---

The Mississippi Division of Medicaid (DOM) requires that each of the coordinated care organizations (CCOs) submit encounter data to DOM's fiscal agent contractor (FAC), Gainwell Technologies. To ensure complete encounter data is being received, Myers and Stauffer provides bi-monthly encounter reconciliations. As part of this process, Myers and Stauffer analyzes Medicaid encounter data that has been submitted by the CCOs to the FAC and completes a comparison of the encounters to cash disbursement journals provided by each CCO. For purposes of this analysis, "encounter data" are claims that have been paid by CCOs or delegated vendors (e.g., vision and dental) to health care providers that have rendered health care services to members enrolled with the CCO.

Myers and Stauffer is working closely with DOM and the CCOs to identify deficiencies and propose solutions that will result in high quality and reliable encounter data being submitted and available to the state agency to measure and monitor its Medicaid managed care program. Validated encounter data has many uses such as utilization by actuaries as part of their rate setting analyses as well as fulfilling the federal reporting requirements related to the Medicaid Managed Care Rule, to provide program management and oversight, and for tracking, accounting, and other ad hoc analyses.

Section 11.S.6 of the contract between DOM and the CCO states,

*"The Contractor will assist the Division in reconciliation of the Cash Disbursement Journal to Contractor Paid Amount totals for submitted claims. The Contractor shall submit at least ninety-nine percent (99%) of all Member Encounter Data in a valid format, which will be deemed valid by the Division, including those of Subcontractors or delegated vendors as provided for in this section, both for the original and any adjustment or void. The Division or its Agent will validate Member Encounter Data submissions according to the Cash Disbursement Journal of the Contractor and any of its applicable Subcontractors."*

The bi-monthly encounter reconciliations also help fulfill part of the work requirements set forth in step number 3 of the Center for Medicare and Medicaid's (CMS) External Quality Review (EQR) Protocol 5, which requires a determination of the completeness, accuracy, and quality of the encounter data being submitted by each CCO. CMS' External Quality Review, Protocol 5, is an excellent way to assess whether the encounter data can be used to determine program effectiveness, accurately evaluate utilization, identify service gaps, and make strong management decisions. In addition, the Protocol evaluates both departmental policies, as well as the policies, procedures, and systems of the health plans to identify strengths and opportunities to enhance oversight. A protocol 5 review was completed by Myers and Stauffer in June 2024.

Our work was performed in accordance with American Institute of Certified Public Accountants (AICPA) professional standards for consulting engagements. We were not engaged to, nor did we perform, an audit, examination, or review services; accordingly, we express no opinion or conclusion related to the procedures performed or the information and documentation we reviewed. In addition, our engagement was not specifically designed for, and should not be relied on, to disclose errors, fraud, or other illegal acts that may exist.

The results of our engagement and this report are intended only for the internal use of the Mississippi Division of Medicaid, and should not be used for any other purpose.

# MS UnitedHealthCare Community Plan Encounter and CDJ Comparison

## SUMMARY

DOM requested that, for this study, we review the CCO's entire plan, each delegated vendor, and fee-for-service (non-vendor) paid encounters to determine if the paid encounters meet the state contract minimum completeness requirement of **99 percent** when compared to the CDJ files. The encounters and CDJ files utilized in this study met the following criteria:

- Encounters were paid within the reporting period of July 1, 2023 through June 30, 2025;
- CDJ transactions had payment dates within the reporting period of July 1, 2023 through June 30, 2025;
- Encounters were received and processed by the FAC for transmission to Myers and Stauffer through August 29, 2025.

<b>Non-Compliant (%)</b>			<b>-0.13%</b>		

<sup>^</sup> – To avoid overstating the Entire Plan CAN or CHIP results in situations where the CCO or an individual vendor's cumulative completion percentage exceeds 100 percent, we have decreased the encounter totals by the reporting period's variance in comparison with the CDJs. Please see data analysis assumption number 9 on page 24 for further explanation.

For this study, Myers and Stauffer analyzes the encounter data that is submitted by the CCOs to the FAC, currently Gainwell Technologies, and loaded into the FAC Medicaid Management Information System (MMIS). Encounters submitted by any CCO that were rejected by the FAC for errors in submission or other reasons are not transmitted to Myers and Stauffer.

Furthermore, Myers and Stauffer analyzes the encounter data from the FAC MMIS and makes the following adjustments. Tables C and D below outline the impact of applying these encounter analysis adjustments to the encounter paid amounts, when compared to the raw data received.

1. Medical and institutional encounter voids with original encounters already offset by backouts, positive plan paid amounts, or invalid former TCN values are excluded from the encounter totals. Additionally, pharmacy encounters identified as denied by Conduent or with a denied CCO adjudication status from Gainwell are excluded from the encounter totals.
2. Myers and Stauffer identified potential duplicate encounters using our encounter review logic. Based on a comparison to the CDJ files, we noted some are actual duplicate submissions, and some are replacement encounter records without a matching void (i.e. calculated voids). Lists of these potential duplicates, noted in previous reports, were provided to UHC for examination. We have reviewed UHC’s disputed duplicate response files submitted to us prior to August 28, 2025. The accepted responses have been incorporated into the analysis for this report. Responses requiring further explanation have not been added to this report and will be resubmitted to the CCO.
3. Our potential duplicate and calculated void process attempts to identify and remove encounters that appear to be duplicated for some reason. Encounters paid by the CCO, but denied by the FAC were included in both our potential duplicate and calculated void processes. It should be noted that the inclusion of denied encounters by either the FAC or the CCO can artificially inflate the percentages of encounter counts and paid amounts being removed. In the case of encounters denied by the FAC, some of these encounters may have already been identified and flagged by the FAC as being duplicates.

Table C — Myers and Stauffer LC's Adjustments to UHC CAN Encounters			
Description	Encounter Count	Paid Amount	Paid Amount (% of Total*)
<b>Total Encounter Amount (FAC Reported)</b>	<b>12,575,866</b>	<b>\$1,415,678,901</b>	<b>100.00%</b>
<i>Adjustment Type</i>			
Denied	(719,929)	\$700,174	0.04%
Calculated Void	(96,156)	(\$5,360,469)	-0.37%
Duplicate	(758)	(\$49,592)	0.00%
<i>Total Adjustments Made</i>	<i>(816,843)</i>	<i>(\$4,709,887)</i>	<i>-0.33%</i>
<b>Net Encounter Amounts</b>	<b>11,759,023</b>	<b>\$1,410,969,014</b>	<b>99.67%</b>

Table D — Myers and Stauffer LC 's Adjustments to UHC CHIP Encounters			
Description	Encounter Count	Paid Amount	Paid Amount (% of Total*)
<b>Total Encounter Amount (FAC Reported)</b>	<b>1,734,957</b>	<b>\$161,911,524</b>	<b>100.00%</b>
<i>Adjustment Type</i>			
Denied	(77,617)	\$154,016	0.09%
Calculated Void	(25,307)	(\$2,150,502)	-1.32%
Duplicate	(51)	(\$2,411)	0.00%
<i>Total Adjustments Made</i>	<i>(102,975)</i>	<i>(\$1,998,897)</i>	<i>-1.23%</i>
<b>Net Encounter Amounts</b>	<b>1,631,982</b>	<b>\$159,912,627</b>	<b>98.77%</b>

\* - Percentage ratios are rounded down for each adjustment type and may not add up to the total percentage of adjustments made for this reporting period. Please see data analysis assumption number 8 on page 24 for further explanation.

During the course of this analysis, Myers and Stauffer identified potential data issues that may impact the completion percentages for specific delegated vendors and/or fee-for-service (non-vendor). **Section A** details payor specific issues related to completion percentages outside the targeted range, while **Section B** notes outstanding payor specific data issues that UnitedHealthcare may need to continue to work to identify and resolve. **Section C** notes data issues that may impact all payors to some extent (non-vendor and vendor).

Please reference Tables 1 through 11 starting on page 8 for UHC's CAN and CHIP entire plan, delegated vendor, and fee-for-service (non-vendor) reconciliation period tables. These tables contain detailed reconciliation totals, completion percentages, and encounter analysis adjustments made by Myers and Stauffer.

**SECTION A – Non-vendor and/or vendor data issues that may cause completion percentages outside the targeted range (below 99 percent or above 100 percent):**

1. **OptumRx (Tables 3 and 9):** The OptumRx CHIP cumulative completion percentage and several CAN monthly completion percentages are slightly low. We have noted instances of voided encounter records with corresponding paid CDJ transactions. These potentially missing or failed pharmacy encounter resubmissions may be causing the low monthly completion percentages. Additionally, pharmacy encounter voids allocated to their original paid dates appear to be contributing to monthly completion percentage fluctuations from above 100 percent to below 99 percent.
  - In order to limit the impact of potentially missing pharmacy encounter voids on the cumulative completion percentage and the entire plan totals, we have restricted the monthly completion percentages to a maximum of 100 percent for each month for each payor and calculated a separate 100 percent monthly completion percentage for the reporting period.
  - **We recommend UHC and Gainwell work together to identify and correct any outstanding pharmacy encounter records.**
2. **March Vision (Tables 5 and 11):** The March Vision CHIP cumulative completion percentage and several CAN monthly completion percentages are slightly inflated. This appears to be due to potentially missing or misallocated encounter voids when the CDJ files and encounter data are compared.
  - **UHC has communicated that some of March Vision encounter void and adjustment submissions are not creating MMIS backouts due to an issue with unmatched Gainwell assigned taxonomy codes. We recommend UHC continue to work with March Vision and Gainwell to submit any potentially missing encounter sequences.**

**SECTION B – Additional non-vendor and/or vendor data issues and notes that currently may not impact compliance:**

3. **Fee-for-Service (non-vendor) and Optum Behavioral Health (Tables 2 and 8):** While the fee-for-service (including behavioral health) cumulative completion percentages are in compliance, several monthly completion percentages appear to be above 100 percent and a few monthly completion percentages are below 99 percent for both CAN and CHIP. Potentially missing or misallocated encounter records, including voids, appear to be causing these completion percentage fluctuations.
  - We noted instances of potentially missing CHIP CDJ voids for the September 19, 2024 paid date, when compared to the encounter data, may be causing the low September 2024 CHIP monthly completion percentage.

## MS UnitedHealthCare Community Plan Encounter and CDJ Comparison

- Additionally, we noted potentially misallocated fee-for-service, including behavioral health, paid amounts between months due to duplicate submissions or missing submissions of earlier encounters. The final paid amounts for the encounters appear to match the CDJ data totals with the use of potential duplicate identification logic. However, due to these potential submission issues, the payment amounts related to a claim sequence may be allocated to one month in the encounters and a different month in the CDJ transactions. This issue is causing the CAN and CHIP encounter totals for some months to be understated and the encounter totals for other months, including those prior to the current report period, to be overstated.
- **We recommend UHC continue to work with DOM to submit any outstanding encounter sequences.**
4. **UHC Dental (Tables 4 and 10):** The Dental CAN and CHIP cumulative completion percentages are in compliance. However, many of the CAN and CHIP pharmacy monthly completion percentages are below 99 percent or above 100 percent. These monthly completion percentage fluctuations appear to be mostly due to unmatched void and adjustment sequences, when the CDJ files and encounter data are compared. We have noted instances of payments and subsequent recoupments in the Dental CDJ files that do not appear to have any corresponding encounter records.
- **We recommend UHC continue to review and submit any missing or failed dental encounter sequences.**

### **SECTION C – General data issues that may be contributing to non-vendor and/or vendor variances:**

5. **CCO Denied Encounters (Tables 1 through 11):** Gainwell has provided supplemental files with the CCO adjudication status for pharmacy encounter records. As part of the reconciliation process, the paid amounts for denied pharmacy encounters are being set to zero. The impact of this denied encounter adjustment to the FAC reported encounter data can be found as part of the adjustments column of the OptumRx monthly tables (Tables 3 and 9) as well as in the “Denied” row of Tables C and D on page 5. Gainwell is still working to identify any remaining duplicate pharmacy encounters and missing or failed pharmacy encounter voids.
- Please note that Gainwell is still working to identify the CCO adjudication status for non-pharmacy encounter records. We expect to receive a separate supplemental file of the adjudication status for these claims in the future. In the meantime, the non-pharmacy encounter totals may be inflated by any denied encounters with non-zero paid amounts.
6. **Encounter Voids (Tables 1 through 11):** There appear to be instances of Gainwell voids with a frequency code of 8 where the CCO paid amount on the encounter is more than zero dollars. Since encounter voids are not expected to have any associated final CCO paid amounts, these encounter void amounts are being set to zero. Additionally, we noted that our data extracts from Gainwell appear to provide the original, replaced encounter paid date on encounter voids (frequency code 8) instead of the recoupment date. This system limitation may be contributing to some monthly completion percentage fluctuations. However, there is a system change in progress to retrieve the updated CCO paid date from void encounter submissions.
7. **MMIS Response Files (Tables 1 through 11):** The CCOs have previously noted some missing response files for their encounter submissions to Gainwell. Since the CCOs use these response files to reconcile their encounter submissions and identify previous transactions for any encounter voids or adjustments, the delay in some response file records may be contributing to the missing encounter sequences noted in this report, particularly the void and adjustment sequences.

Unallocated date encounter total\* \$127 Please reference data analysis assumption number 7 on page 24 for further explanation.

<sup>^</sup> - Since the CHIP cumulative completion percentage for the CCO and/or delegated vendor(s) exceed 100 percent, we have decreased the Entire Plan CHIP encounter totals by the total variance in comparison to the CDJs to avoid overstating the Entire Plan results on a monthly and cumulative basis. Please reference data analysis assumption number 9 on page 24 for further explanation.

**UHC COMMUNITY PLAN CHIP  
SUMMARY REPORTING CHARTS**

**Chart 3. Monthly CDJ totals and encounter submissions for the UHC CHIP’s entire plan**

**Chart 4. UHC CHIP’s monthly encounter submissions expressed as a percentage of payments submitted to the FAC to reported CCO CDJ payments for the entire plan**

<sup>^</sup> - To avoid overstating the Entire Plan results in situations where any payor’s cumulative and/or monthly completion percentages exceed 100 percent (or the encounter totals exceed the CDJ totals when the percentage is negative), we have identified 100 percent limited completion percentages on a monthly and cumulative or reporting period basis. Please see data analysis assumption number 9 on page 24 for further explanation.

## APPENDIX A – DEFINITIONS AND ACRONYMS

---

The following terms are used throughout this document:

- **Calculated Void Encounter (CV)** – An encounter that Myers and Stauffer LC has identified as being a replacement encounter that does not appear to have a corresponding void of the original encounter in the FAC's data warehouse.
- **Cash Disbursement Journal (CDJ) Monthly Reported Total** – The sum of all payments from a CCO or delegated vendor to service providers for a given month as reported by the CCO to DOM.
- **Children's Health Insurance Program (CHIP)** – This program provides insurance coverage for uninsured children up to age 19 whose family does not qualify for Medicaid and whose income does not exceed 200% of the federal poverty level. From November 1, 2019 through June 30, 2025, Molina Healthcare and UnitedHealthcare were responsible for coordinating CHIP services. Beginning on July 1, 2025, Magnolia Health, Molina Healthcare, and TrueCare were contracted for MississippiCAN and CHIP services.
- **Coordinated Care Organization (CCO)** – A private organization that has entered into a risk-based contractual arrangement with the Mississippi Division of Medicaid (DOM) to obtain and finance care for enrolled Medicaid members. CCOs receive a capitation or per member per month (PMPM) payment from DOM for each enrolled member. Between October 1, 2018 and June 30, 2025, Magnolia Health Plan (Magnolia Health), Molina Healthcare (Molina), and UnitedHealthcare Community Plan (UHC) were operating as the CCOs in the state of Mississippi. Effective July 1, 2024, the Mississippi Division of Medicaid decided to remove pharmacy claim adjudication from the contractual scope of the Coordinated Care Organizations and redirected the adjudication of the CCO pharmacy claims to DOM's fiscal agent, Gainwell Technologies. Effective July 1, 2025, Magnolia Health, Molina Healthcare, and TrueCare were the CCOs contracted for MississippiCAN and CHIP services.
- **Conduent** – Previous state fiscal agent contractor, formerly known as Xerox Health Solutions. Conduent was replaced by Gainwell Technologies as the FAC for Mississippi effective on October 3, 2022.
- **Fiscal Agent Contractor (FAC)** – A contractor selected to design, develop, and maintain the claims processing system, Medicaid Management Information System (MMIS); Gainwell Technologies became the FAC effective October 3, 2022.
- **Gainwell Technologies** – State fiscal agent contractor effective October 3, 2022, formerly known as DXC Technology (DXC). Gainwell became DOM's Pharmacy Benefit Administrator for managed care members effective July 1, 2024.
- **Medicaid Management Information System (MMIS)** – The claims processing system used by the FAC to adjudicate Mississippi Medicaid claims. CCO submitted encounters are loaded into this system and assigned a unique claim identifier.
- **Mississippi Coordinated Access Network (MississippiCAN)** – The state of Mississippi's Medicaid managed care program. There are three coordinated care organizations responsible for coordinating services for Mississippi Medicaid beneficiaries.
- **Mississippi Division of Medicaid (DOM)** – The division in the Office of the Governor that is responsible for administering Medicaid in Mississippi.

## MS UnitedHealthCare Community Plan Encounter and CDJ Comparison

- **Monthly Completion Percentage** – The percentage of the monthly encounter total in relation to the CDJ monthly reported total.
- **Monthly Encounter Net Total** – The sum of the encounter submissions for a given month incorporating the Myers and Stauffer LC encounter data adjustments made to the encounter submissions stored in the FAC's encounter data warehouse.
- **Monthly Encounter Total (Adjustments)** – The sum of all Myers and Stauffer LC adjustments for a given month that were removed from the encounter submissions stored in the FAC's encounter data warehouse.
- **Monthly Encounter Total (FAC Reported)** – The sum of all encounter submissions for a given month stored in the FAC's encounter data warehouse.
- **Monthly Variance** – The difference between the monthly encounter total and the CDJ monthly reported total for a given month.
- **Potential Duplicate Encounter (PDUP)** – An encounter that Myers and Stauffer LC has identified as being a potential duplicate of another encounter in the FAC's data warehouse.
- **Truven Health Analytics (Truven)** – Subcontractor to the state's former fiscal agent contractor, Conduent, previously responsible for the encounter data warehouse.

Encounters from institutional, medical, and pharmacy service types were combined on like data fields. We analyzed the information reported on each encounter to capture the amount paid on the entire claim. Encounter totals were calculated by summarizing the data by the CCO paid date, CCO identification number, and specific delegated vendor criteria. Each cash disbursement submitted by the CCO were summarized by paid date, CCO program identifier, and delegated vendor to create a matching table. These matching tables were combined using common fields between the tables and were used to produce the results.

Based on criteria provided by the CCO and DOM, we identified UHC encounters as follows:

❖ **UHC CAN Encounters**

- Truven submitter ID equal to '91474' or Gainwell submitter ID equal to 'TP000174'.
- Truven MC Prov ID equal to '02821762' or Gainwell Encounter Prov ID equal to '002821762'.
- Pay to Provider Number equal to '02821762' or first COB Payer ID equal to '002821762' for Truven pharmacy encounters only.

❖ **UHC CHIP Encounters**

- Truven submitter ID equal to '93552' or Gainwell submitter ID equal to 'TP000175'.
- Truven MC Prov ID equal to '09974046' or Gainwell Encounter Prov ID equal to '009974046'.
- Pay to Provider Number equal to '09974046' or first COB Payer ID equal to '009974046' for Truven for pharmacy encounters only.

❖ **UHC Dental – Dental Services**

- Claims Type Code value of 'D' or 'DTL'.

❖ **March Vision – Vision Services**

- Plan TCN has 8 characters and claim type is not T.
- First character of the Plan TCN is '1' or first two characters of the Plan TCN are 'MA'.

❖ **MTM – Non-Emergency Transportation (NET)**

- First three characters of the Plan TCN are 'MIS', 'UOM', 'UMM', or 'MMU' or MTM billing provider NPI.
- Plan TCN or Patient Account Number field contains 'Q0' in the first and second positions and the third position does not contain a number.

❖ **OptumRx – Pharmacy Benefit<sup>1</sup>**

- These encounters are contained in separate data warehouse tables as a result of pharmacy encounter submissions processing.

❖ **UHC – Fee-for-Service (Non-Vendor)**

- All other plan submitted encounters that do not meet the listed criteria. This includes UHC non-vendor (fee-for-service) and Optum Behavioral Health.

<sup>1</sup> – Effective July 1, 2024, the Mississippi Division of Medicaid decided to remove pharmacy claim adjudication from the contractual scope of the Coordinated Care Organizations and redirect the adjudication of the CCO pharmacy claims to DOM's fiscal agent, Gainwell Technologies.

## APPENDIX C – DATA ANALYSIS ASSUMPTIONS

---

1. We assume that all data provided to Myers and Stauffer is complete and accurate.
2. Voided encounter records contained within the encounter submissions were coded to match the associated adjustment's paid date to allow for the proper matching of cash disbursements that occurred due to this void transaction. However, we were unable to assign a paid date to the void transactions in which there was not an associated adjustment encounter. UHC submitted supplemental records for some of these encounter voids (e.g., OptumRx), which we used to allocate the encounter voids to the appropriate recoupment date.
3. We instructed the CCOs to exclude referral fees, management fees, and other non-encounter related fees in the CDJ data submitted to Myers and Stauffer.
4. Interest amounts do not appear to be included in the CCO paid amounts. We have therefore excluded the separately itemized interest expense from the CDJ totals.
5. There are adjustment instances in the encounter data where the associated backout/void record is successfully accepted and created. However, the corresponding replacement transaction is denied by the FAC, which may be impacting the monthly completion percentages.
6. Gainwell has provided supplemental encounter claims extracts intended to update encounter information such as previously missing backout records, corrected transaction types, and other field corrections. We are utilizing the most recently received Gainwell supplemental files for the purposes of this reconciliation.
7. There appear to be instances of encounters for which a paid date was not provided in the monthly data extracts transmitted to Myers and Stauffer LC by the FAC. UHC provided a list of encounter paid dates, which was used to allocate encounters for this report. When a valid CCO paid date was not available for an encounter in the data extracts or supplemental file(s), we attempted to estimate the paid date by adding seven days to the CCO received date.
8. Percentage ratios noted in this report are rounded down. The sum of the percentages may not add up to the percentage sum totals (Tables A through D).
9. Monthly and/or cumulative completion percentages exceeding 100 percent were noted for the vendor and non-vendor UnitedHealthcare totals. In order to limit the impact of these potentially overstated encounter totals on the Entire Plan CAN and CHIP results, we have restricted the cumulative and monthly completion percentage to a maximum of 100 percent (or the encounter totals to a maximum of the CDJ totals when the completion percentage is negative) and reported these percentages separately. The 100 percent limited **cumulative** completion percentages only apply to payors where the cumulative encounter totals for the entire report period are greater than the cumulative CDJ totals (Tables B, 7, and 11; Chart 4). For each payor whose cumulative completion percentage exceeds 100 percent, the cumulative encounter totals are decreased by the reporting period's variance in comparison with the CDJs. Additionally, we have provided 100 percent limited **monthly** completion percentages for informational purposes only. For each payor's monthly completion percentages over 100 percent, we decreased the monthly encounter totals by the variance with the CDJ totals. Then the limited monthly encounter totals and the CDJ totals are summed up for the entire reporting period. The limited encounter and CDJ totals used in these 100 percent limited monthly completion percentages by payor are combined to determine the 100 percent limited monthly completion percentages for the entire plan and program.

## MS UnitedHealthCare Community Plan Encounter and CDJ Comparison

10. Opportunities for improving the encounter reconciliation process have been identified during the analysis of the encounter data and cash disbursement journals, as well as frequent interactions with the CCOs, their delegated vendors, DOM, and the FAC. While we have attempted to account for these situations, other potential issues within the data may exist that have not yet been identified which may require us to restate a report or modify reconciliation processes in the future.
