2. Obtaining and/or reviewing separately obtained history,
3. Ordering medications, tests, or procedures,

5. Communicating with the patient, family, or caregiver.

G. The Division does not allow the billing of mixed remainder minutes across multiple codes.

  - 2. All service limits will be applied to beneficiaries who are dually eligible when reimbursement is made toward covered services with service limits. Once the service limits are reached each state fiscal year, no additional payments will be made for these services.
  - 3. All providers must accept the Medicare and Medicaid payment as payment in full. The provider is prohibited from billing the beneficiary the balance between the provider's charge and Medicare and Medicaid payments.

*Rule 3.4: Eligibility for Medicare and Medicaid*

Medicare is the primary payor for a beneficiary who is both Medicare and Medicaid eligible and has four (4) parts:

A. Medicare Part A

1. The Division of Medicaid pays for the Medicare Part A premium through a "buy-in" process for individuals who have income that does not exceed 100% of the poverty level and are classified as Qualified Medicare Beneficiaries (QMB) and QMB-dual recipients, meaning the recipient is dually eligible as both a QMB and has full Medicaid through other coverage.
2. The Centers for Medicare and Medicaid Services (CMS) and the Division of Medicaid work jointly to ensure that all eligible individuals are included in the "buy-in" process for Medicare coverage. Persons who may be Medicaid-eligible should apply at the appropriate certifying agency.

B. Medicare Part B

1. The Division of Medicaid pays the Medicare Part B premium through a "buy-in" agreement with the Social Security Administration (SSA) for all Medicaid eligible individuals who also qualify for Medicare Part B. CMS and the Division of Medicaid work jointly to ensure that all eligible individuals are included in the "buy-in" process.
2. The Division of Medicaid also pays Part B premiums for specified low-income Medicare beneficiaries (SLMBs) and certain qualifying individuals (QIs). SLMBs and QIs do not receive a Medicaid ID card or any other benefits.

C. Medicare Part C (Medicare Advantage Plans)

1. The Division of Medicaid pays for the Medicare Part C coinsurance and deductible for beneficiaries in applicable Categories of Eligibility (COE).
2. For purposes of reimbursement, co-payments charged by a Medicare Part C plan are considered to be coinsurance.

D. Medicare Part D (Medicare Prescription Drug Plan)

1. When Medicaid beneficiaries have both Medicare and Medicaid coverage, pharmacy providers are required to bill Medicare for drugs covered by that program.
2. The Division of Medicaid considers the Medicare payment as payment in full for Medicare Part D pharmacy claims.

History: Revised eff. 06/01/2015.

*Rule 3.5: Verification of Eligibility*

- A. It is the responsibility of the Medicaid provider to verify a Medicaid beneficiary's eligibility each time the beneficiary appears for a service. Evidence of eligibility is demonstrated by the Medicaid identification card issued to each Medicaid eligible member in a family. A beneficiary is expected to present his/her Medicaid identification card when services are rendered.
- B. A picture ID such as a driver's license or school ID card is required to confirm the identity of the person presenting for service. If no picture ID is available, verification must be made by verifying the social security number and/or date of birth.
- C. If it is found that the person presenting for services was not the Medicaid beneficiary to whom the card was issued, the provider is responsible for refunding any monies paid by Medicaid to the provider for those services provided.
- D. A plastic identification card is not a guarantee of Medicaid eligibility.
- E. Medicaid providers may verify beneficiary eligibility status by one (1) of the following methods:
  - 1. Calling the Automated Voice Response System (AVRS),
  - 2. Using the point of service eligibility verification system, or
  - 3. Calling the fiscal agent.

*Rule 3.6: Freedom of Choice of Providers*

- A. Medicaid beneficiaries have the right to freedom of choice of providers for Medicaid covered services. Any individual eligible for medical assistance, including drugs, may obtain such assistance from any institution, agency, community pharmacy, or person qualified to perform the service or services required.
- B. Providers of Medicaid services agree to comply with this section of the Act in the Provider Agreement. This means that providers may not take any action to deny freedom of choice to individuals eligible for Medicaid by using systems, methods, or devices which would require persons eligible for Medicaid to obtain a service from a particular provider.

- C. This also means that providers may not require any individuals eligible for Medicaid to sign a statement of waiver, if such statement would, in any manner, deny or restrict that individual's free choice of a provider of any services for which the individual may be eligible. Providers cannot use any method of inducement, including free transportation, refreshments, cash or gifts, to influence a beneficiary to select a certain provider.
- D. Exception: Under a federal waiver or approved State Plan amendment, freedom of choice may be restricted for individuals enrolled in a managed care program. These individuals are required to receive primary care from a primary care provider (PCP) and have specialty care prior authorized by the PCP.

*Rule 3.8: Charges Not Beneficiary's Responsibility*

- A. Providers who have agreed to be Medicaid providers are expected to bill Medicaid for Medicaid covered services and accept Medicaid payment as payment in full.
- B. Some charges are not the beneficiary's responsibility and must not be billed to the beneficiary. Those included, but not limited to:
  - 1. The beneficiary may not be billed for Medicaid covered services except in the following situations:
    - a) If the person is ineligible; or
    - b) If person has chosen to receive and agreed to pay for care not covered by the Medicaid program.
  - 2. The beneficiary may not be held liable for a claim or portion of a claim when a determination that the services were not medically necessary is made based on the professional opinion of appropriate and qualified persons performing peer review of Medicaid cases.

3. The beneficiary may not be held liable for billed charges above the Medicaid maximum allowable.
4. The beneficiary may not be billed for claims denied because of provider errors. It is the responsibility of the provider to file claims in a timely manner, to correct errors, and to provide essential information necessary to process the Medicaid claim.
5. The beneficiary may not be billed for claims denied because of errors made by DOM, the fiscal agent, or due to changes in federal or state mandates.
6. The beneficiary may not be billed for services denied because a provider failed to request required authorization for a service or failed to meet procedural requirements.
7. For dual eligibles, the beneficiary may not be billed for the portion of a claim remaining after Medicare and Medicaid have paid.

9. The beneficiary may not be billed for telephone calls or missed/cancelled appointments.
10. The beneficiary may not be charged for the cost of copying medical records.

*Rule 3.9: Charges Beneficiary's Responsibility*

A. Medicaid beneficiaries may be charged for the following:

1. The beneficiary is responsible for all expenses for non-covered services, such as services that are not covered under the scope of the Medicaid program, or services received in excess of program benefit limitations. The beneficiary is responsible for services received during a period of ineligibility.
2. Any applicable cost-sharing amount applied by the Medicaid program is the responsibility of the beneficiary.
3. Beneficiaries enrolled in managed care programs that insist upon receiving services that are not authorized by the primary care provider (PCP) may be required to pay for such services. For example, if the beneficiary seeks care in a hospital emergency room (ER) for services that can be provided in the PCP's office and are not authorized by the PCP for treatment in the ER; the beneficiary may be responsible for payment of the ER services beyond the medical assessment. The beneficiary sees a specialist for services that are not excluded from managed care and are not considered emergent/urgent, and the

PCP has not made the referral or denies authorization; the beneficiary may be responsible for payment of such services.

4. The beneficiary, or responsible adult, is held accountable and responsible for knowingly allowing or continuing to allow an unauthorized person to use a Medicaid card or beneficiary's identity to obtain benefits otherwise not allowed. Any charges to or payments by the Division of Medicaid for services requested and/or received in an attempt to defraud the provider of services and/or Medicaid are billable to the cardholder or his/her responsible party, or the imposter.

B. This list is not all-inclusive.

## **Part 200 Chapter 4: Provider Enrollment**

### *Rule 4.1: Definitions*

- A. Providers: All health care entities including individual practitioners, institutional providers, and providers of medical equipment or goods related to care that are currently enrolled in the Medicaid program.
- B. National Provider Identifier (NPI): A Health Insurance Portability and Accountability Act (HIPAA) Administrative Simplification Standard. The NPI is a unique identification number for covered health care providers as noted in 45 C.F.R. § 162. Covered health care providers and all health plans and health care clearinghouses must use the NPIs in the administrative and financial transactions adopted under HIPAA.
- C. Sole Proprietor: A Sole Proprietor is a form of business in which one (1) person owns all of the assets of the business and is solely liable for all debts on an individual basis. As a result of the National Provider Identifier (NPI) requirements, a Sole Proprietor must apply for their NPI as individuals. Medicaid will no longer issue a group number to an individual effective with the adoption of this rule revision. The subpart concept does not apply to a sole proprietorship, even one (1) with multiple locations, because the sole proprietorship is not an organization as defined in the final NPI Rule. An individual Medicaid provider number and the appropriate NPI issued by the Centers for Medicare & Medicaid Services (CMS) are entered into the Medicaid system with the individual's social security number (SSN); and if applicable, the Federal Employer Identification Number (FEIN) assigned to it. If this number is used as a Medicaid provider billing number, income or earnings information are reported to the IRS for this SSN or FEIN, as applicable. Deferred compensation is only available via a sole proprietor's SSN.
- D. Group/Organization: A Group/Organization provider is not an individual/sole proprietor. This may include hospitals, long-term care facilities, laboratories, home health agencies, ambulance companies, and group practices; suppliers of durable medical equipment or pharmacies. Any subpart of the group/organization must apply for a different Medicaid

provider number as determined by the provider type per Medicaid rule. A group provider requesting individual providers/servicing providers to be affiliated to their billing provider number must be approved Medicaid providers. For monies to be reported to the IRS on its Tax Identification, the group provider should be the biller, unless otherwise restricted by the Division of Medicaid. Group providers that have various servicing locations should apply to Medicaid to become a provider according to their enumeration application with CMS. The provider should also apply to Medicaid to become a provider according to the conduct of their own standard transactions and as required by the Division of Medicaid's program rules.

- E. Effective Date: The earliest date a provider may begin billing for services.
- F. Officer: Any person whose position is listed as being that of an officer in the provider's "articles of incorporation" or "corporate bylaws" or anyone who is appointed by the board of directors as an officer in accordance with the provider's corporate bylaws.
- G. Director: A member of the provider's "board of directors." It does not necessarily include a person who may have the word "director" in his/her job title. Moreover, where a provider has a governing body that does not use the term "board of directors," the members of that governing body will still be considered "director". Thus, if the provider has a governing body titled "board of trustees," as opposed to "board of directors," the individual trustees are considered "directors" for Medicaid enrollment purposes.
- H. Managing/Directing Employee: A managing/directing employee may be a general manager, business manager, administrator, director, or other individual who exercises operational or managerial control over, or who directly or indirectly conducts, the day-to-day operations of the entity, either under contract or through some other arrangement, regardless of whether the individual is a W-2 employee of the entity.
- I. Authorized Official: An appointed official to whom the organization has granted the legal authority to enroll it in the Medicaid program, to make changes or updates to the organization's status in the Medicaid program, and to commit the organization to fully abide by the statutes, regulations, and program instructions of the Medicaid program. Examples include: chief executive officer, chief financial officer, general partner, chairman of the board, or direct owner.
- J. Delegated Official: An individual who is delegated by an authorized official with the authority to report changes and updates to the entity's enrollment record. A delegated official must be an individual with an "ownership or control interest," or be a W-2 managing employee of the entity. Documentation in the application or as an attachment must be included with the application. A change of a delegated official will only be made to the file with the appropriate documentation signed by a documented authorized official.
- K. Majority Interest: Ownership interest greater than fifty percent (50%) of the voting interest in a business enterprise.

*Rule 4.2: Conditions of Participation*

A. Providers must comply with the following conditions to participate in the Mississippi Medicaid program:

1. All providers must complete provider agreements and/or provider enrollment application packages per the requirements of the Division of Medicaid.
2. The provider must be licensed and/or certified by the appropriate federal and/or state authority, as applicable.
3. Agree to furnish required documentation of the provider's business transactions per 42 C.F.R. § 455.105(b) to the Division of Medicaid or to the Department of Health & Human Services (HHS) within thirty-five (35) days of the date on the request.
4. Agree to abide by the requirements of the Affordable Care Act (ACA) concerning the following:
  - a) Provider Screening Procedures (42 C.F.R. §§ 455.400-470), based on the category of the provider type, which includes license verifications, database checks of eligible professionals, owners, managing employees, etc., fingerprinting and criminal background checks, and/or unscheduled or unannounced site visits based on required screening rules.
    - 1) Providers with an expired license will be denied enrollment.
    - 2) Providers with any current disciplinary limitations on their license may be denied enrollment.
    - 3) Providers that meet any of the exclusion requirements according to state and/or federal law will be denied enrollment.
  - b) Provider Application Fees (42 C.F.R. § 455.460).
  - c) Temporary Moratorium (42 C.F.R. § 455.470).
  - d) Provider Termination (42 C.F.R. § 455.416).
  - e) Payment Suspensions (42 C.F.R. § 455.23).
5. The provider agrees to review, complete and submit a completed re-validation document as required by the policies of Division of Medicaid. All providers must undergo a revalidation screening process at least once every five years in accordance with 42 C.F.R.

§ 455.414.

6. All professional and institutional providers participating in the Medicaid program are required to keep records that fully disclose the extent of services rendered and billed under the program. These records must be retained for a minimum of five (5) years in order to comply with all federal and state regulations and laws. When there is a change of ownership or retirement, a provider must continue to maintain all Medicaid beneficiary records, unless an alternative method for maintaining the records has been established and approved by the Division of Medicaid. Upon request, providers are required to make such records available to representatives of the Division of Medicaid and others as provided by law in validation of any claims. The Division of Medicaid staff shall have immediate access to the provider's physical location, facilities, records, documents, and any other records relating to medical care and services rendered to beneficiaries during regular business hours. Providers must maintain records as indicated in Part 200 Chapter 1, Rule 1.3: Maintenance of Records.
7. The provider must comply with the requirements of the Social Security Act and federal regulations concerning: (a) disclosure by providers of ownership and control information; and (b) disclosure of information by a provider's owners of any persons with convictions of criminal offenses against Medicare, Medicaid, or the Title XXI services program. If the Division of Medicaid ascertains that a provider has been convicted of a felony under federal or state law for an offense that the Division of Medicaid determines is detrimental to the best interests of the program or of Medicaid beneficiaries, the Division of Medicaid may refuse to enter into an agreement with such provider or may terminate or refuse to renew an existing agreement.
8. The provider must agree to accept payment for Medicaid covered services in accordance with the rules and regulations for reimbursement, as declared by the Secretary of Health and Human Services and by the state of Mississippi and established under the Mississippi Medicaid program.
9. The provider must agree to accept, as payment in full, the amount paid by the Medicaid program for all services covered under the Medicaid program within the beneficiary's service limits with the exception of authorized deductibles, co-insurance, and co-payments. All services covered under the Medicaid program will be made available to the beneficiary. Beneficiaries will not be required to make deposits or payments on charges for services covered by Medicaid. A provider cannot pick and choose procedures for which the provider will accept Medicaid. At no time shall the provider be authorized to split services and require the beneficiary to pay for one type of service and Medicaid to pay for another. All services provided to Medicaid beneficiaries will be billed to Medicaid where Medicaid covers said services, unless some other resources, other than the beneficiary or the beneficiary's family, will pay for the service.
10. For most medical services rendered, the provider must agree to take all reasonable measures to determine the legal liabilities of third parties including Medicare and private health insurance to pay for Medicaid covered services, and if third party liability is

established, to bill the third party before filing a Medicaid claim. Exceptions to this rule are outlined in Part 306 Third Party Recovery. For the purpose of this provision, the term “third party” includes an individual, institution, corporation, or public or private agency that is or may be liable to pay all or part of the medical costs of injury, disease or disability of a Medicaid beneficiary and to report any such payments as third parties on claims filed for Medicaid payment.

11. Participating providers of services under the Medicaid program, i.e., physicians, dentists, hospitals, nursing facilities, pharmacies, etc., must comply with the requirements of Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, and the Age of Discrimination Act of 1975. Under the terms of these Acts, a participating provider or vendor of services under any program using federal funds is prohibited from making a distinction in the provision of services to beneficiaries on the grounds of race, color, national origin or handicap. This includes, but is not limited to, distinctions made on the basis of race, color, national origin, age or handicap with respect to: (a) waiting rooms, (b) hours of appointment, (c) order of seeing patients, or (d) assignment of patients to beds, rooms or sections of a facility. The Division of Medicaid is responsible for routine and complaint investigations dealing with these three (3) Acts.
12. Participating providers are prohibited from making a distinction in the provision of services to Medicaid beneficiaries on the grounds of being Medicaid beneficiaries. This includes, but is not limited to, making distinctions with regard to waiting rooms, hours of appointment, or order of seeing patients, third party sources (pursuant to federal regulations), and quality of services provided, including those provided in a facility.
13. The provider must agree that claims submitted will accurately reflect both the nature of the service and who performed the service.
14. The provider must maintain a copy of the Administrative Code for Mississippi Medicaid and all revisions.
15. Participating providers must be eligible to participate in the Medicaid program as determined by DHHS-Office of Inspector General (DHHS-OIG). Certain individuals and entities are ineligible to participate in the Medicaid program on the basis of their exclusion as sanctioned by DHHS-OIG by authority contained in Sections 1128 and 1156 of the Social Security Act. The effect of exclusion is that no program payment will be made for any items or services, including administrative and management services, furnished, ordered or prescribed by an excluded individual or entity under the Medicare, Medicaid, and State Children’s Health Insurance Programs during the period of the exclusion. Program payments will not be made to an entity in which an excluded person is serving as an employee, administrator, operator, or in any other capacity, for any services including administrative and management services furnished, ordered, or prescribed on or after the effective date of the exclusion. In addition, no payment may be made to any business or facility that submits bills for payment of items or services provided by an excluded party. The exclusion remains in effect until the subject is reinstated by action of the DHHS-OIG. It is the responsibility of each Medicaid provider

to assure that no excluded person or entity is employed in a capacity which would allow the excluded party to order, provide, prescribe, or supply services or medical care for beneficiaries, or allow the excluded party to hold an administrative, billing, or management position involving services or billing for beneficiaries.

16. The provider must verify with the NET Broker that all non-emergency transportation (NET) services are for a Medicaid covered service only. The provider is only required to verify the date, time, beneficiary's Medicaid number, and provide confirmation that a Medicaid covered service will be provided at the appointment.
17. A provider that has not rendered services as evidenced on claims to the Division of Medicaid or coordinated care organization (CCO) for a one (1) year period will be disenrolled except for certain providers that are necessary to maintain access to covered services, as determined by the Division of Medicaid. Once disenrolled, the provider may reapply in accordance with the current enrollment policy.

- 1. Providers must assist with the transition of the beneficiary to another service provider.
  - 2. Changes to the scope of available services or reimbursement methodology for the provision of certain services through legislative or regulatory action shall not constitute an unforeseeable circumstance within the meaning of this section.
  - 3. ## **Part 200 Chapter 6: Indian Health Services**

### *Rule 6.1: Provision of Indian Health Services*

Governmental responsibility for the provision of health services to the American Indian/Alaskan Native (AI/NI) population evolved through numerous Supreme Court decisions, treaties, Executive Orders, and legislation. Principal legislation authorizing federal funds for health services came through the Snyder Act of 1921. The Transfer Act of 1954 transferred the responsibility for Indian health services from the Bureau of Indian Affairs to the Department of Health, Education and Welfare (HEW), now the Department of Health and Human Services

(DHHS). The Indian Health Service (IHS), an agency within DHHS, was established as the agency responsible for providing federal health services to the American Indian/Alaskan Native (AI/AN) population. The Indian Self-Determination and Education Assistance Act (Public Law 93-638, as amended) gave Tribes the option of assuming the operation of health services and community programs from Indian Health Services (IHS) or remaining within the IHS administered system. Subsequently the Indian Health Care Improvement Act (Public Law 94-437) was enacted to provide the quality and quantity of health services needed to elevate the health status of American Indians/Alaska Natives and to encourage maximum participation of tribes in the planning/management of those services.
