Provider Enrollment: Welcome	
Welcome	Provider Enrollment
Request Information	Thank you for your interest in becoming a provider in the Mississippi Medicaid program. You can enroll as a Mississippi Medicaid fee-for-service (FFS) provider, an ordering, referring, and prescribing (ORP) provider, as well as a managed care contracted provider in the Mississippi Coordinated Access Network (MississippiCAN) and the Children's Health Insurance Program (CHIP) network. Please note that a provider taxonomy code is required for whichever program/application type you choose.
Password Creation	
Application Tracking Information	
Taxonomies	Medicaid Fee-for-Service Providers
Provider Identification	Medicaid Fee for Service (FFS) providers are all health care entities including physicians or other professionals, institutions, groups, and organizations that are enrolled in the Medicaid program. FFS providers must complete the full enrollment form to submit claims for reimbursement of services provided for Medicaid members. Group providers must ensure that each of their individual practitioners/providers are enrolled and affiliated to the group. If a FFS provider submits a claim for a referred service for a Medicaid member, the NPI of the ordering, referring, or prescribing (ORP) provider of the service must be included on the claim.
Addresses	Ordering, Referring, & Prescribing (ORP) Providers
Languages	Federal regulation at 42 CFR 455.410 requires the enrollment of physicians or other professionals who only order, refer or prescribe (ORP) services for Medicaid members. Physicians and other eligible practitioners, who order, refer, or prescribe items or services for Medicaid members are referred to as "ORP" providers. ORP providers will not be included in the listing to receive referrals to provide direct services to Medicaid members. Medicaid claims submitted listing an ORP provider as the billing or rendering provider will not be reimbursed. To receive payment from Medicaid for any services provided, the ORP provider must enroll as a FFS provider.
EFT Enrollment	Managed Care Providers
Other Information	Managed Care includes healthcare plans that are used to manage cost, utilization, and improve quality and health outcomes for their membership. This is accomplished by providing care to members and contracting with health care providers and medical facilities.
Disclosure	
Supporting Documentation / Attachments and Fees	Mississippi Coordinated Access Network (MississippiCAN) Providers
Agreement	The Mississippi Coordinated Access Network (MississippiCAN) is a Medicaid managed care program, which includes three Coordinated Care Organizations (CCOs). More than half of the Mississippi Medicaid members are enrolled in the MississippiCAN program. For providers to be reimbursed for MississippiCAN member services by these CCOs, they must be enrolled as a Medicaid FFS provider and be contracted with the CCOs. If providers are not contracted and not in same program and CCO network as member receiving services, then the providers are reimbursed at the reduced out-of-network rate.
Summary	Children's Health Insurance Program (CHIP) Providers
	CHIP provides health coverage for uninsured children up to age 19 years old. All children enrolled in the Mississippi Separate CHIP program are enrolled with a CCO. For providers to be reimbursed for CHIP member services by these CCOs, they must be enrolled through Medicaid and be contracted with the CCOs. If providers are not contracted and not in same program and CCO network as member receiving services, then the providers are reimbursed at the reduced out-of-network rate.

Credentialing/Recredentialing

The State of Mississippi is responsible for Credentialing/Recredentialing its providers that participate in the Managed Care programs (Mississippi Coordinated Access Network (MSCAN) and/or Mississippi Children's Health Insurance Program (MSCHIP)). Credentialing/Recredentialing standards are set by national accrediting agencies and state and federal regulating bodies.

State regulation Mississippi Code 43-13-117 requires that the Division develop a single, consolidated credentialing process for providers, and requires managed care entities to accept the Division credentialing for managed care enrollment. Credentialing will be conducted when the provider selects MississippiCAN and/or CHIP. Upon completion of Division credentialing, providers may voluntarily contract with Coordinated Care Organizations (CCOs).

Recredentialing of providers actively enrolled in the Managed Care programs must be conducted at least every three (3) years, unless otherwise required by regulatory or accrediting bodies or a shorter term as determined by the Credentialing Committee. A recredentialing notice letter will initiate the process with each provider. The letter will provide instructions for completing the recredentialing process and will indicate the due date. Each provider must submit all required supporting documentation and is required to be successfully recredentialed for continued participation in a CCO network.

As part of the recredentialing process, providers will be required to review, update application information, and electronically sign the Mississippi Medicaid Provider Agreement and Acknowledgement of Terms of Participation. All required documents must be uploaded. Providers are subject to additional screening activities based on their risk level. The recredentialing process incorporates re-verification and identification of changes in a providers (individual/organization) licensure, sanctions, certifications (including, but not limited to, malpractice experience, sanction history, hospital privilege related or other actions). This information is reviewed to assess whether providers continue to meet the standards set by national accrediting agencies and state and federal regulating bodies, including National Committee for Quality Assurance (NCQA).

The recredentialing service location will also be revalidated with the submission of their recredentialing application. Service location(s) for which a recredentialing application is not submitted will be required to revalidate every three (3) years.

Enrollment will be terminated for any provider who does not comply with recredentialing requirements. A new application will then be required for the provider to re-enroll in the Mississippi Medicaid program.

Revalidation Information

Federal Regulation at 42 CFR 455.414 requires the State Medicaid Agency to revalidate the enrollment of all providers regardless of provider type at least every 5 years. As part of this required revalidation process, providers that are due for revalidation will be required to review, update application information, and electronically sign the Mississippi Medicaid Provider Agreement and Acknowledgement of Terms of Participation. All required documents must be uploaded. Providers are subject to additional screening activities based on their risk level. A revalidation notice letter will initiate the process with each provider. The letter will provide instructions for completing the revalidation and will indicate the due date.

Enrollment will be terminated for any provider who does not comply with revalidation requirements. A new application will then be required for the provider to re-enroll in the Mississippi Medicaid program. Providers are required to establish a Provider Portal account to compete the revalidation process.

340B Program

The 340B program is a Drug Pricing Program established by the Veterans Health Care Act of 1992, which is Section 340B of the Public Health Service Act (PHSA). Section 340B limits the cost of covered outpatient drugs to certain federal grantees, federally qualified health center look-alikes, and qualified hospitals. These providers purchase, dispense and/or administer pharmaceuticals at significantly discounted prices. The significant discount applied to the cost of these drugs makes these drugs ineligible for the Medicaid drug rebate. State Medicaid programs are mandated to ensure that rebates are not claimed on these drugs thereby preventing duplicate discounts for these drugs.

Health Resources and Services Administration (HRSA) is specifically responsible for the enforcement of covered entity compliance with the duplicate discount prohibition. More information regarding eligibility and program logistics can be found on HRSA's website at www.hrsa.gov/opa.

Provider Addresses

The service location name and address generally is the site where members obtain services and is either owned or rented by the provider. This location should be where supporting documentation related to claims is maintained.

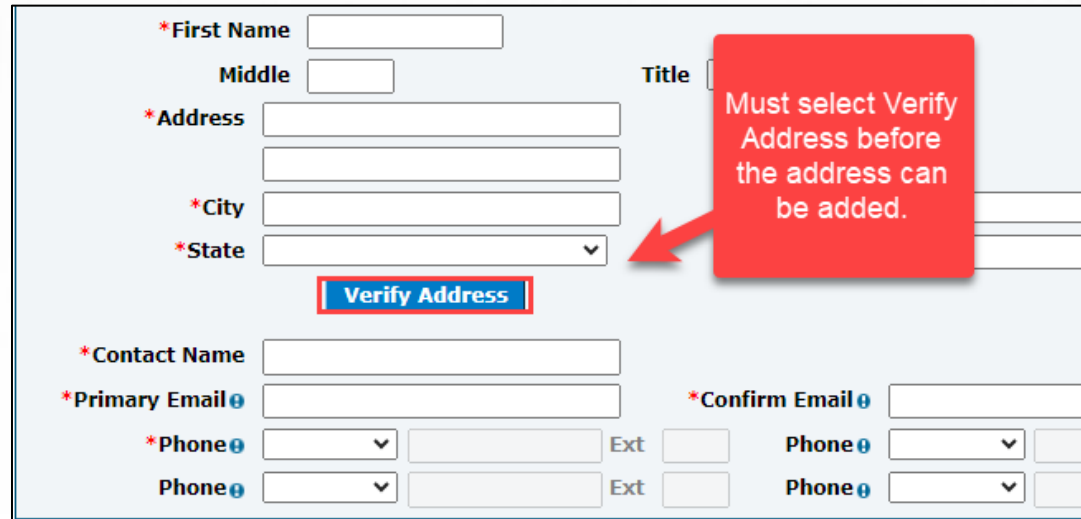

- The service location name must be the Doing Business As (DBA) name registered with the Secretary of State if registered. This does not apply to informal associations such as Sole Proprietorships and General Partnerships that are not registered.
- The service location name must match the business name on the W-9.
- If your business name differs from your legal name, submit copies of registration documentation from the Secretary of State showing your filed business name and DBAs (405 IAC 1-19.1b) as an attachment to the packet.
- The service location address must be a physical location. A post office box is not a valid service location address.
- Providers that provide services at a "place of service site", such as at a hospital or nursing facility, should enter their home/business office as their service location address.
- The standard NPPE/License address must be entered as the Service address for any provider that is not a billing provider.

Servicing Address Information

- **ADA Compliant** is a required field
- If the facility is **ADA Compliant**, continue by checking the Available Options as they apply.
- Click **Add** to add certain selections or **Add All** if all apply.

The screenshot shows a web form for selecting ADA compliant options. At the top, there is a label '*ADA Compliant?' followed by a dropdown menu set to 'Yes'. Below this, the form is divided into two main sections: 'Available Options' on the left and 'Selected Options' on the right. The 'Available Options' section contains a list of checkboxes for various facilities: EXAM TABLE, GURNEYS/STRETCHERS, PARKING (checked), PATIENT LIFTS, PUBLIC TRANSPORTATION, ACCESS, RADIOLOGIC EQUIPMENT, RESTROOM (checked), SIGNAGE, and WHEELCHAIR WEIGHT SCALE. Between the two sections are four buttons: 'Add >', 'Add All >>', 'Remove All <<', and 'Remove <'. The 'Selected Options' section on the right shows a list of the selected items: PARKING and RESTROOM.

Servicing Address Information

- Once you select “**Add**”, your address section will populate with the data you entered.
- Select “**+**” to add each additional applicable address, including any additional servicing addresses. You must select “**Add**” after any data has been entered.
- Once all addresses have been added and saved, select “**Continue**” to move to the Languages page.

Provider Addresses

The service location name and address generally is the site where members obtain services and is either owned or rented by the provider. This location should be where supporting documentation related to claims is maintained.

- The service location name must be the Doing Business As (DBA) name registered with the Secretary of State if registered. This does not apply to informal associations such as Sole Proprietorships and General Partnerships that are not registered.
- The service location name must match the business name on the W-9.
- If your business name differs from your legal name, submit copies of registration documentation from the Secretary of State showing your filed business name and DBAs (405 IAC 1-19.1b) as an attachment to the packet.
- The service location address must be a physical location. A post office box is not a valid service location address.
- Providers that provide services at a “place of service site”, such as at a hospital or nursing facility, should enter their home/business office as their service location address.
- The standard NPPES/License address must be entered as the Service address for any provider that is not a billing provider.

In addition, I understand that:
