrollment. The PCP shall:

a) Contact Covered Persons identified in the quarterly Encounter lists as not complying with EPSDT periodicity and immunization schedules for children;

b) Identify to HMO any such Covered Persons who have not come into compliance with the EPSDT periodicity and immunization schedules within one (1) month of such notification to the site by HMO; and

c) Document the reasons for noncompliance, where possible, and to document its efforts to bring the Covered Person's care into compliance with the standards.

4.3 Specialists as PCPs. Covered Persons with disabling conditions, chronic illnesses, or child(ren) with special health care needs may request that their PCP be a specialist. The designation of a specialist as a PCP must be pursuant to a treatment plan approved by HMO, in consultation with the PCP to which the Covered Person is currently assigned, the Covered Person and, as appropriate, the specialist.

The specialist as a PCP shall provide or arrange for all primary care, including routine preventive care, and to provide those specialty medical services consistent with the Covered Person's disabling condition, chronic illness, or special health care need in accordance with HMO's standards and within the scope of the specialty training and clinical expertise.

The specialist as a PCP shall have admitting privileges at a hospital in HMO's network.

4.4 Long-Term Services and Supports (LTSS) Providers. Any LTSS Covered Services under the State Contract that could be authorized through a waiver under section 1915(c) of the Social Security Act (the "Act") or a State Program amendment authorized through sections 1915(i) or 1915(k) of the Act must be delivered in settings consistent with 42 CFR 441.301(c)(4).

SECTION 5
HMO REQUIREMENTS

5.1 Prompt Payment. HMO shall pay Provider pursuant to the State Contract and applicable State and federal law and regulations, including but not limited to Mississippi Code Section 83-9-5, 42 CFR 447.46, 42 CFR 447.45(d)(2), 42 CFR 447.45(d)(3), 42 CFR 447.45(d)(5) and 42 CFR 447.45(d)(6), as applicable and as may be amended from time to time. If a third party liability exists, payment of claims shall be determined in accordance with federal and/or State third party liability law and the terms of the State Contract. Unless HMO otherwise requests assistance from Provider, HMO will be responsible for third party collections in accordance with the terms of the State Contract.

5.2 No Incentives to Limit Medically Necessary Services. HMO shall not structure compensation provided to individuals or entities that conduct utilization management and concurrent review activities so as to provide incentives for the individual or entity to deny, limit, or discontinue Medically Necessary services to any Covered Person.

5.3 Provider Discrimination Prohibition. HMO shall not discriminate with respect to participation, reimbursement, or indemnification of a provider who is acting within the scope of the provider's license or certification under applicable State law, solely on the basis of such license or certification. HMO shall not discriminate against Provider for serving high-risk Covered Persons or if Provider specializes in conditions requiring costly treatments. This provision shall not be construed as prohibiting HMO from limiting a provider's participation to the extent necessary to meet the needs of Covered Persons. This provision also is not intended and shall not interfere with measures established by HMO that are designed to maintain quality of care practice standards and control costs.

5.4 Communications with Covered Persons. Covered Persons are entitled to the full range of their Providers' opinions and counsel about the availability of Medically Necessary Services under the provisions of the State Contract. Any contractual provisions, including gag clauses or rules, that restrict a Provider's ability to advise Covered Persons about Medically Necessary treatment options violate federal law and regulations.

HMO shall not prohibit or otherwise restrict Provider, when acting within the lawful scope of practice, from advising or advocating on behalf of a Covered Person for the following:

i) The Covered Person's health status, medical care, or treatment options, including any alternative treatment that may be self-administered;

ii) Any information the Covered Person needs in order to decide among all relevant treatment options;

iii) The risks, benefits, and consequences of treatment or non-treatment;

iv) The Covered Person's right to participate in decisions regarding his or her health care, including the right to refuse treatment, and to express preferences about future treatment decisions; or

v) Information regarding the nature of treatment options including those that may not reflect HMO's position or may not be covered by HMO.

HMO also shall not prohibit a Provider from advocating on behalf of a Covered Person in any grievance system, utilization review process, or individual authorization process to obtain necessary health care services.

5.5 Termination, Revocation and Sanctions. In addition to its termination rights under the Agreement, HMO shall have the right to revoke any functions or activities HMO delegates to Provider under the Agreement or impose other sanctions consistent with the State Contract if in HMO's reasonable judgment Provider's performance under the Agreement is inadequate. HMO shall also have the right to suspend, deny, refuse to renew or terminate

Provider in accordance with the terms of the State Contract and applicable law and regulation. However, HMO shall not exclude or terminate a Provider from participation in HMO's Provider Network due to the fact that the Provider has a practice that includes a substantial number of patients with expensive medical conditions, and shall not terminate a Provider for filing a Complaint, Grievance, or Appeal on a Covered Person's behalf.

5.6 Rights of DOM. DOM shall have the right to invoke against Provider any remedy set forth in the State Contract, including the right to require the termination of the Agreement, for each and every reason for which it may invoke such a remedy against HMO or require termination of the State Contract. Suspected Fraud and Abuse by Provider will be investigated by DOM.

SECTION 6
OTHER REQUIREMENTS

6.1 Compliance with State Contract. All tasks performed under the Agreement shall be performed in accordance with the requirements of the applicable State Contract, as set forth in this Appendix, applicable provider manuals, and protocols, policies and procedures that HMO has provided or delivered to Provider. The applicable provisions of the State Contract are incorporated into the Agreement by reference. Nothing in the Agreement relieves HMO of its responsibility under the State Contract. If any provision of the Agreement is in conflict with provisions of the State Contract, the terms of the State Contract shall control and the terms of the Agreement in conflict with those of the State Contract will be considered waived.

6.2 Monitoring. HMO shall perform ongoing monitoring (announced or unannounced) of services rendered by Provider under the Agreement and shall perform periodic formal reviews of Provider according to a schedule established by the State, consistent with industry standards or State managed care organization laws and regulations or requirements under the State Contract. As a result of such monitoring activities, HMO shall identify to Provider any deficiencies or areas for improvement mandated under the State Contract and Provider and HMO shall take appropriate corrective action. Provider shall comply with any corrective action plan initiated by HMO and/or required by the MississippiCAN Program. In addition, Provider shall monitor and report the quality of services delivered under the Agreement and initiate a plan of correction where necessary to improve quality of care, in accordance with that level of care which is recognized as acceptable professional practice in the respective community in which HMO and Provider practice and/or the performance standards established under the State Contract.

6.3 Enrollment. The parties acknowledge and agree that DOM is responsible for enrollment, reenrollment and disenrollment of Covered Persons.

6.4 No Exclusivity. Nothing in the Agreement or this Appendix shall be construed as prohibiting or penalizing Provider for contracting with a managed care organization other than HMO or as prohibiting or penalizing HMO for contracting with other providers. HMO may not require Providers who agree to participate in the MississippiCAN Program to contract with HMO's other lines of business.

6.5 **Delegation.** The parties agree that, prior to execution of the Agreement, HMO evaluated Provider's ability to perform any duties delegated to Provider under the Agreement. Any delegated duties and reporting responsibilities shall be set forth in the Agreement or other written delegation agreement or addendum between the parties. HMO shall have the right to revoke any functions or activities HMO delegates to Provider under the Agreement if in HMO's reasonable judgment Provider's performance under the Agreement is inadequate.

MississippiCHIP
Regulatory Requirements Appendix

MississipiCHIP

REGULATORY REQUIREMENTS APPENDIX

PROVIDER

THIS MISSISSIPPICHIP PROGRAM REGULATORY REQUIREMENTS APPENDIX (this "Appendix") supplements and is made part of the provider agreement (the "Agreement") between HMO contracting on behalf of itself and the other entities that are its affiliates (collectively, "CCO") and the party named in the Agreement ("Provider").

SECTION 1
APPLICABILITY

This Appendix applies with respect to the provision of direct or health care related services provided by Provider under the Mississippi Children's Health Insurance Program (the "MississippiCHIP Program") as governed by the State's designated regulatory agencies. In the event of a conflict between this Appendix and other appendices or any provision of the Agreement, the provisions of this Appendix shall control except with regard to benefit plans outside the scope of this Appendix or unless otherwise required by law. In the event CCO is required to amend or supplement this Appendix as required or requested by the State to comply with federal or State regulations, CCO will unilaterally initiate such additions, deletions or modifications. All provider agreements must be in writing and must include all specific activities and report responsibilities delegated to the Provider by CCO.

SECTION 2
DEFINITIONS

Unless otherwise defined in this Appendix, all capitalized terms shall be as defined in the Agreement. For purposes of this Appendix, the following terms shall have the meanings set forth below; provided, however, in the event any definition set forth in this Appendix or the Agreement is inconsistent with any definition under the MississippiCHIP Program Contract, the definition shall have the meaning set forth under the MississippiCHIP Program Contract.

2.1 **Abuse:** Any practice that is inconsistent with sound fiscal, business, or medical practices, and results in an unnecessary cost to CHIP, CCO, a subcontractor, or a provider or in reimbursement for services that are not Medically Necessary or that fail to meet professionally recognized standards for healthcare.

2.2 **Adverse Benefit Determination:** The denial or limited authorization of a requested service, including determinations on the type or level of service, requirements for medical necessity, appropriateness, setting, or effectiveness of a covered benefit; the reduction, suspension, or termination of previously authorized services; the denial, in whole or in part, of payment for a service; CCO's failure to provide services in a timely manner; CCO's failure to resolve Complaints, Grievances, or Appeals within the specified time frames; for residents in a rural area with only one MCO, the denial of a Covered Person's request to exercise his or her right, under 42 C.F.R. §438.52(b)(2)(ii); the denial of a Covered Person's request to dispute a financial liability, including cost sharing, copayments, premiums, deductibles, coinsurance, and other enrollee financial liabilities; and determinations by skilled nursing facilities and nursing facilities to transfer or discharge residents and adverse determinations made by a State with regard to the preadmission

screening and annual resident review requirements of Section 1919(e)(7) of the Act, if applicable.

2.3 **Agreement:** An agreement between the CCO and an individual, business, university, government entity, affiliate, or nonprofit organization to perform part or all of CCO's responsibilities under the MississippiCHIP Program Contract. Agreements must be approved in writing by DOM prior to the start date of the Agreement.

2.4 **Appeal:** A request for review by CCO of an Adverse Benefit Determination related to a Member or Provider. In the case of a Member, an Adverse Benefit Determination may include determinations on the health care services a Member believes he or she is entitled to receive, including delay in providing, arranging for, or approving the health care services (such that a delay would adversely affect the health of the Member). In the case of a Provider, the Adverse Benefit Determination may include, but is not limited to, delay or non- payment for covered services.

2.5 **Auto Enrollment:** The process by which Members who have not voluntarily selected a CHIP Contractor are assigned to a CHIP Contractor.

2.6 **Behavioral Health Services**: Mental health and/or substance and alcohol use disorder treatment services that are provided by the county mental health/intellectual disability/developmental disability programs, the single county authority administrators, or other appropriately licensed health care practitioners.

2.7 **Benchmark Plan:** The State School Employee's Health Insurance Plan.

2.8 **Child:** An individual who is under nineteen (19) years of age who is not eligible for Medicaid benefits and is not covered by other health insurance. Child is also referred to as Member.

2.9 **CHIP:** The Children's Health Insurance Program as defined in Title XXI of the Social Security Act.

2.10 **Complaint:** An expression of dissatisfaction received orally or in writing that is of a less serious or formal nature that is resolved within one (1) business day of receipt.

2.11 **Coordinated Care Organization (CCO):** An organization that meets the requirements for participation as a Contractor in CHIP and manages the purchase and provision of health care services under CHIP. For purposes of this Appendix, CCO is a CCO.

2.12 **Co-Payment:** The fixed amount certain CHIP Members pay for a covered health care service. The amount may vary based on healthcare service being provided.

2.13 **Cost Sharing:** In accordance with 42 C.F.R. §457.10, premium charges, enrollment fees, deductibles, coinsurance, Co-Payments, or other similar fees that the Member has responsibility for paying.

2.14 **Covered Services:** Health care services or products for which a Member is enrolled with CCO to receive coverage under the MississippiCHIP Program Contract, including all services required by the State Contract and State and federal law.

2.15 Disenrollment: Action taken by DOM, or its Agent, to remove a Member's name from the monthly Member Listing Report following DOM's receipt and approval of a request for Disenrollment or a determination that the Member is no longer eligible for Enrollment in Contractor.

2.16 DOM: The Division of Medicaid, Office of the Governor, State of Mississippi.

2.17 Fraud: Fraud is any type of intentional deception or misrepresentation made by an entity or person with the knowledge that the deception could result in some unauthorized benefit to the entity, him or herself, or some other person. The Fraud can be committed by many entities, including a vendor, a subcontractor, a provider, a State employee, or a Member among others.

2.18 Grievance: An expression of dissatisfaction about any matter or aspect of CCO or its operation, other than an Adverse Benefit Determination as defined herein. Grievances may include, but are not limited to, the quality of care or services provided, and aspects of interpersonal relationships such as rudeness of a provider or employee, or failure to respect the Covered Person's rights regardless of whether remedial action is requested. Grievance includes a Covered Person's right to dispute an extension of time proposed by CCO to make an authorization decision.

2.19 Marketing: The activities that promote visibility and awareness for the MississippiCHIP Program and the CCOs participating in the program. All marketing activities are subject to prior review and approval by DOM and may not contain misleading information.

2.20 Medical Record: A single complete record, which documents the entire treatment plan developed for, and medical services received by, the Member including inpatient, outpatient, referral services and emergency medical services whether provided by Contracted Providers or Non-Contracted Providers.

2.21 Member: An individual who meets all of the eligibility requirements for CHIP, enrolls in a CCO under CHIP, and receives health benefits coverage through CHIP.

2.22 MississippiCHIP Program: The Mississippi Medicaid child health program for select individuals under the age of nineteen (19) years of age who are not eligible for Medicaid benefits and are not covered by other health insurances.

2.23 MississippiCHIP Program Contract: The DOM contract with CCO, for the purpose of providing and paying for Covered Services to Members enrolled in the MississippiCHIP Program.

2.24 Primary Care Provider (PCP): Any physician or health care practitioner or group operating within the scope of his or her licensure who is responsible for supervising, prescribing and providing primary care and primary case management services in the MississippiCHIP Program, whose practice is limited to the general practice of medicine or who is an Internist, Pediatrician, Obstetrician/Gynecologist, Family and General Practitioner, Nurse Practitioners (who meet requirements of Section 4.B, Choice of a Health Care Professional), Physician Assistants, specialists who perform primary care functions upon request, and other providers approved by DOM.

2.25 Prior Authorization: A determination to approve a Provider's request, pursuant to services covered in the MississippiCHIP Program, to provide a service or course of treatment of a specific duration and scope to a Member prior to the initiation or continuation of the service.

2.26 Provider Network: The Panel of health service Providers with which the CCO contracts for the provision of covered services to Members and Non-Contracted Providers administering services to Member.

2.27 State: The State of Mississippi or its designated regulatory agencies.

2.28 State Child Health Plan: The State of Mississippi's plan submitted to HHS for the administration of CHIP.

2.29 Third Party Liability/Resource: Any resource available to a Member for the payment of medical expenses associated with the provision of covered services, including but not limited to, insurers and workers' compensation plan.

2.30 Urgent Care: Urgent care services are utilized because the Members primary care physician is not available. An urgent condition isn't life threatening but may need prompt attention. Urgent care services are for an illness, injury or condition serious enough that a reasonable person would seek care right away, but not so severe it requires emergency room care. Urgent care centers can typically treat things including, but not limited to, sprains, strains, minor broken bones.

2.31 Well-Baby and Well-Child Care Services: Regular or preventive diagnostic and treatment services necessary to ensure the health of babies, children, and adolescents as defined by DOM in the State Child Health Plan. For the purposes of Cost Sharing, the term has the meaning assigned at 42 C.F.R. § 457.520.

SECTION 3
PROVIDER REQUIREMENTS

The MississippiCHIP Program, through contractual requirements and federal and State statutes and regulations, requires that providers who provide services to Members enrolled in the MississippiCHIP Program comply with certain requirements as set forth below and elsewhere in this Appendix.

3.1 Definitions Related to the Provision of Covered Services. Provider shall follow the applicable MississippiCHIP Program Contract's requirements for the provision of Covered Services. Provider's decisions affecting the delivery of acute or chronic care services to Members shall be made on an individualized basis and in accordance with the following definitions:

i) Emergency Medical Condition: In accordance with Section 1932(b) of the Act and 42 CFR §457.10, a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in any of the following: (1) placing the health of the individual (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; (2) serious impairment to body functions; or (3) serious dysfunction of any body organ or part.

ii) Emergency Services: Covered inpatient and outpatient services, inclusive of dialysis services, furnished by a provider who is qualified to furnish those health services and that

are needed to evaluate or stabilize an Emergency Medical Condition in accordance with 42 CFR 438.114.

iii) Medically Necessary Services: As set forth in the Social Security Act, Section 1905 (42 U.S.C. 1396d(a)), Medically Necessary Services are defined as services, supplies, or equipment provided by a licensed health care professional that are:

a) Appropriate and consistent with the diagnosis or treatment of the patient's condition, illness, or injury;

b) In accordance with the standards of good medical practice consistent with the individual patient's condition(s);

c) Not primarily for the personal comfort or convenience of the Member, family, or Provider;

d) The most appropriate services, supplies, equipment, or levels of care that can be safely and efficiently provided to the Member;

e) Furnished in a setting appropriate to the patient's medical need and condition and, when applied to the care of an inpatient, further mean that the Member's medical symptoms or conditions require that the services cannot be safely provided to the Member as an outpatient;

f) Not experimental or investigational or for research or education;

g) Provided by an appropriatelylicensed practitioner; and

h) Documented in the patient's record in a reasonable manner, including the relationship of the diagnosis to the service.

Medically Necessary Services may also be those services for children that are necessary to correct or ameliorate defects and physical and mental illnesses and conditions discovered during an interperiodic or Well-Baby and Well-Child Care Services, whether such services are covered or exceed the benefit limits in the Medicaid State Plan and Title 23 of Mississippi Administrative Code.

3.2 Accessibility Standards. Provider shall provide for timely access for Member appointments in accordance with the appointment availability requirements established under the MississippiCHIP Program Contract, as further described in the applicable provider manual.

Type	Appointment Scheduling Time Frames
PCP (well care visit)	Not to exceed thirty (30) calendar days
PCP (routine sick visit)	Not to exceed seven (7) calendar days
PCP (urgent care visit)	Not to exceed twenty-four (24) hours
Specialists	Not to exceed forty-five (45) calendar days

Dental Providers (routine visits)	Not to exceed forty-five (45) calendar days
Dental Providers (urgent Care)	Not to exceed forty-eight (48) hours
Behavioral Health Providers (routine visit)	Not to exceed fourteen (14) calendar days
Behavioral Health Providers (urgent visit)	Not to exceed twenty-four (24) hours
Behavioral Health Providers (post-discharge from an acute psychiatric hospital when the Contractor is aware of the	Not to exceed seven (7) calendar days
Urgent Care Providers	Not to exceed twenty-four (24) hours
Emergency Providers	Immediately (twenty-four (24) hours a day, seven (7) days a week) and without Prior

3.3 Hours of Operation; Appointments. Provider shall offer hours of operation that are no less than the hours of operation offered to commercial beneficiaries. As applicable, Provider will make Covered Services available 24 hours a day, 7 days a week when medically necessary.

3.4 PCP Responsibilities. If applicable, and Provider is a PCP, Provider shall comply with the following:

i) PCPs who serve Members under the age of nineteen (19) are responsible for conducting all Well-Baby and Well-Child Care services. Should the PCP be unable to conduct the necessary Well-Baby and Well-Child Care services screens, the PCP is responsible for arranging to have the necessary Well-Baby and Well-Child Care services screens conducted by another network provider and ensure that all relevant medical information, including the results of the Well-Baby and Well-Child Care services screens, are incorporated into the Member's PCP Medical Record.

ii) PCPs who serve Members under the age of nineteen (19) report encounter data associated with Well-Baby and Well-Child Care services, using a format approved by DOM, to Contractor within one hundred and eighty (180) calendar days from the date of service.

iii) PCPs are responsible for contacting new Members identified in the quarterly encounter lists sent by Contractor that indicate who has not had an encounter during the first six (6) months of Enrollment. Contractor must require the PCP to:

a) Contact Members identified in the quarterly Encounter lists as not complying with Well-Baby, Well-Child Care, and immunization schedules for Children;

b) Identify to Contractor any such Members who have not come into compliance with Well-Baby, Well-Child Care, and immunization schedules within one (1) month of such notification to the site by Contractor; and

c) Document the reasons for noncompliance, where possible, and to document its efforts to bring the Member's care into compliance with the standards.

iv) PCP shall provide Well-Baby and Well-Child Care Services, including vision screening, laboratory

tests and hearing screenings, according to recommendations of the U.S. Preventive Services Task Force. Vision and hearing screenings shall be included as part of periodic Well-Child assessments. PCP shall have written policies and procedures related to the provision of the full-range of Well-Baby Care, Well-Child Care, and childhood and adolescent immunization services as defined in, and in accordance with, the State Child Health Plan, 42 C.F.R. §457.495, and this provisions of the MississippiCHIP Program Contract. Services shall include, without limitation, periodic health screenings and appropriate and up-to-date immunizations using the immunization schedule for all Members recommended by the Advisory Committee on Immunization Practices (ACIP). PCP shall make all reasonable efforts to identify all Members whose Medical Records do not indicate up-to-date immunizations and shall ensure that these Members receive necessary immunizations. Immunizations are purchased and distributed through the Mississippi State Department of Health. CCO shall reimburse PCP for the administration of the immunizations.

CCO requires that PCP cooperate to the maximum extent possible with the efforts to improve the health status of Mississippi citizens, and to actively work to improve the percentage of Members receiving appropriate screenings, and meet or exceed DOM's targets.

a) The following minimum elements must be included in the periodic health screening assessment of children:

i. Comprehensive health and development history (including assessment of both physical and mental development);

ii. Measurements (e.g. head circumference for infants, height, weight, body mass index);

iii. Comprehensive unclothed physical examination;

iv. Immunizations appropriate to age and health history;

v. Assessment of nutritional status;

vi. Laboratory tests (including tuberculosis screening and Federally required blood lead screenings);

vii. Vision screening;

viii. Hearing screening;

ix. Dental and oral health assessment; and

x. Developmental and behavioral assessment.

v) If a suspected problem is detected by a screening examination, the child must be evaluated as necessary for further diagnosis. This diagnosis is used to determine treatment needs. PCP must establish a tracking system that provides information on compliance with Well-Baby and Well-Child Care services and immunization services provision requirements in the following areas:

a) Initial visit for newborns;

b) Well-Baby and Well-Child Care services and reporting of all assessment results; and

c) Diagnosis and/or treatment for Children.

vi) PCP must have an established process for reminders, follow-ups and outreach to Members that includes:

a) Written notification or upcoming or missed appointments within a set time period, taking into consideration language and literacy capabilities of Members;

b) Telephone protocols to remind Members of upcoming visits and follow-up on missed appointments within a set time period;

c) Protocols for conducting outreach with non-compliant Members, including home visits, as appropriate; and

d) A process for outreach and follow-up to Members with special health care needs.

vii) PCP may develop an alternate process for follow-up and outreach subject to prior written approval from CCO and DOM.

viii) **Specialists as PCPs**. Members with disabling conditions, chronic conditions, or with special health care needs may request that their PCP be a specialist. The designation of a specialist as a PCP must be pursuant to a treatment plan approved by Contractor; in consultation with the PCP to which the Member is currently assigned, the Member and, as appropriate, the specialist. When possible, the specialist must be a provider participating in Contractor's network. The specialist as a PCP must agree to provide or arrange for all primary care, including routine preventive care, and to provide those specialty medical services consistent with the Member's disabling condition, chronic illness, or special health care need in accordance with Contractor's standards and within the scope of the specialty training and clinical expertise. To accommodate the full spectrum of care, the specialist as a PCP must also have admitting privileges at a hospital in Contractor's network.

3.5 Provider Selection. To the extent applicable to Provider in performance under the Agreement, Provider shall comply with 42 CFR §438.214, as may be amended from time to time, which includes, but is not limited to the selection and retention of providers, credentialing and re-credentialing requirements and nondiscrimination. If CCO delegates credentialing to Provider, CCO will provide monitoring and oversight and Provider shall ensure that all licensed medical professionals are credentialed in accordance with CCO's and the MississippiCHIP Program Contract's credentialing requirements.

3.6 Records Retention. As required under State or federal law or the MississippiCHIP Program Contract, Provider shall maintain a record keeping system of current, detailed, and organized records for recording services, charges, dates and all other commonly accepted information elements sufficient to disclose the quality, quantity, appropriateness and timeliness of services rendered to Members. All financial records shall follow generally accepted accounting principles. Medical records and supporting management systems shall include all pertinent information related to the medical management of each Member. Other records shall be maintained as necessary to clearly reflect all actions taken by Provider related to services provided under the MississippiCHIP Program Contract. Such records, including, as applicable, grievance and appeals records shall be maintained for a period of not less than ten (10) years from the close of the Agreement, or such other period as required by law. If records are under review or audit or are the subject of litigation they must be retained for a minimum of ten (10) years following resolution of such action. Prior approval for the disposal of records must be requested and approved by CCO if the Agreement is continuous. Provider shall have written records retention policies and procedures and will make such policies and procedures available to CCO or DOM upon request. DOM requires ready access to any and all documents and records of transactions pertaining to the provisions of services provided by Provider and those copies of requested documents/records will be provided to DOM or its designee free of charge.

3.7 **Records Access.** Provider agrees to cooperate with CCO to maintain and share a health record of all services provided to a Covered Person, as appropriate and in accordance with applicable laws, regulations and professional standards. Provider acknowledges and agrees and shall require Provider to acknowledge and agree that DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel shall have complete access to all records pertaining to services provided to Members. Provider shall provide immediate access to facilities, records and supportive materials pertinent to the MississippiCHIP Program Contract for State or Federal fraud investigators.

3.8 **Government Audit; Investigations.** Provider acknowledges and agrees and shall require Provider to acknowledge and agree that the State or any of its duly authorized representatives, DOM, the U.S. Department of Health and Human Services, the Centers for Medicare & Medicaid Services, the Office of Inspector General, the General Accounting Office, or any other auditing agency or their authorized representatives and their designees, with prior approval by DOM, at any time during the term of the Agreement, shall, at all reasonable time and within regular business hours, with or without notice, have the right to inspect, audit or otherwise evaluate the quality, appropriateness, and timeliness of services provided under the terms of the MississippiCHIP Program Contract and any other applicable federal and State law and regulation.

This shall include, but not be limited to, the right to enter onto Provider's premises, access to and the right to audit, inspect, monitor, and examine any pertinent books, documents, papers, medical records, financial records, surveys and computer databases and/or to otherwise evaluate the performance of Provider related to Provider's performance under the Agreement. Such monitoring activities may also include, without limitation, on-site inspections of all service locations and facilities; auditing and/or review of all records developed under the MississippiCHIP Program Contract or the Agreement; reviewing management systems and procedures developed under the MississippiCHIP Program Contract or the Agreement; and review of any other areas of materials relevant or pertaining to the MississippiCHIP Program Contract or the Agreement. All reviews and audits shall be performed in such a manner as will not unduly delay the work of Provider. There will be no restrictions on the right of the State or federal authorities to conduct inspections and audits as necessary.

The Provider must fully cooperate with any and all reviews and/or audits by state or federal agencies, such as the Department of Audit, Department of Health and Human Services, Centers for Medicare and Medicaid Services, Office of Inspector General, General Accounting Office, or any other auditing agency approved by DOM, by assuring that appropriate employees and involved parties are available for interviews relating to the reviews or audits.

All records shall be maintained and available for review by authorized federal and state agencies during the entire term of the MississippiCHIP Program Contract and for a period of ten (10) years thereafter, unless an audit, litigation, or other legal action is in progress. When an audit or litigation is in progress or audit findings are unresolved, records shall be kept for a period of ten (10) years or until all issues are finally resolved, whichever is later. The Provider must have written policies and procedures for storing this information. Records must be kept in an original paper state or preserved on micro media or electronic format.

3.9 **Data; Reports.** Provider shall and shall require that Provider cooperate with and release to CCO any information necessary for CCO to perform its obligations under the MississippiCHIP Program Contract to the extent applicable to Provider in performance of the Agreement, including the timely submission of reports and information required by CCO, in the format specified by CCO and the State. Such reports shall include well-baby/well-child reporting, as well as complete and accurate encounter and utilization management data in accordance with the requirements of CCO and DOM. Data must be provided at the frequency and level of detail specified by CCO or the State. By submitting data to CCO, Provider represents and attests to CCO and the State that the data is accurate, complete and truthful, and upon

CCO's request Provider shall certify in writing, that the data is accurate, complete, and truthful, based on Provider's best knowledge, information and belief.

Provider shall be able to receive, maintain and utilize applicable data extracts from CCO or DOM and systematically update its database within five (5) calendar days of receipt of the files. Data extract files include but are not limited to the following, as applicable: 1. Daily Active Provider Extract; 2. Weekly Provider Affiliation Details Extract; 3. 834 Enrollment Files; 4. 835 Claims Payment Remittance Advice Transaction; 5. 277 Claims Acknowledgement; 6. NCPDP Formulary; 7. NCPDP Response File; 8. TPL Resource/Policy Information File, etc.; 9. Claims History Extracts; and 10. Prior Authorization Extracts.

3.10 Encounter Data. Provider shall agree to cooperate with CCO to comply with CCO's obligation to prepare encounter data submissions, reports, and clinical information including, without limitation, and well-baby/well-child reporting and encounters, as applicable, and such other reporting regarding Covered Services as may be required under the MississippiCHIP Program Contract. Encounter data must be accurate and include all services furnished to a Covered Person, including capitated provider's data and rendering provider information. Encounter data must be provided within the timeframes specified and in a form that meets CCO and State requirements. By submitting encounter data to CCO, Provider represents to CCO that the data is accurate, complete and truthful, and upon CCO's request Provider shall certify in writing, that the data is accurate, complete, and truthful, based on Provider's best knowledge, information and belief.

3.11 Claims Information. Provider shall promptly submit to CCO the information needed to make payment and shall identify third party liability coverage, including Medicare and other insurance, and if applicable seek such third party liability payment before submitting claims to CCO. Provider understands and agrees that each claim Provider submits to CCO constitutes a certification that the claim is true and accurate to the best of Provider's knowledge and belief and that the Covered Services are 1) Medically Necessary and 2) have been provided to the Member prior to submitting the claim.

Provider must submit claims within six (6) months from the date of service. Claims filed within the appropriate time frame but denied may be resubmitted to CCO within ninety (90) calendar days from the date of denial.

3.12 Third Party Resources. Provider shall report all Third Party Resources to CCO identified through the provision of medical services.

3.13 Privacy; HIPAA. Provider shall comply with all applicable privacy rule and security rule provisions of the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), and associated implementing regulations, as may be amended from time to time, and shall safeguard information about Members in accordance with applicable federal and State privacy laws and rules including 42 CFR §438.224 and 42 CFR Part 431, Subpart F, as may be amended from time to time. Provider agrees that confidential information, including but not limited to, medical and other pertinent information relative to Members, shall not be disclosed to any person or organization for any purpose without the expressed, written authority of DOM or as otherwise required by law and that all such disclosures shall fully comply with HIPAA privacy and security standards.

3.14 Cultural Competency and Access. Provider shall participate in CCO's and DOM's efforts to

promote the delivery of services in a culturally competent manner to all Members, including those with limited English proficiency, physical or mental disabilities, diverse cultural and ethnic backgrounds and regardless of gender, sexual orientation or gender identity, and shall provide interpreter services in a Member's primary language and for the hearing impaired for all appointments and emergency services. Provider shall provide information to Members regarding treatment options and alternatives, as well as information on complaints and appeals, in a manner appropriate to the Member's condition and ability to understand. Provider shall provide physical access, reasonable accommodations, and accessible equipment for Covered Persons with physical or mental disabilities.

3.15 Approval of Marketing Materials. As required under State or federal law or the applicable MississippiCHIP Program Contract, any marketing materials developed and distributed by Provider as related to the performance of the Agreement must be submitted to CCO at least sixty (60) days prior to planned distribution for timely submission to DOM for prior approval. Provider agrees it will not proceed with the statement or communication until the required approval is obtained.

3.16 Independent Contractor Relationship. Provider expressly agrees that Provider is acting in an independent capacity in the performance of the Agreement and not as an officer, agent or employee of DOM, CMS or the State. Provider further expressly agrees that the Agreement shall not be construed as a partnership or joint venture between Provider and DOM, CMS or the State. Nothing in the Agreement shall be construed, nor shall it be deemed to create, any right or remedy in any third party.

3.17 Certification on Relationship to State, DOM and CMS. Provider certifies that no officer, director, employee, subcontractor or agent of Provider, or person with an ownership or control interest in Provider, is also employed by, or is a public official of, the State of Mississippi or any of its agencies, DOM or CMS.

3.18 Ownership and Control Information. If applicable, Provider shall cooperate with CCO in obtaining and providing information to DOM related to ownership and control, significant business transactions, and persons convicted of a criminal offense in compliance with§1128 of the Social Security Act, 42 USC §1320a-7 and 42 CFR Part 455, as amended and shall provide information upon request. Provider shall submit information related to ownership and control of subcontractors or wholly owned supplier within thirty-five (35) calendar days of a request for such information.

By executing the Agreement, Provider certifies that neither Provider nor any of its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in any State or federal health care program or from participating in transactions by any State or federal department or agency. CCO will terminate the Agreement upon becoming aware or receiving notice from DOM, whichever is earlier, that Provider is or has been excluded from participation in any State or federal health care program or by any State or federal agency.

3.19 Excluded Individuals and Entities. Provider certifies that neither it nor any of its employees, principals, nor any providers, subcontractors or consultants or persons with an ownership or controlling interest in the Provider (an owner including the Provider himself or herself), or an agent or managing employee of the Provider, with whom Provider contracts and who are providing items or services that are significant and material to Provider's obligations under the

Agreement is:

i) excluded from participation in federal health care programs under either Section 1128 or section 1128A of the Social Security Act; or

ii) debarred, suspended, proposed for debarment, declared ineligible, or otherwise voluntarily excluded from participating in procurement activities under the Federal Acquisition Regulation or from participating in non-procurement activities under regulations issued under Executive Order No. 12549 or under guidelines implementing Executive Order No. 12549; or an affiliate, as defined in the Federal Acquisition Regulation, of such a person.

Provider acknowledges and agrees and shall require that Provider acknowledge and agree that payment will not be made for any items or Covered Services provided by an excluded individual pursuant to 42 CFR §1001.1901(b) and is obligated to screen all employees, contractors, and subcontractors for exclusion as required under applicable State and Federal laws. Additionally, Provider acknowledges that pursuant to 42 CFR §1003.102(a)(2) civil monetary penalties may be imposed against Provider if he or she employs or enters into contracts with excluded individuals or entities to provide items or Covered Services to Member under the Agreement. Provider agrees not to employ or subcontract with individuals or entities whose owner, those with a controlling interest, or managing employees are on a State or Federal exclusion list to provide items or Covered Services under the Agreement. Provider shall immediately report to CCO any exclusion information discovered. Provider can search the HHS-OIG website, at no cost, by the names of any individuals or entities. The database is called LEIE and can be accessed at http://www.oig.hhs.gov/fraud/exclusions.asp. The GSA EPLS/SAM database can be accessed at https://www.sam.gov. Federal and State exclusion databases must be reviewed monthly to ensure that no employee or contractor has been excluded. Applicable state exclusion databases can be accessed through the State's Medicaid website. CCO will terminate the Agreement immediately upon becoming aware or receiving notice from DOM, whichever is earlier, that Provider's owners, agents, managing employees, or any provider is or has been excluded from federal health care programs or terminated from the Medicare or the Medicaid program in any state.

3.20 Licensure. Provider represents that it is currently licensed and/or certified under applicable State and federal statutes and regulations and by the appropriate State licensing body or standard-setting agency, as applicable. Provider represents that it does not have a Medicaid provider agreement with DOM that is terminated, suspended, denied, or not renewed as a result of any action of DOM, CMS, HHS, or the Medicaid Fraud Control Unit of the State's Attorney General. Provider shall maintain at all times throughout the term of the Agreement all necessary licenses, certifications, registrations and permits as are required to provide the health care services and/or other related activities delegated to Provider by CCO under the Agreement. If at any time during the term of the Agreement, Provider is not properly licensed as described in this Section, Provider shall discontinue providing services to Members.

3.21 National Provider ID (NPI). If applicable, Provider shall and shall require that Providers obtain a National Provider Identification Number (NPI) and when filing claims with Provider, the NPI number used is the same NPI number used when filing claims with DOM.

3.22 Funding. Provider recognizes that the obligation of DOM to proceed under its MississippiCHIP Program Contract with CCO is conditioned upon the appropriation of funds by the Mississippi

State Legislature and the receipt of State and/or Federal funds. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, either through the failure of the Federal government to provide or the State of Mississippi to appropriate funds, or the discontinuance, or material alteration of the program under which the funds were provided or if funds are not otherwise available to DOM, DOM has the right upon ten (10) working days written notice to CCO to terminate the MississippiCHIP Program Contract.

3.23 Federal and State Funds Liability. Providers acknowledges and agrees that payments made to Provider for services provided under the Agreement are derived from federal and State funds and that any false claim or statement in documents or any concealment of material fact related to such services may be a cause for sanctions and prosecution under applicable federal and State laws. Provider shall be subject to all laws applicable to individuals and entities receiving State and federal funds and may be held civilly or criminally liable to both CCO and DOM in the event of nonperformance, misrepresentation, fraud, or abuse related to services provided pursuant to the MississippiCHIP Program Contract. Provider recognizes that payments made to the Provider are derived from federal and State funds, and are contingent upon and subject to availability and receipt of funds.

3.24 Insolvency. In the event CCO becomes insolvent or unable to pay Provider, Provider shall not seek compensation for services rendered from DOM, its officers, Agents, or employees, or the Members or their eligible dependents.

3.25 Termination. In the event of termination of the Agreement, Provider shall promptly supply to CCO all information necessary for the reimbursement of any outstanding MississippiCHIP Program claims.

3.26 Capitated Providers. If a Provider that is capitated terminates its agreement with CCO, for any reason, Provider will provide services to Members assigned to Provider up to the end of the month in which the effective date of termination falls.

3.27 Fraud, Waste, and Abuse Prevention. Provider shall cooperate fully with the CCO's policies and procedures designed to protect program integrity and prevent and detect potential or suspected fraud, waste, and abuse in the administration and delivery of services under the MississippiCHIP Program Contract and shall cooperate and assist DOM and any other State or federal agency charged with the duty of preventing, identifying, investigating, sanctioning or prosecuting suspected fraud, waste, and abuse in state and/or federal health care programs. Provider and CCO are responsible for reporting suspected fraud and abuse by participating and non-participating providers, as well as Members, when detected.

In accordance with CCO's policies and the Deficit Reduction Act of 2005 (DRA), Provider shall have written policies for its employees, contractors or agents that: (a) provide detailed information about the federal False Claims Act (established under sections 3729 through 3733 of title 31, United States Code), including if any entity makes or receives annual payments under the State Program of at least $5,000,000, such entity must establish certain minimum written policies and information communicated through an employee handbook relating to the Federal False Claims Act in accordance with 42 CFR 438.600; (b) cite administrative remedies for false claims and statements (established under chapter 38 of title 31, United States Code) and whistleblower protections under federal and state laws; (c) reference state laws pertaining to civil or criminal penalties for false

claims and statements; and (d) with respect to the role of such laws in preventing and detecting fraud, waste, and abuse in federal health care programs (as defined in section 1128B(f)), include as part of such written policies, detailed provisions regarding Provider's policies and procedures for detecting and preventing fraud, waste, and abuse. Provider agrees to train its staff on the aforesaid policies and procedures.

3.28 Quality Utilization Management. Pursuant to any applicable provider manuals and related protocols, or as elsewhere specified under the Agreement, Provider agrees to cooperate with CCO's quality improvement and utilization review and management activities. This shall include, but not be limited to, participation in any internal and external quality assurance, utilization review, peer review, and grievance procedures established by CCO or as required under the MississippiCHIP Program Contract to ensure that Members have due process for their complaints, grievances, appeals, fair hearings or requests for external review of adverse decisions made by CCO or Provider. Provider shall adhere to the quality assurance and utilization review standards of the MississippiCHIP Program and shall monitor quality and initiate corrective action to improve quality consistent with the generally accepted level of care.

3.29 Quality and Utilization Management Program. Provider shall cooperate with CCO in meeting the Quality Management and Utilization Management Program standards outlined in the MississippiCHIP Program Contract.

3.30 Referrals. Provider shall make referrals for social, vocational, education or human services when a need for such service is identified.

3.31 Restrictions on Referrals. Provider shall not make inappropriate referrals for designated health services to health care entities with which Provider or a member of Provider's family has a financial relationship, pursuant to federal anti-kickback and physician self-referral laws that prohibit such referrals.

3.32 Complaints, Grievances and Appeals. Information on how Provider or Provider's authorized representative shall submit complaints and file grievances and appeals, and the resolution process, is contained in the CCO MississippiCHIP Provider Manual.

3.33 Health Care Acquired/Preventable Conditions. Provider agrees that no payment shall be made for the provision of medical assistance for health care acquired conditions and other provider preventable conditions as may be identified by the State. As a condition of payment, Provider shall identify and report to CCO any provider preventable conditions in accordance with 42 CFR §§ 434.6(a)(12), 438 including but not limited to 438.3(g), and 447.26.

3.34 Compliance with Laws. Provider shall comply with all applicable federal and State laws and regulations and all provisions of the MississippiCHIP Program Contract that pertain to a Member's rights, including but not limited to the following, to the extent applicable to Provider in performance of the Agreement:

i) Title VI of the Civil Rights Act of 1964; (b) Title XIX of the Social Security Act; Title IX of the Education Amendments of1972 (regarding education programs and activities); the Age Discrimination Act of 1975; the Rehabilitation Act of 1973; and The Genetic Information Non-Discrimination Act of 2008 (GINA); the Americans with Disabilities Act;

section 1557 of the Patient Protection and Affordable Care Act, and their implementing regulations, as may be amended from time to time.

ii) All federal and State professional and facility licensing and accreditation requirements/standards that apply to the services Provider perform pursuant to the Agreement, including but not limited to:

a) All applicable standards, orders or requirements issued under Section 306 of the Clean Air Act (42 USC 1857 (h)). Section 508 of the Clean Water Act (33 USC 1368), Executive Order 11738, and Environmental Protection Agency (EPA) regulations (40) CFR Part 15), which prohibit the use of facilities included on the EPA list of violating facilities. Any violations must be reported to DSHS, DHHS, and the EPA;

b) Any applicable mandatory standards and policies relating to energy efficiency that are contained in the State Energy Conservation Plan, including the Energy Policy & conservation Act (Pub. L. 94-165), and issued in compliance with the Federal Energy Policy & Conservation Act.

iii) All relevant federal and State statutes, regulations and orders related to equal opportunity in employment, including but not limited to compliance with E.O. 11246, "Equal Employment Opportunity," as amended by E.O. 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulations at 41 CFR Part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

iv) If the Agreement is for an amount in excess of $100,000, Provider shall comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, 42 U.S.C. 7401 et seq., and the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq. Any violations shall be reported to DHHS and the appropriate Regional Office of the Environmental Protection Agency.

v) Those specified for laboratory services in the Clinical Laboratory Improvement Amendments (CLIA). All laboratory service sites must have a CLIA certificate of registration or waiver, and a CLIA identification number.

vi) The American with Disabilities Act (ADA). Provider shall make reasonable accommodation for Members with disabilities in accord with the ADA for all Covered Services and shall assure physical and communication barriers do not inhibit Members with disabilities from obtaining Covered Services;

vii) Section 1128B(d)(1) of the Balanced Budget Act of 1997; and,

viii) Any other requirements associated with the receipt of federal funds.

ix) All Medicaid laws, regulations and program instructions to the extent applicable to Provider in Provider's performance of the Agreement. Provider understands that payment of a claim by CCO or the State is conditioned upon the claim and the underlying transaction complying with such laws, regulations, and program instructions (including, but not limited

to, federal requirements on fraud, waste and abuse, disclosure, debarment, termination and exclusion screening), and is conditioned on the Provider's compliance with all applicable conditions of participation in Medicaid. Provider understands and agrees that each claim the Provider submits to CCO constitutes a certification that the Provider has complied with all applicable Medicaid laws, regulations and program instructions in connection with such claims and the services provided therein. Provider's payment of a claim will be denied if Provider is terminated or excluded from participation in federal healthcare programs. Provider's payment of a claim may be temporarily suspended if the State or CCO provides notice that a credible allegation of fraud exists and there is a pending investigation. Provider's payment of a claim may also be temporarily suspended or adjusted if the Provider bills a claim with a code that does not match the service provided. CCO performs coding edit procedures based primarily on National Correct Coding Initiative (NCCI) policies and other nationally recognized and validated policies. Provider agrees that it will provide medical records to CCO upon its request in order to determine appropriateness of coding. Provider may dispute any temporarily suspended or adjusted payment consistent with the terms of the Agreement.

3.35 Non-Discrimination. Provider will not discriminate against, nor use any policy or practice that has the effect of discriminating against, Covered Persons on the basis of race, color, creed, sex, religion, age, national origin, ancestry, marital status, sexual orientation, gender identity, language, health status, disease or pre-existing condition (including genetic information), anticipated need for health care or physical or mental handicap, except where medically indicated. Examples of prohibited practices include, but are not limited to, the following:

i) Denying or not providing a Member any MississippiCHIP Covered Service. Health care and treatment necessary to preserve life must be provided to all Members who are not terminally ill or permanently unconscious, except where a competent Member objects to such care on his/her own behalf.

ii) Subjecting a Member to segregated, separate, or different treatment, including a different place or time from that provided to other Members or public or private patients, in any manner related to the receipt of any MississippiCHIP Covered Service, except where Medically Necessary.

iii) The assignment of times or places for the provision of services on the basis of the race, color, creed, religion, age, sex, national origin, ancestry, marital status, sexual orientation, gender identity, income status, program membership, language, health status, disease or pre-existing condition, anticipated need for health care or physical or mental disability of the Members to be served.

3.36 Advance Directives. Provider shall comply with the advance directives requirements with 42 C.F.R §422.128 and with the Uniform Health-Care Decisions Act (Miss. Code Ann. § 41-41-201, *et. seq*.). When applicable, Provider shall comply with the advance directives requirements for hospitals, nursing facilities, providers of home and health care and personal care services, hospices, and HMOs as specified in 42 CFR Part 49, subpart I, 42 CFR § 417.436(d), 42 CFR § 422.128, and 42 CFR 438.3(i).

3.37 Physician Incentive Plans. In the event Provider participates in a physician incentive plan

("PIP") under the Agreement, Provider agrees that such PIPs must comply with 42 CFR § 417.479, 42 CFR § 438.3, 42 CFR § 422.208, and 42 CFR § 422.210, as may be amended from time to time. CCO or Provider may not make a specific payment directly or indirectly under a PIP to a physician or physician group as an inducement to reduce or limit Medically Necessary services furnished to an individual Member. PIPs must not contain provisions that provide incentives, monetary or otherwise, for the withholding of services that meet the definition of Medical Necessity. Provider shall disclose annually to CCO any PIP arrangement Provider may have with any physicians even if there is not substantial financial risk between CCO and such physicians.

3.38 Lobbying. Provider agrees to comply with the following requirements related to lobbying:

i) Prohibition on Use of Federal Funds for Lobbying: By signing the Agreement, Provider certifies to the best of Provider's knowledge and belief, pursuant to 31 U.S.C. § 1352 and 45 CFR Part 93, as may be amended from time to time, that no federally appropriated funds have been paid or will be paid to any person by or on Provider's behalf for the purpose of influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

ii) Disclosure Form to Report Lobbying: If any funds other than federally appropriated funds have been paid or will be paid to any person for the purpose of influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment or modification of any federal contract, grant, loan, or cooperative agreement and the value of the Agreement exceeds $100,000, Provider shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

iii) Contractor shall abide by lobbying laws of the State of Mississippi.

3.39 Gratuities. Provider represents that it has not violated, is not violating, and promises that it will not violate the prohibitions against gratuities set forth in Section 6-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

3.40 Compliance with Mississippi Employment Protection Act (MEPA). Represents and warrants and shall require that Provider represent and warrant that it will ensure its compliance with the Mississippi Employment Protection Act, Section 71-11-1 et set of the Mississippi Code Annotated (Supp. 2008), and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other

successor electronic verification system replacing the E-Verify Program. Provider agrees and shall require that Provider agree to maintain records of such compliance and, upon request of the State and approval of the Social Security Administration or Department of Homeland Security, where required, to provide a copy of each such verification to the State. Provider represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of the State of Mississippi. Provider acknowledges and agrees that any breach of these warranties may subject Provider to the following: (a) termination of the Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public, or (b) the loss of any license, permit, certification or other document granted to Provider by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year, or (c) both.

3.41 Insurance Requirements. As applicable, Provider shall and shall require that Provider secure and maintain during the term of the Agreement general liability insurance, professional liability insurance, and workers' compensation insurance for all employees connected with the provision of services under the Agreement. Such workers compensation insurance shall comply with Mississippi Workers' Compensation Laws. Such comprehensive general liability insurance and professional liability insurance shall provide coverage in an amount established by CCO pursuant to the Agreement or as required under the MississippiCHIP Program Contract.

3.42 Indemnification. To the extent applicable to Provider in performance under the Agreement, Provider shall indemnify, defend, protect, save and hold DOM and its employees and Members harmless from and against all injuries, deaths, losses, damages, claims, suits, demands, actions, recovery, liabilities, judgments, costs and expenses, including without limitation, court costs, investigative fees and expenses, and attorney fees, to the extent proximately caused by any negligent act or other intentional misconduct or omission of Provider, its agents, officers, employees or contractors arising from the Agreement. DOM may waive this requirement for public entities if Provider is a state agency or sub-unit as defined by the State or a public health entity with statutory immunity. This clause shall survive the termination of the Agreement for any reason, including breach due to insolvency.

3.43 Notice of Legal Action. Immediately upon obtaining knowledge or receiving notice of any legal action or notice listed below, Provider shall provide to CCO written notice of such legal action or notice and, upon request by CCO, a complete copy of all filings and other documents generated in connection with any such legal action:

i) Any action, suit or counterclaim filed against Provider;

ii) Any regulatory action, or proposed action, respecting Provider's business or operations;

iii) Any notice received by Provider from the Department of Insurance or the State Health Officer;

iv) The filing of a petition in bankruptcy by or against Provider, or the insolvency of Provider;

v) The conviction of any person who has an ownership or control interest in Provider, or who is an agent or managing employee of Provider, of a criminal offense related to that person's

involvement in any program under Medicare, Medicaid, or Title XX of the Social Security Act; or

vi) A malpractice action against any Provider delivering service under an agreement.

3.44 Hold Harmless. Except for any applicable cost-sharing requirements under the MississippiCHIP Program Contract, Provider shall look solely to CCO for payment of Covered Services provided to Members pursuant to the Agreement and the MississippiCHIP Program Contract and hold DOM, the State, the U.S. Department of Health and Human Services and Members harmless in the event that CCO cannot or will not pay for such Covered Services. In accordance with 42 CFR § 447.15, as may be amended from time to time, the Member is not liable to Provider for any services for which CCO is liable and as specified under the State's relevant health insurance or managed care statutes, rules or administrative agency guidance. Provider shall not require any copayment or cost sharing for Covered Services provided under the Agreement unless expressly permitted under the MississippiCHIP Program Contract. Provider shall also be prohibited from charging Members for missed appointments if such practice is prohibited under the MississippiCHIP Program Contract or applicable law. Neither the State, DOM, nor Member shall be in any manner liable for the debts and obligations of CCO and under no circumstances shall CCO, or any providers used to deliver services covered under the terms of the MississippiCHIP Program Contract, charge Members for Covered Services.

3.45 Assignment/Delegation. Provider shall not assign or delegate the Agreement without the express written consent of CCO or DOM. If Provider subcontracts or delegates any functions of the Agreement, in accordance with the terms of the Agreement and with the express written consent of CCO or DOM, the subcontract or delegation must be in writing and include all of the requirements of this Appendix, and applicable requirements of the State Contract, and applicable laws and regulations. The transfer of five percent (5%) or more of the beneficial ownership in Provider at any time during the term of this Agreement shall be deemed an assignment under this Agreement.

3.46 Behavioral Health Providers. Behavioral Health Providers shall ensure that all Covered Persons receiving inpatient psychiatric services are scheduled for outpatient follow-up and/or continuing treatment prior to discharge from the inpatient psychiatric hospital if the Provider is aware of the Covered Person's inpatient hospitalization status. Behavioral Health Providers will be provided daily reports identifying Covered Persons known to be admitted to an inpatient facility. Behavioral Health Services will be delivered in compliance with the requirements of 42 CFR 438 subpart K insofar as those requirements are applicable.

3.47 Provider Eligibility. Provider must be enrolled in the Mississippi CHIP program and must use the same National Provider Identifier (NPI) number to participate in CCO's Network. Upon notification from the State that Provider's enrollment has been denied or terminated, CCO must terminate Provider immediately and will notify affected Covered Persons that Provider is no longer participating in the network. CCO will exclude from its network any provider who has been terminated or suspended from the Medicare, Medicaid or CHIP program in any state.

3.48 Disclosure. Provider must be screened and enrolled in the State's CHIP program and submit disclosures to the DOM related to ownership and control, significant business transactions, and persons convicted of crimes in accordance with 42 CFR Part 455 .Provider must submit information related to ownership and control of subcontractors or wholly owned suppliers within thirty-five (35)

calendar days of a request for such information in accordance with 42 CFR 455.105. Additionally, Provider must cooperate with DOM for submission of fingerprints upon a request from DOM or CMS in accordance with 42 CFR 455.434.

3.49 Electronic Visit Verification. Provider shall cooperate with State requirements for electronic visit verification for personal care services and home health services, as applicable.

3.50 Clinical Laboratory Improvements Act (CLIA) Certification or Waiver. As applicable, if Provider performs any laboratory tests on human specimens for the purpose of diagnosis and/or treatment, Provider agrees to acquire and maintain the appropriate CLIA certification or waiver for the type of laboratory testing performed. Provider further agrees to provide a copy of the certification if requested by CCO. A State authorized license or permit that meets the CLIA requirements may be substituted for the CLIA certificate pursuant to State law. Medicare and Medicaid programs require the applicable CLIA certification or waiver for the type of services performed as a condition of payment. Provider must include the appropriate CLIA certificate or waiver number on claims submitted for payment for laboratory services.

3.51 Overpayment. Provider shall to report to CCO when it has received an overpayment and will return the overpayment to CCO within 60 calendar days after the date on which the overpayment was identified. Provider will notify CCO in writing of the reason for the overpayment.

SECTION 4
CCO REQUIREMENTS

4.1 Communications with Members. Members are entitled to the full range of their Providers' opinions and counsel about the availability of Medically Necessary Services under the provisions of the MississippiCHIP Program Contract. Any contractual provisions, including gag clauses or rules, that restrict a Provider's ability to advise Members about Medically Necessary treatment options violate federal law and regulations. CCO shall not prohibit or otherwise restrict Provider, when acting within the lawful scope of practice, from advising or advocating on behalf of a Member for the following:

i) The Member’s health status, medical care, or treatment options, including any alternative treatment that may be self-administered;

ii) Any information the Member needs in order to decide among all relevant treatment options;

iii) The risks, benefits, and consequences of treatment or non-treatment;

iv) The Member’s right to participate in decisions regarding his or her health care, including the right to refuse treatment, and to express preferences about future treatment decisions; or

v) Information regarding the nature of treatment options including those that may not reflect CCO’s position or may not be covered by CCO.

CCO shall not prohibit a Provider from advocating on behalf of a Member in any grievance system,

utilization review process, or individual authorization process to obtain necessary health care services.

4.2 Prompt Payment. CCO shall pay Provider pursuant to the MississippiCHIP Program Contract and applicable State and federal law and regulations, including but not limited to Miss. Code Ann. §83-9-5, 42 CFR §447.46, 42 CFR §447.45(d)(2), 42 CFR §447.45(d)(3), 42 CFR §447.45(d)(5) and 42 CFR §447.45(d)(6), as applicable and as may be amended from time to time. If a third party liability exists, payment of claims shall be determined in accordance with federal and/or State third party liability law and the terms of the MississippiCHIP Program Contract. Unless CCO otherwise requests assistance from Provider, CCO will be responsible for third party collections in accordance with the terms of the MississippiCHIP Program Contract.

4.3 No Incentives to Limit Medically Necessary Services. CCO shall not structure compensation provided to individuals or entities that conduct utilization management and concurrent review activities so as to provide incentives for the individual or entity to deny, limit, or discontinue Medically Necessary services to any Member.

4.4 Provider Discrimination Prohibition. CCO shall not discriminate with respect to participation, reimbursement, or indemnification of a provider who is acting within the scope of the provider's license or certification under applicable State law, solely on the basis of such license or certification. CCO shall not discriminate against Provider for serving high-risk Members or if Provider specializes in conditions requiring costly treatments. This provision shall not be construed as prohibiting CCO from limiting a provider's participation to the extent necessary to meet the needs of Members. This provision also is not intended and shall not interfere with measures established by CCO that are designed to maintain quality of care practice standards and control costs. CCO shall not provide false or misleading information to any person or entity in an attempt to recruit Providers for CCO's network.

4.5 Termination, Revocation and Sanctions. In addition to its termination rights under the Agreement, CCO shall have the right to revoke any functions or activities CCO delegates to Provider under the Agreement or impose other sanctions consistent with the MississippiCHIP Program Contract if in CCO's reasonable judgment Provider's performance under the Agreement is inadequate. CCO shall also have the right to suspend, deny, refuse to renew or terminate the subcontract in accordance with the terms of the MississippiCHIP Program Contract and applicable law and regulation. However, CCO shall not exclude or terminate a Provider from participation in CCO's Provider Network due to the fact that the Provider has a practice that includes a substantial number of patients with expensive medical conditions, and shall not terminate a Provider for filing a Complaint, Grievance, or Appeal on a Member's behalf.

SECTION 5
OTHER REQUIREMENTS

5.1 Compliance with MississippiCHIP Program Contract. All tasks performed under the Agreement shall be performed in accordance with the requirements of the MississippiCHIP Program Contract, as applicable, as set forth in this Appendix, applicable provider manuals, and protocols, policies and procedures that CCO has provided or delivered to Provider. The applicable provisions of the MississippiCHIP Program Contract are incorporated into the Agreement by reference. Nothing in the Agreement or this Appendix relieves CCO of its responsibility under the

MississippiCHIP Program Contract. If any provision of the Agreement is in conflict with provisions of the MississippiCHIP Program Contract, the terms of the MississippiCHIP Program Contract shall control and the terms of the Agreement in conflict with those of the MississippiCHIP Program Contract will be considered waived.

5.2 Monitoring. In accordance with 42CFR § 457.950, CCO shall perform ongoing monitoring (announced or unannounced) of services rendered by Provider under the Agreement and shall perform periodic formal reviews of Provider according to a schedule established by the State, consistent with industry standards or State managed care organization laws and regulations or requirements under the MississippiCHIP Program Contract. As a result of such monitoring activities, and/or as a result of the inspecting, auditing and monitoring activities of DOM or other authorities pursuant to section 4.4 above, CCO shall identify to Provider any deficiencies or areas for improvement mandated under the MississippiCHIP Program Contract and Provider and CCO shall take appropriate corrective action within the relevant timeframe permitted, as applicable. Provider shall comply with any corrective action plan initiated by CCO and/or required by the MississippiCHIP Program. In addition, Provider shall monitor and report the quality of services delivered under the Agreement and initiate a plan of correction where necessary to improve quality of care, in accordance with that level of care which is recognized as acceptable professional practice in the respective community in which CCO and Provider practice and/or the performance standards established under the MississippiCHIP Program Contract.

5.3 Enrollment. The parties acknowledge and agree that DOM is responsible for enrollment, reenrollment and disenrollment of Members.

5.4 No Exclusivity. Nothing in the Agreement or this Appendix shall be construed as prohibiting or penalizing Provider for contracting with a managed care organization other than CCO or as prohibiting or penalizing CCO for contracting with other providers. The CCO may not require Providers who agree to participate in the MississippiCHIP Program to contract with the Contractor's other lines of business.

5.5 Revoking Delegation. The parties agree that, prior to execution of the Agreement, CCO evaluated Provider's ability to perform any duties delegated to Provider under the Agreement. Any delegated duties and reporting responsibilities shall be set forth in the Agreement or other written delegation agreement or addendum between the parties. In addition to its termination rights under the Agreement, CCO shall have the right to revoke any functions, assignment authority, or activities CCO delegates to Provider under the Agreement or impose other sanctions if in CCO's reasonable judgment Provider's performance under the Agreement is inadequate or untimely.

5.6 Rights of DOM. DOM shall have the right to invoke against Provider any remedy set forth in the MississippiCHIP Program Contract, including the right to require the termination of the Agreement, for each and every reason for which it may invoke such a remedy against CCO or require termination of the MississippiCHIP Program Contract. Suspected Fraud and Abuse by Provider will be investigated by DOM.

Mississippi
Regulatory Requirements Appendix

Mississippi Regulatory Requirements Appendix

This Mississippi Regulatory Requirements Appendix (the "Appendix") is made part of the agreement ("Agreement") entered into between **CCO,** contracting on behalf of itself, **HMO**, and the other entities that are CCO's Affiliates (collectively referred to as "CCO") and the health care professional or entity named in the Agreement ("Provider").

This Appendix applies to all products or benefit plans sponsored, issued or administered by or accessed through CCO to the extent such products are regulated under Mississippi laws; provided, however, that the requirements in this Appendix will not apply to the extent they are preempted by the Medicare Modernization Act or other applicable law.

CCO and Provider each agree to be bound by the terms and conditions contained in this Appendix. In the event of a conflict or inconsistency between this Appendix and any term or condition contained in the Agreement, this Appendix shall control, except with regard to Benefit Plans outside the scope of this Appendix.

If any of the capitalized terms in this Appendix are used or defined (or the equivalent terms are used or defined) in the Agreement, then the terms used in this Appendix will have the same meaning as the terms (or equivalent terms) used or defined in the Agreement. For example, "Benefit Plans," as used in this Appendix, will have the same meaning as "benefit contracts"; "Customer," as used in this Appendix, will have the same meaning as "member," "enrollee," or "covered person"; "Payer," as used in this Appendix, will have the same meaning as "participating entity"; "Provider," as used in this Appendix, will have the same meaning as "Facility," "Medical Group," "Ancillary Provider," "Physician," or "Practitioner." Additionally, if the Agreement uses pronouns to refer to the contracted entities, then "CCO" will have the same meaning as "we" or "us," and "Provider" will have the same meaning as "you" or "your."

This Appendix will be deemed to be updated to incorporate any changes to the laws and regulations referenced herein, including any changes to definitions referenced herein, effective as of the date of such changes.

1. Customer Hold Harmless and Continuation of Services. Provider agrees that in no event, including but not limited to nonpayment by CCO, Payer or intermediary, insolvency of CCO, Payer or intermediary, or breach of this Agreement, shall Provider bill, charge, collect a deposit from, seek compensation, remuneration or reimbursement from, or have any recourse against a Customer or a person (other than CCO, Payer or intermediary) acting on behalf of the Customer for services provided pursuant to this Agreement. This Agreement does not prohibit Provider from collecting coinsurance, deductibles or copayments, as specifically provided in the evidence of coverage, or fees for uncovered services delivered on a fee-for-service basis to Customers. Nor does this Agreement prohibit Provider (except for a health care professional who is employed full-time on the staff of CCO and has agreed to provide services exclusively to CCO's Customers and no others) and a Customer from agreeing to continue services solely at the expense of the Customer, as long as the provider has clearly informed the Customer that CCO or Payer

may not cover or continue to cover a specific service or services. Except as provided herein, this Agreement does not prohibit Provider from pursuing any available legal remedy.

In the event of CCO, Payer or intermediary insolvency or other cessation of operations, Covered Services to Customers will continue through the period for which a premium has been paid to CCO or Payer on behalf of the Customer or until the Customer's discharge from an inpatient facility, whichever time is greater. Covered Services to Customers confined in an inpatient facility on the date of insolvency or other cessation of operations will continue until their continued confinement in an inpatient facility is no longer medically necessary.

The provisions in this section 1 shall be construed in favor of the Customer, shall survive the termination of the Agreement regardless of the reason for termination, including the insolvency of CCO or Payer, and shall supersede any oral or written contrary agreement between Provider and a Customer or the representative of a Customer if the contrary agreement is inconsistent with the hold harmless and continuation of Covered Services provisions required by this section 1.

In no event shall Provider collect or attempt to collect from a Customer any money owed to Provider by CCO or Payer.

2. CCO Programs. As applicable, Provider shall comply with CCO's administrative policies and programs, including but not limited to terms, including payment, utilization review, quality assessment and improvement programs, credentialing, grievance procedures, data reporting requirements, confidentiality requirements and any applicable federal or state programs.

3. Treatment Options. CCO shall not prohibit Provider from discussing treatment options with Customers irrespective of CCO's position on the treatment options, or from advocating on behalf of Customers within the utilization review or grievance processes established by CCO or a person contracting with CCO.

4. Records. Provider shall make health records available to appropriate state and federal authorities involved in assessing the quality of care or investigating the grievances or complaints of Customers, and to comply with the applicable state and federal laws related to the confidentiality of medical or health records.

5. Termination. CCO and Provider shall provide advance written notice to each other in the form and for the length of time as provided in the Agreement but in no case less than sixty (60) before terminating the Agreement without cause. CCO shall make a good faith effort to provide written notice of a termination within thirty (30) days of receipt or issuance of a notice of termination to all Customers who are patients seen on a regular basis by Provider whose Agreement is terminating, irrespective of whether the termination was for cause or without cause. Where a contract termination involves a primary care professional, all Customers who are patients of that primary care professional shall also be notified. Within five (5) working days of the date that Provider either gives or receives notice of termination, Provider shall supply CCO with a list of those patients of Provider that are covered by a Benefit Plan subject to this Appendix.

6. Assignment. The rights and responsibilities under this Agreement shall not be assigned or delegated by Provider without the prior written consent of CCO.

7. Provision of Covered Services. Provider shall furnish Covered Services to all Customers without regard to the Customer's enrollment in the plan as a private purchaser of the plan or as a participant in publicly financed programs of health care services. This requirement does not apply to circumstances when Provider should not render services due to limitations arising from lack of training, experience, skill or licensing restrictions.

8. Coinsurance, Copayments and Deductibles. Provider shall collect applicable coinsurance, copayments or deductibles from Customers pursuant to the Benefit Plan and, as applicable, Provider shall notify Customers of their personal financial obligations for non-covered services.

9. No Penalty for Reporting to Authorities. CCO shall not penalize Provider because Provider, in good faith, reports to state or federal authorities any act or practice by CCO that jeopardizes patient health or welfare.

10. Definitions. To the extent a definition or other provision in the Agreement conflicts with the Benefit Plan or the Managed Care Plan Network Adequacy Regulation (the "Regulation"), the Benefit Plan or the Regulation will control.

11. Prompt Pay. Provider and CCO shall comply with the prompt payment requirements set forth in the Mississippi Code Section 83-9-5(1)(h). Claims will be paid within twenty-five (25) days after receipt where claims are submitted electronically, and within thirty-five (35) days after receipt where claims are submitted in paper format.

12. Reciprocal Time Limitations. If the Agreement includes a time limit in which Provider is required to submit a claim for payment, CCO or Payer shall have the same time limit following payment of the claim to perform any review or audit for reconsidering the validity of the claim and requesting reimbursement for payment of an invalid claim or overpayment of a claim. If CCO or Payer does not limit the time in which Provider is required to submit a claim for payment, CCO may not request reimbursement or offset another claim payment for reimbursement of an invalid claim or overpayment of a claim more than twelve (12) months after the payment of an invalid or overpaid claim. This provision does not apply to claims submitted in the context of misrepresentation, omission, concealment, or fraud by Provider.

13. Intermediaries. The following provisions apply to intermediaries as defined in the Regulation.

a) Intermediaries and participating providers with whom they contract shall comply with all the applicable requirements of sections 1-10 of this Appendix (section 14.06 of the Regulation).
b) CCO's statutory responsibility to monitor the offering of Covered Services to Customers shall not be delegated or assigned to the intermediary.

c) CCO shall have the right to approve or disapprove participation status of a subcontracted provider in its own or a contracted network for the purpose of delivering Covered Services to the carrier's Customers.
d) CCO shall maintain copies of all intermediary health care subcontracts at its principal place of business in the state, or ensure that it has access to all intermediary subcontracts, including the right to make copies to facilitate regulatory review, upon twenty (20) days prior written notice from CCO.
e) If applicable, an intermediary shall transmit utilization documentation and claims paid documentation to CCO. CCO shall monitor the timeliness and appropriateness of payments made to providers and health care services received by Customers.
f) If applicable, an intermediary shall maintain the books, records, financial information and documentation of services provided to Customers at its principal place of business in the state and preserve them in a manner that facilitates regulatory review.
g) An intermediary shall allow the commissioner access to the intermediary's books, records, financial information and any documentation of services provided to Customers, as necessary to determine compliance with the Regulation.
h) CCO shall have the right, in the event of the intermediary's insolvency, to require the assignment to CCO of the provisions of a provider's contract addressing the provider's obligation to furnish covered services.

Medical
Small Group Agreement

INTRODUCTION

Our agreement consists of this contract, the appendices, and the additional materials we reference in the attached Appendix 1.

Guiding principles

We strive to operate in accordance with the following principles:

- *We want to work together with America's best physicians to improve the health care experience of our customers.*
- *We respect and support the physician/patient relationship while adhering fairly to the contract for benefits we provide our customers.*
- *Whether a particular treatment is covered under a benefit contract should not determine if the treatment is provided. Physicians and health care professionals should provide the care they believe is necessary regardless of coverage.*
- *You should discuss treatment options with patients regardless of coverage. We encourage that communication.*
- *Physicians should describe any factors that could affect their ability to render appropriate care. Matters such as professional training, financial incentives, availability constraints, religious or philosophical beliefs, and similar matters are all things that a physician should consider discussing with a patient. We encourage these communications. We urge full disclosure.*
- *Fairness and efficiency will govern the ways in which we administer our products. We will make our determinations promptly. Our commitments to our customers will be clear. We will honor our agreements. When it comes to coverage determinations, the language of the benefit contract will take precedence.*

Next steps

Please read this agreement. If you have questions, write to or call:

[**address]**

(xxx) xxx-xxxx]

You can visit our website at portal.com for additional details on items described in the agreement. If the agreement is acceptable to you, please sign both of the enclosed copies of the contract, and send both copies to the address above.

MEDICAL GROUP CONTRACT

CCO is entering into this agreement with you. It is doing so on behalf of itself, HMO and its other affiliates for certain products and services we offer our customers, all of which we describe in the attached Appendix 2.

This agreement applies to you and to your professional staff (the physicians and other professionals who are your employees, or your independent contractors providing services to your patients, and who are subject to credentialing by us) and the services you provide at the locations in the attached Appendix 4. When this agreement refers to "you", it also refers to your professional staff. Your professional staff is bound to the same requirements of this agreement as you are. You represent to us that you have the authority to bind your professional staff to this agreement.

What you will do

You need to be credentialed in accordance with our Credentialing Plan, as referenced in Appendix 1, for the duration of this agreement.

You must notify us in a timely manner about certain services you provide in accordance with our Administrative Guide so that we can provide our customers with the services we have committed to provide. If you do not so notify us about these services, you will not be reimbursed for the services, and you may not charge our customer.

Within one year of the effective date of this agreement, you must conduct business with us entirely on an electronic basis to the extent that we are able to conduct business electronically (described in the Administrative Guide), including but not limited to determining whether your patient is currently a customer, verifying the customer's benefit, and submitting your claim. We will communicate enhancements at portal.com as they become available and will make information available to you as to which products are supported by portal.com.

You must submit your claims within 90 days of the date of service. After we receive your claim, if we request additional information in order to process your claim, you must submit this additional information within 90 days of our request. If your claim or the additional information is not submitted within these timeframes, you will not be reimbursed for the services, and you may not charge our customer.

You will submit claims only for services performed by you or your staff. Pass through billing is not payable under this agreement and may not be billed to our customer. For laboratory services, you will only be reimbursed for the services that you are certified through the Clinical Laboratory Improvement Amendments (CLIA) to perform, and you must not bill our customers for laboratory services for which you are not certified.

You will submit claims that supply all applicable information. These claims are complete claims. Further information about complete claims is provided in our Administrative Guide.

If you disagree with our payment determination on a claim, you may submit an appeal as described in our Administrative Guide.

You will not charge our customers anything for the services you provide, if those services are covered services under their benefit contract, but the applicable co-pay, coinsurance or deductible amount. If the services you provide are denied or otherwise not paid due to your failure to notify us, to file a timely claim, to submit a complete claim, to respond to our request for information, or based on our reimbursement policies and methodologies, you may not charge our customer. If the services you provide are denied for reason of not being medically necessary, you may not charge our customer unless our customer has, with knowledge of our determination of a lack of medical necessity, agreed in writing to be responsible for payment of those charges. If the services you provide are not covered under our customer's benefit contract, you may, of course, bill our customer directly. You will not require a customer to pay a "membership fee" or other fee in order to access you for covered services (except for co-payments, coinsurance and/or deductibles provided for under the customer's benefit contract) and will not discriminate against any customer based on the failure to pay such a fee.

You will cooperate with our reasonable requests to provide information that we need. We may need this information to perform our obligations under this agreement, under our programs and agreements with our customers, or as required by regulatory or accreditation agencies.

You will refer customers only to other network physicians and providers, except as permitted under our customer's benefit contract, or as otherwise authorized by us or the participating entity.

What we will do

We or the other applicable participating entity will promptly adjudicate and pay your complete claim for services covered by our customer's benefit contract. If you submit claims that are not complete,

- You may be asked for additional information so that your claim may be adjudicated; or
- Your claim may be denied and you will be notified of the denial and the reason for it; or
- We may in our discretion attempt to complete the claim and have it paid by us or the other applicable participating entity based on the information that you gave in addition to the information we have.

If governing law requires us to pay interest or another penalty for a failure to pay your complete claim for covered services within a certain time frame, we will follow those requirements. The interest or other penalty required by law will be the only additional obligation for not satisfying in a timely manner a payment obligation to you. In addition, if we completed a claim of yours that was not complete, there shall be no interest or other late payment obligation to you even if we subsequently adjust the payment amount based on additional information that you provide.

The applicable participating entity will reimburse you for the services you deliver that our customer's benefit contract covers. The amount you receive will be based on the lesser of your

billed charges or our fee schedule, which is described at Appendix 1 and is subject to the reimbursement (coding) policies and methodologies of us and the participating entities. Our reimbursement policies and methodologies are updated periodically and will be made available to you online or upon request. To request a copy of our reimbursement policies and methodologies, write to [address]. Your reimbursement is also subject to our rules concerning retroactive eligibility, subrogation and coordination of benefits (as described in the Administrative Guide). We recognize CPT reporting guidelines as developed by the American Medical Association, as well as ICD diagnostic codes and hospital-based revenue codes. Following these guidelines does not imply a right to reimbursement for all services as coded or reported.

Ordinarily, fee amounts listed in the Payment Appendix(ices) are based upon primary fee sources. We reserve the right to use gap-fill fee sources where primary fee sources are not available.

We routinely update our fee schedule in response to additions, deletions and changes to CPT codes by the American Medical Association, price changes for immunizations and injectable medications, and in response to similar changes (additions and revisions) to other service coding and reporting conventions that are widely used in the health care industry, such as those maintained by the Centers for Medicare and Medicaid Services (for example, HCPCS). Ordinarily, our fee schedule is updated using similar methodologies for similar services. We will not generally attempt to communicate routine maintenance of this nature and will generally implement updates within 90 days from the date of publication.

We will give you 90 days written or electronic notice of non-routine fee schedule changes which will substantially alter the overall methodology or reimbursement level of the fee schedule. In the event such changes will reduce your overall reimbursement under this agreement, you may terminate this agreement by giving 60 days written notice to us, provided that the notice is given by you within 30 days after the notice of the fee schedule change.

If either of us believes that a claim has not been paid correctly, either of us may seek correction of the payment within a 12-month period following the date the claim was paid, except that overpayments as a result of abusive or fraudulent billing practices may be pursued by us beyond the 12-month time frame mentioned above. In the event of an overpayment, we will correct these errors by adjusting future claim payment and/or by billing you for the amount of the overpayment.

Your professional staff and Practice Locations

You represent to us that all of the members of your professional staff, as of the date you executed this agreement, are listed in Appendix 3. All of the members of your professional staff will participate in our network through this agreement, except in cases in which one of your professional staff is not accepted for participation or is removed from participation under our credentialing program, or removed from participation by us immediately due to that professional being sanctioned by any governmental agency or authority (including Medicare or Medicaid), or having lost a license to provide all or some of the professional services under this agreement, or no longer having hospital admitting privileges in any participating hospital. Your professional staff will cooperate with our credentialing program.

If a new professional joins your professional staff, you will give us 60 days notice and provide the information included in Appendix 3. You will assure that the new professional will promptly submit a credentialing application to us (unless the new professional is already credentialed with us) and cooperate with our credentialing program.

You will assure that a member of your professional staff who has not been approved or is not in good standing under our credentialing program will not provide covered services to our customers. In the event that professional does provide covered services, you will not bill us, our customer, or anyone acting on our customer's behalf for the service, and you will assure that the professional also does not bill for the service.

If a professional leaves your professional staff, you will notify us within ten business days after you become aware that the professional will leave. The notice will include the date that the professional will depart from your professional staff. If you know the future contact information for the professional and whether the professional will continue to practice after leaving your professional staff, you will make reasonable commercial efforts to include that information in the notice and will provide that information to us if we request it.

This agreement applies to your practice locations identified in Appendix 4. If you begin providing services at other locations (either by opening such locations yourself, or by acquiring, merging or coming under common ownership and control with an existing provider of services that was not already under contract with us or one of our affiliates to participate in a network of health care providers), those additional locations will become subject to this agreement 30 days after we receive notice from you.

If you acquire or are acquired by, merged with, or otherwise become affiliated with another provider of health care services that is already under contract with us or one of our affiliates to participate in a network of health care providers, this agreement and the other agreement will each remain in effect and will continue to apply as they did prior to the acquisition, merger or affiliation, unless otherwise agreed to in writing by all parties to those agreements.

If you decide to transfer some or all of your assets to another entity, and the result of the transfer would be that all or some of the services subject to this agreement would be rendered by the other entity rather than by you, you must first request that we approve an assignment of this agreement as it relates to those services and the other entity must agree to assume this agreement.

How long our agreement lasts; how it gets amended; and how it can end

Assuming you are credentialed by us, and we execute this agreement, you will receive a copy from us with the effective date noted below the signature block. It continues until one of us terminates it.

We can amend this agreement or any of the appendices on 90 days written or electronic notice by sending you a copy of the amendment. Your signature is not required to make the amendment

effective. However, if you do not wish to continue your participation with our network as changed by an amendment that is not required by law or regulation but that includes a material adverse change to this agreement, then you may terminate this agreement on 60 days written notice to us so long as you send this termination notice within 30 days of your receipt of the amendment.

In addition, this agreement has an initial term of three years, and it will automatically renew after the initial term, for renewal terms of one year each. Either you or we can terminate this agreement, effective at the end of the initial term or effective at the end of any renewal term, by providing at least 90 days prior written notice. Either you or we can terminate this agreement at any time if the other party has materially breached this agreement, by providing 60 days written notice, except that if the breach is cured before our agreement ends, the agreement will continue.

Either of us can immediately terminate this agreement if the other becomes insolvent or has bankruptcy proceedings initiated.

Finally, we can immediately terminate this agreement if any governmental agency or authority (including Medicare or Medicaid) sanctions you.

We both agree that termination notices under this agreement must be sent by certified mail, return receipt requested, to [address], or to the post office address you provided us. We both will treat termination notices as "received" on the third business day after they are sent.

About data and confidentiality

We agree that your medical records do not belong to us. You agree the information contained in the claims you submit is ours. We both will protect the confidentiality of our customers' information in accordance with applicable state and federal laws, rules, and regulations.

We are both prohibited from disclosing to third parties any fee schedule or rate information. There are three exceptions:

- You can disclose to our customer information relating to our payment methodology for a service the customer is considering (e.g., global fee, fee for service), but not specific rates (unless for purposes of benefit administration).
- We and the participating entities may use this information to administer our customers' benefit contracts and to pay your claims. We also may permit access to information by auditors and other consultants who need the information to perform their duties, subject to a confidentiality agreement.
- We both may produce this information in response to a court order, subpoena or regulatory requirement to do so, provided that we use reasonable efforts to seek to maintain confidential treatment for the information, or to a third party for an appropriate business purpose, provided that the disclosure is pursuant to a confidentiality agreement and the recipient of the disclosure is not a competitor of either of us.

What if we do not agree

The parties will work together in good faith to resolve any and all disputes between them ("Disputes") following the dispute procedures set out in our Administrative Guide. Disputes may include, but not be limited to the existence, validity, scope or termination of this Agreement or any term thereof, and all questions of arbitrability, with the exception of any question regarding the availability of class arbitration or consolidated arbitration, which is expressly waived below. Disputes also include any dispute in which you are acting as the assignee of one or more customer. In such cases, these procedures will apply, including without limitation the requirement for arbitration.

If the Dispute pertains to a matter which is generally administered by certain CCO procedures, such as a credentialing or quality improvement plan, the policies and procedures set forth in that plan must be fully exhausted by you before you may invoke any right to arbitration under this section.

For Disputes regarding payment of claims, a party must have timely initiated and completed the claim reconsideration and appeal process as set forth in the Administrative Guide in order to initiate the Dispute process.

If the parties are unable to resolve any Dispute within 60 days after notice, either party may submit the Dispute to binding arbitration conducted by the American Arbitration Association ("AAA"). The arbitrators will use the AAA Healthcare Payor Provider Arbitration Rules, as amended. However, if a case involves a Dispute in which a party seeks an award of $1,000,000 or greater or seeks termination of this Agreement, a panel of three arbitrators will be used. The arbitrator(s) will be selected from the AAA National Healthcare Roster or the AAA's National Roster of Arbitrators. Unless otherwise agreed in writing, arbitration must be initiated within one year after the date on which written notice of the Dispute was given, or any appeal process described in the Administrative Guide, whichever is later. If arbitration is not initiated in that time frame, the right to pursue the Dispute in any forum is waived.

Any arbitration proceeding under this Agreement will be conducted in [name of county] County, [state]. The arbitrator(s) may construe or interpret but must not vary or ignore the terms of this Agreement and will be bound by controlling law. The arbitrator(s) have no authority to award punitive, exemplary, indirect or special damages, except in connection with a statutory claim that explicitly provides for that relief.

Except as may be required by law, neither a party, including without limitation, the parties' representatives, consultants and counsel of record in the arbitration, nor an arbitrator may disclose the existence, content, or results of any arbitration hereunder, or any Confidential Arbitration Information without the prior written consent of all parties. "Confidential Arbitration Information" means any written submissions in an arbitration by either party, discovery exchanged, evidence submitted, transcriptions or other records of hearings in the matter and any orders and awards issued, and any reference to whether either party won, lost, prevailed, or did not prevail against the other party in any arbitration proceeding, as well as any settlement agreement related to an

arbitration. However, judgment on the award may be entered under seal in any court having jurisdiction thereof, by either party.

The parties expressly intend that any arbitration be conducted on an individual basis, so that no third parties may be consolidated or joined or allowed to proceed with class arbitration. The parties agree that any arbitration ruling allowing class arbitration, or requiring consolidated arbitration involving any third party(ies), would be contrary to the terms of this Agreement and require immediate judicial review. Notwithstanding anything in this Agreement to the contrary, this paragraph may not be severed from this provision of the Agreement under any circumstances, including but not limited to unlawfulness, invalidity or unenforceability.

The decision of the arbitrator(s) on the points in dispute will be binding. The parties acknowledge that because this Agreement affects interstate commerce, the Federal Arbitration Act applies. In the event any court determines that this arbitration procedure is not binding or otherwise allows litigation involving a Dispute to proceed, the parties hereby waive any and all right to trial by jury in, or with respect to, the litigation. The litigation would instead proceed with the judge as the finder of fact.

In the event a party wishes to terminate this Agreement based on an assertion of uncured material breach, and the other party disputes whether grounds for the termination exist, the matter will be resolved through arbitration under this provision. While the arbitration remains pending, the termination for breach will not take effect.

This provision will survive any termination of this Agreement.

What is our relationship to one another

You are an independent contractor. This means we do not have an employer-employee, principal-agent, partnership, joint venture, or similar arrangement. It also means that you make independent health care treatment decisions. We do not. We do not reserve any right to control those treatment decisions. It further means that each of us is responsible for the costs, damages, claims, and liabilities that result from our own acts.

You will look to the applicable participating entity for reimbursement for the products and services under our agreement. This means that we are not financially responsible for claims payment for groups that are self-funded or that are not affiliated with us.

We may assign this agreement to any entity that is an affiliate of CCO at the time of the assignment.

This is it

This contract, the appendices and the items referenced in the attached Appendix 1, constitute our entire understanding. It replaces any other agreements or understandings with regard to the same subject matter - - oral or written - - that you have with us or any of our affiliates.

Federal law and the applicable law of the jurisdiction where you provide health care services govern our agreement. Such laws and the rules and regulations promulgated under them, when they are applicable, control and supersede our agreement. The Regulatory Appendix referenced in Appendix 1, and any attachment to it, is expressly incorporated to govern our agreement and is binding on both of us. In the event of any inconsistent or contrary language between the Regulatory Appendix (when it applies) and any other part of our agreement, including but not limited to appendices, amendments and exhibits, the Regulatory Appendix will control.

Conclusion

If you agree with these terms, please execute both copies of the agreement below and return them to us. With your signature, you confirm you understand the contract, including the dispute resolution procedures described in the section of this agreement entitled "What if we do not agree", the appendices and the items referenced in the attached Appendix 1.

THIS AGREEMENT CONTAINS A BINDING ARBITRATION PROVISION THAT MAY BE ENFORCED BY THE PARTIES.

Appendix 1

We include as part of our agreement the following additional materials that bind you and us:

Appendix 2	**Definitions, Products and Services** This appendix sets forth definitions for our "customer" and "participating entities" as well as lists the type of benefit contracts offered to our customers.
Payment Appendices	**Fee Information Document** includes: Fee Specifications Document, Fee Schedule Sample, and Additional Information About Your Fee Schedule. Further information about the fee schedule (such as additional fee samples) can be requested by writing to [address] or through our website at portal.com.
Appendix 3	This document provides information about the members of your professional staff.
Appendix 4	This document provides information about your practice locations.
State Regulatory Requirements Appendix	In some instances, states add requirements to our agreement that are set forth in this appendix.
Medicare Regulatory Requirements Appendix	(This appendix applies only if you are in our Medicare network.) Your participation in our network for customers with Medicare benefit contracts is subject to additional Medicare requirements set forth in this appendix.
Medicaid and/or CHIP Regulatory Requirements Appendix(ices)	(These appendix(ices) apply only if you are in our Medicaid and/or CHIP network.) Your participation in our network for customers with Medicaid or CHIP benefit contracts is subject to additional requirements set forth in these appendix(ices).
Administrative Guide	Our Administrative Guide governs the mechanics of our relationship. Our Administrative Guide may be viewed by going to portal.com, and it will also be made available to you upon request. We may make changes to the Administrative Guide or other administrative protocols upon 30 days electronic or written notice to you. Additionally, for some of the benefit contracts for which you may provide covered services under this agreement, you are subject to additional requirements of one or more additional provider manuals ("Additional Manuals"). When this agreement refers to protocols or reimbursement policies it is also referring to the Additional Manuals. An Additional Manual may be a separate document or it may be a supplement to the Provider Administrative Guide ("Administrative Guide"). For benefit contracts subject to an Additional Manual, the Additional Manual controls if it conflicts with any of the following: (1) a provision of this

<table>
<tr><td></td><td>agreement or of the Administrative Guide; or (2) a CCO protocol or reimbursement policy. However, the Additional Manual does not control where it conflicts with applicable statutes or regulations.

The Additional Manuals will be made available to you on a designated website and upon request. The names of the Additional Manuals, the websites to view and download them, and the benefit contracts to which they apply, are listed in Table 1 below. We may change the location of a website or the customer identification card identifier used to identify customers subject to a given Additional Manual; if we do so, we will inform you.

We may make changes to the Additional Manuals subject to this provision in accordance with the provisions of this agreement relating to protocol and reimbursement policy changes.

Appendix 2
Definitions, Products and Services

Section 1. Customer. Individuals who are enrolled in benefit contracts insured or administered by us or any participating entity are included in our use of the phrase "customer" in this agreement.

Section 2. Participating entities. The following entities have access to our agreement:

[Mississippi Medicaid Benefit Contracts.]
[Mississippi CHIP Benefit Contracts.]

Section 3. Products and services.

a. We may allow participating entities to access your services under this agreement for the benefit contract types described in each line item below, unless otherwise specified in section 3b of this Appendix 2:

[Mississippi Medicaid Benefit Contracts.]

[Mississippi CHIP Benefit Contracts.]

b. Notwithstanding the above section 3a of this Appendix 2, this agreement will not apply to the benefit contract types described in the following line items:

- [[Mississippi Medicaid Benefit Contracts.]
- [Mississippi CHIP Benefit Contracts.]
- Medicaid or CHIP Benefit Contracts other than those separately addressed in this Appendix 2.
-

Page Intentionally left blank

Note: Excluding certain benefit contracts or programs from this agreement does not preclude the parties or their affiliates from having or entering into a separate agreement providing for your participation in a network for such benefit contracts or programs.

Section 4. Definitions:

Note: We may adopt a different name for a particular benefit contract, and/or may modify information referenced in the definitions in this Appendix 2 regarding customer identification cards. If that happens, section 3a or section 3b of this Appendix 2 will continue to apply to those benefit contracts as it did previously, and we will provide you with the updated information. Additionally, we may revise the definitions in this Appendix 2 to reflect changes in the names or roles of our business units, provided that doing so does not change your participation status in benefit contracts impacted by that change, and further provided that we provide you with the updated information.

MEDICAID, CHIP AND OTHER STATE PROGRAMS:

- **Medicaid Benefit Contracts** means benefit contracts that offer coverage to beneficiaries of a program that is authorized by Title XIX of the federal Social Security Act, and jointly financed by the federal and state governments and administered by the state.

- **Mississippi Medicaid Benefit Contracts** means Medicaid Benefit Contracts issued in Mississippi that have a reference to "CCO" on the valid identification card of any Customer eligible for and enrolled in that benefit contract.

- **Children's Health Insurance Program ("CHIP") Benefit Contracts** means benefit contracts under the program authorized by Title XXI of the federal Social Security Act that is jointly financed by the federal and state governments and administered by the state.

- **Mississippi CHIP Benefit Contracts** means CHIP Benefit Contracts issued in Mississippi that include a reference to "CCO" and "MSCHIP" on the face of the valid identification card of any Customer eligible for and enrolled in that Benefit Contract.

- **Other Governmental Benefit Contracts** means benefit contracts that are funded wholly or substantially by a state or district government or a subdivision of a state (such as a city or county), but do not include benefit contracts for:
  - i) employees of a state government or a subdivision of a state and their dependents;
  - ii) students at a public university, college or school;
  - iii) employer-based coverage of private sector employees, even if the employer receives a government subsidy to help fund the coverage;
  - iv) Medicaid beneficiaries;
  - v) Children's Health Insurance Program (CHIP) beneficiaries; and
  - vi) Medicare and Medicaid Enrollees (MME).

[Payment Appendix – Mississippi Medicaid

Applicability

This Payment Appendix applies to covered services rendered by you to customers covered under the following types of benefit contracts, as described in this agreement:

- Mississippi Medicaid Benefit Contracts.

Section 1
Payment for Covered Services

1.1 Payment. Your contract rates for covered services are the lesser of (i) your customary charges or (ii) the following, in order of applicability:

a) [X]% of the Mississippi Medicaid conversion factor published by the applicable state agency for anesthesia services;

b) [Y]% of the Mississippi Medicaid fee schedule published by the applicable state agency;

c) In the event a fee source listed above in clause (a) or (b) does not publish a specific fee amount, then CCO will pay [Z]% of Medical Group's Customary Charges for Covered Services.

d) For certain CPT/HCPCS codes, we may pay an amount higher than the amount listed in this section 1.1, and in the future, we may reduce that higher amount paid for those CPT/HCPCS codes, but not less than the amount payable in clauses (a), (b) and (c) above.

The actual payment amount is also subject to matters described in this agreement, such as reimbursement policies.

You will submit claims using a CMS 1500, its successor form or its electronic equivalent. All claims submitted under this Payment Appendix must use CPT Codes, HCPCS Codes, ICD-10 Codes or its successor and other codes in compliance with HIPAA standard data set requirements. Claims submitted without HIPAA standard data set requirements may be denied.

If an applicable state or federal program is available to provide items or payment directly to you for specific covered services for customers subject to this Payment Appendix that would otherwise be payable under this Payment Appendix, the applicable program will apply and not this Payment Appendix. (For example, the Vaccines For Children program currently provides vaccines free of charge, and therefore no amount will be payable under this Payment Appendix for vaccines within the Vaccines For Children program. However, the administration of such vaccine may be payable under this Payment Appendix, if payment is not provided to physicians under the Vaccines For Children program for vaccine administration.)

The contract rates established by this Payment Appendix are all-inclusive, including without limitation any applicable taxes, for all covered services provided to the customer. Unless specifically indicated otherwise, amounts listed in this fee schedule represent global fees and may be subject to reductions based on appropriate modifiers (for example, professional and technical modifiers).

1.2 Routine Maintenance. We routinely update the fee schedule in response to changes published by the state agency, such as fee amount changes. Provided that the state does not change its methodology, we implement fee schedule changes in our systems within 45 days from the date the change is published in the Medicaid agency's official correspondence to us or is otherwise formally communicated by the Medicaid agency to us. We will make the changes effective in our system on the effective date of the change by the primary fee source. However, claims already processed prior to the change being implemented by us will not be reprocessed unless otherwise required by law.

We also routinely update the fee schedule in response to coding changes as described in this agreement. When implementing coding updates, we will apply the same percentage(s) as set forth above in section 1.1 and the then-current value of the published code to determine the contract rate. We will use reasonable commercial efforts to implement such changes within 90 days from the date of publication. However, claims already processed prior to the change being implemented by us will not be reprocessed unless otherwise required by law.

1.3 Medicaid Agency Payment Changes. If the Medicaid agency changes the manner in which it reimburses or changes the Medicaid primary fee source such that we are required to make significant programming or platform changes in order to implement the Medicaid agency changes, we will implement the new state methodologies effective on the date that is published in the Medicaid agency's official correspondence to us or as otherwise formally communicated by the Medicaid agency to us. You agree that, in such a case, you will accept the current payment as set forth in this Payment Appendix until such a time as we can implement the Medicaid agency change. At such time as we are able to implement the change, we will communicate the change via a copy of a new payment appendix. The changes will be incorporated into this Payment Appendix for all dates of service on or after those changes are effective in the Medicaid program.

If we are unable, through commercially reasonable efforts, to incorporate the Medicaid agency payment changes in their entirety, we will so notify you within 90 days from the date the change is published in the Medicaid agency's official correspondence to us, or otherwise formally communicated by the Medicaid agency. The parties will then negotiate in good faith for a period of up to 60 days to amend the agreement to replace this Payment Appendix with a new payment appendix and stated effective date for the new contract rates. If the parties have not reached an agreement upon such an amendment within the aforementioned 60 day period, either party may initiate dispute resolution according to this agreement.

Appendix 3
Professional Roster

IMPORTANT NOTE: You acknowledge your obligation under the agreement to notify us of any change in your professionals. Failure to do so may result in denial of claims or incorrect payment.

You represent that you have provided us with a Professional Roster that includes all of the following data elements for the physicians and other professionals on your staff:

- Name of Professional (first name, middle initial, last name)
- Degree (MD, DO, NP, PA, other)
- Gender (M/F)
- Provider Specialty(ies) (primary, secondary, additional specialties)
- Willing to be listed/assigned as a Primary Care Professional "PCP" (Y/N)
- State License Number
- Medicaid ID Number
- NPI Number
- Foreign Language(s)
- Admitting Hospital(s)

If any data element is not applicable to a specific professional, you will indicate "not applicable" in the appropriate field. Acceptable formats include in writing, electronically in Excel, ANSI, or text (comma delineated) formats.

Medical
Mississippi Medicaid Program
Regulatory Requirements Appendix

MISSISSIPPI MEDICAID PROGRAM

REGULATORY REQUIREMENTS APPENDIX

PROVIDER

THIS MISSISSIPPI MEDICAID PROGRAM REGULATORY REQUIREMENTS APPENDIX (this "Appendix") supplements and is made part of the provider agreement (the "Agreement") between HMO ("HMO") or one of its Affiliates and the party named in the Agreement ("Provider").

SECTION 1
APPLICABILITY

The requirements of this Appendix apply to Medicaid benefit plans sponsored, issued or administered by HMO under the Mississippi Coordinated Access Network Program (the "MississippiCAN Program") governed by the State's designated regulatory agencies. In the event of a conflict between this Appendix and other appendices or any provision of the Agreement, the provisions of this Appendix shall control except with regard to benefit plans outside the scope of this Appendix or unless otherwise required by law. In the event HMO is required to amend or supplement this Appendix as required or requested by the State to comply with federal or State regulations, HMO will unilaterally initiate such additions, deletions or modifications. All provider agreements must be in writing and must include all specific activities and report responsibilities delegated to the Provider by HMO.

SECTION 2
DEFINITIONS

Unless otherwise defined in this Appendix, all capitalized terms shall be as defined in the Agreement. For purposes of this Appendix, the following terms shall have the meanings set forth below; provided, however, in the event any definition set forth in this Appendix or the Agreement is inconsistent with any definitions under the MississippiCAN Program, the definitions shall have the meaning set forth under the MississippiCAN Program.

2.1 **Adverse Benefit Determination:** The denial or limited authorization of a requested service, including determinations on the type or level of service, requirements for medical necessity, appropriateness, setting, or effectiveness of a covered benefit; the reduction, suspension, or termination of previously authorized services; the denial, in whole or in part, of payment for a service; HMO's failure to provide services in a timely manner; HMO's failure to resolve Complaints, Grievances, or Appeals within the specified time frames; for residents in a rural area with only one MCO, the denial of a Covered Person's request to exercise his or her right, under 42 C.F.R. §438.52(b)(2)(ii); the denial of a Covered Person's request to dispute a financial liability, including cost sharing, copayments, premiums, deductibles, coinsurance, and other enrollee financial liabilities; and determinations by skilled nursing facilities and nursing facilities to transfer or discharge residents and adverse determinations made by a State with regard to the preadmission screening and annual resident review requirements of Section 1919(e)(7) of the Act, if applicable.

2.2 **Affiliate:** Those entities controlling, controlled by, or under common control with HMO.

2.3 **Appeal:** A request for review by HMO of an Adverse Benefit Determination related to a Covered Person or Provider. In the case of a Covered Person, an Adverse Benefit Determination may include determinations on the health care services a Covered Person believes he or she is entitled to receive, including delay in providing, arranging for, or approving the health care services (such that a delay would adversely affect the health of the Covered Person). In the case of a Provider, the Adverse Benefit Determination may include, but is not limited to, delay or non-payment for covered services.

2.4 **Behavioral Health Services:** Mental health and/or substance and alcohol use disorder treatment services that are provided by the county mental health/intellectual disability/developmental disability programs, the single county authority administrators, or other appropriately licensed health care practitioners.

2.5 **CMS:** Center for Medicare and Medicaid Services is an agency within the U.S. Department of Health & Human Services responsible for administration of several key federal health care programs.

2.6 **Complaint:** An expression of dissatisfaction received orally or in writing that is of a less serious or formal nature that is resolved within one (1) business day of receipt.

2.7 **Covered Person:** An individual who meets all of the eligibility requirements for Mississippi Medicaid and is currently enrolled with HMO for the provision of services under a MississippiCAN Program. A Covered Person may also be referred to as an Enrollee, Member or Customer under the Agreement.

2.8 **Covered Services:** Health care services or products for which a Covered Person is enrolled with HMO to receive coverage under the State Contract, including all services required by the State Contract and State and federal law.

2.9 **DOM:** Division of Medicaid, Office of the Governor, State of Mississippi.

2.10 **Early, Periodic, Screening, Diagnosis, and Treatment (EPSDT) Services:** Defined by DOM to include:

i) Age appropriate, comprehensive health and development history that includes physician and mental health assessments along with counseling and anticipatory guidance and risk factor reduction interventions;
ii) Calculation of Body Mass Index;
iii) Growth measurements and head circumference;
iv) Nutritional counseling;
v) Developmental surveillance and Developmental and autism Spectrum Disorders Screenings as appropriate;
vi) Comprehensive unclothed exam;
vii) Appropriate laboratory tests (including blood level assessment appropriate to age and risk);

viii) Appropriate immunizations in accordance with Recommended Childhood and Adolescent Immunization Schedule adopted by DOM;
ix) A vision assessment;
x) A hearing assessment;
xi) A dental screening and/or referral to dental care;
xii) Health education; and
xiii) Referrals for identified abnormalities.

2.11 Fraud and Abuse: Fraud is any type of intentional deception or misrepresentation made by an entity or person with the knowledge that the deception could result in some unauthorized benefit to the entity, him or herself, or some other person. The Fraud can be committed by many entities, including a vendor, a subcontractor, a provider, a State employee, or a Covered Person, among others. Abuse is any practice that is inconsistent with sound fiscal, business, or medical practices, and results in an unnecessary cost to the Medicaid program, a vendor, a subcontractor or Provider or in reimbursement for services that are not Medically Necessary or that fail to meet professionally recognized standards for health care.

2.12 Grievance: An expression of dissatisfaction about any matter or aspect of HMO or its operation, other than an Adverse Benefit Determination as defined herein. Grievances may include, but are not limited to, the quality of care or services provided, and aspects of interpersonal relationships such as rudeness of a provider or employee, or failure to respect the Covered Person's rights regardless of whether remedial action is requested. Grievance includes a Covered Person's right to dispute an extension of time proposed by HMO to make an authorization decision.

2.13 Marketing: The activities that promote visibility and awareness for the MississippiCAN Program and HMO's participation in the program. All marketing activities are subject to prior review and approval by DOM and may not contain misleading information.

2.14 Medical Record: A single complete record, which documents the entire treatment plan developed for, and medical services received by, the Covered Person including inpatient, outpatient, referral services and emergency medical services whether provided by contracted Providers or non-contracted providers.

2.15 Mississippi Coordinated Access Network (MississippiCAN) Program: Mississippi Medicaid's coordinated care program for select Medicaid Beneficiaries.

2.16 Primary Care Provider (PCP): Any physician or health care practitioner or group operating within the scope of his or her licensure who is responsible for supervising, prescribing and providing primary care and primary case management services in the MississippiCAN Program, whose practice is limited to the general practice of medicine or who is an Internist, Pediatrician, Obstetrician, Gynecologist, Family Practitioner, General Practitioner, Certified Nurse Practitioners whose specialty is pediatrics, adult, family, certified nurse midwife, obstetrics/gynecology, or a physician assistant.

2.17 Prior Authorization: A determination to approve a Provider's request, pursuant to services covered in the MississippiCAN Program, to provide a service or course of

treatment of a specific duration and scope to a Member prior to the initiation or continuation of the service.

2.18 Provider Network: The Panel of health service Providers with which HMO contracts for the provision of covered services to Covered Persons and Non-Contracted Providers administering services to Covered Persons.

2.19 State: The State of Mississippi or its designated regulatory agencies.

2.20 State Contract: HMO's contract with the State for the purpose of providing and paying for Covered Services to Covered Persons enrolled in the MississippiCAN Program.

2.21 Third Party Resource: Any resource available to a Covered Person for the payment of medical expenses associated with the provision of covered services, other than those which are exempt under Title XIX of the Act, including but not limited to, insurers and workers' compensation plan.

2.22 Urgent Care: Urgent care services are utilized because the Members primary care physician is not available. An urgent condition isn't life threatening but may need prompt attention. Urgent care services are for an illness, injury or condition serious enough that a reasonable person would seek care right away, but not so severe it requires emergency room care. Urgent care centers can typically treat things including, but not limited to, sprains, strains, minor broken bones.

SECTION 3
PROVIDER REQUIREMENTS

The MississippiCAN Program, through the State Contract and federal and State statutes and regulations, requires the Agreement to contain certain conditions that HMO and Provider agree to undertake, which include the following:

3.1 Definitions Related to the Provision of Covered Services. Provider shall follow the applicable State Contract's requirements for the provision of Covered Services. Provider's decisions affecting the delivery of acute or chronic care services to Covered Persons shall be made on an individualized basis and in accordance with the following definitions:

i) Emergency Medical Condition: A medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in any of the following: (a) placing the health of the individual (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; (b) serious impairment to body functions; or (c) serious dysfunction of any body organ or part.

ii) Emergency Services: Covered inpatient and outpatient services, inclusive of dialysis services, furnished by a provider who is qualified to furnish those health

services and that are needed to evaluate or stabilize an Emergency Medical Condition in accordance with 42 CFR 438.114.

iii) Medically Necessary Services: As set forth in the Social Security Act, Section 1905 (42 USC 1396d(a)), Medically Necessary Services are defined as services, supplies, or equipment provided by a licensed health care professional that are:

a) Appropriate and consistent with the diagnosis or treatment of the Covered Person's condition, illness, or injury;

b) In accordance with the standards of good medical practice consistent with the individual Covered Person's condition(s);

c) Not primarily for the personal comfort or convenience of the Member, family, or Provider;

d) The most appropriate services, supplies, equipment, or levels of care that can be safely and efficiently provided to the Covered Person;

e) Furnished in a setting appropriate to the Covered Person's medical need and condition and, when applied to the care of an inpatient, further mean that the Covered Person's medical symptoms or conditions require that the services cannot be safely provided to the Covered Person as an outpatient;

f) Not experimental or investigational or for research or education;

g) Provided by an appropriately licensed practitioner; and

h) Documented in the patient's record in a reasonable manner, including the relationship of the diagnosis to the service.

Medically Necessary Services may also be those services for children that are necessary to correct or ameliorate defects and physical and mental illnesses and conditions discovered during an interperiodic or periodic EPSDT screen, whether such services are covered or exceed the benefit limits in the Medicaid State Plan and Title 23 of Mississippi Administrative Code.

iv) Urgent Care: Urgent care services are utilized because the Covered Person's primary care physician is not available. An urgent condition is not life threatening but may need prompt attention. Urgent care services are for an illness, injury or condition serious enough that a reasonable person would seek care right away, but not so severe it requires emergency room care.

3.2 Provider Eligibility. Provider must be enrolled in the Mississippi Medicaid program and must use the same National Provider Identifier (NPI) number to participate in HMO's Network. Upon notification from the State that Provider's enrollment has been denied or terminated, HMO must terminate Provider immediately and will notify affected Covered Persons that Provider is no longer participating in the network. HMO will exclude from its

network any provider who has been terminated or suspended from the Medicare or Medicaid program in any state.

3.3 Accessibility Standards. Provider shall provide for timely access for Covered Person appointments in accordance with the appointment availability requirements established under the State Contract, as further described in the applicable provider manual.

Type	Appointment Scheduling Time Frames
PCP (well care visit)	Not to exceed thirty (30) calendar days
PCP (routine sick visit)	Not to exceed seven (7) calendar days
PCP (urgent care visit)	Not to exceed twenty-four (24) hours
Specialists	Not to exceed forty-five (45) calendar days
Dental Providers (routine visits)	Not to exceed forty-five (45) calendar days
Dental Providers (urgent Care)	Not to exceed forty-eight (48) hours
Behavioral Health Providers (routine visit)	Not to exceed fourteen (14) calendar days
Behavioral Health Providers (urgent visit)	Not to exceed twenty-four (24) hours
Behavioral Health Providers (post-discharge from an acute psychiatric hospital when the Contractor is aware of the Member's discharge)	Not to exceed seven (7) calendar days
Urgent Care Providers	Not to exceed twenty-four (24) hours
Emergency Providers	Immediately (twenty-four (24) hours a day, seven (7) days a week) and without Prior Authorization

3.4 Hours of Operation; Appointments. Provider shall offer hours of operation that are no less than the hours of operation offered to commercial beneficiaries or comparable to Medicaid fee-for-service if Provider serves only Medicaid beneficiaries. As applicable, Provider will make Covered Services available 24 hours a day, 7 days a week when medically necessary.

3.5 Hold Harmless. Except for any applicable cost-sharing requirements under the State Contract, Provider shall look solely to HMO for payment of Covered Services provided to Covered Persons pursuant to the Agreement and the State Contract and hold the State, DOM, the U.S. Department of Health and Human Services and Covered Persons harmless in the event that HMO cannot or will not pay for such Covered Services. In accordance with 42 CFR 447.15, as may be amended from time to time, the Covered Person is not liable to Provider for any services for which HMO is liable and as specified under the State's relevant health insurance or managed care statutes, rules or administrative agency guidance. Provider shall not require any copayment or cost sharing for Covered Services provided under the Agreement unless expressly permitted under the State Contract.

Provider shall also be prohibited from charging Covered Persons for missed appointments if such practice is prohibited under the State Contract or applicable law. Neither the State, DOM nor Covered Persons shall be in any manner liable for the debts and obligations of HMO and under no circumstances shall HMO, or any providers used to deliver services covered under the terms of the State Contract, charge Covered Persons for Covered Services.

Covered Person may be responsible for non-covered item(s) and/or service(s), only if the Provider ensures that written documentation in compliance with the Advance Beneficiary Notification (ABN) is received from the Covered Person that an item(s) or service(s) rendered is a non-covered item and/or service(s) and that the Covered Person will be financially responsible for the item(s) and/or service(s). If HMO determines a Covered Person was charged for Covered Services inappropriately, such payment may be recovered, as applicable.

This provision shall survive any termination of the Agreement, including breach of the Agreement due to insolvency.

3.6 **Indemnification.** To the extent applicable to Provider in performance of the Agreement, Provider shall indemnify, defend, protect, save and hold DOM and its employees and Covered Persons harmless from and against all injuries, deaths, losses, damages, claims, suits, liabilities, judgments, costs and expenses, including, without limitation, court costs, investigative fees and expenses and attorney fees, to the extent proximately caused by any negligent act or other intentional misconduct or omission of Provider, its agents, officers, employees or contractors arising from the Agreement. DOM may waive this requirement for public entities if Provider is a state agency or sub-unit as defined by the State or a public health entity with statutory immunity. This clause shall survive the termination of the Agreement for any reason, including breach due to insolvency.

3.7 **Provider Selection.** To the extent applicable to Provider in performance of the Agreement, Provider shall comply with 42 CFR 438.214, as may be amended from time to time, which includes, but is not limited to the selection and retention of providers, credentialing and recredentialing requirements and nondiscrimination. If HMO delegates credentialing to Provider, HMO will provide monitoring and oversight and Provider shall ensure that all licensed medical professionals are credentialed in accordance with HMO's and the State Contract's credentialing requirements.

3.8 **Restrictions on Referrals.** Provider shall not make inappropriate referrals for designated health services to health care entities with which Provider or a member of Provider's family has a financial relationship, pursuant to federal anti-kickback and physician self-referral laws that prohibit such referrals.

3.9 **Records Retention.** As required under State or federal law or the State Contract, Provider shall maintain an adequate record keeping system for recording services, charges, dates and all other commonly accepted information elements sufficient to disclose the quality, quantity, appropriateness and timeliness of services rendered to Covered Persons. All financial records shall follow generally accepted accounting principles. Medical records and supporting management systems shall include all pertinent information related to the

medical management of each Covered Person. Other records shall be maintained as necessary to clearly reflect all actions taken by Provider related to services provided under the State Contract. Such records, including, as applicable, grievance and appeal records shall be maintained for a period of not less than ten (10) years from the close of the Agreement, or such other period as required by law. If records are under review or audit, they must be retained for a minimum of ten (10) years following resolution of such action. Prior approval for the disposal of records must be requested and approved by HMO if the Agreement is continuous.

3.10 Records Access. Provider agrees to cooperate with HMO to maintain and share a health record of all services provided to a Covered Person, as appropriate and in accordance with applicable laws, regulations and professional standards. Provider acknowledges and agrees that the State, DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel shall have complete access to all records pertaining to services provided to Covered Persons. Provider shall provide immediate access to facilities, records and supportive materials pertinent to the State Contract for State or Federal fraud investigators. Copies of requested documents shall be provided to the State, DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel or their designees free of charge.

3.11 Government Audit; Investigations. Provider acknowledges and agrees that the State and the U.S. Department of Health and Human Services, the Centers for Medicare & Medicaid Services, the Office of Inspector General, the General Accounting Office, or any other auditing agency and their designees or their authorized representatives, with prior approval by DOM, shall, at all reasonable time, with or without notice, have the right to inspect, audit or otherwise evaluate the quality, appropriateness, and timeliness of services provided under the terms of the State Contract and any other applicable rules, including the right to inspect and audit any records or documents of Provider and its subcontractors, and the right to inspect the premises, physical facilities, and equipment where Medicaid-related activities or work is conducted. The right to audit under this section exists for 10 years from the end date of the State Contract or from the date of completion of any audit, whichever is later. There shall be no restrictions on the right of the State or federal government to conduct whatever inspections and audits are necessary to assure quality, appropriateness or timeliness of services provided pursuant to the State Contract and the reasonableness of their costs.

3.12 Privacy; HIPAA. Provider shall comply with all applicable privacy rule and security rule provisions of the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), and associated implementing regulations, as may be amended from time to time, and shall safeguard information about Covered Persons in accordance with applicable federal and State privacy laws and rules including 42 CFR 438.224 and 42 CFR Part 431, Subpart F, as may be amended from time to time. HMO agrees and shall require Provider to agree that confidential information, including but not limited to medical and other pertinent information relative to Covered Persons, shall not be disclosed to any person or organization for any purpose without the expressed, written authority of DOM or as otherwise required by law and that all such disclosures shall fully comply with HIPAA privacy and security standards.

3.13 Compliance with Law. Provider shall comply with all applicable federal and State laws and regulations, and all provisions of the State Contract, that pertain to a Covered Person's rights, including but not limited to the following to the extent applicable to Provider in performance of the Agreement:

i) Title VI of the Civil Rights Act of 1964; Title XIX of the Social Security Act; Title IX of the Education Amendments of 1972 (regarding education programs and activities); the Age Discrimination Act of 1975; the Rehabilitation Act of 1973; The Genetic Information Non-Discrimination Act of 2008 (GINA); the Americans with Disabilities Act; section 1557 of the Patient Protection and Affordable Care Act, and their implementing regulations, as may be amended from time to time.

ii) All relevant federal and State statutes, regulations and orders related to equal opportunity in employment, including but not limited to compliance with E.O. 11246, "Equal Employment Opportunity," as amended by E.O. 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

iii) All federal and State professional and facility licensing and accreditation requirements/standards that apply to the services HMO and Provider perform pursuant to the Agreement, including but not limited to:

a) All applicable standards, orders or requirements issued under Section 306 of the Clean Air Act (42 USC 1857 (h)). Section 508 of the Clean Water Act (33 USC 1368), Executive Order 11738, and Environmental Protection Agency (EPA) regulations (40) CFR Part 15), which prohibit the use of facilities included on the EPA list of violating facilities. Any violations must be reported to DSHS, DHHS, and the EPA;

b) Any applicable mandatory standards and policies relating to energy efficiency that are contained in the State Energy Conservation Plan, including the Energy Policy & conservation Act (Pub. L. 94-165), and issued in compliance with the Federal Energy Policy & Conservation Act.

c) Those specified for laboratory services in the Clinical Laboratory Improvement Amendments (CLIA). All laboratory service sites must have a CLIA certificate of registration or waiver, and a CLIA identification number.

d) Section 1128B(d)(1) of the Balanced Budget Act of 1997; and,

e) Any other requirements associated with the receipt of federal funds.

iv) All Medicaid laws, regulations and program instructions to the extent applicable to Provider in Provider's performance of the Agreement. Provider understands that payment of a claim by HMO or the State is conditioned upon the claim and the underlying transaction complying with such laws, regulations, and program

instructions (including, but not limited to, federal requirements on fraud, waste and abuse, disclosure, debarment, termination and exclusion screening), and is conditioned on the Provider's compliance with all applicable conditions of participation in Medicaid. Provider understands and agrees that each claim the Provider submits to HMO constitutes a certification that the Provider has complied with all applicable Medicaid laws, regulations and program instructions in connection with such claims and the services provided therein. Provider's payment of a claim will be denied if Provider is terminated or excluded from participation in federal healthcare programs. Provider's payment of a claim may be temporarily suspended if the State or HMO provides notice that a credible allegation of fraud exists and there is a pending investigation. Provider's payment of a claim may also be temporarily suspended or adjusted if the Provider bills a claim with a code that does not match the service provided. HMO performs coding edit procedures based primarily on National Correct Coding Initiative (NCCI) policies and other nationally recognized and validated policies. Provider agrees that it will provide medical records to HMO upon its request in order to determine appropriateness of coding. Provider may dispute any temporarily suspended or adjusted payment consistent with the terms of the Agreement.

3.14 Physician Incentive Plans. In the event Provider participates in a physician incentive plan ("PIP") under the Agreement, Provider agrees that such PIPs must comply with 42 CFR 417.479, 42 CFR 438.3(i), 42 CFR 422.208, and 42 CFR 422.210, as may be amended from time to time. Neither HMO nor Provider may make a specific payment directly or indirectly under a PIP to a physician or physician group as an inducement to reduce or limit Medically Necessary services furnished to an individual Covered Person. PIPs must not contain provisions that provide incentives, monetary or otherwise, for the withholding of services that meet the definition of Medical Necessity.

3.15 Lobbying. Provider agrees to comply with the following requirements related to lobbying:

i) Prohibition on Use of Federal Funds for Lobbying: By signing the Agreement, Provider certifies to the best of Provider's knowledge and belief, pursuant to 31 U.S.C. Section 1352 and 45 CFR Part 93, as may be amended from time to time, that no federally appropriated funds have been paid or will be paid to any person by or on Provider's behalf for the purpose of influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

ii) Disclosure Form to Report Lobbying: If any funds other than federally appropriated funds have been paid or will be paid to any person for the purpose of influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the award of any federal contract, the making of any federal grant, the

making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment or modification of any federal contract, grant, loan, or cooperative agreement and the value of the Agreement exceeds $100,000, Provider shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3.16 Excluded Individuals and Entities. Provider certifies that neither it nor any of its employees, principals, nor any providers, subcontractors or consultants or persons with an ownership or controlling interest in the Provider (an owner including the Provider himself or herself), or an agent or managing employee of the Provider, with whom Provider contracts and who are providing items or services that are significant and material to Provider's obligations under the Agreement is:

i) excluded from participation in federal health care programs under either Section 1128 or section 1128A of the Social Security Act; or

ii) debarred, suspended or otherwise excluded from participating in procurement activities under the Federal Acquisition Regulation or from participating in nonprocurement activities under regulations issued under Executive Order no. 12549 or under guidelines implementing Executive Order No. 12549; or an affiliate, as defined in the Federal Acquisition Regulation, of such a person.

Provider acknowledges and agrees that payment will not be made for any items or Covered Services provided by an excluded individual pursuant to 42 CFR 1001.1901(b) and is obligated to screen all employees, contractors, and subcontractors for exclusion as required under applicable State and Federal laws. Additionally, Provider acknowledges that pursuant to 42 CFR 1003.102(a)(2) civil monetary penalties may be imposed against Provider if he or she employs or enters into contracts with excluded individuals or entities to provide items or Covered Services to Covered Persons under this Agreement. Provider agrees not to employ or subcontract with individuals or entities whose owner, those with a controlling interest, or managing employees are on a State or Federal exclusion list to provide items or Covered Services under this Agreement. Provider shall immediately report to HMO any exclusion information discovered. Provider can search the HHS-OIG website, at no cost, by the names of any individuals or entities. The database is called LEIE and can be accessed at http://www.oig.hhs.gov/fraud/exclusions.asp. The GSA EPLS/SAM database can be accessed at https://www.sam.gov. Federal and State exclusion databases must be reviewed monthly to ensure that no employee or contractor has been excluded. Applicable state exclusion databases can be accessed through the State's Medicaid website. HMO will terminate the Agreement immediately and exclude from its network any provider who has been excluded from federal health care programs or terminated from the Medicare or the Medicaid program in any state. HMO may also terminate the Agreement if Provider or Provider's owners, agents, or managing employees are found to be excluded on a State or Federal exclusion list.

3.17 Disclosure. Provider must be screened and enrolled in the State's Medicaid program and submit disclosures to the DOM related to ownership and control, significant business transactions, and persons convicted of crimes in accordance with 42 CFR Part 455 .Provider must submit information related to ownership and control of subcontractors or

wholly owned suppliers within thirty-five (35) calendar days of a request for such information in accordance with 42 CFR 455.105. Additionally, Provider must cooperate with DOM for submission of fingerprints upon a request from DOM or CMS in accordance with 42 CFR 455.434.

By executing this Agreement, Provider certifies that neither Provider nor any of its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in any State or federal health care program or from participating in transactions by any State or federal department or agency. HMO will terminate the Agreement upon becoming aware or receiving notice from DOM, whichever is earlier, that Provider is or has been excluded from participation in any State or federal health care program or by any State or federal agency.

3.18 Cultural Competency and Access. Provider shall participate in HMO's and the State's efforts to promote the delivery of services in a culturally competent manner to all Covered Persons, including those with limited English proficiency, physical or mental disabilities, diverse cultural and ethnic backgrounds and regardless of gender, sexual orientation or gender identity, and shall provide interpreter services in a Covered Person's primary language and for the hearing impaired for all appointments and emergency services. Provider shall provide information to Covered Persons regarding treatment options and alternatives, as well as information on complaints and appeals, in a manner appropriate to the Covered Person's condition and ability to understand. Provider shall provide physical access, reasonable accommodations, and accessible equipment for Covered Persons with physical or mental disabilities.

3.19 Marketing. As required under State or federal law or the applicable State Contract, any marketing materials developed and distributed by Provider as related to the performance of the Agreement must be submitted to HMO at least sixty (60) days prior to planned distribution for timely submission to DOM for prior approval. Provider agrees it will not proceed with the statement or communication until the required approval is obtained.

3.20 Fraud, Waste and Abuse Prevention. Provider shall cooperate fully with HMO's policies and procedures designed to protect program integrity and prevent and detect potential or suspected fraud, waste, and abuse in the administration and delivery of services under the State Contract and shall cooperate and assist DOM and any other State or federal agency charged with the duty of preventing, identifying, investigating, sanctioning or prosecuting suspected fraud, waste, and abuse in state and/or federal health care programs.

In accordance with HMO's policies and the Deficit Reduction Act of 2005 (DRA), Provider shall have written policies for its employees, contractors or agents that: (a) provide detailed information about the federal False Claims Act (established under sections 3729 through 3733 of title 31, United States Code), including if any entity makes or receives annual payments under the State Program of at least $5,000,000, such entity must establish certain minimum written policies and information communicated through an employee handbook relating to the Federal False Claims Act in accordance with 42 CFR 438.600; (b) cite administrative remedies for false claims and statements (established under chapter 38 of title 31, United States Code) and whistleblower protections under federal and state laws; (c) reference state laws pertaining to civil or criminal penalties for false claims

and statements; and (d) with respect to the role of such laws in preventing and detecting fraud, waste, and abuse in federal health care programs (as defined in section 1128B(f)), include as part of such written policies, detailed provisions regarding Provider's policies and procedures for detecting and preventing fraud, waste, and abuse. Provider agrees to train its staff on the aforesaid policies and procedures.

3.21 Data; Reports. Provider shall cooperate with and release to HMO any information necessary for HMO to perform its obligations under the State Contract to the extent applicable to Provider in performance of the Agreement, including the timely submission of reports and information required by HMO, in the format specified by HMO and the State. Such reports shall include child health check-up reporting, if applicable, as well as complete and accurate encounter data in accordance with the requirements of HMO and the State. Data must be provided at the frequency and level of detail specified by HMO or the State. By submitting data to HMO, Provider represents and attests to HMO and the State that the data is accurate, complete and truthful, and upon HMO's request Provider shall certify in writing, that the data is accurate, complete, and truthful, based on Provider's best knowledge, information and belief.

Provider shall be able to receive, maintain and utilize applicable data extracts from HMO or DOM and systematically update its database within five (5) calendar days of receipt of the files. Data extract files include but are not limited to the following, as applicable: 1. Daily Active Provider Extract; 2. Weekly Provider Affiliation Details Extract; 3. 834 Enrollment Files; 4. 835 Claims Payment Remittance Advice Transaction; 5. 277 Claims Acknowledgement; 6. NCPDP Formulary; 7. NCPDP Response File; 8. TPL Resource/Policy Information File, etc.; 9. Claims History Extracts; and 10. Prior Authorization Extracts.

3.22 Encounter Data. Provider agrees to cooperate with HMO to comply with HMO's obligation to prepare encounter data submissions, reports, and clinical information including, without limitation, child and adolescent health check-up reporting, EPSDT encounters, and cancer screening encounters, as applicable, and such other reporting regarding Covered Services as may be required under the State Contract. Encounter data must be accurate and include all services furnished to a Covered Person, including capitated provider's data and rendering provider information. Encounter data must be provided within the timeframes specified and in a form that meets HMO and State requirements. By submitting encounter data to HMO, Provider represents to HMO that the data is accurate, complete and truthful, and upon HMO's request Provider shall certify in writing, that the data is accurate, complete, and truthful, based on Provider's best knowledge, information and belief.

3.23 Claims Information. Provider shall promptly submit to HMO the information needed to make payment and shall identify third party liability coverage, including Medicare and other insurance, and if applicable seek such third party liability payment before submitting claims to HMO. Provider understands and agrees that each claim Provider submits to HMO constitutes a certification that the claim is true and accurate to the best of Provider's knowledge and belief and that the Covered Services are 1) Medically Necessary and 2) have been provided to the Covered Person prior to submitting the claim.

Effective July 1, 2014, Provider must submit claims within six (6) months from the date of service. Claims filed within the appropriate time frame but denied may be resubmitted to the Contractor within ninety (90) calendar days from the date of denial

3.24. Electronic Visit Verification. Provider shall cooperate with State requirements for electronic visit verification for personal care services and home health services, as applicable.

3.25 Licensure. Provider represents that it is currently licensed and/or certified under applicable State and federal statutes and regulations and by the appropriate State licensing body or standard-setting agency, as applicable. Provider represents that it is in compliance with all applicable State and federal statutory and regulatory requirements of the Medicaid program and that it is eligible to participate in the Medicaid program. Provider represents that it does not have a Medicaid provider agreement with DOM that is terminated, suspended, denied, or not renewed as a result of any action of DOM, CMS, HHS, or the Medicaid Fraud Control Unit of the State's Attorney General. Provider shall maintain at all times throughout the term of the Agreement all necessary licenses, certifications, registrations and permits as are required to provide the health care services and/or other related activities delegated to Provider by HMO under the Agreement. If at any time during the term of the Agreement, Provider is not properly licensed as described in this Section, Provider shall discontinue providing services to Covered Persons. As applicable, if Provider performs any laboratory tests on human specimens for the purpose of diagnosis and/or treatment, Provider agrees to acquire and maintain the appropriate CLIA certification or waiver for the type of laboratory testing performed. Provider further agrees to provide a copy of the certification if requested by HMO. A State authorized license or permit that meets the CLIA requirements may be substituted for the CLIA certificate pursuant to State law. Medicare and Medicaid programs require the applicable CLIA certification or waiver for the type of services performed as a condition of payment. Provider must include the appropriate CLIA certificate or waiver number on claims submitted for payment for laboratory services.

3.26 Quality; Utilization Management. Pursuant to any applicable provider manuals and related protocols, or as elsewhere specified under the Agreement, Provider agrees to cooperate with HMO's quality improvement and utilization review and management activities. This shall include, but not be limited to, participation in any internal and external quality assurance, utilization review, peer review, and grievance procedures established by HMO or as required under the State Contract to ensure that Covered Persons have due process for their complaints, grievances, appeals, fair hearings or requests for external review of adverse decisions made by HMO or Provider. Provider shall adhere to the quality assurance and utilization review standards of the MississippiCAN Program and shall monitor quality and initiate corrective action to improve quality consistent with the generally accepted level of care.

3.27 Non-Discrimination. Provider will not discriminate against, nor use any policy or practice that has the effect of discriminating against, Covered Persons on the basis of race, color, creed, sex, religion, age, national origin, ancestry, marital status, sexual orientation, gender identity, language, health status, disease or pre-existing condition (including genetic

information), anticipated need for health care or physical or mental handicap, except where medically indicated. Examples of prohibited practices include, but are not limited to, the following:

i) Denying or not providing a Covered Person any Medicaid Covered Service. Health care and treatment necessary to preserve life must be provided to all Covered Persons who are not terminally ill or permanently unconscious, except where a competent Covered Person objects to such care on his/her own behalf.

ii) Subjecting a Covered Person to segregated, separate, or different treatment, including a different place or time from that provided to other Covered Persons or public or private patients, in any manner related to the receipt of any Medicaid Covered Service, except where Medically Necessary.

iii) The assignment of times or places for the provision of services on the basis of the race, color, creed, religion, age, sex, national origin, ancestry, marital status, sexual orientation, gender identity, income status, program membership, language, health status, disease or pre-existing condition, anticipated need for health care or physical or mental disability of the Covered Persons to be served.

3.28 Advance Directives. Provider shall comply with the advance directives requirements set forth in the Uniform Health-Care Decisions Act, Section 41-41-215 of the Mississippi Code. When applicable, Provider shall comply with the advance directives requirements for hospitals, nursing facilities, providers of home and health care and personal care services, hospices, and HMOs as specified in 42 CFR Part 49, subpart I, 42 CFR § 417.436(d), 42 CFR § 422.128, and 42 CFR 438.3(i).

3.29 National Provider ID (NPI). Provider shall obtain a National Provider Identification Number (NPI) and when filing claims with HMO, the NPI used is the same NPI used when filing claims with DOM.

3.30 Termination. In the event of termination of the Agreement, Provider shall promptly supply to HMO all information necessary for the reimbursement of any outstanding Medicaid claims.

3.31 Complaints; Grievances and Appeals. Information on how Provider or Provider's authorized representative can submit complaints and file grievances and appeals, and the resolution process, is contained in the applicable provider manual.

3.32 Health Care Acquired/Preventable Conditions. Provider agrees that no payment shall be made for the provision of medical assistance for health care acquired conditions and other provider preventable conditions as may be identified by the State. As a condition of payment, Provider shall identify and report to HMO any provider preventable conditions in accordance with 42 CFR §§ 434.6(a)(12), 438 including but not limited to 438.3(g), and 447.26.

3.33 Quality and Utilization Management Program. Provider shall cooperate with HMO in meeting the Quality Management and Utilization Management Program standards outlined

in the State Contract including, without limitation, any external evaluations and assessments of HMO's performance authorized by DOM under the State Contract and conducted by DOM's contracted External Quality Review Organization (EQRO) or other designee.

3.34 Referrals. Provider shall make referrals for social, vocational, education or human services when a need for such service is identified.

3.35 Insolvency. In the event HMO becomes insolvent or unable to pay Provider, Provider shall not seek compensation for services rendered from the State, DOM, their officers, Agents, or employees, or the Covered Persons or their eligible dependents.

3.36 Third Party Resources. Provider will report all third party resources to HMO identified through the provision of medical services.

3.37 Compliance with Mississippi Employment Protection Act (MEPA). Provider represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act, Section 71-11-1 et set of the Mississippi Code Annotated (Supp. 2008), and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. Provider agrees to maintain records of such compliance and, upon request of the State and approval of the Social Security Administration or Department of Homeland Security, where required, to provide a copy of each such verification to the State. Provider further represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of the State of Mississippi. Provider understands and agrees that any breach of these warranties may subject Provider to the following: (a) termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public, or (b) the loss of any license, permit, certification or other document granted to Provider by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year, or (c) both.

3.38 Capitated Providers. If Provider is capitated and terminates its agreement with HMO, for any reason, Provider will provide services to Covered Persons assigned to Provider up to the end of the month in which the effective date of termination falls.

3.39 Certification on Relationship to State, DOM and CMS. Provider certifies that no officer, director, employee, subcontractor or agent of Provider, or person with an ownership or control interest in Provider, is also employed by, or is a public official of, the State of Mississippi or any of its agencies, DOM or CMS.

3.40 Funding. Provider recognizes that the obligation of DOM to proceed under its Contract with HMO is conditioned upon the appropriation of funds by the Mississippi State

Legislature and the receipt of State and/or Federal funds. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, either through the failure of the Federal government to provide or the State of Mississippi to appropriate funds, or the discontinuance, or material alteration of the program under which the funds were provided or if funds are not otherwise available to DOM, DOM has the right upon ten (10) working days written notice to HMO to terminate the Contract.

3.41 Gratuities. Provider represents that it has not violated, is not violating, and promises that it will not violate the prohibitions against gratuities set forth in Section 6-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

3.42 Assignment/Delegation. Provider shall not assign or delegate the Agreement without the express written consent of HMO or DOM. If Provider subcontracts or delegates any functions of the Agreement, in accordance with the terms of the Agreement and with the express written consent of HMO or DOM, the subcontract or delegation must be in writing and include all of the requirements of this Appendix, and applicable requirements of the State Contract, and applicable laws and regulations. The transfer of five percent (5%) or more of the beneficial ownership in Provider at any time during the term of this Agreement shall be deemed an assignment under this Agreement.

3.43 Notice of Legal Action. Immediately upon obtaining knowledge or receiving notice of any legal action or notice listed below, Provider shall provide to HMO written notice of such legal action or notice and, upon request by HMO, a complete copy of all filings and other documents generated in connection with any such legal action:

i. Any action, suit or counterclaim filed against Provider;

ii. Any regulatory action, or proposed action, respecting Provider's business or operations;

iii. Any notice received by Provider from the Department of Insurance or the State Health Officer;

iv. The filing of a petition in bankruptcy by or against Provider, or the insolvency of Provider;

v. The conviction of any person who has an ownership or control interest in Provider, or who is an agent or managing employee of Provider, of a criminal offense related to that person's involvement in any program under Medicare, Medicaid, or Title XX of the Social Security Act; or

vi. A malpractice action against any Provider delivering service under an agreement.

3.44 Federal and State Funds Liability. Providers acknowledges and agrees that payments made to Provider for services provided under the Agreement are derived from federal and State funds and that any false claim or statement in documents or any concealment of material fact related to such services may be a cause for sanctions and prosecution under applicable federal and State laws. Provider shall be subject to all laws applicable to

individuals and entities receiving State and federal funds and may be held civilly or criminally liable to both HMO and DOM in the event of nonperformance, misrepresentation, fraud, or abuse related to services provided pursuant to the State Contract. Provider recognizes that payments made to the Provider are derived from federal and State funds, and are contingent upon and subject to availability and receipt of funds.

3.45 Insurance Requirements. As applicable, Provider shall secure and maintain during the term of the Agreement insurance appropriate to the services to be performed under the Agreement. Provider shall require that its providers secure and maintain during the term of the Agreement general liability insurance, professional liability insurance, and workers' compensation insurance for all employees connected with the provision of services under the Agreement. Such workers compensation insurance shall comply with Mississippi Workers' Compensation Laws. Such comprehensive general liability insurance and professional liability insurance shall provide coverage in an amount established by HMO pursuant to the Agreement or as required under the State Contract.

3.46 Overpayment. Provider shall to report to HMO when it has received an overpayment and will return the overpayment to HMO within 60 calendar days after the date on which the overpayment was identified. Provider will notify HMO in writing of the reason for the overpayment.

SECTION 4
ADDITIONAL PROVIDER REQUIREMENTS FOR SPECIFIC ACTIVITIES

4.1 Behavioral Health Providers. Behavioral Health Providers shall ensure that all Covered Persons receiving inpatient psychiatric services are scheduled for outpatient follow-up and/or continuing treatment prior to discharge from the inpatient psychiatric hospital if the Provider is aware of the Covered Person's inpatient hospitalization status. Behavioral Health Providers will be provided daily reports identifying Covered Persons known to be admitted to an inpatient facility. Behavioral Health Services will be delivered in compliance with the requirements of 42 CFR 438 subpart K insofar as those requirements are applicable.

4.2 PCP Responsibilities. Providers acting as PCPs shall meet the following requirements:

i) PCPs who serve Covered Persons under the age of twenty-one (21) are responsible for conducting all EPSDT screens for individuals on their Panel under the age of twenty-one (21). Should the PCP be unable to conduct the necessary EPSDT screens, the PCP is responsible for arranging to have the necessary EPSDT screens conducted by another network Provider and ensure that all relevant medical information, including the results of the EPSDT screens, are incorporated into the Covered Person's PCP Medical Record.

ii) PCPs who serve Members under the age of twenty-one (21) report encounter data associated with EPSDT screens, using a format approved by DOM, to the Contractor within ninety (90) calendar days from the date of service.

iii) PCPs are responsible for contacting new Members identified in the quarterly encounter lists sent by the Contractor that indicate who has not had an encounter during the first six (6) months of Enrollment. The PCP shall:

a) Contact Covered Persons identified in the quarterly Encounter lists as not complying with EPSDT periodicity and immunization schedules for children;

b) Identify to HMO any such Covered Persons who have not come into compliance with the EPSDT periodicity and immunization schedules within one (1) month of such notification to the site by HMO; and

c) Document the reasons for noncompliance, where possible, and to document its efforts to bring the Covered Person's care into compliance with the standards.

4.3 Specialists as PCPs. Covered Persons with disabling conditions, chronic illnesses, or child(ren) with special health care needs may request that their PCP be a specialist. The designation of a specialist as a PCP must be pursuant to a treatment plan approved by HMO, in consultation with the PCP to which the Covered Person is currently assigned, the Covered Person and, as appropriate, the specialist.

The specialist as a PCP shall provide or arrange for all primary care, including routine preventive care, and to provide those specialty medical services consistent with the Covered Person's disabling condition, chronic illness, or special health care need in accordance with HMO's standards and within the scope of the specialty training and clinical expertise.

The specialist as a PCP shall have admitting privileges at a hospital in HMO's network.

4.4 Long-Term Services and Supports (LTSS) Providers. Any LTSS Covered Services under the State Contract that could be authorized through a waiver under section 1915(c) of the Social Security Act (the "Act") or a State Program amendment authorized through sections 1915(i) or 1915(k) of the Act must be delivered in settings consistent with 42 CFR 441.301(c)(4).

SECTION 5
HMO REQUIREMENTS

5.1 Prompt Payment. HMO shall pay Provider pursuant to the State Contract and applicable State and federal law and regulations, including but not limited to Mississippi Code Section 83-9-5, 42 CFR 447.46, 42 CFR 447.45(d)(2), 42 CFR 447.45(d)(3), 42 CFR 447.45(d)(5) and 42 CFR 447.45(d)(6), as applicable and as may be amended from time to time. If a third party liability exists, payment of claims shall be determined in accordance with federal and/or State third party liability law and the terms of the State Contract. Unless HMO otherwise requests assistance from Provider, HMO will be responsible for third party collections in accordance with the terms of the State Contract.

5.2 No Incentives to Limit Medically Necessary Services. HMO shall not structure compensation provided to individuals or entities that conduct utilization management and concurrent review activities so as to provide incentives for the individual or entity to deny, limit, or discontinue Medically Necessary services to any Covered Person.

5.3 Provider Discrimination Prohibition. HMO shall not discriminate with respect to participation, reimbursement, or indemnification of a provider who is acting within the scope of the provider's license or certification under applicable State law, solely on the basis of such license or certification. HMO shall not discriminate against Provider for serving high-risk Covered Persons or if Provider specializes in conditions requiring costly treatments. This provision shall not be construed as prohibiting HMO from limiting a provider's participation to the extent necessary to meet the needs of Covered Persons. This provision also is not intended and shall not interfere with measures established by HMO that are designed to maintain quality of care practice standards and control costs.

5.4 Communications with Covered Persons. Covered Persons are entitled to the full range of their Providers' opinions and counsel about the availability of Medically Necessary Services under the provisions of the State Contract. Any contractual provisions, including gag clauses or rules, that restrict a Provider's ability to advise Covered Persons about Medically Necessary treatment options violate federal law and regulations.

HMO shall not prohibit or otherwise restrict Provider, when acting within the lawful scope of practice, from advising or advocating on behalf of a Covered Person for the following:

i) The Covered Person's health status, medical care, or treatment options, including any alternative treatment that may be self-administered;

ii) Any information the Covered Person needs in order to decide among all relevant treatment options;

iii) The risks, benefits, and consequences of treatment or non-treatment;

iv) The Covered Person's right to participate in decisions regarding his or her health care, including the right to refuse treatment, and to express preferences about future treatment decisions; or

v) Information regarding the nature of treatment options including those that may not reflect HMO's position or may not be covered by HMO.

HMO also shall not prohibit a Provider from advocating on behalf of a Covered Person in any grievance system, utilization review process, or individual authorization process to obtain necessary health care services.

5.5 Termination, Revocation and Sanctions. In addition to its termination rights under the Agreement, HMO shall have the right to revoke any functions or activities HMO delegates to Provider under the Agreement or impose other sanctions consistent with the State Contract if in HMO's reasonable judgment Provider's performance under the Agreement is inadequate. HMO shall also have the right to suspend, deny, refuse to renew or terminate

Provider in accordance with the terms of the State Contract and applicable law and regulation. However, HMO shall not exclude or terminate a Provider from participation in HMO's Provider Network due to the fact that the Provider has a practice that includes a substantial number of patients with expensive medical conditions, and shall not terminate a Provider for filing a Complaint, Grievance, or Appeal on a Covered Person's behalf.

5.6 Rights of DOM. DOM shall have the right to invoke against Provider any remedy set forth in the State Contract, including the right to require the termination of the Agreement, for each and every reason for which it may invoke such a remedy against HMO or require termination of the State Contract. Suspected Fraud and Abuse by Provider will be investigated by DOM.

SECTION 6
OTHER REQUIREMENTS

6.1 Compliance with State Contract. All tasks performed under the Agreement shall be performed in accordance with the requirements of the applicable State Contract, as set forth in this Appendix, applicable provider manuals, and protocols, policies and procedures that HMO has provided or delivered to Provider. The applicable provisions of the State Contract are incorporated into the Agreement by reference. Nothing in the Agreement relieves HMO of its responsibility under the State Contract. If any provision of the Agreement is in conflict with provisions of the State Contract, the terms of the State Contract shall control and the terms of the Agreement in conflict with those of the State Contract will be considered waived.

6.2 Monitoring. HMO shall perform ongoing monitoring (announced or unannounced) of services rendered by Provider under the Agreement and shall perform periodic formal reviews of Provider according to a schedule established by the State, consistent with industry standards or State managed care organization laws and regulations or requirements under the State Contract. As a result of such monitoring activities, HMO shall identify to Provider any deficiencies or areas for improvement mandated under the State Contract and Provider and HMO shall take appropriate corrective action. Provider shall comply with any corrective action plan initiated by HMO and/or required by the MississippiCAN Program. In addition, Provider shall monitor and report the quality of services delivered under the Agreement and initiate a plan of correction where necessary to improve quality of care, in accordance with that level of care which is recognized as acceptable professional practice in the respective community in which HMO and Provider practice and/or the performance standards established under the State Contract.

6.3 Enrollment. The parties acknowledge and agree that DOM is responsible for enrollment, reenrollment and disenrollment of Covered Persons.

6.4 No Exclusivity. Nothing in the Agreement or this Appendix shall be construed as prohibiting or penalizing Provider for contracting with a managed care organization other than HMO or as prohibiting or penalizing HMO for contracting with other providers. HMO may not require Providers who agree to participate in the MississippiCAN Program to contract with HMO's other lines of business.

6.5 **Delegation.** The parties agree that, prior to execution of the Agreement, HMO evaluated Provider's ability to perform any duties delegated to Provider under the Agreement. Any delegated duties and reporting responsibilities shall be set forth in the Agreement or other written delegation agreement or addendum between the parties. HMO shall have the right to revoke any functions or activities HMO delegates to Provider under the Agreement if in HMO's reasonable judgment Provider's performance under the Agreement is inadequate.

MississippiCHIP
Regulatory Requirements Appendix

MississipiCHIP

REGULATORY REQUIREMENTS APPENDIX

PROVIDER

THIS MISSISSIPPICHIP PROGRAM REGULATORY REQUIREMENTS APPENDIX (this "Appendix") supplements and is made part of the provider agreement (the "Agreement") between HMO contracting on behalf of itself and the other entities that are its affiliates (collectively, "CCO") and the party named in the Agreement ("Provider").

SECTION 1
APPLICABILITY

This Appendix applies with respect to the provision of direct or health care related services provided by Provider under the Mississippi Children's Health Insurance Program (the "MississippiCHIP Program") as governed by the State's designated regulatory agencies. In the event of a conflict between this Appendix and other appendices or any provision of the Agreement, the provisions of this Appendix shall control except with regard to benefit plans outside the scope of this Appendix or unless otherwise required by law. In the event CCO is required to amend or supplement this Appendix as required or requested by the State to comply with federal or State regulations, CCO will unilaterally initiate such additions, deletions or modifications. All provider agreements must be in writing and must include all specific activities and report responsibilities delegated to the Provider by CCO.

SECTION 2
DEFINITIONS

Unless otherwise defined in this Appendix, all capitalized terms shall be as defined in the Agreement. For purposes of this Appendix, the following terms shall have the meanings set forth below; provided, however, in the event any definition set forth in this Appendix or the Agreement is inconsistent with any definition under the MississippiCHIP Program Contract, the definition shall have the meaning set forth under the MississippiCHIP Program Contract.

2.1 **Abuse:** Any practice that is inconsistent with sound fiscal, business, or medical practices, and results in an unnecessary cost to CHIP, CCO, a subcontractor, or a provider or in reimbursement for services that are not Medically Necessary or that fail to meet professionally recognized standards for healthcare.

2.2 **Adverse Benefit Determination:** The denial or limited authorization of a requested service, including determinations on the type or level of service, requirements for medical necessity, appropriateness, setting, or effectiveness of a covered benefit; the reduction, suspension, or termination of previously authorized services; the denial, in whole or in part, of payment for a service; CCO's failure to provide services in a timely manner; CCO's failure to resolve Complaints, Grievances, or Appeals within the specified time frames; for residents in a rural area with only one MCO, the denial of a Covered Person's request to exercise his or her right, under 42 C.F.R. §438.52(b)(2)(ii); the denial of a Covered Person's request to dispute a financial liability, including cost sharing, copayments, premiums, deductibles, coinsurance, and other enrollee financial liabilities; and determinations by skilled nursing facilities and nursing facilities to transfer or discharge residents and adverse determinations made by a State with regard to the preadmission

screening and annual resident review requirements of Section 1919(e)(7) of the Act, if applicable.

2.3 **Agreement:** An agreement between the CCO and an individual, business, university, government entity, affiliate, or nonprofit organization to perform part or all of CCO's responsibilities under the MississippiCHIP Program Contract. Agreements must be approved in writing by DOM prior to the start date of the Agreement.

2.4 **Appeal:** A request for review by CCO of an Adverse Benefit Determination related to a Member or Provider. In the case of a Member, an Adverse Benefit Determination may include determinations on the health care services a Member believes he or she is entitled to receive, including delay in providing, arranging for, or approving the health care services (such that a delay would adversely affect the health of the Member). In the case of a Provider, the Adverse Benefit Determination may include, but is not limited to, delay or non- payment for covered services.

2.5 **Auto Enrollment:** The process by which Members who have not voluntarily selected a CHIP Contractor are assigned to a CHIP Contractor.

2.6 **Behavioral Health Services**: Mental health and/or substance and alcohol use disorder treatment services that are provided by the county mental health/intellectual disability/developmental disability programs, the single county authority administrators, or other appropriately licensed health care practitioners.

2.7 **Benchmark Plan:** The State School Employee's Health Insurance Plan.

2.8 **Child:** An individual who is under nineteen (19) years of age who is not eligible for Medicaid benefits and is not covered by other health insurance. Child is also referred to as Member.

2.9 **CHIP:** The Children's Health Insurance Program as defined in Title XXI of the Social Security Act.

2.10 **Complaint:** An expression of dissatisfaction received orally or in writing that is of a less serious or formal nature that is resolved within one (1) business day of receipt.

2.11 **Coordinated Care Organization (CCO):** An organization that meets the requirements for participation as a Contractor in CHIP and manages the purchase and provision of health care services under CHIP. For purposes of this Appendix, CCO is a CCO.

2.12 **Co-Payment:** The fixed amount certain CHIP Members pay for a covered health care service. The amount may vary based on healthcare service being provided.

2.13 **Cost Sharing:** In accordance with 42 C.F.R. §457.10, premium charges, enrollment fees, deductibles, coinsurance, Co-Payments, or other similar fees that the Member has responsibility for paying.

2.14 **Covered Services:** Health care services or products for which a Member is enrolled with CCO to receive coverage under the MississippiCHIP Program Contract, including all services required by the State Contract and State and federal law.

2.15 Disenrollment: Action taken by DOM, or its Agent, to remove a Member's name from the monthly Member Listing Report following DOM's receipt and approval of a request for Disenrollment or a determination that the Member is no longer eligible for Enrollment in Contractor.

2.16 DOM: The Division of Medicaid, Office of the Governor, State of Mississippi.

2.17 Fraud: Fraud is any type of intentional deception or misrepresentation made by an entity or person with the knowledge that the deception could result in some unauthorized benefit to the entity, him or herself, or some other person. The Fraud can be committed by many entities, including a vendor, a subcontractor, a provider, a State employee, or a Member among others.

2.18 Grievance: An expression of dissatisfaction about any matter or aspect of CCO or its operation, other than an Adverse Benefit Determination as defined herein. Grievances may include, but are not limited to, the quality of care or services provided, and aspects of interpersonal relationships such as rudeness of a provider or employee, or failure to respect the Covered Person's rights regardless of whether remedial action is requested. Grievance includes a Covered Person's right to dispute an extension of time proposed by CCO to make an authorization decision.

2.19 Marketing: The activities that promote visibility and awareness for the MississippiCHIP Program and the CCOs participating in the program. All marketing activities are subject to prior review and approval by DOM and may not contain misleading information.

2.20 Medical Record: A single complete record, which documents the entire treatment plan developed for, and medical services received by, the Member including inpatient, outpatient, referral services and emergency medical services whether provided by Contracted Providers or Non-Contracted Providers.

2.21 Member: An individual who meets all of the eligibility requirements for CHIP, enrolls in a CCO under CHIP, and receives health benefits coverage through CHIP.

2.22 MississippiCHIP Program: The Mississippi Medicaid child health program for select individuals under the age of nineteen (19) years of age who are not eligible for Medicaid benefits and are not covered by other health insurances.

2.23 MississippiCHIP Program Contract: The DOM contract with CCO, for the purpose of providing and paying for Covered Services to Members enrolled in the MississippiCHIP Program.

2.24 Primary Care Provider (PCP): Any physician or health care practitioner or group operating within the scope of his or her licensure who is responsible for supervising, prescribing and providing primary care and primary case management services in the MississippiCHIP Program, whose practice is limited to the general practice of medicine or who is an Internist, Pediatrician, Obstetrician/Gynecologist, Family and General Practitioner, Nurse Practitioners (who meet requirements of Section 4.B, Choice of a Health Care Professional), Physician Assistants, specialists who perform primary care functions upon request, and other providers approved by DOM.

2.25 Prior Authorization: A determination to approve a Provider's request, pursuant to services covered in the MississippiCHIP Program, to provide a service or course of treatment of a specific duration and scope to a Member prior to the initiation or continuation of the service.

2.26 Provider Network: The Panel of health service Providers with which the CCO contracts for the provision of covered services to Members and Non-Contracted Providers administering services to Member.

2.27 State: The State of Mississippi or its designated regulatory agencies.

2.28 State Child Health Plan: The State of Mississippi's plan submitted to HHS for the administration of CHIP.

2.29 Third Party Liability/Resource: Any resource available to a Member for the payment of medical expenses associated with the provision of covered services, including but not limited to, insurers and workers' compensation plan.

2.30 Urgent Care: Urgent care services are utilized because the Members primary care physician is not available. An urgent condition isn't life threatening but may need prompt attention. Urgent care services are for an illness, injury or condition serious enough that a reasonable person would seek care right away, but not so severe it requires emergency room care. Urgent care centers can typically treat things including, but not limited to, sprains, strains, minor broken bones.

2.31 Well-Baby and Well-Child Care Services: Regular or preventive diagnostic and treatment services necessary to ensure the health of babies, children, and adolescents as defined by DOM in the State Child Health Plan. For the purposes of Cost Sharing, the term has the meaning assigned at 42 C.F.R. § 457.520.

SECTION 3
PROVIDER REQUIREMENTS

The MississippiCHIP Program, through contractual requirements and federal and State statutes and regulations, requires that providers who provide services to Members enrolled in the MississippiCHIP Program comply with certain requirements as set forth below and elsewhere in this Appendix.

3.1 Definitions Related to the Provision of Covered Services. Provider shall follow the applicable MississippiCHIP Program Contract's requirements for the provision of Covered Services. Provider's decisions affecting the delivery of acute or chronic care services to Members shall be made on an individualized basis and in accordance with the following definitions:

i) Emergency Medical Condition: In accordance with Section 1932(b) of the Act and 42 CFR §457.10, a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in any of the following: (1) placing the health of the individual (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; (2) serious impairment to body functions; or (3) serious dysfunction of any body organ or part.

ii) Emergency Services: Covered inpatient and outpatient services, inclusive of dialysis services, furnished by a provider who is qualified to furnish those health services and that

are needed to evaluate or stabilize an Emergency Medical Condition in accordance with 42 CFR 438.114.

iii) Medically Necessary Services: As set forth in the Social Security Act, Section 1905 (42 U.S.C. 1396d(a)), Medically Necessary Services are defined as services, supplies, or equipment provided by a licensed health care professional that are:

a) Appropriate and consistent with the diagnosis or treatment of the patient's condition, illness, or injury;

b) In accordance with the standards of good medical practice consistent with the individual patient's condition(s);

c) Not primarily for the personal comfort or convenience of the Member, family, or Provider;

d) The most appropriate services, supplies, equipment, or levels of care that can be safely and efficiently provided to the Member;

e) Furnished in a setting appropriate to the patient's medical need and condition and, when applied to the care of an inpatient, further mean that the Member's medical symptoms or conditions require that the services cannot be safely provided to the Member as an outpatient;

f) Not experimental or investigational or for research or education;

g) Provided by an appropriatelylicensed practitioner; and

h) Documented in the patient's record in a reasonable manner, including the relationship of the diagnosis to the service.

Medically Necessary Services may also be those services for children that are necessary to correct or ameliorate defects and physical and mental illnesses and conditions discovered during an interperiodic or Well-Baby and Well-Child Care Services, whether such services are covered or exceed the benefit limits in the Medicaid State Plan and Title 23 of Mississippi Administrative Code.

3.2 Accessibility Standards. Provider shall provide for timely access for Member appointments in accordance with the appointment availability requirements established under the MississippiCHIP Program Contract, as further described in the applicable provider manual.

Type	Appointment Scheduling Time Frames
PCP (well care visit)	Not to exceed thirty (30) calendar days
PCP (routine sick visit)	Not to exceed seven (7) calendar days
PCP (urgent care visit)	Not to exceed twenty-four (24) hours
Specialists	Not to exceed forty-five (45) calendar days

Dental Providers (routine visits)	Not to exceed forty-five (45) calendar days
Dental Providers (urgent Care)	Not to exceed forty-eight (48) hours
Behavioral Health Providers (routine visit)	Not to exceed fourteen (14) calendar days
Behavioral Health Providers (urgent visit)	Not to exceed twenty-four (24) hours
Behavioral Health Providers (post-discharge from an acute psychiatric hospital when the Contractor is aware of the	Not to exceed seven (7) calendar days
Urgent Care Providers	Not to exceed twenty-four (24) hours
Emergency Providers	Immediately (twenty-four (24) hours a day, seven (7) days a week) and without Prior

3.3 Hours of Operation; Appointments. Provider shall offer hours of operation that are no less than the hours of operation offered to commercial beneficiaries. As applicable, Provider will make Covered Services available 24 hours a day, 7 days a week when medically necessary.

3.4 PCP Responsibilities. If applicable, and Provider is a PCP, Provider shall comply with the following:

i) PCPs who serve Members under the age of nineteen (19) are responsible for conducting all Well-Baby and Well-Child Care services. Should the PCP be unable to conduct the necessary Well-Baby and Well-Child Care services screens, the PCP is responsible for arranging to have the necessary Well-Baby and Well-Child Care services screens conducted by another network provider and ensure that all relevant medical information, including the results of the Well-Baby and Well-Child Care services screens, are incorporated into the Member's PCP Medical Record.

ii) PCPs who serve Members under the age of nineteen (19) report encounter data associated with Well-Baby and Well-Child Care services, using a format approved by DOM, to Contractor within one hundred and eighty (180) calendar days from the date of service.

iii) PCPs are responsible for contacting new Members identified in the quarterly encounter lists sent by Contractor that indicate who has not had an encounter during the first six (6) months of Enrollment. Contractor must require the PCP to:

a) Contact Members identified in the quarterly Encounter lists as not complying with Well-Baby, Well-Child Care, and immunization schedules for Children;

b) Identify to Contractor any such Members who have not come into compliance with Well-Baby, Well-Child Care, and immunization schedules within one (1) month of such notification to the site by Contractor; and

c) Document the reasons for noncompliance, where possible, and to document its efforts to bring the Member's care into compliance with the standards.

iv) PCP shall provide Well-Baby and Well-Child Care Services, including vision screening, laboratory

tests and hearing screenings, according to recommendations of the U.S. Preventive Services Task Force. Vision and hearing screenings shall be included as part of periodic Well-Child assessments. PCP shall have written policies and procedures related to the provision of the full-range of Well-Baby Care, Well-Child Care, and childhood and adolescent immunization services as defined in, and in accordance with, the State Child Health Plan, 42 C.F.R. §457.495, and this provisions of the MississippiCHIP Program Contract. Services shall include, without limitation, periodic health screenings and appropriate and up-to-date immunizations using the immunization schedule for all Members recommended by the Advisory Committee on Immunization Practices (ACIP). PCP shall make all reasonable efforts to identify all Members whose Medical Records do not indicate up-to-date immunizations and shall ensure that these Members receive necessary immunizations. Immunizations are purchased and distributed through the Mississippi State Department of Health. CCO shall reimburse PCP for the administration of the immunizations.

CCO requires that PCP cooperate to the maximum extent possible with the efforts to improve the health status of Mississippi citizens, and to actively work to improve the percentage of Members receiving appropriate screenings, and meet or exceed DOM's targets.

a) The following minimum elements must be included in the periodic health screening assessment of children:

i. Comprehensive health and development history (including assessment of both physical and mental development);

ii. Measurements (e.g. head circumference for infants, height, weight, body mass index);

iii. Comprehensive unclothed physical examination;

iv. Immunizations appropriate to age and health history;

v. Assessment of nutritional status;

vi. Laboratory tests (including tuberculosis screening and Federally required blood lead screenings);

vii. Vision screening;

viii. Hearing screening;

ix. Dental and oral health assessment; and

x. Developmental and behavioral assessment.

v) If a suspected problem is detected by a screening examination, the child must be evaluated as necessary for further diagnosis. This diagnosis is used to determine treatment needs. PCP must establish a tracking system that provides information on compliance with Well-Baby and Well-Child Care services and immunization services provision requirements in the following areas:

a) Initial visit for newborns;

b) Well-Baby and Well-Child Care services and reporting of all assessment results; and

c) Diagnosis and/or treatment for Children.

vi) PCP must have an established process for reminders, follow-ups and outreach to Members that includes:

a) Written notification or upcoming or missed appointments within a set time period, taking into consideration language and literacy capabilities of Members;

b) Telephone protocols to remind Members of upcoming visits and follow-up on missed appointments within a set time period;

c) Protocols for conducting outreach with non-compliant Members, including home visits, as appropriate; and

d) A process for outreach and follow-up to Members with special health care needs.

vii) PCP may develop an alternate process for follow-up and outreach subject to prior written approval from CCO and DOM.

viii) **Specialists as PCPs**. Members with disabling conditions, chronic conditions, or with special health care needs may request that their PCP be a specialist. The designation of a specialist as a PCP must be pursuant to a treatment plan approved by Contractor; in consultation with the PCP to which the Member is currently assigned, the Member and, as appropriate, the specialist. When possible, the specialist must be a provider participating in Contractor's network. The specialist as a PCP must agree to provide or arrange for all primary care, including routine preventive care, and to provide those specialty medical services consistent with the Member's disabling condition, chronic illness, or special health care need in accordance with Contractor's standards and within the scope of the specialty training and clinical expertise. To accommodate the full spectrum of care, the specialist as a PCP must also have admitting privileges at a hospital in Contractor's network.

3.5 Provider Selection. To the extent applicable to Provider in performance under the Agreement, Provider shall comply with 42 CFR §438.214, as may be amended from time to time, which includes, but is not limited to the selection and retention of providers, credentialing and re-credentialing requirements and nondiscrimination. If CCO delegates credentialing to Provider, CCO will provide monitoring and oversight and Provider shall ensure that all licensed medical professionals are credentialed in accordance with CCO's and the MississippiCHIP Program Contract's credentialing requirements.

3.6 Records Retention. As required under State or federal law or the MississippiCHIP Program Contract, Provider shall maintain a record keeping system of current, detailed, and organized records for recording services, charges, dates and all other commonly accepted information elements sufficient to disclose the quality, quantity, appropriateness and timeliness of services rendered to Members. All financial records shall follow generally accepted accounting principles. Medical records and supporting management systems shall include all pertinent information related to the medical management of each Member. Other records shall be maintained as necessary to clearly reflect all actions taken by Provider related to services provided under the MississippiCHIP Program Contract. Such records, including, as applicable, grievance and appeals records shall be maintained for a period of not less than ten (10) years from the close of the Agreement, or such other period as required by law. If records are under review or audit or are the subject of litigation they must be retained for a minimum of ten (10) years following resolution of such action. Prior approval for the disposal of records must be requested and approved by CCO if the Agreement is continuous. Provider shall have written records retention policies and procedures and will make such policies and procedures available to CCO or DOM upon request. DOM requires ready access to any and all documents and records of transactions pertaining to the provisions of services provided by Provider and those copies of requested documents/records will be provided to DOM or its designee free of charge.

3.7 **Records Access.** Provider agrees to cooperate with CCO to maintain and share a health record of all services provided to a Covered Person, as appropriate and in accordance with applicable laws, regulations and professional standards. Provider acknowledges and agrees and shall require Provider to acknowledge and agree that DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel shall have complete access to all records pertaining to services provided to Members. Provider shall provide immediate access to facilities, records and supportive materials pertinent to the MississippiCHIP Program Contract for State or Federal fraud investigators.

3.8 **Government Audit; Investigations.** Provider acknowledges and agrees and shall require Provider to acknowledge and agree that the State or any of its duly authorized representatives, DOM, the U.S. Department of Health and Human Services, the Centers for Medicare & Medicaid Services, the Office of Inspector General, the General Accounting Office, or any other auditing agency or their authorized representatives and their designees, with prior approval by DOM, at any time during the term of the Agreement, shall, at all reasonable time and within regular business hours, with or without notice, have the right to inspect, audit or otherwise evaluate the quality, appropriateness, and timeliness of services provided under the terms of the MississippiCHIP Program Contract and any other applicable federal and State law and regulation.

This shall include, but not be limited to, the right to enter onto Provider's premises, access to and the right to audit, inspect, monitor, and examine any pertinent books, documents, papers, medical records, financial records, surveys and computer databases and/or to otherwise evaluate the performance of Provider related to Provider's performance under the Agreement. Such monitoring activities may also include, without limitation, on-site inspections of all service locations and facilities; auditing and/or review of all records developed under the MississippiCHIP Program Contract or the Agreement; reviewing management systems and procedures developed under the MississippiCHIP Program Contract or the Agreement; and review of any other areas of materials relevant or pertaining to the MississippiCHIP Program Contract or the Agreement. All reviews and audits shall be performed in such a manner as will not unduly delay the work of Provider. There will be no restrictions on the right of the State or federal authorities to conduct inspections and audits as necessary.

The Provider must fully cooperate with any and all reviews and/or audits by state or federal agencies, such as the Department of Audit, Department of Health and Human Services, Centers for Medicare and Medicaid Services, Office of Inspector General, General Accounting Office, or any other auditing agency approved by DOM, by assuring that appropriate employees and involved parties are available for interviews relating to the reviews or audits.

All records shall be maintained and available for review by authorized federal and state agencies during the entire term of the MississippiCHIP Program Contract and for a period of ten (10) years thereafter, unless an audit, litigation, or other legal action is in progress. When an audit or litigation is in progress or audit findings are unresolved, records shall be kept for a period of ten (10) years or until all issues are finally resolved, whichever is later. The Provider must have written policies and procedures for storing this information. Records must be kept in an original paper state or preserved on micro media or electronic format.

3.9 **Data; Reports.** Provider shall and shall require that Provider cooperate with and release to CCO any information necessary for CCO to perform its obligations under the MississippiCHIP Program Contract to the extent applicable to Provider in performance of the Agreement, including the timely submission of reports and information required by CCO, in the format specified by CCO and the State. Such reports shall include well-baby/well-child reporting, as well as complete and accurate encounter and utilization management data in accordance with the requirements of CCO and DOM. Data must be provided at the frequency and level of detail specified by CCO or the State. By submitting data to CCO, Provider represents and attests to CCO and the State that the data is accurate, complete and truthful, and upon

CCO's request Provider shall certify in writing, that the data is accurate, complete, and truthful, based on Provider's best knowledge, information and belief.

Provider shall be able to receive, maintain and utilize applicable data extracts from CCO or DOM and systematically update its database within five (5) calendar days of receipt of the files. Data extract files include but are not limited to the following, as applicable: 1. Daily Active Provider Extract; 2. Weekly Provider Affiliation Details Extract; 3. 834 Enrollment Files; 4. 835 Claims Payment Remittance Advice Transaction; 5. 277 Claims Acknowledgement; 6. NCPDP Formulary; 7. NCPDP Response File; 8. TPL Resource/Policy Information File, etc.; 9. Claims History Extracts; and 10. Prior Authorization Extracts.

3.10 Encounter Data. Provider shall agree to cooperate with CCO to comply with CCO's obligation to prepare encounter data submissions, reports, and clinical information including, without limitation, and well-baby/well-child reporting and encounters, as applicable, and such other reporting regarding Covered Services as may be required under the MississippiCHIP Program Contract. Encounter data must be accurate and include all services furnished to a Covered Person, including capitated provider's data and rendering provider information. Encounter data must be provided within the timeframes specified and in a form that meets CCO and State requirements. By submitting encounter data to CCO, Provider represents to CCO that the data is accurate, complete and truthful, and upon CCO's request Provider shall certify in writing, that the data is accurate, complete, and truthful, based on Provider's best knowledge, information and belief.

3.11 Claims Information. Provider shall promptly submit to CCO the information needed to make payment and shall identify third party liability coverage, including Medicare and other insurance, and if applicable seek such third party liability payment before submitting claims to CCO. Provider understands and agrees that each claim Provider submits to CCO constitutes a certification that the claim is true and accurate to the best of Provider's knowledge and belief and that the Covered Services are 1) Medically Necessary and 2) have been provided to the Member prior to submitting the claim.

Provider must submit claims within six (6) months from the date of service. Claims filed within the appropriate time frame but denied may be resubmitted to CCO within ninety (90) calendar days from the date of denial.

3.12 Third Party Resources. Provider shall report all Third Party Resources to CCO identified through the provision of medical services.

3.13 Privacy; HIPAA. Provider shall comply with all applicable privacy rule and security rule provisions of the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), and associated implementing regulations, as may be amended from time to time, and shall safeguard information about Members in accordance with applicable federal and State privacy laws and rules including 42 CFR §438.224 and 42 CFR Part 431, Subpart F, as may be amended from time to time. Provider agrees that confidential information, including but not limited to, medical and other pertinent information relative to Members, shall not be disclosed to any person or organization for any purpose without the expressed, written authority of DOM or as otherwise required by law and that all such disclosures shall fully comply with HIPAA privacy and security standards.

3.14 Cultural Competency and Access. Provider shall participate in CCO's and DOM's efforts to

promote the delivery of services in a culturally competent manner to all Members, including those with limited English proficiency, physical or mental disabilities, diverse cultural and ethnic backgrounds and regardless of gender, sexual orientation or gender identity, and shall provide interpreter services in a Member's primary language and for the hearing impaired for all appointments and emergency services. Provider shall provide information to Members regarding treatment options and alternatives, as well as information on complaints and appeals, in a manner appropriate to the Member's condition and ability to understand. Provider shall provide physical access, reasonable accommodations, and accessible equipment for Covered Persons with physical or mental disabilities.

3.15 Approval of Marketing Materials. As required under State or federal law or the applicable MississippiCHIP Program Contract, any marketing materials developed and distributed by Provider as related to the performance of the Agreement must be submitted to CCO at least sixty (60) days prior to planned distribution for timely submission to DOM for prior approval. Provider agrees it will not proceed with the statement or communication until the required approval is obtained.

3.16 Independent Contractor Relationship. Provider expressly agrees that Provider is acting in an independent capacity in the performance of the Agreement and not as an officer, agent or employee of DOM, CMS or the State. Provider further expressly agrees that the Agreement shall not be construed as a partnership or joint venture between Provider and DOM, CMS or the State. Nothing in the Agreement shall be construed, nor shall it be deemed to create, any right or remedy in any third party.

3.17 Certification on Relationship to State, DOM and CMS. Provider certifies that no officer, director, employee, subcontractor or agent of Provider, or person with an ownership or control interest in Provider, is also employed by, or is a public official of, the State of Mississippi or any of its agencies, DOM or CMS.

3.18 Ownership and Control Information. If applicable, Provider shall cooperate with CCO in obtaining and providing information to DOM related to ownership and control, significant business transactions, and persons convicted of a criminal offense in compliance with§1128 of the Social Security Act, 42 USC §1320a-7 and 42 CFR Part 455, as amended and shall provide information upon request. Provider shall submit information related to ownership and control of subcontractors or wholly owned supplier within thirty-five (35) calendar days of a request for such information.

By executing the Agreement, Provider certifies that neither Provider nor any of its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in any State or federal health care program or from participating in transactions by any State or federal department or agency. CCO will terminate the Agreement upon becoming aware or receiving notice from DOM, whichever is earlier, that Provider is or has been excluded from participation in any State or federal health care program or by any State or federal agency.

3.19 Excluded Individuals and Entities. Provider certifies that neither it nor any of its employees, principals, nor any providers, subcontractors or consultants or persons with an ownership or controlling interest in the Provider (an owner including the Provider himself or herself), or an agent or managing employee of the Provider, with whom Provider contracts and who are providing items or services that are significant and material to Provider's obligations under the

Agreement is:

i) excluded from participation in federal health care programs under either Section 1128 or section 1128A of the Social Security Act; or

ii) debarred, suspended, proposed for debarment, declared ineligible, or otherwise voluntarily excluded from participating in procurement activities under the Federal Acquisition Regulation or from participating in non-procurement activities under regulations issued under Executive Order No. 12549 or under guidelines implementing Executive Order No. 12549; or an affiliate, as defined in the Federal Acquisition Regulation, of such a person.

Provider acknowledges and agrees and shall require that Provider acknowledge and agree that payment will not be made for any items or Covered Services provided by an excluded individual pursuant to 42 CFR §1001.1901(b) and is obligated to screen all employees, contractors, and subcontractors for exclusion as required under applicable State and Federal laws. Additionally, Provider acknowledges that pursuant to 42 CFR §1003.102(a)(2) civil monetary penalties may be imposed against Provider if he or she employs or enters into contracts with excluded individuals or entities to provide items or Covered Services to Member under the Agreement. Provider agrees not to employ or subcontract with individuals or entities whose owner, those with a controlling interest, or managing employees are on a State or Federal exclusion list to provide items or Covered Services under the Agreement. Provider shall immediately report to CCO any exclusion information discovered. Provider can search the HHS-OIG website, at no cost, by the names of any individuals or entities. The database is called LEIE and can be accessed at http://www.oig.hhs.gov/fraud/exclusions.asp. The GSA EPLS/SAM database can be accessed at https://www.sam.gov. Federal and State exclusion databases must be reviewed monthly to ensure that no employee or contractor has been excluded. Applicable state exclusion databases can be accessed through the State's Medicaid website. CCO will terminate the Agreement immediately upon becoming aware or receiving notice from DOM, whichever is earlier, that Provider's owners, agents, managing employees, or any provider is or has been excluded from federal health care programs or terminated from the Medicare or the Medicaid program in any state.

3.20 Licensure. Provider represents that it is currently licensed and/or certified under applicable State and federal statutes and regulations and by the appropriate State licensing body or standard-setting agency, as applicable. Provider represents that it does not have a Medicaid provider agreement with DOM that is terminated, suspended, denied, or not renewed as a result of any action of DOM, CMS, HHS, or the Medicaid Fraud Control Unit of the State's Attorney General. Provider shall maintain at all times throughout the term of the Agreement all necessary licenses, certifications, registrations and permits as are required to provide the health care services and/or other related activities delegated to Provider by CCO under the Agreement. If at any time during the term of the Agreement, Provider is not properly licensed as described in this Section, Provider shall discontinue providing services to Members.

3.21 National Provider ID (NPI). If applicable, Provider shall and shall require that Providers obtain a National Provider Identification Number (NPI) and when filing claims with Provider, the NPI number used is the same NPI number used when filing claims with DOM.

3.22 Funding. Provider recognizes that the obligation of DOM to proceed under its MississippiCHIP Program Contract with CCO is conditioned upon the appropriation of funds by the Mississippi

State Legislature and the receipt of State and/or Federal funds. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, either through the failure of the Federal government to provide or the State of Mississippi to appropriate funds, or the discontinuance, or material alteration of the program under which the funds were provided or if funds are not otherwise available to DOM, DOM has the right upon ten (10) working days written notice to CCO to terminate the MississippiCHIP Program Contract.

3.23 Federal and State Funds Liability. Providers acknowledges and agrees that payments made to Provider for services provided under the Agreement are derived from federal and State funds and that any false claim or statement in documents or any concealment of material fact related to such services may be a cause for sanctions and prosecution under applicable federal and State laws. Provider shall be subject to all laws applicable to individuals and entities receiving State and federal funds and may be held civilly or criminally liable to both CCO and DOM in the event of nonperformance, misrepresentation, fraud, or abuse related to services provided pursuant to the MississippiCHIP Program Contract. Provider recognizes that payments made to the Provider are derived from federal and State funds, and are contingent upon and subject to availability and receipt of funds.

3.24 Insolvency. In the event CCO becomes insolvent or unable to pay Provider, Provider shall not seek compensation for services rendered from DOM, its officers, Agents, or employees, or the Members or their eligible dependents.

3.25 Termination. In the event of termination of the Agreement, Provider shall promptly supply to CCO all information necessary for the reimbursement of any outstanding MississippiCHIP Program claims.

3.26 Capitated Providers. If a Provider that is capitated terminates its agreement with CCO, for any reason, Provider will provide services to Members assigned to Provider up to the end of the month in which the effective date of termination falls.

3.27 Fraud, Waste, and Abuse Prevention. Provider shall cooperate fully with the CCO's policies and procedures designed to protect program integrity and prevent and detect potential or suspected fraud, waste, and abuse in the administration and delivery of services under the MississippiCHIP Program Contract and shall cooperate and assist DOM and any other State or federal agency charged with the duty of preventing, identifying, investigating, sanctioning or prosecuting suspected fraud, waste, and abuse in state and/or federal health care programs. Provider and CCO are responsible for reporting suspected fraud and abuse by participating and non-participating providers, as well as Members, when detected.

In accordance with CCO's policies and the Deficit Reduction Act of 2005 (DRA), Provider shall have written policies for its employees, contractors or agents that: (a) provide detailed information about the federal False Claims Act (established under sections 3729 through 3733 of title 31, United States Code), including if any entity makes or receives annual payments under the State Program of at least $5,000,000, such entity must establish certain minimum written policies and information communicated through an employee handbook relating to the Federal False Claims Act in accordance with 42 CFR 438.600; (b) cite administrative remedies for false claims and statements (established under chapter 38 of title 31, United States Code) and whistleblower protections under federal and state laws; (c) reference state laws pertaining to civil or criminal penalties for false

claims and statements; and (d) with respect to the role of such laws in preventing and detecting fraud, waste, and abuse in federal health care programs (as defined in section 1128B(f)), include as part of such written policies, detailed provisions regarding Provider's policies and procedures for detecting and preventing fraud, waste, and abuse. Provider agrees to train its staff on the aforesaid policies and procedures.

3.28 Quality Utilization Management. Pursuant to any applicable provider manuals and related protocols, or as elsewhere specified under the Agreement, Provider agrees to cooperate with CCO's quality improvement and utilization review and management activities. This shall include, but not be limited to, participation in any internal and external quality assurance, utilization review, peer review, and grievance procedures established by CCO or as required under the MississippiCHIP Program Contract to ensure that Members have due process for their complaints, grievances, appeals, fair hearings or requests for external review of adverse decisions made by CCO or Provider. Provider shall adhere to the quality assurance and utilization review standards of the MississippiCHIP Program and shall monitor quality and initiate corrective action to improve quality consistent with the generally accepted level of care.

3.29 Quality and Utilization Management Program. Provider shall cooperate with CCO in meeting the Quality Management and Utilization Management Program standards outlined in the MississippiCHIP Program Contract.

3.30 Referrals. Provider shall make referrals for social, vocational, education or human services when a need for such service is identified.

3.31 Restrictions on Referrals. Provider shall not make inappropriate referrals for designated health services to health care entities with which Provider or a member of Provider's family has a financial relationship, pursuant to federal anti-kickback and physician self-referral laws that prohibit such referrals.

3.32 Complaints, Grievances and Appeals. Information on how Provider or Provider's authorized representative shall submit complaints and file grievances and appeals, and the resolution process, is contained in the CCO MississippiCHIP Provider Manual.

3.33 Health Care Acquired/Preventable Conditions. Provider agrees that no payment shall be made for the provision of medical assistance for health care acquired conditions and other provider preventable conditions as may be identified by the State. As a condition of payment, Provider shall identify and report to CCO any provider preventable conditions in accordance with 42 CFR §§ 434.6(a)(12), 438 including but not limited to 438.3(g), and 447.26.

3.34 Compliance with Laws. Provider shall comply with all applicable federal and State laws and regulations and all provisions of the MississippiCHIP Program Contract that pertain to a Member's rights, including but not limited to the following, to the extent applicable to Provider in performance of the Agreement:

i) Title VI of the Civil Rights Act of 1964; (b) Title XIX of the Social Security Act; Title IX of the Education Amendments of1972 (regarding education programs and activities); the Age Discrimination Act of 1975; the Rehabilitation Act of 1973; and The Genetic Information Non-Discrimination Act of 2008 (GINA); the Americans with Disabilities Act;

section 1557 of the Patient Protection and Affordable Care Act, and their implementing regulations, as may be amended from time to time.

ii) All federal and State professional and facility licensing and accreditation requirements/standards that apply to the services Provider perform pursuant to the Agreement, including but not limited to:

a) All applicable standards, orders or requirements issued under Section 306 of the Clean Air Act (42 USC 1857 (h)). Section 508 of the Clean Water Act (33 USC 1368), Executive Order 11738, and Environmental Protection Agency (EPA) regulations (40) CFR Part 15), which prohibit the use of facilities included on the EPA list of violating facilities. Any violations must be reported to DSHS, DHHS, and the EPA;

b) Any applicable mandatory standards and policies relating to energy efficiency that are contained in the State Energy Conservation Plan, including the Energy Policy & conservation Act (Pub. L. 94-165), and issued in compliance with the Federal Energy Policy & Conservation Act.

iii) All relevant federal and State statutes, regulations and orders related to equal opportunity in employment, including but not limited to compliance with E.O. 11246, "Equal Employment Opportunity," as amended by E.O. 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulations at 41 CFR Part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

iv) If the Agreement is for an amount in excess of $100,000, Provider shall comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, 42 U.S.C. 7401 et seq., and the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq. Any violations shall be reported to DHHS and the appropriate Regional Office of the Environmental Protection Agency.

v) Those specified for laboratory services in the Clinical Laboratory Improvement Amendments (CLIA). All laboratory service sites must have a CLIA certificate of registration or waiver, and a CLIA identification number.

vi) The American with Disabilities Act (ADA). Provider shall make reasonable accommodation for Members with disabilities in accord with the ADA for all Covered Services and shall assure physical and communication barriers do not inhibit Members with disabilities from obtaining Covered Services;

vii) Section 1128B(d)(1) of the Balanced Budget Act of 1997; and,

viii) Any other requirements associated with the receipt of federal funds.

ix) All Medicaid laws, regulations and program instructions to the extent applicable to Provider in Provider's performance of the Agreement. Provider understands that payment of a claim by CCO or the State is conditioned upon the claim and the underlying transaction complying with such laws, regulations, and program instructions (including, but not limited

to, federal requirements on fraud, waste and abuse, disclosure, debarment, termination and exclusion screening), and is conditioned on the Provider's compliance with all applicable conditions of participation in Medicaid. Provider understands and agrees that each claim the Provider submits to CCO constitutes a certification that the Provider has complied with all applicable Medicaid laws, regulations and program instructions in connection with such claims and the services provided therein. Provider's payment of a claim will be denied if Provider is terminated or excluded from participation in federal healthcare programs. Provider's payment of a claim may be temporarily suspended if the State or CCO provides notice that a credible allegation of fraud exists and there is a pending investigation. Provider's payment of a claim may also be temporarily suspended or adjusted if the Provider bills a claim with a code that does not match the service provided. CCO performs coding edit procedures based primarily on National Correct Coding Initiative (NCCI) policies and other nationally recognized and validated policies. Provider agrees that it will provide medical records to CCO upon its request in order to determine appropriateness of coding. Provider may dispute any temporarily suspended or adjusted payment consistent with the terms of the Agreement.

3.35 Non-Discrimination. Provider will not discriminate against, nor use any policy or practice that has the effect of discriminating against, Covered Persons on the basis of race, color, creed, sex, religion, age, national origin, ancestry, marital status, sexual orientation, gender identity, language, health status, disease or pre-existing condition (including genetic information), anticipated need for health care or physical or mental handicap, except where medically indicated. Examples of prohibited practices include, but are not limited to, the following:

i) Denying or not providing a Member any MississippiCHIP Covered Service. Health care and treatment necessary to preserve life must be provided to all Members who are not terminally ill or permanently unconscious, except where a competent Member objects to such care on his/her own behalf.

ii) Subjecting a Member to segregated, separate, or different treatment, including a different place or time from that provided to other Members or public or private patients, in any manner related to the receipt of any MississippiCHIP Covered Service, except where Medically Necessary.

iii) The assignment of times or places for the provision of services on the basis of the race, color, creed, religion, age, sex, national origin, ancestry, marital status, sexual orientation, gender identity, income status, program membership, language, health status, disease or pre-existing condition, anticipated need for health care or physical or mental disability of the Members to be served.

3.36 Advance Directives. Provider shall comply with the advance directives requirements with 42 C.F.R §422.128 and with the Uniform Health-Care Decisions Act (Miss. Code Ann. § 41-41-201, *et. seq*.). When applicable, Provider shall comply with the advance directives requirements for hospitals, nursing facilities, providers of home and health care and personal care services, hospices, and HMOs as specified in 42 CFR Part 49, subpart I, 42 CFR § 417.436(d), 42 CFR § 422.128, and 42 CFR 438.3(i).

3.37 Physician Incentive Plans. In the event Provider participates in a physician incentive plan

("PIP") under the Agreement, Provider agrees that such PIPs must comply with 42 CFR § 417.479, 42 CFR § 438.3, 42 CFR § 422.208, and 42 CFR § 422.210, as may be amended from time to time. CCO or Provider may not make a specific payment directly or indirectly under a PIP to a physician or physician group as an inducement to reduce or limit Medically Necessary services furnished to an individual Member. PIPs must not contain provisions that provide incentives, monetary or otherwise, for the withholding of services that meet the definition of Medical Necessity. Provider shall disclose annually to CCO any PIP arrangement Provider may have with any physicians even if there is not substantial financial risk between CCO and such physicians.

3.38 Lobbying. Provider agrees to comply with the following requirements related to lobbying:

i) Prohibition on Use of Federal Funds for Lobbying: By signing the Agreement, Provider certifies to the best of Provider's knowledge and belief, pursuant to 31 U.S.C. § 1352 and 45 CFR Part 93, as may be amended from time to time, that no federally appropriated funds have been paid or will be paid to any person by or on Provider's behalf for the purpose of influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

ii) Disclosure Form to Report Lobbying: If any funds other than federally appropriated funds have been paid or will be paid to any person for the purpose of influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment or modification of any federal contract, grant, loan, or cooperative agreement and the value of the Agreement exceeds $100,000, Provider shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

iii) Contractor shall abide by lobbying laws of the State of Mississippi.

3.39 Gratuities. Provider represents that it has not violated, is not violating, and promises that it will not violate the prohibitions against gratuities set forth in Section 6-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

3.40 Compliance with Mississippi Employment Protection Act (MEPA). Represents and warrants and shall require that Provider represent and warrant that it will ensure its compliance with the Mississippi Employment Protection Act, Section 71-11-1 et set of the Mississippi Code Annotated (Supp. 2008), and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other

successor electronic verification system replacing the E-Verify Program. Provider agrees and shall require that Provider agree to maintain records of such compliance and, upon request of the State and approval of the Social Security Administration or Department of Homeland Security, where required, to provide a copy of each such verification to the State. Provider represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of the State of Mississippi. Provider acknowledges and agrees that any breach of these warranties may subject Provider to the following: (a) termination of the Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public, or (b) the loss of any license, permit, certification or other document granted to Provider by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year, or (c) both.

3.41 Insurance Requirements. As applicable, Provider shall and shall require that Provider secure and maintain during the term of the Agreement general liability insurance, professional liability insurance, and workers' compensation insurance for all employees connected with the provision of services under the Agreement. Such workers compensation insurance shall comply with Mississippi Workers' Compensation Laws. Such comprehensive general liability insurance and professional liability insurance shall provide coverage in an amount established by CCO pursuant to the Agreement or as required under the MississippiCHIP Program Contract.

3.42 Indemnification. To the extent applicable to Provider in performance under the Agreement, Provider shall indemnify, defend, protect, save and hold DOM and its employees and Members harmless from and against all injuries, deaths, losses, damages, claims, suits, demands, actions, recovery, liabilities, judgments, costs and expenses, including without limitation, court costs, investigative fees and expenses, and attorney fees, to the extent proximately caused by any negligent act or other intentional misconduct or omission of Provider, its agents, officers, employees or contractors arising from the Agreement. DOM may waive this requirement for public entities if Provider is a state agency or sub-unit as defined by the State or a public health entity with statutory immunity. This clause shall survive the termination of the Agreement for any reason, including breach due to insolvency.

3.43 Notice of Legal Action. Immediately upon obtaining knowledge or receiving notice of any legal action or notice listed below, Provider shall provide to CCO written notice of such legal action or notice and, upon request by CCO, a complete copy of all filings and other documents generated in connection with any such legal action:

i) Any action, suit or counterclaim filed against Provider;

ii) Any regulatory action, or proposed action, respecting Provider's business or operations;

iii) Any notice received by Provider from the Department of Insurance or the State Health Officer;

iv) The filing of a petition in bankruptcy by or against Provider, or the insolvency of Provider;

v) The conviction of any person who has an ownership or control interest in Provider, or who is an agent or managing employee of Provider, of a criminal offense related to that person's

involvement in any program under Medicare, Medicaid, or Title XX of the Social Security Act; or

vi) A malpractice action against any Provider delivering service under an agreement.

3.44 Hold Harmless. Except for any applicable cost-sharing requirements under the MississippiCHIP Program Contract, Provider shall look solely to CCO for payment of Covered Services provided to Members pursuant to the Agreement and the MississippiCHIP Program Contract and hold DOM, the State, the U.S. Department of Health and Human Services and Members harmless in the event that CCO cannot or will not pay for such Covered Services. In accordance with 42 CFR § 447.15, as may be amended from time to time, the Member is not liable to Provider for any services for which CCO is liable and as specified under the State's relevant health insurance or managed care statutes, rules or administrative agency guidance. Provider shall not require any copayment or cost sharing for Covered Services provided under the Agreement unless expressly permitted under the MississippiCHIP Program Contract. Provider shall also be prohibited from charging Members for missed appointments if such practice is prohibited under the MississippiCHIP Program Contract or applicable law. Neither the State, DOM, nor Member shall be in any manner liable for the debts and obligations of CCO and under no circumstances shall CCO, or any providers used to deliver services covered under the terms of the MississippiCHIP Program Contract, charge Members for Covered Services.

3.45 Assignment/Delegation. Provider shall not assign or delegate the Agreement without the express written consent of CCO or DOM. If Provider subcontracts or delegates any functions of the Agreement, in accordance with the terms of the Agreement and with the express written consent of CCO or DOM, the subcontract or delegation must be in writing and include all of the requirements of this Appendix, and applicable requirements of the State Contract, and applicable laws and regulations. The transfer of five percent (5%) or more of the beneficial ownership in Provider at any time during the term of this Agreement shall be deemed an assignment under this Agreement.

3.46 Behavioral Health Providers. Behavioral Health Providers shall ensure that all Covered Persons receiving inpatient psychiatric services are scheduled for outpatient follow-up and/or continuing treatment prior to discharge from the inpatient psychiatric hospital if the Provider is aware of the Covered Person's inpatient hospitalization status. Behavioral Health Providers will be provided daily reports identifying Covered Persons known to be admitted to an inpatient facility. Behavioral Health Services will be delivered in compliance with the requirements of 42 CFR 438 subpart K insofar as those requirements are applicable.

3.47 Provider Eligibility. Provider must be enrolled in the Mississippi CHIP program and must use the same National Provider Identifier (NPI) number to participate in CCO's Network. Upon notification from the State that Provider's enrollment has been denied or terminated, CCO must terminate Provider immediately and will notify affected Covered Persons that Provider is no longer participating in the network. CCO will exclude from its network any provider who has been terminated or suspended from the Medicare, Medicaid or CHIP program in any state.

3.48 Disclosure. Provider must be screened and enrolled in the State's CHIP program and submit disclosures to the DOM related to ownership and control, significant business transactions, and persons convicted of crimes in accordance with 42 CFR Part 455 .Provider must submit information related to ownership and control of subcontractors or wholly owned suppliers within thirty-five (35)

calendar days of a request for such information in accordance with 42 CFR 455.105. Additionally, Provider must cooperate with DOM for submission of fingerprints upon a request from DOM or CMS in accordance with 42 CFR 455.434.

3.49 Electronic Visit Verification. Provider shall cooperate with State requirements for electronic visit verification for personal care services and home health services, as applicable.

3.50 Clinical Laboratory Improvements Act (CLIA) Certification or Waiver. As applicable, if Provider performs any laboratory tests on human specimens for the purpose of diagnosis and/or treatment, Provider agrees to acquire and maintain the appropriate CLIA certification or waiver for the type of laboratory testing performed. Provider further agrees to provide a copy of the certification if requested by CCO. A State authorized license or permit that meets the CLIA requirements may be substituted for the CLIA certificate pursuant to State law. Medicare and Medicaid programs require the applicable CLIA certification or waiver for the type of services performed as a condition of payment. Provider must include the appropriate CLIA certificate or waiver number on claims submitted for payment for laboratory services.

3.51 Overpayment. Provider shall to report to CCO when it has received an overpayment and will return the overpayment to CCO within 60 calendar days after the date on which the overpayment was identified. Provider will notify CCO in writing of the reason for the overpayment.

SECTION 4
CCO REQUIREMENTS

4.1 Communications with Members. Members are entitled to the full range of their Providers' opinions and counsel about the availability of Medically Necessary Services under the provisions of the MississippiCHIP Program Contract. Any contractual provisions, including gag clauses or rules, that restrict a Provider's ability to advise Members about Medically Necessary treatment options violate federal law and regulations. CCO shall not prohibit or otherwise restrict Provider, when acting within the lawful scope of practice, from advising or advocating on behalf of a Member for the following:

i) The Member's health status, medical care, or treatment options, including any alternative treatment that may be self-administered;

ii) Any information the Member needs in order to decide among all relevant treatment options;

iii) The risks, benefits, and consequences of treatment or non-treatment;

iv) The Member's right to participate in decisions regarding his or her health care, including the right to refuse treatment, and to express preferences about future treatment decisions; or

v) Information regarding the nature of treatment options including those that may not reflect CCO's position or may not be covered by CCO.

CCO shall not prohibit a Provider from advocating on behalf of a Member in any grievance system,

utilization review process, or individual authorization process to obtain necessary health care services.

4.2 Prompt Payment. CCO shall pay Provider pursuant to the MississippiCHIP Program Contract and applicable State and federal law and regulations, including but not limited to Miss. Code Ann. §83-9-5, 42 CFR §447.46, 42 CFR §447.45(d)(2), 42 CFR §447.45(d)(3), 42 CFR §447.45(d)(5) and 42 CFR §447.45(d)(6), as applicable and as may be amended from time to time. If a third party liability exists, payment of claims shall be determined in accordance with federal and/or State third party liability law and the terms of the MississippiCHIP Program Contract. Unless CCO otherwise requests assistance from Provider, CCO will be responsible for third party collections in accordance with the terms of the MississippiCHIP Program Contract.

4.3 No Incentives to Limit Medically Necessary Services. CCO shall not structure compensation provided to individuals or entities that conduct utilization management and concurrent review activities so as to provide incentives for the individual or entity to deny, limit, or discontinue Medically Necessary services to any Member.

4.4 Provider Discrimination Prohibition. CCO shall not discriminate with respect to participation, reimbursement, or indemnification of a provider who is acting within the scope of the provider's license or certification under applicable State law, solely on the basis of such license or certification. CCO shall not discriminate against Provider for serving high-risk Members or if Provider specializes in conditions requiring costly treatments. This provision shall not be construed as prohibiting CCO from limiting a provider's participation to the extent necessary to meet the needs of Members. This provision also is not intended and shall not interfere with measures established by CCO that are designed to maintain quality of care practice standards and control costs. CCO shall not provide false or misleading information to any person or entity in an attempt to recruit Providers for CCO's network.

4.5 Termination, Revocation and Sanctions. In addition to its termination rights under the Agreement, CCO shall have the right to revoke any functions or activities CCO delegates to Provider under the Agreement or impose other sanctions consistent with the MississippiCHIP Program Contract if in CCO's reasonable judgment Provider's performance under the Agreement is inadequate. CCO shall also have the right to suspend, deny, refuse to renew or terminate the subcontract in accordance with the terms of the MississippiCHIP Program Contract and applicable law and regulation. However, CCO shall not exclude or terminate a Provider from participation in CCO's Provider Network due to the fact that the Provider has a practice that includes a substantial number of patients with expensive medical conditions, and shall not terminate a Provider for filing a Complaint, Grievance, or Appeal on a Member's behalf.

SECTION 5
OTHER REQUIREMENTS

5.1 Compliance with MississippiCHIP Program Contract. All tasks performed under the Agreement shall be performed in accordance with the requirements of the MississippiCHIP Program Contract, as applicable, as set forth in this Appendix, applicable provider manuals, and protocols, policies and procedures that CCO has provided or delivered to Provider. The applicable provisions of the MississippiCHIP Program Contract are incorporated into the Agreement by reference. Nothing in the Agreement or this Appendix relieves CCO of its responsibility under the

MississippiCHIP Program Contract. If any provision of the Agreement is in conflict with provisions of the MississippiCHIP Program Contract, the terms of the MississippiCHIP Program Contract shall control and the terms of the Agreement in conflict with those of the MississippiCHIP Program Contract will be considered waived.

5.2 Monitoring. In accordance with 42CFR § 457.950, CCO shall perform ongoing monitoring (announced or unannounced) of services rendered by Provider under the Agreement and shall perform periodic formal reviews of Provider according to a schedule established by the State, consistent with industry standards or State managed care organization laws and regulations or requirements under the MississippiCHIP Program Contract. As a result of such monitoring activities, and/or as a result of the inspecting, auditing and monitoring activities of DOM or other authorities pursuant to section 4.4 above, CCO shall identify to Provider any deficiencies or areas for improvement mandated under the MississippiCHIP Program Contract and Provider and CCO shall take appropriate corrective action within the relevant timeframe permitted, as applicable. Provider shall comply with any corrective action plan initiated by CCO and/or required by the MississippiCHIP Program. In addition, Provider shall monitor and report the quality of services delivered under the Agreement and initiate a plan of correction where necessary to improve quality of care, in accordance with that level of care which is recognized as acceptable professional practice in the respective community in which CCO and Provider practice and/or the performance standards established under the MississippiCHIP Program Contract.

5.3 Enrollment. The parties acknowledge and agree that DOM is responsible for enrollment, reenrollment and disenrollment of Members.

5.4 No Exclusivity. Nothing in the Agreement or this Appendix shall be construed as prohibiting or penalizing Provider for contracting with a managed care organization other than CCO or as prohibiting or penalizing CCO for contracting with other providers. The CCO may not require Providers who agree to participate in the MississippiCHIP Program to contract with the Contractor's other lines of business.

5.5 Revoking Delegation. The parties agree that, prior to execution of the Agreement, CCO evaluated Provider's ability to perform any duties delegated to Provider under the Agreement. Any delegated duties and reporting responsibilities shall be set forth in the Agreement or other written delegation agreement or addendum between the parties. In addition to its termination rights under the Agreement, CCO shall have the right to revoke any functions, assignment authority, or activities CCO delegates to Provider under the Agreement or impose other sanctions if in CCO's reasonable judgment Provider's performance under the Agreement is inadequate or untimely.

5.6 Rights of DOM. DOM shall have the right to invoke against Provider any remedy set forth in the MississippiCHIP Program Contract, including the right to require the termination of the Agreement, for each and every reason for which it may invoke such a remedy against CCO or require termination of the MississippiCHIP Program Contract. Suspected Fraud and Abuse by Provider will be investigated by DOM.

Mississippi
Regulatory Requirements Appendix

Mississippi Regulatory Requirements Appendix

This Mississippi Regulatory Requirements Appendix (the "Appendix") is made part of the agreement ("Agreement") entered into between **CCO,** contracting on behalf of itself, **HMO**, and the other entities that are CCO's Affiliates (collectively referred to as "CCO") and the health care professional or entity named in the Agreement ("Provider").

This Appendix applies to all products or benefit plans sponsored, issued or administered by or accessed through CCO to the extent such products are regulated under Mississippi laws; provided, however, that the requirements in this Appendix will not apply to the extent they are preempted by the Medicare Modernization Act or other applicable law.

CCO and Provider each agree to be bound by the terms and conditions contained in this Appendix. In the event of a conflict or inconsistency between this Appendix and any term or condition contained in the Agreement, this Appendix shall control, except with regard to Benefit Plans outside the scope of this Appendix.

If any of the capitalized terms in this Appendix are used or defined (or the equivalent terms are used or defined) in the Agreement, then the terms used in this Appendix will have the same meaning as the terms (or equivalent terms) used or defined in the Agreement. For example, "Benefit Plans," as used in this Appendix, will have the same meaning as "benefit contracts"; "Customer," as used in this Appendix, will have the same meaning as "member," "enrollee," or "covered person"; "Payer," as used in this Appendix, will have the same meaning as "participating entity"; "Provider," as used in this Appendix, will have the same meaning as "Facility," "Medical Group," "Ancillary Provider," "Physician," or "Practitioner." Additionally, if the Agreement uses pronouns to refer to the contracted entities, then "CCO" will have the same meaning as "we" or "us," and "Provider" will have the same meaning as "you" or "your."

This Appendix will be deemed to be updated to incorporate any changes to the laws and regulations referenced herein, including any changes to definitions referenced herein, effective as of the date of such changes.

1. Customer Hold Harmless and Continuation of Services. Provider agrees that in no event, including but not limited to nonpayment by CCO, Payer or intermediary, insolvency of CCO, Payer or intermediary, or breach of this Agreement, shall Provider bill, charge, collect a deposit from, seek compensation, remuneration or reimbursement from, or have any recourse against a Customer or a person (other than CCO, Payer or intermediary) acting on behalf of the Customer for services provided pursuant to this Agreement. This Agreement does not prohibit Provider from collecting coinsurance, deductibles or copayments, as specifically provided in the evidence of coverage, or fees for uncovered services delivered on a fee-for-service basis to Customers. Nor does this Agreement prohibit Provider (except for a health care professional who is employed full-time on the staff of CCO and has agreed to provide services exclusively to CCO's Customers and no others) and a Customer from agreeing to continue services solely at the expense of the Customer, as long as the provider has clearly informed the Customer that CCO or Payer

may not cover or continue to cover a specific service or services. Except as provided herein, this Agreement does not prohibit Provider from pursuing any available legal remedy.

In the event of CCO, Payer or intermediary insolvency or other cessation of operations, Covered Services to Customers will continue through the period for which a premium has been paid to CCO or Payer on behalf of the Customer or until the Customer's discharge from an inpatient facility, whichever time is greater. Covered Services to Customers confined in an inpatient facility on the date of insolvency or other cessation of operations will continue until their continued confinement in an inpatient facility is no longer medically necessary.

The provisions in this section 1 shall be construed in favor of the Customer, shall survive the termination of the Agreement regardless of the reason for termination, including the insolvency of CCO or Payer, and shall supersede any oral or written contrary agreement between Provider and a Customer or the representative of a Customer if the contrary agreement is inconsistent with the hold harmless and continuation of Covered Services provisions required by this section 1.

In no event shall Provider collect or attempt to collect from a Customer any money owed to Provider by CCO or Payer.

2. CCO Programs. As applicable, Provider shall comply with CCO's administrative policies and programs, including but not limited to terms, including payment, utilization review, quality assessment and improvement programs, credentialing, grievance procedures, data reporting requirements, confidentiality requirements and any applicable federal or state programs.

3. Treatment Options. CCO shall not prohibit Provider from discussing treatment options with Customers irrespective of CCO's position on the treatment options, or from advocating on behalf of Customers within the utilization review or grievance processes established by CCO or a person contracting with CCO.

4. Records. Provider shall make health records available to appropriate state and federal authorities involved in assessing the quality of care or investigating the grievances or complaints of Customers, and to comply with the applicable state and federal laws related to the confidentiality of medical or health records.

5. Termination. CCO and Provider shall provide advance written notice to each other in the form and for the length of time as provided in the Agreement but in no case less than sixty (60) before terminating the Agreement without cause. CCO shall make a good faith effort to provide written notice of a termination within thirty (30) days of receipt or issuance of a notice of termination to all Customers who are patients seen on a regular basis by Provider whose Agreement is terminating, irrespective of whether the termination was for cause or without cause. Where a contract termination involves a primary care professional, all Customers who are patients of that primary care professional shall also be notified. Within five (5) working days of the date that Provider either gives or receives notice of termination, Provider shall supply CCO with a list of those patients of Provider that are covered by a Benefit Plan subject to this Appendix.

6. Assignment. The rights and responsibilities under this Agreement shall not be assigned or delegated by Provider without the prior written consent of CCO.

7. Provision of Covered Services. Provider shall furnish Covered Services to all Customers without regard to the Customer's enrollment in the plan as a private purchaser of the plan or as a participant in publicly financed programs of health care services. This requirement does not apply to circumstances when Provider should not render services due to limitations arising from lack of training, experience, skill or licensing restrictions.

8. Coinsurance, Copayments and Deductibles. Provider shall collect applicable coinsurance, copayments or deductibles from Customers pursuant to the Benefit Plan and, as applicable, Provider shall notify Customers of their personal financial obligations for non-covered services.

9. No Penalty for Reporting to Authorities. CCO shall not penalize Provider because Provider, in good faith, reports to state or federal authorities any act or practice by CCO that jeopardizes patient health or welfare.

10. Definitions. To the extent a definition or other provision in the Agreement conflicts with the Benefit Plan or the Managed Care Plan Network Adequacy Regulation (the "Regulation"), the Benefit Plan or the Regulation will control.

11. Prompt Pay. Provider and CCO shall comply with the prompt payment requirements set forth in the Mississippi Code Section 83-9-5(1)(h). Claims will be paid within twenty-five (25) days after receipt where claims are submitted electronically, and within thirty-five (35) days after receipt where claims are submitted in paper format.

12. Reciprocal Time Limitations. If the Agreement includes a time limit in which Provider is required to submit a claim for payment, CCO or Payer shall have the same time limit following payment of the claim to perform any review or audit for reconsidering the validity of the claim and requesting reimbursement for payment of an invalid claim or overpayment of a claim. If CCO or Payer does not limit the time in which Provider is required to submit a claim for payment, CCO may not request reimbursement or offset another claim payment for reimbursement of an invalid claim or overpayment of a claim more than twelve (12) months after the payment of an invalid or overpaid claim. This provision does not apply to claims submitted in the context of misrepresentation, omission, concealment, or fraud by Provider.

13. Intermediaries. The following provisions apply to intermediaries as defined in the Regulation.

a) Intermediaries and participating providers with whom they contract shall comply with all the applicable requirements of sections 1-10 of this Appendix (section 14.06 of the Regulation).
b) CCO's statutory responsibility to monitor the offering of Covered Services to Customers shall not be delegated or assigned to the intermediary.

c) CCO shall have the right to approve or disapprove participation status of a subcontracted provider in its own or a contracted network for the purpose of delivering Covered Services to the carrier's Customers.
d) CCO shall maintain copies of all intermediary health care subcontracts at its principal place of business in the state, or ensure that it has access to all intermediary subcontracts, including the right to make copies to facilitate regulatory review, upon twenty (20) days prior written notice from CCO.
e) If applicable, an intermediary shall transmit utilization documentation and claims paid documentation to CCO. CCO shall monitor the timeliness and appropriateness of payments made to providers and health care services received by Customers.
f) If applicable, an intermediary shall maintain the books, records, financial information and documentation of services provided to Customers at its principal place of business in the state and preserve them in a manner that facilitates regulatory review.
g) An intermediary shall allow the commissioner access to the intermediary's books, records, financial information and any documentation of services provided to Customers, as necessary to determine compliance with the Regulation.
h) CCO shall have the right, in the event of the intermediary's insolvency, to require the assignment to CCO of the provisions of a provider's contract addressing the provider's obligation to furnish covered services.

FQHC RHC Participation Agreement

[FQHC][RHC] Participation Agreement

This Agreement is entered into by and between CCO, contracting on behalf of itself, HMO and the other entities that are CCO Affiliates (collectively referred to as "CCO") and _____ ("Facility").

This Agreement is effective on the later of _____, ___ or the first day of the first calendar month that begins at least 30 days after the date this Agreement has been executed by all parties (the "Effective Date").

Through contracts with physicians and other providers of health care services, CCO maintains one or more networks of providers that are available to Customers. Facility is a provider of health care services.

CCO wishes to make Facility's services available to Customers. Facility wishes to provide those services, under the terms and conditions set forth in this Agreement.

The parties therefore enter into this Agreement.

Article I
Definitions

The following capitalized terms in this Agreement have the meanings set forth below:

1.1 **Benefit Plan** means a certificate of coverage, summary plan description, or other document or agreement, whether delivered in paper or electronic format, under which a Payer is obligated to provide coverage of Covered Services for a Customer.

1.2 **Covered Service** is a health care service or product for which a Customer is entitled to receive coverage from a Payer, pursuant to the terms of the Customer's Benefit Plan with that Payer.

1.3 **Customary Charge** is the fee for health care services charged by Facility that does not exceed the fee Facility would ordinarily charge another person regardless of whether the person is a Customer.

1.4 **Customer** is a person eligible and enrolled to receive coverage from a Payer for Covered Services.

1.5 **Facility Physician** is a physician, as defined by the laws of the jurisdiction in which Covered Services are provided and duly licensed and qualified under those laws, who practices as a shareholder, partner, employee or Subcontractor of Facility.

1.6 **Facility Non-Physician Provider** is a healthcare professional other than a Facility Physician, who is duly authorized under the laws of the jurisdiction in which Covered

Services are provided, and who renders Covered Services as an employee or Subcontractor of Facility.

1.7 **Facility Professional** is a Facility Physician or a Facility Non-Physician Provider.

1.8 **Payment Policies** are the guidelines adopted by CCO for calculating payment of claims to facilities (including claims of Facility under this Agreement). The Payment Policies operate in conjunction with the specific reimbursement rates and terms set forth in this Agreement. The Payment Policies may change from time to time as discussed in section 5.1 of this Agreement.

1.9 **Payer** is an entity obligated to a Customer to provide reimbursement for Covered Services under the Customer's Benefit Plan and authorized by CCO to access Facility's services under this Agreement.

1.10 **Protocols** are the programs and administrative procedures adopted by CCO or a Payer to be followed by Facility in providing services and doing business with CCO and Payers under this Agreement. Protocols may include, among other things, credentialing and recredentialing processes, utilization management and care management processes, quality improvement, peer review, Customer grievance, or concurrent review. Protocols may change from time to time as described in section 4.4 of this Agreement.

1.11 **Subcontractor** is an individual or entity contracted or otherwise engaged by a party to this Agreement. For purposes of Facility Professionals, a Subcontractor is a Facility Professional only with respect to services rendered to patients of Facility and billed under Facility's Taxpayer Identification Number(s). Additionally, a Subcontractor is not a Facility Professional with regard to any services rendered in a physician's office or other non-facility location other than those locations listed in Appendix 1.

1.12 **CCO Affiliates** are those entities controlling, controlled by, or under common control with CCO.

Article II
Representations and Warranties

2.1 **Representations and warranties of Facility**. Facility, by virtue of its execution and delivery of this Agreement, represents and warrants as follows:

i) Facility is a duly organized and validly existing legal entity in good standing under the laws of its jurisdiction of organization.

ii) Facility has all requisite corporate power and authority to conduct its business as presently conducted, and to execute, deliver and perform its obligations under this Agreement. The execution, delivery and performance of this Agreement by Facility have been duly and validly authorized by all action necessary under its organizational

documents and applicable corporate law. This Agreement has been duly and validly executed and delivered by Facility and (assuming the due authorization, execution and delivery of this Agreement by CCO) constitutes a valid and binding obligation of Facility, enforceable against Facility in accordance with its terms, except as enforceability may be limited by the availability of equitable remedies or defenses and by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting the enforcement of creditors' rights generally.

iii) The execution, delivery and performance of this Agreement by Facility do not and will not violate or conflict with (a) the organizational documents of Facility, (b) any material agreement or instrument to which Facility is a party or by which Facility or any material part of its property is bound, or (c) applicable law. Facility has the unqualified authority to bind, and does bind, itself and Facility Professionals to all of the terms and conditions of this Agreement, including any Appendices, Attachments and Exhibits, as applicable.

iv) Facility has obtained and holds all registrations, permits, licenses, and other approvals and consents, and has made all filings, that it is required to obtain from or make with all governmental entities under applicable law in order to conduct its business as presently conducted and to enter into and perform its obligations under this Agreement.

v) Facility has been given an opportunity to review the Protocols and Payment Policies. See the Additional Manuals Appendix for additional information regarding the Protocols and Payment Policies applicable to Customers enrolled in certain Benefit Plans.

vi) Each submission of a claim by Facility pursuant to this Agreement will be deemed to constitute the representation and warranty by Facility to CCO that (a) the representations and warranties of Facility set forth in this section 2.1 and elsewhere in this Agreement are true and correct as of the date the claim is submitted, (b) Facility has complied with the requirements of this Agreement with respect to the Covered Services involved and the submission of the claim, (c) the charge amount set forth on the claim is the Customary Charge and (d) the claim is a valid claim.

2.2 Representations and warranties of CCO. CCO, by virtue of its execution and delivery of this Agreement, represents and warrants as follows:

i) CCO is a duly organized and validly existing legal entity in good standing under the laws of its jurisdiction of organization.

ii) CCO has all requisite corporate power and authority to conduct its business as presently conducted, and to execute, deliver and perform its obligations under this Agreement. The execution, delivery and performance of this Agreement by CCO have been duly and validly authorized by all action necessary under its organizational documents and applicable corporate law. This Agreement has been duly and validly executed and delivered by CCO and (assuming the due authorization, execution and delivery of this

Agreement by Facility) constitutes a valid and binding obligation of CCO, enforceable against CCO in accordance with its terms, except as enforceability may be limited by the availability of equitable remedies or defenses and by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting the enforcement of creditors' rights generally.

iii) The execution, delivery and performance of this Agreement by CCO do not and will not violate or conflict with (a) the organizational documents of CCO, (b) any material agreement or instrument to which CCO is a party or by which CCO or any material part of its property is bound, or (c) applicable law.

iv) CCO has obtained and holds all registrations, permits, licenses, and other approvals and consents, and has made all filings, that it is required to obtain from or make with all governmental entities under applicable law in order to conduct its business as presently conducted and to enter into and perform its obligations under this Agreement.

Article III
Applicability of this Agreement

3.1 Facility's services.

i) This Agreement applies to Covered Services provided at Facility's service locations set forth in Appendix 1. If a service location is not listed in Appendix 1, this section 3.1 and this Agreement should nevertheless be understood as applying to Facility's actual service locations that existed when this Agreement was executed, rather than to a billing address, post office box, or any other address set forth in Appendix 1.

In the event Facility begins providing services at other service locations or under other Taxpayer Identification Number(s), those additional service locations or Taxpayer Identification Numbers will become subject to this Agreement only upon the written agreement of the parties. This subsection 3.1(i) applies to cases when Facility adds the location itself (such as through new construction or through conversion of a free-standing location to provider-based), and when Facility acquires, merges with, or otherwise becomes affiliated with an existing provider that was not already under contract with CCO or one of CCO's Affiliates to participate in a network of health care providers.

ii) In the event Facility acquires or is acquired by, merges with, or otherwise becomes affiliated with another provider of health care services that is already under contract with CCO or one of CCO's Affiliates to participate in a network of health care providers, this Agreement and the other agreement will each remain in effect and will continue to apply as they did prior to the acquisition, merger or affiliation, unless otherwise agreed to in writing by all parties to such agreements. Similarly, if Facility buys assets of, or leases space from, a facility that was under contract directly with CCO or one of CCO's Affiliates to participate in a network of health care providers at the time of the asset purchase or leasing arrangement, and Facility provides services at

that location, but does not assume the CCO contract held by the prior operator, Covered Services rendered at that location will be subject to the same rates and other key terms (including term and termination) as applied under the prior operator's contract.

iii) Facility may transfer all or some of its assets to another entity, with the result that all or some of the Covered Services subject to this Agreement will be rendered by the other entity rather than by Facility, but only if Facility requests that CCO approve the assignment of this Agreement as it relates to those Covered Services and only if the other entity agrees to assume this Agreement. This subsection 3.1(iii) does not limit CCO's right under section 9.4 of this Agreement to elect whether to approve the assignment of this Agreement. This subsection 3.1(iii) applies to arrangements under which another provider leases space from Facility, or enters into a subcontract with Facility to perform services, after the Effective Date of this Agreement, so that Covered Services that were subject to this Agreement as of the Effective Date of this Agreement are rendered and billed instead by the other provider rather than by Facility after the lease or subcontract takes place.

3.2 Payers and Benefit Plans. CCO may allow Payers to access Facility's services under this Agreement for certain Benefit Plans, as described in Appendix 2. CCO may modify Appendix 2 without amendment to include or exclude Benefit Plans in Appendix 2 by providing 30 days prior written or electronic notice to Facility.

In addition to changes allowed above, CCO may make additional changes to Appendix 2 as described in section 3 of that appendix.

Section 9.3 of this Agreement will apply to Covered Services provided to Customers covered by Benefit Plans that are added to the list in Appendix 2 of Benefit Plans excluded from this Agreement as described above.

3.3 Patients who are not Customers. This Agreement does not apply to services rendered to patients who are not Customers at the time the services were rendered. Section 6.6 of this Agreement addresses circumstances in which claims for services rendered to those patients are inadvertently paid.

3.4 Health care. This Agreement and Benefit Plans do not dictate the health care provided by Facility Professionals, or govern Facility Professional's determination of what care to provide patients, even if those patients are Customers. The decision regarding what care is to be provided remains with Facility Professionals and with Customers, and not with CCO or any Payer.

3.5 Communication with Customers. Nothing in this Agreement is intended to limit Facility's or Facility Professional's right or ability to communicate fully with a Customer regarding the Customer's health condition and treatment options. Facility and Facility Professionals are free to discuss all treatment options without regard to whether or not a given option is a Covered Service. Facility and Facility Professionals are free to discuss with a Customer any financial incentives Facility may have under this Agreement,

including describing at a general level the payment methodologies contained in this Agreement.

Article IV
Duties of Facility

4.1 Provide Covered Services. Facility will provide Covered Services to Customers. Facility must be in compliance with section 2.1(iv) of this Agreement and, to the extent Facility and Facility Professionals are subject to credentialing by CCO, Facility and Facility Professionals must be credentialed by CCO or its delegate prior to furnishing any Covered Services to Customers under this Agreement. Facility and Facility Professionals will participate in and cooperate with CCO's credentialing program, as applicable.

4.2 Nondiscrimination. Facility will not discriminate against any patient, with regard to quality or accessibility of services, on the basis that the patient is a Customer.

Facility will not require a Customer to pay a "membership fee" or other fee in order to access Facility for Covered Services (except for co-payments, coinsurance and/or deductibles provided for under Customer's Benefit Plan) and will not discriminate against any Customer based on the failure to pay such a fee.

4.3 Accessibility. Facility will be open during normal business hours and will provide or arrange for the provision of advice and assistance to Customers in emergency situations 24 hours a day, seven days a week.

4.4 Protocols.

i) Cooperation with Protocols. Facility will cooperate with and be bound by CCO's and Payers' Protocols. The Protocols include but are not limited to all of the following:

a) For non-emergency Covered Services, Facility will assist Customers to maximize their benefits by referring or directing Customers only to other providers that participate in CCO's network, except as otherwise authorized by CCO through CCO's process for approving out-of-network services at in-network benefit levels.

b) If the Customer's Benefit Plan requires the Customer to receive certain Covered Services from or upon referral by a primary care physician, all Facility Professionals must adhere to the following additional protocols:

1) Notify the Customer's primary care physician of referrals to other participating or non-participating providers.

2) Render Covered Services pursuant to the terms and limitations of the referral notification issued by or on behalf of the Customer's primary care physician.

3) Notify the Customer's primary care physician of all admissions.

c) Facility will provide notification for certain Covered Services, accept and return telephone calls from CCO staff, and respond to CCO requests for clinical information as required by CCO or Payer as described in the Protocols.

ii) **Availability of Protocols.** The Protocols will be made available to Facility online or upon request. Some or all Protocols also may be disseminated in the form of an administrative manual or guide or in other communications. Currently, the Protocols may be found at portal.com or as indicated in the Additional Manual Appendix, if applicable. CCO will notify Facility of any changes in the location of the Protocols.

iii) **Changes to Protocols.** CCO may change the Protocols from time to time. CCO will use reasonable commercial efforts to inform Facility at least 30 days in advance of any material changes to the Protocols. CCO may implement changes in the Protocols without Facility's consent if the change is applicable to all or substantially all similarly situated facilities in CCO's network located in the same state as Facility. Otherwise, changes to the Protocols proposed by CCO to be applicable to Facility are subject to the requirements regarding amendments in section 9.2 of this Agreement.

4.5 Employees and Subcontractors. Facility will ensure that its employees, affiliates and any individuals or entities subcontracted by Facility to render services in connection with this Agreement adhere to the requirements of this Agreement. The use of employees, affiliates or Subcontractors to render services in connection with this Agreement will not limit Facility's obligations and accountability under this Agreement with regard to those services. Facility affiliates are those entities that control, are controlled by or are under common control with Facility.

[For laboratory services, Facility must comply with the Clinical Laboratory Improvement Amendments (CLIA) for those laboratory services that are RHC services, as defined by CMS.]

4.6 Licensure. Facility will maintain, without material restriction, such licensure, registration, and permits as are necessary to enable Facility to lawfully perform this Agreement.

4.7 Liability insurance. Facility will ensure that Facility and Facility Professionals are covered by liability insurance. Except to the extent coverage is a state mandated placement, the coverage must be placed with responsible, financially sound insurance carriers authorized or approved to write coverage in the state in which the Covered Services are provided. The liability insurance will be, at a minimum, of the types and in the amounts set forth below. Medical malpractice insurance will be either per occurrence or claims made with an extended period reporting option. Upon CCO's request, Facility will submit to CCO in writing evidence of insurance coverage.

Type of Insurance	Minimum Limits
Medical malpractice and/or professional liability insurance	If Facility insures all Facility Professionals in a single policy: $3,000,000.00 per occurrence and $5,000,000.00 aggregate. OR If Facility insures each Facility Professional separately, $1,000,000.00 per occurrence and $3,000,000.00 aggregate for each Facility Professional.
Commercial general and/or umbrella liability insurance	$1,000,000.00 per occurrence and aggregate.

In lieu of purchasing the insurance coverage required in this section, Facility may self-insure its medical malpractice and/or professional liability, as well as its commercial general liability. Facility will maintain a separate reserve for its self-insurance. If Facility uses the self-insurance option described in this paragraph, Facility will provide to CCO, prior to the Effective Date, a statement, verified by an independent auditor or actuary, that its reserve funding levels and process of funding appears adequate to meet the requirements of this section and fairly represents the financial condition of the fund. Facility will provide a similar statement during the term of this Agreement upon CCO's request, which will be made no more frequently than annually. Facility will assure that its self-insurance fund will comply with applicable laws and regulations.

4.8 Notice by Facility. Facility will give notice to CCO within 10 days after any event that causes Facility to be out of compliance with section 4.6 or 4.7 of this Agreement. Facility will give notice to CCO at least 30 days prior to any change in Facility's name, ownership, control, or Taxpayer Identification Number.

In addition, Facility will give written notice to CCO within 10 days after it learns of any of the following:

i) any suspension, revocation, condition, limitation, qualification or other material restriction on a Facility Professional's licenses, certifications and permits by any government agency under which a Facility Professional is authorized to provide health care services;
ii) any suspension, revocation, condition, limitation, qualification or other material restriction of a Facility Physician's staff privileges at any hospital, nursing home or other facility at which a Facility Physician has staff privileges during the term of this Agreement;
iii) an indictment, arrest or conviction of a Facility Professional for a felony, or for any criminal charge related to the practice of the Facility Professional's profession;
iv) the departure of any Facility Professional from Facility; or
v) any changes to the information contained in Appendix 1.

4.9 Customer consent to release of medical record information. Facility will obtain any Customer consent required in order to authorize Facility to provide access to requested information or records as contemplated in section 4.10 of this Agreement, including copies of the Facility's medical records relating to the care provided to Customer.

4.10 Maintenance of and access to records.

i) **Maintenance.** Facility will maintain medical, financial and administrative records related to Covered Services rendered by Facility under this Agreement, including claims records, for at least 6 years following the end of the calendar year during which the Covered Services are provided, unless a longer retention period is required by applicable law.

ii) **Access.** Facility will provide access to these records as follows:

a) to CCO or its designees, in connection with CCO's utilization management, quality assurance and improvement and for claims payment, health care operations and other administrative obligations, including reviewing Facility's compliance with the terms and provisions of this Agreement and appropriate billing practice. Facility will provide access during ordinary business hours within 14 days after a request is made, except in cases of a CCO billing audit involving an allegation of fraud or abuse or the health and safety of a Customer (in which case, access must be given within 48 hours after the request) or of an expedited Customer appeal or grievance (in which case, access will be given so as to enable CCO to reasonably meet the timelines for determining the appeal or grievance). If records are requested to adjudicate a claim, make a decision regarding a request for correction under section 6.10, or to review an appeal, Facility will provide copies of the requested records within 14 days after the request is made; and

b) to agencies of the government, in accordance with applicable law, to the extent that access is necessary to comply with regulatory requirements applicable to Facility, CCO, or Payers.

Facility will cooperate with CCO on a timely basis in connection with any such record request including, among other things, in the scheduling of and participation in an exit interview to review findings, within 30 days after CCO's request.

Facility will provide copies of records requested by CCO free of charge**.**

4.11 Access to data. Facility represents that in conducting its operations, it collects and reviews certain quality data relating to care rendered by Facility that is reported in a manner which has been validated by a third party as having a clear, evidence-based link to quality or safety (e.g., AHRQ standards) or which has been created by employer coalitions as proxies for quality (e.g., Leapfrog standards)**.**

CCO recognizes that Facility has the sole discretion to select the metrics which it will track from time to time and that Facility's primary goal in tracking quality data is to advance the quality of patient care. If the information that Facility chooses to report on is available in the public domain in a format that includes all data elements required by CCO, CCO will obtain quality information directly from that source. If the Facility does not report metrics in the public domain, on a quarterly basis, Facility will share these metrics with CCO as tracked against a database of all patients (including patients who are not Customers). CCO may publish this data to entities to which CCO renders services or seeks to render services, and to Customers.

4.12 Compliance with law. Facility will comply with applicable regulatory requirements, including but not limited to those relating to confidentiality of Customer medical information.

4.13 Electronic connectivity. When made available by CCO, Facility will do business with CCO electronically using portal.com, or other electronic resources as made available by CCO.

4.14 New Facility Professionals. This section 4.14 applies when CCO credentials the Facility Professionals individually.

Facility will notify CCO at least 30 days before a physician or other health care professional becomes a Facility Professional. In the event that the Facility's agreement with the new Facility Professional provides for a starting date that would make it impossible for Facility to provide 30 days advance notice to CCO, then Facility will give notice to CCO as soon as reasonably possible but no later than five business days after reaching agreement with the new Facility Professional. In either case, the new Facility Professional will submit and complete a credentialing application to CCO or its delegate within 30 days of the new Facility Professional's agreement to join Facility, unless the new Facility Physician already has been credentialed by CCO and is already a participant in CCO's network, or unless CCO's credentialing program does not apply to the new Facility Professional. In addition, Facility will provide to CCO the information described in the Facility Professional Roster to this Agreement with respect to the new Facility Professional.

4.15 Termination of a Facility Professional from CCO's network. CCO may terminate a Facility Professional's participation in CCO's network, without terminating this Agreement, immediately upon becoming aware of any of the following:

i) the material breach of this Agreement by the Facility Professional that is not cured by Facility and/or the Facility Professional within 30 days after CCO provided notice to Facility of the breach;
ii) the suspension, revocation, condition, limitation, qualification or other material restriction on a Facility Professional's license, certification and/or permit by any government agency under which the Facility Professional is authorized to provide health care services;

iii) the suspension, revocation, condition, limitation, qualification or other material restriction of a Facility Professional's staff privileges at any licensed hospital, nursing home or other facility at which the Facility Professional has staff privileges during the term of this Agreement;
iv) any criminal charge related to the practice of Facility Professional's profession, or any indictment, arrest, or conviction for a felony;
v) a sanction imposed by any governmental agency or authority, including Medicare or Medicaid; or
vi) the failure to meet the requirements of CCO's credentialing program to the extent that those requirements apply to the Facility Professional.

CCO will notify Facility of the Facility Professional's termination according to the notice provision set forth in section 9.8 of this Agreement.

4.16 Covered Services by Facility Professionals who are not participating providers. Facility will staff its service locations so that Covered Services can appropriately be rendered to Customers by Facility Professionals who participate in CCO's network. A Facility Professional who does not participate in CCO's network will not render Covered Services to a Customer.

In the event Covered Services are rendered by a Facility Professional who does not participate in CCO's network, neither Facility nor the Facility Professional will submit a claim or other request for payment to CCO or Payer pursuant to this Agreement, and will not seek or accept payment from the Customer.

Article V
Duties of CCO and Payers

5.1 Payment of claims. As described in further detail in Article VI of this Agreement, Payers will pay Facility for rendering Covered Services to Customers. CCO will make its Payment Policies available to Facility online and upon request. CCO may change its Payment Policies from time to time and will make information available describing the change.

5.2 Liability insurance. CCO will procure and maintain professional and general liability insurance and other insurance, as CCO reasonably determines may be necessary, to protect CCO and CCO's employees against claims, liabilities, damages or judgments that arise out of services provided by CCO or CCO's employees under this Agreement.

5.3 Licensure. CCO will maintain, without material restriction, such licensure, registration, and permits as are necessary to enable CCO to lawfully perform this Agreement.

5.4 Notice by CCO. CCO will give written notice to Facility within 10 days after any event that causes CCO to be out of compliance with section 5.2 or 5.3 of this Agreement, or of any change in CCO's name, ownership, control, or Taxpayer Identification Number. This

section does not apply to changes of ownership or control that result in CCO being owned or controlled by an entity with which it was already affiliated prior to the change.

5.5 Compliance with law. CCO will comply with applicable regulatory requirements, including but not limited to those relating to confidentiality of Customer medical information and those relating to prompt payment of claims, to the extent those requirements are applicable.

5.6 Electronic connectivity. CCO will do business with Facility electronically using portal.com, or other electronic resources as made available by CCO.

5.7 Employees and Subcontractors. CCO will assure that its employees, affiliates and any individuals or entities subcontracted by CCO to render services in connection with this Agreement adhere to the requirements of this Agreement. The use of employees, affiliates or Subcontractors to render services in connection with this Agreement will not limit CCO's obligations and accountability under this Agreement with regard to those services.

Article VI
Submission, Processing, and Payment of Claims

6.1 Form and content of claims. Facility must submit claims for Covered Services as described in the Protocols, using current, correct, and applicable coding.

6.2 Electronic filing of claims. Within six months after the Effective Date of this Agreement, Facility will use electronic submission for all of its claims under this Agreement that CCO is able to accept electronically.

6.3 Time to file claims. Unless a longer timeframe is required under applicable law, all information necessary to process a claim must be received by CCO no more than 90 days from the date Covered Services are rendered. If Payer is not the primary payer on a claim, and Facility is pursuing payment from the primary payer, the period in which Facility must submit the claim will begin on the date Facility receives the claim response from the primary payer.

6.4 Payment of claims for Covered Services. Payer will pay claims for Covered Services according to the amount specified in the applicable Payment Appendix(ices) to this Agreement, and in accordance with Payment Policies

Claims for Covered Services subject to coordination of benefits will be paid in accordance with the Customer's Benefit Plan and applicable law.

The obligation for payment under this Agreement is solely that of Payer and not that of CCO unless CCO is the Payer.

Ordinarily, fee amounts listed in the Payment Appendix(ices) are based upon primary fee sources. CCO reserves the right to use gap-fill fee sources where primary fee sources are not available.

CCO routinely updates its payment appendices: (1) to remain current with applicable coding practices; (2) in response to price changes for immunizations and injectable medications; and (3) to remain in compliance with HIPAA requirements. CCO will not attempt to communicate routine updates of this nature. Ordinarily, CCO's fee schedule is updated using similar methodologies for similar services.

CCO will give Facility at least 90 days written or electronic notice of non-routine fee schedule changes which will substantially alter the overall methodology or reimbursement level of the fee schedule. In the event such changes will reduce Facility's overall reimbursement under this Agreement, Facility may terminate this Agreement by giving 60 days written notice to CCO, provided that the notice is given by Facility within 30 days after the notice of the fee schedule change.

6.5 Denial of claims for not following Protocols, for not filing timely, for services not covered under the Customer's Benefit Plan, or for lack of medical necessity.

i) **Non-compliance with Protocol.** Payment may be denied in whole or in part if Facility does not comply with a Protocol or does not file a timely claim as required under section 6.3 of this Agreement. Facility may request reconsideration of the denial and the denial will be reversed if Facility can show one or more of the following:

a) the denial was incorrect because Facility complied with the Protocol.
b) at the time the Protocol required notification or prior authorization, (i) Facility did not know and was unable to reasonably determine that the patient was a Customer, (ii) Facility took reasonable steps to learn that the patient was a Customer, and (iii)Facility promptly submitted a claim after learning the patient was a Customer.

A claim is also subject to denial for other reasons permitted under the Agreement. Reversal of a claim denial under this subsection (i) does not preclude CCO from upholding a denial for one of these other reasons.

ii) **Non-Covered Services.** Services not covered under the applicable Benefit Plan are not subject to the rates or discounts of this Agreement. Facility may seek and collect payment from a Customer for such services (provided that Facility obtained the Customer's prior written consent).

iii) **Denials for lack of medical necessity through the prior authorization process.** If a service would otherwise be a Covered Service, but is not a Covered Service under the applicable Benefit Plan because it is determined through the prior authorization process to not meet the requirement of medical necessity, as defined in the Benefit Plan or applicable law (or not meet a similar concept in the Benefit Plan, such as not being consistent with nationally recognized scientific evidence as available, or not being

consistent with prevailing medical standards and clinical guidelines), Facility may seek or collect payment from the Customer if, prior to receiving the service, the Customer had knowledge of the determination of non-coverage and specifically agreed in writing to be responsible for payment of those charges.

6.6 Retroactive correction of information regarding whether patient is a Customer. Prior to rendering services, Facility will ask the patient to present his or her Customer identification card. In addition, Facility may contact CCO to obtain the most current information available to CCO on the patient's status as a Customer.

However, such information provided by CCO is subject to change retroactively, under any of the following circumstances:

i) if CCO has not yet received information that an individual is no longer a Customer;
ii) if the individual's Benefit Plan is terminated retroactively for any reason including, but not limited to, non-payment of premium;
iii) as a result of the Customer's final decision regarding continuation of coverage pursuant to state and federal laws; or
iv) if eligibility information CCO receives is later proven to be false.

If Facility provides health care services to an individual, and it is determined that the individual was not a Customer at the time the health care services were provided, those services are not payable under this Agreement and any payments made with regard to those services may be recovered as overpayments under the process described in section 6.10 of this Agreement. Facility may then directly bill the individual, or other responsible party, for those services.

6.7 Payment under this Agreement is payment in full. Payment as provided under section 6.4 of this Agreement, together with any co-payment, deductible or coinsurance for which the Customer is responsible under the Benefit Plan, is payment in full for a Covered Service. Facility will not seek to recover, and will not accept, any payment from Customer, CCO, Payer or anyone acting on any of their behalves, in excess of payment in full as provided in this section 6.7, regardless of whether that amount is less than Facility's billed charge or Customary Charge.

6.8 Customer hold harmless. Facility will not bill or collect payment from the Customer, or seek to impose a lien, for the difference between the amount paid under this Agreement and Facility's billed charge or Customary Charge, or for any amounts denied or not paid under this Agreement due to:

i) Facility's failure to comply with the Protocols,
ii) Facility's failure to file a timely claim,
iii) Payer's Payment Policies,
iv) inaccurate or incorrect claim processing,
v) insolvency or other failure by Payer to maintain its obligation to fund claims payments, if Payer is CCO, or is an entity required by applicable law to assure that its Customers not be billed in these circumstances, or

vi) a denial based on lack of medical necessity or consistency with nationally recognized scientific evidence as available, and prevailing medical standards and clinical guidelines, except as provided in section 6.5 of this Agreement.

This obligation to refrain from billing Customers applies even in those cases in which Facility believes that CCO or Payer has made an incorrect determination. In such cases, Facility may pursue remedies under this Agreement against CCO or Payer, as applicable, but must still hold the Customer harmless.

In the event of a default by a Payer other than those Payers covered by the above clause v) of this section 6.8, Facility may seek payment directly from the Payer or from Customers covered by that Payer, if Facility first inquires in writing to CCO as to whether the Payer has defaulted and, if so confirmed, gives CCO 15 days prior written notice of Facility's intent to seek payment from Payer or Customers. For purposes of this paragraph, a default is a systematic failure by a Payer to fund claims payments related to Customers covered through that Payer; a default does not occur in the case of a dispute as to whether certain claims should be paid or the amounts that should be paid for certain claims.

This section 6.8 and section 6.7 will survive the termination of this Agreement, with regard to Covered Services rendered prior to when the termination takes effect.

6.9 Consequences for failure to adhere to Customer protection requirements. If Facility collects payment from, brings a collection action against, or asserts a lien against a Customer for Covered Services rendered (other than for the applicable co-payment, deductible or coinsurance), contrary to section 6.7 or 6.8 of this Agreement, Facility will be in breach of this Agreement. This section 6.9 will apply regardless of whether Customer or anyone purporting to act on Customer's behalf has executed a waiver or other document of any kind purporting to allow Facility to collect such payment from Customer.

In the event of such a breach, Payer may deduct, from any amounts otherwise due Facility, the amount wrongfully collected from Customers, and may also deduct an amount equal to any costs or expenses incurred by the Customer, CCO or Payer in defending the Customer and otherwise enforcing sections 6.7 through 6.9 of this Agreement. Any amounts deducted by Payer in accordance with this provision will be used to reimburse the Customer and to satisfy any costs incurred. The remedy contained in this paragraph does not preclude CCO from invoking any other remedy for breach that may be available under this Agreement.

6.10 Correction of claims payments. If Facility does not seek correction of a given claim payment or denial by giving notice to CCO within 12 months after the claim was initially processed, it will have waived any right to subsequently seek such correction under this section 6.10, or through dispute resolution under Article VII of this Agreement or in any other forum.

Facility will repay overpayments within 30 days of written or electronic notice of the overpayment. Facility will promptly report any credit balance that it maintains with regard

to any claim overpayment under this Agreement, and will return the overpayment to CCO within 30 days after posting it as a credit balance.

Recovery of overpayments may be accomplished by offsets against future payments.

6.11 Claims payment issues arising from departure of Facility Professionals from Facility. In the event a Facility Professional departs from Facility and uncertainty arises as to whether Facility or some other entity is entitled to receive payment for certain services rendered by such former Facility Professional, the parties will cooperate with each other in good faith in an attempt to resolve the situation appropriately.

In the event that Facility's failure to give timely notice under section 4.8(iv) of this Agreement results in claims payments being made incorrectly to Facility, Facility will promptly notify CCO and return such payments to CCO. In the event Facility fails to do so, CCO may hold Facility liable for any attorneys' fees, costs, or administrative expenses incurred by CCO as a result.

In the event that both Facility and some other entity assert a right to payment for the same service rendered by the former Facility Professional, CCO may refrain from paying either entity until the entity to which payment is owed is determined. Provided that CCO acts in good faith, Facility will waive any right to receive interest or penalties under any applicable law relating to the prompt payment of claims.

Article VII
Dispute Resolution

The parties will work together in good faith to resolve any and all disputes between them ("Disputes") including, but not limited to the existence, validity, scope or termination of this Agreement or any term thereof, and all questions of arbitrability, with the exception of any question regarding the availability of class arbitration or consolidated arbitration, which is expressly waived below. Disputes also include any dispute in which Facility is acting as the assignee of one or more Customer. In such cases, Facility agrees that the provisions of this Article VII will apply, including without limitation the requirement for arbitration.

If the Dispute pertains to a matter which is generally administered by certain CCO procedures, such as a credentialing or quality improvement plan, the policies and procedures set forth in that plan must be fully exhausted by Facility before Facility may invoke any right to arbitration under this Article VII.

For Disputes regarding payment of claims, a party must have timely initiated and completed the claim reconsideration and appeal process as set forth in the Administrative Guide in order to initiate the Dispute process.

If the parties are unable to resolve any such Dispute within 60 days following the date one party sent written notice of the Dispute to the other party, and if either party wishes to pursue the Dispute,

it may do so only by submitting the Dispute to binding arbitration conducted by the American Arbitration Association ("AAA") in accordance with the AAA Healthcare Payor Provider Arbitration Rules, as they may be amended from time to time (see http://www.adr.org), except that, in any case involving a Dispute in which a party seeks an award of $1,000,000 or greater, or seeks termination of this Agreement, a panel of three arbitrators will be used; a single arbitrator cannot award $1,000,000 or more, or order that this Agreement is terminated. The arbitrator(s) will be selected from the AAA National Healthcare Roster (as described in the AAA Healthcare Payor Provider Arbitration Rules) or the AAA's National Roster of Arbitrators. Unless otherwise agreed to in writing by the parties, if the party wishing to pursue the Dispute does not initiate the arbitration within one year after the date on which written notice of the Dispute was given, or, for Disputes subject to the procedures or processes described in the previous paragraph, within one year after the completion of the applicable procedure or process, it will have waived its right to pursue the Dispute in any forum.

Any arbitration proceeding under this Agreement will be conducted in [name of county] County, [state]. The arbitrator(s) may construe or interpret but must not vary or ignore the terms of this Agreement and will be bound by controlling law. The arbitrator(s) have no authority to award punitive, exemplary, indirect or special damages, except in connection with a statutory claim that explicitly provides for that relief.

Except as may be required by law, neither a party (including without limitation, the parties' representatives, consultants and counsel of record in the arbitration), nor an arbitrator may disclose the existence, content, or results of any arbitration hereunder, or any Confidential Arbitration Information, without the prior written consent of all parties. "Confidential Arbitration Information" means any written submissions in an arbitration by either party, discovery exchanged, evidence submitted, transcriptions or other records of hearings in the matter and any orders and awards issued, and any reference to whether either party won, lost, prevailed, or did not prevail against the other party in any arbitration proceeding, as well as any settlement agreement related to an arbitration. However, judgment on the award may be entered under seal in any court having jurisdiction thereof, by either party.

The parties expressly intend that any arbitration be conducted on an individual basis, so that no third parties may be consolidated, joined or allowed to proceed with class arbitration. The parties agree that any arbitration ruling allowing class arbitration, or requiring consolidated arbitration involving any third party(ies), would be contrary to the terms of this Agreement and require immediate judicial review. Notwithstanding anything in this Agreement to the contrary, this paragraph may not be severed from Article VII of the Agreement under any circumstances, including but not limited to unlawfulness, invalidity or unenforceability.

The decision of the arbitrator(s) on the points in dispute will be binding. The parties acknowledge that because this Agreement affects interstate commerce, the Federal Arbitration Act applies.

In the event any court determines that this arbitration procedure is not binding or otherwise allows litigation involving a Dispute to proceed, the parties hereby waive any and all right to trial by jury

in, or with respect to, the litigation. The litigation would instead proceed with the judge as the finder of fact.

In the event a party wishes to terminate this Agreement based on an assertion of uncured material breach, and the other party disputes whether grounds for the termination exist, the matter will be resolved through arbitration under this Article VII. While the arbitration remains pending, the termination for breach will not take effect.

This Article VII will survive any termination of this Agreement.

Article VIII
Term and Termination

8.1 **Term.** This Agreement will take effect on the Effective Date. This Agreement has an initial term of [three years] and renews automatically for renewal terms of one year, until terminated pursuant to section 8.2 of this Agreement.

8.2 **Termination.** This Agreement may be terminated under any of the following circumstances:

i) by mutual written agreement of the parties;
ii) by either party, upon at least 180 days' prior written notice, effective at the end of the initial term or effective at the end of any renewal term;
iii) by either party, upon 60 days' prior written notice, in the event of a material breach of this Agreement by the other party, which notice will include a specific description of the alleged breach; however, the termination will not take effect if the breach is cured within 60 days after notice of the termination, or if the termination is deferred under Article VII of this Agreement;
iv) by either party, upon 10 days' prior written notice, in the event the other party loses licensure or other governmental authorization necessary to perform this Agreement, or fails to have insurance as required under section 4.7 or section 5.2 of this Agreement;
v) by CCO, upon 10 days' prior written notice, in the event Facility loses accreditation; or
vi) by CCO, immediately upon written notice, in the event:
    a) Facility loses approval for participation under CCO's credentialing plan, or
    b) Facility does not successfully complete the CCO's re-credentialing process as required by the credentialing plan.

8.3 **Ongoing services to certain Customers after termination takes effect.** In the event a Customer is receiving any of the Covered Services listed below, as of the effective date of the termination of this Agreement, or the effective date that a Benefit Plan is added to the list in Appendix 2 of Benefit Plans excluded from this Agreement, Facility will continue to render those Covered Services to that Customer, and this Agreement will continue to apply to those Covered Services, after the termination/exclusion takes effect, for the length of time indicated below:

Covered Service	Continuity of Care Period
Inpatient Covered Services	30 days or until discharge, whichever comes first
Pregnancy, Third Trimester – Low Risk	Through postpartum follow up visit
Pregnancy, First, Second or Third Trimester – Moderate Risk and High Risk	Through postpartum follow up visit
Non-Surgical Cancer Treatment	30 days or a complete cycle of radiation or chemotherapy, whichever is greater
End Stage Kidney Disease and Dialysis	30 days
Symptomatic AIDS undergoing active treatment	30 days
Any circumstance where Payer is required by applicable law to provide transition coverage of services rendered by Facility after Facility leaves the provider network accessed by Payer.	As required by applicable law

Article IX
Miscellaneous Provisions

9.1 **Entire Agreement.** In order for this Agreement to be binding, it must be executed by all parties through written or electronic signature. This Agreement is the entire agreement between the parties with regard to its subject matter, and supersedes any prior written or unwritten agreements between the parties or their affiliates with regard to the same subject matter.

9.2 **Amendment.** In order for an amendment to this Agreement to be binding, it must be executed by all parties through written or electronic signature, except as otherwise provided in this section 9.2.

CCO may amend this Agreement upon written notice to Facility in order to comply with applicable regulatory requirements, but only if that amendment is imposed on a similar basis to all or substantially all of the facilities in CCO's network that would be similarly impacted by the regulation in question. CCO will provide at least 30 days' notice of any such regulatory amendment, unless a shorter notice period is necessary in order to comply with regulatory requirements.

9.3 **Non-waiver.** The waiver by either party of any breach of any provision of this Agreement will not operate as a waiver of any subsequent breach of the same or any other provision.

9.4 **Assignment.** This Agreement may not be assigned by either party without the written consent of the other party, except that this Agreement may be assigned by CCO to any CCO Affiliate.

Additionally, if CCO transfers to a third party all of its business described in a given line item in Appendix 2, section 1, or other line of business, CCO may assign this Agreement, only as it relates to that transferred business, to that third party. Such an assignment will not impact the relationship of the parties under this Agreement with regard to the remainder of CCO's business.

9.5 Relationship of the parties. The sole relationship between the parties to this Agreement is that of independent contractors. This Agreement does not create a joint venture, partnership, agency, employment or other relationship between the parties.

9.6 No third-party beneficiaries. CCO and Facility are the only entities with rights and remedies under this Agreement.

9.7 Calendar days. Unless this Agreement specifically provides otherwise, all references in this Agreement to a period of days refers to calendar days.

9.8 Notice procedures. Any notice required to be given under this Agreement must be in writing, except in cases in which this Agreement specifically permits electronic notice, or as otherwise permitted or required in the Protocols. Acceptable forms of written notice include facsimile, first class mail, certified mail, or overnight delivery by a national, recognized delivery service. All notices of termination of this Agreement by either party must be sent by certified mail, return receipt requested, addressed to the appropriate party at the address set forth on the signature portion of this Agreement. Each party will provide the other with proper addresses, facsimile numbers and electronic mail addresses. All notices will be deemed received upon receipt by the party to which notice is given or on the 5th business day following mailing, whichever occurs first.

9.9 Confidentiality. Neither party may disclose to a Customer, other health care provider, or other third party any of the following information (except as required by an agency of the government):

i) any proprietary business information, not available to the general public, obtained by the party from the other party;

ii) the specific reimbursement amounts provided for under this Agreement, except for purposes of administration of benefits, including informing Customers, Benefit Plan sponsors and/or referring providers about the cost of a particular Covered Service or set of Covered Services; or

iii) any customer list of the other party regardless of how such customer list was generated.

This section 9.9 does not preclude the disclosure of information by CCO to a third party as part of the process by which the third party is considering whether to purchase services from CCO.

At least 48 hours before either party issues a press release, advertisement, or other media statement about the business relationship between the parties, that party will give the other party a copy of the material the party intends to issue.

9.10 Governing law. This Agreement will be governed by and construed in accordance with the laws of the state in which Facility renders Covered Services, and any other applicable law.

9.11 Regulatory appendices. One or more regulatory appendices may be attached to this Agreement, setting forth additional provisions included in this Agreement in order to satisfy regulatory requirements under applicable law. These regulatory appendices, and any attachments to them, are expressly incorporated into this Agreement and are binding on the parties to this Agreement. In the event of any inconsistent or contrary language between a regulatory appendix and any other part of this Agreement, including but not limited to appendices, amendments and exhibits, the regulatory appendix will control, to the extent it is applicable.

9.12 Severability. Except as otherwise set forth in this Agreement, any provision of this Agreement that is unlawful, invalid or unenforceable in any situation in any jurisdiction will not affect the validity or enforceability of the remaining provisions of this Agreement or the lawfulness, validity or enforceability of the offending provision in any other situation or jurisdiction.

9.13 Survival. Notwithstanding the termination of this Agreement, this Agreement will continue to apply to Covered Services rendered while this Agreement was in effect. Additionally, section 9.9 of this Agreement, (except for the last paragraph) will survive the termination of this Agreement.

THIS AGREEMENT CONTAINS A BINDING ARBITRATION PROVISION THAT MAY BE ENFORCED BY THE PARTIES.

Appendix 2
Benefit Plan Descriptions

Section 1. CCO may allow Payers to access Facility's services under this Agreement for the Benefit Plan types described in each line item below, unless otherwise specified in section 2 of this Appendix 2:

- [Mississippi Medicaid Benefit Plans.]

- [Mississippi CHIP Benefit Plans.]

Section 2. Notwithstanding the above section 1 of this Appendix 2, this Agreement will not apply to the Benefit Plan types described in the following line items:

- [Mississippi Medicaid Benefit Plans.]
- [Mississippi CHIP Benefit Plans.]
- Medicaid and CHIP Benefit Plans other than those separately addressed in this Appendix 2.

Page Intentionally left Blank.

Note: Excluding certain Benefit Plans or programs from this Agreement does not preclude the parties or their affiliates from having or entering into a separate agreement providing for Facility's participation in a network for such Benefit Plans or programs.

Section 3. Definitions:

Note: CCO may adopt a different name for a particular Benefit Plan, and/or may modify information referenced in the definitions in this Appendix 2 regarding Customer identification cards. If that happens, section 1 or section 2 of this Appendix 2 will continue to apply to those Benefit Plans as it did previously, and CCO will provide Facility with the updated information. Additionally, CCO may revise the definitions in this Appendix 2 to reflect changes in the names or roles of CCO's business units, provided that doing so does not change Facility's participation status in Benefit Plans impacted by that change, and further provided that CCO provides Facility with the updated information.

MEDICAID, CHIP AND OTHER STATE PROGRAMS:

- **Medicaid Benefit Plans** means Benefit Plans that offer coverage to beneficiaries of a program that is authorized by Title XIX of the federal Social Security Act, and jointly financed by the federal and state governments and administered by the state.

- **Mississippi Medicaid Benefit Plans** means Medicaid Benefit Plans issued in Mississippi that have a reference to "CCO" on the valid identification card of any Customer eligible for and enrolled in that Benefit Plan.

- **Children's Health Insurance Program ("CHIP") Benefit Plans** means Benefit Plans under the program authorized by Title XXI of the federal Social Security Act that is jointly financed by the federal and state governments and administered by the state.

- **Mississippi CHIP Benefit Plans** means CHIP Benefit Plans issued in Mississippi that include a reference to "CCO" and "MSCHIP" on the face of the valid identification card of any Customer eligible for and enrolled in that Benefit Plan.

- **Other Governmental Benefit Plans** means Benefit Plans that are funded wholly or substantially by a state or district government or a subdivision of a state (such as a city or county), but do not include Benefit Plans for:
  i) employees of a state government or a subdivision of a state and their dependents;
  ii) students at a public university, college or school;
  iii) employer-based coverage of private sector employees, even if the employer receives a government subsidy to help fund the coverage;
  iv) Medicaid beneficiaries;
  v) Children's Health Insurance Program (CHIP) beneficiaries; and
  vi) Medicare and Medicaid Enrollees (MME).

Additional Manuals Appendix

For some of the Benefit Plans for which Facility may provide Covered Services under this Agreement, Facility is subject to additional requirements of one or more additional provider manuals ("Additional Manuals"). When this Agreement refers to Protocols or Payment Policies, it is also referring to the Additional Manuals. An Additional Manual may be a separate document or it may be a supplement to the CCO Care Provider Administrative Guide ("CCO Administrative Guide").

For Benefit Plans subject to an Additional Manual, the Additional Manual controls if it conflicts with any of the following: (1) a provision of this Agreement or of the CCO Administrative Guide; or (2) a CCO Protocol or Payment Policy. However, the Additional Manual does not control where it conflicts with applicable statutes or regulations.

The Additional Manuals will be made available to Facility on a designated website and upon request. The names of the Additional Manuals, the websites to view and download them, and the Benefit Plans to which they apply, are listed in Table 1 below. CCO may change the location of a website or the Customer identification card identifier used to identify Customers subject to a given Additional Manual; if CCO does so, CCO will inform Facility.

CCO may make changes to the Additional Manuals subject to this Appendix in accordance with the provisions of this Agreement relating to Protocol and Payment Policy changes.

Facility Professional Roster

IMPORTANT NOTE: Facility acknowledges its obligation to notify CCO of any change in Facility Professionals in accordance with Article IV and Section 4.8. Failure to do so may result in denial of claims or incorrect payment.

Facility represents that it has provided CCO with a Facility Professional Roster that includes all of the following data elements for each Facility Professional:

- Name of Professional (first name, middle initial, last name)
- Degree (MD, DO, NP, PA, other)
- Gender (M/F)
- Provider Specialty(ies) (primary, secondary, additional specialties)
- Operates as and willing to be listed/assigned as a Primary Care Professional "PCP" (Y/N)
- State License Number
- Medicaid ID Number
- NPI Number
- Foreign Language(s)
- Admitting Hospital(s)

If any data element is not applicable to a specific Facility Professional, Facility will indicate "not applicable" in the appropriate field. Acceptable formats include in writing, electronically in Excel, ANSI, or text (comma delineated) formats.

Payment Appendix – [Mississippi CHIP] [and] [MississippiMedicaid]

This Appendix applies to Covered Services rendered by Facility to Customers covered under the following type(s) of Benefit Plans as described in this Agreement:

- [Mississippi CHIP Benefit Plans.]
- [Mississippi Medicaid Benefit Plans.]

Section 1
Definitions

Any capitalized terms used herein, but not otherwise defined, will have the meanings ascribed to them in the Agreement.

Fee Schedule: The Mississippi Medicaid fee schedule published by Mississippi Division of Medicaid (the "Mississippi Medicaid Program").

FQHC [RHC] Covered Services: Services which the Mississippi Medicaid Program defines as Covered Services when provided by an FQHC [RHC].

Per Visit: The flat rate payment made to Facility for all Covered Services rendered to a Customer, during a one calendar day period, for each outpatient service category. Unless otherwise specified in this Appendix, the Per Visit, together with any co-payment, deductible or coinsurance for which the Customer is responsible under the Benefit Plan, will be considered payment in full for all Covered Services rendered to the Customer including, but not limited to, physician and other professional fees billed by the Facility on a claim, (including services rendered by non-physician personnel, regardless of whether those personnel are employed by Facility and regardless of whether those services are characterized as professional services), nursing care, diagnostic and therapeutic services, durable medical equipment, supplies (including, but not limited to anesthesia supplies), medications, Facility and ancillary services, and, if applicable, room and board. Facility is required to identify each date of service when submitting claims spanning multiple dates of service.

Section 2
Contracted Rate for Covered Services

2.1 Contract Rate. For Covered Services rendered by Facility to a Customer, CCO will pay the lesser of the contract rates as determined in accordance with Section 2.2 of this Appendix or Facility's Customary Charges. Payment under this Appendix will be less any applicable co-payments, deductibles and coinsurance and is subject to the requirements set forth in the Agreement, such as Payment Policies.

2.2 Covered Services. For FQHC [RHC] Covered Services rendered by Facility to a Customer, the contract rates will be the rates set forth in FQHC [RHC] Covered Services Table.

FQHC [RHC] Covered Services Table

Service Category	Payment Method	Contract Rate
FQHC [RHC] Covered Services	Per Visit	100% of the Facility Specific Mississippi Medicaid Program Rate for FQHC [RHC] Covered Services

For FQHC [RHC] Covered Services rendered by Facility to a Mississippi Medicaid Benefit Plan Customer that are not payable under FQHC [RHC] Covered Services Table, the contract rates will be 100% of the Mississippi Medicaid Fee Schedule rate.

For FQHC [RHC] Covered Services rendered by Facility to a Mississippi CHIP Benefit Plan Customer that are not payable under FQHC [RHC] Covered Services Table, .the contract rates will be based off of the Services other than FQHC [RHC] Covered Services Payment Appendix.

If an applicable state or federal program is available to provide items or payment directly to Facility for specific Covered Services for Customers subject to this Appendix that would otherwise be payable under this Appendix, the applicable program will apply and not this Appendix. (For example, the Vaccines For Children program currently provides vaccines free of charge, and therefore no amount will be payable under this Appendix for vaccines within the Vaccines For Children program. However, the administration of such vaccine may be payable under this Appendix if payment is not provided under the Vaccines For Children program for vaccine administration.)

2.3 Billing and Filing of Claims. Facility will submit a single claim for all Covered Services performed during one calendar day for a Customer. Facility will immediately notify CCO if Facility files more than one claim for services provided to a Customer on one calendar day. Facility will bill using a CMS 1500 or successor form or its electronic equivalent. All claims submitted under this Appendix must use CPT Codes, HCPCS Codes, ICD-10 Codes or its successor and other codes in compliance with HIPPA standard data set requirements. Claims submitted without HIPPA standard data set requirements may be denied.

Section 3
Miscellaneous Provisions

3.1 Inclusive Rates. The contract rate established by this Appendix for the service category listed in Table 1 is all-inclusive and represents the entire payment including but not limited to any applicable tax, for the provision to the Customer of all Covered Services that are in the given service category, including but not limited to those Covered Services that are generally provided as a part of the service in the given service category. No additional payments will be made for any Covered services billed for separately by Facility.

Covered Services billed for separately by Facility that are not generally provided as a part of the service category listed in Table 1 are not subject to reimbursement under this Appendix, but may be payable under another appendix to this Agreement or under another agreement.

3.2 Payment Code Updates. CCO will have the right to update any codes, such as Revenue Codes, ICD-10-CM Codes or successor, HCPCS Codes and/or CPT Codes, from time to time according to changes in the industry, including among other things (a) the latest edition of the Current Procedural Terminology (CPT) manual which is revised by the American Medical Association, (b) the latest edition of the HCPCS manual which is revised by the Centers for Medicare and Medicaid Services (CMS), (c) the latest edition of the ICD-10-CM or successor which is issued by the U.S. Department of Health and Human Services, and (d) the latest guidelines from the National Uniform Billing Committee. CCO will not generally notify Facility of these code updates.

3.3 Changes to Medicaid State Agency FQHC/RHC Services Rate and Reimbursement Methodology. With regard to all Covered Services that are reimbursed under this Appendix and based on the Mississippi Division of Medicaid (Medicaid State Agency ") Rate (including a contract rate that is a fixed percentage of the Medicaid State Agency Rate) and reimbursement methodology, the contract rate and reimbursement methodology under this Appendix will be adjusted consistent with changes made by the Medicaid State Agency , as finalized and published, and as further described in this Section 3.3 and Sections 3.3(i) and 3.3(ii). In the case of a contract rate that is a fixed percentage of the Medicaid State Agency Rate, the new contract rate after a change to the Medicaid State Agency Rate, will be the same fixed percentage of the new Medicaid State Agency Rate; the timetable for implementing the change is described in Section 3.3(i).

i) Medicaid State Agency Rates. In the event that the Medicaid State Agency changes the Medicaid State Agency Rate, published as described in Section 3.3, provided that the state does not change its methodology, the contract rate change will automatically apply to this Appendix within 45 days from the date the change is published in the Medicaid agency's official correspondence to CCO or is otherwise formally communicated by the Medicaid agency to CCO. CCO will make the changes effective in its system on the effective date of the change by the primary fee source. Claims for dates of service on or after the effective date of the Medicaid State Agency Rate change that were adjudicated before CCO implemented the change will not be adjusted to the new contract rate unless otherwise required by law.

ii) Medicaid State Agency Reimbursement Methodologies. If the Medicaid State Agency changes the manner in which it reimburses or changes the Medicaid primary fee source such that CCO is required to make significant programming or platform changes in order to implement the Medicaid agency changes, CCO will implement the new state methodologies, effective on the date that is published in the Medicaid agency's official correspondence to CCO or as otherwise formally communicated by the Medicaid agency to CCO. Facility agrees that, in such case, it will accept the current payment as set forth in this Payment Appendix until such a time as CCO can implement the Medicaid agency change. At such time CCO is able to implement the change, CCO will communicate the change via a copy of a new payment appendix. The changes will be incorporated into this Payment Appendix for all dates of service on or after those changes are effective in the Medicaid program.

In the event that CCO is unable to incorporate the state methodology changes, in their entirety, through commercially reasonable efforts, CCO will contact Facility within 90 days from the date the change is finalized and published. In this case, the parties will negotiate in good faith for a period of up to 60 days to agree upon an amendment to this Appendix which will amend the Agreement to replace this Appendix with a new Appendix and stated effective date for the new rates. At any time after expiration of the 60 day required negotiation period, if the parties have not reached an agreement upon such an amendment, either party may initiate Dispute Resolution according to the Agreement.

3.4 Services Not Payable Under This Appendix But May Be Payable Under Another Appendix To The Agreement Or Under Another Agreement. The following [FQHC] [RHC] Covered Services are not subject to payment under this Appendix: Dental Services, Vision Services, Mental Health Services, and Central Nervous System Assessments. Facility should refer to the Mississippi Medicaid Program provider manual as coding for the aforementioned services may change from time to time. In the event Facility is a party to another agreement with CCO or an affiliate of CCO that is applicable to those services rendered to a Customer, or another appendix to the Agreement applies to these services rendered to a Customer the services below may be payable under that agreement or appendix.
]

[Payment Appendix – Mississippi CHIP
Services other than FQHC [RHC] Covered Services

The provisions of this Payment Appendix apply to Covered Services that are not FQHC [RHC] Covered Services and that are rendered by Facility to Customers covered by Mississippi CHIP Benefit Plans as described in this Agreement.

Facility will submit claims using current CMS 1500 or successor forms for paper claims and HIPAA standard professional format for electronic claims, as applicable, with applicable coding including, but not limited to, ICD, CPT, and HCPCS coding.

]

Mississippi Medicaid Program
Regulatory Requirements Appendix

MISSISSIPPI MEDICAID PROGRAM

REGULATORY REQUIREMENTS APPENDIX

PROVIDER

THIS MISSISSIPPI MEDICAID PROGRAM REGULATORY REQUIREMENTS APPENDIX (this "Appendix") supplements and is made part of the provider agreement (the "Agreement") between HMO ("HMO") or one of its Affiliates and the party named in the Agreement ("Provider").

SECTION 1
APPLICABILITY

The requirements of this Appendix apply to Medicaid benefit plans sponsored, issued or administered by HMO under the Mississippi Coordinated Access Network Program (the "MississippiCAN Program") governed by the State's designated regulatory agencies. In the event of a conflict between this Appendix and other appendices or any provision of the Agreement, the provisions of this Appendix shall control except with regard to benefit plans outside the scope of this Appendix or unless otherwise required by law. In the event HMO is required to amend or supplement this Appendix as required or requested by the State to comply with federal or State regulations, HMO will unilaterally initiate such additions, deletions or modifications. All provider agreements must be in writing and must include all specific activities and report responsibilities delegated to the Provider by HMO.

SECTION 2
DEFINITIONS

Unless otherwise defined in this Appendix, all capitalized terms shall be as defined in the Agreement. For purposes of this Appendix, the following terms shall have the meanings set forth below; provided, however, in the event any definition set forth in this Appendix or the Agreement is inconsistent with any definitions under the MississippiCAN Program, the definitions shall have the meaning set forth under the MississippiCAN Program.

2.1 **Adverse Benefit Determination:** The denial or limited authorization of a requested service, including determinations on the type or level of service, requirements for medical necessity, appropriateness, setting, or effectiveness of a covered benefit; the reduction, suspension, or termination of previously authorized services; the denial, in whole or in part, of payment for a service; HMO's failure to provide services in a timely manner; HMO's failure to resolve Complaints, Grievances, or Appeals within the specified time frames; for residents in a rural area with only one MCO, the denial of a Covered Person's request to exercise his or her right, under 42 C.F.R. §438.52(b)(2)(ii); the denial of a Covered Person's request to dispute a financial liability, including cost sharing, copayments, premiums, deductibles, coinsurance, and other enrollee financial liabilities; and determinations by skilled nursing facilities and nursing facilities to transfer or discharge residents and adverse determinations made by a State with regard to the preadmission screening and annual resident review requirements of Section 1919(e)(7) of the Act, if applicable.

2.2 **Affiliate:** Those entities controlling, controlled by, or under common control with HMO.

2.3 **Appeal:** A request for review by HMO of an Adverse Benefit Determination related to a Covered Person or Provider. In the case of a Covered Person, an Adverse Benefit Determination may include determinations on the health care services a Covered Person believes he or she is entitled to receive, including delay in providing, arranging for, or approving the health care services (such that a delay would adversely affect the health of the Covered Person). In the case of a Provider, the Adverse Benefit Determination may include, but is not limited to, delay or non-payment for covered services.

2.4 **Behavioral Health Services:** Mental health and/or substance and alcohol use disorder treatment services that are provided by the county mental health/intellectual disability/developmental disability programs, the single county authority administrators, or other appropriately licensed health care practitioners.

2.5 **CMS:** Center for Medicare and Medicaid Services is an agency within the U.S. Department of Health & Human Services responsible for administration of several key federal health care programs.

2.6 **Complaint:** An expression of dissatisfaction received orally or in writing that is of a less serious or formal nature that is resolved within one (1) business day of receipt.

2.7 **Covered Person:** An individual who meets all of the eligibility requirements for Mississippi Medicaid and is currently enrolled with HMO for the provision of services under a MississippiCAN Program. A Covered Person may also be referred to as an Enrollee, Member or Customer under the Agreement.

2.8 **Covered Services:** Health care services or products for which a Covered Person is enrolled with HMO to receive coverage under the State Contract, including all services required by the State Contract and State and federal law.

2.9 **DOM:** Division of Medicaid, Office of the Governor, State of Mississippi.

2.10 **Early, Periodic, Screening, Diagnosis, and Treatment (EPSDT) Services:** Defined by DOM to include:

i) Age appropriate, comprehensive health and development history that includes physician and mental health assessments along with counseling and anticipatory guidance and risk factor reduction interventions;
ii) Calculation of Body Mass Index;
iii) Growth measurements and head circumference;
iv) Nutritional counseling;
v) Developmental surveillance and Developmental and autism Spectrum Disorders Screenings as appropriate;
vi) Comprehensive unclothed exam;
vii) Appropriate laboratory tests (including blood level assessment appropriate to age and risk);

viii) Appropriate immunizations in accordance with Recommended Childhood and Adolescent Immunization Schedule adopted by DOM;
ix) A vision assessment;
x) A hearing assessment;
xi) A dental screening and/or referral to dental care;
xii) Health education; and
xiii) Referrals for identified abnormalities.

2.11 Fraud and Abuse: Fraud is any type of intentional deception or misrepresentation made by an entity or person with the knowledge that the deception could result in some unauthorized benefit to the entity, him or herself, or some other person. The Fraud can be committed by many entities, including a vendor, a subcontractor, a provider, a State employee, or a Covered Person, among others. Abuse is any practice that is inconsistent with sound fiscal, business, or medical practices, and results in an unnecessary cost to the Medicaid program, a vendor, a subcontractor or Provider or in reimbursement for services that are not Medically Necessary or that fail to meet professionally recognized standards for health care.

2.12 Grievance: An expression of dissatisfaction about any matter or aspect of HMO or its operation, other than an Adverse Benefit Determination as defined herein. Grievances may include, but are not limited to, the quality of care or services provided, and aspects of interpersonal relationships such as rudeness of a provider or employee, or failure to respect the Covered Person's rights regardless of whether remedial action is requested. Grievance includes a Covered Person's right to dispute an extension of time proposed by HMO to make an authorization decision.

2.13 Marketing: The activities that promote visibility and awareness for the MississippiCAN Program and HMO's participation in the program. All marketing activities are subject to prior review and approval by DOM and may not contain misleading information.

2.14 Medical Record: A single complete record, which documents the entire treatment plan developed for, and medical services received by, the Covered Person including inpatient, outpatient, referral services and emergency medical services whether provided by contracted Providers or non-contracted providers.

2.15 Mississippi Coordinated Access Network (MississippiCAN) Program: Mississippi Medicaid's coordinated care program for select Medicaid Beneficiaries.

2.16 Primary Care Provider (PCP): Any physician or health care practitioner or group operating within the scope of his or her licensure who is responsible for supervising, prescribing and providing primary care and primary case management services in the MississippiCAN Program, whose practice is limited to the general practice of medicine or who is an Internist, Pediatrician, Obstetrician, Gynecologist, Family Practitioner, General Practitioner, Certified Nurse Practitioners whose specialty is pediatrics, adult, family, certified nurse midwife, obstetrics/gynecology, or a physician assistant.

2.17 Prior Authorization: A determination to approve a Provider's request, pursuant to services covered in the MississippiCAN Program, to provide a service or course of

treatment of a specific duration and scope to a Member prior to the initiation or continuation of the service.

2.18 Provider Network: The Panel of health service Providers with which HMO contracts for the provision of covered services to Covered Persons and Non-Contracted Providers administering services to Covered Persons.

2.19 State: The State of Mississippi or its designated regulatory agencies.

2.20 State Contract: HMO's contract with the State for the purpose of providing and paying for Covered Services to Covered Persons enrolled in the MississippiCAN Program.

2.21 Third Party Resource: Any resource available to a Covered Person for the payment of medical expenses associated with the provision of covered services, other than those which are exempt under Title XIX of the Act, including but not limited to, insurers and workers' compensation plan.

2.22 Urgent Care: Urgent care services are utilized because the Members primary care physician is not available. An urgent condition isn't life threatening but may need prompt attention. Urgent care services are for an illness, injury or condition serious enough that a reasonable person would seek care right away, but not so severe it requires emergency room care. Urgent care centers can typically treat things including, but not limited to, sprains, strains, minor broken bones.

SECTION 3
PROVIDER REQUIREMENTS

The MississippiCAN Program, through the State Contract and federal and State statutes and regulations, requires the Agreement to contain certain conditions that HMO and Provider agree to undertake, which include the following:

3.1 Definitions Related to the Provision of Covered Services. Provider shall follow the applicable State Contract's requirements for the provision of Covered Services. Provider's decisions affecting the delivery of acute or chronic care services to Covered Persons shall be made on an individualized basis and in accordance with the following definitions:

i) Emergency Medical Condition: A medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in any of the following: (a) placing the health of the individual (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; (b) serious impairment to body functions; or (c) serious dysfunction of any body organ or part.

ii) Emergency Services: Covered inpatient and outpatient services, inclusive of dialysis services, furnished by a provider who is qualified to furnish those health

services and that are needed to evaluate or stabilize an Emergency Medical Condition in accordance with 42 CFR 438.114.

iii) Medically Necessary Services: As set forth in the Social Security Act, Section 1905 (42 USC 1396d(a)), Medically Necessary Services are defined as services, supplies, or equipment provided by a licensed health care professional that are:

a) Appropriate and consistent with the diagnosis or treatment of the Covered Person's condition, illness, or injury;

b) In accordance with the standards of good medical practice consistent with the individual Covered Person's condition(s);

c) Not primarily for the personal comfort or convenience of the Member, family, or Provider;

d) The most appropriate services, supplies, equipment, or levels of care that can be safely and efficiently provided to the Covered Person;

e) Furnished in a setting appropriate to the Covered Person's medical need and condition and, when applied to the care of an inpatient, further mean that the Covered Person's medical symptoms or conditions require that the services cannot be safely provided to the Covered Person as an outpatient;

f) Not experimental or investigational or for research or education;

g) Provided by an appropriately licensed practitioner; and

h) Documented in the patient's record in a reasonable manner, including the relationship of the diagnosis to the service.

Medically Necessary Services may also be those services for children that are necessary to correct or ameliorate defects and physical and mental illnesses and conditions discovered during an interperiodic or periodic EPSDT screen, whether such services are covered or exceed the benefit limits in the Medicaid State Plan and Title 23 of Mississippi Administrative Code.

iv) Urgent Care: Urgent care services are utilized because the Covered Person's primary care physician is not available. An urgent condition is not life threatening but may need prompt attention. Urgent care services are for an illness, injury or condition serious enough that a reasonable person would seek care right away, but not so severe it requires emergency room care.

3.2 Provider Eligibility. Provider must be enrolled in the Mississippi Medicaid program and must use the same National Provider Identifier (NPI) number to participate in HMO's Network. Upon notification from the State that Provider's enrollment has been denied or terminated, HMO must terminate Provider immediately and will notify affected Covered Persons that Provider is no longer participating in the network. HMO will exclude from its

network any provider who has been terminated or suspended from the Medicare or Medicaid program in any state.

3.3 Accessibility Standards. Provider shall provide for timely access for Covered Person appointments in accordance with the appointment availability requirements established under the State Contract, as further described in the applicable provider manual.

Type	Appointment Scheduling Time Frames
PCP (well care visit)	Not to exceed thirty (30) calendar days
PCP (routine sick visit)	Not to exceed seven (7) calendar days
PCP (urgent care visit)	Not to exceed twenty-four (24) hours
Specialists	Not to exceed forty-five (45) calendar days
Dental Providers (routine visits)	Not to exceed forty-five (45) calendar days
Dental Providers (urgent Care)	Not to exceed forty-eight (48) hours
Behavioral Health Providers (routine visit)	Not to exceed fourteen (14) calendar days
Behavioral Health Providers (urgent visit)	Not to exceed twenty-four (24) hours
Behavioral Health Providers (post-discharge from an acute psychiatric hospital when the Contractor is aware of the Member's discharge)	Not to exceed seven (7) calendar days
Urgent Care Providers	Not to exceed twenty-four (24) hours
Emergency Providers	Immediately (twenty-four (24) hours a day, seven (7) days a week) and without Prior Authorization

3.4 Hours of Operation; Appointments. Provider shall offer hours of operation that are no less than the hours of operation offered to commercial beneficiaries or comparable to Medicaid fee-for-service if Provider serves only Medicaid beneficiaries. As applicable, Provider will make Covered Services available 24 hours a day, 7 days a week when medically necessary.

3.5 Hold Harmless. Except for any applicable cost-sharing requirements under the State Contract, Provider shall look solely to HMO for payment of Covered Services provided to Covered Persons pursuant to the Agreement and the State Contract and hold the State, DOM, the U.S. Department of Health and Human Services and Covered Persons harmless in the event that HMO cannot or will not pay for such Covered Services. In accordance with 42 CFR 447.15, as may be amended from time to time, the Covered Person is not liable to Provider for any services for which HMO is liable and as specified under the State's relevant health insurance or managed care statutes, rules or administrative agency guidance. Provider shall not require any copayment or cost sharing for Covered Services provided under the Agreement unless expressly permitted under the State Contract.

Provider shall also be prohibited from charging Covered Persons for missed appointments if such practice is prohibited under the State Contract or applicable law. Neither the State, DOM nor Covered Persons shall be in any manner liable for the debts and obligations of HMO and under no circumstances shall HMO, or any providers used to deliver services covered under the terms of the State Contract, charge Covered Persons for Covered Services.

Covered Person may be responsible for non-covered item(s) and/or service(s), only if the Provider ensures that written documentation in compliance with the Advance Beneficiary Notification (ABN) is received from the Covered Person that an item(s) or service(s) rendered is a non-covered item and/or service(s) and that the Covered Person will be financially responsible for the item(s) and/or service(s). If HMO determines a Covered Person was charged for Covered Services inappropriately, such payment may be recovered, as applicable.

This provision shall survive any termination of the Agreement, including breach of the Agreement due to insolvency.

3.6 **Indemnification.** To the extent applicable to Provider in performance of the Agreement, Provider shall indemnify, defend, protect, save and hold DOM and its employees and Covered Persons harmless from and against all injuries, deaths, losses, damages, claims, suits, liabilities, judgments, costs and expenses, including, without limitation, court costs, investigative fees and expenses and attorney fees, to the extent proximately caused by any negligent act or other intentional misconduct or omission of Provider, its agents, officers, employees or contractors arising from the Agreement. DOM may waive this requirement for public entities if Provider is a state agency or sub-unit as defined by the State or a public health entity with statutory immunity. This clause shall survive the termination of the Agreement for any reason, including breach due to insolvency.

3.7 **Provider Selection.** To the extent applicable to Provider in performance of the Agreement, Provider shall comply with 42 CFR 438.214, as may be amended from time to time, which includes, but is not limited to the selection and retention of providers, credentialing and recredentialing requirements and nondiscrimination. If HMO delegates credentialing to Provider, HMO will provide monitoring and oversight and Provider shall ensure that all licensed medical professionals are credentialed in accordance with HMO's and the State Contract's credentialing requirements.

3.8 **Restrictions on Referrals.** Provider shall not make inappropriate referrals for designated health services to health care entities with which Provider or a member of Provider's family has a financial relationship, pursuant to federal anti-kickback and physician self-referral laws that prohibit such referrals.

3.9 **Records Retention.** As required under State or federal law or the State Contract, Provider shall maintain an adequate record keeping system for recording services, charges, dates and all other commonly accepted information elements sufficient to disclose the quality, quantity, appropriateness and timeliness of services rendered to Covered Persons. All financial records shall follow generally accepted accounting principles. Medical records and supporting management systems shall include all pertinent information related to the

medical management of each Covered Person. Other records shall be maintained as necessary to clearly reflect all actions taken by Provider related to services provided under the State Contract. Such records, including, as applicable, grievance and appeal records shall be maintained for a period of not less than ten (10) years from the close of the Agreement, or such other period as required by law. If records are under review or audit, they must be retained for a minimum of ten (10) years following resolution of such action. Prior approval for the disposal of records must be requested and approved by HMO if the Agreement is continuous.

3.10 Records Access. Provider agrees to cooperate with HMO to maintain and share a health record of all services provided to a Covered Person, as appropriate and in accordance with applicable laws, regulations and professional standards. Provider acknowledges and agrees that the State, DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel shall have complete access to all records pertaining to services provided to Covered Persons. Provider shall provide immediate access to facilities, records and supportive materials pertinent to the State Contract for State or Federal fraud investigators. Copies of requested documents shall be provided to the State, DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel or their designees free of charge.

3.11 Government Audit; Investigations. Provider acknowledges and agrees that the State and the U.S. Department of Health and Human Services, the Centers for Medicare & Medicaid Services, the Office of Inspector General, the General Accounting Office, or any other auditing agency and their designees or their authorized representatives, with prior approval by DOM, shall, at all reasonable time, with or without notice, have the right to inspect, audit or otherwise evaluate the quality, appropriateness, and timeliness of services provided under the terms of the State Contract and any other applicable rules, including the right to inspect and audit any records or documents of Provider and its subcontractors, and the right to inspect the premises, physical facilities, and equipment where Medicaid-related activities or work is conducted. The right to audit under this section exists for 10 years from the end date of the State Contract or from the date of completion of any audit, whichever is later. There shall be no restrictions on the right of the State or federal government to conduct whatever inspections and audits are necessary to assure quality, appropriateness or timeliness of services provided pursuant to the State Contract and the reasonableness of their costs.

3.12 Privacy; HIPAA. Provider shall comply with all applicable privacy rule and security rule provisions of the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), and associated implementing regulations, as may be amended from time to time, and shall safeguard information about Covered Persons in accordance with applicable federal and State privacy laws and rules including 42 CFR 438.224 and 42 CFR Part 431, Subpart F, as may be amended from time to time. HMO agrees and shall require Provider to agree that confidential information, including but not limited to medical and other pertinent information relative to Covered Persons, shall not be disclosed to any person or organization for any purpose without the expressed, written authority of DOM or as otherwise required by law and that all such disclosures shall fully comply with HIPAA privacy and security standards.

3.13 Compliance with Law. Provider shall comply with all applicable federal and State laws and regulations, and all provisions of the State Contract, that pertain to a Covered Person's rights, including but not limited to the following to the extent applicable to Provider in performance of the Agreement:

i) Title VI of the Civil Rights Act of 1964; Title XIX of the Social Security Act; Title IX of the Education Amendments of 1972 (regarding education programs and activities); the Age Discrimination Act of 1975; the Rehabilitation Act of 1973; The Genetic Information Non-Discrimination Act of 2008 (GINA); the Americans with Disabilities Act; section 1557 of the Patient Protection and Affordable Care Act, and their implementing regulations, as may be amended from time to time.

ii) All relevant federal and State statutes, regulations and orders related to equal opportunity in employment, including but not limited to compliance with E.O. 11246, "Equal Employment Opportunity," as amended by E.O. 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

iii) All federal and State professional and facility licensing and accreditation requirements/standards that apply to the services HMO and Provider perform pursuant to the Agreement, including but not limited to:

a) All applicable standards, orders or requirements issued under Section 306 of the Clean Air Act (42 USC 1857 (h)). Section 508 of the Clean Water Act (33 USC 1368), Executive Order 11738, and Environmental Protection Agency (EPA) regulations (40) CFR Part 15), which prohibit the use of facilities included on the EPA list of violating facilities. Any violations must be reported to DSHS, DHHS, and the EPA;

b) Any applicable mandatory standards and policies relating to energy efficiency that are contained in the State Energy Conservation Plan, including the Energy Policy & conservation Act (Pub. L. 94-165), and issued in compliance with the Federal Energy Policy & Conservation Act.

c) Those specified for laboratory services in the Clinical Laboratory Improvement Amendments (CLIA). All laboratory service sites must have a CLIA certificate of registration or waiver, and a CLIA identification number.

d) Section 1128B(d)(1) of the Balanced Budget Act of 1997; and,

e) Any other requirements associated with the receipt of federal funds.

iv) All Medicaid laws, regulations and program instructions to the extent applicable to Provider in Provider's performance of the Agreement. Provider understands that payment of a claim by HMO or the State is conditioned upon the claim and the underlying transaction complying with such laws, regulations, and program

instructions (including, but not limited to, federal requirements on fraud, waste and abuse, disclosure, debarment, termination and exclusion screening), and is conditioned on the Provider's compliance with all applicable conditions of participation in Medicaid. Provider understands and agrees that each claim the Provider submits to HMO constitutes a certification that the Provider has complied with all applicable Medicaid laws, regulations and program instructions in connection with such claims and the services provided therein. Provider's payment of a claim will be denied if Provider is terminated or excluded from participation in federal healthcare programs. Provider's payment of a claim may be temporarily suspended if the State or HMO provides notice that a credible allegation of fraud exists and there is a pending investigation. Provider's payment of a claim may also be temporarily suspended or adjusted if the Provider bills a claim with a code that does not match the service provided. HMO performs coding edit procedures based primarily on National Correct Coding Initiative (NCCI) policies and other nationally recognized and validated policies. Provider agrees that it will provide medical records to HMO upon its request in order to determine appropriateness of coding. Provider may dispute any temporarily suspended or adjusted payment consistent with the terms of the Agreement.

3.14 Physician Incentive Plans. In the event Provider participates in a physician incentive plan ("PIP") under the Agreement, Provider agrees that such PIPs must comply with 42 CFR 417.479, 42 CFR 438.3(i), 42 CFR 422.208, and 42 CFR 422.210, as may be amended from time to time. Neither HMO nor Provider may make a specific payment directly or indirectly under a PIP to a physician or physician group as an inducement to reduce or limit Medically Necessary services furnished to an individual Covered Person. PIPs must not contain provisions that provide incentives, monetary or otherwise, for the withholding of services that meet the definition of Medical Necessity.

3.15 Lobbying. Provider agrees to comply with the following requirements related to lobbying:

i) Prohibition on Use of Federal Funds for Lobbying: By signing the Agreement, Provider certifies to the best of Provider's knowledge and belief, pursuant to 31 U.S.C. Section 1352 and 45 CFR Part 93, as may be amended from time to time, that no federally appropriated funds have been paid or will be paid to any person by or on Provider's behalf for the purpose of influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

ii) Disclosure Form to Report Lobbying: If any funds other than federally appropriated funds have been paid or will be paid to any person for the purpose of influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the award of any federal contract, the making of any federal grant, the

making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment or modification of any federal contract, grant, loan, or cooperative agreement and the value of the Agreement exceeds $100,000, Provider shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3.16 Excluded Individuals and Entities. Provider certifies that neither it nor any of its employees, principals, nor any providers, subcontractors or consultants or persons with an ownership or controlling interest in the Provider (an owner including the Provider himself or herself), or an agent or managing employee of the Provider, with whom Provider contracts and who are providing items or services that are significant and material to Provider's obligations under the Agreement is:

i) excluded from participation in federal health care programs under either Section 1128 or section 1128A of the Social Security Act; or

ii) debarred, suspended or otherwise excluded from participating in procurement activities under the Federal Acquisition Regulation or from participating in nonprocurement activities under regulations issued under Executive Order no. 12549 or under guidelines implementing Executive Order No. 12549; or an affiliate, as defined in the Federal Acquisition Regulation, of such a person.

Provider acknowledges and agrees that payment will not be made for any items or Covered Services provided by an excluded individual pursuant to 42 CFR 1001.1901(b) and is obligated to screen all employees, contractors, and subcontractors for exclusion as required under applicable State and Federal laws. Additionally, Provider acknowledges that pursuant to 42 CFR 1003.102(a)(2) civil monetary penalties may be imposed against Provider if he or she employs or enters into contracts with excluded individuals or entities to provide items or Covered Services to Covered Persons under this Agreement. Provider agrees not to employ or subcontract with individuals or entities whose owner, those with a controlling interest, or managing employees are on a State or Federal exclusion list to provide items or Covered Services under this Agreement. Provider shall immediately report to HMO any exclusion information discovered. Provider can search the HHS-OIG website, at no cost, by the names of any individuals or entities. The database is called LEIE and can be accessed at http://www.oig.hhs.gov/fraud/exclusions.asp. The GSA EPLS/SAM database can be accessed at https://www.sam.gov. Federal and State exclusion databases must be reviewed monthly to ensure that no employee or contractor has been excluded. Applicable state exclusion databases can be accessed through the State's Medicaid website. HMO will terminate the Agreement immediately and exclude from its network any provider who has been excluded from federal health care programs or terminated from the Medicare or the Medicaid program in any state. HMO may also terminate the Agreement if Provider or Provider's owners, agents, or managing employees are found to be excluded on a State or Federal exclusion list.

3.17 Disclosure. Provider must be screened and enrolled in the State's Medicaid program and submit disclosures to the DOM related to ownership and control, significant business transactions, and persons convicted of crimes in accordance with 42 CFR Part 455 .Provider must submit information related to ownership and control of subcontractors or

wholly owned suppliers within thirty-five (35) calendar days of a request for such information in accordance with 42 CFR 455.105. Additionally, Provider must cooperate with DOM for submission of fingerprints upon a request from DOM or CMS in accordance with 42 CFR 455.434.

By executing this Agreement, Provider certifies that neither Provider nor any of its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in any State or federal health care program or from participating in transactions by any State or federal department or agency. HMO will terminate the Agreement upon becoming aware or receiving notice from DOM, whichever is earlier, that Provider is or has been excluded from participation in any State or federal health care program or by any State or federal agency.

3.18 Cultural Competency and Access. Provider shall participate in HMO's and the State's efforts to promote the delivery of services in a culturally competent manner to all Covered Persons, including those with limited English proficiency, physical or mental disabilities, diverse cultural and ethnic backgrounds and regardless of gender, sexual orientation or gender identity, and shall provide interpreter services in a Covered Person's primary language and for the hearing impaired for all appointments and emergency services. Provider shall provide information to Covered Persons regarding treatment options and alternatives, as well as information on complaints and appeals, in a manner appropriate to the Covered Person's condition and ability to understand. Provider shall provide physical access, reasonable accommodations, and accessible equipment for Covered Persons with physical or mental disabilities.

3.19 Marketing. As required under State or federal law or the applicable State Contract, any marketing materials developed and distributed by Provider as related to the performance of the Agreement must be submitted to HMO at least sixty (60) days prior to planned distribution for timely submission to DOM for prior approval. Provider agrees it will not proceed with the statement or communication until the required approval is obtained.

3.20 Fraud, Waste and Abuse Prevention. Provider shall cooperate fully with HMO's policies and procedures designed to protect program integrity and prevent and detect potential or suspected fraud, waste, and abuse in the administration and delivery of services under the State Contract and shall cooperate and assist DOM and any other State or federal agency charged with the duty of preventing, identifying, investigating, sanctioning or prosecuting suspected fraud, waste, and abuse in state and/or federal health care programs.

In accordance with HMO's policies and the Deficit Reduction Act of 2005 (DRA), Provider shall have written policies for its employees, contractors or agents that: (a) provide detailed information about the federal False Claims Act (established under sections 3729 through 3733 of title 31, United States Code), including if any entity makes or receives annual payments under the State Program of at least $5,000,000, such entity must establish certain minimum written policies and information communicated through an employee handbook relating to the Federal False Claims Act in accordance with 42 CFR 438.600; (b) cite administrative remedies for false claims and statements (established under chapter 38 of title 31, United States Code) and whistleblower protections under federal and state laws; (c) reference state laws pertaining to civil or criminal penalties for false claims

and statements; and (d) with respect to the role of such laws in preventing and detecting fraud, waste, and abuse in federal health care programs (as defined in section 1128B(f)), include as part of such written policies, detailed provisions regarding Provider's policies and procedures for detecting and preventing fraud, waste, and abuse. Provider agrees to train its staff on the aforesaid policies and procedures.

3.21 Data; Reports. Provider shall cooperate with and release to HMO any information necessary for HMO to perform its obligations under the State Contract to the extent applicable to Provider in performance of the Agreement, including the timely submission of reports and information required by HMO, in the format specified by HMO and the State. Such reports shall include child health check-up reporting, if applicable, as well as complete and accurate encounter data in accordance with the requirements of HMO and the State. Data must be provided at the frequency and level of detail specified by HMO or the State. By submitting data to HMO, Provider represents and attests to HMO and the State that the data is accurate, complete and truthful, and upon HMO's request Provider shall certify in writing, that the data is accurate, complete, and truthful, based on Provider's best knowledge, information and belief.

Provider shall be able to receive, maintain and utilize applicable data extracts from HMO or DOM and systematically update its database within five (5) calendar days of receipt of the files. Data extract files include but are not limited to the following, as applicable: 1. Daily Active Provider Extract; 2. Weekly Provider Affiliation Details Extract; 3. 834 Enrollment Files; 4. 835 Claims Payment Remittance Advice Transaction; 5. 277 Claims Acknowledgement; 6. NCPDP Formulary; 7. NCPDP Response File; 8. TPL Resource/Policy Information File, etc.; 9. Claims History Extracts; and 10. Prior Authorization Extracts.

3.22 Encounter Data. Provider agrees to cooperate with HMO to comply with HMO's obligation to prepare encounter data submissions, reports, and clinical information including, without limitation, child and adolescent health check-up reporting, EPSDT encounters, and cancer screening encounters, as applicable, and such other reporting regarding Covered Services as may be required under the State Contract. Encounter data must be accurate and include all services furnished to a Covered Person, including capitated provider's data and rendering provider information. Encounter data must be provided within the timeframes specified and in a form that meets HMO and State requirements. By submitting encounter data to HMO, Provider represents to HMO that the data is accurate, complete and truthful, and upon HMO's request Provider shall certify in writing, that the data is accurate, complete, and truthful, based on Provider's best knowledge, information and belief.

3.23 Claims Information. Provider shall promptly submit to HMO the information needed to make payment and shall identify third party liability coverage, including Medicare and other insurance, and if applicable seek such third party liability payment before submitting claims to HMO. Provider understands and agrees that each claim Provider submits to HMO constitutes a certification that the claim is true and accurate to the best of Provider's knowledge and belief and that the Covered Services are 1) Medically Necessary and 2) have been provided to the Covered Person prior to submitting the claim.

Effective July 1, 2014, Provider must submit claims within six (6) months from the date of service. Claims filed within the appropriate time frame but denied may be resubmitted to the Contractor within ninety (90) calendar days from the date of denial

3.24. Electronic Visit Verification. Provider shall cooperate with State requirements for electronic visit verification for personal care services and home health services, as applicable.

3.25 Licensure. Provider represents that it is currently licensed and/or certified under applicable State and federal statutes and regulations and by the appropriate State licensing body or standard-setting agency, as applicable. Provider represents that it is in compliance with all applicable State and federal statutory and regulatory requirements of the Medicaid program and that it is eligible to participate in the Medicaid program. Provider represents that it does not have a Medicaid provider agreement with DOM that is terminated, suspended, denied, or not renewed as a result of any action of DOM, CMS, HHS, or the Medicaid Fraud Control Unit of the State's Attorney General. Provider shall maintain at all times throughout the term of the Agreement all necessary licenses, certifications, registrations and permits as are required to provide the health care services and/or other related activities delegated to Provider by HMO under the Agreement. If at any time during the term of the Agreement, Provider is not properly licensed as described in this Section, Provider shall discontinue providing services to Covered Persons. As applicable, if Provider performs any laboratory tests on human specimens for the purpose of diagnosis and/or treatment, Provider agrees to acquire and maintain the appropriate CLIA certification or waiver for the type of laboratory testing performed. Provider further agrees to provide a copy of the certification if requested by HMO. A State authorized license or permit that meets the CLIA requirements may be substituted for the CLIA certificate pursuant to State law. Medicare and Medicaid programs require the applicable CLIA certification or waiver for the type of services performed as a condition of payment. Provider must include the appropriate CLIA certificate or waiver number on claims submitted for payment for laboratory services.

3.26 Quality; Utilization Management. Pursuant to any applicable provider manuals and related protocols, or as elsewhere specified under the Agreement, Provider agrees to cooperate with HMO's quality improvement and utilization review and management activities. This shall include, but not be limited to, participation in any internal and external quality assurance, utilization review, peer review, and grievance procedures established by HMO or as required under the State Contract to ensure that Covered Persons have due process for their complaints, grievances, appeals, fair hearings or requests for external review of adverse decisions made by HMO or Provider. Provider shall adhere to the quality assurance and utilization review standards of the MississippiCAN Program and shall monitor quality and initiate corrective action to improve quality consistent with the generally accepted level of care.

3.27 Non-Discrimination. Provider will not discriminate against, nor use any policy or practice that has the effect of discriminating against, Covered Persons on the basis of race, color, creed, sex, religion, age, national origin, ancestry, marital status, sexual orientation, gender identity, language, health status, disease or pre-existing condition (including genetic

information), anticipated need for health care or physical or mental handicap, except where medically indicated. Examples of prohibited practices include, but are not limited to, the following:

i) Denying or not providing a Covered Person any Medicaid Covered Service. Health care and treatment necessary to preserve life must be provided to all Covered Persons who are not terminally ill or permanently unconscious, except where a competent Covered Person objects to such care on his/her own behalf.

ii) Subjecting a Covered Person to segregated, separate, or different treatment, including a different place or time from that provided to other Covered Persons or public or private patients, in any manner related to the receipt of any Medicaid Covered Service, except where Medically Necessary.

iii) The assignment of times or places for the provision of services on the basis of the race, color, creed, religion, age, sex, national origin, ancestry, marital status, sexual orientation, gender identity, income status, program membership, language, health status, disease or pre-existing condition, anticipated need for health care or physical or mental disability of the Covered Persons to be served.

3.28 Advance Directives. Provider shall comply with the advance directives requirements set forth in the Uniform Health-Care Decisions Act, Section 41-41-215 of the Mississippi Code. When applicable, Provider shall comply with the advance directives requirements for hospitals, nursing facilities, providers of home and health care and personal care services, hospices, and HMOs as specified in 42 CFR Part 49, subpart I, 42 CFR § 417.436(d), 42 CFR § 422.128, and 42 CFR 438.3(i).

3.29 National Provider ID (NPI). Provider shall obtain a National Provider Identification Number (NPI) and when filing claims with HMO, the NPI used is the same NPI used when filing claims with DOM.

3.30 Termination. In the event of termination of the Agreement, Provider shall promptly supply to HMO all information necessary for the reimbursement of any outstanding Medicaid claims.

3.31 Complaints; Grievances and Appeals. Information on how Provider or Provider's authorized representative can submit complaints and file grievances and appeals, and the resolution process, is contained in the applicable provider manual.

3.32 Health Care Acquired/Preventable Conditions. Provider agrees that no payment shall be made for the provision of medical assistance for health care acquired conditions and other provider preventable conditions as may be identified by the State. As a condition of payment, Provider shall identify and report to HMO any provider preventable conditions in accordance with 42 CFR §§ 434.6(a)(12), 438 including but not limited to 438.3(g), and 447.26.

3.33 Quality and Utilization Management Program. Provider shall cooperate with HMO in meeting the Quality Management and Utilization Management Program standards outlined

in the State Contract including, without limitation, any external evaluations and assessments of HMO's performance authorized by DOM under the State Contract and conducted by DOM's contracted External Quality Review Organization (EQRO) or other designee.

3.34 Referrals. Provider shall make referrals for social, vocational, education or human services when a need for such service is identified.

3.35 Insolvency. In the event HMO becomes insolvent or unable to pay Provider, Provider shall not seek compensation for services rendered from the State, DOM, their officers, Agents, or employees, or the Covered Persons or their eligible dependents.

3.36 Third Party Resources. Provider will report all third party resources to HMO identified through the provision of medical services.

3.37 Compliance with Mississippi Employment Protection Act (MEPA). Provider represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act, Section 71-11-1 et set of the Mississippi Code Annotated (Supp. 2008), and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. Provider agrees to maintain records of such compliance and, upon request of the State and approval of the Social Security Administration or Department of Homeland Security, where required, to provide a copy of each such verification to the State. Provider further represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of the State of Mississippi. Provider understands and agrees that any breach of these warranties may subject Provider to the following: (a) termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public, or (b) the loss of any license, permit, certification or other document granted to Provider by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year, or (c) both.

3.38 Capitated Providers. If Provider is capitated and terminates its agreement with HMO, for any reason, Provider will provide services to Covered Persons assigned to Provider up to the end of the month in which the effective date of termination falls.

3.39 Certification on Relationship to State, DOM and CMS. Provider certifies that no officer, director, employee, subcontractor or agent of Provider, or person with an ownership or control interest in Provider, is also employed by, or is a public official of, the State of Mississippi or any of its agencies, DOM or CMS.

3.40 Funding. Provider recognizes that the obligation of DOM to proceed under its Contract with HMO is conditioned upon the appropriation of funds by the Mississippi State

Legislature and the receipt of State and/or Federal funds. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, either through the failure of the Federal government to provide or the State of Mississippi to appropriate funds, or the discontinuance, or material alteration of the program under which the funds were provided or if funds are not otherwise available to DOM, DOM has the right upon ten (10) working days written notice to HMO to terminate the Contract.

3.41 Gratuities. Provider represents that it has not violated, is not violating, and promises that it will not violate the prohibitions against gratuities set forth in Section 6-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

3.42 Assignment/Delegation. Provider shall not assign or delegate the Agreement without the express written consent of HMO or DOM. If Provider subcontracts or delegates any functions of the Agreement, in accordance with the terms of the Agreement and with the express written consent of HMO or DOM, the subcontract or delegation must be in writing and include all of the requirements of this Appendix, and applicable requirements of the State Contract, and applicable laws and regulations. The transfer of five percent (5%) or more of the beneficial ownership in Provider at any time during the term of this Agreement shall be deemed an assignment under this Agreement.

3.43 Notice of Legal Action. Immediately upon obtaining knowledge or receiving notice of any legal action or notice listed below, Provider shall provide to HMO written notice of such legal action or notice and, upon request by HMO, a complete copy of all filings and other documents generated in connection with any such legal action:

i. Any action, suit or counterclaim filed against Provider;

ii. Any regulatory action, or proposed action, respecting Provider's business or operations;

iii. Any notice received by Provider from the Department of Insurance or the State Health Officer;

iv. The filing of a petition in bankruptcy by or against Provider, or the insolvency of Provider;

v. The conviction of any person who has an ownership or control interest in Provider, or who is an agent or managing employee of Provider, of a criminal offense related to that person's involvement in any program under Medicare, Medicaid, or Title XX of the Social Security Act; or

vi. A malpractice action against any Provider delivering service under an agreement.

3.44 Federal and State Funds Liability. Providers acknowledges and agrees that payments made to Provider for services provided under the Agreement are derived from federal and State funds and that any false claim or statement in documents or any concealment of material fact related to such services may be a cause for sanctions and prosecution under applicable federal and State laws. Provider shall be subject to all laws applicable to

individuals and entities receiving State and federal funds and may be held civilly or criminally liable to both HMO and DOM in the event of nonperformance, misrepresentation, fraud, or abuse related to services provided pursuant to the State Contract. Provider recognizes that payments made to the Provider are derived from federal and State funds, and are contingent upon and subject to availability and receipt of funds.

3.45 Insurance Requirements. As applicable, Provider shall secure and maintain during the term of the Agreement insurance appropriate to the services to be performed under the Agreement. Provider shall require that its providers secure and maintain during the term of the Agreement general liability insurance, professional liability insurance, and workers' compensation insurance for all employees connected with the provision of services under the Agreement. Such workers compensation insurance shall comply with Mississippi Workers' Compensation Laws. Such comprehensive general liability insurance and professional liability insurance shall provide coverage in an amount established by HMO pursuant to the Agreement or as required under the State Contract.

3.46 Overpayment. Provider shall to report to HMO when it has received an overpayment and will return the overpayment to HMO within 60 calendar days after the date on which the overpayment was identified. Provider will notify HMO in writing of the reason for the overpayment.

SECTION 4
ADDITIONAL PROVIDER REQUIREMENTS FOR SPECIFIC ACTIVITIES

4.1 Behavioral Health Providers. Behavioral Health Providers shall ensure that all Covered Persons receiving inpatient psychiatric services are scheduled for outpatient follow-up and/or continuing treatment prior to discharge from the inpatient psychiatric hospital if the Provider is aware of the Covered Person's inpatient hospitalization status. Behavioral Health Providers will be provided daily reports identifying Covered Persons known to be admitted to an inpatient facility. Behavioral Health Services will be delivered in compliance with the requirements of 42 CFR 438 subpart K insofar as those requirements are applicable.

4.2 PCP Responsibilities. Providers acting as PCPs shall meet the following requirements:

i) PCPs who serve Covered Persons under the age of twenty-one (21) are responsible for conducting all EPSDT screens for individuals on their Panel under the age of twenty-one (21). Should the PCP be unable to conduct the necessary EPSDT screens, the PCP is responsible for arranging to have the necessary EPSDT screens conducted by another network Provider and ensure that all relevant medical information, including the results of the EPSDT screens, are incorporated into the Covered Person's PCP Medical Record.

ii) PCPs who serve Members under the age of twenty-one (21) report encounter data associated with EPSDT screens, using a format approved by DOM, to the Contractor within ninety (90) calendar days from the date of service.

iii) PCPs are responsible for contacting new Members identified in the quarterly encounter lists sent by the Contractor that indicate who has not had an encounter during the first six (6) months of Enrollment. The PCP shall:

a) Contact Covered Persons identified in the quarterly Encounter lists as not complying with EPSDT periodicity and immunization schedules for children;

b) Identify to HMO any such Covered Persons who have not come into compliance with the EPSDT periodicity and immunization schedules within one (1) month of such notification to the site by HMO; and

c) Document the reasons for noncompliance, where possible, and to document its efforts to bring the Covered Person's care into compliance with the standards.

4.3 Specialists as PCPs. Covered Persons with disabling conditions, chronic illnesses, or child(ren) with special health care needs may request that their PCP be a specialist. The designation of a specialist as a PCP must be pursuant to a treatment plan approved by HMO, in consultation with the PCP to which the Covered Person is currently assigned, the Covered Person and, as appropriate, the specialist.

The specialist as a PCP shall provide or arrange for all primary care, including routine preventive care, and to provide those specialty medical services consistent with the Covered Person's disabling condition, chronic illness, or special health care need in accordance with HMO's standards and within the scope of the specialty training and clinical expertise.

The specialist as a PCP shall have admitting privileges at a hospital in HMO's network.

4.4 Long-Term Services and Supports (LTSS) Providers. Any LTSS Covered Services under the State Contract that could be authorized through a waiver under section 1915(c) of the Social Security Act (the "Act") or a State Program amendment authorized through sections 1915(i) or 1915(k) of the Act must be delivered in settings consistent with 42 CFR 441.301(c)(4).

SECTION 5
HMO REQUIREMENTS

5.1 Prompt Payment. HMO shall pay Provider pursuant to the State Contract and applicable State and federal law and regulations, including but not limited to Mississippi Code Section 83-9-5, 42 CFR 447.46, 42 CFR 447.45(d)(2), 42 CFR 447.45(d)(3), 42 CFR 447.45(d)(5) and 42 CFR 447.45(d)(6), as applicable and as may be amended from time to time. If a third party liability exists, payment of claims shall be determined in accordance with federal and/or State third party liability law and the terms of the State Contract. Unless HMO otherwise requests assistance from Provider, HMO will be responsible for third party collections in accordance with the terms of the State Contract.

5.2 No Incentives to Limit Medically Necessary Services. HMO shall not structure compensation provided to individuals or entities that conduct utilization management and concurrent review activities so as to provide incentives for the individual or entity to deny, limit, or discontinue Medically Necessary services to any Covered Person.

5.3 Provider Discrimination Prohibition. HMO shall not discriminate with respect to participation, reimbursement, or indemnification of a provider who is acting within the scope of the provider's license or certification under applicable State law, solely on the basis of such license or certification. HMO shall not discriminate against Provider for serving high-risk Covered Persons or if Provider specializes in conditions requiring costly treatments. This provision shall not be construed as prohibiting HMO from limiting a provider's participation to the extent necessary to meet the needs of Covered Persons. This provision also is not intended and shall not interfere with measures established by HMO that are designed to maintain quality of care practice standards and control costs.

5.4 Communications with Covered Persons. Covered Persons are entitled to the full range of their Providers' opinions and counsel about the availability of Medically Necessary Services under the provisions of the State Contract. Any contractual provisions, including gag clauses or rules, that restrict a Provider's ability to advise Covered Persons about Medically Necessary treatment options violate federal law and regulations.

HMO shall not prohibit or otherwise restrict Provider, when acting within the lawful scope of practice, from advising or advocating on behalf of a Covered Person for the following:

i) The Covered Person's health status, medical care, or treatment options, including any alternative treatment that may be self-administered;

ii) Any information the Covered Person needs in order to decide among all relevant treatment options;

iii) The risks, benefits, and consequences of treatment or non-treatment;

iv) The Covered Person's right to participate in decisions regarding his or her health care, including the right to refuse treatment, and to express preferences about future treatment decisions; or

v) Information regarding the nature of treatment options including those that may not reflect HMO's position or may not be covered by HMO.

HMO also shall not prohibit a Provider from advocating on behalf of a Covered Person in any grievance system, utilization review process, or individual authorization process to obtain necessary health care services.

5.5 Termination, Revocation and Sanctions. In addition to its termination rights under the Agreement, HMO shall have the right to revoke any functions or activities HMO delegates to Provider under the Agreement or impose other sanctions consistent with the State Contract if in HMO's reasonable judgment Provider's performance under the Agreement is inadequate. HMO shall also have the right to suspend, deny, refuse to renew or terminate

Provider in accordance with the terms of the State Contract and applicable law and regulation. However, HMO shall not exclude or terminate a Provider from participation in HMO's Provider Network due to the fact that the Provider has a practice that includes a substantial number of patients with expensive medical conditions, and shall not terminate a Provider for filing a Complaint, Grievance, or Appeal on a Covered Person's behalf.

5.6 Rights of DOM. DOM shall have the right to invoke against Provider any remedy set forth in the State Contract, including the right to require the termination of the Agreement, for each and every reason for which it may invoke such a remedy against HMO or require termination of the State Contract. Suspected Fraud and Abuse by Provider will be investigated by DOM.

SECTION 6
OTHER REQUIREMENTS

6.1 Compliance with State Contract. All tasks performed under the Agreement shall be performed in accordance with the requirements of the applicable State Contract, as set forth in this Appendix, applicable provider manuals, and protocols, policies and procedures that HMO has provided or delivered to Provider. The applicable provisions of the State Contract are incorporated into the Agreement by reference. Nothing in the Agreement relieves HMO of its responsibility under the State Contract. If any provision of the Agreement is in conflict with provisions of the State Contract, the terms of the State Contract shall control and the terms of the Agreement in conflict with those of the State Contract will be considered waived.

6.2 Monitoring. HMO shall perform ongoing monitoring (announced or unannounced) of services rendered by Provider under the Agreement and shall perform periodic formal reviews of Provider according to a schedule established by the State, consistent with industry standards or State managed care organization laws and regulations or requirements under the State Contract. As a result of such monitoring activities, HMO shall identify to Provider any deficiencies or areas for improvement mandated under the State Contract and Provider and HMO shall take appropriate corrective action. Provider shall comply with any corrective action plan initiated by HMO and/or required by the MississippiCAN Program. In addition, Provider shall monitor and report the quality of services delivered under the Agreement and initiate a plan of correction where necessary to improve quality of care, in accordance with that level of care which is recognized as acceptable professional practice in the respective community in which HMO and Provider practice and/or the performance standards established under the State Contract.

6.3 Enrollment. The parties acknowledge and agree that DOM is responsible for enrollment, reenrollment and disenrollment of Covered Persons.

6.4 No Exclusivity. Nothing in the Agreement or this Appendix shall be construed as prohibiting or penalizing Provider for contracting with a managed care organization other than HMO or as prohibiting or penalizing HMO for contracting with other providers. HMO may not require Providers who agree to participate in the MississippiCAN Program to contract with HMO's other lines of business.

6.5 **Delegation.** The parties agree that, prior to execution of the Agreement, HMO evaluated Provider's ability to perform any duties delegated to Provider under the Agreement. Any delegated duties and reporting responsibilities shall be set forth in the Agreement or other written delegation agreement or addendum between the parties. HMO shall have the right to revoke any functions or activities HMO delegates to Provider under the Agreement if in HMO's reasonable judgment Provider's performance under the Agreement is inadequate.

MississippiCHIP
Regulatory Requirements Appendix

MississipiCHIP

REGULATORY REQUIREMENTS APPENDIX

PROVIDER

THIS MISSISSIPPICHIP PROGRAM REGULATORY REQUIREMENTS APPENDIX (this "Appendix") supplements and is made part of the provider agreement (the "Agreement") between HMO contracting on behalf of itself and the other entities that are its affiliates (collectively, "CCO") and the party named in the Agreement ("Provider").

SECTION 1
APPLICABILITY

This Appendix applies with respect to the provision of direct or health care related services provided by Provider under the Mississippi Children's Health Insurance Program (the "MississippiCHIP Program") as governed by the State's designated regulatory agencies. In the event of a conflict between this Appendix and other appendices or any provision of the Agreement, the provisions of this Appendix shall control except with regard to benefit plans outside the scope of this Appendix or unless otherwise required by law. In the event CCO is required to amend or supplement this Appendix as required or requested by the State to comply with federal or State regulations, CCO will unilaterally initiate such additions, deletions or modifications. All provider agreements must be in writing and must include all specific activities and report responsibilities delegated to the Provider by CCO.

SECTION 2
DEFINITIONS

Unless otherwise defined in this Appendix, all capitalized terms shall be as defined in the Agreement. For purposes of this Appendix, the following terms shall have the meanings set forth below; provided, however, in the event any definition set forth in this Appendix or the Agreement is inconsistent with any definition under the MississippiCHIP Program Contract, the definition shall have the meaning set forth under the MississippiCHIP Program Contract.

2.1 **Abuse:** Any practice that is inconsistent with sound fiscal, business, or medical practices, and results in an unnecessary cost to CHIP, CCO, a subcontractor, or a provider or in reimbursement for services that are not Medically Necessary or that fail to meet professionally recognized standards for healthcare.

2.2 **Adverse Benefit Determination:** The denial or limited authorization of a requested service, including determinations on the type or level of service, requirements for medical necessity, appropriateness, setting, or effectiveness of a covered benefit; the reduction, suspension, or termination of previously authorized services; the denial, in whole or in part, of payment for a service; CCO's failure to provide services in a timely manner; CCO's failure to resolve Complaints, Grievances, or Appeals within the specified time frames; for residents in a rural area with only one MCO, the denial of a Covered Person's request to exercise his or her right, under 42 C.F.R. §438.52(b)(2)(ii); the denial of a Covered Person's request to dispute a financial liability, including cost sharing, copayments, premiums, deductibles, coinsurance, and other enrollee financial liabilities; and determinations by skilled nursing facilities and nursing facilities to transfer or discharge residents and adverse determinations made by a State with regard to the preadmission

screening and annual resident review requirements of Section 1919(e)(7) of the Act, if applicable.

2.3 **Agreement:** An agreement between the CCO and an individual, business, university, government entity, affiliate, or nonprofit organization to perform part or all of CCO's responsibilities under the MississippiCHIP Program Contract. Agreements must be approved in writing by DOM prior to the start date of the Agreement.

2.4 **Appeal:** A request for review by CCO of an Adverse Benefit Determination related to a Member or Provider. In the case of a Member, an Adverse Benefit Determination may include determinations on the health care services a Member believes he or she is entitled to receive, including delay in providing, arranging for, or approving the health care services (such that a delay would adversely affect the health of the Member). In the case of a Provider, the Adverse Benefit Determination may include, but is not limited to, delay or non- payment for covered services.

2.5 **Auto Enrollment:** The process by which Members who have not voluntarily selected a CHIP Contractor are assigned to a CHIP Contractor.

2.6 **Behavioral Health Services**: Mental health and/or substance and alcohol use disorder treatment services that are provided by the county mental health/intellectual disability/developmental disability programs, the single county authority administrators, or other appropriately licensed health care practitioners.

2.7 **Benchmark Plan:** The State School Employee's Health Insurance Plan.

2.8 **Child:** An individual who is under nineteen (19) years of age who is not eligible for Medicaid benefits and is not covered by other health insurance. Child is also referred to as Member.

2.9 **CHIP:** The Children's Health Insurance Program as defined in Title XXI of the Social Security Act.

2.10 **Complaint:** An expression of dissatisfaction received orally or in writing that is of a less serious or formal nature that is resolved within one (1) business day of receipt.

2.11 **Coordinated Care Organization (CCO):** An organization that meets the requirements for participation as a Contractor in CHIP and manages the purchase and provision of health care services under CHIP. For purposes of this Appendix, CCO is a CCO.

2.12 **Co-Payment:** The fixed amount certain CHIP Members pay for a covered health care service. The amount may vary based on healthcare service being provided.

2.13 **Cost Sharing:** In accordance with 42 C.F.R. §457.10, premium charges, enrollment fees, deductibles, coinsurance, Co-Payments, or other similar fees that the Member has responsibility for paying.

2.14 **Covered Services:** Health care services or products for which a Member is enrolled with CCO to receive coverage under the MississippiCHIP Program Contract, including all services required by the State Contract and State and federal law.

2.15 Disenrollment: Action taken by DOM, or its Agent, to remove a Member's name from the monthly Member Listing Report following DOM's receipt and approval of a request for Disenrollment or a determination that the Member is no longer eligible for Enrollment in Contractor.

2.16 DOM: The Division of Medicaid, Office of the Governor, State of Mississippi.

2.17 Fraud: Fraud is any type of intentional deception or misrepresentation made by an entity or person with the knowledge that the deception could result in some unauthorized benefit to the entity, him or herself, or some other person. The Fraud can be committed by many entities, including a vendor, a subcontractor, a provider, a State employee, or a Member among others.

2.18 Grievance: An expression of dissatisfaction about any matter or aspect of CCO or its operation, other than an Adverse Benefit Determination as defined herein. Grievances may include, but are not limited to, the quality of care or services provided, and aspects of interpersonal relationships such as rudeness of a provider or employee, or failure to respect the Covered Person's rights regardless of whether remedial action is requested. Grievance includes a Covered Person's right to dispute an extension of time proposed by CCO to make an authorization decision.

2.19 Marketing: The activities that promote visibility and awareness for the MississippiCHIP Program and the CCOs participating in the program. All marketing activities are subject to prior review and approval by DOM and may not contain misleading information.

2.20 Medical Record: A single complete record, which documents the entire treatment plan developed for, and medical services received by, the Member including inpatient, outpatient, referral services and emergency medical services whether provided by Contracted Providers or Non-Contracted Providers.

2.21 Member: An individual who meets all of the eligibility requirements for CHIP, enrolls in a CCO under CHIP, and receives health benefits coverage through CHIP.

2.22 MississippiCHIP Program: The Mississippi Medicaid child health program for select individuals under the age of nineteen (19) years of age who are not eligible for Medicaid benefits and are not covered by other health insurances.

2.23 MississippiCHIP Program Contract: The DOM contract with CCO, for the purpose of providing and paying for Covered Services to Members enrolled in the MississippiCHIP Program.

2.24 Primary Care Provider (PCP): Any physician or health care practitioner or group operating within the scope of his or her licensure who is responsible for supervising, prescribing and providing primary care and primary case management services in the MississippiCHIP Program, whose practice is limited to the general practice of medicine or who is an Internist, Pediatrician, Obstetrician/Gynecologist, Family and General Practitioner, Nurse Practitioners (who meet requirements of Section 4.B, Choice of a Health Care Professional), Physician Assistants, specialists who perform primary care functions upon request, and other providers approved by DOM.

2.25 Prior Authorization: A determination to approve a Provider's request, pursuant to services covered in the MississippiCHIP Program, to provide a service or course of treatment of a specific duration and scope to a Member prior to the initiation or continuation of the service.

2.26 Provider Network: The Panel of health service Providers with which the CCO contracts for the provision of covered services to Members and Non-Contracted Providers administering services to Member.

2.27 State: The State of Mississippi or its designated regulatory agencies.

2.28 State Child Health Plan: The State of Mississippi's plan submitted to HHS for the administration of CHIP.

2.29 Third Party Liability/Resource: Any resource available to a Member for the payment of medical expenses associated with the provision of covered services, including but not limited to, insurers and workers' compensation plan.

2.30 Urgent Care: Urgent care services are utilized because the Members primary care physician is not available. An urgent condition isn't life threatening but may need prompt attention. Urgent care services are for an illness, injury or condition serious enough that a reasonable person would seek care right away, but not so severe it requires emergency room care. Urgent care centers can typically treat things including, but not limited to, sprains, strains, minor broken bones.

2.31 Well-Baby and Well-Child Care Services: Regular or preventive diagnostic and treatment services necessary to ensure the health of babies, children, and adolescents as defined by DOM in the State Child Health Plan. For the purposes of Cost Sharing, the term has the meaning assigned at 42 C.F.R. § 457.520.

SECTION 3
PROVIDER REQUIREMENTS

The MississippiCHIP Program, through contractual requirements and federal and State statutes and regulations, requires that providers who provide services to Members enrolled in the MississippiCHIP Program comply with certain requirements as set forth below and elsewhere in this Appendix.

3.1 Definitions Related to the Provision of Covered Services. Provider shall follow the applicable MississippiCHIP Program Contract's requirements for the provision of Covered Services. Provider's decisions affecting the delivery of acute or chronic care services to Members shall be made on an individualized basis and in accordance with the following definitions:

i) Emergency Medical Condition: In accordance with Section 1932(b) of the Act and 42 CFR §457.10, a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in any of the following: (1) placing the health of the individual (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; (2) serious impairment to body functions; or (3) serious dysfunction of any body organ or part.

ii) Emergency Services: Covered inpatient and outpatient services, inclusive of dialysis services, furnished by a provider who is qualified to furnish those health services and that

are needed to evaluate or stabilize an Emergency Medical Condition in accordance with 42 CFR 438.114.

iii) Medically Necessary Services: As set forth in the Social Security Act, Section 1905 (42 U.S.C. 1396d(a)), Medically Necessary Services are defined as services, supplies, or equipment provided by a licensed health care professional that are:

a) Appropriate and consistent with the diagnosis or treatment of the patient's condition, illness, or injury;

b) In accordance with the standards of good medical practice consistent with the individual patient's condition(s);

c) Not primarily for the personal comfort or convenience of the Member, family, or Provider;

d) The most appropriate services, supplies, equipment, or levels of care that can be safely and efficiently provided to the Member;

e) Furnished in a setting appropriate to the patient's medical need and condition and, when applied to the care of an inpatient, further mean that the Member's medical symptoms or conditions require that the services cannot be safely provided to the Member as an outpatient;

f) Not experimental or investigational or for research or education;

g) Provided by an appropriatelylicensed practitioner; and

h) Documented in the patient's record in a reasonable manner, including the relationship of the diagnosis to the service.

Medically Necessary Services may also be those services for children that are necessary to correct or ameliorate defects and physical and mental illnesses and conditions discovered during an interperiodic or Well-Baby and Well-Child Care Services, whether such services are covered or exceed the benefit limits in the Medicaid State Plan and Title 23 of Mississippi Administrative Code.

3.2 Accessibility Standards. Provider shall provide for timely access for Member appointments in accordance with the appointment availability requirements established under the MississippiCHIP Program Contract, as further described in the applicable provider manual.

Type	Appointment Scheduling Time Frames
PCP (well care visit)	Not to exceed thirty (30) calendar days
PCP (routine sick visit)	Not to exceed seven (7) calendar days
PCP (urgent care visit)	Not to exceed twenty-four (24) hours
Specialists	Not to exceed forty-five (45) calendar days

Dental Providers (routine visits)	Not to exceed forty-five (45) calendar days
Dental Providers (urgent Care)	Not to exceed forty-eight (48) hours
Behavioral Health Providers (routine visit)	Not to exceed fourteen (14) calendar days
Behavioral Health Providers (urgent visit)	Not to exceed twenty-four (24) hours
Behavioral Health Providers (post-discharge from an acute psychiatric hospital when the Contractor is aware of the	Not to exceed seven (7) calendar days
Urgent Care Providers	Not to exceed twenty-four (24) hours
Emergency Providers	Immediately (twenty-four (24) hours a day, seven (7) days a week) and without Prior

3.3 Hours of Operation; Appointments. Provider shall offer hours of operation that are no less than the hours of operation offered to commercial beneficiaries. As applicable, Provider will make Covered Services available 24 hours a day, 7 days a week when medically necessary.

3.4 PCP Responsibilities. If applicable, and Provider is a PCP, Provider shall comply with the following:

i) PCPs who serve Members under the age of nineteen (19) are responsible for conducting all Well-Baby and Well-Child Care services. Should the PCP be unable to conduct the necessary Well-Baby and Well-Child Care services screens, the PCP is responsible for arranging to have the necessary Well-Baby and Well-Child Care services screens conducted by another network provider and ensure that all relevant medical information, including the results of the Well-Baby and Well-Child Care services screens, are incorporated into the Member's PCP Medical Record.

ii) PCPs who serve Members under the age of nineteen (19) report encounter data associated with Well-Baby and Well-Child Care services, using a format approved by DOM, to Contractor within one hundred and eighty (180) calendar days from the date of service.

iii) PCPs are responsible for contacting new Members identified in the quarterly encounter lists sent by Contractor that indicate who has not had an encounter during the first six (6) months of Enrollment. Contractor must require the PCP to:

a) Contact Members identified in the quarterly Encounter lists as not complying with Well-Baby, Well-Child Care, and immunization schedules for Children;

b) Identify to Contractor any such Members who have not come into compliance with Well-Baby, Well-Child Care, and immunization schedules within one (1) month of such notification to the site by Contractor; and

c) Document the reasons for noncompliance, where possible, and to document its efforts to bring the Member's care into compliance with the standards.

iv) PCP shall provide Well-Baby and Well-Child Care Services, including vision screening, laboratory

tests and hearing screenings, according to recommendations of the U.S. Preventive Services Task Force. Vision and hearing screenings shall be included as part of periodic Well-Child assessments. PCP shall have written policies and procedures related to the provision of the full-range of Well-Baby Care, Well-Child Care, and childhood and adolescent immunization services as defined in, and in accordance with, the State Child Health Plan, 42 C.F.R. §457.495, and this provisions of the MississippiCHIP Program Contract. Services shall include, without limitation, periodic health screenings and appropriate and up-to-date immunizations using the immunization schedule for all Members recommended by the Advisory Committee on Immunization Practices (ACIP). PCP shall make all reasonable efforts to identify all Members whose Medical Records do not indicate up-to-date immunizations and shall ensure that these Members receive necessary immunizations. Immunizations are purchased and distributed through the Mississippi State Department of Health. CCO shall reimburse PCP for the administration of the immunizations.

CCO requires that PCP cooperate to the maximum extent possible with the efforts to improve the health status of Mississippi citizens, and to actively work to improve the percentage of Members receiving appropriate screenings, and meet or exceed DOM's targets.

a) The following minimum elements must be included in the periodic health screening assessment of children:

i. Comprehensive health and development history (including assessment of both physical and mental development);

ii. Measurements (e.g. head circumference for infants, height, weight, body mass index);

iii. Comprehensive unclothed physical examination;

iv. Immunizations appropriate to age and health history;

v. Assessment of nutritional status;

vi. Laboratory tests (including tuberculosis screening and Federally required blood lead screenings);

vii. Vision screening;

viii. Hearing screening;

ix. Dental and oral health assessment; and

x. Developmental and behavioral assessment.

v) If a suspected problem is detected by a screening examination, the child must be evaluated as necessary for further diagnosis. This diagnosis is used to determine treatment needs. PCP must establish a tracking system that provides information on compliance with Well-Baby and Well-Child Care services and immunization services provision requirements in the following areas:

a) Initial visit for newborns;

b) Well-Baby and Well-Child Care services and reporting of all assessment results; and

c) Diagnosis and/or treatment for Children.

vi) PCP must have an established process for reminders, follow-ups and outreach to Members that includes:

a) Written notification or upcoming or missed appointments within a set time period, taking into consideration language and literacy capabilities of Members;

b) Telephone protocols to remind Members of upcoming visits and follow-up on missed appointments within a set time period;

c) Protocols for conducting outreach with non-compliant Members, including home visits, as appropriate; and

d) A process for outreach and follow-up to Members with special health care needs.

vii) PCP may develop an alternate process for follow-up and outreach subject to prior written approval from CCO and DOM.

viii) **Specialists as PCPs**. Members with disabling conditions, chronic conditions, or with special health care needs may request that their PCP be a specialist. The designation of a specialist as a PCP must be pursuant to a treatment plan approved by Contractor; in consultation with the PCP to which the Member is currently assigned, the Member and, as appropriate, the specialist. When possible, the specialist must be a provider participating in Contractor's network. The specialist as a PCP must agree to provide or arrange for all primary care, including routine preventive care, and to provide those specialty medical services consistent with the Member's disabling condition, chronic illness, or special health care need in accordance with Contractor's standards and within the scope of the specialty training and clinical expertise. To accommodate the full spectrum of care, the specialist as a PCP must also have admitting privileges at a hospital in Contractor's network.

3.5 Provider Selection. To the extent applicable to Provider in performance under the Agreement, Provider shall comply with 42 CFR §438.214, as may be amended from time to time, which includes, but is not limited to the selection and retention of providers, credentialing and re-credentialing requirements and nondiscrimination. If CCO delegates credentialing to Provider, CCO will provide monitoring and oversight and Provider shall ensure that all licensed medical professionals are credentialed in accordance with CCO's and the MississippiCHIP Program Contract's credentialing requirements.

3.6 Records Retention. As required under State or federal law or the MississippiCHIP Program Contract, Provider shall maintain a record keeping system of current, detailed, and organized records for recording services, charges, dates and all other commonly accepted information elements sufficient to disclose the quality, quantity, appropriateness and timeliness of services rendered to Members. All financial records shall follow generally accepted accounting principles. Medical records and supporting management systems shall include all pertinent information related to the medical management of each Member. Other records shall be maintained as necessary to clearly reflect all actions taken by Provider related to services provided under the MississippiCHIP Program Contract. Such records, including, as applicable, grievance and appeals records shall be maintained for a period of not less than ten (10) years from the close of the Agreement, or such other period as required by law. If records are under review or audit or are the subject of litigation they must be retained for a minimum of ten (10) years following resolution of such action. Prior approval for the disposal of records must be requested and approved by CCO if the Agreement is continuous. Provider shall have written records retention policies and procedures and will make such policies and procedures available to CCO or DOM upon request. DOM requires ready access to any and all documents and records of transactions pertaining to the provisions of services provided by Provider and those copies of requested documents/records will be provided to DOM or its designee free of charge.

3.7 Records Access. Provider agrees to cooperate with CCO to maintain and share a health record of all services provided to a Covered Person, as appropriate and in accordance with applicable laws, regulations and professional standards. Provider acknowledges and agrees and shall require Provider to acknowledge and agree that DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel shall have complete access to all records pertaining to services provided to Members. Provider shall provide immediate access to facilities, records and supportive materials pertinent to the MississippiCHIP Program Contract for State or Federal fraud investigators.

3.8 Government Audit; Investigations. Provider acknowledges and agrees and shall require Provider to acknowledge and agree that the State or any of its duly authorized representatives, DOM, the U.S. Department of Health and Human Services, the Centers for Medicare & Medicaid Services, the Office of Inspector General, the General Accounting Office, or any other auditing agency or their authorized representatives and their designees, with prior approval by DOM, at any time during the term of the Agreement, shall, at all reasonable time and within regular business hours, with or without notice, have the right to inspect, audit or otherwise evaluate the quality, appropriateness, and timeliness of services provided under the terms of the MississippiCHIP Program Contract and any other applicable federal and State law and regulation.

This shall include, but not be limited to, the right to enter onto Provider's premises, access to and the right to audit, inspect, monitor, and examine any pertinent books, documents, papers, medical records, financial records, surveys and computer databases and/or to otherwise evaluate the performance of Provider related to Provider's performance under the Agreement. Such monitoring activities may also include, without limitation, on-site inspections of all service locations and facilities; auditing and/or review of all records developed under the MississippiCHIP Program Contract or the Agreement; reviewing management systems and procedures developed under the MississippiCHIP Program Contract or the Agreement; and review of any other areas of materials relevant or pertaining to the MississippiCHIP Program Contract or the Agreement. All reviews and audits shall be performed in such a manner as will not unduly delay the work of Provider. There will be no restrictions on the right of the State or federal authorities to conduct inspections and audits as necessary.

The Provider must fully cooperate with any and all reviews and/or audits by state or federal agencies, such as the Department of Audit, Department of Health and Human Services, Centers for Medicare and Medicaid Services, Office of Inspector General, General Accounting Office, or any other auditing agency approved by DOM, by assuring that appropriate employees and involved parties are available for interviews relating to the reviews or audits.

All records shall be maintained and available for review by authorized federal and state agencies during the entire term of the MississippiCHIP Program Contract and for a period of ten (10) years thereafter, unless an audit, litigation, or other legal action is in progress. When an audit or litigation is in progress or audit findings are unresolved, records shall be kept for a period of ten (10) years or until all issues are finally resolved, whichever is later. The Provider must have written policies and procedures for storing this information. Records must be kept in an original paper state or preserved on micro media or electronic format.

3.9 Data; Reports. Provider shall and shall require that Provider cooperate with and release to CCO any information necessary for CCO to perform its obligations under the MississippiCHIP Program Contract to the extent applicable to Provider in performance of the Agreement, including the timely submission of reports and information required by CCO, in the format specified by CCO and the State. Such reports shall include well-baby/well-child reporting, as well as complete and accurate encounter and utilization management data in accordance with the requirements of CCO and DOM. Data must be provided at the frequency and level of detail specified by CCO or the State. By submitting data to CCO, Provider represents and attests to CCO and the State that the data is accurate, complete and truthful, and upon

CCO's request Provider shall certify in writing, that the data is accurate, complete, and truthful, based on Provider's best knowledge, information and belief.

Provider shall be able to receive, maintain and utilize applicable data extracts from CCO or DOM and systematically update its database within five (5) calendar days of receipt of the files. Data extract files include but are not limited to the following, as applicable: 1. Daily Active Provider Extract; 2. Weekly Provider Affiliation Details Extract; 3. 834 Enrollment Files; 4. 835 Claims Payment Remittance Advice Transaction; 5. 277 Claims Acknowledgement; 6. NCPDP Formulary; 7. NCPDP Response File; 8. TPL Resource/Policy Information File, etc.; 9. Claims History Extracts; and 10. Prior Authorization Extracts.

3.10 Encounter Data. Provider shall agree to cooperate with CCO to comply with CCO's obligation to prepare encounter data submissions, reports, and clinical information including, without limitation, and well-baby/well-child reporting and encounters, as applicable, and such other reporting regarding Covered Services as may be required under the MississippiCHIP Program Contract. Encounter data must be accurate and include all services furnished to a Covered Person, including capitated provider's data and rendering provider information. Encounter data must be provided within the timeframes specified and in a form that meets CCO and State requirements. By submitting encounter data to CCO, Provider represents to CCO that the data is accurate, complete and truthful, and upon CCO's request Provider shall certify in writing, that the data is accurate, complete, and truthful, based on Provider's best knowledge, information and belief.

3.11 Claims Information. Provider shall promptly submit to CCO the information needed to make payment and shall identify third party liability coverage, including Medicare and other insurance, and if applicable seek such third party liability payment before submitting claims to CCO. Provider understands and agrees that each claim Provider submits to CCO constitutes a certification that the claim is true and accurate to the best of Provider's knowledge and belief and that the Covered Services are 1) Medically Necessary and 2) have been provided to the Member prior to submitting the claim.

Provider must submit claims within six (6) months from the date of service. Claims filed within the appropriate time frame but denied may be resubmitted to CCO within ninety (90) calendar days from the date of denial.

3.12 Third Party Resources. Provider shall report all Third Party Resources to CCO identified through the provision of medical services.

3.13 Privacy; HIPAA. Provider shall comply with all applicable privacy rule and security rule provisions of the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), and associated implementing regulations, as may be amended from time to time, and shall safeguard information about Members in accordance with applicable federal and State privacy laws and rules including 42 CFR §438.224 and 42 CFR Part 431, Subpart F, as may be amended from time to time. Provider agrees that confidential information, including but not limited to, medical and other pertinent information relative to Members, shall not be disclosed to any person or organization for any purpose without the expressed, written authority of DOM or as otherwise required by law and that all such disclosures shall fully comply with HIPAA privacy and security standards.

3.14 Cultural Competency and Access. Provider shall participate in CCO's and DOM's efforts to

promote the delivery of services in a culturally competent manner to all Members, including those with limited English proficiency, physical or mental disabilities, diverse cultural and ethnic backgrounds and regardless of gender, sexual orientation or gender identity, and shall provide interpreter services in a Member's primary language and for the hearing impaired for all appointments and emergency services. Provider shall provide information to Members regarding treatment options and alternatives, as well as information on complaints and appeals, in a manner appropriate to the Member's condition and ability to understand. Provider shall provide physical access, reasonable accommodations, and accessible equipment for Covered Persons with physical or mental disabilities.

3.15 Approval of Marketing Materials. As required under State or federal law or the applicable MississippiCHIP Program Contract, any marketing materials developed and distributed by Provider as related to the performance of the Agreement must be submitted to CCO at least sixty (60) days prior to planned distribution for timely submission to DOM for prior approval. Provider agrees it will not proceed with the statement or communication until the required approval is obtained.

3.16 Independent Contractor Relationship. Provider expressly agrees that Provider is acting in an independent capacity in the performance of the Agreement and not as an officer, agent or employee of DOM, CMS or the State. Provider further expressly agrees that the Agreement shall not be construed as a partnership or joint venture between Provider and DOM, CMS or the State. Nothing in the Agreement shall be construed, nor shall it be deemed to create, any right or remedy in any third party.

3.17 Certification on Relationship to State, DOM and CMS. Provider certifies that no officer, director, employee, subcontractor or agent of Provider, or person with an ownership or control interest in Provider, is also employed by, or is a public official of, the State of Mississippi or any of its agencies, DOM or CMS.

3.18 Ownership and Control Information. If applicable, Provider shall cooperate with CCO in obtaining and providing information to DOM related to ownership and control, significant business transactions, and persons convicted of a criminal offense in compliance with§1128 of the Social Security Act, 42 USC §1320a-7 and 42 CFR Part 455, as amended and shall provide information upon request. Provider shall submit information related to ownership and control of subcontractors or wholly owned supplier within thirty-five (35) calendar days of a request for such information.

By executing the Agreement, Provider certifies that neither Provider nor any of its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in any State or federal health care program or from participating in transactions by any State or federal department or agency. CCO will terminate the Agreement upon becoming aware or receiving notice from DOM, whichever is earlier, that Provider is or has been excluded from participation in any State or federal health care program or by any State or federal agency.

3.19 Excluded Individuals and Entities. Provider certifies that neither it nor any of its employees, principals, nor any providers, subcontractors or consultants or persons with an ownership or controlling interest in the Provider (an owner including the Provider himself or herself), or an agent or managing employee of the Provider, with whom Provider contracts and who are providing items or services that are significant and material to Provider's obligations under the

Agreement is:

i) excluded from participation in federal health care programs under either Section 1128 or section 1128A of the Social Security Act; or

ii) debarred, suspended, proposed for debarment, declared ineligible, or otherwise voluntarily excluded from participating in procurement activities under the Federal Acquisition Regulation or from participating in non-procurement activities under regulations issued under Executive Order No. 12549 or under guidelines implementing Executive Order No. 12549; or an affiliate, as defined in the Federal Acquisition Regulation, of such a person.

Provider acknowledges and agrees and shall require that Provider acknowledge and agree that payment will not be made for any items or Covered Services provided by an excluded individual pursuant to 42 CFR §1001.1901(b) and is obligated to screen all employees, contractors, and subcontractors for exclusion as required under applicable State and Federal laws. Additionally, Provider acknowledges that pursuant to 42 CFR §1003.102(a)(2) civil monetary penalties may be imposed against Provider if he or she employs or enters into contracts with excluded individuals or entities to provide items or Covered Services to Member under the Agreement. Provider agrees not to employ or subcontract with individuals or entities whose owner, those with a controlling interest, or managing employees are on a State or Federal exclusion list to provide items or Covered Services under the Agreement. Provider shall immediately report to CCO any exclusion information discovered. Provider can search the HHS-OIG website, at no cost, by the names of any individuals or entities. The database is called LEIE and can be accessed at http://www.oig.hhs.gov/fraud/exclusions.asp. The GSA EPLS/SAM database can be accessed at https://www.sam.gov. Federal and State exclusion databases must be reviewed monthly to ensure that no employee or contractor has been excluded. Applicable state exclusion databases can be accessed through the State's Medicaid website. CCO will terminate the Agreement immediately upon becoming aware or receiving notice from DOM, whichever is earlier, that Provider's owners, agents, managing employees, or any provider is or has been excluded from federal health care programs or terminated from the Medicare or the Medicaid program in any state.

3.20 Licensure. Provider represents that it is currently licensed and/or certified under applicable State and federal statutes and regulations and by the appropriate State licensing body or standard-setting agency, as applicable. Provider represents that it does not have a Medicaid provider agreement with DOM that is terminated, suspended, denied, or not renewed as a result of any action of DOM, CMS, HHS, or the Medicaid Fraud Control Unit of the State's Attorney General. Provider shall maintain at all times throughout the term of the Agreement all necessary licenses, certifications, registrations and permits as are required to provide the health care services and/or other related activities delegated to Provider by CCO under the Agreement. If at any time during the term of the Agreement, Provider is not properly licensed as described in this Section, Provider shall discontinue providing services to Members.

3.21 National Provider ID (NPI). If applicable, Provider shall and shall require that Providers obtain a National Provider Identification Number (NPI) and when filing claims with Provider, the NPI number used is the same NPI number used when filing claims with DOM.

3.22 Funding. Provider recognizes that the obligation of DOM to proceed under its MississippiCHIP Program Contract with CCO is conditioned upon the appropriation of funds by the Mississippi

State Legislature and the receipt of State and/or Federal funds. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, either through the failure of the Federal government to provide or the State of Mississippi to appropriate funds, or the discontinuance, or material alteration of the program under which the funds were provided or if funds are not otherwise available to DOM, DOM has the right upon ten (10) working days written notice to CCO to terminate the MississippiCHIP Program Contract.

3.23 Federal and State Funds Liability. Providers acknowledges and agrees that payments made to Provider for services provided under the Agreement are derived from federal and State funds and that any false claim or statement in documents or any concealment of material fact related to such services may be a cause for sanctions and prosecution under applicable federal and State laws. Provider shall be subject to all laws applicable to individuals and entities receiving State and federal funds and may be held civilly or criminally liable to both CCO and DOM in the event of nonperformance, misrepresentation, fraud, or abuse related to services provided pursuant to the MississippiCHIP Program Contract. Provider recognizes that payments made to the Provider are derived from federal and State funds, and are contingent upon and subject to availability and receipt of funds.

3.24 Insolvency. In the event CCO becomes insolvent or unable to pay Provider, Provider shall not seek compensation for services rendered from DOM, its officers, Agents, or employees, or the Members or their eligible dependents.

3.25 Termination. In the event of termination of the Agreement, Provider shall promptly supply to CCO all information necessary for the reimbursement of any outstanding MississippiCHIP Program claims.

3.26 Capitated Providers. If a Provider that is capitated terminates its agreement with CCO, for any reason, Provider will provide services to Members assigned to Provider up to the end of the month in which the effective date of termination falls.

3.27 Fraud, Waste, and Abuse Prevention. Provider shall cooperate fully with the CCO's policies and procedures designed to protect program integrity and prevent and detect potential or suspected fraud, waste, and abuse in the administration and delivery of services under the MississippiCHIP Program Contract and shall cooperate and assist DOM and any other State or federal agency charged with the duty of preventing, identifying, investigating, sanctioning or prosecuting suspected fraud, waste, and abuse in state and/or federal health care programs. Provider and CCO are responsible for reporting suspected fraud and abuse by participating and non-participating providers, as well as Members, when detected.

In accordance with CCO's policies and the Deficit Reduction Act of 2005 (DRA), Provider shall have written policies for its employees, contractors or agents that: (a) provide detailed information about the federal False Claims Act (established under sections 3729 through 3733 of title 31, United States Code), including if any entity makes or receives annual payments under the State Program of at least $5,000,000, such entity must establish certain minimum written policies and information communicated through an employee handbook relating to the Federal False Claims Act in accordance with 42 CFR 438.600; (b) cite administrative remedies for false claims and statements (established under chapter 38 of title 31, United States Code) and whistleblower protections under federal and state laws; (c) reference state laws pertaining to civil or criminal penalties for false

claims and statements; and (d) with respect to the role of such laws in preventing and detecting fraud, waste, and abuse in federal health care programs (as defined in section 1128B(f)), include as part of such written policies, detailed provisions regarding Provider's policies and procedures for detecting and preventing fraud, waste, and abuse. Provider agrees to train its staff on the aforesaid policies and procedures.

3.28 Quality Utilization Management. Pursuant to any applicable provider manuals and related protocols, or as elsewhere specified under the Agreement, Provider agrees to cooperate with CCO's quality improvement and utilization review and management activities. This shall include, but not be limited to, participation in any internal and external quality assurance, utilization review, peer review, and grievance procedures established by CCO or as required under the MississippiCHIP Program Contract to ensure that Members have due process for their complaints, grievances, appeals, fair hearings or requests for external review of adverse decisions made by CCO or Provider. Provider shall adhere to the quality assurance and utilization review standards of the MississippiCHIP Program and shall monitor quality and initiate corrective action to improve quality consistent with the generally accepted level of care.

3.29 Quality and Utilization Management Program. Provider shall cooperate with CCO in meeting the Quality Management and Utilization Management Program standards outlined in the MississippiCHIP Program Contract.

3.30 Referrals. Provider shall make referrals for social, vocational, education or human services when a need for such service is identified.

3.31 Restrictions on Referrals. Provider shall not make inappropriate referrals for designated health services to health care entities with which Provider or a member of Provider's family has a financial relationship, pursuant to federal anti-kickback and physician self-referral laws that prohibit such referrals.

3.32 Complaints, Grievances and Appeals. Information on how Provider or Provider's authorized representative shall submit complaints and file grievances and appeals, and the resolution process, is contained in the CCO MississippiCHIP Provider Manual.

3.33 Health Care Acquired/Preventable Conditions. Provider agrees that no payment shall be made for the provision of medical assistance for health care acquired conditions and other provider preventable conditions as may be identified by the State. As a condition of payment, Provider shall identify and report to CCO any provider preventable conditions in accordance with 42 CFR §§ 434.6(a)(12), 438 including but not limited to 438.3(g), and 447.26.

3.34 Compliance with Laws. Provider shall comply with all applicable federal and State laws and regulations and all provisions of the MississippiCHIP Program Contract that pertain to a Member's rights, including but not limited to the following, to the extent applicable to Provider in performance of the Agreement:

i) Title VI of the Civil Rights Act of 1964; (b) Title XIX of the Social Security Act; Title IX of the Education Amendments of1972 (regarding education programs and activities); the Age Discrimination Act of 1975; the Rehabilitation Act of 1973; and The Genetic Information Non-Discrimination Act of 2008 (GINA); the Americans with Disabilities Act;

section 1557 of the Patient Protection and Affordable Care Act, and their implementing regulations, as may be amended from time to time.

ii) All federal and State professional and facility licensing and accreditation requirements/standards that apply to the services Provider perform pursuant to the Agreement, including but not limited to:

a) All applicable standards, orders or requirements issued under Section 306 of the Clean Air Act (42 USC 1857 (h)). Section 508 of the Clean Water Act (33 USC 1368), Executive Order 11738, and Environmental Protection Agency (EPA) regulations (40) CFR Part 15), which prohibit the use of facilities included on the EPA list of violating facilities. Any violations must be reported to DSHS, DHHS, and the EPA;

b) Any applicable mandatory standards and policies relating to energy efficiency that are contained in the State Energy Conservation Plan, including the Energy Policy & conservation Act (Pub. L. 94-165), and issued in compliance with the Federal Energy Policy & Conservation Act.

iii) All relevant federal and State statutes, regulations and orders related to equal opportunity in employment, including but not limited to compliance with E.O. 11246, "Equal Employment Opportunity," as amended by E.O. 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulations at 41 CFR Part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

iv) If the Agreement is for an amount in excess of $100,000, Provider shall comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, 42 U.S.C. 7401 et seq., and the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq. Any violations shall be reported to DHHS and the appropriate Regional Office of the Environmental Protection Agency.

v) Those specified for laboratory services in the Clinical Laboratory Improvement Amendments (CLIA). All laboratory service sites must have a CLIA certificate of registration or waiver, and a CLIA identification number.

vi) The American with Disabilities Act (ADA). Provider shall make reasonable accommodation for Members with disabilities in accord with the ADA for all Covered Services and shall assure physical and communication barriers do not inhibit Members with disabilities from obtaining Covered Services;

vii) Section 1128B(d)(1) of the Balanced Budget Act of 1997; and,

viii) Any other requirements associated with the receipt of federal funds.

ix) All Medicaid laws, regulations and program instructions to the extent applicable to Provider in Provider's performance of the Agreement. Provider understands that payment of a claim by CCO or the State is conditioned upon the claim and the underlying transaction complying with such laws, regulations, and program instructions (including, but not limited

to, federal requirements on fraud, waste and abuse, disclosure, debarment, termination and exclusion screening), and is conditioned on the Provider's compliance with all applicable conditions of participation in Medicaid. Provider understands and agrees that each claim the Provider submits to CCO constitutes a certification that the Provider has complied with all applicable Medicaid laws, regulations and program instructions in connection with such claims and the services provided therein. Provider's payment of a claim will be denied if Provider is terminated or excluded from participation in federal healthcare programs. Provider's payment of a claim may be temporarily suspended if the State or CCO provides notice that a credible allegation of fraud exists and there is a pending investigation. Provider's payment of a claim may also be temporarily suspended or adjusted if the Provider bills a claim with a code that does not match the service provided. CCO performs coding edit procedures based primarily on National Correct Coding Initiative (NCCI) policies and other nationally recognized and validated policies. Provider agrees that it will provide medical records to CCO upon its request in order to determine appropriateness of coding. Provider may dispute any temporarily suspended or adjusted payment consistent with the terms of the Agreement.

3.35 Non-Discrimination. Provider will not discriminate against, nor use any policy or practice that has the effect of discriminating against, Covered Persons on the basis of race, color, creed, sex, religion, age, national origin, ancestry, marital status, sexual orientation, gender identity, language, health status, disease or pre-existing condition (including genetic information), anticipated need for health care or physical or mental handicap, except where medically indicated. Examples of prohibited practices include, but are not limited to, the following:

i) Denying or not providing a Member any MississippiCHIP Covered Service. Health care and treatment necessary to preserve life must be provided to all Members who are not terminally ill or permanently unconscious, except where a competent Member objects to such care on his/her own behalf.

ii) Subjecting a Member to segregated, separate, or different treatment, including a different place or time from that provided to other Members or public or private patients, in any manner related to the receipt of any MississippiCHIP Covered Service, except where Medically Necessary.

iii) The assignment of times or places for the provision of services on the basis of the race, color, creed, religion, age, sex, national origin, ancestry, marital status, sexual orientation, gender identity, income status, program membership, language, health status, disease or pre-existing condition, anticipated need for health care or physical or mental disability of the Members to be served.

3.36 Advance Directives. Provider shall comply with the advance directives requirements with 42 C.F.R §422.128 and with the Uniform Health-Care Decisions Act (Miss. Code Ann. § 41-41-201, *et. seq*.). When applicable, Provider shall comply with the advance directives requirements for hospitals, nursing facilities, providers of home and health care and personal care services, hospices, and HMOs as specified in 42 CFR Part 49, subpart I, 42 CFR § 417.436(d), 42 CFR § 422.128, and 42 CFR 438.3(i).

3.37 Physician Incentive Plans. In the event Provider participates in a physician incentive plan

("PIP") under the Agreement, Provider agrees that such PIPs must comply with 42 CFR § 417.479, 42 CFR § 438.3, 42 CFR § 422.208, and 42 CFR § 422.210, as may be amended from time to time. CCO or Provider may not make a specific payment directly or indirectly under a PIP to a physician or physician group as an inducement to reduce or limit Medically Necessary services furnished to an individual Member. PIPs must not contain provisions that provide incentives, monetary or otherwise, for the withholding of services that meet the definition of Medical Necessity. Provider shall disclose annually to CCO any PIP arrangement Provider may have with any physicians even if there is not substantial financial risk between CCO and such physicians.

3.38 Lobbying. Provider agrees to comply with the following requirements related to lobbying:

i) Prohibition on Use of Federal Funds for Lobbying: By signing the Agreement, Provider certifies to the best of Provider's knowledge and belief, pursuant to 31 U.S.C. § 1352 and 45 CFR Part 93, as may be amended from time to time, that no federally appropriated funds have been paid or will be paid to any person by or on Provider's behalf for the purpose of influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

ii) Disclosure Form to Report Lobbying: If any funds other than federally appropriated funds have been paid or will be paid to any person for the purpose of influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment or modification of any federal contract, grant, loan, or cooperative agreement and the value of the Agreement exceeds $100,000, Provider shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

iii) Contractor shall abide by lobbying laws of the State of Mississippi.

3.39 Gratuities. Provider represents that it has not violated, is not violating, and promises that it will not violate the prohibitions against gratuities set forth in Section 6-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

3.40 Compliance with Mississippi Employment Protection Act (MEPA). Represents and warrants and shall require that Provider represent and warrant that it will ensure its compliance with the Mississippi Employment Protection Act, Section 71-11-1 et set of the Mississippi Code Annotated (Supp. 2008), and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other

successor electronic verification system replacing the E-Verify Program. Provider agrees and shall require that Provider agree to maintain records of such compliance and, upon request of the State and approval of the Social Security Administration or Department of Homeland Security, where required, to provide a copy of each such verification to the State. Provider represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of the State of Mississippi. Provider acknowledges and agrees that any breach of these warranties may subject Provider to the following: (a) termination of the Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public, or (b) the loss of any license, permit, certification or other document granted to Provider by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year, or (c) both.

3.41 Insurance Requirements. As applicable, Provider shall and shall require that Provider secure and maintain during the term of the Agreement general liability insurance, professional liability insurance, and workers' compensation insurance for all employees connected with the provision of services under the Agreement. Such workers compensation insurance shall comply with Mississippi Workers' Compensation Laws. Such comprehensive general liability insurance and professional liability insurance shall provide coverage in an amount established by CCO pursuant to the Agreement or as required under the MississippiCHIP Program Contract.

3.42 Indemnification. To the extent applicable to Provider in performance under the Agreement, Provider shall indemnify, defend, protect, save and hold DOM and its employees and Members harmless from and against all injuries, deaths, losses, damages, claims, suits, demands, actions, recovery, liabilities, judgments, costs and expenses, including without limitation, court costs, investigative fees and expenses, and attorney fees, to the extent proximately caused by any negligent act or other intentional misconduct or omission of Provider, its agents, officers, employees or contractors arising from the Agreement. DOM may waive this requirement for public entities if Provider is a state agency or sub-unit as defined by the State or a public health entity with statutory immunity. This clause shall survive the termination of the Agreement for any reason, including breach due to insolvency.

3.43 Notice of Legal Action. Immediately upon obtaining knowledge or receiving notice of any legal action or notice listed below, Provider shall provide to CCO written notice of such legal action or notice and, upon request by CCO, a complete copy of all filings and other documents generated in connection with any such legal action:

i) Any action, suit or counterclaim filed against Provider;

ii) Any regulatory action, or proposed action, respecting Provider's business or operations;

iii) Any notice received by Provider from the Department of Insurance or the State Health Officer;

iv) The filing of a petition in bankruptcy by or against Provider, or the insolvency of Provider;

v) The conviction of any person who has an ownership or control interest in Provider, or who is an agent or managing employee of Provider, of a criminal offense related to that person's

involvement in any program under Medicare, Medicaid, or Title XX of the Social Security Act; or

vi) A malpractice action against any Provider delivering service under an agreement.

3.44 Hold Harmless. Except for any applicable cost-sharing requirements under the MississippiCHIP Program Contract, Provider shall look solely to CCO for payment of Covered Services provided to Members pursuant to the Agreement and the MississippiCHIP Program Contract and hold DOM, the State, the U.S. Department of Health and Human Services and Members harmless in the event that CCO cannot or will not pay for such Covered Services. In accordance with 42 CFR § 447.15, as may be amended from time to time, the Member is not liable to Provider for any services for which CCO is liable and as specified under the State's relevant health insurance or managed care statutes, rules or administrative agency guidance. Provider shall not require any copayment or cost sharing for Covered Services provided under the Agreement unless expressly permitted under the MississippiCHIP Program Contract. Provider shall also be prohibited from charging Members for missed appointments if such practice is prohibited under the MississippiCHIP Program Contract or applicable law. Neither the State, DOM, nor Member shall be in any manner liable for the debts and obligations of CCO and under no circumstances shall CCO, or any providers used to deliver services covered under the terms of the MississippiCHIP Program Contract, charge Members for Covered Services.

3.45 Assignment/Delegation. Provider shall not assign or delegate the Agreement without the express written consent of CCO or DOM. If Provider subcontracts or delegates any functions of the Agreement, in accordance with the terms of the Agreement and with the express written consent of CCO or DOM, the subcontract or delegation must be in writing and include all of the requirements of this Appendix, and applicable requirements of the State Contract, and applicable laws and regulations. The transfer of five percent (5%) or more of the beneficial ownership in Provider at any time during the term of this Agreement shall be deemed an assignment under this Agreement.

3.46 Behavioral Health Providers. Behavioral Health Providers shall ensure that all Covered Persons receiving inpatient psychiatric services are scheduled for outpatient follow-up and/or continuing treatment prior to discharge from the inpatient psychiatric hospital if the Provider is aware of the Covered Person's inpatient hospitalization status. Behavioral Health Providers will be provided daily reports identifying Covered Persons known to be admitted to an inpatient facility. Behavioral Health Services will be delivered in compliance with the requirements of 42 CFR 438 subpart K insofar as those requirements are applicable.

3.47 Provider Eligibility. Provider must be enrolled in the Mississippi CHIP program and must use the same National Provider Identifier (NPI) number to participate in CCO's Network. Upon notification from the State that Provider's enrollment has been denied or terminated, CCO must terminate Provider immediately and will notify affected Covered Persons that Provider is no longer participating in the network. CCO will exclude from its network any provider who has been terminated or suspended from the Medicare, Medicaid or CHIP program in any state.

3.48 Disclosure. Provider must be screened and enrolled in the State's CHIP program and submit disclosures to the DOM related to ownership and control, significant business transactions, and persons convicted of crimes in accordance with 42 CFR Part 455 .Provider must submit information related to ownership and control of subcontractors or wholly owned suppliers within thirty-five (35)

calendar days of a request for such information in accordance with 42 CFR 455.105. Additionally, Provider must cooperate with DOM for submission of fingerprints upon a request from DOM or CMS in accordance with 42 CFR 455.434.

3.49 Electronic Visit Verification. Provider shall cooperate with State requirements for electronic visit verification for personal care services and home health services, as applicable.

3.50 Clinical Laboratory Improvements Act (CLIA) Certification or Waiver. As applicable, if Provider performs any laboratory tests on human specimens for the purpose of diagnosis and/or treatment, Provider agrees to acquire and maintain the appropriate CLIA certification or waiver for the type of laboratory testing performed. Provider further agrees to provide a copy of the certification if requested by CCO. A State authorized license or permit that meets the CLIA requirements may be substituted for the CLIA certificate pursuant to State law. Medicare and Medicaid programs require the applicable CLIA certification or waiver for the type of services performed as a condition of payment. Provider must include the appropriate CLIA certificate or waiver number on claims submitted for payment for laboratory services.

3.51 Overpayment. Provider shall to report to CCO when it has received an overpayment and will return the overpayment to CCO within 60 calendar days after the date on which the overpayment was identified. Provider will notify CCO in writing of the reason for the overpayment.

SECTION 4
CCO REQUIREMENTS

4.1 Communications with Members. Members are entitled to the full range of their Providers' opinions and counsel about the availability of Medically Necessary Services under the provisions of the MississippiCHIP Program Contract. Any contractual provisions, including gag clauses or rules, that restrict a Provider's ability to advise Members about Medically Necessary treatment options violate federal law and regulations. CCO shall not prohibit or otherwise restrict Provider, when acting within the lawful scope of practice, from advising or advocating on behalf of a Member for the following:

i) The Member’s health status, medical care, or treatment options, including any alternative treatment that may be self-administered;

ii) Any information the Member needs in order to decide among all relevant treatment options;

iii) The risks, benefits, and consequences of treatment or non-treatment;

iv) The Member’s right to participate in decisions regarding his or her health care, including the right to refuse treatment, and to express preferences about future treatment decisions; or

v) Information regarding the nature of treatment options including those that may not reflect CCO’s position or may not be covered by CCO.

CCO shall not prohibit a Provider from advocating on behalf of a Member in any grievance system,

utilization review process, or individual authorization process to obtain necessary health care services.

4.2 Prompt Payment. CCO shall pay Provider pursuant to the MississippiCHIP Program Contract and applicable State and federal law and regulations, including but not limited to Miss. Code Ann. §83-9-5, 42 CFR §447.46, 42 CFR §447.45(d)(2), 42 CFR §447.45(d)(3), 42 CFR §447.45(d)(5) and 42 CFR §447.45(d)(6), as applicable and as may be amended from time to time. If a third party liability exists, payment of claims shall be determined in accordance with federal and/or State third party liability law and the terms of the MississippiCHIP Program Contract. Unless CCO otherwise requests assistance from Provider, CCO will be responsible for third party collections in accordance with the terms of the MississippiCHIP Program Contract.

4.3 No Incentives to Limit Medically Necessary Services. CCO shall not structure compensation provided to individuals or entities that conduct utilization management and concurrent review activities so as to provide incentives for the individual or entity to deny, limit, or discontinue Medically Necessary services to any Member.

4.4 Provider Discrimination Prohibition. CCO shall not discriminate with respect to participation, reimbursement, or indemnification of a provider who is acting within the scope of the provider's license or certification under applicable State law, solely on the basis of such license or certification. CCO shall not discriminate against Provider for serving high-risk Members or if Provider specializes in conditions requiring costly treatments. This provision shall not be construed as prohibiting CCO from limiting a provider's participation to the extent necessary to meet the needs of Members. This provision also is not intended and shall not interfere with measures established by CCO that are designed to maintain quality of care practice standards and control costs. CCO shall not provide false or misleading information to any person or entity in an attempt to recruit Providers for CCO's network.

4.5 Termination, Revocation and Sanctions. In addition to its termination rights under the Agreement, CCO shall have the right to revoke any functions or activities CCO delegates to Provider under the Agreement or impose other sanctions consistent with the MississippiCHIP Program Contract if in CCO's reasonable judgment Provider's performance under the Agreement is inadequate. CCO shall also have the right to suspend, deny, refuse to renew or terminate the subcontract in accordance with the terms of the MississippiCHIP Program Contract and applicable law and regulation. However, CCO shall not exclude or terminate a Provider from participation in CCO's Provider Network due to the fact that the Provider has a practice that includes a substantial number of patients with expensive medical conditions, and shall not terminate a Provider for filing a Complaint, Grievance, or Appeal on a Member's behalf.

SECTION 5
OTHER REQUIREMENTS

5.1 Compliance with MississippiCHIP Program Contract. All tasks performed under the Agreement shall be performed in accordance with the requirements of the MississippiCHIP Program Contract, as applicable, as set forth in this Appendix, applicable provider manuals, and protocols, policies and procedures that CCO has provided or delivered to Provider. The applicable provisions of the MississippiCHIP Program Contract are incorporated into the Agreement by reference. Nothing in the Agreement or this Appendix relieves CCO of its responsibility under the

MississippiCHIP Program Contract. If any provision of the Agreement is in conflict with provisions of the MississippiCHIP Program Contract, the terms of the MississippiCHIP Program Contract shall control and the terms of the Agreement in conflict with those of the MississippiCHIP Program Contract will be considered waived.

5.2 Monitoring. In accordance with 42CFR § 457.950, CCO shall perform ongoing monitoring (announced or unannounced) of services rendered by Provider under the Agreement and shall perform periodic formal reviews of Provider according to a schedule established by the State, consistent with industry standards or State managed care organization laws and regulations or requirements under the MississippiCHIP Program Contract. As a result of such monitoring activities, and/or as a result of the inspecting, auditing and monitoring activities of DOM or other authorities pursuant to section 4.4 above, CCO shall identify to Provider any deficiencies or areas for improvement mandated under the MississippiCHIP Program Contract and Provider and CCO shall take appropriate corrective action within the relevant timeframe permitted, as applicable. Provider shall comply with any corrective action plan initiated by CCO and/or required by the MississippiCHIP Program. In addition, Provider shall monitor and report the quality of services delivered under the Agreement and initiate a plan of correction where necessary to improve quality of care, in accordance with that level of care which is recognized as acceptable professional practice in the respective community in which CCO and Provider practice and/or the performance standards established under the MississippiCHIP Program Contract.

5.3 Enrollment. The parties acknowledge and agree that DOM is responsible for enrollment, reenrollment and disenrollment of Members.

5.4 No Exclusivity. Nothing in the Agreement or this Appendix shall be construed as prohibiting or penalizing Provider for contracting with a managed care organization other than CCO or as prohibiting or penalizing CCO for contracting with other providers. The CCO may not require Providers who agree to participate in the MississippiCHIP Program to contract with the Contractor's other lines of business.

5.5 Revoking Delegation. The parties agree that, prior to execution of the Agreement, CCO evaluated Provider's ability to perform any duties delegated to Provider under the Agreement. Any delegated duties and reporting responsibilities shall be set forth in the Agreement or other written delegation agreement or addendum between the parties. In addition to its termination rights under the Agreement, CCO shall have the right to revoke any functions, assignment authority, or activities CCO delegates to Provider under the Agreement or impose other sanctions if in CCO's reasonable judgment Provider's performance under the Agreement is inadequate or untimely.

5.6 Rights of DOM. DOM shall have the right to invoke against Provider any remedy set forth in the MississippiCHIP Program Contract, including the right to require the termination of the Agreement, for each and every reason for which it may invoke such a remedy against CCO or require termination of the MississippiCHIP Program Contract. Suspected Fraud and Abuse by Provider will be investigated by DOM.

Mississippi
Regulatory Requirements Appendix

Mississippi Regulatory Requirements Appendix

This Mississippi Regulatory Requirements Appendix (the "Appendix") is made part of the agreement ("Agreement") entered into between **CCO,** contracting on behalf of itself, **HMO**, and the other entities that are CCO's Affiliates (collectively referred to as "CCO") and the health care professional or entity named in the Agreement ("Provider").

This Appendix applies to all products or benefit plans sponsored, issued or administered by or accessed through CCO to the extent such products are regulated under Mississippi laws; provided, however, that the requirements in this Appendix will not apply to the extent they are preempted by the Medicare Modernization Act or other applicable law.

CCO and Provider each agree to be bound by the terms and conditions contained in this Appendix. In the event of a conflict or inconsistency between this Appendix and any term or condition contained in the Agreement, this Appendix shall control, except with regard to Benefit Plans outside the scope of this Appendix.

If any of the capitalized terms in this Appendix are used or defined (or the equivalent terms are used or defined) in the Agreement, then the terms used in this Appendix will have the same meaning as the terms (or equivalent terms) used or defined in the Agreement. For example, "Benefit Plans," as used in this Appendix, will have the same meaning as "benefit contracts"; "Customer," as used in this Appendix, will have the same meaning as "member," "enrollee," or "covered person"; "Payer," as used in this Appendix, will have the same meaning as "participating entity"; "Provider," as used in this Appendix, will have the same meaning as "Facility," "Medical Group," "Ancillary Provider," "Physician," or "Practitioner." Additionally, if the Agreement uses pronouns to refer to the contracted entities, then "CCO" will have the same meaning as "we" or "us," and "Provider" will have the same meaning as "you" or "your."

This Appendix will be deemed to be updated to incorporate any changes to the laws and regulations referenced herein, including any changes to definitions referenced herein, effective as of the date of such changes.

1. Customer Hold Harmless and Continuation of Services. Provider agrees that in no event, including but not limited to nonpayment by CCO, Payer or intermediary, insolvency of CCO, Payer or intermediary, or breach of this Agreement, shall Provider bill, charge, collect a deposit from, seek compensation, remuneration or reimbursement from, or have any recourse against a Customer or a person (other than CCO, Payer or intermediary) acting on behalf of the Customer for services provided pursuant to this Agreement. This Agreement does not prohibit Provider from collecting coinsurance, deductibles or copayments, as specifically provided in the evidence of coverage, or fees for uncovered services delivered on a fee-for-service basis to Customers. Nor does this Agreement prohibit Provider (except for a health care professional who is employed full-time on the staff of CCO and has agreed to provide services exclusively to CCO's Customers and no others) and a Customer from agreeing to continue services solely at the expense of the Customer, as long as the provider has clearly informed the Customer that CCO or Payer

may not cover or continue to cover a specific service or services. Except as provided herein, this Agreement does not prohibit Provider from pursuing any available legal remedy.

In the event of CCO, Payer or intermediary insolvency or other cessation of operations, Covered Services to Customers will continue through the period for which a premium has been paid to CCO or Payer on behalf of the Customer or until the Customer's discharge from an inpatient facility, whichever time is greater. Covered Services to Customers confined in an inpatient facility on the date of insolvency or other cessation of operations will continue until their continued confinement in an inpatient facility is no longer medically necessary.

The provisions in this section 1 shall be construed in favor of the Customer, shall survive the termination of the Agreement regardless of the reason for termination, including the insolvency of CCO or Payer, and shall supersede any oral or written contrary agreement between Provider and a Customer or the representative of a Customer if the contrary agreement is inconsistent with the hold harmless and continuation of Covered Services provisions required by this section 1.

In no event shall Provider collect or attempt to collect from a Customer any money owed to Provider by CCO or Payer.

2. CCO Programs. As applicable, Provider shall comply with CCO's administrative policies and programs, including but not limited to terms, including payment, utilization review, quality assessment and improvement programs, credentialing, grievance procedures, data reporting requirements, confidentiality requirements and any applicable federal or state programs.

3. Treatment Options. CCO shall not prohibit Provider from discussing treatment options with Customers irrespective of CCO's position on the treatment options, or from advocating on behalf of Customers within the utilization review or grievance processes established by CCO or a person contracting with CCO.

4. Records. Provider shall make health records available to appropriate state and federal authorities involved in assessing the quality of care or investigating the grievances or complaints of Customers, and to comply with the applicable state and federal laws related to the confidentiality of medical or health records.

5. Termination. CCO and Provider shall provide advance written notice to each other in the form and for the length of time as provided in the Agreement but in no case less than sixty (60) before terminating the Agreement without cause. CCO shall make a good faith effort to provide written notice of a termination within thirty (30) days of receipt or issuance of a notice of termination to all Customers who are patients seen on a regular basis by Provider whose Agreement is terminating, irrespective of whether the termination was for cause or without cause. Where a contract termination involves a primary care professional, all Customers who are patients of that primary care professional shall also be notified. Within five (5) working days of the date that Provider either gives or receives notice of termination, Provider shall supply CCO with a list of those patients of Provider that are covered by a Benefit Plan subject to this Appendix.

6. Assignment. The rights and responsibilities under this Agreement shall not be assigned or delegated by Provider without the prior written consent of CCO.

7. Provision of Covered Services. Provider shall furnish Covered Services to all Customers without regard to the Customer's enrollment in the plan as a private purchaser of the plan or as a participant in publicly financed programs of health care services. This requirement does not apply to circumstances when Provider should not render services due to limitations arising from lack of training, experience, skill or licensing restrictions.

8. Coinsurance, Copayments and Deductibles. Provider shall collect applicable coinsurance, copayments or deductibles from Customers pursuant to the Benefit Plan and, as applicable, Provider shall notify Customers of their personal financial obligations for non-covered services.

9. No Penalty for Reporting to Authorities. CCO shall not penalize Provider because Provider, in good faith, reports to state or federal authorities any act or practice by CCO that jeopardizes patient health or welfare.

10. Definitions. To the extent a definition or other provision in the Agreement conflicts with the Benefit Plan or the Managed Care Plan Network Adequacy Regulation (the "Regulation"), the Benefit Plan or the Regulation will control.

11. Prompt Pay. Provider and CCO shall comply with the prompt payment requirements set forth in the Mississippi Code Section 83-9-5(1)(h). Claims will be paid within twenty-five (25) days after receipt where claims are submitted electronically, and within thirty-five (35) days after receipt where claims are submitted in paper format.

12. Reciprocal Time Limitations. If the Agreement includes a time limit in which Provider is required to submit a claim for payment, CCO or Payer shall have the same time limit following payment of the claim to perform any review or audit for reconsidering the validity of the claim and requesting reimbursement for payment of an invalid claim or overpayment of a claim. If CCO or Payer does not limit the time in which Provider is required to submit a claim for payment, CCO may not request reimbursement or offset another claim payment for reimbursement of an invalid claim or overpayment of a claim more than twelve (12) months after the payment of an invalid or overpaid claim. This provision does not apply to claims submitted in the context of misrepresentation, omission, concealment, or fraud by Provider.

13. Intermediaries. The following provisions apply to intermediaries as defined in the Regulation.

a) Intermediaries and participating providers with whom they contract shall comply with all the applicable requirements of sections 1-10 of this Appendix (section 14.06 of the Regulation).
b) CCO's statutory responsibility to monitor the offering of Covered Services to Customers shall not be delegated or assigned to the intermediary.

c) CCO shall have the right to approve or disapprove participation status of a subcontracted provider in its own or a contracted network for the purpose of delivering Covered Services to the carrier's Customers.
d) CCO shall maintain copies of all intermediary health care subcontracts at its principal place of business in the state, or ensure that it has access to all intermediary subcontracts, including the right to make copies to facilitate regulatory review, upon twenty (20) days prior written notice from CCO.
e) If applicable, an intermediary shall transmit utilization documentation and claims paid documentation to CCO. CCO shall monitor the timeliness and appropriateness of payments made to providers and health care services received by Customers.
f) If applicable, an intermediary shall maintain the books, records, financial information and documentation of services provided to Customers at its principal place of business in the state and preserve them in a manner that facilitates regulatory review.
g) An intermediary shall allow the commissioner access to the intermediary's books, records, financial information and any documentation of services provided to Customers, as necessary to determine compliance with the Regulation.
h) CCO shall have the right, in the event of the intermediary's insolvency, to require the assignment to CCO of the provisions of a provider's contract addressing the provider's obligation to furnish covered services.

Facility Participation Agreement

Facility Participation Agreement

This Agreement is entered into by and between CCO, contracting on behalf of itself, HMO, and the other entities that are CCO Affiliates (collectively referred to as "CCO") and _____ ("Facility").

This Agreement is effective on the later of the following dates (the "Effective Date"):

i) _____, ___ or

ii) the first day of the first calendar month that begins at least 30 days after the date when this Agreement has been executed by all parties.

Through contracts with physicians and other providers of health care services, CCO maintains one or more networks of providers that are available to Customers. Facility is a provider of health care services.

CCO wishes to arrange to make Facility's services available to Customers. Facility wishes to provide those services, under the terms and conditions set forth in this Agreement.

The parties therefore enter into this Agreement.

Article I
Definitions

The following capitalized terms in this Agreement have the meanings set forth below:

1.1 **Benefit Plan** means a certificate of coverage, summary plan description, or other document or agreement, whether delivered in paper or electronic format, under which a Payer is obligated to provide coverage of Covered Services for a Customer.

1.2 **Covered Service** is a health care service or product for which a Customer is entitled to receive coverage from a Payer, pursuant to the terms of the Customer's Benefit Plan with that Payer.

1.3 **Customary Charge** is the fee for health care services charged by Facility that does not exceed the fee Facility would ordinarily charge another person regardless of whether the person is a Customer.

1.4 **Customer** is a person eligible and enrolled to receive coverage from a Payer for Covered Services.

1.5 **Facility Records** are Facility's medical, financial and administrative records related to Covered Services rendered by Facility under this Agreement, including claims records.

1.6 **Payment Policies** are the guidelines adopted by CCO for calculating payment of claims to providers of health care services. The Payment Policies operate in conjunction with the specific reimbursement rates and terms set forth in this Agreement. The Payment Policies may change from time to time as described in section 5.1 of this Agreement.

1.7 **Payer** is an entity obligated to a Customer to provide reimbursement for Covered Services under the Customer's Benefit Plan, and authorized by CCO to access Facility's services under this Agreement.

1.8 **Protocols** are the programs and administrative procedures adopted by CCO or a Payer to be followed by Facility in providing services and doing business with CCO and Payers under this Agreement. Protocols may include, among other things, credentialing and recredentialing processes, utilization management and care management processes, quality improvement, peer review, Customer grievance, or concurrent review. Protocols may change from time to time as described in section 4.4 of this Agreement.

1.9 **Subcontractor** is an individual or entity contracted or otherwise engaged by a party to this Agreement.

1.10 **CCO Affiliates** are those entities controlling, controlled by, or under common control with CCO.

Article II
Representations and Warranties

2.1 **Representations and warranties of Facility**. Facility, by virtue of its execution and delivery of this Agreement, represents and warrants as follows:

i) Facility is a duly organized and validly existing legal entity in good standing under the laws of its jurisdiction of organization.

ii) Facility has all requisite corporate power and authority to conduct its business as presently conducted, and to execute, deliver and perform its obligations under this Agreement. The execution, delivery and performance of this Agreement by Facility have been duly and validly authorized by all action necessary under its organizational documents and applicable corporate law. This Agreement has been duly and validly executed and delivered by Facility and (assuming the due authorization, execution and delivery of this Agreement by CCO) constitutes a valid and binding obligation of Facility, enforceable against Facility in accordance with its terms, except as enforceability may be limited by the availability of equitable remedies or defenses and by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting the enforcement of creditors' rights generally.

iii) The execution, delivery and performance of this Agreement by Facility do not and will not violate or conflict with (a) the organizational documents of Facility, (b) any material agreement or instrument to which Facility is a party or by which Facility or any material part of its property is bound, or (c) applicable law.

iv) Facility has obtained and holds all registrations, permits, licenses, and other approvals and consents, and has made all filings, that it is required to obtain from or make with all governmental entities under applicable law in order to conduct its business as presently conducted and to enter into and perform its obligations under this Agreement.

v) Facility has been given an opportunity to review the Protocols and Payment Policies. See the Additional Manuals Appendix for additional information regarding the Protocols and Payment Policies applicable to Customers enrolled in certain Benefit Plans.

vi) Each submission of a claim by Facility pursuant to this Agreement will be deemed to constitute the representation and warranty by Facility to CCO that (a) the representations and warranties of Facility set forth in this section 2.1 and elsewhere in this Agreement are true and correct as of the date the claim is submitted, (b) Facility has complied with the requirements of this Agreement with respect to the Covered Services involved and the submission of the claim, (c) the charge amount set forth on the claim is the Customary Charge and (d) the claim is a valid claim.

2.2 Representations and warranties of CCO. CCO, by virtue of its execution and delivery of this Agreement, represents and warrants as follows:

i) CCO is a duly organized and validly existing legal entity in good standing under the laws of its jurisdiction of organization.

ii) CCO has all requisite corporate power and authority to conduct its business as presently conducted, and to execute, deliver and perform its obligations under this Agreement. The execution, delivery and performance of this Agreement by CCO have been duly and validly authorized by all action necessary under its organizational documents and applicable corporate law. This Agreement has been duly and validly executed and delivered by CCO and (assuming the due authorization, execution and delivery of this Agreement by Facility) constitutes a valid and binding obligation of CCO, enforceable against CCO in accordance with its terms, except as enforceability may be limited by the availability of equitable remedies or defenses and by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting the enforcement of creditors' rights generally.

iii) The execution, delivery and performance of this Agreement by CCO do not and will not violate or conflict with (a) the organizational documents of CCO, (b) any material agreement or instrument to which CCO is a party or by which CCO or any material part of its property is bound, or (c) applicable law.

iv) CCO has obtained and holds all registrations, permits, licenses, and other approvals and consents, and has made all filings, that it is required to obtain from or make with all governmental entities under applicable law in order to conduct its business as presently conducted and to enter into and perform its obligations under this Agreement.

Article III
Applicability of this Agreement

3.1 Facility's services.

i) This Agreement applies to Covered Services provided at Facility's service locations set forth in Appendix 1. If a service location is not listed in Appendix 1, this section 3.1 and this Agreement should nevertheless be understood as applying to Facility's actual service locations that existed when this Agreement was executed, rather than to a billing address, post office box, or any other address set forth in Appendix 1.

In the event Facility intends to begin providing services at other service locations or under other Taxpayer Identification Number(s), Facility will provide [60] days' advance notice to CCO. Those additional service locations or Taxpayer Identification Numbers will become subject to this Agreement only upon the written agreement of the parties. This subsection 3.1(i) applies to cases when Facility adds the location itself (such as through new construction or through conversion of a free-standing location to provider-based), and when Facility acquires, merges with or otherwise becomes affiliated with an existing provider that was not already under contract with CCO or a CCO Affiliate to participate in a network of health care providers.

ii) Facility will provide [60] days' advance notice to CCO in the event Facility intends to acquire or be acquired by, merge with, or otherwise become affiliated with another provider of health care services that is already under contract with CCO or a CCO Affiliate to participate in a network of health care providers. If one of these events occurs, this Agreement and the other agreement will each remain in effect and will continue to apply as they did prior to the acquisition, merger or affiliation, unless otherwise agreed to in writing by all parties to such agreements.

Similarly, Facility will provide [60] days' advance notice to CCO if Facility intends to buy assets of, or lease space from, a facility under contract directly with CCO or a CCO Affiliate to participate in a network of health care providers. If that occurs, and Facility provides services at that location, but does not assume the CCO contract held by the prior operator, Covered Services rendered at that location will be subject to the same rates and other key terms (including term and termination) as applied under the prior operator's contract.

iii) Facility will provide [60] days' advance notice to CCO in the event Facility intends to transfer all or some of its assets to another entity, with the result that all or some of the Covered Services subject to this Agreement will be rendered by the other entity rather than by Facility. In addition, Facility will request that CCO approve the assignment of this Agreement as it relates to those Covered Services, and if approved by CCO, Facility will ensure the other entity agrees to assume this Agreement. This subsection 3.1(iii) does not limit CCO's right under section 9.4 of this Agreement to elect whether to approve the assignment of this Agreement. This subsection 3.1(iii) applies to arrangements under which another provider intends to lease space from Facility, or intends to enter into a subcontract with Facility to perform services, after the Effective Date of this Agreement, so that Covered Services that were subject to this Agreement as of the Effective Date of this Agreement are rendered and billed instead by the other provider rather than by Facility after the lease or subcontract takes place.

3.2 Payers and Benefit Plans. CCO may allow Payers to access Facility's services under this Agreement for certain Benefit Plans, as described in Appendix 2. CCO may modify Appendix 2 without amendment to include or exclude Benefit Plans in Appendix 2 by providing 30 days prior written or electronic notice to Facility.

In addition to changes allowed above, CCO may make additional changes to Appendix 2 as described in section 3 of that appendix.

Section 8.3 of this Agreement will apply to Covered Services provided to Customers covered by Benefit Plans that are added to the list in Appendix 2 of Benefit Plans excluded from this Agreement as described above.

3.3 Patients who are not Customers. This Agreement does not apply to services rendered to patients who are not Customers at the time the services were rendered. Section 6.6 of this Agreement addresses circumstances in which claims for services rendered to those patients are inadvertently paid.

3.4 Health care. This Agreement and Benefit Plans do not dictate the health care provided by Facility, or govern Facility's determination of what care to provide patients, even if those patients are Customers. The decision regarding what care is to be provided remains with Facility and with Customers and their physicians, and not with CCO or any Payer.

3.5 Communication with Customers. Nothing in this Agreement is intended to limit Facility's right or ability to communicate fully with a Customer and the Customer's physician regarding the Customer's health condition and treatment options. Facility is free to discuss all treatment options without regard to whether or not a given option is a Covered Service. Facility is free to discuss with a Customer any financial incentives Facility may have under this Agreement, including describing at a general level the payment methodologies contained in this Agreement. Facility may also assist a Customer in estimating the cost of a given Covered Service.

Article IV
Duties of Facility

4.1 Provide Covered Services. Facility will provide Covered Services to Customers. Facility must be in compliance with section 2.1(iv) of this Agreement and, to the extent Facility is subject to credentialing by CCO, Facility must be credentialed by CCO or its delegate prior to furnishing any Covered Services to Customers under this Agreement.

4.2 Nondiscrimination. Facility will not discriminate against any patient, with regard to quality or accessibility of services, on the basis that the patient is a Customer.

4.3 Accessibility. Facility will be open 24 hours a day, seven days a week.

4.4 Protocols.

i) Facility will cooperate with and be bound by CCO's and Payers' Protocols. The Protocols include but are not limited to all of the following:

a) For non-emergency Covered Services, Facility will assist Customers to maximize their benefits by referring or directing Customers only to other providers that participate in CCO's network, except as otherwise authorized by CCO through CCO's process for approving out-of-network services at in-network benefit levels.

b) Facility will make reasonable commercial efforts to ensure that all Facility-based providers participate in CCO's network as long as this Agreement is in effect.

In the event that a Facility-based provider is not a participating provider with CCO, Facility's Chief Financial Officer or equivalent senior level officer ("Facility Representative") will assist CCO in its efforts to negotiate an agreement with that group. Upon request by CCO, Facility Representative will:

1) meet with Facility-based provider to encourage participation and require exchange of proposals. Facility Representative will provide CCO with meeting minutes within 15 days after the meeting. Meeting minutes will include a summary of the key discussion points and an outline of any actionable resolution options deemed by Facility Representative.

2) write letter(s) to Facility-based provider encouraging the group to negotiate in good faith with CCO. The letter will also outline any contractual requirements in the agreement between Facility and Facility-based provider that requires Facility-based provider to negotiate in good faith with third party payers, or participate in third

party payer networks, and any other provisions related to Facility-based provider's participation with third party payers.

3) invoke any applicable penalties or other contractual terms in its agreement with Facility-based provider related to its non-participating status with a third party payer.

4) allow independent legal counsel (mutually agreeable to all relevant parties) to review Facility's agreement with the Facility-based provider to ensure Facility is fully invoking all the relevant terms and conditions of that agreement to require or promote Facility-based provider's participation status with CCO.

CCO will negotiate with Facility-based providers in good faith. CCO has no responsibility for the credentialing of any employed or sub-contracted Facility-based provider.

c) As further described in the Protocols, Facility will provide notification and participate in utilization management programs regarding certain Covered Services, accept and return telephone calls from CCO staff, and respond to CCO requests for clinical information as required by CCO or Payer.

ii) **Availability of Protocols.** The Protocols will be made available to Facility online or upon request. Some or all Protocols also may be disseminated in the form of an administrative manual or guide or in other communications. Currently, the Protocols may be found at portal.com, or as indicated in the Additional Manuals Appendix, if applicable. CCO will notify Facility of any changes in the location of the Protocols.

i) **Changes to Protocols.** CCO may change the Protocols from time to time. CCO will use reasonable commercial efforts to inform Facility at least 30 days in advance of any material changes to the Protocols. CCO may implement changes in the Protocols without Facility's consent if the change is applicable to all or substantially all facilities of the same type offering similar services in CCO's network, and are located in the same state as Facility. Otherwise, changes to the Protocols proposed by CCO to be applicable to Facility are subject to the requirements regarding amendments in section 9.2 of this Agreement.

4.5 Employees and Subcontractors. Facility will ensure that its employees, affiliates and any individuals or entities subcontracted by Facility to render services in connection with this Agreement adhere to the requirements of this Agreement. The use of employees, affiliates or Subcontractors to render services in connection with this Agreement will not limit Facility's obligations and accountability under this Agreement with regard to those services. Facility affiliates are those entities that control, are controlled by or are under common control with Facility.

4.6 Licensure. Facility will maintain, without material restriction, such licensure, registration, and permits as are necessary to enable Facility to lawfully perform under this Agreement.

4.7 Liability insurance. Facility will procure and maintain liability insurance. Except to the extent coverage is a state mandated placement, Facility's coverage must be placed with insurance carriers that have an A.M. Best Rating of A-VII or better, and that are authorized or approved to write coverage in the state in which the Covered Services are provided. Facility's liability insurance must be, at a minimum, of the types and in the amounts set forth below. Facility's medical malpractice insurance must be either occurrence or claims made with an extended period reporting option of at least three years. Prior to the Effective Date of this Agreement and within 10 days of each policy renewal thereafter, Facility will submit to CCO in writing evidence of insurance coverage.

TYPE OF INSURANCE	MINIMUM LIMITS
Medical malpractice and/or professional liability insurance	$5,000,000.00 per occurrence/claim and aggregate
Commercial general and/or umbrella liability insurance	$5,000,000.00 per occurrence/claim and aggregate
[Automobile Liability	$5,000,000.00 - combined single limit]

[Substitute for high-risk providers:

TYPE OF INSURANCE	MINIMUM LIMITS
Medical malpractice and/or professional liability insurance	$10,000,000.00 per occurrence/claim and aggregate
Commercial general and/or umbrella liability insurance	$5,000,000.00 per occurrence/claim and aggregate
[Automobile Liability	$5,000,000.00 - combined single limit]

]

In lieu of purchasing the insurance coverage required in this section, Facility may self-insure any of the required insurance. Facility will maintain a separate reserve for its self-insurance. Prior to the Effective Date, Facility will provide a statement, verified by an independent auditor or actuary, that its reserve funding levels and process of funding appears adequate to meet the requirements of this section and fairly represents the financial condition of the fund. Facility will provide a similar statement during the term of this Agreement upon CCO's request, which will be made no more frequently than annually. Facility will assure that its self-insurance fund will comply with applicable laws and regulations.

4.8 Notice by Facility. Facility will give notice to CCO within 10 days after any event that causes Facility to be out of compliance with section 4.6 or 4.7 of this Agreement. Facility will give notice to CCO at least 30 days prior to any change in Facility's name, ownership, control, NPI, or Taxpayer Identification Number.

4.9 Customer consent to release of Facility Record information. Facility will obtain any Customer consent required in order to authorize Facility to provide access to requested Facility Records as contemplated in section 4.10 of this Agreement, including copies of the Facility's medical records relating to the care provided to Customer.

4.10 Maintenance of and access to records.

i) **Maintenance.** Facility will maintain Facility Records for at least [10] years following the end of the calendar year during which the Covered Services are provided, unless a longer retention period is required by applicable law.

ii) **Access to Agencies**. Facility will provide access to Facility Records to agencies of the government, in accordance with applicable law, to the extent access is necessary to comply with the requirements of such agencies as applicable to Facility, CCO or Payers.

iii) **Access to CCO.** Facility will provide CCO or its designees access to Facility Records for purposes of CCO's health care operations and other administrative obligations, including without limitation, utilization management, quality assurance and improvement, claims payment, and review or audit of Facility's compliance with the provisions of this Agreement and appropriate billing practices.

Facility will provide access to Facility Records by providing CCO electronic medical records ("EMR") access and electronic file transfer. When the requested Facility Records are not available through EMR access and electronic file transfer, Facility will submit those Facility Records through other means reasonably acceptable to CCO, such as facsimile, compact disc, or mail, that is suitable to the purpose for which CCO requested the Facility Records.

Facility Records provided by EMR access will be available to CCO on a 24 hour/7 day a week basis. Facility Records provided by electronic file transfer will be available to CCO within [24] hours of CCO's request for those Facility Records or a shorter time as may be required for urgent requests for Facility Records. Facility Records provided by other means will be available in the time frame specified in the request for the Facility Records; provided, however, Facility will have up to 14 days to provide the Facility Records for requests not related to urgent requests. Urgent requests are those requests for Facility Records to address allegations of fraud or abuse, matters related to the health and safety of a Customer, or related to an expedited appeal or grievance.

Facility may meet the requirements of this section 4.10 directly or through a subcontractor.

iv) **Audits.** Pursuant to paragraph (iii) above, CCO may request Facility Records from Facility for purposes of performing an audit of Facility's compliance with this Agreement, Facility's billing practices, or CCO's health care operations, including

without limitation claims payments. In addition, CCO may perform audits at Facility's locations upon 14 days' prior notice. Facility will cooperate with CCO on a timely basis in connection with any such audit including, among other things, in the scheduling of and participation in an interview to review audit findings, within 30 days after CCO's request.

v) When Facility has provided records through EMR access or file transfer, CCO will not request duplicative paper records from Facility.

vi) Facility will provide Facility Records free of charge**.**

4.11 Access to data. Facility represents that in conducting its operations, it collects and reviews certain quality data relating to care rendered by Facility that is reported in a manner which has been validated by a third party as having a clear, evidence-based link to quality or safety (e.g., AHRQ standards) or which has been created by employer coalitions as proxies for quality (e.g., Leapfrog standards).

CCO recognizes that Facility has the sole discretion to select the metrics which it will track from time to time and that Facility's primary goal in so tracking is to advance the quality of patient care. If the information that Facility chooses to report on is available in the public domain in a format that includes all data elements required by CCO, CCO will obtain quality information directly from the source to which Facility reported. If the Facility does not report metrics in the public domain, on a quarterly basis, Facility will share these metrics with CCO as tracked against a database of all discharged, patients (including patients who are not CCO customers). CCO may publish this data to entities to which CCO renders services or seeks to render services, and to Customers. Notwithstanding the foregoing, Facility agrees that it will participate in The Leapfrog Group's annual patient safety survey if Facility is among the hospitals Leapfrog seeks to survey.

4.12 Compliance with law. Facility will comply with applicable regulatory requirements, including but not limited to those relating to confidentiality of Customer medical information.

4.13 Electronic connectivity. When made available by CCO, Facility will do business with CCO electronically, including EMR access and connectivity, and HL7 admission discharge and transfer (ADT). Facility will use the CCO service tool, found at portal.com, and/or other electronic connectivity as available, to check eligibility status, claims status, and submit requests for claims adjustment for products supported by CCO's online resources and other electronic connectivity. Facility will use other tools for additional functionalities (for example, notification of admission, prior authorization and any other available transaction or viewing) after CCO informs Facility that these functionalities have become available for the applicable Customer.

4.14 Implementation of quality improvement and patient safety programs. Facility will implement quality programs applicable to Facility that are recommended by nationally recognized third parties (such as The Leapfrog Group and CMS), as designated by CCO from

time-to-time, such as The Leapfrog Group's programs related to Computer Physician Order Entry (CPOE), Evidence-based Hospital Referral (EHR), ICU Physician Staffing (IPS), and the 27 other patient safety practices arrived at by national consensus (National Quality Forum Safe Practices), as may be updated from time to time in the Protocols.

4.15 Never events. In the event a "never event" occurs in connection with Facility rendering services to a Customer, Facility will take the then current steps recommended by the Leapfrog Group. At present, these steps are set forth in the Leapfrog Group's "Position Statement on Never Events" (http://www.leapfroggroup.org) and are as follows:

i) Apologize to the patient and/or family affected by the never event.

ii) Report the event to CCO and to at least one of the following agencies: The Joint Commission, as part of its Sentinel Events policy; state reporting program for medical errors; or a Patient Safety Organization (e.g. Maryland Patient Safety Center).

iii) Perform a root cause analysis, consistent with instructions from the chosen reporting agency.

iv) Waive all costs directly related to the event. In order to waive such costs, Facility will not submit a claim for such costs to CCO or Payer (except as required by an applicable Payment Policy) and will not seek or accept payment for such costs from the Customer or anyone acting on behalf of the Customer.

v) Interview patients and/or families who are willing and able, to gather evidence for the root cause analysis.

vi) Inform the patient and/or his/her family of the action(s) that Facility will take to prevent future recurrences of similar events based on the findings from the root cause analysis.

vii) Have a protocol in place to provide support for caregivers involved in never events, and make that protocol known to all caregivers and affiliated clinicians.

viii) Perform an annual review to ensure compliance with each element of Leapfrog's Never Events Policy for each never event that occurred.

ix) Make a copy of this policy available to patients upon request.

For purposes of this section 4.15, a "never event" is an event included in the list of "serious reportable events" published by the National Quality Forum (NQF), as the list may be updated from time to time by the NQF and adopted by Leapfrog.

Additional Language:
[4.15] [4.16] [Service Standards. Facility will comply with the additional requirements in the attached Service Standards Exhibit.]

Article V
Duties of CCO and Payers

5.1 Payment of claims. As described in further detail in Article VI of this Agreement, Payers will pay Facility for rendering Covered Services to Customers. CCO will make its Payment Policies available to Facility online and upon request. CCO may change its Payment Policies from time to time, and will make information available describing the change.

5.2 Liability insurance. CCO will procure and maintain professional and general liability insurance and other insurance, as CCO reasonably determines may be necessary to protect CCO and CCO's employees against claims, liabilities, damages or judgments that arise out of services provided by CCO or CCO's employees under this Agreement.

5.3 Licensure. CCO will maintain, without material restriction, such licensure, registration, and permits as are necessary to enable CCO to lawfully perform this Agreement.

5.4 Notice by CCO. CCO will give written notice to Facility within 10 days after any event that causes CCO to be out of compliance with section 5.2 or 5.3 of this Agreement, or of any change in CCO's name, ownership, control, or Taxpayer Identification Number. This section does not apply to changes of ownership or control that result in CCO being owned or controlled by an entity with which it was already affiliated prior to the change.

5.5 Compliance with law. CCO will comply with applicable regulatory requirements, including but not limited to those relating to confidentiality of Customer medical information and those relating to prompt payment of claims, to the extent those requirements are applicable.

5.6 Electronic connectivity. As described in section 4.13 of this Agreement, CCO will do business with Facility electronically. CCO will communicate enhancements in its electronic connectivity functionality as they become available.

5.7 Employees and Subcontractors. CCO will assure that its employees, affiliates and any individuals or entities subcontracted by CCO to render services in connection with this Agreement adhere to the requirements of this Agreement. The use of employees, affiliates or Subcontractors to render services in connection with this Agreement will not limit CCO's obligations and accountability under this Agreement with regard to those services.

Article VI
Submission, Processing, and Payment of Claims

6.1 Form and content of claims. Facility must submit claims for Covered Services as described in the Protocols, using current, correct and applicable coding.

6.2 Electronic filing of claims. Within six months after the Effective Date of this Agreement, Facility will use electronic submission for all of its claims under this Agreement that CCO is able to accept electronically.

6.3 Time to file claims. Unless a longer timeframe is required under applicable law, all information necessary to process a claim must be received by CCO no more than 90 days from the date of discharge or from the date outpatient Covered Services are rendered. If Payer is not the primary payer on a claim, and Facility is pursuing payment from the primary payer, the period in which Facility must submit the claim will begin on the date Facility receives the claim response from the primary payer.

6.4 Payment of claims for Covered Services. Payer will pay claims for Covered Services according to the amount specified in the applicable Payment Appendix(ices) to this Agreement and in accordance with Payment Policies.

Claims for Covered Services subject to coordination of benefits will be paid in accordance with the Customer's Benefit Plan and applicable law.

The obligation for payment under this Agreement is solely that of Payer and not that of CCO unless CCO is the Payer.

6.5 Denial of claims for not following Protocols, for not filing timely, for Services not Covered under the Customer's Benefit Plan, or for lack of medical necessity.

A) This section 6.5(A) does not initially apply to the following Benefit Plans ("Excluded Benefit Plans"):

[(1) Benefit Plans administered by CCO Affiliate , Inc.]

[(1)][(2)] Benefit Plans listed in the Additional Manuals Appendix to this Agreement, if such Appendix is included in this Agreement.

Excluded Benefit Plans are subject to section 6.5(B) below. If in the future CCO modifies the utilization management program applicable to the Excluded Benefit Plans, so as to make that program consistent with the utilization management program that applies to the other Benefit Plans subject to this Agreement, CCO may cause this entire section 6.5(A) to apply to those Excluded Benefit Plans by giving 90 days written notice to Facility.

i) **Non-compliance with Protocol.** Compliance with Protocols and timely claim filing are conditions precedent to payment under this Agreement. CCO will, at its discretion, deny payment in whole or in part if Facility does not comply with a Protocol or does not file a timely claim as required under the Agreement.

In the event payment is denied under this subsection 6.5(A)(i) for Facility's failure to comply with a Protocol regarding notification or regarding lack of coverage approval on file, Facility may request reconsideration of the denial, and the denial under this subsection 6.5(A)(i) will be reversed if Facility can show:

a) the denial was incorrect because Facility complied with the Protocol; or
b) Facility's services were medically necessary (as "medically necessary" is defined in subsection 6.5(A)(vii)); or
c) at the time the Protocols required notification or prior authorization, Facility did not know and was unable to reasonably determine that the patient was a Customer, Facility took reasonable steps to learn that the patient was a Customer, and Facility promptly submitted a claim after learning the patient was a Customer.

The grounds stated in clause (b) above are also a basis for reconsideration of a denial under subsection (iii), (iv) or (v) of this section 6.5(A).

The grounds stated in clause (c) above are also a basis for reconsideration of a denial for lack of timely claim filing under section 6.3 of this Agreement.

A claim denied under this subsection 6.5(A)(i) is also subject to denial for other reasons permitted under the Agreement; reversal of a denial under this subsection 6.5(A)(i) does not preclude CCO from upholding a denial for one of these other reasons.

ii) **Non-Covered Services.** Services not covered under the applicable Benefit Plan are not subject to the rates or discounts of this Agreement. Facility may seek and collect payment from a Customer for such services (provided that Facility obtained the Customer's written consent), except as provided below in subsections 6.5(A)(iv), (v) and (vi).

If an inpatient service is not a Covered Service because a discharge order has been written by a physician treating the Customer but the Customer has elected to remain an inpatient, Facility may seek and collect payment from the Customer for those non-Covered Services, but only if, (a) prior to receiving the service, the Customer had knowledge of the discharge order and the lack of coverage for additional inpatient service and specifically agreed in writing to be responsible for payment of those charges; or (b) Facility maintains a written record of the Customer's refusal to agree in writing to be responsible for those charges.

iii) **Denials for lack of medical necessity through the prior authorization process.** If a service would otherwise be a Covered Service, but is not a Covered Service under the applicable Benefit Plan because it is determined through the prior authorization process to not meet the Benefit Plan's requirement of medical necessity, as defined in the Benefit Plan or applicable law (or not meet a similar concept in the Benefit Plan, such as not being consistent with nationally recognized scientific evidence as available, or not being consistent with prevailing medical standards and clinical guidelines), Facility may seek or collect payment from the Customer but only if, prior to receiving the service, the Customer had knowledge

of the determination of non-coverage and specifically agreed in writing to be responsible for payment of those charges.

iv) **Clinical review of inpatient bed days.** If a determination is made after a Customer becomes an inpatient that services are not medically necessary (including cases in which some days are determined to be medically necessary and additional days in the same admission are determined to not be medically necessary), the claim with regard to services that are not medically necessary (including room, board, and other services for a given day) may be denied and Facility must not seek or collect payment from the Customer. Payment will be made in accordance with the applicable payment appendix for the part of the admission that is determined to be medically necessary, and Facility may collect from the Customer the applicable copayment, deductible or coinsurance for that part of the admission. A claim may also be denied in whole or in part under this subsection 6.5(A)(iv) in cases in which services cannot be determined to be medically necessary due to omission of information or failure to respond timely to CCO's request for information; Facility may request reconsideration of such a denial on grounds of medical necessity.

CCO will not reduce payment under this subsection 6.5(A)(iv) when the contract rate for the claim is not impacted by the length of stay, because the contract rate is determined by an MS-DRG or similar methodology and is not subject to an inpatient outlier provision.

v) **Level of care determinations.** CCO may determine that the level of care provided for a given service was not medically necessary, because the service could appropriately have been rendered at a lower level of care (for instance, observation or ambulatory surgery rather than inpatient). If Facility submits a claim for the level of care deemed not medically necessary, CCO may deny the claim, and Facility will not seek or collect payment from the Customer. A claim may also be denied in whole or in part under this subsection 6.5(A)(v) in cases in which services cannot be determined to be medically necessary due to omission of information or failure to respond timely to CCO's request for information; Facility may request reconsideration of such a denial on grounds of medical necessity.

vi) **Delay in service.** If CCO determines that Facility did not execute a physician's written order (for instance, an admission order) in a timely manner and that, as a result, the Customer's inpatient stay was lengthened, CCO may deny the claims with regard to the bed day(s) at the end of the stay that would not have been needed were it not for the delay in service (including room, board and other services for the given day), and process the claim based on the contract rate that would apply without that day(s); Facility will not seek or collect payment from Customer in excess of the coinsurance, copayment or deductible associated with the claim as processed.

CCO will not reduce payment under this subsection 6.5(A)(vi) when the contract rate for a claim is not impacted by the length of stay, because the contract rate is

determined by an MS-DRG or similar methodology and is not subject to an inpatient outlier provision.

vii) **Definition.** As used in subsection 6.5(A)(iii), "medical necessity" or "medically necessary" will be defined in accordance with the applicable Benefit Plan and applicable law or regulatory requirements.

As used in subsections 6.5(A)(i), (iv) and (v), "medical necessity" or "medically necessary" is defined as follows:

Medically Necessary - health care services provided for the purpose of preventing, evaluating, diagnosing or treating a sickness, injury, substance use disorder, condition, disease or its symptoms, that are all of the following as determined by CCO or its designee, within its sole discretion.

- In accordance with *Generally Accepted Standards of Medical Practice.*
- Clinically appropriate, in terms of type, frequency, extent, site and duration, and considered effective for the customer's sickness, injury, substance use disorder, disease or its symptoms.
- Not mainly for the Customer's convenience or that of the customer's physician or other health care provider.
- Not more costly than an alternative drug, service(s) or supply that is at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of the Customer's sickness, injury, disease or symptoms.

Generally Accepted Standards of Medical Practice are standards that are based on credible scientific evidence published in peer-reviewed medical literature generally recognized by the relevant medical community, relying primarily on controlled clinical trials, or, if not available, observational studies from more than one institution that suggest a causal relationship between the service or treatment and health outcomes.

If no credible scientific evidence is available, then standards that are based on physician specialty society recommendations or professional standards of care may be considered. CCO reserves the right to consult expert opinion in determining whether health care services are Medically Necessary. The decision to apply physician specialty society recommendations, the choice of expert and the determination of when to use any such expert opinion, shall be within CCO's sole discretion.

B) This section 6.5(B) only applies to Excluded Benefit Plans.

Compliance with Protocols and timely claim filing are conditions precedent to payment under this Agreement. Payment will be denied in whole or in part if

Facility does not comply with a Protocol or does not file a timely claim as required under this Agreement. Payment may also be denied for services provided that are determined by CCO to be medically unnecessary, and Facility may not bill the Customer for such services unless the Customer has, with knowledge of CCO's determination of a lack of medical necessity, agreed in writing to be responsible for payment of those charges.

In the event that payment of a claim is denied for lack of notification or for untimely filing, the denial will be reversed if Facility appeals within 12 months after the date of denial and can show all of the following:

i) that, at the time the Protocols required notification or at the time the claim was due, Facility did not know and was unable to reasonably determine that the patient was a Customer,
ii) that Facility took reasonable steps to learn that the patient was a Customer, and
iii) that Facility promptly provided notification, or filed the claim, after learning that the patient was a Customer.

This Agreement does not apply to services not covered under the applicable Benefit Plan. Facility may seek and collect payment from a Customer for such services, provided that the Facility first obtains the Customer's written consent.

6.6 Retroactive correction of information regarding whether patient is a Customer. Prior to rendering services, Facility will ask the patient to present his or her Customer identification card. In addition, Facility may contact CCO to obtain the most current information available to CCO on the patient's status as a Customer.

However, such information provided by CCO is subject to change retroactively, under any of the following circumstances:

i) if CCO has not yet received information that an individual is no longer a Customer;
ii) if the individual's Benefit Plan is terminated retroactively for any reason including, but not limited to, non-payment of premium;
iii) as a result of the Customer's final decision regarding continuation of coverage pursuant to state and federal laws; or
iv) if eligibility information CCO receives is later proven to be false.

If Facility provides health care services to an individual, and it is determined that the individual was not a Customer at the time the health care services were provided, those services are not payable under this Agreement and any payments made with regard to those services may be recovered as overpayments under the process described in section 6.10 of this Agreement. Facility may then directly bill the individual, or other responsible party, for those services.

6.7 Payment under this Agreement is payment in full. Payment as provided under section 6.4 of this Agreement, together with any co-payment, deductible or coinsurance for which

the Customer is responsible under the Benefit Plan, is payment in full for a Covered Service. Facility will not seek to recover, and will not accept, any payment from Customer, CCO, Payer or anyone acting on their behalf, in excess of payment in full as provided in this section 6.7, regardless of whether that amount is less than Facility's billed charge or Customary Charge.

6.8 Customer hold harmless. Facility will not bill or collect payment from the Customer, or seek to impose a lien, for the difference between the amount paid under this Agreement and Facility's billed charge or Customary Charge, or for any amounts denied or not paid under this Agreement due to:

i) Facility's failure to comply with the Protocols,
ii) Facility's failure to file a timely claim,
iii) Payer's Payment Policies,
iv) inaccurate or incorrect claim processing,
v) insolvency or other failure by Payer to maintain its obligation to fund claims payments, if Payer is CCO, or is an entity required by applicable law to assure that its Customers not be billed in these circumstances, or
v) a denial based on lack of medical necessity or based on consistency with nationally recognized scientific evidence as available, and prevailing medical standards and clinical guidelines, except as provided in section 6.5 of this Agreement.

This obligation to refrain from billing Customers applies even in those cases in which Facility believes that CCO or Payer has made an incorrect determination. In such cases, Facility may pursue remedies under this Agreement against CCO or Payer, as applicable, but must still hold the Customer harmless.

Facility may seek payment directly from the Payer or from Customers upon 15 days prior notice to CCO, after Facility seeks and receives confirmation from CCO that the Payer is in default (other than a default covered by the above clause (v) of this section 6.8).For purposes of this paragraph, a default is a systematic failure by a Payer to fund claims payments related to Customers covered through that Payer. A default does not occur in the case of a dispute as to whether certain claims should be paid or the amounts that should be paid for certain claims.
This section 6.8 and section 6.7 will survive the termination of this Agreement, with regard to Covered Services rendered prior to when the termination takes effect.

6.9 Consequences for failure to adhere to Customer protection requirements. If Facility collects payment from, brings a collection action against, or asserts a lien against a Customer for Covered Services rendered (other than for the applicable co-payment, deductible or coinsurance), contrary to section 6.7 or 6.8 of this Agreement, Facility will be in breach of this Agreement. This section 6.9 will apply regardless of whether the Customer or anyone purporting to act on the Customer's behalf has executed a waiver or other document of any kind purporting to allow Facility to collect such payment from the Customer.

In the event of such a breach, Payer may deduct, from any amounts otherwise due Facility, the amount wrongfully collected from Customers, and may also deduct an amount equal to any costs or expenses incurred by the Customer, CCO or Payer in defending the Customer and otherwise enforcing sections 6.7 through 6.9 of this Agreement. Any amounts deducted by Payer in accordance with this provision will be used to reimburse the Customer and to satisfy any costs incurred. The remedy contained in this paragraph does not preclude CCO from invoking any other remedy for breach that may be available under this Agreement.

6.10 Correction of claims payments. If Facility does not seek correction of a given claim payment or denial by giving notice to CCO within 12 months after the claim was initially processed, it will have waived any right to subsequently seek such correction under this section 6.10, or through dispute resolution under Article VII of this Agreement or in any other forum.

Facility will repay overpayments within 30 days of written or electronic notice of the overpayment. Facility will promptly report any credit balance that it maintains with regard to any claim overpayment under this Agreement, and will return the overpayment to CCO within 30 days after posting it as a credit balance.

Recovery of overpayments may be accomplished by offsets against future payments.

Article VII
Dispute Resolution

The parties will work together in good faith to resolve any and all disputes between them ("Disputes") including but not limited to existence, validity, scope or termination of this Agreement or any term thereof, with the exception of any question regarding the arbitrability of the Dispute, and the availability of class arbitration or consolidated arbitration, which is expressly waived below. Disputes also include any dispute in which Facility is acting as the assignee of one or more Customer. In such cases, Facility agrees that the provisions of this Article VII will apply, including without limitation the requirement for arbitration.

If the Dispute pertains to a matter which is generally administered by certain CCO procedures, such as a credentialing or quality improvement plan, the policies and procedures set forth in that plan must be fully exhausted by Facility before Facility may invoke any right to arbitration under this Article VII. For Disputes regarding payment of claims, a party must have timely initiated, and completed, the claim reconsideration and appeal process as set forth in the Administrative Guide in order to initiate the Dispute process.

If the parties are unable to resolve any such Dispute within 60 days following the date one party sent written notice of the Dispute to the other party, and if either party wishes to pursue the Dispute, it may do so only by submitting the Dispute to binding arbitration conducted by the American Arbitration Association ("AAA") in accordance with the AAA Healthcare Payor Provider Arbitration Rules, as they may be amended from time to time (see http://www.adr.org), except

that, in any case involving a Dispute in which a party seeks an award of $1,000,000 or greater or seeks termination of this Agreement, a panel of three arbitrators will be used; a single arbitrator cannot award $1,000,000 or more or order that this Agreement is terminated. The arbitrator(s) will be selected from the AAA National Healthcare Roster (as described in the AAA Healthcare Payor Provider Arbitration Rules) or the AAA's National Roster of Arbitrators. Unless otherwise agreed to in writing by the parties, if the party wishing to pursue the Dispute does not initiate the arbitration within one year after the date on which written notice of the Dispute was given, or, for Disputes subject to the procedures or processes described in the previous paragraph, within one year after the completion of the applicable procedure or process, it will have waived its right to pursue the Dispute in any forum.

Any arbitration proceeding under this Agreement will be conducted in [name of county], [state]. The arbitrator(s) may construe or interpret but must not vary or ignore the terms of this Agreement and will be bound by controlling law. The arbitrator(s) have no authority to award punitive, exemplary, indirect or special damages, except in connection with a statutory claim that explicitly provides for that relief.

Except as may be required by law, neither a party (including without limitation, the parties' representatives, consultants and counsel of record in the arbitration), nor an arbitrator may disclose the existence, content, or results of any arbitration hereunder, or any Confidential Arbitration Information without the prior written consent of all parties. "Confidential Arbitration Information" means any written submissions in an arbitration by either party, discovery exchanged, evidence submitted, transcriptions or other records of hearings in the matter and any orders and awards issued, and any reference to whether either party won, lost, prevailed, or did not prevail against the other party in any arbitration proceeding, as well as any settlement agreement related to an arbitration. However, judgment on the award may be entered under seal in any court having jurisdiction thereof, by either party.

The parties expressly intend that any arbitration be conducted on an individual basis, so that no third parties may be consolidated or joined or allowed to proceed with class arbitration. The parties agree that any arbitration ruling allowing class arbitration, or requiring consolidated arbitration involving any third party(ies), would require immediate judicial review. Notwithstanding anything in this Agreement to the contrary, this paragraph may not be severed from Article VII of the Agreement under any circumstances, including but not limited to unlawfulness, invalidity or unenforceability.

The decision of the arbitrator(s) on the points in dispute will be binding. The parties acknowledge that because this Agreement affects interstate commerce the Federal Arbitration Act applies.

In the event any court determines that this arbitration procedure is not binding or otherwise allows litigation involving a Dispute to proceed, the parties hereby waive any and all right to trial by jury in, or with respect to, the litigation. The litigation would instead proceed with the judge as the finder of fact.

In the event a party wishes to terminate this Agreement based on an assertion of uncured material breach, and the other party disputes whether grounds for the termination exist, the matter will be resolved through arbitration under this Article VII. While the arbitration remains pending, the termination for breach will not take effect.

This Article VII will survive any termination of this Agreement.

Article VIII
Term and Termination

8.1 Term. This Agreement will take effect on the Effective Date. This Agreement has an initial term of [three] years and renews automatically for renewal terms of one year, until terminated pursuant to section 8.2 of this Agreement.

8.2 Termination. This Agreement may be terminated under any of the following circumstances:

i) by mutual written agreement of the parties;
ii) by either party, upon at least 180 days' prior written notice, effective at the end of the initial term or effective at the end of any renewal term;
iii) by either party, upon 60 days' prior written notice, in the event of a material breach of this Agreement by the other party, which notice will include a specific description of the alleged breach; however, the termination will not take effect if the breach is cured within 60 days' after notice of the termination, or if the termination is deferred under Article VII of this Agreement;
iv) by either party, upon 10 days' prior written notice, in the event the other party loses licensure or other governmental authorization necessary to perform this Agreement, or fails to have insurance as required under section 4.7 or section 5.2 of this Agreement;
v) by CCO, upon 10 days' prior written notice, in the event Facility loses accreditation; or
vi) by CCO, immediately upon written notice, in the event:
    a) Facility loses approval for participation under CCO's credentialing plan, or
    b) Facility does not successfully complete the CCO's re-credentialing process as required by the credentialing plan.

8.3 Ongoing Services to certain Customers after termination takes effect.

i) In the event a Customer is receiving any of the Covered Services listed below, as of the date the termination of this Agreement takes effect, Facility will continue to render those Covered Services to that Customer, and this Agreement will continue to apply to those Covered Services, after the termination takes effect, for the length of time indicated below:

Inpatient Covered Services	30 days or until discharge, whichever comes first
Pregnancy , Third Trimester – Low Risk	Through postpartum follow up visit
Pregnancy, First, Second or Third Trimester – Moderate Risk and High Risk	Through postpartum follow up visit
Non-Surgical Cancer Treatment	30 days or a complete cycle of radiation or chemotherapy, whichever is greater
End Stage Kidney Disease and Dialysis	30 days
Symptomatic AIDS undergoing active treatment	30 days
Ongoing services to Medicare Advantage Customers	As described below
Circumstances where Payer is required by applicable law to provide transition coverage of services rendered by Facility after Facility leaves the provider network accessed by Payer.	As applicable

ii) **Medicare Advantage Customers.** This section 8.3(ii) only applies if Facility participates in networks for Medicare Advantage Benefit Plans under this Agreement.

a) Ninety days prior to the effective date of the termination or expiration of this Agreement, CCO may remove Facility from any provider directory, online or in print, unless the parties agree otherwise.
b) To protect existing Medicare Advantage Customers who are patients of Facility from the disruption caused by the termination or expiration of this Agreement during the course of the Customer's Benefit Plan year, Facility will continue to provide Covered Services, and the terms of this Agreement will continue to apply, to Medicare Advantage Customers who have an existing relationship with Facility on the date the termination or expiration would be effective under the notice through the end of the calendar year. If the effective date of the termination or expiration would otherwise occur during the month of December, Facility will continue to provide Covered Services, and the terms of this Agreement will continue to apply, to such Medicare Advantage Customers through the end of the following calendar year. However, payment to Facility for such continued care, as described in this paragraph, will be the greater of the contract rate in place at the time the termination or expiration of the Agreement would have been effective, or 100% of CMS.

Section 8.3(b) does not apply if CCO has terminated this Agreement due to:
1) an uncured material breach,
2) Facility losing licensure or other governmental authorization necessary to perform this Agreement, or

3) Facility failing to have insurance as required under section 4.7 of this Agreement.

Article IX
Miscellaneous Provisions

9.1 Entire Agreement. In order for this Agreement to be binding, it must be executed by all parties through written or electronic signature. This Agreement is the entire agreement between the parties with regard to its subject matter, and supersedes any prior written or unwritten agreements between the parties or their affiliates with regard to the same subject matter.

9.2 Amendment. In order for an amendment to this Agreement to be binding, it must be executed by all parties through written or electronic signature, except as otherwise provided in this section 9.2.

Additionally, CCO may amend this Agreement upon written notice to Facility in order to comply with applicable regulatory requirements but only if that amendment is imposed on a similar basis to all or substantially all of the facilities in CCO's network that would be similarly impacted by the regulation in question. CCO will provide at least 30 days' notice of any such regulatory amendment, unless a shorter notice period is necessary in order to comply with regulatory requirements.

9.3 Nonwaiver. The waiver by either party of any breach of any provision of this Agreement will not operate as a waiver of any subsequent breach of the same or any other provision.

9.4 Assignment. This Agreement may not be assigned by either party without the written consent of the other party, except that this Agreement may be assigned by CCO to any CCO Affiliate.

Additionally, if CCO transfers to a third party all of its business described in a given line item in Appendix 2, section 1, or other line of business, CCO may assign this Agreement, only as it relates to that transferred business, to that third party. Such an assignment will not impact the relationship of the parties under this Agreement with regard to the remainder of CCO's business.

9.5 Relationship of the parties. The sole relationship between the parties to this Agreement is that of independent contractors. This Agreement does not create a joint venture, partnership, agency, employment or other relationship between the parties.

9.6 No third-party beneficiaries. CCO and Facility are the only entities with rights and remedies under this Agreement. Any claims, collection actions or disputes may not be assigned, transferred or sold by either party without the written consent of the other party.

9.7 Calendar days. Unless this Agreement specifically provides otherwise, all references in this Agreement to a period of days refers to calendar days.

9.8 Notice procedures. Any notice required to be given under this Agreement must be in writing, except in cases in which this Agreement specifically permits electronic notice, or as otherwise permitted or required in the Protocols. Acceptable forms of written notice include facsimile, first class mail, certified mail, or overnight delivery by a national, recognized delivery service. All notices of termination of this Agreement by either party must be sent by certified mail, return receipt requested, addressed to the appropriate party at the address set forth on the signature portion of this Agreement. Each party will provide the other with proper addresses, facsimile numbers and electronic mail addresses. All notices will be deemed received upon receipt by the party to which notice is given or on the 5th business day following mailing, whichever occurs first.

9.9 Confidentiality. Neither party may disclose to a Customer, other health care provider, or other third party any of the following information (except as required by an agency of the government):

i) any proprietary business information, not available to the general public, obtained by the party from the other party;
ii) the specific reimbursement amounts provided for under this Agreement, except for purposes of administration of benefits, including informing Customers, Benefit Plan sponsors and/or referring providers about the cost of a particular Covered Service or set of Covered Services; or
iii) any customer list of the other party regardless of how such customer list was generated.

This section 9.9 does not preclude the disclosure of information by CCO to a third party as part of the process by which the third party is evaluating administration of benefits or considering whether to purchase services from CCO.

At least 48 hours before either party issues a press release, advertisement, or other media statement about the business relationship between the parties, that party will give the other party a copy of the material the party intends to issue.

9.10 Governing law. This Agreement will be governed by and construed in accordance with the laws of the state in which Facility renders Covered Services, and any other applicable law.

9.11 Regulatory appendices. One or more regulatory appendices may be attached to this Agreement, setting forth additional provisions included in this Agreement in order to satisfy regulatory requirements under applicable law. These regulatory appendices, and any attachments to them, are expressly incorporated into this Agreement and are binding on the parties to this Agreement. In the event of any inconsistent or contrary language between a regulatory appendix and any other part of this Agreement, including but not limited to

appendices, amendments and exhibits, the regulatory appendix will control, to the extent it is applicable.

9.12 Severability. Except as otherwise set forth in this Agreement, any provision of this Agreement that is unlawful, invalid or unenforceable in any situation in any jurisdiction will not affect the validity or enforceability of the remaining provisions of this Agreement or the lawfulness, validity or enforceability of the offending provision in any other situation or jurisdiction.

9.13 Survival. Notwithstanding the termination of this Agreement, this Agreement will continue to apply to Covered Services rendered while this Agreement was in effect. Additionally, section 9.9 of this Agreement, (except for the last paragraph) will survive the termination of this Agreement.

9.14 Fines; Penalties. Facility will be responsible for any and all fines or penalties that may be assessed against CCO by any government agency that arise from Facility's failure to execute, deliver or perform its obligations under this Agreement.

THIS AGREEMENT CONTAINS A BINDING ARBITRATION PROVISION THAT MAY BE ENFORCED BY THE PARTIES.

Appendix 2
Benefit Plan Descriptions

Section 1. CCO may allow Payers to access Facility's services under this Agreement for the Benefit Plan types described in each line item below, unless otherwise specified in section 2 of this Appendix 2:

- [Mississippi Medicaid Benefit Plans.]

- [Mississippi CHIP Benefit Plans.]

Section 2. Notwithstanding the above section 1 of this Appendix 2, this Agreement will not apply to the Benefit Plan types described in the following line items:

- [Mississippi Medicaid Benefit Plans.]
- [Mississippi CHIP Benefit Plans.]
- Medicaid and CHIP Benefit Plans other than those separately addressed in this Appendix 2.

Note: Excluding certain Benefit Plans or programs from this Agreement does not preclude the parties or their affiliates from having or entering into a separate agreement providing for Facility's participation in a network for such Benefit Plans or programs.

Section 3. Definitions:

Note: CCO may adopt a different name for a particular Benefit Plan, and/or may modify information referenced in the definitions in this Appendix 2 regarding Customer identification cards. If that happens, section 1 or section 2 of this Appendix 2 will continue to apply to those Benefit Plans as it did previously, and CCO will provide Facility with the updated information. Additionally, CCO may revise the definitions in this Appendix 2 to reflect changes in the names or roles of CCO's business units, provided that doing so does not change Facility's participation status in Benefit Plans impacted by that change, and further provided that CCO provides Facility with the updated information.

MEDICAID, CHIP AND OTHER STATE PROGRAMS:

- **Medicaid Benefit Plans** means Benefit Plans that offer coverage to beneficiaries of a program that is authorized by Title XIX of the federal Social Security Act, and jointly financed by the federal and state governments and administered by the state.

- **Mississippi Medicaid Benefit Plans** means Medicaid Benefit Plans issued in Mississippi that have a reference to "CCO" on the valid identification card of any Customer eligible for and enrolled in that Benefit Plan.

- **Children's Health Insurance Program ("CHIP") Benefit Plans** means Benefit Plans under the program authorized by Title XXI of the federal Social Security Act that is jointly financed by the federal and state governments and administered by the state.

- **Mississippi CHIP Benefit Plans** means CHIP Benefit Plans issued in Mississippi that include a reference to "CCO" and "MSCHIP" on the face of the valid identification card of any Customer eligible for and enrolled in that Benefit Plan.

- **Other Governmental Benefit Plans** means Benefit Plans that are funded wholly or substantially by a state or district government or a subdivision of a state (such as a city or county), but do not include Benefit Plans for:
  i) employees of a state government or a subdivision of a state and their dependents;
  ii) students at a public university, college or school;
  iii) employer-based coverage of private sector employees, even if the employer receives a government subsidy to help fund the coverage;
  iv) Medicaid beneficiaries;
  v) Children's Health Insurance Program (CHIP) beneficiaries; and
  vi) Medicare and Medicaid Enrollees (MME).

Page intentionally left blank.

Additional Manuals Appendix

For some of the Benefit Plans for which Facility may provide Covered Services under this Agreement, Facility is subject to additional requirements of one or more additional provider manuals ("Additional Manuals"). When this Agreement refers to Protocols or Payment Policies, it is also referring to the Additional Manuals. An Additional Manual may be a separate document or it may be a supplement to the CCO Administrative Guide ("CCO Administrative Guide").

For Benefit Plans subject to an Additional Manual, the Additional Manual controls if it conflicts with any of the following: (1) a provision of this Agreement or of the CCO Administrative Guide; or (2) a CCO Protocol or Payment Policy. However, the Additional Manual does not control where it conflicts with applicable statutes or regulations.

The Additional Manuals will be made available to Facility on a designated website and upon request. The names of the Additional Manuals, the websites to view and download them, and the Benefit Plans to which they apply, are listed in Table 1 below. CCO may change the location of a website or the Customer identification card identifier used to identify Customers subject to a given Additional Manual; if CCO does so, CCO will inform Facility.

CCO may make changes to the Additional Manuals subject to this Appendix in accordance with the provisions of this Agreement relating to Protocol and Payment Policy changes.

Mississippi Medicaid Program
Regulatory Requirements Appendix

MISSISSIPPI MEDICAID PROGRAM

REGULATORY REQUIREMENTS APPENDIX

PROVIDER

THIS MISSISSIPPI MEDICAID PROGRAM REGULATORY REQUIREMENTS APPENDIX (this "Appendix") supplements and is made part of the provider agreement (the "Agreement") between HMO ("HMO") or one of its Affiliates and the party named in the Agreement ("Provider").

SECTION 1
APPLICABILITY

The requirements of this Appendix apply to Medicaid benefit plans sponsored, issued or administered by HMO under the Mississippi Coordinated Access Network Program (the "MississippiCAN Program") governed by the State's designated regulatory agencies. In the event of a conflict between this Appendix and other appendices or any provision of the Agreement, the provisions of this Appendix shall control except with regard to benefit plans outside the scope of this Appendix or unless otherwise required by law. In the event HMO is required to amend or supplement this Appendix as required or requested by the State to comply with federal or State regulations, HMO will unilaterally initiate such additions, deletions or modifications. All provider agreements must be in writing and must include all specific activities and report responsibilities delegated to the Provider by HMO.

SECTION 2
DEFINITIONS

Unless otherwise defined in this Appendix, all capitalized terms shall be as defined in the Agreement. For purposes of this Appendix, the following terms shall have the meanings set forth below; provided, however, in the event any definition set forth in this Appendix or the Agreement is inconsistent with any definitions under the MississippiCAN Program, the definitions shall have the meaning set forth under the MississippiCAN Program.

2.1 **Adverse Benefit Determination:** The denial or limited authorization of a requested service, including determinations on the type or level of service, requirements for medical necessity, appropriateness, setting, or effectiveness of a covered benefit; the reduction, suspension, or termination of previously authorized services; the denial, in whole or in part, of payment for a service; HMO's failure to provide services in a timely manner; HMO's failure to resolve Complaints, Grievances, or Appeals within the specified time frames; for residents in a rural area with only one MCO, the denial of a Covered Person's request to exercise his or her right, under 42 C.F.R. §438.52(b)(2)(ii); the denial of a Covered Person's request to dispute a financial liability, including cost sharing, copayments, premiums, deductibles, coinsurance, and other enrollee financial liabilities; and determinations by skilled nursing facilities and nursing facilities to transfer or discharge residents and adverse determinations made by a State with regard to the preadmission screening and annual resident review requirements of Section 1919(e)(7) of the Act, if applicable.

2.2 **Affiliate:** Those entities controlling, controlled by, or under common control with HMO.

2.3 **Appeal:** A request for review by HMO of an Adverse Benefit Determination related to a Covered Person or Provider. In the case of a Covered Person, an Adverse Benefit Determination may include determinations on the health care services a Covered Person believes he or she is entitled to receive, including delay in providing, arranging for, or approving the health care services (such that a delay would adversely affect the health of the Covered Person). In the case of a Provider, the Adverse Benefit Determination may include, but is not limited to, delay or non-payment for covered services.

2.4 **Behavioral Health Services:** Mental health and/or substance and alcohol use disorder treatment services that are provided by the county mental health/intellectual disability/developmental disability programs, the single county authority administrators, or other appropriately licensed health care practitioners.

2.5 **CMS:** Center for Medicare and Medicaid Services is an agency within the U.S. Department of Health & Human Services responsible for administration of several key federal health care programs.

2.6 **Complaint:** An expression of dissatisfaction received orally or in writing that is of a less serious or formal nature that is resolved within one (1) business day of receipt.

2.7 **Covered Person:** An individual who meets all of the eligibility requirements for Mississippi Medicaid and is currently enrolled with HMO for the provision of services under a MississippiCAN Program. A Covered Person may also be referred to as an Enrollee, Member or Customer under the Agreement.

2.8 **Covered Services:** Health care services or products for which a Covered Person is enrolled with HMO to receive coverage under the State Contract, including all services required by the State Contract and State and federal law.

2.9 **DOM:** Division of Medicaid, Office of the Governor, State of Mississippi.

2.10 **Early, Periodic, Screening, Diagnosis, and Treatment (EPSDT) Services:** Defined by DOM to include:

i) Age appropriate, comprehensive health and development history that includes physician and mental health assessments along with counseling and anticipatory guidance and risk factor reduction interventions;
ii) Calculation of Body Mass Index;
iii) Growth measurements and head circumference;
iv) Nutritional counseling;
v) Developmental surveillance and Developmental and autism Spectrum Disorders Screenings as appropriate;
vi) Comprehensive unclothed exam;
vii) Appropriate laboratory tests (including blood level assessment appropriate to age and risk);

viii) Appropriate immunizations in accordance with Recommended Childhood and Adolescent Immunization Schedule adopted by DOM;
ix) A vision assessment;
x) A hearing assessment;
xi) A dental screening and/or referral to dental care;
xii) Health education; and
xiii) Referrals for identified abnormalities.

2.11 Fraud and Abuse: Fraud is any type of intentional deception or misrepresentation made by an entity or person with the knowledge that the deception could result in some unauthorized benefit to the entity, him or herself, or some other person. The Fraud can be committed by many entities, including a vendor, a subcontractor, a provider, a State employee, or a Covered Person, among others. Abuse is any practice that is inconsistent with sound fiscal, business, or medical practices, and results in an unnecessary cost to the Medicaid program, a vendor, a subcontractor or Provider or in reimbursement for services that are not Medically Necessary or that fail to meet professionally recognized standards for health care.

2.12 Grievance: An expression of dissatisfaction about any matter or aspect of HMO or its operation, other than an Adverse Benefit Determination as defined herein. Grievances may include, but are not limited to, the quality of care or services provided, and aspects of interpersonal relationships such as rudeness of a provider or employee, or failure to respect the Covered Person's rights regardless of whether remedial action is requested. Grievance includes a Covered Person's right to dispute an extension of time proposed by HMO to make an authorization decision.

2.13 Marketing: The activities that promote visibility and awareness for the MississippiCAN Program and HMO's participation in the program. All marketing activities are subject to prior review and approval by DOM and may not contain misleading information.

2.14 Medical Record: A single complete record, which documents the entire treatment plan developed for, and medical services received by, the Covered Person including inpatient, outpatient, referral services and emergency medical services whether provided by contracted Providers or non-contracted providers.

2.15 Mississippi Coordinated Access Network (MississippiCAN) Program: Mississippi Medicaid's coordinated care program for select Medicaid Beneficiaries.

2.16 Primary Care Provider (PCP): Any physician or health care practitioner or group operating within the scope of his or her licensure who is responsible for supervising, prescribing and providing primary care and primary case management services in the MississippiCAN Program, whose practice is limited to the general practice of medicine or who is an Internist, Pediatrician, Obstetrician, Gynecologist, Family Practitioner, General Practitioner, Certified Nurse Practitioners whose specialty is pediatrics, adult, family, certified nurse midwife, obstetrics/gynecology, or a physician assistant.

2.17 Prior Authorization: A determination to approve a Provider's request, pursuant to services covered in the MississippiCAN Program, to provide a service or course of

treatment of a specific duration and scope to a Member prior to the initiation or continuation of the service.

2.18 Provider Network: The Panel of health service Providers with which HMO contracts for the provision of covered services to Covered Persons and Non-Contracted Providers administering services to Covered Persons.

2.19 State: The State of Mississippi or its designated regulatory agencies.

2.20 State Contract: HMO's contract with the State for the purpose of providing and paying for Covered Services to Covered Persons enrolled in the MississippiCAN Program.

2.21 Third Party Resource: Any resource available to a Covered Person for the payment of medical expenses associated with the provision of covered services, other than those which are exempt under Title XIX of the Act, including but not limited to, insurers and workers' compensation plan.

2.22 Urgent Care: Urgent care services are utilized because the Members primary care physician is not available. An urgent condition isn't life threatening but may need prompt attention. Urgent care services are for an illness, injury or condition serious enough that a reasonable person would seek care right away, but not so severe it requires emergency room care. Urgent care centers can typically treat things including, but not limited to, sprains, strains, minor broken bones.

SECTION 3
PROVIDER REQUIREMENTS

The MississippiCAN Program, through the State Contract and federal and State statutes and regulations, requires the Agreement to contain certain conditions that HMO and Provider agree to undertake, which include the following:

3.1 Definitions Related to the Provision of Covered Services. Provider shall follow the applicable State Contract's requirements for the provision of Covered Services. Provider's decisions affecting the delivery of acute or chronic care services to Covered Persons shall be made on an individualized basis and in accordance with the following definitions:

i) Emergency Medical Condition: A medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in any of the following: (a) placing the health of the individual (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; (b) serious impairment to body functions; or (c) serious dysfunction of any body organ or part.

ii) Emergency Services: Covered inpatient and outpatient services, inclusive of dialysis services, furnished by a provider who is qualified to furnish those health

services and that are needed to evaluate or stabilize an Emergency Medical Condition in accordance with 42 CFR 438.114.

iii) Medically Necessary Services: As set forth in the Social Security Act, Section 1905 (42 USC 1396d(a)), Medically Necessary Services are defined as services, supplies, or equipment provided by a licensed health care professional that are:

a) Appropriate and consistent with the diagnosis or treatment of the Covered Person's condition, illness, or injury;

b) In accordance with the standards of good medical practice consistent with the individual Covered Person's condition(s);

c) Not primarily for the personal comfort or convenience of the Member, family, or Provider;

d) The most appropriate services, supplies, equipment, or levels of care that can be safely and efficiently provided to the Covered Person;

e) Furnished in a setting appropriate to the Covered Person's medical need and condition and, when applied to the care of an inpatient, further mean that the Covered Person's medical symptoms or conditions require that the services cannot be safely provided to the Covered Person as an outpatient;

f) Not experimental or investigational or for research or education;

g) Provided by an appropriately licensed practitioner; and

h) Documented in the patient's record in a reasonable manner, including the relationship of the diagnosis to the service.

Medically Necessary Services may also be those services for children that are necessary to correct or ameliorate defects and physical and mental illnesses and conditions discovered during an interperiodic or periodic EPSDT screen, whether such services are covered or exceed the benefit limits in the Medicaid State Plan and Title 23 of Mississippi Administrative Code.

iv) Urgent Care: Urgent care services are utilized because the Covered Person's primary care physician is not available. An urgent condition is not life threatening but may need prompt attention. Urgent care services are for an illness, injury or condition serious enough that a reasonable person would seek care right away, but not so severe it requires emergency room care.

3.2 Provider Eligibility. Provider must be enrolled in the Mississippi Medicaid program and must use the same National Provider Identifier (NPI) number to participate in HMO's Network. Upon notification from the State that Provider's enrollment has been denied or terminated, HMO must terminate Provider immediately and will notify affected Covered Persons that Provider is no longer participating in the network. HMO will exclude from its

network any provider who has been terminated or suspended from the Medicare or Medicaid program in any state.

3.3 Accessibility Standards. Provider shall provide for timely access for Covered Person appointments in accordance with the appointment availability requirements established under the State Contract, as further described in the applicable provider manual.

Type	Appointment Scheduling Time Frames
PCP (well care visit)	Not to exceed thirty (30) calendar days
PCP (routine sick visit)	Not to exceed seven (7) calendar days
PCP (urgent care visit)	Not to exceed twenty-four (24) hours
Specialists	Not to exceed forty-five (45) calendar days
Dental Providers (routine visits)	Not to exceed forty-five (45) calendar days
Dental Providers (urgent Care)	Not to exceed forty-eight (48) hours
Behavioral Health Providers (routine visit)	Not to exceed fourteen (14) calendar days
Behavioral Health Providers (urgent visit)	Not to exceed twenty-four (24) hours
Behavioral Health Providers (post-discharge from an acute psychiatric hospital when the Contractor is aware of the Member's discharge)	Not to exceed seven (7) calendar days
Urgent Care Providers	Not to exceed twenty-four (24) hours
Emergency Providers	Immediately (twenty-four (24) hours a day, seven (7) days a week) and without Prior Authorization

3.4 Hours of Operation; Appointments. Provider shall offer hours of operation that are no less than the hours of operation offered to commercial beneficiaries or comparable to Medicaid fee-for-service if Provider serves only Medicaid beneficiaries. As applicable, Provider will make Covered Services available 24 hours a day, 7 days a week when medically necessary.

3.5 Hold Harmless. Except for any applicable cost-sharing requirements under the State Contract, Provider shall look solely to HMO for payment of Covered Services provided to Covered Persons pursuant to the Agreement and the State Contract and hold the State, DOM, the U.S. Department of Health and Human Services and Covered Persons harmless in the event that HMO cannot or will not pay for such Covered Services. In accordance with 42 CFR 447.15, as may be amended from time to time, the Covered Person is not liable to Provider for any services for which HMO is liable and as specified under the State's relevant health insurance or managed care statutes, rules or administrative agency guidance. Provider shall not require any copayment or cost sharing for Covered Services provided under the Agreement unless expressly permitted under the State Contract.

Provider shall also be prohibited from charging Covered Persons for missed appointments if such practice is prohibited under the State Contract or applicable law. Neither the State, DOM nor Covered Persons shall be in any manner liable for the debts and obligations of HMO and under no circumstances shall HMO, or any providers used to deliver services covered under the terms of the State Contract, charge Covered Persons for Covered Services.

Covered Person may be responsible for non-covered item(s) and/or service(s), only if the Provider ensures that written documentation in compliance with the Advance Beneficiary Notification (ABN) is received from the Covered Person that an item(s) or service(s) rendered is a non-covered item and/or service(s) and that the Covered Person will be financially responsible for the item(s) and/or service(s). If HMO determines a Covered Person was charged for Covered Services inappropriately, such payment may be recovered, as applicable.

This provision shall survive any termination of the Agreement, including breach of the Agreement due to insolvency.

3.6 Indemnification. To the extent applicable to Provider in performance of the Agreement, Provider shall indemnify, defend, protect, save and hold DOM and its employees and Covered Persons harmless from and against all injuries, deaths, losses, damages, claims, suits, liabilities, judgments, costs and expenses, including, without limitation, court costs, investigative fees and expenses and attorney fees, to the extent proximately caused by any negligent act or other intentional misconduct or omission of Provider, its agents, officers, employees or contractors arising from the Agreement. DOM may waive this requirement for public entities if Provider is a state agency or sub-unit as defined by the State or a public health entity with statutory immunity. This clause shall survive the termination of the Agreement for any reason, including breach due to insolvency.

3.7 Provider Selection. To the extent applicable to Provider in performance of the Agreement, Provider shall comply with 42 CFR 438.214, as may be amended from time to time, which includes, but is not limited to the selection and retention of providers, credentialing and recredentialing requirements and nondiscrimination. If HMO delegates credentialing to Provider, HMO will provide monitoring and oversight and Provider shall ensure that all licensed medical professionals are credentialed in accordance with HMO's and the State Contract's credentialing requirements.

3.8 Restrictions on Referrals. Provider shall not make inappropriate referrals for designated health services to health care entities with which Provider or a member of Provider's family has a financial relationship, pursuant to federal anti-kickback and physician self-referral laws that prohibit such referrals.

3.9 Records Retention. As required under State or federal law or the State Contract, Provider shall maintain an adequate record keeping system for recording services, charges, dates and all other commonly accepted information elements sufficient to disclose the quality, quantity, appropriateness and timeliness of services rendered to Covered Persons. All financial records shall follow generally accepted accounting principles. Medical records and supporting management systems shall include all pertinent information related to the

medical management of each Covered Person. Other records shall be maintained as necessary to clearly reflect all actions taken by Provider related to services provided under the State Contract. Such records, including, as applicable, grievance and appeal records shall be maintained for a period of not less than ten (10) years from the close of the Agreement, or such other period as required by law. If records are under review or audit, they must be retained for a minimum of ten (10) years following resolution of such action. Prior approval for the disposal of records must be requested and approved by HMO if the Agreement is continuous.

3.10 Records Access. Provider agrees to cooperate with HMO to maintain and share a health record of all services provided to a Covered Person, as appropriate and in accordance with applicable laws, regulations and professional standards. Provider acknowledges and agrees that the State, DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel shall have complete access to all records pertaining to services provided to Covered Persons. Provider shall provide immediate access to facilities, records and supportive materials pertinent to the State Contract for State or Federal fraud investigators. Copies of requested documents shall be provided to the State, DOM, the U.S. Department of Health and Human Services and other authorized federal and state personnel or their designees free of charge.

3.11 Government Audit; Investigations. Provider acknowledges and agrees that the State and the U.S. Department of Health and Human Services, the Centers for Medicare & Medicaid Services, the Office of Inspector General, the General Accounting Office, or any other auditing agency and their designees or their authorized representatives, with prior approval by DOM, shall, at all reasonable time, with or without notice, have the right to inspect, audit or otherwise evaluate the quality, appropriateness, and timeliness of services provided under the terms of the State Contract and any other applicable rules, including the right to inspect and audit any records or documents of Provider and its subcontractors, and the right to inspect the premises, physical facilities, and equipment where Medicaid-related activities or work is conducted. The right to audit under this section exists for 10 years from the end date of the State Contract or from the date of completion of any audit, whichever is later. There shall be no restrictions on the right of the State or federal government to conduct whatever inspections and audits are necessary to assure quality, appropriateness or timeliness of services provided pursuant to the State Contract and the reasonableness of their costs.

3.12 Privacy; HIPAA. Provider shall comply with all applicable privacy rule and security rule provisions of the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), and associated implementing regulations, as may be amended from time to time, and shall safeguard information about Covered Persons in accordance with applicable federal and State privacy laws and rules including 42 CFR 438.224 and 42 CFR Part 431, Subpart F, as may be amended from time to time. HMO agrees and shall require Provider to agree that confidential information, including but not limited to medical and other pertinent information relative to Covered Persons, shall not be disclosed to any person or organization for any purpose without the expressed, written authority of DOM or as otherwise required by law and that all such disclosures shall fully comply with HIPAA privacy and security standards.

3.13 Compliance with Law. Provider shall comply with all applicable federal and State laws and regulations, and all provisions of the State Contract, that pertain to a Covered Person's rights, including but not limited to the following to the extent applicable to Provider in performance of the Agreement:

i) Title VI of the Civil Rights Act of 1964; Title XIX of the Social Security Act; Title IX of the Education Amendments of 1972 (regarding education programs and activities); the Age Discrimination Act of 1975; the Rehabilitation Act of 1973; The Genetic Information Non-Discrimination Act of 2008 (GINA); the Americans with Disabilities Act; section 1557 of the Patient Protection and Affordable Care Act, and their implementing regulations, as may be amended from time to time.

ii) All relevant federal and State statutes, regulations and orders related to equal opportunity in employment, including but not limited to compliance with E.O. 11246, "Equal Employment Opportunity," as amended by E.O. 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and as supplemented by regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

iii) All federal and State professional and facility licensing and accreditation requirements/standards that apply to the services HMO and Provider perform pursuant to the Agreement, including but not limited to:

a) All applicable standards, orders or requirements issued under Section 306 of the Clean Air Act (42 USC 1857 (h)). Section 508 of the Clean Water Act (33 USC 1368), Executive Order 11738, and Environmental Protection Agency (EPA) regulations (40) CFR Part 15), which prohibit the use of facilities included on the EPA list of violating facilities. Any violations must be reported to DSHS, DHHS, and the EPA;

b) Any applicable mandatory standards and policies relating to energy efficiency that are contained in the State Energy Conservation Plan, including the Energy Policy & conservation Act (Pub. L. 94-165), and issued in compliance with the Federal Energy Policy & Conservation Act.

c) Those specified for laboratory services in the Clinical Laboratory Improvement Amendments (CLIA). All laboratory service sites must have a CLIA certificate of registration or waiver, and a CLIA identification number.

d) Section 1128B(d)(1) of the Balanced Budget Act of 1997; and,

e) Any other requirements associated with the receipt of federal funds.

iv) All Medicaid laws, regulations and program instructions to the extent applicable to Provider in Provider's performance of the Agreement. Provider understands that payment of a claim by HMO or the State is conditioned upon the claim and the underlying transaction complying with such laws, regulations, and program

instructions (including, but not limited to, federal requirements on fraud, waste and abuse, disclosure, debarment, termination and exclusion screening), and is conditioned on the Provider's compliance with all applicable conditions of participation in Medicaid. Provider understands and agrees that each claim the Provider submits to HMO constitutes a certification that the Provider has complied with all applicable Medicaid laws, regulations and program instructions in connection with such claims and the services provided therein. Provider's payment of a claim will be denied if Provider is terminated or excluded from participation in federal healthcare programs. Provider's payment of a claim may be temporarily suspended if the State or HMO provides notice that a credible allegation of fraud exists and there is a pending investigation. Provider's payment of a claim may also be temporarily suspended or adjusted if the Provider bills a claim with a code that does not match the service provided. HMO performs coding edit procedures based primarily on National Correct Coding Initiative (NCCI) policies and other nationally recognized and validated policies. Provider agrees that it will provide medical records to HMO upon its request in order to determine appropriateness of coding. Provider may dispute any temporarily suspended or adjusted payment consistent with the terms of the Agreement.

3.14 Physician Incentive Plans. In the event Provider participates in a physician incentive plan ("PIP") under the Agreement, Provider agrees that such PIPs must comply with 42 CFR 417.479, 42 CFR 438.3(i), 42 CFR 422.208, and 42 CFR 422.210, as may be amended from time to time. Neither HMO nor Provider may make a specific payment directly or indirectly under a PIP to a physician or physician group as an inducement to reduce or limit Medically Necessary services furnished to an individual Covered Person. PIPs must not contain provisions that provide incentives, monetary or otherwise, for the withholding of services that meet the definition of Medical Necessity.

3.15 Lobbying. Provider agrees to comply with the following requirements related to lobbying:

i) Prohibition on Use of Federal Funds for Lobbying: By signing the Agreement, Provider certifies to the best of Provider's knowledge and belief, pursuant to 31 U.S.C. Section 1352 and 45 CFR Part 93, as may be amended from time to time, that no federally appropriated funds have been paid or will be paid to any person by or on Provider's behalf for the purpose of influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

ii) Disclosure Form to Report Lobbying: If any funds other than federally appropriated funds have been paid or will be paid to any person for the purpose of influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the award of any federal contract, the making of any federal grant, the

making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment or modification of any federal contract, grant, loan, or cooperative agreement and the value of the Agreement exceeds $100,000, Provider shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3.16 Excluded Individuals and Entities. Provider certifies that neither it nor any of its employees, principals, nor any providers, subcontractors or consultants or persons with an ownership or controlling interest in the Provider (an owner including the Provider himself or herself), or an agent or managing employee of the Provider, with whom Provider contracts and who are providing items or services that are significant and material to Provider's obligations under the Agreement is:

i) excluded from participation in federal health care programs under either Section 1128 or section 1128A of the Social Security Act; or

ii) debarred, suspended or otherwise excluded from participating in procurement activities under the Federal Acquisition Regulation or from participating in nonprocurement activities under regulations issued under Executive Order no. 12549 or under guidelines implementing Executive Order No. 12549; or an affiliate, as defined in the Federal Acquisition Regulation, of such a person.

Provider acknowledges and agrees that payment will not be made for any items or Covered Services provided by an excluded individual pursuant to 42 CFR 1001.1901(b) and is obligated to screen all employees, contractors, and subcontractors for exclusion as required under applicable State and Federal laws. Additionally, Provider acknowledges that pursuant to 42 CFR 1003.102(a)(2) civil monetary penalties may be imposed against Provider if he or she employs or enters into contracts with excluded individuals or entities to provide items or Covered Services to Covered Persons under this Agreement. Provider agrees not to employ or subcontract with individuals or entities whose owner, those with a controlling interest, or managing employees are on a State or Federal exclusion list to provide items or Covered Services under this Agreement. Provider shall immediately report to HMO any exclusion information discovered. Provider can search the HHS-OIG website, at no cost, by the names of any individuals or entities. The database is called LEIE and can be accessed at http://www.oig.hhs.gov/fraud/exclusions.asp. The GSA EPLS/SAM database can be accessed at https://www.sam.gov. Federal and State exclusion databases must be reviewed monthly to ensure that no employee or contractor has been excluded. Applicable state exclusion databases can be accessed through the State's Medicaid website. HMO will terminate the Agreement immediately and exclude from its network any provider who has been excluded from federal health care programs or terminated from the Medicare or the Medicaid program in any state. HMO may also terminate the Agreement if Provider or Provider's owners, agents, or managing employees are found to be excluded on a State or Federal exclusion list.

3.17 Disclosure. Provider must be screened and enrolled in the State's Medicaid program and submit disclosures to the DOM related to ownership and control, significant business transactions, and persons convicted of crimes in accordance with 42 CFR Part 455 .Provider must submit information related to ownership and control of subcontractors or

wholly owned suppliers within thirty-five (35) calendar days of a request for such information in accordance with 42 CFR 455.105. Additionally, Provider must cooperate with DOM for submission of fingerprints upon a request from DOM or CMS in accordance with 42 CFR 455.434.

By executing this Agreement, Provider certifies that neither Provider nor any of its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in any State or federal health care program or from participating in transactions by any State or federal department or agency. HMO will terminate the Agreement upon becoming aware or receiving notice from DOM, whichever is earlier, that Provider is or has been excluded from participation in any State or federal health care program or by any State or federal agency.

3.18 Cultural Competency and Access. Provider shall participate in HMO's and the State's efforts to promote the delivery of services in a culturally competent manner to all Covered Persons, including those with limited English proficiency, physical or mental disabilities, diverse cultural and ethnic backgrounds and regardless of gender, sexual orientation or gender identity, and shall provide interpreter services in a Covered Person's primary language and for the hearing impaired for all appointments and emergency services. Provider shall provide information to Covered Persons regarding treatment options and alternatives, as well as information on complaints and appeals, in a manner appropriate to the Covered Person's condition and ability to understand. Provider shall provide physical access, reasonable accommodations, and accessible equipment for Covered Persons with physical or mental disabilities.

3.19 Marketing. As required under State or federal law or the applicable State Contract, any marketing materials developed and distributed by Provider as related to the performance of the Agreement must be submitted to HMO at least sixty (60) days prior to planned distribution for timely submission to DOM for prior approval. Provider agrees it will not proceed with the statement or communication until the required approval is obtained.

3.20 Fraud, Waste and Abuse Prevention. Provider shall cooperate fully with HMO's policies and procedures designed to protect program integrity and prevent and detect potential or suspected fraud, waste, and abuse in the administration and delivery of services under the State Contract and shall cooperate and assist DOM and any other State or federal agency charged with the duty of preventing, identifying, investigating, sanctioning or prosecuting suspected fraud, waste, and abuse in state and/or federal health care programs.

In accordance with HMO's policies and the Deficit Reduction Act of 2005 (DRA), Provider shall have written policies for its employees, contractors or agents that: (a) provide detailed information about the federal False Claims Act (established under sections 3729 through 3733 of title 31, United States Code), including if any entity makes or receives annual payments under the State Program of at least $5,000,000, such entity must establish certain minimum written policies and information communicated through an employee handbook relating to the Federal False Claims Act in accordance with 42 CFR 438.600; (b) cite administrative remedies for false claims and statements (established under chapter 38 of title 31, United States Code) and whistleblower protections under federal and state laws; (c) reference state laws pertaining to civil or criminal penalties for false claims

and statements; and (d) with respect to the role of such laws in preventing and detecting fraud, waste, and abuse in federal health care programs (as defined in section 1128B(f)), include as part of such written policies, detailed provisions regarding Provider's policies and procedures for detecting and preventing fraud, waste, and abuse. Provider agrees to train its staff on the aforesaid policies and procedures.

3.21 Data; Reports. Provider shall cooperate with and release to HMO any information necessary for HMO to perform its obligations under the State Contract to the extent applicable to Provider in performance of the Agreement, including the timely submission of reports and information required by HMO, in the format specified by HMO and the State. Such reports shall include child health check-up reporting, if applicable, as well as complete and accurate encounter data in accordance with the requirements of HMO and the State. Data must be provided at the frequency and level of detail specified by HMO or the State. By submitting data to HMO, Provider represents and attests to HMO and the State that the data is accurate, complete and truthful, and upon HMO's request Provider shall certify in writing, that the data is accurate, complete, and truthful, based on Provider's best knowledge, information and belief.

Provider shall be able to receive, maintain and utilize applicable data extracts from HMO or DOM and systematically update its database within five (5) calendar days of receipt of the files. Data extract files include but are not limited to the following, as applicable: 1. Daily Active Provider Extract; 2. Weekly Provider Affiliation Details Extract; 3. 834 Enrollment Files; 4. 835 Claims Payment Remittance Advice Transaction; 5. 277 Claims Acknowledgement; 6. NCPDP Formulary; 7. NCPDP Response File; 8. TPL Resource/Policy Information File, etc.; 9. Claims History Extracts; and 10. Prior Authorization Extracts.

3.22 Encounter Data. Provider agrees to cooperate with HMO to comply with HMO's obligation to prepare encounter data submissions, reports, and clinical information including, without limitation, child and adolescent health check-up reporting, EPSDT encounters, and cancer screening encounters, as applicable, and such other reporting regarding Covered Services as may be required under the State Contract. Encounter data must be accurate and include all services furnished to a Covered Person, including capitated provider's data and rendering provider information. Encounter data must be provided within the timeframes specified and in a form that meets HMO and State requirements. By submitting encounter data to HMO, Provider represents to HMO that the data is accurate, complete and truthful, and upon HMO's request Provider shall certify in writing, that the data is accurate, complete, and truthful, based on Provider's best knowledge, information and belief.

3.23 Claims Information. Provider shall promptly submit to HMO the information needed to make payment and shall identify third party liability coverage, including Medicare and other insurance, and if applicable seek such third party liability payment before submitting claims to HMO. Provider understands and agrees that each claim Provider submits to HMO constitutes a certification that the claim is true and accurate to the best of Provider's knowledge and belief and that the Covered Services are 1) Medically Necessary and 2) have been provided to the Covered Person prior to submitting the claim.

Effective July 1, 2014, Provider must submit claims within six (6) months from the date of service. Claims filed within the appropriate time frame but denied may be resubmitted to the Contractor within ninety (90) calendar days from the date of denial

3.24. Electronic Visit Verification. Provider shall cooperate with State requirements for electronic visit verification for personal care services and home health services, as applicable.

3.25 Licensure. Provider represents that it is currently licensed and/or certified under applicable State and federal statutes and regulations and by the appropriate State licensing body or standard-setting agency, as applicable. Provider represents that it is in compliance with all applicable State and federal statutory and regulatory requirements of the Medicaid program and that it is eligible to participate in the Medicaid program. Provider represents that it does not have a Medicaid provider agreement with DOM that is terminated, suspended, denied, or not renewed as a result of any action of DOM, CMS, HHS, or the Medicaid Fraud Control Unit of the State's Attorney General. Provider shall maintain at all times throughout the term of the Agreement all necessary licenses, certifications, registrations and permits as are required to provide the health care services and/or other related activities delegated to Provider by HMO under the Agreement. If at any time during the term of the Agreement, Provider is not properly licensed as described in this Section, Provider shall discontinue providing services to Covered Persons. As applicable, if Provider performs any laboratory tests on human specimens for the purpose of diagnosis and/or treatment, Provider agrees to acquire and maintain the appropriate CLIA certification or waiver for the type of laboratory testing performed. Provider further agrees to provide a copy of the certification if requested by HMO. A State authorized license or permit that meets the CLIA requirements may be substituted for the CLIA certificate pursuant to State law. Medicare and Medicaid programs require the applicable CLIA certification or waiver for the type of services performed as a condition of payment. Provider must include the appropriate CLIA certificate or waiver number on claims submitted for payment for laboratory services.

3.26 Quality; Utilization Management. Pursuant to any applicable provider manuals and related protocols, or as elsewhere specified under the Agreement, Provider agrees to cooperate with HMO's quality improvement and utilization review and management activities. This shall include, but not be limited to, participation in any internal and external quality assurance, utilization review, peer review, and grievance procedures established by HMO or as required under the State Contract to ensure that Covered Persons have due process for their complaints, grievances, appeals, fair hearings or requests for external review of adverse decisions made by HMO or Provider. Provider shall adhere to the quality assurance and utilization review standards of the MississippiCAN Program and shall monitor quality and initiate corrective action to improve quality consistent with the generally accepted level of care.

3.27 Non-Discrimination. Provider will not discriminate against, nor use any policy or practice that has the effect of discriminating against, Covered Persons on the basis of race, color, creed, sex, religion, age, national origin, ancestry, marital status, sexual orientation, gender identity, language, health status, disease or pre-existing condition (including genetic

information), anticipated need for health care or physical or mental handicap, except where medically indicated. Examples of prohibited practices include, but are not limited to, the following:

i) Denying or not providing a Covered Person any Medicaid Covered Service. Health care and treatment necessary to preserve life must be provided to all Covered Persons who are not terminally ill or permanently unconscious, except where a competent Covered Person objects to such care on his/her own behalf.

ii) Subjecting a Covered Person to segregated, separate, or different treatment, including a different place or time from that provided to other Covered Persons or public or private patients, in any manner related to the receipt of any Medicaid Covered Service, except where Medically Necessary.

iii) The assignment of times or places for the provision of services on the basis of the race, color, creed, religion, age, sex, national origin, ancestry, marital status, sexual orientation, gender identity, income status, program membership, language, health status, disease or pre-existing condition, anticipated need for health care or physical or mental disability of the Covered Persons to be served.

3.28 Advance Directives. Provider shall comply with the advance directives requirements set forth in the Uniform Health-Care Decisions Act, Section 41-41-215 of the Mississippi Code. When applicable, Provider shall comply with the advance directives requirements for hospitals, nursing facilities, providers of home and health care and personal care services, hospices, and HMOs as specified in 42 CFR Part 49, subpart I, 42 CFR § 417.436(d), 42 CFR § 422.128, and 42 CFR 438.3(i).

3.29 National Provider ID (NPI). Provider shall obtain a National Provider Identification Number (NPI) and when filing claims with HMO, the NPI used is the same NPI used when filing claims with DOM.

3.30 Termination. In the event of termination of the Agreement, Provider shall promptly supply to HMO all information necessary for the reimbursement of any outstanding Medicaid claims.

3.31 Complaints; Grievances and Appeals. Information on how Provider or Provider's authorized representative can submit complaints and file grievances and appeals, and the resolution process, is contained in the applicable provider manual.

3.32 Health Care Acquired/Preventable Conditions. Provider agrees that no payment shall be made for the provision of medical assistance for health care acquired conditions and other provider preventable conditions as may be identified by the State. As a condition of payment, Provider shall identify and report to HMO any provider preventable conditions in accordance with 42 CFR §§ 434.6(a)(12), 438 including but not limited to 438.3(g), and 447.26.

3.33 Quality and Utilization Management Program. Provider shall cooperate with HMO in meeting the Quality Management and Utilization Management Program standards outlined

in the State Contract including, without limitation, any external evaluations and assessments of HMO's performance authorized by DOM under the State Contract and conducted by DOM's contracted External Quality Review Organization (EQRO) or other designee.

3.34 Referrals. Provider shall make referrals for social, vocational, education or human services when a need for such service is identified.

3.35 Insolvency. In the event HMO becomes insolvent or unable to pay Provider, Provider shall not seek compensation for services rendered from the State, DOM, their officers, Agents, or employees, or the Covered Persons or their eligible dependents.

3.36 Third Party Resources. Provider will report all third party resources to HMO identified through the provision of medical services.

3.37 Compliance with Mississippi Employment Protection Act (MEPA). Provider represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act, Section 71-11-1 et set of the Mississippi Code Annotated (Supp. 2008), and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. Provider agrees to maintain records of such compliance and, upon request of the State and approval of the Social Security Administration or Department of Homeland Security, where required, to provide a copy of each such verification to the State. Provider further represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of the State of Mississippi. Provider understands and agrees that any breach of these warranties may subject Provider to the following: (a) termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public, or (b) the loss of any license, permit, certification or other document granted to Provider by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year, or (c) both.

3.38 Capitated Providers. If Provider is capitated and terminates its agreement with HMO, for any reason, Provider will provide services to Covered Persons assigned to Provider up to the end of the month in which the effective date of termination falls.

3.39 Certification on Relationship to State, DOM and CMS. Provider certifies that no officer, director, employee, subcontractor or agent of Provider, or person with an ownership or control interest in Provider, is also employed by, or is a public official of, the State of Mississippi or any of its agencies, DOM or CMS.

3.40 Funding. Provider recognizes that the obligation of DOM to proceed under its Contract with HMO is conditioned upon the appropriation of funds by the Mississippi State

Legislature and the receipt of State and/or Federal funds. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, either through the failure of the Federal government to provide or the State of Mississippi to appropriate funds, or the discontinuance, or material alteration of the program under which the funds were provided or if funds are not otherwise available to DOM, DOM has the right upon ten (10) working days written notice to HMO to terminate the Contract.

3.41 Gratuities. Provider represents that it has not violated, is not violating, and promises that it will not violate the prohibitions against gratuities set forth in Section 6-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

3.42 Assignment/Delegation. Provider shall not assign or delegate the Agreement without the express written consent of HMO or DOM. If Provider subcontracts or delegates any functions of the Agreement, in accordance with the terms of the Agreement and with the express written consent of HMO or DOM, the subcontract or delegation must be in writing and include all of the requirements of this Appendix, and applicable requirements of the State Contract, and applicable laws and regulations. The transfer of five percent (5%) or more of the beneficial ownership in Provider at any time during the term of this Agreement shall be deemed an assignment under this Agreement.

3.43 Notice of Legal Action. Immediately upon obtaining knowledge or receiving notice of any legal action or notice listed below, Provider shall provide to HMO written notice of such legal action or notice and, upon request by HMO, a complete copy of all filings and other documents generated in connection with any such legal action:

i. Any action, suit or counterclaim filed against Provider;

ii. Any regulatory action, or proposed action, respecting Provider's business or operations;

iii. Any notice received by Provider from the Department of Insurance or the State Health Officer;

iv. The filing of a petition in bankruptcy by or against Provider, or the insolvency of Provider;

v. The conviction of any person who has an ownership or control interest in Provider, or who is an agent or managing employee of Provider, of a criminal offense related to that person's involvement in any program under Medicare, Medicaid, or Title XX of the Social Security Act; or

vi. A malpractice action against any Provider delivering service under an agreement.

3.44 Federal and State Funds Liability. Providers acknowledges and agrees that payments made to Provider for services provided under the Agreement are derived from federal and State funds and that any false claim or statement in documents or any concealment of material fact related to such services may be a cause for sanctions and prosecution under applicable federal and State laws. Provider shall be subject to all laws applicable to

individuals and entities receiving State and federal funds and may be held civilly or criminally liable to both HMO and DOM in the event of nonperformance, misrepresentation, fraud, or abuse related to services provided pursuant to the State Contract. Provider recognizes that payments made to the Provider are derived from federal and State funds, and are contingent upon and subject to availability and receipt of funds.

3.45 Insurance Requirements. As applicable, Provider shall secure and maintain during the term of the Agreement insurance appropriate to the services to be performed under the Agreement. Provider shall require that its providers secure and maintain during the term of the Agreement general liability insurance, professional liability insurance, and workers' compensation insurance for all employees connected with the provision of services under the Agreement. Such workers compensation insurance shall comply with Mississippi Workers' Compensation Laws. Such comprehensive general liability insurance and professional liability insurance shall provide coverage in an amount established by HMO pursuant to the Agreement or as required under the State Contract.

3.46 Overpayment. Provider shall to report to HMO when it has received an overpayment and will return the overpayment to HMO within 60 calendar days after the date on which the overpayment was identified. Provider will notify HMO in writing of the reason for the overpayment.

SECTION 4
ADDITIONAL PROVIDER REQUIREMENTS FOR SPECIFIC ACTIVITIES

4.1 Behavioral Health Providers. Behavioral Health Providers shall ensure that all Covered Persons receiving inpatient psychiatric services are scheduled for outpatient follow-up and/or continuing treatment prior to discharge from the inpatient psychiatric hospital if the Provider is aware of the Covered Person's inpatient hospitalization status. Behavioral Health Providers will be provided daily reports identifying Covered Persons known to be admitted to an inpatient facility. Behavioral Health Services will be delivered in compliance with the requirements of 42 CFR 438 subpart K insofar as those requirements are applicable.

4.2 PCP Responsibilities. Providers acting as PCPs shall meet the following requirements:

i) PCPs who serve Covered Persons under the age of twenty-one (21) are responsible for conducting all EPSDT screens for individuals on their Panel under the age of twenty-one (21). Should the PCP be unable to conduct the necessary EPSDT screens, the PCP is responsible for arranging to have the necessary EPSDT screens conducted by another network Provider and ensure that all relevant medical information, including the results of the EPSDT screens, are incorporated into the Covered Person's PCP Medical Record.

ii) PCPs who serve Members under the age of twenty-one (21) report encounter data associated with EPSDT screens, using a format approved by DOM, to the Contractor within ninety (90) calendar days from the date of service.

iii) PCPs are responsible for contacting new Members identified in the quarterly encounter lists sent by the Contractor that indicate who has not had an encounter during the first six (6) months of Enrollment. The PCP shall:

a) Contact Covered Persons identified in the quarterly Encounter lists as not complying with EPSDT periodicity and immunization schedules for children;

b) Identify to HMO any such Covered Persons who have not come into compliance with the EPSDT periodicity and immunization schedules within one (1) month of such notification to the site by HMO; and

c) Document the reasons for noncompliance, where possible, and to document its efforts to bring the Covered Person's care into compliance with the standards.

4.3 Specialists as PCPs. Covered Persons with disabling conditions, chronic illnesses, or child(ren) with special health care needs may request that their PCP be a specialist. The designation of a specialist as a PCP must be pursuant to a treatment plan approved by HMO, in consultation with the PCP to which the Covered Person is currently assigned, the Covered Person and, as appropriate, the specialist.

The specialist as a PCP shall provide or arrange for all primary care, including routine preventive care, and to provide those specialty medical services consistent with the Covered Person's disabling condition, chronic illness, or special health care need in accordance with HMO's standards and within the scope of the specialty training and clinical expertise.

The specialist as a PCP shall have admitting privileges at a hospital in HMO's network.

4.4 Long-Term Services and Supports (LTSS) Providers. Any LTSS Covered Services under the State Contract that could be authorized through a waiver under section 1915(c) of the Social Security Act (the "Act") or a State Program amendment authorized through sections 1915(i) or 1915(k) of the Act must be delivered in settings consistent with 42 CFR 441.301(c)(4).

SECTION 5
HMO REQUIREMENTS

5.1 Prompt Payment. HMO shall pay Provider pursuant to the State Contract and applicable State and federal law and regulations, including but not limited to Mississippi Code Section 83-9-5, 42 CFR 447.46, 42 CFR 447.45(d)(2), 42 CFR 447.45(d)(3), 42 CFR 447.45(d)(5) and 42 CFR 447.45(d)(6), as applicable and as may be amended from time to time. If a third party liability exists, payment of claims shall be determined in accordance with federal and/or State third party liability law and the terms of the State Contract. Unless HMO otherwise requests assistance from Provider, HMO will be responsible for third party collections in accordance with the terms of the State Contract.

5.2 No Incentives to Limit Medically Necessary Services. HMO shall not structure compensation provided to individuals or entities that conduct utilization management and concurrent review activities so as to provide incentives for the individual or entity to deny, limit, or discontinue Medically Necessary services to any Covered Person.

5.3 Provider Discrimination Prohibition. HMO shall not discriminate with respect to participation, reimbursement, or indemnification of a provider who is acting within the scope of the provider's license or certification under applicable State law, solely on the basis of such license or certification. HMO shall not discriminate against Provider for serving high-risk Covered Persons or if Provider specializes in conditions requiring costly treatments. This provision shall not be construed as prohibiting HMO from limiting a provider's participation to the extent necessary to meet the needs of Covered Persons. This provision also is not intended and shall not interfere with measures established by HMO that are designed to maintain quality of care practice standards and control costs.

5.4 Communications with Covered Persons. Covered Persons are entitled to the full range of their Providers' opinions and counsel about the availability of Medically Necessary Services under the provisions of the State Contract. Any contractual provisions, including gag clauses or rules, that restrict a Provider's ability to advise Covered Persons about Medically Necessary treatment options violate federal law and regulations.

HMO shall not prohibit or otherwise restrict Provider, when acting within the lawful scope of practice, from advising or advocating on behalf of a Covered Person for the following:

i) The Covered Person's health status, medical care, or treatment options, including any alternative treatment that may be self-administered;

ii) Any information the Covered Person needs in order to decide among all relevant treatment options;

iii) The risks, benefits, and consequences of treatment or non-treatment;

iv) The Covered Person's right to participate in decisions regarding his or her health care, including the right to refuse treatment, and to express preferences about future treatment decisions; or

v) Information regarding the nature of treatment options including those that may not reflect HMO's position or may not be covered by HMO.

HMO also shall not prohibit a Provider from advocating on behalf of a Covered Person in any grievance system, utilization review process, or individual authorization process to obtain necessary health care services.

5.5 Termination, Revocation and Sanctions. In addition to its termination rights under the Agreement, HMO shall have the right to revoke any functions or activities HMO delegates to Provider under the Agreement or impose other sanctions consistent with the State Contract if in HMO's reasonable judgment Provider's performance under the Agreement is inadequate. HMO shall also have the right to suspend, deny, refuse to renew or terminate

Provider in accordance with the terms of the State Contract and applicable law and regulation. However, HMO shall not exclude or terminate a Provider from participation in HMO's Provider Network due to the fact that the Provider has a practice that includes a substantial number of patients with expensive medical conditions, and shall not terminate a Provider for filing a Complaint, Grievance, or Appeal on a Covered Person's behalf.

5.6 Rights of DOM. DOM shall have the right to invoke against Provider any remedy set forth in the State Contract, including the right to require the termination of the Agreement, for each and every reason for which it may invoke such a remedy against HMO or require termination of the State Contract. Suspected Fraud and Abuse by Provider will be investigated by DOM.

SECTION 6
OTHER REQUIREMENTS

6.1 Compliance with State Contract. All tasks performed under the Agreement shall be performed in accordance with the requirements of the applicable State Contract, as set forth in this Appendix, applicable provider manuals, and protocols, policies and procedures that HMO has provided or delivered to Provider. The applicable provisions of the State Contract are incorporated into the Agreement by reference. Nothing in the Agreement relieves HMO of its responsibility under the State Contract. If any provision of the Agreement is in conflict with provisions of the State Contract, the terms of the State Contract shall control and the terms of the Agreement in conflict with those of the State Contract will be considered waived.

6.2 Monitoring. HMO shall perform ongoing monitoring (announced or unannounced) of services rendered by Provider under the Agreement and shall perform periodic formal reviews of Provider according to a schedule established by the State, consistent with industry standards or State managed care organization laws and regulations or requirements under the State Contract. As a result of such monitoring activities, HMO shall identify to Provider any deficiencies or areas for improvement mandated under the State Contract and Provider and HMO shall take appropriate corrective action. Provider shall comply with any corrective action plan initiated by HMO and/or required by the MississippiCAN Program. In addition, Provider shall monitor and report the quality of services delivered under the Agreement and initiate a plan of correction where necessary to improve quality of care, in accordance with that level of care which is recognized as acceptable professional practice in the respective community in which HMO and Provider practice and/or the performance standards established under the State Contract.

6.3 Enrollment. The parties acknowledge and agree that DOM is responsible for enrollment, reenrollment and disenrollment of Covered Persons.

6.4 No Exclusivity. Nothing in the Agreement or this Appendix shall be construed as prohibiting or penalizing Provider for contracting with a managed care organization other than HMO or as prohibiting or penalizing HMO for contracting with other providers. HMO may not require Providers who agree to participate in the MississippiCAN Program to contract with HMO's other lines of business.

6.5 **Delegation.** The parties agree that, prior to execution of the Agreement, HMO evaluated Provider's ability to perform any duties delegated to Provider under the Agreement. Any delegated duties and reporting responsibilities shall be set forth in the Agreement or other written delegation agreement or addendum between the parties. HMO shall have the right to revoke any functions or activities HMO delegates to Provider under the Agreement if in HMO's reasonable judgment Provider's performance under the Agreement is inadequate.

MississippiCHIP
Regulatory Requirements Appendix

MississipiCHIP

REGULATORY REQUIREMENTS APPENDIX

PROVIDER

THIS MISSISSIPPICHIP PROGRAM REGULATORY REQUIREMENTS APPENDIX (this "Appendix") supplements and is made part of the provider agreement (the "Agreement") between HMO contracting on behalf of itself and the other entities that are its affiliates (collectively, "CCO") and the party named in the Agreement ("Provider").

SECTION 1
APPLICABILITY

This Appendix applies with respect to the provision of direct or health care related services provided by Provider under the Mississippi Children's Health Insurance Program (the "MississippiCHIP Program") as governed by the State's designated regulatory agencies. In the event of a conflict between this Appendix and other appendices or any provision of the Agreement, the provisions of this Appendix shall control except with regard to benefit plans outside the scope of this Appendix or unless otherwise required by law. In the event CCO is required to amend or supplement this Appendix as required or requested by the State to comply with federal or State regulations, CCO will unilaterally initiate such additions, deletions or modifications. All provider agreements must be in writing and must include all specific activities and report responsibilities delegated to the Provider by CCO.

SECTION 2
DEFINITIONS

Unless otherwise defined in this Appendix, all capitalized terms shall be as defined in the Agreement. For purposes of this Appendix, the following terms shall have the meanings set forth below; provided, however, in the event any definition set forth in this Appendix or the Agreement is inconsistent with any definition under the MississippiCHIP Program Contract, the definition shall have the meaning set forth under the MississippiCHIP Program Contract.

2.1 **Abuse:** Any practice that is inconsistent with sound fiscal, business, or medical practices, and results in an unnecessary cost to CHIP, CCO, a subcontractor, or a provider or in reimbursement for services that are not Medically Necessary or that fail to meet professionally recognized standards for healthcare.

2.2 **Adverse Benefit Determination:** The denial or limited authorization of a requested service, including determinations on the type or level of service, requirements for medical necessity, appropriateness, setting, or effectiveness of a covered benefit; the reduction, suspension, or termination of previously authorized services; the denial, in whole or in part, of payment for a service; CCO's failure to provide services in a timely manner; CCO's failure to resolve Complaints, Grievances, or Appeals within the specified time frames; for residents in a rural area with only one MCO, the denial of a Covered Person's request to exercise his or her right, under 42 C.F.R. §438.52(b)(2)(ii); the denial of a Covered Person's request to dispute a financial liability, including cost sharing, copayments, premiums, deductibles, coinsurance, and other enrollee financial liabilities; and determinations by skilled nursing facilities and nursing facilities to transfer or discharge residents and adverse determinations made by a State with regard to the preadmission

screening and annual resident review requirements of Section 1919(e)(7) of the Act, if applicable.

2.3 **Agreement:** An agreement between the CCO and an individual, business, university, government entity, affiliate, or nonprofit organization to perform part or all of CCO's responsibilities under the MississippiCHIP Program Contract. Agreements must be approved in writing by DOM prior to the start date of the Agreement.

2.4 **Appeal:** A request for review by CCO of an Adverse Benefit Determination related to a Member or Provider. In the case of a Member, an Adverse Benefit Determination may include determinations on the health care services a Member believes he or she is entitled to receive, including delay in providing, arranging for, or approving the health care services (such that a delay would adversely affect the health of the Member). In the case of a Provider, the Adverse Benefit Determination may include, but is not limited to, delay or non- payment for covered services.

2.5 **Auto Enrollment:** The process by which Members who have not voluntarily selected a CHIP Contractor are assigned to a CHIP Contractor.

2.6 **Behavioral Health Services**: Mental health and/or substance and alcohol use disorder treatment services that are provided by the county mental health/intellectual disability/developmental disability programs, the single county authority administrators, or other appropriately licensed health care practitioners.

2.7 **Benchmark Plan:** The State School Employee's Health Insurance Plan.

2.8 **Child:** An individual who is under nineteen (19) years of age who is not eligible for Medicaid benefits and is not covered by other health insurance. Child is also referred to as Member.

2.9 **CHIP:** The Children's Health Insurance Program as defined in Title XXI of the Social Security Act.

2.10 **Complaint:** An expression of dissatisfaction received orally or in writing that is of a less serious or formal nature that is resolved within one (1) business day of receipt.

2.11 **Coordinated Care Organization (CCO):** An organization that meets the requirements for participation as a Contractor in CHIP and manages the purchase and provision of health care services under CHIP. For purposes of this Appendix, CCO is a CCO.

2.12 **Co-Payment:** The fixed amount certain CHIP Members pay for a covered health care service. The amount may vary based on healthcare service being provided.

2.13 **Cost Sharing:** In accordance with 42 C.F.R. §457.10, premium charges, enrollment fees, deductibles, coinsurance, Co-Payments, or other similar fees that the Member has responsibility for paying.

2.14 **Covered Services:** Health care services or products for which a Member is enrolled with CCO to receive coverage under the MississippiCHIP Program Contract, including all services required by the State Contract and State and federal law.

2.15 Disenrollment: Action taken by DOM, or its Agent, to remove a Member's name from the monthly Member Listing Report following DOM's receipt and approval of a request for Disenrollment or a determination that the Member is no longer eligible for Enrollment in Contractor.

2.16 DOM: The Division of Medicaid, Office of the Governor, State of Mississippi.

2.17 Fraud: Fraud is any type of intentional deception or misrepresentation made by an entity or person with the knowledge that the deception could result in some unauthorized benefit to the entity, him or herself, or some other person. The Fraud can be committed by many entities, including a vendor, a subcontractor, a provider, a State employee, or a Member among others.

2.18 Grievance: An expression of dissatisfaction about any matter or aspect of CCO or its operation, other than an Adverse Benefit Determination as defined herein. Grievances may include, but are not limited to, the quality of care or services provided, and aspects of interpersonal relationships such as rudeness of a provider or employee, or failure to respect the Covered Person's rights regardless of whether remedial action is requested. Grievance includes a Covered Person's right to dispute an extension of time proposed by CCO to make an authorization decision.

2.19 Marketing: The activities that promote visibility and awareness for the MississippiCHIP Program and the CCOs participating in the program. All marketing activities are subject to prior review and approval by DOM and may not contain misleading information.

2.20 Medical Record: A single complete record, which documents the entire treatment plan developed for, and medical services received by, the Member including inpatient, outpatient, referral services and emergency medical services whether provided by Contracted Providers or Non-Contracted Providers.

2.21 Member: An individual who meets all of the eligibility requirements for CHIP, enrolls in a CCO under CHIP, and receives health benefits coverage through CHIP.

2.22 MississippiCHIP Program: The Mississippi Medicaid child health program for select individuals under the age of nineteen (19) years of age who are not eligible for Medicaid benefits and are not covered by other health insurances.

2.23 MississippiCHIP Program Contract: The DOM contract with CCO, for the purpose of providing and paying for Covered Services to Members enrolled in the MississippiCHIP Program.

2.24 Primary Care Provider (PCP): Any physician or health care practitioner or group operating within the scope of his or her licensure who is responsible for supervising, prescribing and providing primary care and primary case management services in the MississippiCHIP Program, whose practice is limited to the general practice of medicine or who is an Internist, Pediatrician, Obstetrician/Gynecologist, Family and General Practitioner, Nurse Practitioners (who meet requirements of Section 4.B, Choice of a Health Care Professional), Physician Assistants, specialists who perform primary care functions upon request, and other providers approved by DOM.

2.25 Prior Authorization: A determination to approve a Provider's request, pursuant to services covered in the MississippiCHIP Program, to provide a service or course of treatment of a specific duration and scope to a Member prior to the initiation or continuation of the service.

2.26 Provider Network: The Panel of health service Providers with which the CCO contracts for the provision of covered services to Members and Non-Contracted Providers administering services to Member.

2.27 State: The State of Mississippi or its designated regulatory agencies.

2.28 State Child Health Plan: The State of Mississippi's plan submitted to HHS for the administration of CHIP.
